New ultra deepwater discovery in Sergipe-Alagoas Basin

Rio de Janeiro, December 5, 2012 – Petróleo Brasileiro S.A. – Petrobras informs the discovery of a new light hydrocarbon accumulation in ultra deepwaters of the Sergipe-Alagoas Basin, at concession area BM-SEAL-10, located in block SEAL-M-424. The discovery took place during drilling of well 1-BRSA-1108-SES (1-SES-172).

The well is 85 km from the Aracaju municipality, off the coast of Sergipe State, at a water depth of 2,583 meters. Drilling was completed at a total depth of 5347 meters. This is Petrobras's fourth important hydrocarbon discovery in ultra deepwaters of the Sergipe-Alagoas Basin this year. From August to October this year, Petrobras had announced the presence of hydrocarbon accumulations in wells 1-SES-168 (Moita Bonita), 3-SES-165 (Barra) and 1-SES-167 (Farfan).

The discovery of well 1-SES-172, informally known as Muriú, occurred in reservoirs of the Calumbi formation. The discovery was confirmed through log data analysis. Studies of the pressures recorded in the reservoirs and fluid sampling indicated the presence of light oil. The oil was found in excellent quality reservoirs with a thickness of 67 meters. Petrobras is the operator of the SEAL-M-424 concession, with a stake of 100%.

Petrobras will proceed with logging operations (records of features of a formation) and to gather rock and fluid data in this well, with the aim of preparing the assessment strategy of the new discovery, as well as to characterize the conditions of the reservoirs found. The next step will be to submit the Discovery Assessment Plan to the National Petroleum Agency (ANP).

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
