FOR IMMEDIATE RELEASE - São Paulo, May 8, 2012 – Gafisa S.A.

(Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported audited financial results for the ended March 31, 2012.

Duilio Calciolari, Chief Executive Officer, said: "During the first quarter of 2012 we **focused on implementing the new strategy** for the Company which: (i) established dedicated operating structures by brand; (ii) reducing risk at Tenda ; (iii) expanding the contribution of AlphaVille's developments in our product mix and; (iv) refocusing the Gafisa brand on its core markets of São Paulo and Rio de Janeiro. We are **making progress in achieving our operating cash flow guidance** of R\$500- R\$700 million for 2012 with strong unit deliveries of 6.165, sales of inventory and positive cash flow generation at Tenda for the month of March.

Gafisa continues to witness demand throughout Brazil for the middle and middle to high income products represented by the Gafisa and AlphaVille brands, which sold over R\$498.7 million during the quarter, with a consolidated sales velocity of launches of 48%. With the implementation of a **narrowed geographic focus**, Sao Paulo accounted for 100% of the R\$214.7 million launches for the Gafisa segment in the 1Q12 and all of the AlphaVille projects of R\$249.0 million launched in the same period were outside of Sao Paulo and Rio de Janeiro."

"Planning is being realigned to get 'back to the basics', which means focusing squarely on **obtaining and maintaining operational consistency.**"

Net revenue for the first quarter of 2012, recognized by the Percentage of Completion (“PoC”) method, increased 27% to R\$928 million on a year-over-year basis.

Gross profit gained 75% year-over-year to R\$201.6 million, as a result of lower level revenue reversal, without the impact of budget cost adjustments as compared to the same period of previous year. Gross margin reached 22%, as it is still impacted by a higher contribution of lower margin projects under construction, whose sale and delivery we expect to conclude within the next fifteen months.

EBITDA was R\$105 million, 267.8% above the R\$29 million posted during the first quarter of 2011. EBITDA for Gafisa and AlphaVille totaled R\$82 million and R\$40 million, respectively, while the EBITDA for Tenda was negative R\$17 million. Higher volume of EBITDA YoY was a result of improved sales performance of inventories. EBITDA Margin reached 11.3% and ex-Tenda 20%, well above the 4% and 14%, respectively posted in the previous year.

The 1Q12 net loss was R\$31.5 million compared with R\$13.7 million in 1Q11. The 1Q12 loss was a result of revenue reversals related to R\$340 million worth of contract dissolutions related to units at the low-income business, coupled with recognition of projects with lower margins as a result of the budget review announced in the previous quarter.

At the end of March 31, 2012, the Company had approximately R\$947 million in cash and cash equivalents compared to R\$984 million at the end of 4Q11. The net debt to equity ratio reached 122% in the first quarter of 2012, from 118% in the 4Q11.

OPERATING RESULTS

Project launches totaled R\$464 million in 1Q12, a 10% decrease compared with 1Q11. The change reflects the restriction of Tenda launches to those that can be immediately transferred to financial institutions. The Gafisa and AlphaVille segments represented 46% and 54% of total launches, respectively.

Consolidated pre-sales totaled R\$408.2 million in the first quarter, a 50% decrease compared to 1Q11. Sales from inventory represented 45% of the 1Q12 total, while units launched during the same year accounted for the remaining 55%. First quarter sales velocity of launches reached 10.4%, or 16.1% ex-Tenda.

The Group delivered 34 projects encompassing 6,165 units with a potential sales value of R\$1.1 billion during 1Q12.

RECENT EVENTS

Progress towards Operating Cash Flow Generation

Gafisa ended the first quarter with R\$947 million in cash, which is similar to the balance at the end of 2011 after paying all obligations. In the 1Q12, preliminary consolidated cash burn was R\$76 million. Excluding the accrual of Gafisa debt of R\$90 million in the 1T02, we should have a cash generation instead of a consumption. Our operational consolidated cash flow was neutral in the 1Q12 and in March, Tenda achieved positive operating cash flow.

Chart 1. Cash Consumption (3Q10 – 1Q12)

Updated Status of the Results by Brand

Gafisa is delivering results reflected the new turnaround strategy:

Gafisa: (1) We are delivering our lower margin projects. Higher concentration projects launched in New Markets that should be finished this year. (2) Improved sales performance related to inventory.

Tenda: (1) Since June the number of units contracted by financial institutions has accelerated, which in part reflects the addition of a new CEF unit dedicated to major homebuilders. (2) In the first quarter, Tenda transferred 2793 units to financial institutions or 23% of the mid-range of guidance provided for the full year of 10.000–14.000 customers. (3) In March, Tenda achieved positive operating cash flow.

AlphaVille: (1) Continues to launch high demand developments - two projects (Juiz de Fora and Sergipe) were launched in March with sales of 62% in just the final month of the quarter. (2) The results underscore the growing share of AlphaVille in the product mix. The brand accounted for 54 percent share of first-quarter consolidated launches, up from a 35 percent a year ago.

Record delivery units

In the first quarter of 2012, the Company also presented record delivery units. Gafisa delivered 34 projects encompassing 6,165 units, double the 3,060 delivered during 1Q11, with a potential sales value of R\$1.1 billion during the first quarter. In March, the Gafisa Group achieved record unit deliveries of 3,338 units.

CONSOLIDATED DATA FOR THE GAFISA GROUP

Consolidated Launches

First-quarter 2012 launches totaled R\$464 million, a 10% decrease compared to 1Q11, as the Group halted Tenda launches to focus on execution and delivery. The result represents 15% of the mid-range of full-year launch guidance of R\$2.7 to R\$3.3 billion and is in line with seasonally lower launches in the first quarter.

Four projects/phases were launched across 3 states in the first quarter, with AlphaVille accounting for 54% of launches and Gafisa the remaining 46%.

Consolidated Pre-Sales

First-quarter 2012 consolidated pre-sales totaled R\$408.2 million, a 50% decrease compared to 1Q11. Sales from launches represented 55% of the total, while sales from inventory comprised the remaining 45%. Consolidated sales over supply reached 10.4%, compared to 21.4% in 1Q11, reflecting fewer launches to pursue remedial actions at Tenda. Excluding the Tenda brand, first-quarter sales over supply was 16.1%, compared to 17.7% in 4Q11 and 21.6% in 1Q11. The consolidated sales speed of launches reached 48.1%.

AlphaVille Pre-Sales

First quarter pre-sales reached R\$181.9 million, a 6% increase compared to 1Q11. The residential lots segment's share of consolidated pre-sales increased to 45% from 25% in 1Q11. In 1Q12, sales velocity (sales over supply) was 22.2%, compared to 28.1% in 1Q11. First-quarter sales velocity from launches was

63.2%. Sales from launches represented 85% of total sales, while the remaining 15% came from inventory.

Projects demonstrating above average sales velocities include AlphaVille Sergipe, which was launched in March and achieved sales exceeding 65% in the first quarter, and AlphaVille Juiz de Fora, which was launched in February and achieved more than 55% sales in the same period.

Note: The VSO refers contracted sales over the corresponding period of the offer. In this calculation, we consider the stock adjusted to reflect the correct.

AlphaVille Segment Delivered Projects

AlphaVille delivered 3 projects with 994 units and an approximate PSV of R\$122 million during 1Q12. The delivery date is based on the “delivery meeting” that takes place with customers, and not upon the physical completion, which is prior to the delivery meeting. TENDA SEGMENT

Focuses on affordable residential developments, with unit prices between R\$80,000 and R\$200,000, has 20 regional store fronts, and projects developed in 105 cities across 15 states.

Tenda Segment Launches

Reflecting remedial actions at Tenda and a focus on execution and delivery, no projects were launched in the first quarter. Throughout 2012, Tenda is not expected to represent more than 10% of consolidated launch guidance of between R\$2.7 and R\$3.3 billion.

Tenda Segment Pre-Sales

In keeping with a necessary change in strategy, 1Q12 gross pre-sales were stable at R\$248.7 million. First quarter net pre-sales in the low income segment were negative R\$90.4 million, compared to negative R\$216 million in 4Q11. The difference reflects the dissolution of R\$339.6 million in contracts with potential

homeowners who no longer qualified for a bank mortgage due to a change in circumstance, such as lack of financial capacity, increased income, move to dual household income, cessation of employment etc. Consequently, units, which are on average more than 70% complete, will be returned to inventory and eligible for resale to qualified customers. We collected on average a down payment of 6% of the units that will be resold through financial institutions, where according to the PoC, the percentage of the incurred cost of a unit's value is received upfront. Going forward, pre-sales recognition and the remuneration of Tenda sales force will be based on the ability to pass mortgages on to banks.

Note: 1 PoC – Percentage of completion method. Negative numbers are related to dissolutions

Tenda Segment Operations

Since June, 2011 we have witnessed an acceleration in the number of units contracted by financial institutions, which is in part likely due to the addition of a new CEF unit dedicated to major homebuilders. This improvement resulted in the delivery of 2,336 units in 1Q12. Transferred units totaled 2,500 units during the first quarter. We expect the number of units transferred to increase throughout 2012.

INCOME STATEMENT

Revenues

On a consolidated basis, 1Q12 net revenues totaled R\$928 million, a 27% increase from 1Q11. During 1Q12, the Gafisa brand accounted for 58% of net revenues, AlphaVille comprised 15% and Tenda the remaining 27%. Gross Profit

On a consolidated basis, 1Q12 gross profit totaled R\$202 million, a increase of 75% over 1Q11, on the back of lower level revenue reversal and lower impact of budget cost adjustments, as compared to the same period of previous year. Gross margin reached 23.9%, still below normalized levels, as it is still impacted by a higher contribution of lower margin projects under construction, whose sale and delivery we expect to conclude within the next fifteen months.

Selling, General, And Administrative Expenses (SG&A)

SG&A expenses totaled R\$137 million in 1Q12, a 18% increase on the R\$117 million in expenses posted in 1Q11. Selling expenses decreased 2% to R\$58 million. Administrative expenses reached R\$79 million, a 40% increase over the R\$56 million posted in 1Q11. The main reasons for SG&A expenses increase were: 1)provision related to the distribution of variable compensation, 2)Administrative expenses related to the expansion of Alphaville operations and 3)new structure in smaller cost scale with the new strategy to segregate and give focus on each brand.

Consolidated Adjusted EBITDA

EBITDA was R\$105 million, 267.8% above the R\$29 million posted during the first quarter of 2011. EBITDA for Gafisa and AlphaVille totaled R\$82 million and R\$40 million, respectively, while the EBITDA for Tenda was negative R\$17 million. Higher volume of EBITDA YoY was a result of improved sales performance of inventories and a lower dissolutions compared to the previous period. EBITDA Margin reached 11.3% and ex-Tenda 20%, well above the 4% and 14%, respectively posted in the previous year.

Depreciation And Amortization

Depreciation and amortization in 1Q12 was R\$18 million, an increase of R\$6 million when compared to the R\$12 million recorded in 1Q11, mainly due to higher showroom depreciation.

Financial Results

Net financial expenses totaled R\$42 million in 1Q12, compared to net financial result of R\$31 million in 1Q11 as a result of a higher level of leverage.

Taxes

Income taxes, social contribution and deferred taxes for 1Q12 amounted to R\$20 million, compared to R\$19 million in 1Q11

Adjusted Net Income

The adjustments mentioned related to costs and expenses, as well as financial expenses, had a direct impact on the company's profitability, resulting in a net loss in 1Q12 of R\$18.3 million compared to a net loss of R\$33 million in the same period of 2011.

Backlog Of Revenues And Results

The backlog of results to be recognized under the PoC method reached R\$4.2 billion in 1Q12, 4.3% higher than the R\$4.06 billion posted in 1Q11 and 6.2% lower than the R\$4.5 billion posted in 4Q11. The consolidated margin for the quarter was 35,7%, higher than the 39% in 1Q11 and 123 bps higher than the 34.5% posted in the 4Q11, mainly as a result of budget cost revisions and lower results to be recognized. The table below shows the backlog margin by segment:

BALANCE SHEET

Cash and Cash Equivalents

On March 31, 2012, cash and cash equivalents reached R\$947 million. We believe our cash position is sufficient to execute our development plans, and we see no need to increase this current level.

Accounts Receivable

At the end of 1Q12, total accounts receivable decreased 4% to R\$9.1 billion, from R\$9.5 billion in 4Q11.

Inventory at market value totaled R\$3.5 billion in 1Q12, which is in line with the R\$3.5 billion registered in 4Q11. On a consolidated basis, our inventory is at a level of 10 months of sales based on LTM sales figures.

At the end of 1Q12, finished units accounted for 9% of total inventory. We continue to focus on reducing finished inventory primarily concentrated under the Gafisa brand, which represents 3% of total finished inventory of R\$3.5 billion and 1/3 of finished units of R\$322 million.

Note: Adjusted by cancellations and dissolutions. ¹Completed units (at market value): value adjusted according to incurred costs, but already delivered to customers (general meeting with customers). Given the same accounting criteria, the value would be R\$186.4 million.

Consolidated inventory at market value remained stable on a sequential basis. The market value of Gafisa inventory of R\$1.96 billion, 56% of total inventory, was stable at the end of 1Q12. The market value of AlphaVille inventory totaled R\$636 million at the end of 1Q12, a 11% increase compared to the end of 4Q11. Tenda inventory was valued at R\$915 million at the end of 1Q12, a 2% decrease compared to the end of 4Q11.

Liquidity

As of March 31, 2012, Gafisa had a cash position of R\$947 million. On the same date, Gafisa's debt and obligations to investors totaled R\$4.3 billion, resulting in net debt and obligations of R\$3.3 billion. The net debt and investor obligations to equity and minorities ratio was 122% compared to 118% in 4Q11, due to R\$76 million cash burn in the first quarter. Our operational consolidated cash flow was neutral in the 1Q12 and in March, Tenda achieved positive operating cash flow. Excluding project finance, this net debt/equity ratio reached 48.3%.

Gafisa's cash position and liquidity are sufficient to execute our development plans. Gafisa's current debt maturity structure includes 32% of the total debt due within one year. We expect positive operating cash flow of between R\$500 – R\$700 million in 2012. Gafisa has additional receivables (from units already delivered) of more than R\$500 million available for securitization and R\$370 million of finished units in inventory. We also highlight our current debt covenants ratios, as shown below in the table 45.

Currently we have access to a total of R\$1.6 billion in construction finance lines contracted with banks and R\$0.9 billion in lines in the process of approval. Also, Gafisa has R\$2.4 billion available in construction finance lines of credit for future developments. The following tables provide information on our debt position:

OUTLOOK

With the introduction of a new strategy and organizational structure, Gafisa is already making progress toward achieving its 2012 guidance. Launches for 2012 are expected to be between R\$2.7 and R\$3.3 billion, reflecting a new, more targeted regional focus and the deliberate slowdown of the Tenda business. Gafisa should represent 50%, Tenda 10% and AlphaVille 40% of launches. For the first quarter of 2012, the Gafisa Group launched R\$464 million.

The Gafisa Group plans to deliver between 22,000 and 26,000 units in 2012 of which 30% will be delivered by Gafisa, 50% by Tenda and the remaining 20% by AlphaVille. During the first quarter of 2012, the Company delivered 6,165 units and transferred 2,793 Tenda units to financial institutions.

Finally, the Company expects to generate between R\$500 million and R\$700 million in operating cash flow for the full year of 2012. At March 31, 2012, the Company had R\$947 million in cash and cash equivalents. The key drivers of cash flow generation include: (i) our ability to deliver units at Gafisa; (ii) the transfer of Tenda units to financial institutions; (iii) the sale of inventory; (iv) the securitization of receivables; (v) the sale of non-strategic land.

GLOSSARY

Affordable Entry Level

Residential units targeted to the mid-low and low income segments with prices below R\$200 thousand per unit.

Backlog of Results

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog of results represents revenues minus costs that will be incurred in future periods from past sales.

Backlog of Revenues

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues over a multi-year period for each residential unit we sell. Our backlog represents revenues that will be incurred in future periods from past sales.

Backlog Margin

Equals to “Backlog of Results” divided “Backlog of Revenues” to be recognized in future periods.

Land Bank

Land that Gafisa holds for future development paid either in Cash or through swap agreements. Each decision to acquire land is analyzed by our investment committee and approved by our Board of Directors.

LOT (Urbanized Lots)

Land subdivisions, or lots, with prices ranging from R\$150 to R\$600 per square meter

PoC Method

Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using the percentage-of-completion (“PoC”) method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

Pre-sales

Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted pre-sales" under Brazilian GAAP.

PSV

Potential Sales Value.

SFH Funds

Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Swap Agreements

A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our

returns.

ABOUT GAFISA

Gafisa is a leading diversified national homebuilder serving all demographic segments of the Brazilian market. Established over 57 years ago, we have completed and sold more than 1,000 developments and built more than 12 million square meters of housing only under Gafisa's brand, more than any other residential development company in Brazil. Recognized as one of the foremost professionally managed homebuilders, "Gafisa" is also one of the most respected and best-known brands in the real estate market, recognized among potential homebuyers, brers, lenders, landowners, competitors, and investors for its quality, consistency, and professionalism. Our pre-eminent brands include Tenda, serving the affordable/entry level housing segment, and Gafisa and AlphaVille, which offer a variety of residential options to the mid to higher-income segments. Gafisa S.A. is traded on the Novo Mercado of the BM&FBOVESPA (BOVESPA:GFSA3) and on the New York Stock Exchange (NYSE:GFA).
