## **NOTICE TO UNITED STATES READERS**

### **DIFFERENCES IN UNITED STATES AND CANADIAN REPORTING PRACTICES**

The Registrant is permitted, under the multi-jurisdictional disclosure system adopted by the United States Securities and Exchange Commission (the “Commission”) and certain Canadian securities regulators, to prepare this annual report in accordance with Canadian disclosure requirements, which are different from those of the United States. The Registrant has prepared its financial statements, which are filed as Exhibit 99.2 to this annual report on Form 40-F, in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board (“IFRS”). Financial statements prepared in accordance with IFRS may differ from financial statements prepared in accordance with United States generally accepted accounting principles (“U.S. GAAP”) and they may not be comparable to financial statements of United States companies.

Unless otherwise indicated, all dollar amounts in this annual report on Form 40-F are in Canadian dollars. The exchange rate of Canadian dollars into U.S. dollars, on March 27, 2017, based upon the closing rate published by the Bank of Canada, was U.S.\$1.00=CDN\$ 1.3368. Bank of Canada exchange rates are nominal quotations and are not buying or selling rates. These rates are intended for statistical or analytical purposes. Rates available from financial institutions will differ. Rates are expressed in Canadian dollars, converted from U.S. dollars.

## **FORWARD-LOOKING INFORMATION**

Certain information included in this annual report and the exhibits attached hereto, along with other documents the Registrant has publicly filed on SEDAR and with the Commission may constitute forward-looking information within the meaning of Canadian and U.S. securities laws, including Section 21E of the Securities Act of 1933, as amended (the “Securities Act”), the U.S. Private Securities Litigation Reform Act of 1995 (the “PSLRA”), or in releases made by the Commission, all as may be amended from time to time. The following cautionary statements are being made pursuant to the Securities Act, the Exchange Act and the PSLRA with the intention of obtaining the benefits of the

“safe harbor” provisions of such laws.

In some cases, forward-looking information can generally be identified by the use of terms such as “may”, “will”, “should”, “could”, “expect”, “plan”, “anticipate”, “foresee”, “appears”, “believe”, “intend”, “estimate”, “predict”, “potential”, “continue”, “modeled”, “hope”, “forecast” or other similar expressions concerning matters that are not historical facts. Forward-looking information relates to management’s future outlook and anticipated events or results, and can include statements or information regarding plans, timelines and targets for mining, development, production and exploration activities at the Registrant’s mineral property held through a joint venture with De Beers Canada Inc. (“De Beers”) (51% De Beers and 49% the Registrant), projected capital expenditure requirements, liquidity and working capital requirements, estimated reserves and resources at, and production from, the Gahcho Kué Diamond Mine (“GK Diamond Mine”), and expectations concerning the diamond industry, and expected cost of sales and operating costs. Forward-looking information included in this annual report on Form 40-F and exhibits attached hereto, include the current production forecast for the GK Diamond Mine, estimated reserves and resources at the GK Diamond Mine, and plans, timelines and targets for mining, development, permitting, production and exploration activities at the Registrant’s mineral property. The timing and quantum will depend on a number of factors including production ramp-up, the production profile and realized diamond prices.

Forward-looking information is based on certain factors and assumptions regarding, among other things, the current mine plans for the GK Diamond Mine; mining, production and exploration activities at the Registrant's mineral property; currency exchange rates; required operating and capital costs, labour and fuel costs, world and United States economic conditions, future diamond prices, and the level of worldwide diamond production. While the Registrant considers these assumptions to be reasonable based on the information currently available to it, they may prove to be incorrect. Forward-looking information is subject to certain factors, including risks and uncertainties, which could cause actual results to differ materially from what the Registrant currently expects. These factors include, among other things, the uncertain nature of mining activities, including risks associated with joint venture operations, including risks associated with the inability to control the timing and scope of future capital expenditures, variations in mineral resource and mineral reserve estimates, grade estimates or expected recovery rates, failure of plant, equipment or processes to operate as anticipated, risks associated with regulatory requirements and the ability to obtain all necessary regulatory approvals, modifications to existing practices so as to comply with any future permit conditions that may be imposed by regulators, the risk of fluctuations in diamond prices and changes in United States and world economic conditions, uncertainty as to whether dividends will be declared by the Registrant's Board of Directors, the risk of fluctuations in the Canadian/U.S. dollar exchange rate and cash flow and liquidity risks. See "Risk Factors" in the Registrant's Annual Information Form attached hereto as Exhibit 99.1 for additional material risk factors that could cause actual results to differ materially from the forward-looking information.

Readers are cautioned not to place undue importance on forward-looking information, which speaks only as of the date of this Annual Report, and should not rely upon this information as of any other date. Due to assumptions, risks and uncertainties, including the assumptions, risks and uncertainties identified above and elsewhere in this Annual Report, actual events may differ materially from current expectations. The Registrant uses forward-looking statements because it believes such statements provide useful information with respect to the currently expected future operations and financial performance of the Registrant, and cautions readers that the information may not be appropriate for other purposes. While the Registrant may elect to, it is under no obligation and does not undertake to update or revise any forward-looking information, whether as a result of new information, future events or otherwise at any particular time, except as required by law. Additional information concerning factors that may cause actual results to materially differ from those in such forward-looking statements is contained in the Registrant's filings with Canadian and United States securities regulatory authorities and can be found at [www.sedar.com](http://www.sedar.com) and [www.sec.gov](http://www.sec.gov), respectively.

## RESOURCE AND RESERVE ESTIMATES

The Registrant's Annual Information Form for the fiscal year ended December 31, 2016, attached as Exhibit 99.1 to this annual report on Form 40-F, and incorporated by reference herein, has been prepared in accordance with the requirements of the securities laws in effect in Canada, which differ from the requirements of United States securities laws. The terms "mineral reserve", "proven mineral reserve" and "probable mineral reserve" are Canadian mining terms as defined in accordance with Canadian National Instrument 43-101 – Standards of Disclosure for Mineral Projects ("NI 43-101") and the Canadian Institute of Mining, Metallurgy and Petroleum (the "CIM") — *CIM Definition Standards on Mineral Resources and Mineral Reserves*, adopted by the CIM Council, as amended. These definitions differ from the definitions in the Commission's Industry Guide 7 ("*Industry Guide 7*") under the Exchange Act. Under Industry Guide 7 standards, a "final" or "bankable" feasibility study is required to report reserves, the three-year historical average price is used in any reserve or cash flow analysis to designate reserves and the primary environmental analysis or report must be filed with the appropriate governmental authority.

In addition, the terms "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" are defined in and required to be disclosed by NI 43-101; however, these terms are not defined terms under Industry Guide 7 and are normally not permitted to be used in reports and registration statements filed with the Commission. Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves. "Inferred mineral resources" have a great amount of uncertainty as to their existence, and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred mineral resources may not form the basis of feasibility or pre-feasibility studies, except in rare cases. Investors are cautioned not to assume that all or any part of an inferred mineral resource exists or is economically or legally mineable.

Accordingly, information contained in this report and the documents incorporated by reference herein containing descriptions of our mineral deposits may not be comparable to similar information made public by United States companies subject to the reporting and disclosure requirements under the United States federal securities laws and the rules and regulations thereunder.

The code is attached hereto as Exhibit 99.9 to this annual report on Form 40-F. ## **AUDIT COMMITTEE**

The Board of Directors of the Registrant has a separately designated standing Audit Committee. The members of the Audit Committee are:

Chair: David Whittle  
Members: Jonathan Comerford  
Peeyush Varshney

David Whittle assumed the role of Chairman of the Audit Committee in June, 2006.

All members of the Audit Committee are financially literate and independent, as that term is defined by the NASDAQ's corporate governance listing standards applicable to the Registrant and as determined under Rule 10A-3 of the Exchange Act.

## **AUDIT COMMITTEE FINANCIAL EXPERT**

The Registrant's Board of Directors has determined that it has one Audit Committee financial expert serving on its Audit Committee. David Whittle has been determined by the Board of the Registrant to be an "audit committee financial expert" as that term is defined by the rules and regulations of the Commission and are independent, as that term is defined by applicable securities laws and the NASDAQ ("NASDAQ") listing standards applicable to the Registrant. The Commission has indicated that the designation of directors as audit committee financial experts does not (i) make them an "expert" for any purpose, (ii) impose any duties, obligations or liability on them that are greater than those imposed on members of the Audit Committee and Board of Directors who do not carry this designation, or (iii) affect the duties, obligations or liability of any other member of the Audit Committee or Board of Directors of the Registrant.

Mr. Whittle has approximately 24 years of experience as a senior executive and director of public companies listed in both Canada and the United States. He is a Canadian qualified Chartered Professional Accountant (CPA,CA), having articulated with the Chartered Accounting firm of Coopers & Lybrand, with a Bachelor of Commerce degree (Finance) from the University of British Columbia. Most recently, from October 2007 through December 2014, he served as Chief Financial Officer of Alexco Resource Corp., a public company listed on both the TSX and the NYSE-MKT and operating both in the mining business and in the business of providing consulting services to third parties in respect of environmental remediation and permitting. Prior to that, from 2004 to August 2007, Mr. Whittle was Chief Financial

Officer of Hillsborough Resources Limited, a public company in the mining business listed on the TSX. Prior to 2004, he was Chief Financial Officer, Chief Executive Officer and/or a director of a number of other public companies, and additionally from 1993 to 2004 was principal and partner of a Chartered Accountancy practice in the Vancouver area, providing services to both private and public companies in a variety of industries including mining, real estate, telecommunications, computer consulting, high tech and general merchandising. He also served as lead outside director and chair of the audit committee of Kennady Diamonds Inc., from February 2012 until June 2016, and currently sits as a member of the audit committee of the Canadian Institute of Mining, Metallurgy and Petroleum. He has been a member of the Audit Committee since becoming a director of the Company in November 1997, serving as Chair of the Audit Committee since 2006.

## PRINCIPAL ACCOUNTANT FEES AND SERVICES

The aggregate fees billed for professional services rendered by KPMG LLP to the Registrant and its subsidiaries for the years ended December 31, 2016 and December 31, 2015 totaled \$342,339 and \$352,667, respectively, as detailed in the following table:

Auditor's Fees	2016 CAD\$	% of Total Fees	2015 CAD\$	% of Total Fees
Audit Fees:				
	270,000	78.8	275,000	78.0
Total Audit Fees	270,000	78.8	275,000	78.0
Tax Fees:				
Planning and advice	57,727	15.3	45,101	12.8
Compliance	14,612	5.9	32,566	9.2
Total Tax Fees	72,339	21.2	77,667	22.0
Total Fees	342,339	100.0	352,667	100.0

### *Tax Fees*

Tax fees were for tax compliance, tax advice and tax planning professional services. These services consisted of: tax compliance including the review of tax returns, and tax planning and advisory services.

### **PRE-APPROVAL OF AUDIT AND NON-AUDIT SERVICES PROVIDED BY INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

It is within the mandate of the Registrant's Audit Committee to approve all audit and non-audit related fees and accordingly 100% of the Audit Fees, Audit-Related Fees, Tax Fees and All Other Fees were approved by the Audit Committee. The charter of the Audit Committee requires the Audit Committee to review and approve the engagement of the external auditors to perform non-audit services, together with the fees therefore, and the impact thereof, on the independence of the external auditors.

The Registrant's Audit Committee has implemented a policy restricting the services that may be provided by the Registrant's auditors and the fees paid to the Registrant's auditors. Prior to the engagement of the Registrant's auditors to perform both audit, and non-audit services, the Audit committee pre-approves the provision of the services. In making their determination regarding non-audit services, the Audit Committee considers compliance with the policy and the provision of non-audit services in the context of avoiding an adverse impact on auditor independence. All audit and non-audit fees paid to KPMG LLP, for the financial year ended December 31, 2016, were pre-approved by the Registrant's Audit Committee and none were approved on the basis of the de minimis exemption set forth in Rule 2-01(c)(7)(i)(C) of Regulation S-X. Based on the Audit Committee's discussions with management and the independent auditors, the Audit Committee is of the view that the provision of non-audit services by KPMG LLP described above is compatible with maintaining the firm's independence from the Registrant.

## COMPLIANCE WITH NASDAQ

### CORPORATE GOVERNANCE RULES

The Company's common shares are quoted for trading on the NASDAQ under the symbol "MPVD". NASDAQ Rule 5615(a)(3) permits a foreign private issuer to follow its home country practice in lieu of the NASDAQ corporate governance requirements if such issuer, amongst other requirements, makes appropriate disclosure in its annual report filed with the SEC relating to each requirement of Rule 5600 that it does not follow including a brief statement of the home country practice it follows in lieu of such Nasdaq corporate governance requirements

The Registrant has reviewed the NASDAQ corporate governance requirements. Except as described below, the Registrant is in compliance with the NASDAQ corporate governance standards in all significant respects:

#### *Approval of Equity Compensation Plans*

Section 5635 the NASDAQ Marketplace Rules requires shareholder approval to be obtained in connection with the undertaking of certain actions. The circumstances under which shareholder approval is required under the NASDAQ Marketplace Rules are not identical to the circumstances under which shareholder approval is required under Canadian and Toronto Stock Exchange (the "TSX") requirements. For example, but without limitation, Section 5635 requires shareholder approval of most equity compensation plans and material revisions to such plans. This requirement covers plans that provide for the delivery of both newly issued and treasury securities. The TSX rules provide that only the creation of or certain material amendments to equity compensation plans that provide for new issuances of securities are subject to shareholder approval. The Registrant follows the TSX rules with respect to the requirements for shareholder approval of potential transactions, including, without limitation, shareholder approval of equity compensation plans and material revisions to such plans.

*Compensation Committee Independence*

The Registrant has elected not to follow Section 5605(d) NASDAQ Marketplace Rules applicable to charters and independence of Compensation Committee members and advisors for United States domestic issuers. As a foreign private issuer, the Registrant is not required to comply with these rules and follows the TSX rules.

Further information about the Registrant's governance practices is included on the Registrant's website at [www.mountainprovince.com](http://www.mountainprovince.com).
