Note of Explanation – Corrections to Certain Non-GAAP Financial Information

In March 2017, we identified an error in the manner in which we had accrued actuarial gain on certain of the life insurance policies in our portfolio. This error was limited to situations in which the cumulative actuarial accrual exceeded the estimated gross economic profit on a non-GAAP basis. The impact of this error is limited to our earlier reported non-GAAP financial measures for “adjusted non-GAAP net income” and “adjusted non-GAAP tangible net worth.” The table below sets forth the initially reported, and corrected, total adjusted non-GAAP net income and total adjusted non-GAAP tangible net worth measures for fiscal years 2016 and 2015. These corrections to non-GAAP financial measures do not affect our compliance with any borrowing covenants under our senior credit facilities as of the dates set forth below, or as of the date of this disclosure.
