the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82- _____.

Disclaimer

Banco Itaú BBA S.A. was hired by Braskem S.A. (Braskem or Company) to prepare an economic and financial Valuation Report (Valuation Report) of the following companies: (i) Copesul - Companhia Petroquímica do Sul (Copesul), (ii) Ipiranga Petroquímica S.A. (IPQ), (iii) Petroquímica Paulínia S.A. (PPSA) and (iv) Ipiranga Química S.A. (IQ) (Copesul, IPQ, IQ e PPSA, together, the Assets) and of (vi) Braskem, in connection with the potential share incorporation (incorporação de ações) of a company named Grust Holdings S.A. which will hold Petróleo Brasileiro S.A. - Petrobras s (Petrobras) and Petrobras Química S.A. - Petroquisa s (Petroquisa) equity holdings in the Assets pursuant to article 252 of the Brazilian Corporate Law (the Transaction) . Braskem, Petrobras and Petroquisa will be hereafter referred to as Transaction Parties. The Assets and Braskem will be referred to as the Companies.

The Valuation Report was originally prepared in the Portuguese language and the Portuguese language version shall be considered as the only document valid for all legal purposes. In case there is any inconsistency between the Portuguese Version and this free translation into English the Portuguese version shall prevail.

1. This Valuation Report was prepared solely for the use of the Company, its board of executive officers, board of directors and general shareholders meeting and also for Grust Holdings s S.A. general shareholder meeting, in connection with the evaluation of the Transaction and shall not be used or relied upon by any other person to whom this Valuation Report is not expressly addressed, as mentioned above, or for other purposes other than the ones described herein. This Valuation Report, including its analyses and conclusions, is not a recommendation to any shareholder or director of Braskem or of Grust Holdings S.A. with respect to the exercise of its voting rights or the actions that may be taken with respect to any matter related to the Transaction. This Valuation Report is dated of December 31, 2007, except as provided in item 9 below.

2. In arriving in the conclusions presented in this Valuation Report, among other actions, we have: (i) reviewed the consolidated financial statements of: (a) the Company, for the years ended on December 31, 2005, 2006 and 2007, duly audited by KPMG Auditores Independentes, (b) of Copesul, for the years ended on December 31, 2005, 2006 and 2007, duly audited by PricewaterhouseCoopers, (c) of IPQ, for the years ended on December, 31 2005, 2006, and 2007, duly audited by PricewaterhouseCoopers; and (d) of IQ, for the years ended on December, 31 2006, and 2007, duly audited by PricewaterhouseCoopers; (ii) we reviewed other Companies information, including projections prepared by the Company and by third parties hired by the Company (including price projections for the main products and raw materials prepared by CMAI (Chemical Market Associates, Inc.)); (iii) we held discussions with members of Braskem s management on the Companies business and perspectives; and (iv) we took into consideration other public information, financial studies and analyses, economic research and market data, which we consider relevant in order to analyze the consistency of the information received from the Company (together, the Information) .

3. Regarding our review, we have assumed that all Information used in this Valuation Report is true, precise, and complete and all information that may be relevant was made available to us. As for the portion of Information that embodies projections or estimates of future events, we have assumed that such Information reflects the best estimates currently available for the Companies future performance. Also, regarding our review of the Information, we have analyzed its consistency, but we have not independently checked any part of the Information, or conducted any investigation or evaluation of any of the Companies assets or liabilities (contingent or not), and we have not received any report on the subject. We were also not asked to conduct (and we did not conduct any) physical inspections of the Companies properties or facilities. Finally, we have not evaluated the Companies solvency or fair value, considering the laws regarding bankruptcy, insolvency or of similar effect.

4. Due to the limitations mentioned above in item 3, we are not providing nor will provide, explicitly or implicitly, any representation or warranty regarding any Information used to reach the conclusions expressed in this Valuation Report. In the event that any of the assumptions mentioned on section 4 of this Valuation Report does not materialize, or in any way the Information is found to be incorrect, incomplete, or imprecise, our conclusions can be substantially altered.

5. In addition, to the extent that our analysis was made based on the discounted cash flow method, we have assumed a macroeconomic scenario consistent with market consensus compiled and published by Brazil's Central Bank, which may not materialize or be substantially different than actual results. Given that the analysis and the numbers are based on the forecasts of future results, they may not accurately correspond to actual and future financial results for the Companies, which can significantly be more or less favorable than those suggested by our analysis. Moreover, considering that those analysis are intrinsically subject to uncertainties, being based on various events and factors that are beyond our and the Companies' control, we accept no liability in case future results of the Company and/or any of the Assets substantially differ of the results presented in this Valuation Report. There is no guaranty that the Companies' future results will correspond to the financial projections that have served as the basis of our analysis and that the differences between the projections employed and the Companies' financial results will not be relevant. The Companies' future results can also be affected by market and economic conditions.

6. The preparation of a financial analysis is a complex process that takes into account a number of determinations regarding the more relevant and appropriate methods for a financial analysis, and also regarding use of such methods. We have arrived at a final conclusion based on the results of all analyses conducted, considered as a whole, and we haven't drawn conclusions based on, or related to any of our analysis factors or methods, individually. Therefore, we believe that our analysis must be considered as a whole and that the consideration of parts out of our analysis and of specific elements, not taking into consideration the whole analysis and conclusions, might result in an incomplete and incorrect understanding of the processes used for in our analysis and of our conclusions.

7. This Valuation Report only indicates a value estimate, under our criteria, derived from the use of the evaluation method called discounted cash flow, or of transaction comparable multiples, as the case may be, which are widely used methods financial evaluation and which do not evaluate any other aspect or consequences of the Transaction or of any contract, agreement, or understanding entered into in connection therewith. We do not express any opinion regarding the value of the shares issued in the context of the Transaction, or regarding the value to which the Companies' shares will be traded in the securities market at any time. Additionally, this Valuation Report is not and should not be used as (i) as a fairness opinion regarding the Transaction or (ii) a recommendation regarding any aspect of the Transaction. In addition, this Valuation Report does not discuss the strategic and commercial merits of the Transaction or of the strategic decision that have led to the Transaction. The results presented in this Valuation Report relate solely to the Transaction and are not to be used or relied upon on the context of any transaction, current or future, regarding the Companies, the economic group they are part of, or the sector in which they operate.

8. Pursuant to Braskem's instructions, the net debt calculation used in this Valuation Report takes into consideration some adjustments related to facts occurred after the date of December 31, 2007; these facts are specifically, (i) the payment of the third installment of the acquisition of Ipiranga Group's petrochemical assets by Ultrapar Participações S.A., made on February 27, 2008, (ii) the earn-out payment to Politeno Indústria e Comércio S.A.'s former shareholders, made on January 2, 2008; and (iii) the amount to be received for the sale of Braskem's interest in Petroflex Indústria e Comércio S.A., according to the press release published on December 13, 2007.

9. Also pursuant to Braskem's instructions, the calculation of the sum of Grust Holdings S.A. shareholdings in the Assets considers the shareholdings held on March 31, 2008.

10. In response to Braskem's request, and as an illustration only, we have presented in Appendix V an evaluation exercise of the Company (Evaluation considering Synergies), which presents Braskem's valuation (on a stand alone basis) increased by the incremental value correspondent to synergy gains resulting from the Transaction as estimated by the Company. Itaú BBA has not carried any evaluation or analysis regarding such estimate and such estimate was not taken into consideration in the preparation of the Valuation Report.

11. Our Valuation Report is necessarily based on information that was made available on this date and considers prevailing market, economic and other conditions, as they are currently presented and assessed. Although the unfolding of current and future events may affect the conclusion presented in this Valuation Report, we undertake no obligation to update, revise, rectify or revoke this Valuation Report, in whole or in part, as a result of any event or unfolding of an event or for any other reason.

12. Our analysis does not distinguish between different classes and types of shares issued by the Companies, if applicable, and do not take into consideration operational, tax (including the amortization of goodwill), or other profits or losses, we also have not taken into account any benefits that may derive from synergies or any incremental value or cost that may result from the conclusion of the Transaction, should it be concluded, or of any other Transaction. Our analysis also does not take into account the profits or losses that may materialize after the Transaction as a result of any change in the course of business or business strategy.

13. The Company has agreed to reimburse and indemnify us and certain persons related to us in connection with certain responsibilities that may arise of our engagement. We have received a fee to prepare the Valuation Report and

such fee is not contingent on the conclusion of the Transaction.

14. We have from time to time provided investment banking, commercial banking, financial services and other types of services to the Company and its affiliates and also to the Assets and to Petrobras and to other companies involved in the Transaction in respect of which we have received compensation, we expect to continue to provide those services to those companies and to receive compensation in connection therewith. We and our affiliates provide a wide range of financial and other services related to securities, brokerage and investment banking. In the regular course of our business, we and our affiliates may buy, hold or sell, for our own account or for the benefit of clients, shares, bonds and other securities or financial instruments (including bank loan and other) issued by or against Braskem, the Assets, Petrobras or any other company involved in the Transaction, as well as providing investment banking and other services to those companies. We believe that those services do not pose a conflict of interest that would have the affect of diminishing our independence in our role as a financial analyst of companies. In addition, the analysts employed by our research departments and by other divisions within the Itaú Group may base their analysis and reports in different assumptions (operational, market or otherwise) and methodologies than those employed in the preparation of this Valuation Report and, as a result, reports and publications made by those professionals may contains different results and conclusions than those of this Valuation Report. Those professionals are independent and in no way professionally connected to the professionals in charge of the preparation of this Valuation Report. We have adopted compliance procedures to preserve the independence of our research analysts, who may have different views than those of our investment banking department. We also adopt compliance procedures to preserve de independence between our investment banking division and other departments within Itaú BBA and within other companies belonging to the Itaú Group, including, without limitation asset management, proprietary trading desk and debt and capital markets.

15. We have not provided advice on accounting, audit, legal or tax matters in connection with this Valuation Report.

16. The financial calculation presented in the Valuation Report may not result always in an exact sum as a result of rounding.

Methodology and Assumptions

Braskem Operacional, Copesul, IPQ, and PPSA's Equity Value was calculated using Discounted Cash Flow Methodology

Main assumptions considered in the projections of Free Cash Flow

Macroeconomic Scenario	° The adopted macroeconomic assumptions were based on consensus estimates compiled and published by Banco Central do Brasil (Brazil's Central Bank)
Prices	° Projections of product and raw material prices were provided by an international industry specialized consulting firm (CMAI) for products in the international markets adjusted to the local market, based on the companies' price history
Sales Volume	° Local market demand estimate based on GDP growth projection, using statistical regression of historic data between GDP growth and local demand on petrochemical products
Production Capacity	° Only the expansion of production capacity duly approved by the companies' respective boards were considered
Cash Flow Projection	° Cash Flow Projection in nominal US Dollars ° The base date of the Free Cash Flow is December 31, 2007 ° 10-year projection period (2008 to 2017)
Discount Rate	° Discount rate calculated in nominal US dollars, based on: (i) unlevered Betas of comparable companies, (ii) optimal capital structure based on comparable companies of the sector and discussions with the Company's Management, (iii) country risk, (iv) cost of debt estimate, and (v) income tax and social contribution on net profit projected average rate
Perpetuity	

° Gordon's Model perpetuity growth.
Normalized free cash flow in perpetuity (based on the projected period average) In PPSA's case, the projected period average and the capacity in the projection's last year were considered

IQ's Economic Value was calculated based on Comparable Companies Transactions Multiples

Companies Valuation Summary

Company	Valuation Methodology	WACC (US\$ nominal)	Enterprise Value Range ⁶ (R\$ mm)	Economic Value Range ⁶ (R\$ mm)
Braskem Operacional ¹	Discounted Free Cash Flow	9.99%	10,638 11,758	6,055 6,693
Copesul	Discounted Free Cash Flow	10.52%	4,679 5,172	3,422 3,782
IPQ Operacional	Discounted Free Cash Flow	10.73%	1,245 1,376	606 669
PPSA	Discounted Free Cash Flow	10.00%	937 1,036	648 716
IQ Operacional	Comparable Transactions Multiples ²	n.a.	146 161	133 147
Braskem (Consolidated)	Sum of the Parts ³	n.a.	14,969 16,544	9,033 9,983
Grust Holdings ⁴	Sum of the Parts ⁵	n.a.	2,638 2,915	1,803 1,992

Notes:

1 Braskem's interests in Copesul, IQ, and PPSA are not considered

2 The comparable companies' average transactions multiples is considered (see page 58)

3 Stakes directly or indirectly held by Braskem in the Companies

4 This company is 100% owned by Petroquisa and holds Petrobras/Petroquisa's direct and indirect stakes in IQ, IPQ, Copesul, and PPSA

5 Pro forma stakes directly or indirectly held by Grust Holdings S.A. in the Companies (according to note 9 on page 3)

6 Range based on a 5% above and below the valuation's average point

Itaú BBA Qualifications

Itaú BBA has a proven track-record in valuating companies, with outstanding participation in mergers and acquisitions in the Brazilian market:

Itaú BBA's Experienced Team

° **Marcelo Naigeborin**, *Managing Director, Investment Banking*

Marcelo Naigeborin has recently taken the role of Managing Director, in charge of Investment Banking for various service and industrial sectors in Brazil. Previously, Marcelo was a Managing Director for Merrill Lynch in Brazil and co-responsible for the Investment Banking area in the country. In this role, Marcelo conducted the origination and execution of various mergers and acquisitions, IPOs, corporate restructuring, capital raising through shares and debt instruments for Brazilian and multinational companies. Recently, Marcelo worked as an advisor for: Banco Itaú for the acquisition of BankBoston's Latin America operations, a US\$3.2 billion transaction; Anhanguera Educacional, Bematech, Banco Panamericano, and BM&F for their IPOs; Votorantim Celulose e Papel S.A. for their asset swap with International Paper, among other important transactions. Before joining Merrill Lynch, in 1998, Marcelo was one of the people in charge of the opening of Morgan Stanley & Co. Brazilian office, the institution he joined in 1993, in New York, in the Investment Banking division. Marcelo graduated in Aeronautical Engineering at Instituto Tecnológico de Aeronáutica - ITA (Aeronautics Technological Institute), São José dos Campos, SP, Brazil.

° **Fernando Henrique Meira de Castro**, *Senior Vice President, Investment Banking*

Fernando is in charge of Mergers and Acquisitions, he has been operating in this sector for approximately 10 years. In 2007, Fernando Meira worked as an advisor for Energisa on the sale of generation assets to Brascan; for Suzano Petroquímica on the sale of its controlling shares for Petrobras; besides Serasa's shareholders on the stake sale for Experian. In 2006, Fernando worked as an advisor on Vivax's sale to Net; the consortium headed by Cemig and Andrade Gutierrez on the acquisition of Light S.A.; Suzano Petroquímica, Itochu, and Sumitomo on the sale of Politeño; and Ampla Energia e Serviços S.A. on the sale of its generation assets. In 2005, we highlight the acquisitions of Polibrasil by Suzano Petroquímica; of Coopercitrus by CBD; and the advisory work for Usiminas on the repurchase of Cosipa's minority interest. The companies Fernando worked with as an advisor include: Petrôbras - Petróleo Brasileiro S.A., Petrobras Distribuidora S.A., Petrobras Química S.A., Electrolux S.A., Elevadores Atlas-Schindler S/A, Ipiranga Group, Jereissati Group / Iguatemi Empresa de Shopping Centers S.A., Lorentzen Group, Rede Group, Vicunha Group, Multibrás S.A. Eletrodomésticos, Petroquímica União S.A. - PQU, Promom Engenharia Ltda, Tubos e Conexões Tigre Ltda, Votorantim Cimentos. Before Itaú BBA, Fernando worked for Esso Brasileira de Petróleo in its strategic planning area for five years, as part of Exxon Corporation's M&A team. Fernando graduated in Mechanical Engineering and earned a B.S. in Finance at Fundação Getúlio Vargas, and a BS in Marketing at UC Berkeley.

° **Rafael Werner**, *Analyst, Investment Banking*

Rafael joined Itaú BBA in November 2004 and, since March 2005, has been part of the Investment Banking team. Prior to Itaú BBA, Rafael worked in the corporate law area, as an intern, at the law firms Tess Advogados, in São Paulo; and D'Urso Munari e Gatti Studio Legale, in Rome. In the equity market, Rafael worked for Bematech, Iguatemi, Terna, Profarma, Totvs, and Energias do Brasil's IPOs; and for Hering, Romi, Eletropaulo, Tractebel, and PIBB's follow-on offerings. Most recently, Rafael participated on Suzano Petroquímica's sale to Petrobras. Rafael participated on Ambev's tender offer in the scope of merging with Inbev. Rafael is a native Portuguese speaker who is fluent in English and in Italian and graduated in Law at Pontifícia Universidade Católica de São Paulo - PUC/SP.

° **Fabien Bornhausen Roulet**, *Analyst, Investment Banking*

Fabien joined Itaú BBA in June 2005, as a Trainee, and for two years worked as a Project Finance analyst, before joining the Investment Banking team. Between 2003 and 2005, he worked in Product and Financial Planning areas, at Unibanco. Fabien was part of various projects in the infrastructure, transportation, and sugar & alcohol sectors. Most recently he participated on MMX Amapá's Project Finance structuring and on the MG-050 highway's PPP (Public-Private Partnership). Fabien is a native Portuguese speaker who is fluent in English and in French and graduated in Business Administration at Universidade de São Paulo.

Evaluator Statements

° Itaú BBA declares, for the purposes of Order (CVM - Brazilian Securities and Exchange Commission) 319/99, that, on March 31, 2008:

Has no direct or indirect interest in the Companies, or in the Transaction, and that there is no other relevant circumstance that may typify conflict of interest;

The Companies' majority shareholders or the administrators did not direct, limit, hinder, or practice any act that have, or might have jeopardized the access, the use, or the learning of information, assets, documents or work methods that were relevant for the quality of the conclusions;

There is no conflict or pooling of interests, real or potential, with Braskem, or regarding the minority shareholders, or the Companies, their partners, or regarding the Transaction

Braskem Company Description

Note:

1 US inflation projection from the site Congressional Budget Office

2 Instituto Brasileiro de Geografia e Estatística - IBGE (Brazilian Institute of Geography and Statistics)

From 2012, the Selic, inflation, GDP growth rate projections were kept constant and the exchange rate projections reflect the upholding of the parity between US Dollar and Brazilian Real

Main Assumptions Used in the Valuation of Braskem

Sales Volume	<p>Sales-volume calculation was based on a market model, according to information given by and discussed with Braskem</p> <p>Local-market sales volume based on statistical regression of historical data between PE and PP demand growth and local GDP growth</p> <p>Foreign-market sales volume calculated as the difference between production and local-market sales volume, when relevant</p> <p>Maintenance of the production capacity during all the projected years</p>
Price	<p>Price per product according to CMAI 's international market projected data adjusted to the local price, based on the Company 's price history</p>
Net Revenues	<p>Calculation based on the volume of products sold multiplied by each products ' projected price</p>
COGS	<p>Calculation made based on naphtha price curve, according to CMAI 's projected data and the Company 's technical-index history, in addition to other historical costs</p>
Sales Expenses	<p>Calculated as a percentage of net revenues, based on the average of the last three years</p>
Administrative and General Expenses	<p>Part of the expenses are fixed and adjusted according to US and Brazilian inflations and the other part is variable and pegged to sales volume</p>

Main Assumptions Used in the Valuation of Braskem (cont.)

Depreciation and Amortization	Calculation made based on new investments and existing fixed assets depreciation schedule
CapEx	According to the Company's projections, considering maintenance halt and equipments' replacement investments
Working Capital	Maintenance of current-asset and current-liability average term
Income Tax / Social Contribution	It is considered a tax benefit for the current Income Tax rate up to 2013 Conservatively, it considers the payment of 9% of CSLL (social contribution on income before taxes) during the whole projection period ¹
Terminal Value	Actual perpetuity growth of 0.5% per year

Note:

¹ Despite the fact that the Company's external attorneys believe in the success of the Company's case requesting not to pay the CSLL [Social Contribution on net profit], following a conservative policy, we have considered the CSLL payment, for the whole period.

Main assumptions used in the valuation of Copesul

Sales Volume	<p>Maintenance of the production capacity Production capacity usage rate of 98%, for years without halt, and 93%, for years with halt Production mix based on productivity's technical coefficient and index histories</p>
Price	<p>Ethylene and propane prices calculated using the margin-sharing formula Margin sharing reflects the agreement made between Copesul and the second-generation companies of Triunfo's Petrochemical Complex aiming to share profits among the companies</p>
Net Revenues	<p>Calculation made based on volume of products sold multiplied by each product's projected price</p>
COGS	<p>Cost calculation based on Naphtha's price curve, in addition to other historical costs</p>
Sales Expenses	<p>Calculated as a percentage of revenues, based on Copesul's history</p>
Administrative and General Expenses	<p>Fixed expenses adjusted by inflation projections Variable expenses pegged to sales volume</p>

Main assumptions used in the valuation of Copesul (cont.)

Depreciation and Amortization	Calculation based on new investments and existing fixed assets depreciation schedule
CapEx	According to the Company's projections
Working Capital	Maintenance of current-asset and current-liability average term
Income Tax / Social Contribution	Calculation based on rates projected by the Company, consistent with standards' history and with the Company's future expectations
Terminal Value	No actual growth in perpetuity

Main assumptions used in the valuation of PPSA

<p>Sales Volume</p>	<ul style="list-style-type: none"> o Sales-volume calculation was based on a market model, according to information given by and discussed with the Company o Local-market sales volume based on statistical regression of historical data between PE and PP demand growth and local GDP growth o Foreign-market sales volume is the difference between production and local-market sales volume, when relevant
<p>Price</p>	<ul style="list-style-type: none"> o Price per product according to CMAI s international market projected data adjusted to the local price, based on the Company s price history
<p>Net Revenues</p>	<ul style="list-style-type: none"> o Calculated based on the volume of products sold multiplied by each product s projected price
<p>COGS</p>	<ul style="list-style-type: none"> o Cost calculation based on propene s projected price curve, in addition to other historical costs, according to information given by and discussed with the Company
<p>Administrative, Sales and General Expenses</p>	<ul style="list-style-type: none"> o Calculated as a percentage of revenues, according to information given by and discussed with the Company

Main assumptions used in the valuation of PPSA (cont.)

Depreciation and Amortization	◦ Calculation based on new investments and existing fixed assets depreciation schedule, according to information given by and discussed with Braskem
CapEx	◦ According to the Company's projections
Working Capital	◦ Calculation based on current-asset and current-liability average term estimate, according to information given by and discussed with Braskem
Income Tax / Social Contributions	◦ Considers the Income Tax and Social Contribution effective rate of 34%
Terminal Value	◦ No actual growth in perpetuity

Grust Holdings - Valuation Summary

Specifically for the Transaction's purposes, Petrobras will transfer its interests in the petrochemical companies of Braskem's controlled complexes to a holding called Grust Holdings

Economic Value¹

(R\$ million, except when otherwise noticed)

	100 % Equity Value	Grust Stake	Proportional Equity Value	
Copesul	3,602	20.8%	749	(1)
IQ Consolidated	2,189	40.0%	876	(2) = (3) + (4)
IQ - Operacional	140	100.0%		(3)
IPQ Consolidated	2,049	100.0%		(4) = (5) + (6)
IPQ - Operacional	638	100,0%		(5)
Copesul	3,602	39.2%		(6)
PPSA	682	40.0%	273	(7)
Grust Holdings Economic Value Total			1,897	(1)+(2)+(7)
Economic Value Range		1,803		1,992
÷ # Grust shares (thousands)			695,697	
Price per Share		R\$2.59		R\$2.86
		-5%		+5%

Note:

1 Grust's pro-forma stakes (see Note 9 page 3) of the Assets

Considerations

Grust Holdings S.A. (Grust Holdings) is a company 100% owned by Petroquisa that holds stakes only in petrochemical assets, which will be transferred by Petrobras and by Petroquisa to Braskem in the Transaction.

The methodology used for Grust Holdings is the Sum- of-Parts valuation, considering the pro-forma stakes hold by Petrobras and Petroquisa of the Assets

The Economic Value calculated for Grust Holdings is between R\$1,803 and R\$1,992 million

Source: Companies Reports

Notes:

1 Provision for Contingencies are considered in the Companies balance sheet

2 Adjustment made on Braskem's Net Debt, regarding the debt of Copesul's takeover, already signed in Copesul's net debt

3 Related to facts occurred after the base date, December 31, 2007, to reflect the effects and results of the corresponding operations, to allow its inclusion in the valuation results, as if such operations were concluded on December 31, 2007

III. Performance of Braskem s Shares at Bovespa

Source: Bloomberg, as of March 31, 2008

IV. Potential Synergies of the Transaction

Given the present value of the Transaction's synergies (Braskem's estimate of up to US\$1.1 billion)

Economic Value considering Potential Synergies

Note:

1 Synergies' value informed by Braskem (US\$ 1.1 billion) converted by the exchange rate of Dec/31/2007

Considerations

° The present value of the potential Synergies after the conclusion of the Transaction, according to Braskem's estimate, can be of up to US\$1.1 billion

° The Synergies' present value represents only an estimate of the Company on the Transaction's potential results

Braskem's Economic Value would range between R\$25.31 and R\$27.98 per share

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
