Net loans and financial leases represented 69.8% of the total assets as of September 30, 2008, amounting to Ps. 40,474 billion.

As of September 30, 2008, BANCOLOMBIA's net investment securities amounted to Ps. 6,947 billion and represented an increase of 12.6% when compared to the figures as of June 30, 2008, and an increase of 30.3% when compared to the figures as of September 30, 2007.

As of September 30, 2008, investments in debt securities amounted to Ps. 6,705 billion, increasing 11.5% as compared to Ps. 6,014 billion as of June 30, 2008, and 29.6% as compared to the Ps. 5,174 billion as of September 30, 2007. This increase is due in part to the increase experienced by U.S. dollar denominated debt securities portfolio which increased 7.9% over the quarter (not taking into account the 13.6% COP depreciation against the U.S. dollar in 3Q08.) As of September 30, 2008, the debt securities portfolio represented 11.6% of total assets, slightly increasing its relative size from 11.1% of total assets in the previous quarter, and comprised 96.5% of BANCOLOMBIA's net investment securities.

**2.1.3. Asset Quality**

Asset quality indicators remained stable during 3Q08. The ratio of past due loans (i.e. loans overdue for more than 30 days) to total loans was 3.5% at the end of 3Q08, Coverage measured by the ratio of allowances to past due loans increased to 124.1% at the end of 3Q08 from 120.1% in 2Q08. The ratio of allowances to loans classified as C, D and E (i.e. loans of an inferior quality as measured by their number of days past due) at the end of 3Q08 decreased to 120.9% from 125.9% in 2Q08.

Some asset deterioration occurred during the quarter as past due loans increased 8.8% as compared to the figures presented for the end of 2Q08. Nevertheless, allowances for loan losses increased 12.4% over the period, reaching Ps 1,857 billion and representing 4.4% of gross loans and financial leases. At a meeting held October 24, 2008, the central bank of Colombia (the Central Bank) reduced the existing ordinary reserve requirement to 11% from 11.5% for demand deposits and to 4.5% from 6% for time deposits under 540 days. The Central Bank estimates that this measure will provide liquidity of approximately COP \$1 trillion to the Colombian economy. This is one of several measures implemented by the Central Bank to provide adequate liquidity in Colombia for year end.

### 3. INCOME STATEMENT

BANCOLOMBIA's net income amounted to Ps. 367.0 billion for 3Q08, increasing 15.9% as compared to the figures for 3Q07, driven by growth in the net interest income, fees and other operating income, and partially off-set by higher provisions and higher operating expenses. On a quarterly basis, net income for 3Q08 decreased 2.2% as compared to the Ps. 375.3 billion for 2Q08, as the second quarter numbers included non-recurring net income of Ps 40.7 billion related to the sale of the Bank's interest in Multienlace S.A. and compensation for membership rights received as a consequence of the VISA Inc. initial public offering occurred in 2008.

Net income totaled Ps. 996.1 billion for the first nine months of 2008, increasing 30.3% as compared to the same period of 2007. Annualized return on average shareholders' equity for 3Q08 is 26.7%. Annualized return on average equity for the first nine months of 2008 is 25.1% which represents an increase from the 24.4% for the same period of 2007.

3Q08

**3.1. Net Interest Income**

During 3Q08, interest on loans reached Ps. 1,265 billion, increasing 7.8% as compared to 2Q08 and 30.3% as compared to the Ps. 971 billion recorded in the figures for 3Q07. The increase was mainly driven by higher interest rates, as a result of the continuous re-pricing of loans, as well as larger loan portfolio.

Interest on investment securities increased 12.3% in 3Q08 to Ps. 124.8 billion, as a result of a higher average debt securities portfolio. Despite a volatile quarter for bond prices, the current structure of the debt securities portfolio has translated into more stable revenue generated by this line of income.

Overall, total interest income increased 8.0% as compared to 2Q08, while total interest expense grew 8.9%. Consequently, net interest income increased 7.4% as compared to 2Q08 and net interest margin increased from 7.5% in 2Q08 to 7.7% in 3Q08 due to higher margin in the loan portfolio (loans interest margin increased to 8.5% from 8.3% in 2Q08).

**3.2. Provisions**

Provisions for loans and accrued interest losses totaled Ps 294.2 billion in 3Q08 which represents an increase of 44.9% as compared to 3Q07 and 15.3% as compared to 2Q08. This increase was mainly driven by the higher levels of past due loans.

Recovery of charged-off loans totaled Ps 27.6 billion in 3Q08 while recovery of provisions for foreclosed assets and other assets totaled Ps 31.1 billion in the same period, increasing 48.6% and 259.7% respectively, as compared to 2Q08. As a result of the higher recoveries, total net provisions for 3Q08 amounted to Ps. 243.6 billion, which represents a 0.8% increase as compared to 2Q08 and 26.4% as compared to the figures for 3Q07.

**Reference model for consumer loans**

Beginning on July 1, 2008, BANCOLOMBIA has applied a new methodology for the calculation of provisions related to consumer loans in Colombia, as a consequence of changes in Colombian regulations. This new methodology is similar to the methodology that the Bank has applied for commercial loans since 3Q07; it calculates provisions taking into account probabilities of default, estimated losses and exposures given default. BANCOLOMBIA had previously increased the provisions related to consumer loans since 3Q07; therefore, the change of methodology did not affect significantly the amount of provisions in 3Q08.

**3.3. Fees and Income from Services**

Net fees and income from services totaled Ps. 346.7 billion during 3Q08, increasing 23.4% as compared to the figures for 3Q07 and increasing 16.0% as compared to 2Q08. For the first nine months of 2008, net fees and income from services totaled Ps. 952.6 billion increasing 17.1% as compared to the same period of 2007.

The sale of the Bank's interest in Multienlace affected the 2Q08 fees and other services expenses as the contact center services provided by that company for quarter ended on March 31, 2008 were no longer eliminated in the consolidation process (i.e. no longer considered an inter-company transaction). Consequently, expenses related to contact services are part of the fees and other services expenses for 3Q08.

### 3.4. Other Operating Income

As in previous quarters, total other operating income continues to outperform historic results. Other operating income totaled Ps. 130.6 billion for 3Q08, increasing 22.3% when compared to the figures for 2Q07 and decreasing 33.3% compared to 2Q08. This performance was driven by the following factors:

The sale of Multienlace S.A. in 2Q08 impacted positively other operating income for 2Q08 results. Specifically, the Bank received dividend income from Multienlace that totaled Ps. 15 billion and reported a gain on investment securities of Ps. 37 billion.

The forward contract and derivatives line was affected by a negative mark-to-market valuation on the cross-currency swap portfolio as a result of the recent performance of some benchmark interest rates.

Net foreign exchange gains reached Ps. 83.7 billion for 3Q08, driven by the COP depreciation presented over the quarter. This line aggregates the net gains of the COP conversion of U.S. dollar denominated assets and liabilities, trading and foreign currency exchange gains.

### Currency exposure

BANCOLOMBIA's income statement was not significantly affected by the COP depreciation presented during 3Q08, because BANCOLOMBIA hedged a significant amount of its currency exposure.

BANCOLOMBIA's exposure to currency risk primarily arises from changes in the U.S. dollar/COP exchange rate. The exposure to currency risk is managed by BANCOLOMBIA's treasury division. BANCOLOMBIA uses a value at risk ( VaR ) calculation to limit the exposure to currency risk of its balance sheet. These limits are supervised on a daily basis by BANCOLOMBIA's Market Risk Management Office.

3Q08

**3.5. Operating expenses**

The increases in operating expenses were mainly driven by:

Increases in personnel expenses (the sum of salaries and employee benefits, bonus plan payment and compensation) for nine months period ended September 30, 2008, which totaled Ps 786.2 billion, representing a 14.3% increase as compared to the same period last year and were mainly caused by bonus plan payments. However, on a quarter over quarter perspective, personnel expenses for 3Q08 decreased 0.7% as compared to 2Q08 and increased 14.9% as compared to figures for 3Q07.
