**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 1 - BASIS OF PRESENTATION**

The accompanying unaudited interim financial statements of Ardent Mines Limited (“Ardent Mines”) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission and should be read in conjunction with the audited financial statements and notes thereto contained in Ardent Mines' Annual Report filed with the SEC on Form 10-K for the fiscal year ended June 30, 2011. In the opinion of management, all adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which substantially duplicate the disclosure contained in the audited financial statements for the fiscal year ended June 30, 2011 as reported in the Form 10-K have been omitted.

**NOTE 2 - GOING CONCERN**

Ardent Mines has incurred net losses since inception and has a negative working capital at December 31, 2011. The ability of Ardent Mines to emerge from the exploration stage with respect to any planned principal business activity is dependent upon its successful efforts to raise additional equity financing and/or attain profitable mining operations. Management has plans to seek additional capital through a private placement and public offering of its common stock. There is no guarantee that Ardent Mines will be able to complete any of the above objectives. These factors raise substantial doubt regarding the Ardent Mines' ability to continue as a going concern.

**NOTE 3 – ACQUISITION OF MINING RIGHTS**

On May 4, 2011, Ardent Mines acquired Gold Hills Mining Ltda. which owns certain mining rights in Brazil. The aggregate purchase price paid was \$400,000 which was recorded as capitalized mining rights in the balance sheet as of December 31, 2011. \$250,000 of this purchase price was paid prior to June 30, 2011 and the remaining \$150,000 was paid during the six months ended December 31, 2011.

Under the terms of the acquisition, additional amounts will be paid pursuant to the results of reserves testing performed on the mining properties. Should the reserves testing confirm the existence of gold, silver and byproduct reserves of less than 300,000 equivalent gold ounces; Ardent Mines will not be required to make an additional payment. Should the reserves testing confirm the existence of gold, silver and byproduct reserves between 300,000 and 499,999 equivalent gold ounces; Ardent Mines will be required to pay an additional \$400,000 payable within 30 days after completion of a pre-feasibility study. Should the reserves testing confirm the existence of gold, silver and byproduct reserves in excess of 499,999 equivalent gold ounces; Ardent Mines will be required to pay an additional \$1,000,000, payable within 30 days after completion of a pre-feasibility study, and \$2.00 per additional ounce in excess of 500,000 equivalent gold ounces.

In addition to the amounts to be paid based upon the reserves testing, Ardent Mines will also be required to pay an additional \$700,000 within 30 days from the date that Ardent Mines obtains an environmental installation license. Once Ardent Mines begins extracting gold, silver or byproduct from the properties, Ardent Mines will be required to pay a monthly royalty equal to 2% of the net income from the sale of the mineral product. Ardent Mines will also be required to invest at least \$3,500,000 in Gold Hills Mining Ltda. upon the development of an extensive extraction program.

On October 18, 2011, Ardent Mines closed on its acquisition of the mineral rights in a highly mineralized area of 9,000 acres located in the Carajas Mineral Province of Brazil with an option exercise payment of \$350,000 made to the Cooperativa dos Produtores de Minerios de Curionópolis (“COOPEMIC”). During the six months ended December 31, 2011, aggregate payments (including the option exercise payment) of \$457,756 were made towards this acquisition. The payments are classified on the balance sheet as mining rights as of December 31, 2011.

F-4

In addition to the option exercise payment made to COOPEMIC, Ardent Mines has undertaken certain exploration commitments to COOPEMIC. Ardent Mines has also agreed to make subsequent payments to COOPEMIC on the basis of the exploration report and the extent of the extraction of gold, silver, copper and their respective by-products. If Ardent Mines determines it is advisable to continue exploration, Ardent Mines shall pay to COOPEMIC \$250,000 after six months of exploration and an additional \$150,000 after twelve months of exploration. If Ardent Mines' exploration activities confirm the existence of gold, silver or copper and their respective by-products in excess of 400,000 gold equivalent ounces, Ardent Mines shall pay to COOPEMIC 30% of \$24 per gold equivalent ounce contained in the mineral reserves in three tranches: (i) one-third shall be paid when the Brazilian National Department of Mineral Production shall approve the final mineral exploration report; (ii) one-third shall be paid upon commencement of the extraction of gold, silver, copper and their respective by-products, contained in the areas covered by the mining rights; and (iii) one-third shall be paid within six months from the date of commencement of the extraction of gold, silver and copper and their respective by-products, contained in the areas covered by the mining rights.

#### **NOTE 4 – ADVANCES FROM RELATED PARTY**

During the six months ended December 31, 2011, Ardent received advances of \$8,081 from Luciano de Freitas Borges one of the Company's directors. The advances are unsecured, bear no interest and are due on demand.

#### **NOTE 5 – CONVERTIBLE NOTES PAYABLE**

During the year ended June 30, 2011, the Company borrowed a total of \$750,000 from CRG Finance AG at a rate of 7.5% per annum. This unsecured loan, plus any interest accumulated, is due upon demand beginning October 18, 2011. On October 18, 2011, the loan becomes convertible into common stock at the holder's option at \$3.68 per share. Ardent Mines evaluated the conversion option under FASB ASC 815-15 and determined the conversion option does not qualify as a derivative. Ardent Mines then evaluated the conversion option under FASB ASC 470-20 for a beneficial conversion feature and determined that the conversion option does not contain a beneficial conversion feature. As of December 31, 2011, the unpaid principal on this note totaled \$750,000.

#### **NOTE 6 – DERIVATIVES**

As of December 31, 2011, Ardent Mines has an aggregate of 277,923 outstanding warrants containing exercise price reset provisions which requires derivative treatment under FASB ASC 815-15. The warrants were originally issued on September 7, 2011.

The fair value of these liabilities as of September 7, 2011 and December 31, 2011 totaled \$625,829 and \$36,475, respectively and was calculated using a lattice model. The net change in the fair value of these derivative liabilities during the six months ended December 31, 2011 was \$589,354.

*Fair Value Measurement*

Ardent Mine's values its derivative instruments under FASB ASC 820 which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Ardent utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable. Ardent classifies fair value balances based on the observability of those inputs. ASC 820 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

The three levels of the fair value hierarchy defined by ASC 820 are as follows:

F-5

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 primarily consists of financial instruments such as exchange-traded derivatives, marketable securities and listed equities.

Level 2 – Pricing inputs are other than quoted prices in active markets included in level 1, which are either directly or indirectly observable as of the reported date.

Level 3 – Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management’s best estimate of fair value. Ardent Mine’s uses Level 3 to value its derivative instruments.

The following table sets forth by level with the fair value hierarchy the Company’s financial assets and liabilities measured at fair value on December 31, 2011.

	Level 1	Level 2	Level 3	Total
<b>Assets</b>				
None	\$ -	\$ -	\$ -	\$ -
<b>Liabilities</b>				
Derivative warrants	\$ -	\$ -	\$ 36,475	\$ 36,475

The following table provides a summary of the changes in fair value, including net transfers in and/or out, of the derivative financial instruments measured at fair value on a recurring basis using significant unobservable inputs:

	Warrants
Fair value at June 30, 2011	\$ -
Fair value of warrants issued	625,829
Change in fair value of derivative liabilities	(589,354)
Fair value at December 31, 2011	\$ 36,475

#### *Common Stock Options*

On February 4, 2011, the Company granted Leonardo Riera options to purchase 50,000 common shares at \$0.01 per share which options vest immediately and have a term of 5 years. The options were granted in lieu of the 50,000 shares he was entitled to receive pursuant to his employment agreement dated September 27, 2010. The 50,000 common shares he was originally granted were fair valued and expensed at \$84,500 during September 2010. On the date of the modification of the award, the fair value of the options granted was determined to be \$229,066 and the fair value of the shares originally granted was determined to be \$229,500. The fair value of the modified award on February 4, 2011 decreased; accordingly, there was no additional expense recorded. The fair value of the options was determined using the Black-Scholes Option Pricing Model. The significant assumptions used in the model include (1) discount rate of 1.25%, (2) expected life of 2.5 years (3) expected volatility of 169.52% and (4) zero expected dividends.

On May 12, 2011, the Company granted its Board members an aggregate of 1,300,000 stock options exercisable at \$0.01 per share. The options vest 25% upon grant and an additional 25% vests each six months from the date of the grant. The fair value of the options was determined to be \$5,368,121 using the Black-Scholes Option Pricing Model. The significant assumptions used in the model include (1) discount rate of 0.98%, (2) expected terms between 2.5 and 3.25 years (3) expected volatilities between 165.66% and 198.46% and (4) zero expected dividends. The fair value is being expensed over the vesting period of the options. During the six months ended December 31, 2011, \$2,639,185 was expensed. A total of \$764,724 will be expensed over the remaining vesting period.

On November 22, 2011, Leonardo Riera, the Company's Chief Executive Officer resigned. In accordance with his separation agreement, all of his unvested options became vested on that date and now expire on February 22, 2012. As a result of the accelerated vesting, a total of \$509,816 of additional option expense was recorded during the six months ended December 31, 2011. This amount is included in the total options expense of \$2,639,185.

On January 5, 2012, Luis Feliu, the Company's Chief Financial Officer resigned. As a result of his resignation, he forfeited 25,000 unvested options and his 25,000 vested options expire on April 5, 2012.

During the six months ended December 31, 2011, there were no common stock options granted.

A summary of option activity for the six months ended December 31, 2011 is reflected below:

F-7

The warrants are exercisable at \$3.85 per share, vest immediately and have a term of 1 year. The fair value of the warrants was determined to be \$142,375 using the Black-Scholes Option Pricing Model. The significant assumptions used in the model include (1) discount rate of 0.18%, (2) expected term of 1 year (3) expected volatility of 148.57% and (4) zero expected dividends. ### **Corporate Information**

We were incorporated in the State of Nevada on July 27, 2000. We are presently engaged in the acquisition and exploration of mining properties. Our address is 100 Wall Street, 21st Floor, New York, NY 10005. Our telephone number is (778) 892-9490.

### **Background**

In August 2000, we acquired the right to prospect one mineral property containing eight mining claims located on Copperkettle Creek in British Columbia, Canada. We have allowed these claims to lapse. From August 26, 2006 to September 11, 2006, we did not conduct any operations. During that period, we intended to identify an acquisition or merger candidate with ongoing operations in any field. However in September 2006 we decided to acquire the right to explore a new property in British Columbia and returned to the business of mineral exploration. On April 30, 2009, we decided not to renew certain claims, and later determined not to pursue its remaining claim in Canada. We subsequently determined to pursue other mining development opportunities.

### **The Company's Current Business Operations**

Our most significant achievements to date has been our acquisitions of Gold Hills Mining Ltda. and mining rights in Para, Brazil, in each case as described below.

### **Gold Hills Mining Ltda.**

In January of 2011, we entered into a term sheet to acquire Gold Hills Mining Ltda. (“Gold Hills”), a Brazilian corporation which possesses rights for mineral extraction on properties located in Northeastern Brazil. After the completion of due diligence, on May 4, 2011, we acquired Gold Hills pursuant to a Purchase Agreement (the “Purchase Agreement”) by and between the Company, Gold Hills and the two shareholders of Gold Hills (such shareholders are referred to herein as the “Sellers”). Pursuant to the Purchase Agreement, the Sellers have sold us One Hundred Percent (100%) of all the issued and outstanding equity interests (the “Shares”) of Gold Hills. The Company has agreed to explore the Gold Hills property, and, if certain gold reserves are established, to make investments and pay additional sums to the Sellers, as set forth in the Purchase Agreement.

### **Closing of Acquisition of Mineral Rights in Brazil’s Carajás Mining District in the State of Para, Brazil**

The Company announced on October 24, 2011 that Gold Hills Mining Ltda., its wholly owned Brazilian subsidiary, has, effective October 18, 2011, closed on its acquisition of the mineral rights in a highly mineralized area of 9,000 Hectares located in the Carajas Mineral Province, State of Para, with an option exercise payment of \$350,000 plus additional payments totaling \$107,756 made to the Cooperativa dos Produtores de Minerios de Curionópolis (“COOPEMIC”). The Company refers to this property as Serra do Sereno, or Misty Hills.

The Serra dos Carajás Mineral Province is a distinct geologic dominium, well known worldwide for hosting Brazil's largest iron, copper and gold deposits. The Company plans to begin the initial exploration campaign at Misty Hills as soon as financing for the project can be obtained. The Company has agreed, under the Option Agreement, to expend a minimum of \$5,000,000 in the exploration of the applicable mining rights area. The Company expects that the initial campaign will cost between \$5,000,000 and \$10,000,000.

In addition to the option exercise payment made to COOPEMIC, the Company has undertaken certain exploration commitments to COOPEMIC. The Company has also agreed to make subsequent payments to COOPEMIC on the basis of the exploration report and the extent of the extraction of gold, silver, copper and their respective by-products. If the Company determines it is advisable to continue exploration, the Company shall pay to COOPEMIC \$250,000 after six months of exploration and an additional \$150,000 after twelve months of exploration. If the Company's exploration activities confirm the existence of gold, silver or copper and their respective by-products in excess of 400,000 gold equivalent ounces, certified under the standard NI-43101, as established by the Canadian Securities Administration as "measured resources," the Company shall pay to COOPEMIC, at the end of such initial exploration, 30% of \$24 per gold equivalent ounce contained in the mineral reserves in three tranches: (i) one-third shall be paid when the Brazilian National Department of Mineral Production shall approve the final mineral exploration report; (ii) one-third shall be paid upon commencement of the extraction of gold, silver, copper and their respective by-products, contained in the areas covered by the mining rights; and (iii) one-third shall be paid within six months from the date of commencement of the extraction of gold, silver and copper and their respective by-products, contained in the areas covered by the mining rights.

## **Plan of Operation**

There is no historical financial information about us upon which to base an evaluation of our performance. We are an exploration stage corporation and have not generated any revenues from operations.

To become profitable and competitive, we have to conduct exploration on the property and find mineralized material. We will be seeking equity financing to provide for the capital required to implement our research and exploration phases.
