LETTER TO STOCKHOLDERS

Dear Fellow Stockholder:

I am pleased to invite you to attend the 2016 Annual Meeting of Stockholders of McDermott International, Inc., which will be held on Friday, April 29, 2016, at The Westin Houston Hotel, 945 Gessner Road, Houston, Texas 77024, commencing at 10:00 a.m., local time. The Notice of Annual Meeting and Proxy Statement following this letter provide information on the matters to be acted on at the Meeting.

Over the past two years, McDermott has undergone a significant transformation. David Dickson was appointed Chief Executive Officer in December 2013, and 2014 began as a year with the business in financial distress and our executive team and Board of Directors executing a turnaround strategy to position McDermott for the future. In 2015, against the backdrop of a challenging and deteriorating macro oil and gas environment, we were highly focused on the seamless execution of our operating strategy – to drive a sustainable, profitable and growth-oriented business, with a focus on stockholders, customers and other stakeholders. Our goals for 2015 were to increase operating income via improved project execution, increase cash flows by prioritizing the liquidity needs of our company, increase backlog and bookings to support our future business, promote pricing discipline on order intake operating margins and implement the McDermott Profitability Initiative, our plan focused on increasing profitability and operational flexibility. As further detailed in this proxy statement, our 2015 executive compensation programs were aligned with this strategy and the achievement of these goals.

2015 was a strong year for McDermott

Our financial and operating performance in 2015 resulted in revenues of \$3.1 billion, operating income of \$91.2 million and year-end backlog of \$4.2 billion, each significant increases over performance under the same metrics in 2014.

We generated peer leading total shareholder return (TSR) of 15% in 2015.

We executed a second Long Term Agreement with Saudi Aramco, and received the Lump Sum Award under the Long Term Agreement, which represents the largest award in the history of our Middle East operations.

I am proud of the dedication and delivery on our strategic plan this past year, and I am confident that our Board and

executive team will continue to take necessary actions to ensure McDermott remains on a profitable path, driving stockholder value over the long-term.

Stockholder engagement was a key priority for the Board in 2015. We reached out to stockholders representing approximately 40 percent of our outstanding common stock to discuss their perspectives and obtain feedback on a variety of topics, including our corporate governance policies and executive compensation practices. The Chair of our Compensation Committee, Mary Shafer-Malicki, and the Chair of our Governance Committee, Stephen Hanks, led this effort, meeting in-person with holders of approximately 30 percent of our outstanding common stock. As detailed further in this proxy statement, our dialogue with stockholders has significantly influenced the evolution of our executive compensation program. We will continue our stockholder engagement efforts in 2016 and will endeavor to integrate stockholder feedback. It is my hope that this Proxy Statement, which reflects a new design and enhancements based on stockholder input, will provide greater clarification and insight into the connections between our strategy, performance and compensation practices.

On a final note, as part of the Governance Committee's ongoing commitment to director refreshment, Erich Kaeser was appointed to the Board as a new independent director in February 2016, and is standing for election at our 2016 Annual Meeting. Mr. Kaeser brings a valuable mix of experience and skills in leadership and in the international energy and supporting infrastructure businesses, with extensive international operations experience, particularly in the Middle East, that complements the experience and skills of the other nominees standing for re-election.

On behalf of the Board of Directors, I would like to express my sincere appreciation for the trust you have in McDermott.

Sincerely yours,

Gary P. Luquette
Independent Chair of the Board

About our Business

Business

McDermott is a leading provider of integrated engineering, procurement, construction and installation services for offshore and subsea oil and gas field developments worldwide. We deliver fixed and floating production facilities, pipelines and subsea systems, from concept to commissioning to customers including national oil companies and international and independent oil companies. McDermott generally has 40 or fewer active contracts at any given time, which typically span a duration of one to three years, are performed in a variety of jurisdictions, and which may individually range from less than \$50 million to more than \$2 billion in total contract value.

2015 Strategy and Goals

Our strategy in 2015 was to drive a sustainable, profitable and growth-oriented business, with a focus on stockholders, customers and other stakeholders. In furtherance of this strategy, our 2015 goals were to:

increase operating income via improved project execution;

increase cash flows by prioritizing our liquidity needs;

increase backlog and bookings to support our future business;

promote pricing discipline on order intake operating margins; and

implement the McDermott Profitability Initiative (“MPI”), our plan focused on increasing profitability and operational flexibility.

Performance

Following the appointment of David Dickson as Chief Executive Officer in December 2013 and the significant turnaround efforts in 2014, McDermott commenced 2015 against the backdrop of a challenging and deteriorating macro oil and gas environment. In 2015, we were highly focused on the seamless execution of our operating strategy – to drive a sustainable, profitable, growth-oriented business, with a focus on stockholders, customers and other stakeholders. Reflecting the execution of our operating strategy, McDermott’s financial performance was as follows for the periods presented below:

Proxy Summary

**MDR Financial Performance
2013–2015**

As evidenced by the results above, following Mr. Dickson’s appointment as President and Chief Executive Officer in December 2013, McDermott’s financial performance has improved significantly. Total shareholder return (“TSR”) for McDermott was 15% for 2015, as compared to our Proxy Peer Group’s median TSR of approximately -33%. Operating income for 2015 of \$91.2 million exceeded our 2014 operating income by \$82.6 million and 2013 operating income by \$547.9 million. Order intake of \$3.7 billion in 2015 exceeded the amount of order intake for 2013 and 2014 combined and assisted in achieving year-end 2015 backlog of \$4.2 billion, a \$600 million increase over year-end 2014. In evaluating the performance of Mr. Dickson, the Board has considered these performance improvements, as well as other financial and leadership goals, and believes that Mr. Dickson has succeeded on all of these fronts since

joining McDermott in late 2013, leading to a stronger, more durable business, particularly during a difficult business cycle and extended challenging macro environment.

Proxy Summary

Our Compensation Philosophy

The Compensation Committee is committed to targeting reasonable and competitive total direct compensation for our Named Executive Officers, or NEOs, with a significant portion of that compensation being performance-based. Our compensation programs are designed to address business needs and provide competitive opportunities, and achievement of most of those opportunities depends on the attainment of performance goals and/or stock price performance. McDermott's compensation programs are designed to provide compensation that:

The Compensation Committee has designed and administered compensation programs aligned with this philosophy.

Elements of Direct Compensation

For the Annual and Long-Term Incentive Plans, McDermott's 2015 compensation programs utilized metrics that were directly related to McDermott's 2015 strategies and goals.

Proxy Summary

Target versus Realized Values of CEO Compensation

The Compensation Committee is committed to targeting reasonable and competitive direct compensation for our NEOs. Because a significant portion of our NEOs' compensation is performance-based, the target values established may vary substantially from the actual pay that may be realized. The Compensation Committee generally targets total direct compensation within approximately 15% of the median compensation of our market for comparable positions. As a reflection of this, Mr. Dickson's target total direct compensation for 2015 was approximately 95% of median market compensation.

The following table summarizes target values for Mr. Dickson's compensation, as compared to realized values as of December 31, 2013, 2014 and 2015:

Target amount for 2013 included (i) the partial-year annual base salary earned by Mr. Dickson from his date of hire through 12/31/13, (ii) a \$480,000 sign-on bonus that Mr. Dickson received to compensate him for benefits from his former employer that he was foregoing by joining McDermott and (iii) a one-time grant of restricted stock with a grant date fair value of approximately \$3.8 million intended to compensate him for the forfeiture of equity-based incentives from his former employer. Target amounts for 2014 and 2015 included Mr. Dickson's target EICP award and the grant date fair values of long-term incentives awarded in 2014 and 2015. Realized amounts for all years include the amount of annual base salary earned. Realized amounts for 2013 include the sign-on bonus referred to in note (1) above. Realized amounts for 2014 and 2015 include the actual EICP awards earned in each year, as well as the value of long-term incentive awards granted in prior years, to the extent that those amounts vested in the applicable year, based on the closing price of our common stock on the date that they vested.

Item 3 – Ratification of Appointment of Deloitte & Touche as Auditors

Our Board of Directors has ratified our Audit Committee’s appointment of Deloitte & Touche LLP as McDermott’s independent registered public accounting firm for the year ending December 31, 2016, and, as a matter of good governance, we are seeking stockholder ratification of that appointment.

Our Board of Directors recommends that stockholders vote “FOR” the ratification of Deloitte & Touche LLP as McDermott’s independent registered public accounting firm for the year ending December 31, 2016.

Our Board of Directors recommends that stockholders vote “FOR” the ratification of Deloitte & Touche LLP as McDermott’s independent registered public accounting firm for the year ending December 31, 2016.

Item 4 – Approval of the McDermott International, Inc. 2016 Executive Incentive Compensation Plan

We are asking our stockholders to approve the McDermott International, Inc. 2016 Executive Incentive Compensation Plan (the “2016 EICP”) to replace our existing EICP. Stockholder approval of the 2016 EICP is necessary for awards under the 2016 EICP to be considered “performance-based compensation” under Internal Revenue Code Section 162(m). On February 26, 2016, our Board of Directors adopted the 2016 EICP. The 2016 EICP is further described below under “Approval of the 2016 EICP (Item 4).”

We believe strongly that the EICP has served as an essential component of compensation, allowing us to provide reasonable incentives to and reward the performance results achieved by executive officers and other key employees in a manner most favorable to our stockholders.

Our Board of Directors recommends that stockholders vote “FOR” the approval of the 2016 EICP.

Item 5 – Approval of the 2016 McDermott International, Inc. Long-Term Incentive Plan

We are asking our stockholders to approve the 2016 McDermott International, Inc. Long-Term Incentive Plan (the “2016 LTIP”) to replace the 2014 McDermott International, Inc. Long-Term Incentive Plan (the “2014 LTIP”). On February 26, 2016, our Board of Directors adopted, subject to stockholder approval, the 2016 LTIP reserving 12 million shares for issuance pursuant to awards thereunder. A total of 0 shares remain available for issuance under the 2014 LTIP as of December 31, 2015. The 2016 LTIP would also provide certain updates and governance-related enhancements as described below under “Approval of the 2016 LTIP (Item 5).”

Stockholder approval of the 2016 LTIP is necessary for certain awards under the 2016 LTIP to be considered “performance-based compensation” under Internal Revenue Code Section 162(m). Additionally, the proposed adoption of the 2016 LTIP will allow us to continue to fully utilize equity incentive compensation as a means of aligning the interests of participants with those of our stockholders and providing participants with further incentives for outstanding performance. As a result, we believe strongly that the adoption of the 2016 LTIP is important to our ability to recruit and retain executive officers, directors and key employees with outstanding ability and experience essential to our long-term growth and financial success.

Our Board of Directors recommends that stockholders vote “FOR” the approval of the 2016 LTIP.

CORPORATE GOVERNANCE

Introduction

Our Board of Directors maintains a strong commitment to corporate governance and has implemented policies and procedures that we believe are among the best practices in corporate governance.

We maintain a corporate governance section on our Web site which contains copies of our principal governance documents. The corporate governance section may be found at www.mcdermott.com under “INVESTORS — Corporate Governance” and “WHO WE ARE — Leadership — Board Committees.” The corporate governance section contains the following documents:

By-Laws
Corporate Governance Guidelines
Code of Ethics for CEO and Senior Financial Officers
Board of Directors Conflicts of Interest Policies and Procedures
Audit Committee Charter
Compensation Committee Charter
Governance Committee Charter

In addition, our Code of Business Conduct may be found on our Web site at www.mcdermott.com at “WHO WE ARE — Ethics.”

Item 1 – Election of Directors

Unless otherwise directed, the persons named as proxies on the enclosed proxy card intend to vote “FOR” the election of each of the nominees. If any nominee should become unavailable for election, the shares will be voted for such substitute nominee as may be proposed by our Board of Directors. However, we are not aware of any circumstances that would prevent any of the nominees from serving.

Our Board of Directors recommends that stockholders vote “FOR” each of the nominees named below.
Election Process

Our Articles of Incorporation provide that, at each annual meeting of stockholders, all directors shall be elected annually for a term expiring at the next succeeding annual meeting of stockholders or until their respective successors are duly elected and qualified. Accordingly, on the nomination of our Board, John F. Bookout, III, Roger A. Brown, David Dickson, Stephen G. Hanks, Gary P. Luquette, William H. Schumann, III, Mary L. Shafer-Malicki and David A. Trice will stand for reelection as directors, and Erich Kaeser will stand for election as a director, at this year’s Annual Meeting, each for a term of one year.

Our By-Laws provide that (1) a person shall not be nominated for election or reelection to our Board of Directors if such person shall have attained the age of 72 prior to the date of election or reelection, and (2) any director who attains the age of 72 during his or her term shall be deemed to have resigned and retired at the first Annual Meeting following his or her attainment of the age of 72. Accordingly, a director nominee may stand for election if he or she has not attained the age of 72 prior to the date of election or reelection.

2016 Nominees

In nominating individuals to become members of the Board of Directors, the Governance Committee considers the experience, qualifications, attributes and skills of each potential member. Each nominee brings a strong and unique background and set of skills to the Board, giving the Board, as a whole, competence and experience in a wide variety of areas. The Governance Committee and the Board of Directors considered the following information, including the specific experience, qualifications, attributes or skills, in concluding each individual was an appropriate nominee to serve as a member of our Board for the term commencing at this year's Annual Meeting (ages are as of April 29, 2016).

From 2005 until his retirement in 2007, Mr. Brown, 71, was Vice President, Strategic Initiatives of Smith International, Inc., a supplier of goods and services to the oil and gas exploration and production industry, the petrochemical industry and other industrial markets. He was President of Smith Technologies (a business unit of Smith International, Inc.), from 1998 until 2005, and was President of Smith Diamond Technology from 1995 to 1998. Mr. Brown also held leadership positions in his career at Camco International, Inc. (prior to its acquisition by Schlumberger Technology Corporation), a provider of oilfield equipment and services, including General Counsel and Corporate Secretary of Camco, Vice President of Reda Pump Company (a business unit of Camco at the time), and President of Hycalog, (a business unit of Camco at the time). Prior to his 30-year career in oilfield services, Mr. Brown was a practicing attorney for eight years. He has also served as a director of Ultra Petroleum Corp., an independent oil and gas exploration and production company, since 2007, and from 2010 to 2014, as a director of Boart Longyear Limited, a leading, global provider of drilling services, drilling equipment and performance tooling for mining and drilling companies. He has a Juris Doctorate and a Bachelor of Science degree in Economics, History and Political Science from the University of Oklahoma.

Summary of Director Qualifications and Experience

Director Qualifications

Our Governance Committee has determined that a candidate for election to our Board of Directors must meet specific minimum qualifications. Each candidate should:

have a record of integrity and ethics in his/her personal and professional life;

have a record of professional accomplishment in his/her field;

be prepared to represent the best interests of our stockholders;

not have a material personal, financial or professional interest in any competitor of ours; and

be prepared to participate fully in Board activities, including active membership on at least one Board committee and attendance at, and active participation in, meetings of the Board and the committee(s) of which he or she is a member, and not have other personal or professional commitments that would, in the Governance Committee's sole judgment, interfere with or limit his or her ability to do so.

In addition, the Governance Committee also considers it desirable that candidates contribute positively to the

2016 Proxy Statement **18**

Corporate Governance

collaborative culture among Board members and possess professional and personal experiences and expertise relevant to our business and industry. The Governance Committee solicits ideas for possible candidates from a number of sources, including independent director candidate search firms, members of the Board and our senior level executives.

The Board recognizes the benefits of a diversified board and believes that any search for potential director candidates should consider diversity as to gender, race, ethnic background and personal and professional experiences. Additionally, our Corporate Governance Guidelines provide that any independent director search firm retained to assist the Governance Committee in identifying director candidates shall seek to include diverse candidates in terms of race, ethnic background and gender.

Director Independence

The New York Stock Exchange (“NYSE”) listing standards require our Board of Directors to be comprised of at least a majority of independent directors. In 2015, however, the Board amended our Corporate Governance Guidelines to require that, with the exception of the Chief Executive Officer, the Board be comprised entirely of independent directors. For a director to be considered independent, our Board must determine that the director does not have any direct or indirect material relationship with us. To assist it in determining director independence, and as permitted by NYSE rules then in effect, the Board previously established categorical standards which conform to, or are more exacting than, the independence requirements in the NYSE listing standards. These standards are contained in our Corporate Governance Guidelines, which can be found on our Web site at www.mcdermott.com under “INVESTORS — Corporate Governance.”

Based on these independence standards, our Board of Directors has affirmatively determined that the following directors are independent and meet our categorical independence standards:

John F. Bookout, III	Gary P. Luquette
Roger A. Brown	William H. Schumann, III
Stephen G. Hanks	Mary L. Shafer-Malicki
Erich Kaeser	David A. Trice

In determining the independence of the directors, our Board considered ordinary course transactions between us and other entities with which the directors are associated, none of which were determined to constitute a material relationship with us. Messrs. Brown, Luquette, Kaeser, Schumann and Trice have no relationship with McDermott, except as a director and stockholder. Messrs. Bookout and Hanks and Ms. Shafer-Malicki are directors of entities with which we transact business in the ordinary course. Our Board also considered contributions by us to charitable organizations with which the directors were associated. No director is related to any executive or significant stockholder of McDermott, nor is any director, with the exception of Mr. Dickson, a current or former employee of McDermott.

Director Nominations

In 2015, our Governance Committee engaged Korn Ferry, an independent director search firm, in order to assist in selecting director candidates. After review and consideration of prospective candidates identified by Korn Ferry, Mr. Kaeser was appointed to the Board effective February 23, 2016 in consideration of his extensive experience in our

industry and other qualifications.

Any stockholder may nominate one or more persons for election as one of our directors at the annual meeting of stockholders if the stockholder complies with the notice, information and consent provisions contained in our By-Laws. See “Stockholders’ Proposals” in this proxy statement and our By-Laws, which may be found on our

Web site at *www.mcdermott.com* at “INVESTORS — Corporate Governance.”

The Governance Committee will consider candidates identified through the processes described above and will evaluate the candidates, including incumbents, based on the same criteria. The Governance Committee also takes into account the contributions of incumbent directors as Board members and the benefits to us arising from their experience on the Board. Although the Governance Committee will consider candidates identified by stockholders, the Governance Committee has sole discretion whether to recommend those candidates to the Board.

Corporate Governance

The Board's Role and Responsibilities

Overview

Our Board of Directors oversees, monitors and directs management in the long-term interests of McDermott and our stockholders.

The Board's key responsibilities include:

Establishing the appropriate "Tone at the Top"

Approving our long-term strategy and annual operating plan; monitoring performance and providing advice to management as a strategic partner

Choosing and monitoring performance of the CEO and establishing succession plans

Determining executive compensation

Interviewing and nominating director candidates and monitoring the board's performance

Determining risk appetite; setting standards for managing risk; monitoring risk management

Setting standards for and monitoring compliance; responding appropriately to "red flags"

Evaluating any proposed transaction that creates a seeming conflict between the best interests of stockholders and those of management

Setting standards for corporate social responsibility and monitoring compliance

Overseeing relations with governments, communities and other constituents

Reviewing corporate governance guidelines and committee charters

The Board's Role in Risk Oversight

As part of its oversight function, the Board is actively involved in overseeing risk management through our Enterprise Risk Management (“ERM”) program, which includes periodic reporting through an area and corporate ERM structure. In connection with the ERM program, the Board exercises its oversight responsibility with respect to key external, strategic, operational and financial risks and discusses the effectiveness of current efforts to mitigate certain focus risks as identified by senior management and the Board through anonymous risk surveys.

Although the Board is ultimately responsible for risk oversight, the Board is assisted in discharging its risk oversight responsibility by the Audit, Compensation and Governance Committees. Each committee oversees management of risks, including, but not limited to, the areas of risk summarized below, and periodically reports to the Board on those areas of risk:

Committee Risk Oversight

Audit Oversees management of risks related to our financial statements and the financial reporting process

Compensation Oversees management of risks related to our compensation policies and practices applicable to executives, as well as employees generally, employee benefit plans and the administration of equity plans

Governance Oversees management of risks related to succession planning for the Chief Executive Officer and other members of executive management and our Ethics and Compliance Program (excluding responsibilities assigned to the Audit Committee)

At their respective November 2015 meetings, each committee undertook an assessment of those areas of risk oversight that were delegated to it and provided a report to the Board. Also, at its November 2015 meeting, the Board received an ERM report and performed an assessment and review of the risks described in that report that were not delegated to the committees.

Regarding risks relating to the design of our compensation programs, the Compensation Committee, with assistance from its independent compensation consultant, Pay Governance LLC, regularly reviews and assesses our compensation policies and practices to ensure that they are appropriate in terms of the level of risk-taking and in line with our business strategies and the interests of our stockholders. The Compensation Committee has designed our compensation programs to encourage performance focused on long-term stockholder value, promote company growth and allow for appropriate levels of risk-taking but to discourage excessive risk-taking. Based on the findings of the risk assessment performed at its November 2015 meeting, the Compensation Committee concluded that the risks arising from our compensation policies and practices are aligned with stockholders’ interests and not reasonably likely to have a materially adverse impact on us.

Corporate Governance

Shareholder Engagement

The Board oversees and is committed to ongoing stockholder dialogue on governance and compensation matters and places considerable weight on stockholder feedback in making decisions impacting our governance processes and compensation programs. In 2015, our Board engaged in a stockholder outreach program to discuss our stockholders' perspectives on our governance and compensation policies and practices. We reached out to stockholders representing approximately 40% of our outstanding common stock and conducted face-to-face meetings with holders of approximately 30%, which were led by either our independent Compensation Committee Chair or our independent Governance Committee Chair. This engagement process provided us with constructive shareholder feedback on governance and compensation topics, such as board refreshment, board evaluations, annual and long-term incentive programs and disclosure around our executive compensation programs.

The feedback received during the course of our outreach efforts was fully reported to and assessed by the Board and its relevant committees. The Board considered comments regarding our executive compensation program proxy disclosure. To address those comments, this proxy statement was re-designed and supplemented with enhanced and simplified disclosures on our executive compensation programs. Additional details as to our 2015 engagement effort and actions taken in response to stockholders' compensation-related comments are provided on pages 7 and 35 of this proxy statement. Stockholders were highly supportive of our corporate governance processes and were supportive of the Board's current tenure mix and commitment to director refreshment. In response to stockholder input received on our annual Board evaluation process, the Board has enhanced its current self-evaluation process. The Board will continue to seek shareholder input to systematically identify and proactively address important governance and compensation issues.

Board Refreshment

We are committed to a strong board refreshment process. As part of our commitment to board refreshment we impose a mandatory director retirement age of 72, require Committee Chairs to rotate after five years of service and annually review Committee composition and individual director skills and qualifications. Additionally, our Governance Committee, typically with the assistance of a third party search firm, identifies and considers new director candidates who have expertise that would complement and enhance the current board's skills and experience. As a result of this process, Erich Kaeser was appointed to our Board effective February 23, 2016. Our commitment to board refreshment has resulted in a Board with a well-balanced tenure, with three directors who have served three years or less, four directors who have served between four and seven years and two directors who have served eight years or more.

Board and Committee Evaluations

As required by our Corporate Governance Guidelines, our Board conducts an annual self-evaluation to determine whether it and its committees are functioning effectively. In accordance with its charter, the Governance Committee oversees that annual evaluation, solicits comments from all directors and reports annually to the Board with an assessment of the performance of the Board and its committees. This assessment is then discussed and taken into account by the full Board in executive session in its consideration of any appropriate action or response that might strengthen director communications and the overall effectiveness of Board and committee meetings.

Communications with the Board

Stockholders or other interested persons may send written communications to the independent members of our Board, addressed to Board of Directors (Independent Directors), c/o McDermott International, Inc., Corporate Secretary, 757 N. Eldridge Pkwy., Houston, Texas 77079.

Board Leadership Structure

Mr. Luquette has served as Chair of the Board since May 6, 2014. Our Board believes that it is appropriate for McDermott to have a Chair of the Board separate from the Chief Executive Officer, as this structure allows Mr. Dickson, McDermott's President and Chief Executive Officer, to maintain his focus on our strategic direction and the management of our day-to-day operations and performance, while Mr. Luquette is able to set the Board's agendas and lead the Board meetings.

McDermott International, Inc. **21**

Corporate Governance

Executive Sessions

Our independent directors meet in executive session without management on a regular basis. Currently, Mr. Luquette, our Chair of the Board of Directors, serves as the presiding director for those executive sessions.

Board of Directors and its Committees

Our Board met 10 times during 2015. All directors serving on the Board during 2015 attended 75% or more of the meetings of the Board and of the committees on which they served during 2015. Additionally, with the exception of Mr. Schumann, all directors serving on the Board in 2015 attended our 2015 Annual Meeting.

Board Committees

Our Board currently has, and appoints the members of, standing Audit, Compensation and Governance Committees. Our Board's Finance Committee, which met 5 times in 2015, was dissolved effective November 1, 2015 as a result of our Board's unanimous decision that the Finance Committee no longer remained a necessary and appropriate committee of our Board since the matters reviewed by the Finance Committee were also generally reviewed in detail at the Board meetings held on or about the same date. Each standing Board committee is comprised entirely of independent nonemployee directors and has a written charter approved by the Board. The current charter for each standing Board committee is posted on our Web site at

www.mcdermott.com under "WHO WE ARE — Leadership — Board Committees." Attendance at committee meetings is open to every director, regardless of whether he or she is a member of the committee. Occasionally, our Board may convene joint meetings of certain committees and the Board. Each portion of the joint meeting is counted separately for purposes of the number of meetings of the Board and its committees disclosed in this proxy statement. The following table shows the current membership, the principal functions and the number of meetings held in 2015 for each committee:

AUDIT COMMITTEE

Principal Functions and Additional Information

Monitors our financial reporting process and internal control system.

Oversees the integrity of our financial statements.

Committee Members:	Monitors our compliance with legal and regulatory financial requirements, including our compliance with the applicable reporting requirements established by the U.S. Securities and Exchange Commission (the "SEC").
Mr. Schumann (Chair)	
Mr. Hanks	
Mr. Kaeser	Evaluates the independence, qualifications, performance and compensation of our independent registered public accounting firm.
Mr. Trice	

**5 Meetings
Held in 2015**

Oversees the performance of our internal audit function.

Oversees certain aspects of our Ethics and Compliance Program relating to financial matters, books and records and accounting and as required by applicable statutes, rules and regulations.

Provides an open avenue of communication among our independent registered public accounting firm, financial and senior management, the internal audit department and the Board.

Our Board has determined that Messrs. Trice, Hanks, Kaeser and Schumann each qualify as an “audit committee financial expert” within the definition established by the SEC. For additional information on the role of compensation consultants, please see "Compensation Discussion and Analysis — How We Make Compensation Decisions" below.

For 2015, the Compensation Committee authorized our Chief Executive Officer, in consultation with his direct reports, to establish individual goals under our Executive Incentive Compensation Plan ("EICP") for our other executive officers and key employees who participate in the EICP. All payments under the EICP are subject to Compensation Committee approval.

Under our long term incentive plans, the Compensation Committee may delegate some of its duties to our Chief Executive Officer or other senior officers. The Compensation Committee has delegated certain authority to our Chief Executive Officer and Senior Vice President, Human Resources, for the approval of awards under the 2014 LTIP to new-hire, non-officer employees.

Under the McDermott International, Inc. Director and Executive Deferred Compensation Plan, which we refer to as the "DCP," the Compensation Committee may delegate any of its powers or responsibilities to one or more members of the Committee or any other person or entity.

Compensation Committee Interlocks and Insider Participation

All members of our Compensation Committee are independent in accordance with NYSE listing standards. No member of the Compensation Committee (1) was, during the year ended December 31, 2015, or had previously been, an officer or employee of McDermott or any of its subsidiaries, or (2) had any material interest in a transaction of McDermott or a business relationship with, or any indebtedness to, McDermott. No interlocking relationship existed during the year ended December 31, 2015 between any member of the Board of Directors or the Compensation Committee and an executive officer of McDermott.

Related Party Transactions

We have adopted a written Related Person Transaction Policy applicable to any individual transaction or series of related transactions, arrangements or relationships (including any indebtedness or guarantee of indebtedness) in which:

McDermott or any of its subsidiaries is, was or will be a participant;

any related person (as defined in the policy) has, had or will have a direct or indirect material interest; and

the amount involved exceeds \$120,000.

This policy requires directors, director nominees and executive officers to provide written notice to the General Counsel (“GC”) of any potential Related Person Transaction involving, directly or indirectly, him or her or any of his or her immediate family members. Additionally, each director, director nominee and executive officer must complete an annual questionnaire designed in part to elicit and evaluate information about potential related person transactions and any related person relationships. All related person transactions requiring compliance with the policy as determined by the GC must be presented to the Governance Committee for review, approval, ratification or other action. The Governance Committee will approve or ratify a related person transaction only if it determines that, under all of the circumstances, the transaction is not inconsistent with the best interests of McDermott. There were no such transactions found to be directly or indirectly material to a related person required by SEC rules to be disclosed in this proxy statement.

Compensation of Directors

We did not make any changes to our nonemployee director compensation program in 2015.

Under our 2015 nonemployee director compensation program, cash compensation for nonemployee directors consisted of retainers (paid monthly and prorated for partial terms) and meeting fees as follows:

Annual Board Member Retainer	\$75,000
Audit Committee Chair Retainer	\$20,000
Compensation Committee Chair Retainer	\$20,000
Governance Committee Chair Retainer	\$10,000
Additional Retainer for Lead Director (if applicable)	\$20,000
Additional Retainer for Chair of the Board	\$150,000
Meeting fees for each meeting of the Board or a Committee (of which the non-employee director is a member) attended in excess of the twelfth Board or Committee meeting per annual director term	\$2,500

The table below summarizes the compensation earned by or paid to our nonemployee directors during the year ended December 31, 2015.

Director Compensation Table

Name	Fees Earned or Paid in Cash	Stock Awards (1)	Total
John F. Bookout, III	\$ 75,000	\$ 119,999	\$ 194,999
Roger A. Brown	\$ 75,000	\$ 119,999	\$ 194,999
Stephen G. Hanks	\$ 85,000	\$ 119,999	\$ 204,999
Gary P. Luquette	\$ 225,000	\$ 119,999	\$ 344,999
William H. Schumann, III	\$ 95,000	\$ 119,999	\$ 214,999
Mary L. Shafer-Malicki	\$ 95,000	\$ 119,999	\$ 214,999
David A. Trice ⁽²⁾	\$ 83,333	\$ 119,999	\$ 203,332

(1) Under our 2015 director compensation program, equity compensation for nonemployee directors included a discretionary annual stock grant. On May 14, 2015, each of the nonemployee directors then serving as a director received a grant of 24,742 shares of restricted stock valued at \$119,999, which is the aggregate grant date fair value computed in accordance with Financial Accounting Standards Board Accounting Standards Codification (“FASB ASC”) Topic 718, using the closing market price of McDermott common stock on the date of grant (\$4.85). Under the terms of each award, the restricted stock vested immediately on the grant date and immediately became unrestricted shares of McDermott common stock. For a discussion of the valuation assumptions with respect to these awards, see Note 13 to our consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2015.

As of December 31, 2015, nonemployee directors had aggregate outstanding stock option awards as follows: Mr. Bookout – stock options to purchase 6,105 shares; and Mr. Brown – stock options to purchase 3,488 shares. All of

such stock options were fully vested.

Mr. Trice served as Chair of the Finance Committee prior to its dissolution effective November 1, 2015. The (2)additional retainer he received as Chair of the Finance Committee was \$10,000, prorated for his partial year service.

EXECUTIVE COMPENSATION

Item 2 – Advisory Vote to Approve Named Executive Officer Compensation

We are asking our stockholders to vote on an advisory basis to approve the compensation of our NEOs (sometimes referred to as “say on pay”) in accordance with Section 14A(a)(1) of the Securities Exchange Act of 1934. The Board recommends a vote “FOR” this proposal because it believes that our compensation policies and practices are effective in achieving McDermott’s philosophy of providing compensation that:

attracts, motivates and retains well-qualified executives;

provides performance-based incentives to reward achievement of short and long term business goals and strategic objectives while recognizing individual contributions; and

aligns the interests of our executives with those of our stockholders.

For the reasons discussed in the “Compensation Discussion and Analysis,” accompanying compensation tables and related narrative disclosures in this proxy statement, the Board of Directors unanimously recommends that stockholders vote “FOR” the following resolution:

“RESOLVED, that the compensation paid to the NEOs, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and accompanying narrative discussion in McDermott’s proxy statement relating to its 2016 annual meeting of stockholders, is hereby APPROVED.”

While the resolution is non-binding, the Board of Directors and Compensation Committee will consider the outcome of the vote when making future compensation decisions.

Our Board of Directors recommends that stockholders vote “FOR” the advisory vote to approve named executive officer compensation.

Compensation Discussion & Analysis

Introduction

The following Compensation Discussion and Analysis, or CD&A, provides information relevant to understanding the 2015 compensation of our executive officers and former executive officers identified in the Summary Compensation Table, whom we refer to as our NEOs. “Continuing NEOs”, as used in the CD&A, includes only the Named Executive Officers who remained employed in their same position with McDermott through the date of this proxy statement. For 2015, our Continuing NEOs and their respective titles were as follows:

David Dickson, our President and Chief Executive Officer;

Stuart A. Spence, our Executive Vice President and Chief Financial Officer;

Stephen L. Allen, our Senior Vice President, Human Resources;

Liane K. Hinrichs, our Senior Vice President, General Counsel and Corporate Secretary; and

Hugh J. Cuthbertson, our Vice President, Asia.

The following discussion also contains statements regarding future individual and company performance targets and goals. These targets and goals are disclosed in the limited context of our compensation programs and should not be understood to be statements of management's expectations or estimates of results or other guidance. We caution investors not to apply these statements in other contexts.

Executive Compensation

CD&A Executive Summary

About our Business, the Macro Environment and our Compensation Philosophy

McDermott is a leading provider of integrated engineering, procurement, construction and installation services for offshore and subsea oil and gas field developments worldwide. We deliver fixed and floating production facilities, pipelines and subsea systems, from concept to commissioning to customers including national oil companies and international and independent oil companies. McDermott generally has 40 or fewer active contracts at any given time, which typically span a duration of one to three years, are performed in a variety of jurisdictions, and which may individually range from less than \$50 million to more than \$2 billion in total contract value. We execute our contracts through a variety of methods, with fixed-price contracts being the most prevalent. These contracts are often performed in difficult conditions, and the cost and gross profit we realize on these contracts could vary materially from the estimated amounts because of supplier, contractor and subcontractor performance, changes in job conditions, unanticipated weather conditions, variations in labor and equipment productivity, increases in the cost of raw materials over the term of the contract or our own performance.

The demand for our EPCI services and our ability to book new work is dependent upon the capital expenditures of oil and gas companies for the construction of development projects. Since the start of the material decline in oil and natural gas prices over 18 months ago, many oil and gas companies have announced significant reductions in their capital expenditure budgets, and have continued to reprioritize and defer work as they evaluate project economics. This has resulted in the delay of project awards from those customers and increased competition to McDermott, as competitors compete to secure a more limited number of available projects. Building backlog and booking new work at appropriate margins has been one of McDermott's key strategies in this challenging macro environment.

The Compensation Committee is committed to targeting reasonable and competitive total direct compensation for our NEOs, with a significant portion of that compensation being performance-based. Our compensation programs are designed to drive achievement of our business strategies and provide competitive opportunities; accordingly, achievement of most of those opportunities depends on the attainment of performance goals and/or stock price performance. McDermott's compensation programs are designed to provide compensation that:

attracts, motivates and retains high-performing executives;

provides performance-based incentives to reward achievement of short and long-term business goals and strategic objectives while recognizing individual contributions; and

aligns the interests of our executives with those of our stockholders.

The Compensation Committee has designed and administered compensation programs aligned with this philosophy and is committed to continued outreach to stockholders to understand and address comments on our compensation

programs.

2015 Elements of Compensation and Operating Strategies

Reflecting this philosophy, compensation arrangements in 2015 provided for the continuing use of three elements of target total direct compensation, for the primary purposes as set forth below:

Annual Base Salary Fixed cash compensation recognizing an executive officer's experience, skill and performance

Annual Incentive, or EICP Variable compensation designed to reward achievement of short-term business goals and strategic objectives, while recognizing individual contributions

Long-Term Incentive, or LTI Variable compensation designed to align interests of executives with those of our stockholders with a focus on long-term performance results

McDermott International, Inc. **29**

[Back to Contents](#)

Executive Compensation

The mix of target total direct compensation for 2015 for our CEO is shown in the chart below:

Following Mr. Dickson becoming Chief Executive Officer in December 2013 and the significant turnaround efforts in 2014, McDermott commenced 2015 against the background of a challenging and deteriorating macro oil and gas environment. In 2015, we were focused on the seamless execution of our operating strategy — to drive a sustainable, profitable and growth-oriented business, with a focus on stockholders, customers and other stakeholders. In furtherance of this strategy, our 2015 goals were to:

increase operating income via improved project execution;

increase cash flow by prioritizing our liquidity needs;

increase backlog and bookings to support our future business;

promote pricing discipline on order intake operating margins; and

implement the McDermott Profitability Initiative (“MPI”), our plan focused on increasing profitability and operational flexibility.

Accordingly, McDermott's 2015 compensation programs utilized metrics that were directly related to these strategies as reflected by the components of the EICP and LTI awards adopted by the Compensation Committee.

Annual Incentive (see page 37)

2015 Components Comments

**25% Operating
Income**

Promotes improved
project execution

Continued use of this metric in 2015 to incentivize increased operational income, which improves shareholder returns, and reflects improvements in project execution, which also improves customer relations and may lead to increased bookings and improved margins – all critical during a challenging market environment

25% Free Cash Flow

Prioritizes liquidity
needs of McDermott

Continued use of this metric in 2015 to incentivize increased cash flows, which supports increased liquidity goals intended to help us in the challenging macro market, as well as to provide project financing as required until certain contractual milestones are met

Continued use of this metric in 2015, but with the weighting increased to 30% from 25% in 2014 in consideration of:

30% Order Intake

Incentivizes increasing
backlog and booking
new work

the importance of booking new work for the sustainability of the business over the short and long-term, and

the macro market and the need to secure work in a more competitive environment

**20% Order Intake
Operating Margin**

Promotes pricing
discipline on order
intake

Continued use of this metric in 2015, but with the weighting decreased to 20% from 25% in 2014 in consideration of the macro market and the need to secure work in a more competitive environment

MPI Modifier

Incentivizes achievement of goals relating to MPI Introduced in 2015 to incentivize operational efficiency and enhance operating income, cash flows and operating income margins, ultimately increasing profitability and operational flexibility

Long-Term Incentive (see page 39)

2015 Components Comments

50% Performance Units

Increased weighting of Performance Units to 50% from 40% in 2014 to focus employees on improved McDermott performance during a challenging macro market and further align employees with stockholders

3-year Aggregate Consolidated Order Intake

Introduced 3-year aggregate consolidated order intake as metric to directly align LTI awards with McDermott's strategy of increasing backlog and booking new work for the sustainability of the business over the short and long-term in a difficult macro environment

Order intake operating margin targets established for 2015 assist in calibrating and promoting pricing discipline on these order intake goals

50% Restricted Stock Units

Continued use in 2015, but with the weighting of RSUs decreased to 50% in 2015 from 60% in 2014 in order to increase the proportion of the NEOs' compensation that is performance-based and further align the interests of our NEOs with stockholders

2015 Performance Highlights

Following Mr. Dickson becoming Chief Executive Officer in December 2013, and reflecting the execution of our operating strategy, McDermott's financial performance was as follows for the periods presented below:

MDR Financial Performance 2013–2015

2016 Proxy Statement **32**

[Back to Contents](#)**Executive Compensation**

As evidenced by the results above, following Mr. Dickson's appointment as President and Chief Executive Officer in December 2013, McDermott's financial performance has improved significantly. Total shareholder return ("TSR") for McDermott was 15% for 2015, as compared to our Proxy Peer Group's median TSR of approximately -33%. Operating income for 2015 of \$91.2 million exceeded our 2014 operating income by \$82.6 million and 2013 operating income by \$547.9 million. Order intake of \$3.7 billion in 2015 exceeded the amount of order intake for 2013 and 2014 combined and assisted in achieving year-end 2015 backlog of \$4.2 billion, a \$600 million increase over year-end 2014. In evaluating the performance of Mr. Dickson, the Board has considered these performance improvements, as well as other financial and leadership goals, and believes that Mr. Dickson has succeeded on all of these fronts since joining McDermott in late 2013, leading to a stronger, more durable business, particularly during a difficult business cycle and extended challenging macro environment.

As a further reflection of our improving performance, McDermott achieved financial results under the EICP that resulted in a financial metric result of 1.065x, which when multiplied by the MPI Modifier of 1.330x, resulted in total EICP bonus pool funding of 1.417x:

Weight	Financial Metric Performance Goal	Actual Result	Funding Multiple
25%	Operating Income	\$91.2M	2.000x
25%	Free Cash Flow	(\$47.6M)*	1.071x*
30%	Order Intake	\$3,700.7M	0.621x
20%	Order Intake Operating Margin**	7.3%	0.557x

Actual result for free cash flow was (\$47.6M), which would have resulted in a funding multiple of 2.0x for this metric under the EICP. However, such result was reduced by the Compensation Committee in determining the

** funding multiple for this metric to (\$250.4M), or a funding multiple of 1.071x, in consideration of the slippage in the delivery schedule of our vessel under construction, the DLV 2000, resulting in delay of our final shipyard payment until 2016.*

*Due to the nature of our business, forward-looking Order Intake Operating Margin goals are competitively **sensitive and unable to be disclosed, although at this time we are able to disclose those goals and actual results after the end of the applicable performance period.*

Target versus Realized Values of CEO Compensation

The Compensation Committee is committed to targeting reasonable and competitive direct compensation for our NEOs. Because a significant portion of our NEOs' compensation is performance-based, the target values established may vary substantially from the actual pay that may be realized.

The Compensation Committee generally targets total direct compensation within approximately 15% of the median compensation of our market for comparable positions. As a reflection of this, Mr. Dickson's target total direct compensation for 2015 was approximately 95% of median market compensation.

The following table summarizes target values for Mr. Dickson's compensation, as compared to realized values as of December 31, 2013, 2014 and 2015:

Target amount for 2013 included (i) the partial-year annual base salary earned by Mr. Dickson from his date of hire through 12/31/13, (ii) a \$480,000 sign-on bonus that Mr. Dickson received to compensate him for benefits from his former employer that he was foregoing by joining McDermott and (iii) a one-time grant of restricted stock with a grant date fair value of approximately \$3.8 million intended to compensate him for the forfeiture of equity-based incentives from his former employer. Target amounts for 2014 and 2015 included Mr. Dickson's target EICP award and the grant date fair values of long-term incentives awarded in 2014 and 2015. Realized amounts for all years include the amount of annual base salary earned. Realized amounts for 2013 include the sign-on bonus referred to in note (1) above. Realized amounts for 2014 and 2015 include the actual EICP awards earned in each year, as well as the value of long-term incentive awards granted in prior years, to the extent that those amounts vested in the applicable year, based on the closing price of our common stock on the date that they vested.

2016 Compensation Decisions

As part of its annual process, in February 2016 the Compensation Committee approved the 2016 compensation plan design for our senior management, including the Continuing NEOs. These decisions took into consideration McDermott's operating strategy, the macro oil and gas environment, comments received during the stockholder and other stakeholder outreach efforts in 2015, evolving practices in executive compensation and the advices of our compensation consultant, Pay Governance LLC. After consideration of these inputs, no increase was provided to any Continuing NEO annual base salary. For annual incentives, or EICP awards, no increase in target EICP award was provided for any Continuing NEO, and the Compensation Committee continued the use, for the third consecutive year, of operating income, free cash flow, order intake and order intake operating margin as financial metrics, intended to drive McDermott's operating strategy. For long-term incentives, or LTI awards, the Compensation Committee continued the use of 50% restricted stock units and 50% performance units. The performance units awarded in 2016 returned to a relative metric, and are based on the achievement of relative Return on Average Invested Capital against a competitor peer group, comprised of both domestic and international competitors. Additionally, the Compensation Committee generally sought in 2016 to provide the same number of units to participants in our LTI program as awarded in 2015, absent any changes in target value of LTI awards. This was accomplished by utilizing the fair market value of McDermott common stock on March 5, 2015, the date of 2015 LTI awards, to determine the number of units to be awarded in 2016. Due to the decrease in the price of McDermott common stock, this resulted in a year over year decrease in the grant date fair value of LTI awarded to the Continuing NEOs, with the exception of Mr. Spence, who received an increase to the target value of his LTI award for 2016. For Mr. Dickson, the Compensation Committee also decreased the target value of his LTI award from \$5,000,000 in 2015 to \$4,000,000 in 2016, which when combined with the method of determining units to be awarded in 2016 referenced above, resulted in a year over year decrease in the grant date fair value of Mr. Dickson's LTI award.

Executive Compensation Policies and Practices

Below we highlight certain of our executive compensation and governance policies and practices, including both those which we utilize to drive performance and those which we prohibit because we do not believe they would serve our stockholders' long-term interests:

Policy or Practice	MDR Policy
Pay for Performance	A significant portion of target total direct compensation is tied to performance, including 100% of annual incentive compensation and 50% of the NEOs' target value long-term incentive compensation.
Meaningful Stock Ownership Guidelines	We have stock ownership guidelines for our NEOs that require the retention of a dollar value of qualifying McDermott securities of 5x base salary for our CEO, 3x base salary for the other NEOs and 5x annual retainer for directors.
Double Trigger Change in Control Agreements	Our change in control agreements provide benefits only upon an involuntary termination or constructive termination of the executive officer within one year following a change in control.
Annual Compensation Risk Assessment	Our compensation consultant assists the Compensation Committee in conducting an annual risk assessment of our compensation programs.
Annual Advisory Vote on NEO Compensation	We value our stockholders' input on our executive compensation programs, and our Board of Directors seeks an annual advisory vote from stockholders to approve NEO compensation.

Modest Perquisite Allowance	In 2015, we provided a modest perquisite allowance to certain of our executive officers. In 2016, the Compensation Committee eliminated the perquisite allowance and instead provided reimbursement to members of McDermott's EXCOM for financial planning and required executive physicals, in a combined amount not to exceed \$20,000.
Annual Review of Share Utilization	We evaluate share utilization levels annually by reviewing overhang levels (the dilutive impact of equity compensation on our stockholders) and annual run rates (the aggregate stock awarded as a percentage of total outstanding shares).
Independent Compensation Consultant	The Compensation Committee retains an independent compensation consultant to advise on executive compensation program and practices.
Clawback Policy	We have a clawback policy that allows McDermott to recover, under certain circumstances, compensation paid to executive officers.
Derivatives Trading, Hedging or Pledging of Company Stock	Members of the Board of Directors and employees are prohibited from engaging in derivatives trading, hedging or pledging of our common stock.
Excise Tax Gross-Ups	We do not provide excise tax gross-ups in our change in control agreements.
Repricing of Underwater Stock Options	Our equity incentive plans do not permit repricing or exchange of underwater stock options without stockholder approval.
Employment Contracts	None of our current NEOs has an employment contract with McDermott relating to ongoing employment.

Executive Compensation

2015 Compensation Program

Compensation Philosophy

The Compensation Committee is committed to targeting reasonable and competitive total direct compensation for our NEOs, with a significant portion of that compensation being performance-based. Our compensation programs are designed to address business needs and provide competitive opportunities, but achievement of most of those opportunities depends on the attainment of performance goals and/or stock price performance. McDermott's compensation programs are designed to provide compensation that:

attracts, motivates and retains high-performing executives;

provides performance-based incentives to reward achievement of short and long-term business goals and strategic objectives while recognizing individual contributions; and

aligns the interests of our executives with those of our stockholders.

The Compensation Committee has designed and administered compensation programs aligned with this philosophy.

What We Pay and Why: Elements of Total Direct Compensation

Target Total Direct Compensation

The Compensation Committee seeks to provide reasonable and competitive compensation. As a result, it targets the elements of total direct compensation, or "TDC," for our NEOs generally within approximately 15% of the median compensation of our market for comparable positions. Throughout this CD&A, we refer to compensation that is within approximately 15% of market median as "market range" compensation.

The Compensation Committee may set TDC or individual elements of TDC above or below the market range to account for a NEO's performance, experience, tenure in the role, internal pay equity and other factors or situations that are not typically captured by looking at standard market data and practices and which the Compensation Committee deems relevant to the appropriateness and/or competitiveness of a NEO's compensation.

When making decisions regarding individual compensation elements, the Compensation Committee also considers the effect on the NEO's target TDC and target total cash-based compensation (annual base salary and annual incentives), as applicable. The Compensation Committee's goal is to establish target compensation for each element that, when combined, create a target TDC award for each NEO that is reasonable and competitive and supports our compensation philosophy and objectives.

Elements of Total Direct Compensation

Total direct compensation is comprised of three elements: annual base salary, annual incentive, and long-term incentives.

Annual Base Salary

We pay base salaries to provide a fixed level of compensation that helps attract and retain executives. Base salary levels recognize an executive officer's experience, skill and performance, with the goal of being market competitive based on the officer's role and responsibilities within the organization. Adjustments may be made based on individual performance, inflation, pay relative to market and internal pay equity considerations. No NEO received an increase in annual base salary in 2015.

Annual Incentive

The Compensation Committee administers our annual incentive compensation program under our Executive Incentive Compensation Plan, or EICP. The EICP is a cash incentive plan designed to motivate and reward our NEOs and other key employees for their contributions to strategic business goals and other factors that we believe drive our earnings and promote creation of stockholder value. In 2015, EICP bonus pool funding was 100% based on our financial performance, with each participant's actual bonus award determined by achievement of the participant's individual performance goals.

Financial Performance Goals. For 2015 EICP awards, the Compensation Committee approved financial metric performance goals based on consolidated operating income, consolidated free cash flow (defined as consolidated cash from operations less consolidated capital expenditures), order intake and operating margins on order intake, weighted as set forth below. McDermott established the 2015 financial performance goals with consideration of management's internal projections of 2015 financial results.

*Due to the nature of our business, forward-looking Order Intake Operating Margin Threshold, Target and Maximum *business goals are competitively sensitive and unable to be disclosed, although at this time we are able to disclose such goals after the end of the applicable performance period.*

McDermott's actual performance against the stated goals determines the funding for each financial performance goal, with the weighted sum of each funding multiple determining the financial metric result. The financial metric result is then adjusted by a factor, the MPI Modifier, based on McDermott's achievement of established goals relating to the McDermott Profitability Initiative, a plan implemented to increase our profitability and operational flexibility. The MPI Modifier is determined as follows:

Performance Goal	Performance Level	Business Result Goal	MPI Modifier
2015 Operating Income Savings	≤ Threshold	\$30M	0.67x
	= Target	\$40M	1.0x
Attributable to MPI	≥ Maximum	\$50M	1.33x

2015 Financial Performance Results Under the EICP. McDermott's actual 2015 financial performance results against the stated performance goals under the EICP were as follows:

Weight	Financial Metric Performance Goal	Actual Result	Funding Multiple
25%	Operating Income	\$91.2M	2.000x
25%	Free Cash Flow	(\$47.6M)*	1.071x*
30%	Order Intake	\$3,700.7M	0.621x
20%	Order Intake Operating Margin**	7.3%	0.557x

* Actual result for free cash flow was (\$47.6M), which would have resulted in a funding multiple of 2.0x for this metric under the EICP. However, such result was reduced by the Compensation Committee in determining the

funding multiple for this metric to (\$250.4M), or a funding multiple of 1.071x, in consideration of the slippage in the delivery schedule of our vessel under construction, the DLV 2000, resulting in delay of our final shipyard payment until 2016.

*Due to the nature of our business, forward-looking Order Intake Operating Margin goals are competitively **sensitive and unable to be disclosed, although at this time we are able to disclose those goals and actual results after the end of the applicable performance period.*

Additionally, our 2015 operating income savings attributable to MPI were approximately \$115M, exceeding the maximum performance level business result goal of \$50M by approximately 130%.

Accordingly, the financial metric result of 1.065x, when multiplied by the MPI Modifier of 1.330x, resulted in total EICP bonus pool funding multiple of 1.417x:

[Back to Contents](#)

Executive Compensation

Accordingly, each Continuing NEO was eligible to earn 1.417x of his or her target EICP award, subject to modification by the Compensation Committee based on his or her achievement of individual performance goals.

Individual Performance Goals. Following the determination of the EICP bonus pool funding multiple, an individual participant's award was determined based on the achievement of the participant's individual performance goals. In no event could any NEO's annual bonus exceed two times his or her target EICP award opportunity. The Compensation Committee had the discretion to reduce the amount of payout to any participant, even if performance goals were achieved. The Continuing NEOs' respective individual goals considered in connection with 2015 EICP compensation are set forth under "2015 NEO Compensation" below.

Long-Term Incentives

The Compensation Committee believes that the interests of our stockholders are best served when a significant percentage of executive compensation is comprised of equity that appreciates in value contingent on increases in the value of our common stock and other performance measures that reflect improvements in McDermott's business fundamentals. Therefore, LTI compensation represents the single largest element of our NEOs' total direct compensation. The Compensation Committee increased the performance-based component of LTI to 50% in 2015 from 40% in 2014, and allocated LTI compensation to executive officers, including the NEOs, as follows:

Performance Units	Restricted Stock Units
50%	50%

Performance Units. Performance units are intended to align the NEOs' interests with those of our stockholders, with a focus on long-term results. The performance units awarded in 2015 are structured to be paid out, if at all, in shares of McDermott common stock, cash equal to the fair market value of the shares otherwise deliverable, or any combination thereof, at the sole discretion of the Compensation Committee, at the end of a three-year performance period, to the extent the applicable performance goals are met. The number of performance units earned is based on our aggregate consolidated order intake over the three-year performance period. Based on this performance, up to 200% of a participant's target award may be earned. Aggregate consolidated order intake was used as the performance metric for the performance units granted in 2015, as the Compensation Committee believed that this metric tied specifically to our strategy of building backlog as required for a sustainable business in the long-term.

Performance Level	Aggregate Consolidated 3 Year Order Intake	Award Percentage
< Threshold	< \$7.5B	0%
Threshold	\$7.5B	50%
Target	\$9.0B	100%
Maximum	≥ \$12.0B	200%

Restricted Stock Units. Restricted stock units, or RSUs, are intended to promote the retention of employees, including the NEOs. The RSUs granted in 2015 generally vest in one-third increments on the first, second and third anniversaries of the grant date. The RSUs may be paid out in shares of McDermott common stock, cash equal to the fair market value of the shares otherwise deliverable, or any combination thereof, at the sole discretion of the Compensation Committee.

2015 NEO Compensation

For 2015 NEO compensation, the Compensation Committee provided:

No increases in annual base salaries.

No increases in annual target bonus. As a result of McDermott's 2015 financial performance, each Continuing NEO was eligible to earn 1.417x of his or her target EICP award, subject to adjustment by the Compensation Committee based on his or her achievement of individual performance goals.

Modifications to the value of long-term incentives awarded, as compared to 2014, based on individual performance and internal pay equity considerations.

The compensation of each NEO is discussed in more detail below.

Tony Duncan

Mr. Duncan served as McDermott's Senior Vice President, Project Support, until his resignation in November 2015. Mr. Duncan's 2015 target direct compensation was comprised of an annual base salary of \$425,000 and annual incentive target award of 70% of annual base salary earned in 2015, both of which remained unchanged from 2014. Mr. Duncan was also awarded long-term incentives for 2015 with a target value of \$800,000, which represented a decrease of 20% from the target value of long-term incentives awarded to Mr. Duncan in 2014.

In connection with Mr. Duncan's resignation, we entered into a separation agreement with Mr. Duncan providing for various compensation-related benefits in exchange for, among other things, his agreement to comply with several restrictive covenants. Under that separation agreement, Mr. Duncan received: (1) a lump-sum cash payment equal to the amount of base salary Mr. Duncan would have earned had he remained employed from his resignation date through December 31, 2015; (2) a lump-sum cash severance payment equal to six months of Mr. Duncan's base salary; (3) a lump-sum cash payment equal to Mr. Duncan's 2015 target award under the EICP; (4) each then outstanding RSU award granted to him pursuant to our McDermott International, Inc. 2009 Long-Term Incentive Plan (the "2009 LTIP") or 2014 LTIP which would, absent his resignation from employment, have remained outstanding and continued to vest through March 15, 2017 would, subject to certain post-employment conditions, continue to vest and be settled on the first to occur of (a) the date such award would otherwise be settled in accordance with the terms of the 2009 LTIP or 2014 LTIP, as applicable, and the applicable grant agreement, as if his employment had continued, and (b) March 15, 2016; (5) payment of an amount to fund three months of continuing health insurance coverage under the Consolidated Omnibus Reconciliation Act; and (6) accrued but unutilized vacation pay. All other outstanding unvested equity or performance-based awards previously granted to Mr. Duncan were forfeited at the time of his resignation. Vested stock options held by Mr. Duncan continue to be exercisable for the remainder of their respective terms. Mr. Duncan's benefits under our Director and Executive Deferred Compensation Plan became fully vested as of the date of his resignation, and those benefits are to be paid in accordance with the terms of that plan.

2015 Other Compensation Elements

Perquisites

In 2015, our Compensation Committee adopted a perquisite allowance for certain officers, including Messrs. Dickson, Spence, Allen, Duncan and Ms. Hinrichs, in the amount of \$20,000, consistent with recent years. The perquisite allowance was provided in cash and could be used for any purpose determined by the recipient, including to cover company-required physicals, and was in lieu of any reimbursements made by McDermott to those executive officers receiving the perquisite allowance for any individual perquisite, with the exception of any company-required spousal travel for (1) the Chief Executive Officer, and (2) the remaining NEOs, as approved by the Chief Executive Officer. There were no reimbursements to any perquisite allowance recipient for company-required spousal travel in 2015. Beginning in 2016, the Compensation Committee eliminated the perquisite allowance and instead provided reimbursement to members of McDermott's Executive Committee ("EXCOM") for financial planning and required executive physicals, in an amount not to exceed \$20,000.

Additionally, and consistent with our past practice, we may provide a gross-up for any imputed income related to such company-required spousal travel, but only when the presence of the spouse is related to the underlying business purpose of the trip. There was no company-required spousal travel in 2015, and no imputed income or gross-ups were provided for any such company-required spousal travel in 2015. We also may provide our NEOs with a tax gross-up

on any relocation-related expense reimbursements that may be subject to tax.

Expatriate Benefits

McDermott provides benefits to our expatriate employees, which benefits are designed to relocate and support employees who are sent on an assignment outside of their home country. Expatriate benefits generally include an expatriate premium equal to 10% of the employee's base salary, a hardship premium in certain countries, a housing allowance (or company provided housing in certain locations), transportation allowance (or company provided transportation in certain locations), a cost of living differential, where applicable, a vacation allowance based on the cost of an economy plane ticket to the employee's home location, company paid education for approved dependents in locations where public education is not an option and a tax equalization program.

Under McDermott's tax equalization program, we ensure that expatriates are subject to substantially the same income tax liability as they would have paid in the United States. Each expatriate employee is responsible for a theoretical U.S. income tax liability based on an estimate of the expatriate's anticipated U.S. income tax liability, and McDermott is responsible for any home country and assignment country taxes in excess of that amount. We deduct hypothetical income taxes from the expatriate's compensation during the tax year and pay any assignment country taxes on his or her behalf. Messrs. Duncan and Cuthbertson each participated in expatriate benefits during all or part of 2015, as Mr. Duncan is a dual United States and United Kingdom citizen who was

Executive Compensation

based in London until August 2015, and Mr. Cuthbertson is an Australian citizen who was based in Singapore during 2015.

Defined Contribution Plans

We provide retirement benefits for most of our U.S. based employees, including our U.S. based NEOs, through sponsorship of the McDermott Thrift Plan, a qualified defined contribution 401(k) plan, which we refer to as our “Thrift Plan.” We provide retirement benefits for our non-U.S. expatriate employees, including Mr. Cuthbertson, through sponsorship of a global defined contribution plan, which we refer to as the “McDermott Global Defined Contribution Plan.”

Retirement and Excess Plans

We do not provide defined benefit pension plans to any of our NEOs, with the exception of Mr. Cuthbertson and Ms. Hinrichs, who were participants in our now closed and frozen retirement and excess plans. Mr. Cuthbertson was eligible for participation under the J. Ray McDermott, S.A. Third Country National Employees Pension Plan (the “TCN Plan”), which provides retirement benefits for certain of our current and former foreign employees. The TCN Plan was closed to new participants in 2011, and benefit accruals under the TCN Plan were frozen effective December 31, 2011. Ms. Hinrichs was eligible for participation under the McDermott (U.S.) Retirement Plan (the “U.S. Retirement Plan”) before it was closed to new participants in 2006. Benefit accruals under the U.S. Retirement Plan were frozen altogether in 2010. Ms. Hinrichs is also a participant in our unfunded, nonqualified excess retirement plan (the “U.S. Excess Plan”), under which benefits have been frozen since 2010. This plan covers a small group of highly compensated employees whose ultimate benefits under the U.S. Retirement Plan are reduced by Internal Revenue Code limits on the amount of benefits which may be provided under qualified plans and the amount of compensation which may be taken into account in computing benefits under qualified plans.

See the “Pension Benefits” table under “Executive Compensation Tables” below for more information regarding the TCN Plan, the U.S. Retirement Plan and the U.S. Excess Plan.

Deferred Compensation Plan

The Deferred Compensation Plan, or the DCP, is a defined contribution supplemental executive retirement plan established by our Board and the Compensation Committee to help maintain the competitiveness of our post-employment compensation as compared to our market. The DCP is an unfunded, nonqualified plan that provides each participant in the plan with benefits based on the participant's notional account balance at the time of retirement or termination. Under the DCP, on an annual basis, the Compensation Committee has the discretion to credit a specified participant's notional account with an amount equal to a percentage of the participant's prior-year base salary and annual bonus paid in the prior year. We refer to such credit as a “Company Contribution.” In 2015, Messrs. Dickson, Spence, Allen and Duncan and Ms. Hinrichs were participants in the DCP and their respective accounts in the DCP received a Company Contribution in an amount equal to 5% of their respective prior-year base salaries paid in the prior year. Additionally, Mr. Spence received a discretionary company contribution under the DCP equal in value to 5% of his respective prior-year target base salary he would have earned for the period from January 1, 2014 through his date of hire. Mr. Cuthbertson was not a participant in the DCP in 2015.

The Compensation Committee has designated deemed mutual fund investments to serve as indices for the purpose of determining notional investment gains and losses to each participant's account for any Company Contribution or participant-elected deferrals. Each participant allocates any Company Contributions and deferrals among the various deemed investments. DCP benefits are based on the participant's vested notional account balance at the time of retirement or termination. Please see the "Nonqualified Deferred Compensation" table and accompanying narrative below for more information about the DCP and Company Contributions to DCP accounts.

Employment Agreements

Except for change in control agreements described below, we do not currently have any employment agreements with any of our Continuing NEOs relating to ongoing employment. Mr. Cuthbertson has an employment agreement related to his status as an expatriate employee, which sets forth the expatriate benefits as discussed above under "Expatriate Benefits." This employment agreement does not provide for any specified term of employment, and the terms of the agreement are generally consistent with those of employment agreements entered into with various other McDermott expatriate employees.

Change in Control Agreements

We believe change in control agreements for executive officers are common within our industry, and our Board and the Compensation Committee believe that providing these agreements to our NEOs protects stockholders' interests by helping to assure management continuity and focus through and beyond a change in control. Accordingly, the Compensation Committee has offered change in control agreements to key senior executives since 2005. Our change in control agreements contain what is commonly referred to as a "double trigger," that is, they provide benefits only upon an involuntary termination or constructive termination of the executive officer within one year following a change in control. The change in control agreements for our Continuing NEOs generally provide a cash severance payment of a multiple of the sum of the NEO's annual base salary and target EICP, as set forth below, and a pro-rated bonus payment under the EICP.

Mr. Cuthbertson	1.0x
Ms. Hinrichs	2.0x

In addition, upon a change in control, each such officer would become fully vested in any outstanding and unvested equity-based awards and his or her respective account balance in the DCP.

The change in control agreements: (1) do not provide for excise tax gross-ups; (2) require the applicable officer's execution of a release prior to payment of certain benefits; and (3) provide for the potential reduction in payments to an applicable officer in order to avoid excise taxes. Additionally, the change in control agreements with Messrs. Allen and Cuthbertson are scheduled to expire on March 15, 2019. See the "Potential Payments Upon Termination or Change in Control" table under "Compensation of Executive Officers" below and the accompanying disclosures for more information regarding the change in control agreements with our Continuing NEOs, as well as other plans and arrangements that have different trigger mechanisms that relate to a change in control.

Executive Compensation

Other Compensation Policies and Practices

Sizing Long-Term Incentive Compensation and Timing of Equity Grants

The Compensation Committee generally determines the size of equity-based grants as a dollar value, rather than granting a targeted number of shares or units, with each target value generally set within market range. To determine the number of restricted stock units and performance shares or units granted, the target value of long-term incentive compensation is divided by the fair market value of the applicable component of equity.

The fair market values of one performance unit and one restricted stock unit were computed based on the full fair market value of McDermott's common stock by reference to the closing price of our common stock on the NYSE on the date of grant.

To avoid timing equity grants ahead of the release of material nonpublic information, the Compensation Committee generally grants equity awards effective as of the first day of the open trading window following the meeting at which the grants are approved, which open window period generally begins on the third NYSE trading day following the filing of our annual report on Form 10-K or quarterly report on Form 10-Q with the SEC. This practice was followed for all long-term incentive compensation grants to NEOs in 2015.

Stock Ownership Guidelines

To assist with the alignment of the interests of directors, executive officers and stockholders, we believe our directors and officers should have a significant financial stake in McDermott. To further that goal, we have adopted stock ownership guidelines requiring generally that our nonemployee directors and employees who are members of McDermott's EXCOM maintain a minimum ownership interest in McDermott. The EXCOM includes all of the Continuing NEOs. The ownership requirements are as follows:

Level	Base Salary or Annual Retainer Multiple
CEO	5x
Members of McDermott's EXCOM	3x
Nonemployee Directors	5x

Directors and officers have five years from the effective date of the stock ownership guidelines, their initial election as a director/officer, or a change in position which increases the expected ownership level, whichever is later, to comply with the guidelines. Shares of McDermott common stock, restricted shares of McDermott common stock, restricted stock units (whether or not vested), performance shares and units (whether or not vested, but to the extent not vested, at target performance level), shares of McDermott common stock held in an employee's Thrift Plan account and shares of McDermott common stock held in any trust in which an employee has a pecuniary interest (to the extent the employee has investment control over such shares) are all counted towards compliance with the stock ownership guidelines. Further, each director and officer subject to the stock ownership guidelines has the ability to certify his or her ownership at any time after reaching compliance with the required ownership level, following which such director or officer is not required to accumulate any additional McDermott securities, so long as he or she retains the number

of securities held on the certification date, regardless of any subsequent changes in the market price of shares of McDermott common stock. All directors and NEOs currently meet or exceed their ownership requirement or are within the five-year period to achieve compliance.

Derivatives Trading and Hedging

McDermott's Insider Trading Policy prohibits all directors, officers and employees, including our NEOs, from engaging in "short sales" or trading in puts, calls or other options on McDermott's common stock. Additionally, directors, officers and employees are prohibited from engaging in hedging transactions and from holding McDermott shares in a margin account or pledging McDermott shares as collateral for a loan.

Clawback Policy

Our Compensation Committee has adopted a clawback policy, which provides that, if the consolidated financial statements of McDermott are materially restated within three years of their initial filing, and the Compensation Committee determines, in its reasonable discretion, that any current or former executive officer has engaged in intentional misconduct, and such misconduct caused or partially caused the need for such restatement, the Compensation Committee may, within 12 months after such a material restatement, require that the executive forfeit and/or return to McDermott all or a portion of the compensation vested, awarded or received under any bonus award, equity award or other award during the period subject to restatement and the 12-month period following the initial filing of the financial statements that were restated. The forfeiture and/or return of compensation under the policy would be limited to any portion that the executive officer would not have received if the consolidated financial statements had been reported properly at the time of their initial filing. The clawback policy would not apply to restatements occurring as a result of a change in control, as defined in the DCP, and the policy does not limit the ability of McDermott to pursue forfeiture or reclamation of amounts under applicable law.

Forfeiture Provisions

Additionally, consistent with our recent practice, our grant agreements for awards made in 2015 contain a forfeiture provision. In 2015, this provision provided that, in the event that, while the grantee is employed by McDermott or performing services on behalf of McDermott under any consulting agreement, the grantee is convicted of a felony or a misdemeanor involving fraud, dishonesty or moral turpitude, or the grantee engages in conduct that adversely affects or, in the sole judgment of the Compensation Committee, may reasonably be expected to adversely affect, the business reputation or economic interests of our company, then all rights and benefits awarded under the respective agreements are immediately forfeited, terminated and withdrawn.

How We Make Compensation Decisions

Compensation Committee

The Compensation Committee has primary responsibility for determining and approving, on an annual basis, the compensation of our CEO and other executive officers. The Compensation Committee receives information and advice from its compensation consultant as well as from our human resources department and management to assist in compensation determinations.

Compensation Consultant

Pay Governance LLC, or “Pay Governance,” has been engaged by our Compensation Committee to serve as its consultant on executive compensation and benefits matters since November 2010. Pay Governance provides advice and analysis to the Compensation Committee on the design, structure and level of executive and director compensation, and, when requested by the Compensation Committee, attends meetings of the Compensation Committee and participates in executive sessions without members of management present. Pay Governance reports directly to the Compensation Committee, and the Compensation Committee reviews, on an annual basis, Pay Governance’s performance and provides Pay Governance with direct feedback on its performance. When requested by the Governance Committee, Pay Governance attends meetings of the Governance Committee with respect to nonemployee director compensation.

During 2015, Pay Governance did not perform any services for McDermott other than as described above. In January 2016, our Compensation Committee assessed whether the work performed by Pay Governance during 2015 raised any conflict of interest, and determined that Pay Governance’s work performed for the Compensation Committee raised no conflict of interest.

Role of CEO and Management

While the Compensation Committee has the responsibility to approve and monitor all compensation for our executive officers, management plays an important role in determining executive compensation. Management, at the request of the Compensation Committee, recommends financial goals that drive the business and works with Pay Governance to analyze competitive market data and to recommend compensation levels for our executive officers other than our CEO. Our CEO likewise assists the Compensation Committee by providing his evaluation of the performance of our other executive officers and recommending compensation for those officers, including adjustments to their annual incentive compensation, based on individual performance.

Defining Market Range Compensation – 2015 Benchmarking

To identify median compensation for each element of total direct compensation, the Compensation Committee relies on “benchmarking.” This involves reviewing the compensation of our NEOs relative to the compensation paid to similarly situated executives at companies we consider our peers. As a result, the annual base salary, target annual incentive compensation and target LTI compensation for each of the NEOs is benchmarked. However, the specific performance metrics and performance levels used within elements of annual and long-term compensation are designed for the principal purpose of supporting our strategic and financial goals and driving the creation of stockholder value, and, as a result, are not generally benchmarked.

Proxy Peer Group

It is the Compensation Committee’s practice to periodically review and consider the individual companies used for benchmarking purposes. The Compensation Committee believes that identification of peers using a broad industry sector code is inadequate and does not establish similarity of operations and business models, nor identify historical competitors for managerial talent – factors the Compensation Committee considers in the selection of companies for benchmarking purposes. Therefore, the Compensation Committee considers the revenues and market capitalization of the component companies. In this CD&A, we refer to the peer group as the “Proxy Peer Group.” Market data from the Proxy Peer Group was reflective of 2013 compensation, as reported in the 2014 proxy statements of the companies in the Proxy Peer Group,

McDermott International, Inc. **49**

and was not size-adjusted, although the Compensation Committee was aware of these differences when making individual pay decisions. The component companies of the Proxy Peer Group are as follows:

Proxy Peer Group

Cameron International Corporation	Jacobs Engineering Group, Inc.
Chicago Bridge & Iron Company N.V.	KBR, Inc.
Dresser-Rand Group, Inc.	Noble Corporation plc
Exterran Holdings, Inc.	Oceaneering International, Inc.
FMC Technologies, Inc.	Oil States International, Inc.
Foster Wheeler AG	Superior Energy Services, Inc.
Helix Energy Solutions Group, Inc.	Tidewater Inc.

In consideration of comments received from the stockholder outreach efforts undertaken during 2015 regarding the composition of the peer group, the Compensation Committee created a peer group comprised of direct domestic and international competitors for purposes of the 2016 Performance Unit awards.

Survey Peer Group

Pay Governance also utilized market data based on a set of 78 companies in similar industries which participate in Towers Watson surveys (the “Survey Peer Group”). The Survey Peer Group is intended to provide a reference point for pay levels within similar industries, and is used as a secondary reference for Messrs. Dickson, Spence, Duncan and Ms. Hinrichs, and a primary reference for Messrs. Allen and Cuthbertson. Aside from screening companies on the basis of their industry classifications, no further refinements or judgments were applied in the identification of companies within the sample. Market data from the Survey Peer Group represents 2014 compensation as reported to the survey and, when possible, was size adjusted. Corporate positions were evaluated based on average revenues of \$3.3 billion, and business unit positions were evaluated based on their respective revenue levels. The component companies of the Survey Peer Group are as follows:

EXECUTIVE COMPENSATION TABLES

The following table summarizes the prior three years' compensation of our Chief Executive Officer, our Chief Financial Officer, our three highest paid executive officers who did not serve as our CEO and CFO during 2015 and were employed by McDermott as of December 31, 2015, and our former Senior Vice President, Project Support, Mr. Duncan (who served until November 10, 2015). No compensation information is provided for Messrs. Allen or Cuthbertson for 2013 and 2014, as they were not previously included as "named executive officers" in our proxy statement for our annual meeting of stockholders in 2014 or 2015. No compensation information is provided for Messrs. Spence or Duncan for 2013, as they were not included as "named executive officers" in our proxy statement for our annual meeting of stockholders in 2014.

(1) *The amount reported in this column for 2014 for Mr. Spence represents partial-year service. The amount reported in this column for 2015 for Mr. Duncan represents partial-year service.*

(2) *The amount reported in this column for 2014 represents a discretionary bonus award for Ms. Hinrichs in recognition of her contributions to and results achieved in connection with McDermott's refinancing transactions in the first half of 2014. The amount reported in this column for 2013 represents a cash signing bonus for Mr.*

Dickson, which was intended to compensate him for benefits from his former employer that he would have received if he had not changed employment.

(3) *The amounts reported in this column represent the aggregate grant date fair value of stock awards or option awards, as applicable, granted to each NEO and computed in accordance with FASB ASC Topic 718. See the "Grants of Plan-Based Awards" table for more information regarding the stock awards we granted in 2015. For a discussion of the valuation assumptions with respect to these awards, see Note 13 to our consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2015.*

(4) *The amounts reported in this column for 2015 and 2014, respectively, are attributable to the annual incentive awards earned in fiscal year 2015, but paid in 2016, and earned in 2014 but paid in 2015.*

(5) *The amounts reported in this column represent the changes in actuarial present values of the accumulated benefits under defined benefit plans and the TCN Pension Plan, determined by comparing the prior completed fiscal year end amount to the covered fiscal year end amount. No value is reported for 2013 for Ms. Hinrichs, as the change in actuarial present value of her accumulated benefits from fiscal year end 2012 to fiscal year end 2013 was \$(53,630). The actuarial present value decreased in that period as a result of a change in assumptions used in computing present values in each year, namely an increase in the discount rate from 4% to 4.8%. No value is reported for 2015 for Mr. Cuthbertson, as the change in actuarial present value of his accumulated benefits from fiscal year end 2014 to fiscal year end 2015 was \$(19,600). The actuarial present value decreased in that period as a result of a change in assumptions used in computing the present value in each year, namely an increase in the discount rate from 3.8% to 4.0%.*

(6) *The amounts reported in this column for 2015 are attributable to the following:*

(A) *The amounts reported in this column are attributable to contributions made by McDermott under the Deferred Compensation Plan.*

(B) *The amounts reported in these columns are attributable to contributions made under our defined contribution plans, which we refer to as our Thrift Plan and our Global Defined Contribution Plan.*

(C) *The amounts reported in this column are attributable to a lump-sum perquisite allowance in the amount of \$20,000 received by certain officers of McDermott in 2015, including each of the NEOs with the exception of Mr. Cuthbertson. With the exception of an executive physical required by McDermott, the perquisite allowance was permitted to be used for any purpose determined by the recipient.*

(D) *The amounts reported in this column for 2015 are attributable to the following:*

	Expatriate Premium	Commodities & Service Allowance	Housing & Utilities Allowance	Vacation Airfare	Education Allowance	Relocation	Company Provided Automobile
Mr. Cuthbertson	\$ 39,939	\$ 83,144	\$ 6,429	\$ 2,505	\$ 0	\$ 0	\$ 32,642

(E) *The amount reported in this column for Mr. Duncan is attributable to cash severance payments pursuant to his Separation Agreement of \$270,938, payment for vacation earned but not taken by Mr. Duncan in 2015 and payment of an amount to fund three months of continuing health insurance coverage under the Consolidated Omnibus Reconciliation Act.*

(F) *The amount reported in this column represents tax payments made in 2015 by McDermott on behalf of Mr. Duncan, net of amounts McDermott withheld from Mr. Duncan in 2015 pursuant to McDermott's tax equalization program for expatriate employees. For Mr. Cuthbertson, \$66,985 in Singapore taxes was paid by McDermott on Mr. Cuthbertson's behalf, which amount was less than the \$131,087 that McDermott withheld from Mr. Cuthbertson's compensation in 2015 pursuant to McDermott's tax equalization program. The amount of Singapore taxes paid was converted from local currency to U.S. dollars using the December 2015 monthly*

exchange rate, as obtained from published sources. For Mr. Duncan, the amount includes \$214,068 in United Kingdom taxes paid by McDermott on Mr. Duncan's behalf, net of (i) \$140,767 that McDermott withheld from Mr. Duncan's compensation in 2015 and (ii) \$104,866 that McDermott paid to Mr. Duncan as tax equalization payments, in each case pursuant to McDermott's tax equalization program. The amount of United Kingdom taxes paid for Mr. Duncan was converted from local currency to U.S. dollars on a monthly basis using the average exchange rate for each month in which such amounts were paid. For more information on McDermott's tax equalization program, see "Compensation Discussion and Analysis — 2015 Other Compensation Elements — Expatriate Benefits."

(1) These columns reflect the threshold, target and maximum payout opportunities under the Executive Incentive Compensation Plan, or EICP.

On February 26, 2015, our Compensation Committee established target EICP awards expressed as a percentage of the NEO's 2015 annual base salary earned, as follows: Mr. Dickson – 100%, Mr. Spence – 70%, Mr. Allen – 70%, Mr. Cuthbertson – 50%, Ms. Hinrichs – 70%, and Mr. Duncan – 70%. The target amounts shown for Messrs. Dickson, Spence, Allen, Cuthbertson and Duncan and Ms. Hinrichs were computed by multiplying their annual base salaries by their target award percentage. For all of the NEOs, the threshold amounts are equal to 33.5% of the respective target amounts and the maximum amounts are equal to 200% of the respective target amounts. See “Compensation Discussion and Analysis – What We Pay and Why: Elements of Total Direct Compensation – Annual Incentive” and “Compensation Discussion and Analysis – 2015 NEO Compensation” for a detailed description of the EICP and discussions regarding the determinations made with respect to the 2015 EICP awards.

These columns reflect the target, threshold and maximum payout opportunities of grants of performance units under the 2014 LTIP. Each grant represents the right to receive the value of one share of McDermott common stock for each vested performance unit, paid in shares of McDermott common stock, cash equal to the fair market value of the shares otherwise deliverable, or any combination thereof, in the sole discretion of the Compensation Committee. The amount of performance units that vest, if any, will be based on McDermott's aggregate consolidated order intake for a three-year measurement period (January 1, 2015 – December 31, 2017). If the threshold performance goal is achieved, a number of performance units between 50% and 200% of the target award may be earned, depending on the three-year aggregate order intake achieved.

This column reflects grants of restricted stock units under the 2014 LTIP. The restricted stock units are generally scheduled to vest in one-third increments on the first, second and third anniversaries of the date of grant. Each restricted stock unit represents the right to receive one share of McDermott common stock, cash equal to the fair market value of the share otherwise deliverable, or any combination thereof, in the sole discretion of the Compensation Committee.

This column reflects the full grant date fair values of the equity awards computed in accordance with FASB ASC Topic 718. Grant date fair values are determined using the closing price of our common stock on the date of grant, as reported on the NYSE. For more information regarding the compensation expense related to 2015 awards, see Note 13 to our consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2015.

The following Option Exercises and Stock Vested table provides information about the value realized by our NEOs on exercises of option awards and vesting of stock awards during the year ended December 31, 2015.

Name	Option Awards		Stock Awards (1)	
	Shares Acquired on Exercise (#)	Value Realized on Exercise	Shares Acquired on Vesting (#)	Value Realized on Vesting
Mr. Dickson	0	N/A	210,479	\$ 955,790.71
Mr. Spence	0	N/A	85,585	\$ 299,547.50
Mr. Allen	0	N/A	16,610	\$ 74,576.88
Mr. Cuthbertson	0	N/A	13,143	\$ 43,781.71
Ms. Hinrichs	0	N/A	85,447	\$ 286,680.89
Mr. Duncan	0	N/A	52,820	\$ 220,150.80

The number of shares acquired on vesting reflected in this table represents the aggregate number of shares that vested during 2015 in connection with awards of restricted stock units. The value realized on vesting was (1) calculated based on the fair market value of the underlying shares on the vesting date. The following table sets forth the number of shares withheld by McDermott to satisfy the minimum statutory withholding tax due upon vesting of such restricted stock units:

Pension Benefits

The following Pension Benefits table shows the present value of accumulated benefits payable to the only two of our NEOs who are entitled to benefits under the defined benefit pension plans that we sponsor. All benefits under the defined benefit pension plans that we sponsor are frozen.

Name	Plan Name	Number of Years Credited Service	Present Value of Accumulated Benefit	Payments During 2015
Mr. Dickson	N/A	N/A	N/A	N/A
Mr. Spence	N/A	N/A	N/A	N/A
Mr. Allen	N/A	N/A	N/A	N/A
Mr. Cuthbertson	TCN Plan ⁽¹⁾	11.67	\$ 599,800	\$ 0
Ms. Hinrichs	U.S. Retirement Plan ⁽²⁾	11.167	\$ 484,703	\$ 0
	U.S. Excess Plan ⁽²⁾	11.167	\$ 202,906	\$ 0
Mr. Duncan	N/A	N/A	N/A	N/A

The present value of accumulated benefits reflected above for the TCN Plan is based on a 4.0% discount rate and (1) the SAPS "All lives" base mortality table with improvements in the near future in line with the CMI_2011 model with a long term rate of future mortality improvements for both men and women of 1%.

The present value of accumulated benefits reflected above for the U.S. Retirement Plan and the U.S. Excess Plan is (2) based on a 4.2% discount rate and the RP2014 mortality table for annuitants projected with generational mortality improvement scale.

U.S. Retirement Plan

We refer to our qualified defined benefit pension plan as the U.S. Retirement Plan. Ms. Hinrichs is the only NEO who participates in the U.S. Retirement Plan, which plan has been frozen since 2006 and under which she is accruing no additional benefits. The U.S. Retirement Plan is funded by a trust, and includes provisions related to eligibility, participation and benefit formulas for applicable employees.

Under the U.S. Retirement Plan, normal retirement is the later of (1) age 65 or (2) the fifth anniversary of the date an employee becomes a participant. The normal form of payment is a single-life annuity or a 50% joint and survivor annuity, depending on the employee's marital status when payments are scheduled to begin. Early retirement eligibility and benefits under the Retirement Plan depend on the employee's date of hire and age. For employees hired on or after April 1, 1998 (including Ms. Hinrichs), an employee is eligible for early retirement upon the latter of completing at least 15 years of continuous service and attaining the age of 55. Early retirement benefits are based on the same formula as normal retirement, but the pension benefit is generally reduced 0.4% for each month that benefits commence before age 62. Ms. Hinrichs is eligible for early retirement under the U.S. Retirement Plan.

Ms. Hinrichs' benefits under the U.S. Retirement Plan are calculated as follows: 1.2% of final average monthly compensation as of June 30, 2010 up to the Social Security limit times credited service up to 35 years, plus 1.65% of final average monthly compensation as of June 30, 2010 in excess of the Social Security limit times credited service

up to 35 years. Final average monthly compensation excludes bonuses and commissions.

U.S. Excess Plan

We refer to our nonqualified pension plan as the U.S. Excess Plan. Ms. Hinrichs is the only NEO who participates in the U.S. Excess Plan, which plan has been frozen since 2006 and under which she is accruing no additional benefits. To the extent benefits payable under the U.S. Retirement Plan are limited by Section 415(b) or 401(a)(17) of the U.S. Internal Revenue Code, pension benefits will be paid under the terms of the U.S. Excess Plan. Because benefits entitlement under the U.S. Excess Plan and the U.S. Retirement Plan are linked, benefits under the U.S. Excess Plan have been frozen since 2006, when benefit accruals under the U.S. Retirement Plan were frozen.

TCN Pension Plan

We refer to our defined benefit pension plan for certain non-U.S. employees as the TCN Pension Plan. Mr. Cuthbertson is the only NEO who participates in the TCN Pension Plan, which is now frozen. Mr. Cuthbertson no longer accrues additional benefits under the plan. The TCN Pension Plan is funded by a trust, and includes provisions related to eligibility, participation and benefit formulas for employees who were employed by certain of our non-U.S. subsidiaries.

Under the TCN Pension Plan, normal retirement age is 65. The normal form of payment is a single-life annuity or a 66% joint and survivor annuity, depending on the employee's marital status when the payments are scheduled to begin. Early retirement eligibility and benefits under the TCN Pension Plan are generally available for employees who have completed at least 10 years of service and attained the age of 55. Early

retirement benefits are based on the same formula as normal retirement, but the pension benefit is generally reduced 0.5% for each month that benefits commence before age 60. Mr. Cuthbertson is eligible for early retirement under the TCN Pension Plan.

Normal retirement benefits under the TCN Pension Plan are calculated as follows: Number of years of credited service times 1/100th of the average of the highest three successive annual base salaries during the last 10 years of credited service preceding December 31, 2011, the normal retirement date, date of death or severance from service date, whichever occurs first.

Nonqualified Deferred Compensation

The following Nonqualified Deferred Compensation table summarizes our NEOs' compensation under the Deferred Compensation Plan. The compensation shown in this table is entirely attributable to the Deferred Compensation Plan.

The Deferred Compensation Plan is an unfunded, defined contribution retirement plan for officers of McDermott and its subsidiaries selected to participate by our Compensation Committee. Benefits under the Deferred Compensation Plan are based on: (1) the participant's deferral account, which is comprised of the notional account balance reflecting any executive contributions of deferred compensation; and (2) the participant's vested percentage in his or her company account, which is comprised of the notional account balance reflecting any contributions by us. A participant is at all times 100% vested in his or her deferral account. A participant generally vests in his or her company account 20% each year, subject to accelerated vesting for death, disability, termination of service by McDermott without cause or the occurrence of a change in control. Mr. Cuthbertson was not a participant in the Deferred Compensation Plan in 2015.

Mr. Duncan	\$ 0	\$ 20,000	\$ 1,997	\$ 0	\$ 39,237	100 %

In November 2010, our Compensation Committee approved the deferral of eligible executives' compensation (1) beginning January 1, 2011. Under the terms of our Deferred Compensation Plan, an eligible executive may defer up to 50% of his or her annual salary and/or up to 100% of any bonus earned in any year.

We make annual contributions to specified participants' notional accounts equal to a percentage of the participant's prior-year compensation. Under the terms of the Deferred Compensation Plan, the contribution percentage does not need to be the same for each participant. Additionally, our Compensation Committee may make a discretionary contribution to a participant's account at any time. With the exception of Mr. Spence, for (2) 2015, our contributions on behalf of NEOs who were participants equaled 5% of their respective Compensation (as defined in the Deferred Compensation Plan) received in 2014. We made a contribution to Mr. Spence's account equal in value to 5% of his prior-year base salary earned. In addition, we made a discretionary contribution to Mr. Spence's account equal in value to 5% of the respective 2014 base salary he would have earned from the period January 1, 2014 through his date of hire. All of our 2015 contributions are included in the Summary Compensation Table above as "All Other Compensation."

(3) The amounts reported in this column represent notional accrued gains or losses during 2015 on each NEO's account. The accounts are "participant-directed," in that each participant personally directs the investment of

contributions made on his or her behalf. As a result, any accrued gains or losses are attributable to the performance of the NEO's notional mutual fund investments. No amount of the earnings shown is reported as compensation in the Summary Compensation Table.

The amounts reported in this column consist of contributions made by McDermott and notional accrued gains or losses as of December 31, 2015. The balances shown include contributions from previous years which have been reported as compensation to the NEOs in the Summary Compensation Table for those years – to the extent a NEO was included in the Summary Compensation Table during those years. The amounts of such contributions
(4) *previously included in the Summary Compensation Table and years reported are as follows: we made contributions to Mr. Dickson's account of \$42,500 in 2014; we made contributions to Ms. Hinrichs' account of \$22,437 in 2013, \$37,662 in 2012 and \$43,511 in 2011; and we made contributions to Mr. Duncan's account in the amount of \$16,250 in 2014.*

(5) *Under the terms of his separation agreement, Mr. Duncan became 100% vested in his Deferred Compensation Plan balance as of his resignation date.*

Potential Payments Upon Termination or Change in Control

The following tables show potential payments to our Continuing NEOs under existing contracts, agreements, plans or arrangements, whether written or unwritten, for various scenarios under which a payment would be due (assuming each is applicable) involving a change in control or termination of employment of each of our NEOs, assuming a December 31, 2015 termination date and, where applicable, using the closing price of our common stock of \$3.35 as of December 31, 2015 (as reported on the NYSE). These tables do not reflect amounts that would be payable to the Continuing NEOs pursuant to benefits or awards that are already vested.

The amounts reported in the below tables for stock options, restricted stock, restricted stock units and performance shares or performance units represent the value of unvested and accelerated shares or units, as applicable, calculated by:

for stock options: multiplying the number of accelerated options by the difference between the exercise price and \$3.35 (the closing price of our common stock on December 31, 2015, as reported on the NYSE); and

for restricted stock, restricted stock units and performance shares or performance units: multiplying the number of accelerated shares or units by \$3.35 (the closing price of our common stock on December 31, 2015, as reported on the NYSE).

Mr. Duncan resigned from his position as Senior Vice President, Project Support in November 2015. In connection with Mr. Duncan's resignation, we entered into a separation agreement with Mr. Duncan providing for various compensation-related benefits in exchange for, among other things, his agreement to comply with several restrictive covenants. Under that separation agreement, Mr. Duncan received: (1) a lump-sum cash payment equal to the amount of base salary Mr. Duncan would have earned had he remained employed from his resignation date through December 31, 2015; (2) a lump-sum cash severance payment equal to six months of Mr. Duncan's base salary; (3) a lump-sum cash payment equal to Mr. Duncan's 2015 target award under the EICP; (4) each then outstanding RSU award granted to him pursuant to the 2009 LTIP or 2014 LTIP which would, absent his resignation from employment, have remained outstanding and continued to vest through March 15, 2017 would, subject to certain conditions, continue to vest and be settled on the first to occur of (a) the date such award would otherwise be settled in accordance with the terms of the 2009 LTIP or 2014 LTIP, as applicable, and the applicable grant agreement, as if his employment had continued, and (b) March 15, 2016; (5) payment of an amount to fund three months of continuing health insurance coverage under the Consolidated Omnibus Reconciliation Act; and (6) accrued but unutilized vacation pay. All other outstanding unvested equity or performance-based awards previously granted to Mr. Duncan were forfeited at the time of his resignation. Vested stock options held by Mr. Duncan continue to be exercisable for the remainder of their respective terms. Mr. Duncan's benefits under our Director and Executive Deferred Compensation Plan were fully vested as of the date of his resignation, and those benefits are to be paid in accordance with the terms of that plan.

The amounts reported represent 80% of Mr. Dickson's, and 100% of Messrs. Spence's and Allen's respective DCP balance as of December 31, 2015 that would become vested on death or disability. Mr. Cuthbertson was not a participant in the DCP as of December 31, 2015. Because Ms. Hinrichs is 100% vested in her DCP balance, no additional amount would become vested on her death or disability.

Under the terms of the outstanding stock option awards held by each of the listed NEOs as of December 31, 2015, all unvested option awards would become vested and exercisable on death or disability. Due to the exercise price of the stock options outstanding and the closing price of our common stock on December 31, 2015, the aggregate value of stock options that would become vested and exercisable on death or disability for each applicable NEO would be \$0.
