¹Adjustments of the period reflect updates related to the project's scope, date of launch and prices.

GAFISA SEGMENT

Focus on residential projects in the Middle, Medium-High and High income segments, with average unit sales price exceeding R\$250,000.

Gafisa Launches

First quarter launches totaled R\$80.1 million and consisted of 1 project/phase in São Paulo, which started sales in the last week of March. The sales speed of this launch reached 10.2%.

Gafisa Pre-Sales

First quarter gross pre-sales in the Gafisa segment totaled R\$237.1 million. Dissolutions in 1Q16 were R\$170.3 million, yielding total net pre-sales of R\$66.8 million, down 72.7% q-o-q and down 62.8% y-o-y.

It is worth noting that in 1Q16 operating performance was impacted quite heavily, especially in January and February due to the continued deterioration of the macroeconomic environment and the troubled political scenario, also taking into account seasonal characteristics. Results in March reached R\$101.1 million in net pre-sales, closer to last year's result, signaling an improvement when compared to the first two months of the year.

Another important highlight in 1Q16 is the volume of dissolutions – which was higher than the LTM average, especially due to the strong volume of projects delivered in 4Q15, totaling R\$1.0 billion in PSV, approximately 43% of the total PSV delivered in the FY2015, thus reflecting in a higher volume of dissolutions in the following period.

As seen in 2015, and one of the main current operational guidelines for the following year, the Company continues to focus its efforts on the sale of remaining units. As a result, 87.8 % of net sales for the quarter were related to units in inventory. Due to the higher volume of dissolutions of projects launched before 2015, net sales of 2015 launches accounted for 82% of total net sales of remaining units.
