Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of
Jupiter Telecommunications Co., Ltd. and Subsidiaries:

We have audited the accompanying consolidated balance sheets of Jupiter Telecommunications Co., Ltd. (a Japanese corporation) and subsidiaries as of December 31, 2003 and 2004, and the related consolidated statements of operations, shareholders' equity and cash flows for each of the years in the three-year period ended December 31, 2004. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Jupiter Telecommunications Co., Ltd. and subsidiaries as of December 31, 2003 and 2004, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2004, in conformity with U.S. generally accepted accounting principles.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUPITER TELECOMMUNICATIONS CO., LTD. AND SUBSIDIARIES**

1. Description of Business, Basis of Financial Statements and Summary of Significant Accounting Policies***Business and Organization***

Jupiter Telecommunications Co., Ltd. (*Jupiter*) and its subsidiaries (the *Company*) own and operate cable telecommunication systems throughout Japan and provide cable television services, telephony and high-speed Internet access services (collectively, *Broadband services*). The telecommunications industry in Japan is highly regulated by the Ministry of Internal Affairs and Communications (*MIC*). In general, franchise rights granted by the MIC to the *Company* 's subsidiaries for operation of cable telecommunications systems in their respective localities are not exclusive. Currently, cable television services account for a majority of the *Company* 's revenue. Telephony operations accounted for approximately 10%, 13% and 15% of total revenue for the years ended December 31, 2002, 2003 and 2004, respectively. Internet operations accounted for approximately 23%, 24% and 25% of total revenue for the years ended December 31, 2002, 2003 and 2004, respectively.

The *Company* 's beneficial ownership at December 31, 2004 was as follows:

LMI/ Sumisho Super Media, LLC (<i>SM</i>)	65.23%
Microsoft Corporation (<i>Microsoft</i>)	19.46%
Sumitomo Corporation (<i>SC</i>)	12.25%
Mitsui & Co., Ltd.	1.53%
Matsushita Electric Industrial Co., Ltd.	1.53%

In August 2004, Liberty Media International, Inc. (*LMI*), *SC* and Microsoft made capital contributions to the *Company* in the following amounts: *LMI*: ¥14,065 million for 216,382 shares; *SC*: ¥9,913 million for 152,505 shares; and Microsoft ¥6,022 million for 92,652 shares. The shares of common stock issued in exchange for the capital contributions were based on fair value at the date of the transaction. As a result of the transaction, their beneficial ownership in the *Company* increased to 45.45%, 32.03% and 19.46%, respectively. The proceeds from the capital contributions were used to repay subordinated debt owed to each of *LMI*, *SC* and Microsoft in the same amounts as contributed by each shareholder respectively (see Note 6).

On December 28, 2004, *LMI* contributed all of its then 45.45% beneficial ownership interest and *SC* contributed 19.78% of its then ownership interest in the *Company* to *SM*, a company owned 69.7% by *LMI* and 30.3% by *SC*. As a result, *SM* became a 65.23% shareholder of the *Company* while *SC* 's direct ownership interest was reduced to 12.25%. *SC* is obligated to contribute its remaining 12.25% direct ownership interest in the *Company* to *SM* within six months of an initial public offering (*IPO*) in Japan by the *Company*.

The *Company* has historically relied on financing from its principle shareholders to meet liquidity requirements. However, in December 2004, the *Company* entered into a new syndicated facility and repaid all outstanding debt with its principal shareholders. For additional information concerning the 2004 refinancing, see Note 6.

Basis of Financial Statements

The *Company* maintains its books of account in conformity with financial accounting standards of Japan. The consolidated financial statements presented herein have been prepared in a manner and reflect certain adjustments which are necessary to conform to accounting principles generally accepted in the United States of America (*U.S. GAAP*). These adjustments include those related to the scope of consolidation, accounting for business combinations, accounting for income taxes, accounting for leases, accounting for stock-based compensation, revenue recognition of certain revenues, post-retirement benefits, depreciation and amortization and accruals for certain expenses.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****JUPITER TELECOMMUNICATIONS CO., LTD. AND SUBSIDIARIES (Continued)****Summary of Significant Accounting Policies*****(a) Consolidation Policy***

The accompanying consolidated financial statements include the accounts of the Company and all of its majority-owned subsidiaries which are primarily cable system operators (SOs). All significant intercompany balances and transactions have been eliminated. For the consolidated subsidiaries with a negative equity position, the Company has recognized the entire amount of cumulative losses of such subsidiaries regardless of its ownership percentage.

(b) Cash and Cash Equivalents

Cash and cash equivalents include all highly liquid debt instruments with an initial maturity of three months or less.

(c) Allowance for Doubtful Accounts

Allowance for doubtful accounts is computed based on historical bad debt experience and includes estimated uncollectible amounts based on analysis of certain individual accounts, including claims in bankruptcy.

(d) Investments

For those investments in affiliates in which the Company's voting interest is 20% to 50% and the Company has the ability to exercise significant influence over the affiliates' operation and financial policies, the equity method of accounting is used. Under this method, the investment is originally recorded at cost and adjusted to recognize the Company's share of the net earnings or losses of its affiliates. Prior to the adoption on January 1, 2002 of Statement of Financial Accounting Standard (SFAS) No. 142, *Goodwill and Other Intangible Assets*, the excess of the Company's cost over its percentage interest in the net assets of each affiliate was amortized, primarily over a period of 20 years. Subsequent to the adoption of SFAS No. 142, such excess is no longer amortized. All significant intercompany profits from these affiliates have been eliminated.

Investments in other securities carried at cost represent non-marketable equity securities in which the Company's ownership is less than 20% and the Company does not have the ability to exercise significant influence over the entities' operation and financial policies.

The Company evaluates its investments in affiliates and non-marketable equity securities for impairment due to declines in value considered to be other than temporary. In performing its evaluations, the Company utilizes various information, as available, including cash flow projections, independent valuations, industry multiples and, as applicable, stock price analysis. In the event of a determination that a decline in value is other than temporary, a charge to earnings is recorded for the loss, and a new cost basis in the investment is established.

(e) Property and Equipment

Property and equipment, including construction materials, are carried at cost, which includes all direct costs and certain indirect costs associated with the construction of cable television transmission and distribution systems, and the costs of new subscriber installations. Depreciation is computed on a straight-line method using estimated useful lives ranging from 10 to 15 years for distribution systems and equipment, from 15 to 60 years for buildings and structures and from 8 to 15 years for support equipment. Equipment under capital leases is stated at the present value of minimum lease payments. Equipment under capital leases is amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset, which ranges from 2 to 21 years.

Ordinary maintenance and repairs are charged to income as incurred. Major replacements and improvements are capitalized. When property and equipment is retired or otherwise disposed of, the cost and related

accumulated depreciation accounts are relieved of the applicable amounts and any differences are included in depreciation expense. The impact of such retirements and disposals resulted in additional depreciation expense of ¥1,315,484 thousand, ¥2,041,347 thousand and ¥2,558,513 thousand for the years ended December 31, 2002, 2003 and 2004, respectively.

During the first quarter of 2000, the Company and its subsidiaries approved a plan to upgrade substantially all of its 450 MHz distribution systems to 750 MHz during the years ending December 31, 2000 and 2001. The Company identified certain electronic components of their distribution systems that were replaced in connection with the upgrade and, accordingly, adjusted the remaining useful lives of such electronics in accordance with the upgrade schedule. The effect of such changes in the remaining useful lives resulted in additional depreciation expense of approximately ¥484 million for the year ended December 31, 2002. Additionally, after giving effect to the accelerated depreciation, the net loss per share increased by approximately ¥(123) per share for the year ended December 31, 2002. Such upgrades had been substantially completed by December 31, 2002.

(f) Goodwill

Goodwill represents the difference between the cost of the acquired cable television companies and amounts allocated to the estimated fair value of their net assets. The Company performs an assessment of goodwill for impairment at least annually, and more frequently if an indicator of impairment has occurred, using a two-step process. The first step requires identification of reporting units and determination of the fair value for each individual reporting unit. The fair value of each reporting unit is then compared to the reporting unit's carrying amount including assigned goodwill. To the extent a reporting unit's carrying amount exceeds its fair value, the second step of the impairment test is performed by comparing the implied fair value of the reporting unit's goodwill to its carrying amount. If the implied fair value of a reporting unit's goodwill is less than its carrying amount, an impairment loss is recorded. The Company performs its annual impairment test on the first day of October in each year. The Company has determined its reporting units to be the same as its reportable segments. The Company had no impairment charges of goodwill for the years ended December 31, 2002, 2003 and 2004.

(g) Long-Lived Assets

The Company and its subsidiaries' long-lived assets, excluding goodwill, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by comparing the carrying amount of an asset to future net cash flows (undiscounted and without interest) expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

In June 2001, the FASB issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. The standard requires that obligations associated with the retirement of tangible long-lived assets be recorded as liabilities when those obligations are incurred, with the amount of the liability initially measured at fair value. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. SFAS No. 143 is effective for financial statements issued for fiscal years beginning after June 15, 2002. The Company and its subsidiaries adopted SFAS No. 143 on January 1, 2003 and the adoption did not have a material effect on its results of operations, financial position or cash flows.

(h) Other Assets

Other assets include certain development costs associated with internal-use software capitalized, including external costs of material and services, and payroll costs for employees devoting time to the software projects.

These costs are amortized over a period not to exceed five years beginning when the asset is substantially ready for use. Costs incurred during the preliminary project stage, as well as maintenance and training costs are expensed as incurred. Other assets also include deferred financing costs, primarily legal fees and bank facility fees, incurred to negotiate and secure the facility. These costs are amortized to interest expense using the effective interest method over the term of the facility. For additional information concerning the Company's debt facilities, see Note 6.

(i) Derivative Financial Instruments

The Company uses certain derivative financial instruments to manage its foreign currency and interest rate exposure. The Company may enter into forward contracts to reduce its exposure to short-term (generally no more than one year) movements in exchange rates applicable to firm funding commitments that are denominated in currencies other than the Japanese yen. The Company uses interest rate risk management derivative instruments, such as interest rate swap and interest cap agreements, to manage interest costs to achieve an overall desired mix of fixed and variable rate debt. As a matter of policy, the Company does not enter into derivative contracts for trading or speculative purposes. The Company accounts for its derivative instruments in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* and SFAS No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities, an amendment of SFAS No. 133*. SFAS No. 133, as amended, requires that all derivative instruments be reported on the balance sheet as either assets or liabilities measured at fair value. For derivative instruments designated and effective as fair value hedges, changes in the fair value of the derivative instrument and of the hedged item attributable to the hedged risk are recognized in earnings. For derivative instruments designated as cash flow hedges, the effective portion of any hedge is reported in other comprehensive income until it is recognized in earnings in the same period in which the hedged item affects earnings. The ineffective portion of all hedges will be recognized in current earnings each period. Changes in fair value of derivative instruments that are not designated as a hedge will be recorded each period in current earnings.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking hedge transactions. This process includes linking all derivatives that are designated as fair value or cash flow hedges to specific assets and liabilities on the balance sheet or to specific firm commitments or forecasted transactions. The Company discontinues hedge accounting prospectively when (1) it is determined that the derivative is no longer effective in offsetting changes in the fair value of cash flows of a hedged item; (2) the derivative expires or is sold, terminated, or exercised; (3) it is determined that the forecasted hedged transaction will no longer occur; (4) a hedged firm commitment no longer meets the definition of a firm commitment, or (5) management determines that the designation of the derivative as a hedge instrument is no longer appropriate. Ongoing assessments of effectiveness are being made every three months.

The Company had several outstanding forward contracts with a commercial bank to hedge foreign currency exposures related to U.S. dollar-denominated equipment purchases and other firm commitments. As of December 31, 2002, 2003 and 2004, such forward contracts had an aggregate notional amount of ¥1,553,053 thousand, ¥3,134,242 thousand and ¥5,658,147 thousand, respectively, and expire on various dates through December 2005. The forward contracts have not been designated as hedges as they do not meet the effectiveness criteria specified by SFAS No. 133. However, management believes such forward contracts are closely related with the firm commitments designated in U.S. dollars, thus managing associated currency risk. Forward contracts not designated as hedges are marked to market each period. Included in other income, net, in the accompanying consolidated statements of operations are losses on forward contracts not designated as hedges of ¥11,589 thousand, ¥65,195 thousand and ¥72,223 thousand for the years ended December 31, 2002, 2003 and 2004, respectively.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****JUPITER TELECOMMUNICATIONS CO., LTD. AND SUBSIDIARIES (Continued)**

In May 2003, the Company entered into several interest rate swap agreements and an interest rate cap agreement to manage variable rate debt as required under the terms of its facility agreement (see Note 6). These interest rate exchange agreements effectively convert ¥60 billion of variable rate debt based on TIBOR into fixed rate debt and mature on June 30, 2009. These interest rate exchange agreements are considered cash flow hedging instruments as they are expected to effectively convert variable interest payments on certain debt instruments into fixed payments. Changes in fair value of these interest rate agreements designated as cash flow hedges are reported in accumulated other comprehensive loss. The amounts will be subsequently reclassified into interest expense as a yield adjustment in the same period in which the related interest on the variable rate debt affects earnings. The counterparties to the interest rate exchange agreements are banks participating in the facility agreement, therefore the Company does not anticipate nonperformance by any of them on the interest rate exchange agreements. In December 2004, the Company entered into a new debt facility, which replaced its former facility (see Note 6). Under the terms of the new facility, the Company was required to cancel certain interest rate swap agreements and an interest rate cap agreement with an aggregate notional amount of ¥24 billion, as the counterparties elected not to participate in the new facility. Such agreements were canceled in January 2005. As a result, these agreements are no longer considered cash flow hedging instruments and their respective fair value changes were reclassified into interest expense, net in the accompanying consolidated statements of operations for the year ended December 31, 2004. The remaining aggregate notional amount of ¥36 billion of interest rate swap agreements have been permitted to be carried over to the new facility as the counterparties are participants in the new facility. The Company has re-designated such interest swap agreements as cash flow hedging instruments.

(j) Severance and Retirement Plans

The Company and its subsidiaries have unfunded noncontributory defined benefit severance and retirement plans which are accounted for in accordance with SFAS No. 87, *Employers' Accounting for Pensions*.

(k) Income Taxes

The Company and its subsidiaries account for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(l) Cable Television System Costs, Expenses and Revenues

The Company and its subsidiaries account for costs, expenses and revenues applicable to the construction and operation of cable television systems in accordance with SFAS No. 51, *Financial Reporting by Cable Television Companies*. Currently, there is no significant system that falls in a prematurity period as defined by SFAS No. 51. Operating and programming costs in the Company's consolidated statements of operations include, among other things, cable service related expenses, billing costs, technical and maintenance personnel and utility expenses related to the cable television network.

(m) Revenue Recognition

The Company and its subsidiaries recognize cable television, high-speed Internet access, telephony and programming revenues when such services are provided to subscribers. Revenues derived from other sources are recognized when services are provided, events occur or products are delivered. Initial subscriber installation revenues are recognized in the period in which the related services are provided to the extent of

direct selling costs. Any remaining amount is deferred and recognized over the estimated average period that the subscribers are expected to remain connected to the cable television system. Historically, installation revenues have been less than related direct selling costs, therefore such revenues have been recognized as installations are completed. The Company and its subsidiaries provide poor reception rebroadcasting services to noncable television viewers suffering from poor reception of television waves caused by artificial obstacles. The Company and its subsidiaries enter into agreements with parties that have built obstacles causing poor reception for construction and maintenance of cable facilities to provide such services to the affected viewers at no cost to them during the agreement period. Under these agreements, the Company and its subsidiaries receive up-front, lump-sum compensation payments for construction and maintenance. Revenues from these agreements have been deferred and are being recognized in income on a straight-line basis over the agreement periods which are generally 20 years. Such revenues are included in revenue other in the accompanying consolidated statements of operations.

See Note 5 for a description of revenue from affiliates related to construction-related sales and programming fees which are recorded in revenue other in the accompanying consolidated statements of operations.

(n) Advertising Expense

Advertising expense is charged to income as incurred. Advertising expense amounted to ¥4,425,004 thousand, ¥3,921,229 thousand and ¥2,915,403 thousand and for the years ended December 31, 2002, 2003 and 2004, respectively, and is included in selling, general and administrative expenses in the accompanying consolidated statements of operations.

(o) Stock-Based Compensation

The Company and its subsidiaries account for stock-based compensation plans to employees using the intrinsic value based method prescribed by Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB No. 25) and FASB Interpretation No. 44, *Accounting for Certain Transactions Involving Stock Compensation an Interpretation of APB No. 25.* (FIN No. 44). As such, compensation expense is measured on the date of grant only if the current fair value of the underlying stock exceeds the exercise price. The Company accounts for its stock-based compensation plans to nonemployees and employees of unconsolidated affiliated companies using the fair market value based method prescribed by SFAS No. 123, *Accounting for Stock-Based Compensation*, and Emerging Issues Task Force Issue 00-12, *Accounting by an Investor for Stock-Based Compensation Granted to Employees of an Equity Method Investee* (EITF 00-12). Under SFAS No. 123, the fair value of the stock based award is determined using the Black-Scholes option pricing method, which is remeasured each period end until a commitment date is reached, which is generally the vesting date. The fair value of the subscription rights and stock purchase warrants granted each year was calculated using the Black-Scholes option-pricing model with the following assumptions: no dividends, volatility of 40%, risk-free rate of 3.0% and an expected life of three years. Expense associated with stock-based compensation for certain management employees is amortized on an accelerated basis over the vesting period of the individual award consistent with the method described in FASB Interpretation No. 28, *Accounting for Stock Appreciation Rights and Other Variable Stock Option or Award Plans.* Otherwise, compensation expense is generally amortized evenly over the vesting period. Compensation expense is recorded in operating costs and expenses for the Company's employees and nonemployees and in equity in earnings of affiliates for employees of affiliated companies in the accompanying consolidated statements of operations.

SFAS No. 123 allows companies to continue to apply the provisions of APB No. 25, where applicable, and provide pro forma disclosure for employee stock option grants as if the fair value based method defined in SFAS No. 123 had been applied. The Company has elected to continue to apply the provisions of APB No. 25

for stock-based compensation plans to its employees and provide the pro forma disclosure required by SFAS No. 123. The following table illustrates the effect on net income (loss) and net income (loss) per share for the years ended December 31, 2002, 2003 and 2004, if the Company had applied the fair value recognition provisions of SFAS No. 123 (Yen in thousands, except share and per share amounts):

(p) Earnings Per Share

Earnings per share (EPS) is presented in accordance with the provisions of SFAS No. 128, *Earnings Per Share*. Under SFAS No. 128, basic EPS excludes dilution for potential ordinary shares and is computed by dividing net income (loss) by the weighted average number of ordinary shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue ordinary shares were exercised or converted into ordinary shares. Basic and diluted EPS are the same in 2002, 2003 and 2004, as all potential ordinary share equivalents, consisting of stock options, are anti-dilutive.

(q) Segments

The Company reports operating segment information in accordance with SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*. SFAS No. 131 defined operating segments as components of an enterprise about which separate financial information is available that is regularly evaluated by the chief operating decision-maker in deciding how to allocate resources to an individual segment and in assessing performance of the segment.

The Company has determined that each individual consolidated subsidiary and unconsolidated managed equity affiliate SO is an operating segment because each SO represents a legal entity and serves a separate geographic area. The Company has evaluated the criteria for aggregation of the operating segments under paragraph 17 of SFAS No. 131 and believes it meets each of its respective criteria. Accordingly, management has determined that the Company has one reportable segment, Broadband services.

(r) Use of Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period to prepare these consolidated financial statements in conformity with U.S. GAAP. Significant judgments and estimates include derivative financial instruments, depreciation and amortization costs, impairments of property and equipment and goodwill, income taxes and other contingencies. Actual results could differ from those estimates.

(s) Recent Accounting Pronouncements

The FASB issued SFAS No. 123 (Revised 2004) (SFAS No. 123R) in December 2004. SFAS No. 123R is a revision of SFAS No. 123. SFAS No. 123R supersedes APB No. 25 and its related implementation guidance.

SFAS No. 123R focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123R requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award. This statement is effective as of the beginning of the first interim or annual reporting period that begins after June 15, 2005. We have not yet determined the impact SFAS No. 123R will have on our results of operations.

2. Acquisitions

The Company acquired varying interests in cable television companies during the periods presented. The Company utilized the purchase method of accounting for all such acquisitions and, accordingly, has allocated the purchase price based on the estimated fair value of the assets and liabilities of the acquired companies. The assets, liabilities and operations of such companies have been included in the accompanying consolidated financial statements since the dates of their respective acquisitions.

In January 2002, the Company purchased additional shares of its affiliate J-COM Media Saitama during a capital call for ¥500,000 thousand and purchased shares from existing shareholders of its affiliate J-COM Urawa-Yono for ¥10,080 thousand. After the purchases, the Company's equity ownership increased to a 50.2% controlling interest in J-COM Media Saitama and a 50.10% controlling interest in J-COM Urawa-Yono. These transactions have been treated as step-acquisitions. The results of operations for both J-COM Media Saitama and J-COM Urawa-Yono have been included as a consolidated entity from January 1, 2002.

In March 2002, the Company purchased additional shares in its affiliate, @NetHome Co., Ltd (@NetHome), from SC at a price per share of ¥55,000 or ¥527,670 thousand and all of the shares held by At Home Asia-Pacific for ¥1.4 billion. After the purchases, the Company had an 87.4% equity interest in @NetHome. The purchases have been accounted for as a step-acquisition. The operations for @NetHome have been included as a consolidated entity from April 1, 2002. In March 2004, the Company purchased from SC the remaining outstanding shares of @NetHome for ¥4,860 million. After the purchase, @NetHome became a wholly owned subsidiary of the Company. The purchase has been accounted for as a step-acquisition. The Company recorded approximately ¥4.0 billion of goodwill for the excess consideration over the fair value of the net assets and liabilities acquired in the 2004 step-acquisition.

In March 2004, the Company purchased a controlling interest in Izumi Otsu from certain of its shareholders. The total purchase price of such Izumi Otsu shares was ¥160,000 thousand and gave the Company a 66.7% interest. The results of Izumi Otsu have been included as a consolidated subsidiary from April 1, 2004. In August 2004, the Company and certain shareholders entered into an agreement and merged Izumi Otsu into the Company's 84.2% consolidated subsidiary, J-COM Kansai. After the merger, the Company has an 84.0% equity interest in J-COM Kansai.

In July 2004, the Company purchased a 100% controlling interest in Cable System Engineering Corporation (CSE), whose business is cable network construction and installation. The total purchase price of CSE was ¥577,210 thousand. No goodwill was recognized in connection with this acquisition. The result of operations for CSE have been included from August 1, 2004.

The impact to revenue, net income (loss) and net income (loss) per share for the years ended December 31, 2002, 2003 and 2004, as if the transactions were completed as of the beginning of those years, is not significant.

5. Related Party Transactions

The Company purchases cable system materials and supplies from third-party suppliers and resells them to its subsidiaries and affiliates. The sales to unconsolidated affiliates amounted to ¥3,484,288 thousand, ¥2,888,046 thousand and ¥2,385,495 thousand for the years ended December 31, 2002, 2003 and 2004, respectively, and are included in revenue other in the accompanying consolidated statements of operations.

The Company provides programming services to its subsidiaries and affiliates. The revenue from unconsolidated affiliates for such services provided and the related products sold amounted to ¥815,287 thousand, ¥1,092,724 thousand and ¥1,379,744 thousand for the years ended December 31, 2002, 2003 and 2004, respectively, and are included in revenue other in the accompanying consolidated statements of operations.

The Company provides management services to its subsidiaries and managed affiliates. Fees for such services related to managed affiliates amounted to ¥390,434 thousand, ¥468,219 thousand and ¥521,670 thousand for the years ended December 31, 2002, 2003 and 2004, respectively, and are included in revenue other in the accompanying consolidated statements of operations.

In July 2002, the Company began providing management services to Chofu Cable Inc. (J-COM Chofu), an affiliated company that is 92% jointly owned by LMI, Microsoft and SC. Fees for such services amounted to ¥29,590 thousand, ¥60,882 thousand and ¥87,446 thousand for the years ended December 31, 2002, 2003 and 2004 respectively, and are included in revenue other in the accompanying consolidated statements of operations. As part of the 2004 refinancing, J-COM Chofu became party to the Company's new debt facility (see Note 6). At December 31, 2004, the Company had advanced ¥4,030 million of short term loans to J-COM Chofu and the interest rate on these loans were

2.48%.

The Company purchases certain cable television programs from Jupiter Programming Co., Ltd. (JPC), an affiliated company jointly owned by SC and a wholly owned subsidiary of LMI. Such purchases, including purchases from JPC s affiliates, amounted to ¥2,879,616 thousand, ¥3,155,139 thousand and ¥3,915,345 thousand for the years ended December 31, 2002, 2003 and 2004, respectively, and are included in operating and

programming costs in the accompanying consolidated statements of operations. Additionally, the Company receives a distribution fee to carry the Shop Channel, a majority owned subsidiary of JPC, for the greater of a fixed rate per subscriber or a percentage of revenue generated through sales in the Company's territory. Such fees amounted to ¥614,224 thousand, ¥939,438 thousand and ¥1,063,678 thousand for the years ended December 31, 2002, 2003 and 2004, respectively, and are included as revenue other in the accompanying consolidated statements of operations. The Company purchased stock of affiliated companies from SC in the amounts of ¥1,112,750 thousand, ¥0 thousand, and ¥5,091,864 thousand in the years ended December 31, 2002, 2003 and 2004, respectively.

AJCC K.K. (AJCC) is a subsidiary of SC and its primary business is the sale of home terminals and related goods to cable television companies. Sumisho Lease Co., Ltd. and Sumisho Auto Leasing Co., Ltd. (collectively Sumisho leasing) are a subsidiary and affiliate, respectively, of SC and provide to the Company various office equipment and vehicles. The Company and its subsidiaries purchases of such goods, primarily as capital leases, from both AJCC and Sumisho leasing, amounted to ¥10,074,639 thousand, ¥6,087,645 thousand and ¥12,621,284 thousand for the years ended December 31, 2002, 2003 and 2004, respectively.

The Company pays monthly fees to its affiliates, @NetHome and Kansai Multimedia, based on an agreed-upon percentage of subscription revenue collected by the Company from its customers for the @NetHome and Kansai Multimedia services. Payments made to @NetHome under these arrangements, prior to it becoming a consolidated subsidiary, amounted to ¥1,585,691 thousand for the years ended December 31, 2002. Payments made to Kansai Multimedia under these arrangements amounted to ¥2,882,494 thousand, ¥3,226,764 thousand and ¥3,380,148 thousand for the years ended December 31, 2002, 2003 and 2004, respectively. Such payments are included in operating and programming costs in the accompanying consolidated statements of operations. In March 2002, @Net Home became a consolidated subsidiary of the Company (see Note 2). Therefore, since April 1, 2002, through @NetHome, the Company receives the monthly fee from its unconsolidated affiliates. Such service fees amounted to ¥480,356 thousand, ¥1,071,891 thousand and ¥1,242,550 thousand for the years ended December 31, 2002, 2003 and 2004, respectively, and are included in revenue-subscription fees in the accompanying consolidated statements of operations.

The Company has management service agreements with SC and LMI under which officers and management level employees are seconded from SC and LMI to the Company, whose services are charged as service fees to the Company based on their payroll costs. The service fees paid to SC amounted to ¥571,319 thousand, ¥706,303 thousand and ¥784,122 thousand for the years ended December 31, 2002, 2003 and 2004, respectively. The service fees paid to LMI amounted to ¥761,009 thousand, ¥714,986 thousand and ¥665,354 thousand for the years ended December 31, 2002, 2003 and 2004, respectively. These amounts are included in selling, general and administrative expenses in the accompanying consolidated statements of operations.

SC, LMI and Microsoft had long-term subordinated loans to the Company of ¥52,894,625 thousand, ¥52,894,625 thousand and ¥43,950,000 thousand, respectively, at December 31, 2003. In December 2004, the Company refinanced and replaced these subordinated shareholder loans under a new facility. See Note 6. The Company pays fees on debt guaranteed by SC, LMI and Microsoft. The guarantee fees incurred were ¥413,128 thousand to SC, ¥361,627 thousand to LMI and ¥285,042 thousand to Microsoft for the year ended December 31, 2002. The guarantee fees incurred were ¥84,224 thousand to SC, ¥73,470 thousand to LMI and ¥51,890 thousand to Microsoft for the year ended December 31, 2003. The guarantee fees incurred were ¥41,071 thousand to SC, ¥41,071 thousand to LMI and ¥16,332 thousand to Microsoft for the year ended December 31, 2004. Such fees are included in interest expense, net-related parties in the accompanying

2003 Financing

On January 31, 2003, the Company entered into a ¥140 billion bank syndicated facility for certain of its managed subsidiaries and affiliates (¥140 billion Facility). In connection with the ¥140 billion Facility, on February 6, 2003, the Company entered into eight-year subordinated loans with each of SC, LMI and Microsoft (Principal Shareholders), which initially aggregated ¥182 billion (Shareholder Subordinated Loans).

The ¥140 billion Facility was for the financing of Jupiter, sixteen of its consolidated managed affiliates and one managed affiliate accounted for under the equity method of accounting. The financing was used for permitted general corporate purposes, capital expenditures, financing costs and limited purchase of minority shares and capital calls of the affiliates participating in the ¥140 billion Facility.

The ¥140 billion Facility provided for term loans of up to ¥120 billion and a revolving loan facility up to ¥20 billion with the final maturity of June 30, 2009. ¥32 billion of the total term loan portion of the ¥140 billion Facility was considered provided by the shareholders under the Tranche B Subordinated Loans.

Interest was based on TIBOR, as defined in the ¥140 billion Facility, plus margin which changed based upon a leverage ratio of Total Debt to EBITDA as set forth in the ¥140 billion Facility agreement. At December 31, 2003, the interest rate was 2.83%. The Shareholder Subordinated Loans, which were subordinated to the ¥140 billion Facility, consisted of eight-year subordinated loans and eight-year Tranche B Subordinated Loans. The ¥140 billion Facility had requirements to make mandatory prepayments under specific circumstances as defined in the agreements. Such prepayments are designated as restricted cash on the consolidated balance sheets.

In May 2003, LMI and SC converted ¥32 billion of Shareholder Subordinated Loans for 750,250 shares of common stock of the company. At December 31, 2003, the interest rate was 2.08%.

JUPITER TELECOMMUNICATIONS CO., LTD. AND SUBSIDIARIES (Continued)

In December 2003, a consolidated subsidiary of the Company became party to the ¥140 billion Facility. Immediately prior to this transaction, the consolidated subsidiary had outstanding ¥3,686,090 thousand to third-party creditors. In connection with this transaction, a third-party debt holder forgave ¥400,000 thousand of debt owed to it. As a result, the Company recorded a gain of ¥400,000 thousand in other non-operating income in the accompanying consolidated statement of operations for the year ended December 31, 2003. Additionally, the third-party debt holder was issued ¥500,000 thousand of preferred stock of the consolidated subsidiary in exchange for ¥500,000 thousand of debt owed to it (see Note 10). The remaining ¥2,686,090 thousand of third-party debt was repaid from proceeds of the ¥140 billion Facility.

In March 2004, the Company entered into additional shareholder subordinated loans of ¥2,431,000 thousand each with SC and LMI. The aggregate ¥4,862,000 thousand of loan proceeds were used for the purchase of the remaining shares of @NetHome (see Note 2). These additional shareholder subordinated loans had identical terms to the Shareholder Subordinated Loans discussed above.

In August 2004, LMI, SC and Microsoft made a capital contribution to the Company in the aggregate amount of ¥30,000 million. The proceeds of this contribution were used to repay an aggregate of ¥30,000 million of Shareholder Subordinated Loans owed respectively in the same amounts as contributed by LMI, SC and Microsoft (see Note 1).

2004 Refinancing

On December 15, 2004, for the purpose of the refinancing the ¥140 billion Facility, the Company entered into a ¥175 billion senior syndicated facility (¥175 billion Facility) which consists of a ¥130 billion term loan facility (Term Loan Facility), a ¥20 billion revolving facility (Revolving Facility) and a ¥25 billion guarantee facility (Guarantee Facility). Concurrently the Company entered into a ¥50 billion subordinated syndicated loan facility (Mezzanine Facility). Consistent with the ¥140 billion Facility, the ¥175 billion Facility will be utilized for the financing of Jupiter, sixteen of its consolidated managed affiliates, one managed affiliate under the equity method accounting and one managed affiliate, which the Company has no equity investment (Jupiter Combined Group). On December 21, 2004, the Company made full drawdowns from each of the ¥130 billion Term Loan Facility and the ¥50 billion Mezzanine Facility. The proceeds from the December 2004 drawdown were used to repay all outstanding loans under the ¥140 billion Facility and all outstanding Shareholder Subordinated Loans.

The ¥130 billion Term Loan Facility consists of a five year ¥90 billion Tranche A Term Loan Facility (Tranche A Facility) and a seven year ¥40 billion Tranche B Term Loan Facility (Tranche B Facility). Final maturity dates of the Tranche A Facility and Tranche B Facility are December 31, 2009 and December 31, 2011, respectively. Loan repayment of the Tranche A Facility and the Tranche B Facility commence on September 30, 2005 and March 31, 2009, respectively, each based on a defined rate reduction each quarter thereafter until maturity.

The ¥20 billion Revolving Facility will be available for drawdown until one month prior to its final maturity of December 31, 2009. A commitment fee of 0.50% per annum is payable on the unused available Revolving Facility during its availability period.

The ¥25 billion Guarantee Facility provides for seven years of bank guarantees on loans from the Development Bank of Japan owed by affiliates of the Jupiter Combined Group. The Guarantee Facility commitment reduces gradually according to the amount and schedule as defined in the ¥175 billion Facility agreement until final maturity at December 31, 2011. As of December 31, 2004 the guarantee commitment is ¥25 billion. Such guarantee commitment will be reduced to ¥23.1 billion by December 2005; ¥21.6 billion by December 2006; ¥20.0 billion by December 2007; ¥18.6 billion by December 2008; ¥17.2 billion by December 2009; ¥15.8 billion by December 2010; and to ¥13.2 billion by December 2011. A commitment fee of 0.50% per annum is payable on the unused available Guarantee Facility during its availability period.

Interest on the Tranche A Facility, Tranche B Facility and the Revolving Facility is based on TIBOR, as defined in the agreement, plus the applicable margin. Each facility's applicable margin is reducing based upon a leverage ratio of Senior Debt to EBITDA as such terms are defined in the ¥175 billion Facility agreement. When the leverage ratio is greater than or equal to 4.0:1, the margin on the Tranche A Facility and the Revolving Facility is 1.50% per annum and the margin of the Tranche B Facility ranges from 1.80% to 2.00% per annum; when less than 4.0:1 but greater than or equal to 2.5:1 the margin on the Tranche A Facility and the Revolving Facility is 1.38% per annum and the margin of the Tranche B Facility ranges from 1.69% to 1.88% per annum; when less than 2.5:1 but greater than or equal to 1.5:1 the margin on the Tranche A Facility and the Revolving Facility is 1.25% per annum and the margin of the Tranche B Facility ranges from 1.58% to 1.75% per annum; and when less than 1.5:1 the margin on the Tranche A Facility and the Revolving Facility is 1.00% per annum and the margin of the Tranche B Facility ranges from 1.35% to 1.50% per annum. In regards to the fees due on the Guarantee Facility, when the leverage ratio is greater than 4.00:1, the interest rate is 3.00% per annum; when less than 4.00:1 but greater than or equal to 3.75:1 the interest rate is 2.00%; when less than 3.75:1 but greater than or equal to 3.50:1 the interest rate is 1.50%; when less than 3.50:1 but greater than or equal to 3.00:1 the interest rate is 1.00%; when less than 3.00:1 but greater than or equal to 2.00:1 the interest rate is 0.75%; and when less than 2.00:1, the interest rate is 0.50% per annum. As of December 31, 2004 the interest rates for the outstanding Tranche A Facility, Tranche B Facility, and Guarantee Facility, were 1.6%, 1.9%, and 1.0% respectively.

The ¥175 billion Facility has requirements to make mandatory prepayments in the amount equal to (1) 50% of the Group Free Cash Flow, as defined in the agreement, until the later of (a) March 31, 2007 and (b) the first quarter for which the ratio of Senior Debt to EBITDA, as defined in the agreement, is less than 2.50:1.00; (2) 50% of third party contributions received when the ratio of Senior Debt to EBITDA is greater than 4.00:1.00; (3) proceeds from the sale of assets exceeding ¥500 million that are not reinvested within six months; (4) insurance proceeds exceeding ¥500 million that are not used to repair or replace the damaged assets within twelve months; and (5) proceeds of any take-out securities as defined in the ¥175 billion Facility agreement. The ¥175 billion Facility requires the Jupiter Combined Group to comply with various financial covenants, such as Maximum Senior Debt to EBITDA Ratio, Maximum Senior Debt to Combined Total Capital Ratio, Minimum Debt Service Coverage Ratio and Minimum Interest Coverage Ratio as such terms are defined in the ¥175 billion Facility agreement. In addition, the ¥175 billion Facility contains certain limitations or prohibitions on additional indebtedness. Additionally, the ¥175 billion Facility requires the Company to maintain interest hedging agreements on at least 50% of the outstanding amounts under the Tranche A Facility. Due to the ¥175 billion Facility closing on December 15, 2004, the Company was not required to calculate financial covenants for the fiscal year 2004.

The Mezzanine Facility contains a bullet repayment upon final maturity at June 30, 2012. However, in the event of an IPO by the Company, there is a mandatory prepayment of the Mezzanine Facility of 100% from the proceeds of such IPO. Interest on the Mezzanine Facility is based on TIBOR, as defined in the agreement, plus an increasing margin. The initial margin is 3.25% per annum and increases 0.25% each successive three month period from closing up to a maximum margin of 9.00% per annum. The Mezzanine Facility has identical financial covenants as the ¥175 billion Facility.

As of December 31, 2004 the Company had ¥20 billion revolving loans available for immediate borrowing under the ¥175 billion Facility.

Development Bank of Japan Loans

The loans represent institutional loans from the Development Bank of Japan, which have been made available to telecommunication companies operating in specific local areas designated as Teletopia by the MIC to facilitate development of local telecommunication network. Requirements to qualify for such financing include use of optical fiber cables, equity participation by local/municipal government and guarantee by third parties,

among other things. These loans are obtained by the Company's subsidiaries and were primarily guaranteed, directly or indirectly, by SC, LMI and Microsoft. In connection with the 2004 refinancing described above, the guarantees by SC, LMI and Microsoft have been cancelled and replaced with guarantees pursuant to the Guarantee Facility.

Securities on Long-term Debt

At December 31, 2004, subsidiaries' shares owned by the Company, trademark and franchise rights held by the Company and substantially all equipment held by the Company's subsidiaries were pledged to secure the loans from the Development Bank of Japan and the Company's bank facilities. The aggregate annual maturities of long-term debt outstanding at December 31, 2004 are as follows (Yen in thousands):

The Company and its subsidiaries occupy certain offices under cancelable lease arrangements. Rental expenses for such leases for the years ended December 31, 2002, 2003 and 2004, totaled ¥4,115,628 thousand, ¥4,134,249 thousand and ¥3,970,228 thousand, respectively, and were included in selling, general and administrative expenses in the accompanying consolidated statements of operations. Also, the Company and its subsidiaries occupy certain transmission facilities and use poles and other equipment under cancelable lease arrangements. Rental expenses for such leases for the years ended December 31, 2002, 2003 and 2004, totaled ¥7,323,538 thousand, ¥8,542,845 thousand and ¥8,943,602 thousand, respectively, and are included in operating costs and programming costs in the accompanying consolidated statements of operations.

8. Income Taxes

The Company and its subsidiaries are subject to Japanese national corporate tax of 30%, an inhabitant tax of 6% and a deductible enterprise tax of 10%, which in aggregate result in a statutory tax rate of 42%. On March 24, 2003, the Japanese Diet approved the Amendments to Local Tax Law, reducing the enterprise tax from 10.08% to 7.2%. The amendments to the tax rates will be effective for fiscal years beginning on or after April 1, 2004. Consequently, the statutory income tax rate will be lowered to approximately 40% for deferred tax assets and liabilities expected to be settled or realized on or after January 1, 2005 for the Company.

All pretax income/loss and related tax expense/benefit are derived solely from Japanese operations. Income tax expense for the years ended December 31, 2002, 2003 and 2004 is as follows (Yen in thousand):

	2002	2003	2004
Current	¥ 256,763	¥ 209,805	¥ 1,812,786

Total gross deferred tax liabilities	15,364,060	16,213,689
Net deferred tax assets	¥	¥ 3,377,404

The net changes in the total valuation allowance for the years ended December 31, 2002, 2003 and 2004 were decreases of ¥8,985,905 thousand, ¥6,543,162 thousand and ¥10,605,177 thousand, respectively.

Current deferred tax assets in the amount of ¥2,068,822 thousand are included in prepaid expenses and non-current deferred tax assets in the amount of ¥1,308,582 thousand are included in other in non-current assets in the

accompanied consolidated balance sheet at December 31, 2004.

In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. The Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management expects to realize its deferred tax assets net of existing valuation allowance. The Company had ¥343,918 thousand of tax deductible goodwill as of December 31, 2004.

The amount of unrecognized tax benefits at December 31, 2003 and 2004 acquired in connection with business combinations were ¥12,000 million and ¥7,267 million (net of ¥3,423 million recognized during 2004),

respectively. If the deferred tax assets are realized or the valuation allowance is reversed, the tax benefit realized is first applied to i) reduce to zero any goodwill related to acquisition, ii) second to reduce to zero other non-current intangible assets related to the acquisition and iii) third to reduce income tax expense. See Note 4.

At December 31, 2004, the Company and its subsidiaries had net operating loss carryforwards for income tax purposes of ¥54,124,581 thousand which were available to offset future taxable income. Net operating loss carryforwards, if not utilized, will expire in each of the next five years as follows (Yen in thousands):

9. Severance and Retirement Plans

Under unfunded severance and retirement plans, substantially all full-time employees terminating their employment after the three year vesting period are entitled, under most circumstances, to lump-sum severance payments determined by reference to their rate of pay at the time of termination, years of service and certain other factors. No assumptions are made for future compensation levels as the plans have flat-benefit formulas. As a result, the accumulated benefit obligation and projected benefit obligation are the same. December 31, 2004 was used as the measurement date.

Net periodic cost of the Company and its subsidiaries plans accounted for in accordance with SFAS No. 87 for the years ended December 31, 2002, 2003 and 2004, included the following components (Yen in thousands):

The Company contributions to this plan amounted to ¥324,521 thousand, ¥342,521 thousand and ¥292,546 thousand for the years ended December 31, 2002, 2003 and 2004, respectively, and are included in provision for retirement allowance in selling, general and administrative expenses in the accompanying consolidated statements of operations.

10. Redeemable Preferred Stock

On December 29, 2003, in connection with being included as a party to the ¥140 billion Facility, a consolidated subsidiary of the Company issued ¥500,000 thousand of preferred stock to a third-party in exchange for debt owed to that third party. All or a part of the preferred stock can be redeemed after 2010, up to a half of the preceding year's net income, at the holder's demand. The holder of the preferred stock has a priority to receive dividends, however, the amount of such dividends will be decided by the subsidiary's board of directors and such dividend will not exceed ¥1,000 per preferred stock for any fiscal year and will not accumulate.

11. Shareholders' Equity

Dividends

Under the Japanese Commercial Code (the Code), the amount available for dividends is based on retained earnings as recorded on the books of the Company maintained in conformity with financial accounting standards of Japan. Certain adjustments not recorded on the Company's books are reflected in the consolidated financial statements for reasons described in Note 1. At December 31, 2004, the accumulated deficit recorded on the Company's books of account was ¥16,024,828 thousand. Therefore, no dividends may be paid at the present time.

The Code provides that an amount equivalent to at least 10% of cash dividends paid and other cash outlays resulting from appropriation of retained earnings be appropriated to a legal reserve until such reserve and the additional paid-in capital equal 25% of the issued capital. The Code also provides that neither additional paid-in capital nor the legal reserve are to be used for cash dividends, but may be either (i) used to reduce a capital deficit, by resolution of the

shareholders; (ii) capitalized, by resolution of the Board of Directors; or (iii) used

for purposes other than those provided in (i) and (ii), such as refund made to shareholders or acquisition of treasury stocks, but only up to an amount equal to the additional paid-in capital and the legal reserve less 25% of the issued capital, by resolution of the shareholders. The Code provides that at least one-half of the issue price of new shares be included in capital.

Stock-Based Compensation Plans

The Company maintains subscription-rights option plans and stock purchase warrant plans for certain directors, corporate auditors and employees of the Company's consolidated managed franchises and to directors, corporate auditors and employees of the Company's unconsolidated managed franchises and other non-employees (collectively the Jupiter Option Plans). The Company's board of directors and shareholders approved the grant of the Company's ordinary shares at an initial exercise price of ¥92,000 per share. The exercise price is subject to adjustment upon an effective IPO to the lower of ¥92,000 per share or the IPO offering price.

Under Jupiter Option Plans, the number of ordinary shares issuable will be adjusted for stock splits, reverse stock splits and certain other recapitalizations and the subscription rights will not be exercisable until the Company's ordinary shares are registered with the Japan Securities Dealers Association or listed on a stock exchange.

Non-management employees will, unless the grant agreement provides otherwise, vest in two years from date of grant. Management employees will, unless the grant agreement provides otherwise, vest in four equal installments from date of grant. Options under the Jupiter Option Plans generally expire 10 years from date of grant, currently ranging from August 23, 2010 to August 23, 2012.

The Company has accounted for awards granted to the Company's and its consolidated managed franchises' directors, corporate auditors and employees under APB No. 25 and FIN No. 44. Based on the Company's estimated fair value per ordinary share, there was no intrinsic value at the date of grant under the Jupiter Option Plans. As the exercise price at the date of grant is uncertain, the Jupiter Option Plans are considered variable awards. Under APB No. 25 and FIN 44, variable awards will have stock compensation recognized each period to the extent the market value of the ordinary shares granted exceeds the exercise price. The Company will be subject to variable accounting for grants to employees under the Jupiter Option Plans until all options granted are exercised, forfeited, or expired. At December 31, 2002, 2003 and 2004, the market value of the Company's ordinary shares did not exceed the exercise price and no compensation expense was recognized.

The Company has accounted for awards granted to directors, corporate auditors and employees of the Company's unconsolidated managed franchises and to other non-employees, in accordance with SFAS No. 123 and EITF 00-12. As a result of cancellations, options outstanding to directors, corporate auditors and employees of the Company's unconsolidated managed franchises and to other non-employees were 23,338 ordinary shares, 21,916 ordinary shares and 11,476 ordinary shares at December 31, 2002, 2003 and 2004, respectively. The Company recorded compensation expense related to the directors, corporate auditors and employees of the Company's unconsolidated managed franchises and other non-employees of ¥64,058 thousand, ¥117,359 thousand and ¥93,484 thousand for the years ended December 31, 2002, 2003 and 2004, respectively, which has been included in selling, general and administrative expense for the Company's non-employees and in equity in earnings of affiliates for employees of affiliated companies in the accompanying consolidated statements of operations.

12. Fair Value of Financial Instruments

For financial instruments other than long-term loans, lease obligations and interest rate swap agreements, the carrying amount approximates fair value because of the short maturity of these instruments. Based on the borrowing rates currently available to the Company for bank loans with similar terms and average maturities, the fair value of long-term debt and capital lease obligations at December 31, 2003 and 2004 are as follows (Yen in thousands):

	2003		2004	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value

14. Commitments

In connection with the September 1, 2000 acquisition of Titus Communications Corporation (Titus), Microsoft and the Company entered into a gain recognition agreement with respect to the Titus shares and assets acquired. The Company agreed not to sell during any 18-month period, without Microsoft consent, any shares of Titus, or sell any of Titus assets, valued at \$35 million or more, in a transaction that would result in taxable income to Microsoft. Microsoft will retain this consent right until the earlier of June 30, 2006 or the

date Microsoft owns less than 5% of the Company's ordinary shares and Microsoft has sold, in taxable transactions, 80% of the Company's ordinary shares issued to it in connection with the Titus acquisition.

The Company has guaranteed payment of certain bank loans for its equity method affiliate investee, CATV Kobe, and its cost method investee Bay Communications Inc. The guarantees are based on an agreed-upon proportionate share of the bank loans among certain of the entities' shareholders, considering each of their respective equity interest. The term of the guarantee ranges from 5 to 12 years and the aggregate guaranteed amounts were ¥796,233 thousand, ¥722,531 thousand and ¥179,072 thousand as of December 31, 2002, 2003 and 2004, respectively. Management believes that the likelihood the Company would be required to perform or otherwise incur any significant losses associated with any of these guarantees is remote.

15. Subsequent Events

On February 9, 2005, the Company entered into a share purchase agreement to purchase from Microsoft, LMI, and SC all of their interest in J-COM Chofu, as well as all of the equity interest owned by Microsoft in Tu-Ka Cellular Tokyo, Inc. and Tu-Ka Cellular Tokai, Inc. (Tu-Ka) on or about February 25, 2005. The Company will pay approximately \$24 million (approximately ¥2,500 million) to Microsoft, approximately ¥972 million to LMI and approximately ¥940 million to SC for their respective Chofu or Tu-Ka shares. Consideration for J-COM Chofu shares will be in cash at closing, and the Tu-Ka shares will be transferred in exchange for a non-interest-bearing promissory note to Microsoft that is payable 5 business days after a successful IPO in Japan by the Company.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

Jupiter Programming Co. Ltd.:

We have audited the accompanying consolidated balance sheets of Jupiter Programming Co. Ltd. and subsidiaries as of December 31, 2003 and 2004, and the related consolidated statements of operations, shareholders' equity and comprehensive income, and cash flows for each of the years in the two-year period ended December 31, 2004. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Jupiter Programming Co., Ltd. and subsidiaries as of December 31, 2003 and 2004, and the results of their operations and their cash flows for each of the years in the two-year period ended December 31, 2004, in conformity with U.S. generally accepted accounting principles.

Jupiter Programming Co. Ltd. (the Company) and its subsidiaries (hereafter collectively referred to as JPC) invest in, develop, manage and distribute television programming to cable and satellite systems in Japan. Jupiter Shop Channel Co., Ltd (Shop Channel), through which JPC markets and sells a wide variety of consumer products and accessories, is JPC's largest channel in terms of revenue, comprising approximately 80%, 81%, and 83%, of total revenues for the years ended December 31, 2002, 2003 and 2004, respectively. JPC's business activities are conducted in Japan and serve the Japanese market.

The Company is owned 50% by Liberty Media International, Inc. (LMI) through its wholly owned subsidiaries Liberty Programming Japan, Inc. (43%) and Liberty Programming Japan II LLC (7%), and 50% by Sumitomo Corporation. The Company was incorporated in 1996 in Japan under the name Kabushiki Kaisha Jupiter Programming, Jupiter Programming Co. Ltd. in English.

(b) *Basis of Consolidated Financial Statements*

The consolidated statements of operations, shareholders' equity and comprehensive income and cash flows for the year ended December 31, 2002, as well as the related footnote disclosures for that year, are unaudited. These consolidated financial statements for 2002 have been prepared on a consistent basis with the 2003 and 2004 consolidated financial statements and reflect all adjustments that in the opinion of management are necessary to present the results of operations and cash flows for 2002 in accordance with the accounting principles generally accepted in the United States of America.

The Company and its subsidiaries maintain their books of account in accordance with accounting principles generally accepted in Japan. The consolidated financial statements presented herein have been prepared in a manner and reflect certain adjustments that are necessary to conform them to accounting principles generally accepted in the United States of America. The major areas requiring such adjustment are accounting for derivative instruments and hedging activities, accounting for assets held under finance lease arrangements, accounting for goodwill and other intangible assets, employers' accounting for pensions, accounting for compensated absence, accounting for deferred taxes, accounting for cooperative marketing arrangements and certain customer discounts, and accounting for the non-cash contribution of Liberty J Sports, Inc., from LMI.

(c) *Principles of Consolidation*

The consolidated financial statements include the financial statements of the Company and all of its majority owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. JPC accounts for investments in variable interest entities in accordance with the provisions of the Revised Interpretation of the FASB Interpretation (FIN) No. 46 Consolidation of Variable Interest Entities, issued in December 2003. The Revised Interpretation of FIN No. 46 provides guidance on how to identify a variable interest entity (VIE), and determines when the assets, liabilities, non-controlling interests, and results of operations of a VIE must be included in a company's consolidated financial statements. A company that holds variable interests in an entity is required to consolidate the entity if the company's interest in the VIE is such that the company will absorb a majority of the VIE's expected losses and/or receive a majority of the entity's expected residual returns, if any. VIEs created after December 31, 2003 must be accounted for under FIN No. 46R. For nonpublic companies, FIN No. 46R must be applied to all VIEs created before January 1, 2004 that are subject to this Interpretation by the beginning of the first annual period beginning after December 15, 2004. There has been no material effect to JPC's consolidated financial statements from potential VIEs entered into after December 31, 2003 and there was no impact from the adoption of the deferred provisions effective January 1, 2005.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(d) Cash Equivalents

Cash equivalents consist of highly liquid debt instruments with an initial maturity of three months or less from the date of purchase.

(e) Allowance for doubtful accounts

Allowance for doubtful accounts is computed based on historical bad debt experience and includes estimated uncollectible amounts based on an analysis of certain individual accounts, including claims in bankruptcy.

(f) Retail Inventories

Retail Inventories, consisting primarily of products held for sale on Shop Channel, are stated at the lower of cost or market value. Cost is determined using the first-in, first-out method.

(g) Program Rights and Language Versioning

Rights to programming acquired for broadcast on the programming channels and language versioning are stated at the lower of cost and net realizable value. Program right licenses generally state a fixed time period within which a program can be aired, and generally limit the number of times a program can be aired. The licensor retains ownership of the program upon expiration of the license. Programming rights and language versioning costs are amortized over the license period for the program rights based on the nature of the contract or program. Where airing runs are limited, amortization is generally based on runs usage, where usage is unlimited, a straight line basis is used as an estimate of actual usage for amortization purposes. Certain sports programs are amortized fully upon first airing. Such amortization is included in programming and distribution expense in the accompanying consolidated statements of operations.

The portion of unamortized program rights and language versioning costs expected to be amortized within one year is classified as a current asset in the accompanying consolidated balance sheets.

(h) Investments

For those investments in affiliates in which JPC's voting interest is 20% to 50% and JPC has the ability to exercise significant influence over the affiliates' operations and financial policies, the equity method of accounting is used. Under this method, the investment is originally recorded at cost and is adjusted to recognize JPC's share of the net earnings or losses of its affiliates. JPC recognizes its share of losses of an equity method affiliate until its investment and net advances, if any, are reduced to zero and only provides for additional losses in the event that it has guaranteed obligations of the equity method affiliate or is otherwise committed to provide further financial support.

The difference between the carrying value of JPC's investment in the affiliate and the underlying equity in the net assets of the affiliate is recorded as equity method intangible assets where appropriate and amortized over a relevant period of time, or as residual goodwill. Equity method goodwill is not amortized but continues to be reviewed for impairment in accordance with APB No. 18, which requires that an other than temporary decline in value of an investment be recognized as an impairment loss.

Investments in other securities carried at cost represent non-marketable equity securities in which JPC's ownership is less than 20% and JPC does not have the ability to exercise significant influence over the entities' operation and financial policies.

JPC evaluates its investments in affiliates and non-marketable equity securities for impairment due to declines in value considered to be other than temporary. In performing its evaluations, JPC utilizes various sources of information, as available, including cash flow projections, independent valuations and, as applicable, stock

price analysis. In the event of a determination that a decline in value is other than temporary, a charge to income is recorded for the loss, and a new cost basis in the investment is established.

(i) Derivative Financial Instruments

Under Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities , as amended, entities are required to carry all derivative instruments in the consolidated balance sheets at fair value. The accounting for changes in the fair value (that is, gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and, if so, on the reason for holding the instrument. If certain conditions are met, entities may elect to designate a derivative instrument as a hedge of exposures to changes in fair values, cash flows, or foreign currencies. If the hedged exposure is a fair value exposure, the gain or loss on the derivative instrument is recognized in earnings in the period of change together with the offsetting loss or gain on the hedged item attributable to the risk being hedged. If the hedged exposure is a cash flow exposure, the effective portion of the gain or loss on the derivative instrument is reported initially as a component of other comprehensive income (loss) and subsequently reclassified into earnings when the forecasted transaction affects earnings. Any amounts excluded from the assessment of hedge effectiveness as well as the ineffective portion of the gain or loss are reported in earnings immediately. If the derivative instrument is not designated as a hedge, the gain or loss is recognized in income in the period of change.

JPC uses foreign exchange forward contracts to manage currency exposure, resulting from changes in foreign currency exchange rates, on purchase commitments for contracted programming rights and other contract costs and for forecasted inventory purchases in U.S. dollars. JPC enters into these contracts to hedge its U.S. dollar denominated net monetary exposures. Hedges relating to purchase commitments for contracted programming rights and other contract costs may qualify for hedge accounting under the hedging criteria specified by SFAS No. 133. However prior to January 1, 2004, JPC elected not to designate any qualifying transactions as hedges. For certain qualifying transactions entered into since January 1, 2004, JPC has designated the transactions as cash flow hedges and the effective portion of the gain or loss on the derivative instrument is reported as a component of other comprehensive loss. For JPC 's foreign exchange forward contracts that do not qualify for hedge accounting under the hedging criteria specified by SFAS No. 133, changes in the fair value of derivatives are recorded in the consolidated statement of operations in the period of the change.

JPC does not, as a matter of policy, enter into derivative transactions for the purpose of speculation.

(j) Property and Equipment

Property and equipment are stated at cost.

Depreciation and amortization is generally computed using the straight line method over the estimated useful lives of the respective assets as follows:

Furniture and fixtures	2-20 years
Leasehold and building improvements	3-18 years
Equipment and vehicles	2-15 years
Buildings	37-50 years

Equipment under capital leases is initially stated at the present value of minimum lease payments. Equipment under capital leases is amortized using the straight line method over the shorter of the lease term and the estimated useful lives of the respective assets, which generally range from three to nine years.

(k) Software Development Costs

JPC capitalizes certain costs incurred to purchase or develop software for internal use. Costs incurred to develop software for internal use are expensed as incurred during the preliminary project stage, including costs associated with making strategic decisions and determining performance and system requirements regarding the project, and vendor demonstration costs. Labor costs incurred subsequent to the preliminary project stage through implementation are capitalized. JPC also expenses costs incurred for internal use software projects in the post implementation stage such as costs for training and maintenance. The capitalized cost of software is amortized straight-line over the estimated useful life, which is generally two to five years.

(l) Goodwill and Other Intangible Assets

Goodwill represents the excess of costs over fair value of net assets of businesses acquired. In June 2001, the FASB issued SFAS No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 141 requires the use of the purchase method of accounting for business combinations and establishes certain criteria for the recognition of intangible assets separately from goodwill. Under SFAS No. 142 goodwill is no longer amortized, but instead is tested for impairment at least annually. Intangible assets with definite useful lives are amortized over their respective estimated useful lives and reviewed for impairment in accordance with SFAS No. 144,

Accounting for the Impairment or Disposal of Long-Lived Assets. Any recognized intangible assets determined to have an indefinite useful life are not amortized, but instead are tested for impairment until their life is determined to be no longer indefinite.

JPC performs its annual impairment test for goodwill and indefinite-life intangible assets at the end of each year. JPC completed its annual impairment tests at December 31, 2002, 2003 and 2004, respectively, with no indication of impairment identified.

(m) Long-Lived Assets and Long-Lived Assets to Be Disposed Of

JPC accounts for long-lived assets in accordance with the provisions of SFAS No. 144. SFAS No. 144 requires that long-lived assets and certain identifiable intangibles with definite useful lives be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. Fair value is determined by independent third party appraisals, projected discounted cash flows, or other valuation techniques as appropriate.

In June 2001, the FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations. The standard requires that obligations associated with the retirement of tangible long-lived assets be recorded as liabilities when those obligations are incurred, with the amount of the liability initially measured at fair value. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. SFAS No. 143 is effective for financial statements issued for fiscal years beginning after June 15, 2002. JPC adopted SFAS No. 143 on January 1, 2003 and the adoption did not have a material effect on its results of operations, financial position or cash flows.

(n) Accrued Pension and Severance Costs

The Company and certain of its subsidiaries provide a Retirement Allowance Plan (RAP) for eligible employees. The RAP is an unfunded retirement allowance program in which benefits are based on years of service which in turn determine a multiple of final monthly compensation. JPC accounts for the RAP in accordance with the provisions of SFAS No. 87, Employers Accounting for Pensions .

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In addition, JPC employees participate in an Employees Pension Fund (EPF) Plan. The EPF Plan is a multi-employer plan consisting of approximately 120 participating companies, mainly affiliates of Sumitomo Corporation. The plan is composed of substitutional portions based on the pay-related part of the old age pension benefits prescribed by the Welfare Pension Insurance Law in Japan, and corporate portions based on contributory defined benefit pension arrangements established at the discretion of the Company and its subsidiaries. Benefits under the EPF Plan are based on years of service and the employee's compensation during the five years before retirement.

The assets of the EPF Plan are co-mingled and no assets are separately identifiable for any one participating company. JPC accounts for the EPF Plan in accordance with the provisions of SFAS No. 87, governing multi-employer plans. Under these provisions, JPC recognizes a net pension expense for the required contribution for each period and recognizes a liability for any contributions due but unpaid at the end of each period. Any shortfalls in plan funding are charged to participating companies on a share-of-contribution basis through special contributions spread over a period of years determined by the EPF Plan as being appropriate.

(o) Revenue Recognition

Retail sales. Revenue from sales of products by Shop Channel is recognized when the products are delivered to customers, which is when title and risk of loss transfers. Shop Channel's retail sales policy allows merchandise to be returned at the customer's discretion, generally up to 30 days after the date of sale. Retail sales revenue is reported net of discounts, and of estimated returns, which are based upon historical experience.

Television Programming Revenue. Television programming revenue includes subscription and advertising revenue. Subscription revenue is recognized in the periods in which programming services are provided to cable and satellite subscribers. JPC's channels distribute programming to individual satellite platform subscribers through an agreement with the platform operator which provides subscriber management services to channels in return for a fee based on subscription revenues. Individual subscribers pay a monthly fee for programming channels under the terms of rolling one-month subscription contracts. Cable service providers generally pay a per-subscriber fee for the right to distribute JPC's programming on their systems under the terms of generally annual distribution contracts. Subscription revenue is recognized net of satellite platform commissions and certain cooperative marketing and advertising funds paid to cable system operators. Satellite platform commissions for the years ended December 31, 2002, 2003 and 2004 were ¥843,335 thousand, ¥1,580,945 thousand and ¥1,639,055 thousand, respectively. Cooperative marketing and advertising funds paid to cable system operators for the years ended December 31, 2002, 2003 and 2004 were ¥80,289 thousand, ¥174,432 thousand and ¥225,572 thousand, respectively.

The Company generates advertising revenue on all of its programming channels except Shop Channel. Advertising revenue is recognized, net of agency commissions, when advertisements are broadcast on JPC's programming channels.

Services and Other Revenue. Services and other revenue mainly comprises cable and advertising sales fees and commissions, and technical broadcast facility and production services provided by the Company and certain subsidiaries, and is recognized in the periods in which such services are provided to customers.

(p) Cost of Retail Sales

Cost of retail sales consists of the cost of products marketed to customers by Shop Channel, including write-downs for inventory obsolescence, shipping and handling costs and warehouse costs. Product costs are recognized as cost of retail sales in the accompanying consolidated statements of operations when the products are delivered to customers and the corresponding revenue is recognized.

(q) Cost of Programming and Distribution

Cost of programming and distribution consists of costs incurred to acquire or produce programs airing on the channels distributed to cable and satellite subscribers. Distribution costs include the costs of delivering the programming channels via satellite, including the costs incurred for uplink services and use of satellite transponders, and payments made to cable and satellite platforms for carriage of Shop Channel.

(r) Advertising Expense

Advertising expense is recognized as incurred and is included in selling, general and administrative expenses or, if appropriate, as a reduction of subscription revenue. Cooperative marketing costs are recognized as an expense to the extent that an identifiable benefit is received and the fair value of the benefit can be reasonably measured, otherwise as a reduction of subscription revenue. Advertising expense included in selling, general and administrative expenses for the years ended December 31, 2002, 2003 and 2004 was ¥1,062,757 thousand, ¥1,003,836 thousand and ¥1,333,596 thousand, respectively.

(s) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(t) Foreign Currency Transactions

Assets and liabilities denominated in foreign currencies are translated at the applicable current rates on the balance sheet dates. All revenue and expenses denominated in foreign currencies are converted at the rates of exchange prevailing when such transactions occur. The resulting exchange gains or losses are reflected in other income (expense) in the accompanying consolidated statements of operations.

(u) Use of Estimates

Management of JPC has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period, to prepare these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Significant items subject to such estimates and assumptions include valuation allowances for accounts receivable, retail inventories, investments, deferred tax assets, retail sales returns, and obligations related to employees' retirement plans. Actual results could differ from estimates.

(v) New Accounting Standards

In November 2004, the FASB issued SFAS No. 151, Inventory Costs—an amendment of ARB No. 43. This Statement amends the guidance in ARB No. 43, Chapter 4, Inventory Pricing, to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). Paragraph 5 of ARB 43, Chapter 4, previously stated that ... under some circumstances, items such as idle facility expense, excessive spoilage, double freight, and rehandling costs may be so abnormal as to require treatment as current period charges... . This Statement requires that those items be recognized as current-period charges regardless of whether they meet the criterion of so abnormal. In addition, this Statement requires

that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. This statement is effective for inventory costs incurred during annual periods beginning after June 15, 2005. JPC does not expect the adoption of this statement will have a material effect on its consolidated financial statements.

(w) Reclassification

Certain prior year amounts have been reclassified for comparability with the current year presentation.

(2) Acquisitions

On May 1, 2002, JPC acquired 100% of the outstanding common stock of Misawa Satellite Broadcasting Ltd. (MSB), a television programming company. The aggregate purchase price was ¥188,844 thousand and was paid in cash. The acquisition was accounted for as a purchase. On January 1, 2003, JPC merged the business operations of MSB with its wholly-owned subsidiary, Jupiter Satellite Broadcasting Co., Ltd. MSB operated Home Channel and as a result of the acquisition, JPC is expected to increase direct-to-home revenue from the packages in which Home Channel was carried. The results of operations of MSB are included in the accompanying consolidated statements of operations from May 1, 2002 onward. Goodwill from the acquisition of MSB is not deductible for tax purposes. The following table summarizes the estimated fair value of the assets acquired and liabilities assumed at the date of acquisition of MSB (Yen in thousands):

Current assets	¥	139,787
Goodwill		183,655
Total assets acquired		323,442
Current liabilities assumed		(134,598)
Net assets acquired	¥	188,844

In addition to the goodwill recognized from the MSB transaction, ¥7,827 thousand of other goodwill was recorded in 2002.

In April 2004, JPC acquired all of the issued and outstanding common stock of Liberty J Sports, Inc. (LJS) from LMI, in exchange for 24,000 shares of JPC's common stock held in treasury having a fair value, as determined by independent appraisal, of ¥250,000 per share. The aggregate purchase price amounted to ¥6,000,000 thousand. Immediately prior to the acquisition, LJS held 33.3% of the issued and outstanding shares of voting common stock of Jupiter Sports, Inc., with JPC holding the remaining 66.7%. Jupiter Sports Inc. is a holding company with its only principal asset, an investment, representing approximately 42.8% of the issued and outstanding voting common stock, in JSports Broadcasting Corporation (JSB). JSB is a sports channel broadcasting company currently operating three channels of various sports related contents. Jupiter Sports Inc. accounts for its investment in JSB using the equity method of accounting as it is able to exercise significant influence over the operations of JSB. As a result of the acquisition of LJS, JPC has increased its indirect ownership in JSB from 28.5% to 42.8%. Upon consummation of the acquisition, LJS was converted to a limited liability company with the Certificate of Conversion filed with the Secretary of State of Delaware, and renamed J Sports LLC.

The acquisition was consummated in concert with a series of capital transactions as described in Note 15 to the consolidated financial statements.

The Company has accounted for the acquisition to the extent of the ¥3,000,000 thousand cash paid to LMI in an earlier redemption of shares of common stock (see Note 15) in a manner similar to a partial step acquisition, reflecting the culmination of an earnings process on the part of LMI. Accordingly, the excess of

¥3,000,000 thousand over 50% of the fair value of the assets acquired and liabilities assumed with respect to the underlying investment in JSB has been recorded as a component of JPC's investment in JSB and accordingly has been classified as equity method goodwill. Management has determined that the fair value of the assets acquired and liabilities assumed approximated their respective carrying values at the date of acquisition, and that there were no material intangible assets applicable to the underlying investment in JSB. The balance of the underlying investment acquired in JSB has been accounted for at historical cost using carryover basis with the difference of ¥3,000,000 thousand over such historical cost amount being reflected as a deduction from additional paid in capital. Goodwill from the acquisition is not deductible for tax purposes.

The following table summarizes the allocation of the acquisition consideration (Yen in thousands):

Purchase accounting:

Historical cost of 50% of underlying net assets acquired		200,990
Carryover basis adjustment to additional paid in capital	¥	2,799,010

On December 28, 2004, JPC acquired 100% of the outstanding shares of BB Factory Corporation Ltd. (BBF), a television programming company. The aggregate purchase price is estimated to be ¥618,000 thousand, of which ¥550,000 thousand was paid in cash on December 28, 2004. The estimated additional purchase consideration of ¥68,000 has been accrued at December 31, 2004. The amount was determined with reference to the net asset value of BBF at January 31, 2005, pending final approval by both parties to the transaction. The additional purchase amount for BBF shall be settled in cash no later than March 31, 2005. The acquisition was accounted for as a purchase. JPC intends to sell access rights to the BBF broadcasting infrastructure to a new joint venture in which the JPC will hold a 50% interest. The new joint venture will be named Reality TV Japan, and was incorporated on January 26, 2005. BBF operated Channel BB and as a result of the acquisition, JPC expects to decrease funding requirements for Reality TV Japan due to its access to direct-to-home revenue from the packages in which Channel BB was carried. JPC has recognized intangible assets in the amount of ¥200,000 thousand representing estimated financial benefits from taking over Channel BB's position in those packaging alliances, which it will amortize over a ten year period from 2005. The results of operations of BBF will be included in JPC's consolidated statements of operations from January 1, 2005. Goodwill from the acquisition of BBF is not deductible for tax purposes.

The following table summarizes the estimated fair value of the assets acquired and liabilities assumed at the date of acquisition of BBF (Yen in thousands).

In August 2003, the Company invested ¥863,311 thousand to acquire a 35% interest in AXN Japan, Inc. (AXN). During 2004 JPC provided cash loans in the amount of ¥98,500 thousand to AXN. AXN is an action and adventure entertainment channel that complements JPC's channel businesses.

In December 2004, the Company invested ¥485,000 thousand and acquired a 50% voting interest in Jupiter VOD Co., Ltd. (JVOD). JVOD is a video on demand service that will begin providing on-demand video services primarily to digitized cable systems capable of receiving its service from January 2005.

The carrying amount of investments in affiliates as of December 31, 2003, included ¥751,940 thousand of excess cost of the investments over the Company's equity in the net assets of AXN. The carrying amount of investments in affiliates as of December 31, 2004, included ¥751,940 thousand and ¥2,799,010 thousand of excess cost of the investments over the Company's equity in the net assets of AXN and JSB, respectively. The amount of that excess cost represents equity method goodwill.

JPC holds 33.3% of the ordinary shares of Animal Planet Japan, Co. Ltd, and records its share of the earnings and losses in accordance with that ordinary shareholding ratio. The Company has funding obligations in accordance with its ordinary shareholding ratio up to a maximum of ¥1,295,250 thousand. During the years ended December 31, 2003

and 2004, the Company invested ¥370,000 thousand and ¥165,000 thousand, respectively, and had made an aggregate investment of ¥1,295,000 thousand as of December 31, 2004, in

(9) Derivative Instruments and Hedging Activities

JPC uses foreign exchange forward contracts that extend 3 to 52 months to manage currency exposure, resulting from changes in foreign currency exchange rates, on purchase commitments for contracted programming rights and other contract costs and for forecasted inventory purchases in U.S. dollars. JPC enters into these contracts to hedge its U.S. dollar denominated monetary exposures.

JUPITER PROGRAMMING CO. LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

JPC does not enter into derivative financial transactions for trading or speculative purposes.

JPC is exposed to credit-related losses in the event of non-performance by the counterparties to derivative financial instruments, but they do not expect the counterparties to fail to meet their obligations because of the high credit rating of the counterparties.

For certain qualifying transactions entered into from January 1, 2004, JPC designates the transactions as cash flow hedges and the effective portion of the gain or loss on the derivative instrument is reported as a component of other accumulated comprehensive loss. The amount of hedge ineffectiveness recognized currently in foreign exchange gain was not material for the year ended December 31, 2004. These amounts are reclassified into earnings through loss (gain) on forward exchange contracts when the hedged items impact earnings. Accumulated losses, net of taxes, of ¥16,705 thousand are included in accumulated other comprehensive loss at December 31, 2004, and will be reclassified into earnings within twelve months. No cash flow hedges were discontinued during the year ended December 31, 2004 as a result of forecasted transactions that are no longer probable to occur.

JPC has entered into foreign exchange forward contracts designated but not qualified as hedging instruments under SFAS No. 133 as a means of hedging certain foreign currency exposures. JPC records these contracts on the balance sheet at fair value. The changes in fair value of such instruments are recognized currently in earnings and are included in foreign exchange (loss) gain.

At December 31, 2003, the fair value of forward exchange contracts not designated as hedging instruments recognized in the balance sheet was a liability of ¥241,507 thousand. At December 31, 2004, the fair value of forward exchange contracts recognized in the balance sheet was a liability of ¥174,959 thousand and an asset of ¥18,813 thousand.

(10) Fair Value of Financial Instruments

The carrying amounts for financial instruments in JPC's consolidated financial statements at December 31, 2003 and 2004 approximate to their estimated fair values. Fair value estimates are made at a specific point in time based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments: *Cash and cash equivalents, accounts receivable, accounts payable, income taxes payable, accrued liabilities, and other current liabilities (non-derivatives)*: The carrying amounts approximate fair value because of the short duration of these instruments.

Foreign exchange forward contracts: The carrying amount is reflective of fair value. The fair value of currency forward contracts is estimated based on quotes obtained from financial institutions. As at December 31, 2003, fair value of foreign exchange forward contracts of ¥241,507 thousand was included in the consolidated balance sheet under other current liabilities. As at December 31, 2004, fair value of foreign exchange forward contracts of ¥18,813 thousand was included in the consolidated balance sheet under other current assets, and ¥174,959 thousand was included under other current liabilities.

Long-term debt, including current maturities and short-term debt: The fair value of JPC's long-term debt is estimated by discounting the future cash flows of each instrument by a proxy for rates expected to be incurred on similar borrowings at current rates. Borrowings bear interest based on certain financial ratios that determine a margin over Euroyen TIBOR, and are therefore variable. JPC believes the carrying amount approximates fair value based on the variable rates and currently available terms and conditions for similar debt.

Capital lease obligations, including current installments: The carrying amount is reflective of fair value. The fair value of JPC's capital lease obligations is estimated by discounting the future cash flows of each instrument at rates currently offered to JPC by leasing companies.

(11) Leases

JPC is obligated under various capital leases for certain equipment and other assets that expire at various dates, generally during the next five years. At December 31, 2003 and 2004, the gross amount of equipment and the related accumulated amortization recorded under capital leases were as follows (Yen in thousands):

	2003	2004
Equipment and vehicles	¥ 1,794,097	¥ 1,839,215
Others	99,667	126,368
Less accumulated amortization	(1,417,805)	(865,908)
	¥ 475,959	¥ 1,099,675

Amortization of assets held under capital leases is included with depreciation and amortization expense. Leased equipment is included in property and equipment (note 5).

Future minimum capital lease payments as of December 31, 2004 were as follows (Yen in thousands):

Year ending December 31,	
2005	¥ 313,917

Present value of future minimum capital lease payments	1,113,201
Less current installments	(290,031)
	¥ 823,170

JPC also has several operating leases, primarily for office space, that expire over the next 10 years and a 30-year lease for land that expires in 29 years. Rent expense for the years ended December 31, 2002, 2003 and 2004 was ¥238,621 thousand, ¥275,264 thousand and ¥332,530 thousand, respectively.

The Company leases two principle office premises. JPC headquarters has a three-year lease agreement from August 2004, with a rolling two-year right of renewal that provides for annual rental costs of ¥245,118 thousand. Shop Channel has a 10-year agreement expiring in October 2013 with an annual rental cost of ¥185,905 thousand. These and other leases for office space are mainly cancelable upon six months notice. Accordingly, the schedule below detailing future minimum lease payments under non-cancelable operating leases includes the lease costs for the

Company's premises for only a six-month period.

At December 31, 2004, the Company had a ¥10,000,000 thousand credit facility (the Facility) available for immediate and full borrowing with a group of banks. The Facility, which is guaranteed by certain of the Company's subsidiaries, comprises an ¥8,000,000 thousand five-year term loan and a ¥2,000,000 thousand 364-day revolving facility.

Outstanding borrowings under the five-year term loan at December 31, 2003 and 2004 were ¥4,000,000 thousand. There were no borrowings outstanding under the 364-day revolving facility as of December 31, 2003 and 2004. The Company pays a commitment fee of 0.20% on undrawn borrowings of the Facility. Interest on outstanding borrowings is based on certain financial ratios and can range from Euroyen TIBOR + 0.75% to TIBOR + 2.00% for the five-year term loan and from TIBOR + 0.70% to TIBOR + 1.00% for the 364-day revolving facility. The interest rates charged at December 31, 2003 and 2004 for the five-year term loan and for the 364-day revolving facility were 0.83% and

0.835% and 0.78% and 0.785%, respectively.

The term loan portion of the Facility is available for immediate and full borrowing to be drawn upon until December 25, 2005. Repayment by installments begins on March 31, 2006, on a quarterly basis, equal to 10% of the outstanding balance at the end of the availability period, until fully repaid on June 25, 2008. The 364-day revolving facility was renewed on June 22, 2004 and is available for immediate and full borrowing until June 22, 2005, and repayment in full is due on that date.

The Facility contains certain financial and other restrictive covenants. The financial covenants consist of: (i) EBITDA, as defined by the Facility agreement and reported on a Commercial Code of Japan basis, shall be equal to or exceed; for year 2004, ¥3,000,000 thousand; for year 2005, ¥3,500,000 thousand; for year 2006, ¥4,000,000 thousand; for year 2007, ¥5,000,000 thousand; and (ii) Actual Amount of Investment, as defined by the Facility agreement, shall not exceed Maximum Amount of Investment as defined, provided that, in respect of a year, an amount equal to the excess of Maximum over Actual amount of investment shall be added to the Maximum Amount of Investment of the next following year. Maximum amounts of investment are defined relative to prior year EBITDA and other specified amounts.

Restrictive covenants contained in the Facility agreement include certain restrictions on: (i) creation of contractual security interests over the Company's assets; (ii) sale of assets that would result in material adverse effect, or would comprise over 10% of total assets; (iii) corporate reorganization that would result in material adverse effect; (iv) sale of shares in principal subsidiaries; (v) distribution of dividends, repurchase of own shares, and repayment of subordinated loans; (vi) amendment of subordinated loan agreements; (vii) transactions with related parties other than in normal course of business, (viii) changes in fundamental nature of business; (ix) incursion of interest-bearing debt not contemplated in the Facility agreement; (x) transfer, creation of security interests on, or otherwise disposal of the Company's shares; (xi) changes in control of the Company management by parent companies; (xii) purchase of shares in companies in unrelated business areas; and (xiii) changes in scope of the business of a particular subsidiary. JPC was in compliance with these covenants at December 31, 2004.

JPC has outstanding term borrowings of ¥500,000 thousand from each of LMI and Sumitomo Corporation. The borrowings are subordinated to the Facility described above. The borrowings bear interest at the higher of the rate applicable to the term loan portion of the Facility, and Japan Long Term Prime rate (1.85% and 1.55% at December 31, 2003 and 2004, respectively), and are due in full on July 26, 2008.

JPC had the following debt of certain subsidiaries due to minority shareholders in those subsidiaries:

As of December 31, 2003 JPC had outstanding borrowings of ¥836,000 thousand by Jupiter Sports Inc. due to Liberty J Sports, Inc., an indirect wholly owned subsidiary of LMI. The borrowings bore interest at the higher of the rate applicable to the term loan portion of the Facility and Japan Long Term Prime rate (1.85% at December 31, 2003), and was due in full on December 31, 2007. In April 2004, JPC acquired all of the issued and outstanding shares of Liberty J Sports, Inc. from LMI. Upon acquiring control, the outstanding borrowings were eliminated in consolidation of Liberty J Sports, Inc., which was subsequently renamed J Sports LLC. Note 2 provides further details of this acquisition.

As of December 31, 2003 JPC had outstanding borrowings of ¥180,000 thousand by Jupiter Shop Channel Co., Ltd. due to Home Shopping Network Inc. The borrowings bore interest at the Japan Short Term Prime rate (1.375% at December 31, 2003). The borrowings were due in full on December 31, 2005 and were repaid early in full in December 2004. No gain or loss was recognized on this repayment transaction.

In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible or in which the operating losses are available for use. The Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that the Company will realize the benefit of these deductible differences, net of the existing valuation allowance. The amount of the deferred tax asset considered realizable, however, could be reduced in the near term if estimates of the future taxable income during the carryforward period are reduced.

At December 31, 2004, JPC and its subsidiaries had total net operating loss carryforwards for income tax purposes of approximately ¥2,199,795 thousand, which are available to offset future taxable income, if any. JPC's subsidiaries are subject to taxation on a stand-alone basis and net operating loss carryforwards may not be utilized against other group company profits. Aggregated net operating loss carryforwards, if not utilized, expire as follows (Yen in thousands):

Year ending December 31,

The Company and its subsidiaries were subject to Japanese National Corporate tax of 30%, an Inhabitant tax of 6% and a deductible Enterprise tax of 10%, which in aggregate result in a statutory tax rate of 42.1%. On March 24, 2003, the Japanese Diet approved the Amendments to Local Tax Law, reducing the standard enterprise tax rate from 10.08% to 7.2%. The amendments to the tax rates became effective for fiscal years beginning on or after April 1, 2004.

Consequently, the statutory income tax rate was lowered to approximately 40.7% for deferred tax assets and liabilities expected to be settled or realized on or after January 1, 2005. As a result of the decrease in the statutory tax rate, when compared with the amounts based on the tax rate applied before this revision, the net deferred tax assets decreased by approximately ¥47,119 thousand at December 31, 2004. increases ranged from 1% to 4.1% depending on employees' age for the years ended December 31, 2002, 2003 and 2004.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid (Yen in thousands):

Year ending December 31,		
2005	¥	16,206
2006		25,570
2007		25,291
2008		29,482
2009		34,715
Years 2010-2014		174,596

JPC uses a measurement date of December 31 for all of its unfunded Retirement Allowance Plans.

In addition, employees of the Company and certain of its subsidiaries participate in a multi-employer defined benefit EPF plan. The Company contributions to this plan amounted to ¥56,976 thousand, ¥60,322 thousand, and ¥44,510 thousand for the years ended December 31, 2002, 2003 and 2004, respectively, and are included in selling, general and administrative expenses in the accompanying consolidated statements of operations.

(15) Shareholders' Equity

The Commercial Code of Japan, provides that an amount equal to at least 10% of cash dividends and other cash appropriations paid be appropriated as a legal reserve until the aggregated amount of additional paid-in capital and the legal reserve equals 25% of the issued capital.

The Company paid no cash dividends for the years ended December 31, 2002, 2003 and 2004. The amount available for dividends under the Commercial Code of Japan is based on the unappropriated retained earnings recorded in the Company's books of account and amounted to nil at December 31, 2004.

On January 30, 2004, the total number of JPC's ordinary shares authorized to be issued was increased from 450,000 to 460,000 shares.

On March 5, 2004, JPC transferred ¥8,400,000 thousand of common stock to additional paid-in capital (¥6,587,064 thousand) and accumulated deficit (¥1,812,936 thousand). The transfer was approved by the Company's stockholders in accordance with the Commercial Code of Japan, which allows a company to make a purchase of its own shares, as contemplated in the further transaction noted below, only from specified additional paid-in capital or retained earnings reserves. JPC purchased its own shares using the resulting additional paid-in capital, and elected at the same time to eliminate its accumulated deficit and generate positive retained earnings on a single entity basis. On a consolidated basis, JPC continued to show an accumulated deficit immediately after that transfer. Such transfer did not impact JPC's total equity, cash position or liquidity. Had the Company been subject to corporate law generally applicable to United States companies for similar transactions, the accumulated deficit at December 31, 2004 would be ¥1,812,936 thousand more than the amount included in the accompanying consolidated financial statements.

During March and April 2004 the following capital transactions occurred and were based on an independent third party valuation of the common stock of JPC:

- 1) Issuance of 24,000 newly issued shares of common stock to Sumitomo Corporation at a rate of ¥250,000 per common share (¥6,000,000 thousand), ¥3,000,000 thousand of which was allocated to common stock with the remaining ¥3,000,000 thousand allocated to additional paid-in capital;

2) Redemption of 12,000 shares of common stock from Sumitomo Corporation at a rate of ¥250,000 per common share (¥3,000,000 thousand) to be held as treasury stock;

3) Redemption of 12,000 shares of common stock from Liberty Programming Japan at a rate of ¥250,000 per common share (¥3,000,000 thousand) to be held as treasury stock;

4) Issuance of 24,000 shares of common stock held in treasury shares to Liberty Programming Japan II Inc. in return for 1,000 shares of common stock in Liberty J Sports Inc. Liberty J Sports Inc. was then converted to a limited liability company with the Certificate of Conversion filed with the Delaware Secretary of State, and was subsequently renamed J Sports LLC. J Sports LLC is a wholly owned subsidiary of JPC.

(16) Related Party Transactions

JPC engages in a variety of transactions in the normal course of business. Significant related party balances, income and expenditures have been separately identified in the consolidated balance sheets and statements of operations. A list of related parties and a description of main types of transactions with each party follows:

Sumitomo Corporation, shareholder, and its subsidiaries: television programming advertising revenues, cost of retail sales, costs of programming and distribution, selling, general and administrative expenses for staff secondment fees, cash deposits, property and equipment capital leases, subordinated loans and interest thereon;

LMI, shareholder, and its subsidiaries: selling, general and administrative expenses for staff secondment fees and recharge of project development costs, subordinated loans and interest thereon;

Discovery Japan, Inc., and Animal Planet Japan, Co. Ltd, affiliate companies: services and other revenues from cable and advertising sales activities and broadcasting, marketing and office support services; costs of programming, distribution relating to direct-to-home subscription revenue and receipt of cash advances;

JSports Broadcasting Corporation, affiliate company: services and other revenues from cable and advertising sales activities and recovery of staff costs for seconded staff;

InteracTV Co., Ltd, affiliate company: pass through of direct-to-home television programming subscription revenues to JPC, costs of programming and distribution payments for transponder services;

Minority interests in Jupiter Golf Network, Co. Ltd, four companies holding total of 10.6%: television programming advertising revenues;

Home Shopping Network Inc.: minority shareholder loans and interest thereon;

Jupiter Telecommunications Co., Ltd, an affiliated company of LMI and Sumitomo Corporation at December 31, 2004, and an indirect consolidated subsidiary of LMI effective January 1, 2005: television programming cable subscription revenues, costs of programming and distribution for carriage of Shop Channel by cable systems.

(17) Concentration of credit risk

As of December 31, 2003 and 2004, SkyPerfectTV, an unrelated party, and Jupiter Telecommunications Co., Ltd (JCom), a related party, agent for sales of programming delivered via satellite and most significant cable system operator, respectively, represented concentrations of credit risk for the Company. For the years ended December 31, 2002, 2003 and 2004, subscription revenues of ¥1,688,119 thousand, ¥2,888,163 thousand and ¥3,095,526 thousand, respectively, received through SkyPerfect TV, accounted for approximately 35%, 45% and 44%, respectively, of subscription revenues, and 5%, 6% and 5%, respectively, of total revenues. As of

JUPITER PROGRAMMING CO. LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2002, 2003 and 2004, SkyPerfect TV accounted for approximately 7%, 5% and 6%, respectively, of accounts receivable.

For the years ended December 31, 2002, 2003 and 2004, subscription revenues of ¥1,207,749 thousand, ¥1,361,897 thousand and ¥1,464,167 thousand, respectively, received through JCom, accounted for approximately 25%, 21% and 21%, respectively, of subscription revenues, and 4%, 3% and 2%, respectively, of total revenues. As of December 31, 2002, 2003 and 2004, JCom accounted for approximately 7%, 6% and 3%, respectively, of accounts receivable.

(18) Commitments, Other Than Leases

At December 31, 2004, JPC has commitments to purchase various program rights as follows (Yen in thousands):

Year ending December 31,		
2005	¥	1,131,527
2006		822,490
2007		37,864
2008		14,205
Total program rights purchase commitments	¥	2,006,086

At December 31, 2004, JPC has commitments for transponder and uplink services as follows (Yen in thousands):

Year ending December 31,		
2005	¥	1,217,059
2006		1,265,173
2007		642,872
2008		523,984
2009		403,459
Thereafter		140,142
Total transponder and uplink services commitments	¥	4,192,689

JPC contracts, through subsidiaries and affiliate licensed broadcasting companies, to utilize capacity on three satellites from two transponder service providers. JPC channels contract for a portion of the capacity available on a transponder according to the bandwidth needs of individual channels. Transponder service contracts are generally ten years in duration. Service fees are based on fixed rates or a fixed portion plus a variable portion based on platform subscriber numbers. Termination is possible on a channel-by-channel basis. One transponder service provider charges termination penalty fees, the other does not charge a fee until the last channel from one licensed broadcaster terminates. Due to the unclear nature of the responsibility for termination fees, commitments are disclosed for the full minimum commitment amounts under the service contracts.

JPC has capital equipment purchase commitments amounting to ¥2,024,206 thousand at December 31, 2004 that must be expended by December 31, 2005.

INDEPENDENT AUDITORS REPORT

The Board of Directors and Stockholders

Torneos y Competencias S.A.:

We have audited the accompanying consolidated balance sheets of Torneos y Competencias S.A. and its subsidiaries as of December 31, 2004 and 2003 and the related consolidated statements of operations and comprehensive income (loss), of changes in stockholders' equity and of cash flows for each of the years in the three-year period ended December 31, 2004. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Torneos y Competencias S.A. and its subsidiaries as of December 31, 2004 and 2003, and the consolidated results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As disclosed in Note 1 to the consolidated financial statements, the Company is in default with respect to two bank loans and certain loans are past due. In addition, at December 31, 2004, the Company has a net working capital deficiency. These matters raise substantial doubt about the Company's ability to continue as a going concern. Management's plans with regards to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

TORNEOS Y COMPETENCIAS S.A.
December 31, 2004, 2003 and 2002
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands of Argentine pesos, except as otherwise mentioned)

1. Description of business, liquidity and basis of presentation**Description of business**

Torneos y Competencias S.A. (TyC or the Company) is an independent producer of Argentine sports and entertainment programming that, through various affiliates, operates a sports programming cable channel; commercializes rights to televise sporting events via cable, satellite and broadcast television; and manages two sports magazines and several thematic soccer bars. TyC s emphasis is on soccer, and it has an exclusive agreement (except for certain cable broadcast rights held by an affiliate) with the *Asociación de Fútbol Argentino*, or AFA , to produce and distribute programs related to matches between clubs in the Argentine professional soccer leagues. This agreement expires in 2010 unless extended to 2014 at TyC s request. TyC produces or co-produces, with its three television studios and the production facilities of its production partners, a number of soccer-based programs, such as *Fútbol de Primera*, *El clásico del Domingo* and *Fútbol de Verano*.

TyC has interests in two magazines: *El Grafico*, which covers Argentine and international sports, with special emphasis on soccer; and *Golf Digest*, the Argentine and Chilean editions of the American golf magazine.

TyC also has the rights to broadcast friendly summer season tournaments in different Argentine cities through 2007. The Company s principal shareholders are:

Shareholders	Ownership percentage
ACH Acquisitions Co.	20%
Telefónica de Contenidos S.A. Unipersonal	20%
A y N Argentina LLC	20%
Liberty Argentina, Inc, a subsidiary of Liberty Media International, Inc (LMI)	40%

TyC s 50% owned affiliate, *Televisión Satelital Codificada S.A.*, or TSC holds the commercial rights in Argentina, with certain exceptions, to televise selected official soccer matches of AFA s Premier Ligue. TSC sells the rights to televise specific matches to cable operators, to an over-the-air broadcast television channel in and around Buenos Aires and, in certain cases, exclusively to the TyC Sports Channel.

Another 50% owned affiliate of TyC, *TELE-RED Imagen S.A.*, or TRISA owns the TyC Sports Channel, the first dedicated sports cable channel in Argentina, which packages soccer programming co produced by Torneos and other sporting events to which TRISA holds commercial rights. TRISA also holds commercial rights to produce and distribute certain motor car racing, basketball and boxing events.

T&T Sports Marketing Inc. (T&T), a 50% owned affiliate of the Company, has entered into agreements with the *Confederación Sudamericana de Fútbol (Conmebol)* for the acquisition of the *Copa Libertadores* and *Copa Sudamericana* broadcasting rights up to 2010. See Notes 4 and 6.

Liquidity

The Company is in default with respect to two bank loans. In addition, the Company s loans from LMI are past due. Principal and interest under these bank and LMI loans of A\$13,346 and A\$4,088, respectively, have been classified as current liabilities at December 31, 2004. See Note 7. In addition, at December 31, 2004, current liabilities exceed current assets by A\$19,135. The Company plans to renegotiate these loans to extend the repayment terms. Although the Company expects that it will be able to successfully renegotiate the bank loans that are in default and the past due loans from LMI, no assurance can be given that the Company will be

successful. In the event that the Company's efforts in this regard are not successful, the Company's ability to continue as a going concern could be adversely affected in that the Company may not have sufficient funds available to meet its current liabilities as they become due and payable, particularly if payment is demanded under the aforementioned bank or LMI loans.

Basis of presentation

The accompanying consolidated financial statements include the accounts of TyC and all voting interest entities where TyC exercises a controlling interest through the ownership of a direct or indirect majority voting interest and variable interest entities for which TyC is the primary beneficiary. All significant intercompany accounts and transactions have been eliminated in consolidation. TyC management concluded that the Company holds no interest in entities that meet the definition of variable interest entities pursuant to Financial Accounting Standards Board Interpretation No. 46(R). TyC's operating subsidiaries and TyC's most significant equity affiliates as of December 31, 2004 are set forth below:

Operating subsidiaries as of December 31, 2004

Avilacab S.A. (Avilacab)
South American Sports S.A. (SAS)
TyC Minor S.A. (TyC Minor)

Significant equity affiliates as of December 31, 2004

TSC

T&T

For additional information concerning TyC's equity affiliates, see Note 4.

In the following notes, references to the Company refer to TyC and its consolidated subsidiaries.

2. Summary of significant accounting policies

The Company maintains its books of account in conformity with financial accounting standards of the City of Buenos Aires, Argentina. The accompanying consolidated statements have been prepared in a manner and reflect certain adjustments which are necessary to conform to accounting principles generally accepted in the United States of America (US GAAP).

Use of estimates

The preparation of these consolidated financial statements in conformity with US GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Estimates and assumptions are used in accounting for, among other things, allowances for uncollectible accounts, deferred income taxes and related valuation allowances, loss contingencies, fair values and useful lives of long-lived assets and any related impairment. Actual results could differ from those estimates.

The Company does not control the decision making process or business management practices of TyC's equity affiliates. Accordingly, the Company relies on management of these affiliates and their independent auditors to provide us with accurate financial information prepared in accordance with US GAAP that we use in the application of the equity method. The Company is not aware, however, of any errors in or possible misstatements of the financial information provided by TyC's equity affiliates that would have a material effect on Company's financial statements. For information concerning TyC's equity method investments, see Note 4.

TORNEOS Y COMPETENCIAS S.A.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Inflation adjustment

Argentine generally accepted accounting principles require the restatement of assets and liabilities into constant Argentine pesos.

Under US GAAP, account balances and transactions are stated in the units of currency of the period when the transactions originated. This accounting model is commonly known as the historical cost basis of accounting. The Company has excluded the effect of the general price level restatement for the preparation of these financial statements in accordance with US GAAP.

Accounts receivable, net

Accounts receivable are reflected net of an allowance for doubtful accounts. Such allowance amounted to A\$6,810 and A\$4,521 at December 31, 2004 and 2003, respectively. The allowance for doubtful accounts is based upon the Company's assessment of probable loss related to uncollectible accounts receivable. A number of factors are used in determining the allowance, including, among other things, collection trends, prevailing and anticipated economic conditions and specific customer credit risk. The allowance is maintained until either receipt of payment or collection of the account is no longer being pursued.

The Company has five clients whose balances aggregate approximately 40% and 79% of the total balances of accounts receivable, net, as of December 31, 2004 and 2003, respectively, and approximately 75%, 80% and 87% of the revenue for the years ended December 31, 2004, 2003 and 2002, respectively.

Programming rights, net

The Company and certain equity investees have multi-year contracts for telecast rights of sporting events and rights to the image and sound archives related to all of the country's national soccer teams. Pursuant to these contracts, an asset is recorded for the rights acquired and a liability is recorded for the obligation incurred when the programs or sporting events are available for telecast. Program rights for sporting events which are for a specified number of games are amortized on an event-by-event basis, and those which are for a specified season or period are amortized over the term of such period on a straight-line basis.

Non-current programming rights represent telecast and production rights of sporting events available for telecast beyond one year from the balance sheet date.

Investments in affiliates accounted for under the equity method

Investments in affiliates in which TyC has the ability to exercise significant influence are accounted for using the equity method. Under this method, the investment, originally recorded at cost, is adjusted to recognize TyC's share of net earnings or losses of the affiliates as they occur rather than as dividends or other distributions are received, limited to the extent of TyC's investment in, and advances and commitments to, the investee. If the investment in the common stock of an affiliate is reduced to zero as a result of the prior recognition of the affiliate's net losses, TyC would continue to record losses from the affiliate to the extent of its commitments to the affiliate and would include the negative investment in other liabilities.

Impairment of investments

The Company continually reviews its investments in affiliates to determine whether a decline in fair value below the cost basis is other than non-temporary. The primary factors that the Company considers in its determination are the length of time that the fair value of the investment is below Company's carrying value and the financial condition, operating performance and near term prospects of the investee, industry specific or investee specific changes in stock price or valuation subsequent to the balance sheet date, and Company's intent and ability to hold the investment for a period of time sufficient to allow for recovery in fair value. In

Table of Contents**TORNEOS Y COMPETENCIAS S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

situations where the fair value of an investment is not evident due to a lack of public market price or other factors, the Company uses its best estimates and assumptions to arrive at the estimated fair value of such investment. Writedowns for equity method investments are included in Share of earning (losses) from equity affiliates, and a new cost basis in the investment is established.

Property and equipment, net

Property and equipment is recorded at cost, net of the respective accumulated depreciation.

Depreciation has been calculated on the straight-line method over the assets' estimated useful lives as follows:

	Estimated useful life (years)
Buildings	50
Furniture and fixtures	10
Technical equipment, vehicles and TV studio	5
Computer hardware	2 to 3

Additions, replacements and improvements that extend the asset life are capitalized. Repairs and maintenance are charged to operation expenses.

Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (Statement 144) requires the Company to periodically review the carrying amount of property and equipment, to determine whether current events or circumstances indicate that such carrying amounts may not be recoverable. If the carrying amount of the assets is greater than the expected undiscounted cash flow to be generated by such assets, an impairment adjustment is to be recognized. Such adjustment is measured by the amount that the carrying value of such assets exceeds their fair value. The Company generally measures fair value by considering sales prices for similar assets or discounting estimated future cash flows using an appropriate discount rate. For purposes of impairment testing, long-lived assets are grouped at the lowest level for which cash flows are largely independent of other assets and liabilities. Assets to be disposed of are carried at the lower of the carrying amount or fair value less costs to sell.

Building held for sale

Represents a building received in connection with the transaction related to the sale of Red Celeste y Blanca S.A. (La Red), which is available for sale. It is recorded at its fair value at the date of the disposition of La Red, which does not exceed its fair value as of December 31, 2004. See Note 6.d.

Goodwill

Goodwill represents the excess of purchase price over the fair value of identifiable assets acquired, in acquisitions of equity interests in subsidiaries and affiliates.

Impairment of Goodwill

Effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* (Statement 142). Statement 142 requires that goodwill and other intangible assets with indefinite useful lives (collectively, indefinite lived intangible assets) no longer be amortized, but instead be tested for impairment at least annually in accordance with the provisions of Statement 142. Equity method goodwill is also no longer amortized, but continues to be considered for impairment under Accounting Principles Board Opinion No. 18. Statement 142 also requires that intangible assets with estimable useful lives be amortized over their respective estimated useful lives and reviewed for impairment in accordance with Statement 144.

Table of Contents**TORNEOS Y COMPETENCIAS S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Statement 142 required the Company to perform an assessment of whether there was an indication that goodwill was impaired as of the date of adoption. To accomplish this, the Company identified its reporting units and determined the carrying value of each reporting unit by assigning the assets and liabilities, including the existing goodwill and intangible assets, to those reporting units as of the date of adoption. Statement 142 requires the Company to consider equity method affiliates as separate reporting units.

The Company determined the fair value of its reporting units using discounted cash flows. The Company then compared the fair value of each reporting unit to the reporting unit's carrying amount. To the extent a reporting unit's carrying amount exceeded its fair value, the Company performed the second step of the transitional impairment test. In the second step, the Company compared the implied fair value of the reporting unit's goodwill, determined by allocating the reporting unit's fair value to all of its assets (recognized and unrecognized) and liabilities in a manner similar to a purchase price allocation, to its carrying amount, both of which were measured as of the date of adoption. This allocation is performed for goodwill impairment testing purposes only and does not change the reported carrying value of the investment. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. Based on this analysis, the Company recorded an impairment loss of A\$101,737 for the year ended December 31, 2002 to write-off all of its then existing goodwill, including A\$6,074 related to La Red that has been included in Discontinued operations, net of tax in the accompanying consolidated financial statements. Since this analysis used projections made during the time of unfavorable economic events in Argentina in early 2002, the adjustment was recognized as a component of operating costs and expenses and not as a transition adjustment.

As noted above, the Company's enterprise-level goodwill is allocable to reporting units, whether they are consolidated subsidiaries or equity method investments. The following table summarizes the allocation of the impairment loss recorded for the year ended December 31, 2002, corresponding to continuing operations.

Entity	Impairment loss	
SAS	A\$	7,132
Sobre Golf S.A.		420
TSC		50,317
TRISA and Tele Net Image Corp.		37,794
Total enterprise-level goodwill	A\$	95,663

Income Taxes

The Company accounts for income taxes in accordance with the liability method whereby deferred tax asset and liability account balances are determined based on differences between financial reporting and tax based assets and liabilities and are measured using the enacted tax rates.

Net deferred tax assets are reduced by a valuation allowance calculated based on the estimation of future results prepared by the Company's management. Deferred tax liabilities related to investments in equity investees that are essentially permanent in duration are not recognized until it becomes apparent that such amounts will reverse in the foreseeable future. See Note 9.

Minority interest

Recognition of the minority interest's share of losses of subsidiaries is generally limited to the amount of such minority interest's allocable portion of the common equity of those subsidiaries.

Foreign currency translation

The functional currency of the Company is the Argentine Peso. The functional currency of the Company's foreign equity affiliate T&T is the United States dollar. The Company's share of the assets and liabilities of T&T is translated at the spot rate in effect at the applicable reporting date and the Company's share of the results of operations of T&T is determined based on results translated at the average exchange rates in effect during the applicable period. The resulting unrealized cumulative translation adjustment is recorded as a component of Accumulated other comprehensive losses, net of taxes, in the Company's statements of stockholders' equity.

Transactions denominated in currencies other than the Company's functional currency are recorded at the exchange rates prevailing at the time such transactions arise. Subsequent changes in exchange rates result in transaction gains and losses which are reflected in the statements of operations.

Revenue recognition

The Company's principal sources of revenue are:

Broadcasting Program rights: Broadcast program rights revenue are recognized when the matches are broadcasted.

Sport TV programs production: Revenue from sports TV programs production services are recognized when the services are rendered.

Others: Other revenue includes, among others, advertising and sports event organization. Advertising revenue, including the stadium based advertising, are recognized in the period during which underlying advertisements are broadcast. Sports events organization revenue are recognized when services are rendered.

Deferred income: corresponds to revenue collected by TyC in advance, whose recognition is deferred until matches or related advertising are available for telecast.

Earnings per share

The Company computes net income (loss) per share by dividing net income (loss) for the year by the weighted average number of common shares outstanding. There were no potential common shares outstanding during any of the periods presented.

3. Supplemental consolidated statements of cash flows disclosures

a) Income tax, minimum presumed income tax and interests

During the years ended December 31, 2004, 2003 and 2002, the Company paid A\$4,352, A\$3,716 and A\$0 for income tax and minimum presumed income tax, respectively. Additionally, during the years ended December 31, 2004, 2003 and 2002 the Company paid A\$732, A\$498 and A\$13,891, respectively, in interest related to operating activities.

b) Noncash investing and financing activities

The Company sold all of its interest in La Red to Avila Inversora S.A. (AISA) and Carlos Avila Enterprise S.A. (CAE) (related companies, see Note 6) for consideration of A\$6,640. In conjunction with the sale, receivables were originated and a building was received as follows:

Related party receivable	A\$ 3,700(1)
Building	2,940(2)
	A\$ 6,640

- (1) The accounts receivable will be settled by AISA by effectively assuming the obligation to repay up to A\$3,700 of principal and interest of a financial debt payable by TyC, currently in default. See Notes 6.d and 7. If as a result of the renegotiation of the loan in default, TyC pays an amount lower than A\$3.7 million, the difference will be settled by AISA through the provision of advertising by América T.V. S.A. (América TV), a related company of the purchasers.
- (2) Fair value was determined based on an option held by TyC to return the building to CAE for an amount of US\$1 million as per the related sales agreement signed between the parties. See note 6.d.

4. Investments in affiliates accounted for under the equity method

The following table includes TyC's carrying value and percentage ownership of its investments in affiliates:

T&T

In December 2004, the Company sold its ownership interest (50%) in T&T to an unrelated third party for cash proceeds of US\$270 thousand. In connection with this sale, the Company retained a call right to repurchase the 50% interest in T&T for a price of US\$285 thousand during the one-year period ended December 29, 2005. Due to the Company's unilateral ability to repurchase this interest and the favorable call price relative to the fair value of the interest, the Company did not meet the criteria for treating this transaction as a sale, and accordingly, has recorded the cash received as a current liability in the accompanying balance sheet as of December 31, 2004.

(c) Agreement with FPAS

In April 2003, TyC agreed with FPAS to forgive four monthly payments that were due from April to July 2004 pursuant to a contract that expired in July 2004. TyC has recognized the forgiven payments as a reduction of revenue from the date of the agreement through July 2004 on a straight-line basis.

(d) Discontinued operations Sale of La Red

On January 7, 2004, TyC sold its interest in La Red to CAE and AISA.

As stated in the sales agreement, the sales price was A\$8.7 million, comprised of: a) A\$5.0 million through the transfer of a building (see Building held for sale Note 2), and b) A\$3.7 million, which will be paid by AISA through the assumption of a financial debt held by TyC, currently in default (see Note 7). As provided in such agreement, if as a result of the renegotiation of the loan in default, TyC pays an amount lower than A\$3.7 million, the difference will be settled by AISA through the provision of advertising by América T.V., a related company of the purchasers, as determined based on fair market value. As collateral for payment, all transferred shares were pledged in favor of the seller.

Additionally, as per the agreement, TyC had the option to return the building to CAE for consideration of US\$1 million, equivalent to A\$2,940 as of the date of the transaction, in the event that during the one-year period ending January 7, 2005, TyC was not able to sell such building. TyC considered this amount to be the fair value of the building as of the date of the transaction.

The difference between the book value of the Company's equity interest in La Red as of the date of disposition and the fair value of the total consideration received amounts to A\$3,939. The Company considered the earnings process was not substantially complete with respect to the uncollected A\$3.7 million related party receivable. Consequently, the Company recognized a gain of A\$239, which is included in Discontinued operations, net of tax; and deferred a gain of A\$3,700, which is included in Liabilities associated with discontinued operations, in the accompanying consolidated

balance sheet as of December 31, 2004.

As mentioned in Note 11, in January 2005, the building was sold for cash consideration of A\$6.0 million.

7. Debt

The Company's debt as of December 31, 2004 and 2003 is summarized below:

	2004		2003	
Bank loans	A\$	8,333	A\$	9,024
Related Party		8,419		8,306
Total	A\$	16,752	A\$	17,330

Bank Loans:

The bank debt is denominated in Argentine pesos with interest rates ranging from 9% to 11% and maturities as follows:

Past due	A\$	4,927
2005	A\$	3,406
Total debt	A\$	8,333(1)

(1) Includes A\$2,635 for which one of the purchasers of La Red has effectively assumed the obligation to repay up to A\$3,700 of principal and interest. See Note 6.

IV-88

Table of Contents**TORNEOS Y COMPETENCIAS S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The total amount of loans denominated in Argentine pesos at December 31, 2004 includes A\$4,927 corresponding to loans that are in default and are being renegotiated. Such loans are classified as current liabilities.

Loans amounting to A\$2,856 are secured by certain of the Company's premises.

Related Party Loans:

Represents loans primarily from LMI. The loans from LMI, which bear interest at 9% and are denominated in US dollars, are past due. Such loans are classified as current liabilities.

TyC believes that the carrying amount of debt approximates fair value at December 31, 2004, with the exception of related party loans and bank loans in default, for which TyC considers that it is not practical to estimate fair value.

8. Stockholders equity

The Company is subject to certain restrictions on the distribution of profits. Under the Argentine Commercial Law, a minimum of 5% of net income for the year calculated in accordance with Argentine GAAP must be appropriated by resolution of the shareholders to a legal reserve until such reserve reaches 20% of the outstanding capital (common stock plus inflation adjustment of common stock accounts, and additional Paid-in Capital). This legal reserve may be used only to absorb accumulated deficits.

Additionally, under Argentine Commercial Law, in the event that accumulated deficit is higher than 50% of common stock, plus 100% of additional paid-in-capital and legal reserve, the Company is required to absorb the related accumulated deficit against such equity accounts. Consequently on July 8, 2004, TyC stockholders approved the absorption of accumulated deficit in the amount of A\$109,409, by offsetting such balance against additional paid-in-capital and legal reserve outstanding as of that date.

9. Income tax

Income tax expense for the years ended December 31, 2004, 2003 and 2002 consists of the following:

	Year ended December 31,		
	2004	2003	2002

Income tax expense from continuing operations	A\$ (5,027)	A\$ (7,886)	A\$ (1,698)

As of December 31, 2004, the Company has accumulated tax loss carryforwards of A\$17.9 million (equivalent to A\$6.3 million at prevailing tax rate), which expire through year 2009.

The Company is subject to a minimum presumed income tax. This tax is supplementary to income tax. The tax is calculated by applying the effective tax rate of 1% on certain production assets valued according to the tax regulations in effect as of the end of each year. The Company's tax liabilities will be the higher of income tax or minimum presumed income tax. However, if the minimum presumed income tax exceeds income tax during any fiscal year, such excess may be computed as a prepayment of any income tax excess over the

minimum presumed income tax that may arise in the next ten fiscal years. Each of TyC and its controlled companies file separate tax returns. The minimum presumed income tax charge for the years ended December 31, 2004 and 2003 correspond to controlled companies that generate tax losses.

10. Commitments and contingencies**(a) Long-term Rights Contracts**

The Company has long-term rights contracts which require payments through 2010. Future minimum payments, including unrecorded amounts, by year are as follows at December 31, 2004:

Year ending December 31:

2005	A\$ 8,625
2006	A\$ 16,755
2007	A\$ 5,589
2008	A\$ 1,589
2009	A\$ 1,589
Thereafter	A\$ 723

Additionally, TyC has long-term rights contracts which require, for the period from 2007 to 2014, payments of 50% of the revenue derived from the related rights.

(b) Litigation

The Company has contingent liabilities related to legal and other matters arising in the ordinary course of business. A liability of A\$2,664 has been included in the Company's consolidated balance sheet as of December 31, 2004 to provide for probable and estimable potential losses under these claims.

In addition, the Company is subject to other claims and legal actions that have arisen in the ordinary course of business. Although there can be no assurance as to the ultimate disposition of these matters, it is the opinion of the Company's management based upon the information available at this time and consultation with external legal counsel, that the expected outcome of these other claims and legal actions, individually or in the aggregate, will not have a material effect on the Company's financial position or results of operations. Accordingly, no additional liabilities have been established for the outcome of these matters.

11. Subsequent Events**(a) Sale of building held for sale**

On January 6, 2005 the Company sold to a third party the building held for sale included in current assets in the accompanying consolidated financial statements, for cash consideration of A\$6 million.

(b) Agreement with FPAS

The Company's contracts with FPAS for the provision of production of content, advertising sales and operating and administrative service to the signal Fox Sports expired on December 31, 2004. On January 1,

Table of Contents**TORNEOS Y COMPETENCIAS S.A.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

2005, the Company signed new service agreements with FPAS that expire in December 2010. The annual payments due to the Company under these contracts are as follows:

Amounts in thousands of US\$

	2004	2005
Administrative services	658	658
Production of content	4,344	5,544
Advertising commission (range)	From 17.5% to 20%	From 17.5% to 20%

Regarding production of content, the amount of the payments increases to US\$5,844 thousand and US\$6,244 thousand for years 2006 and 2007, respectively, and to US\$6,744 thousand for years 2008 to 2010.

The value of administrative services will not change throughout the period from 2005 to 2010.

In the case of certain changes in the direct or indirect TyC ownership, FPAS has the right to terminate any or all service agreements by delivering written notice 60 days prior to such termination.

On January 1, 2005 the Company also extended from 2007 to 2010 the revenue agreements related to *Clásico del Domingo* and *Futbol de Primera* rights for América (except Argentina) and the Summer Soccer rights for América in the same terms and conditions prevailing in the former agreements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors
UnitedGlobalCom, Inc.:

We have audited the accompanying consolidated balance sheets of UnitedGlobalCom, Inc. (a Delaware corporation) and subsidiaries as of December 31, 2003 and 2002 and the related consolidated statements of operations and comprehensive income (loss), stockholders' equity (deficit) and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. The 2001 consolidated financial statements of UnitedGlobalCom, Inc. and subsidiaries were audited by other auditors who have ceased operations. Those auditors expressed an unqualified opinion on those consolidated financial statements, before the revision described in Note 7 to the 2003 consolidated financial statements, in their report dated April 12, 2002 (except with respect to the matter discussed in Note 23 to those consolidated financial statements, as to which the date was May 14, 2002). Such report included an explanatory paragraph indicating substantial doubt about the Company's ability to continue as a going concern.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the 2003 and 2002 consolidated financial statements referred to above present fairly, in all material respects, the financial position of UnitedGlobalCom, Inc. and subsidiaries as of December 31, 2003 and 2002, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the consolidated financial statements, in 2002, the Company changed its method of accounting for goodwill and other intangible assets and in 2003, changed its method of accounting for gains and losses on the early extinguishments of debt.

As discussed above, the 2001 consolidated financial statements of UnitedGlobalCom, Inc. and subsidiaries were audited by other auditors who have ceased operations. As described in Note 6, these consolidated financial statements have been revised to include the transitional disclosures required by Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets, which was adopted by the Company as of January 1, 2002. In our opinion, the disclosures for 2001 in Note 6 are appropriate. However, we were not engaged to audit, review, or apply any procedures to the 2001 consolidated financial statements of UnitedGlobalCom, Inc. and subsidiaries other than with respect to such disclosures, and, accordingly, we do not express an opinion or any other form of assurance on the 2001 consolidated financial statements taken as a whole.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To UnitedGlobalCom, Inc.:

We have audited the accompanying consolidated balance sheets of UnitedGlobalCom, Inc. (a Delaware corporation f/k/a New UnitedGlobalCom, Inc. see Note 23) and subsidiaries as of December 31, 2001 and 2000, and the related consolidated statements of operations and comprehensive (loss) income, stockholders' (deficit) equity and cash flows for each of the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of UnitedGlobalCom, Inc. and subsidiaries as of December 31, 2001 and 2000, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States.

As explained in Note 3 to the consolidated financial statements, the Company changed its method of accounting for derivative instruments and hedging activities effective January 1, 2001.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has suffered recurring losses from operations, is currently in default under certain of its significant bank credit facilities, senior notes and senior discount note agreements, which has resulted in a significant net working capital deficiency that raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

**UNITEDGLOBALCOM, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

1. Organization and Nature of Operations

UnitedGlobalCom, Inc. (together with its subsidiaries the Company, UGC, we, us, our or similar terms) was formed in February 2001 as part of a series of planned transactions with Old UGC, Inc. (Old UGC, formerly known as UGC Holdings, Inc., now our wholly owned subsidiary) and Liberty Media Corporation (together with its subsidiaries and affiliates Liberty), which restructured and recapitalized our business. We are an international broadband communications provider of video, voice and Internet services with operations in 15 countries outside the United States. UGC Europe, Inc. (together with its subsidiaries UGC Europe), our largest consolidated operation, is a pan-European broadband communications company. Through its broadband networks, UGC Europe provides video, high-speed Internet access, telephone and programming services. UGC Europe's operations are currently organized into two principal divisions UPC Broadband and chellomedia. UPC Broadband delivers video, high-speed Internet access and telephone services to residential customers. chellomedia provides broadband Internet and interactive digital products and services, produces and markets thematic channels, operates our digital media center and operates a competitive local exchange carrier business providing telephone and data network solutions to the business market under the brand name Priority Telecom. Our primary Latin American operation, VTR GlobalCom S.A. (VTR), provides multi-channel television, high-speed Internet access and residential telephone services in Chile. We also have an approximate 19% interest in SBS Broadcasting S.A. (SBS), a European commercial television and radio broadcasting company, and an approximate 34% interest in Austar United Communications Ltd. (Austar United), a pay-TV provider in Australia.

2. Summary of Significant Accounting Policies*Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates are used in accounting for, among other things, allowances for uncollectible accounts, deferred tax valuation allowances, loss contingencies, fair values of financial instruments, asset impairments, useful lives of property, plant and equipment, restructuring accruals and other special items. Actual results could differ from those estimates.

Principles of Consolidation

The accompanying consolidated financial statements include our accounts and all voting interest entities where we exercise a controlling financial interest through the ownership of a direct or indirect majority voting interest and variable interest entities for which we are the primary beneficiary. All significant intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents, Restricted Cash, Marketable Equity Securities and Other Investments

Cash and cash equivalents include cash and highly liquid investments with original maturities of less than three months. Restricted cash includes cash held as collateral for letters of credit and other loans, and is classified based on the expected expiration of such facilities. Cash held in escrow and restricted to a specific use is classified based on the expected timing of such disbursement. Marketable equity securities and other investments include marketable equity securities, certificates of deposit, commercial paper, corporate bonds and government securities that have original maturities greater than three months but less than twelve months.

Marketable equity securities and other investments are classified as available-for-sale and reported at fair value. Unrealized gains and losses on these marketable equity securities and other investments are reported as a separate component of stockholders' equity. Declines in the fair value of marketable equity securities and

Table of Contents**UNITEDGLOBALCOM, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

other investments that are other than temporary are recognized in the statement of operations, thus establishing a new cost basis for such investment. These marketable equity securities and other investments are evaluated on a quarterly basis to determine whether declines in the fair value of these securities are other than temporary. This quarterly evaluation consists of reviewing, among other things, the historical volatility of the price of each security and any market and company specific factors related to each security. Declines in the fair value of investments below cost basis for a period of less than six months are considered to be temporary. Declines in the fair value of investments for a period of six to nine months are evaluated on a case-by-case basis to determine whether any company or market-specific factors exist that would indicate that such declines are other than temporary. Declines in the fair value of investments below cost basis for greater than nine months are considered other than temporary and are recorded as charges to the statement of operations, absent specific factors to the contrary.

We estimate fair value amounts using available market information and appropriate methodologies. However, considerable judgment is required in interpreting market data to develop the estimates of fair value. The estimates presented in these consolidated financial statements are not necessarily indicative of the amounts we could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Allowance for Doubtful Accounts

The allowance for doubtful accounts is based upon our assessment of probable loss related to uncollectible accounts receivable. Generally, upon disconnection of a subscriber, the account is fully reserved. The allowance is maintained until either receipt of payment or collection of the account is no longer pursued. We use a number of factors in determining the allowance, including, among other things, collection trends, prevailing and anticipated economic conditions and specific customer credit risk.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost. Additions, replacements and improvements that extend asset lives are capitalized and costs for normal repair and maintenance are charged to expense as incurred. Costs associated with the construction of cable networks, transmission and distribution facilities are capitalized (including capital leases). Depreciation is calculated using the straight-line method over the economic useful life of the asset. Costs associated with new cable, telephone and Internet access subscriber installations are capitalized and depreciated over the average expected subscriber life. Subscriber installation costs include direct labor, materials (such as cabling, wiring, wall plates and fittings) and related overhead (such as indirect labor, logistics and inventory handling).

The economic lives of property, plant and equipment at acquisition are as follows:

Customer premise equipment	4-10 years
Commercial	3-20 years
Scaleable infrastructure	3-20 years
Line extensions	5-20 years
Upgrade/rebuild	3-20 years
Support capital	1-33 years

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. For assets we intend to use, if the total of the expected future undiscounted cash flows is less than the carrying amount of the asset, we recognize a loss for the difference between the fair value and carrying value of the asset. For assets we intend to dispose of, we recognize a loss for the amount that the estimated fair value, less costs to sell, is less than the carrying value of the assets.

Table of Contents**UNITEDGLOBALCOM, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)*****Goodwill and Other Intangible Assets***

Goodwill is the excess of the acquisition cost of an acquired entity over the fair value of the identifiable net assets acquired. Other intangible assets consist principally of customer relationships, trademarks and computer software. Other intangible assets with finite lives are amortized on a straight-line basis over their estimated useful lives. We adopted Statement of Financial Accounting Standards (SFAS) No. 142, *Goodwill and Other Intangible Assets* (SFAS 142), effective January 1, 2002. Under SFAS 142, goodwill and intangible assets with indefinite lives are no longer amortized, but are tested for impairment on an annual basis and whenever indicators of impairment arise. The goodwill impairment test, which is based on fair value, is performed on a reporting unit level on an annual basis. Goodwill and other indefinite-lived intangible assets are tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of an entity below its carrying value. These events or circumstances may include a significant change in the business climate, legal factors, operating performance indicators, competition, sale or disposition of a significant portion of the business or other factors.

Investments in Affiliates, Accounted for under the Equity Method

For those investments in unconsolidated subsidiaries and companies in which our voting interest is 20% to 50%, our investments are held through a combination of voting common stock, preferred stock, debentures or convertible debt and we exert significant influence through Board representation and management authority, the equity method of accounting is used. The cost method of accounting is used for our investments in affiliates in which our ownership interest is less than 20% and where we do not exert significant influence. Under the equity method, the investment, originally recorded at cost, is adjusted to recognize our proportionate share of net earnings or losses of the affiliate, limited to the extent of our investment in and advances to the affiliate, including any debt guarantees or other contractual funding commitments. We evaluate our investments in publicly traded securities accounted for under the equity method periodically for impairment. A current fair value of an investment that is less than its carrying amount may indicate a loss in value of the investment. A decline in value of an investment which is other than temporary is recognized as a realized loss, establishing a new carrying amount for the investment. Factors considered in making this evaluation include the length of time and the extent to which the fair value has been less than cost, the financial condition and near-term prospects of the issuer, including cash flows of the investee and any specific events which may influence the operations of the issuer, and our intent and ability to retain our investments for a period of time sufficient to allow for any anticipated recovery in market value.

Derivative Financial Instruments

We use derivative financial instruments from time to time to manage exposure to movements in foreign currency exchange rates and interest rates. We account for derivative financial instruments in accordance with SFAS No. 133 *Accounting for Derivative Instruments and Hedging Activities*, as amended, (SFAS 133), which establishes accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded in the balance sheets as either an asset or liability measured at its fair value. These rules require that changes in the derivative instrument's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. Special accounting for qualifying hedges allows a derivative instrument's gains and losses to offset related results on the hedged item in the statement of operations, to the extent effective, and requires that a company must formally document, designate, and assess the effectiveness of transactions that receive hedge accounting. For derivative financial instruments designated and that qualify as cash flow hedges, changes in the fair value of the effective portion of the derivative financial instruments are recorded as a component of other comprehensive income or loss in stockholders' equity until the hedged item is recognized in earnings. The ineffective portion of the change in fair value of the derivative financial instruments is immediately recognized in earnings. The change in fair value of the hedged item is recorded as an adjustment to its carrying value on the balance sheet. For

derivative financial instruments that are not designated or that do not qualify as accounting hedges, the changes in the fair value of the derivative financial instruments are recognized in earnings.

Subscriber Prepayments and Deposits

Payments received in advance for distribution services are deferred and recognized as revenue when the associated services are provided. Deposits are recorded as a liability upon receipt and refunded to the subscriber upon disconnection.

Cable Network Revenue and Related Costs

We recognize revenue from the provision of video, telephone and Internet access services over our cable network to customers in the period the related services are provided. Installation revenue (including reconnect fees) related to these services over our cable network is recognized as revenue in the period in which the installation occurs, to the extent these fees are equal to or less than direct selling costs, which are expensed. To the extent installation revenue exceeds direct selling costs, the excess fees are deferred and amortized over the average expected subscriber life. Costs related to reconnections and disconnections are recognized in the statement of operations as incurred.

Other Revenue and Related Costs

We recognize revenue from the provision of direct-to-home satellite services, or DTH, telephone and data services to business customers outside of our cable network in the period the related services are provided. Installation revenue (including reconnect fees) related to these services outside of our cable network is deferred and amortized over the average expected subscriber life. Costs related to reconnections and disconnections are recognized in the statement of operations as incurred.

Concentration of Credit Risk

Financial instruments which potentially subject us to concentrations of credit risk consist principally of subscriber receivables. Concentration of credit risk with respect to subscriber receivables is limited due to the large number of customers and their dispersion across many different countries worldwide. We also manage this risk by disconnecting services to customers who are delinquent.

Stock-Based Compensation

We account for our stock-based compensation plans and the stock-based compensation plans of our subsidiaries using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25). We have provided pro forma disclosures of net income (loss) under the fair value method of accounting for these plans, as prescribed by SFAS No. 123, *Accounting for Stock-Based Compensation* (SFAS 123), as amended by SFAS No. 148, *Accounting for*

(1) Not including SARs. Compensation expense for SARs is the same under APB 25 and SFAS 123. Stock-based compensation is recorded as a result of applying variable-plan accounting to stock appreciation rights (SARs) granted to employees and vesting of certain of our fixed stock-based compensation plans. Under variable-plan accounting, compensation expense (credit) is recognized at each financial statement date for vested SARs based on the difference between the grant price and the estimated fair value of our Class A common stock, until the SARs are exercised or expire, or until the fair value is less than the original grant price. Under fixed-plan accounting, deferred compensation is recorded for the excess of fair value over the exercise price of such options at the date of grant. This deferred compensation is then recognized in the statement of operations ratably over the vesting period of the options.

Income Taxes

Income taxes are accounted for under the asset and liability method. We recognize deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts and income tax basis of assets and liabilities and the expected benefits of utilizing net operating loss and tax credit carryforwards, using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. Net deferred tax assets are then reduced by a valuation allowance if we believe it more likely than not such net deferred tax assets will not be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred tax liabilities related to

investments in foreign subsidiaries and foreign corporate joint ventures that are essentially permanent in duration are not recognized until it becomes apparent that such amounts will reverse in the foreseeable future.

Basic and Diluted Net Income (Loss) Per Share

Basic net income (loss) per share is determined by dividing net income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding during each period. Net income

IV-105

Table of Contents**UNITEDGLOBALCOM, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(loss) attributable to common stockholders includes the accrual of dividends on convertible preferred stock which is charged directly to additional paid-in capital and/or accumulated deficit. Diluted net income (loss) per share includes the effects of potentially issuable common stock, but only if dilutive.

Foreign Operations and Foreign Currency Exchange Rate Risk

Our consolidated financial statements are prepared in U.S. dollars. Almost all of our operations are conducted in a currency other than the U.S. dollar. Assets and liabilities of foreign subsidiaries for which the functional currency is the local currency are translated at period-end exchange rates and the statements of operations are translated at actual exchange rates when known, or at the average exchange rate for the period. Exchange rate fluctuations on translating foreign currency financial statements into U.S. dollars that result in unrealized gains or losses are referred to as translation adjustments. Cumulative translation adjustments are recorded in other comprehensive income (loss) as a separate component of stockholders' equity (deficit). Transactions denominated in currencies other than the functional currency are recorded based on exchange rates at the time such transactions arise. Subsequent changes in exchange rates result in transaction gains and losses, which are reflected in income as unrealized (based on period-end translations) or realized upon settlement of the transactions. Cash flows from our operations in foreign countries are translated at actual exchange rates when known, or at the average rate for the period. As a result, amounts related to assets and liabilities reported in the consolidated statements of cash flows will not agree to changes in the corresponding balances in the consolidated balance sheets. The effects of exchange rate changes on cash balances held in foreign currencies are reported as a separate line below cash flows from financing activities. Certain items such as investments in debt and equity securities of foreign subsidiaries, equipment purchases, programming costs, notes payable and notes receivable (including intercompany amounts) and certain other charges are denominated in a currency other than the respective company's functional currency, which results in foreign exchange gains and losses recorded in the consolidated statement of operations. Accordingly, we may experience economic loss and a negative impact on earnings and equity with respect to our holdings solely as a result of foreign currency exchange rate fluctuations.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation. We adopted SFAS 145, *Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections*. Among other things, SFAS 145 required us to reclassify gains and losses associated with the extinguishment of debt (including the related tax effects) from extraordinary classification to other income in the accompanying consolidated statements of operations.

3. Acquisitions, Dispositions and Other**2003*****Acquisition of UPC Preference Shares***

On February 12, 2003, we issued 368,287 shares of our Class A common stock in a private transaction pursuant to a securities purchase agreement dated February 6, 2003, among us and Alliance Balanced Shares, Alliance Growth Fund, Alliance Global Strategic Income Trust and EQ Alliance Common Stock Portfolio. In consideration for issuing the 368,287 shares of our Class A common stock, we acquired 1,833 preference shares A of UPC, nominal value \$1.00 per share, and warrants to purchase 890,030 ordinary shares A of UPC, nominal value \$1.00 per share, at an exercise price of \$42.546 per ordinary share. On February 13, 2003, we issued 482,217 shares of our Class A common stock in a private transaction pursuant to a securities purchase agreement dated February 11, 2003, among us and Capital Research and Management Company, on behalf of The Income Fund of America, Inc., Capital World Growth and Income Fund, Inc. and Fundamental Investors, Inc. In consideration for the 482,217 shares of our Class A common stock, we acquired 2,400

preference shares A of UPC, nominal value 1.00 per share, and warrants to purchase 1,165,352 ordinary shares A of UPC, nominal value 1.00 per share, at an exercise price of 42.546 per ordinary share. A gain of \$610.9 million was recognized from the purchase of these preference shares for the difference between fair value of the consideration given and book value (including accrued dividends) of these preference shares at the transaction date. This gain is reflected in the consolidated statement of stockholders' equity (deficit).

On April 4, 2003, we issued 879,041 shares of our Class A common stock in a private transaction pursuant to a transaction agreement dated March 31, 2003, among us, a subsidiary of ours, Motorola Inc. and Motorola UPC Holdings, Inc. In consideration for the 879,041 shares of our Class A common stock, we acquired 3,500 preference shares A of UPC, nominal value 1.00 per share and warrants to purchase 1,669,457 ordinary shares A of UPC, nominal value 1.00 per share, at an exercise price of 42.546 per ordinary share. On April 14, 2003, we issued 426,360 shares of our Class A common stock in a private transaction pursuant to a securities purchase agreement dated April 8, 2003, between us and Liberty International B-L LLC. In consideration for the 426,360 shares of our Class A common stock, we acquired 2,122 preference shares A of UPC, nominal value .00 per share and warrants to purchase 971,118 ordinary shares A of UPC, nominal value 1.00 per share, at an exercise price of 42.546 per ordinary share. A gain of \$812.2 million was recognized during the second quarter of 2003 from the purchase of these preference shares for the difference between fair value of the consideration given and book value (including accrued dividends) of the preference shares at the transaction date. This gain is reflected in the consolidated statement of stockholders' equity (deficit).

United Pan-Europe Communications N.V. Reorganization

In September 2003, as a result of the consummation of UPC's plan of reorganization under Chapter 11 of the U.S. Bankruptcy Code and insolvency proceedings under Dutch law, UGC Europe acquired all of the stock of, and became the successor issuer to, UPC. Prior to UPC's reorganization, we were the majority stockholder and largest single creditor of UPC. We became the holder of approximately 66.6% of UGC Europe's common stock in exchange for the equity and debt of UPC that we owned prior to UPC's reorganization. UPC's other bondholders and third-party holders of UPC's ordinary shares and preference shares exchanged their securities for the remaining 33.4% of UGC Europe's common stock.

We accounted for this restructuring as a reorganization of entities under common control at historical cost, similar to a pooling of interests. Under reorganization accounting, we have consolidated the financial position and results of operations of UGC Europe as if the reorganization had been consummated at inception. We previously recognized a gain on the effective retirement of UPC's senior notes, senior discount notes and UPC's exchangeable loan held by us when those securities were acquired directly and indirectly by us in connection with our merger transaction with Liberty in January 2002. The issuance of common stock by UGC Europe to third-party holders of the remaining UPC senior notes and senior discount notes was recorded at fair value. This fair value was significantly less than the accreted value of such debt securities as reflected in our historical consolidated financial statements. Accordingly, for consolidated financial reporting purposes, we recognized a gain of \$2.1 billion from the extinguishment of such debt outstanding at that time equal to the excess of the then accreted value of such debt (\$3.076 billion) over the fair value of UGC Europe common stock issued (\$966.4 million).

UGC Europe Exchange Offer and Merger

On December 18, 2003, we completed an exchange offer pursuant to which we offered to exchange 10.3 shares of our Class A common stock for each outstanding share of UGC Europe common stock not owned by us. On December 19, 2003, we effected a short-form merger between UGC Europe and one of our subsidiaries on the same terms offered in the exchange offer. We issued 172,248,306 shares of our Class A common stock to third parties in connection with the exchange offer and merger (including 2,596,270 shares subject to appraisal

Table of Contents**UNITEDGLOBALCOM, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

rights that were withdrawn subsequent to December 31, 2003), as well as 4,780,611 shares to Old UGC to acquire its UGC Europe common stock. We now own all of the outstanding equity securities of UGC Europe.

We valued the exchange offer and merger for accounting purposes at \$1.315 billion, based on the issuance of our Class A common stock at the average closing price of such stock for the five days surrounding November 12, 2003, the date we announced the revised and final terms of the exchange offer, and our estimated transaction costs, consisting primarily of dealer-manager, legal and accounting fees, printing costs, other external costs and other purchase consideration directly related to the exchange offer and merger. This total value includes \$19.7 million related to the value of shares subject to appraisal rights that were withdrawn in January 2004. This amount is included in other current liabilities in the accompanying consolidated balance sheet.

We accounted for the exchange offer and merger using the purchase method of accounting, in accordance with SFAS No. 141, *Business Combinations* (SFAS 141). Under the purchase method of accounting, the total estimated purchase price was allocated to the minority shareholders proportionate interest in UGC Europe s identifiable tangible and intangible assets and liabilities acquired by us based upon their estimated fair values upon completion of the transaction. Purchase price in excess of the book value of these identifiable tangible and intangible assets and liabilities acquired was allocated as follows (in thousands):

Property, plant and equipment	\$	717
Goodwill		1,005,148
Customer relationships and tradename		243,212
Other assets		10,556
Other liabilities		55,271
 Total consideration	 \$	 1,314,904

The excess purchase price over the net identifiable tangible and intangible assets and liabilities acquired was recorded as goodwill, which is not deductible for tax purposes. This goodwill was attributable to the following:

Our ability to create a simpler, unified capital structure in which equity investors would participate in our equity at a single level, which would lead to greater liquidity for investors, due to the larger combined public float;

Our ability to facilitate the investment and transfer of funds between us and UGC Europe and its subsidiaries, thereby creating more efficient uses of our consolidated financial resources; and

Our assessment that the elimination of public stockholders at the UGC Europe level would create opportunities for cost reductions and organizational efficiencies through, among other things, the combination of UGC Europe s and our separate corporate functions into a better integrated, unitary corporate organization.

2002*Merger Transaction*

On January 30, 2002, we completed a transaction with Liberty and Old UGC, pursuant to which the following occurred.

Immediately prior to the merger transaction on January 30, 2002:

Liberty contributed approximately 9.9 million shares of Old UGC Class B common stock and approximately 12.0 million shares of Old UGC Class A common stock to us and in exchange for these contributions, we issued Liberty approximately 21.8 million shares of our Class C common stock;

Certain long-term stockholders of Old UGC (the Founders) transferred their shares of Old UGC Class B common stock to limited liability companies, which limited liability companies then merged into us. As a result of such mergers, the Founders received approximately 8.9 million shares of our Class B common stock, which number of shares equals the number of shares of Old UGC Class B common stock transferred by them to the limited liability companies; and

Four of the Founders (the Principal Founders) contributed \$3.0 million to Old UGC in exchange for securities that, at the effective time of the merger, converted into securities representing a 0.5% interest in Old UGC and entitled them to elect one-half of Old UGC s directors.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As a result of the merger transaction:

Old UGC became our 99.5%-owned subsidiary, and the Principal Founders held the remaining 0.5% interest in Old UGC;

Each share of Old UGC's Class A and Class B common stock outstanding immediately prior to the merger was converted into one share of our Class A common stock;

The shares of Old UGC's Series B, C and D preferred stock outstanding immediately prior to the merger were converted into an aggregate of approximately 23.3 million shares of our Class A common stock, which amount is equal to the number of shares of Old UGC Class A common stock the holders of Old UGC's preferred stock would have received had they converted their preferred stock immediately prior to the merger;

Liberty had the right to elect four of our 12 directors;

The Founders had the effective voting power to elect eight of our 12 directors; and

We had the right to elect half of Old UGC's directors and the Principal Founders had the right to elect the other half of Old UGC's directors (see discussion below regarding a transaction that occurred on May 14, 2002, pursuant to which Old UGC became our wholly-owned subsidiary and we became entitled to elect the entire board of directors of Old UGC).

Immediately following the merger transaction:

Liberty contributed to us the UPC Exchangeable Loan which had an accreted value of \$891.7 million as of January 30, 2002 and, as a result, UPC owed the amount payable under such loan to us rather than to Liberty;

Liberty contributed \$200.0 million in cash to us;

Liberty contributed to us certain UPC bonds (the United UPC Bonds) and, as a result, UPC owed the amounts represented by the United UPC Bonds to us rather than to Liberty; and

In exchange for the contribution of these assets to us, an aggregate of approximately 281.3 million shares of our Class C common stock was issued to Liberty.

In December 2001, IDT United, Inc. (IDT United) commenced a cash tender offer for, and related consent solicitation with respect to, the entire \$1.375 billion face amount of senior discount notes of Old UGC (the Old UGC Senior Notes). As of the expiration of the tender offer on February 1, 2002, holders of the notes had validly tendered and not withdrawn notes representing approximately \$1.350 billion aggregate principal amount at maturity. At the time of the tender offer, Liberty had an equity and debt interest in IDT United. IDT United's sole purpose was to tender for the Old UGC Senior Notes.

Prior to the merger on January 30, 2002, we acquired from Liberty \$751.2 million aggregate principal amount at maturity of the Old UGC Senior Notes (which had previously been distributed to Liberty by IDT United in redemption of a portion of Liberty's equity interest and in prepayment of a portion of IDT United's debt to Liberty), as well as all of Liberty's remaining interest in IDT United. The purchase price for the Old UGC Senior Notes and Liberty's interest in IDT United was:

Our assumption of approximately \$304.6 million of indebtedness owed by Liberty to Old UGC; and

Cash in the amount of approximately \$143.9 million.

On January 30, 2002, Liberty loaned us approximately \$17.3 million, of which approximately \$2.3 million was used to purchase shares of redeemable preferred stock and convertible promissory notes issued by IDT United. Following January 30, 2002, Liberty loaned us an additional approximately \$85.4 million. We used the

IV-110

Table of Contents**UNITEDGLOBALCOM, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

proceeds of these loans to purchase additional shares of redeemable preferred stock and convertible promissory notes issued by IDT United. These notes to Liberty accrued interest at 8.0% annually, compounded and payable quarterly, and were cancelled in January 2004 (see Note 22). Subsequent to these transactions, IDT United held Old UGC Senior Notes with a principal amount at maturity of \$599.2 million. Although we only retain a 33.3% common equity interest in IDT United, we consolidate IDT United as a variable interest entity, as we are the primary beneficiary of an entity that has insufficient equity at risk.

On May 14, 2002, the Principal Founders transferred all of the shares of Old UGC common stock held by them to us in exchange for an aggregate of 600,000 shares of our Class A common stock pursuant to an exchange agreement dated May 14, 2002, among such individuals and us. This exchange agreement superseded the exchange agreement entered into at the time of the merger transaction. As a result of this exchange, Old UGC became our wholly-owned subsidiary, and we were entitled to elect the entire board of directors of Old UGC. This transaction was the final step in the recapitalization of Old UGC.

We accounted for the merger transaction on January 30, 2002 as a reorganization of entities under common control at historical cost, similar to a pooling of interests. Under reorganization accounting, we consolidated the financial position and results of operations of Old UGC as if the merger transaction had been consummated at the inception of Old UGC. The purchase of the Old UGC Senior Notes directly from Liberty and the purchase of Liberty's interest in IDT United were recorded at fair value. The issuance of our new shares of Class C common stock to Liberty for cash, the United UPC Bonds and the UPC Exchangeable Loan was recorded at the fair value of our common stock at closing. The estimated fair value of these financial assets (with the exception of the UPC Exchangeable Loan) was significantly less than the accreted value of such debt securities as reflected in Old UGC's historical financial statements. Accordingly, for consolidated financial reporting purposes, we recognized a gain of approximately \$1.757 billion from the extinguishment of such debt outstanding at that time equal to the excess of the then accreted value of such debt over our cost, as follows:

	Fair Value at Acquisition	Book Value	Gain/(Loss)
	(In thousands)		
Old UGC Senior Notes	\$ 540,149	\$ 1,210,974	\$ 670,825
United UPC Bonds	312,831	1,451,519	1,138,688
UPC Exchangeable Loan	891,671	891,671	
Write-off of deferred financing costs		(52,224)	(52,224)
Total gain on extinguishment of debt	\$ 1,744,651	\$ 3,501,940	\$ 1,757,289

We also recorded a deferred income tax provision of \$110.6 million related to a portion of the gain on extinguishment of the Old UGC Senior Notes.

Transfer of German Shares

Until July 30, 2002, UPC had a 51% ownership interest in EWT/ TSS Group through its 51% owned subsidiary, UPC Germany. Pursuant to the agreement by which UPC acquired EWT/ TSS Group, UPC was required to fulfill a contribution obligation no later than March 2003, by contributing certain assets amounting to approximately

358.8 million. If UPC failed to make the contribution by such date or in certain circumstances such as a material default by UPC under its financing agreements, the minority shareholders of UPC Germany could call for 22.3% of the ownership interest in UPC Germany in exchange for the euro equivalent of 1 Deutsche Mark. On March 5, 2002, UPC received the holders' notice of exercise. On July 30, 2002, UPC completed the transfer of 22.3% of UPC

Germany to the minority shareholders in return for the cancellation of the contribution obligation. UPC now owns 28.7% of UPC Germany, with the former minority shareholders owning the remaining 71.3%. UPC Germany is governed by a new shareholders agreement. For

accounting purposes, this transaction resulted in the deconsolidation of UPC Germany effective August 1, 2002, and recognition of a gain from the reversal of the net negative investment in UPC Germany. Details of the assets and liabilities of UPC Germany as of August 1, 2002 were as follows (in thousands):

Working capital	\$ (74,809)
Property, plant and equipment	74,169

Other

In January 2002, we recognized a gain of \$109.2 million from the restructuring and cancellation of capital lease obligations associated with excess capacity of certain Priority Telecom vendor contracts.

In June 2002, we recognized a gain of \$342.3 million from the delivery by certain banks of \$399.2 million in aggregate principal amount of UPC's senior notes and senior discount notes as settlement of certain interest rate and cross currency derivative contracts between the banks and UPC.

2001

In December 2001, UPC and Canal+ Group, the television and film division of Vivendi Universal (Canal+) merged their respective Polish DTH satellite television platforms, as well as the Canal+ Polska premium channel, to form a common Polish DTH platform. UPC Polska contributed its Polish and United Kingdom DTH assets to Telewizyjna Korporacja Partycypacyjna S.A., a subsidiary of Canal+ (TKP), and placed 30.0 million (\$26.8 million) cash into an escrow account, which was used to fund TKP with a loan of 30.0 million in January 2002 (the JV Loan). In return, UPC Polska received a 25% ownership interest in TKP and 150.0 (\$134.1) million in cash. UPC Polska's investment in TKP was recorded at fair value as of the date of the transaction, resulting in a loss of \$416.9 million upon consummation of the merger.

We own 6.0 million shares of SBS. Historically, our common share ownership interest in SBS was accounted for under the equity method of accounting, as we were able to exert significant influence. On December 19, 2003, SBS redeemed certain of its outstanding debt and as a result issued new common shares to the note

We adopted SFAS 142 effective January 1, 2002. SFAS 142 required a transitional impairment assessment of goodwill as of January 1, 2002, in two steps. Under step one, the fair value of each of our reporting units was compared with their respective carrying amounts, including goodwill. If the fair value of a reporting unit exceeded its carrying amount, goodwill of the reporting unit was considered not impaired. If the carrying amount of a reporting unit exceeded its fair value, the second step of the goodwill impairment test was performed to measure the amount of impairment loss. We completed step one in June 2002, and concluded the carrying value of certain reporting units as of January 1, 2002 exceeded fair value. The completion of step two resulted in an impairment adjustment of \$1.34 billion. This amount has been reflected as a cumulative effect of a change in accounting principle in the consolidated statement of operations, effective January 1, 2002, in accordance with SFAS 142. We also recorded impairment charges totaling \$362.8 million based on our annual impairment test effective December 31, 2002.

7. Intangible Assets

Other intangible assets consist primarily of customer relationships, tradename, licenses and capitalized software. Customer relationships are amortized over the expected lives of our customers. The weighted-average amortization period of the customer relationship intangible is approximately 7.5 years. Tradename is an indefinite-lived intangible asset that is not subject to amortization. The following tables present certain information for other intangible assets. Actual amounts of amortization expense may differ from estimated amounts due to additional acquisitions, changes in foreign currency exchange rates, impairment of intangible assets, accelerated amortization of intangible assets, and other events.

- Include a total debt to annualized EBITDA ratio and EBITDA to total cash interest ratio;
- Include a mandatory prepayment from proceeds of debt issuance and net equity proceeds received by UGC Europe; and

Permit acquisitions depending on certain leverage ratios and other restrictions.

UPC Polska Notes

On July 7, 2003, UPC Polska filed a voluntary petition for relief under Chapter 11 of the U.S. Bankruptcy Code with the U.S. Bankruptcy Court for the Southern District of New York. On January 22, 2004, the U.S. Bankruptcy Court confirmed UPC Polska's Chapter 11 plan of reorganization, which was consummated and became effective on February 18, 2004, when UPC Polska emerged from the Chapter 11 proceedings. In accordance with UPC Polska's plan of reorganization, third-party note holders received a total of \$80.0 million in cash, \$100.0 million in new 9.0% UPC Polska notes due 2007, and approximately 2.0 million shares of our Class A common stock in exchange for the cancellation of their claims. Two subsidiaries of UGC Europe, UPC Telecom B.V. and Belmarken Holding B.V., received \$15.0 million in cash and 100% of the newly issued membership interests denominated as stock of the reorganized company in exchange for the cancellation of their claims.

VTR Bank Facility

In May 2003, VTR and VTR's senior lenders amended and restated VTR's existing senior secured credit facility. Principal payments are payable during the term of the facility on a quarterly basis beginning March 31, 2004, with final maturity on December 31, 2006. The VTR Bank Facility bears interest at LIBOR plus 5.50% (subject to adjustment under certain conditions) and is collateralized by tangible and intangible assets pledged by VTR and certain of its operating subsidiaries, as set forth in the credit agreement. The VTR Bank Facility is senior to other long-term debt obligations of VTR. The VTR Bank Facility credit agreement establishes certain covenants with respect to financial statements, existence of lawsuits, insurance, prohibition of material changes, limits to taxes, indebtedness, restriction of payments, capital expenditures, compliance ratios, governmental approvals, coverage agreements, lines of business, transactions with related parties, certain obligations with subsidiaries and collateral issues.

Old UGC Senior Notes

The Old UGC Senior Notes accreted to an aggregate principal amount of \$1.375 billion on February 15, 2003, at which time cash interest began to accrue. Commencing August 15, 2003, cash interest on the Old UGC Senior Notes is payable on February 15 and August 15 of each year until maturity at a rate of 10.75% per annum. The Old UGC Senior Notes mature on February 15, 2008. As of December 31, 2003, the following entities held the Old UGC Senior Notes:

	Principal Amount at Maturity
(In thousands)	
UGC	\$ 638,008(1)
IDT United	599,173(1)
Third parties	24,627
 Total	 \$ 1,261,808

The Old UGC Senior Notes began to accrue interest on a cash-pay basis on February 15, 2003, with the first payment due August 15, 2003. Old UGC did not make this interest payment. Because this failure to pay continued for a period of more than 30 days, an event of default exists under the terms of the Old UGC Senior Notes indenture. On November 24, 2003, Old UGC, which principally owns our interests in Latin America and Australia, reached an agreement with us, IDT United (in which we have a 94% fully diluted interest and a 33% common equity interest) and the unaffiliated stockholders of IDT United on terms for the restructuring of the Old UGC Senior Notes. Consistent with the restructuring agreement, on January 12, 2004, Old UGC filed a voluntary petition for relief under Chapter 11 of the U.S. Bankruptcy Code with the U.S. Bankruptcy Court for the Southern District of New York. The agreement and related transactions, if implemented, would result in the acquisition by Old UGC of the Old UGC Notes held by us (following cancellation of offsetting obligations) and IDT United for common stock of Old UGC. Old UGC Senior Notes held by third parties would either be left outstanding (after cure and reinstatement) or acquired for our Class A Common Stock (or, at our election, for cash). Subject to consummation of the transactions contemplated by the agreement, we expect to acquire the interests of the unaffiliated stockholders in IDT United for our Class A Common Stock and/or cash, at our election, in which case Old UGC would continue to be wholly owned by us. The value of

any Class A Common Stock to be issued by us in these transactions is not expected to exceed \$45 million. A claim was filed in the Chapter 11 proceeding by Excite@Home. See Note 13.
