CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this quarterly report on Form 10-Q contain or may contain forward-looking statements that are subject to known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Generally, the words “believes”, “anticipates,” “may,” “will,” “should,” “expect,” “intend,” “estimate,” “continue,” and similar expressions or the negative thereof or comparable terminology are intended to identify forward-looking statements which include, but are not limited to, statements concerning the Company’s expectations regarding its working capital requirements, financing requirements, business prospects, and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. These forward-looking statements were based on various factors and were derived utilizing numerous assumptions and other factors that could cause our actual results to differ materially from those in the forward-looking statements. These factors include, but are not limited to, economic, political and market conditions and fluctuations, government and industry regulation, interest rate risk, U.S. and global competition, and other factors. Most of these factors are difficult to predict accurately and are generally beyond our control. You should consider the areas of risk described in connection with any forward-looking statements that may be made herein. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. Readers should carefully review this quarterly report in its entirety, including but not limited to our financial statements and the notes thereto. Except for our ongoing obligations to disclose material information under the Federal securities laws, we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. For any forward-looking statements contained in any document, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

PART 1 – FINANCIAL INFORMATION

Item 1. Financial Statements.

Our unaudited interim consolidated financial statements for the six months period ended March 31, 2012 immediately follow and are an integral part of this quarterly report. They are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This quarterly report contains forward-looking statements. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled "Risk Factors", that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our unaudited consolidated financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles. The following discussion should be read in conjunction with our consolidated financial statements and the related notes that appear elsewhere in this quarterly report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed below and elsewhere in this quarterly report, particularly in the section entitled "Risk Factors".

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report and unless otherwise indicated, the terms "we", "us", "our", "Company", and "Silverstar" mean Silverstar Mining Corp., a Nevada corporation, unless otherwise indicated and the term "Silverdale" means Silverdale Mining Corp., our wholly owned subsidiary.

Overview

On May 16, 2011 our recently formed, wholly owned subsidiary, Silverstar Mining Canada, Inc., ("SMCI") acquired three mining claims encompassing approximately 1,006 hectares in British Columbia, Canada. In consideration for the transfer of the mining claims, we paid the transferor \$10,000 and we are required to issue the transferor two million shares of our common stock.

The mineral claims are located in the Caribou Mining District in east-central British Columbia, Canada.

PROPERTY LOCATION AND ACCESS

There is a growing infrastructure in the region as more of its resources are being exploited by various sized peers and competitors in the area.

The SMCI mineral tenures are located within 65 km northeast of Quesnel, British Columbia, in an area that in part has been logged and re-planted. Access is by forestry road to the vicinity of the Willow River: the tenures lie both east and west of that river. The bridge across Willow River is located approximately 1250 metres upstream from the south boundary and a logging branch road follows the east side of Willow River. The total area is 1006 hectares.

We have not conducted any feasibility studies on the mining claims. However, contiguous and other properties in the immediate vicinity indicate deposits of gold, silver and copper.

We intend to undertake further geological studies of the mining claims and will engage an independent geologist to conduct further geological studies which will also include preliminary drilling on the Property. Initial work would be studying historical information on the area, the trend line and sampling. The sampling analysis will direct management on subsequent investment of resources.

Employees

Neil Kleinman serves as our sole officer, director and employee. We presently conduct our business through agreements with consultants and arms-length third parties.

Results of Operations for the Three and Six Months ended March 31, 2012 and 2011 and from December 5, 2003 ("Inception") to March 31, 2012

Since our Inception we have not generated any revenues.

For the three and six months ended March 31, 2012 total expenses were \$24,540 and \$51,386 respectively. Our principal costs were attributable to legal and accounting fees totaling \$11,300 and \$26,362. Most of these fees are attributable to our ongoing reporting obligations with the Securities and Exchange Commission. We have also incurred legal expenses associated with the acquisition of the mining claims.

For the three and six months ended March 31, 2011 total expenses were \$8,756 and \$21,360. Legal and accounting fees totaled \$1,241 and \$3,059 respectively.

For the three and six months ended March 31, 2012 we incurred bank charges of \$3,214 and \$6,672, management fees totaling \$4,500 and \$9,000, rent totaling \$2,215 and \$3,814 and transfer agent fees totaling \$2,500 and \$31,60. For the three and six months ended March 31, 2011, bank charges and interest totaled \$1,874 and \$3,273, management fees of \$4,500 and \$9,000, rent of \$1,500 and \$3,000 and Transfer Agent fees totaling \$1,625 and \$2,530.

Except as set forth above, we had no other significant line item expenses for the three and six month periods ended March 31, 2012 and 2011.

Edgar Filing: SILVERSTAR MINING CORP. - Form 10-Q

Total operating expenses since Inception totaled \$1,589,111 of which \$811,696 is attributable to the write-down of mineral property acquisition costs, with the balance consisting primarily of legal and accounting fees totaling \$249,639, consulting fees of \$138,467, management fees totaling \$112,000 and investor relations totaling \$84,992.

Our Net Loss for the three and six months ended March 31, 2012 was \$(24,540) and \$(51,386). Net Loss for the comparable periods in 2011 totaled \$(8,756) and \$(21,360).

Our Net Loss since Inception totaled \$(1,589,111).

Our Net Loss per share for the three and six months ended March 31, 2012 totaled \$(0.145) and \$(0.458) as compared to \$(0.208) and \$(0.507) in 2011.

Until such time as we can generate revenues from operations, we will continue to incur operating losses. Even if we do generate revenues, there can be no assurance that we will not continue to operate at a loss.

Liquidity and Working Capital

We have limited assets. At March 31, 2012 we had cash of \$5,426 as compared to \$1,674 at September 30, 2011. The increase in our cash holdings is attributable to the sale of our common stock. Our investment in our mineral properties totaled \$14,360 and total assets at March 31, 2012 were \$20,065.

Current liabilities at March 31, 2012 totaled \$158,835 consisting primarily of a shareholder demand note totaling \$126,164, a convertible debenture totaling \$19,371 a liability of \$7,500 attributable to share issuance and accounts payable totaling \$5,800.

Our working capital deficit at March 31, 2012 was \$153,130.

At September 30, 2011 we had \$1,674 in cash and mineral properties valued at \$10,000. Total assets were \$11,674.

Current liabilities at September 30, 2011 totaled \$161,378 consisting primarily of a shareholder demand note totaling \$120,960, a convertible debenture in the amount of \$18,618 and accounts payable totaling \$11,800. Current liabilities totaled \$161,378.

We had a working capital deficit of \$149,704.

Unless we secure additional debt or equity financing, of which there can be no assurance, we will not be able to continue operations and you may lose your entire investment. We currently do not have any arrangements in place for any future debt or equity financing.

Off-Balance Sheet Arrangements

We are not currently a party to, or otherwise involved with, any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Going Concern

Due to the uncertainty of our ability to meet our current operating and capital expenses, in their report on the annual consolidated financial statements for the year ended September 30, 2010, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern.

We anticipate that additional funding will be required in the form of debt or equity capital financing from the sale of our common stock. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through debt to meet our obligations over the next twelve months. We do not have any arrangements in place for any future debt or equity financing.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

The Company's market risk profile has not changed significantly from its year ended September 30, 2011.

Foreign Currency Exchange Rate Risk

The Company holds cash balances in U.S. dollars. Our operations are located in Canada. As a result, currency exchange fluctuations may impact our operating costs. We do not manage our foreign currency exchange rate risk through the use of financial or derivative instruments, forward contracts or hedging activities.

In general, the strengthening of the U.S. dollar will positively impact our expenses transacted in Canadian dollars. Conversely, any weakening of the U.S. dollar will increase our expenses transacted in Canadian dollars. We do not believe that any weakening of the U.S. dollar as compared to the Canadian dollar will have an adverse material effect on our operations.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) and determined that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q. The evaluation considered the procedures designed to ensure that the information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and communicated to our management as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

During the period covered by this Quarterly Report on Form 10-Q, there was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(d) and 13d-15(d) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

(c) Inherent Limitations of Disclosure Controls and Internal Controls over Financial Reporting

Because of its inherent limitations, internal controls over financial reporting may not prevent or detect misstatements. Projections of any evaluation or effectiveness to future periods are subject to risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PART II
