Art. 6 The persons subject to this Manual shall conduct themselves based on good faith, loyalty, truthfulness, transparency and also according to the general principles established in the paragraphs below.

- Principle of Freedom of Decision

§1 ^o The investment decisions (sale, purchase or holding) regarding the securities are sovereign acts of each investor. The investing public should seek better returns based on the interpretation of the information disclosed to the market, but never through insider access to such information.

- Principle of Access to Information

§2 ^o Every investor needs to be informed so as to make a good decision. Therefore, it is essential that Gol assures the availability of relevant and quality information on a regular basis. The persons subject to this Manual are required to assure that the disclosure of information about the equity and financial situation of Gol is complete, continuous and developed by the Company's managers responsible for this function. This information should also include data on the evolution of its respective shareholding positions in the Company's capital stock, as provided for in this Manual and in the regulations in force.

- Principle of Equal Treatment

§3 ^o Every investor shall have equal access to information in order to exercise his/her right to decide. It is necessary that the information supplied by Gol be available in time to allow the investor to make an informed decision, and that the investor perceives an equal treatment in the process. The disclosure of information, either voluntarily or involuntarily, without being accessible to the whole target public, is not only illegal but negatively impacts the pricing of the securities issued by the Company.

CHAPTER VII. PROCEDURES FOR REPORTING AND DISCLOSURE OF PURCHASES OR SALES OF RELEVANT EQUITY INTEREST

CHAPTER VIII. TRADING POLICY FOR SECURITIES ISSUED BY THE COMPANY

- Initial Considerations Regarding the Adoption of the Trading Policy

Art. 24. One of the sections in Instruction 358 sets forth the prohibition for securities issued by publicly held companies to be traded by certain people in some specified situations. On the other hand, article 15 thereof allows the adoption, by publicly-held companies, of a trading policy for their Securities in such a manner as to permit – where it is faithfully complied with – an orderly trading of such Securities, thus removing possible presumption of undue use of Relevant Information.

Art. 25. This Chapter of the Manual establishes the rules for trading of Gol's Securities, contemplating (i) the restrictions on trading set forth in Instruction 358 and (ii) the internal policy for trading Securities as adopted by Gol.

Art. 26. The DRI reports covered by this Manual can be supplied by any written media, including, without limitation, letters, e-mails, intranet and releases.

- Trading Through Accredited Brokerage Firms and Lockout Periods

Art. 27. With a view to assuring the adequate standards for trading the securities of Gol and its Controlled publicly-held companies, a system is adopted establishing that all trading by the Company itself and the people required to adhere to this Manual shall not be carried out unless with the intermediation of the accredited brokerage firms listed in Attachment II, which was forwarded to CVM and must be kept updated.

Art. 28. The accredited brokerage firms shall be instructed in writing by the Company's Investor Relations Officer, and shall expressly accept such instruction, not to record transactions carried out by the Managers, Members of the Audit Board and other members of Technical and Consulting Bodies of the Company on all dates on which the Company trades or else advise the Accredited Brokerage Firms that they shall be trading shares issued by Gol.

Art. 29. Gol and the Qualified Individuals shall refrain themselves from trading the shares issued by the Company in all periods when, by force of a determination by the Investor Relations Officer, who is not required to justify his/her decision, trading of shares is restricted ("lock-up periods")

Art. 30. The same obligations apply to Controlling and Controlled Companies.

- Trading Restrictions Pending the Disclosure of a Relevant Act or Fact

Art. 31. In the circumstances described in the paragraphs below, Gol and the Qualified Individuals are prohibited to trade the Securities issued by Gol, its Controlled Companies and its Affiliated Companies until the Company discloses a Relevant Act or Fact to the market:

§1º Whenever any Relevant Act or Fact occurs in the business of Gol, its Controlled and Affiliated Companies that is known to the above mentioned people;

§2º Whenever an option or mandate is in progress or has been granted that stops the purchase or sale of shares issued by Gol itself, its Controlled Companies, its Affiliated Companies or another company under a common control;

§3º Whenever there is an intention to proceed to a merger, total or partial spin-off, consolidation, conversion or reorganization of a company; and

§4º During the period between the decision made by the competent company's body to increase or decrease the capital stock, distribute dividends, stock bonus or their derivatives, break down, group or issue other Securities, and the publication of the respective announcements.

Art. 32. Under the above circumstances, even after the disclosure of the Relevant Act or Fact, the lock-up shall still prevail if such a trading may - at Gol's discretion - interfere with the trading of the Company's shares and result in losses to Gol and its shareholders. Whenever Gol decides to uphold the lock-up, the Investor Relations Officer shall disclose the decision in an internal notice.

- Exception to General Restrictions on Trading of Securities

Art. 33. The above prohibitions do not apply to the granting of shares under a direct share granting plan approved by the Shareholders' General Meeting of Gol, or to treasury share transactions through private trading related to the exercise of a call option according to a share option plan approved by the Shareholders' General Meeting of Gol and possible repurchases by Gol, also through the private trading of these shares.

Art. 34. The lock-up provided for in this Chapter, in the paragraphs of Art. 31, do not apply to Gol itself and to the Qualified Individuals, as from the date of signature of the Statement of Adhesion, when the transactions are conducted under the trading policy set forth in this Manual.

Art. 35. To enjoy the benefit established herein, trading by the above mentioned people under the CVM's trading rules shall be conducted as a long term investment, meeting at least one of the characteristics described in the paragraphs below:

§1º The underwriting or purchase of shares under the exercise of options granted as part of a Call Option Plan approved by the Shareholders' General Meeting;

§2º Execution of the purchase by Gol under a share repurchasing program for cancellation or to be held as treasury shares;

§3º Application of a variable remuneration received by way of profit sharing, in the purchase of Securities issued by Gol; and

§4º Execution of Individual Investment Programs by the Qualified Individuals.

- Lock-up After the Disclosure of a Relevant Act or Fact

Art. 36. Under the above circumstances, even after the disclosure of a Relevant Act or Fact, the lock-up shall continue in force if - at the Company's discretion - trading may interfere with the business conditions of Gol's shares and result in losses to the Company or its shareholders.

Art. 37. Whenever Gol decides to uphold the lock-up, the Investor Relations Officer shall disclose the decision in an internal notice.

- Lock-up Prior to the Disclosure of Quarterly and Annual Information and the Financial Statements

Art. 38. Gol and the Qualified Individuals may not trade in the Company's Securities in the period of fifteen (15) days preceding the disclosure or publication, as applicable, of Gol's quarterly information (ITR) and annual information (DFP).

Art. 39. The Individual Investment Programs shall strictly comply with this restriction.

Art. 40. The Accredited Brokerage Firms shall be instructed by Gol, and shall expressly accept such instruction, not to record transactions carried out by the Company, its Managers, its direct and indirect Controlling Shareholders, Members of the Audit Board and members of other Technical and Consulting Bodies of the Company in the period of fifteen (15) days preceding the publication of the Company's Annual Information, Financial Statements and ITRs.

- Prohibited Purchase or Sale of Shares Issued by Gol

Art. 41. Gol's Board of Directors shall not pass any resolution for the purchase or sale of the Company's shares for as long as the events below are not disclosed to the public through the publication of a relevant fact:

§1º Entering into any agreement or contract for the transfer of the Company's share control;
or

§2º Granting of an option or mandate for transferring the Company's share control; or

§3º The existence of an intention to proceed to the merger, total or partial spin-off, consolidation, conversion or reorganization of the Company;

Art. 42. If, after the repurchasing program is approved, there is a fact that falls within any of the three above circumstances, Gol shall immediately suspend the transactions with its issued shares until the disclosure of the respective relevant act or fact.

- Lock-up Applicable to Former Managers Only

Art. 43. Notwithstanding the provisions in Articles 49 to 52 regarding the Individual Investment Programs, the Managers who resign or are dismissed from their offices in Gol prior to the public disclosure of the business or fact started during their managing period may not trade in Gol's Securities during the period established in the paragraphs below:

§1 º For a term of six (6) months after they resign or are dismissed from their managing positions; or

§2 º Until the disclosure of the Relevant Act or Fact to the market by the Company, except if, in the second case, the trading in Gol's shares after the disclosure of the Relevant Act or Fact may interfere with the conditions of said business, causing losses to the Company's shareholders or the Company itself.

Art. 44. The first event to occur among the above alternatives shall always prevail.

- General Provisions Applicable to Lock-up

Art. 45. The Investor Relations Officer may, regardless of any justification or the existence of a relevant act or fact not yet disclosed, establish periods in which the Qualified Individuals may not trade in Securities issued by the Company or referenced on them. The Qualified Individuals shall keep secrecy about said periods.

Sole paragraph. The lock-up provisions set forth in this Manual apply to trading directly or indirectly carried out by the Qualified Individuals, even in the cases where trading by these people is conducted under the terms of the paragraph below:

§1º Through a company controlled by them;

§2º Through third parties with whom a stock or portfolio management or trust agreement is entered into, including, without limitation, investment clubs.

Art. 46. The lock-up provisions set forth in this Manual also apply to trading at stock exchanges, as well as trading carried out without the intervention of institution that is a member of the distribution system.

Art. 47. For the purposes of Art. 20 of Instruction 358 and this Chapter of the Manual, trading carried out by investment funds whose shareholders include people mentioned in the above item shall not be deemed as indirect trading, provided that the conditions below are complied with:

§1º The investment funds are not exclusive; and

§2º The investment fund manager's trading decisions may not be influenced by the shareholders.

- Restrictions regarding Changes to the Trading Policy

Art. 48. The trading policy set forth in this Manual may not be changed pending the disclosure of a relevant act or fact.

- Individual Investment Programs

Art. 49. Individual Investment Program means the individual plans for purchase or sale of Securities filed with Gol's headquarters, under which the Qualified Individuals have shown their intention to purchase with their own resources or sell, in the long term, Securities issued by the Company.

Art. 50. For this purpose, the Individual Investment Program must have been filed for more than thirty (30) days with the Investor Relations Officer, showing, in approximate figures, the amount of resources the interested party intends to invest or the number of Securities to be purchased or sold during the effective term of the Individual Investment Program established by the interested party, not shorter than 12 months. At the end of this period, the interested party must submit a summary report on the development of said individual program.

Art. 51. Except for a duly justified force majeure event, the Securities purchased according to the Individual Investment Program may not be sold unless after ninety (90) days from the purchase date.

The applicable penalties shall include (a) warnings, (b) fine that will not exceed the highest of (i) the amount of five hundred thousand reais (R\$500,000.00), (ii) fifty percent (50%) of the issuance value or the irregular transaction; or (iii) three times the economic advantage amount obtained or the avoided loss that would have resulted from the illicit act; and (c) suspension of the office held.

§1º The occurrences of events that constitute a crime shall be reported to the Prosecution Office by CVM.

§2º The nonfulfillment of any of the provisions in this Manual shall make the violator subject to the penalties provided for in the Company's Disciplinary Regulations, besides the applicable administrative, civil and penal sanctions.
