In some cases, you can identify forward-looking statements by terminology such as “may”, “should”, “expect”, “plan”, “anticipate”, “believe”, “estimate”, “predict”, “potential” or “continue” or the negative of these terms or comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, any of which may cause our company’s or our industry’s actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. These risks include, by way of example and not in limitation:

- the uncertainty that we will not be able to successfully execute our business plan;
- risks related to the large number of established and well-financed entities that are actively seeking suitable business opportunities;
- risks related to the failure to successfully manage or achieve growth of a new business opportunity; and
- other risks and uncertainties related to our business strategy.

This list is not an exhaustive list of the factors that may affect any of our forward-looking statements. These and other factors should be considered carefully and readers should not place undue reliance on our forward-looking statements.

Forward looking statements are made based on management’s beliefs, estimates and opinions on the date the statements are made and we undertake no obligation to update forward-looking statements if these beliefs, estimates and opinions or other circumstances should change. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our unaudited condensed consolidated financial statements are stated in United States dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the interim period ended March 31, 2014 are not necessarily indicative of the results that can be expected for the full year.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars and all references to “common stock” refer to the common shares in our capital stock.

Alkame Holdings, Inc. and Subsidiary

Notes to the Unaudited Condensed Consolidated Financial Statements

For the three months ended March 31, 2014 and 2013

1. Organization and Nature of Operations

Alkame Holdings, Inc. (fka Pinnacle Enterprise Inc.) (the "Company", "we", "us" or "our") was incorporated under the laws of the State of Nevada on April 19, 2010. The Company is in the business of manufacturing bottled/canned alkaline, antioxidant and oxygenated water.

On June 24, 2013, the Company entered into a share exchange agreement with Alkame and the shareholders of all of the issued and outstanding shares of Alkame. On June 25, 2013, the Company acquired 100% of the members' shares of Alkame Water, Inc. ("Alkame"), a Company incorporated in the state of Nevada on March 1, 2012, in exchange for 150,000,000 common shares, comprised of 116,666,667 common shares privately transacted from the President of Company and the issuance of 33,333,333 common shares to shareholders of Alkame. Effectively, Alkame held 71% of the issued and outstanding common shares of the Company and the transaction has been accounted for as a reverse merger, where Alkame is deemed to be the acquirer and or the surviving entity for accounting purposes.

As part of the acquisition transaction, all assets and liabilities of Alkame Holdings, Inc. at the date of acquisition were assumed by the former management.

The transaction is accounted for using the purchase method of accounting. As a result of the recapitalization and change in control, Alkame is the acquiring entity in accordance with ASC 805, Business Combinations. Accordingly, the historical financial statements are those of Alkame, the accounting acquirer, immediately following the consummation of the reverse merger.

The Company ceased to be a Development Stage Company during the year ended December 31, 2013.

As a result of the exchange transaction, our board of directors decided to change our fiscal year end from January 31 to December 31.

2.

Going Concern

These accompanying unaudited condensed consolidated financial statements have been prepared on a going concern basis, which implies that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. As of March 31, 2014, the Company has recognized only \$29,191 in revenue and an accumulated deficit of \$5,775,803. The continuation of the Company as a going concern is dependent upon the continued financial support from its management, and its ability to identify future investment opportunities and obtain the necessary debt or equity financing, and generating profitable operations from the Company's future operations. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These accompanying unaudited condensed consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

3.

Basis of Presentation

These unaudited interim financial statements have been prepared in accordance with U.S. generally accepted accounting principles for financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2014 are not necessarily indicative of the results that may be expected for any interim period or an entire year. The Company applies the same accounting policies and methods in its interim financial statements as those in the most recent audited annual financial statements. The financial statements and notes included herein should be read in conjunction with the annual financial statements and notes for the year ended December 31, 2013 included in the Company's filing on Form 10-K.

The financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("US GAAP") and are expressed in U.S. dollars. All inter-company accounts and transactions have been eliminated. The Company's fiscal year end is December 31.

4.

Summary of Significant Accounting Policies

a) Use of Estimates

The preparation of unaudited condensed consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the

Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

F-4

Table of Contents**b) Cash and Cash Equivalents**

For purposes of the statement of cash flows, cash includes demand deposits, saving accounts and money market accounts. The Company considers all highly liquid instruments with maturities of three months or less when purchased to be cash equivalents.

c) Basic and Diluted Net Loss per Share

The Company computes net loss per share in accordance with ASC 260, Earnings per Share. ASC 260 requires presentation of both basic and diluted earnings per share ("EPS") on the face of the income statement. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti dilutive. Such securities, shown below, presented on a common share equivalent basis and outstanding as of March 31, 2014 and 2013 have been excluded from the per share computations:

	As of March 31, 2014	As of March 31, 2013
Series A Convertible Preferred Stock	600,000,000	—
Series B Convertible Preferred Stock	65,210,834	—

d) Financial Instruments

Pursuant to ASC 820, Fair Value Measurements and Disclosures, an entity is required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The Company's financial instruments consist principally of cash, accounts payable and accrued liabilities and amounts due to related parties. Pursuant to ASC 820, the fair value of our cash is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. We believe that the recorded values of all of our other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

e) Income Taxes

Potential benefits of income tax losses are not recognized in the accounts until realization is more likely than not. The Company has adopted ASC 740 "Accounting for Income Taxes" as of its inception. Pursuant to ASC 740, the Company is required to compute tax asset benefits for net operating losses carried forward. The potential benefits of net operating losses have not been recognized in this financial statement because the Company cannot be assured it is more likely than not it will utilize the net operating losses carried forward in future years.

f) Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

g) Revenue Recognition

The Company will recognize revenue in accordance with ASC-605, "Revenue Recognition," which requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or title has passed; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts.

Revenues are recognized upon shipment, provided that a signed purchase order has been received, the price is fixed, title has transferred, collection of resulting receivables is reasonably assured, and there are no remaining significant obligations. Reserves for sales returns and allowances, including allowances for so called "ship and debit" transactions, are recorded at the time of shipment, based on historical levels of returns and discounts, current economic trends and changes in customer demand. Certain Internet generated transactions that are prepaid at time of order, are recognized at the time the merchandise ships from the warehouse to the customer.

Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company will defer any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required.

5.

Reverse Acquisition

On June 25, 2013, the Company acquired 100% of the members' shares of Alkame Water ("Alkame"), a company incorporated in the state of Nevada on March 1, 2012, in exchange for 450,000,000 common shares, comprised of 350,000,000 common shares privately transacted from the President of Company and the issuance of 100,000,000 common shares to shareholders of Alkame. Effectively, Alkame held 71% of the issued and outstanding common shares of the Company and the transaction has been accounted for as a reverse acquisition, where Alkame is deemed to be the acquirer for accounting purposes.

As part of the acquisition transaction, all assets and liabilities of Pinnacle Enterprise, Inc. at the date of acquisition were assumed by the former management.

As a result of the exchange transaction, our board of directors decided to change our fiscal yearend from January 31 to December 31.

Subsequent Events

We have evaluated subsequent events through the date of issuance of the financial statements, and did not have any material recognizable subsequent events, other than the following:

a) On April 21, 2014, the Company entered into a Stock Purchase Definitive Agreement (the “Agreement”) with Xtreme Technologies, Inc., an Idaho corporation (“Xtreme”). In accordance with the terms of the Agreement, the Company will purchase all of the outstanding shares of Xtreme for the purchase price of \$2,000,000.00, payable as follows:

A cash payment of \$50,000 has been previously paid as a non-refundable deposit;

An additional cash payment of \$525,000 shall be paid on or before the Closing Date (defined below), which, along with the initial \$50,000 deposit, shall pay the obligations on Xtreme’s balance sheet;

The balance of \$1,425,000.00 shall be payable by the issuance of shares of the Company’s Series C Preferred Stock with a stated value of \$1.00 per share to be divided pro rata among the Company’s shareholders of record as of the Closing Date. The Series C Preferred Stock shall include an option to convert such shares of Series C Preferred Stock into the Company’s Common Stock at the closing price of the Company’s common stock, as quoted on the OTCQB; and

One of Xtreme’s previous officers and directors holds outstanding options to purchase up to 1,009,000 shares of Xtreme’s common stock at the price of \$0.10 per share. At the Closing Date, pursuant to Idaho law, Xtreme shall notify this previous officer and director of his 30-day right to exercise any or all of his remaining options. If he elects to exercise any of his options within such 30-day period, the Company agrees to issue additional shares of Series C Preferred Stock in exchange for such Xtreme shares.

The Agreement includes customary representations, warranties and covenants of the Company and Xtreme, made to each other as of specific dates.

b) In April 2014, the Company was notified that a note holder disputes the balance of his note as recorded on the books of the Company. The discrepancy arises from a question regarding expenses that the holder claims were paid on behalf of the Company and subsequent payments that the Company recorded as payments against the note. The Company has no record of the expenses claimed to be due, and is in negotiations to settle this matter. The Company has accrued \$28,000 to cover the potential expenses and adjustments to accrued interest if the claim is substantiated.

The Company believes it has properly accounted for all payments made to the individual.

c) In May 2014, the Company received notice that a complaint was filed in District Court, Clark County, NV alleging that the Company and various unnamed defendants are liable to a Mr. Renard Wiggins with regard to commissions and equity purportedly owed Mr. Wiggins, for services allegedly rendered in raising capital on behalf of the Company prior to the reverse merger between Pinnacle Enterprises Inc. (now Alkame Holdings, Inc.) and Alkame Water, Inc. in June 2013. The Company has not fully evaluated the complaint, but after initial review, does not believe there is any validity to the claims of Mr. Wiggins, and intends to vigorously defend against these claims.

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements." These forward-looking statements generally are identified by the words "believes," "project," "expects," "anticipates," "estimates," "intends," "strategy," "plan," "may," "will," "would," "will be," "likely result," and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.

Overview

Alkame Holdings, Inc. fka Pinacle Enterprise Inc. (the "Company", "we", "us" or "our") was incorporated under the laws of the State of Nevada on April 19, 2010. The Company is in the business of manufacturing bottled/canned alkaline, antioxidant and oxygenated water.

On June 24, 2013, the Company entered into a share exchange agreement with Alkame and the shareholders of all of the issued and outstanding shares of Alkame. On June 25, 2013, the Company acquired 100% of the members' shares of Alkame Water, Inc. ("Alkame"), a Company incorporated in the state of Nevada on March 1, 2012, in exchange for 150,000,000 common shares, comprised of 116,666,667 common shares privately transacted from the President of Company and the issuance of 33,333,333 common shares to shareholders of Alkame. Effectively, Alkame held 71% of the issued and outstanding common shares of the Company and the transaction has been accounted for as a reverse acquisition, where Alkame is deemed to be the acquirer and or the surviving entity for accounting purposes.

As part of the acquisition transaction, all assets and liabilities of Alkame Holdings, Inc. at the date of acquisition were assumed by the former management.

The transaction is accounted for using the purchase method of accounting. As a result of the recapitalization and change in control, Alkame is the acquiring entity in accordance with ASC 805, Business Combinations. Accordingly, the historical financial statements are those of Alkame, the accounting acquirer, immediately following the consummation of the reverse merger.

The Company ceased to be a Development Stage Company during the year ended December 31, 2013.

As a result of the exchange transaction, our board of directors decided to change our fiscal yearend from January 31 to December 31.

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited consolidated financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Future Financings

We will continue to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund our operations and other activities.

Critical Accounting Policies

Our financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

We regularly evaluate the accounting policies and estimates that we use to prepare our financial statements. A complete summary of these policies is included in the notes to our financial statements. In general, management's estimates are based on historical experience, on information from third party professionals, and on various other

assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

Recently Issued Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and we do not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on our financial position or results of operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not Applicable.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15 of the Securities Exchange Act of 1934, our Principal Executive Officer and Principal Financial Officer evaluated our company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. The Company's disclosure controls and procedures are designed to provide a reasonable level of assurance of achieving the Company's disclosure control objectives. Our Principal Executive Officer and Principal Financial Officer have concluded that our disclosure controls and procedures are not effective at this reasonable assurance level.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake.

Changes in Internal Control over Financial Reporting

During the three months ended March 31 2014, we made several changes that have materially affected our internal control over financial reporting. Specifically, our consulting Chief Financial Advisor implemented further day to day reporting procedures and signoffs to control and manage the ongoing accounting and financial reporting.
