**TELE NORTE CELULAR PARTICIPAÇÕES S.A.
REPORTS SECOND QUARTER 2007 RESULTS**

- EBITDA of R\$28.9 million or 25.6% of net service revenues in the 2Q07
- Net additions of 35,348 in the quarter
- Net debt of R\$192.9 million at the end of the quarter

Belo Horizonte, Brasil, August 02, 2007 Tele Norte Celular Participações S.A. (BOVESPA: TNCP3 (Common)/TNCP4 (Preferred); NYSE: TCN), the holding Company of the wireless telecommunications service provider in the States of Amapá, Amazonas, Maranhão, Pará and Roraima in Brazil, announced today its results for the second quarter of 2007. Net additions amounted to 35,348 in the quarter, increasing the Company's client base to 1,291,482. In the 2Q07, EBITDA totaled R\$28.9 million, representing 25.6% of net service revenues.

Operating Highlights:

Client base of 1,291,482 in the 2Q07

The Company's client base reached 1,291,482 in the second quarter of 2007, representing increases of 2.8% and 3.3% when compared to the 1Q07 and 2Q06, respectively. Net additions reached 35,348 customers.

In the second quarter of 2007, prepaid segment increased by 4.2% reaching 1,080,405 clients or 84% of the total base. The postpaid base decreased by 8,537 customers, ending the quarter with 211,077 clients or 16% of the total base.

Churn Rate

Blended annualized churn rate reached 42.7% in the 2Q07, higher than the 35.9% registered in the previous quarter as a consequence of increased prepaid churn rate. When compared to the 43.8% registered in the 2Q06, blended annualized churn rate decreased by 1.1 p.p., due to the decrease in the prepaid churn rate.

Annualized churn rate for the postpaid segment, which accounts for most of the revenues generated, totaled 26.7% in the 2Q07, practically in line with the 27.0% recorded in the 1Q07. When compared to the 2Q06, annualized churn rate for the postpaid segment decreased by 1.5 p.p. in the quarter.

Prepaid annualized churn rate totaled 46.0% in the 2Q07, higher than the 37.9% registered in the previous quarter, reflecting the resumption of normal churn rate levels following the exceptionally low figure in the 1Q07 caused by the clean-up of the customer base in the 4Q06. When compared to 2Q06, prepaid churn rate was reduced by 2.5 p.p. due to the rationalization of the acquisition campaigns.

Operating Revenues

Net service revenues totaled R\$112.6 million in the 2Q07, an increase of R\$4.1 million or 3.8% over the previous quarter due to the seasonal factors. When compared to the 2Q06, net service revenues increased by R\$28.6 million or 34.1%, related to the increase of R\$26.7 million or 97.3% in interconnection revenues caused by the adoption of the full billing rule for interconnection charges as of July 14, 2006. Excluding this impact, net service revenues would have reached R\$85.2 million in the 2Q07, a R\$1.3 million increase over the 2Q06.

Data revenues totaled R\$6.0 million in the 2Q07, lower than the R\$7.0 million registered in the 1Q07 and the R\$7.2 million recorded in the 2Q06.

Net equipment revenues totaled R\$7.2 million, in line with the previous quarter and R\$7.6 million lower than the R\$14.8 million posted in the 2Q06. This reduction is a consequence of higher volume of direct sales from manufacturers to the Company's dealers.

Handset subsidies for client acquisitions totaled R\$1.6 million or R\$9.1 per gross addition in the 2Q07, higher than the R\$0.8 million, or R\$4.9 per gross addition registered in the 1Q07. This increase is related to the Mothers' Day and Valentine's Day campaigns in the 2Q07. When compared to the 2Q06, handset subsidies for client acquisitions increased by R\$0.2 million.

As a result, total net revenues reached R\$119.8 million in the 2Q07, 3.7% higher than the previous quarter. When compared to the 2Q06, total net revenues increased by R\$21.0 million or 21.3% .

Operating costs and expenses

Cost of services totaled R\$47.1 million in the 2Q07, almost in line with the R\$46.9 million registered in the previous quarter. When compared to the 2Q06, cost of services increased by R\$21.4 million, or 83.2% in the quarter, as a consequence of higher interconnection costs due to the adoption of the full billing rule.

Selling and marketing expenses totaled R\$24.5 million in the 2Q07, higher than the R\$23.3 million reported in the previous quarter, associated to the Mothers Day and Valentine s Day campaigns. When compared to the same quarter of the previous year, these expenses were reduced by R\$2.1 million due to lower retention subsidies.

Customer acquisition cost increased from R\$139 in the 1Q07 to R\$141 in the 2Q07, due to higher subsidies and personnel expenses and to the Mothers Day and Valentine s Day sales campaigns. When compared to the second quarter of 2006, client acquisition cost increased by R\$19, as a consequence of higher expenses related to acquisition discounts and sales personnel associated to the restructuring of the Company s sales channels.

Retention costs totaled R\$13.1 million in the 2Q07, lower than the R\$14.9 million recorded in the 1Q07 as a consequence of lower expenses with relationship programs. When calculated against net service revenues, retention costs reached 11.6% in the quarter. When compared to the 2Q06, retention costs decreased by R\$3.6 million as a consequence of lower personnel expenses associated to the reorganization of Amazônia Celular s client service department.

General and administrative expenses reached R\$9.7 million in the 2Q07, a 10.7% increase over the R\$8.7 million registered in the previous quarter, mainly due to higher expenses with legal contingencies. When compared to the 2Q06, G&A increased by R\$1.1 million as a result of higher consulting expenses.

Other operating revenues reached R\$1.8 million, reflecting the reversal of provisions related to the end of the interconnection agreement negotiations with Embratel.

Bad debt provisions totaled R\$2.6 million in the 2Q07, lower than the R\$3.3 million recorded in the previous quarter. This reduction is associated to (1) reversal of a provision of loss in accounts receivable from Embratel which were considered bad debt, (2) improved collection agency performance, and (3) negotiations with corporate clients. When compared to the 2Q06, these provisions decreased by R\$1.8 million, due to the introduction of stricter rules governing the client acquisition process, focused on credit analysis and strong efforts to recover overdue billings as of April 2006. As a percentage of net service revenues, 2Q07 bad debt provisions totaled 2.3%, versus 3.1% and 5.3% registered in the 1Q07 and 2Q06, respectively. As a percentage of total net revenues, bad debt provisions totaled 2.2% in the 2Q07.

Average revenue per user (ARPU)

Postpaid MOU (minutes of use) totaled 244 in the 2Q07, representing a 5.2% increase when compared to the 232 recorded in the previous quarter, related to seasonal factors. When compared to the 2Q06, postpaid MOU increased by 33 minutes due to the better performance of the postpaid segment.

Postpaid ARPU reached R\$86.9 in the quarter, higher than the R\$85.4 registered in the 1Q07. When compared to the 2Q06, post-paid ARPU increased by R\$14.2 due to the adoption of the full billing rule. Excluding this impact, postpaid ARPU would have reached R\$70.7, R\$2.1 lower than the 2Q06, as a result of lower revenues from fixed operators and subscriptions (monthly fee) reflecting the reduction in the number of postpaid clients in the period.

Prepaid MOU totaled 43 in the 2Q07, lower than the 44 registered in the previous quarter. When compared to the 2Q06, 12 minutes of use per client were added due to the *Prá Falar Mais* and *Prá Falar Fácil* campaigns and the incentives to use more phone credits.

Prepaid ARPU totaled R\$17.1 in the quarter, higher than the R\$15.8 recorded in the 1Q07. When compared to the second quarter of 2006, prepaid ARPU increased by R\$8.0 due to the adoption of full billing rule. Excluding this impact, prepaid ARPU would have totaled R\$11.8, R\$2.6 higher than the 2Q06, mainly due to the higher volume of credits consumed by prepaid clients.

As a result, blended MOU reached 77 minutes, lower than the 78 and higher than the 67 registered in the 1Q07 and 2Q06, respectively. Blended ARPU totaled R\$28.9 in the 2Q07, higher than the R\$28.4 registered in the 1Q07 and the R\$21.9 recorded in the 2Q06.

Estimated market share of 21.9% in the 2Q07

Market share was estimated at 21.9% in the 2Q07, versus 22.3% in the 1Q07. Gross sales share was estimated at 24.7%, lower than the 26.2% recorded in the previous quarter.

EBITDA of R\$28.9 million in the 2Q07

EBITDA and EBTIDA margin (excluding handset revenues) in the 2Q07 totaled R\$28.9 million and 25.6% of net service revenues, respectively, compared to the R\$28.4 million and 26.2% posted in the 1Q07. When compared to the 2Q06, EBITDA and EBTIDA margin increased by R\$8.9 million and 1.9 p.p., respectively, as a consequence of the adoption of the full billing rule. Excluding this impact, 2Q07 EBITDA would have reached R\$25.2 million or 29.5% of net service revenues.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
