The aggregate market value of voting and non-voting common equity held by non-affiliates of the registrant was \$3,454,575,864 based on the last sale price of the common equity on June 30, 2014 which is the last business day of the Company's most recently completed second quarter.

There were 112,185,084 shares of the Company's common stock with a par value of \$0.01 per share outstanding as of the close of business on February 6, 2015.

DOCUMENTS INCORPORATED BY REFERENCE

Part III of this report incorporates information by reference from the definitive Proxy Statement for the 2015 Annual Meeting of Stockholders.

EXPLANATORY NOTE

This report combines the annual reports on Form 10-K for the year ended December 31, 2014 of American Campus Communities, Inc. and American Campus Communities Operating Partnership, L.P.. Unless stated otherwise or the context otherwise requires, references to “ACC” mean American Campus Communities, Inc. a Maryland real estate investment trust (“REIT”), and references to “ACCOP” mean American Campus Communities Operating Partnership, L.P., a Maryland limited partnership. References to the “Company,” “we,” “us” or “our” mean collectively ACC, ACCOP and those entities/subsidiaries owned or controlled by ACC and/or ACCOP. References to the “Operating Partnership” mean collectively ACCOP and those entities/subsidiaries owned or controlled by ACCOP. The following chart illustrates the Company’s and the Operating Partnership’s corporate structure:

The general partner of ACCOP is American Campus Communities Holdings, LLC (“ACC Holdings”), an entity that is wholly-owned by ACC. As of December 31, 2014, ACC Holdings held an ownership interest in ACCOP of less than 1%. The limited partners of ACCOP are ACC and other limited partners consisting of current and former members of management and nonaffiliated third parties. As of December 31, 2014, ACC owned an approximate 98.8% limited partnership interest in ACCOP. As the sole member of the general partner of ACCOP, ACC has exclusive control of ACCOP’s day-to-day management. Management operates the Company and the Operating Partnership as one business. The management of ACC consists of the same members as the management of ACCOP. The Company is structured as an umbrella partnership REIT (“UPREIT”) and ACC contributes all net proceeds from its various equity offerings to the Operating Partnership. In return for those contributions, ACC receives a number of units of ACCOP (“OP Units,” see definition below) equal to the number of common shares it has issued in the equity offering. Contributions of properties to the Company can be structured as tax-deferred transactions through the issuance of OP Units in ACCOP. Based on the terms of ACCOP’s partnership agreement, OP Units can be exchanged for ACC’s common shares on a one-for-one basis. The Company maintains a one-for-one relationship between the OP Units of ACCOP issued to ACC and ACC Holdings and the common shares issued to the public. The Company believes that combining the reports on Form 10-K of the Company and the Operating Partnership into this single report provides the following benefits:

- enhances investors’ understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
 - eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both the Company and the Operating Partnership; and
 - creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.
-

ACC consolidates ACCOP for financial reporting purposes, and ACC essentially has no assets or liabilities other than its investment in ACCOP. Therefore, the assets and liabilities of the Company and the Operating Partnership are the same on their respective financial statements. However, the Company believes it is important to understand the few differences between the Company and the Operating Partnership in the context of how the entities operate as a consolidated company. All of the Company's property ownership, development and related business operations are conducted through the Operating Partnership. ACC also issues public equity from time to time and guarantees certain debt of ACCOP. ACC does not have any indebtedness, as all debt is incurred by the Operating Partnership. The Operating Partnership holds substantially all of the assets of the Company, including the Company's ownership interests in its joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from ACC's equity offerings, which are contributed to the capital of ACCOP in exchange for OP Units on a one-for-one common share per OP Unit basis, the Operating Partnership generates all remaining capital required by the Company's business. These sources include, but are not limited to, the Operating Partnership's working capital, net cash provided by operating activities, borrowings under its credit facility and unsecured notes, and proceeds received from the disposition of certain properties. Noncontrolling interests, stockholders' equity, and partners' capital are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The noncontrolling interests in the Operating Partnership's financial statements consist of the interests of unaffiliated partners in various consolidated joint ventures. The noncontrolling interests in the Company's financial statements include the same noncontrolling interests at the Operating Partnership level and OP Unit holders of ACCOP. The differences between stockholders' equity and partners' capital result from differences in the type of equity issued at the Company and Operating Partnership levels.

To help investors understand the significant differences between the Company and the Operating Partnership, this report provides separate consolidated financial statements for the Company and the Operating Partnership. A single set of consolidated notes to such financial statements is presented that includes separate discussions for the Company and the Operating Partnership when applicable (for example, noncontrolling interests, stockholders' equity or partners' capital, earnings per share or unit, etc.). A combined Management's Discussion and Analysis of Financial Condition and Results of Operations section is also included that presents discrete information related to each entity, as applicable. This report also includes separate Part II, Item 9A Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of the Company and the Operating Partnership in order to establish that the requisite certifications have been made and that the Company and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18 U.S.C. §1350.

In order to highlight the differences between the Company and the Operating Partnership, the separate sections in this report for the Company and the Operating Partnership specifically refer to the Company and the Operating Partnership. In the sections that combine disclosure of the Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and joint ventures and holds assets and debt, reference to the Company is appropriate because the Company operates its business through the Operating Partnership. The separate discussions of the Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

PART I

Item 1. Business

Overview

American Campus Communities, Inc. (“ACC”) is a real estate investment trust (“REIT”) that commenced operations effective with the completion of an initial public offering (“IPO”) on August 17, 2004. Through ACC’s controlling interest in American Campus Communities Operating Partnership L.P. (“ACCOP”), ACC is one of the largest owners, managers and developers of high quality student housing properties in the United States in terms of beds owned and under management. ACC is a fully integrated, self-managed and self-administered equity REIT with expertise in the acquisition, design, financing, development, construction management, leasing and management of student housing properties. ACC’s common stock is publicly traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “ACC.”

The general partner of ACCOP is American Campus Communities Holdings, LLC (“ACC Holdings”), an entity that is wholly-owned by ACC. As of December 31, 2014, ACC Holdings held an ownership interest in ACCOP of less than 1%. The limited partners of ACCOP are ACC and other limited partners consisting of current and former members of management and nonaffiliated third parties. As of December 31, 2014, ACC owned an approximate 98.8% limited partnership interest in ACCOP. As the sole member of the general partner of ACCOP, ACC has exclusive control of ACCOP’s day-to-day management. Management operates ACC and ACCOP as one business. The management of ACC consists of the same members as the management of ACCOP. ACC consolidates ACCOP for financial reporting purposes, and ACC does not have significant assets other than its investment in ACCOP. Therefore, the assets and liabilities of ACC and ACCOP are the same on their respective financial statements. References to the “Company,” “we,” “us” or “our” mean collectively ACC, ACCOP and those entities/subsidiaries owned or controlled by ACC and/or ACCOP. References to the “Operating Partnership” mean collectively ACCOP and those entities/subsidiaries owned or controlled by ACCOP.

As of December 31, 2014, our total owned and third-party managed portfolio included 204 properties with approximately 130,700 beds in approximately 44,300 units.

Business Objectives, Investment Strategies, and Operating Segments

Business Objectives

Our primary business objectives are to create long-term stockholder value by deploying capital to develop, redevelop, acquire and operate student housing communities, and to sell communities when they no longer meet our long-term investment strategy and when market conditions are favorable. We believe we can achieve these objectives by continuing to implement our investment strategies and successfully manage our operating segments, which are described in more detail below.

Investment Strategies

We seek to own high quality, well designed and well located student housing properties. We seek to acquire or develop properties in markets that have stable or increasing student populations, are in submarkets with barriers to entry and provide opportunities for economic growth as a result of their product position and/or differentiated design and close proximity to campuses, or through our superior operational capabilities. We believe that our reputation and established relationships with universities give us an advantage in sourcing acquisitions and developments and obtaining municipal approvals and community support for our development projects.

Acquisitions: As discussed in more detail in Note 5 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, in 2014, we acquired one wholly-owned property containing 190 units and 610 beds and another property containing an existing hotel that we plan to demolish and then construct a 400-bed student housing community.

We believe our relationships with university systems and individual educational institutions, our knowledge of the student housing market and our prominence as the first publicly-traded REIT focused exclusively on student housing in the United States will afford us a competitive advantage in acquiring additional student housing properties.

Development: In June and August 2014, the final stages of construction were completed on three on-campus American Campus Equity ("ACE") properties, two owned off-campus properties, one on-campus participating property and one off-campus property subject to a pre-sale agreement that we purchased from a third-party developer in February 2015. These properties contain 1,354 units and 4,140 beds. In addition, as of December 31, 2014, we were in the process of constructing four owned off-campus properties and two on-campus ACE properties which are summarized in the table below:

Edgar Filing: AMERICAN CAMPUS COMMUNITIES INC - Form 10-K

Project	Project Type	Location	Primary University Served	Units	Beds	Estimated Project Cost	Total Costs Incurred as of December 31, 2014	Scheduled to Open for Occupancy

TOTAL – ALL PROJECTS				1,127	4,044	\$ 416,300	\$ 213,034	

Our experienced development staff intends to continue to identify and acquire land parcels in close proximity to colleges and universities that offer location advantages or that allow for the development of unique products that offer a competitive advantage. We expect to continue to benefit from opportunities derived from our extensive network with colleges and universities as well as our relationship with certain developers with whom we have previously developed student housing properties.

Operating Segments

We define business segments by their distinct customer base and service provided. We have identified four reportable segments: Wholly-Owned Properties, On-Campus Participating Properties, Development Services and Property Management Services. For a detailed financial analysis of our segments' results of operations and financial position, please refer to Note 18 in the accompanying Notes to Consolidated Financial Statements contained in Item 8.

Property Operations

Unique Leasing Characteristics: Student housing properties are typically leased by the bed on an individual lease liability basis, unlike multifamily housing where leasing is by the unit. Individual lease liability limits each resident's liability to his or her own rent without liability for a roommate's rent. A parent or guardian is generally required to execute each lease as a guarantor unless the resident provides adequate proof of income or financial aid. The number of lease contracts that we administer is therefore approximately equivalent to the number of beds occupied and not the number of units. Unlike traditional multifamily housing, most of our leases for an individual property commence and terminate on the same dates and typically have terms of 9 or 12 months. (Please refer to the property table contained

in Item 2 – Properties for a listing of the typical lease terms at our properties.) As an example, in the case of our typical 12-month leases, the commencement date coincides with the commencement of the respective university’s Fall academic term and the termination date is the last day of the subsequent summer school session. As such, we must re-lease each property in its entirety each year.

Management Philosophy: Our management philosophy is based upon meeting the following objectives:

- Satisfying the specialized needs of residents by providing the highest levels of customer service;
- Developing and maintaining an academically oriented environment via a premier residence life/student development program;
- Maintaining each project’s physical plant in top condition;
- Maximizing revenue through the development and implementation of a strategic annual marketing plan and leasing administration program; and
- Maximizing cash flow through maximizing revenue coupled with prudent control of expenses.

LAMS: We believe we have developed the industry’s only specialized, fully integrated leasing administration and marketing software program, which we call LAMS. We utilize LAMS to maximize our revenue and improve the efficiency and effectiveness of our marketing and lease administration process. Through LAMS, each of our properties’ ongoing marketing and leasing efforts are supervised at the corporate office on a real time basis. Among other things, LAMS provides:

- a fully integrated prospect tracking and follow-up system;
- a built-in marketing effectiveness program to measure the success of our marketing efforts on a real time basis;
- a real-time monitor of lease closings and leasing terms;

- an automated lease generation system;
- the generation of future period rent rolls to aid in budgeting and forecasting; and
- a customized report writer.

Wholly-Owned Properties: Off-campus properties are generally located in close proximity to the school campus, generally with pedestrian, bicycle, or university shuttle access. Off-campus housing tends to offer more relaxed rules and regulations than on-campus housing, resulting in off-campus housing being generally more appealing to upper-classmen. We believe that the support of colleges and universities can be beneficial to the success of our wholly-owned properties. We actively seek to have these institutions recommend our facilities to their students or to provide us with mailing lists so that we may directly market to students and parents. In some cases, the institutions actually promote our off-campus facilities in their recruiting and admissions literature. In cases where the educational institutions do not provide mailing lists or recommendations for off-campus housing, most provide comprehensive lists of suitable properties to their students, and we continually work to ensure that our properties are on these lists in each of the markets that we serve.

Off-campus housing is subject to competition for tenants with on-campus housing owned by colleges and universities, and vice versa. Colleges and universities can generally avoid real estate taxes and borrow funds at lower interest rates than us (and other private sector operators), thereby decreasing their operating costs. Residence halls owned and operated by the primary colleges and universities in the markets of our off-campus properties may charge lower rental rates, but typically offer fewer amenities than we offer at our properties. Additionally, most universities are only able to house a small percentage of their overall enrollment, and are therefore highly dependent upon the off-campus market to provide housing for their students. High-quality, well run off-campus student housing can be a critical component to an institution's ability to attract and retain students. Therefore, developing and maintaining good relationships with educational institutions can result in a privately owned off-campus facility becoming, in effect, an extension of the institution's housing program, with the institution providing highly valued references and recommendations to students and parents.

This segment also competes with national and regional owner-operators of off-campus student housing in a number of markets as well as with smaller local owner-operators. Therefore, the performance of this segment could be affected by the construction of new on-campus or off-campus residences, increases or decreases in the general levels of rents for housing in competing communities, increases or decreases in the number of students enrolled at one or more of the colleges or universities in the market of a property, and other general economic conditions.

American Campus Equity (ACE): Included in our wholly-owned properties segment and branded and marketed to colleges and universities as the ACE program, this transaction structure provides us with what we believe is a lower-risk opportunity compared to other off-campus projects, as our ACE projects will have premier on-campus locations with marketing and operational assistance from the university. The subject university substantially benefits by increasing its housing capacity with modern, well-amenitized student housing with no or minimal impacts to its own credit ratios, preserving the university's credit capacity to fund academic and research facilities.

On-Campus Participating Properties: Our On-Campus Participating Properties segment includes five on-campus properties that are operated under long-term ground/facility leases with three university systems. Under our ground/facility leases, we receive an annual distribution representing 50% of these properties' net cash flows, as defined in the ground/facility lease agreements. We also manage these properties under long-term management agreements and are paid management fees equal to a percentage of defined gross receipts. Refer to Note 8 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 herein for a more detailed description of these properties.

Our on-campus participating properties are susceptible to some of the same risks as our wholly-owned properties, including: (i) seasonality in rents; (ii) annual re-leasing that is highly dependent on marketing and university admission policies; and (iii) competition for tenants from other on-campus housing operated by educational institutions or other off-campus properties.

Third-Party Services

Our third-party services consist of development services and management services and are typically provided to university and college clients. Many of our third-party management services are provided to clients for whom we also provide development services. While management evaluates the operational performance of our third-party services based on the distinct segments identified below, at times we also evaluate these segments on a combined basis.

Development Services: Our Development Services segment consists of development and construction management services that we provide through one of our taxable REIT subsidiaries ("TRSs") for third-party owners. These services range from short-term consulting projects to long-term full-scale development and construction projects. We typically provide these services to colleges

and universities seeking to modernize their on-campus student housing properties. They look to us to bring our student housing experience and expertise to ensure they develop marketable, functional and financially sustainable facilities. Educational institutions usually seek to build housing that will enhance their recruitment and retention of students while facilitating their academic objectives. Most of these development service contracts are awarded via a competitive request for proposal (“RFP”) process that qualifies developers based on their overall capability to provide specialized student housing design, development, construction management, financial structuring and property management services. Our development services typically include pre-development, design and financial structuring services. Our pre-development services typically include feasibility studies for third-party owners and design services. Feasibility studies include an initial feasibility analysis, review of conceptual design and assistance with master planning. Some of the documents produced in this process include the conceptual design documents, preliminary development and operating budgets, cash flow projections and a preliminary market assessment. Our design services include coordination with the architect and other members of the design team, review of construction plans and assistance with project due diligence and project budgets.

Construction management services typically consist of hiring of project professionals and a general contractor, coordinating and supervising the construction, equipping and furnishing the property, site visits, and full coordination and administration of all activities necessary for project completion in accordance with plans and specifications and with verification of adequate insurance.

Our Development Services activities benefit our primary goal of owning and operating student housing properties in a number of ways. By providing these services to others, we are able to expand and refine our unit plan and community design, the operational efficiency of our material specifications and our ability to determine market acceptance of unit and community amenities. Our development and construction management personnel enable us to establish relationships with general contractors, architects and project professionals throughout the nation. Through these services, we gain experience and expertise in residential and commercial construction methodologies under various labor conditions, including right-to-work labor markets, markets subject to prevailing wage requirements and fully unionized environments. This segment is subject to competition from other specialized student housing development companies as well as from national real estate development companies.

Property Management Services: Our Property Management Services segment, conducted by one of our TRSs, includes revenues generated from third-party management contracts in which we are typically responsible for all aspects of operations, including marketing, leasing administration, facilities maintenance, business administration, accounts payable, accounts receivable, financial reporting, capital projects and residence life student development. We provide these services pursuant to management agreements that have initial terms that range from one to five years.

There are several housing options that compete with our third-party managed properties including, but not limited to, multifamily housing, for-rent single family dwellings, other off-campus specialized student housing and the aforementioned on-campus participating properties.

Americans with Disabilities Act and Federal Fair Housing Act

Many laws and governmental regulations are applicable to our properties and changes in the laws and regulations, or their interpretation by agencies and the courts, occur frequently. Our properties must comply with Title III of the Americans with Disabilities Act, or ADA, to the extent that such properties are “public accommodations” as defined by the ADA. The ADA may require removal of structural barriers to access by persons with disabilities in certain public areas of our properties where such removal is readily achievable. We believe that the existing properties are in substantial compliance with the ADA and that we will not be required to make substantial capital expenditures to address the requirements of the ADA. However, noncompliance with the ADA could result in imposition of fines or

an award of damages to private litigants. The obligation to make readily achievable accommodations is an ongoing one, and we intend to continue to assess our properties and to make alterations as appropriate in this respect.

Under the federal and state fair housing laws, discrimination on the basis of certain protected classes is prohibited. Violation of these laws can result in significant damage awards to victims.

Environmental Matters

Under various laws and regulations relating to the protection of the environment, an owner of real estate may be held liable for the costs of removal or remediation of certain hazardous or toxic substances located on or in its property. These laws often impose liability without regard to whether the owner was responsible for, or even knew of, the presence of such substances. The presence of such substances may adversely affect the owner's ability to rent or sell the property or use the property as collateral. Independent environmental consultants conducted environmental site assessments on all of the wholly-owned properties and on-campus participating properties in our existing portfolio. We are not aware of any environmental conditions that management believes

would have a material adverse effect on the Company. There is no assurance, however, that environmental site assessments or other investigations would reveal all environmental conditions or that environmental conditions not known to us may exist now or in the future which would result in liability to the Company for remediation or fines, either under existing laws and regulations or future changes to such requirements.

From time to time, the United States Environmental Protection Agency, or EPA, designates certain sites affected by hazardous substances as “Superfund” sites pursuant to CERCLA. Superfund sites can cover large areas, affecting many different parcels of land. Although CERCLA imposes joint and several liability for contamination on property owners and operators regardless of fault, the EPA may choose to pursue potentially responsible parties (“PRPs”) based on their actual contribution to the contamination. PRPs are liable for the costs of responding to the hazardous substances. Each of Villas on Apache (disposed of in April 2011), The Village on University (disposed of in December 2006) and University Village at San Bernardino (disposed of in January 2005) are located within federal Superfund sites. The EPA designated these areas as Superfund sites because groundwater underneath these areas is contaminated. We have not been named, and do not expect to be named, as a PRP with respect to these sites. However, there can be no assurance regarding potential future developments concerning such sites.

Insurance

We carry liability and property insurance on our properties, which we believe is of the type and amount customarily obtained on real property assets. We intend to obtain similar coverage for properties we acquire in the future. However, there are certain types of losses, generally of a catastrophic nature, such as losses from floods or earthquakes, which may be subject to limitations in certain areas. When not otherwise contractually stipulated, we exercise our judgment in determining amounts, coverage limits, and deductibles, in an effort to maintain appropriate levels of insurance on our investments. If we suffer a substantial loss, our insurance coverage may not be sufficient due to market conditions at the time or other unforeseen factors. Inflation, changes in building codes and ordinances, environmental considerations and other factors also might make it infeasible to use insurance proceeds to replace a property after it has been damaged or destroyed.

Employees

As of December 31, 2014, we had approximately 3,227 employees, consisting of:

- approximately 2,041 on-site employees in our wholly-owned properties segment, including 848 Resident Assistants;
- approximately 101 on-site employees in our on-campus participating properties segment, including 38 Resident Assistants;
- approximately 939 employees in our property management services segment, including 800 on-site employees and 139 corporate office employees;
- approximately 52 corporate office employees in our development services segment; and
- approximately 94 executive, corporate administration and financial personnel.

Our employees are not currently represented by a labor union.

Offices and Website

Our principal executive offices are located at 12700 Hill Country Boulevard, Suite T-200 Austin, TX 78738. Our telephone number at that location is (512) 732-1000.

We file our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and other reports required by Sections 13(a) and 15(d) of the Securities Exchange Act of 1934. You may read and copy any

materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an internet site that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC. The address of that site is www.sec.gov.

Our website is located at www.americancampus.com. We make available free of charge through our website our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to these reports filed or furnished pursuant to Sections 13(a) or 15(d) of the Securities Act of 1934, as amended, as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Our website also contains copies of our Corporate Governance Guidelines and Code of Business Ethics as well as the charters of our Nominating and Corporate Governance, Audit, and Compensation committees. The information on our website is not part of this filing.

Forward-looking Statements

This report contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on management's beliefs and assumptions made by, and information currently available to, management. When used, the words "anticipate," "believe," "expect," "intend," "may," "might," "plan," "estimate," "project," "should," "will," "result" and similar expressions, do not relate solely to historical matters and are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. We caution you that forward-looking statements are not guarantees of future performance and will be impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update forward-looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they were made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following: general risks affecting the real estate industry; risks associated with changes in University admission or housing policies; risks associated with the availability and terms of financing and the use of debt to fund acquisitions and developments; failure to manage effectively our growth and expansion into new markets or to integrate acquisitions successfully; risks and uncertainties affecting property development and construction; risks associated with downturns in the national and local economies, volatility in capital and credit markets, increases in interest rates, and volatility in the securities markets; costs of compliance with the Americans with Disabilities Act and other similar laws; potential liability for uninsured losses and environmental contamination; risks associated with our Company's potential failure to qualify as a REIT under the Internal Revenue Code of 1986 (the "Code"), as amended, and possible adverse changes in tax and environmental laws; and the other factors discussed in the "Risk Factors" contained in Item 1A of this report.

Item 1A. Risk Factors

The following risk factors may contain defined terms that are different from those used in other sections of this report. Unless otherwise indicated, when used in this section, the terms "we" and "us" refer to American Campus Communities, Inc. and its subsidiaries, including American Campus Communities Operating Partnership LP, our Operating Partnership, and the term "securities" refers to shares of common stock of American Campus Communities, Inc. and units of limited partnership interest in our Operating Partnership.

The factors described below represent the Company's principal risks. Other factors may exist that the Company does not consider being significant based on information that is currently available or that the Company is not currently able to anticipate.

Risks Related to Our Properties, Our Markets and Our Business

Our results of operations are subject to an annual leasing cycle, short lease-up period, seasonal cash flows, changing university admission and housing policies and other risks inherent in the student housing industry.

We generally lease our owned properties under 12-month leases, and in certain cases, under nine-month or shorter-term semester leases. As a result, we may experience significantly reduced cash flows during the summer months at properties with lease terms shorter than 12 months. Furthermore, all of our properties must be entirely re-leased each year, exposing us to increased leasing risk. In addition, we are subject to increased leasing risk on our

properties under construction and future acquired properties based on our lack of experience leasing those properties and unfamiliarity with their leasing cycles. Student housing properties are also typically leased during a limited leasing season that usually begins in January and ends in August of each year. We are therefore highly dependent on the effectiveness of our marketing and leasing efforts and personnel during this season.

Changes in university admission policies could adversely affect us. For example, if a university reduces the number of student admissions or requires that a certain class of students, such as freshman, live in a university owned facility, the demand for beds at our properties may be reduced and our occupancy rates may decline. While we may engage in marketing efforts to compensate for such change in admission policy, we may not be able to affect such marketing efforts prior to the commencement of the annual lease-up period or our additional marketing efforts may not be successful.

We rely on our relationships with colleges and universities for referrals of prospective student-tenants or for mailing lists of prospective student-tenants and their parents. Many of these colleges and universities own and operate their own competing on-campus facilities. Any failure to maintain good relationships with these colleges and universities could therefore have a material

adverse effect on us. If colleges and universities refuse to make their lists of prospective student-tenants and their parents available to us or increase the costs of these lists, there could be a material adverse effect on us.

Federal and state laws require colleges to publish and distribute reports of on-campus crime statistics, which may result in negative publicity and media coverage associated with crimes occurring on or in the vicinity of our on-campus properties. Reports of crime or other negative publicity regarding the safety of the students residing on, or near, our properties may have an adverse effect on both our on-campus and off-campus business.

We face significant competition from university-owned on-campus student housing, from other off-campus student housing properties and from traditional multifamily housing located within close proximity to universities.

On-campus student housing has certain inherent advantages over off-campus student housing in terms of physical proximity to the university campus and integration of on-campus facilities into the academic community. Colleges and universities can generally avoid real estate taxes and borrow funds at lower interest rates than us and other private sector operators. We also compete with national and regional owner-operators of off-campus student housing in a number of markets as well as with smaller local owner-operators.

Currently, the industry is fragmented with no participant holding a significant market share. There are a number of student housing complexes that are located near or in the same general vicinity of many of our owned properties and that compete directly with us. Such competing student housing complexes may be newer than our properties, located closer to campus, charge less rent, possess more attractive amenities or offer more services or shorter term or more flexible leases.

Rental income at a particular property could also be affected by a number of other factors, including the construction of new on-campus and off-campus residences, increases or decreases in the general levels of rents for housing in competing communities, increases or decreases in the number of students enrolled at one or more of the colleges or universities in the market of the property and other general economic conditions.

We believe that a number of other large national companies with substantial financial and marketing resources may be potential entrants in the student housing business. The entry of one or more of these companies could increase competition for students and for the acquisition, development and management of other student housing properties.

We may be unable to successfully complete and operate our properties or our third-party developed properties.

We intend to continue to develop and construct student housing. These activities may include any of the following risks:

- we may be unable to obtain financing on favorable terms or at all;
- we may not complete development projects on schedule, within budgeted amounts or in conformity with building plans and specifications;
- we may encounter delays or refusals in obtaining all necessary zoning, land use, building, occupancy and other required governmental permits and authorizations;
- occupancy and rental rates at newly developed or renovated properties may fluctuate depending on a number of factors, including market and economic conditions, and may reduce or eliminate our return on investment;
- we may become liable for injuries and accidents occurring during the construction process and for environmental liabilities, including off-site disposal of construction materials;
- we may decide to abandon our development efforts if we determine that continuing the project would not be in our best interests; and
- we may encounter strikes, weather, government regulations and other conditions beyond our control.

Our newly developed properties will be subject to risks associated with managing new properties, including lease-up and integration risks. In addition, new development activities, regardless of whether or not they are ultimately successful, typically will require a substantial portion of the time and attention of our development and management personnel. Newly developed properties may not perform as expected.

We anticipate that we will, from time to time, elect not to proceed with ongoing development projects. If we elect not to proceed with a development project, the development costs associated therewith will ordinarily be charged against income for the then-current period. Any such charge could have a material adverse effect on our results of operations in the period in which the charge is taken.

We may in the future develop properties nationally, internationally or in geographic regions other than those in which we currently operate. We do not possess the same level of familiarity with development in these new markets, which could adversely affect our ability to develop such properties successfully or at all or to achieve expected performance. Future development opportunities may not be available to us on terms that meet our investment criteria or we may be unsuccessful in capitalizing on such opportunities. Our ability to capitalize on such opportunities will be largely dependent upon external sources of capital that may not be available to us on favorable terms or at all.

We typically provide guarantees of timely completion of projects that we develop for third parties. In certain cases, our contingent liability under these guarantees may exceed our development fee from the project. Although we seek to mitigate this risk by, among other things, obtaining similar guarantees from the project contractor, we could sustain significant losses if development of a project were to be delayed or stopped and we were unable to cover our guarantee exposure with the guarantee received from the project contractor.

We may be unable to successfully acquire properties on favorable terms.

Our future growth will be in part dependent upon our ability to successfully acquire new properties on favorable terms. With respect to recently acquired properties, and as we acquire additional properties, we will continue to be subject to risks associated with managing new properties, including lease-up and integration risks. Acquired properties may not perform as expected and may have characteristics or deficiencies unknown to us at the time of acquisition. Future acquisition opportunities may not be available to us on terms that meet our investment criteria or we may be unsuccessful in capitalizing on such opportunities. Our ability to capitalize on such opportunities will be largely dependent upon external sources of capital that may not be available to us on favorable terms or at all.

Our ability to acquire properties on favorable terms and successfully operate them involves the following significant risks:

- our potential inability to acquire a desired property may be caused by competition from other real estate investors;
 - competition from other potential acquirers may significantly increase the purchase price and decrease expected yields;
 - we may be unable to finance an acquisition on favorable terms or at all;
 - we may have to incur significant unexpected capital expenditures to improve or renovate acquired properties;
 - we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into our existing operations;
 - market conditions may result in higher than expected costs and vacancy rates and lower than expected rental rates;
 - and
- we may acquire properties subject to liabilities but without any recourse, or with only limited recourse, to the sellers, or with liabilities that are unknown to us, such as liabilities for clean-up of undisclosed environmental contamination, claims by tenants, vendors or other persons dealing with the former owners of our properties and claims for indemnification by members, directors, officers and others indemnified by the former owners of our properties.

Our failure to finance property acquisitions on favorable terms, or operate acquired properties to meet our financial expectations, could adversely affect us.

Difficulties of selling real estate could limit our flexibility.

We intend to evaluate the potential disposition of assets that may no longer help us meet our objectives. When we decide to sell an asset, we may encounter difficulty in finding buyers in a timely manner as real estate investments generally cannot be disposed of quickly, especially when market conditions are poor. This may limit our ability to vary our portfolio promptly in response to changes in economic or other conditions. In addition, in order to maintain our status as a REIT, the Internal Revenue Code imposes restrictions on our ability to sell properties held fewer than

two years, which may cause us to incur losses thereby reducing our cash flows and adversely impacting distributions to equity holders.

Disruptions in the financial markets could adversely affect our ability to obtain debt financing or to issue equity and impact our acquisitions and dispositions.

Dislocations and liquidity disruptions in capital and credit markets could impact liquidity in the debt markets, resulting in financing terms that are less attractive to us and/or the unavailability of certain types of debt financing. Should the capital and credit markets experience volatility and the availability of funds again become limited, or be available only on unattractive terms, we will incur increased costs associated with issuing debt instruments. In addition, it is possible that our ability to access the capital and credit markets may be limited or precluded by these or other factors at a time when we would like, or need, to do so, which would adversely impact our ability to refinance maturing debt and/or react to changing economic and business conditions. Uncertainty in the capital and credit markets could negatively impact our ability to make acquisitions and make it more difficult or not possible

for us to sell properties or may adversely affect the price we receive for properties that we do sell, as prospective buyers may experience increased costs of debt financing or difficulties in obtaining debt financing. Potential continued disruptions in the financial markets could also have other unknown adverse effects on us or the economy generally and may cause the price of our securities to fluctuate significantly and/or to decline.

Our debt level reduces cash available for distribution and could have other important adverse consequences.

As of December 31, 2014, our total consolidated indebtedness was approximately \$2,914.7 million (excluding unamortized mortgage debt premiums and discounts and original issue discounts). Our debt service obligations expose us to the risk of default and reduce or eliminate cash resources that are available to operate our business or pay distributions that are necessary to maintain our qualification as a REIT. There is no limit on the amount of indebtedness that we may incur except as provided by the covenants in our corporate-level debt. We may incur additional indebtedness to fund future property development, acquisitions and other working capital needs, which may include the payment of distributions to our security holders. The amount available to us and our ability to borrow from time to time under our corporate-level debt is subject to certain conditions and the satisfaction of specified financial and other covenants. Our level of debt and the limitations imposed on us by our debt agreements could have significant adverse consequences, including the following:

We may default on our scheduled principal payments or other obligations as a result of insufficient cash flow or otherwise, and the lenders or mortgagees may foreclose on our properties that secure their loans and receive an assignment of rents and leases.

Foreclosures could create taxable income without accompanying cash proceeds, a circumstance that could hinder our ability to meet the REIT distribution requirements imposed by the Internal Revenue Code.

Compliance with the provisions of our debt agreements, including the financial and other covenants, such as the maintenance of specified financial ratios, could limit our flexibility and a default in these requirements, if uncured, could result in a requirement that we repay indebtedness, which could severely affect our liquidity and increase our financing costs.

We may be unable to renew, repay or refinance our outstanding debt.

We are subject to the risk that our indebtedness will not be able to be renewed, repaid or refinanced when due or that the terms of any renewal or refinancing will not be as favorable as the existing terms of such indebtedness. If we were unable to refinance our indebtedness on acceptable terms, or at all, we might be forced to dispose of one or more of our properties on disadvantageous terms, which might result in losses to us. Such losses could have a material adverse effect on us and our ability to make distributions to our equity holders and pay amounts due on our debt.

Variable rate debt is subject to interest rate risk.

We have construction loans with varying interest rates that are dependent upon the market index. In addition, we have an unsecured revolving credit facility and a \$250 million unsecured term loan, each of which bears interest at a variable rate on all amounts borrowed and we may incur additional variable rate debt in the future. Increases in interest rates on variable rate debt would increase our interest expense, unless we make arrangements that hedge the risk of rising interest rates, which would adversely affect net income and cash available for payment of our debt obligations and distributions to equity holders.

Failure to maintain our current credit ratings could adversely affect our cost of funds, liquidity and access to capital markets.

Moody's and Standard & Poor's, the major debt rating agencies, have evaluated our debt and have given us ratings of Baa3 and BBB-, respectively. These ratings are based on a number of factors, which include their assessment of our financial strength, liquidity, capital structure, asset quality and sustainability of cash flow and earnings. Due to changes in market conditions, we may not be able to maintain our current credit ratings, which will adversely affect the cost of funds under our credit facilities, and could also adversely affect our liquidity and access to capital markets.

We may incur losses on interest rate swap and hedging arrangements.

We may periodically enter into agreements to reduce the risks associated with increases in interest rates. Although these agreements may partially protect against rising interest rates, they also may reduce the benefits to us if interest rates decline. If an arrangement is not indexed to the same rate as the indebtedness that is hedged, we may be exposed to losses to the extent which the rate governing the indebtedness and the rate governing the hedging arrangement change independently of each other. Finally, nonperformance by the other party to the arrangement may subject us to increased credit risks.

We could be negatively impacted by the elimination of Fannie Mae or Freddie Mac.

Fannie Mae and Freddie Mac are a major source of financing for secured residential real estate. We and other residential companies have used Fannie Mae and Freddie Mac to finance growth by purchasing or guaranteeing apartment loans. In May 2014, the U.S. Senate Banking Committee approved legislation to wind down Fannie Mae and Freddie Mac and redesign the U.S. mortgage finance system, which legislation has to date not been acted on in the broader Senate. A final decision by the government to eliminate Fannie Mae or Freddie Mac, or reduce their role in the mortgage market, or otherwise restructure the U.S. mortgage finance system, may adversely affect interest rates, capital availability and the development of student housing properties.

We face risks associated with land holdings.

We hold land for future development and may in the future acquire additional land holdings. The risks inherent in owning or purchasing and developing land increase as demand for student housing, or rental rates, decrease. As a result, we hold certain land and may in the future acquire additional land in our development pipeline at a cost we may not be able to recover fully or on which we cannot build and develop into a profitable student housing project. Also, real estate markets are highly uncertain and, as a result, the value of undeveloped land has fluctuated significantly and may continue to fluctuate as a result of changing market conditions. In addition, carrying costs can be significant and can result in losses or reduced margins in a poorly performing project. If there are subsequent changes in the fair value of our land holdings that we determine is less than the carrying basis of our land holdings reflected in our financial statements plus estimated costs to sell, we may be required to take future impairment charges, which would reduce our net income.

We may not be able to recover pre-development costs for third-party university developments.

University systems and educational institutions typically award us development services contracts on the basis of a competitive award process, but such contracts are typically executed following the formal approval of the transaction by the institution's governing body. In the intervening period, we may incur significant pre-development and other costs in the expectation that the development services contract will be executed. If an institution's governing body does not ultimately approve our selection and the terms of the pending development contract, we may not be able to recoup these costs from the institution and the resulting losses could be material.

Our awarded projects may not be successfully structured or financed and may delay our recognition of revenues.

The recognition and timing of revenues from our awarded development services projects will, among other things, be contingent upon successfully structuring and closing project financing as well as the timing of construction. The development projects that we have been awarded have at times been delayed beyond the originally scheduled construction commencement date. If such delays were to occur with our current awarded projects, our recognition of expected revenues and receipt of expected fees from these projects would be delayed.

We may encounter delays in completion or experience cost overruns with respect to our properties under construction.

As of December 31, 2014, we were in the process of constructing six wholly-owned properties. These properties are subject to the various risks relating to properties that are under construction referred to elsewhere in these risk factors, including the risks that we may encounter delays in completion and that any such project may experience cost overruns or may not be completed on time. Additionally, if we do not complete the construction of properties on schedule, we may be required to provide alternative housing to the students with whom we have signed leases. We generally do not make any arrangements for such alternative housing for these properties and we would likely incur significant expenses in the event we provide such housing. If construction is not completed on schedule, students may

attempt to break their leases and our occupancy at such properties for that academic year may suffer.

Our guarantees could result in liabilities in excess of our development fees.

In third-party developments, we typically provide guarantees of the obligations of the developer, including development budgets and timely project completion. These guarantees include, among other things, the cost of providing alternate housing for students in the event we do not timely complete a development project. These guarantees typically exclude delays resulting from force majeure and also, in third-party transactions, are typically limited in amount to the amount of our development fees from the project. In certain cases, however, our contingent liability under these guarantees has exceeded our development fee from the project and we may agree to such arrangements in the future. Our obligations under alternative housing guarantees typically expire five days after construction is complete. Project cost guarantees are normally satisfied within one year after completion of the project.

Universities have the right to terminate our participating ground leases.

With the exception of our ground lease with West Virginia University, the ground leases through which we own our on-campus participating properties provide that the university lessor may purchase our interest in and assume the management of the facility, with the purchase price calculated at the discounted present value of cash flows from our leasehold interest. The exercise of any such buyout would result in a reduction in our portfolio.

Changes in laws could affect our business.

We are generally not able to pass through to our residents under existing leases real estate taxes, income taxes or other taxes. Consequently, any such tax increases may adversely affect our financial condition and limit our ability to satisfy our financial obligations and make distributions to security holders. Changes that increase our potential liability under environmental laws or our expenditures on environmental compliance could have the same impact.

A cybersecurity incident and other technology disruptions could negatively impact our business and our relationships with residents.

We use computers in substantially all aspects of our business operations. We also use mobile devices, social networking and other online activities to connect with our employees, suppliers and our residents. Such uses give rise to cybersecurity risks, including security breach, espionage, system disruption, theft and inadvertent release of information. Our business involves the storage and transmission of numerous classes of sensitive and/or confidential information and intellectual property, including residents' and suppliers' personal information, private information about employees, and financial and strategic information about us. Further, as we pursue our strategy to grow through development and acquisitions and to pursue new initiatives to improve our operations, we are also expanding our information technologies, resulting in a larger technological presence and corresponding exposure to cybersecurity risk. If we fail to assess and identify cybersecurity risks associated with our operations, we may become increasingly vulnerable to such risks. Additionally, the measures we have implemented to prevent security breaches and cyber incidents may not be effective. The theft, destruction, loss, misappropriation or release of sensitive and/or confidential information or intellectual property, or interference with our information technology systems or the technology systems of third-parties on which we rely, could result in business disruption, negative publicity, brand damage, violation of privacy laws, loss of residents, potential liability and competitive disadvantage, any of which could result in a material adverse effect on financial condition or results of operations.

Joint venture investments could be adversely affected by our lack of sole decision-making authority, our reliance on co-venturers' financial condition and disputes between our co-venturers and us.

We have co-invested, and may continue in the future to co-invest, with third parties through partnerships, joint ventures or other entities, acquiring non-controlling interests in or sharing responsibility for managing the affairs of a property, partnership, joint venture or other entity. In connection with joint venture investments, we do not have sole decision-making control regarding the property, partnership, joint venture or other entity. Investments in partnerships, joint ventures or other entities may, under certain circumstances, involve risks not present were a third-party not involved, including the possibility that our partners or co-venturers might become bankrupt or fail to fund their share of required capital contributions. Our partners or co-venturers also may have economic or other business interests or goals that are inconsistent with our business interests or goals, and may be in a position to take actions contrary to our preferences, policies or objectives. Such investments also will have the potential risk of impasses on decisions, such as a sale, because neither we nor our partners or co-venturers would have full control over the partnership or joint venture. Disputes between us and our partners or co-venturers may result in litigation or arbitration that would increase our expenses and prevent our officers and/or directors from focusing their time and effort exclusively on our business. Consequently, actions by or disputes with our partners or co-venturers might result in subjecting properties

owned by the partnership, joint venture or other entity to additional risk. In addition, we may in certain circumstances be liable for the actions of our partners or co-venturers.

Litigation risks could affect our business.

As a publicly traded owner of properties, we have become and in the future may become involved in legal proceedings, including consumer, employment, tort or commercial litigation, that if decided adversely to or settled by us, and not adequately covered by insurance, could result in liability that is material to our financial condition or results of operations.

Risks Related to the Real Estate Industry

Our performance and value are subject to risks associated with real estate assets and with the real estate industry.

Our ability to satisfy our financial obligations and make expected distributions to our security holders depends on our ability to generate cash revenues in excess of expenses and capital expenditure requirements. Events and conditions generally applicable to owners and operators of real property that are beyond our control may decrease cash available for distribution and the value of our properties. These events include:

- general economic conditions;
- rising level of interest rates;
- local oversupply, increased competition or reduction in demand for student housing;
- inability to collect rent from tenants;
- vacancies or our inability to rent units on favorable terms;
- inability to finance property development and acquisitions on favorable terms;
- increased operating costs, including insurance premiums, utilities, and real estate taxes;
- costs of complying with changes in governmental regulations;
- the relative illiquidity of real estate investments;
- decreases in student enrollment at particular colleges and universities;
- changes in university policies related to admissions and housing; and
- changing student demographics.

In addition, periods of economic slowdown or recession, rising interest rates or declining demand for real estate, or the public perception that any of these events may occur, could result in a general decline in rents or an increased incidence of defaults under existing leases, which would adversely affect us.

Potential losses may not be covered by insurance.

We carry fire, earthquake, terrorism, business interruption, vandalism, malicious mischief, boiler and machinery, commercial general liability and workers' compensation insurance covering all of the properties in our portfolio under various policies. We believe the policy specifications and insured limits are appropriate and adequate given the relative risk of loss, the cost of the coverage and industry practice. There are, however, certain types of losses, such as property damage from generally unsecured losses such as riots, wars, punitive damage awards or acts of God that may be either uninsurable or not economically insurable. Some of our properties are insured subject to limitations involving large deductibles and policy limits that may not be sufficient to cover losses. In addition, we may discontinue earthquake, terrorism or other insurance on some or all of our properties in the future if the cost of premiums from any of these policies exceeds, in our judgment, the value of the coverage discounted for the risk of loss.

If we experience a loss that is uninsured or that exceeds policy limits, we could lose the capital invested in the damaged properties as well as the anticipated future cash flows from those properties. In addition, if the damaged properties are subject to recourse indebtedness, we would continue to be liable for the indebtedness, even if these properties were irreparably damaged and require substantial expenditures to rebuild or repair. In the event of a significant loss at one or more of our properties, the remaining insurance under our policies, if any, could be insufficient to adequately insure our other properties. In such event, securing additional insurance, if possible, could be significantly more expensive than our current policies.

Unionization or work stoppages could have an adverse effect on us.

We are at times required to use unionized construction workers or to pay the prevailing wage in a jurisdiction to such workers. Due to the highly labor intensive and price competitive nature of the construction business, the cost of unionization and/or prevailing wage requirements for new developments could be substantial. Unionization and prevailing wage requirements could adversely affect a new development's profitability. Union activity or a union workforce could increase the risk of a strike, which would adversely affect our ability to meet our construction timetables.

We could incur significant costs related to government regulation and private litigation over environmental matters.

Under various environmental laws, including the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), a current or previous owner or operator of real property may be liable for contamination resulting from the release or threatened release of hazardous or toxic substances or petroleum at that property, and an entity that arranges for the disposal or treatment of a hazardous or toxic substance or petroleum at another property may be held jointly and severally liable for the cost

to investigate and clean up such property or other affected property. Such parties are known as potentially responsible parties (“PRPs”). Such environmental laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the presence of the contaminants, and the costs of any required investigation or cleanup of these substances can be substantial. PRPs are liable to the government as well as to other PRPs who may have claims for contribution. The liability is generally not limited under such laws and could exceed the property’s value and the aggregate assets of the liable party. The presence of contamination or the failure to remediate contamination at our properties may expose us to third-party liability for personal injury or property damage, or adversely affect our ability to sell, lease or develop the real property or to borrow using the real property as collateral.

Environmental laws also impose ongoing compliance requirements on owners and operators of real property. Environmental laws potentially affecting us address a wide variety of matters, including, but not limited to, asbestos-containing building materials (“ACBM”), storage tanks, storm water and wastewater discharges, lead-based paint, wetlands, and hazardous wastes. Failure to comply with these laws could result in fines and penalties or expose us to third-party liability. Some of our properties may have conditions that are subject to these requirements and we could be liable for such fines or penalties or liable to third parties.

Existing conditions at some of our properties may expose us to liability related to environmental matters.

Some of the properties in our portfolio may contain asbestos-containing building materials, or ACBMs. Environmental laws require that ACBMs be properly managed and maintained, and may impose fines and penalties on building owners or operators for failure to comply with these requirements. Also, some of the properties in our portfolio contain, or may have contained, or are adjacent to or near other properties that have contained or currently contain storage tanks for the storage of petroleum products or other hazardous or toxic substances. These operations create a potential for the release of petroleum products or other hazardous or toxic substances. Third parties may be permitted by law to seek recovery from owners or operators for personal injury associated with exposure to contaminants, including, but not limited to, petroleum products, hazardous or toxic substances, and asbestos fibers. Also, some of the properties may contain regulated wetlands that can delay or impede development or require costs to be incurred to mitigate the impact of any disturbance. Absent appropriate permits, we can be held responsible for restoring wetlands and be required to pay fines and penalties.

Insurance carriers have reacted to awards or settlements related to lawsuits against owners and managers of residential properties alleging personal injury and property damage caused by the presence of mold in residential real estate by excluding mold related programs designed to minimize the existence of mold in any of our properties as well as guidelines for promptly addressing and resolving reports of mold to minimize any impact mold might have on residents or the property.

Environmental liability at any of our properties, including those related to the existence of mold, may have a material adverse effect on our financial condition, results of operations, cash flow, the trading price of our stock or our ability to satisfy our debt service obligations and pay dividends or distributions to our security holders.

We may incur significant costs complying with the Americans with Disabilities Act and similar laws.

Under the Americans with Disabilities Act of 1990, or the ADA, all public accommodations must meet federal requirements related to access and use by disabled persons. Additional federal, state and local laws also may require modifications to our properties, or restrict our ability to renovate our properties. For example, the Fair Housing Amendments Act of 1988, or FHAA, requires apartment properties first occupied after March 13, 1990 to be accessible to the handicapped. We have not conducted an audit or investigation of all of our properties to determine our compliance with present requirements. Noncompliance with the ADA or FHAA could result in the imposition of fines or an award or damages to the government or private litigants and also could result in an order to correct any

non-complying feature. Also, discrimination on the basis of certain protected classes can result in significant awards to victims. We cannot predict the ultimate amount of the cost of compliance with the ADA, FHAA or other legislation. If we incur substantial costs to comply with the ADA, FHAA or any other legislation, we could be materially and adversely affected.

We may incur significant costs complying with other regulations.

The properties in our portfolio are subject to various federal, state and local regulatory requirements, such as state and local fire and life safety requirements. If we fail to comply with these various requirements, we might incur governmental fines or private damage awards. Furthermore, existing requirements could change and require us to make significant unanticipated expenditures that would materially and adversely affect us.

The impact of climate change may adversely affect our financial condition or results of operations.

To the extent that climate change does occur, we may experience extreme weather and changes in precipitation and temperature, all of which may result in physical damage or a decrease in demand for properties located in these areas or affected by these conditions. Should the impact of climate change be material in nature, including destruction of our properties, or occur for lengthy periods of time, our financial condition or results of operations may be adversely affected. In addition, changes in federal and state legislation and regulation on climate change could result in increased capital expenditures to improve the energy efficiency of our existing properties and could also require us to spend more on our new development properties without a corresponding increase in revenue.

Risks Related to Our Organization and Structure

Our stock price will fluctuate.

The market price and volume of our common stock will fluctuate due not only to general stock market conditions but also to the risk factors discussed above and below and the following:

- operating results that vary from the expectations of securities analysts and investors;
- investor interest in our property portfolio;
- the reputation and performance of REITs;
- the attractiveness of REITs as compared to other investment vehicles;
- our financial condition and the results of our operations;
- the perception of our growth and earnings potential;
- dividend payment rates and the form of the payment;
- increases in market rates, which may lead purchasers of our common stock to demand a higher yield; and
- changes in financial markets and national economic and general market conditions.

To qualify as a REIT, we may be forced to limit the activities of a TRS.

To qualify as a REIT, no more than 25% of the value of our total assets may consist of the securities of one or more taxable REIT subsidiaries, or TRSs. Certain of our activities, such as our third-party development, management and leasing services, must be conducted through a TRS for us to qualify as a REIT. In addition, certain non-customary services must be provided by a TRS or an independent contractor. If the revenues from such activities create a risk that the value of our TRS entities, based on revenues or otherwise, approaches the 25% threshold, we will be forced to curtail such activities or take other steps to remain under the 25% threshold. Since the 25% threshold is based on value, it is possible that the IRS could successfully contend that the value of our TRS entities exceeds the 25% threshold even if the TRS accounts for less than 25% of our consolidated revenues, income or cash flow. Four of our five on-campus participating properties and our third-party services are held by a TRS. Consequently, income earned from four of our five on-campus participating properties and our third-party services will be subject to regular federal income taxation and state and local income taxation where applicable, thus reducing the amount of cash available for distribution to our security holders. Our TRS entities' income tax returns are subject to examination by federal, state and local tax jurisdictions, and the methodology used in determining taxable income or loss for those subsidiaries is therefore subject to challenge in any such examination.

A TRS is not permitted to directly or indirectly operate or manage a “hotel, motel or other establishment more than one-half of the dwelling units in which are used on a transient basis.” We believe that our method of operating our TRS entities will not be considered to constitute such an activity. Future Treasury Regulations or other guidance interpreting the applicable provisions might adopt a different approach, or the IRS might disagree with our conclusion. In such event we might be forced to change our method of operating our TRS entities, which could

adversely affect us, or of one of our TRS entities could fail to qualify as a taxable REIT subsidiary, which would likely cause us to fail to qualify as a REIT.

Failure to qualify as a REIT would have significant adverse consequences to us and the value of our securities.

We intend to operate in a manner that will allow us to qualify as a REIT for federal income tax purposes under the Internal Revenue Code. If we lose our REIT status, we will face serious tax consequences that would substantially reduce or eliminate the funds available for investment and for distribution to security holders for each of the years involved, because:

- we would not be allowed a deduction for dividends to security holders in computing our taxable income and such amounts would be subject to federal income tax at regular corporate rates;
- we also could be subject to the federal alternative minimum tax and possibly increased state and local taxes; and

unless we are entitled to relief under applicable statutory provisions, we could not elect to be taxed as a REIT for four taxable years following the year during which we were disqualified.

In addition, if we fail to qualify as a REIT, we will not be required to pay dividends to stockholders, and all dividends to stockholders will be subject to tax as ordinary income to the extent of our current and accumulated earnings and profits. As a result of all these factors, our failure to qualify as a REIT also could impair our ability to expand our business and raise capital, and would adversely affect the value of our common stock.

Qualification as a REIT involves the application of highly technical and complex Internal Revenue Code provisions for which there are only limited judicial and administrative interpretations. The complexity of these provisions and of the applicable Treasury Regulations that have been promulgated under the Internal Revenue Code is greater in the case of a REIT that, like us, holds its assets through a partnership or a limited liability company. The determination of various factual matters and circumstances not entirely within our control may affect our ability to qualify as a REIT. In order to qualify as a REIT, we must satisfy a number of requirements, including requirements regarding the composition of our assets and two “gross income tests”: (a) at least 75% of our gross income in any year must be derived from qualified sources, such as rents from real property, mortgage interest, dividends from other REITs and gains from sale of such assets, and (b) at least 95% of our gross income must be derived from sources meeting the 75% income test above, and other passive investment sources, such as other interest and dividends and gains from sale of securities. Also, we must pay dividends to stockholders aggregating annually at least 90% of our REIT taxable income, excluding any net capital gains. In addition, legislation, new regulations, administrative interpretations or court decisions may adversely affect our investors, our ability to qualify as a REIT for federal income tax purposes or the desirability of an investment in a REIT relative to other investments.

Even if we qualify as a REIT for federal income tax purposes, we may be subject to some federal, state and local taxes on our income or property and, in certain cases, a 100% penalty tax, in the event we sell property as a dealer or if a TRS enters into agreements with us or our tenants on a basis that is determined to be other than an arm’s length basis.

To qualify as a REIT, we may be forced to borrow funds on a short-term basis during unfavorable market conditions.

In order to qualify as a REIT, we are required under the Internal Revenue Code to distribute annually at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain. A TRS may, in its discretion, retain any income it generates net of any tax liability it incurs on that income without affecting the 90% distribution requirements to which we are subject as a REIT. Net income of our TRS entities is included in REIT taxable income and increases the amount required to be distributed, only if such amounts are paid out as a dividend by a TRS. If a TRS distributes any of its after-tax income to us, that distribution will be included in our REIT taxable income. In addition, we will be subject to income tax at regular corporate rates to the extent that we distribute less than 100% of our net taxable income, including any net capital gains. Because of these distribution requirements, we may not be able to fund future capital needs, including any necessary acquisition financing, from operating cash flow. Consequently, we will be compelled to rely on third-party sources to fund our capital needs. We may not be able to obtain this financing on favorable terms or at all. Any additional indebtedness that we incur will increase our leverage. Our access to third-party sources of capital depends, in part, on:

- general market conditions;
- our current debt levels and the number of properties subject to encumbrances;
- our current performance and the market’s perception of our growth potential;
- our cash flow and cash dividends; and
- the market price per share of our stock.

If we cannot obtain capital from third-party sources, we may not be able to acquire or develop properties when strategic opportunities exist, satisfy our debt service obligations or make cash distributions to our security holders, including those necessary to qualify as a REIT.

Our charter contains restrictions on the ownership and transfer of our stock.

Our charter provides that, subject to certain exceptions, no person or entity may beneficially own, or be deemed to own by virtue of the applicable constructive ownership provisions of the Internal Revenue Code, more than 9.8% (by value or by number of shares, whichever is more restrictive) of the outstanding shares of our common stock or more than 9.8% by value of all our outstanding shares, including both common and preferred stock. We refer to this restriction as the “ownership limit.” A person or entity that becomes subject to the ownership limit by virtue of a violative transfer that results in a transfer to a trust is referred to as a “purported beneficial transferee” if, had the violative transfer been effective, the person or entity would have been a record

owner and beneficial owner or solely a beneficial owner of our stock, or is referred to as a “purported record transferee” if, had the violative transfer been effective, the person or entity would have been solely a record owner of our stock.

The constructive ownership rules under the Internal Revenue Code are complex and may cause stock owned actually or constructively by a group of related individuals and/or entities to be owned constructively by one individual or entity. As a result, the acquisition of less than 9.8% of our stock (or the acquisition of an interest in an entity that owns, actually or constructively, our stock) by an individual or entity, could, nevertheless cause that individual or entity, or another individual or entity, to own constructively in excess of 9.8% of our outstanding stock and thereby subject the stock to the ownership limit. Our charter, however, requires exceptions to be made to this limitation if our board of directors determines that such exceptions will not jeopardize our tax status as a REIT. This ownership limit could delay, defer or prevent a change of control or other transaction that might involve a premium price for our common stock or otherwise be in the best interest of our security holders.

Certain tax and anti-takeover provisions of our charter and bylaws may inhibit a change of our control.

Certain provisions contained in our charter and bylaws and the Maryland General Corporation Law may discourage a third-party from making a tender offer or acquisition proposal to us. If this were to happen, it could delay, deter or prevent a change in control or the removal of existing management. These provisions also may delay or prevent the security holders from receiving a premium for their securities over then-prevailing market prices. These provisions include:

- the REIT ownership limit described above;
- authorization of the issuance of our preferred shares with powers, preferences or rights to be determined by our board of directors;
- the right of our board of directors, without a stockholder vote, to increase our authorized shares and classify or reclassify unissued shares;
- advance-notice requirements for stockholder nomination of directors and for other proposals to be presented to stockholder meetings; and
- the requirement that a majority vote of the holders of common stock is needed to remove a member of our board of directors for “cause.”

The Maryland business statutes also impose potential restrictions on a change of control of our company.

Various Maryland laws may have the effect of discouraging offers to acquire us, even if the acquisition would be advantageous to security holders. Our bylaws exempt us from some of those laws, such as the control share acquisition provisions, but our board of directors can change our bylaws at any time to make these provisions applicable to us.

Our rights and the rights of our security holders to take action against our directors and officers are limited.

Maryland law provides that a director or officer has no liability in that capacity if he or she performs his or her duties in good faith, in a manner he or she reasonably believe to be in our best interests and with the care that an ordinary prudent person in a like position would use under similar circumstances. In addition, our charter eliminates our directors’ and officers’ liability to us and our stockholders for money damages except for liability resulting from actual receipt of an improper benefit in money, property or services or active and deliberate dishonesty established by a final judgment and which is material to the cause of action. Our bylaws require us to indemnify directors and officers for liability resulting from actions taken by them in those capacities to the maximum extent permitted by Maryland law. As a result, we and our security holders may have more limited rights against our directors and officers than might otherwise exist under common law. In addition, we may be obligated to fund the defense costs incurred by our

directors and officers.

Item 1B. Unresolved Staff Comments

There were no unresolved comments from the staff of the SEC at December 31, 2014.

16

Item 2. Properties

The following table presents certain summary information about our properties. Our properties generally are modern facilities, and amenities at most of our properties include a swimming pool, basketball courts and a large community center featuring a fitness center, computer center, study areas, and a recreation room with billiards and other games. Some properties also have a jacuzzi/hot tub, volleyball courts, tennis courts, in-unit washers and dryers, and food service facilities. Lease terms are generally 12 months at our off-campus properties and 9 months at our on-campus participating properties and certain of our ACE properties.

These properties are included in the Wholly-Owned Properties and On-Campus Participating Properties segments discussed in Item 1 and Note 18 in the accompanying Notes to Consolidated Financial Statements contained in Item 8. We own fee title to all of these properties except for properties subject to ground/facility leases and our on-campus participating properties, as discussed more fully in Note 8 and Note 16 in the accompanying Notes to Consolidated Financial Statements contained in Item 8. All dollar amounts in this table and others herein, except share and per share amounts, are stated in thousands unless otherwise indicated.

(1) Average monthly revenue per bed is calculated based upon our base rental revenue earned during typical lease terms for the year ended December 31, 2014 divided by average occupied beds over the typical lease term.

Average occupancy is calculated based on the average number of occupied beds during typical lease terms for the year ended December 31, 2014 divided by total beds. For properties with 9-month leases, average occupancy is

(2) calculated based on the nine month academic year (excluding the summer months). Average occupancy for acquired properties and properties which commenced operations during 2014 is calculated based on the period these properties were owned by us and/or operational during 2014.

(3) These properties are classified as held for sale as of December 31, 2014 and are classified as such on the accompanying consolidated balance sheets contained in Item 8. The properties were sold in January 2015.

(4) As rent at this property includes food services, revenue is not comparable to the other properties in this table.

(5) University Club Townhomes, College Club Townhomes, Willowtree Apartments and Towers, Vintage & Texan West Campus, and 5 Twenty Four & 5 Twenty Five Angliana each consist of two phases that are counted separately in the property portfolio numbers contained in Note 1 in the accompanying Notes to Consolidated Financial Statements contained in Item 8.

(6) University Village Tallahassee and Jacob Heights/The Summit each consist of three phases that are counted separately in the property portfolio numbers contained in Note 1 in the accompanying Notes to Consolidated Financial Statements contained in Item 8.

(7) Our same store wholly-owned portfolio represents properties that were owned or operated by us for the full years ended December 31, 2013 and 2014.

(8) We did not own this property as of December 31, 2014 but were obligated to purchase the property as long as the developer met certain construction completion deadlines and closing conditions. The property opened for operations in August 2014 and we purchased the property in February 2015. The property is consolidated for financial reporting purposes.

(9) In August 2013, we purchased a site containing an existing student housing property (The Plaza Apartments) that we operated until it was demolished in May 2014. Revenue earned for the year ended December 31, 2014 was primarily generated from property operations prior to the commencement of construction activities.

(10) In January 2014, we purchased a site containing an existing hotel which the seller operated until November 2014. Revenue earned for the year ended December 31, 2014 was generated from hotel operations prior to the commencement of construction activities.

(11) Excludes \$1.2 million of revenue from the The Enclave, a 480-bed wholly-owned property that was sold in September 2014.

(12) Includes eight units and 32 beds from The Edge in Charlotte, NC, a wholly-owned property which incurred damage resulting from a fire in July 2014. The 32 beds damaged by the fire are being rebuilt and will be available for occupancy in Spring 2015.

Item 3. Legal Proceedings

We are subject to various claims, lawsuits and legal proceedings that have not been fully resolved and that have arisen in the ordinary course of business. While it is not possible to ascertain the ultimate outcome of such matters, management believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on our consolidated financial position or results of operations. However, the outcome of claims, lawsuits and legal proceedings brought against us are subject to significant uncertainty. Therefore, although management considers the likelihood of such an outcome to be remote, the ultimate results of these matters cannot be predicted with certainty.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for the Registrant's Common Equity and Related Stockholder Matters

Market Information

The Company's common stock has been listed and is traded on the New York Stock Exchange ("NYSE") under the symbol "ACC". The following table sets forth, for the periods indicated, the high and low sale prices in dollars on the NYSE for our common stock and the distributions we declared with respect to the periods indicated.

	High	Low	Distributions Declared
Quarter ended March 31, 2013	\$48.49	\$44.10	\$0.3375
Quarter ended June 30, 2013	\$47.64	\$36.60	\$0.3600
Quarter ended September 30, 2013	\$42.78	\$32.34	\$0.3600
Quarter ended December 31, 2013	\$36.92	\$31.64	\$0.3600
Quarter ended March 31, 2014	\$37.80	\$32.10	\$0.3600
Quarter ended June 30, 2014	\$39.68	\$36.86	\$0.3800
Quarter ended September 30, 2014	\$40.74	\$35.69	\$0.3800
Quarter ended December 31, 2014	\$42.19	\$35.96	\$0.3800

Holders

As of February 6, 2015, there were approximately 39,900 holders of record of the Company's common stock and 112,185,084 shares of common stock outstanding.

Distributions

We intend to continue to declare quarterly distributions on our common stock. The actual amount, timing and form of payment of distributions, however, will be at the discretion of our Board of Directors and will depend upon our financial condition in addition to the requirements of the Code, and no assurance can be given as to the amounts, timing or form of payment of future distributions. The payment of distributions is subject to restrictions under the Company's corporate-level debt described in Note 11 to the Consolidated Financial Statements in Item 8 and discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7 under Liquidity and Capital Resources.

See Part III, Item 12, for a description of securities authorized for issuance under equity compensation plans.

Item 6. Selected Financial Data

The following table sets forth selected financial and operating data on a consolidated historical basis for the Company.

The following data should be read in conjunction with the Notes to Consolidated Financial Statements in Item 8 and Management's Discussion and Analysis of Financial Condition and Results of Operations included in Item 7.

	As of and for the Year Ended December 31,

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our Company and Our Business

Overview

We are one of the largest owners, managers and developers of high quality student housing properties in the United States in terms of beds owned and under management. We are a fully integrated, self-managed and self-administered equity REIT with expertise in the acquisition, design, financing, development, construction management, leasing and management of student housing properties. Refer to Item 1 contained herein for additional information regarding our business objectives, investment strategies, and operating segments.

Property Portfolio

As of December 31, 2014, our property portfolio contained 169 properties with approximately 103,700 beds in approximately 33,700 apartment units. Our property portfolio consisted of 145 owned off-campus student housing properties that are in close proximity to colleges and universities, 19 ACE properties operated under ground/facility leases with nine university systems and five on-campus participating properties operated under ground/facility leases with the related university systems. Of the 169 properties, six were under development as of December 31, 2014, and when completed will consist of a total of approximately 4,000 beds in approximately 1,100 units. Our communities contain modern housing units and are supported by a resident assistant system and other student-oriented programming, with many offering resort-style amenities.

We believe that the ownership and operation of student housing communities in close proximity to selected colleges and universities presents an attractive long-term investment opportunity for our investors. We intend to continue to execute our strategy of identifying existing differentiated, typically highly amenitized, student housing communities or development opportunities in close proximity to university campuses with high barriers to entry which are projected to experience substantial increases in enrollment and/or are under-serviced in terms of existing on and/or off-campus student housing.

Third-Party Development and Management Services

We provide development and construction management services for student housing properties owned by universities, 501(c) 3 foundations and others. Our clients have included some of the nation's most prominent systems of higher education. We develop student housing properties for these clients and we are sometimes retained to manage these properties following their opening. As of December 31, 2014, we were under contract on three third-party development projects that are currently in progress and whose fees range from \$1.5 million to \$3.2 million. As of December 31, 2014, fees of approximately \$1.6 million remained to be earned by us with respect to these projects, which have scheduled completion dates of April 2015 through August 2015.

As of December 31, 2014, we also provided third-party management and leasing services for 35 properties that represented approximately 27,000 beds in approximately 10,600 units. Our third-party management and leasing services are typically provided pursuant to management contracts that have initial terms that range from one to five years.

While fee revenue from our third-party development, construction management and property management services allows us to develop strong and key relationships with colleges and universities, this area has over time become a smaller portion of our operations due to the continued focus on and growth of our wholly-owned property portfolio. Nevertheless, we believe these services continue to provide synergies with respect to our ability to identify,

close, and successfully operate student housing properties.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (“GAAP”) requires management to make estimates and assumptions in certain circumstances that affect amounts reported in our consolidated and combined financial statements and related notes. In preparing these financial statements, management has utilized all available information, including its past history, industry standards and the current economic environment, among other factors, in forming its estimates and judgments of certain amounts included in the consolidated financial statements, giving due consideration to materiality. It is possible that the ultimate outcome anticipated by management in formulating its estimates may not be realized. Application of the critical accounting policies below involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. In addition, other companies in similar businesses may utilize different estimation policies and methodologies, which may impact the comparability of our results of operations and financial condition to those companies.

Revenue and Cost Recognition of Third-Party Development and Management Services

Development revenues are generally recognized based on a proportional performance method based on contract deliverables, while construction revenues are recognized using the percentage of completion method, as determined by construction costs incurred relative to total estimated construction costs. For projects where our fee is based on a fixed price, any cost overruns incurred during construction, as compared to the original budget, will reduce the net fee generated on those projects. Incentive fees are generally recognized when the project is complete and performance has been agreed upon by all parties, or when performance has been verified by an independent third-party.

We also evaluate the collectability of fee income and expense reimbursements generated through the provision of development and construction management services based upon the individual facts and circumstances, including the contractual right to receive such amounts in accordance with the terms of the various projects, and reserve any amounts that are deemed to be uncollectible.

Pre-development expenditures such as architectural fees, permits and deposits associated with the pursuit of third-party and owned development projects are expensed as incurred, until such time that management believes it is probable that the contract will be executed and/or construction will commence. Because we frequently incur these pre-development expenditures before a financing commitment and/or required permits and authorizations have been obtained, we bear the risk of loss of these pre-development expenditures if financing cannot ultimately be arranged on acceptable terms or we are unable to successfully obtain the required permits and authorizations. As such, management evaluates the status of third-party and owned projects that have not yet commenced construction on a periodic basis and expenses any deferred costs related to projects whose current status indicates the commencement of construction is unlikely and/or the costs may not provide future value to us in the form of revenues. Such write-offs are included in third-party development and management services expenses (in the case of third-party development projects) or general and administrative expenses (in the case of owned development projects) on the accompanying consolidated statements of comprehensive income.

Third-party management fees are generally received and recognized on a monthly basis and are computed as a percentage of property receipts, revenues or a fixed monthly amount, in accordance with the applicable management contract. Incentive management fees are recognized when the contractual criteria have been met.

Student Housing Rental Revenue Recognition and Accounts Receivable

Student housing rental revenue is recognized on a straight-line basis over the term of the contract. Ancillary and other property related income is recognized in the period earned. In estimating the collectability of our accounts receivable, we analyze the aging of resident receivables, historical bad debts, and current economic trends. These estimates have a direct impact on our net income, as an increase in our allowance for doubtful accounts reduces our net income.

Allocation of Fair Value to Acquired Properties

The price that we pay to acquire a property is impacted by many factors, including the condition of the buildings and improvements, the occupancy of the building, favorable or unfavorable financing, and numerous other factors. Accordingly, we are required to make subjective assessments to allocate the purchase price paid to acquire investments in real estate among the assets acquired and liabilities assumed based on our estimate of the fair values of such assets and liabilities. This includes, among other items, determining the value of the buildings and improvements, land, in-place tenant leases, tax incentive arrangements, and any debt assumed from the seller. Each of these estimates requires a great deal of judgment and some of the estimates involve complex calculations. Our calculation methodology is summarized in Note 2 to our consolidated financial statements contained in Item 8. These

allocation assessments have a direct impact on our results of operations because if we were to allocate more value to land there would be no depreciation with respect to such amount or if we were to allocate more value to the buildings as opposed to allocating to the value of in-place tenant leases, this amount would be recognized as an expense over a much longer period of time, since the amounts allocated to buildings are depreciated over the estimated lives of the buildings whereas amounts allocated to in-place tenant leases are amortized over the remaining terms of the leases (generally less than one year).

Impairment of Long-Lived Assets

On a periodic basis, management is required to assess whether there are any indicators that the value of our real estate properties may be impaired. A property's value is considered impaired if management's estimate of the aggregate future undiscounted cash flows to be generated by the property is less than the carrying value of the property. These estimates of cash flows consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other factors. To the extent impairment has occurred, the loss will be measured as the excess of the carrying amount of the property over the

fair value of the property, thereby reducing our net income. Management also performs a periodic assessment to determine which of our properties are likely to be sold prior to the end of their estimated useful lives. For those probable sales, an impairment charge is recorded for any excess of the carrying amount of the property over the expected net proceeds from disposal, thereby reducing our net income.

Capital Expenditures

We distinguish between capital expenditures necessary for the ongoing operations of our properties and acquisition-related improvements incurred within one to two years of acquisition of the related property. (Acquisition-related improvements are expenditures that have been identified at the time the property is acquired, and which we intended to incur in order to position the property to be consistent with our physical standards). We capitalize non-recurring expenditures for additions and betterments to buildings and land improvements. In addition, we generally capitalize expenditures for exterior painting, roofing, and other major maintenance projects that substantially extend the useful life of the existing assets. The cost of ordinary repairs and maintenance that do not improve the value of an asset or extend its useful life are charged to expense when incurred. Planned major repair, maintenance and improvement projects are capitalized when performed. In some circumstances, lenders require us to maintain a reserve account for future repairs and capital expenditures. These amounts are classified as restricted cash on the accompanying consolidated balance sheets, as the funds are not available to us for current use.

For our properties under development, capitalized interest is generally based on the weighted average interest rate of our total debt. Upon substantial completion of the properties, cost capitalization ceases. The total capitalized development costs are then transferred to the applicable asset category and depreciation commences. These estimates used by management require judgment, and accordingly we believe cost capitalization to be a critical accounting estimate.

Results of Operations

Comparison of the Years Ended December 31, 2014 and 2013

The following table presents our results of operations for the years ended December 31, 2014 and 2013, including the amount and percentage change in these results between the two periods.

	Year Ended December 31,				
	2014	2013	Change (\$)	Change (%)	
Revenues:					
Wholly-owned properties	\$690,582	\$618,503	\$72,079	11.7	%
On-campus participating properties	28,534	26,348	2,186	8.3	%
Third-party development services	4,018	2,483	1,535	61.8	%
Third-party management services	7,669	7,514	155	2.1	%
Resident services	3,112	2,614	498	19.1	%
Total revenues	733,915	657,462	76,453	11.6	%
Operating expenses:					
Wholly-owned properties	329,615	296,794	32,821	11.1	%
On-campus participating properties	11,290	11,049	241	2.2	%
Third-party development and management services	11,754	10,810	944	8.7	%
General and administrative	18,935	16,666	2,269	13.6	%

Net income	64,104	107,191	(43,087) (40.2)%
Net income attributable to noncontrolling interests	(1,265) (2,547) 1,282	(50.3)%
Net income attributable to common shareholders	\$62,839	\$104,644	\$(41,805) (39.9)%

Same Store and New Property Operations

We define our same store property portfolio as wholly-owned properties that were owned and/or operating for both of the entire periods being compared, and which are not conducting or planning to conduct substantial development or redevelopment activities.

Same store revenues are defined as revenues generated from our same store portfolio and consist of rental revenue earned from student leases as well as other income items such as utility income, damages, parking income, summer conference rent, application and administration fees, income from retail tenants, and income earned by one of our TRSs from ancillary activities such as the provision of food services.

Same store operating expenses are defined as operating expenses generated from our same store portfolio and include usual and customary expenses incurred to operate a property such as payroll, maintenance, utilities, marketing, general and administrative costs, insurance, property taxes, and bad debt. Same store operating expenses also include an allocation of payroll and other administrative costs related to corporate management and oversight.

A reconciliation of our same store, new property and sold property operations to our consolidated statements of comprehensive income is set forth below:

	Same Store Properties		New Properties ⁽¹⁾		Sold Properties ⁽²⁾		Total - All Properties	
	Year Ended December 31,		Year Ended December 31,		Year Ended December 31,		Year Ended December 31,	
	2014	2013	2014	2013	2014	2013	2014	2013
Number of properties	139	139	19	12	1	1	159	152
Number of beds	83,005	⁽³⁾ 83,057	11,494	7,311	480	480	94,979	90,848
Revenues ⁽⁴⁾	\$608,314	\$595,609	\$84,176	\$23,744	\$1,204	\$1,764	\$693,694	\$621,117
Operating expenses	290,567	283,409	38,147	12,145	901	1,240	329,615	296,794

Does not include properties under construction as of December 31, 2014. Number of properties and number of
(1) beds also excludes properties undergoing redevelopment as of December 31, 2014, although the results of operations of those properties are included in new property revenues and operating expenses prior to commencement of redevelopment activities.

Includes The Enclave, a 480-bed wholly-owned property sold in September 2014. Due to a recent change in
(2) accounting guidance, The Enclave along with future disposals of individual operating properties or portfolios that do not represent a strategic shift in our operations will no longer qualify as discontinued operations and will be classified within income from continuing operations on the accompanying consolidated statements of comprehensive income. As a result, the operations of The Enclave are included in the table above in order to reconcile to wholly-owned revenues and wholly-owned operating expenses on the accompanying consolidated statements of comprehensive income. Refer to Note 2 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a more detailed discussion of the new guidance for discontinued operations.

The decrease in number of beds for the comparable periods is due to a fire that damaged 32 beds at one of our
(3) wholly-owned properties in July 2014 and the sale of one building containing 20 beds at another wholly-owned property in October 2014. The 32 beds damaged by the fire are being rebuilt and will be available for occupancy in Spring 2015.

(4) Includes revenues which are reflected as resident services revenue on the accompanying consolidated statements of comprehensive income.

Same Store Properties. The increase in revenue from our same store properties was primarily due to an increase in average rental rates for the 2014/2015 and 2013/2014 academic years and an increase in average occupancy from 95.0% during the year ended December 31, 2013 to 95.4% for the year ended December 31, 2014. Future revenues

will be dependent on our ability to maintain our current leases in effect for the 2014/2015 academic year and our ability to obtain appropriate rental rates and desired occupancy for the 2015/2016 academic year at our various properties.

The increase in operating expenses from our same store properties was primarily due to (i) an increase in property taxes on 2012 developments placed in service caused primarily by the stabilization of property tax assessments in the second year of operations; (ii) an increase in utility costs associated with an unusually cold winter experienced in late 2013 and early 2014; (iii) additional incentive compensation in 2014 as a result of our improved operational performance as compared to 2013; and (iv) an increase in bad debt expense as a result of a lower quality tenant base at certain properties resulting from the slower leasing velocity experienced during the 2013/2014 leasing campaign. These increases were partially offset by a decrease in marketing expense as

a result of expense control efforts and improved leasing velocity for the 2014/2015 academic year. We anticipate that operating expenses for our same store property portfolio for 2015 will increase as compared with 2014 as a result of general inflation.

New Property Operations. Our new properties for the year ended December 31, 2014 consist of the following: (i) 7th Street Station, acquired in July 2013, (ii) The Lodges of East Lansing Phase II, an additional phase at an existing property previously subject to a pre-sale agreement that we acquired in July 2013, (iii) Townhomes at Newtown Crossing, a property previously subject to a pre-sale agreement that we acquired in September 2013, (iv) seven owned development projects that opened for occupancy in August and September 2013, (v) Park Point, acquired in October 2013, (vi) U Centre at Fry Street and Cardinal Towne, both acquired in November 2013, (vii) Boulder Outlook Hotel, acquired in January 2014, (viii) five owned development projects that opened for occupancy in June and August 2014, (ix) University Walk, a property subject to a pre-sale agreement that we did not own as of December 31, 2014 but is consolidated for financial reporting purposes, and (x) The Standard, acquired in October 2014.

On-Campus Participating Properties (“OCPP”) Operations

Same Store OCPP Properties. We had four participating properties containing 4,519 beds which were operating during the years ended December 31, 2014 and 2013. Revenues from our same store participating properties increased approximately \$0.6 million to \$26.9 million during year ended December 31, 2014 from \$26.3 million for the year ended December 31, 2013. This change was primarily a result of an increase in average rental rates for the 2014/2015 and 2013/2014 academic years and an increase in average occupancy from 76.3% for the year ended December 31, 2013 to 78.3% for the year ended December 31, 2014.

At these properties, operating expenses decreased by approximately \$0.2 million, from \$11.1 million for the year ended December 31, 2013 to \$10.9 million for the year ended December 31, 2014. This decrease was primarily a result of a decrease in utilities expense at two of our participating properties that discontinued resident telephone service in 2014.

New Property Operations. In August 2014, we completed construction on College Park, a 567-bed on-campus participating property serving students attending West Virginia University. This property contributed additional revenue and operating expenses of approximately \$1.6 million and \$0.4 million, respectively, during the year ended December 31, 2014.

Third-Party Development Services Revenue

Third-party development services revenue increased by approximately \$1.5 million, from \$2.5 million during the year ended December 31, 2013 to \$4.0 million for the year ended December 31, 2014. This increase was primarily due to the closing of bond financing and commencement of construction for the University of Toledo project in June 2014 and the Texas A&M University - Corpus Christi project in July 2014. These two new projects contributed an additional \$2.4 million of revenue recognized during the year ended December 31, 2014. During the year ended December 31, 2014, we had four projects in progress with an average contractual fee of approximately \$1.9 million, as compared to the year ended December 31, 2013 in which we had three projects in progress with an average contractual fee of approximately \$2.7 million.

Development services revenues are dependent on our ability to successfully be awarded such projects, the amount of the contractual fee related to the project and the timing and completion of the development and construction of the project. In addition, to the extent projects are completed under budget, we may be entitled to a portion of such savings, which are recognized as revenue when performance has been agreed upon by all parties, or when performance has been verified by an independent third-party. It is possible that projects for which we have deferred pre-development costs will not close and that we will not be reimbursed for such costs. The pre-development costs associated therewith

will ordinarily be charged against income for the then-current period.

Third-Party Development and Management Services Expenses

Third-party development and management services expenses increased by approximately \$0.9 million, from \$10.8 million during the year ended December 31, 2013 to \$11.7 million for the year ended December 31, 2014. This increase was primarily a result of payroll and benefits, branding initiatives and general inflation, offset by approximately \$0.6 million of transfer taxes paid by us during the year ended December 31, 2013 in connection with our conversion of a wholly-owned property from off-campus into an on-campus ACE structure via a ground lease with Drexel University. We anticipate third-party development and management services expense will increase in 2015 as a result of the timing of new management contracts awarded in 2014 along with expected contracts to be awarded in 2015, as well as general inflation.

General and Administrative

General and administrative expenses increased by approximately \$2.2 million, from \$16.7 million during the year ended December 31, 2013 to \$18.9 million for the year ended December 31, 2014. This increase was primarily due to additional payroll, health care and benefits expense, public company costs and other general inflationary factors. We anticipate general and administrative expenses will increase in 2015 as compared to 2014 for the reasons discussed above as well as additional expenses anticipated to be incurred related to planned enhancements to our operating systems platform.

Depreciation and Amortization

Depreciation and amortization increased by approximately \$12.5 million, from \$185.0 million during the year ended December 31, 2013 to \$197.5 million for the year ended December 31, 2014. This increase was primarily due to the completion of construction and opening of seven owned development properties in August and September 2013 along with the completion of construction and opening of five owned development properties, one mezzanine development property that we consolidate for financial reporting purposes, and one on-campus participating property in June and August 2014, which contributed approximately \$12.9 million of additional depreciation and amortization expense during the year ended December 31, 2014. In addition, property acquisition activity in 2013 and 2014 contributed approximately \$8.3 million of additional depreciation and amortization expense during the year ended December 31, 2014. These increases were partially offset by a decrease in the amortization of in-place leases of approximately \$8.4 million related to the purchase of 40 properties in 2012. The value assigned to in-place leases upon acquisition of these properties was fully amortized by the end of 2013. We expect depreciation and amortization expense to increase in 2015 as a result of the completion of owned development projects placed into service in Fall 2014, the anticipated completion of four owned development projects in August and September 2015, and potential future acquisition opportunities in 2015, offset by a reduction in depreciation and amortization related to the disposition of seven wholly-owned properties in January 2015 along with additional disposition activity planned for the remainder of 2015.

Ground/Facility Leases

Ground/facility leases expense increased by approximately \$2.0 million, from \$5.4 million during the year ended December 31, 2013 to \$7.4 million for the year ended December 31, 2014. This increase was primarily due to the timing of ACE development projects placed into service during 2013 and 2014, which contributed approximately \$1.2 million of additional ground/facility leases expense during the year ended December 31, 2014. The recently completed on-campus participating property placed into service in August 2014, along with improved operating results at two other on-campus participating properties during the comparable periods contributed the remaining \$0.8 million increase to ground/facility leases expense during the year ended December 31, 2014. We anticipate ground/facility leases expense to increase in 2015 as compared to 2014 for the reasons discussed above, along with the planned completion of construction and commencement of operations of one ACE development project in September 2015.

Provision for Real Estate Impairment

During the year ended December 31, 2014, we recorded a loss of approximately \$2.4 million related to an impairment recognized prior to the sale of a wholly-owned property in September 2014. Refer to Note 6 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a detailed discussion of our property dispositions.

Interest Income

Interest income increased by approximately \$1.2 million, from \$3.0 million during the year ended December 31, 2013 to \$4.2 million during the year ended December 31, 2014. This increase was primarily a result of our purchase of \$52.8 million in loans receivable in April 2013 which contributed an additional \$1.0 million of interest income during

the year ended December 31, 2014, as well as the assumption of a loan receivable in connection with our purchase of Cardinal Towne in November 2013 which contributed an additional \$1.0 million of interest income during the year ended December 31, 2014. These increases were partially offset by an \$0.8 million decrease to interest income related to a loan to a noncontrolling partner that was paid off in July 2013. We expect interest income to remain relatively consistent with 2014 levels in 2015.

Interest Expense

Interest expense increased by approximately \$12.3 million, from \$78.0 million during the year ended December 31, 2013 to \$90.3 million for the year ended December 31, 2014. We incurred additional interest expense of approximately \$12.4 million during the year ended December 31, 2014 related to the timing of our two recent offerings of senior unsecured notes which closed on April 2, 2013 and June 24, 2014, respectively. In December 2013, we borrowed \$250 million under our new Term Loan II Facility

which resulted in approximately \$4.0 million of additional interest expense for the year ended December 31, 2014. We also incurred additional interest expense of approximately \$3.0 million during the year ended December 31, 2014 related to loans assumed in connection with 2013 property acquisitions. In addition, interest expense increased by approximately \$1.6 million as a result of a decrease in capitalized interest due to the timing and volume of construction activities on our owned development projects along with a decrease to our weighted-average cost of capital during the comparable periods. These increases were partially offset by a decrease of approximately \$6.9 million during the year ended December 31, 2014 related to the payoff of mortgage loans during the past two years and the payoff of our secured agency facility on September 1, 2014. Interest expense also decreased by approximately \$0.7 million during the year ended December 31, 2014 in connection with a reduction to the interest rate spread on our existing \$350 million Term Loan I Facility in December 2013 and a reduction to the interest rate spread in May 2013 on a construction loan used to finance the development of two on-campus ACE properties. Lastly, interest expense decreased by approximately \$0.8 million during the year ended December 31, 2014 as a result of our refinancing of the Cullen Oaks Phase I and Phase II mortgage loans in February 2014.

We anticipate interest expense will increase in 2015 as compared to 2014 due to the timing of our \$400 million offering of senior unsecured notes in June 2014 and an anticipated bond offering in 2015, offset by a decrease in interest expense related to the payoff of mortgage debt in 2014, the recent payoff of our secured agency facility in September 2014 and the expected payoff of outstanding mortgage and construction loans that mature in 2015.

Amortization of Deferred Financing Costs

Amortization of deferred financing costs increased by approximately \$0.3 million, from \$5.6 million during the year ended December 31, 2013 to \$5.9 million for the year ended December 31, 2014. This increase was primarily due to an additional \$0.4 million of finance cost amortization during the year ended December 31, 2014 in connection with the December 2013 closing of our new \$250 million Term Loan II Facility. We also incurred an additional \$0.3 million of finance cost amortization during the year ended December 31, 2014 resulting from offering costs paid in connection with our two recent offerings of senior unsecured notes which closed on April 2, 2013 and June 24, 2014, respectively. These increases were offset by a decrease of approximately \$0.4 million during the year ended December 31, 2014 related to the payoff of mortgage loans during the past two years and the payoff of our secured agency facility on September 1, 2014. We anticipate amortization of deferred finance costs will decrease slightly in 2015 as compared to 2014 as a result of the recent payoff of our secured agency facility and the expected payoff of outstanding mortgage and construction loans that mature in 2015.

Other Nonoperating Income (Expense)

During the year ended December 31, 2014, we recognized a gain on insurance settlement of approximately \$0.2 million related to a fire that occurred at one of our wholly-owned properties in July 2014. The gain represents insurance proceeds received to date in excess of the net book value of the property written off as a result of damage caused by the fire. During the year ended December 31, 2013, we recognized litigation settlement costs of \$2.8 million related to a lawsuit that was settled and dismissed in April 2013.

Income Tax Provision

The Company's provision for income taxes increased by approximately \$0.3 million, from \$1.0 million for the year ended December 31, 2013 to \$1.3 million for the year ended December 31, 2014. This increase relates to our increased presence in Texas as a result of our recent acquisition and owned development activity and subsequent increase in Texas Franchise taxes incurred. We expect our income tax expense to remain relatively consistent with 2014 levels in 2015.

Discontinued Operations

Discontinued operations on the accompanying consolidated statements of comprehensive income includes the following wholly-owned properties: (i) Hawks Landing, sold in February 2014 for a sales price of \$17.3 million, (ii) University Mills, sold in November 2013 for a sales price of \$14.5 million, (iii) Campus Ridge, sold in October 2013 for a sales price of \$12.3 million, and (iv) State College Park, University Pines, The Village at Blacksburg and Northgate Lakes, wholly-owned properties sold in July 2013 for a combined sales price of \$157.4 million. Refer to Note 6 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a table summarizing the results of operations of the properties classified within discontinued operations.

Comparison of the Years Ended December 31, 2013 and 2012

The following table presents our results of operations for the years ended December 31, 2013 and 2012, including the amount and percentage change in these results between the two periods.

	Year Ended December 31,		Change (\$)	Change (%)	
	2013	2012			
Revenues:					
Wholly-owned properties	\$618,503	\$422,417	\$196,086	46.4	%
On-campus participating properties	26,348	26,166	182	0.7	%
Third-party development services	2,483	8,574	(6,091)	(71.0)	%

Net income attributable to noncontrolling interests	(2,547)	(3,602)	1,055	(29.3)	%
Net income attributable to common shareholders	\$104,644	\$56,636	\$48,008	84.8	%

Same Store and New Property Operations

A reconciliation of our same store and new property operations to our consolidated statements of comprehensive income is set forth below.

	Same Store Properties ⁽¹⁾		New Properties ⁽²⁾		Total - All Properties ⁽¹⁾	
	Year Ended December 31,		Year Ended December 31,		Year Ended December 31,	
	2013	2012	2013	2012	2013	2012
Number of properties	89	89	64	51	153	140
Number of beds	53,748	53,748	37,459	29,778	91,207	83,526
Revenues ⁽³⁾	\$367,021	\$361,081	\$254,096	\$62,941	\$621,117	\$424,022
Operating expenses	174,774	170,285	122,020	29,841	296,794	200,126

(1) Excludes one property classified as held for sale as of December 31, 2013 that is included in discontinued operations on the accompanying consolidated statements of comprehensive income.

(2) Does not include properties under construction as of December 31, 2013. Number of properties and number of beds also excludes properties undergoing redevelopment as of December 31, 2013, although the results of operations of those properties are included in revenues and operating expenses prior to commencement of redevelopment activities.

(3) Includes revenues which are reflected as resident services revenue on the accompanying consolidated statements of comprehensive income.

Same Store Properties. The increase in revenue from our same store properties was primarily due to an increase in average rental rates for the 2013/2014 and 2012/2013 academic years, offset by a slight decrease in average occupancy from 96.1% during the year ended December 31, 2012 to 96.0% during the year ended December 31, 2013.

The increase in operating expenses for our same store properties was primarily due to an increase in marketing costs incurred to stimulate leasing velocity for the 2013/2014 academic year, an increase in property taxes related to 2011 owned development deliveries being assessed at full values at various points during 2012, as well as the expiration of a tax rebate agreement at one of our properties.

New Property Operations. Our new properties for the year ended December 31, 2013 consist of the following: (i) University Heights- Knoxville, acquired from one of our joint ventures with Fidelity ("Fund II") in January 2012, (ii) Avalon Heights, acquired in May 2012, (iii) University Commons, acquired in June 2012, (iv) The Block, acquired in August 2012, (v) The Retreat, acquired in September 2012, (vi) 11 owned development projects that opened for occupancy in August and September 2012 (vii) a 15-property student housing portfolio acquired in September 2012, (viii) a 19-property student housing portfolio acquired in November 2012, (ix) University Edge, a property previously subject to a pre-sale agreement that we acquired in December 2012, (x) 7th Street Station, acquired in July 2013, (xi) The Lodges of East Lansing Phase II, an additional phase at an existing property previously subject to a pre-sale agreement that we acquired in July 2013, (xii) The Plaza Apartments, acquired in August 2013, (xiii) Townhomes at Newtown Crossing, a property previously subject to a pre-sale agreement that we acquired in September 2013, (xiv) seven owned development projects that opened for occupancy in August and September 2013, (xv) Park Point, acquired in October 2013, and (xvi) U Centre at Fry Street and Cardinal Towne, both acquired in November 2013.

On-Campus Participating Properties ("OCPP") Operations

We had four participating properties containing 4,519 beds which were operating during both years ended December 31, 2013 and 2012 and one on-campus participating property that was under construction as of December 31, 2013. Revenues from our participating properties increased to \$26.4 million during the year ended December 31, 2013 from \$26.2 million for the year ended December 31, 2012, an increase of \$0.2 million. This increase was primarily a result of an increase in average rental rates for the 2013/2014 and 2012/2013 academic years, offset by a slight decrease in average occupancy from 77.6% for the year ended December 31, 2012 to 76.3% for the year ended December 31, 2013.

Third-Party Development Services Revenue

Third-party development services revenue decreased by approximately \$6.1 million, from \$8.6 million during the year ended December 31, 2012 to \$2.5 million for the year ended December 31, 2013. This decrease was primarily due to the closing of bond financing and commencement of construction for the Southern Oregon University and College of Staten Island projects and the commencement of construction on the Lakeside Graduate Community at Princeton University during the year ended December 31, 2012. These new projects contributed an additional \$2.3 million during the year ended December 31, 2012. In addition, revenues of approximately \$3.1 million were recognized during the year ended December 31, 2012 for the Northern Illinois University and Illinois State University projects, both of which completed construction and opened for occupancy in August 2012. Of the \$3.1 million recognized during the year ended December 31, 2012, \$0.8 million related to our participation in cost savings on these two projects.

During the year ended December 31, 2013, we had three projects in progress with an average contractual fee of approximately \$2.7 million, as compared to the year ended December 31, 2012 in which we had seven projects in progress with an average contractual fee of approximately \$2.4 million.

Third-Party Management Services Revenue

Third-party management services revenue increased by approximately \$0.6 million, from \$6.9 million for the year ended December 31, 2012 to \$7.5 million for the year ended December 31, 2013. This increase was primarily a result of revenue earned from three newly awarded third-party management contracts and the recognition of incentive management fees from another third-party management contract during the year ended December 31, 2013.

Third-Party Development and Management Services Expenses

Third party development and management services expenses decreased by approximately \$0.1 million, from \$10.9 million during the year ended December 31, 2012 to \$10.8 million for the year ended December 31, 2013. This decrease was primarily a result of the recent growth in our wholly-owned property portfolio, as well as a lower number of newly awarded contracts in this business segment during 2013 as compared to the prior year, offset by approximately \$0.6 million of transfer taxes paid by the Company in connection with our recent conversion of a wholly-owned property into an on-campus ACE structure via a ground lease with Drexel University.

General and Administrative

General and administrative expenses decreased by approximately \$6.3 million, from \$23.0 million during the year ended December 31, 2012 to \$16.7 million for the year ended December 31, 2013. This decrease was primarily a result of \$7.5 million of acquisition-related costs such as broker fees, due diligence costs and legal and accounting fees incurred in 2012 in connection with our purchase of the Campus Acquisitions Portfolio in September 2012 and the Kayne Anderson Portfolio in November 2012, offset by additional salary and benefits expense, public company costs and other general inflationary factors experienced during the year ended December 31, 2013.

Depreciation and Amortization

Depreciation and amortization increased by approximately \$74.5 million, from \$110.5 million during the year ended December 31, 2012 to \$185.0 million for the year ended December 31, 2013. This increase was primarily a result of the following items: (i) additional depreciation and amortization expense of approximately \$55.5 million recorded during the year ended December 31, 2013 related to properties acquired during 2012 and 2013, (ii) the completion of construction and opening of 11 owned development properties in August and September 2012, which contributed an

additional \$14.4 million of depreciation and amortization expense during the year ended December 31, 2013, and (iii) the completion of construction and opening of seven owned development properties in August and September 2013, which contributed an additional \$4.5 million of depreciation and amortization expense during the year ended December 31, 2013. These increases were offset by a decrease in the amortization of in-place leases of approximately \$0.9 million related to the purchase of three properties in 2011. The value assigned to in-place leases upon acquisition of these properties was fully amortized by the end of 2012.

Ground/Facility Leases

Ground/facility leases expense increased by approximately \$1.2 million, from \$4.2 million during the year ended December 31, 2012 to \$5.4 million for the year ended December 31, 2013. This increase was primarily due to the completion of construction

and commencement of operations of six ACE development projects during 2012 and improved operating results at two of our on-campus participating properties, which increased our share of cash flow available for distribution.

Interest Income

Interest income increased by approximately \$1.2 million, from \$1.8 million during the year ended December 31, 2012 to \$3.0 million during the year ended December 31, 2013. This increase was primarily a result of our purchase of \$52.8 million in loans receivable on April 22, 2013, which carry an interest rate of 5.12% with semiannual compounding, and contributed \$1.9 million of interest income for the year ended December 31, 2013. This increase was offset by a \$0.6 million decrease to interest income recognized on a loan to a noncontrolling partner that was paid off in July 2013.

Interest Expense

Interest expense increased by approximately \$23.5 million, from \$54.5 million during the year ended December 31, 2012 to \$78.0 million for the year ended December 31, 2013. We incurred additional interest expense of approximately \$18.3 million during the year ended December 31, 2013 related to loans assumed in connection with 2012 and 2013 property acquisitions. We also incurred additional interest expense of approximately \$11.3 million during the year ended December 31, 2013 related to our \$400 million offering of senior unsecured notes which closed on April 2, 2013. Lastly, we incurred additional interest expense of approximately \$0.4 million during the year ended December 31, 2013 from a construction loan used to partially finance the construction of two owned development projects which opened for occupancy in August 2012. These increases were offset by a decrease of approximately \$4.1 million during the year ended December 31, 2013 as a result of mortgage and construction loans paid off during 2012 and 2013. In addition, interest expense decreased as a result of an increase in capitalized interest of approximately \$1.2 million due to the timing and volume of construction activities on our owned development projects during the respective periods. Lastly, interest expense decreased by approximately \$0.6 million during the year ended December 31, 2013 related to decreased borrowings under our revolving credit facility, which resulted from using \$321.0 million in proceeds from our unsecured notes offering in April 2013 to pay down in full the outstanding balance on our revolving credit facility.

Amortization of Deferred Financing Costs

Amortization of deferred financing costs increased approximately \$1.2 million, from \$4.4 million during the year ended December 31, 2012 to \$5.6 million for the year ended December 31, 2013. This increase was primarily due to an additional \$1.1 million of finance cost amortization during the year ended December 31, 2013, as a result of finance costs paid upon the assumption of mortgage debt in connection with 2012 and 2013 property acquisitions. We also incurred an additional \$0.3 million of finance cost amortization during the year ended December 31, 2013 as a result of offering costs paid in connection with our \$400 million unsecured notes offering, which closed on April 2, 2013. These increases were offset by a decrease of approximately \$0.1 million during the year ended December 31, 2013 as a result of mortgage and construction loans paid off during 2012 and 2013.

Income from Unconsolidated Joint Ventures

We reported income from unconsolidated joint ventures of approximately \$0.4 million for the year ended December 31, 2012 in connection with our share of income from Fund II. In January 2012, we purchased the one remaining property from Fund II and therefore had no additional interest in this joint venture subsequent to that purchase.

Other Nonoperating (Expense) Income

Other nonoperating (expense) income changed by approximately \$3.1 million, from income of \$0.4 million during the year ended December 31, 2012 to an expense of \$2.7 million during the year ended December 31, 2013. During the year ended December 31, 2013, we paid \$52.8 million to acquire loans receivable from National Public Finance Guarantee Corporation (“National”) which facilitated the settlement of a lawsuit brought by National against us. In connection with our purchase of the loans receivable, we recorded a purchase discount of approximately \$3.6 million to reflect the difference between the face value of the loans receivable and the present value of the cash flows anticipated to be received under the loans receivable. Concurrent with recording this \$3.6 million purchase discount, we recognized litigation settlement costs of \$2.8 million in excess of amounts provided by insurance.

The litigation settlement costs discussed above were offset by a gain of approximately \$0.1 million recognized upon our purchase of Townhomes at Newtown Crossing in September 2013, a property previously subject to a pre-sale/mezzanine investment agreement. We included the property in our consolidated financial statements during the construction period, as a result of applying accounting guidance related to variable interest entities. The property completed construction in August 2013 and the gain recorded upon our purchase of the property primarily relates to interest income earned on our mezzanine investment during

the construction period.

Other nonoperating income of \$0.4 million for the year ended December 31, 2012 primarily related to a gain recognized upon our purchase of University Edge in December 2012, a property previously subject to a pre-sale/mezzanine investment agreement. We included the property in our consolidated financial statements during the construction period, as a result of applying accounting guidance related to variable interest entities. The property completed construction in August 2012 and the gain recorded upon our purchase of the property primarily relates to interest income earned on our mezzanine investment during the construction period.

Income Tax Provision

The Company's provision for income taxes increased by approximately \$0.3 million, from \$0.7 million for the year ended December 31, 2012 to \$1.0 million for the year ended December 31, 2013. This increase relates to our increased presence in Texas as a result of our recent acquisition and owned development activity and subsequent increase in Texas Franchise taxes incurred.

Discontinued Operations

Discontinued operations on the accompanying consolidated statements of comprehensive income includes the following wholly-owned properties: (i) Hawks Landing, a wholly-owned property that was classified as held for sale as of December 31, 2013, (ii) University Mills, sold in November 2013 for a sales price of \$14.5 million, (iii) Campus Ridge, sold in October 2013 for a sales price of \$12.3 million, (iv) State College Park, University Pines, The Village at Blacksburg and Northgate Lakes, wholly-owned properties sold in July 2013 for a combined sales price of \$157.4 million, (v) Brookstone Village and Campus Walk, wholly-owned properties sold in December 2012 for a combined sales price of \$26.6 million, and (vi) Pirates Cove, sold in April 2012 for a sales price of \$27.5 million. Refer to Note 6 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a table summarizing the results of operations of the properties classified within discontinued operations.

Liquidity and Capital Resources

Cash Balances and Cash Flows

As of December 31, 2014, excluding our on-campus participating properties, we had \$45.5 million in cash and cash equivalents and restricted cash as compared to \$63.2 million in cash and cash equivalents and restricted cash as of December 31, 2013. Restricted cash primarily consists of escrow accounts held by lenders and resident security deposits, as required by law in certain states, and funds held in escrow in connection with potential acquisition and development opportunities. The following discussion relates to changes in cash due to operating, investing and financing activities, which are presented in our consolidated statements of cash flows included in Item 8 herein.

Operating Activities: For the year ended December 31, 2014, net cash provided by operating activities was approximately \$259.9 million, as compared to approximately \$246.7 million for the year ended December 31, 2013, an increase of approximately \$13.2 million. This increase in cash provided by operating activities was primarily due to operating cash flows provided from the timing of the acquisition of six properties and an additional phase at an existing property in 2013 and 2014 and the completion of construction and opening of seven owned development projects in Fall 2013 and six owned development projects and one on-campus participating project in Fall 2014.

Investing Activities: Investing activities utilized approximately \$429.2 million and \$510.0 million for the years ended December 31, 2014 and 2013, respectively. The \$80.8 million decrease in cash utilized in investing activities was primarily a result of the following: (i) a \$181.7 million decrease in cash paid to acquire properties and undeveloped

land parcels as we acquired a 610-bed community serving students attending the University of Georgia, a site containing an existing hotel in Boulder, Colorado and two land parcels during the year ended December 31, 2014, compared to six wholly-owned properties and an additional phase at an existing wholly-owned property during the year ended December 31, 2013; (ii) a \$24.3 million decrease in cash used to fund the construction of our wholly-owned development properties, as 14 wholly-owned properties were under construction during the year ended December 31, 2013, of which seven completed construction in August and September 2013, as compared to 11 wholly-owned properties that were under construction during the year ended December 31, 2014, of which one completed construction in June 2014 and another five completed construction in August 2014; (iii) a decrease to our investment in loans receivable of \$52.1 million during the comparable periods; (iv) an \$8.8 million decrease in mezzanine financing provided to third-party developers during the comparable periods; (v) the repayment of a \$3.0 million loan by a third-party developer during the year ended December 31, 2014; and (vi) a decrease in escrow deposits of \$1.9 million for potential acquisition or development opportunities during the comparable periods. These decreases were primarily offset by (i) a \$172.4 million decrease in proceeds received from the disposition

of real estate, as two wholly-owned properties containing 964 beds were sold during the year ended December 31, 2014 as compared to six wholly-owned properties containing 4,079 beds during the year ended December 31, 2013; (ii) a \$12.2 million increase in cash used during the year ended December 31, 2014 to fund the construction of an on-campus participating property located in Morgantown, West Virginia, which opened for occupancy in August 2014; and (iii) an \$8.4 million increase in cash used to fund capital expenditures at our wholly-owned properties, as we began or continued renovations at several properties during the year ended December 31, 2014.

Financing Activities: Cash provided by financing activities totaled approximately \$155.6 million and \$280.6 million for the years ended December 31, 2014 and 2013, respectively. The \$125.0 million decrease in cash provided by financing activities was primarily a result of the following: (i) a decrease in proceeds from unsecured term loans as we borrowed \$250 million in December 2013 under our Term Loan II Facility; (ii) a \$95.9 million increase in cash used to pay off maturing mortgage debt during the comparable periods; (iii) a \$9.0 million increase in distributions to stockholders during the year ended December 31, 2014 as a result of two increases to the quarterly dividend per share of common stock since May 2013; (iv) the termination of two forward starting interest rate swaps in connection with our issuance of unsecured notes in June 2014, resulting in cash payments to counterparties totaling \$4.1 million; and (v) a \$0.7 million increase in scheduled principal payments on outstanding debt during the comparable periods. These decreases were partially offset by (i) a \$127.6 million decrease in paydowns (net of proceeds) on our revolving credit facilities during the year ended December 31, 2014; (ii) an \$88.0 million increase in net proceeds raised through the issuance of common stock during the comparable periods; (iii) a \$12.3 million increase in construction loan proceeds during the comparable periods as the development and construction of an on-campus participating property, which opened for occupancy in August 2014, was financed with a construction loan; and (iv) a \$5.5 million decrease in debt issuance and assumption costs during the comparable periods, as we paid approximately \$4.9 million of issuance costs in December 2013 to amend and expand our existing credit facility.

Liquidity Needs, Sources and Uses of Capital

As of December 31, 2014, our short-term liquidity needs included, but were not limited to, the following: (i) anticipated distribution payments to our common and restricted stockholders totaling approximately \$163.8 million based on an assumed annual cash distribution of \$1.52 per share based on the number of our shares outstanding as of December 31, 2014, (ii) anticipated distribution payments to our Operating Partnership unitholders totaling approximately \$2.0 million based on an assumed annual distribution of \$1.52 per common unit and a cumulative preferential per annum cash distribution rate of 5.99% on our Series A preferred units based on the number of units outstanding as of December 31, 2014, (iii) pay-off of approximately \$181.4 million of outstanding fixed rate mortgage debt and \$44.6 million of variable rate construction debt scheduled to mature during the next 12 months, as well as approximately \$14.4 million of scheduled debt principal payments, (iv) estimated development costs over the next 12 months totaling approximately \$203.7 million for our wholly-owned properties currently under construction, (v) funds for other development projects scheduled to commence construction during the next 12 months, and (vi) potential future property acquisitions, including mezzanine financed developments.

We expect to meet our short-term liquidity requirements by (i) borrowing under our existing unsecured credit facility discussed below, (ii) accessing the unsecured bond market, (iii) issuing securities, including common stock, under our \$500 million at-the-market share offering program (“ATM Equity Program”) discussed more fully in Note 12 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, (iv) potentially disposing of properties depending on market conditions, and (v) utilizing current cash on hand and net cash provided by operations.

We may seek additional funds to undertake initiatives not contemplated by our business plan or obtain additional cushion against possible shortfalls. We also may pursue additional financing as opportunities arise. Future financings may include a range of different sizes or types of financing, including the incurrence of additional secured debt and the sale of additional debt or equity securities. These funds may not be available on favorable terms or at all. Our

ability to obtain additional financing depends on several factors, including future market conditions, our success or lack of success in penetrating our markets, our future creditworthiness, and restrictions contained in agreements with our investors or lenders, including the restrictions contained in the agreements governing our unsecured credit facility and unsecured notes. These financings could increase our level of indebtedness or result in dilution to our equity holders.

Indebtedness

A summary of our consolidated indebtedness as of December 31, 2014 is as follows:

	Amount	% of Total	Weighted Average Rates	Weighted Average Maturities (years)
Secured	\$1,272,223	43.6	% 5.07	% 5.0 Years
Unsecured	1,642,500	56.4	% 2.97	% 5.9 Years
Total consolidated debt	\$2,914,723	100.0	% 3.88	% 5.5 Years
Fixed rate debt				
Secured				
Project-based taxable bonds ⁽¹⁾	\$39,785	1.4	% 7.56	% 9.7 Years
Construction ⁽²⁾	43,942	1.5	% 3.85	% 30.6 Years

⁽¹⁾ As discussed more fully in Note 11 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, three of our on-campus participating properties are 100% financed with project-based taxable bonds.

Represents a construction loan used to finance the development and construction of an on-campus participating property located in Morgantown, West Virginia, which completed construction and opened for occupancy in

⁽²⁾ August 2014. The loan bears interest at a rate of 3.85% per annum for the first five years and one-month LIBOR plus 2.5% for the remaining term of the loan. The loan requires payments of interest only during the first two years and principal and interest payments begin in August 2015.

⁽³⁾ As discussed more fully in Note 11 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, 52 of our properties are encumbered with mortgage debt.

⁽⁴⁾ Excludes net unamortized debt premiums and debt discounts related to mortgage loans assumed in connection with property acquisitions of approximately \$60.6 million and \$0.9 million, respectively.

As discussed more fully in Note 11 in the accompanying Notes to Consolidated Financial Statements contained in

⁽⁵⁾ Item 8, we recently completed two \$400 million offerings of 10-year senior unsecured notes in June 2014 and April 2013.

- (6) Excludes unamortized original issue discounts of approximately \$1.7 million.
- (7) As discussed more fully in Note 11 and Note 14 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, we have entered into multiple interest rate swap contracts that effectively fix the interest rate on the outstanding balance for this term loan.

- (8) Includes \$19.0 million used to finance the development and construction of University Walk, a VIE we include in our consolidated financial statements. The seller/developer paid off this construction loan with proceeds from our purchase of the property in February 2015.
- (9) As discussed more fully in Note 11 in the accompanying Notes to Consolidated Financial Statements contained in Item 8, we have an aggregate unsecured credit facility totaling \$1.1 billion, which is comprised of two unsecured term loans totaling \$600 million and a \$500 million unsecured revolving credit facility.

Distributions

We are required to distribute 90% of our REIT taxable income (excluding capital gains) on an annual basis in order to qualify as a REIT for federal income tax purposes. Distributions to common stockholders are at the discretion of the Board of Directors. We may use borrowings under our unsecured revolving credit facility to fund distributions. The Board of Directors considers a number of factors when determining distribution levels, including market factors and our Company's performance in addition to REIT requirements.

On January 28, 2015, we declared a fourth quarter 2014 distribution per share of \$0.38, which was paid on February 20, 2015 to all common stockholders of record as of February 9, 2015. At the same time, the Operating Partnership will pay an equivalent amount per unit to holders of Common Units, as well as the quarterly cumulative preferential distribution to holders of Series A Preferred Units.

Capital Expenditures

We distinguish between the following four categories of capital expenditures:

Recurring capital expenditures represent additions that are recurring in nature to maintain a property's income, value, and competitive position within the market. Recurring capital expenditures typically include, but are not limited to, appliances, furnishings, carpeting and flooring, HVAC equipment and kitchen/bath cabinets. Maintenance and repair costs incurred during our annual turn process due to normal wear and tear by residents are expensed as incurred.

Acquisition-related capital expenditures represent additions identified upon acquiring a property and are considered part of the initial investment. These expenditures are intended to position the property to be consistent with our physical standards and are usually incurred within the first two and occasionally the third year after acquisition.

Renovations and strategic repositioning capital expenditures are incurred to enhance the economic value and return of the property.

Non-recurring and other capital expenditures represent the addition of features or amenities that did not exist at the property but were deemed necessary to remain competitive within a specific market. This category also includes capital expenditures at properties that were sold during the year as well as items considered extraordinary in nature.

Additionally, we are required by certain of our lenders to contribute amounts to reserves for capital repairs and improvements at our mortgaged properties, which may exceed the amount of capital expenditures actually incurred by us during those periods.

Our historical capital expenditures at our wholly-owned properties are set forth below:

As of and for the Year Ended December 31,		
2014	2013	2012

Edgar Filing: AMERICAN CAMPUS COMMUNITIES INC - Form 10-K

Recurring capital expenditures	\$19,390	\$18,364	\$13,510
Acquisition-related	32,482	42,767	14,447
Renovations and strategic repositioning	16,794	(1) 4,124	2,589
Non-recurring and other	8,406	3,373	907
Total	\$77,072	\$68,628	\$31,453
Average beds	91,791	86,678	66,555
Average recurring capital expenditures per bed	\$211	\$212	\$203

40

(1) Includes approximately \$11.2 million of renovation costs incurred at University Crossings. Refer to Note 17 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for an expanded discussion on this renovation project.

Pre-Development Expenditures

Our third-party and owned development activities have historically required us to fund pre-development expenditures such as architectural fees, permits and deposits. The closing and/or commencement of construction of these development projects is subject to a number of risks such as our inability to obtain financing on favorable terms and delays or refusals in obtaining necessary zoning, land use, building, and other required governmental permits and authorizations. As such, we cannot always predict accurately the liquidity needs of these activities. We frequently incur these pre-development expenditures before a financing commitment and/or required permits and authorizations have been obtained. Accordingly, we bear the risk of the loss of these pre-development expenditures if financing cannot ultimately be arranged on acceptable terms or we are unable to successfully obtain the required permits and authorizations. Historically, our third-party and owned development projects have been successfully structured and financed; however, these developments have at times been delayed beyond the period initially scheduled, causing revenue to be recognized in later periods. As of December 31, 2014, we have deferred approximately \$2.5 million in pre-development costs related to third-party and owned development projects that have not yet commenced construction.

Contractual Obligations

The following table summarizes our contractual obligations for the next five years and thereafter as of December 31, 2014:

	Total	2015	2016	2017	2018	2019	Thereafter
Long-term debt ⁽¹⁾	\$2,914,723	\$259,378	\$199,836	\$480,811	\$416,607	\$263,557	\$1,294,534
Interest on long-term debt ⁽²⁾	620,895	108,061	97,937	76,221	65,736	58,416	214,524
Development projects ⁽³⁾	233,327	203,655	29,672	—	—	—	—
Ground/facility lease obligations ⁽⁴⁾	261,933	5,244	5,951	5,931	5,961	5,711	233,135
Operating lease obligations ⁽⁵⁾	6,876	1,448	1,266	1,138	1,017	1,004	1,003
Renovation and capital improvements project ⁽⁶⁾	24,727	24,727	—	—	—	—	—
Pre-sale contract ⁽⁷⁾	21,250	21,250	—	—	—	—	—
	\$4,083,731	\$623,763	\$334,662	\$564,101	\$489,321	\$328,688	\$1,743,196

Amounts include aggregate principal payments only and assumes we do not exercise extension options available to us on our unsecured credit facility, which is more fully discussed in Note 11 in the accompanying Notes to Consolidated Financial Statements contained in Item 8.

Amounts include interest expected to be incurred on our secured and unsecured debt based on obligations outstanding at December 31, 2014. For variable rate debt, the current rate in effect for the most recent payment through December 31, 2014 is assumed to be in effect through the respective maturity date of each instrument.

(3) Consists of the completion costs related to six owned development projects which will be funded entirely by us and are scheduled to be completed between August 2015 and August 2016. We have entered into contracts with general contractors for certain phases of the construction of these projects. However, these contracts do not generally cover all of the costs that are necessary to place these properties into service, including the cost of furniture and marketing and leasing costs. The unfunded commitments presented include all such costs, not only

those costs that we are obligated to fund under the construction contracts.

(4) Includes minimum annual lease payments under ground/facility lease agreements entered into with university systems and other third parties. Refer to Note 16 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a more detailed discussion of our ground/facility leases.

(5) Includes operating leases related to corporate office space and equipment. Refer to Note 16 in the accompanying Notes to Consolidated Financial Statements contained in Item 8 for a more detailed discussion of our operating leases.

(6) In August 2013, we conveyed fee interest in a parcel of land on which one of our student housing properties resides, to Drexel University (the "University") and concurrently entered into a ground lease agreement with the University. As part

41

of the ground lease agreement, we committed to spend a minimum of \$22.3 million in renovations and capital improvements over a five year period. We began the renovations in early 2014 and expect to complete this project in Fall 2015, thus satisfying our contractual obligation. The contractual obligation amount is based on the remaining scope of work and construction schedule at December 31, 2014.

(7) In July 2013, we entered into a purchase and contribution agreement with a private developer whereby we were obligated to purchase a student housing property located in Knoxville, Tennessee as long as the developer met certain construction completion deadlines and other closing conditions. The property opened for operations in August 2014 and was purchased by us in February 2015. The contractual obligation amount represents the purchase price of \$30.0 million less the mezzanine loan amount of approximately \$8.8 million that we previously funded to the developer in July 2013.

Funds From Operations (“FFO”)

The National Association of Real Estate Investment Trusts (“NAREIT”) currently defines FFO as net income or loss attributable to common shares computed in accordance with generally accepted accounting principles (“GAAP”), excluding gains or losses from depreciable operating property sales, impairment charges and real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. We present FFO because we consider it an important supplemental measure of our operating performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO excludes GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. We therefore believe that FFO provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, and interest costs, among other items, providing perspective not immediately apparent from net income. We compute FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999 and April 2002), which may differ from the methodology for calculating FFO utilized by other equity REITs and, accordingly, may not be comparable to such other REITs.

We also believe it is meaningful to present a measure we refer to as FFO-Modified, or FFOM, which reflects certain adjustments related to the economic performance of our on-campus participating properties and other nonrecurring items. Under our participating ground leases, we and the participating university systems each receive 50% of the properties’ net cash available for distribution after payment of operating expenses, debt service (which includes significant amounts towards repayment of principal) and capital expenditures. A substantial portion of our revenues attributable to these properties is reflective of cash that is required to be used for capital expenditures and for the amortization of applicable property indebtedness. These amounts do not increase our economic interest in these properties or otherwise benefit us since our interest in the properties terminates upon the repayment of the applicable property indebtedness. Therefore, unlike the ownership of our wholly-owned properties, the unique features of our ownership interest in our on-campus participating properties cause the value of these properties to diminish over time. For example, since the ground/facility leases under which we operate the participating properties require the reinvestment from operations of specified amounts for capital expenditures and for the repayment of debt while our interest in these properties terminates upon the repayment of the debt, such capital expenditures do not increase the value of the property to us and mortgage debt amortization only increases the equity of the ground lessor.

Accordingly, we believe it is meaningful to modify FFO to exclude the operations of our on-campus participating properties and to consider their impact on our performance by including only that portion of our revenues from those properties that are reflective of our share of net cash flow and the management fees that we receive, both of which increase and decrease with the operating performance of the properties. This narrower measure of performance measures our profitability for these properties in a manner that is similar to the measure of our profitability from our services business where we similarly incur no initial or ongoing capital investment in a property and derive only

consequential benefits from capital expenditures and debt amortization. We believe, however, that this narrower measure of performance is inappropriate in traditional real estate ownership structures where debt amortization and capital expenditures enhance the property owner's long-term profitability from its investment. When calculating FFOM, we also exclude losses from early extinguishment of debt incurred in connection with property dispositions and other non-cash gains or losses, as appropriate.

Our FFOM may have limitations as an analytical tool because it reflects the contractual calculation of net cash flow from our on-campus participating properties, which is unique to us and is different from that of our owned off-campus properties. Companies that are considered to be in our industry may not have similar ownership structures; and therefore those companies may not calculate FFOM in the same manner that we do, or at all, limiting its usefulness as a comparative measure. We compensate for these limitations by relying primarily on our GAAP and FFO results and using FFOM only supplementally. Further, FFO and FFOM do not represent amounts available for management's discretionary use because of needed capital replacement or expansion, debt service obligations or other commitments and uncertainties. FFO and FFOM should not be considered as alternatives to net income or loss computed in accordance with GAAP as an indicator of our financial performance, or to cash flow from operating activities

computed in accordance with GAAP as an indicator of our liquidity, nor are these measures indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions.

The following table presents a reconciliation of our net income attributable to common shareholders to FFO and FFOM:

	Year Ended December 31,		
	2014	2013	2012
Net income attributable to common shareholders	\$62,839	\$104,644	\$56,636
Noncontrolling interests ⁽¹⁾	1,265	1,756	1,205
Gain from disposition of real estate	(2,475) (55,263) (4,312
Income from unconsolidated joint ventures	—	—	(444
FFO from unconsolidated joint ventures ⁽²⁾	—	—	429
Elimination of provision for real estate impairment ⁽³⁾	2,443	—	—
Real estate related depreciation and amortization	195,158	185,640	114,841
Funds from operations (“FFO”)	259,230	236,777	168,355
Elimination of operations of on-campus participating properties:			
Net income from on-campus participating properties	(3,933) (3,222) (3,238
Amortization of investment in on-campus participating properties	(5,688) (4,756) (4,644
	249,609	228,799	160,473
Modifications to reflect operational performance of on-campus participating properties:			
Our share of net cash flow ⁽⁴⁾	2,721	2,207	2,065
Management fees	1,289	1,201	1,188
On-campus participating properties development fees ⁽⁵⁾	1,070	1,304	—
Impact of on-campus participating properties	5,080	4,712	3,253
Impact of University Walk (pre-sale arrangement) ⁽⁶⁾	(323) —	—
Non-cash litigation settlement expense ⁽⁷⁾	—	2,800	—
Elimination of loss from early extinguishment of debt ⁽⁸⁾	—	332	1,591
Elimination of gain on debt restructuring – unconsolidated joint venture ⁽⁹⁾	—	—	(424
Loss on remeasurement of equity method investments ⁽¹⁰⁾	—	—	122
Funds from operations – modified (“FFOM”)	\$254,366	\$236,643	\$165,015
FFO per share – diluted	\$2.42	\$2.22	\$1.95
FFOM per share – diluted	\$2.38	\$2.22	\$1.91
Weighted average common shares outstanding - diluted	107,036,208	106,654,933	86,375,470

(1) Excludes \$0.8 million and \$1.4 million for the years ended December 31, 2013 and 2012, respectively, of income attributable to the noncontrolling partner in The Varsity, a property purchased in December 2011 from a seller that retained a 20.5% noncontrolling interest in the property. Effective July 1, 2013, the company acquired the noncontrolling partner's interest and now owns 100% of the property. Also excludes \$1.0 million for the year ended December 31, 2012, of income attributable to the seller of University Edge, a property subject to a pre-sale arrangement that was consolidated for financial reporting purposes prior to our purchase of the property in December 2012.

(2) Represents our 10% share of FFO from a joint venture with Fidelity ("Fund II") in which we were a noncontrolling partner. In January 2012, we purchased the full ownership interest in the one remaining property owned by Fund II (University Heights). Subsequent to the acquisition, the property is now wholly-owned and is consolidated by the company.

- (3) Represents an impairment charge recorded for The Enclave, a property that was sold in September 2014, and a land parcel donated to a municipality in October 2014.

- (4) 50% of the properties' net cash available for distribution after payment of operating expenses, debt service (including repayment of principal) and capital expenditures. Amounts represent actual cash received for the year-to-date periods. As a result of using accrual-based results in interim periods and cash-based results for the year-to-date periods, the sum of reported interim results may not agree to annual cash received.

- (5) Represents development and construction management fees related to the West Virginia University on-campus participating property, which completed construction in August 2014. Although the company is including this project in its consolidated financial statements for accounting purposes, similar to our other on-campus participating properties, we view the economic benefit of such properties as limited to the development/construction management fees, property management fees and the 50% share of net cash flow that we receive. As such, for purposes of calculating FFOM, we are recognizing the fees received for this project similar to other third-party development projects.

- (6) University Walk is a property that was subject to a pre-sale arrangement that we did not own as of December 31, 2014 but were obligated to purchase as long as the developer met certain construction deadlines and closing conditions. The property opened for operations in August 2014 and we purchased the property in February 2015. The property is consolidated for financial reporting purposes but we did not benefit from the net cash flow from operations prior to October 1, 2014. As a result, we have excluded the operations of this property prior to October 1, 2014 from FFOM.

- (7) On April 22, 2013, the company acquired a note and subrogation rights from National Public Finance Guarantee Corporation (formerly known as MBIA Insurance Corp. of Illinois) for an aggregate of \$52.8 million, which are secured by a lien on, and the cash flows from, two student housing properties in close proximity to the University of Central Florida and currently under a ground lease with the UCF Foundation. The instruments carry an interest rate of 5.123 percent. The acquisition facilitated the settlement of litigation related to a third-party management agreement for the properties with a GMH entity that was acquired by the company's 2008 merger with GMH. The acquisition resulted in a non-cash settlement charge of \$2.8 million to reflect the fair market valuation of the instruments. Management believes it is appropriate to exclude this non-cash charge from FFOM in order to more accurately present the operating results of the company on a comparative basis during the periods presented.
- (8) Represents losses associated with the early pay-off of mortgage loans for University Mills in connection with the sale of the property in November 2013 and Brookstone Village and Campus Walk in connection with the sale of those properties in October 2012. Such costs are excluded from gains from disposition of real estate reported in accordance with GAAP. However, we view the losses from early extinguishment of debt associated with the sales of real estate as an incremental cost of the sale transactions because we extinguished the debt in connection with the consummation of the sale transactions and we had no intent to extinguish the debt absent such transactions. We believe that adjusting FFO to exclude these losses more appropriately reflects the results of our operations exclusive of the impact of our disposition transactions.

- (9) In connection with our purchase of University Heights from Fund II (see Note 2), Fund II negotiated a Settlement Agreement with the lender of the property's mortgage loan whereby the lender agreed to accept a discounted amount that was less than the original principal amount of the loan as payment in full. Accordingly, Fund II recorded a gain on debt restructuring to reflect the discounted payoff. Our 10% share of such gain is reflected above as an adjustment to FFOM.

- (10) Represents a non-cash loss recorded to remeasure our equity method investment in Fund II to fair value as a result of our purchase of the full ownership interest in University Heights from Fund II in January 2012.

Inflation

Our student leases do not typically provide for rent escalations. However, they typically do not have terms that extend beyond 12 months. Accordingly, although on a short term basis we would be required to bear the impact of rising costs resulting from inflation, we have the opportunity to raise rental rates at least annually to offset such rising costs. However, a weak economic environment or declining student enrollment at our principal universities may limit our ability to raise rental rates.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to certain market risks inherent in our operations. These risks generally arise from transactions entered into in the normal course of business. We believe our primary market risk exposure relates to interest rate risk. We do not enter into derivatives or other financial instruments for trading or speculative purposes.

The table below provides information about our assets and our liabilities sensitive to changes in interest rates as of December 31, 2014 and 2013:

	December 31, 2014				December 31, 2013			
	Amount (in 000s)	Weighted Average Maturity (in years)	Weighted Average Interest Rate	% of Total	Amount (in 000s)	Weighted Average Maturity (in years)	Weighted Average Interest Rate	% of Total
Fixed rate debt ⁽¹⁾	\$2,358,586	6.0	4.39%	80.9%	\$2,140,024	5.3	4.57%	80.1%
Variable rate debt	556,137	3.3	1.73%	19.1%	533,088	3.7	1.77%	19.9%

Includes a \$350 million outstanding balance on one of our unsecured term loans as of December 31, 2014 and ⁽¹⁾ 2013 and mortgage loans with an outstanding balance totaling \$100.6 million and \$101.4 million as of December 31, 2014 and 2013, respectively, which are effectively fixed by the use of interest rate swaps.

For fixed rate debt, interest rate changes affect the fair market value but do not impact net income attributable to common shareholders or cash flows. Conversely, for floating rate debt, interest rate changes generally do not affect the fair market value but do impact net income attributable to common shareholders and cash flows, assuming other factors are held constant. Holding other variables constant (such as debt levels), a one percentage point variance in interest rates (100 basis points) would change the unrealized fair market value of the fixed rate debt by approximately \$206.7 million. The net income attributable to common shareholders and cash flow impact on the next year resulting from a one percentage point variance in interest rates on floating rate debt, excluding debt effectively fixed by interest rate swap agreements, would be approximately \$5.3 million, holding all other variables constant.

As of December 31, 2014, the effect of our hedge agreements was to fix the interest rate on approximately \$450.6 million of our variable rate debt. Had the hedge agreements not been in place during 2014, our annual interest costs would have been approximately \$4.3 million lower, based on balances and reported interest rates through the year as the variable interest rates were less than the effective interest rates on the associated hedge agreements. Additionally, if the variable interest rates on this debt had been 100 basis points higher through 2014 and the hedge agreements not been in place, our annual interest costs would have been approximately \$0.2 million higher. Derivative financial instruments expose us to credit risk in the event of non-performance by the counterparties under the terms of the interest rate hedge agreements. We believe we minimize our credit risk on these transactions by dealing with major, credit worthy financial institutions. As part of our on-going control procedures, we monitor the credit ratings of counterparties and our exposure to any single entity, thus minimizing credit risk concentration. We believe the likelihood of realized losses from counterparty non-performance is remote.

Item 8. Financial Statements and Supplementary Data

The information required herein is included as set forth in Item 15 (a) – Financial Statements.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

American Campus Communities, Inc.

(a) Evaluation of Disclosure Controls and Procedures

We have adopted and maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), we have carried out an evaluation, under the supervision of and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures for the period covered by this report were effective.

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

(b) Management's Annual Report on Internal Control over Financial Reporting

The management of American Campus Communities, Inc. is responsible for establishing and maintaining adequate internal control over financial reporting. We have designed our internal control over financial reporting to provide reasonable assurance that our published financial statements are fairly presented, in all material respects, in conformity with generally accepted accounting principles.

Our management is required by paragraph (c) of Rule 13a-15 of the Securities Exchange Act of 1934, as amended, to assess the effectiveness of our internal control over financial reporting as of the end of each fiscal year. In making this assessment, our management used the Internal Control — Integrated Framework (2013 framework) issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO").

Our management conducted the required assessment of the effectiveness of our internal control over financial reporting as of December 31, 2014. Based upon this assessment, our management believes that our internal control over financial reporting is effective as of December 31, 2014. Ernst & Young LLP, an independent registered public accounting firm, has issued an attestation report regarding the effectiveness of our internal control over financial reporting, which is included herein.

American Campus Communities Operating Partnership, L.P.

(a) Evaluation of Disclosure Controls and Procedures

The Operating Partnership has adopted and maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed by the Operating Partnership in its Exchange Act filings is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer of ACC, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Operating Partnership has carried out an evaluation, under the supervision of and with the participation of the Operating Partnership's management, including the Chief Executive Officer and Chief Financial Officer of ACC, of the effectiveness of the design and operation of the Operating Partnership's disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures for the period covered by this report were effective.

There has been no change in the Operating Partnership's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

(b) Management's Annual Report on Internal Control over Financial Reporting

The management of American Campus Communities Operating Partnership, L.P. is responsible for establishing and maintaining adequate internal control over financial reporting. We have designed our internal control over financial reporting to provide reasonable assurance that our published financial statements are fairly presented, in all material respects, in conformity with generally accepted accounting principles.

Our management is required by paragraph (c) of Rule 13a-15 of the Securities Exchange Act of 1934, as amended, to assess the effectiveness of our internal control over financial reporting as of the end of each fiscal year. In making this assessment, our

management used the Internal Control — Integrated Framework (2013 framework) issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”).

The Operating Partnership conducted the required assessment of the effectiveness of its internal control over financial reporting as of December 31, 2014. Based upon this assessment, our management believes that our internal control over financial reporting is effective as of December 31, 2014. Ernst & Young LLP, an independent registered public accounting firm, has issued an attestation report regarding the effectiveness of the Operating Partnership’s internal control over financial reporting, which is included herein.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

Information with respect to this Item 10 is incorporated by reference from our Proxy Statement, which we intend to file on or before March 31, 2015 in connection with the Annual Meeting of Stockholders to be held May 7, 2015.

Item 11. Executive Compensation

Information with respect to this Item 11 is incorporated by reference from our Proxy Statement, which we intend to file on or before March 31, 2015 in connection with the Annual Meeting of Stockholders to be held May 7, 2015.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Information pertaining to security ownership of management and certain beneficial owners of the Company’s common stock with respect to this Item 12 is incorporated by reference from our Proxy Statement, which we intend to file on or before March 31, 2015 in connection with the Annual Meeting of Stockholders to be held May 7, 2015, to the extent not set forth below.

The Company maintains the American Campus Communities, Inc. 2010 Incentive Award Plan (the “2010 Plan”), as discussed in more detail in Note 13 in the accompanying Notes to Consolidated Financial Statements in Item 8. As of December 31, 2014, the total units and shares issued under the 2010 Plan were as follows:

	# of Securities to be Issued Upon Exercise of Outstanding Options, Warrants, and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants, and Rights	# of Securities Remaining Available for Future Issuance Under Equity Compensation Plans
Equity Compensation Plans Approved by Security Holders	719,940	(1) \$0	1,154,393
Equity Compensation Plans Not Approved by Security Holders	n/a	n/a	n/a

(1) Consists of restricted stock awards granted to executive officers and certain employees and common units of limited partnership interest in the Operating Partnership.

Item 13. Certain Relationships, Related Transactions and Director Independence

Information with respect to this Item 13 is incorporated by reference from our Proxy Statement, which we intend to file on or before March 31, 2015 in connection with the Annual Meeting of Stockholders to be held May 7, 2015.

Item 14. Principal Accountant Fees and Services

Information with respect to this Item 14 is incorporated by reference from our Proxy Statement, which we intend to file on or before March 31, 2015 in connection with the Annual Meeting of Stockholders to be held May 7, 2015.

PART IV

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of American Campus Communities, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of American Campus Communities, Inc. and Subsidiaries (the "Company") as of December 31, 2014 and 2013, and the related consolidated statements of comprehensive income, changes in equity and cash flows for each of the three years in the period ended December 31, 2014. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of American Campus Communities, Inc. and Subsidiaries at December 31, 2014 and 2013, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 to the consolidated financial statements, the Company changed its method for reporting discontinued operations effective January 1, 2014.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), American Campus Communities, Inc. and Subsidiaries' internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 26, 2015 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Partners of American Campus Communities Operating Partnership, L.P. and Subsidiaries

We have audited the accompanying consolidated balance sheets of American Campus Communities Operating Partnership, L.P. and Subsidiaries (the "Company") as of December 31, 2014 and 2013, and the related consolidated statements of comprehensive income, changes in capital and cash flows for each of the three years in the period ended December 31, 2014. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of American Campus Communities Operating Partnership, L.P. and Subsidiaries at December 31, 2014 and 2013, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 to the consolidated financial statements, the Company changed its method for reporting discontinued operations effective January 1, 2014.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), American Campus Communities Operating Partnership, L.P. and Subsidiaries' internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 26, 2015 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of American Campus Communities, Inc. and Subsidiaries

We have audited American Campus Communities, Inc. and Subsidiaries' (the "Company") internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria).

American Campus Communities, Inc. and Subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, American Campus Communities, Inc. and Subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of American Campus Communities, Inc. and Subsidiaries as of December 31, 2014 and 2013, and the related consolidated statements of comprehensive income, changes in equity, and cash flows for each of the three years in the period ended December 31, 2014 of American Campus Communities, Inc. and Subsidiaries and our report dated February 26, 2015 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Partners of American Campus Communities Operating Partnership, L.P. and Subsidiaries

We have audited American Campus Communities Operating Partnership, L.P. and Subsidiaries' (the "Company") internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). American Campus Communities Operating Partnership, L.P. and Subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, American Campus Communities Operating Partnership, L.P. and Subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of American Campus Communities Operating Partnership, L.P. and Subsidiaries as of December 31, 2014 and 2013, and the related consolidated statements of comprehensive income, changes in capital, and cash flows for each of the three years in the period ended December 31, 2014 of American Campus Communities Operating Partnership, L.P. and Subsidiaries and our report dated February 26, 2015 expressed an unqualified opinion thereon.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Description of Business

American Campus Communities, Inc. (“ACC”) is a real estate investment trust (“REIT”) that commenced operations effective with the completion of an initial public offering (“IPO”) on August 17, 2004. Through ACC’s controlling interest in American Campus Communities Operating Partnership L.P. (“ACCOP”), ACC is one of the largest owners, managers and developers of high quality student housing properties in the United States in terms of beds owned and under management. ACC is a fully integrated, self-managed and self-administered equity REIT with expertise in the acquisition, design, financing, development, construction management, leasing and management of student housing properties. ACC’s common stock is publicly traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “ACC.”

The general partner of ACCOP is American Campus Communities Holdings, LLC (“ACC Holdings”), an entity that is wholly-owned by ACC. As of December 31, 2014, ACC Holdings held an ownership interest in ACCOP of less than 1%. The limited partners of ACCOP are ACC and other limited partners consisting of current and former members of management and nonaffiliated third parties. As of December 31, 2014, ACC owned an approximate 98.8% limited partnership interest in ACCOP. As the sole member of the general partner of ACCOP, ACC has exclusive control of ACCOP’s day-to-day management. Management operates ACC and ACCOP as one business. The management of ACC consists of the same members as the management of ACCOP. ACC consolidates ACCOP for financial reporting purposes, and ACC does not have significant assets other than its investment in ACCOP. Therefore, the assets and liabilities of ACC and ACCOP are the same on their respective financial statements. References to the “Company,” “we,” “us” or “our” mean collectively ACC, ACCOP and those entities/subsidiaries owned or controlled by ACC and/or ACCOP. References to the “Operating Partnership” mean collectively ACCOP and those entities/subsidiaries owned or controlled by ACCOP. Unless otherwise indicated, the accompanying Notes to the Consolidated Financial Statements apply to both the Company and the Operating Partnership.

As of December 31, 2014, our property portfolio contained 169 properties with approximately 103,700 beds in approximately 33,700 apartment units. Our property portfolio consisted of 145 owned off-campus student housing properties that are in close proximity to colleges and universities, 19 American Campus Equity (“ACE®”) properties operated under ground/facility leases with nine university systems and five on-campus participating properties operated under ground/facility leases with the related university systems. Of the 169 properties, six were under development as of December 31, 2014, and when completed will consist of a total of approximately 4,000 beds in approximately 1,100 units. Our communities contain modern housing units and are supported by a resident assistant system and other student-oriented programming, with many offering resort-style amenities.

Through one of ACC’s taxable REIT subsidiaries (“TRSs”), we also provide construction management and development services, primarily for student housing properties owned by colleges and universities, charitable foundations, and others. As of December 31, 2014, also through one of ACC’s TRSs, we provided third-party management and leasing services for 35 properties that represented approximately 27,000 beds in approximately 10,600 units. Third-party management and leasing services are typically provided pursuant to management contracts that have initial terms that range from one to five years. As of December 31, 2014, our total owned and third-party managed portfolio included 204 properties with approximately 130,700 beds in approximately 44,300 units.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements, presented in U.S. dollars, are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as of the date of the financial statements, and revenue and expenses during the reporting periods. Our actual results could differ from those estimates and assumptions. All material intercompany transactions among consolidated entities have been eliminated. All dollar amounts in the tables herein, except share, per share, unit and per unit amounts, are stated in thousands unless otherwise indicated. Certain prior period amounts have been reclassified to conform to the current period presentation.

Recent Accounting Pronouncements

In January 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2015-01 ("ASU 2015-01") ASU 2015-01 issues final guidance on the FASB's initiative to simplify income statement presentation by eliminating the concept of extraordinary items. Under the guidance an entity will no longer be able to segregate an extraordinary item from the results of operations, separately present an extraordinary item on the income statement, or disclose income taxes or earnings-per-share data applicable to an extraordinary item. The ASU is effective for all entities for reporting periods (including interim periods) beginning after December 15, 2015, and early adoption is permitted. The Company will adopt the guidance effective January 1, 2016 and the guidance is not anticipated to have a material impact on our consolidated financial statements or notes to our consolidated financial statements.

In May 2014, the FASB issued Accounting Standards Update 2014-09 ("ASU 2014-09"), "Revenue From Contracts With Customers (Topic 606)". ASU 2014-09 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The ASU is based on the principle that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to fulfill a contract. Entities have the option of using either a full retrospective or a modified retrospective approach for the adoption of the new standard. ASU 2014-09 is effective for the Company at the beginning of its 2017 fiscal year; early adoption is not permitted. We are currently assessing the impact that this standard will have on our consolidated financial statements.

In April 2014, the FASB issued Accounting Standards Update 2014-08 ("ASU 2014-08"), "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) - Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 changes the threshold for disclosing discontinued operations and the related disclosure requirements, requiring only disposals representing a strategic shift, such as a major line of business, a major geographical area or a major equity investment, to be presented as a discontinued operation. If the disposal does qualify as a discontinued operation under ASU 2014-08, the Company will be required to provide expanded disclosures. The guidance will be applied prospectively to new disposals and new classifications of disposal groups as held for sale after the effective date. ASU 2014-08 is effective for the Company beginning January 1, 2015 with early adoption permitted but only for disposals or classifications as held for sale which have not been reported in financial statements previously issued or available for issuance. While we have elected early adoption for our consolidated financial statements and footnote disclosures and believe future sales of our individual operating properties will no longer qualify as discontinued operations, the sale of Hawks Landing in February 2014 has continued to be presented in discontinued operations as the property was classified as held for sale in our consolidated financial statements as of December 31, 2013.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments in Real Estate

Investments in real estate are recorded at historical cost. Major improvements that extend the life of an asset are capitalized and depreciated over the remaining useful life of the asset. The cost of ordinary repairs and maintenance are charged to expense when incurred. Depreciation and amortization are recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings and improvements	7-40 years
Leasehold interest - on-campus participating properties	25-34 years (shorter of useful life or respective lease term)
Furniture, fixtures and equipment	3-7 years

Project costs directly associated with the development and construction of an owned real estate project, which include interest, property taxes, and amortization of deferred finance costs, are capitalized as construction in progress. Upon completion of the project, costs are transferred into the applicable asset category and depreciation commences. Interest totaling approximately \$8.8 million, \$10.0 million and \$9.8 million was capitalized during the years ended December 31, 2014, 2013 and 2012, respectively. Amortization of deferred financing costs totaling approximately \$-0-, \$-0- and \$0.2 million was capitalized as construction in progress during the years ended December 31, 2014, 2013 and 2012, respectively.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Management assesses whether there has been an impairment in the value of the Company's investments in real estate whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Impairment is recognized when estimated expected future undiscounted cash flows are less than the carrying value of the property, or when it is probable that a property will be sold prior to the end of its estimated useful life, at which time an impairment charge is recognized for any excess of the carrying value of the property over the expected net proceeds from the disposal. The estimation of expected future net cash flows is inherently uncertain and relies on assumptions regarding current and future economics and market conditions. If such conditions change, then an adjustment to the carrying value of the Company's long-lived assets could occur in the future period in which the conditions change. To the extent that a property is impaired, the excess of the carrying amount of the property over its estimated fair value is charged to earnings. The Company believes that there were no impairments of the carrying values of its investments in real estate as of December 31, 2014.

The Company allocates the purchase price of acquired properties to net tangible and identified intangible assets based on relative fair values. Fair value estimates are based on information obtained from a number of sources, including independent appraisals that may be obtained in connection with the acquisition or financing of the respective property, our own analysis of recently acquired and existing comparable properties in our portfolio, and other market data. Information obtained about each property as a result of due diligence, marketing and leasing activities is also considered. The value allocated to land is generally based on the actual purchase price adjusted to fair value (as necessary) if acquired separately, or market research/comparables if acquired as part of an existing operating property. The value allocated to building is based on the fair value determined on an "as-if vacant" basis, which is estimated using an income, or discounted cash flow, approach that relies upon internally determined assumptions that we believe are consistent with current market conditions for similar properties. The value allocated to furniture, fixtures, and equipment is based on an estimate of the fair value of the appliances and fixtures inside the units. We have determined these estimates to have been primarily based upon unobservable inputs and therefore are considered to be Level 3 inputs within the fair value hierarchy.

We record the acquisition of undeveloped land parcels that do not meet the accounting criteria to be accounted for as business combinations at the purchase price paid and capitalize the associated acquisition costs.

Long-Lived Assets—Held for Sale

Long-lived assets to be disposed of are classified as held for sale in the period in which all of the following criteria are met:

- a. Management, having the authority to approve the action, commits to a plan to sell the asset.
- b. The asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets.
- c. An active program to locate a buyer and other actions required to complete the plan to sell the asset have been initiated.
- d. The sale of the asset is probable, and transfer of the asset is expected to qualify for recognition as a completed sale, within one year.
- e. The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value.

f. Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Concurrent with this classification, the asset is recorded at the lower of cost or fair value less estimated selling costs, and depreciation ceases. As discussed in more detail in Note 6, prior to the sale of a wholly-owned property in September 2014, the Company reduced the property's carrying amount to its estimated fair value less estimated selling costs which resulted in an impairment charge.

Owned On-Campus Properties

Under its ACE program, the Company, as lessee, has entered into ground/facility lease agreements with nine university systems to finance, construct, and manage 19 student housing properties. Two properties were under construction as of December 31, 2014 with one scheduled to open for occupancy in Fall 2015 and one in Fall 2016. The terms of the leases, including extension options,

F-14

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

range from 30 to 85 years, and the lessor has title to the land and generally any improvements placed thereon. The Company's involvement in construction requires the lessor's post construction ownership of the improvements to be treated as a sale with a subsequent leaseback by the Company. However, these sale-leaseback transactions do not qualify for sale-leaseback accounting because of the Company's continuing involvement in the constructed assets. As a result of the Company's continuing involvement, these leases are accounted for by the deposit method, in which the assets subject to the ground/facility leases are reflected at historical cost, less amortization, and the financing obligations are reflected at the terms of the underlying financing.

On-Campus Participating Properties

The Company has entered into ground and facility leases with three university systems and colleges to finance, construct, and manage five on-campus student housing facilities. Under the terms of the leases, the lessor has title to the land and any improvements placed thereon. With the exception of the Company's lease with West Virginia University, each lease terminates upon final repayment of the construction related financing, the amortization period of which is contractually stipulated. The Company's lease with West Virginia University has an initial term of 40 years with two 10-year extensions at the Company's option. The Company's involvement in construction requires the lessor's post construction ownership of the improvements to be treated as a sale with a subsequent leaseback by the Company. The sale-leaseback transaction has been accounted for as a financing, and as a result, any fee earned during construction is deferred and recognized over the term of the lease. The resulting financing obligation is reflected at the terms of the underlying financing, i.e., interest is accrued at the contractual rates and principal reduces in accordance with the contractual principal repayment schedules.

The entities that own the on-campus participating properties are determined to be Variable Interest Entities ("VIEs"), with the Company being the primary beneficiary. As such, the Company consolidates these properties for financial reporting purposes.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. The Company maintains cash balances in various banks. At times the Company's balances may exceed the amount insured by the FDIC. As the Company only uses money-centered financial institutions, the Company does not believe it is exposed to any significant credit risk related to its cash and cash equivalents.

Restricted Cash

Restricted cash consists of funds held in trust and invested in low risk investments, generally consisting of government backed securities, as permitted by the indentures of trusts, which were established in connection with three bond issues. Additionally, restricted cash includes escrow accounts held by lenders and resident security deposits, as required by law in certain states. Restricted cash also consists of escrow deposits made in connection with potential property acquisitions and development opportunities. These escrow deposits are invested in interest-bearing accounts at federally-insured banks. Realized and unrealized gains and losses are not material for the periods presented.

Loans Receivable

Loans held for investment are intended to be held to maturity and, accordingly, are carried at cost, net of unamortized loan purchase discounts, and net of an allowance for loan losses when such loan is deemed to be impaired. Loan purchase discounts are amortized over the term of the loan. The Company considers a loan impaired when, based upon current information and events, it is probable that it will be unable to collect all amounts due for both principal and interest according to the contractual terms of the loan agreement. Management's estimate of the collectability of principal and interest payments under the company's loans receivable from CaPFA Capital Corp. 2000F ("CaPFA"), which mature in December 2040 and carry a balance of approximately \$54.3 million as of December 31, 2014, are highly dependent on the future operating performance of the properties securing the loans. As future economic conditions and/or market conditions at the properties change, management will continue to evaluate the collectability of such amounts. The Company believes there were no impairments of the carrying value of its loans receivable as of December 31, 2014. Loans receivable are included in other assets on the accompanying consolidated balance sheets.

Intangible Assets

A portion of the purchase price of acquired properties is allocated to the value of in-place leases for both student and commercial tenants, which is based on the difference between (i) the property valued with existing in-place leases adjusted to market rental

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

rates and (ii) the property valued “as-if” vacant. As lease terms for student leases are typically one year or less, rates on in-place leases generally approximate market rental rates. Factors considered in the valuation of in-place leases include an estimate of the carrying costs during the expected lease-up period considering current market conditions, nature of the tenancy, and costs to execute similar leases. Carrying costs include estimates of lost rentals at market rates during the expected lease-up period, as well as marketing and other operating expenses. The value of in-place leases is amortized over the remaining initial term of the respective leases. The purchase price of property acquisitions is not expected to be allocated to student tenant relationships, considering the terms of the leases and the expected levels of renewals.

In connection with the property acquisitions discussed in Note 5 herein, the Company capitalized approximately \$0.9 million, \$3.2 million and \$18.6 million for the years December 31, 2014, 2013 and 2012, respectively, related to management’s estimate of the fair value of in-place leases assumed. Amortization expense was approximately \$2.4 million, \$13.7 million and \$6.8 million for the years ended December 31, 2014, 2013 and 2012, respectively. Accumulated amortization at December 31, 2014 and 2013 was approximately \$27.9 million and \$25.5 million, respectively. The value of in-place leases, net of amortization, is included in other assets on the accompanying consolidated balance sheets and the amortization of in-place leases is included in depreciation and amortization expense in the accompanying consolidated statements of comprehensive income. See Note 5 herein for an expanded discussion of the property acquisitions completed during 2014, 2013 and 2012.

For acquired properties subject to an in-place property tax incentive arrangement, a portion of the purchase price is allocated to the present value of expected future property tax savings over the projected incentive arrangement period. Unamortized in-place property tax incentive arrangements as of December 31, 2014 and 2013 were approximately \$36.7 million and \$37.2 million, respectively, and are included in other assets on the accompanying consolidated balance sheets. Amortization of in-place property tax incentive arrangements is included in wholly-owned properties operating expense in the accompanying consolidated statements of comprehensive income. As of December 31, 2014, the remaining weighted average tax incentive arrangement period was 23.9 years.

Deferred Financing Costs

The Company defers financing costs and amortizes the costs over the terms of the related debt using the effective interest method. Upon repayment of or in conjunction with a material change in the terms of the underlying debt agreement, any unamortized costs are charged to earnings. Deferred financing costs at December 31, 2014 and 2013 were approximately \$39.5 million and \$37.8 million, respectively, and accumulated amortization at December 31, 2014 and 2013 was approximately \$16.9 million and \$14.2 million, respectively. Deferred financing costs, net of amortization, are included in other assets on the accompanying consolidated balance sheets.

Joint Ventures

The Company holds interests in both consolidated and unconsolidated joint ventures. The Company consolidates joint ventures when it exhibits financial or operational control, which is determined using accounting standards related to the consolidation of joint ventures and VIEs. For joint ventures that are defined as VIEs, the primary beneficiary consolidates the entity. The Company considers itself to be the primary beneficiary of a VIE when it has the power to direct the activities that most significantly impact the performance of the VIE, such as management of day-to-day operations, preparing and approving operating and capital budgets, and encumbering or selling the related properties. In instances where the Company is not the primary beneficiary, it does not consolidate the joint venture for financial reporting purposes.

For joint ventures that are not defined as VIEs, management first considers whether the Company is the general partner or a limited partner (or the equivalent in such investments which are not structured as partnerships). The Company consolidates joint ventures where it is the general partner and the limited partners in such investments do not have rights which would preclude control and, therefore, consolidation for financial reporting purposes. For joint ventures where the Company is the general partner, but does not control the joint venture as the other partners hold substantive participating rights, the Company uses the equity method of accounting. For joint ventures where the Company is a limited partner, management considers factors such as ownership interest, voting control, authority to make decisions, and contractual and substantive participating rights of the partners to determine if the presumption that the general partner controls the entity is overcome. In instances where these factors indicate the Company controls the joint venture, the Company consolidates the joint venture; otherwise it uses the equity method of accounting.

 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Mortgage Debt - Premiums and Discounts

Mortgage debt premiums and discounts represent fair value adjustments to account for the difference between the stated rates and market rates of mortgage debt assumed in connection with the Company's property acquisitions. The mortgage debt premiums and discounts are amortized to interest expense over the term of the related mortgage loans using the effective-interest method. The amortization of mortgage debt premiums and discounts resulted in a net decrease to interest expense of approximately \$12.9 million, \$14.0 million and \$3.2 million for the years ended December 31, 2014, 2013 and 2012, respectively. As of December 31, 2014 and 2013, net unamortized mortgage debt premiums were approximately \$60.6 million and \$74.6 million, respectively, and net unamortized mortgage debt discounts were approximately \$0.9 million and \$2.0 million, respectively. Mortgage debt premiums and discounts are included in secured mortgage, construction and bond debt on the accompanying consolidated balance sheets and amortization of mortgage debt premiums and discounts is included in interest expense on the accompanying consolidated statements of comprehensive income.

Unsecured Notes - Original Issue Discount

In April 2013 and again in June 2014, the Company issued \$400 million of senior unsecured notes (see Note 11) at 99.659 percent and 99.861 percent of par value, respectively, and recorded an original issue discount of approximately \$1.4 million and \$0.6 million, respectively. The total unamortized original issue discount was approximately \$1.7 million and \$1.3 million as of December 31, 2014 and 2013, respectively, and is included in unsecured notes on the accompanying consolidated balance sheets. Amortization of the original issue discounts of approximately \$0.1 million for both of the years ended December 31, 2014 and 2013, and is included in interest expense on the accompanying consolidated statements of comprehensive income.

Rental Revenues and Related Receivables

Students are required to execute lease contracts with payment schedules that vary from single to monthly payments. Receivables are recorded when billed, revenues and related lease incentives are recognized on a straight-line basis over the term of the contracts, and balances are considered past due when payment is not received on the contractual due date. The Company generally requires each executed contract to be accompanied by a signed parental guaranty, and in certain cases a refundable security deposit. Security deposits are refundable, net of any outstanding charges, upon expiration of the underlying contract.

Allowances for receivables are established when management determines that collection of such receivables are doubtful. Management's determination of the adequacy of the allowances is based primarily on an analysis of the aging of receivables, historical bad debts, and current economic trends. When management has determined receivables to be uncollectible, which is typically after two years, they are removed as an asset with a corresponding reduction in the allowance for doubtful accounts.

The allowance for doubtful accounts is summarized as follows:

	Balance, Beginning of Period	Charged to Expense	Write-Offs	Balance, End of Period
Year ended December 31, 2012	\$9,496	\$6,472	\$(5,366)) \$10,602
Year ended December 31, 2013	\$10,602	\$9,871	\$(4,547)) \$15,926
Year ended December 31, 2014	\$15,926	\$10,894	\$(7,109)) \$19,711

Tenant Reimbursements

Reimbursements from tenants, consisting of amounts due from tenants for utilities, are recognized as revenue in the period the recoverable costs are incurred. Tenant reimbursements are recognized and recorded on a gross basis, as we are generally the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier, and have credit risk.

Third-Party Development Services Revenue and Costs

Development revenues are generally recognized based on a proportional performance method based on contract deliverables, while construction revenues are recognized using the percentage of completion method, as determined by construction costs incurred relative to total estimated construction costs. Costs associated with such projects are deferred and recognized in relation to the revenues earned on executed contracts. For projects where the Company's fee is based on a fixed price, any cost overruns incurred

F-17

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

during construction, as compared to the original budget, will reduce the net fee generated on those projects. Incentive fees are generally recognized when the project is complete and performance has been agreed upon by all parties, or when performance has been verified by an independent third-party. The Company also evaluates the collectability of fee income and expense reimbursements generated through the provision of development and construction management services based upon the individual facts and circumstances, including the contractual right to receive such amounts in accordance with the terms of the various projects, and reserves any amounts that are deemed to be uncollectible.

Pre-development expenditures such as architectural fees, permits and deposits associated with the pursuit of third-party and owned development projects are expensed as incurred, until such time that management believes it is probable that the contract will be executed and/or construction will commence. Because the Company frequently incurs these pre-development expenditures before a financing commitment and/or required permits and authorizations have been obtained, the Company bears the risk of loss of these pre-development expenditures if financing cannot ultimately be arranged on acceptable terms or the Company is unable to successfully obtain the required permits and authorizations. As such, management evaluates the status of third-party and owned projects that have not yet commenced construction on a periodic basis and expenses any deferred costs related to projects whose current status indicates the commencement of construction is unlikely and/or the costs may not provide future value to the Company in the form of revenues. Such write-offs are included in third-party development and management services expenses (in the case of third-party development projects) or general and administrative expenses (in the case of owned development projects) on the accompanying consolidated statements of comprehensive income. As of December 31, 2014, the Company has deferred approximately \$2.5 million in pre-development costs related to third-party and owned development projects that have not yet commenced construction. Such costs are included in other assets on the accompanying consolidated balance sheets.

Third-Party Management Services Revenue

Management fees are recognized when earned in accordance with each management contract. Incentive management fees are recognized when the incentive criteria have been met. The Company evaluates the collectability of revenue earned from third-party management contracts and reserves any amounts deemed to be uncollectible based on the individual facts and circumstances of the projects and associated contracts.

Advertising Costs

Advertising costs are expensed during the period incurred, or as the advertising takes place, depending on the nature and term of the specific advertising arrangements. Advertising expense approximated \$14.2 million, \$18.0 million and \$10.8 million for the years ended December 31, 2014, 2013 and 2012, respectively.

Derivative Instruments and Hedging Activities

The Company records all derivative financial instruments on the balance sheet at fair value. Changes in fair value are recognized either in earnings or as other comprehensive income, depending on whether the derivative has been designated as a fair value or cash flow hedge and whether it qualifies as part of a hedging relationship, the nature of the exposure being hedged, and how effective the derivative is at offsetting movements in underlying exposure. The Company discontinues hedge accounting when: (i) it determines that the derivative is no longer effective in offsetting changes in the fair value or cash flows of a hedged item; (ii) the derivative expires or is sold, terminated, or exercised; (iii) it is no longer probable that the forecasted transaction will occur; or (iv) management determines that designating

the derivative as a hedging instrument is no longer appropriate. In all situations in which hedge accounting is discontinued and the derivative remains outstanding, the Company will carry the derivative at its fair value on the balance sheet, recognizing changes in the fair value in current-period earnings. The Company uses interest rate swaps to effectively convert a portion of its floating rate debt to fixed rate, thus reducing the impact of rising interest rates on interest payments. These instruments are designated as cash flow hedges and the interest differential to be paid or received is accrued as interest expense. The Company's counter-parties are major financial institutions. See Note 14 for an expanded discussion on derivative instruments and hedging activities.

Common Stock Issuances and Costs

Specific incremental costs directly attributable to the Company's equity offerings are deferred and charged against the gross proceeds of the offering. As such, underwriting commissions and other common stock issuance costs are reflected as a reduction of additional paid in capital. See Note 12 for an expanded discussion on common stock issuances and costs.

 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Share-Based Compensation

Compensation expense associated with share-based awards is recognized in our consolidated statements of comprehensive income based on the grant-date fair values. Compensation expense is recognized over the period during which the employee is required to provide service in exchange for the award, which is generally the vesting period.

Income Taxes

The Company has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the "Code"). To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its adjusted taxable income to its stockholders. As a REIT, the Company will generally not be subject to corporate level federal income tax on taxable income it currently distributes to its stockholders. If the Company fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for the subsequent four taxable years. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local income and excise taxes on its income and property, and to federal income and excise taxes on its undistributed income.

The Company owns two TRSs, one of which manages the Company's non-REIT activities and each is subject to federal, state and local income taxes.

3. Earnings Per Share

Earnings per Share –Company

Basic earnings per share is computed using net income attributable to common shareholders and the weighted average number of shares of the Company's common stock outstanding during the period. Diluted earnings per share reflect common shares issuable from the assumed conversion of OP Units and common share awards granted. Only those items having a dilutive impact on basic earnings per share are included in diluted earnings per share.

The following potentially dilutive securities were outstanding for the years ended December 31, 2014, 2013 and 2012, but were not included in the computation of diluted earnings per share because the effects of their inclusion would be anti-dilutive.

	Year Ended December 31,		
	2014	2013	2012
Common OP Units (Note 9)	1,213,509	1,158,892	951,891
Preferred OP Units (Note 9)	111,279	113,721	114,128
Total potentially dilutive securities	1,324,788	1,272,613	1,066,019

Net income attributable to common unitholders	\$0.58	\$0.98	\$0.65
Distributions declared per common unit	\$1.50	\$1.42	\$1.35

4. Income Taxes

As mentioned in Note 2, the Company qualifies as a REIT under the Code. As a REIT, the Company is not subject to federal income tax as long as it distributes at least 90% of its taxable income to its shareholders each year. Therefore,

no provision for federal income taxes for the REIT has been included in the accompanying consolidated financial statements. If the Company fails to qualify as a REIT, the Company will be subject to federal income tax (including any applicable alternative minimum tax) on its taxable income and to federal income and excise taxes on its undistributed income. In addition, ACCOP is a flow-through entity and is not subject to federal income taxes at the entity level. Historically, the Company has incurred only state and local income, franchise and margin taxes.

The Company's TRSs are subject to federal, state, and local income taxes. As such, deferred income taxes result from temporary differences between the carrying amounts of assets and liabilities of the TRSs for financial reporting purposes and the amounts

F-21

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

used for income tax purposes. Deferred tax assets and liabilities are measured using enacted tax rates in effect in the years in which those temporary differences are expected to reverse. Significant components of the deferred tax assets and liabilities of the TRSs are as follows:

	December 31,	
	2014	2013
Deferred tax assets:		
Fixed and intangible assets	\$3,283	\$3,461
Net operating loss carryforwards	6,552	5,786
Prepaid and deferred income	2,265	2,437
Bad debt reserves	687	716

Deferred tax assets, net of valuation allowance	241	283
Deferred tax liability:		
Deferred financing costs	241	283
Net deferred tax liabilities	\$—	\$—

Significant components of the Company's income tax provision are as follows:

	Year Ended December 31,		
	2014	2013	2012
Current:			
Federal	\$—	\$—	\$—
State	(1,308) (1,020) (725
Deferred:			
Federal	—	—	—
State	—	—	—
Total provision -- continuing operations	\$(1,308) \$(1,020) \$(725

TRS earnings subject to tax consisted of losses of approximately \$3.2 million, \$4.4 million and \$1.1 million for the years ended December 31, 2014, 2013 and 2012, respectively. The reconciliation of income tax attributable to continuing operations for the TRSs computed at the U.S. statutory rate to income tax provision is as follows:

	Year Ended December 31,		
	2014	2013	2012
Tax benefit at U.S. statutory rates on TRS income subject to tax	\$1,928	\$2,060	\$60
State income tax, net of federal income tax benefit	71	76	—
Effect of permanent differences and other	(72) (76) (46
Increase in valuation allowance	(1,927) (2,060) (14
TRS income tax provision	\$—	\$—	\$—

At December 31, 2014, the TRSs had net operating loss carryforwards (“NOLs”) of approximately \$21.1 million for income tax purposes that begin to expire in 2026. These NOLs may be used to offset future taxable income generated by each of the respective TRSs. Due to the various limitations to which the use of NOLs are subject, the Company has applied a valuation allowance to the NOLs given the likelihood that the NOLs will expire unused. Of the NOLs, approximately \$3.1 million may be credited directly to additional paid in capital should subsequent tax benefits be recognized. The Company and its subsidiaries file income

F-22

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

tax returns in the U.S. federal jurisdiction and various states' jurisdictions as required and, as of December 31, 2014, the 2013, 2012 and 2011 calendar tax years are subject to examination by the tax authorities.

The Company had no material unrecognized tax benefits for the years ended December 31, 2014, 2013 or 2012, and as of December 31, 2014, the Company does not expect to record any material unrecognized tax benefits. Because no material unrecognized tax benefits have been recorded, no related interest or penalties have been calculated.

A schedule of per share distributions the Company paid and reported to its shareholders, which is unaudited, is set forth in the following table:

Tax Treatment of Distributions:	Year Ended December 31,		
	2014	2013	2012
Ordinary income	\$0.9016	\$0.7990	\$0.8664
Long-term capital gain ⁽¹⁾	0.0107	0.5229	0.0388
Return of capital	0.5877	0.0956	0.4448
Total per common share outstanding	\$1.5000	\$1.4175	\$1.3500

⁽¹⁾ Unrecaptured Sec. 1250 gains of \$0.0248, \$0.2189 and \$0.0360 were reported for the years ended December 31, 2014, 2013 and 2012, respectively.

5. Property Acquisitions

In October 2014, the Company acquired The Standard, a 190-unit, 610-bed wholly owned property located near the University of Georgia campus and in January 2014, the Company acquired the Boulder Outlook Hotel located near the University of Colorado campus. The hotel was operated by the seller until the fourth quarter 2014, at which point the Company began to abate and demolish the existing structure. Construction on a new 400-bed student housing facility is expected to commence in March 2015 and is scheduled to open for occupancy in August 2016. The total consideration for these two acquisitions was approximately \$75.1 million.

Since their respective acquisition dates, the acquired properties discussed above contributed a combined \$3.8 million of revenues for the year ended December 31, 2014. These properties had combined net income of \$0.3 million for the year ended December 31, 2014, which includes \$0.8 million of acquisition-related costs such as broker fees, due diligence costs and legal and accounting fees that are included in wholly-owned properties operating expense on the accompanying consolidated statements of comprehensive income.

During 2013, the Company acquired six properties and an additional phase at an existing property comprised of 3,725 beds located in various markets throughout the country for approximately \$322.2 million.

The following table summarizes the fair values of the assets acquired and liabilities assumed from the properties discussed above:

	2014	2013
Assets acquired:		
Land	\$13,469	\$47,851
Buildings and improvements	54,163	243,498
Furniture, fixtures and equipment	3,637	9,694
Intangible and other assets	3,796	30,067
Total assets acquired	\$75,065	\$331,110

Liabilities assumed:

Mortgage debt	\$—	\$70,000	(1)
Other liabilities	—	8,927	
Total liabilities assumed:	\$—	\$78,927	
Net assets acquired	\$75,065	\$252,183	

F-23

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Excludes \$37.2 million of secured debt associated with a New Markets Tax Credit (“NMTC”) structure inherited from the seller of Cardinal Towne. The net difference between the mortgage debt assumed and a \$28.3 million loan receivable acquired in connection with the acquisition of Cardinal Towne is reflected in other liabilities in the preceding table.

During 2012, the Company acquired 40 properties comprised of 23,075 beds located in various markets throughout the country for approximately \$1,774.8 million.

The acquired property’s results of operations have been included in the accompanying consolidated statements of comprehensive income since the respective acquisition closing dates. The following pro forma information for the years ended December 31, 2014, 2013 and 2012, presents consolidated financial information for the Company as if the property acquisitions discussed above had occurred at the beginning of the earliest period presented. The unaudited pro forma information is provided for informational purposes only and is not indicative of results that would have occurred or which may occur in the future:

	Year Ended December 31,		
	2014	2013	2012
Total revenues	\$733,915	\$678,333	\$608,691
Net income attributable to common shareholders	\$62,839	\$111,535	\$89,642
Net income per share attributable to common shareholders, as adjusted - basic	\$0.59	\$1.06	\$0.85
Net income per share attributable to common shareholders, as adjusted - diluted	\$0.58	\$1.05	\$0.84

6. Property Dispositions and Discontinued Operations

Dispositions Subject to New Guidance for Discontinued Operations

As discussed in more detail in Note 2, due to a recent change in accounting guidance, the following property dispositions along with future disposals of individual operating properties or portfolios that do not represent a strategic shift in the Company’s operations will no longer qualify as discontinued operations and will be classified within income from continuing operations on the accompanying consolidated statements of comprehensive income for all periods presented.

The following seven wholly-owned properties were classified as held for sale on the accompanying consolidated balance sheet as of December 31, 2014, all of which were sold in January 2015 (see Note 20):

Property	Location	Primary University Served	Units	Beds
The Highlands	Reno, NV	University of Nevada at Reno	216	732
The View	Lincoln, NE	University of Nebraska	157	590
Chapel Ridge	Chapel Hill, NC	University of North Carolina	180	544
Chapel View	Chapel Hill, NC	University of North Carolina	224	358
The Village at Alafaya Club	Orlando, FL	University of Central Florida	228	839
University Place	Charlottesville, VA	University of Virginia	144	528
University Greens	Norman, OK	University of Oklahoma	156	516

Concurrent with this classification, these properties were recorded at the lower of cost or fair value less estimated selling costs.

In October 2014, the Company sold one building containing 20 beds at Campustown Rentals in Champaign, Illinois, and in September 2014 the Company sold The Enclave, a 480-bed wholly-owned property located near the campus of Bowling Green State University. The combined sales price was approximately \$8.2 million, resulting in net proceeds of approximately \$7.3 million. Prior to the sale of The Enclave, the Company recorded the property at the lower of cost or fair value less estimated selling costs, resulting in an impairment charge of approximately \$2.4 million. The properties' operations along with the impairment charge and resulting loss on disposition of approximately \$0.2 million are included within income from continuing operations on the accompanying consolidated statements of comprehensive income for the year ended December 31, 2014.

F-24

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In addition, the Company disposed of two land parcels in 2014 for approximately \$1.7 million, resulting in net proceeds of approximately \$1.5 million and a loss on disposition of approximately \$0.2 million, which is included within income from continuing operations on the accompanying consolidated statements of comprehensive income for the year ended December 31, 2014.

Dispositions Not Subject to New Guidance for Discontinued Operations

As discussed in more detail in Note 2, the operations for any properties sold during 2012 and 2013 along with any properties sold in 2014 that were classified as held for sale as of December 31, 2013, are not subject to the new accounting guidance for discontinued operations and have been presented in discontinued operations in the accompanying consolidated statements of comprehensive income.

In February 2014, the Company sold Hawks Landing, a 122-unit, 484-bed owned off-campus property located near the campus of Miami University of Ohio for a sales price of approximately \$17.3 million, including the assumption of an existing \$15.6 million mortgage loan by the purchaser, resulting in net proceeds of approximately \$1.3 million. Because Hawks Landing was classified as held for sale as of December 31, 2013, the resulting gain on disposition of approximately \$2.8 million is included in discontinued operations on the accompanying consolidated statements of comprehensive income for the year ended December 31, 2014.

In 2013, the Company sold six wholly-owned properties comprised of 4,079 beds for a combined sales price of approximately \$184.2 million resulting in total proceeds of approximately \$180.5 million. The combined gain on these dispositions of approximately \$55.3 million is included in discontinued operations on the accompanying consolidated statements of comprehensive income for the year ended December 31, 2013.

In 2012, the Company sold three wholly-owned properties comprised of 1,584 beds for a combined sales price of approximately \$54.1 million resulting in total proceeds of approximately \$42.3 million. The combined gain on these dispositions of approximately \$4.3 million is included in discontinued operations on the accompanying consolidated statements of comprehensive income for the year ended December 31, 2012.

The properties discussed above are included in the wholly-owned properties segment (see Note 18). The following is a summary of (loss) income attributable to discontinued operations for the periods presented:

	Year Ended December 31,		
	2014	2013	2012
Total revenues	\$279	\$16,191	\$30,144
Total operating expenses	(239)) (7,220) (12,641
Depreciation and amortization	—) (2,487) (5,991
Operating income	40	6,484	11,512
Total nonoperating expenses	(163) (1,660) (2,784
Net (loss) income	\$(123) \$4,824	\$8,728

7. Investments in Wholly-Owned Properties

Wholly-owned properties consisted of the following:

December 31,

Edgar Filing: AMERICAN CAMPUS COMMUNITIES INC - Form 10-K

F-25

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The land balance above includes undeveloped land parcels with book values of approximately \$40.6 million as of
(1) both December 31, 2014 and 2013. Also includes land totaling approximately \$30.2 million and \$39.4 million as of
December 31, 2014 and 2013, respectively, related to properties under development.

Land, buildings and improvements and furniture, fixtures and equipment as of December 31, 2014 include \$4.2
million, \$27.6 million and \$1.9 million, respectively, related to University Walk, a property located in Knoxville,
Tennessee that serves students attending the University of Tennessee. In July 2013, the Company entered into a
purchase and contribution agreement with a private developer whereby the Company was obligated to purchase the
property as long as the developer met certain construction completion deadlines and other closing conditions. The
property opened for operations in August 2014 and the Company purchased the property in February 2015. The
(2) entity was financed with an \$8.8 million mezzanine loan from the Company, a \$19 million construction loan from
a third-party lender and a \$1.5 million equity contribution from the developer. The Company was responsible for
leasing, management, and initial operations of the project while the third-party developer was responsible for
development of the property. The entity that owned University Walk was deemed to be a variable interest entity
("VIE"), and the Company was determined to be the primary beneficiary of the VIE. As such, the assets and
liabilities of the entity owning the property are included in the Company's and the Operating Partnership's
consolidated financial statements.

The balance above excludes the net book value of seven wholly-owned properties classified as held for sale in the
(3) accompanying consolidated balance sheet as of December 31, 2014 (see Note 6). The properties were sold in
January 2015 (see Note 20).

8. On-Campus Participating Properties

The Company is a party to ground/facility lease agreements ("Leases") with three university systems (each, a "Lessor") for
the purpose of developing, constructing, and operating student housing facilities on university campuses. Under the
terms of the Leases, title to the constructed facilities is held by the applicable Lessor and such Lessor receives a de
minimis base rent paid at inception and 50% of defined net cash flows on an annual basis through the term of the
lease. The Leases with the Texas A&M University and University of Houston systems terminate upon the earlier to
occur of the final repayment of the related debt, the amortization period of which is contractually stipulated, or the end
of the lease term. The Lease with West Virginia University has an initial term of 40 years with two 10-year extensions
at the Company's option.

The Company may not sell, assign, convey or transfer its leasehold interest in the West Virginia University student
housing facility. In the event the Company seeks to sell its leasehold interest in the other four facilities, the Leases
provide the applicable Lessor the right of first refusal of a bona fide purchase offer and an option to purchase the
lessee's rights under the applicable Lease. Additionally, as discussed in Note 11, three of the on-campus participating
properties are 100% financed with project-based taxable bonds.

In conjunction with the execution of each Lease, the Company has entered into separate agreements to manage the
related facilities for a fee equal to a percentage of defined gross receipts. The terms of the management agreements are
not contingent upon the continuation of the Leases.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES

On-campus participating properties, net			\$94,128	\$73,456

⁽¹⁾ Consists of three phases placed in service between 1996 and 1998.

⁽²⁾ Consists of two phases placed in service in 2000 and 2003.

⁽³⁾ Consists of two phases placed in service in 2001 and 2005.

This property commenced operations in August 2014. Due to our involvement in the construction of the facility, ⁽⁴⁾ fees paid to the Company/lessee for development and construction management services during the construction period were deferred and amortized to revenue over the lease term.

9. Noncontrolling Interests

Operating Partnership

Partially-owned properties: As of December 31, 2014, the Operating Partnership consolidates three joint ventures that own and operate the University Village at Sweet Home, University Centre and Villas at Chestnut Ridge owned-off campus properties. The portion of net assets attributable to the third-party partners in these joint ventures is classified as “noncontrolling interests - partially owned properties” within capital on the accompanying consolidated balance sheets of the Operating Partnership. Accordingly, the third-party partners’ share of the income or loss of the joint ventures is reported on the consolidated statements of comprehensive income of the Operating Partnership as “net income attributable to noncontrolling interests – partially owned properties.”

As discussed in more detail in Note 7, the Company entered into a purchase and contribution agreement with a private developer whereby the Company was obligated to purchase the property (University Walk) as long as the developer met certain construction completion deadlines and other closing conditions. The \$1.5 million equity contribution from the developer is reflected as noncontrolling interests - partially owned properties within capital on the accompanying consolidated balance sheet of the Operating Partnership as of December 31, 2014.

OP Units: For the portion of OP Units that the Operating Partnership is required, either by contract or securities law, to deliver registered common shares of ACC to the exchanging OP unit holder, or for which the Operating Partnership has the intent or history of exchanging such units for cash, we classify the units as “redeemable limited partners” in the mezzanine section of the consolidated balance sheets of the Operating Partnership. The units classified as such include Series A preferred units as well as common units that are not held by ACC or ACC Holdings. The value of redeemable limited partners on the consolidated balance sheets of the Operating Partnership is reported at the greater of fair value, which is based on the closing market value of the Company's common stock, or historical cost at the end of each reporting period. Changes in the value from period to period are charged to limited partner’s capital on the consolidated statement of changes in capital of the Operating Partnership.

F-27

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Below is a table summarizing the activity of redeemable limited partners for the years ended December 31, 2014 and 2013:

Balance, December 31, 2012	\$57,534	
Net income	1,359	
Distributions	(1,823)
Redeemable limited partner units issued as consideration (see Note 12)	3,451	
Conversion of redeemable limited partner units into shares of ACC common stock	(23)
Adjustments to reflect redeemable limited partner units at fair value	(12,534)
Balance, December 31, 2013	\$47,964	
Net income	913	
Distributions	(1,998)
Conversion of redeemable limited partner units into shares of ACC common stock	(607)
Adjustments to reflect redeemable limited partner units at fair value	8,200	
Balance, December 31, 2014	\$54,472	

During the year ended December 31, 2014, 50,000 common OP units and 2,269 Series A preferred units were converted into an equal number of shares of ACC's common stock and during the year ended December 31, 2013, 1,500 Series A preferred units were converted into an equal number of shares of ACC's common stock. As of December 31, 2014 and 2013, approximately 1.2% and 1.3%, respectively, of the equity interests of the Operating Partnership was held by owners of common OP Units and Series A preferred units not held by ACC or ACC Holdings.

Company

The noncontrolling interests of the Company include the third-party equity interests in partially-owned properties, as discussed above, which are presented as a component of equity in the Company's consolidated balance sheets. The Company's noncontrolling interests also include the redeemable limited partners presented in the consolidated balance sheets of the Operating Partnership, which are referred to as "redeemable noncontrolling interests" in the mezzanine section of the Company's consolidated balance sheets. Noncontrolling interests on the Company's consolidated statements of comprehensive income include the income/loss attributable to third-party equity interests in partially-owned properties, as well as the income/loss attributable to redeemable noncontrolling interests (i.e. OP Units not held by ACC or ACC Holdings.)

10. Investments in Unconsolidated Joint Ventures

As of December 31, 2014, the Company owned a noncontrolling interest in one unconsolidated joint venture that is accounted for utilizing the equity method of accounting. The Company discontinued applying the equity method in regards to its investment in this joint venture as a result of the Company's share of losses exceeding its investment in the joint venture. Because the Company had not guaranteed any obligations of the investee and was not otherwise committed to provide further financial support to the investee, it therefore suspended recording its share of losses once the investment was reduced to zero. The Company also earns a fee for providing management services to this joint venture, which totaled approximately \$1.3 million for the year ended December 31, 2014 and \$1.6 million for each of the years ended December 31, 2013 and 2012, respectively.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

11. Debt

A summary of the Company's outstanding consolidated indebtedness, including unamortized debt premiums and discounts, is as follows:

	December 31, 2014	2013
Debt secured by wholly-owned properties:		
Mortgage loans payable:		
Unpaid principal balance	\$1,094,306	\$1,300,371
Unamortized debt premiums	60,586	74,575
Unamortized debt discounts	(895) (2,021
	1,153,997	1,372,925
Construction loans payable ⁽¹⁾	63,637	44,638
	1,217,634	1,417,563
Debt secured by on-campus participating properties:		
Mortgage loans payable	30,553	31,380
Bonds payable	39,785	42,440
Construction loan payable	43,942	15,833
	114,280	89,653
Total secured mortgage, construction and bond debt	1,331,914	1,507,216
Secured agency facility	—	87,750
Unsecured notes, net of unamortized original issue discount	798,305	398,721
Unsecured revolving credit facility	242,500	150,700
Unsecured term loans	600,000	600,000
Total debt	\$2,972,719	\$2,744,387

(1) Construction loans payable as of December 31, 2014 includes \$19.0 million related to a construction loan that partially financed the development and construction of University Walk, a VIE the Company is including in its consolidated financial statements (see Note 5). The creditor of this construction loan does not have recourse to the assets of the Company.

Mortgage and Construction Loans Payable

Mortgage loans payable generally feature either monthly interest and principal payments or monthly interest-only payments with balloon payments due at maturity. For purposes of classification in the following table, variable rate mortgage loans subject to interest rate swaps are deemed to be fixed rate, due to the Company having effectively fixed the interest rate for the underlying debt instrument. Construction loans payable generally feature monthly payments of interest only during the term of the loan and any accrued interest and outstanding borrowings become due at maturity. Mortgage and construction loans payable, excluding debt premiums and discounts, consisted of the following as of December 31, 2014:

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

	Principal Outstanding		As of December 31, 2014		Number of Properties Encumbered
	December 31, 2014	December 31, 2013	Weighted Average Interest Rate	Weighted Average Years to Maturity

Property dispositions ⁽⁵⁾	(15,600)) —
Balance, December 31, 2014	\$1,184,550	\$107,579

⁽¹⁾ Balance includes unamortized debt premiums and discounts.

⁽²⁾ Represents draws from one construction loan used to finance the development and construction of an on-campus participating property located in Morgantown, West Virginia, which was completed and opened for occupancy in August 2014.

⁽³⁾ Represents draws from one construction loan used to finance the development and construction of University Walk, a VIE the Company includes in its consolidated financial statements. The seller/developer paid off this construction loan with proceeds from the Company's purchase of the property in February 2015 (see Note 20).

- The Company paid off fixed rate mortgage debt secured by the following wholly-owned properties: University Commons, GrandMarc Seven Corners, Campustown Rentals, University Manor, RAMZ Apts on Broad, The Village on Sixth Avenue, The Enclave, Texan West Campus, The Castilian, The Outpost - San Antonio and CityParc at Fry Street.
- (4)
- (5) In February 2014, the Company sold Hawks Landing, an owned off-campus property located near the campus of Miami University of Ohio (see Note 6).

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Bonds Payable

Three of the on-campus participating properties are 100% financed with outstanding project-based taxable bonds. Under the terms of these financings, one of the Company's special purpose subsidiaries publicly issued three series of taxable bonds and loaned the proceeds to three special purpose subsidiaries that each hold a separate leasehold interest. The bonds encumbering the leasehold interests are non-recourse, subject to customary exceptions. Although a default in payment by these special purpose subsidiaries could result in a default under one or more series of bonds, indebtedness of any of these special purpose subsidiaries is not cross-defaulted or cross-collateralized with indebtedness of the Company, the Operating Partnership or other special purpose subsidiaries. Repayment of principal and interest on these bonds is insured by MBIA, Inc. Interest and principal are paid semi-annually and annually, respectively, through maturity. Covenants include, among other items, budgeted and actual debt service coverage ratios. Bonds payable at December 31, 2014 consisted of the following:

Series	Mortgaged Facilities Subject to Leases	Original	Principal December 31, 2014	Weighted Average Rate	Maturity Date	Required Monthly Debt Service
1999	University Village-PVAMU/TAMIU	\$39,270	\$22,870	7.75	% September 2023	\$302
2001	University College-PVAMU	20,995	13,825	7.57	% August 2025	158
2003	University College-PVAMU	4,325	3,090	6.09	% August 2028	28
	Total/weighted average rate	\$64,590	\$39,785	7.56	%	\$488

Unsecured Notes

In June 2014, the Operating Partnership issued an additional \$400 million in senior unsecured notes under its existing shelf registration. These 10-year notes were issued at 99.861 percent of par value with a coupon of 4.125 percent and a yield of 4.142 percent, and are fully and unconditionally guaranteed by the Company. Interest on the notes is payable semi-annually on January 1 and July 1, with the first payment beginning on January 1, 2015. The notes will mature on July 1, 2024. Net proceeds from the sale of the unsecured notes totaled approximately \$395.3 million after deducting the underwriting discount and offering expenses. The underwriting discount and offering expenses were capitalized to deferred financing costs and will be amortized over the term of the unsecured notes. The Company used \$340 million of the offering proceeds to pay down the outstanding balance on its revolving credit facility in full.

In connection with the issuance of unsecured notes discussed above, the Company terminated two forward starting interest rate swap contracts with notional amounts totaling \$200 million, resulting in payments to both counterparties totaling approximately \$4.1 million, which were recorded in accumulated other comprehensive loss and will be amortized to interest expense over the term of the unsecured notes. When including the effect of these interest rate swap terminations, the effective yield on the unsecured notes is 4.269%. Refer to Note 14 for more information on the interest rate swap contracts mentioned above.

The Company also issued \$400 million in senior unsecured notes in April 2013. Interest on the notes is payable semi-annually on April 15 and October 15 and the notes will mature on April 15, 2023. Net proceeds from the sale of the unsecured notes totaled approximately \$394.4 million after deducting the underwriting discount and estimated offering expenses. The Company used \$321 million of the offering proceeds to pay down the outstanding balance on its revolving credit facility in full.

The terms of the unsecured notes include certain financial covenants that require the Operating Partnership to limit the amount of total debt and secured debt as a percentage of total asset value, as defined. In addition, the Operating Partnership must maintain a minimum ratio of unencumbered asset value to unsecured debt, as well as a minimum interest coverage level. As of December 31, 2014, the Company was in compliance with all such covenants.

Unsecured Credit Facility

The Company has an aggregate unsecured credit facility totaling \$1.1 billion which is comprised of two unsecured term loans totaling \$600 million and a \$500 million unsecured revolving credit facility, which may be expanded by up to an additional \$500 million upon the satisfaction of certain conditions. The maturity date of the unsecured revolving credit facility is March 1, 2018, and can be extended for an additional 12 months to March 1, 2019, subject to the satisfaction of certain conditions. The maturity date of the \$350 million term loan facility ("Term Loan I Facility") is January 10, 2017 and can be extended to January 10, 2019 through the exercise of two 12-month extension options, subject to the satisfaction of certain conditions. The maturity date of the \$250 million term loan ("Term Loan II Facility") is March 1, 2019.

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Each loan bears interest at a variable rate, at the Company's option, based upon a base rate or one-, two-, three- or six-month LIBOR, plus, in each case, a spread based upon the Company's investment grade rating from either Moody's Investor Services, Inc. or Standard & Poor's Rating Group. As of December 31, 2014, the Term Loan II Facility bore interest at a variable rate of 1.67% per annum (0.17% + 1.50% spread). The Company has entered into multiple interest rate swap contracts with notional amounts totaling \$350 million that effectively fix the interest rate to a weighted average annual rate of 0.88% on the outstanding balance of the Term Loan I Facility. Including the current spread of 1.50%, the all-in weighted average annual rate on the Term Loan I Facility was 2.38% at December 31, 2014. Refer to Note 14 for more information on the interest rate swap contracts mentioned above. Availability under the revolving credit facility is limited to an "aggregate borrowing base amount" equal to 60% of the value of the Company's unencumbered properties, calculated as set forth in the unsecured credit facility. Additionally, the Company is required to pay a facility fee of 0.25% per annum on the \$500 million revolving credit facility. As of December 31, 2014, the revolving credit facility bore interest at a weighted average annual rate of 1.72% (0.17% + 1.30% spread + 0.25% facility fee), and availability under the revolving credit facility totaled \$257.5 million as of December 31, 2014.

The terms of the unsecured credit facility include certain restrictions and covenants, which limit, among other items, the incurrence of additional indebtedness, liens, and the disposition of assets. The facility contains customary affirmative and negative covenants and also contains financial covenants that, among other things, require the Company to maintain certain minimum ratios of "EBITDA" (earnings before interest, taxes, depreciation and amortization) to fixed charges and total indebtedness. The Company may not pay distributions that exceed a specified percentage of funds from operations, as adjusted, for any four consecutive quarters. The financial covenants also include consolidated net worth and leverage ratio tests. As of December 31, 2014, the Company was in compliance with all such covenants.

Secured Agency Facility

The Company borrowed funds from its \$500 million unsecured revolving credit facility to pay off the outstanding balance on the secured agency facility on the scheduled maturity date of September 1, 2014.

Debt Maturities

The following table summarizes the stated debt maturities and scheduled amortization payments, excluding debt premiums and discounts, for each of the five years subsequent to December 31, 2014 and thereafter:

2015	\$259,378	(1)
2016	199,836	
2017	480,811	
2018	416,607	
2019	263,557	
Thereafter	1,294,534	
	\$2,914,723	

Includes \$19.0 million used to finance the development and construction of University Walk, a VIE the Company (1) includes in its consolidated financial statements. The seller/developer paid off this construction loan with proceeds from the Company's purchase of the property in February 2015 (see Note 20).

Payment of principal and interest were current at December 31, 2014. Certain of the mortgage notes and bonds payable are subject to prepayment penalties.

12. Stockholders' Equity / Partners' Capital

Stockholders' Equity – Company

In March 2013, the Company established a new at-the-market share offering program (the “ATM Equity Program”) through which the Company may issue and sell, from time to time, shares of common stock having an aggregate offering price of up to \$500 million. Actual sales under the program will depend on a variety of factors, including, but not limited to, market conditions, the trading price of the Company’s common stock and determinations of the appropriate sources of funding for the Company.

F-32

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table presents activity under the Company's ATM Equity Program since its inception:

	Year Ended December 31, 2014
Total net proceeds	\$87,977
Commissions paid to sales agents	\$1,340
Weighted average price per share	\$40.48
Shares of common stock sold	2,206,240

The Company did not sell any shares under the ATM Equity Program in 2013. As of December 31, 2014, the Company had approximately \$410.7 million available for issuance under its ATM Equity Program. Refer to Note 20 for a discussion of activity under the Company's ATM Equity Program subsequent to December 31, 2014.

Partners' Capital – Operating Partnership

In connection with the ATM Equity Program discussed above, ACCOP issued a number of common OP units to ACC equivalent to the number of shares issued by ACC.

During the year ended December 31, 2014, 50,000 common OP units and 2,269 Series A preferred units were converted into an equal number of shares of ACC's common stock.

13. Incentive Award Plan

In May 2010, the Company's stockholders approved the American Campus Communities, Inc. 2010 Incentive Award Plan (the "Plan"). The Plan provides for the grant of various stock-based incentive awards to selected employees and directors of the Company and the Company's affiliates. The types of awards that may be granted under the Plan include incentive stock options, nonqualified stock options, restricted stock awards ("RSAs"), restricted stock units ("RSUs"), profits interest units ("PIUs") and other stock-based awards. The Company has reserved a total of 1.7 million shares of the Company's common stock for issuance pursuant to the Plan, subject to certain adjustments for changes in the Company's capital structure, as defined in the Plan. As of December 31, 2014, 1,154,393 shares were available for issuance under the Plan.

Restricted Stock Units

Upon initial appointment to the Board of Directors and reelection to the Board of Directors at each Annual Meeting of Stockholders, each outside member of the Board of Directors is granted RSUs. On the Settlement Date, the Company will deliver to the recipients a number of shares of common stock or cash, as determined by the Compensation Committee of the Board of Directors, equal to the number of RSUs held by the recipients. In addition, recipients of RSUs are entitled to dividend equivalents equal to the cash distributions paid by the Company on one share of common stock for each RSU issued, payable currently or on the Settlement Date, as determined by the Compensation Committee of the Board of Directors.

Upon reelection to the Board of Directors in May 2014, all members of the Company's Board of Directors were granted RSUs in accordance with the Plan. These RSUs were valued at \$95,000 for the Chairman of the Board of Directors and at \$71,500 for all other members. The number of RSUs was determined based on the fair market value of the Company's stock on the date of grant, as defined in the Plan. All awards vested and settled immediately on the date of grant, and the Company delivered shares of common stock and cash, as determined by the Compensation

Committee of the Board of Directors.

F-33

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

A summary of the Company's RSUs under the Plan for the years ended December 31, 2014 and 2013 is presented below:

	Number of RSUs	Weighted-Average Grant Date Fair Value Per RSU
Outstanding at December 31, 2012	—	\$—
Granted	10,265	44.09
Settled in common shares	(4,572) 44.09
Settled in cash	(5,693) 44.09
Outstanding at December 31, 2013	—	\$—
Granted	15,457	38.54
Settled in common shares	(9,027) 38.54
Settled in cash	(6,430) 38.54
Outstanding at December 31, 2014	—	\$—

The Company recognized expense of approximately \$0.6 million, \$0.5 million and \$0.5 million for the years ended December 31, 2014, 2013 and 2012, respectively, reflecting the fair value of the RSUs issued on the date of grant. The weighted-average grant-date fair value for each RSU granted during the year ended December 31, 2012 was \$45.04.

Restricted Stock Awards

The Company awards RSAs to its executive officers and certain employees that generally vest in equal annual installments over a five year period. Unvested awards are forfeited upon the termination of an individual's employment with the Company under specified circumstances. Recipients of RSAs receive dividends, as declared by the Company's Board of Directors, on unvested shares, provided that the recipient continues to be employed by the Company. A summary of the Company's RSAs under the Plan for the years ended December 31, 2014 and 2013 is presented below:

	Number of RSAs	Weighted-Average Grant Date Fair Value Per RSA
Nonvested balance at December 31, 2012	575,668	\$32.40
Granted	232,966	47.64
Vested	(111,533) 29.64
Forfeited ⁽¹⁾	(94,910) 32.15
Nonvested balance at December 31, 2013	602,191	\$38.84
Granted	292,526	34.52
Vested	(124,883) 34.00
Forfeited ⁽¹⁾	(160,320) 36.75
Nonvested balance at December 31, 2014	609,514	\$38.31

⁽¹⁾ Includes shares withheld to satisfy tax obligations upon vesting.

The fair value of RSA's is calculated based on the closing market value of the Company's common stock on the date of grant. The fair value of these awards is amortized to expense over the vesting periods, which amounted to approximately \$6.8 million, \$6.4 million and \$5.3 million for the years ended December 31, 2014, 2013 and 2012,

respectively. The weighted-average grant date fair value for each RSA granted and forfeited during the year ended December 31, 2012 was \$41.37 and \$28.34, respectively.

The total fair value of RSAs vested during the year ended December 31, 2014, was approximately \$7.2 million. Additionally, as of December 31, 2014, the Company had approximately \$17.3 million of total unrecognized compensation cost related to these RSAs, which is expected to be recognized over a remaining weighted-average period of 3.1 years.

Per the provisions of the Plan, an employee becomes retirement eligible when (i) the sum of an employee's full years of service (a minimum of 120 contiguous full months) and the employee's age on the date of termination (a minimum of 50 years of age) equals or exceeds 70 years (hereinafter referred to as the "Rule of 70"); (ii) the employee gives at least six months prior written

F-34

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

notice to the Company of his or her intention to retire; and (iii) the employee enters into a noncompetition agreement and a general release of all claims in a form that is reasonably satisfactory to the Company. As of December 31, 2014, three employees have met the Rule of 70 and a total of 154,690 unvested RSAs are held by such employees. Once the other two conditions of retirement eligibility are met, the shares held by these employees will be subject to accelerated vesting.

14. Derivative Instruments and Hedging Activities

The Company is exposed to certain risk arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company's known or expected cash receipts and its known or expected cash payments principally related to the Company's investments and borrowings.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps and forward starting swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Forward starting swaps are used to protect the Company against adverse fluctuations in interest rates by reducing its exposure to variability in cash flows relating to interest payments on a forecasted issuance of debt. The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in other comprehensive income (outside of earnings) and subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings. Ineffectiveness resulting from the derivative instruments summarized below was immaterial for the years ended December 31, 2014, 2013 and 2012.

The following table summarizes the Company's outstanding interest rate swap contracts as of December 31, 2014:

Hedged Debt Instrument	Effective Date	Maturity Date	Pay Fixed Rate	Receive Floating Rate Index	Current Notional Amount	Fair Value
Cullen Oaks mortgage loan (1)	Feb 18, 2014	Feb 15, 2021	2.275%	LIBOR – 1 month	\$15,198	\$(427)
Cullen Oaks mortgage loan (1)	Feb 18, 2014	Feb 15, 2021	2.275%	LIBOR – 1 month	15,355	(431)
Term Loan I Facility	Feb 2, 2012	Jan 2, 2017	0.8695%	LIBOR – 1 month	125,000	(307)
Term Loan I Facility	Feb 2, 2012	Jan 2, 2017	0.88%	LIBOR – 1 month	100,000	(266)
Term Loan I Facility	Feb 2, 2012	Jan 2, 2017	0.8875%	LIBOR – 1 month	62,500	(177)
Term Loan I Facility	Feb 2, 2012	Jan 2, 2017	0.889%	LIBOR – 1 month	62,500	(178)
Park Point mortgage loan	Nov 1, 2013	Oct 5, 2018	1.545%	LIBOR – 1 month	70,000	(520)

Total	\$450,553	\$(2,306)
-------	-----------	------------

(1) In February 2014, the Company renewed the Cullen Oaks Phase I and Phase II mortgage loans and extended the maturity date to February 15, 2021. The renewed loans bear interest at a rate of LIBOR plus 1.75% and require monthly payments of principal and interest. In connection with these loan renewals, the Company terminated the existing interest rate swap contract scheduled to mature on February 15, 2014, and entered into two new interest rate swap contracts described in the table above. Upon termination, the existing interest rate swap had a negative fair value of approximately \$0.2 million, which the Company settled by structuring the financing into the terms of new interest rate swaps (commonly referred to as a "blend and extend"). As a result, the two new interest rate swaps had a negative fair value of approximately \$0.2 million at inception of the hedging relationship.

In March 2014, the Company entered into two forward starting interest rate swap contracts with notional amounts totaling \$200 million designated to hedge the Company's exposure to increasing interest rates related to interest payments on an anticipated issuance of unsecured notes. As discussed in Note 11, in connection with the issuance of unsecured notes in June 2014, the

F-35

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Company terminated both swap contracts resulting in payments to both counterparties totaling approximately \$4.1 million, which were recorded in accumulated other comprehensive loss and will be amortized to interest expense over the term of the unsecured notes. Amortization of the loss totaled approximately \$0.2 million for the year ended December 31, 2014.

The table below presents the fair value of the Company's derivative financial instruments as well as their classification on the consolidated balance sheets as of December 31, 2014 and 2013:

Description	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	Fair Value as of December 31, 2014	Fair Value as of December 31, 2013	Balance Sheet Location	Fair Value as of December 31, 2014	Fair Value as of December 31, 2013
Interest rate swap contracts	Other assets	\$—	\$31	Other liabilities	\$2,306	\$1,466
Total derivatives designated as hedging instruments		\$—	\$31		\$2,306	\$1,466

15. Fair Value Disclosures

The following table presents information about the Company's financial instruments measured at fair value on a recurring basis as of December 31, 2014 and 2013, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access. Fair values determined by Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices observable for the asset or liability, such as interest rates and yield curves observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

In instances in which the inputs used to measure fair value may fall into different levels of the fair value hierarchy, the level in the fair value hierarchy within which the fair value measurement in its entirety has been determined is based on the lowest level input significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Disclosures concerning financial instruments measured at fair value are as follows:

Fair Value Measurements as of				December 31, 2013			
December 31, 2014				December 31, 2013			
Quoted Prices in Active Markets for Identical Assets and	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total	Quoted Prices in Active Markets for Identical Assets and	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

	Liabilities (Level 1)				Liabilities (Level 1)			
Assets:								
Derivative financial instruments	\$—		\$ —		\$—	\$31	\$ —	\$31
Liabilities:								
Derivative financial instruments	\$—	\$2,306	\$ —	\$2,306	\$—	\$1,466	\$ —	\$1,466
Mezzanine:								
Redeemable noncontrolling interests (Company)/Redeemable limited partners (Operating Partnership)	\$—	\$54,472	\$ —	\$54,472	\$—	\$47,964	\$ —	\$47,964

The Company uses derivative financial instruments, specifically interest rate swaps and forward starting swaps for nontrading purposes. The Company uses interest rate swaps to manage interest rate risk arising from previously unhedged interest payments associated with variable rate debt and forward starting swaps to reduce exposure to variability in cash flows relating to interest payments on forecasted issuances of debt. Through December 31, 2014, derivative financial instruments were designated and qualified as cash flow hedges. Derivative contracts with positive net fair values inclusive of net accrued interest receipts or payments are recorded in other assets. Derivative contracts with negative net fair values, inclusive of net accrued interest payments or receipts, are recorded in other liabilities. The valuation of these instruments is determined using widely accepted valuation

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves.

The Company incorporates credit valuation adjustments to appropriately reflect its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds and guarantees.

Although the Company has determined the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by the Company and its counterparty. However, as of December 31, 2014 and 2013, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of the Company's derivative financial instruments. As a result, the Company has determined each of its derivative valuations in its entirety is classified in Level 2 of the fair value hierarchy.

Redeemable noncontrolling interests in the Operating Partnership have a redemption feature and are marked to their redemption value. The redemption value is based on the fair value of the Company's common stock at the redemption date, and therefore, is calculated based on the fair value of the Company's common stock at the balance sheet date. Since the valuation is based on observable inputs such as quoted prices for similar instruments in active markets, redeemable noncontrolling interests in the Operating Partnership are classified in Level 2 of the fair value hierarchy.

Other Fair Value Disclosures

Cash and Cash Equivalents, Restricted Cash, Student Contracts Receivable, Mezzanine Loans Receivable, Other Assets, Accounts Payable and Accrued Expenses and Other Liabilities: The Company estimates that the carrying amount approximates fair value, due to the short maturity of these instruments.

Derivative Instruments: These instruments are reported on the balance sheet at fair value, which is based on calculations provided by independent, third-party financial institutions and represent the discounted future cash flows expected, based on the projected future interest rate curves over the life of the instrument.

Secured Agency Facility, Unsecured Term Loans, Unsecured Revolving Credit Facility, and Construction Loans: The fair value of these instruments approximates carrying values due to the variable interest rate feature of these instruments.

Loans Receivable: The fair value of loans receivable is based on a discounted cash flow analysis consisting of scheduled cash flows and discount rate estimates to approximate those that a willing buyer and seller might use. These financial instruments utilize Level 3 inputs.

Unsecured Notes: In calculating the fair value of unsecured notes, interest rate and spread assumptions reflect current creditworthiness and market conditions available for the issuance of unsecured notes with similar terms and remaining maturities. These financial instruments utilize Level 2 inputs.

Mortgage Loans Payable: The fair value of mortgage loans payable is based on the present value of the cash flows at current market interest rates through maturity. The Company has concluded the fair value of these financial instruments are Level 2 as the majority of the inputs used to value these instruments fall within Level 2 of the fair value hierarchy.

Bonds Payable: The fair value of bonds payable is based on quoted prices in markets that are not active due to the unique characteristics of these financial instruments, as such, the Company has concluded the inputs used to measure fair value fall within Level 2 of the fair value hierarchy.

F-37

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
 AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The table below contains the estimated fair value and related carrying amounts for the Company's financial instruments as of December 31, 2014 and 2013:

	December 31, 2014		December 31, 2013	
	Estimated Fair Value	Carrying Amount	Estimated Fair Value	Carrying Amount
Assets:				
Loans receivable	\$47,092	\$54,260	\$49,154	\$51,192
Liabilities:				
Unsecured notes	\$802,943	\$798,305	\$372,420	\$398,721
Mortgage loans	\$1,182,501	\$1,184,550	\$1,382,773	\$1,404,305
Bonds payable	\$45,176	\$39,785	\$44,908	\$42,440

16. Lease Commitments

The Company as lessee has entered into ground/facility lease agreements with university systems and other third parties for the purpose of financing, constructing and operating student housing properties. Under the terms of the ground/facility leases, the lessor typically receives annual minimum rent during the earlier years and variable rent based upon the operating performance of the property during the latter years. The Company records rent under the straight-line method over the term of the lease and any difference between the straight-line rent amount and amount payable under the lease terms is recorded as prepaid or deferred rent. As of December 31, 2014 and 2013, prepaid ground rent totaled approximately \$1.8 million and \$2.3 million, respectively, and is included in other assets on the accompanying consolidated balance sheets. Straight-lined rental amounts are capitalized during the construction period and expensed upon the commencement of operations. Under these ground/facility leases, the Company recognized rent expense of approximately \$6.2 million, \$5.0 million and \$2.8 million for the years end December 31, 2014, 2013 and 2012, respectively, and capitalized rent of approximately \$1.4 million, \$1.1 million and \$1.3 million for the years end December 31, 2014, 2013 and 2012, respectively.

The Company is a party to a lease for corporate office space beginning December 17, 2010, and expiring December 31, 2020. The terms of leases provide for a period of free rent and scheduled rental rate increases and common area maintenance charges upon expiration of the free rent period. The Company also has various operating leases for furniture, office and technology equipment, which expire through 2022.

Rental expense under the operating lease agreements discussed above totaled approximately \$7.8 million, \$6.5 million and \$4.1 million for the years ended December 31, 2014, 2013 and 2012, respectively. There were no capital lease obligations outstanding as of December 31, 2014. Future minimum commitments over the life of all leases subsequent to December 31, 2014 are as follows:

	Operating
2015	\$6,692
2016	7,217
2017	7,069
2018	6,978
2019	6,715
Thereafter	234,138
Total minimum lease payments	\$268,809

17. Commitments and Contingencies

Commitments

Construction Contracts: As of December 31, 2014, the Company estimates additional costs to complete six wholly-owned development projects currently under construction to be approximately \$203.3 million. The Company expects to fund this amount through a combination of cash flows generated from operations, draws under the Company's unsecured revolving credit facility, issuance of securities under the Company's ATM Equity Program and potential debt or equity offerings under the Company's automatic shelf registration statement.

F-38

AMERICAN CAMPUS COMMUNITIES, INC. AND SUBSIDIARIES
AMERICAN CAMPUS COMMUNITIES OPERATING PARTNERSHIP, L.P. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Development-related Guarantees: For certain of its third-party development projects, the Company commonly provides alternate housing and project cost guarantees, subject to force majeure. These guarantees are typically limited, on an aggregate basis, to the amount of the projects' related development fees or a contractually agreed-upon maximum exposure amount. Alternate housing guarantees typically expire five days after construction is complete and generally require the Company to provide substitute living quarters and transportation for students to and from the university if the project is not complete by an agreed-upon completion date. Under project cost guarantees, the Company is responsible for the construction cost of a project in excess of an approved budget. The budget consists primarily of costs included in the general contractors' guaranteed maximum price contract ("GMP"). In most cases, the GMP obligates the general contractor, subject to force majeure and approved change orders, to provide completion date guarantees and to cover cost overruns and liquidated damages. In addition, the GMP is typically secured with payment and performance bonds. Project cost guarantees expire upon completion of certain developer obligations, which are normally satisfied within one year after completion of the project. The Company's estimated maximum exposure amount under the above guarantees is approximately \$2.7 million as of December 31, 2014.

In the normal course of business, the Company enters into various development-related purchase commitments with parties that provide development-related goods and services. In the event that the Company was to terminate development services prior to the completion of projects under construction, the Company could potentially be committed to satisfy outstanding purchase orders with such parties. At December 31, 2014, management did not anticipate any material deviations from schedule or budget related to third-party development projects currently in progress.

In August 2013, the Company entered into an agreement to convey fee interest in a parcel of land, on which one of our student housing properties resides (University Crossings), to Drexel University (the "University"). Concurrent with the land conveyance, the Company as lessee entered into a ground lease agreement with the University as lessor for an initial term of 40 years, with three 10-year extensions, at the Company's option. As part of the ground lease agreement, the Company committed to spend a minimum of \$22.3 million in renovation and capital improvement costs over a five year period to improve the unit finishes, expand and improve amenity space and upgrade the exterior facade and other systems. As of December 31, 2014, the Company has spent approximately \$11.2 million in renovations and capital improvements and anticipates spending an additional \$24.7 million in 2015. In addition, the Company also agreed to convey the building and improvements to the University at an undetermined date in the future and to pay real estate transfer taxes not to exceed \$2.4 million. The Company paid approximately \$0.6 million in real estate transfer taxes upon the conveyance of land to the University leaving approximately \$1.8 million to be paid by the Company upon the transfer of the building and improvements to the University.

In addition, in connection with certain property acquisitions, the Company has assumed the obligation to fund future infrastructure improvements located near the acquired properties. Because the ultimate cost of such obligations was not determinable as of the property acquisition date, it is likely that such payments made by the Company will be expensed at such time the local municipalities decide to move forward with the projects. As of December 31, 2014, the timing and amount of such obligations was not determinable and, as such, the Company has not accrued any liabilities associated with such payments.

Contingencies

Litigation: The Company is subject to various claims, lawsuits and legal proceedings, as well as other matters that have not been fully resolved and that have arisen in the ordinary course of business. While it is not possible to

ascertain the ultimate outcome of such matters, management believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on the consolidated financial position or results of operations of the Company. However, the outcome of claims, lawsuits and legal proceedings brought against the Company is subject to significant uncertainty. Therefore, although management considers the likelihood of such an outcome to be remote, the ultimate results of these matters cannot be predicted with certainty.

Letters of Intent: In the ordinary course of the Company's business, the Company enters into letters of intent indicating a willingness to negotiate for acquisitions, dispositions or joint ventures. Such letters of intent are non-binding, and neither party to the letter of intent is obligated to pursue negotiations unless and until a definitive contract is entered into by the parties. Even if definitive contracts are entered into, the letters of intent relating to the acquisition and disposition of real property and resulting contracts generally contemplate that such contracts will provide the acquirer with time to evaluate the property and conduct due diligence, during which periods the acquirer will have the ability to terminate the contracts without penalty or forfeiture of any deposit or earnest money. There can be no assurance that definitive contracts will be entered into with respect to any matter covered by letters of intent or that the Company will consummate any transaction contemplated by any definitive contract. Furthermore, due diligence periods for real property are frequently extended as needed. Once the due diligence period expires, the Company is then at risk under a real property acquisition contract, but only to the extent of any earnest money deposits associated with the contract.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Environmental Matters: The Company is not aware of any environmental liability with respect to the properties that would have a material adverse effect on the Company's business, assets or results of operations. However, there can be no assurance that such a material environmental liability does not exist. The existence of any such material environmental liability could have an adverse effect on the Company's results of operations and cash flows.

18. Segments

The Company defines business segments by their distinct customer base and service provided. The Company has identified four reportable segments: Wholly-Owned Properties, On-Campus Participating Properties, Development Services, and Property Management Services. Management evaluates each segment's performance based on operating income before depreciation, amortization, minority interests and allocation of corporate overhead. Intercompany fees are reflected at the contractually stipulated amounts.

	Year Ended December 31,		
	2014	2013	2012
Wholly-Owned Properties			
Rental revenues and other income	\$693,694	\$621,117	\$424,022
