and report on review of quarterly and nine months-period information

Report on review of quarterly information

To the Board of Directors and Stockholders

Telefônica Brasil S.A.

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Telefônica Brasil S.A. ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended September 30, 2017, comprising the balance sheet at that date and the statements of income and comprehensive income for the quarter and nine-month periods then ended, and changes in equity and cash flows for the nine-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 - "Interim Financial Reporting", of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - "Interim Financial Reporting" issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" and ISRE 2410 - "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently did not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

(A free translation of the original in Portuguese)

Conclusion on the consolidated interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Other matters

Statement of value added

We have also reviewed the parent company and consolidated statements of value added for the nine-month period ended September 30, 2017. These statements are the responsibility of the Company's management and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

Audit and review of prior-year information

The Quarterly Information Form (ITR) mentioned in the first paragraph includes accounting information, presented for comparison purposes, related to the statements of income and comprehensive income for the quarter and nine-month periods ended September 30, 2016, and the statements of changes in equity, cash flows and value added for the nine-month period then ended, obtained from the Quarterly Information Form (ITR) for that quarter, and also to the balance sheet as at December 31, 2016, obtained from the financial statements at December 31, 2016. The review of the Quarterly Information (ITR) for the quarter ended September 30, 2016 and the audit of the financial statements for the year ended December 31, 2016 were conducted by other independent auditors, whose unqualified review and audit reports were dated October 25, 2016 and February 17, 2017, respectively.

("Company" or "Telefônica Brasil") is a publicly-traded corporation operating in telecommunication services and in the performance of activities that are necessary or useful in the rendering of such services, in conformity with the concessions, authorizations and permissions it has been granted. The Company, headquartered at Avenida Engenheiro Luiz Carlos Berrini, No. 1376, in the city and State of São Paulo, Brazil, is a member of Telefónica Group ("Group"), the telecommunications industry leader in Spain, also present in various European and Latin American countries.

At September 30, 2017 and December 31, 2016, Telefónica S.A. ("Telefónica"), the Group holding company based in Spain, held total direct and indirect interest in the Company of 73.58%, including treasury shares (Note 21).

The Company is registered in the Brazilian Securities Commission ("CVM") as a publicly-held company under Category A (issuers authorized to trade any marketable securities) and has shares traded on the B3 (company resulting from the combination of activities between BM&FBovespa and CETIP). The Company is also listed in the Securities and Exchange Commission ("SEC"), of the United States of America, and its American Depositary Shares ("ADSs") are classified under level II, backed only by preferred shares and traded on the New York Stock Exchange ("NYSE").

b) Operations

The Company operates in the rendering of: (i) Fixed Switched Telephone Service Concession Arrangement ("STFC"); (ii) Multimedia Communication Service ("SCM", data communication, including broadband internet); (iii) Personal Mobile Service ("SMP"); (iv) Conditioned Access Service ("SEAC" - Pay TV), throughout Brazil, through concessions and authorizations, as established in the General Plan of Concessions ("PGO") and advertising services.

In accordance with the STFC service concession agreement, in every two years, during the agreement's 20-year term, the Company shall pay a fee equivalent to 2% of its prior-year STFC revenue, net of applicable taxes and social contribution taxes (Note 20). The Company's current STFC concession agreement is valid until December 31, 2025.

In accordance with the authorization terms for the usage of frequencies associated with SMP, in every two years after the first renewal of these agreements, the Company shall pay a fee equivalent to 2% of its prior-year SMP revenue, net of applicable taxes and social contribution taxes (Note 20), and in the 15th year the Company will pay 1% of its prior-year revenue. The calculation will consider the net revenue from the application of Basic and Alternative Services Plans. These agreements can be extended only once for a term of 15 years.

Service concessions and authorizations are granted by the Brazil's Telecommunications Regulatory Agency ("ANATEL"), the agency responsible for the regulation of the Brazilian telecommunications sector under the terms of Law No. 9472 of July 16, 1997 - General Telecommunications Law ("Lei Geral das Telecomunicações" - LGT), amended by Laws No. 9986, of July 18, 2000, and No. 12485, of September 12, 2011. The operation of such concessions is subject to supplementary regulations and plans.

The information on the operation areas (regions) and due dates of the radiofrequency authorizations for SMP services is the same of Note 1b) Operations as disclosed in the financial statements for the year ended December 31, 2016.

c) Acquisition of GVT Participações S.A. ("GVTPart")

The information on the acquisition process of GVTPart, which occurred in May 2015, is the same of Note 4) Acquisition of GVT Participações S.A. ("GVTPart"), as disclosed in the financial statements for the year ended December 31, 2016.

d) Corporate restructuring

The Shareholders' Meeting held on April 1, 2016, approved corporate restructuring in accordance with the terms and conditions proposed on March 14, 2016. The information on the Corporate Restructuring is the same as in Note 1c) Corporate Restructuring, as disclosed in the financial statements for the year ended December 31, 2016.

e) Acquisition of Terra Networks by Wholly-Owned Subsidiary

On July 3, 2017, the Company informed that its wholly-owned subsidiary Telefônica Data S.A. ("TData") has acquired all the shares representing the capital stock of Terra Networks Brasil S.A. ("Terra Networks"), owned by SP Telecomunicações Participações Ltda. ("SPTE"), one of the controlling shareholders of the Company ("Transaction").

Terra Networks is a provider of digital services (own and third-party value-added services ("VAS") and carrier billing, as well as mobile channels for sales and relationships) and advertising.

TData is a company dedicated to the exploration of VAS, as well as integrated business solutions in telecommunications, technical assistance of telecommunications equipment and networks, maintenance of equipment and networks and development of projects.

The total price paid for the acquisition of shares issued by Terra Networks was R\$ 250,000, in a single installment, with no need for any financing, using only the cash available of TData. Such value was calculated based on the economic value of the Terra Networks, according to the discounted cash flow criterion, with a base date of April 30, 2017, based on an appraisal report contracted by TData Board of Directors.

The Transaction was subject to conditions usually applicable to this type of deal, and was preceded by a legal and financial audit in relation to Terra Networks and valuation by an independent company.

The Transaction was not subject to obtaining any regulatory authorizations or approvals by the Company's regulators and the way it was structured does not change the Company's shareholding structure or cause any dilution to its shareholders, generating value to them through accelerated growth of digital services and increased operational efficiency, there are no significant costs related to the Transaction.

The purpose of the Transaction was to expand and integrate the commercial offer of digital services that can add immediate value to the customer base of TData and of the Company; as well as generating TData service offers to Terra Networks' customer base and subscribers and, thanks to the national presence of Terra Networks' operation and expertise, generate leverage for TData advertising business. In addition, since the Company has the skills to create new digital media products for mobile and advertising and Terra Networks has know-how in selling, attending and operating digital services for specific customers, the acquisition by TData will also facilitate the synergy between the companies involved, in addition to maximize the unification of the commercial conditions maintained with suppliers.

Accounting Method

Considering that business combinations between entities under common control have not yet been specifically addressed by local accounting standards (Accounting Pronouncements Committee - CPC) and International Financial Reporting Standards (IFRS), an entity is required to apply the hierarchy in paragraphs 10-12 of CPC Pronouncement 23 - Accounting Policies, Change of Estimates and Error Correction (equivalent to IAS 8) to choose the accounting policy to be adopted.

An entity may therefore choose to account for combinations of entities under common control using the Acquisition Method based on CPC 15 (R1) / IFRS 3 (R) or the carrying amount of the net assets acquired ("Pooling of Interests" or "Predecessor Value Method"), with the guidance provided by other accounting standard-setting bodies with a Conceptual Framework similar to CPCs or IFRSs.

This Transaction, which as previously described, involves companies under common control, was accounted for at the book value of the net assets acquired (“Predecessor Value Method”), as certain requirements for the use of the acquisition method set forth in CPC 15 (R1) / IFRS 3 (R). Consequently, the difference between the consideration given in exchange for the equity interest obtained and the value of the net assets acquired was recorded in TData's equity.

Upon completion of the Transaction, as from July 3, 2017, Terra Networks became a direct subsidiary of TData and indirectly owned by the Company.

We present below the composition of the book value of identifiable net assets acquired in the amount of R\$190,971.

Probable:

(1) Labor provisions: these refer to labor claims of former employees (who claim, among others, recognition of the role of journalist, payment of overtime, etc.) and outsourced employees (these claiming subsidiary or joint liability).

(2) Civil provisions: refer to: action filed by supplier regarding the transmission of events; PROCON fine (annulment action); enforcement action; indemnity action related to the use of content; and claim actions filed by former subscribers regarding unrecognized collection, collection of undue value and contractual noncompliance.

(3) Tax Provisions: refer to actions filed by Terra Networks questioning: (i) Federal: CIDE unconstitutionality of royalties; and (ii) Municipal: ISS exclusion from the PIS / COFINS calculation base on imports.

Possible:

(1) Labor contingencies: they refer to labor claims of former employees (who claim, among other things: recognition of the role of journalist, overtime payments, etc.) and outsourced employees (these claiming subsidiary or joint liability).

(2) Civil contingencies: refer to: action filed by supplier regarding the transmission of events; PROCON fine (annulment action); action indemnity relating to the use of content; ECAD action on copyright collection; and claim actions filed by former subscribers regarding unrecognized collection, collection of undue value and contractual noncompliance.

(3) Tax contingencies: these refer to administrative and judicial discussions, the most relevant of which are: (i) Federal: goodwill amortization expenses incurred in 2005 to 2008; manifestations of nonconformity in the face of disqualified compensation and a statement of operating expenses allegedly non-deductible and

related to estimated losses for the impairment of accounts receivable; (ii) State: ICMS on advertising services; and (iii) Municipal: ISS on data processing and similar and antivirus.

Other information

The net book value of trade accounts receivable provided by Terra Networks totals R\$61,276, which does not differ from the gross amount of R\$69,995, net of estimated losses for impairment of R\$8,719.

From the date of acquisition until the completion of this quarterly information, Terra Networks contributed R\$76,310 of consolidated net operating revenue and R\$156,822 of consolidated net income to the Company, mainly due to the recognition of R\$128,298 of income tax on tax losses and negative basis of social contribution (note 6 b).

2) BASIS OF PREPARATION AND PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS

a) Statement of compliance

The individual (Company) and consolidated quarterly financial Statements were prepared and are presented in accordance with the accounting practices adopted in Brazil, which comprise CVM standards and CPC (Accounting Pronouncements Committee) pronouncements, and in compliance with the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB).

All significant information in the financial statements - and solely such information - is disclosed and corresponds to that used by Company management for administration purposes.

The consolidated statements (Consolidated) have been prepared and are presented in accordance with CPC 21 (R1) Interim Statements and IAS 34 - Interim Financial Reporting issued by the IASB and standards established as Resolution no. 739/15 of the CVM.

b) Basis of preparation and presentation

The Company's quarterly financial statements for the three and nine-month periods ended September 30, 2017 are presented in thousands of *Reais* (unless otherwise stated), which is the functional currency of the Company.

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and nine-month period ended September 30, 2017

(In thousands of *Reais*, unless otherwise stated)

Management has assessed the Company's ability to continue operating normally and is convinced that it has the resources to continue its business in the future. In addition, Management is not aware of any material uncertainties that could generate significant doubts about its ability to continue operating. Therefore, these quarterly financial statements were prepared based on the assumption of continuity.

These quarterly financial statements compare the quarters ended September 30, 2017 and 2016, except for the balance sheets, that compare the positions as of September 30, 2017 and December 31, 2016.

The consolidated information for the three and nine months ended September 30, 2017 includes the amounts of Terra Networks, a consolidated company as of July 3, 2017.

The Board of Directors authorized the issue of these individual and consolidated financial statements at the meeting held on October 23, 2017.

Business segments are defined as components of a company for which separate financial information is available and regularly assessed by the operational decision makers in decisions on how to allocate funds to an individual segment and in the assessment of segment performance. Considering that: (i) all officers and managers' decisions are based on consolidated reports; (ii) the Company and subsidiaries' mission is to provide their customers with quality telecommunications services; and (iii) all decisions related to strategic planning, finance, purchases, short and long-term investments are made on a consolidated basis. Consequently, the Company and subsidiaries operate in a single operating segment, namely the provision of telecommunications services.

The accounting standards adopted in Brazil require the presentation of the Statement of Value Added ("SVA"), individual and consolidated, while IFRS does not require such presentation. As a result, under IFRS standards, the SVA is being presented as supplementary information, without prejudice to the overall quarterly financial statements.

As a result of the Corporate Restructuring process (Note 1d), which occurred on April 1, 2016, the individual quarterly financial statements for the nine-month period ended September 30, 2017 and 2016 are not comparable.

The quarterly financial statements were prepared in accordance with the principles, practices and accounting criteria consistent with those adopted in the preparation of the financial statements for the year ended December 31, 2016 (Note 3 Summary of Significant Accounting Practices) and should be analyzed in conjunction with these financial statements, in addition to the new pronouncements, interpretations and amendments, which came into effect as of January 1, 2017, as described below:

- Improvements to IFRS 2014-2016 (amendments to IFRS 2014-2016), amendments: The amendments introduce a number of improvements to IFRS in force, mainly to eliminate inconsistencies and clarify the wording of some of these standards. The amendment to IFRS 12 clarifies the scope of the standard and will be applicable for fiscal years beginning on January 1, 2017, while other improvements will be effective in 2018.
 - IAS 7 - Cash Flow, amendments: The changes are part of the IASB disclosure initiative and require an entity to provide disclosures that enable users of financial statements to assess changes in liabilities arising from financing activities, including both the changes affecting cash flows, and changes that do not affect cash. At the initial adoption of the amendment, entities are not required to provide comparative information for prior periods.
 - IAS 12 - Income Taxes, amendments: The amendments clarify that an entity should consider whether tax legislation restricts sources of taxable income against which it may make deductions on the reversal of that deductible temporary difference. In addition, the amendments provide guidance on how an entity should determine future taxable income and explain the circumstances under which taxable income may include the recovery of some assets for amounts greater than their carrying amount. If an entity adopts the changes for an earlier period, it should disclose that fact.

(In thousands of *Reais*, unless otherwise stated)

These changes are effective for annual periods beginning on January 1, 2017. The Company will consider these changes in the preparation of the annual financial statements ending on December 31, 2017, although the application of these changes does not have a material impact on the financial position of the Company.

On the date of preparation of these quarterly financial statements, the following IFRS amendments had been published; however, their application was not mandatory. The Company does not adopt early any pronouncement, interpretation or amendment that has been issued, before application is mandatory.

Standards and Amendments to the Standards	Effective as of:
IFRS 9 Financial Instruments, issued	January 1, 2018
IFRS 15 Revenue from Contracts with Customers, as issued	January 1, 2018
Clarifications to IFRS 15 , issued on April 12, 2016	January 1, 2018
IFRS 2 Classification and Valuation of Share Based Transactions, as amended	January 1, 2018
IFRS 4 Insurance Contracts, as amended	January 1, 2018
IAS 40 Investment Property Transfers, as amended	January 1, 2018
IFRIC 22 Transactions in Foreign Currency and Advance Payments, as issued	January 1, 2018
Annual Improvements to IFRS, 2014-2016 Cycle, as issued	January 1, 2018
IFRS 16 Leases, as issued	January 1, 2019
IFRIC 23 Uncertainties over Income Tax Treatments	January 1, 2019
'IFRS 17 Insurance Contracts	January 1, 2021
IFRS 10, 12 and IAS 28 Investment Entities: Applying the Consolidation Exception, as amended	TBD

Based on preliminary studies, the Company expects the implementation of many of these standards, changes and interpretations will not have a significant impact on the financial statements in the initial period of application. However, the Company expects the following standards issued, but not yet mandatory, may have significant impact on the Company's consolidated financial statements at the time of application and prospectively.

IFRS 9 - Financial Instruments, Issue: In July 2014, the IASB issued the final version of IFRS 9, which replaces IAS 39 and all previous versions of IFRS 9.

IFRS 9 sets out the requirements for recognising and measuring financial instruments. As a result from the analysis of the effects of the new criteria introduced by this standard certain expected impacts have been identified in relation with to the following aspects, among others:

- Simplifies the current measurement model for financial assets and establishes three main categories: (i) amortised cost; (ii) fair value through profit or loss and; (iii) fair value through Other Comprehensive Income (OCI), depending on the business model and the characteristics of the contractual cash flows. Regarding recognition and measurement of financial liabilities there are not significant changes from current criteria except for the recognition of changes in own credit risk in OCI for those liabilities measured at fair value through profit or loss.
 - Introduces a new model for impairment losses on financial assets, i.e. the expected credit loss model, which replaces the current incurred loss model. Consequently, the application of the new requirements will probably lead to an acceleration in the recognition of impairment losses on financial assets.

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and nine-month period ended September 30, 2017

(In thousands of *Reais*, unless otherwise stated)

- Under current accounting, a hedge must be highly effective both, prospective and retrospectively, while IFRS 9 introduces a new, less restrictive, accounting model for hedging, requiring an economic relationship between the hedged item and the hedging instrument and that the coverage ratio be the same as that applied by the entity for its risk management. Likewise, the new standard modifies the criteria for documentation of hedging relationships.
- In addition, the Group's financial statements will include more detailed disclosures with relevant information regarding financial assets and liabilities.

As a result from the analysis of the new standard, the Group expects that the key changes will relate to documentation of policies and hedging strategies, as well as the estimation and timing of recognition of expected losses on financial assets. The Group has decided to apply the option that allows not to restate comparative periods to be presented in the year of initial application.

The changes introduced by IFRS 9 will affect the recognition of financial assets and derivative financial instruments held as of January 1, 2018. The Company is carrying out the process of implementing the new criteria, but due to the relevance of the potentially affected items and the complexity of the estimates that it is not reasonably possible to quantify the impacts of the application of this standard on the date of the termination of these quarterly financial statements.

IFRS 15 - Revenue from Contracts with Customers. Issuance: IFRS 15 establishes criteria for the accounting of revenues from customer contracts. The Company is currently in the process of estimating the impacts of this new standard on its contracts. This analysis identified a number of expected impacts related to the following aspects, among others:

- Under the current accounting policy, the Company offers commercial packages that combine equipment and services of telephony, fixed and mobile, data, internet and television, total revenue of services is distributed among its elements identified based on their respective fair values.

Under IFRS 15, amounts will be allocated to each element based on the independent selling prices of each individual component in relation to the total price of the package and will be recognized (and measured) when the obligation is satisfied. The application of the new criteria will mean an acceleration in the recognition of equipment sales revenues, which are generally recognized at the time of delivery to the

final consumer. To the extent that the packages are marketed at a discount, the difference between the profit on sales of equipment and the amount received from the customer at the inception of the contract will be recognized as a contractual asset.

- Under the current accounting policy, all expenses directly related with obtaining a contract (sales commissions and other third party acquisition costs) are expensed when incurred. However, IFRS 15 requires the recognition of an asset for those costs that are incremental to obtain a contract and that are expected to be recovered and its subsequent amortisation over the same period as the revenue associated with such asset.
 - Compared to the current revenue standard, IFRS 15 sets out more detailed requirements on how to account for contract modifications. Certain changes must be accounted for as a retrospective change (as a continuation of the original contract), while other modifications must be accounted for prospectively (as separate contracts, like the end of the original contract and the creation of a new one).
 - In addition, the Group's financial statements will include more qualitative and quantitative disclosure of income-related accounts.
-

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and nine-month period ended September 30, 2017

(In thousands of *Reais*, unless otherwise stated)

The Company is progressing in the process of implementing the new requirements. This process involves the introduction of modifications to the current information systems, the implementation of new IT tools, and changes in the processes and controls of the entire revenue cycle. This process of implementation in the Company a high degree of complexity due to factors such as a large number of contracts, numerous data source systems, diversity of business models, as well as the need to make complex estimates. Thus, despite the progress in the degree of development of the new tools that support the application of the new requirements, the Company understands that at the closing date of these quarterly financial statements it can not reliably measure the impact of the application of this standard.

However, from the analysis performed on the transactions of the last financial year considering commercial offers as well as the volume of contracts affected, the Company estimates that the most significant impacts due to the changes introduced by IFRS 15 will relate to the transfer of revenues between services and sales of equipment and resultant acceleration of revenues, and the activation and deferral of the incremental costs related to the obtaining contracts.

In addition, IFRS 15 allows for two alternative transition methods: (i) retrospectively for each reporting period or (ii) retroactively with cumulative effect recognized at the date of initial application. The Company will adopt the second transition method, recognizing the accumulated effect of the new criteria as a reserve adjustment at the date of the initial application of IFRS 15.

IFRS 15 allows the adoption of certain practical solutions to facilitate the implementation of the new criteria.

After the analyzes carried out, the main practical solutions that the Company intends are:

- Not to apply the IFRS 15 retrospectively to contracts that are completed contracts at January 1, 2018.
- Portfolio of contracts: apply the requirements of the standard to groups of contracts with similar characteristics, since, for this cluster, the effects would not differ significantly from an application on a contract by contract basis.
- Financing component: it will not be considered significant when the period between when the promised good or service is transferred to a customer and when the customer pays for that good or service will be one year or less.
- Costs to obtain a contract: will be recognised as an expense when incurred if the amortisation period of the asset that the entity otherwise would have recognised is one year or less.

IFRS 16 - Leasing. Issuance: IFRS 16 establishes that companies acting as lessees must recognize in the balance sheet the assets and liabilities arising from all lease agreements (except for short-term lease agreements and those for low value assets).

The Company has a very large number of leases as a lessee of various assets, such as third-party towers, circuits, real estate and land (where the towers are primarily located). Under the current standard, significant portions of such contracts are classified as operating leases, where payments are generally recorded on a straight-line basis over the contract term.

The Company is currently in the process of estimating the impact of this new standard on such contracts. In this analysis, the estimate of the term of the lease is included, considering the non-cancellable period and the periods covered if exercised the option to extend the lease for those cases there exists reasonable certainty, which will depend, of the expected use of the Company's assets installed in the leased assets. In addition to this, will make assumptions to calculate the discount rate, which will mainly be based on the incremental borrowing rate of interest for the estimated term. The Company is considering not to separately recognise non-lease components from lease components for those classes of assets in which non-lease components are not material with respect to the total value of the lease.

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and nine-month period ended September 30, 2017

(In thousands of *Reais*, unless otherwise stated)

In addition to the mentioned estimations, the standard allows for two transition methods: (i) retrospectively for all periods presented or; (ii) using a modified retrospective approach where the cumulative effect of adoption is recognised at the date of initial application. The Company has tentatively decided to adopt the later transition method, therefore it would recognise the cumulative effect of initial application as an adjustment to retained earnings in the year of initial application of IFRS 16. Also, certain practical expedients are available on first-time application in connection with the right of use asset measurement, discount rates, impairment, leases that finish within the twelve months subsequent to the date of first application, initial direct costs, and term of the lease. The Company is evaluating which of these practical expedients will be adopted. In this regard, the Company is considering opting for the practical expedient that allows it not to reassess whether a contract is or contains a lease on the date of initial application of IFRS 16 but to directly apply the new requirements to all those contracts which under current accounting were identified as a lease.

Due to the different alternatives available, as well as to the complexity of the estimates and the high number of contracts, the Company has not yet completed the implementation process, so that at the closing date of these quarterly financial statements it is not possible to reasonably estimate the impact that the application this standard.

However, based on the volume of contracts affected, as well as the magnitude of the future lease commitments, as disclosed in the Annual Financial Statements, the Company expects that the changes introduced by IFRS 16 would have a significant impact on its financial statements from the date of adoption, including the recognition on the balance sheet of right of use assets and their corresponding lease obligations in connection with the majority of contracts that are classified as operating leases under the current lease standard. Also, amortization of the right of use assets and recognition of interest costs on the lease obligation on the statements of income will replace amounts recognised as lease expense under the current lease standard. The classification of payments in the statement of cash flows will also be affected by the adoption of IFRS 16. The financial statements of the Company will include more detailed disclosures with relevant information on the lease agreements.

c) Basis of consolidation

At September 30, 2017 and 2016 and December 31, 2016, the Company held the following direct equity interests:

Investees	Type of investment	Equity interests	Country (Headquarters)
Telefônica Data S.A. ("TData")	Wholly-owned subsidiary	100.00%	Brazil

POP Internet Ltda ("POP") (note 1c)	Wholly-owned subsidiary	100.00%	Brazil
Aliança Atlântica Holding B.V. ("Aliança")	Jointly-controlled subsidiary	50.00%	Holland
Companhia AIX de Participações ("AIX")	Jointly-controlled subsidiary	50.00%	Brazil
Companhia ACT de Participações ("ACT")	Jointly-controlled subsidiary	50.00%	Brazil

In the parent company financial statements interests held in subsidiaries or jointly-controlled entities are measured under the equity method. In the consolidated investments and all asset and liability balances, revenues and expenses arising from transactions and interest held in subsidiaries are fully eliminated. Investments in jointly-controlled entities are measured under the equity method.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and nine-month period ended September 30, 2017

(In thousands of *Reais*, unless otherwise stated)

(1) This refers to the amounts recorded which, in accordance with Brazilian tax legislation, may be offset to the limit of 30% of the tax bases computed for the following years, with no expiry date. After the acquisition of Terra Networks by TData and based on the commercial and operational synergies resulting from the integration of this operation, a new strategic plan was elaborated for the next 10 years for Terra Networks, where this projection indicated a generation of taxable profits, enough to compensate the temporary differences and tax loss carryforwards in Terra Networks (note 1 e).

(2) This refers to amounts that will be realized upon payment of provisions, effective impairment losses for trade accounts receivable, or realization of inventories, as well as upon reversal of other provisions.

(3) These refer to deferred taxes arising from other temporary differences, such as deferred income, renewal of licenses, subsidy on the sale of mobile phones, among others.

At September 30, 2017, deferred tax credits (income tax and social contribution losses) were not recognized in indirect subsidiaries (Innoweb and TGLog) accounting records, in the amount of R\$11,588 (R\$2,993 at December 31, 2016), as it is not probable that future taxable profits will be available to use them.

7) JUDICIAL DEPOSITS AND GARNISHMENTS

In some situations, in connection with a legal requirement or presentation of guarantees, judicial deposits are made to secure the continuance of the claims under discussion. These judicial deposits may be required for claims where the likelihood of loss was analyzed by the Company and its subsidiaries, grounded on the opinion of its legal advisors as a probable, possible or remote loss.

The information related to tax-related judicial deposits is the same as in Note 9) Judicial Deposits and Garnishments, as disclosed in the financial statements for the year ended December 31, 2016.

On September 30, 2017, the Company and its subsidiaries had several tax-related judicial deposits in the consolidated amount of R\$4,172,267 (R\$3,758,787 at December 31, 2016). In Note 17, we provide further details on issues arising from the most significant judicial deposits.

The table below presents the composition of the balances as of September 30, 2017 and December 31, 2016 of the tax judicial deposits (segregated and summarized by tribute).

(1) The Company and its subsidiaries recognized estimated losses for potential obsolescence of materials used in property and equipment maintenance, based on levels of historical use and expected future use.

(2) Net write-offs regarding "Infrastructure and Assets and Facilities under Construction" for the period ended September 30, 2016, include the amount of R\$99,210 regarding the disposal of 1,655 towers owned by the Company to Telxius Torres Brasil Ltda., a Telefónica subsidiary.

b) Depreciation rates

In the last quarter of 2016, in accordance with IAS 16 / CPC 27, the Company performed, in conjunction with a specialized company, valuations of useful lives applied to its property, plant and equipment using the direct comparative method of market data. The studies indicated the need for changes in useful life and annual depreciation rates for some items of asset classes.

The following table sets forth the depreciation rates of property, plant and equipment of the Company and its subsidiaries, which are depreciated on a straight-line basis at the annual rate, as follows:

c) Property and equipment items pledged in guarantee

At September 30, 2017, the Company had consolidated amounts of property and equipment items pledged in guarantee for lawsuits, amounting to R\$174,803 (R\$203,600 at December 31, 2016).

d) Capitalization of borrowing costs

At September 30, 2017 and December 31, 2016, the Company and its subsidiaries did not capitalize borrowing costs, as there were no qualifying assets.

e) Reversible assets

The STFC service concession arrangement establishes that all assets owned by the Company and that are indispensable to the provision of the services described in the referred to arrangement are considered “reversible” (returnable to the concession authority). At September 30, 2017, estimated residual value of reversible assets was R\$8,770,432 (R\$8,813,916 at December 31, 2016), which comprised switching and transmission equipment and public use terminals, external network equipment, energy, system and operational support equipment.

f) Finance leases

Below are the amounts related to finance lease arrangements, in which the Company is a lessee, segregated by type of property and equipment item.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and nine-month period ended September 30, 2017

(In thousands of *Reais*, unless otherwise stated)

(1) This refers to contingent liabilities arising from Purchase Price Allocation (PPA) generated on acquisition of the controlling interest of Vivo Participações in 2011 and GVTPart. in 2015 (Note 1c).

(2) These refer to costs to be incurred to return the sites (locations for installation of base radio, equipment and real estate) to their respective owners in the same conditions as at the time of execution of the initial lease agreement.

(3) This refers to the amounts of tax on tax losses used to offset tax provisions arising from the Company's adherence to the Special Tax Regularization Program (PERT).

a) Provisions and labor contingencies

<u>Nature / Level of Risk</u>	Amounts involved			
	Company 09/30/17	12/31/16	Consolidated 09/30/17	12/31/16
Provisions - probable losses	1,035,737	1,374,570	1,063,137	1,382,957
Possible losses	222,590	275,483	276,531	293,146

Labor provisions and contingencies involve labor claims filed by former employees and outsourced employees (the latter alleging subsidiary or joint liability) claiming for, among other issues, overtime, salary equalization, post-retirement benefits, allowance for health hazard and risk premium, and matters relating to outsourcing.

The Company is also a defendant in labor claims filed by retired former employees who are covered by the Retired Employees Medical Assistance Plan ("PAMA"), who, among other issues, are demanding the cancellation of amendments to this plan. Most of these claims await a decision by the Regional Labor Court of São Paulo and the Superior Labor Court. Based on the opinion of its legal counsel and recent decisions of the courts, management considers the risk of loss in these cases as possible. No amount has been specified for these claims, since is not possible to estimate the cost to the Company in the event of loss.

In addition, the Company is party to Public Civil Actions filed by the Labor Public Prosecutor's Office, mainly in relation to the determination that the Company must cease the engagement of intermediaries to carry out its core activities. No amounts were allocated to the possible degree of risk in these Public Civil Actions in the above table, since at this stage of the proceedings it is not possible to estimate the cost to the Company in the event of loss.

(In thousands of *Reais*, unless otherwise stated)

At September 30, 2017, consolidated amounts involved totaled R\$550,170 (R\$853,244 at December 31, 2016).

FUST, FUNTTEL, FISTEL and EBC

Universal Telecommunications Services Fund ("FUST")

Writs of mandamus were filed seeking the right to not include expenses with interconnection and Industrial Use of Dedicated Line (EILD) in FUST tax base, according to Abridgment No. 7 of December 15, 2005, as it does not comply with the provisions contained in sole paragraph of article 6 of Law No. 9,998/00, which are awaiting a decision from Higher Courts.

Various delinquency notices were issued by ANATEL in the administrative level to collect charges on interconnections, EILD and other revenues not earned from the provision of telecommunication services.

At September 30, 2017, consolidated amounts involved totaled R\$4,274,654 (R\$4,089,065 at December 31, 2016).

Fund for Technological Development of Telecommunications ("FUNTTEL")

Proceedings filed for recognition of the right not to include interconnection revenues and any others arising from the use of resources that are part of the networks in FUNTTEL calculation basis, as determined by Law 10,052/00 and Decree No. 3,737/01, thus avoiding the improper application of Article 4, paragraph 5, of Resolution 95/13.

Several notifications of debits drawn up by the Ministry of Communications in administrative actions for constitution of the tax credit related to the interconnection, network resources and other revenues that do

not originate from the provision of telecommunication services.

At September 30, 2017, consolidated amounts involved totaled R\$488,603 (R\$1,190,637 at December 31, 2016).

Telecommunications Inspection Fund ("FISTEL")

Judicial actions for the collection of TFI on: (a) extensions of the term of validity of the licenses for use of telephone exchanges associated with the operation of the fixed switched telephone service; and (b) extensions of the period of validity of the right to use radiofrequency associated with the operation of the telephone service personal mobile service.

At September 30, 2017, consolidated amounts involved totaled R\$2,529,372 (R\$2,352,000 at December 31, 2016).

Contribution to Empresa Brasil de Comunicação (EBC)

The Union of Telephony and Cellular and Personal Mobile Service Companies ("Sinditelebrasil") judicially discusses, on behalf of the associates, the Contribution to the Promotion of Public Broadcasting to EBC, created by Law 11,652/08.

c.1) Provisions for probable civil losses

Management and its legal counsel understand that losses are probable in the following civil proceedings:

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and nine-month period ended September 30, 2017

(In thousands of *Reais*, unless otherwise stated)

- The Company and/or its subsidiaries are parties to proceedings involving rights to the supplementary amounts from shares calculated on network expansion plans since 1996 (supplement of share proceedings). These proceedings are at different stages: lower courts, court of justice and high court of justice. At September 30, 2017, consolidated provisions totaled R\$319,952 (R\$256,276 at December 31, 2016).
- The Company and/or its subsidiaries are parties to various civil proceedings related to consumers at the administrative and judicial level, relating to the non-provision of services and/or products sold. At September 30, 2017, consolidated provisions totaled R\$328,155 (R\$386,699 at December 31, 2016).
- The Company and/or its subsidiaries are parties to various civil proceedings of a non-consumer nature at administrative and judicial levels, all arising in the ordinary course of business. At September 30, 2017, consolidated provisions totaled R\$426,575 (R\$396,382 at December 31, 2016).

c.2) Civil contingencies assessed as possible losses

Management and its legal counsel understand that losses are possible in the following civil proceedings:

- Collective Action filed by SISTEL Participants' Association (ASTEL) in the state of São Paulo, in which SISTEL associates in the state of São Paulo challenge the changes made in the health insurance plan for retired employees ("PAMA") and claim for the reestablishment of the prior "status quo". This proceeding is still in the appeal phase, and awaits a decision on the Interlocutory Appeal filed by the Company against the decision on possible admission of the appeal to higher and supreme courts filed in connection with the Court of Appeals' decision, which changed the decision rendering the matter groundless. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because it entails the return to the prior plan conditions.
- Civil Class Actions filed by ASTEL, in the state of São Paulo, and by the Brazilian National Federation of Associations of Retirees, Pensioners and Pension Fund Members of the Telecommunications Industry (FENAPAS), both against SISTEL, the Company and other carriers, in order to annul the spin-off of the

PBS private pension plan, alleging, in short, the "windup of the supplementary private pension plan of the SISTEL Foundation", which led to various specific mirror PBS plans, and corresponding allocation of funds from technical surplus and tax contingencies existing at the time of the spin-off. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because this involves the return of the spun-off assets of SISTEL relating to telecommunication carriers of the former Telebrás System.

- The Company is party to other civil claims, at several levels, related to service rendering rights. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Prosecutor's Office. The Company is also party to other claims of several types related to the ordinary course of business. At September 30, 2017, the consolidated amount totaled R\$2,781,941 (R\$2,559,252 at December 31, 2016).
 - TGLog (company controlled by TData) is a party to the civil enforcement action process in the 3rd Civil Court of Barueri - SP for the allegation of contractual noncompliance with the transportation of goods. At September 30, 2017, the amount was R\$172 (R\$1,377 at December 31, 2016).
 - Terra Networks (company controlled by TData) is a party to: (i) supplier action related to the transmission of events; (ii) PROCON fine (annulment action); (iii) indemnification action related to the use of content; (iv) ECAD action on copyright collection; and (v) claim actions filed by former subscribers regarding unrecognized collection, collection of undue value and contractual noncompliance. At September 30, 2017, the amount was R\$18,680.
 - The Company has received notices regarding noncompliance with the Customer Service (SAC) Decree. The Company is currently party to various lawsuits (administrative and legal proceedings). At September 30, 2017 and at December 31, 2016, the amount was R\$14,207.

- Intellectual Property: Lune Projetos Especiais Telecomunicação Comércio e Ind. Ltda. (Lune), a Brazilian company, filed an action on November 20, 2001 against 23 wireless carriers claiming to own the patent for caller ID and the trademark "Bina". The purpose of that lawsuit was to interrupt provision of such service by carriers and to seek indemnification equivalent to the amount paid by consumers for using the service.

An unfavorable decision was handed down determining that the Company should refrain from selling mobile phones with Caller ID service ("Bina"), subject to a daily fine of R\$10,000.00 (Ten thousand reais) in case of noncompliance. Furthermore, according to that decision, the Company must pay indemnification for royalties, to be calculated in settlement. Motions for Clarification were proposed by all parties and Lune's motions for clarification were accepted since an injunctive relief in this stage of the proceedings was deemed applicable. A bill of review appeal was filed in view of the current decision which granted a stay of execution suspending that unfavorable decision until final judgment of the review. A bill of review was filed in view of the sentence handed down on June 30, 2016, by the 4th Chamber of the Court of Justice of the Federal District, in order to annul the lower court sentence and remit the proceedings back to the lower court for a new examination. At the present time, we await the judgment of the regimental grievance filed against a decision prior to the judgment, which rejected the application of the former lawyers of Lune as assistants of the author. There is no way to determine the extent of potential liabilities with respect to this claim.

- The Company and other wireless carriers figure as defendants in several lawsuits filed by the Public Prosecutor's Office and consumer associations to challenge imposition of a period to use prepaid minutes. The plaintiffs allege that the prepaid minutes should not expire after a specific period. Conflicting decisions were handed down by courts on the matter, even though the Company understands that its criteria for the period determination comply with ANATEL standards.

d.1) Provisions for regulatory contingencies assessed as probable losses

The Company is party to administrative proceedings against ANATEL, filed based on an alleged failure to meet sector regulations, and to judicial proceedings to contest sanctions applied by ANATEL at the administrative level. At September 30, 2017, consolidated provisions totaled R\$923,432 (R\$828,934 at December 31, 2016).

d.2) Regulatory contingencies assessed as possible losses

According to the Company's management and legal counsel, the likelihood of loss of the following regulatory civil proceedings is possible:

- The Company is party to administrative proceedings filed by ANATEL alleging noncompliance with the obligations set forth in industry regulations, as well as legal claims which discuss the sanctions applied by ANATEL at the administrative level. At September 30, 2017, the consolidated amount was R\$5,168,733 (R\$5,018,205 at December 31, 2016).
 - Administrative and judicial proceedings discussing payment of a 2% charge on interconnection services revenue arising from the extension of right of use of SMP related radio frequencies. Under clause 1.7 of the authorization term that grants right of use of SMP related radio frequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years) of a 2% charge calculated on net revenues from the service provider's Basic and Alternative Plans of the service company, determined in the year before that of payment.
-

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

(In thousands of *Reais*, unless otherwise stated)

However, ANATEL determined that in addition to revenues from Service Plans, the charge corresponding to 2% should also be levied on interconnection revenues and other operating revenues, which is not stipulated in clause 1.7 of referred Authorization Term.

Considering, based on the provisions of the Authorization Terms, that revenue from interconnection services should not be included in the calculation of the 2% charge for radiofrequency use right extension, the Company filed administrative and legal proceedings challenging these charges, based on ANATEL's position.

d.3) Term of Conduct Adjustment ("TAC")

The Board of Directors of ANATEL approved, on October 27, 2016, the Company's TAC. On September 27, 2017, this instrument was judged by the Brazilian Court of Audit ("TCU"), with the determination of fulfillment of conditions for the continuation of the analysis of the instrument.

e) Guarantees

The Company and its subsidiaries granted guarantees for tax, civil and labor proceedings, as follows:

	Consolidated					
	09/30/17			12/31/16		
	Property and equipment	Judicial deposits and garnishments	Letters of guarantee	Property and equipment	Judicial deposits and garnishments	Letters of guarantee

(4) This refers to points earned under the Company's loyalty program, which enables customers to accumulate points by paying bills relating to use of services offered. The balance represents the Company's estimate of customers exchanging points for goods and / or services in the future.

(5) This refers to: i) government subsidy arising from funds obtained from BNDES credit lines to be used in the acquisition of domestic equipment, which have been amortized over the useful life cycle of the equipment; and ii) subsidies arising from projects related to state taxes, which are being amortized over the contractual period.

(6) This refers to the balances of network equipment donated by suppliers, which are amortized over their useful life cycles

(7) Includes amounts of the reimbursement for costs for leaving radio frequency sub-bands 2,500MHz to 2,690MHz due to cancellation of the Multichannel Multipoint Distribution Service (MMDS).

19) LOANS, FINANCING AND DEBENTURES

a) Breakdown

On September 30, 2017, the contractual terms of the loans and financing are the same as in Note 21) Loans, Financing and Debentures, as disclosed in the financial statements for the year ended December 31, 2016, except for funding obtained in the nine-month period ended September 30, 2017, described in item a.1).

(In thousands of *Reais*, unless otherwise stated)

a.1) Financial Insituitions

Banco do Nordeste ("BNB")

On May 12, 2017, draw-downs were made related to the agreement signed on August 18, 2014 in the total amount of R\$39,878. The rates of this contract are 7.06% p.a. to 10.0% p.a., total term of 8 years, with interest payments and principal repayments in 72 monthly and successive installments. These resources were destined to investment and expansion projects for the Brazil's Northeast region.

a.2) Financing - Suppliers

Under bilateral agreements with suppliers, the Company obtained extension of the terms for payment of trade accounts payable at a cost based on fixed CDI rate for the corresponding periods, with the net cost equivalent to between 109.1% and 117.1% of CDI (108.4% of CDI as of December 31, 2016).

a.3) Finance leasing

The Company is lessee in contracts classified as financial leasing, related to: (i) lease of towers and rooftops arising from sale and finance leaseback transactions; (ii) lease of Built to Suit ("BTS") sites to install antennas and other equipment and transmission facilities; (iii) lease of information technology equipment and; (iv) lease of infrastructure and transmission facilities. The net carrying amount of the assets has remained unchanged until sale thereof, and a liability is recognized corresponding to the present value of mandatory minimum installments of the agreement.

The amounts recorded in property, plant and equipment are depreciated over the estimated useful lives of the assets or the lease term, whichever is shorter.

The balance of amounts payable relating to those transactions comprises the following:

	Company / Consolidated	
	09/30/17	12/31/16
Nominal value payable	792,875	831,479
Unrealized financial expenses	(404,683)	(457,051)
Present value payable	388,192	374,428
Current	40,105	45,943
Non-current	348,087	328,485

Aging of finance lease payables at September 30, 2017 is as follows:

	Company / Consolidated	
	Nominal value payable	Present value payable
Up to 1 year	46,764	40,105
From 1 to 5 years	199,709	145,175
Over five years	546,402	202,912
Total	792,875	388,192

There are no unsecured residual values resulting in benefits to the lessor nor in contingent payments recognized as revenue at September 30, 2017 and December 31, 2016.

a.4) Contingent Consideration

As part of the Purchase and Sale Agreement and Other Covenants executed by and between the Company and Vivendi to acquire all shares in GVTPart (Note 1c), a contingent consideration relating to the judicial deposit made by GVT for the monthly installments of deferred income tax and social contribution on goodwill amortization was agreed, arising from the corporate restructuring process completed by GVT in 2013. If these funds are realized (being reimbursed, refunded, or via netting), they will be returned to Vivendi, as long as they are obtained in a final unappeasable decision. Reimbursement will be made within 15 years and this amount is subject to monthly restatement at the SELIC rate.

b) Debentures

On September 30, 2017, the contractual terms of the debentures are the same as in Note 21) Loans, Financing and Debentures, as disclosed in the financial statements for the year ended December 31, 2016, except for the new issue described below.

5th Issue

At a meeting held on January 26, 2017, the Company's Board of Directors approved the 5th issue of simple debentures, non-convertible into shares of the Company, in a single series, unsecured, in the total amount of R\$2,000,000, which were subject to public placement with restricted efforts, under a firm guarantee regime, in the terms of ICVM 476/09.

On February 8, 2017, the Company issued 200,000 debentures, with a par value equivalent to R\$10,000 (Ten thousand reais). The debentures have a maturity of five years and the nominal unit value of each of the debentures will not be monetarily restated.

Remuneration interest corresponds to 108.25% of the accumulated variation of the average daily rates of one-day Interbank Deposits ("DI").

The net proceeds obtained by the Company with this issuance will be fully used for reprofiling the Company's financial liabilities, taking into consideration the Company's ongoing operations.

3th Issue

On September 10, 2017, the debentures contemplated in this indenture were fully settled. The amount paid in settlement amounted to R\$2,110,358, of which R\$2,000,000 corresponded to the principal and R\$110,358 corresponded to interest

The following discloses some information on the debentures in effect on September 30, 2017 and December 31, 2016.

21) EQUITY

a) Capital

According to its Articles of Incorporation, the Company is authorized to increase its share capital up to 1,850,000,000 shares. The Board of Directors is the competent body to decide on any increase and consequent issue of new shares within the authorized capital limit.

Nevertheless, Brazil's Corporation Law (Law no. 6,404/76, Article 166, item IV) establishes that capital may be increased by means of a Special Shareholders' Meeting resolution to decide about amendments to the Articles of Incorporation, if the authorized capital limit has been reached.

Capital increases do not necessarily require the proportion between the number of shares of each class to be maintained, however the number of non-voting or restricted-voting preferred shares must not exceed 2/3 of total shares issued.

Preferred shares are non-voting, except for cases set forth in Articles 9 and 10 of the Articles of Incorporation, but have priority in the event of reimbursement of capital, without premium, and are entitled to dividends 10% higher than those paid on common shares, as per article 7 of the Company's Articles of Incorporation and item II, paragraph 1, article 17 of Law No. 6,404/76.

Preferred shares also acquire full voting rights if the Company fails to pay the minimum dividend to which they are entitled for three consecutive financial years and this right will continue until payment of said dividend.

Paid-in capital at September 30, 2017 and December 31, 2016 amounted to R\$63,571,416. After all the events described above, subscribed and paid-in capital is divided into shares without par value, held as follows:

(1) The amount shown for 2016 includes R\$476,371 (net of residual values) from the Company's sale of 1,655 transmission towers to Telxius Torres Brasil (company of the Telefónica Group). After the sale of these assets, a lease agreement for part of the towers sold was entered into, thus ensuring continued transmission of data for mobile services.

The transaction was recognized as sale and leaseback as provided under IAS 17. Management analyzed each asset leased back and classified them as operating or finance leases in accordance with IAS 17 qualitative and quantitative criteria.

Management compensation

Consolidated key management personnel compensation paid by the Company to its Board of Directors and Statutory Officers were R\$16,101 and R\$45,235 for the quarters ended September 30, 2017 and 2016 respectively. Of this amount, R\$10,455 (R\$19,445 on September 30, 2016) corresponds to salaries, benefits and social charges and R\$5,646 (R\$25,790 on September 30, 2016) to variable compensation.

These amounts were recorded as expenses with personnel under the General and administrative expenses group of accounts (Note 23).

For the quarters ended September 30, 2017 and 2016, our Directors and Officers did not receive any pension, retirement or similar benefits.

28) SHARE-BASED PAYMENT PLANS

Telefónica, as the Company's parent company, has different share-based payment plans based on the share quotes, which were also offered to management and employees of its subsidiaries, including Telefônica Brasil and the latter's subsidiaries.

The fair value of these options is estimated on the grant date, based on a binomial pricing model reflecting terms and conditions of instruments granted.

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and nine-month period ended September 30, 2017

(In thousands of *Reais*, unless otherwise stated)

The Company and its subsidiaries reimburse Telefônica for the amount of the fair value of the benefits granted to management and employees on the grant date.

The main plans in force on September 30, 2017 and December 31, 2016 were: (i) Performance & Investment Plan ("PIP") to reward senior management's global commitment; and (ii) Talent for the Future Share Plan ("TFSP") to reward the global commitment.

The details of these plans are the same as in Note 31) Share-Based Payment Plans, as disclosed in the financial statements for the year ended December 31, 2016.

The 2014-2017 cycle of PIP and TFSP were finalized in September 2017 and no Total Shareholder Return (TSR) was achieved, thus, no Telefônica shares were delivered to the Company's executives.

At September 30, 2017, the share price of Telefônica shares was 9.1920 euros and the plans were positioned as follows:

Plans	Cycles	Number of shares (1)	Final Date
PIP	5th cycle - October 1, 2015 (2)	485,589	September 30, 2018
TFSP	2nd cycle - October 1, 2015	83,500	September 30, 2018

(1) For the PIP, it includes the initial quantities and co-investment and for the TFSP only the initial quantities.

(2) With 88 active executives (including 3 executives appointed under the Company's Bylaws).

On July 31, 2017 the cycle of the Global Employee Share Plan ("GESP") was finalized, with the delivery of the shares to employees who fulfilled the conditions established by the plan.

The expenses of the Company and its subsidiaries with the compensation plans based on actions described above, where applicable, are recorded as personnel expenses, divided between Cost of Services, Selling and General and Administrative Expenses (Note 23), corresponding to R\$5,540 and R\$10,928 for the quarters ended September 30, 2017 and 2016 respectively.

29) PENSION PLANS AND OTHER POST-EMPLOYMENT BENEFITS

The plans sponsored by the Company and related benefit types are as follows:

Plan	Type	Entity	Sponsor
PBS-A	Defined benefit (DB)	Sistel	Telefônica Brasil, jointly with other telecoms resulting from privatization of the Sistema Telebrás
PAMA / PCE	Defined benefit (DB)	Sistel	Telefônica Brasil, jointly with other telecoms resulting from privatization of the Sistema Telebrás
Healthcare - Law No. 9656/98	Defined benefit (DB)	Telefônica Brasil	Telefônica Brasil
CTB	Defined benefit (DB)	Telefônica Brasil	Telefônica Brasil
Telefônica BD	Defined benefit (DB)	VisãoPrev	Telefônica Brasil
PREV	Hybrid	VisãoPrev	Telefônica Brasil
VISÃO	Defined contribution (DC) / Hybrid	VisãoPrev	Telefônica Brasil, TData and TGLog

The details of these plans are the same as in Note 32) Pension Plans and Other Post-Employment Benefits, as disclosed in the financial statements for the year ended December 31, 2016, except for the plans Vivo Prev, Visão T Gestiona and Visão Telefônica, as described below.

On December 9, 2016, Visão Prev obtained approvals from the National Supplementary Pension Authority ("PREVIC") for the incorporation of Vivo Prev and Visão T Gestiona plans to the Visão Telefônica plan. In this way, as of January 1, 2017, all participants in Vivo Prev and Visão T Gestiona plans became participants in the Visão Telefônica plan. This unification preserves all vested rights, and gives participants of the incorporated plans access to the benefits of the Visão Telefônica plan.

Of the surplus amounts shown in the table above, the Company recognized consolidated amounts of R\$9,441 and R\$8,838 at September 30, 2017 and December 31, 2016, respectively (Note 9).

30) FINANCIAL INSTRUMENTS AND RISK AND CAPITAL MANAGEMENT

a) Derivative transactions

The derivative financial instruments contracted by the Company are mainly intended to hedge against foreign exchange risk arising from assets and liabilities in foreign currency, risk of inflation on its debentures and leases indexed to the IPCA and against the risk of changes in TJLP of a portion of debt with BNDES. There are no derivative financial instruments for speculative purposes and possible currency risks are hedged.

Management understands that the Company's internal controls for its derivatives are adequate to control risks associated with each strategy for the market. Gains/losses obtained or sustained by the Company in relation to its derivatives show that its risk management has been appropriate.

The Company calculates the effectiveness of the derivative contracts to hedge its financial liabilities and cash flows in foreign currency at the beginning of the operation and on an ongoing basis. At September 30, 2017 and December 31, 2016, the derivative instruments were effective for the hedged items.

As long as these derivatives contracts qualify for hedge accounting, the hedged item may also be adjusted to fair value, offsetting the result of the derivatives, according to the rules of hedge accounting. This hedge accounting applies both to financial liabilities and probable cash flows in foreign currency.

At September 30, 2017 and December 31, 2016, the Company held no embedded derivatives contracts.

Derivatives contracts include specific penalties for breach of contract. Breach of contract provided for in agreements made with financial institutions leads to the early maturity thereof.

a.1) Fair value of derivative financial instruments

The valuation method used to calculate the fair value of financial liabilities (if applicable) and derivative financial instruments was the discounted cash flow method, based on expected settlements or realization of liabilities and assets at market rates prevailing at the balance sheet date.

The fair values of positions in Reais are calculated by projecting future inflows from transactions using B3 yield curves discounting these flows to present value using market DI rates for swaps announced by B3.

The market values of foreign-exchange derivatives were obtained using the market exchange rates in effect at the balance sheet date and projected market rates obtained from the currency's coupon-rate yield curves. The linear convention of 360 calendar days was used to determine coupon rates of positions indexed in foreign currencies, while the exponential convention of 252 business days was used to determine coupon rates for positions indexed to CDI rates.

Consolidated derivatives financial instruments shown below are registered with B3 and classified as swaps, usually, that do not require margin deposits.

For the purposes of preparing its financial statements, the Company adopted the fair value hedge accounting methodology for its foreign currency swaps x CDI, IPCA x CDI, IGPM x CDI and TJLP x CDI for hedging or financial debt. Under this arrangement, both derivatives and hedged risk are recognized at fair value.

The ineffective portion at September 30, 2017 was R\$1,404 (R\$2,091 at December 31, 2016).

At September 30, 2017 and 2016, the transactions with derivatives generated consolidated negative (net) result of R\$66,803 and R\$315,064, respectively (Note 25).

a.2) Sensitivity analysis to the Company's risk variables

CVM Resolution 604/09 requires listed companies to comply with CPC 40 Financial Instruments: Disclosures (IFRS 7) by disclosing sensitivity analyses for each type of market risk that management understands to be significant when originated by financial instruments to which the entity is exposed at the end of each period, including all derivatives financial instrument transactions.

In making the above analysis, each of the transactions with derivative financial instruments was assessed and assumptions included a probable scenario and two others that could adversely impact the Company.

In the probable scenario the assumption is to use, on the maturity dates of each of the transactions, what the market had been showing through B3 yield curves (currencies and interest rates), as well as data available at IBGE, Central Bank, FGV, among others. In the probable scenario, there is no impact on the fair value of the above-mentioned derivatives. However, for scenarios II and III, as per CVM ruling, risk variables were considered to deteriorate by 25% and 50% respectively.

Since the Company only holds derivatives to hedge its foreign-currency assets and liabilities, changing scenarios are tracked by the corresponding hedged items, thus showing that effects are almost non-existent. For these transactions, the Company reported the consolidated net exposure in each of the above-mentioned three scenarios at September 30, 2017.

The assumptions used by the Company for the sensitivity analysis at September 30, 2017 were as follows:

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and nine-month period ended September 30, 2017

(In thousands of *Reais*, unless otherwise stated)

Sensitivity analysis assumptions

<u>Risk Variable</u>	Probable	25% depreciation	50% depreciation
US\$	3.1680	3.9600	4.7520

URTJLP	2.0265	2.5331	3.0397
CDI	8.14%	10.18%	12.21%

For calculation of the net exposure for the sensitivity analysis, all derivatives were considered at market value and hedged items designated for hedge accounting purposes were also considered at fair value.

The fair values shown in the table above are based on the portfolio position at September 30, 2017, but do not reflect an estimate for realization due to the dynamism of the market, which is constantly monitored by the Company. The use of different assumptions could significantly affect the estimates.

b) Fair value

The Company and its subsidiaries assessed their financial assets and liabilities in relation to market values using available information and appropriate valuation methodologies. However, both the interpretation of market data and the selection of valuation methods require considerable judgment and reasonable estimates to produce the most adequate realization value. As a result, the estimates shown do not necessarily indicate amounts that could be realized in the current market. The use of different assumptions for the market and/or methodologies may have a material effect on estimated realization values. At September 30, 2017 and December 31, 2016, neither the Company nor its subsidiaries detected any significant and enduring impairment of their financial instruments.

The fair value of all assets and liabilities are classified within the fair value hierarchy described below, based on the level of information that is significant to the fair value measurement as a whole:

Level 1: quoted market prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: valuation techniques where the significant lowest level of information available to measure the fair value is directly or indirectly observable; and

Level 3: valuation techniques where the lowest and significant level of information to measure the fair value is not available.

The following tables show the composition of financial assets and liabilities at September 30, 2017 and December 31, 2016. During the periods shown in the tables below, there were no transfers between fair value measurements of level 3 and level 1 and 2.

c) Capital management

The purpose of the Company's capital management is to ensure maintenance of a high credit rating with institutions and an optimal capital ratio in order to support the Company's business and maximize shareholder value.

The Company manages its capital structure by making adjustments and adapting to current economic conditions. For this purpose, the Company may pay dividends, raise new loans, issue debentures and contract derivatives. For the quarter ended September 30, 2017, there were no changes in capital structure objectives, policies or processes.

In its net debt structure, the Company includes balances referring to loans, financing, debentures, finance leasing, contingent consideration and transactions with derivatives, less cash and cash equivalents, short-term investments to secure BNB financing and guarantor of the contingent consideration liability.

Net debt	2,014,703	3,665,081
Net equity	69,512,082	69,244,419
Net debt-to-equity ratio	2.90%	5.29%

d) Risk management policy

The Company and its subsidiaries are exposed to several market risks as a result of its commercial operations, debts contracted to finance its activities and debt-related financial instruments.

d.1) Currency Risk

This is risk arising from the possibility that the Company may incur losses due to fluctuating exchange rates, which increase the costs arising from loans denominated in foreign currencies.

At September 30, 2017, 10.4% of financial debt was foreign-currency denominated (14.0% at December 31, 2016). The Company enters into derivative transactions (currency hedge) with financial institutions to hedge against exchange rate variation affecting its total indebtedness in foreign currency (R\$839,682 and R\$1,287,864 at September 30, 2017 and December 31, 2016, respectively). Its total debt on these dates was covered by asset positions in currency-exchange hedge transactions with CDI-rate swaps.

There is also foreign exchange risk for non-financial assets and liabilities denominated in foreign currencies, which may generate a smaller amount receivable or larger amount payable depending on the exchange rate in the period.

Hedging transactions were contracted to minimize the risks associated with exchange-rate variation of non-financial assets and liabilities in foreign currencies. This balance is subject to daily changes due to the dynamics of the business. However, the Company intends to cover the net balance of these rights and obligations (US\$18,181 thousand receivable and €14,035 thousand receivable at September 30, 2017 and US\$17,293 thousand and €5,695 thousand payable at December 31, 2016) to mitigate its foreign exchange risks.

d.2) Interest and Inflation Risk

This risk arises because the Company may incur losses in the event of an unfavorable change in the domestic interest rate, which may adversely affect financial expenses resulting from the portion of debentures referenced to the CDI and liability positions in derivatives (currency hedge, IPCA and TJLP) pegged to floating interest rates (CDI).

The debt with BNDES is indexed to the Long-Term Interest Rate (TJLP) which is set on a quarterly basis by the National Monetary Council. During the year 2016 and for the quarter ended March 30, 2017, the TJLP was 7.5%. In the third quarter of 2017, the TJLP remained at 7.0%.

Inflation risk arises from the Minas Comunica debentures of the 1st issue, which are tied to the IPCA and thus may adversely affect financial expenses in the event of an unfavorable change in this index.

To reduce exposure to the variable interest rate (CDI), the Company and its subsidiaries invested their cash equivalents of R\$5,480,329 at September 30, 2017 (R\$4,906,741 at December 31, 2016), mostly in short-term CDI-based financial investments (Bank Deposit Certificates). The carrying amounts of these instruments approximate their fair values, since they may be redeemed in the short term.

d.3) Liquidity Risk

Liquidity risk is the possibility of the Company or its subsidiaries not holding sufficient funds to meet their commitments due to different currencies and dates of realization of rights and settlement of obligations.

The Company and its subsidiaries structure the maturity dates of non-derivative financial contracts, as shown in Note 19, and their respective derivatives, as shown in the schedule of payments disclosed in this note, to avoid affecting their liquidity.

The Company's cash flow and liquidity and those of its subsidiaries are managed on a daily basis by the departments in charge of ensuring that operating cash flows and prior funding, when necessary, will be sufficient to meet their schedule of commitments in order to avoid liquidity risk.

Below, we summarize the maturity profile of our consolidated financial liabilities as set forth in the related agreements:

At 09.30.17	Less than one year	From 1 to 2 years	From 2 to 5 years	Over 5 years
Trade accounts payable (Note 14)	7,290,613	-	-	-

Total	12,457,937	2,486,807	1,404,486	742,613

d.4) Credit Risk

The risk arises from the possibility of the Company and its subsidiaries incurring losses due to difficulty in receiving amounts billed to their customers and sales of prepaid handsets and cards that have been pre-activated for the distribution network.

The credit risk on accounts receivable is diversified and mitigated by strict control of the customer base. The Company constantly monitors the level of accounts receivable from postpaid services, and limits bad-debt risk by cutting off access to telephone lines if bills are past due. The mobile customer base predominantly uses the prepaid system, which requires purchase of credits beforehand and therefore does not pose credit risk. Exceptions are made for telecommunications services that must be maintained for security or national defense reasons.

Credit risk on sales of pre-activated prepaid handsets and cards is managed by a conservative policy for granting credit, using modern credit scoring methods, analyzing financial statements and consultations to commercial databases, in addition to requesting guarantees.

The Company and its subsidiaries are also subject to credit risk arising from their investments, letters of guarantee received as collateral for certain transactions and receivables from derivative transactions. The Company and its subsidiaries control the credit limits granted to each counterparty and diversify this exposure across first tier financial institutions in accordance with the current credit policies of financial counterparties.

d.5) Social and Environmental Risks

Our operations and properties are subject to various environmental laws and regulations that, among others, govern environmental licenses and records, protection of fauna and flora, air emissions, waste management and remediation of contaminated sites. If we fail to meet present and future requirements, or to identify and manage new or existing contamination, we will incur significant costs, which include clean-up costs, damages, compensation, fines, activities suspension and other penalties, investments to improve our facilities or change our processes, or interruption of operations. The identification of environmental conditions not currently known, more stringent inspections by regulatory agencies, the entry into force of more stringent laws and regulations or other unanticipated events may occur and, ultimately, result in significant environmental liabilities and their costs. The occurrence of any of the above factors could have a material adverse effect on our business, results of operations and financial position. According to Article 75 of Law No. 9,605 of 1998, the maximum fine per breach of environmental law is R\$50,000.

From the social point of view, we are exposed to contingent liabilities due to the fact that our structure provides for the hiring of outsourced service providers. These potential liabilities may involve labor claims by service providers which are treated as direct employees and claim joint liability resulting from overtime and occupational accidents. If we obtain unfavorable decisions with respect to a significant portion of these contingencies and if we have not recognized a provision for these risks, our financial position and results of operations may be adversely affected. In addition, if the labor authorities consider that outsourcing services involves core activities of the Company, this may be considered an employment relationship, which would significantly increase our costs and therefore subject the Company administrative and judicial proceedings and payment of fines to third parties.

d.6) Insurance Coverage

The policy of the Company and its subsidiaries, as well as the Telefónica Group, includes contracting insurance coverage for all assets and liabilities involving significant and high-risk amounts, based on management's judgment and following Telefónica corporate program guidelines.

At September 30, 2017, maximum limits of claims (established pursuant to the agreements of each entity consolidated by the Company) for significant assets, liabilities or interests covered by insurance and their respective amounts were R\$1,033,944 for operational risks (with loss of profit) and R\$75,000 for general

civil liability.

d.7) Other Risks

The Company is required to comply with Brazilian anti-corruption laws and regulations, as well as laws and regulations on the same subject in jurisdictions where it has its securities traded. In particular, the Company is subject, in Brazil, to the Law no. 12846 and, in the United States, to the U.S. Foreign Corrupt Practices Act of 1977.

Although the Company has internal policies and procedures designed to ensure compliance with the aforementioned anti-corruption laws and regulations, there can be no assurance that such policies and procedures will be sufficient or that the Company's employees, directors, officers, partners, agents and service providers will not take actions in violation of the Company's policies and procedures (or otherwise in violation of the relevant anti-corruption laws and regulations) for which the Company or they may be ultimately held responsible. Violations of anti-corruption laws and regulations could lead to financial penalties, damage to the Company's reputation or other legal consequences that could have a material adverse effect on the Company's business, results of operations and financial condition.

In connection with the above-mentioned policies, the Company is currently conducting an internal investigation - which is part of a broader investigation being conducted by the controlling shareholder of the Company (Telefónica, S.A.) - regarding possible violations of the abovementioned laws and regulations. The Company is in contact with governmental authorities about this matter and intends to cooperate with those authorities as the investigation continues. It is not possible at this time to predict the scope or duration of this matter or its likely outcome.

31) COMMITMENTS AND GUARANTEES (RENTALS)

The Company and its subsidiaries lease equipment, facilities, and several stores, administrative buildings, and sites (containing radio-base stations and towers), through various non-cancellable operating agreements maturing on different dates, with monthly payments.

At September 30, 2017, the total amounts corresponding to the full period of the contracts were as follows:

	Company	Consolidated
Up to 1 year	2,172,950	2,173,510
From 1 to 5 years	7,128,857	7,131,736
Over five years	5,173,915	5,174,117
Total	14,475,722	14,479,363

32) ADDITIONAL INFORMATION ON CASH FLOWS

The main financing transactions that do not involve cash of the Company refer to the acquisition of assets through finance leases. At September 30, 2017 and 2016, these transactions totaled R\$9,061 and R\$2,675, respectively.
