FreeSeas Inc. Reports

Third Quarter and Nine-Month 2006 Results

Piraeus, Greece, November 14th, 2006 FreeSeas Inc. (NASDAQ: FREE, FREEW and FREEZ), a provider of seaborne transportation for dry bulk cargoes, announced today unaudited operating results for the three and nine months ended September 30, 2006. The Company was incorporated on April 23, 2004 and became public on December 16, 2005.

Third Quarter 2006:

For the three month period ended September 30, 2006, the Company reported operating revenues of \$3,571,977 and a net loss of (\$3,242) or \$(0.0005) per share based on 6,290,100 shares outstanding during the period, as compared to operating revenues of \$2,748,381 and a net loss of (\$487,205) during the comparable period in 2005. Excluding non-cash compensation costs of (\$216,303), net income for the third quarter of 2006 would have been \$213,061 or \$0.03 per share.

Operating income for the third quarter of 2006 was \$262,454 compared to an operating loss of (\$197,234) for the comparable period in 2005. Excluding non-cash compensation costs of (\$216,303), operating income for the third quarter of 2006 would have been \$478,757 compared to an operating loss of (\$197,234) for the comparable period in 2005. EBITDA, adjusted for certain non-cash compensation expenses, for the third quarter of 2006 was \$1,719,463 compared to \$1,228,188 for the third quarter of 2005. A reconciliation of adjusted EBITDA to net income is provided below.

An average of three vessels were owned and operated during the third quarter of 2006 and 2005, earning an average Time Charter Equivalent (TCE) rate of \$13,845 per day during this period compared to an average of \$10,255 per day during the same period last year. During the first and second quarters of 2006, our vessels earned an average daily TCE rate of \$5,862 and \$9,984, respectively.

Nine Months 2006:

For the nine month period ended September 30, 2006, the Company reported operating revenues of \$8,758,660 and a net loss of (\$2,380,429) or (\$0.38) per share based on 6,290,100 shares outstanding during the period, as compared to operating revenues of \$7,196,630 and a net loss of (\$31,356) during the comparable period in 2005. Excluding non-cash compensation costs of (\$648,908) the net loss for the nine months ended September 30, 2006 would have been (\$1,731,521) or (\$0.28) per share.

Operating income for the nine months ended September 30, 2006 was (\$1,466,164) compared to an operating income of \$690,114 for the comparable period in 2005. Excluding non-cash compensation costs of (\$648,908) the operating income for the nine months ended September 30, 2006 would have been (\$817,256) compared to an operating income of \$690,114 for the comparable period in 2005. EBITDA, adjusted for certain non-cash compensation expenses, for the nine months ended September 30, 2006 was \$2,858,882 compared to \$3,549,163 for same period in 2005. A reconciliation of adjusted EBITDA to net income is provided below.

Management Commentary:

George D. Gourdomichalis, Chairman and President of FreeSeas stated: We are pleased to see that market conditions continued to improve during the third quarter of 2006. As we stated previously, the fact that we have been primarily focused on the spot market enabled us to reap the benefits of this stronger market. Our average daily TCE rate per vessel increased to \$13,845 in the third quarter of 2006 from \$9,984 in the second quarter of 2006 and \$5,852 in the first quarter of 2006. Furthermore, taking advantage of the strong market conditions, we entered a portion of our fleet under period employment covering 100% of our available fleet days for the remainder of 2006 and approximately 66% of our available fleet days for the first quarter of 2007. Also, our M/V Free Fighter is now undergoing her regularly scheduled Fifth Special & Docking Surveys, which will enable her to trade for another three years without any major class survey requirements. We believe the market has the momentum to remain at attractive levels into 2007 and the supply demand equilibrium looks favorable for the foreseeable future.

Ion G. Varouxakis, Chief Executive Officer and Secretary of FreeSeas commented further: In the third quarter of 2006, our company started taking full advantage of the strong dry bulk rates for period employment and we expect this trend to continue.

Efstathios D. Gourdomichalis, Chief Financial Officer and Treasurer of FreeSeas commented: Our general and administrative expenses are higher than the comparable period of 2005 as our listing on NASDAQ was completed in December 2005 driving our general and administrative expenses upwards; these are mainly mandatory and required audit, legal and other fees and expenses related to our status as a listed company. Commissions paid are also higher as they are proportional to the increased Operating Revenue. We are now focusing on creating economies of scale for our general and administrative expenses through the acquisition of further vessels. Finally, we refinanced the loan of the M/V Free Fighter through a new and expanded facility at better terms. We plan to draw on the available funds under this facility to fully settle the \$2 million bank overdraft and to cover part of the M/V Free Fighter's Special and Dry-Docking Surveys costs in December 2006.

(1) Average number of vessels is the number of vessels that constituted our fleet for the relevant period, as measured by the sum of the number of calendar days each vessel was a part of our fleet during the period divided by the number of calendar days in that period.

(2) Available days for fleet are the total calendar days the vessels were in our possession for the relevant period after subtracting for off hire days associated with major repairs, dry-docks or special or intermediate surveys.

(3) Calendar days are the total days we possessed the vessels in our fleet for the relevant period including off hire days associated with major repairs, dry dockings or special or intermediate surveys.

(4) Fleet utilization is the percentage of time that our vessels were available for revenue generating available days, and is determined by dividing available days by fleet calendar days for the relevant period.

(5) Time charter equivalent, or TCE, is a measure of the average daily revenue performance of a vessel on a per voyage basis. Our method of calculating TCE is consistent with industry standards and is determined by dividing revenue generated from voyage charters net of voyage expenses and commissions by available days for the relevant time period. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract. TCE is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance despite changes in the mix of charter types (i.e., spot voyage charters, time charters and bareboat charters) under which the vessels may be employed between the periods.

(6) Daily vessel operating expenses, which include management fees, crew costs, provisions, deck and engine stores, lubricating oil, insurance, and maintenance and repairs are calculated by dividing vessel operating expenses by fleet calendar days for the relevant time period.

(7) Daily general and administrative expenses are calculated by dividing general and administrative expenses by fleet calendar days for the relevant time period.

(8) Total vessel operating expenses, or TVOE, are a measurement of our total expenses associated with operating our vessels. TVOE is the sum of vessel operating expenses and general and administrative expenses. Daily TVOE is calculated by dividing TVOE by fleet calendar days for the relevant time period.

Adjusted EBITDA Reconciliation:

FreeSeas Inc. considers Adjusted EBITDA to represent net earnings before interest, taxes, depreciation and amortization plus certain non-cash compensation expense. EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by United States generally accepted accounting principles and our calculation of EBITDA may not be comparable to that reported by other companies. EBITDA is included herein because it is a basis upon which we assess our liquidity position and because we believe that it presents useful information to investors regarding a company's ability to service and/or incur indebtedness. The Company's definition of EBITDA may not be the same as that used by other companies in the shipping or other industries.
