5

LEXINGTON CORPORATE PROPERTIES TRUST AND CONSOLIDATED SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006 and 2005

(Unaudited and dollars in thousands, except per share data)

(1) The Company

Lexington Corporate Properties Trust (the "Company") is a self-managed and self-administered real estate investment trust ("REIT") that acquires, owns and manages a geographically diversified portfolio of net leased office, industrial and retail properties. As of June 30, 2006, the Company had an ownership interest in 191 properties and managed an additional two properties. The real properties owned by the Company are generally subject to triple net leases to corporate tenants although certain leases require the Company to pay a portion of operating

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

expenses.

The Company believes it has qualified as a REIT under the Internal Revenue Code of 1986, as amended (the "Code"). Accordingly, the Company will not be subject to federal income tax, provided that distributions to its shareholders equal at least the amount of its REIT taxable income as defined under the Code. The Company is permitted to participate in certain activities which it was previously precluded from in order to maintain its qualification as a REIT, so long as these activities are conducted in entities which elect to be treated as taxable REIT subsidiaries ("TRS") under the Code. As such, the TRS will be subject to federal income taxes on the income from these activities.

The unaudited condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary to present a fair statement of the financial condition and results of operations for the interim periods. For a more complete understanding of the Company's operations and financial position, reference is made to the financial statements (including the notes thereto) previously filed with the Securities and Exchange Commission with the Company's Annual Report on Form 10-K/A for the year ended December 31, 2005.

(2) Summary of Significant Accounting Policies

Basis of Presentation and Consolidation. The Company's consolidated financial statements are prepared on the accrual basis of accounting. The financial statements reflect the accounts of the Company and its controlled subsidiaries, including Lepercq Corporate Income Fund L.P. ("LCIF"), Lepercq Corporate Income Fund II L.P. ("LCIF II"), Net 3 Acquisition L.P. ("Net 3"), Lexington Realty Advisors, Inc. ("LRA"), Lexington Contributions Inc. ("LCI"), and Six Penn Center L.P. LRA and LCI are wholly owned taxable REIT subsidiaries, and the Company is the sole unitholder of the general partner and the majority limited partner of each of LCIF, LCIF II and Net 3. The Company determines whether an entity for which it holds an interest should be consolidated pursuant to Financial Accounting Standards Board ("FASB") Interpretation No. 46, Consolidation of Variable Interest Entities ("FIN 46R"). FIN 46R requires the Company to evaluate whether it has a controlling financial interest in an entity through means other than voting rights. If the entity is not a variable interest entity, and the Company controls the entity's voting shares and similar rights, the entity is consolidated.

Recently Issued Accounting Pronouncements. In December 2004, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 123, (revised 2004) Share-Based Payment ("SFAS 123R"), which supersedes Accounting Principles Board ("APB") Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. SFAS 123R establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. SFAS 123R focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS 123R requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. The cost will be recognized over the period in which an employee is required to provide services in exchange for the award. SFAS 123R was effective for fiscal years beginning after January 1, 2006, based on rules issued by the Securities and Exchange Commission. The Company elected the modified prospective approach as provided for in SFAS 123R. The impact of

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

adopting this statement resulted in the elimination of \$11,401 of deferred compensation and additional paid-in-capital from the consolidated shareholders' equity as of January 1, 2006 and did not have a material impact on the Company's results of operations or cash flows.

In December 2004, the FASB issued SFAS No. 153, Exchange of Non-monetary Assets - an amendment of APB Opinion No. 29 ("SFAS 153"). The guidance in APB Opinion No. 29, Accounting for Non-monetary Transactions, is based on the principle that exchanges of non-monetary assets should be measured based on the fair value of the assets exchanged. The guidance in that opinion, however, included certain exceptions to that principle. SFAS 153 amends APB Opinion No. 29 to eliminate the exception for non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange.

6

SFAS 153 was effective for non-monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The adoption of this statement had no material impact on the Company.

In March 2005, the FASB issued Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations - an Interpretation of SFAS Statement No. 143 ("FIN 47"). FIN 47 clarifies the timing of liability recognition for legal obligations associated with the retirement of a tangible long-lived asset when the timing and/or method of settlement are conditional on a future event. FIN 47 was effective for fiscal years ending after December 15, 2005. The application of FIN 47 did not have a material impact on the Company's consolidated financial position or results of operations.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections ("SFAS 154") which replaces APB Opinions No. 20, Accounting Changes, and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements - An Amendment of APB Opinion No. 28. SFAS 154 provides guidance on the accounting for and reporting of accounting changes and error corrections. It establishes retrospective application as the required method for reporting a change in accounting principle and the reporting of a correction of an error. SFAS 154 was effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The adoption of SFAS 154 had no material impact on the Company.

In June 2005, the FASB ratified the Emerging Issues Task Force's ("EITF") consensus on EITF 04-05, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights. EITF 04-05 provides a framework for determining whether a general partner controls, and should consolidate, a limited partnership or a similar entity. It was effective after June 29, 2005 for all newly formed limited partnerships and for any pre-existing limited partnerships that modify their partnership agreements after that date. General partners of all other limited partnerships applied the consensus no later than the beginning of the first reporting period in fiscal years beginning after December 15, 2005. The adoption of EITF 04-05 had no material impact on the Company's financial position or results of operations.

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with SFAS No. 109. FIN 48 prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company does not expect that the adoption of FIN 48 will have a material impact on the Company's consolidated financial position or results of operations.

Use of Estimates. Management has made a number of estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses to prepare these condensed consolidated financial statements in conformity with generally accepted accounting principles. The most significant estimates made include the recoverability of accounts receivable (primarily related to straight-line rents), allocation of property purchase price to tangible and intangible assets, the determination of impairment of long-lived assets and the useful lives of long-lived assets. Actual results could differ from those estimates.

Purchase Accounting for Acquisition of Real Estate. The fair value of the real estate acquired, which includes the impact of mark-to-market adjustments for assumed mortgage debt related to property acquisitions, is allocated to the acquired tangible assets, consisting of land, building and improvements, fixtures and equipment and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases, other value of in-place leases and value of tenant relationships, based in each case on their fair values.

The fair value of the tangible assets of an acquired property (which includes land, building and improvements and fixtures and equipment) is determined by valuing the property as if it were vacant, and the "as-if-vacant" value is then allocated to land, building and improvements and fixtures and equipment based on management's determination of relative fair values of these assets. Factors considered by management in performing these analyses include an estimate of carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rental revenue during the expected lease-up periods based on current market demand. Management also estimates costs to execute similar leases including leasing commissions.

In allocating the fair value of the identified intangible assets and liabilities of an acquired property, above-market and below-market in-place lease values are recorded based on the difference between the current in-place lease rent and a management estimate of current market rents. Below-market lease intangibles are recorded as part of deferred revenue and amortized into rental revenue over the non-cancelable periods of the respective leases and any bargain renewal options, if applicable. Above-market leases are recorded as part of intangible assets and amortized as a direct charge against rental revenue over the non-cancelable portion of the respective leases.

The aggregate value of other acquired intangible assets, consisting of in-place leases and tenant relationships, is measured by the excess of (i) the purchase price paid for a property over (ii) the estimated fair value of the property as if vacant,

determined as set forth above. This aggregate value is allocated between in-place lease values and tenant relationships based on management's evaluation of the specific characteristics of each tenant's lease. The value of in-place leases and customer relationships are amortized to expense over the remaining non-cancelable periods of the respective leases.

Revenue Recognition. The Company recognizes revenue in accordance with SFAS No. 13, Accounting for Leases, as amended ("SFAS 13"). SFAS 13 requires that revenue be recognized on a straight-line basis over the term of the lease unless another systematic and rational basis is more representative of the time pattern in which the use benefit is derived from the leased property. Renewal options in leases with rental terms that are lower than those in the primary term are excluded from the calculation of straight-line rent if they do not meet the criteria of a bargain renewal option. In instances in which the Company funds tenant improvements and the improvements are deemed to be owned by the Company, revenue recognition will commence when the improvements are substantially completed and possession or control of the space is turned over to the tenant. When the Company determines that the tenant allowances are lease incentives, the Company commences revenue recognition when possession or control of the space is turned over to the tenant for tenant work to begin. The lease incentive is recorded as a reduction to revenue on a straight-line basis over the respective lease term.

Gains on sales of real estate are recognized pursuant to the provisions of SFAS No. 66, Accounting for Sales of Real Estate, as amended ("SFAS 66"). The specific timing of the sale is measured against various criteria in SFAS 66 related to the terms of the transactions and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria are not met, the gain is deferred and the finance, installment or cost recovery method, as appropriate, is applied until the sales criteria are met.

Accounts Receivable. The Company continuously monitors collections from its tenants and would make a provision for estimated losses based upon historical experience and any specific tenant collection issues that the Company has identified. As of June 30, 2006 and December 31, 2005, the Company did not record an allowance for doubtful accounts.

Impairment of Real Estate. The Company evaluates the carrying value of all real estate held when a triggering event under SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, as amended ("SFAS 144") has occurred to determine if an impairment has occurred which would require the recognition of a loss. The evaluation includes reviewing anticipated cash flows of the property, based on current leases in place, and an estimate of market rent after an assumed lease up period for vacant properties coupled with an estimate of proceeds to be realized upon sale. However, estimating market lease rents and future sale proceeds is highly subjective and such estimates could differ materially from actual results.

Depreciation is determined by the straight-line method over the remaining estimated economic useful lives of the properties.

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

Only costs incurred to third parties in acquiring properties are capitalized. No internal costs (rents, salaries, overhead) are capitalized. Expenditures for maintenance and repairs are charged to operations as incurred. Significant renovations which extend the useful life of the properties are capitalized.

Properties Held For Sale. The Company accounts for properties held for sale in accordance with SFAS 144. SFAS 144 requires that the assets and liabilities of properties that meet various criteria in SFAS 144 be presented separately in the balance sheet, with assets and liabilities being separately stated. The operating results of these properties are reflected as discontinued operations in the statement of income. Properties that do not meet the held for sale criteria of SFAS 144 are accounted for as operating properties.

Marketable Securities. The Company classifies its existing marketable equity securities as available-for-sale in accordance with the provisions of SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities. These securities are carried at fair market value, with unrealized gains and losses reported in shareholders' equity as a component of accumulated other comprehensive income. Gains or losses on securities sold, if any, are based on the specific identification method.

Tax Status. The Company has made an election to qualify, and believes it is operating so as to qualify, as a REIT for federal income tax purposes. Accordingly, the Company generally will not be subject to federal income tax, provided that distributions to its shareholders equal at least the amount of its REIT taxable income as defined under Section 856 through 860 of the Internal Revenue Code, as amended (the "Code").

The Company is now permitted to participate in certain activities from which it was previously precluded in order to maintain its qualification as a REIT, so long as these activities are conducted in entities which elect to be treated as taxable REIT subsidiaries under the Code. LRA and LCI are taxable REIT subsidiaries. As such, the Company is subject to federal and state income taxes on the income from these activities.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carry-forwards. Deferred tax assets and

liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

Cash and Cash Equivalents. The Company considers all highly liquid instruments with maturities of three months or less from the date of purchase to be cash equivalents.

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

Foreign Currency. Assets and liabilities of the Company's foreign operations are translated using period-end exchange rates, and revenues and expenses are translated using exchange rates as determined throughout the period. Unrealized gains or losses resulting from translation are included in other comprehensive income as a separate component of the Company's shareholders' equity.

Earnings Per Share. Basic net income per share is computed by dividing net income reduced by preferred dividends by the weighted average number of common shares outstanding during the period. Diluted net income per share amounts are similarly computed but include the effect, when dilutive, of in-the-money common share options, operating partnership units, convertible preferred shares and other dilutive securities.

Common Share Options. All common share options outstanding were fully vested as of December 31, 2005 and accordingly no compensation costs as calculated under SFAS 123R were recorded. Common share options granted generally vest ratably over a four-year term and expire five years from the date of grant. The following table illustrates the effect on net income and earnings per share if the fair value based method had been applied historically to all outstanding share option awards in each period:

	Three Months Ended June 30, 2005 -----	Six Months Ended June 30, 2005 -----

Diluted - pro forma	\$ 0.22	\$ 0.33

Share-based Compensation. The Company issues non-vested common shares to its employees that have various vesting terms. The non-vested shares issued vest either (i) ratably over 5 years, (ii) cliff vest after 5 years, (iii) cliff vest after 5 years if market conditions (targeted total shareholder return) are achieved and/or (iv) vest upon the achievement of performance criteria (increase in cash available for distributions). The Company has elected to charge to compensation cost ratably over 5 years non-vested shares which cliff vest after 5 years. The Company charges to compensation cost ratably over 5 years (the implicit service period), the non-vested shares that vest based upon the achievement of performance criteria. The Company charges to compensation cost ratably over 5 years (the explicit service period), the non-vested shares that vest upon achievement of market and service conditions. The Company values all share-based payment arrangements using the fair value method,

9

which is the value of the Company's common shares on date of grant and assumes no forfeitures. The Company expects to issue all common shares from reserves for options exercised and non-vested shares granted.

As of June 30, 2006, there are 827,377 awards available to be issued to employees under the Company's equity award plans. In addition, the Company has \$17,499 in unrecognized compensation cost that will be charged to compensation cost over an average of approximately 3.9 years.

Common share option activity for the six months ended June 30, 2006 is as follows:

	Number of Shares -----	Weighted-Average Exercise Price Per Share -----	Weighted-A Life (y) -----
Balance at December 31, 2005	40,500	\$ 14.71	.8

(4) Investments in Real Estate and Mortgage Notes Receivable

During the six months ended June 30, 2006, the Company acquired one property in the Netherlands for an initial capitalized cost of \$40,061 and allocated \$15,716 of the purchase price to intangible assets.

The Company purchased a \$13,027 face amount mortgage note receivable for \$11,144, for an effective yield at 7.50%. The note matures in 2015 and requires interest payments at 4.55% per annum, on the face amount, and principal payments.

(5) Discontinued Operations

During the first quarter of 2006, the Company sold two properties for an aggregate net sales price of \$28,239 resulting in a gain of \$2,320.

During the second quarter of 2006, the Company sold four properties for an aggregate net sales price of \$44,893 resulting in a net gain of \$13,730. The Company provided a \$3,200, 6.00% interest only mortgage due in 2017 relating to a sale of one property. In addition, the Company had two properties held for sale as of June 30, 2006.

The following presents the operating results for the properties sold and properties held for sale for the applicable periods:

Three Months Ended June 30,

Six Months E

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

	2006 -----	2005 -----	2006 -----

Pre-tax income, including gains on sale	18,593	5,131	21,410

(6) Investment in Non-Consolidated Entities

As of June 30, 2006, the Company has investments in eight non-consolidated entities. During the six months ended June 30, 2006, these entities purchased six properties for an aggregate capitalized cost of \$73,262, including estimated expansion cost for one property.

During the six months ended June 30, 2006, the non-consolidated entities obtained four separate mortgages encumbering four properties aggregating \$43,363 with an average stated interest rate of 5.97% and maturity dates ranging from April 2016 to November 2019.

During the second quarter of 2006, the Company advanced \$8,300 to one entity in connection with an acquisition of a property from a third party. The mortgage note bears interest at 7.00% and matures in October 2006. During the first quarter of 2005, one entity repaid \$45,800 in advances made by the Company.

The following is summary combined balance sheet data as of June 30, 2006 and income statement data for the six months ended June 30, 2006 and 2005 for the Company's non-consolidated entities:

	2006 ----	
Real estate, net	1,410,090	
Intangibles, net	146,633	
Mortgages payable	1,041,071	
	2006 ----	2005 ----
Gross revenues	\$80,026	\$66,221
Expenses, net	\$76,635	\$58,221
Net income	\$ 3,391 =====	\$ 8,000 =====

The Company earned advisory fees of \$1,141 and \$2,044 for the three and six months ended June 30, 2006, respectively, and \$2,440 and \$2,831 for the three and six months ended June 30, 2005, respectively, relating to these entities.

(7) Mortgages and Notes Payable

During the first quarter of 2006, the Company refinanced its property in Dillon, South Carolina. The Company repaid the existing debt on the property of \$11,420 and incurred debt satisfaction charges of approximately \$904.

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

During the second quarter of 2006, the Company sold two properties encumbered by mortgage debt, which resulted in debt satisfaction charges of approximately \$446.

During the second quarter of 2006, the Company refinanced its property in Boca Raton, Florida. The Company repaid the existing debt on the property of \$15,275 and incurred debt satisfaction charges of approximately \$218.

During the second quarter of 2006, the Company transferred its Milpitas, California property which was encumbered by a \$11,869 mortgage to the lender in a foreclosure, which resulted in a \$6,289 debt satisfaction gain.

During the second quarter of 2006, the Company repaid the \$10,525 mortgage on its Southfield, Michigan property for \$9,022, which resulted in a debt satisfaction gain of \$1,460.

During 2006, the Company obtained the following mortgages:

Property -----	Amount -----	Rate ----	Maturity -----
Dillon, South Carolina	\$ 23,750	5.97%	2022
Renswoude, the Netherlands	33,785	5.31%	2011
Boca Raton, Florida	20,400	6.47%	2020

In addition, the purchaser of a property assumed a \$14,170 mortgage note in connection with the sale by the Company.

(8) Concentration of Risk

The Company seeks to reduce its operating and leasing risks through diversification achieved by the geographic distribution of its properties, tenant industry diversification, avoiding dependency on a single property and the creditworthiness of its tenants. For the three and six months ended June 30, 2006 and 2005, no single tenant represented greater than 10% of rental revenues.

In March 2006, Dana Corporation ("Dana"), a tenant in 11 properties, including non-consolidated entities, filed for Chapter 11 bankruptcy. As of June 30, 2006, Dana succeeded on motions to reject leases on 2 properties owned by the Company and a non-consolidated entity and has not indicated its intention as it relates to the other 9 leases. During the second quarter of 2006, the Company recorded an impairment charge of \$1,121 and accelerated amortization of an above-market lease of \$2,349, relating to the write off of lease intangibles and the above-market lease for the disaffirmed lease of a consolidated property. In addition, the Company's proportionate share from a non-consolidated entity of the impairment charge and accelerated amortization of an above-market lease for a disaffirmed lease was \$551 and \$1,412, respectively. In addition, the Company, including a non-consolidated entity, sold its bankruptcy claims related to the 2 disaffirmed leases for approximately \$7,100 which resulted in a gain of approximately \$6,900.

Cash and cash equivalent balances may exceed insurable amounts. The Company believes it mitigates this risk by investing in or through major financial institutions.

(9) Minority Interests

In conjunction with several of the Company's acquisitions in prior years, sellers were given units in LCIF, LCIF II, or Net 3 as a form of

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

consideration. All of such interests are redeemable at certain times, only at the option of the holders, for the Company's common shares on a one-for-one basis at various dates through November 2006 and are not otherwise mandatorily redeemable by the Company.

As of June 30, 2006, there were 5,622,694 units outstanding. All units have stated distributions in accordance with their respective partnership agreements. To the extent that the Company's dividend per share is less than the stated distribution per unit per the applicable partnership agreement, the distributions per unit are reduced by the percentage reduction in the Company's dividend. No units have a liquidation preference.

(10) Commitments and Contingencies

The Company is obligated under certain tenant leases, including leases for non-consolidated entities, to fund the expansion of the underlying leased properties. Included in other assets is construction in progress of \$15,352 and \$9,273 as of June 30, 2006 and December 31, 2005, respectively.

13

The Company at times is involved in various legal actions occurring in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity.

As of June 30, 2006, the Company, including its non-consolidated entities, has entered into binding letters of intent to purchase, upon completion of construction and commencement of rent from the tenants, two properties for an aggregate estimated obligation of \$58,799.

(11) Supplemental Disclosure of Statement of Cash Flow Information

During the six months ended June 30, 2006 and 2005, the Company paid \$35,148 and \$28,639, respectively, for interest and \$169 and \$1,450, respectively, for income taxes.

During the six months ended June 30, 2006 and 2005, holders of an aggregate of 91,869 and 30,528 operating partnership units, respectively, redeemed such units for common shares of the Company. These redemptions resulted in an increase in shareholders' equity and corresponding decrease in minority interest of \$1,041 and \$354, respectively.

During the six months ended June 30, 2006 and 2005, the Company recognized \$3,321 and \$1,901, respectively in compensation relating to share grants to trustees and employees.

During the six months ended June 30, 2006, the Company sold a property in which the purchaser assumed a mortgage note encumbering the property in the amount of \$14,170. In addition, the Company provided a \$3,200, 6.00% interest only mortgage due in 2017 relating to the sale of another property.

(12) Subsequent Events

On July 23, 2006, the Company entered into a definitive merger agreement with Newkirk Realty Trust, Inc. ("Newkirk"). Under the merger agreement each share of Newkirk common stock will be exchanged for 0.80 common shares of the Company. Following the merger, Newkirk stockholders and unit holders will own approximately 46.8% and the Company's shareholders and unit holders will own approximately 53.2% of the fully diluted common shares of the combined company assuming no conversion of the Company's Series C Cumulative Convertible Preferred Stock. The transaction is expected to close in the fourth quarter of 2006, subject to the approval of the voting shareholders of both companies and other customary conditions.

The merger agreement contains certain termination rights for both the Company and Newkirk and provides that in certain specified circumstances, a terminating party must pay the other party's expenses up to \$5 million in connection with the proposed transaction. In addition, the agreement provides that in certain specified circumstances (generally in the event a terminating party enters into an alternative transaction within six months of termination), a terminating party must also pay the other party a break-up fee of up to \$25 million (less expenses, if any, previously paid by the terminating party to the non-terminating party).

14

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

The following is a discussion and analysis of Lexington Corporate Properties Trust's (the "Company's") consolidated financial condition and results of operations for the three and six months periods ended June 30, 2006 and 2005, and the significant factors that could affect the Company's prospective financial condition and results of operations. This discussion should be read together with the accompanying unaudited condensed consolidated financial statements and notes and with the Company's consolidated financial statements and notes included in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2005. Historical results may not be indicative of future performance.

This quarterly report on Form 10-Q, together with other statements and information publicly disseminated by the Company contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by use of the words "believes," "expects," "intends," "anticipates," "estimates," "projects" or similar expressions. Readers should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond the Company's control and which could materially affect actual results, performances or achievements. In particular, among the factors that could cause actual results to differ materially from current expectations include, but are not limited to, (i) the failure to continue to qualify as a real estate investment trust, (ii) changes in general business and economic conditions, (iii) competition, (iv) increases in real estate construction costs, (v) changes in interest rates, (vi) changes in accessibility of debt and equity capital markets and other risks inherent in the real estate business, including, but not limited to, tenant defaults, potential liability relating to environmental matters, the availability of suitable acquisition opportunities and illiquidity of real estate investments, (vii) changes in governmental laws and regulations, and (viii) increases in operating costs. The Company undertakes no obligation to publicly release the results of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Accordingly, there is no assurance that the Company's expectations will be realized.

General

The Company, which has elected to qualify as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended (the "Code"), acquires, owns and manages net-leased commercial properties. The Company believes that it has operated as a REIT since October 1993.

As of June 30, 2006, the Company owned, or had interests in, 191 real estate properties and managed 2 additional properties.

Critical Accounting Policies

The Company's accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make estimates that affect the amounts of revenues, expenses, assets and liabilities reported. The following are critical accounting policies which are very important to the portrayal of the Company's financial condition and results of operations and which require some of management's most difficult, subjective and complex judgments. The accounting for these matters involves the making of estimates based on current facts, circumstances and assumptions which could change in a manner that might materially affect management's future estimate with respect to such matters. Accordingly, future reported financial conditions and results could differ materially from financial conditions and results reported based on management's current estimates.

Purchase Accounting for Acquisition of Real Estate. The fair value of the real estate acquired, which includes the impact of mark-to-market adjustments for assumed mortgage debt related to property acquisitions, is allocated to the acquired tangible assets, consisting of land, building and improvements, fixtures and equipment and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases, other value of in-place leases and value of tenant relationships, based in each case on their fair values.

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

The fair value of the tangible assets of an acquired property (which includes land, building and improvements and fixtures and equipment) is determined by valuing the property as if it were vacant, and the "as-if-vacant" value is then allocated to land, building and improvements and fixtures and equipment based on management's determination of relative fair values of these assets. Factors considered by management in performing these analyses include an estimate of carrying costs during the expected lease-up periods

15

considering current market conditions and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rental revenue during the expected lease-up periods based on current market demand. Management also estimates costs to execute similar leases including leasing commissions.

In allocating the fair value of the identified intangible assets and liabilities of an acquired property, above-market and below-market in-place lease values are recorded based on the difference between the current in-place lease rent and a management estimate of current market rents. Below-market lease intangibles are recorded as part of deferred revenue and amortized into rental revenue over the non-cancelable periods of the respective leases and any bargain renewal options, if applicable. Above-market leases are recorded as part of intangible assets and amortized as a direct charge against rental revenue over the non-cancelable portion of the respective leases.

The aggregate value of other acquired intangible assets, consisting of in-place leases and tenant relationships, is measured by the excess of (i) the purchase price paid for a property over (ii) the estimated fair value of the property as if vacant, determined as set forth above. This aggregate value is allocated between in-place lease values and tenant relationships based on management's evaluation of the specific characteristics of each tenant's lease. The value of in-place leases and customer relationships are amortized to expense over the remaining non-cancelable periods of the respective leases.

Revenue Recognition. The Company recognizes revenue in accordance with Statement of Financial Accounting Standards ("SFAS") No. 13, Accounting for Leases, as amended ("SFAS 13"). SFAS 13 requires that revenue be recognized on a straight-line basis over the term of the lease unless another systematic and rational basis is more representative of the time pattern in which the use benefit is derived from the leased property. Renewal options in leases with rental terms that are lower than those in the primary term are excluded from the calculation of straight-line rent if they do not meet the criteria of a bargain renewal option. In those instances in which the Company funds tenant improvements and the improvements are deemed to be owned by the Company, revenue recognition will commence when the improvements are substantially completed and possession or control of the space is turned over to the tenant. When the Company determines that the tenant allowances are lease incentives, the Company commences revenue recognition when possession or control of the space is turned over to the tenant for tenant work to begin. The lease incentive is recorded as a reduction to revenue on a straight-line basis over the respective lease term.

Gains on sales of real estate are recognized pursuant to the provisions of SFAS No. 66, Accounting for Sales of Real Estate, as amended ("SFAS 66"). The specific timing of the sale is measured against various criteria in SFAS 66 related to the terms of the transactions and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria are not met, the gain is deferred and the finance,

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

installment or cost recovery method, as appropriate, is applied until the sales criteria are met.

Accounts Receivable. The Company continuously monitors collections from its tenants and would make a provision for estimated losses based upon historical experience and any specific tenant collection issues that the Company has identified. As of June 30, 2006 and December 31, 2005, the Company did not record an allowance for doubtful accounts.

Impairment of Real Estate. The Company evaluates the carrying value of all real estate held when a triggering event under SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, as amended ("SFAS 144") has occurred to determine if an impairment has occurred which would require the recognition of a loss. The evaluation includes reviewing anticipated cash flows of the property, based on current leases in place, and an estimate of market rent after an assumed lease up period for vacant properties coupled with an estimate of proceeds to be realized upon sale. However, estimating market lease rents and future sale proceeds is highly subjective and such estimates could differ materially from actual results.

Tax Status. The Company has made an election to qualify, and believes it is operating so as to qualify, as a REIT for federal income tax purposes. Accordingly, the Company generally will not be subject to federal income tax, provided that distributions to its shareholders equal at least the amount of its REIT taxable income as defined under Section 856 through 860 of the Code.

The Company is now permitted to participate in certain activities which it was previously precluded from in order to maintain its qualification as a REIT, so long as these activities are conducted in entities which elect to be treated as taxable subsidiaries under the Code. Lexington Realty Advisors, Inc. and Lexington Contributions Inc. are taxable REIT subsidiaries. As such, the Company is subject to federal and state income taxes on the income from these activities.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

Properties Held For Sale. The Company accounts for properties held for sale in accordance with SFAS 144. SFAS 144 requires that the assets and liabilities of properties that meet various criteria in SFAS 144 be presented separately in the balance sheet, with assets and liabilities being separately stated. The operating results of these properties are reflected as discontinued operations in the statement of income. Properties that do not meet the held for sale criteria of SFAS 144 are accounted for as operating properties.

Basis of Consolidation. The Company determines whether an entity for which it holds an interest should be consolidated pursuant to Financial Accounting Standards Board Interpretation No. 46, Consolidation of Variable Interest Entities ("FIN 46R"). FIN 46R requires the Company to evaluate whether it has a controlling financial interest in an entity through means other than voting

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

rights. If the entity is not a variable interest entity, and the Company controls the entity's voting shares and similar rights, the entity is consolidated.

Liquidity and Capital Resources

Real Estate Assets. As of June 30, 2006, the Company's real estate assets were located in 39 states and the Netherlands and contained an aggregate of approximately 40.2 million square feet of net rentable space. Substantially all of the properties are subject to triple net leases, which are generally characterized as leases in which the tenant pays all or substantially all of the cost and cost increases for real estate taxes, capital expenditures, insurance, utilities and ordinary maintenance of the property. Approximately 97.8% of the total square feet is subject to a lease.

During the six months ended June 30, 2006, the Company, including non-consolidated entities, purchased 7 properties for an aggregate capitalized cost of \$113.3 million, including an estimated expansion obligation, and sold 6 properties to third parties resulting in an aggregate net gain of \$16.1 million.

The Company's principal sources of liquidity are revenues generated from its properties, interest on cash balances, amounts available under its unsecured credit facility and amounts that may be raised through the sale of securities in private or public offerings. For the six months ended June 30, 2006, the leases on the consolidated properties generated \$94.9 million in gross rental revenue compared to \$79.1 million during the same period in 2005.

In March 2006, Dana Corporation ("Dana"), a tenant in 11 properties, including those owned by non-consolidated entities, filed for Chapter 11 bankruptcy. As of June 30, 2006, Dana succeeded on motions to reject leases on 2 properties, 1 owned by the Company and the other owned by a non-consolidated entity. Dana has not indicated its intention as it relates to the other 9 leases. During the second quarter of 2006, the Company recorded an impairment charge and accelerated amortization of above-market leases of \$5.4 million (including the Company's proportionate share from a non-consolidated entity), relating to the write off of above-market leases and lease intangibles of the 2 rejected leases.

Dividends. The Company has made quarterly distributions since October 1986 without interruption. The Company declared a common dividend of \$0.365 per share to common shareholders of record as of July 31, 2006, payable on August 15, 2006. The Company's annualized common dividend rate is currently \$1.46 per share. The Company also declared a dividend on its Series C preferred shares of \$0.8125 per share to preferred shareholders of record as of July 31, 2006, payable on August 15, 2006. The annual preferred dividend rate on the Series C shares is \$3.25 per share. The Company also declared a dividend on its Series B preferred shares of \$0.503125 per share to preferred shareholders of record as of July 31, 2006, payable on August 15, 2006. The annual preferred dividend rate on the Series B shares is \$2.0125 per share.

In connection with its intention to continue to qualify as a REIT for Federal income tax purposes, the Company expects to continue paying regular common and preferred dividends to its shareholders. These dividends are expected to be paid from operating cash flows which are expected to increase over time due to property acquisitions and growth in rental revenues in the existing portfolio and from other sources. Since cash used to pay dividends reduces amounts available for capital investments, the Company generally intends to maintain a conservative dividend payout ratio, reserving such amounts as it considers necessary for the expansion of properties in its portfolio, debt reduction, the acquisition of interests in new properties as suitable opportunities arise, and

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

such other factors as the Company's board of trustees considers appropriate.

Cash dividends paid to common and preferred shareholders for the six months ended June 30, 2006 and 2005 were \$46.7 million and \$41.5 million, respectively.

Although the Company receives the majority of its rental payments on a monthly basis, it intends to continue paying dividends quarterly. Amounts accumulated in advance of each quarterly distribution are invested by the Company in short-term money market or other suitable instruments.

The Company anticipates that cash flows from operations will continue to provide adequate capital to fund its operating and administrative expenses, regular debt service obligations and all dividend payments in accordance with REIT requirements in both the short-term and long-term. In addition, the Company anticipates that cash on hand, borrowings under its unsecured credit facility, issuance of equity and debt, and other capital raising alternatives will be available to fund the necessary capital required by the Company. Cash flows from operations were \$60.3 million and \$53.2 million for the six months ended June 30, 2006 and 2005, respectively. The underlying drivers that impact working capital and therefore cash flows from operations are the timing of collection of rents, including reimbursements from tenants, the collection of advisory fees, payment of interest on mortgage debt and payment of operating and general and administrative costs. The Company believes the net lease structure of the majority of its tenants leases enhances cash flows from operations since the payment and timing of operating costs related to the properties are generally borne directly by the tenant. Collection and timing of tenant rents is closely monitored by management as part of its cash management program.

17

Net cash used in investing activities totaled \$28.6 million and \$625.3 million for the six months ended June 30, 2006 and 2005, respectively. Cash used in investing activities was primarily attributable to the acquisition of and deposits made for real estate, the investment in non-consolidated entities and the issuance of notes receivable. Cash provided by investing activities relates primarily to the sale of properties and the collection of notes receivable. Therefore, the fluctuation in investing activities relates primarily to the timing of investments and dispositions.

Net cash (used in) provided by financing activities totaled \$(30.9) million and \$467.5 million for the six months ended June 30, 2006 and 2005, respectively. Cash used in financing activities was primarily attributable to dividends (net of proceeds reinvested under the Company's dividend reinvestment plan), distributions to limited partners and debt service payments. Cash provided by financing activities relates primarily to proceeds from equity offerings and mortgage financings.

UPREIT Structure. The Company's UPREIT structure permits the Company to effect acquisitions by issuing to a seller, as a form of consideration, interests in operating partnerships controlled by the Company. All of such interests are redeemable, at the option of the holder, at certain times for common shares on a one-for-one basis and all of such interests require the Company to pay certain distributions to the holders of such interests in accordance with the respective operating partnership agreements. The Company accounts for these interests in a manner similar to a minority interest holder. The number of common shares that

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

will be outstanding in the future should be expected to increase, and minority interest expense should be expected to decrease, from time to time, as such operating partnership interests are redeemed for common shares. As of June 30, 2006, there were 5,622,694 operating partnership units, of which 1,666,720 partnership units are held by E. Robert Roskind, Chairman and Richard J. Rouse, Vice Chairman and Chief Investment Officer. The current average annual distribution is \$1.37 per unit.

Share Repurchase Program

The Company's board of trustees has authorized the repurchase of up to 2.0 million common shares/operating partnership units. No repurchases were made during the six months ended June 30, 2006.

Financing

Revolving Credit Facility. The Company's \$200.0 million unsecured revolving credit facility, which expires in June 2008, bears interest at a rate of LIBOR plus 120-170 basis points depending on the Company's leverage level. The unsecured revolving credit facility contains customary financial covenants including restrictions on the level of indebtedness, amount of variable rate debt to be borrowed and net worth maintenance provisions. As of June 30, 2006, the Company was in compliance with all covenants, there were no borrowings outstanding, \$167.3 million was available to be borrowed and \$32.7 million in letters of credit were outstanding.

Debt Service Requirements. The Company's principal liquidity needs are for the payment of interest and principal on outstanding mortgage debt. As of June 30, 2006, total outstanding mortgages were \$1.2 billion. The weighted average interest rate on the Company's total consolidated debt on such date was approximately 6.0%. The estimated scheduled principal amortization payments for the remainder of 2006 and for 2007, 2008, 2009 and 2010 are \$14.0 million, \$35.2 million, \$30.0 million, \$31.6 million and \$30.4 million, respectively. As of June 30, 2006, the estimated scheduled balloon payments for the remainder of 2006 and for 2007, 2008, 2009 and 2010 are \$0 million, \$0 million, \$43.7 million, \$37.0 million and \$56.6 million, respectively.

Other

Lease Obligations. Since the Company's tenants generally bear all or substantially all of the cost of property operations, maintenance and repairs, the Company does not anticipate significant needs for cash for these costs. However, the Company is responsible for operating expenses in vacant properties and for certain leases which contain expense stops. The Company generally funds property expansions with available cash and additional secured borrowings, the repayment of which is funded out of rental increases under the leases covering the expanded properties.

The Company's tenants pay the rental obligation on ground leases either directly to the fee holder or to the Company as increased rent. The annual ground lease rental payment obligations for 2007, 2008, 2009, 2010 and 2011 are approximately \$1.2 million, \$1.2 million, \$1.2 million, \$1.0 million and \$0.9 million, respectively.

Capital Expenditures. Due to the triple net lease structure, the Company does not incur significant expenditures in the ordinary course of business to maintain its properties. However, in the future, as leases expire, the Company expects to incur costs in extending the existing tenant lease or re-tenanting the properties. The amounts of these expenditures can vary significantly

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

depending on tenant negotiations, market conditions and rental rates. These expenditures are expected to be funded from operating cash flows or borrowings on the unsecured revolving credit facility. As of June 30, 2006, the Company, including through non-consolidated entities, has entered into letters of intent to purchase upon completion of construction and commencement of rent from the tenants, two properties for an aggregate estimated obligation of \$58.8 million.

18

Environmental Matters. Based upon management's ongoing review of its properties, management is not aware of any environmental condition with respect to any of the Company's properties, which would be reasonably likely to have a material adverse effect on the Company. There can be no assurance, however, that (i) the discovery of environmental conditions, which were previously unknown, (ii) changes in law, (iii) the conduct of tenants or (iv) activities relating to properties in the vicinity of the Company's properties, will not expose the Company to material liability in the future. Changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures or may otherwise adversely affect the operations of the Company's tenants, which would adversely affect the Company's financial condition and results of operations.

Results of Operations

Three months ended June 30, 2006 compared with June 30, 2005

Changes in the results of operations for the Company are primarily due to the growth of its portfolio, costs associated with such growth, the timing of acquisitions and other items discussed below. Of the increase in total gross revenues in 2006 of \$2.7 million, \$2.1 million is attributable to rental revenue. The remaining \$0.6 million increase in gross revenues in 2006 was primarily attributable to an increase in tenant reimbursements of \$1.8 million offset by a decrease in advisory fees of \$1.2 million. The increase in interest and amortization expense of \$2.0 million is due to the growth of the Company's portfolio and has been offset by interest savings resulting from scheduled principal amortization payments and mortgage satisfactions. The increase in property operating expense of \$2.5 million is primarily due to an increase in properties for which the Company has operating expense responsibility. The increase in depreciation and amortization expense of \$2.8 million is due primarily to the growth in real estate and intangibles due to property acquisitions. Intangible assets are amortized over a shorter period of time (generally the lease term) than real estate assets. The increase in general and administrative expenses of \$0.2 million is due primarily to an increase in personnel costs offset by a reduction in professional fees and dead deal costs. Non-operating income increased \$5.7 million primarily due to the sale of a Dana Corporation bankruptcy claim in 2006. Debt satisfaction gains, net decreased \$3.4 million due to timing of debt satisfactions. Impairment charges increased due to the write off of intangible assets relating to a tenant bankruptcy. Minority interest expense decreased \$0.3 million due to a decrease in earnings at the partnership level. Equity in earnings of non-consolidated entities decreased by \$0.5 million primarily due to the impact of the write off of lease intangibles and the acceleration of above-market lease amortization offset by a gain on the sale of a Dana Corporation bankruptcy claim in 2006. Net income increased in 2006 by \$9.6 million primarily due to the net impact of items discussed above coupled with an increase of \$13.4 million in income from discontinued operations. The total discontinued operations increase of \$13.4

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

million is comprised of an increase in gains on sales of properties of \$9.4 million, an increase in debt satisfaction gains, net of \$5.0 million and a reduction in impairment charges of \$0.6 million offset by a decrease of \$1.5 million in income from discontinued operations. Net income applicable to common shareholders increased by \$9.6 million due to the items discussed above.

Six months ended June 30, 2006 compared with June 30, 2005

Changes in the results of operations for the Company are primarily due to the growth of its portfolio, costs associated with such growth, the timing of acquisitions and other items discussed below. Of the increase in total gross revenues in 2006 of \$20.3 million, \$15.8 million is attributable to rental revenue. The remaining \$4.5 million increase in gross revenues in 2006 was primarily attributable to an increase in tenant reimbursements of \$5.3 million offset by a decrease in advisory fees of \$0.8 million. The increase in interest and amortization expense of \$7.7 million is due to the growth of the Company's portfolio and has been offset by interest savings resulting from scheduled principal amortization payments and mortgage satisfactions. The increase in property operating expense of \$7.7 million is primarily due to an increase in properties for which the Company has operating expense responsibility. The increase in depreciation and amortization expense of \$11.8 million is due primarily to the growth in real estate and intangibles due to property acquisitions. Intangible assets are amortized over a shorter period of time (generally the lease term) than real estate assets. The increase in general and administrative expenses of \$1.5 million is due primarily to an increase in personnel costs offset by a reduction in professional fees and dead deal costs. Non-operating income increased \$5.8 million primarily due to the sale of a Dana Corporation bankruptcy claim in 2006. Debt satisfaction gains, net decreased \$4.3 million due to the timing of debt satisfactions. Impairment charges increased due to the write off of intangible assets relating to a tenant bankruptcy. Minority interest expense decreased \$0.6 million due to a decrease in earnings at the partnership level. Equity in earnings of non-consolidated entities decreased by \$0.7 million primarily due to the impact of the write off of lease intangibles and the acceleration of above-market lease amortization offset by a gain on the sale of a Dana Corporation bankruptcy claim in 2006. Net income increased in 2006 by \$6.1 million primarily due to the net impact of items discussed above coupled with an increase of \$14.0 million in income from discontinued operations. The total discontinued operations increase of \$14.0 million is comprised of an increase in gains on sales of properties of \$11.0 million, an increase in debt satisfaction gains of \$5.0 million and a \$0.6 million reduction in impairment charges offset by a decrease of \$2.5 million in income from discontinued operations. Net income applicable to common shareholders increased by \$6.1 million due to the items discussed above.

The increase in net income in future periods will be closely tied to the level of acquisitions and dispositions made by the Company. Without acquisitions, which in addition to generating rental revenue, generate acquisition, debt placement and asset management fees from non-consolidated entities, the sources of growth in net income are limited to index adjusted rents (such as the consumer price index), percentage rents, reduced interest expense on amortizing mortgages and by controlling other variable overhead costs. However, there are many factors beyond management's control that could offset these items including, without limitation, increased

interest rates and tenant monetary defaults. As discussed in note 12 to the unaudited condensed consolidated financial statements the Company has entered

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

into a definitive merger agreement with Newkirk Realty Trust, Inc.

Off-Balance Sheet Arrangements

Non-Consolidated Real Estate Entities. As of June 30, 2006, the Company has investments in various non-consolidated real estate entities with varying structures. The properties owned by the non-consolidated entities are financed with individual non-recourse mortgage loans. Non-recourse mortgage debt is generally defined as debt whereby the lenders' sole recourse with respect to borrower defaults is limited to the value of the property collateralized by the mortgage. The lender generally does not have recourse against any other assets owned by the borrower or any of the members of the borrower, except for certain specified exceptions listed in the particular loan documents. These exceptions generally relate to limited circumstances including breaches of material representations and fraud.

The Company invests in non-consolidated entities with third parties to increase portfolio diversification, reduce the amount of equity invested in any one property and to increase returns on equity due to the realization of advisory fees. See note 6 to the unaudited condensed consolidated financial statements for combined summary balance sheet and income statement data relating to these entities.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK (\$000's)

The Company's exposure to market risk relates primarily to its variable-rate and fixed rate debt. As of June 30, 2006 and 2005, the Company's variable-rate indebtedness was \$0 and \$111,748, respectively, which represented 0% and 9.0% of total long-term indebtedness, respectively. During the three months ended June 30, 2006 and 2005 this variable-rate indebtedness had a weighted average interest rate of 8.0% and 6.1%, respectively. During the six months ended June 30, 2006 and 2005 this variable-rate indebtedness had a weighted-average interest rate of 8.1% and 6.1%, respectively. Had the weighted average interest rate been 100 basis points higher, the Company's net income would have been reduced by approximately \$36 and \$66 for the three and six months ended June 30, 2006 and \$39 and \$72 for the three and six months ended June 30, 2005. As of June 30, 2006 and 2005, the Company's fixed rate debt was \$1,156,975 and \$1,123,256, respectively, which represented 100% and 91.0%, respectively, of total long-term indebtedness. The weighted average interest rate as of June 30, 2006 of fixed rate debt was 6.0%, which is approximately 33 basis points lower than the fixed rate debt incurred by the Company during the three months ended June 30, 2006. With no fixed rate debt maturing until 2008, the Company believes it has limited market risk exposure to rising interest rates as it relates to its fixed rate debt obligations. However, had the fixed interest rate been higher by 100 basis points, the Company's net income would have been reduced by \$2,919 and \$5,846 for the three and six months ended June 30, 2006 and by \$2,598 and \$4,470 for the three and six months ended June 30, 2005.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

(a) Disclosure Controls and Procedures. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective.

Internal Control Over Financial Reporting

(b) Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

20

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings - not applicable.

ITEM 1A. Risk Factors.

There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K/A for the year ended December 31, 2005.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds - not applicable.

ITEM 3. Defaults Upon Senior Securities - not applicable.

ITEM 4. Submission of Matters to a Vote of Security Holders.

At the Company's Annual Meeting of Shareholders held on May 23, 2006, the following action was taken:

The shareholders elected nine individuals nominated to serve as the trustees of the Company until the 2007 Annual Meeting, as set forth in Proposal No. 1 in the Company's Notice of Annual Meeting of Shareholders and Proxy Statement for the Annual Meeting. The nine individuals elected, and the number of votes cast for, or withheld, with respect to each of them follows:

Nominee for Trustee	For	Withhold
-----	---	-----
E. Robert Roskind	45,944,291	1,487,065
Richard J. Rouse	45,955,610	1,475,746
T. Wilson Eglin	46,992,118	439,238
Geoffrey Dohrmann	46,101,866	1,329,490

Edgar Filing: LEXINGTON CORPORATE PROPERTIES TRUST - Form 10-Q

Carl D. Glickman	46,857,291	574,065
James Grosfeld	46,840,562	590,794
Kevin W. Lynch	47,141,163	290,193
Stanley R. Perla	47,137,265	294,091
Seth M. Zachary	44,154,359	3,276,997

The shareholders ratified the appointment of KPMG LLP as the independent registered public accounting firm for the Company for the fiscal year ending December 31, 2006, as set forth in Proposal No. 2 in the Company's Notice of Annual Meeting of Shareholders and Proxy Statement for the Annual Meeting. The number of votes cast for, against, or abstained, with respect to Proposal No. 2 follows:

For	Against	Abstain
---	-----	-----
46,967,612	350,019	113,725

ITEM 5. Other Information - not applicable.

ITEM 6. Exhibits

31.1 Certification of Chief Executive Officer pursuant to rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certification of Chief Financial Officer pursuant to rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

21

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
