BION ENVIRONMENTAL TECHNOLOGIES, INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
THREE AND SIX MONTHS ENDED DECEMBER 31, 2007  
(UNAUDITED)

1. ORGANIZATION, NATURE OF BUSINESS, GOING CONCERN AND MANAGEMENT'S PLANS:

Organization and business:

Bion Environmental Technologies, Inc. ("Bion" or the "Company") was incorporated in 1987 in the State of Colorado.

Bion's patented and proprietary technology provides solutions for environmentally sound clean-up of the waste streams of large-scale animal farming operations ("confined animal feeding operations" or "CAFO's") (dairy, cattle feedlot, hogs, etc.) and creates economic opportunities for development of integrated complexes including alternative renewable energy production, ethanol production, sustainable animal husbandry and organic soil/fertilizer and feed production ("Projects" or "Integrated Projects"). Bion's technology also potentially allows direct integration with dairy end-users (bottling operations, cheese and ice cream plants, etc.) and the end-users of other CAFO's that can potentially increase the profitability and quality control of each participant while mitigating the environmental impact of the entire integrated complex. The Company is in the process of finalizing engineering, design and economic modeling for dairy and beef applications and Integrated Projects based on its second-generation technology.

Bion is currently evaluating sites in multiple states and anticipates selecting a site for its initial Integrated Project during fiscal year 2008. At present it is probable, but not certain, that development of Bion's initial Project will take place in St. Lawrence County, New York. Bion is presently establishing its implementation management team (including consultants) with the intention of commencing permitting, development and construction of the initial Project during calendar year 2008. In addition, Bion will seek to site additional Projects during 2008 and 2009 to create a pipeline of Projects that will insure significant market share and profitability within 3-5 years (both regionally and nationally). Each Project is expected to include: a) Bion waste treatment modules, b) processing the CAFO waste stream from the equivalent of 40,000 (or more) beef and/or dairy cows in modules, c) while producing renewable energy to replace natural gas or other energy use within the Project's CAFO modules and ethanol plant, d) solids to be marketed as feed and/or fertilizer, e) which is integrated with a 40+M gallon/year ethanol plant (though some smaller projects may be undertaken in appropriate situations). At the end of the 5-year period, Bion hopes to have numerous Projects in various stages of development ranging from full operation to early construction stage.

Through 2001 the Company was primarily an environmental service company focused on the needs of CAFOs. Thereafter, Bion elected to cease sales of its first generation systems and focused its activity on development of its second-generation technology.

Going concern and management's plans:

The consolidated financial statements have been prepared assuming the Company will continue as a going concern. The Company has incurred net losses of approximately \$2,549,000 and \$5,173,000 during the years ended June 30, 2007 and 2006, respectively, and net (loss) income of approximately \$(794,000) and

BION ENVIRONMENTAL TECHNOLOGIES, INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)  
THREE AND SIX MONTHS ENDED DECEMBER 31, 2007  
(UNAUDITED)

1. ORGANIZATION, NATURE OF BUSINESS, GOING CONCERN AND MANAGEMENT'S PLANS  
(CONTINUED):

Going concern and management's plans (continued):

\$63,000 for the three and six months ended December 31, 2007, respectively. At December 31, 2007, the Company has a working capital deficiency and a stockholders' deficit of approximately \$3,106,000 and \$3,767,000, respectively. These factors raise substantial doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments relating to the recoverability or classification of assets or the amounts and classification of liabilities that may result should the Company be unable to continue as a going concern. The following paragraphs describe management's plans with regard to these conditions.

As discussed in Note 9, during September 2007, the Company received net proceeds of \$1,258,000 consisting of \$828,000 from litigation settlements and \$430,000 from the release of escrowed funds.

The Company continues to explore sources of additional financing to satisfy its current operating requirements.

While the Company currently does not face a severe working capital shortage, it is not currently generating any revenues. The Company will need to obtain additional capital to fund its operations and technology development, to satisfy existing creditors and to develop Projects. The Company anticipates that it will seek to raise from \$3,000,000 to \$50,000,000 (debt and equity) during the next twelve months. There is no assurance the Company will be able to obtain the funds that it needs to stay in business, complete its technology development or to successfully develop its business.

There can be no assurance that funds required during the next twelve months or thereafter will be generated from operations or that those funds will be available from external sources such as debt or equity financings or other potential sources. The lack of additional capital resulting from the inability to generate cash flow from operations or to raise capital from external sources would force the Company to substantially curtail or cease operations and would, therefore, have a material adverse effect on its business. Further, there can be no assurance that any such required funds, if available, will be available on attractive terms or that they will not have a significantly dilutive effect on the Company's existing shareholders.

2. SIGNIFICANT ACCOUNTING POLICIES:

Principles of consolidation:

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Bion Technologies, Inc., BionSoil, Inc. and Bion Dairy Corporation ("Dairy") and its 57.7% owned subsidiary, Centerpoint Corporation ("Centerpoint"). All significant intercompany accounts and transactions have been eliminated in consolidation.

BION ENVIRONMENTAL TECHNOLOGIES, INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)  
THREE AND SIX MONTHS ENDED DECEMBER 31, 2007  
(UNAUDITED)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Principles of consolidation (continued):

The accompanying consolidated financial statements have been prepared without audit pursuant to the rules and regulations of the Securities and Exchange Commission. The consolidated financial statements reflect all adjustments (consisting of only normal recurring entries) that, in the opinion of management, are necessary to present fairly the financial position at December 31, 2007 and the results of operations and cash flows of the Company for the three and six months ended December 31, 2007 and 2006. Operating results for the three and six months ended December 31, 2007 are not necessarily indicative of the results that may be expected for the year ending June 30, 2008.

The unaudited consolidated financial statements should be read in conjunction with the Company's audited financial statements and footnotes thereto included in its Annual Report on Form 10-KSB for the year ended June 30, 2007.

Basic earning (loss) per share amounts are calculated using the weighted average number of shares of common stock outstanding during the period. Diluted earnings (loss) per share assumes the conversion, exercise or issuance of all potential common stock instruments, such as options or warrants, unless the effect is to reduce the loss or increase earnings per share. For the six months ended December 31, 2007 the calculation of diluted earnings per share was not materially different from basic earnings per share.

Recent accounting pronouncements:

The Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109 ("FIN 48"), on July 1, 2007. There were no unrecognized tax benefits and, accordingly, there was no effect on the Company's financial condition or results of operations as a result of implementing FIN 48.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. The Company is no longer subject to U.S. federal and state tax examinations for fiscal years before 2003. Management does not believe there will be any material changes in our unrecognized tax positions over the next 12 months.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of the date of adoption of FIN 48, there was no accrued interest or penalties associated with any unrecognized tax benefits, nor was any interest expense recognized during the quarter.

BION ENVIRONMENTAL TECHNOLOGIES, INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)  
THREE AND SIX MONTHS ENDED DECEMBER 31, 2007  
(UNAUDITED)

### 3. MINORITY INTEREST OF CENTERPOINT CORPORATION:

In January 2002, Bion purchased a 57.7% majority interest in Centerpoint from a third party. For the years ended June 30, 2007 and 2006, the losses applicable to the minority interest in Centerpoint exceeded the minority interest in the equity capital of Centerpoint, therefore the losses attributable to the minority interest were charged against the Company's earnings as there was no obligation of the minority interest to make good on such losses. During the six months ended December 31, 2007, Centerpoint had earnings of approximately \$695,000, of which the Company utilized approximately \$395,000 to offset minority interest losses previously absorbed. The remaining \$300,000 was allocated between the Company and Centerpoint's minority interest holders creating a minority interest of \$126,865 as of December 31, 2007.

### 4. PROPERTY AND EQUIPMENT:

Property and equipment consists of the following as of December 31, 2007:

Research and development equipment	\$ 305,266
Leasehold improvements	31,336
Furniture	28,932
Computers and office equipment	29,364
	-----
	394,898
Less accumulated depreciation	(329,523)
	-----
	\$ 65,375
	=====

Depreciation expense was \$4,046 and \$1,891 for the three months ended December 31, 2007 and 2006, respectively, and \$8,066 and \$2,655 for the six months ended December 31, 2007 and 2006, respectively.

### 5. CONVERTIBLE PROMISSORY NOTES:

#### 2006 Series A Convertible Promissory Notes:

On September 13, 2006, the Company closed the offering of its 2006 Series A Convertible Promissory Notes, totaling \$700,000 (the "2006 Notes"). The holders of the 2006 Notes earn interest on the unpaid principal balance of the 2006 Notes at 6%, payable on May 31, 2008, the maturity date of the 2006 Notes. All of the principal and accrued interest under the 2006 Notes shall be converted into common shares of the Company at the conversion rate of one share for each \$6.00 that is owed under the terms of the 2006 Notes if the following conditions are met:

- A) The closing market price of the Company's shares has been at or above \$7.20 per share for 10 consecutive trading days, and

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)  
THREE AND SIX MONTHS ENDED DECEMBER 31, 2007  
(UNAUDITED)

### 5. CONVERTIBLE PROMISSORY NOTES (CONTINUED):

#### 2006 Series A Convertible Promissory Notes (continued):

##### B) The earliest of the following events:

- 1) An effective registration allowing public resale of the shares to be received by the 2006 Note holders upon conversion, or
- 2) One year after the initial closing date of the offering, and
- 3) No conversion without an effective registration statement shall take place until the Company has become a "reporting company" with the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, which occurred on January 13, 2007.

The 2006 Notes may also be convertible, in whole or in part, into the Company's common shares at any time at the election of the 2006 Note holders at a conversion rate of \$6.00 per share, which was above the approximate market price of the Company's common shares at the commitment date of the offering. For the three months ended December 31, 2007 and 2006, the 2006 Notes accrued interest of \$11,205 and \$10,559 respectively, and \$22,244 and \$16,727 the six months ended December 31, 2007 and 2006, respectively.

#### 2007 Series A Convertible Promissory Notes:

In March and April 2007, the Company sold \$800,000 of its 2007 Series A Convertible Notes (the "2007 Notes") for cash proceeds. In addition the Company issued 2007 Notes to affiliates totaling \$986,521 in exchange for promissory notes with convertible features and deferred compensation (Note 7). The 2007 Notes are convertible into shares of the Company's common stock at the price of \$4.00 per share until maturity on July 1, 2008, or at the election of the 2007 Note holder and will accrue interest at 6% per annum. The 2007 Note holders have the option to exchange the 2007 Notes, plus interest, into securities substantially identical to securities the Company sells in any offering prior to the completion of an offering in which the Company raises less than \$3,000,000. The Company has the right to require the 2007 Notes (principal plus interest) be converted into its common shares at the lesser of \$4.00 per share or the price of an offering in which the Company raises \$3,000,000 or more. The conversion price of the 2007 Notes of \$4.00 per share is above the approximate market price of the Company's common shares at the commitment date of the offering. The 2007 Notes accrued interest of \$27,520 and \$54,636 for the three and six months ended December 31, 2007, respectively.

### 6. CONVERTIBLE NOTES - AFFILIATES:

On April 4, 2006 convertible deferred compensation due to the Company's president, Mark A. Smith, pursuant to an April 2003 deferred compensation agreement, was exchanged for a promissory note and conversion agreement. The promissory note and conversion agreement have the same terms and conversion features as the April 2003 deferred compensation agreement. Under the

# Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

(UNAUDITED)

## 6. CONVERTIBLE NOTES - AFFILIATES (CONTINUED):

agreements, the president earned compensation of \$150,000 annually, all of which has been deferred to date. Sums accrued through March 31, 2006, accrue interest at 6% per annum, and are convertible into the Company's common stock at the lower of the current market value at the time of conversion, or \$2.00 per share. Through July 1, 2007, conversions could occur by mutual agreement between the Company and Mr. Smith. The Company may convert the deferred compensation, in whole or in part, at any date after July 1, 2007 and the convertible deferred compensation owed the president is mandatorily converted to common stock of the Company on July 1, 2009. Through June 30, 2006, the Company accounted for this employee stock-based compensation agreement under APB 25 and recorded the intrinsic value of the deferred compensation agreement at each reporting date. On July 1, 2006, the Company adopted the provisions of SFAS 123(R), which supersedes APB 25. In accordance with SFAS 123(R), outstanding instruments previously classified as liabilities and measured at intrinsic values, are to be measured initially at fair value with differences to be recorded as the cumulative effect of a change in accounting principle. The fair value of deferred compensation owed to Mark A. Smith on July 1, 2006 was \$1,521,609, and the cumulative effect of the change in accounting principle of \$308,870 was recorded. Fair value at July 1, 2006 was calculated using a Black-Scholes option pricing model with the following assumptions: a dividend yield of zero, a risk-free interest rate of 5.13%, volatility of 181%, a remaining contractual life of 3 years and a stock price of \$6.40. On December 2, 2007, under the terms of the agreement, the deferred compensation plus interest owed Mark A. Smith of \$412,125 was converted into 274,750 common shares of the Company. At December 2, 2007 the fair value of deferred compensation owed to Mark A. Smith was re-measured as \$538,509 and resulted in a credit to earnings of \$42,921 and \$237,383 for the three and six months ended December 31, 2007, respectively. Fair value at December 2, 2007 was calculated utilizing the following assumptions: a dividend yield of zero, a risk-free interest rate of 3.03%, volatility of 59%, a remaining contractual life of 1.58 years and a stock price of \$1.50.

On December 31, 2005, convertible deferred compensation payable to Bright Capital, Ltd. ("Brightcap") for services provided to the Company by Dominic Bassani, the former general manager of Dairy, between April 1, 2003 and September 30, 2005 was exchanged for a promissory note and conversion agreement with the same terms and features as the deferred compensation agreement. Effective March 31, 2005, Brightcap entered into an agreement to continue to provide Mr. Bassani's services to the Company through March 31, 2009 and Brightcap earns compensation of \$300,000 annually with payment deferred. Sums accrued through September 30, 2005, accrue interest at 6% per annum and are convertible into the Company's common stock at the lower of the current market value at the time of conversion or \$2.00 per share. Through January 1, 2007 conversions could occur by mutual agreement between the Company and Brightcap. The Company may convert the deferred compensation, in whole or in part, at any date after January 1, 2007 and, on July 1, 2009, the Company's obligation owed Brightcap is mandatorily convertible to common stock of the Company. Through June 30, 2006, the Company accounted for this employee stock-based compensation agreement under APB 25 and recorded the intrinsic value of the deferred compensation agreement at each reporting

date. On July 1, 2006, the Company adopted the provisions of SFAS 123(R), which supersedes APB 25. The fair value of deferred compensation owed to Brightcap on July 1, 2006 was \$2,081,475, and the cumulative effect of the change in accounting principle of \$422,516 was recorded. Fair value at July 1, 2006 was calculated using a Black-Scholes option pricing model with the following assumptions: a dividend yield of zero, a risk-free interest rate of 5.13%, volatility of 181%, a remaining contractual life of 3 years and a stock price of \$6.40. At December 31, 2007 the fair value of deferred compensation owed to Brightcap was re-measured as \$702,179 and resulted in a credit to earnings of \$95,634 and \$361,577 for the three and six months ended December 31, 2007. Fair value at December 31, 2007 was calculated utilizing the following assumptions: a dividend yield of zero, a risk-free interest rate of 3.2%, volatility of 58%, a remaining contractual life of 1.5 years and a stock price of \$2.34.

Effective September 30, 2006, Mr. Bassani no longer serves in the capacity of general manager of Dairy. However, he continues to provide services through Brightcap in the area of strategic planning pursuant to the agreement above.

### 7. DEFERRED COMPENSATION:

As of July 1, 2006, the Company had also recorded deferred compensation liabilities of \$412,500 for three officers of the Company consisting of \$37,500 to Mark A. Smith, \$225,000 to Brightcap, and \$150,000 to Salvatore Zizza, a former officer and director of the Company, who assumed the position of Chairman and director of Dairy with an annual salary of \$300,000. Through December 31, 2006, an additional \$375,000 was accrued (\$75,000 to Mark A. Smith, \$150,000 to Brightcap and \$150,000 to Salvatore Zizza). Effective January 1, 2007, the Company entered into agreements converting deferred compensation amounts owed as of December 31, 2006 into promissory notes with conversion agreements. The notes accrue interest at 6% per annum, with principal and interest due and payable on January 1, 2009, if not previously paid. The conversion agreements allow for the conversion of the notes into shares of the Company's common stock at the equivalent price of the Company's next private financing in excess of \$2,000,000 as follows: a) by the holder at any time after July 1, 2007; b) by the Company any time after there has been an effective registration including the shares underlying conversion of the notes for six months; c) by the holder and the Company by mutual agreement at any time prior to payment by the Company of outstanding principal and interest. As of March 31, 2007 the accrued principal and interest owed under the promissory notes with conversion agreements, \$787,500 and \$11,521, respectively, in addition to deferred compensation owed for the three months ended March 31, 2007 (\$37,500 to Mark A. Smith, \$75,000 to Brightcap, \$75,000 to Salvatore Zizza) were converted to 2007 Series A Promissory Notes (Note 5).

As of December 31, 2007, the Company owed deferred compensation totaling \$554,280 (\$104,280 to Mark A. Smith, \$225,000 to Brightcap and \$225,000 to Salvatore Zizza).

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

### 8. STOCKHOLDERS' EQUITY:

#### Common stock:

Holders of common stock are entitled to one vote per share on all matters to be voted on by common stockholders. In the event of liquidation, dissolution or winding up of the Company, the holders of common stock are entitled to share in all assets remaining after liabilities have been paid in full or set aside. Common stock has no preemptive, redemption or conversion rights. The rights of holders of common stock are subject to, and may be adversely affected by, the rights of the holders of any other series of preferred stock the Company may designate in the future.

In December 2007, under the terms of a promissory note with a conversion agreement, Mr. Smith converted deferred compensation plus interest of \$412,125 into 274,750 common shares of the Company's common stock (Note 6).

#### Warrants:

As of December 31, 2007 the Company had the following common stock warrants outstanding:

	Number of Shares	Exercise Price	Expiration Date
	-----	-----	-----
Class SVDB 1-6	800,000	\$ 3.00	July 31, 2013
Class SVDM-1	387,343	\$ 5.00	July 31, 2008
Class DB-1	600,000	\$ 1.00	January 31, 2014
Class A 1-3	600,000	\$ 2.50	May 14, 2015
Class SVMAS-1	67,500	\$ 3.50	May 31, 2009
Class SVMAS-1A	40,000	\$ 3.50	October 11, 2009
Class SVMAS-2	32,500	\$ 2.50	September 30, 2009
Class SVMAS-3	40,000	\$ 2.50	September 30, 2015
Class SVB 1-3	50,000	\$ 2.50	April 30, 2015
Class SVB-4	75,000	\$ 2.50	April 30, 2015
Class SVC 1-5	125,000	\$ 4.25	December 31, 2012
Class SV-SEI 1-2	41,667	\$ 1.50	June 30, 2009
Class C, D, E	725,000	\$ 2.50	April 30, 2015
Class O	100,000	\$ 3.00	December 31, 2008
	-----		
	3,684,010		
	=====		

The weighted average exercise for the outstanding warrants is \$2.72 and the weighted average life as of December 31, 2007 is 5.5 years.

### 8. STOCKHOLDERS' EQUITY (CONTINUED):

#### Stock options:

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

Prior to June 2006, the Company had various incentive plans (the "Plans") that provided for incentive stock options to be granted to selected employees and directors of the Company, and selected non-employee advisors to the Company. Effective June 2006, the Company approved the 2006 Consolidated Incentive Plan (the "2006 Plan"), which consolidated previously reserved incentive stock options under the Plans into the 2006 Plan. The Company has reserved 3,200,000 shares, the maximum number of shares of the common stock of the Company issuable pursuant to the 2006 Plan. Terms of exercise and expiration of options granted under the 2006 Plan may be established at the discretion of the Board of Directors, but no option may be exercisable for more than ten years.

The Company recorded compensation expense related to stock options of \$220,174 and \$82,368 for the three months ended December 31, 2007 and 2006, respectively and \$364,966 and \$300,255 for the six months ended December 31, 2007 and 2006, respectively. During the six months ended December 31, 2007, the Company granted 145,000 options, while 45,000 options were cancelled. During the six months ended December 31, 2006, the Company granted options to purchase 235,000 shares of the Company's common stock. The fair value of the options granted during the six months ended December 31, 2007 is estimated on the grant date using the Black-Scholes option-pricing model with the weighted average following assumptions:

Volatility	70%
Dividend yield	0%
Risk-free interest rate	3.53%
Expected life (years)	2

The expected volatility was based on the historical price volatility of the Company's common stock. The dividend yield represents the Company's anticipated cash dividend on common stock over the expected life of the stock options. The U.S. Treasury bill rate for the expected life of the stock options was utilized to determine the risk-free interest rate. The expected term of stock options represents the period of time the stock options granted are expected to be outstanding based upon management's estimates.

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

A summary of option activity under the 2006 Plan for the six months ended December 31, 2007 is as follows:

	Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life	Aggregate Intrinsic Value
	-----	-----	-----	-----
Outstanding at July 1, 2007	1,833,333	\$ 3.33		
Granted	145,000	2.21		
Exercised	-	-		
Cancelled	(45,000)	6.39		
	-----	-----	-----	-----
Outstanding at December 31, 2007	1,933,333	\$ 3.17	4.3	\$ 69,450
	=====	=====	=====	=====
Exercisable at December 31, 2007	1,391,667	\$ 3.18	3.6	\$ 51,150
	=====	=====	=====	=====

The weighted-average grant-date fair value of options granted during the six months ended December 31, 2007 and 2006 was \$0.70 and \$5.07, respectively.

The following table presents information relating to nonvested stock options as of December 31, 2007:

	Shares	Weighted Average Grant-Date Fair Value
	-----	-----
Nonvested at July 1, 2007	560,833	\$ 2.34
Granted	145,000	.72
Vested	(139,167)	(2.67)
Cancelled	(25,000)	(4.89)
	-----	-----
Nonvested at December 31, 2007	541,666	\$ 1.71
	=====	=====

The total fair value of stock options that vested during the six months ended December 31, 2007 and 2006 was \$342,800 and \$193,875, respectively. The intrinsic value of stock options exercised during the six months ended December 31, 2007 and 2006 was \$0 as there were no options exercised during these periods. As of December 31, 2007 the Company had \$429,647 of unrecognized compensation cost related to stock options that will be recorded over a weighted average period of approximately 1.25 years.

### 8. STOCKHOLDERS' EQUITY (CONTINUED):

Stock options (continued):

The Company has issued options to purchase shares of the Company's common stock in exchange for services. As of December 31, 2007, non-employee

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

options represented 630,833 of the 1,933,333 options outstanding under the Company's 2006 Consolidated Incentive Plan. Of the 630,833 non-employee options outstanding, 260,833 were fully vested and contained no service conditions as of December 31, 2007. These non-employee options were valued using the Black-Scholes option-pricing model. The fully vested options have been fully amortized on the straight-line method and resulted in expense of \$0 and \$12,767 for the three months ended December 31, 2007 and 2006, respectively and \$0 and \$25,536 for the six months ended December 31, 2007 and 2006, respectively.

The remaining 370,000 non-employee options outstanding include service conditions and have graded vesting schedules through May 1, 2009. As of December 31, 2007, 195,000 of these options were fully vested. Generally for these agreements, the measurement date of the services occurs when the options vest. In accordance with Emerging Issues Task Force ("EITF") Issue No. 96-18, recognition of compensation cost for reporting periods prior to the measurement date is based on the then current fair value of the options based on the market price of the Company's common shares as of the reporting date. Any subsequent change in fair value is recorded on the measurement date. The fair value of these options were determined using the Black-Scholes option-pricing model, using the following assumptions at December 31, 2007; a dividend yield of zero, a risk-free interest rate of 3.7%, volatility of 159% and an expected life of 7.33 years. Consulting cost in connection with options that are not fully vested as of December 31, 2007 is being recognized on a straight-line basis over the requisite service period for the entire award. Non-cash fair value charges (credits) of \$80,792 and \$214,866 were recorded as research and development expenses during the three months ended December 31, 2007 and 2006, respectively and \$(70,146) and \$211,945 for the six months ended December 31, 2007 and 2006, respectively.

9. LITIGATION SETTLEMENT AND RETURN OF ESCROWED FUNDS:

The Company, its president and Dairy were defendants in a class action/derivative action lawsuit in Delaware Chancery Court (TCMP#3 Partners, LLP, et al v. Trident Rowan Group, Inc., et al, Civil Action No. 170-N) (the "TCMP Litigation") and on August 10, 2007 a settlement was approved. Pursuant to the settlement, the Company, its president and Dairy paid \$165,000, through insurance, into a settlement fund. As part of the

9. LITIGATION SETTLEMENT AND RETURN OF ESCROWED FUNDS (CONTINUED):

settlement reached in the TCMP Litigation, the Company, Centerpoint and certain shareholders of the Company ("Shareholder Class") filed an action

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

against Comtech Group, Inc. ("Comtech") (formerly known as Trident Rowan Group, Inc.), OAM S.p.A ("OAM") and others in the Court of Chancery in the State of Delaware (the "Comtech Litigation"), along with a stipulated settlement of the litigation. Pursuant to that settlement, Comtech and OAM agreed to deliver to the Shareholder Class: a) 144,240 shares of the Company's common stock; b) a warrant to purchase 100,000 shares of the Company's common stock, and c) 140,000 shares of the common stock of Centerpoint. It is anticipated that delivery of these securities (net of 10% attorneys' fees) will take place during the second half of fiscal 2008 and each member of the Shareholder Class will receive the equivalent of approximately .05 of the Company's shares for each share of the Company's common shares (split adjusted) owned on January 15, 2002. Additionally, Comtech and OAM assigned to the Company all of their rights to the proceeds of an escrow established from the sale of Centerpoint's assets to Aprilia S.p.A. (the "Aprilia Escrow") and any proceeds from litigation related to the transaction with Aprilia. On September 18, 2007 the Company received gross proceeds of \$798,210 (net receipts were \$159,642 to Centerpoint and \$558,747 to Bion, after payment of attorneys' fees of \$79,821) from the Aprilia Escrow. As part of the settlement, one of the other defendants in the Comtech litigation paid \$150,000 into a settlement fund, through insurance, from which the Company and Centerpoint received \$110,000, in aggregate, on September 10, 2007. As there are no contingencies on the settlement, the Company recognized the net proceeds of \$828,389 as other income for the six months ended December 31, 2007.

Also on September 18, 2007, Centerpoint received \$429,806 from its direct 35% ownership interest in the Aprilia Escrow which is included in other income as of December 31, 2007.

### 10. OPERATING LEASE:

The Company entered into a non-cancellable operating lease commitment for office space in New York, effective August 1, 2006 and expiring November 30, 2013. In conjunction with the signing of the lease, the Company provided the lessor with a secured letter of credit in the amount of \$171,945, which is reflected as restricted cash as of December 31, 2007. The Company's obligations under the lease are partially guaranteed by Salvatore Zizza, chairman of Bion Dairy. The Company has entered into two separate agreements to sub-lease approximately 32% of the Company's lease obligation and the tenants have also agreed to reimburse the Company for leasehold improvements and furnishings. Because the lease contains an escalation clause, the Company is recognizing rent under the straight-line method resulting in an average monthly rent expense of \$15,820. The Company is also recognizing the sub-lease rental income from its tenants under the straight-line method, with

THREE AND SIX MONTHS ENDED DECEMBER 31, 2007  
(UNAUDITED)

### 10. OPERATING LEASE (CONTINUED):

a monthly average of \$5,250. The difference between the straight-line method, and the actual lease payments have resulted in a deferred rent liability of \$69,101 as of December 31, 2007. Rent expense, net of sub-lease rental income was \$20,053 and \$39,628, and \$51,234 and \$72,019 for the three and six months ended December 31, 2007 and 2006, respectively.

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

At December 31, 2007, future minimum rental payments due under non-cancelable leases and future minimum rental payments to be received under non-cancelable subleases are:

### 11. COMMITMENTS AND CONTINGENCIES:

#### Employment and consulting agreements:

The Company had an employment agreement with its president, Mark A. Smith, through December 31, 2007 providing \$150,000 per year compensation. On November 7, 2007, the Company extended the employment agreement through December 31, 2008 and granted Mr. Smith options to purchase 125,000 shares of the Company's common stock at \$2.20 per share, expiring on December 31, 2011.

Effective March 31, 2005, an agreement with Brightcap, through which the services of Dominic Bassani, are provided, was extended through March 31, 2009. Under the terms of the agreement, Brightcap will be paid \$300,000 annually for Mr. Bassani's services.

Effective May 1, 2005, the Company entered into a four-year consulting/employment agreement with a former officer and director of the Company, Salvatore Zizza. As of January 1, 2006, the former officer and director assumed the position of Chairman and director of Dairy, with an annual salary of \$300,000.

Effective May 1, 2005, the Company entered into a four-year consulting/employment agreement with Jeff Kapell. Under the terms of the agreement, Mr. Kapell provided part-time services to the Company through March 2006. In April 2006, Mr. Kapell was appointed Dairy's Vice President-Renewables at a salary of \$120,000 per year.

### 11. COMMITMENTS AND CONTINGENCIES (CONTINUED):

#### Employment and consulting agreements (continued):

Effective September 18, 2006, the Company entered into a four-year employment agreement with Jeremy Rowland whereby Mr. Rowland assumed the position of Chief Operating Officer of Dairy at an annual salary of \$150,000.

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

Effective June 1, 2007, the Company entered into an employment agreement, effective through August 31, 2009, with Craig Scott. Mr. Scott was appointed Vice President of Capital Markets/Investor Relations at an annual salary of \$120,000.

In May 2005 the Company declared contingent deferred stock bonuses of 690,000 shares to its key employees and consultants. The stock bonuses of 492,500 and 197,500 shares are contingent upon the Company's stock price exceeding \$10.00 and \$20.00 per share, respectively, and the grantees still being employed by or providing services to the Company at the time the target prices are reached.

Joint venture agreement:

In June 2006, the Company entered into an agreement with Fair Oaks Dairy Farm ("FODF") to construct a Bion facility ("Stage I System") at FODF. Bion has been working with FODF since May 2005 for the purpose of installing a waste treatment facility at FODF that could become the basis for a future Integrated Project. The June 2006 agreement contemplates expansion beyond the initial waste treatment facility. The Stage I System, if constructed, will initially be used for testing necessary for: a) finalization of design criteria for permitting and construction of, and b) optimization of renewable energy production and utilization for the full scale Integrated Projects. The Company is currently in negotiations toward an amended agreement with FODF pursuant to which: a) the Company will construct a commercial scale Bion System designed to handle the waste stream from approximately 3,500-6,200 milking cows ("Initial System") at existing FODF facilities in Indiana which will incorporate and expand the scope of the Stage I System; and b) when the Initial System has completed start-up phase and demonstrated environmental results consistent with the published results achieved at Bion's DeVries research facility, the Initial System will become the basis of expansion into an Integrated Project at FODF through development stages including dairy expansion, construction of additional Bion System modules, including renewable energy production, solids processing facilities, and construction of an ethanol plant. Preliminary engineering, design and site work at FODF has begun pursuant to the existing agreement. However, due to the inability to resolve certain technical and financial issues, it is uncertain whether any of these facilities will be constructed. FODF is owned and controlled by Michael McCloskey and Timothy Den Dulk who have served as consultants to the Company since May 2005.

11. COMMITMENTS AND CONTINGENCIES (CONTINUED):

Claims contingency:

In May 2002, Arab Commerce Bank Ltd. ("ACB"), an unaffiliated party, filed a complaint against the Company in the Supreme Court of the State of New York regarding \$100,000 of the Company's convertible bridge notes ("Bridge Notes") that were issued to ACB in March 2000. The complaint includes a breach of contract claim asserting that the Company owes ACB approximately \$285,000

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

plus interest of \$121,028 plus interest based on ACB's interpretation of the terms of the Bridge Notes and subsequent amendments. Effective June 30, 2001, the Company issued ACB 5,034 shares of common stock in full satisfaction of the Bridge Notes based on the Company's interpretation of the Bridge Notes, as amended. The Company has filed an answer to the complaint denying the allegations. No activity has taken place on this lawsuit since early 2003. The Company believes that the ultimate resolution of this litigation will not have a material adverse effect on the Company, its operations or its financial condition.

### 12. RELATED PARTY TRANSACTIONS:

The Company has an accrued payable of \$41,647 to a company controlled by Salvatore Zizza for rental of office space in 2003.

22

## PART I. FINANCIAL INFORMATION

### ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

The following discussion and analysis should be read in conjunction with the Consolidated Financial Statements and Notes to Consolidated Financial Statements filed with the Company's Form 10-KSB for the year ended June 30, 2007.

#### BUSINESS OVERVIEW

The Company has been focused on completion of the development of its second-generation technology which provides solutions for environmentally sound clean-up of the waste streams of large-scale CAFO's and creates economic opportunities for integration of renewable energy production, ethanol production, sustainable animal husbandry and organic soil/fertilizer and feed production. We believe our technology will also allow development

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

of Projects that can also directly integrate with dairy (and other CAFO) end-users and that can potentially increase profitability and quality control of each participant while mitigating the environmental impact of the entire integrated complex. The Company is in the process of finalizing engineering, design and economic modeling for applications and Integrated Projects and expects to select the site for, begin permitting and, commence development of its initial Integrated Project during its 2008 fiscal year.

The financial statements for the years ended June 30, 2007 and 2006 have been prepared assuming the Company will continue as a going concern. The Company has incurred net losses of approximately \$2,549,000 and \$5,173,000 during the years ended June 30, 2007 and 2006, respectively. At June 30, 2007, the Company had a working capital deficiency and a stockholders' deficit of approximately \$1,219,000 and \$4,663,000, respectively. The financial statements for the three and six months ended December 31, 2007 and 2006 have also been prepared assuming the Company will continue as a going concern. The Company has incurred net (loss) income of approximately \$(794,000) and \$63,000 during the three and six month periods ended December 31, 2007, respectively. At December 31, 2007, the Company has a working capital deficiency and a stockholders' deficit of approximately \$3,106,000 and \$3,767,000, respectively. The report of the independent registered public accounting firm on the Company's financial statements as of and for the year ended June 30, 2007 includes a "going concern" explanatory paragraph which means that the accounting firm has expressed substantial doubt about the Company's ability to continue as a going concern. Management's plans with respect to these matters are described in this section and in our financial statements, and this material does not include any adjustments that might result from the outcome of this uncertainty. There is no guarantee that we will be able to raise the funds or raise further capital for the operations planned in the near future.

### CRITICAL ACCOUNTING POLICIES

Management has identified the following policies below as critical to our business and results of operations. Our reported results are impacted by the application of the following accounting policies, certain of which require management to make subjective or complex judgments. These judgments involve making estimates about the effect of matters that are inherently uncertain and may significantly impact quarterly or annual results of operations. For all of these policies, management cautions that future

23

events rarely develop exactly as expected, and the best estimates routinely require adjustment. Specific risks associated with these critical accounting policies are described in the paragraphs below.

#### Revenue Recognition

While the Company has not recognized any operating revenues for the past two fiscal years, the Company anticipates that future revenues will be generated from product sales, technology license fees, annual waste treatment fees and direct ownership interests in Integrated Projects. The Company expects to recognize revenue from product sales when there is persuasive evidence that an arrangement exists, when title has passed, the price is fixed or determinable, and collection is reasonably assured. The Company expects that technology license fees will be generated from the licensing of Bion's Systems. The Company anticipates that it will charge its customers a non-refundable up-front technology license fee, which will be recognized over the estimated life of the customer relationship. In addition, any on-going

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

technology license fees will be recognized as earned based upon the performance requirements of the agreement. Annual waste treatment fees will be recognized upon receipt. Revenues, if any, from the Company's interest in Projects will be recognized when the entity in which the Project has been developed recognizes such revenue.

### Compensation Cost for Options with Service Conditions and Graded Vesting Schedules

The Company has issued non-employee options that include service conditions and have graded vesting schedules. Generally for these arrangements, the measurement date of the services occurs when the options vest. In accordance with Emerging Issues Task Force Issue No. 96-18, recognition of compensation cost for reporting periods prior to the measurement date is based on the then current fair value of the options. Fair value of the options is determined using a Black-Scholes option-pricing model. Any subsequent changes in fair value will be recorded on the measurement date. Compensation cost in connection with options that are not fully vested is being recognized on a straight-line basis over the requisite service period for the entire award.

### Stock-based compensation

On July 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards ("SFAS") No. 123 (Revised), "Share-Based Payment" (SFAS 123(R)), which supercedes Accounting Principles Board Opinion No. 25 ("APB 25"), and generally requires that share-based compensation transactions be accounted and recognized in the statement of income based on their fair values. The Company adopted SFAS 123(R) using the modified prospective application under which all share based awards granted on or after the adoption date and modifications, repurchases or cancellation of prior awards made after the adoption date shall be accounted for under SFAS 123(R). The modified prospective application does not require the Company to restate prior period's financial results to reflect the adoption. As of December 31, 2007 the Company had \$430,000 of unrecognized compensation cost related to stock options that will be recorded over a weighted average period of approximately 1.25 years.

24

In accordance with SFAS 123(R), outstanding instruments previously classified as liabilities and measured at intrinsic values, are to be measured initially at fair value with differences to be recorded as a cumulative effect of a change in accounting principle. The Company recorded the cumulative effect of a change in accounting principle of \$731,000 due to the calculation of the fair value of convertible deferred compensation owed Mark Smith (\$1,522,000) and Brightcap (\$2,081,000) as of July 1, 2006. The Company re-measures the fair value of the convertible notes at each reporting period after July 1, 2006, using a Black-Scholes model approach, and records any adjustments as non-cash compensation expense in the re-measurement period. At December 2, 2007 and December 31, 2007, the fair value of deferred compensation owed Mark Smith and Brightcap was re-measured at \$539,000 and \$702,000, respectively, and resulted in a credit to earnings of \$237,000 and \$362,000, respectively, for the six months ended December 31, 2007.

### RECENT ACCOUNTING PRONOUNCEMENTS

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

The Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109 ("FIN 48"), on July 1, 2007. There were no unrecognized tax benefits and, accordingly, there was no effect on the Company's financial condition or results of operations as a result of implementing FIN 48.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. The Company is no longer subject to U.S. federal and state tax examinations for fiscal years before 2003. Management does not believe there will be any material changes in our unrecognized tax positions over the next 12 months.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of the date of adoption of FIN 48, there was no accrued interest or penalties associated with any unrecognized tax benefits, nor was any interest expense recognized during the quarter.

THREE MONTHS ENDED DECEMBER 31, 2007 COMPARED TO THREE MONTHS ENDED DECEMBER 31, 2006

### General and Administrative

Total general and administrative expenses decreased \$129,000 from \$284,000 to \$155,000 for the three months ended December 31, 2006 and 2007, respectively.

General and administrative expenses, excluding stock-based compensation expense of \$107,000 and \$70,000 for the three months ended December 31, 2007 and 2006, respectively, were \$48,000 versus \$214,000. The decrease of approximately \$166,000 was due primarily to lower legal costs for the three months ended December 31, 2007 due to an insurance reimbursement for legal fees related to the Centerpoint litigation of \$133,000. Also contributing to lower general and administration costs for the three month period ended December 31, 2007 compared to the same period in 2006 was lower rent expense of \$16,000 due to more sub-tenant offsets, and lower accounting and audit

25

fees of \$16,000, due to the absence of costs in the current year for accounting and audit fees related to the Form 10SB registration during the three months ended December 31, 2006, and lower consulting costs of \$18,000 due to lower investor relations fees.

General and administrative stock-based compensation for the three months ended December 31, 2007 and 2006 respectively consist of the following:

	Three months ended December 31, 2007	Three months ended December 31, 2006
	-----	-----
Fair value remeasurement of convertible notes - affiliates	\$ (43,000)	\$ 49,000
Amortization of expenses prepaid with stock options granted to non-employees	-	5,000
Fair value of stock options expensed under SFAS 123(R)	150,000	16,000
	-----	-----

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

Total	\$107,000 =====	\$ 70,000 =====
-------	--------------------	--------------------

Stock-based compensation expenses increased to \$107,000 for the three months ended December 31, 2007 from \$70,000 for the three months ended December 31, 2006. The change in stock-based compensation fair value adjusted expense relating to the President's convertible deferred compensation is due to the decrease in the price of the Company's stock from \$2.20 at September 30, 2007 to \$1.50 per share at his conversion date of December 2, 2007 versus the increase from the \$5.25 per share to \$5.75 per share for the three months ended December 31, 2006. For the three months ended December 31, 2007 the Company recognized expense relating to the fair value of stock options for general and administrative employees of \$150,000, compared to \$16,000 during the same period in 2006 due to more stock options being issued during the three months ended December 31, 2007.

### Research and development

Total research and development expenses have decreased \$377,000 from \$922,000 to \$545,000 for the three months ended December 31, 2006 and 2007, respectively.

Research and development expenses, excluding stock-based compensation expense of \$55,000 and \$355,000 for the three months ended December 31, 2007 and 2006, respectively, decreased \$77,000 from \$567,000 to \$490,000 for the three months ended December 31, 2006 and 2007, respectively. The decrease is primarily due to lower legal fees of \$71,000 due to decreased patent work for the three months ended December 31, 2007 compared to the same period in the prior year.

Research and development stock-based compensation for the three months ended December 31, 2007 and 2006 consist of the following:

26

	Three months ended December 31, 2007 -----	Three months ended December 31, 2006 -----
Fair value remeasurement of convertible notes - affiliates	\$(96,000)	\$ 66,000
Fair value remeasurement of options with service conditions	81,000	215,000
Amortization of expenses prepaid with stock options granted to non-employees	-	8,000
Fair value of stock options expensed under SFAS 123(R)	70,000 -----	66,000 -----
<b>Total</b>	<b>\$ 55,000</b> =====	<b>\$355,000</b> =====

Stock-based compensation expense decreased from \$355,000 for the three months ended December 31, 2006 to \$55,000 for the same period in 2007. The change is attributable to Brightcap's convertible deferred compensation, and compensation costs relating to the Company's options with service conditions and graded vesting and expensing of stock options for research and development employees. Stock-based compensation fair value adjusted (credits)/charges of \$(96,000) and \$66,000 for the three months ended

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

December 31, 2007 and 2006, respectively, was recorded to re-measure the fair value of Brightcap's convertible deferred compensation at December 31, 2007 and 2006, respectively, due, in part, to the change in the price of the Company's stock from \$2.20 to \$2.34 per share for the three months ended December 31, 2007, compared to the increase from the \$5.25 per share to \$5.75 per share for the three months ended December 31, 2006. Stock-based compensation fair value adjusted expense of \$81,000 and \$215,000 was recorded for the three months ended December 31, 2007 and 2006, respectively for the non-employee options that include service conditions and have graded vesting schedules. The decrease is due to the decrease in the stock price from \$5.75 per share at December 31, 2006 compared to \$2.34 per share at December 31, 2007. The Company recorded stock-based compensation expense of \$70,000 and \$66,000 under the provisions of SFAS 123(R) for the three months ended December 31, 2007 and 2006, respectively for options vested to research and development employees.

### Loss from Operations

As a result of the factors described above, the loss from operations was \$699,000 and \$1,206,000 for the three months ended December 31, 2007 and 2006, respectively.

### Other (income) and expense

Other (income) and expense was \$94,000 and \$21,000 for the three months ended December 31, 2007 and 2006, respectively. Interest expense increased \$18,000 from \$33,000 for the three months ended December 31, 2006 to \$51,000 for the three months ended December 31, 2007. Interest expense increased due to the higher debt balances due to the 2006 and 2007 Series A Notes, but was partially offset by lower interest on convertible deferred compensation balances due to conversions. The minority interest of the Company was impacted due to the insurance reimbursement of Centerpoint litigation fees during the three months ended December 31, 2007.

27

### Net Loss

As a result of the factors described above, the net loss was \$794,000 and \$1,228,000 for the three months ended December 31, 2007 and 2006, respectively, representing a \$0.04 decrease in the net loss per basic and diluted common share from \$0.14 for the three months ended December 31, 2006 to \$0.10 for the same period in 2007.

SIX MONTHS ENDED DECEMBER 31, 2007 COMPARED TO SIX MONTHS ENDED DECEMBER 31, 2006

### General and Administrative

Total general and administrative expenses for the six months ended December 31, 2007 increased \$309,000 compared to the six months ended December 31, 2006.

General and administrative expenses, excluding stock-based compensation credits of \$9,000 and \$304,000 for the six months ended December 31, 2007 and 2006, respectively, were \$318,000 versus \$304,000 for the six months ended December 31, 2007 and 2006, respectively. While total expenses remained relatively constant, the Company had lower legal costs for the six months ended December 31, 2007 due to the insurance reimbursement of Centerpoint related legal fees. These lower legal fees were offset by higher salary

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

expense due to the hiring of an investor relations manager during the six months ended December 31, 2007.

General and administrative stock-based compensation for the six months ended December 31, 2007 and 2006 respectively consist of the following:

	Six months ended December 31, 2007	Six months ended December 31, 2006
	-----	-----
Fair value remeasurement of convertible notes - affiliates	\$ (237,000)	\$ (329,000)
Amortization of expenses prepaid with stock options granted to non-employees	-	9,000
Fair value of stock options expensed under SFAS 123(R)	228,000	16,000
	-----	-----
Total	\$ (9,000)	\$ (304,000)
	=====	=====

Stock-based compensation credits decreased to \$9,000 for the six months ended December 31, 2007 from \$304,000 for the six months ended December 31, 2006. The change in stock-based compensation fair value adjusted expense relating to the President's convertible deferred compensation is due to the decrease in the price of the Company's stock from \$3.25 at June 30, 2007 to \$1.50 per share at his conversion date of December 2, 2007 versus the decrease from the \$6.40 per share to \$5.75 per share for the six months ended December 31, 2006. For the six months ended December 31, 2007 the Company recognized expense relating to the fair value of stock options for general and administrative employees of \$228,000, compared to \$16,000 during the same period in 2006 due to the issuance of 135,000 options to general and administrative employees during the six months ended December 31, 2007 versus 85,000 options during the same period in the prior year.

28

### Research and development

Total research and development expenses have decreased \$359,000 from \$1,031,000 to \$672,000 for the six months ended December 31, 2006 and 2007, respectively.

Research and development expenses, excluding stock-based compensation (credits) charges of \$(295,000) and \$62,000 for the six months ended December 31, 2007 and 2006, respectively, were \$967,000 and \$969,000 for the six months ended December 31, 2007 and 2006, respectively.

Research and development stock-based compensation for the six months ended December 31, 2007 and 2006 consist of the following:

	Six months ended December 31, 2007	Six months ended December 31, 2006
	-----	-----
Fair value remeasurement of convertible notes - affiliates	\$ (362,000)	\$ (450,000)
Fair value remeasurement of options with service conditions	(70,000)	212,000

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

Amortization of expenses prepaid with stock options granted to non-employees	-	16,000
Fair value of stock options expensed under SFAS 123(R)	137,000	284,000
	-----	-----
Total	\$(295,000)	\$ 62,000
	=====	=====

Stock-based compensation expense decreased from \$62,000 for the six months ended December 31, 2006 to \$(295,000) for the same period in 2007. The change is attributable to Brightcap's convertible deferred compensation, and compensation costs relating to the Company's options with service conditions and graded vesting and expensing of stock options for research and development employees. Stock-based compensation fair value adjusted credits of \$(362,000) and \$(450,000) for the six months ended December 31, 2007 and 2006, respectively, was recorded to re-measure the fair value of Brightcap's convertible deferred compensation at December 31, 2007 and 2006, respectively, due, in part, to the change in the price of the Company's stock from \$3.25 to \$2.34 per share for the six months ended December 31, 2007, compared to the decrease from the \$6.40 per share to \$5.75 per share for the six months ended December 31, 2006. Stock-based compensation fair value adjusted (credit) expense of \$(70,000) and \$212,000 was recorded for the six months ended December 31, 2007 and 2006, respectively for the non-employee options that include service conditions and have graded vesting schedules. The decrease is due to the decrease in the stock price from \$5.75 per share at December 31, 2006 compared to \$2.34 per share at December 31, 2007. The Company recorded stock-based compensation expense of \$137,000 and \$284,000 under the provisions of SFAS 123(R) for the six months ended December 31, 2007 and 2006, respectively for options vested to research and development employees.

29

### Loss from Operations

As a result of the factors described above, the loss from operations was \$980,000 and \$1,031,000 for the six months ended December 31, 2007 and 2006, respectively.

### Other (income) and expense

Other (income) and expense was \$(1,043,000) and \$38,000 for the six months ended December 31, 2007 and 2006, respectively. Interest expense increased \$43,000 from \$61,000 for the six months ended December 31, 2006 to \$104,000 for the six months ended December 31, 2007. Interest expense increased due to the higher debt balances due to the 2006 and 2007 Series A Notes for the six months ended December 31, 2006, but was partially offset by lower interest on convertible deferred compensation balances from the prior year due to conversions. The Company recognized other income of \$1,258,000 due to the receipts of \$828,000 from litigation settlements and \$430,000 from release of previously escrowed funds owed to Centerpoint during the six months ended December 31, 2007. The receipts of the litigation settlement proceeds and the escrowed funds resulted in a positive net equity position for the Company's 57.7% held subsidiary, Centerpoint, which resulted in the recording of the \$127,000 minority interest expense of Centerpoint for the six months ended December 31, 2007.

### Cumulative Effect of Change in Accounting Principle

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

During the six months ended December 31, 2006, the Company recorded the cumulative effect of a change in accounting principle of \$731,000.

On July 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards ("SFAS") No. 123 (Revised), "Share-Based Payment" (SFAS 123(R)), which supersedes APB 25, using the modified prospective application. In accordance with SFAS 123(R), outstanding instruments previously classified as liabilities and measured at intrinsic values, are to be measured initially at fair value with differences to be recorded as a cumulative effect of a change in accounting principle. The Company recorded the cumulative effect of a change in accounting principle of \$731,000 due to the calculation of the fair value of convertible deferred compensation owed Mark Smith and Brightcap as of July 1, 2006. The cumulative effect of change in accounting principle resulted in a net loss per common share of \$0.08 for the six months ended December 31, 2006.

Net Income (loss)

As a result of the factors described above, the net income (loss) was \$63,000 and \$(1,800,000) for the six months ended December 31, 2007 and 2006, respectively, representing a \$0.13 increase in the net income (loss) per basic and diluted common share before the cumulative effect of change in accounting principle from \$(0.12) for the six months ended December 31, 2006 to \$0.01 for the same period in 2007.

### LIQUIDITY AND CAPITAL RESOURCES

As of December 31, 2007, the Company had cash and cash equivalents equal to \$723,000. As previously noted, the Company is currently not generating revenue and accordingly has not generated cash flows from operations. The Company does not anticipate generating sufficient revenues to offset

30

operating and capital costs for a minimum of two to five years. While there are no assurances that the Company will be successful in its efforts to develop and construct its Projects and market its Systems, it is certain that the Company will require significant funding from external sources.

### Investing Activities

During the six months ended December 31, 2007 the Company used \$3,000 of cash for investing activities to purchase property and equipment in addition to receiving a refund of \$5,000 for leasehold improvements. The Company had no other investing activities for the six months ended December 31, 2007.

### Financing Activities

The Company had no financing activities during the six months ended December 31, 2007.

As of December 31, 2007 the Company has significant debt obligations consisting primarily of mandatorily convertible notes - affiliates of \$702,000, 2006 Series A convertible promissory notes - current of \$760,000, 2007 Series A convertible promissory notes - affiliates of 1,031,000, 2007 Series A convertible promissory notes of \$836,000 and deferred compensation of \$554,000. The Company has entered into an 88-month operating lease for office space in New York City, with an average monthly lease expense of \$15,820.

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

### Plan of Operations and Outlook

As of December 31, 2007 the Company had cash and cash equivalents of \$723,000. Based on our operating plan, management believes that existing cash on hand will be sufficient to fund the Company's basic overhead through the end of the 2008 fiscal year. However, the Company will need to raise additional capital to execute our business plan discussed below.

The Company currently intends to seek financing of between \$3,000,000 and \$50,000,000 during calendar year 2008 in the form of equity and/or debt. The proceeds would be used to expand and accelerate the development activities of Bion's initial Integrated Projects and for general corporate purposes. If we do not receive sufficient funding on a timely basis, it could have a material adverse effect on our liquidity, financial condition and business prospects. Additionally, in the event that we receive funding, it may be on terms that are not favorable to the Company and its shareholders. There is no assurance that the Company will successfully complete any financings.

Currently, Bion is focused on using applications of its patented waste management technology to develop Integrated Projects which will include large CAFOs, such as large dairies, beef cattle feed lots and hog farms, with Bion waste treatment System modules processing the aggregate CAFO waste stream from the equivalent of 40,000 or more beef and/or dairy cows (or the waste stream equivalent of other species) while producing solids to be utilized for renewable energy production and to be marketed as feed and/or fertilizer, integrated with an ethanol plant capable of producing 40 (or more) million gallons of ethanol per year.

31

In June 2006, the Company entered into an agreement with Fair Oaks Dairy Farm ("FODF") to construct a Bion facility ("Stage I System") at FODF. Bion has been working with FODF since May 2005 for the purpose of installing a waste treatment facility at FODF that could become the basis for a future Integrated Project. The June 2006 agreement contemplates expansion beyond the initial waste treatment facility. The Stage I System, if constructed, will initially be used for testing necessary for: a) finalization of design criteria for permitting and construction of, and b) optimization of renewable energy production and utilization for the full scale Integrated Projects. We are currently in discussions toward an amended agreement with FODF. However, due to the inability to resolve certain technical and financial issues, it is uncertain whether any of these facilities will be constructed.

Bion is currently working with local, state and federal officials and with potential industry participants to evaluate sites in multiple states and anticipates selecting a site for its initial Project during the 2008 fiscal year. At present it is probable, but not certain, that the initial Integrated Project will be located in St. Lawrence County, New York. In addition, Bion intends to choose sites for additional Projects during fiscal year 2008 and 2009 to create a pipeline of Projects. Management has a 5-year development target (through calendar year 2013) of approximately 12-25 Integrated Projects. At the end of the 5-year period, Bion projects that 8 or more of these Integrated Projects will be in full operation in 3-8 states, and the balance would be in various stages ranging from partial operation to early construction stage. No Integrated Project has been developed to date.

Bion is presently establishing its implementation management team with the intention of commencing development and construction of an initial Project during calendar year 2008. Bion will need to continue to hire

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

additional management and technical personnel as it moves from the technology re-development phase to the implementation phase during the 2008 calendar year.

### CONTRACTUAL OBLIGATIONS

We have the following material contractual obligations (in addition to employment and consulting agreements with management and employees):

1) The Company executed a non-cancelable operating lease for office space in New York City effective August 1, 2006 and extending to November 30, 2013. The average monthly rent expense under the lease is \$15,820. The Company has provided the lessor with a letter of credit in the amount of \$171,945 in connection with the lease. The Company's obligations under the lease are partially guaranteed by Salvatore Zizza, Chairman of Bion Dairy. The Company has entered into sub-leases with non-affiliated parties for approximately 32% of the obligations under the lease.

2) In June 2006, the Company entered into an agreement with Fair Oaks Dairy Farm ("FODF") to construct a Bion facility ("Stage I System") at FODF. Bion has been working with FODF since May 2005 for the purpose of installing a waste treatment facility at FODF that could become the basis for a future Integrate Project. The June 2006 agreement contemplates expansion beyond the initial waste treatment facility. The Stage I System, if constructed, will initially be used for testing necessary for: a) finalization of design criteria for permitting and construction of, and b) optimization of renewable energy production and utilization for, full scale Integrated Projects. The estimated cost of Stage I under the June 2006 agreement, including Stage I

32

System construction and testing operations, is \$750,000, which Bion and FODF have agreed to split equally net of any grants. However, certain technical and financial issues concerning this facility remain unresolved between Bion and FODF and, therefore, permitting and construction have not yet commenced. It is not possible to predict when and if these matters will be resolved or whether this installation will ever be constructed.

### OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements (as that term is defined in Item 303 of Regulation S-K) that are reasonably likely to have a current or future material effect on our financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources.

### ITEM 3. CONTROLS AND PROCEDURES.

#### (a) Evaluation of Disclosure Controls and Procedures.

The term "disclosure controls and procedures" is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). This term refers to the controls and procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized, and reported within the required time periods. Our Chief Executive Officer and Principal Financial Officer has evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this quarterly report, and has concluded that, as of that date, our disclosure controls and procedures were effective at ensuring that

## Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form 10QSB

required information will be disclosed on a timely basis in our reports filed under the Exchange Act.

(b) Changes in Internal Control over Financial Reporting.

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
