REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia Brasileira de Distribuição

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição (the “Company”), identified as Company and Consolidated, respectively, included in the Interim Financial Information Form (ITR), for the quarter ended March 31, 2014, which comprises the balance sheet as of March 31, 2014 and the related statements of income, comprehensive income, changes in equity and cash flows for the three-month period then ended, including the explanatory notes.

The Company’s Management is responsible for the preparation of the individual interim financial information in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Information and the consolidated interim financial information in accordance with technical pronouncement CPC 21 (R1) and the international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards established by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1), applicable to the preparation of the Interim Financial Information (ITR), and presented in accordance with the standards established by CVM.

Deloitte Touche Tohmatsu

Conclusion on consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1) and international standard IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards established by CVM.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statements of value added for the three-month period ended March 31, 2014, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, which do not require the presentation of these statements. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, in relation to the individual and consolidated interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil

Net Income advances 22.9% to R\$338 million

- ◆ EBITDA grew 21.7% to R\$1.050 billion (EBITDA margin of 7.0%), driven by the stronger operations at Via Varejo and Nova Pontocom and negatively impacted by the Easter effect at GPA Food.

GPA Food

Sales Performance - Consolidated

Gross sales revenue amounted to R\$16.597 billion in the first quarter, increasing 10.8% on the prior-year period. One of the main factors contributing to this growth was the opening of 124 stores in the last 12 months, 21 of which were inaugurated in the first quarter of 2014.

The same-store sales growth of 6.3% was adversely affected by the calendar effect in the period.

Performance by category:

- ü **Food:** same-store sales growth of 3.0%, which was impacted by the calendar effect. Adjusted for this effect, same-store sales growth was 6.0%.
- ü **Non-food:** growth of 8.9%, with the highlight the electronics categories, particularly video, smartphones, air conditioners and fans. Sales growth in the e-commerce segment accelerated further from the growth

rates recorded in prior periods.

GPA Food

ü Gross sales revenue grew 9.1%, with 13 new stores opened in the period (6 Minimercados Extra, 2 Assaí and 3 Extra Hiper, as well as 2 drugstores). Same-store sales growth stood at 2.6% and was adversely affected by the calendar effect. Adjusted for this effect, same-store sales grew 5.0% in the quarter.

23

ü Assaí continued to post strong sales growth (38.2%), driven by solid same-store sales growth and the significant contribution from the expansion in the store network. Organic expansion remains the focus of the format, whose strategy centers on strengthening the banner nationwide. In the last 12 months, 13 new stores were opened, nine of which were inaugurated in four states in which the Group previously did not have operations.

ü The Pão de Açúcar and Extra banners performed in line with the Company's expectations and continued to capture market share gains. By category, the period highlights were the same-store sales performances in meat and poultry and in beverages. Certain categories, such as grocery and seafood, were adversely affected by Easter falling in the second quarter this year. Private-label brands continued to register robust growth to account already for over 9% of sales in the Multivarejo business unit.

ü At the end of March, the Brazilian Supermarkets Association (ABRAS) reported data for 2013. The report shows that sales at GPA outperformed the overall industry, which reinforces the success of the competitiveness strategy implemented during the year.

Nova Pontocom

ü Gross sales revenue in the quarter grew by 54.1%, supported by strong growth in customer traffic, better conversion rates and the higher contribution to sales by the marketplace business. Gross sales revenue growth was driven by the excellent moment for sales of smartphones, which surpassed the growth rate registered in 4Q13, and of air conditioners and fans, which were driven by the exceptionally hot weather in the first quarter.

Via Varejo

ü Gross sales revenue amounted to R\$6.237 billion, with same-store sales growth of 3.6% and total-store sales growth of 6.0%. Eight new stores were opened in the period, all under the Casas Bahia banner.

ii Sales performance in the first quarter was in line with our expectations for the period, which was not marked by any significant sales event.

sales decreased from 19.9% in 1Q13 to 18.9% in 1Q14. Note that with Easter falling in the second quarter this year, fixed expenses were less diluted than in 1Q13. Excluding this effect, the reduction in expenses in the period would have been even stronger.

Despite the negative Easter effect, **EBITDA reached the same level of R\$481 million registered in 1Q13. EBITDA margin stood at 7.5%.**

EBITDA Margin	2.9%	2.8%	10 bps

Gross sales revenue registered growth of 38.2% to R\$1.972 billion, driven by **solid same-store sales growth and the significant contribution from the expansion, with a total of 13 stores opened in the last 12 months.**

Operating expenses as a percentage of net sales improved by 20 basis points in 1Q14 (10.4%) compared to 1Q13 (10.6%). The reduction was positively influenced by economies of scale resulting from the strategy to open stores in states in which the banner was already present.

EBITDA amounted to R\$53 million, increasing by 47.1% on the prior-year period to outpace gross sales revenue growth in the quarter. EBITDA margin was 2.9%, expanding by 10 basis points from 1Q13.

In 2014, the banner will maintain its focus on expanding its national footprint through organic growth. In 1Q14, two stores were opened in states where the banner was already present and another 12 should be delivered by year-end.

(1) Adjusted EBITDA by total "Other Operating Revenue (Expenses)", eliminating extraordinary Revenues and Expenses.

Gross sales revenue at Via Varejo and Nova Pontocom grew by 12.7% to R\$7.7 billion. This performance was driven by the *e-commerce* business (Nova Pontocom), where growth accelerated from the pace of prior periods to reach 54.1% in the quarter. Gross margin declined 50 basis points due to the higher contribution made by Nova Pontocom to total sales.

Selling, general and administrative expenses as percentage of net sales improved by 240 basis points in 1Q14 (19.1%) compared to 1Q13 (21.5%), especially at Via Varejo, driven by the efficiency gains in logistics operations, reduction in corporate and IT expenses, among others.

EBITDA amounted to R\$516 million, growing by 49.6% from 1Q13, while EBITDA margin improved from 5.7% to 7.6%. This improvement was supported primarily by lower operating expenses and by the efficiency gains captured in logistics costs and in assembly processes at Via Varejo. The operational improvement at Nova Pontocom also contributed to EBITDA margin expansion in the period.

(1) EBITDA for the last 12 months.

Net debt declined by R\$966 million in relation to the balance at the end of March 2013, resulting in a deleverage in the quarter. This reduction is related to higher cash flow from operating activities (R\$ 370 million), even with the negative effect from Easter; and the positive nonrecurring impact in cash position due to the public offering of Via Varejo's shares, among others factors, in the amount of R\$600 million. As a consequence, Net Debt/EBITDA ratio decreased from 0.42x to 0.15x.

Net debt including the payment book operation amounted to R\$3.410 billion, a reduction of R\$759 million compared to March 2013. Net Debt/EBITDA ratio considering the payment book operation ended the quarter at 0.85x, down significantly from the ratio at the end of 1Q13.

Net financial expenses were R\$339 million, increasing 33.3% from 1Q13, below the cumulative increase of 48% of the CDI in the period. Net financial expenses as a percentage of net sales increased from 1.9% in 1Q13 to 2.3% in 1Q14.

The main variations in net financial (income) expenses were:

- **The reduction of R\$7 million in net debt charges** due to the lower debt position in the period;
- **The increase of R\$20 million in the cost of sales of payment book receivables**, which corresponded to 0.5% of net sales, the same ratio registered in 1Q13, despite the rise in interest rates between the periods;
- **The R\$63 million increase in the cost of sales of credit card receivables**, of which R\$54 million was related to the interest rate hikes between 1Q13 and 1Q14, and R\$9 million was related to the higher volume of receivables sold due to the higher revenue in the period.

Total sale of receivables (cards and payment books) increased approximately 17%, from R\$7.6 billion in 1Q13 to R\$8.9 billion in 1Q14, reflecting the revenue growth in all of the Company's business units.

Net Income

Net income amounted to R\$338 million in 1Q14, increasing 22.9% on the prior-year period, with net margin of 2.3%. The result is explained by the sales revenue growth in the period, which was driven by the organic expansion in recent quarters, coupled with the significant improvement in selling, general and administrative expenses.

On March 31, 2014, the cash position stood at R\$5.350 billion, down R\$3.017 billion from the start of the period, mainly due to the following reasons.

Cash Flow from Operating Activities

- The impact on cash flow in 1Q14 from the Easter calendar effect;

- The consumption of R\$2.287 billion in working capital resulting from the Easter calendar and World Cup effects that generated an increase in inventory levels from 53 days⁽¹⁾ in 1Q13 to 58 days⁽¹⁾ in 1Q14.

Cash Flow from Financing Activities

- The payment of approximately R\$814 million related to the debenture maturity (principal and interest), which contributed to reducing the debt balance in 1Q14.

Appendix I - Definitions used in this document

Company's Business Units: The Company's business is divided into four units – food retail, cash and carry, electronics and home appliance retail (brick and mortar) and e-commerce – grouped as follows:

Same-store sales: The basis for calculating same-store sales is defined by the sales registered in stores open for at least 12 consecutive months. Acquisitions are not included in the same-store calculation base in the first 12 months of operation.

Growth and changes: The growth and changes presented in this document refer to variations in comparison with the same period of the previous year, except where stated otherwise.

EBITDA: As of 4Q12, the results of Equity Income and Other Operating Income (Expenses) were included together with Total Operating Expenses in the calculation of EBITDA. This means that the calculation of EBITDA complies with Instruction 527 issued by the Securities and Exchange Commission of Brazil (CVM) on October 4, 2012. As from 1Q13, the depreciation recognized in the cost of goods sold, which essentially consists of the depreciation of distribution centers, began to be specified in the calculation of EBITDA.

Adjusted EBITDA: Measure of profitability calculated by excluding Other Operating Income and Expenses from EBITDA. Management uses this measure because it believes it eliminates nonrecurring expenses and revenues and other nonrecurring items that could compromise the comparability and analysis of results.

Adjusted net income: Measure of profitability calculated as net income excluding Other Operating Income and Expenses and discounting the effects from Income and Social Contribution Taxes. Management uses this measure because it believes it eliminates nonrecurring expenses and revenues and other nonrecurring items that could compromise the comparability and analysis of results.

The individual and parent company financial statements are presented in accordance with IFRS and the accounting practices adopted in Brazil and refer to the first quarter of 2014 (1Q14), except where stated otherwise, with comparisons in relation to the prior-year period

Any and all non-accounting information or information based on non-accounting figures have not been reviewed by the independent auditors.

The calculation of "EBITDA" is based on earnings before interest, taxes, depreciation and amortization. The base used to calculate "same-store" gross sales revenue is determined by the sales made in stores open for at least 12 consecutive months and that did not remain closed for seven or more consecutive days in the period. Acquisitions in their first 12 months of operation are not included in the same-store calculation base.

GPA adopts the headline IPCA consumer price index as its benchmark inflation index, which is also used by the Brazilian Supermarkets Association (ABRAS), since it more accurately reflects the mix of products and brands sold by the Company. IPCA inflation in the 12 months ended March 2014 was 6.15%.

Disclaimer: Statements contained in this release relating to the business outlook of the Company, projections of operating/financial results, the growth potential of the Company and the market and macroeconomic estimates are mere forecasts and were based on the expectations of Management in relation to the Company's future. These expectations are highly dependent on changes in the market, Brazil's general economic performance, the industry and international markets, and are thus subject to change.

About GPA: GPA is Brazil's largest retailer, with a distribution network comprising approximately 2,000 points of sale as well as electronic channels. Established in 1948 in São Paulo, it maintains a head office in the city and operations in 19 Brazilian states and the Federal District of Brasília. With a strategy of focusing its decisions on the customer and better serving them based on their consumer profile in the wide variety of shopping experiences it offers, GPA adopts a multi-business and multi-channel platform with brick-and-mortar stores and e-commerce operations divided into four business units: Multivarejo, which operates the supermarket, hypermarket and neighborhood store formats as well as fuel stations and drugstores under the Pão de Açúcar and Extra banners, as well as GPA Malls, which is responsible for managing the Group's real estate assets, expansion projects and new store openings; Assaí, which operates in the cash and carry store segment; Via Varejo, with brick and mortar electronics and home appliance stores under the Casas Bahia and Pontofrio banners; and Nova Pontocom, with e-commerce operations through the sites pontofrio.com, casasmahia.com.br, extra.com.br, barateiro.com, partiuviagens.com.br and eHub.com.br.

The Company, supported by its external advisors, analyzed the provisions of this MP, the implications of early option exercise and the impacts in quarterly financial information March 31, 2014, concluding that there are no material effects to be recorded. This analysis should be reviewed by the management when enacted the Law, since there may be adjustments or changes in final wording.

c) Taxes

Tax claims are indexed, by law, by monthly restatement, which refers to an adjustment in the amount of provisions for legal claims in accordance with the indexation rates used by each tax jurisdiction. In all cases, both the interest charges and fines, when applicable, were computed and fully provisioned with respect to unpaid amounts.

The main provisioned tax claims are as follows:

COFINS and PIS

With the non-cumulativeness system when calculating PIS and COFINS, the Company and its subsidiaries are discussing at court the right to exclude the ICMS from the calculation basis of these two contributions. In addition, the Company offset tax debts related to PIS and COFINS against excise tax - IPI credits – inputs subject to a zero rate or exempt - acquired from third parties (transferred based on final and unappealable court decision). The amount for PIS and COFINS claims at March 31, 2014 is R\$93,813 (R\$91,898 at December 31, 2013).

In addition, in 2013 there were progresses in the claims related to the offset of Finsocial, COFINS and PIS, which lead our legal counsel to change their estimation of losses from possible to probable in the amount of R\$ 174,893 at March 31, 2014 (R\$173,184 at December 3, 2013)

Taxes and other

Taxes

The Company and its subsidiaries have other tax claims, which after analysis of its legal counsels, were deemed as probable losses and accrued. These are: (i) tax assessment notices related to purchase, industrialization and sale of soybean and byproducts exports (PIS, COFINS and IRPJ); (ii) disagreement on the non-application of Accident Prevention Factor (FAP) for 2011; (iii) disagreement on the “Fundo de Combate à Pobreza” (State Government Fund Against Poverty), enacted by the Rio de Janeiro State government; (iv) disagreement on tax losses carryforwards, as well as suppliers contracted considered disqualified before the registration of the State Internal Revenue Service, error when applying rate, ancillary obligations by State tax authorities; and (v) other less relevant issues.

During the second quarter of 2013, procedural events occurred that led to change in the likelihood of loss from probable to possible of a claim related to income taxes of R\$44,842 at March 31, 2014 (R\$ 44,060 at December 31,2013).

The amount recorded at March 31, 2014 is R\$103,195 (R\$100,094 at December 31, 2013).

In addition, the Company discusses in court the eligibility to not pay the contributions provided for by Supplementary Law 110/01, referring to the FGTS (Government Severance Indemnity Fund for Employees) costs, The accrued amount at March 31, 2014 is R\$40,686 (R\$38,509 at December 31, 2013).

At March 31, 2014, the amount accrued for these lawsuits is R\$49,286 (R\$42,791 at December 31, 2013), to which there are no restricted deposits.
