November 14, 2016

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file no. 001-33143

AmTrust Financial Services, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

04-3106389
(IRS Employer
Identification No.)

59 Maiden Lane, 43rd Floor, New York, New York
(Address of principal executive offices)

10038
(Zip Code)

(212) 220-7120

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☐

Smaller reporting company ☐

Edgar Filing: Amtrust Financial Services, Inc. - Form 10-Q

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Securities Exchange Act). Yes ☐ No ☒

As of November 1, 2016, the Registrant had one class of Common Stock (\$.01 par value), of which 170,450,763 shares were issued and outstanding.

Notes to Unaudited Consolidated Financial Statements

(Unaudited)

(Dollars In Thousands, Except Share and Per Share Data)

1. Basis of Reporting

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial statements and with the instructions to Form 10-Q and Article 10 of Regulation S-X and, therefore, do not include all of the information and footnotes required by GAAP for complete financial statements. These interim statements should be read in conjunction with the financial statements and notes thereto included in the AmTrust Financial Services, Inc. (“AmTrust” or the “Company”) Annual Report on Form 10-K for the year ended December 31, 2015, previously filed with the Securities and Exchange Commission (“SEC”) on February 29, 2016. The balance sheet at December 31, 2015 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements.

These interim consolidated financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the interim period and all such adjustments are of a normal recurring nature. The results of operations for the interim period are not necessarily indicative, if annualized, of those to be expected for the full year. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

The Company implemented a two-for-one stock split on February 2, 2016. As a result, the Company retrospectively adjusted all share and per share amounts in the accompanying condensed consolidated financial statements and notes to the condensed consolidated financial statements to apply the effect of the stock split for all periods presented.

A detailed description of the Company’s significant accounting policies and management judgments is located in the audited consolidated financial statements for the year ended December 31, 2015, included in the Company’s Form 10-K filed with the SEC.

All significant inter-company transactions and accounts have been eliminated in the consolidated financial statements.

To facilitate period-to-period comparisons, certain reclassifications have been made to prior period consolidated financial statement amounts to conform to current period presentation.

Correction of an Immaterial Error

The Company identified an immaterial error related to its classification on the consolidated statement of cash flows for purchases and sales of securities sold but not yet purchased, at fair value. The Company determined that in prior periods reported, these amounts were improperly reflected as changes in accrued expenses and other current liabilities in cash flow from operating activities instead of securities sold but not yet purchased, at fair value, in cash flow from investing activities. The Company reviewed the impact of this error on the prior periods and determined that the error was not material to the prior period consolidated financial statements. The Company has corrected the consolidated statement of cash flows for the nine months ended September 30, 2015 by presenting this amount separately within investing activities and decreasing the changes in accrued expenses and other current liabilities within operating activities. The impact of the error decreased the Company's net cash provided by operating activities by \$75,573 and increased the Company's cash flows from investing activities by an equivalent amount for the period ended September 30, 2015.

2. Recent Accounting Pronouncements

With the exception of those discussed below, there have been no recent accounting pronouncements or changes in accounting pronouncements during the nine months ended September 30, 2016, as compared to those described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015, that are of significance, or potential significance, to the Company.

Recent Accounting Standards, Adopted

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement (Topic 820): Disclosure for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which provides guidance that removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient, and limits certain disclosure requirements only to investments for which the entity elects to measure the fair value using that practical expedient. The updated guidance is effective for reporting periods beginning after December 15, 2015, and should be applied retrospectively for all periods presented. The Company adopted this ASU on January 1, 2016. The adoption of this guidance did not have a material effect on the Company's results of operations, financial position or liquidity.

In April 2015, the FASB issued ASU 2015-05, Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement, which provides guidance to determine whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The updated guidance is effective for reporting periods beginning after December 15, 2015, and can be adopted either prospectively to all arrangements entered into or materially modified after the effective date, or retrospectively. The Company adopted this ASU on January 1, 2016. The adoption of this guidance did not have a material effect on the Company's results of operations, financial position or liquidity.

In April 2015, the FASB issued ASU 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs, which provides updated guidance to clarify the required presentation of debt issuance costs. The amended guidance requires that debt issuance costs be presented in the balance sheet as a direct reduction from the carrying amount of the recognized debt liability, consistent with the treatment of debt discounts. Amortization of debt issuance costs is to be reported as interest expense. The recognition and measurement guidance for debt issuance costs are not affected by the updated guidance. The Company adopted this ASU on January 1, 2016. The adoption of this guidance did not have a material effect on the Company's results of operations, financial position or liquidity.

In February 2015, the FASB issued ASU 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis, which provides amended guidance on a reporting entity's evaluation whether to consolidate certain legal entities. Specifically, the amendments will modify the evaluation of whether limited partnerships and similar legal entities are variable interest entities ("VIEs") or voting entities, eliminate the presumption that a general partner should consolidate a limited partnership, affect the consolidation analysis of reporting entities with interests in VIEs, particularly those that have fee arrangements and related party relationships, and provide a scope exception from consolidation guidance for reporting entities with interests in legal entities that are required to comply with or operate in accordance with requirements that are similar to those in Rule 2a-7 of the Investment Company Act of 1940 for registered money market funds. The Company adopted this ASU on January 1, 2016. The adoption of this guidance did not have a material effect on the Company's results of operations, financial position or liquidity.

Recent Accounting Standards, Not Yet Adopted

In August 2016, due to divergent practices for reporting certain cash receipts and cash payments on the statement of cash flows, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. The update provides guidance and clarification for eight specific cash flow issues, which include debt prepayment or debt extinguishment costs, settlement of zero-coupon debt instruments or other debt

instruments with coupon interest rates that are insignificant in relation to the effective interest rate of the borrowing, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims, proceeds from the settlement of corporate and bank owned life insurance policies, distributions received from equity-method investees, beneficial interests in securitization transactions, and separately identifiable cash flows and application of the predominance principle. The update takes effect for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The Company is currently evaluating the impact this guidance will have on its results of operations, financial position or liquidity.

In June 2016, the FASB completed its Financial Instruments—Credit Losses project by issuing ASU No. 2016-13, Financial Instruments—Credit Losses (Topic 326). The new guidance requires organizations to measure all expected credit losses for financial instruments held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts. The new guidance affects loans, debt securities, trade receivables, net investments in leases, off-balance-sheet credit exposures, reinsurance receivables, and any other financial assets not excluded from the scope that have the contractual right to receive cash. The new guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The Company is currently evaluating the impact this guidance will have on its results of operations, financial position or liquidity.

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or a liability, and classification on the statement of cash flows. The updated guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. The Company is currently evaluating the impact this guidance will have on its results of operations, financial position or liquidity.

In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations, which improves the operability and understandability of the implementation guidance on principal versus agent considerations by clarifying that 1) an entity determines whether it is a principal or an agent for each specific good or service promised to the customer; 2) an entity determines the nature of each specific good or service; 3) when another party is involved in providing goods or services to a customer, an entity that is a principal obtains control of (a) a good or another asset from the other party that it then transfers to the customer, (b) a right to a service that will be performed by another party, which gives the entity the ability to direct that party to provide the service to the customer on the entity's behalf, or (c) a good or service from the other party that is combined with other goods or services to provide the specific good or service to the customer; and 4) the purpose of the indicators in paragraph 606-10-55-39 in Topic 606 is to support or assist in the assessment of control. The effective date and transition requirement for this ASU are the same as the effective date and transition requirements of ASU 2014-09, which were deferred to the quarter ending March 31, 2018 by ASU 2015-14. The Company is currently evaluating the impact this guidance will have on its results of operations, financial position or liquidity.

In March 2016, the FASB issued ASU 2016-06, Derivatives and Hedging (Topic 815): Contingent Put and Call Options in Debt Instruments, which clarifies the requirements for assessing whether contingent call (put) options that can accelerate the payment of principal on debt instruments are clearly and closely related to their debt hosts. An entity performing the assessment under the amended guidance in this ASU is required to assess the embedded call (put) options solely in accordance with the four-step decision sequence prescribed by Topic 815. The updated guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. This ASU should be applied on a modified retrospective basis. Early adoption is permitted, including adoption in an interim period. The Company is currently evaluating the impact this guidance will have on its results of operations, financial position or liquidity.

In March 2016, the FASB issued ASU 2016-05, Derivatives and Hedging (Topic 815): Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships, which clarifies that a change in the counterparty to a derivative instrument that has been designated as a hedging instrument under Topic 815 does not, in and of itself, require designation of that hedging relationship provided that all other hedge accounting criteria continue to be met. The updated guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. The adoption of this guidance is not expected to have a material effect on the Company's results of operations, financial position or

liquidity.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which requires a lessee to recognize a right of use asset and a lease liability on the balance sheet for leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The updated guidance is effective for fiscal years beginning after December 31, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The Company is currently evaluating the impact this guidance will have on its results of operations, financial position or liquidity.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which address certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. Specifically, the guidance (a) requires equity investments to be measured at fair value with changes in fair value recognized in earnings. However, an entity may choose to measure equity investments that do not have readily determinable fair value at cost minus impairment, if any, plus or minus changes resulted from observable price changes in orderly transactions for identical or similar investments of the same issuer, (b) simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment, (c) eliminates the requirement to disclose the methods and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost, (d) requires the use of the exit price notion when measuring the fair value of financial instruments for disclosure purposes, (e) requires an entity to present separately in other comprehensive income the portion of the total change in fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option, (f) requires separate presentation of financial assets and liabilities by measurement category and form on the balance sheet or the notes to the financial statements, and (g) clarifies that the need for a valuation allowance on a deferred tax asset related to an available for sale security should be evaluated with other deferred tax assets. The updated guidance is effective for reporting periods beginning after December 15, 2017. The Company is currently evaluating the impact this guidance will have on its results of operations, financial position or liquidity.

In May 2015, the FASB issued ASU 2015-09, Financial Services - Insurance (Topic 944): Disclosure about Short-Duration Contracts, which provides certain new and additional disclosure requirements about the liability for unpaid claims and claim adjustment expenses associated with short-duration contracts as defined in Topic 944. Pursuant to the updated guidance, all insurance entities that issue short-duration contracts are required to disclose, among other things, incurred and paid claims development information, a reconciliation of such information to the aggregate carrying amount of the liability for unpaid claims and claim adjustment expenses, and significant changes in methodologies and assumptions used to calculate the liability for unpaid claims and claim adjustment expenses, including the reasons for the change and the effects on the financial statements. The updated guidance was effective for reporting periods beginning after December 15, 2015, and is applied retrospectively by providing comparative disclosures for each period presented, except for those requirements that apply only to the current period. The adoption of this guidance did not have a material effect on the Company's results of operations, financial position or liquidity.

Investments in foreign government securities include securities issued by national entities as well as instruments that are unconditionally guaranteed by such entities. As of September 30, 2016, the Company's foreign government securities were issued or guaranteed primarily by governments in Europe, Canada and Mexico.

Proceeds from the sale of investments in available-for-sale securities during the three months ended September 30, 2016 and 2015 were approximately \$647,928 and \$417,517, respectively. Proceeds from the sale of investments in available-for-sale securities during the nine months ended September 30, 2016 and 2015 were approximately \$1,648,193 and \$990,087, respectively.

A summary of the Company's available-for-sale fixed maturities as of September 30, 2016 and December 31, 2015, by contractual maturity, is shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

(Amounts in Thousands)	September 30, 2016		December 31, 2015	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due in one year or less	\$257,764	\$258,760	\$125,563	\$124,763
Due after one through five years	1,487,745	1,523,695	913,365	909,634

Asset-backed securities	30,302	(1,309)	70	—	—	—	30,302	(1,309)
Total temporarily impaired securities	\$2,492,426	\$(130,434)	1,847	\$217,876	\$(21,925)	164		\$2,710,302	\$(152,359)	

There are 819 and 2,011 securities at September 30, 2016 and December 31, 2015, respectively, that account for the gross unrealized loss, none of which is deemed by the Company to be OTTI. At September 30, 2016, the Company determined that the unrealized losses on fixed maturities were primarily due to market interest rate movements since their date of purchase. The Company considers an investment, primarily equity securities, to be impaired when it has been in a significant unrealized loss position (in excess of 35% of cost if the issuer has a market capitalization of under \$1,000,000 and in excess of 25% of cost if the issuer has a market capitalization of \$1,000,000 or more) for over 24 months. Additionally, other factors influencing the Company's determination that unrealized losses were temporary included an evaluation of the investment's discounted cash flows, the magnitude of the unrealized losses in relation to each security's cost, near-term and long-term prospects of the issuer or the issuer's ability to have adequate resources to fulfill contractual obligations, the nature of the investment and management's intent not to sell these securities, and it being not more likely than not that the Company will be required to sell these investments before anticipated recovery of fair value to the Company's cost basis. As of September 30, 2016, for the \$8,188 of unrealized losses related to securities in unrealized loss positions for a period of twelve or more consecutive months, \$800 of those unrealized losses were related to securities in unrealized loss positions greater than or equal to 20% of amortized cost or cost.

(b) Trading Securities

The original or amortized cost, estimated market value and gross unrealized appreciation and depreciation of trading securities as of September 30, 2016 and December 31, 2015 are presented in the tables below:

(Amounts in Thousands) As of September 30, 2016	Cost or amortized cost	Gross unrealized gains	Gross unrealized losses	Market value
Common stock	\$ 34,091	\$ 788	\$ (440)	\$34,439

(Amounts in Thousands) As of December 31, 2015	Cost or amortized cost	Gross unrealized gains	Gross unrealized losses	Market value
Common stock	\$ 26,937	\$ 739	\$ (405)	\$27,271

Proceeds from the sale of investments in trading securities during the three months ended September 30, 2016 and 2015 were approximately \$47,177 and \$53,398, respectively. Proceeds from the sale of investments in trading securities during the nine months ended September 30, 2016 and 2015 were approximately \$155,502 and \$161,723, respectively.

(c) Investment Income

Net investment income for the three and nine months ended September 30, 2016 and 2015 was derived from the following sources:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(Amounts in Thousands)	2016	2015	2016	2015
Fixed maturities, available-for-sale	\$59,712	\$39,452	\$152,140	\$107,404

	\$63,210	\$(32,517)	\$30,693

(e) Derivatives

The Company from time to time invests in a limited number of derivatives and other financial instruments as part of its investment portfolio to manage interest rate changes or other exposures to a particular financial market. The Company records changes in valuation on its derivative positions not designated as a hedge, if any, as a component of net realized gains and losses. The Company records changes in valuation on its hedge positions as a component of other comprehensive income.

The Company had two interest rate swaps designated as a hedge in the total amount of \$460 and \$1,077 as of September 30, 2016 and December 31, 2015, respectively, that were included as a component of accrued expenses and other liabilities. The two interest rate swaps at December 31, 2015, one of which matured during the three months ended September 30, 2016, related to the Company's junior subordinated debentures.

During the nine months ended September 30, 2016, the Company entered into an interest rate swap agreement related to a five-year secured term loan agreement with Lloyd's Bank PLC to finance the purchase of a commercial office building in Nottingham, U.K. The interest rate swap covers a notional amount equal to 70% of the original outstanding balance and converts the LIBOR variable component of the Company's interest rate to a fixed rate.

The following table presents the notional amounts by remaining maturity of the Company's interest rate swaps as of September 30, 2016:

(Amounts in Thousands)	Remaining Life of Notional Amount ⁽¹⁾				
	One Year	Two Through Five Years	Six Through Ten Years	After Ten Years	Total
Interest rate swaps	\$40,000	\$ 7,591	\$ —	—\$	—\$47,591

(1) Notional amount is not representative of either market risk or credit risk and is not recorded in the consolidated balance sheet.

(f) Restricted Cash and Investments

The Company, in order to conduct business in certain states, is required to maintain letters of credit or assets on deposit to support state mandated regulatory requirements and certain third party agreements. The Company also utilizes trust accounts to collateralize business with its reinsurance counterparties. These assets are primarily in the form of cash and certain high grade securities. The fair values of the Company's restricted assets as of September 30, 2016 and December 31, 2015 are as follows:

(Amounts in Thousands)	September 30, December 31,	
	2016	2015
Restricted cash and cash equivalents	\$ 557,159	\$ 380,699
Restricted investments - fixed maturities at fair value	1,880,536	1,490,547
Total restricted cash, cash equivalents, and investments	\$ 2,437,695	\$ 1,871,246

(g) Other

Securities sold but not yet purchased are securities that the Company has sold, but does not own, in anticipation of a decline in the market value of the security. The Company's risk is that the value of the security will increase rather than decline. Consequently, the settlement amount of the liability for securities sold, not yet purchased may exceed the amount recorded in the consolidated balance sheet as the Company is obligated to purchase the securities sold, not yet purchased in the market at prevailing prices to settle the obligations. To establish a position in security sold, not yet purchased, the Company needs to borrow the security for delivery to the buyer. When the transaction is open, the liability for the obligation to replace the borrowed security is marked to market and an unrealized gain or loss is recorded. At the time the transaction is closed, the Company realizes a gain or loss equal to the differences between the price at which the security was sold and the cost of replacing the borrowed security. While the transaction is open, the Company will also incur an expense for any dividends or interest which will be paid to the lender of the securities.

The Company's liability for securities to be delivered is measured at their fair value and was \$23,770 and \$38,618 as of September 30, 2016 and December 31, 2015, respectively. The securities sold but not yet purchased consisted primarily of equity and fixed maturity securities, and the liability for securities sold but not yet purchased is included in accrued expenses and other liabilities in the consolidated balance sheet.

As of September 30, 2016 and December 31, 2015, the Company had no repurchase agreements.

4. Fair Value of Financial Instruments

The following tables present the level within the fair value hierarchy at which the Company's financial assets and financial liabilities are measured on a recurring basis as of September 30, 2016 and December 31, 2015:

(Amounts in Thousands)	Total	Level 1	Level 2	Level 3
As of September 30, 2016				
Assets:

	\$132,558	\$18,163	\$21,532	\$92,863

There were no transfers between Level 1 and Level 2 during the nine months ended September 30, 2016 and 2015, respectively.

The Company classifies its financial assets and liabilities in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement. This classification requires judgment in assessing the market and pricing methodologies for a particular security. The fair value hierarchy includes the following three levels:

Level 1 – Valuations are based on unadjusted quoted market prices in active markets for identical financial assets or liabilities.

Examples of instruments utilizing Level 1 inputs include: exchange-traded securities and U.S. Treasury bonds.

Level 2 – Valuations of financial assets and liabilities are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets obtained from third party pricing services or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data. The fair value of securities in this category are determined by management after reviewing market prices obtained from independent pricing services and brokers.

Examples of instruments utilizing Level 2 inputs include: U.S. government-sponsored agency securities; non-U.S. government obligations; corporate and municipal bonds; mortgage-backed bonds; asset-backed securities; listed derivatives that are not actively traded; and equity securities that are not publicly traded.

Level 3 – While the vast majority of the Company's investments are included in Level 2, the Company holds a number of investments that are not valued by a pricing service and estimates the fair value of these investments using various broker/dealers that use bid or ask prices. Due to the limited amount of observable market information, the Company includes the fair value estimates for these particular investments in Level 3. In conjunction with our investment portfolio managers, these fair value measurements are reviewed for reasonableness. Other investment valuations are based on unobservable inputs for assets and liabilities where there is little or no market activity. Management's assumptions are used in internal valuation pricing models to determine the fair value of financial assets or liabilities, which may include projected cash flows, collateral performance or liquidity circumstances in the security or similar securities that may have occurred since the prior pricing period.

Examples of instruments utilizing Level 3 inputs include: hedge and credit funds with partial transparency.

The following tables provides a summary of changes in fair value of the Company's Level 3 financial assets and liabilities for the three and nine months ended September 30, 2016 and 2015:

(Amounts in Thousands)	Balance as of June 30, 2016	Net income	Other comprehensive income	Purchases and issuances	Sales and settlements	Net transfers into (out of) Level 3	Balance as of September 30, 2016

The Company's policy for transferring investments between the fair value hierarchy levels is to recognize such transfers in the period that the event or change in circumstances occurred. During the three and nine months ended September 30, 2016, the Company transferred \$48,135 and \$56,942, respectively, from Level 2 to Level 3 because of unobservable inputs or lack of market activity existed for these specific securities that were transferred.

A reconciliation of net income for life settlement contracts in the above table to gain on investment in life settlement contracts net of profit commission included in the Consolidated Statements of Income for the three and nine months ended September 30, 2016 and 2015 is as follows:

(Amounts in Thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Net income	\$23,290	\$13,875	\$82,451	\$52,765
Premiums paid	(16,434)	(11,326)	(41,890)	(33,614)
Profit commission	(763)	1,175	(9,817)	715
Other expenses	(608)	892	(1,853)	(781)
Gain on investment in life settlement contracts	\$5,485	\$4,616	\$28,891	\$19,085

The Company uses the following methods and assumptions in estimating its fair value disclosures for financial instruments:

Equity and Fixed Income Investments: Fair value disclosures for these investments are disclosed above in this note. As of September 30, 2016, the Company's Level 3 equity securities consisted primarily of privately placed warrants of companies that have publicly traded common stock. The fair value of these equity securities as of September 30, 2016 was derived from the quoted price of the underlying common stock adjusted for other inputs that are not market observable.

Cash and cash equivalents, restricted cash and cash equivalents, and short term investments: The carrying value of cash and cash equivalents, restricted cash and cash equivalents, and short term investments approximate their respective fair value and are classified as Level 1 in the fair value hierarchy.

Premiums Receivable: The carrying values reported in the accompanying balance sheets for these financial instruments approximate their fair values due to the short term nature of the asset and are classified as Level 1 in the fair value hierarchy.

Other Investments: Other investments that are reported at fair value consisted primarily of investments in private limited partnerships, certain foreign investments, and other. Other investments reported at fair value accounted for approximately 0.4% of the Company's investment portfolio as of September 30, 2016, which the Company believes is immaterial to its overall financial position or its results of operations. The Company

estimates the fair value based on significant unobservable inputs in the valuation process. As a result, the Company classified the fair value estimates as Level 3 in the fair value hierarchy.

Equity Investment in Unconsolidated Subsidiaries - Related Party: The Company has an ownership percentage of approximately 12% in National General Holdings Corp. ("NGHC"), a publicly held insurance holding company (Nasdaq: NGHC). The Company accounts for this investment under the equity method of accounting as it has the ability to exert significant influence on NGHC. The fair value and carrying value of the investment was approximately \$273,450 and \$153,040, respectively, as of September 30, 2016.

Subordinated Debentures and Debt: The fair value of the Company's material debt arrangements as of September 30, 2016 was as follows:

	Carrying Value	Fair Value
7.25% Subordinated Notes due 2055	\$145,171	\$156,180
7.50% Subordinated Notes due 2055	130,656	146,826
2.75% Convertible senior notes due 2044	164,828	202,984
6.125% Notes due 2023	248,116	268,125
Junior subordinated debentures due 2035-2037	122,006	90,310
Trust preferred securities due 2033-2037	92,786	92,739
Republic promissory note	104,685	106,562
Revolving credit facility	130,000	130,000
Other	97,068	97,068

The 7.25% subordinated notes due 2055, the 7.50% subordinated notes due 2055, the 2.75% convertible senior notes due 2044, and the 6.125% notes due 2023 are publicly traded instruments and are classified as Level 1 in the fair value hierarchy. The fair value of the junior subordinated debentures due 2035-2037 and Republic's trust preferred securities due 2033-2037 were determined using the Black-Derman-Toy interest rate lattice model and are classified as Level 3 in the fair value hierarchy. In determining the fair value of its remaining debt, the Company uses estimates based on rates currently available to the Company for debt with similar terms and remaining maturities. Accordingly, the fair value of the Republic promissory note and other debt is classified as Level 2 within the valuation hierarchy. The Company considers its other debt's carrying value to approximate fair value as their interest rates approximate current borrowing rates.

Derivatives: The Company classifies interest rate swaps as Level 2 in the fair value hierarchy. The Company uses these interest rate swaps to hedge floating interest rates on its debt, thereby changing the variable rate exposure to a fixed rate exposure for interest on these obligations. The estimated fair value of the interest rate swaps, which is obtained from a third party pricing service, is measured using discounted cash flow analysis that incorporates significant observable inputs, including the LIBOR forward curve and a measurement of volatility.

Contingent consideration: The fair value of contingent consideration is based on a discounted cash flow methodology and is classified as Level 3 in the fair value hierarchy. The range of discount rates used for contingent consideration was primarily between 8% and 14%.

Life settlement contracts and life settlement contract profit commission: Life settlement contracts are described in Note 5. "Investments in Life Settlements" elsewhere in this report. The fair value of life settlement contracts as well as life settlement profit commission liability is based on information available to the Company at the end of the reporting period. These financial instruments are classified as Level 3 in the fair value hierarchy. The Company considers the following factors in its fair value estimates: cost at date of purchase, recent purchases and sales of similar investments

(if available and applicable), financial standing of the issuer, changes in economic conditions affecting the issuer, maintenance cost, premiums, benefits, standard actuarially developed mortality tables and life expectancy reports prepared by nationally recognized and independent third party medical underwriters. The Company estimates the fair value of a life insurance policy by applying an investment discount rate based on the cost of funding the Company's life settlement contracts as compared to returns on investments in asset classes with comparable credit quality, which the Company has determined to be 7.5%, to the expected cash flow generated by the policies

in the Company's life settlement portfolio (death benefits less premium payments), net of policy specific adjustments and reserves. In order to confirm the integrity of their calculation of fair value, the Company, quarterly, retains an independent third-party actuary to verify that the actuarial modeling used by the Company to determine fair value was performed correctly and that the valuation, as determined through the Company's actuarial modeling, is consistent with other methodologies. The Company considers this information in its assessment of the reasonableness of the life expectancy and discount rate inputs used in the valuation of these investments.

The Company adjusts the standard mortality for each insured for the insured's life expectancy based on reviews of the insured's medical records and the independent life expectancy reports based thereon. The Company establishes policy specific reserves for the following uncertainties: improvements in mortality, the possibility that the high net worth individuals represented in its portfolio may have access to better health care, the volatility inherent in determining the life expectancy of insureds with significant reported health impairments, and the future expenses related to the administration of the portfolio, which incorporates current life expectancy assumptions, premium payments, the credit exposure to the insurance company that issued the life settlement contracts and the rate of return that a buyer would require on the contracts as no comparable market pricing is available. Prior to 2015, the Company established policy specific reserves for the possibility that the issuer of the policy or a third party would contest the payment of the death benefit payable to the Company. The Company determined that the contestability reserve was no longer necessary in 2015 due to historical experience. The application of the investment discount rate to the expected cash flow generated by the portfolio, net of the policy specific reserves, yields the fair value of the portfolio. The effective discount rate reflects the relationship between the fair value and the expected cash flow gross of these reserves.

The following summarizes data utilized in estimating the fair value of the portfolio of life insurance policies as of September 30, 2016 and December 31, 2015, and only includes data for policies to which the Company assigned value at those dates:

	September 30, 2016	December 31, 2015
Average age of insured	82.7 years	82.0 years
Average life expectancy, months (1)	107	114
Average face amount per policy (Amounts in thousands)	\$ 6,569	\$ 6,564
Effective discount rate (2)	12.7 %	13.7 %

(1) Standard life expectancy as adjusted for specific circumstances.

Effective discount rate ("EDR") is the Company's estimated internal rate of return on its life settlement contract portfolio and is determined from the gross expected cash flows and valuation of the portfolio. The valuation of the portfolio is calculated net of all reserves using a 7.5% discount rate. The EDR is inclusive of the reserves and the gross expected cash flows of the portfolio. The Company anticipates that the EDR's range is between 12.5% and 17.5% and reflects the uncertainty that exists surrounding the information available as of the reporting date. As the accuracy and reliability of information improves (declines), the EDR will decrease (increase).

The Company's assumptions are, by their nature, inherently uncertain and the effect of changes in estimates may be significant. The fair value measurements used in estimating the present value calculation are derived from valuation techniques generally used in the industry that include inputs for the asset that are not based on observable market data. The extent to which the fair value could reasonably vary in the near term has been quantified by evaluating the effect of changes in significant underlying assumptions used to estimate the fair value amount. If the life expectancies were increased or decreased by 4 months and the discount factors were increased or decreased by 1% while all other variables were held constant, the carrying value of the investment in life insurance policies would increase or (decrease) by the unaudited amounts summarized below as of September 30, 2016 and December 31, 2015:

	Change in life expectancy	
(Amounts in Thousands)	Plus 4 Months	Minus 4 Months
Investment in life policies:		

September 30, 2016	\$(42,844)	\$46,044
December 31, 2015	\$(37,697)	\$40,997

Change in discount
rate ⁽¹⁾

----------------------	------------	----------

⁽¹⁾ Discount rate is a present value calculation that considers legal risk, credit risk and liquidity risk and is a component of EDR.

5. Investment in Life Settlements

The Company has a 50% ownership interest in each of three entities (collectively, the "LSC Entities") formed for the purpose of acquiring life settlement contracts, with a subsidiary of NGHC owning the remaining 50%. The LSC Entities are: Tiger Capital LLC ("Tiger"); AMT Capital Alpha, LLC ("AMT Alpha"); and AMT Capital Holdings, S.A. ("AMTCH").

A life settlement contract is a contract between the owner of a life insurance policy and a third-party who obtains the ownership and beneficiary rights of the underlying life insurance policy. During the three months ended March 31, 2016, the Company terminated an agreement with a third party administrator of the Tiger and AMTCH life settlement contract portfolios, under which the third party received an administrative fee. The third party administrator was also eligible to receive a percentage of profits after certain time and performance thresholds had been met. The Company provides certain actuarial and finance functions related to the LSC Entities. In conjunction with the Company's approximate 12% ownership percentage of NGHC, the Company ultimately receives 56% of the profits and losses of the LSC Entities. As such, in accordance with ASC 810-10, Consolidation, the Company has been deemed the primary beneficiary and, therefore, consolidate the LSC Entities.

The Company accounts for investments in life settlements in accordance with ASC 325-30, Investments in Insurance Contracts, which states that an investor shall elect to account for its investments in life settlement contracts by using either the investment method or the fair value method. The election is made on an instrument-by-instrument basis and is irrevocable. The Company has elected to account for these policies using the fair value method. The Company determines fair value based upon its estimate of the discounted cash flow related to policies (net of the reserves for improvements in mortality, the possibility that the high net worth individuals represented in its portfolio may have access to better health care, the volatility inherent in determining the life expectancy of insureds with significant reported health impairments, and the future expenses related to the administration of the portfolio), which incorporates current life expectancy assumptions, premium payments, the credit exposure to the insurance company that issued the life settlement contracts and the rate of return that a buyer would require on the contracts as no comparable market pricing is available. Prior to 2015, the Company established policy specific reserves for the possibility that the issuer of the policy or a third party would contest the payment of the death benefit payable to the Company. The Company determined that the contestability reserve was no longer necessary in 2015 due to historical experience. The application of the investment discount rate to the expected cash flow generated by the portfolio, net of the policy specific reserves, yields the fair value of the portfolio. The effective discount rate reflects the relationship between the fair value and the expected cash flow gross of these reserves.

Capital contributions were made to the LSC Entities during the three and nine months ended September 30, 2016 totaling \$11,000. The Company recorded a gain of \$5,485 and \$4,616 on investment in life settlement contracts, net of profit commission, for the three months ended September 30, 2016 and 2015, respectively, and \$28,891 and \$19,085 for the nine months ended September 30, 2016 and 2015.

The following tables describe the Company's investment in life settlements as of September 30, 2016 and December 31, 2015:

(Amounts in Thousands, except number of Life Settlement Contracts) Expected Maturity Term in Years	Number of Life Settlement Contracts	Fair Value (1)	Face Value
As of September 30, 2016			
0-1	—	\$ —	\$ —
1-2	2	8,776	12,500

Edgar Filing: Amtrust Financial Services, Inc. - Form 10-Q

2-3	7	37,572	61,000
3-4	9	35,839	64,422
4-5	12	36,209	99,000
Thereafter	226	213,689	1,405,313
Total	256	\$ 332,085	\$ 1,642,235

25

(Amounts in Thousands, except number of Life Settlement Contracts)

	Fair Value	Face Value
Expected Settlement	(1)	
Term		
in		
Years		
As		
of		
December 31,		
2015		
0-1—	\$—	\$—
1-2—	—	—
2-3	31,261	70,500
3-4	20,117	46,500
4-5	6,760	20,000
Thereafter	205,863	1,481,313
Total	\$264,001	\$1,618,313

The Company determined the fair value as of September 30, 2016 based on 224 policies out of 256 policies, as the Company assigned no value to 32 of the policies as of September 30, 2016. The Company determined the fair value as of December 31, 2015 based on 213 policies out of 255 policies, as the Company assigned no value to 42 of the policies as of December 31, 2015. The Company estimated the fair value of a life insurance policy using a cash flow model with an appropriate discount rate. In some cases, the cash flow model calculates the value of an individual policy to be negative, and therefore the fair value of the policy is zero as no liability exists when a (1) negative value is calculated. The Company is not contractually bound to pay the premium on its life settlement contracts and, therefore, would not pay a willing buyer to assume title of these contracts. Additionally, certain of the Company's acquired policies were structured to have low premium payments at inception of the policy term, which later escalate greatly towards the tail end of the policy term. At the current time, the Company expenses all premium paid, even on policies with zero fair value. Once the premium payments escalate, the Company may allow the policies to lapse. In the event that death benefits are realized in the time frame between initial acquisition and premium escalation, it is a benefit to cash flow.

For these contracts where the Company determined the fair value to be negative and therefore assigned a fair value of zero, the table below details the amount of premiums paid and the death benefits received during the twelve months preceding September 30, 2016 and December 31, 2015:

(Amounts in Thousands, except number of Life Settlement Contracts)	September 30, 2016	December 31, 2015
Number of policies with a negative value from discounted cash flow model as of period end	32	42
Premiums paid for the preceding twelve month period for period ended	\$ 4,941	\$ 4,971
Death benefit received	\$ —	\$ —

Premiums to be paid by the LSC Entities for each of the five succeeding fiscal years to keep the life insurance policies in force as of September 30, 2016, are as follows:

	Premiums Due on
(Amounts in Thousands)	Life Settlement Contracts
2016	\$ 66,685
2017	46,386
2018	47,392
2019	44,589
2020	40,979
Thereafter	469,780
Total	\$ 715,811

6. Deferred Policy Acquisition Costs

The following table reflects the amounts of policy acquisition costs deferred and amortized for the three and nine months ended September 30, 2016 and 2015:

(Amounts in Thousands)	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Balance, beginning of period	\$873,641	\$695,150	\$704,243	\$628,383
Acquisition costs deferred	289,790	190,632	820,154	582,091
Amortization	(198,789)	(171,556)	(559,755)	(496,248)
Balance, end of period	\$964,642	\$714,226	\$964,642	\$714,226

7. Debt

The Company's outstanding debt consisted of the following at September 30, 2016 and December 31, 2015:

(Amounts in Thousands)	September 30, December 31,	
	2016	2015
Revolving credit facility	\$ 130,000	\$ 130,000
5.5% Convertible senior notes due 2021 (the "2021 Notes")	5,190	5,103
2.75% Convertible senior notes due 2044 (the "2044 Notes")	164,828	160,258
6.125% Senior notes due 2023 (the "2023 Notes")	248,116	247,911
Junior subordinated debentures (the "2035-2037 Notes")	122,006	118,226
Trust preferred securities (the "2033-2037 TPS Notes")	92,786	—
7.25% Subordinated Notes due 2055 (the "7.25% 2055 Notes")	145,171	145,078
7.50% Subordinated Notes due 2055 (the "7.50% 2055 Notes")	130,656	130,572
Secured loan agreements	77,971	38,455
Promissory notes	118,592	13,753
	\$ 1,235,316	\$ 989,356

Aggregate scheduled maturities of the Company's outstanding debt, excluding unamortized deferred origination costs, at September 30, 2016 are:

(Amounts in Thousands)	
2016	\$ 1,814
2017	33,766
2018	36,056
2019	160,939
2020	26,685
Thereafter	992,308 ⁽¹⁾
Total scheduled payments	1,251,568
Unamortized deferred origination costs	(16,252)
	1,235,316

(1) Amount includes debt outstanding under the 2021 Notes and 2044 Notes, which is net of unamortized original issue discount of \$764 and \$47,440, respectively.

Additionally, the Company utilizes various letters of credit in its operations. The following is a summary of the Company's letters of credit as of September 30, 2016:

(Amounts in Thousands)	Letters of Credit Limit	Letters of Credit Outstanding	Letters of Credit Available
Revolving credit facility	\$175,000	\$ 114,156	\$ 60,844
Funds at Lloyd's facility, in USD equivalent	389,280	380,494	8,786
ING Bank N.V. and Deutsche Bank Netherlands N.V. facilities, in USD equivalent	88,404	63,217	25,187
Comerica bank letters of credit	75,000	48,134	26,866
Other letters of credit, in aggregate	1,550	1,550	—

Interest expense, including amortization of original issue discount and deferred origination costs, as well as applicable bank fees, related to the Company's outstanding debt and letters of credit for the three and nine months ended September 30, 2016 and 2015 was:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(Amounts in Thousands)	2016	2015	2016	2015
Revolving credit facility	\$1,134	\$1,092	\$3,388	\$2,636
Funds at Lloyd's facility	1,065	639	3,387	2,320
2021 Notes	116	117	345	711
2023 Notes	3,897	3,897	11,690	11,690
2035-2037 Notes	1,548	1,442	4,609	5,157
2033-2037 TPS Notes	981	—	1,750	—
2044 Notes	3,170	3,065	9,402	9,096
7.25% 2055 Notes	2,750	2,750	8,250	3,118
7.50% 2055 Notes	2,559	408	7,677	408
Secured loan agreements	756	212	1,768	671
Promissory notes	1,698	157	3,253	467
Other, including interest income	4,276	(917)	5,869	(3,511)
	\$23,950	\$12,862	\$61,388	\$32,763

Promissory Note

On April 18, 2016, in connection with the acquisition of Republic Companies, Inc. and its affiliates ("Republic"), the Company issued a term promissory note ("TPM") to Delek Finance U.S. Inc. in the amount of \$104,685 as part of the consideration. See Note 13. "Acquisitions" for a description of this transaction. The principal will be paid in four equal installments on each of the first four anniversaries of the issuance date. The note bears interest of 5.75% per annum and is payable from time to time based on the outstanding principal balance until the promissory note is fully paid. In the event that indebtedness under the Company's revolving credit facility or the Company's 2023 Notes is required to be paid on an accelerated basis, the holder of the TPM may cause the Company to repay unpaid principal and interest immediately. The Company recorded interest expense, including amortization of the deferred origination costs and fees associated with the loan agreement, of approximately \$1,538 and \$2,776 for the three and nine months ended September 30, 2016, respectively.

2033-2037 TPS Notes

In connection with the acquisition of Republic, the Company assumed Republic's outstanding trust preferred securities. Republic participated in the private placement of floating rate capital securities through five capital trusts. Each trust was created solely for the purpose of issuing trust preferred securities. Republic has guaranteed the payment by the trusts of distributions and other amounts under the capital securities to the extent that the trusts have funds available for such payments. The trusts invested the proceeds from the private placement in junior subordinated debentures issued by Republic. The trusts must redeem the capital securities when the debentures are paid at maturity or upon any earlier prepayment of the debentures. The debentures may be

prepaid if certain events occur, including a change in the tax status or regulatory capital treatment of the capital securities or a change in the existing laws that require the trusts to register as an investment company. Under the provisions of the debentures, the Company has the right to defer payment of interest on the debentures at any time, or from time to time, for up to twenty consecutive quarterly periods. If interest payments on the debentures are deferred, the distributions on the capital securities will also be deferred. In accordance with FASB ASC 810-10-25, the Company does not consolidate such special purpose trusts, as the Company is not considered to be the primary beneficiary. The equity investment, totaling \$2,786 as of September 30, 2016 on the Company's balance sheet, represents the Company's ownership of common securities issued by the trusts.

The table below summarizes the Company's trust preferred securities assumed in the Republic acquisition as of September 30, 2016:

(Amounts in Thousands) Name of Trust	Aggregate Liquidation Amount of Trust Preferred Securities	Aggregate Liquidation Amount of Common Securities	Aggregate Principal Amount of Notes	Stated Maturity of Notes	Per Annum Interest Rate of Notes
RIG Capital Trust I	\$ 10,000	\$ 310	\$ 10,310	9/30/2033	4.631 ⁽¹⁾
RIG Capital Statutory Trust II	20,000	619	20,619	10/29/2033	4.449 ⁽²⁾
RIG Capital Trust III	20,000	619	20,619	12/15/2036	3.853 ⁽³⁾
RIG Capital Trust IV	25,000	774	25,774	6/15/2037	3.853 ⁽³⁾
RIG Capital Trust V	15,000	464	15,464	9/15/2037	3.950 ⁽⁴⁾
Total trust preferred securities	\$ 90,000	\$ 2,786	\$ 92,786		

(1) The interest rate is three-month LIBOR plus 4.00%.

(2) The interest rate is three-month LIBOR plus 3.85%.

(3) The interest rate is three-month LIBOR plus 3.20%.

(4) The interest rate is three-month LIBOR plus 3.30%.

Secured Loan Agreements

On April 7, 2016, the Company entered into a ten-year secured loan agreement with Citigroup Global Markets Realty Corp., in the aggregate amount of \$29,000. The loan is secured by a commercial office building the Company owns in Dallas, Texas. The loan bears interest at a fixed rate of 4.96% per annum and requires monthly interest only payments of approximately \$169 through May 6, 2026 and payment of principal at maturity. The Company recorded interest expense, including amortization of the deferred origination costs and fees associated with the loan agreement, of approximately \$373 and \$736 for the three and nine months ended September 30, 2016.

On April 6, 2016, the Company through a wholly-owned subsidiary, entered into a five-year secured term loan agreement with Lloyd's Bank PLC in the aggregate amount of £7,800 (or \$11,028) to finance the purchase of a commercial office building in Nottingham, U.K. The loan bears a variable rate of interest based on LIBOR plus a margin and was 2.83% as of September 30, 2016. The Company had deferred financing costs of £78 (or \$114) related to the term loan. The mortgage requires quarterly principal payments of £30 and interest for the term of the loan with the remaining principal to be paid at maturity. The Company recorded interest expense, including amortization of the deferred origination costs and fees associated with the loan agreement, of approximately \$73 and \$159 for the three and nine months ended September 30, 2016, respectively. Pursuant to a covenant in the agreement, if the loan exceeds 70% of the fair value of the property, the Company is required to pay the lender the entire amount necessary to reduce the outstanding principal balance to be equal to or less than 70% of the fair value of the building.

Nationale Borg

Through the Company's acquisition of N.V. Nationale Borg-Maatscappij and its affiliates ("Nationale Borg"), the Company assumed Nationale Borg's existing credit facilities pursuant to which trade related guarantees and comparable standby letters of credit are issued primarily to secure obligations owed by Nationale Borg to third parties in the normal course of business. See Note 13. "Acquisitions" elsewhere in this report for a description of this transaction. The credit facilities are with Deutsche Bank Netherlands N.V. and ING Bank N.V. and are primarily used to obtain guarantees for the benefit of financial institutions. The credit limit under these credit facilities is approximately €76,650 (or \$88,404). The credit facilities were utilized for €56,228 (or \$63,217) as of September 30, 2016. The Company recorded total interest expense of \$257 and \$354 for the three and nine months ended September 30, 2016.

8. Acquisition Costs and Other Underwriting Expenses

The following table summarizes the components of acquisition costs and other underwriting expenses for the three and nine months ended September 30, 2016 and 2015:

(Amounts in Thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Policy acquisition expenses	\$116,434	\$131,083	\$365,804	\$336,977
Salaries and benefits	140,300	112,769	424,834	355,927
Other insurance general and administrative expenses	27,224	14,164	56,757	35,498
	\$283,958	\$258,016	\$847,395	\$728,402

9. Earnings Per Share

The Company implemented a two-for-one stock split on February 2, 2016. As such, the weighted average number of shares used for the basic and diluted earnings per share have been adjusted retrospectively to reflect the effect of the split.

During the three and nine months ended September 30, 2015, the Company's unvested restricted shares contained rights to receive nonforfeitable dividends and were, therefore, considered participating securities. As a result, the Company computed earnings per share using the two-class method during the three and nine months ended September 30, 2015. There were no outstanding unvested restricted shares as of September 30, 2016.

The following table is a summary of the elements used in calculating basic and diluted earnings per share for the three and nine months ended September 30, 2016 and 2015:

(Amounts in Thousands, except for earnings per share)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Basic earnings per share:				
Net income attributable to AmTrust common shareholders	\$ 103,550	\$ 182,708	\$ 338,598	\$ 408,152
Less: Net income allocated to participating securities and redeemable non-controlling interest	—	469	—	1,072
Net income allocated to AmTrust common shareholders	\$ 103,550	\$ 182,239	\$ 338,598	\$ 407,080
Weighted average common shares outstanding – basic	170,928	165,608	173,173	164,470
Less: Weighted average participating shares outstanding	—	426	—	432
Weighted average common shares outstanding - basic	170,928	165,182	173,173	164,038
Net income per AmTrust common share - basic	\$0.61	\$ 1.10	\$ 1.96	\$ 2.48
Diluted earnings per share:				
Net income attributable to AmTrust common shareholders	\$ 103,550	\$ 182,708	\$ 338,598	\$ 408,152
Less: Net income allocated to participating securities and redeemable non-controlling interest	—	469	—	1,072
Net income allocated to AmTrust common shareholders	\$ 103,550	\$ 182,239	\$ 338,598	\$ 407,080
Weighted average common shares outstanding – basic	170,928	165,182	173,173	164,038
Plus: Dilutive effect of stock options, convertible debt, other	2,193	3,090	1,978	3,454
Weighted average common shares outstanding – dilutive	173,121	168,272	175,151	167,492
Net income per AmTrust common shares – diluted	\$0.60	\$ 1.09	\$ 1.93	\$ 2.43

The Company's anti-dilutive securities excluded from diluted earnings per share calculation were immaterial for the three and nine months ended September 30, 2016 and 2015, respectively.

10. Share Based Compensation

The Company's 2010 Omnibus Incentive Plan (the "Plan"), which permits the Company to grant to its officers, employees and non-employee directors incentive compensation directly linked to the price of the Company's stock, authorizes up to an aggregate of 14,630,136 shares of Company stock for awards of options to purchase shares of the Company's common stock ("Stock Option"), restricted stock, restricted stock units ("RSU"), performance share units ("PSU") or appreciation rights. Shares used may be either newly issued shares or treasury shares or both. The aggregate number of shares of common stock for which awards may be issued may not exceed 14,630,136 shares, subject to the authority of the Company's Board of Directors to adjust this amount in the event of a consolidation, reorganization, stock dividend, stock split, recapitalization or similar transaction affecting the Company's common stock. As of September 30, 2016, approximately 7,100,000 shares of Company common stock remained available for grants under the Plan.

The Company recognizes compensation expense under FASB ASC 718-10-25 for its share-based payments based on the fair value of the awards. Compensation expense for all share-based payments under ASC 718-10-30 was approximately \$5,891 and \$6,242 for the three months ended September 30, 2016 and 2015, respectively and \$17,433 and \$16,678 for the nine months ended September 30, 2016 and 2015, respectively. The Company has unrecognized compensation cost related to unvested stock options, restricted stock and non-vested RSU awards of \$47,774 and

\$39,111 at September 30, 2016 and December 31, 2015, respectively.

On December 15, 2015, the Company's Board of Directors declared a two-for-one stock split on the Company's common stock, payable in the form of a 100% stock dividend. On February 2, 2016, the dividend payment date, all options outstanding were adjusted by 100% and their respective exercise prices were reduced by 50%. The Company also adjusted outstanding RSUs, unvested restricted stock and PSUs for the split.

Stock Options

The Company grants stock options at prices equal to the closing stock price of the Company's stock on the dates the options are granted. The options have a term of ten years from the date of grant and vest primarily in equal annual installments over the four-year period following the date of grant for employee options. The Company uses the simplified method in determining the expected life. Employees have three months after the employment relationship ends to exercise all vested options. The fair value of each option grant is separately estimated for each vesting date. The fair value of each option is amortized into compensation expense on a straight-line basis between the grant date for the award and each vesting date. The Company has estimated the fair value of all stock option awards as of the date of the grant by applying the Black-Scholes-Merton multiple-option pricing valuation model. The application of this valuation model involves assumptions that are judgmental and highly sensitive in the determination of compensation expense.

The following schedule shows all options granted, exercised, and expired under the Plan for the nine months ended September 30, 2016 and 2015:

	2016		2015	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Outstanding at beginning of period	2,783,880	\$ 6.99	3,868,740	\$ 5.80
Granted	—	—	85,000	27.09
Exercised	(411,913)	3.96	(1,018,950)	4.65
Canceled or terminated	(13,872)	24.69	(75,148)	9.17
Outstanding at end of period	2,358,095	7.41	2,859,642	6.75

The Company did not grant any stock options during the nine months ended September 30, 2016. The weighted average grant date fair value of options granted was \$10.93 during the nine months ended September 30, 2015.

The per share fair value of options was estimated at the date of grant based on the following weighted average assumptions for the nine months ended September 30, 2015:

	2015	
Volatility	40.95	%
Risk-free interest rate	1.95	%
Weighted average expected lives in years	6.25	
Dividend rate	1.85	%
Forfeiture rate	0.50	%

The intrinsic value of stock options exercised during the nine months ended September 30, 2016 and 2015 was \$8,794 and \$24,000, respectively. The intrinsic value of stock options that were outstanding as of September 30, 2016 and December 31, 2015 was \$45,889 and \$66,300, respectively. The intrinsic value of stock options that were exercisable as of September 30, 2016 and December 31, 2015 was \$45,510 and \$64,705, respectively.

Cash received from options exercised was \$1,558 and \$4,582 during the nine months ended September 30, 2016 and 2015, respectively. The excess tax benefit from award exercises was approximately \$3,081 and \$7,561 for the nine months ended September 30, 2016 and 2015, respectively. Such benefits were recorded as a reduction of income tax payable and an increase in additional paid-in capital.

Restricted stock, RSU and PSU

The Company grants restricted shares, RSUs and PSUs with a grant date fair value equal to the closing stock price of the Company's stock on the dates the shares or units are granted. The restricted shares and RSUs vest over a period of one to four years, while PSUs vest based on the terms of the awards.

A summary of the Company's restricted stock and RSU activity for the nine months ended September 30, 2016 and 2015 is shown below:

	2016		2015	
	Shares or Units	Weighted Average Grant Date Fair Value	Shares or Units	Weighted Average Grant Date Fair Value
Non-vested at beginning of period	1,853,516	\$ 20.54	2,611,022	\$ 16.70
Granted	873,388	26.03	465,400	29.19
Vested	(816,538)	17.50	(838,918)	14.53
Forfeited	(49,951)	24.17	(33,648)	20.95
Non-vested at end of period	1,860,415	24.35	2,203,856	20.10

A summary of the Company's PSU activity for the nine months ended September 30, 2016 and 2015 is shown below:

	2016		2015	
	Shares or Units	Weighted Average Grant Date Fair Value	Shares or Units	Weighted Average Grant Date Fair Value
Non-vested at beginning of period	752,466	\$ 24.58	549,670	\$ 19.42
Granted	198,881	26.16	373,628	29.93
Vested	(234,358)	22.89	(155,842)	18.86
Forfeited	(35,766)	25.57	(9,406)	27.07
Non-vested at end of period	681,223	25.57	758,050	24.62

PSUs are conditional grants of a specified maximum number of common shares. In general, grants are earned, subject to the attainment of pre-specified performance goals at the end of the pre-determined period.

11. Income Taxes

The following table is a reconciliation of the Company's statutory income tax expense to its effective tax rate for the three and nine months ended September 30, 2016 and 2015:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(Amounts in Thousands)	2016	2015	2016	2015
Income before equity in earnings of unconsolidated subsidiaries	\$151,663	\$166,882	\$461,978	\$453,476
Tax at federal statutory rate of 35%	\$53,082	\$58,409	\$161,692	\$158,717
Tax effects resulting from:				
Tax rate differences	7,898	(8,797)	(42,738)	(32,286)
Adjustment to prior year taxes	(402)	(74,385)	(402)	(82,689)
Permanent adjustments	(23,820)	(9,657)	(22,615)	(12,474)

	\$35,516		\$(12,649)	\$91,160		\$38,635
Effective tax rate	23.4	%	(7.6)%	19.7	% 8.5

34

As of September 30, 2016, the Company has U.S. Net Operating Losses ("NOLs") of \$56,468 that expire beginning in 2018 through 2036. These NOLs are limited to \$3,152 per year under Section 382 of the Internal Revenue Code. The Company also has foreign NOLs of \$661,410 that currently have no expiration. The Company's management believes that as of September 30, 2016, except for a portion of foreign NOLs, it will realize the benefits of its deferred tax assets, which are included as a component of the other assets on the condensed consolidated balance sheet. As a result, the Company recorded a valuation allowance of \$158,670 and \$170,043 as of September 30, 2016 and December 31, 2015, respectively, related to the foreign NOLs. The decrease in the valuation allowance from December 31, 2015 to September 30, 2016 was driven primarily by the release of the valuation allowance on NOLs that were in place on the Company's U.K. operations. The Company determined, based on income projections of the U.K. operations, that sufficient positive evidence exists that it is more likely than not that the NOL deferred tax assets will be realized.

The Company did not utilize any equalization reserves attributed to its Luxembourg reinsurance companies during the three and nine months ended September 30, 2016 and 2015, respectively.

The earnings of certain of the Company's foreign subsidiaries have been indefinitely reinvested in foreign operations. Therefore, no provision has been made for any U.S. taxes or foreign withholding taxes that may be applicable upon any repatriation or disposition.

The Company's major taxing jurisdictions include the U.S. (federal and state), the United Kingdom and Ireland. The years subject to potential audit vary depending on the tax jurisdiction. Generally, the Company's statute of limitation is open for tax years ended December 31, 2011 and forward.

As permitted by FASB ASC 740-10 Income Taxes, the Company recognizes interest and penalties, if any, related to unrecognized tax benefits in its income tax provision. The Company does not have any unrecognized tax benefits and, therefore, has not recorded any unrecognized tax benefits, or any related interest and penalties, as of September 30, 2016 and December 31, 2015. No interest or penalties have been recorded by the Company for the three and nine months ended September 30, 2016 and 2015, respectively. The Company does not anticipate any significant changes to its total unrecognized tax benefits in the next 12 months.

12. Related Party Transactions

Significant Transactions with Maiden Holdings, Ltd.

The Company has various reinsurance and service agreements with Maiden Holdings, Ltd. ("Maiden"). Maiden is a publicly-held Bermuda insurance holding company (Nasdaq: MHLN) formed by Michael Karfunkel, George Karfunkel and Barry Zyskind, principal shareholders, and, respectively, the Company's former chairman of the board of directors, a director, and the current chairman, chief executive officer and president of the Company. As of September 30, 2016, our principal shareholders, Leah Karfunkel (one of the Company's directors and co-trustee of The Michael Karfunkel Family 2005 Trust (the "Trust")), George Karfunkel and Barry Zyskind, own or control approximately 7.9%, 2.0% and 7.5%, respectively, of the issued and outstanding capital stock of Maiden. Mr. Zyskind serves as the non-executive chairman of the board of Maiden's board of directors. Maiden Reinsurance Ltd. ("Maiden Reinsurance"), a wholly-owned subsidiary of Maiden, is a Bermuda reinsurer. The following section describes the agreements in place between the Company and its subsidiaries and Maiden and its subsidiaries.

Reinsurance Agreements with Maiden Holdings, Ltd.

In 2007, the Company and Maiden entered into a master agreement, as amended, by which the parties caused the Company's Bermuda subsidiary, AmTrust International Insurance, Ltd. ("AII"), and Maiden Reinsurance to enter into a

quota share reinsurance agreement (the "Maiden Quota Share"), as amended, by which AII retrocedes to Maiden Reinsurance an amount equal to 40% of the premium written by the Company's U.S., Irish and U.K. insurance companies (the "AmTrust Ceding Insurers"), net of the cost of unaffiliated inuring reinsurance (and in the case of the Company's U.K. insurance subsidiary, AmTrust Europe Ltd. ("AEL"), net of commissions). AII also retrocedes 40% of losses. Certain business that the Company commenced writing after the effective date of the Maiden Quota Share, including the Company's European medical liability business discussed below, business assumed from Tower Group International, Ltd. ("Tower") pursuant to the cut-through quota share reinsurance agreement, and risks, other than workers' compensation risks and certain business written by the Company's Irish subsidiary, AmTrust International Underwriters DAC ("AIU"), for which the AmTrust Ceding Insurers' net retention exceeds \$5,000 is not ceded to Maiden Reinsurance under the Maiden Quota Share (ceded business defined as "Covered Business").

AII receives a ceding commission of 31% of ceded written premiums with respect to all Covered Business other than retail commercial package business, for which the ceding commission remains 34.375%. With regards to the Specialty Program portion of Covered Business only, the Company will be responsible for ultimate net loss otherwise recoverable from Maiden Reinsurance to the extent that the loss ratio to Maiden Reinsurance, which shall be determined on an inception to date basis from July 1, 2007 through the date of calculation, is between 81.5% and 95% (the "Specialty Program Loss Corridor"). For the purpose of determining whether the loss ratio falls within the Specialty Program Loss Corridor, workers' compensation business written in the Company's Specialty Program segment from July 1, 2007 through December 31, 2012 is excluded from the loss ratio calculation.

The Maiden Quota Share was renewed through June 30, 2019 and will automatically renew for successive three-year terms unless either AII or Maiden Reinsurance notifies the other of its election not to renew no less than nine months prior to the end of any such three-year term. In addition, either party is entitled to terminate on thirty days' notice or less upon the occurrence of certain early termination events, which include a default in payment, insolvency, change in control of AII or Maiden Reinsurance, run-off, or a reduction of 50% or more of the shareholders' equity of Maiden Reinsurance or the combined shareholders' equity of AII and the AmTrust Ceding Insurers.

The Company, through its subsidiaries AEL and AIU, has a reinsurance agreement with Maiden Reinsurance by which the Company cedes to Maiden Reinsurance a percentage of its European medical liability business, including business in force at April 1, 2011. From April 1, 2011 through June 30, 2016, that percentage ceded was 40%. Effective July 1, 2016, the percentage ceded decreased to 32.5%. The quota share had an initial term of one year and has been renewed through March 31, 2017. The agreement can be terminated at any April 1 by either party on four months' prior written notice. Maiden Reinsurance pays the Company a 5% ceding commission, and the Company will earn a profit commission of 50% of the amount by which the ceded loss ratio is lower than 65%.

The following is the effect on the Company's results of operations for the three and nine months ended September 30, 2016 and 2015 related to Maiden Reinsurance agreements:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(Amounts in Thousands)	2016	2015	2016	2015
Results of operations:				
Premium written – ceded	\$(514,802)	\$(453,981)	\$(1,587,757)	\$(1,504,701)
Change in unearned premium – ceded	(1,023)	(13,522)	126,379	204,170
Earned premium - ceded	\$(515,825)	\$(467,503)	\$(1,461,378)	\$(1,300,531)
Ceding commission on premium written	\$183,457	\$144,625	\$512,995	\$473,480
Ceding commission – deferred	(25,241)	(6,589)	(72,434)	(87,535)
Ceding commission – earned	\$158,216	\$138,036	\$440,561	\$385,945
Incurred loss and loss adjustment expense – ceded	\$334,878	\$346,123	\$994,212	\$932,053

Note Payable to Maiden – Collateral for Proportionate Share of Reinsurance Obligations

In conjunction with the Maiden Quota Share, as described above, the Company entered into a loan agreement with Maiden Reinsurance during the fourth quarter of 2007, whereby Maiden Reinsurance loaned to the Company the amount equal to AII's quota share of the obligations of the AmTrust Ceding Insurers that AII was then obligated to secure. The loan agreement provides for interest at a rate of LIBOR plus 90 basis points and is payable on a quarterly basis. Advances under the loan are secured by a promissory note and totaled \$167,975 as of September 30, 2016 and December 31, 2015, respectively. The Company recorded \$599 and \$471 of interest expense during the three months ended September 30, 2016 and 2015, respectively, and \$1,729 and \$1,380 during the nine months ended September 30, 2016 and 2015, respectively. Effective December 1, 2008, AII and Maiden Reinsurance entered into a Reinsurer Trust Assets Collateral agreement whereby Maiden Reinsurance is required to provide AII the assets

required to secure Maiden's proportional share of the Company's obligations to its U.S. subsidiaries. The amount of this collateral contained in various reinsurance trusts as of September 30, 2016 was approximately \$2,966,862. Maiden retains ownership of the collateral in the trust account.

Reinsurance Brokerage Agreement

The Company, through a subsidiary, has a reinsurance brokerage agreement with Maiden. Pursuant to the brokerage agreement, the Company provides brokerage services relating to the Maiden Quota Share for a fee equal to 1.25% of reinsured premium. The Company recorded \$6,520 and \$5,828 of brokerage commission during the three months ended September 30, 2016 and 2015,

respectively, and \$19,744 and \$18,688 during the nine months ended September 30, 2016 and 2015, respectively. The brokerage commission was recorded as a component of service and fee income.

Asset Management Agreement

The Company, through a subsidiary, has an asset management agreement with Maiden Reinsurance, pursuant to which the Company provides investment management services to Maiden Reinsurance and certain of its affiliates. As of September 30, 2016, the Company managed approximately \$4,750,000 of assets related to this agreement. The asset management services fee is an annual rate of 0.20% for periods in which average invested assets are \$1,000,000 or less and an annual rate of 0.15% for periods in which the average invested assets exceeds \$1,000,000. As a result of this agreement, the Company recorded \$1,780 and \$1,518 of asset management fees during the three months ended September 30, 2016 and 2015, respectively, and \$5,122 and \$4,455 during the nine months ended September 30, 2016 and 2015, respectively. The asset management fees were recorded as a component of service and fee income.

Significant Transactions with National General Holding Corp.

The Company has an ownership interest in NGHC of approximately 12%. NGHC is a publicly-held specialty personal lines insurance holding company (Nasdaq: NGHC) that operates fifteen insurance companies in the United States and provides a variety of insurance products, including personal and commercial automobile, homeowners and umbrella, and supplemental health. As of September 30, 2016, NGHC's two largest shareholders were The Trust and Leah Karfunkel individually. Leah Karfunkel is a member of the Company's Board of Directors, and the mother-in-law of Barry D. Zyskind, the Chairman, President and Chief Executive Officer of the Company. The ultimate beneficiaries of the Trust include Leah Karfunkel's children, one of whom is married to Mr. Zyskind. In addition, Barry Karfunkel, the son of Leah Karfunkel and brother-in-law of Barry D. Zyskind, is the chief executive officer of NGHC and Barry D. Zyskind is NGHC's non-executive chairman of the board. In accordance with ASC 323-10-15, Investments-Equity Method and Joint Ventures, the Company accounts for its investment in NGHC under the equity method as it has the ability to exert significant influence on NGHC's operations.

During the three months ended September 30, 2016 and 2015, the Company recorded \$1,954 and \$13,477 of income, respectively, and \$12,532 and \$23,048 during the nine months ended September 30, 2016 and 2015, respectively, related to its equity investment in NGHC.

Master Services Agreement

The Company provides NGHC and its affiliates information technology services in connection with the development and licensing of a policy management system. The Company provides the license at a cost that is currently 1.25% of gross written premium of NGHC and its affiliates plus the Company's costs for development and support services. The Company provides development services at a price of cost plus 20%. In addition, the Company provides NGHC and its affiliates printing and mailing services at a per piece cost for policy and policy related materials, such as invoices, quotes, notices and endorsements, associated with the policies the Company processes for NGHC and its affiliates on the policy management system. The Company recorded approximately \$8,735 and \$8,650 of fee income during the three months ended September 30, 2016 and 2015, respectively, and \$29,921 and \$26,019 during the nine months ended September 30, 2016 and 2015, respectively, related to this agreement. The fees for these services were recorded as a component of service and fee income.

Asset Management Agreement

A subsidiary of the Company manages the assets of certain of NGHC's subsidiaries, including the assets of reciprocal insurers managed by subsidiaries of NGHC, for an annual fee equal to 0.20% of the average aggregate value of the assets under management for the preceding quarter if the average aggregate value for the preceding quarter is \$1,000,000 or less and 0.15% of the average aggregate value of the assets under management for the preceding quarter if the average aggregate value for that quarter is more than \$1,000,000. The Company managed approximately \$3,258,000 of assets as of September 30, 2016 related to this agreement. As a result of this agreement, the Company earned approximately \$986 and \$720 of asset management fees during the three months ended September 30, 2016 and 2015, respectively, and \$2,586 and \$1,859 during the nine months ended September 30, 2016 and 2015, respectively. The asset management fees were recorded as a component of service and fee income.

800 Superior, LLC

The Company and NGHC each have a fifty percent ownership interest in 800 Superior, LLC ("800 Superior"), which owns an office building in Cleveland, Ohio. The cost of the building was approximately \$7,500. The Company has been appointed

managing member of 800 Superior. Additionally, in conjunction with the Company's approximate 12% ownership percentage of NGHC, the Company ultimately receives 56% of the profits and losses of 800 Superior. As such, in accordance with ASC 810-10, Consolidation, the Company consolidates this entity. NGHC's portion of the net assets and earnings are recorded within non-controlling interest in the condensed consolidated financial statements.

NGHC has an office lease agreement with 800 Superior. The lease agreement is through 2027. NGHC paid 800 Superior approximately \$696 and \$663 of rent during the three months ended September 30, 2016 and 2015, respectively, and \$2,063 and \$1,929 during the nine months ended September 30, 2016 and 2015, respectively, under the lease agreement. As discussed in Note 14. "New Market Tax Credit," 800 Superior, the Company and NGHC participated in a financing transaction related to capital improvements on the office building. As part of that transaction, NGHC and the Company entered into an agreement related to the payment and performance guaranties provided by the Company to the various parties to the financing transaction whereby NGHC has agreed to contribute 50% toward any payments the Company is required to make pursuant to the guaranties.

4455 LBJ Freeway, LLC

In 2015, the Company and NGHC each acquired a fifty percent ownership interest in 4455 LBJ Freeway, LLC ("4455 LBJ Freeway"), which owns an office building in Dallas, Texas. The cost of the building was approximately \$21,050. The Company has been appointed managing member of 4455 LBJ Freeway. Additionally, in conjunction with the Company's approximate 12% ownership percentage of NGHC, the Company ultimately receives 56% of the profits and losses of 4455 LBJ Freeway. As such, in accordance with ASC 810-10, Consolidation, the Company consolidates this entity. NGHC's portion of the net assets and earnings are recorded within non-controlling interest in the condensed consolidated financial statements.

In addition, NGHC has an office lease agreement with 4455 LBJ Freeway. The lease agreement is through February 2028. The Company recorded approximately \$389 and \$907 of service and fee income related to rent for the three and nine months ended September 30, 2016. Lastly, as discussed in Note 7. "Debt," 4455 LBJ Freeway entered into a ten-year loan agreement with Citigroup Global Markets Realty Corp. secured by the Dallas office building owned by 4455 LBJ Freeway. As part of that transaction, the Company and NGHC provided a joint and several guaranty to Citigroup. As a result, the Company and NGHC entered into an agreement to contribute 50% toward any payments the other party would be required to make pursuant to this guaranty.

Significant Transactions with ACP Re, Ltd.

ACP Re, Ltd. ("ACP Re") is a privately-held Bermuda reinsurance holding company owned by the Trust. In 2014, a subsidiary of ACP Re merged with Tower. The following section describes the significant agreements in place between the Company and its subsidiaries and ACP Re and its subsidiaries.

Asset Management Agreement

A subsidiary of the Company provides asset management services to ACP Re and certain of its subsidiaries at (i) an annual rate of 0.20% of the average value of the invested assets under management, excluding investment in the Company's stock, for the preceding calendar quarter if the average value of such assets for the quarter was \$1,000,000 or less, or (ii) an annual rate of 0.15% of the average value of the invested assets under management, excluding investment in the Company's stock, for the preceding calendar quarter if the average value of such assets for the quarter was greater than \$1,000,000. The Company managed approximately \$540,573 of assets as of September 30, 2016. The Company recorded approximately \$230 and \$457 of asset management fees during the three months ended September 30, 2016 and 2015, respectively, and \$687 and \$1,281 during the nine months ended September 30, 2016 and 2015, respectively. The asset management fees were recorded as a component of service and fee income.

Agreements as a result of the ACP Re / Tower Merger

The Company and ACP Re entered into the agreements and transactions described below, as well as the asset management agreement described above, as a result of ACP Re's acquisition of 100% of the outstanding stock of Tower on September 15, 2014. As described in the Company's Current Report on Form 8-K filed on July 29, 2016, in July 2016, Tower's statutory insurance companies (the "Tower Companies") merged into CastlePoint National Insurance Company ("CNIC"), with CNIC as the surviving entity. By order of the Supreme Court of the State of California, on July 28, 2016, CNIC was placed into receivership. On September 13, 2016, when the Conservation Plan developed by the Commissioner of Insurance of the State of California for CNIC (the "Conservation Plan") was approved by the Superior Court of the State of California, and members of the Michael Karfunkel family made a \$200,000 contribution to CNIC on September 20, 2016 (the "Contribution"), several of the agreements described below were either amended or terminated.

Commercial Lines Reinsurance Agreements

Technology Insurance Company, Inc. ("TIC") entered into the Commercial Lines Quota Share Reinsurance Agreement (the "CL Reinsurance Agreement") with Tower's ten statutory insurance companies (the "Tower Companies") pursuant to which TIC reinsures 100% of all losses under the Tower Companies' new and renewal commercial lines business written after September 15, 2014. The ceding commission payable by TIC under the CL Reinsurance Agreement is equal to the sum of (i) reimbursement of the Tower Companies' acquisition costs in respect of the business covered, including commission payable to AmTrust North America, Inc., a subsidiary of the Company ("ANA"), pursuant to the CL MGA Agreement described below, and premium taxes and (ii) 2% of gross written premium (net of cancellations and return premiums) collected pursuant to the CL MGA Agreement described below. The CL Reinsurance Agreement will remain in effect until termination of the CL MGA Agreement. The Company no longer assumes premium under the CL Reinsurance Agreement and policies previously assumed are in run off.

Commercial Lines MGA Agreement

Until CNIC's placement into receivership, ANA produced and managed all new and renewal commercial lines business written by the Tower Companies pursuant to the Commercial Lines Managing General Agency Agreement (the "CL MGA Agreement"). As described above, all post-September 15, 2014 commercial lines business written by the Tower Companies was reinsured by TIC pursuant to the CL Reinsurance Agreement. The Tower Companies paid ANA a 10% commission on all business written pursuant to the CL MGA Agreement and reimbursed ANA for commissions payable to agents producing such business. All payments by the Tower Companies to ANA pursuant to the CL MGA Agreement were netted out of the ceding commission payable by TIC to the Tower Companies pursuant to the CL Reinsurance Agreement. The Company did not record any commission during the three and nine months ended September 30, 2016, and recorded \$1,386 and \$3,444 of commission under the CL MGA Agreement during the three and nine months ended September 30, 2015. The commission income was recorded as a component of service and fee income. There is no longer any commercial lines business managed under this agreement.

Commercial Lines Administrative Services Agreement

ANA, the Tower Companies and CastlePoint Reinsurance Company, Ltd. ("CP Re," a subsidiary of ACP Re) entered into the Commercial Lines LPTA Administrative Services Agreement (the "CL Administrative Agreement") pursuant to which ANA administered the runoff of CP Re's and the Tower Companies' commercial lines business written prior to September 15, 2014 at cost. CP Re and the Tower Companies reimbursed ANA for its actual costs, including costs incurred in connection with claims operations, out-of-pocket expenses, costs incurred in connection with any required modifications to ANA's claims systems and an allocated portion of the claims service expenses paid by TIC to the Tower Companies pursuant to the CL Reinsurance Agreement. The Company charged ACP Re \$3,315 and \$6,033 for these services during the three months ended September 30, 2016 and 2015, respectively, and \$9,298 and \$29,589 for the nine months ended September 30, 2016 and 2015, respectively, which were recorded as a reduction of salary and other expense. The CL Administrative Agreement terminated upon the approval of the Conservation Plan and the making of the Contribution discussed above.

Stop-Loss and Retrocession Agreements

AII and National General Re, Ltd., a subsidiary of NGHC ("NG Re Ltd."), as reinsurers, entered into a \$250,000 Aggregate Stop Loss Reinsurance Agreement (the "Stop-Loss Agreement") with CP Re. AII and NG Re Ltd. also entered into an Aggregate Stop Loss Retrocession Contract (the "Retrocession Agreement") with ACP Re pursuant to which ACP Re would reinsure the full amount of any payments that AII and NG Re Ltd. were obligated to make to CP Re under the Stop-Loss Agreement. Pursuant to the Stop-Loss Agreement, each of the Company and NGHC had agreed to provide, severally, \$125,000 of stop loss coverage with respect to the run-off of the Tower business written on or before September 15, 2014. The reinsurers' obligation to indemnify CP Re under the Stop-Loss Agreement would have been triggered only at such time as CP Re's ultimate net loss related to the run-off of the pre-September 15, 2014 Tower business exceeded a retention equal to the Tower Companies' loss and loss adjustment reserves and unearned premium reserves as of September 15, 2014. Upon the approval of the Conservation Plan and the making of the Contribution discussed above, the Stop-Loss Agreement and the Retrocession Agreement terminated.

ACP Re Credit Agreement

The Company, AII, and NG Re Ltd. entered into a credit agreement (the “ACP Re Credit Agreement”) among the Company, as Administrative Agent, ACP Re and Tower, now a wholly-owned subsidiary of ACP Re, as the borrowers (collectively, the “Borrowers”), ACP Re Holdings, LLC, as Guarantor, and AII and NG Re Ltd., as Lenders pursuant to which the Lenders made a \$250,000 loan (\$125,000 made by each Lender) to the Borrowers. As discussed below under “Restructuring of ACP Re Credit Agreement,” certain terms of the ACP Re Credit Agreement were amended and restated following the approval of the Conservation Plan and the making of the Contribution. Until the restructuring of the ACP Re Credit Agreement, it had a maturity date of September 15, 2021. Outstanding borrowings under the original ACP Re Credit Agreement bore interest at a fixed annual rate of 7%, payable semi-annually on the last day of January and July. Fees payable to the Company for its service as Administrative Agent continue to include an annual fee equal to \$30, plus reimbursement of costs, expenses and certain other charges. Prior to the restructuring, the obligations of the Borrowers were secured by (i) a first-priority pledge of 100% of the stock of ACP Re and ACP Re’s U.S. subsidiaries and 65% of the stock of certain of ACP Re’s foreign subsidiaries, and (ii) a first-priority lien on all of the assets of the Borrowers and Guarantor and certain of the assets of ACP Re’s subsidiaries (other than the Tower Companies).

The Borrowers continue to have the right to prepay the amounts borrowed, in whole or in part. Until the restructuring, the Borrowers were required to prepay the amounts borrowed within thirty (30) days from the receipt of net cash proceeds received by ACP Re from (i) certain asset sales, (ii) the disposition of certain equity interests, (iii) the issuance or incurrence of certain debt, (iv) any dividend or distribution from Tower subsidiaries to ACP Re, (v) premiums and other payments received pursuant to the Retrocession Agreement, and (vi) any tax refunds, pension plan reversions, insurance proceeds, indemnity payments, purchase price adjustments (excluding working capital adjustments) under acquisition agreements, litigation proceeds and other similar receipts received by the Borrowers after the effective date of the ACP Re Credit Agreement, unless any of the foregoing proceeds (other than payments received pursuant to the Retrocession Agreement) are required for the ordinary course business operations of the Borrowers. The Borrowers were also required to deposit any excess cash flow (including payments under the Master Agreement) into a reserve account that also secures Borrowers’ obligations under the ACP Re Credit Agreement. Any funds in the reserve account after January 1, 2018 that exceed the amount of interest payable by the Borrowers for the remainder of the term of the ACP Re Credit Agreement would be applied by the Borrowers as a prepayment of principal under the ACP Re Credit Agreement.

Prior to the restructuring, the ACP Re Credit Agreement contained certain customary restrictive covenants (subject to negotiated exceptions and baskets), including restrictions on indebtedness, liens, acquisitions and investments, dispositions, creation of subsidiaries and restricted payments. There were also financial covenants that required ACP Re to maintain minimum current assets, a maximum leverage ratio, and a minimum fixed charge coverage ratio. If ACP Re failed to comply with the leverage ratio or fixed charge coverage ratio covenants as of any measurement date, the Borrowers could cure such breach by making a capital contribution to ACP Re sufficient to bring the Borrowers into compliance.

The ACP Re Credit Agreement also provided for customary events of default, with grace periods where appropriate, including failure to pay principal when due, failure to pay interest or fees within three business days after becoming due, failure to comply with covenants, breaches of representations and warranties, default under certain other indebtedness, certain insolvency, receivership or insurance regulatory events affecting the Borrowers, the occurrence of certain material judgments, certain amounts of reportable ERISA or foreign pension plan noncompliance events, a change in control of the Guarantor, any security interest created under the ACP Re Credit Agreement ceases to be in full force and effect, or if ACP Re defaults on its obligations under the Retrocession Agreement. Upon the occurrence and during the continuation of an event of default, the Company, as Administrative Agent, upon the request of any Lender, would declare the Borrowers’ obligations under the ACP Re Credit Agreement immediately due and payable and/or exercise any and all remedies and other rights under the ACP Re Credit Agreement.

As of September 30, 2016 and December 31, 2015, the Company recorded \$127,061 and \$129,375, respectively, of loan and related interest receivable as a component of other assets on the condensed consolidated balance sheet. The Company recorded total interest income of approximately \$2,061 and \$2,115 for the three months ended

September 30, 2016 and 2015, respectively, and \$6,436 and \$6,514 during the nine months ended September 30, 2016 and 2015, respectively, under the ACP Re Credit Agreement.

Restructuring of ACP Re Credit Agreement

As disclosed in the Company's Current Report on Form 8-K filed on September 21, 2016, the Company, AII, NG Re Ltd., ACP Re Holdings, LLC and the Trust entered into an Amended and Restated Credit Agreement on September 20, 2016, following approval by the Superior Court of the State of California of the Conservation Plan, and the Contribution by members of the Michael Karfunkel family to CNIC. The Amended and Restated Credit Agreement incorporates the following restated terms:

- The borrower became ACP Re Holdings, LLC, a Delaware limited liability company owned by the Trust; The Trust will cause ACP Re Holdings, LLC to maintain assets having a value greater than 115% of the value of the then outstanding loan balance, and if there is a shortfall, the Trust will make a contribution to ACP Re Holdings, LLC of assets having a market value of at least the shortfall (the "Maintenance Covenant");
- The amounts borrowed are secured by equity interests, cash and cash equivalents, other investments held by ACP Re Holdings, LLC and proceeds of the foregoing in an amount equal to the requirements of the Maintenance Covenant;
- The maturity date changed from September 15, 2021 to September 20, 2036;
- Interest on the outstanding principal balance of \$250,000 is a fixed annual rate of 3.70% (payable in cash, semi-annually in arrears), provided that up to 1.20% thereof may be paid in kind;
- Commencing on September 20, 2026, and for each year thereafter, 2% of the then outstanding principal balance of the loan (inclusive of any amounts previously paid in kind) is due and payable;
- At the Lenders' discretion, ACP Re Holdings, LLC may repay the loan using cash or tradeable stock of an equivalent market value of any publicly traded company on the NYSE, NASDAQ or London stock exchange; and
- A change of control of greater than 50% and an uncured breach of the Maintenance Covenant are included as events of default.

Other Related Party Transactions

Lease Agreements

The Company leases office space at 59 Maiden Lane in New York, New York from 59 Maiden Lane Associates, LLC, an entity that is wholly-owned by Leah Karfunkel and George Karfunkel. The lease term is through May 2023. The Company paid approximately \$687 and \$527 of rent during the three months ended September 30, 2016 and 2015, respectively, and \$1,425 and \$1,475 during the nine months ended September 30, 2016 and 2015, respectively, for the leased office space.

The Company leased office space in Chicago, Illinois from 135 LaSalle Property, LLC, an entity that is wholly-owned by entities controlled by Leah Karfunkel and George Karfunkel. The lease terminated on May 31, 2016. The Company paid rent of approximately \$197 and \$466 during the nine months ended September 30, 2016 and 2015, respectively, for the leased office space. The Company now leases office space in Chicago, Illinois from IC 233 Building Company LLC, a wholly-owned subsidiary of Illinois Center Building Company, discussed below. The lease term is ten years through the end of May 2026. The Company's rent expense was \$340 during the nine months ended September 30, 2016 for the leased office space.

Equity Investments in Limited Partnerships

In February 2015, the Company invested approximately \$9,700 in North Dearborn Building Company, L.P. ("North Dearborn"), a limited partnership that owns an office building in Chicago, Illinois. NGHC is also a limited partner in North Dearborn, and the general partner is NA Advisors GP LLC ("NA Advisors"), an entity controlled by Leah Karfunkel and managed by an unrelated third party. The Company and NGHC each received a 45% limited partnership interest in North Dearborn for their respective \$9,700 investments, while NA Advisors invested

approximately \$2,200 and holds a 10% general partnership interest and a 10% profit interest, which NA Advisors pays to the unrelated third party manager. North Dearborn appointed NA Advisors as the general manager to oversee the day-to-day operations of the office building and pays NA Advisors an annual fee for these services. This investment is included within other investments and is accounted for using the equity method of accounting on a three-month lag basis. The Company recorded approximately \$207 and \$652 of income from this investment during the three and nine months ended September 30, 2016 and \$542 during the three and nine months ended September 30, 2015.

In August 2015, certain of the Company's subsidiaries invested approximately \$53,715 in Illinois Center Building Company, L.P. ("Illinois Center"), a limited partnership that owns an office building complex in Chicago, Illinois. NGHC and ACP Re are also limited partners in Illinois Center, and the general partner is NA Advisors. The Company and NGHC each have a 37.5% limited partnership interest in Illinois Center, while ACP Re has a 15.0% limited partnership interest. NA Advisors holds a 10% general partnership interest and a 10% profit interest, which NA Advisors pays to the unrelated third party manager. Illinois Center appointed NA Advisors as the general manager to oversee the day-to-day operations of the office building and pays NA Advisors an annual fee for these services. This investment is included within other investments and is accounted for using the equity method

of accounting on a three-month lag basis. The Company recorded approximately \$560 and \$1,714 of income from this investment during the three and nine months ended September 30, 2016.

These limited partnerships are considered variable interest entities ("VIEs"). Based on current accounting guidance, the Company is required to consolidate any VIEs in which it is deemed to be the primary beneficiary through having: (i) power over the significant activities of the entity, and (ii) having an obligation to absorb losses or the right to receive benefits from the VIE that are potentially significant to the VIE. The Company performed a primary beneficiary analysis on the aforementioned limited partnerships and determined the Company was not the primary beneficiary since it does not have power over the significant activities of the entity. These limited partnerships are recorded as a component of other investments on the condensed consolidated balance sheet. The carrying value of these limited partnerships, in aggregate, was \$67,077 and \$64,869 as of September 30, 2016 and December 31, 2015, respectively. The maximum exposure to loss, which is the estimated loss that would be incurred under severe, hypothetical circumstances, for which the possibility of occurrence is remote, such as where the value of the Company's interests declines to zero, without any consideration of recovery or offset from any economic hedges, was \$67,077 and \$64,869 as of September 30, 2016 and December 31, 2015, respectively. The maximum exposure to loss is a required disclosure under US GAAP and is not an indication of expected loss.

Use of the Company Aircraft

The Company and its wholly-owned subsidiary, AmTrust Underwriters, Inc. ("AUI"), are each a party to aircraft time share agreements with each of Maiden and NGHC. The agreements provide for payment to the Company or AUI for the usage of their respective company-owned aircraft and cover actual expenses incurred and permissible under federal aviation regulations. Such expenses include, among others, travel and lodging expenses of the crew, in-flight catering, flight planning and weather contract services, ground transportation, fuel, landing and hanger fees, and airport taxes. Neither the Company nor AUI charge Maiden or NGHC for the fixed costs that would be incurred in any event to operate the aircraft (for example, aircraft purchase costs, insurance and flight crew salaries). During the three months ended September 30, 2016, Maiden paid \$22 and NGHC paid \$85, respectively, for their use of the company-owned aircraft under these agreements. During the nine months ended September 30, 2016, Maiden paid \$61 and NGHC paid \$125, respectively, for their use of the Company-owned aircraft under these agreements. The amount that each of Maiden and NGHC paid for the use of the Company-owned aircraft under these agreements was not material, either individually or in the aggregate, during the three and nine months ended September 30, 2015.

In addition, for personal travel, Mr. Barry Zyskind, the Company's Chairman, President and Chief Executive Officer, entered into aircraft reimbursement agreements with the Company and AUI. Since entering into such agreements, Mr. Zyskind has fully reimbursed the Company and AUI for the incremental cost billed by the Company and AUI for his personal use of the respective company-owned aircraft. During the three months ended September 30, 2016 and 2015, Mr. Zyskind reimbursed the Company and AUI, in aggregate, \$283 and \$70, respectively, for his personal use of the company-owned aircraft. During the nine months ended September 30, 2016 and 2015, Mr. Zyskind reimbursed the Company and AUI, in aggregate, \$767 and \$404, respectively, for his personal use of the company-owned aircraft.

13. Acquisitions

Trust Risk Group

In October 2014, a dispute arose between the Company's subsidiary, AmTrust Europe Ltd., and its Italian medical liability broker, Trust Risk Group SpA ("TRG"), and agent, Trust Risk Italia SRL ("TRI," a subsidiary of TRG, collectively, "TRG"). TRG asserted that it was entitled to advanced commissions of approximately €95,800 (or \$106,300) related to the Company's Italian medical liability business produced by TRG. TRG deducted approximately €42,200 (or \$46,800) from premium payable to the Company with the intention of deducting approximately €48,700 (or \$54,100)

from future premium payable to the Company. The Company disputed that TRG was entitled to advanced commission. The Company terminated its brokerage and agency relationship with TRG and TRI, respectively, and notified its insureds and retail brokers to pay premiums directly to the Company.

TRG initiated two arbitration proceedings against the Company in Milan, Italy seeking monetary damages based upon its allegations that the Company improperly terminated the producer agreements and an entitlement to advanced commissions on the business produced for the Company. Subsequently, the Company commenced litigation in England and the U.S. against Antonio Somma, the current or former principal of TRG, and Marco Lacchini, the chairman of the two arbitration proceedings pending in Milan, Italy. The Company brought the English and U.S. legal actions based on allegations that the two ongoing Italian arbitrations were not being conducted in accordance with the law, as well as certain other matters. The Company was successful in its application in Italy to remove Mr. Lacchini as chairman of the two arbitral tribunals.

As disclosed in the Company's Current Report on Form 8-K filed on July 20, 2016, the Company, AmTrust Europe, Ltd., and TRG and Mr. Somma reached a settlement agreement on July 15, 2016 that included the dismissal of all actions, claims and counterclaims among the parties, the terms of which all parties agreed to keep confidential. The terms of the settlement did not have a material effect on the Company's results of operations, financial position or liquidity. In conjunction with the settlement agreement, the Company entered into additional agreements, whereby the Company obtained renewal rights associated with all the in-force business produced by TRG prior to the termination of the brokerage and agency relationship and a non-compete agreement from TRG, Mr. Somma and related parties for a period of three years in exchange for €16,000, as well as the release of a receivable balance due from TRG of €14,000. The cash consideration at inception of the non-compete agreement was €13,000, with the remainder of €3,000 to be paid after a period of three years. In accordance with FASB ASC 805-10 Business Combinations, the Company recorded an acquisition price of €29,800 (or \$32,956) for these agreements. The Company determined the fair value of the non-compete agreement to be €17,500 (or \$19,353) and the life of the asset to be three years. The fair value of the renewal rights agreement was determined to be €12,000 (or \$13,271) and have a life of four years. The remaining amount of €300 (or \$332) was determined to be goodwill and is not expected to be deductible for income tax purposes. The goodwill and intangible assets, as well as the results of operations from these agreements, are included as a component of the Specialty Risk and Extended Warranty segment.

Nationale Borg

On May 31, 2016, the Company completed the acquisition of N.V. Nationale Borg-Maatscappij and its affiliates ("Nationale Borg") for €161,350 (or \$179,583). Nationale Borg is an Amsterdam-based international direct writer and reinsurer of surety and trade credit insurance in over 70 countries that has been in existence for approximately 120 years.

A summary of the preliminary assets acquired and liabilities assumed for Nationale Borg are as follows:

(Amounts in Thousands)

Assets

Cash and investments	\$229,607
Premium receivable	4,301
Accrued interest and dividends	83
Reinsurance recoverable	4,322
Other assets	8,414
Property and equipment	10,319
Goodwill and intangible assets	64,328
Total assets	\$321,374

Liabilities

Loss and loss adjustment expense reserves	\$87,813
Unearned premiums	24,782
Accrued expenses and other liabilities	29,196
Total liabilities	\$141,791
Acquisition price	\$179,583

The goodwill and intangible assets, as well as Nationale Borg's results of operations, are included as a component of the Specialty Risk and Extended Warranty segment. The goodwill is not expected to be deductible for income tax purposes. The intangible assets consist primarily of trade names, licenses and agent relationships. The Company anticipates completing its acquisition accounting by the end of 2016. As a result of this acquisition, the Company recorded approximately \$27,539 and \$37,034 of gross written premium during the three and nine months ended

September 30, 2016.

First Nationwide Title Agency

On May 20, 2016, the Company completed the acquisition of First Nationwide Title Agency and its subsidiaries ("First Nationwide"). First Nationwide is a title agency providing title insurance products primarily in the State of New York. The consideration for the purchase consisted of approximately \$24,200 at closing and contingent consideration based on profitability of the agency over a four-year period.

43

The net assets recorded for First Nationwide consisted primarily of goodwill and intangible assets and are included in the Specialty Risk and Extended Warranty segment. The goodwill is not expected to be deductible for income tax purposes. The intangible assets consist primarily of customer relationships and trade names. The Company anticipates completing its acquisition accounting by the end of 2016. As a result of this acquisition, the Company recorded service and fee income of \$7,401 for the three and nine month periods ended September 30, 2016.

Genworth

On May 9, 2016, the Company completed the acquisition of Genworth Financial Mortgage Insurance Ltd. ("Genworth"). Genworth provides mortgage insurance in Europe, primarily in the U.K. Finland, Italy and Germany. The consideration given for Genworth consisted of cash of approximately \$54,500.

A summary of the preliminary assets acquired and liabilities assumed for Genworth are as follows:

(Amounts in Thousands)

Assets

Cash and investments	\$239,695
Reinsurance recoverable	27,570
Other assets	8,422
Property and equipment	964
Total assets	\$276,651

Liabilities

Loss and loss adjustment expense reserves	\$84,463
Unearned premiums	76,308
Accrued expenses and other liabilities	13,060
Total liabilities	\$173,831
Acquisition price	\$54,500
Acquisition gain	\$48,320

The Company determined that the fair value of any intangible assets associated with the acquisition were immaterial. Genworth's results of operations are included as a component of the Specialty Risk and Extended Warranty segment. The Company anticipates completing its acquisition accounting by the end of 2016. As a result of this acquisition, the Company recorded approximately \$6,767 and \$11,067 of gross written premium during the three and nine months ended September 30, 2016.

Republic

On April 18, 2016, the Company completed the acquisition of Republic Companies, Inc. and its affiliates ("Republic") from Delek Group Ltd., and Republic Insurance Holdings, LLC. Republic provides commercial and personal lines property and casualty insurance through independent agents and managing general agents. Republic primarily distributes the majority of its business to individuals and small and medium-size businesses through a network of independent agents in the southwestern United States. In addition, Republic generates fee revenue by providing insurance services to third parties.

The consideration given for Republic consisted of approximately \$113,456 of cash at closing, a promissory note payable of approximately \$104,685 due to Delek Group Ltd. and deferred payments of approximately \$15,200 that are owed to the minority owners of Republic. Further information on the promissory note can be found in "Note 7. Debt"

elsewhere in this report. The deferred payments will be made in nineteen quarterly installments of \$800 and began three months after the acquisition date. The remaining deferred payment liability as of September 30, 2016 was \$14,400.

A summary of the preliminary assets acquired and liabilities assumed for Republic are as follows:

(Amounts in Thousands)

Assets

Cash and investments	\$621,068
Premium receivable, net	85,455
Accrued interest and dividends	4,779
Reinsurance recoverable	629,488
Deferred tax assets	42,745
Other assets	223,619
Property and equipment	1,511
Goodwill and intangible assets	119,106
Total assets	\$1,727,771

Liabilities

Loss and loss adjustment expense reserves	\$885,898
Unearned premiums	301,972
Trust preferred outstanding	92,786
Accrued expenses and other liabilities	131,092
Funds held under reinsurance treaties	83,331
Total liabilities	\$1,495,079
Acquisition price	\$232,692

The goodwill and intangible assets as well as Republic's results of operations will be included as a component of the Small Commercial Business and Specialty Program segments. The goodwill is not expected to be deductible for income tax purposes. The intangible assets consist primarily of trade names, licenses and agent relationships. The Company anticipates completing its acquisition accounting by the end of 2016. As a result of this acquisition, the Company recorded approximately \$181,810 and \$334,936 of gross written premium during the three and nine months ended September 30, 2016 and \$2,076 and \$3,620 of services and fee income during the three and nine months ended September 30, 2016.

ARI Insurance Company

On January 22, 2016, the Company completed the acquisition of ARI Holdco Inc. ("ARIH") and its subsidiaries. ARIH's primary operating subsidiary, ARI Insurance Company ("ARI"), is an underwriter of commercial automobile insurance in New Jersey, Pennsylvania and Maryland. Immediately prior to the acquisition, ARI converted from a mutual form to a stock form of ownership in a transaction "sponsored" by the Company. As required by the plan of conversion and applicable Delaware law, the Company offered shares of its common stock, at a discount to the market price, to the members of ARI who held policies as of December 31, 2014 and the directors, officers and employees of ARI and its subsidiaries. The Company received subscriptions for approximately \$276, resulting in the issuance by the Company of 12,347 (on a post-split basis) shares of its common stock at a discounted price of 20% (or approximately \$69 in the aggregate) from the Company's market trading price. Pursuant to the stock purchase agreement, after the expiration of the offering, the Company purchased all of the authorized shares of capital stock of ARIH at a purchase price equal to the greater of the gross proceeds received by the Company in the offering, and \$3,750. The Company made a payment to ARIH of \$23,500, which included the \$276 in proceeds the Company received in the offering, for the stock of ARI. Additionally, the Company, as part of the transaction, was required to make a payment to an employee bonus pool of ARI of \$3,750, as discussed above. The remaining \$23,500 of cash contributed to ARIH was retained by the Company. In accordance with FASB ASC 805-10 Business Combinations, the Company recorded an

initial acquisition price of approximately \$3,819.

45

A summary of the preliminary assets acquired and liabilities assumed for ARI are as follows:

(Amounts in Thousands)

Assets

Cash and investments	\$53,917
Premium receivable, net	15,577
Accrued interest and dividends	375
Reinsurance recoverable	17,554
Other assets	2,116
Intangible assets	1,097
Total assets	\$90,636

Liabilities

Loss and loss adjustment expense reserves	\$59,723
Unearned premiums	18,672
Accrued expenses and other liabilities	7,968
Total liabilities	\$86,363
Acquisition price	\$3,819
Acquisition gain	\$454

The intangible assets associated with the acquisition were initially measured at \$1,097 and are not deductible for income tax purposes. The Company is in the process of completing its acquisition accounting and expects to have it completed in 2016. The intangible assets as well as ARI's results of operations are included as a component of the Small Commercial Business segment. As a result of this acquisition, the Company recorded approximately \$8,747 and \$34,357 of gross written premium during the three and nine months ended September 30, 2016.

Springfield

On October 7, 2015, the Company acquired all of the issued and outstanding stock of Springfield Insurance Company and its affiliates, Springfield Insurance Company Ltd. and Unified Grocers Insurance Services (collectively "Springfield"). Springfield, domiciled in California, is an insurance carrier providing workers' compensation and commercial package insurance to Unified Grocers Inc., an association of independently owned grocery stores, its members and its customers. The purchase agreement required the Company to pay approximately \$26,574 in cash on the acquisition date and contained an earn-out provision that is contingent on Springfield meeting certain performance conditions over a five-year period. The contingent consideration associated with the earn-out provision was valued at \$5,000 as of the acquisition date.

A summary of the preliminary assets acquired and liabilities assumed for Springfield are as follows:

(Amounts in Thousands)

Assets

Cash and investments	\$93,837
Premium receivable, net	4,651
Accrued interest and dividends	470
Other assets	2,752
Deferred tax asset	1,905
Property and equipment	1,376
Goodwill	4,253
Total assets	\$109,244

Liabilities

Loss and loss adjustment expense reserves	\$65,725
Unearned premiums	7,006
Accrued expenses and other liabilities	4,199
Reinsurance payable on paid losses	740
Total liabilities	\$77,670
Acquisition price	\$31,574

The goodwill associated with the acquisition was initially measured at \$4,253 and is not expected to be deductible for income tax purposes. The goodwill as well as Springfield's results of operations are included as a component of the Small Commercial Business segment. As a result of this acquisition, the Company recorded approximately \$2,115 and \$6,993 of gross written premium for the three and nine months ended September 30, 2016 and \$796 and \$1,638 of service and fee income during the three and nine months ended September 30, 2016.

Warranty Solutions

On September 25, 2015, the Company acquired all of the issued and outstanding stock of Warranty Solutions, a Wells Fargo business ("Warranty Solutions"), for \$156,247 in cash. Warranty Solutions designs, markets, administers and underwrites vehicle service contracts for new and used automobiles through a national network of more than 70 active agencies and 1,500 franchised and independent dealers.

A summary of the assets acquired and liabilities assumed for Warranty Solutions are as follows:

(Amounts in Thousands)

Assets	
Cash and investments	\$192,015
Prepaid reinsurance premium	77,777
Other assets	16,346
Deferred tax asset	26,481
Goodwill and intangible assets	117,504
Total assets	\$430,123

Liabilities	
Loss and loss expense reserves	\$3,013
Unearned premiums	182,441
Accrued expenses and other liabilities	88,422
Total liabilities	\$273,876
Acquisition price	\$156,247

The goodwill and intangible assets associated with the acquisition were measured at \$117,504, which included finite lived intangible assets for customer relationships of \$48,300, value of business acquired (VOBA) of \$19,639 and software of \$400, and indefinite lived intangible assets for state licenses of \$8,500. The finite lived intangibles lives range from three to fifteen years. The goodwill associated with the acquisition is not deductible for income tax purposes. The goodwill and intangible assets, as well as Warranty Solutions' results of operations, are included as a component of the Specialty Risk and Extended Warranty segment. As a result of this acquisition, the Company recorded approximately \$23,440 and \$69,448, respectively, of gross written premium and \$22,537 and \$67,471, respectively, of service and fee income during the three and nine months ended September 30, 2016.

Magna Carta

On March 11, 2016, one of our subsidiary insurance companies entered into a loss portfolio transfer with Public Service Insurance Company, Paramount Insurance Company and Western Select Insurance Company. The Company will reinsure 100% of the existing obligations with respect to their business for accident years 2014 and 2015, including a loss portfolio transfer of 100% of the loss and LAE reserves as of the effective date. The Company received approximately \$163,400 of cash and recorded loss reserves of approximately \$163,400. The Company followed deposit accounting under the guidelines of ASC 340-30, Other Assets and Deferred Costs. During the three and nine months ended September 30, 2016, the Company paid losses of approximately \$11,612 and \$20,630, respectively. During the three and nine months ended September 30, 2016, the Company did not record any gains or losses as a result of this transaction. Additionally, one of the Company's subsidiaries entered into a renewal rights transaction with the forenamed parties as well as Creative Intermediaries, Inc., Magna Carta Companies, Inc. and Public Service Mutual Holding Company, whereby the Company may reinsure their existing book of policies for their commercial and property insurance business. The acquisition price paid for the renewal rights transaction was approximately \$1,000.

Other

The Company had additional immaterial acquisitions totaling approximately \$45,578 and \$57,578 during the three and nine months ended September 30, 2016. No individual acquisition or acquisitions in the aggregate were significant and, therefore, the Company was not required to include any pro forma financial information in this report.

14. New Market Tax Credit

In 2012, the Company's subsidiary, 800 Superior, LLC (an entity owned equally by the Company and NGHC) received \$19,400 in net proceeds from a financing transaction the Company and NGHC entered into with Key Community Development Corporation ("KCDC") related to a capital improvement project for an office building in Cleveland, Ohio owned by 800 Superior, LLC. The Company, NGHC and KCDC collectively made capital contributions (net of allocation fees) and loans to 800 Superior NMTC Investment Fund II LLC and 800 Superior NMTC Investment Fund I LLC (collectively, the "Investment Funds") under a qualified New Markets Tax Credit ("NMTC") program. The NMTC program was provided for in the Community Renewal Tax Relief Act of 2000 (the "Act") and is intended to induce capital investment in qualified lower income communities. The Act permits taxpayers to claim credits against their federal income taxes for up to 39% of qualified investments in the equity of community development entities ("CDEs"). CDEs are privately managed investment institutions that are certified to make qualified low-income community investments ("QLICs").

In addition to the capital contributions and loans from the Company, NGHC and KCDC, as part of the transaction, the Investment Funds received, directly and indirectly, proceeds of approximately \$8,000 from two loans originating from state and local governments of Ohio. These loans are each for a period of 15 years and have a weighted average interest rate approximately of 2.0% per annum.

The Investment Funds then contributed the loan proceeds and capital contributions of \$19,400 to two CDEs, which, in turn, loaned the funds on similar terms to 800 Superior, LLC. The proceeds of the loans from the CDEs (including loans representing the capital contribution made by KCDC, net of allocation fees) will be used to fund the capital improvement project. As collateral for these loans, the Company has granted a security interest in the assets acquired with the loan proceeds.

The Company and NGHC are each entitled to receive an equal portion of 49% of the benefits derived from the NMTCs generated by 800 Superior Investment Fund II LLC, while KCDC is entitled to the remaining 51%. The NMTC is subject to 100% recapture for a period of 7 years as provided in the Internal Revenue Code. During this seven-year compliance period, the entities involved are required to be in compliance with various regulations and contractual provisions that apply to the NMTC arrangement. Non-compliance with applicable requirements could result in the projected tax benefits not being realized and, therefore, could require the Company to indemnify KCDC for any loss or recapture of NMTCs related to the financing until such time as the obligation to deliver tax benefits is relieved. The Company does not anticipate any credit recaptures will be required in connection with this arrangement. In addition, this transaction includes a put/call provision whereby the Company may be obligated or entitled to repurchase KCDC's interest in the Investment Funds in September 2019 at the end of the recapture period. The Company believes that KCDC will exercise its put option and, therefore, attributed an insignificant value to the put/call.

The Company has determined that the Investment Funds are VIEs. The ongoing activities of the Investment Funds - collecting and remitting interest and fees and NMTC compliance - were all considered in the initial design and are not expected to significantly affect economic performance throughout the life of the Investment Funds. When determining whether to consolidate the Investment Funds, Company management considered the contractual arrangements that obligate it to deliver tax benefits and provide various other guarantees to the structure, KCDC's lack of a material interest in the underlying economics of the project, and the fact that the Company is obligated to absorb losses of the Investment Funds. Also, the Company has an approximate 12% ownership in NGHC. The Company concluded that it was the primary beneficiary and consolidated the Investment Funds, as VIEs, in accordance with the accounting standard for consolidation. KCDC's contribution, net of syndication fees, is included as accrued liability in the accompanying condensed consolidated balance sheets. Direct costs incurred in structuring the financing arrangement

are deferred and will be recognized as expense over the term of the loans. Incremental costs to maintain the structure during the compliance period are recognized as incurred.

15. Stockholder's Equity and Accumulated Other Comprehensive Income (Loss)

Common Stock

The Company implemented a two-for-one stock split on February 2, 2016.

Issuances of Preferred Stock

In March 2016, the Company completed a public offering of 5,750,000 of its depositary shares, each representing a 1/40th interest in a share of its 7.75% Non-Cumulative Preferred Stock, Series E, \$0.01 par value per share (the "Series E Preferred Stock"), with a liquidation preference of \$1,000 per share (equivalent to \$25 per depositary share). Each depositary share entitles the holder to a proportional fractional interest in all rights and preferences of the Series E Preferred Stock represented thereby (including any dividend, liquidation, redemption and voting rights). Dividends on the Series E Preferred Stock represented by the depositary shares will be payable on the liquidation preference amount, on a non-cumulative basis, when, as and if declared by the Company's board of directors, at a rate of 7.75% per annum, quarterly in arrears, on March 15, June 15, September 15, and December 15 of each year, beginning on June 15, 2016, from and including the date of original issuance. The Series E Preferred Stock represented by the depositary shares is not redeemable prior to March 15, 2021. After that date, the Company may redeem at its option, in whole or in part, the Series E Preferred Stock represented by the depositary shares at a redemption price of \$1,000 per share (equivalent to \$25 per depositary share) plus any declared and unpaid dividends for prior dividend periods and accrued but unpaid dividends (whether or not declared) for the then current dividend period. Net proceeds from this offering were \$139,070. In addition, the Company incurred \$4,680 in underwriting discount and commissions and expenses, which were recognized as a reduction to additional paid-in capital.

In September 2016, the Company completed a public offering of 11,500,000 of its depositary shares, each representing a 1/40th interest in a share of its 6.95% Non-Cumulative Preferred Stock, Series F, \$0.01 par value per share (the "Series F Preferred Stock"), with a liquidation preference of \$1,000 per share (equivalent to \$25 per depositary share). Each depositary share entitles the holder to a proportional fractional interest in all rights and preferences of the Series F Preferred Stock represented thereby (including any dividend, liquidation, redemption and voting rights). Dividends on the Series F Preferred Stock represented by the depositary shares will be payable on the liquidation preference amount, on a non-cumulative basis, when, as and if declared by the Company's board of directors, at a rate of 6.95% per annum, quarterly in arrears, on March 15, June 15, September 15, and December 15 of each year, beginning on December 15, 2016, from and including the date of original issuance. The Series F Preferred Stock represented by the depositary shares is not redeemable prior to September 27, 2021. After that date, the Company may redeem at its option, in whole or in part, the Series F Preferred Stock represented by the depositary shares at a redemption price of \$1,000 per share (equivalent to \$25 per depositary share) plus any declared and unpaid dividends for prior dividend periods and accrued but unpaid dividends (whether or not declared) for the then current dividend period. Net proceeds from this offering were \$278,194. In addition, the Company incurred \$9,306 in underwriting discount and commissions and expenses, which were recognized as a reduction to additional paid-in capital.

Stockholders' Equity

16. Commitment and Contingent Liabilities

Litigation

The Company's insurance subsidiaries are named as defendants in various legal actions arising principally from claims made under insurance policies and contracts. Those actions are considered by the Company in estimating the loss and LAE reserves. The Company's management believes the resolution of those actions will not have a material adverse effect on the Company's financial position or results of operations.

Pending Acquisition

Acquisition of ANV Holding B.V. and its affiliates ("ANV")

In April 2016, the Company entered into an agreement to acquire ANV from Ontario Teachers' Pension Plan Board for approximately \$203,000 in cash, subject to purchase price adjustments. ANV is a specialty insurance company that underwrites a variety of commercial property and casualty insurance products through its three Lloyd's syndicates and managing general underwriter. The Company's acquisition of ANV closed on November 7, 2016.

17. Segments

The Company operates three business segments: Small Commercial Business; Specialty Risk and Extended Warranty; and Specialty Program. The Company also has a former segment, Personal Lines Reinsurance, which is in run-off and is now included within its Corporate and Other segment. The Corporate and Other segment also represents the activities of the holding company as well as a portion of service and fee revenue. In determining total assets (excluding cash and invested assets) by segment, the Company identifies those assets that are attributable to a particular segment such as deferred acquisition cost, reinsurance recoverable, goodwill, intangible assets and prepaid reinsurance while the remaining assets are allocated based on gross written premium by segment. In determining cash and invested assets by segment, the Company matches certain identifiable liabilities such as unearned premium and loss and loss adjustment expense reserves by segment. The remaining cash and invested assets are then allocated based on gross written premium by segment. Investment income and realized gains (losses) are determined by calculating an overall annual return on cash and invested assets and applying that overall return to the cash and invested assets by segment. Ceding commission is allocated to each segment based on that segment's proportionate share of the Company's overall acquisition costs. Interest expense is allocated based on gross written premium by segment. Income taxes are allocated on a pro-rata basis based on the Company's effective tax rate. Additionally, management reviews the performance of underwriting income in assessing the performance of and making decisions regarding the allocation of resources to the segments. Underwriting income excludes, primarily, service and fee revenue, investment income and other revenues, other expenses, interest expense and income taxes. Management believes that providing this information in this manner is essential to providing the Company's stockholders with an understanding of the Company's business and operating performance.

During three and nine months ended September 30, 2016 and 2015, the Company's Specialty Program segment derived over ten percent of its gross written premium primarily from one agent.

Edgar Filing: Amtrust Financial Services, Inc. - Form 10-Q

The following tables summarize the results of operations of the business segments for the three and nine months ended September 30, 2016 and 2015:

18. Subsequent Event

On November 7, 2016, the Company completed the acquisition of ANV Holding B.V. and its affiliates ("ANV") from Ontario Teachers' Pension Plan Board for approximately \$203,000 in cash. ANV is a specialty insurance company that underwrites a variety of commercial property and casualty insurance products through its three Lloyd's syndicates and managing general underwriter.

On October 28, 2016, the Company announced that it had entered into an agreement to acquire AmeriHealth Casualty Insurance Company ("AmeriHealth Casualty"), a provider of fully insured workers' compensation insurance operating primarily in Pennsylvania and New Jersey, from Independence Health Group, Inc. ("IHG") for approximately \$90,000 in cash. The transaction is to be funded with existing working capital. Pending regulatory approval, the transaction is expected to close during the first quarter of 2017. IHG will retain CompServices, Inc. (CompServices), its third party administrator for workers' compensation business. CompServices will provide third-party administrator services to its self-insured customers and to the Company, in accordance with the terms of this transaction.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and related notes included elsewhere in this Form 10-Q. Amounts in the following discussion may not reconcile due to rounding differences.

Note on Forward-Looking Statements

This Form 10-Q contains certain forward-looking statements that are intended to be covered by the safe harbors created by The Private Securities Litigation Reform Act of 1995. When we use words such as “anticipate,” “intend,” “plan,” “believe,” “estimate,” “expect,” or similar expressions, we do so to identify forward-looking statements. Examples of forward-looking statements include the plans and objectives of management for future operations, including those relating to future growth of our business activities and availability of funds, and are based on current expectations that involve assumptions that are difficult or impossible to predict accurately and many of which are beyond our control. Actual results may differ materially from those expressed or implied in these statements as a result of significant risks and uncertainties, including, but not limited to, non-receipt of expected payments from insureds or reinsurers, changes in interest rates, a downgrade in the financial strength ratings of our insurance subsidiaries, the effect of the performance of financial markets on our investment portfolio, the amounts, timing and prices of any share repurchases made by us under our share repurchase program, development of claims and the effect on loss reserves, accuracy in projecting loss reserves, the cost and availability of reinsurance coverage, the effects of emerging claim and coverage issues, changes in the demand for our products, our degree of success in integrating acquired businesses, the effect of general economic conditions, state and federal legislation, regulations and regulatory investigations into industry practices, risks associated with conducting business outside the United States, the impact of Brexit, developments relating to existing agreements, disruptions to our business relationships with Maiden Holdings, Ltd., National General Holdings Corp., or ACP Re, Ltd., breaches in data security or other disruptions with our technology, heightened competition, changes in pricing environments, and changes in asset valuations. Additional information about these risks and uncertainties, as well as others that may cause actual results to differ materially from those projected, is contained in our filings with the SEC, including our Annual Report on Form 10-K for the year ended December 31, 2015, and our quarterly reports on Form 10-Q. The projections and statements in this report speak only as of the date of this report and we undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Overview

We are a multinational specialty property and casualty insurer focused on generating consistent underwriting profits. We provide insurance coverage for small businesses and products with high volumes of insureds and loss profiles that we believe are predictable. We target lines of insurance that we believe generally are underserved by the market. We have grown by hiring teams of underwriters with expertise in our specialty lines, through acquisitions of companies and assets that, in each case, provide access to distribution networks and renewal rights to established books of specialty insurance business. We have operations in three business segments:

Small Commercial Business. We provide workers' compensation, commercial package and other commercial insurance lines produced by wholesale agents, retail agents and brokers in the United States.

Specialty Risk and Extended Warranty. We provide coverage for consumer and commercial goods and custom designed coverages, such as accidental damage plans and payment protection plans offered in connection with the sale of consumer and commercial goods, in the United States and Europe, and certain niche property, casualty and specialty liability risks in the United States and Europe, including general liability, employers' liability and professional and medical liability.

Specialty Program. We write commercial insurance for narrowly defined classes of insureds, requiring an in-depth knowledge of the insured's industry segment, through general and other wholesale agents.

We transact business primarily through our insurance subsidiaries, the majority of which are domiciled in the United States. We also transact business through insurance subsidiaries domiciled internationally, primarily in Bermuda and Europe. We are authorized to write business in all 50 states in the United States and in the European Union. Through our subsidiary, AmTrust at Lloyd's, we are licensed to underwrite business internationally in locations where Lloyd's is licensed. Our principal operating subsidiaries are rated "A"(Excellent) by A.M. Best Company ("A.M. Best").

For the three and nine months ended September 30, 2016, our results of operations include activity of the entities we acquired subsequent to September 30, 2015, primarily:

N.V. Nationale Borg-Maatschappij and its affiliates (collectively, "Nationale Borg")

First Nationwide Title Agency and its subsidiaries (collectively, "First Nationwide")

Republic Underwriters Insurance Company, Republic-Vanguard Insurance Company, Southern Underwriters Insurance Company, Republic Fire & Casualty Insurance Company, Southern Insurance Company, Republic Diversified Services, Inc., Republic Lloyds, Republic Group No. Two Company, Southern County Mutual Insurance Company, Canyon State Auto Insurance Services, Inc., and Eagle General Agency, Inc. (collectively, "Republic")
Genworth Financial Mortgage Insurance Limited and Genworth Financial Mortgage Services Limited (collectively, "Genworth")

ARI Insurance Company and ARI Casualty Company (collectively, "ARI")

Springfield Insurance Company, Springfield Insurance Company Limited, and Unified Grocers Insurance Services (collectively, "Springfield")

In addition, on March 11, 2016, one of our subsidiary insurance companies entered into a loss portfolio transfer with Public Service Insurance Company, Paramount Insurance Company and Western Select Insurance Company. We will reinsure 100% of the existing obligations with respect to their business for accident years 2014 and 2015, including a loss portfolio transfer of 100% of the loss and LAE reserves as of the effective date. We received approximately \$163.4 million of cash and recorded the obligation of approximately \$163.4 million of loss reserves. During the three and nine months ended September 30, 2016, we paid losses of approximately \$11.6 million and \$20.6 million, respectively. During the nine months ended September 30, 2016, we did not record any gains or losses as a result of this transaction. Additionally, one of our subsidiaries entered into a renewal rights transaction, with the forenamed parties as well as Creative Intermediaries, Inc., Magna Carta Companies, Inc. and Public Service Mutual Holding

Company, whereby we may reinsure their existing book of policies for their commercial and property insurance business. The acquisition price paid for the renewal rights transaction was approximately \$1 million.

Insurance, particularly workers' compensation, is generally affected by seasonality. The first quarter generally produces greater premiums than subsequent quarters. Nevertheless, the impact of seasonality on our Small Commercial Business and Specialty Program segments has not been significant. We believe that this is because we serve many small businesses in different geographic locations. We believe seasonality may be muted by our acquisition activity. Additionally, our Specialty Risk and Extended Warranty segment may be impacted by the seasonality of the automotive and consumer electronic markets.

We evaluate our operations by monitoring key measures of growth and profitability, including return on equity and net combined ratio. Our return on annualized average equity was 15.9% and 35.4% for the three months ended September 30, 2016 and 2015, respectively, and 17.9% and 28.1% for the nine months ended September 30, 2016 and 2015, respectively. Our overall financial objective is to produce a return on equity of 15.0% or more over the long term. In addition, we target a net combined ratio of 95.0% or lower over the long term, while seeking to maintain optimal operating leverage in our insurance subsidiaries commensurate with our A.M. Best rating objectives. Our net combined ratio was 91.5% and 92.6% for the three months ended September 30, 2016 and 2015, respectively, and 91.5% and 90.8% for the nine months ended September 30, 2016 and 2015, respectively.

The following summary further describes our principal revenue and expense measures and key ratios that we use to evaluate our results of operations:

Gross Written Premium. Gross written premium represents estimated premiums from each insurance policy that we write, including as a servicing carrier for assigned risk plans, during a reporting period based on the effective date of the individual policy. Certain policies that we underwrite are subject to premium audit at that policy's cancellation or expiration. The final actual gross premiums written may vary from the original estimate based on changes to the final rating parameters or classifications of the policy.

Net Written Premium. Net written premium is gross written premium less that portion of premium that we ceded to third party reinsurers under reinsurance agreements. The amount ceded under these reinsurance agreements is based on the contractual formula contained in the individual reinsurance agreements.

Net Earned Premium. Net earned premium is the earned portion of our net written premiums. We earn insurance premiums on a pro-rata basis over the term of the policy. At the end of each reporting period, premiums written that are not earned are classified as unearned premiums, which are earned in subsequent periods over the remaining term of the policy. Our workers' compensation insurance and commercial package policies typically have a term of one year. Thus, for a one-year policy written on July 1, 2015 for an employer with a constant payroll during the term of the policy, we would earn half of the premiums in 2015 and the other half in 2016. We earn our specialty risk and extended warranty coverages over the estimated exposure time period. The terms vary depending on the risk. The coverages range in duration from one month to 120 months. Our U.S. warranty business has an average duration of 57 months, while our European warranty business has an average duration of 43 months and our European casualty business has an average duration of 12 months.

Service and Fee Income. We currently generate service and fee income from the following sources:

Product warranty registration and service — Our Specialty Risk and Extended Warranty business generates fee revenue for product warranty registration and claims handling services provided to unaffiliated third party retailers, manufacturers and dealerships. Additionally, we provide credit monitoring services for a fee.

Servicing carrier — We act as a servicing carrier for workers' compensation assigned risk plans in multiple states. In addition, we also offer claims adjusting and loss control services for fees to unaffiliated third parties.

Management services — We provide services to insurance consumers, traditional insurers and insurance producers by offering flexible and cost effective alternatives to traditional insurance tools in the form of various risk retention groups and captive management companies, as well as management of workers' compensation and commercial property programs. We also offer programs and alternative funding options for non-profit and public sector organizations for the management of their state unemployment insurance obligations.

Insurance fees — We recognize fee income associated with the issuance of workers' compensation policies for installment fees, in jurisdictions where it is permitted and approved, and reinstatement fees, which are fees charged to reinstate a policy after it has been canceled for non-payment, in jurisdictions where it is permitted and approved. Additionally, we recognize broker commissions and policy management fees associated with general liability policies

placed by one of our managing general agencies.

• **Broker services** — We provide brokerage services to Maiden Holdings Ltd. ("Maiden") in connection with our reinsurance agreement for which we receive a fee.

• **Asset management services** — We currently manage the investment portfolios of certain subsidiaries of Maiden, National General Holdings Corp. ("NGHC") and ACP Re, Ltd. ("ACP Re") for which we receive a management fee.

• **Information technology services** — We provide information technology and printing and mailing services to NGHC and its affiliates for a fee.

Net Investment Income and Realized Gains and (Losses). We invest our statutory surplus funds and the funds supporting our insurance liabilities primarily in cash and cash equivalents, fixed maturity and equity securities. Our net investment income includes interest and dividends earned on our invested assets. We report net realized gains and losses on our investments separately from our net investment income. Net realized gains occur when we sell our investment securities for more than their costs or amortized costs, as applicable. Net realized losses occur when we sell our investment securities for less than their costs or amortized costs, as applicable, or we write down the investment securities as a result of other-than-temporary impairment. We classify equity securities and our fixed maturity securities primarily as available-for-sale. We report net unrealized gains (losses) on those securities classified as available-for-sale separately within accumulated other comprehensive income on our balance sheet. Additionally, we have a small portfolio of equity securities classified as trading securities. We report unrealized gains (losses) on those securities classified as trading securities within realized gains (losses).

Loss and Loss Adjustment Expenses Incurred. Loss and loss adjustment expenses (“LAE”) incurred represent our largest expense item and, for any given reporting period, include estimates of future claim payments, changes in those estimates from prior reporting periods and costs associated with investigating, defending and servicing claims. These expenses fluctuate based on the amount and types of risks we insure. We record loss and loss adjustment expenses related to estimates of future claim payments based on case-by-case valuations and statistical analysis. We seek to establish all reserves at the most likely ultimate exposure based on our historical claims experience. It is typical for our more serious bodily injury claims to take several years to settle and we revise our estimates as we receive additional information about the condition of injured employees and claimants and the costs of their medical treatment. Our ability to estimate loss and loss adjustment expenses accurately at the time of pricing our insurance policies is a critical factor in our profitability.

Acquisition Costs and Other Underwriting Expenses. Acquisition costs and other underwriting expenses consist of policy acquisition expenses, salaries and benefits and general and administrative expenses, net of ceding commissions. These items are described below:

Policy acquisition expenses comprise commissions directly attributable to those agents, wholesalers or brokers that produce premiums written on our behalf. In most instances, we pay commissions based on collected premium, which reduces our credit risk exposure associated with producers in case a policyholder does not pay a premium. We pay state and local taxes, licenses and fees, assessments and contributions to various state guaranty funds based on our premiums or losses in each state. Surcharges that we may be required to charge and collect from insureds in certain jurisdictions are recorded as accrued liabilities, rather than expense. These expenses are offset by ceding commissions received.

Salaries and benefits expenses are those salaries and benefits expenses for employees that are directly involved in the origination, issuance and maintenance of policies, claims adjustment and accounting for insurance transactions that are associated with successful acquisition of insurance contracts. We classify salaries and benefits associated with employees that are involved in fee generating activities as other expenses.

General and administrative expenses are comprised of other costs associated with our insurance activities, such as federal excise tax, postage, telephones and internet access charges, as well as legal and auditing fees and board and bureau charges.

Ceding commission on reinsurance transactions is a commission we receive from ceding gross written premium to third party reinsurers, and is netted against acquisition costs and other underwriting expenses. In connection with the Maiden Quota Share, which is our primary source of ceding commissions, the amount we receive is a blended rate based on a contractual formula contained in the individual reinsurance agreements, and the rate may not correlate specifically to the cost structure of the individual segments. The ceding commissions we receive cover a portion of our capitalized direct acquisition costs and a portion of other underwriting expenses. Ceding commissions received from reinsurance transactions that represent recovery of capitalized direct acquisition costs are recorded as a reduction

of capitalized unamortized deferred acquisition costs and the net amount is charged to expense in proportion to net premium revenue recognized. Ceding commissions received from reinsurance transactions that represent the recovery of other underwriting expenses are recognized in the income statement over the insurance contract period in proportion to the insurance protection provided and classified as a reduction of acquisition costs and other underwriting expenses. Ceding commissions received, but not yet earned, that represent the recovery of other underwriting expenses are classified as a component of accrued expenses and other current liabilities. We allocate earned ceding commissions to our segments based on each segment's proportionate share of total acquisition costs and other underwriting expenses recognized during the period.

Gain (loss) on Investment in Life Settlement Contracts. The gain (loss) on investment in life settlement contracts includes the gain (loss) on acquisition of life settlement contracts, the gain (loss) realized upon a mortality event and the change in fair value of the investments in life settlements as evaluated at the end of each reporting period. We determine fair value based upon our estimate of the discounted cash flow related to policies (net of reserves for improvements in mortality, the possibility that the high net worth individuals represented in our portfolio may have access to better health care, the volatility inherent in determining the life expectancy of insureds with significant reported health impairments, the possibility that the issuer of the policy or a third party will contest the payment of the death benefit payable to us and the future expenses related to the administration of the portfolio), which incorporates current life expectancy assumptions, premium payments, credit exposure to the insurance companies that issued the life insurance policies and the rate of return that a buyer would require on the policies as no comparable market pricing is available. The gain (loss) realized upon a mortality event is the difference between the death benefit received and the recorded fair value of that particular policy. We allocate gain (loss) on investment in life settlement contracts to our segments based on gross written premium by segment.

Net Loss Ratio. The net loss ratio is a measure of the underwriting profitability of an insurance company's business. Expressed as a percentage, this is the ratio of net losses and LAE incurred to net premiums earned.

Net Expense Ratio. The net expense ratio is a measure of an insurance company's operational efficiency in administering its business. Expressed as a percentage, this is the ratio of the sum of acquisition costs and other underwriting expenses to net premiums earned. As we allocate certain acquisition costs and other underwriting expenses based on premium volume to our segments, the net expense ratio on a segment basis may be impacted period over period by a shift in the mix of net written premium.

Net Combined Ratio. The net combined ratio is a measure of an insurance company's overall underwriting profit. This is the sum of the net loss and net expense ratios. If the net combined ratio is at or above 100 percent, an insurance company cannot be profitable without investment income, and may not be profitable if investment income is insufficient.

Net Premiums Earned less Expenses Included in Combined Ratio (Underwriting Income). Underwriting income is a measure of an insurance company's overall operating profitability before items such as investment income, interest expense and income taxes.

Return on Equity. We calculate return on equity by dividing net income by the average of shareholders' equity.

Critical Accounting Policies

Our discussion and analysis of our results of operations, financial condition and liquidity are based upon our consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and judgments that affect the amounts of assets and liabilities, revenues and expenses and disclosure of contingent assets and liabilities as of the date of the financial statements. As more information becomes known, these estimates and assumptions could change, which would have an impact on actual results that may differ materially from these estimates and judgments under different assumptions. We have not made any changes in estimates or judgments that have had a significant effect on the reported amounts as previously disclosed in our Annual Report on Form 10-K for the fiscal period ended December 31, 2015.

We implemented a two-for-one stock split on February 2, 2016. As a result, we retrospectively adjusted all share and per share amounts in the accompanying condensed consolidated financial statements and notes to the condensed consolidated financial statements to apply the effect of the stock split for all periods presented.

Results of Operations

Consolidated Results of Operations for the Three and Nine Months Ended September 30, 2016 and 2015 (Unaudited)

(Amounts in Thousands)	Three Months Ended September 30,		Nine Months Ended September 30,

Consolidated Results of Operations for the Three Months Ended September 30, 2016 and 2015 (Unaudited)

Gross Written Premium. Gross written premium increased \$253.3 million, or 14.2%, to \$2,034.1 million from \$1,780.8 million for the three months ended September 30, 2016 and 2015, respectively. The increase of \$253.3 million was attributable to growth primarily in our Small Commercial Business segment, the majority of which was attributable to an increase in the number of workers' compensation policies issued and our acquisition of Republic, which resulted in \$120 million of additional gross written premium in this segment during the three months ended September 30, 2016. The increase in our Specialty Risk and Extended Warranty segment was attributable to our acquisitions of Warranty Solutions in September 2015, which produced \$23 million of gross written premium during the three months ended September 30, 2016, and Nationale Borg in May 2016, which produced \$27 million of gross written premium during the three months ended September 30, 2016. These increases were partially offset by the negative foreign currency impact of the weakening of the British pound sterling. The increase in our Specialty Program segment was attributable to our acquisition of Republic, which resulted in \$62 million of additional gross written premium in this segment during the three months ended September 30, 2016, but was partially offset by the curtailment or termination of certain non-workers' compensation programs.

Net Written Premium. Net written premium increased \$73.1 million, or 6.4%, to \$1,216.1 million from \$1,143.0 million for the three months ended September 30, 2016 and 2015, respectively. The increase (decrease) by segment was: Small Commercial Business - \$(1.4) million, Specialty Risk and Extended Warranty - \$68.2 million and Specialty Program - \$6.2 million. Net written premium increased for the three months ended September 30, 2016 compared to the same period in 2015 due to the increase in gross written premium, partially offset by a decrease in the retention of gross written premium to 59.8% from 64.2% for the three months ended September 30, 2016 and 2015, respectively. In 2016, a larger percentage of premium in our Small Commercial Business segment, specifically from Republic, was ceded to third party reinsurers as compared to the Small Commercial Business premium ceded to third party reinsurers in the same period in 2015. Prior to the Republic acquisition, the majority of Small Commercial Business premium was reinsured under the Maiden Quota Share agreement.

Net Earned Premium. Net earned premium increased \$150.8 million, or 14.4%, to \$1,196.2 million from \$1,045.4 million for the three months ended September 30, 2016 and 2015, respectively. The increase by segment was: Small Commercial Business — \$23.3 million, Specialty Risk and Extended Warranty — \$76.9 million and Specialty Program — \$50.5 million. The increase in net earned premium resulted from an increase in gross written premium in the third quarter of 2016 compared to the third quarter of 2015.

Service and Fee Income. Service and fee income increased \$20.5 million, or 16.2%, to \$146.6 million from \$126.1 million for the three months ended September 30, 2016 and 2015, respectively, most of which is attributable to our acquisition of Warranty Solutions. Fees for product warranty registration and claims handling services increased by approximately \$4 million. Fees for services provided to Maiden, NGHC and ACP Re were consistent during the three months ended September 30, 2016 as compared to the same period a year ago.

Net Investment Income. Net investment income increased \$19.5 million, or 48.2%, to \$59.9 million from \$40.4 million for the three months ended September 30, 2016 and 2015, respectively. The increase resulted primarily from having a 40.7% higher average value of invested assets during the three months ended September 30, 2016 compared to the same period in 2015, arising from our investment of certain proceeds from stock and debt offerings subsequent to September 30, 2015 and income from investment portfolios obtained through acquisitions.

Net Realized Gains/(Loss) on Investments. We had a net realized gain on investments of \$8.2 million and \$17.7 million for the three months ended September 30, 2016 and 2015, respectively. The decrease related primarily to a decrease in realized gains on trading securities, which were \$1.0 million and \$9.3 million during the three months

ended September 30, 2016 and 2015, respectively. In addition, we had realized losses for other-than-temporary impairment of securities during the three months ended September 30, 2016 and 2015 of \$9.5 million and \$7.6 million, respectively.

Loss and Loss Adjustment Expenses. Loss and loss adjustment expenses increased \$101.4 million, or 14.3%, to \$811.0 million for the three months ended September 30, 2016 from \$709.6 million for the three months ended September 30, 2015. Our loss ratio for the three months ended September 30, 2016 and 2015 of 67.8% and 67.9%, respectively, was consistent period to period. We did not have any material increases or decreases as a result of prior year loss development.

Acquisition Costs and Other Underwriting Expenses. Acquisition costs and other underwriting expenses increased \$25.9 million, or 10.1%, to \$284.0 million for the three months ended September 30, 2016 from \$258.0 million for the three months ended September 30, 2015. Acquisition costs and other underwriting expenses in each period were reduced by ceding commission primarily earned through the Maiden Quota Share, through which we receive a ceding commission of 31% of premiums ceded

for all business except retail commercial package business, and 34.375% for retail commercial package business. The ceding commission earned during the three months ended September 30, 2016 and 2015 was \$161.3 million and \$141.1 million, respectively. Ceding commission increased period over period as a result of increases in gross written premium and the retention of a smaller percentage of our gross written premium. On a consolidated basis, we retained 59.8% of our gross written premium for the three months ended September 30, 2016, compared to retaining 64.2% of our gross written premium in the third quarter of 2015. Our expense ratio on a consolidated basis decreased period over period as a percentage of earned premium, and was 23.7% and 24.7% during the three months ended September 30, 2016 and 2015, respectively. The decrease resulted primarily from lower expenses on Republic business that is fronted, along with our continuing efforts to leverage our existing workforce and infrastructure.

Income Before Other Income (Expense), Income Taxes and Equity Earnings of Unconsolidated Subsidiaries. Income before other income (expense), income taxes and equity earnings of unconsolidated subsidiaries increased \$33.3 million, or 23.0%, to \$178.4 million for the three months ended September 30, 2016 from \$145.1 million for the three months ended September 30, 2015. The \$33.3 million increase resulted primarily from an increase in investment income. Additionally, we benefited from an increase in earned premium and a lower expense ratio.

Net Interest Expense. Net interest expense for the three months ended September 30, 2016 was \$24.0 million, compared to \$12.9 million for the same period in 2015. The majority of the increase related to additional interest expense as a result of the issuance of \$135 million of subordinated notes in September 2015 and additional debt incurred or assumed in connection with the Republic acquisition, along with increased use of letters of credit.

Net Gain (Loss) on Investment in Life Settlement Contracts Net of Profit Commission. We recognized gains on investment in life settlement contracts of \$5.5 million for the three months ended September 30, 2016 compared to \$4.6 million for the three months ended September 30, 2015. The increase in the recognized gain related to an increase in the fair value of the portfolio of policies, partially offset by increases in commission expense. No policies matured during the three months ended September 30, 2016 and two policies matured during the three months ended September 30, 2015.

Foreign Currency Gain (Loss). The foreign currency transaction loss was \$8.3 million during the three months ended September 30, 2016 compared to a transaction gain of \$24.7 million during the same period in 2015. The loss during the three months ended September 30, 2016 resulted from the weakening of the British pound sterling compared to the Euro, which negatively impacted our U.K. insurance subsidiaries that write Euro-denominated risks that are re-valued at the end of each reporting period. This loss was partially offset by a gain as a result of the weakening of the British pound sterling and the Euro compared to the U.S. dollar, which impacts the internal reinsurance transactions between our U.K. and Irish insurance subsidiaries and our Bermuda reinsurance company.

Provision (benefit) for Income Tax. Income tax provision for the three months ended September 30, 2016 was \$35.5 million, which resulted in an effective tax rate of 23.4%, compared to an income tax benefit of \$12.6 million, which resulted in an effective tax rate of (7.6)%, for the three months ended September 30, 2015. We did not have any benefit from utilization of equalization reserves of our Luxembourg reinsurers in either period. The overall increase in the effective tax rate in the three months ended September 30, 2016 compared to the three months ended September 30, 2015 resulted from a significant favorable return to provision adjustment in the third quarter of 2015 compared to slight unfavorable return to provision adjustment in the third quarter of 2016.

Equity in Earnings of Unconsolidated Subsidiaries - Related Parties. Equity in earnings of unconsolidated subsidiaries - related parties was \$2.0 million and \$13.5 million for the three months ended September 30, 2016 and 2015, respectively. The decrease in 2016 compared to the same period in 2015 resulted, primarily, from a non-recurring realized gain of \$9.6 million recognized in the three months ended September 30, 2015 related to a decrease in our ownership percentage of NGHC as the result of NGHC's public offering in August 2015.

Consolidated Results of Operations for the Nine Months Ended September 30, 2016 and 2015 (Unaudited)

Gross Written Premium. Gross written premium increased \$849.9 million, or 16.4%, to \$6,040.3 million from \$5,190.3 million for the nine months ended September 30, 2016 and 2015, respectively. The increase of \$849.9 million was attributable to growth in our Small Commercial Business and Specialty Risk and Extended Warranty segments, while growth in our Specialty Program segment was relatively flat. The majority of the increase in the Small Commercial Business segment was attributable to an increase in the number of workers' compensation policies issued, and the acquisitions of Republic and ARI, which contributed approximately \$262 million of gross written premium. The increase in our Specialty Risk and Extended Warranty segment was attributable to our acquisitions of Warranty Solutions in September 2015 and Nationale Borg in May 2016, which contributed approximately \$69 million and \$37 million of gross written premium, respectively, expansion of our existing programs in Europe, and growth within

our Lloyd's platform, partially offset by the negative foreign currency impact of the weakening of the British pound sterling. The increase of gross written premium in our Specialty Program segment as a result of the April 2016 acquisition of Republic, which contributed \$113 million, was partially offset by the reduction of certain non-workers' compensation programs.

Net Written Premium. Net written premium increased \$510.3 million, or 16.0%, to \$3,705.2 million from \$3,194.9 million for the nine months ended September 30, 2016 and 2015, respectively. The increase by segment was: Small Commercial Business - \$184.1 million, Specialty Risk and Extended Warranty - \$258.7 million and Specialty Program - \$67.5 million. Net written premium increased for the nine months ended September 30, 2016 compared to the same period in 2015 due to the increase in gross written premium, partially offset by a slight decrease in the retention of gross written premium to 61.3% from 61.6% for the nine months ended September 30, 2016 and 2015, respectively. The slight decrease in retention resulted from a small increase, as compared to the same period in 2015, in business written that is reinsured under the Maiden Quota Share agreement or with other third party reinsurers.

Net Earned Premium. Net earned premium increased \$488.5 million, or 16.5%, to \$3,452.3 million from \$2,963.8 million for the nine months ended September 30, 2016 and 2015, respectively. The increase by segment was: Small Commercial Business — \$193.4 million, Specialty Risk and Extended Warranty — \$143.6 million and Specialty Program — \$151.6 million. The increase in net earned premium resulted from an increase in gross written premium in the first nine months of 2016 compared to the first nine months of 2015.

Service and Fee Income. Service and fee income increased \$82.3 million, or 23.7%, to \$429.1 million from \$346.8 million for the nine months ended September 30, 2016 and 2015, respectively. Approximately \$67 million of the increase is attributable to the acquisition of Warranty Solutions. Fees for services provided to Maiden, NGHC and ACP Re increased by approximately \$3 million and fees for product warranty registration and claims handling services increased by \$18 million.

Net Investment Income. Net investment income increased \$48.8 million, or 43.9%, to \$160.1 million from \$111.3 million for the nine months ended September 30, 2016 and 2015, respectively. The increase resulted primarily from having a 40.8% higher average value of invested assets during the nine months ended September 30, 2016 compared to the same period in 2015 as a result of our investment of certain proceeds from stock and debt offerings occurring since the second half of 2015 and investment portfolios obtained through acquisitions.

Net Realized Gains/(Loss) on Investments. We had net realized gains on investments of \$31.3 million and \$30.7 million for the nine months ended September 30, 2016 and 2015, respectively. The increase related primarily to an increase in sales of securities in gain positions, but were offset by an increase in other-than-temporary impairments of \$26.4 million and \$10.1 million for the nine months ended September 30, 2016 and 2015, respectively. We also had a decrease in realized gains from trading securities to \$3.4 million from \$11.5 million during the nine months ended September 30, 2016 and 2015, respectively.

Loss and Loss Adjustment Expenses. Loss and loss adjustment expenses increased \$349.2 million, or 17.8%, to \$2,310.5 million for the nine months ended September 30, 2016 from \$1,961.4 million for the nine months ended September 30, 2015. Our loss ratio for the nine months ended September 30, 2016 and 2015 of 66.9% and 66.2%, respectively, was consistent period to period. We did not have any material increases or decreases as a result of prior year loss development.

Acquisition Costs and Other Underwriting Expenses. Acquisition costs and other underwriting expenses increased \$119.0 million, or 16.3%, to \$847.4 million for the nine months ended September 30, 2016 from \$728.4 million for the nine months ended September 30, 2015. Acquisition costs and other underwriting expenses in each period were reduced by ceding commission primarily earned through the Maiden Quota Share, through which we receive a ceding

commission of 31% of premiums ceded for all business except retail commercial package business, and 34.375% for retail commercial package business. The ceding commission earned during the nine months ended September 30, 2016 and 2015 was \$447.8 million and \$389.0 million, respectively. Ceding commission increased period over period as a result of increases in gross written premium and a small decrease in our retention of gross written premium. On a consolidated basis, we retained 61.3% of our gross written premium for the nine months ended September 30, 2016, compared to retaining 61.6% of our gross written premium in the comparable period in 2015. Our overall expense ratio was consistent period over period as a percentage of earned premium, and was 24.6% during each of the nine months ended September 30, 2016 and 2015, respectively.

Income Before Other Income (Expense), Income Taxes and Equity Earnings of Unconsolidated Subsidiaries. Income before other income (expense), income taxes and equity earnings of unconsolidated subsidiaries increased \$66.9 million, or 14.9%, to \$516.1 million for the nine months ended September 30, 2016 from \$449.2 million for the nine months ended September 30, 2015. The \$66.9 million increase resulted primarily from an increase in investment income. Additionally, we benefited from an increase in earned premium, partially offset by a higher loss ratio.

Net Interest Expense. Net interest expense for the nine months ended September 30, 2016 was \$61.4 million, compared to \$32.8 million for the same period in 2015. The majority of the increase related to additional interest expense of approximately \$12.4 million incurred from the issuance of an aggregate of \$285 million of subordinated notes in June and September 2015. Additionally, we incurred interest expense related to additional debt issued and assumed in connection with the Republic acquisition, along with an overall increase in use of letters of credit.

Net Gain (Loss) on Investment in Life Settlement Contracts Net of Profit Commission. We recognized gains on investment in life settlement contracts of \$28.9 million for the nine months ended September 30, 2016 compared to \$19.1 million for the nine months ended September 30, 2015. The increase in the recognized gain related to an increase in the fair value of the portfolio of policies, partially offset by an increase in commission expense. Three policies matured during the nine months ended September 30, 2016 and seven policies matured during the nine months ended September 30, 2015.

Foreign Currency Gain (Loss). The foreign currency transaction loss was \$70.4 million during the nine months ended September 30, 2016 compared to a transaction gain of \$17.4 million during the same period in 2015. The loss during the nine months ended September 30, 2016 was the result of the weakening of the British pound sterling compared to the Euro, which negatively impacted our U.K. insurance subsidiaries that write Euro-denominated risks that are re-valued at the end of each reporting period.

Provision (benefit) for Income Tax. Income tax provision for the nine months ended September 30, 2016 was \$91.2 million, which resulted in an effective tax rate of 19.7%, compared to an income tax benefit of \$38.6 million, which resulted in an effective tax rate of 8.5% for the nine months ended September 30, 2015. The overall increase in the effective tax rates in the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015 resulted from a change in profitability by jurisdiction, a significant favorable return to provision adjustment in the third quarter of 2015 compared to a slightly unfavorable return to provision adjustment in third quarter of 2016, and the release of a valuation allowance on a deferred tax asset in the second quarter of 2016.

Equity in Earnings of Unconsolidated Subsidiaries - Related Parties. Equity in earnings of unconsolidated subsidiaries - related parties was \$12.5 million and \$23.0 million for the nine months ended September 30, 2016 and 2015, respectively. The decrease in 2016 related to a non-recurring realized gain of \$9.6 million recognized in the nine months ended September 30, 2015 related to a decrease in our ownership percentage of NGHC as the result of NGHC's public offering in August 2015.

Small Commercial Business Segment Results of Operations for the Three and Nine Months Ended September 30, 2016 and 2015 (Unaudited)

(Amounts in Thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Gross written premium	\$998,071	\$797,654	\$3,124,761	\$2,574,602

Small Commercial Business Segment Results of Operations for the Three Months Ended September 30, 2016 and 2015 (Unaudited)

Gross Written Premium. Gross written premium increased \$200.4 million, or 25.1%, to \$998.1 million for the three months ended September 30, 2016 from \$797.7 million for the three months ended September 30, 2015. The increase was attributable to our acquisition of Republic, an increase in the number of workers' compensation policies issued and improved pricing on our commercial vehicle business. The acquisition of Republic contributed approximately \$120 million of gross written premium, and the acquisitions of ARI and Springfield contributed an additional \$10 million of gross written premium for the three months ended September 30, 2016.

Net Written Premium. Net written premium decreased \$1.4 million, or 0.3%, to \$457.9 million for the three months ended September 30, 2016 from \$459.3 million for the three months ended September 30, 2015. The decrease resulted from an increase in gross written premium for the three months ended September 30, 2016 compared to the same period in 2015, which was then entirely offset by a decrease in the retention of gross written premium during 2016 compared to 2015. Our retention of gross written premium for the segment was 45.9% and 57.6% for the three months ended September 30, 2016 and 2015, respectively. We ceded a large portion of the gross written premium generated in connection with our acquisition of Republic to third party reinsurers, which resulted in the decrease in retention of gross written premium period over period.

Net Earned Premium. Net earned premium increased \$23.3 million, or 4.7%, to \$517.0 million for the three months ended September 30, 2016 from \$493.7 million for the three months ended September 30, 2015. As premiums written are earned ratably over an annual period, the increase in net earned premium resulted from higher net written premium for the twelve months ended September 30, 2016 compared to the same period in 2015.

Loss and Loss Adjustment Expenses. Loss and loss adjustment expenses increased \$24.1 million, or 7.5%, to \$344.5 million for the three months ended September 30, 2016 from \$320.4 million for the three months ended September 30, 2015. Our loss ratio for the segment for the three months ended September 30, 2016 increased to 66.6% compared to 64.9% for the three months ended September 30, 2015. The increase in the loss ratio was the result, primarily, of higher current accident year selected ultimate losses as compared to selected ultimate losses in the prior period, which related to growth in our non-workers' compensation business, to which we assign a higher ultimate loss selection. We did not have any material increases or decreases as a result of prior year loss development.

Acquisition Costs and Other Underwriting Expenses. Acquisition costs and other underwriting expenses decreased \$5.4 million, or (4.1)%, to \$125.4 million for the three months ended September 30, 2016 from \$130.8 million for the three months ended September 30, 2015. Acquisition costs and other underwriting expenses were reduced by ceding commission of \$71.9 million and \$70.8 million earned during the three months ended September 30, 2016 and 2015, respectively. The ceding commission increased period over period as a result of an increase in net earned premium, as the segment received a consistent allocation of ceding commission for its proportionate share of our overall policy acquisition expense. The expense ratio was 24.3% and 26.5% for the three months ended September 30, 2016 and 2015, respectively. The decrease was a result of business fronted by Republic that generates expenses that are fully reimbursed by the insurance carrier for which it fronts, along with our continuing efforts to leverage our existing workforce and infrastructure.

Net Earned Premiums less Expense Included in Combined Ratio (Underwriting Income). Net premiums earned less expenses included in combined ratio increased \$4.6 million, or 10.8%, to \$47.1 million for the three months ended September 30, 2016 from \$42.5 million for the three months ended September 30, 2015. The increase resulted primarily from an increase to earned premium and a decrease in the expense ratio during the three months ended September 30, 2016 compared to the three months ended September 30, 2015, partially offset by an increase in the loss ratio.

Small Commercial Business Segment Results of Operations for the Nine Months Ended September 30, 2016 and 2015
(Unaudited)

Gross Written Premium. Gross written premium increased \$550.2 million, or 21.4%, to \$3,124.8 million for the nine months ended September 30, 2016 from \$2,574.6 million for the nine months ended September 30, 2015. The increase was attributable to an increase in the number of workers' compensation policies issued, improved pricing on commercial vehicle business and continued growth in California, New York and Florida. The acquisition of Republic contributed approximately \$222 million of incremental gross written premium, and the acquisitions of ARI and Springfield contributed an additional \$40 million of gross written premium for the nine months ended September 30, 2016.

Net Written Premium. Net written premium increased \$184.1 million, or 12.3%, to \$1,684.0 million for the nine months ended September 30, 2016 from \$1,499.9 million for the nine months ended September 30, 2015. The increase resulted from an increase in gross written premium for the nine months ended September 30, 2016 compared to the same period in 2015, partially offset by a decrease in the retention of gross written premium during 2016 compared to 2015. Our retention of gross written premium for

the segment decreased to 53.9% from 58.3% for the nine months ended September 30, 2016 and 2015, respectively, primarily because we ceded to third party reinsurers a large portion of the gross written premium generated as result of our 2016 acquisition of Republic.

Net Earned Premium. Net earned premium increased \$193.4 million, or 13.8%, to \$1,594.1 million for the nine months ended September 30, 2016 from \$1,400.7 million for the nine months ended September 30, 2015. As premiums written are earned ratably over an annual period, the increase in net earned premium resulted from higher net written premium for the twelve months ended September 30, 2016 compared to the same period in 2015.

Loss and Loss Adjustment Expenses. Loss and loss adjustment expenses increased \$151.1 million, or 16.6%, to \$1,060.2 million for the nine months ended September 30, 2016 from \$909.1 million for the nine months ended September 30, 2015. Our loss ratio for the segment for the nine months ended September 30, 2016 increased to 66.5% compared to 64.9% for the nine months ended September 30, 2015. The increase in the loss ratio was the result, primarily, of higher current accident year selected ultimate losses as compared to selected ultimate losses in the prior period, which related to growth in our non-workers' compensation business, to which we assign a higher ultimate loss selection. We did not have any material increases or decreases as a result of prior year loss development.

Acquisition Costs and Other Underwriting Expenses. Acquisition costs and other underwriting expenses increased \$40.7 million, or 11.1%, to \$405.9 million for the nine months ended September 30, 2016 from \$365.2 million for the nine months ended September 30, 2015. Acquisition costs and other underwriting expenses were reduced by ceding commission of \$218.5 million and \$195.0 million earned during the nine months ended September 30, 2016 and 2015, respectively. The ceding commission increased period over period as a result of an increase in net earned premium, as the segment received a consistent allocation of ceding commission for its proportionate share of our overall policy acquisition expense. The expense ratio was 25.5% and 26.1% for the nine months ended September 30, 2016 and 2015, respectively, and decreased primarily from earned premium increasing at a larger rate compared to the increase in acquisition costs and other underwriting expenses. The business fronted by Republic, which was a large percentage of the business in this segment during the nine months ended September 30, 2016, has much lower expenses than the business in the comparative 2015 period.

Net Earned Premiums less Expense Included in Combined Ratio (Underwriting Income). Net premiums earned less expenses included in combined ratio increased \$1.6 million, or 1.3%, to \$128.0 million for the nine months ended September 30, 2016 from \$126.4 million for the nine months ended September 30, 2015. The increase resulted primarily from an increase to earned premium and a decrease in the expense ratio, partially offset by an increase in the loss ratio during the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015.

Specialty Risk and Extended Warranty Segment Results of Operations for the Three and Nine Months Ended September 30, 2016 and 2015 (Unaudited)

(Amounts in Thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Gross written premium	\$598,977	\$577,284	\$1,779,984	\$1,528,017
Net written premium	\$448,847	\$380,600	\$1,233,741	\$975,073
Change in unearned premium	(21,526)	(30,218)	(126,695)	(11,592)
Net earned premium	427,321	350,382	1,107,046	963,481
Loss and loss adjustment expense	(293,956)	(253,136)	(736,220)	(647,121)

Net loss ratio	68.8	% 72.2	% 66.5	% 67.2
Net expense ratio	21.0	% 20.0	% 21.5	% 20.5
Net combined ratio	89.8	% 92.2	% 88.0	% 87.7

Specialty Risk and Extended Warranty Segment Results of Operations for the Three Months Ended September 30, 2016 and 2015 (Unaudited)

Gross Written Premium. Gross written premium increased \$21.7 million, or 3.8%, to \$599.0 million for the three months ended September 30, 2016 from \$577.3 million for the three months ended September 30, 2015. The increase in our U.S. business was the result of organic growth, expansion of existing business and the acquisition of Warranty Solutions, which contributed \$23 million of gross written premium. Our May 2016 acquisition of Nationale Borg added gross written premium of \$27 million to our European business, but fluctuations in European currencies reduced our gross written premiums during the third quarter of 2016 by approximately \$25 million.

Net Written Premium. Net written premium increased \$68.2 million, or 17.9%, to \$448.8 million for the three months ended September 30, 2016 from \$380.6 million for the three months ended September 30, 2015. The increase resulted from an increase of gross written premium for the three months ended September 30, 2016 compared to the same period in 2015 and an increase in our retention of gross written premium to 74.9% from 65.9% for the three months ended September 30, 2016 and 2015, respectively. The increase in the retention of gross written premium related, primarily, to the Warranty Solutions business, acquired in September 2015, which is not reinsured under the Maiden Quota Share agreement.

Net Earned Premium. Net earned premium increased \$76.9 million, or 22.0%, to \$427.3 million for the three months ended September 30, 2016 from \$350.4 million for the three months ended September 30, 2015. As net written premium is earned ratably over the term of a policy, the increase in net earned premium resulted from an increase in net written premium, partially offset by the writing of a higher mix of longer term business during the twelve months ended September 30, 2016 compared to the same period in 2015.

Loss and Loss Adjustment Expenses. Loss and loss adjustment expenses increased \$40.8 million, or 16.1%, to \$294.0 million for the three months ended September 30, 2016 from \$253.1 million for the three months ended September 30, 2015. Our loss ratio for the segment for the three months ended September 30, 2016 decreased to 68.8% compared to

72.2% for the same period in 2015. The decrease in the loss ratio resulted from lower selected ultimate losses for current accident years as compared to originally selected ultimate losses in prior accident years from a stabilizing of our ultimate losses on certain casualty lines in our European specialty risk and extended warranty business. We did not have any material increases or decreases as a result of prior year loss development.

Acquisition Costs and Other Underwriting Expenses. Acquisition costs and other underwriting expenses increased \$19.9 million, or 28.5%, to \$89.8 million for the three months ended September 30, 2016 from \$69.9 million for the three months ended

September 30, 2015. Acquisition costs and other underwriting expenses were reduced by ceding commission of \$50.4 million and \$37.8 million earned during the three months ended September 30, 2016 and 2015, respectively. The ceding commission was consistent period over period as the segment received a consistent allocation of ceding commission for its proportionate share of our overall policy acquisition expense. The expense ratio was 21.0% for the three months ended September 30, 2016 compared to 20.0% for the three months ended September 30, 2015. The increase in the expense ratio resulted from increases in policy acquisition expense, predominantly as a result of the Warranty Solutions acquisition.

Net Earned Premiums less Expenses Included in Combined Ratio (Underwriting Income). Net earned premiums less expenses included in combined ratio increased \$16.2 million, or 59.2%, to \$43.6 million for the three months ended September 30, 2016 from \$27.4 million for the three months ended September 30, 2015. The increase was attributable to an increase in the segment's earned premium and a decrease in the segment's loss ratio during the three months ended September 30, 2016 compared to the three months ended September 30, 2015.

Specialty Risk and Extended Warranty Segment Results of Operations for the Nine Months Ended September 30, 2016 and 2015 (Unaudited)

Gross Written Premium. Gross written premium increased \$252.0 million, or 16.5%, to \$1,780.0 million for the nine months ended September 30, 2016 from \$1,528.0 million for the nine months ended September 30, 2015. We experienced growth both domestically and in our European business during the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015. In our European business, we grew our core businesses, including warranty and general liability products, and our Lloyd's business during the nine months of 2016 compared to the same period in 2015. Our May 2016 acquisition of Nationale Borg added gross written premium of \$37 million to our European business, while fluctuations in European currencies reduced our gross written premiums during 2016 by approximately \$84 million. Our U.S. business increased during the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015, primarily based on growth in existing businesses and the acquisition of Warranty Solutions, which contributed \$69 million of gross written premium.

Net Written Premium. Net written premium increased \$258.7 million, or 26.5%, to \$1,233.7 million for the nine months ended September 30, 2016 from \$975.1 million for the nine months ended September 30, 2015 as a result of an increase of gross written premium for the nine months ended September 30, 2016 compared to the same period in 2015, and an increase in our retention of gross written premium period over period. Our overall retention of gross written premium for the segment was 69.3% and 63.8% for the nine months ended September 30, 2016 and 2015, respectively. The increase in the retention of gross written premium related, primarily, to the Warranty Solutions business, acquired in September 2015, which is not reinsured under the Maiden Quota Share agreement

Net Earned Premium. Net earned premium increased \$143.6 million, or 14.9%, to \$1,107.0 million for the nine months ended September 30, 2016 from \$963.5 million for the nine months ended September 30, 2015. Net earned premium increased due to an increase in net written premium, which was partially offset by the writing of a larger percentage of longer term business during the twelve months ended September 30, 2016 compared to the same period in 2015, which is earned ratably over the term of a policy.

Loss and Loss Adjustment Expenses. Loss and loss adjustment expenses increased \$89.1 million, or 13.8%, to \$736.2 million for the nine months ended September 30, 2016 from \$647.1 million for the nine months ended September 30, 2015. Our loss ratio for the segment for the nine months ended September 30, 2016 decreased to 66.5% compared to 67.2% for the same period in 2015. The decrease in the loss ratio resulted from having a higher percentage of earned premium in lines of business with lower ultimate loss selections during the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015. We did not have any material increases or decreases as a result of prior year loss development.

Acquisition Costs and Other Underwriting Expenses. Acquisition costs and other underwriting expenses increased \$40.5 million, or 20.5%, to \$238.0 million for the nine months ended September 30, 2016 from \$197.5 million for the nine months ended September 30, 2015. Acquisition costs and other underwriting expenses were reduced by ceding commission of \$125.8 million and \$105.5 million earned during the nine months ended September 30, 2016 and 2015, respectively. The ceding commission was consistent period over period as the segment received a consistent allocation of ceding commission for its proportionate share of our overall policy acquisition expense. The expense ratio was 21.5% for the nine months ended September 30, 2016 compared to 20.5% for the nine months ended September 30, 2015. The increase in the expense ratio resulted from increases in policy acquisition expenses from our acquisition of Warranty Solutions.

Net Earned Premiums less Expenses Included in Combined Ratio (Underwriting Income). Net earned premiums less expenses included in combined ratio increased \$13.9 million, or 11.7%, to \$132.9 million for the nine months ended September 30, 2016 from \$118.9 million for the nine months ended September 30, 2015. The increase was attributable to an increase in the segment's earned premium and a decrease in the segment's loss ratio during the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015.

Specialty Program Segment Results of Operations for The Three and Nine Months Ended September 30, 2016 and 2015 (Unaudited)

(Amounts in Thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Gross written premium	\$437,050	\$405,875	\$1,135,539	\$1,087,719
Net written premium	\$309,334	\$303,093	\$787,389	\$719,898
Change in unearned premium	(57,415)	(101,721)	(36,233)	(120,328)
Net earned premium	251,919	201,372	751,156	599,570
Loss and loss adjustment expense	(172,561)	(136,077)	(514,129)	(405,160)
Acquisition costs and other underwriting expenses	(68,762)	(57,348)	(203,574)	(165,768)
	(241,323)	(193,425)	(717,703)	(570,928)
Underwriting income	\$10,596	\$7,947	\$33,453	\$28,642
Key measures:				
Net loss ratio	68.5	% 67.6	% 68.4	% 67.6
Net expense ratio	27.3	% 28.5	% 27.1	% 27.6
Net combined ratio	95.8	% 96.1	% 95.5	% 95.2

Specialty Program Segment Results of Operations for the Three Months Ended September 30, 2016 and 2015 (Unaudited)

Gross Written Premium. Gross written premium increased \$31.2 million, or 7.7%, to \$437.1 million for the three months ended September 30, 2016 from \$405.9 million for the same period in 2015. The majority of the increase, \$62 million, resulted from the acquisition of Republic. The increase was partially offset by the termination or curtailment of certain workers' compensation programs and commercial package programs.

Net Written Premium. Net written premium increased \$6.2 million, or 2.1%, to \$309.3 million for the three months ended September 30, 2016 from \$303.1 million for the same period in 2015 as a result of a small increase in gross written premium for the three months ended September 30, 2016 compared to the three months ended September 30, 2015, offset by the cession of a larger percentage of gross written premium to reinsurers during 2016 compared to 2015. Our overall retention of gross written premium for the segment was 70.8% and 74.7% for the three months ended September 30, 2016 and 2015, respectively. The decrease in the retention of gross written premium related to an increase in business written that is reinsured under the Maiden Quota Share agreement.

Net Earned Premium. Net earned premium increased \$50.5 million, or 25.1%, to \$251.9 million for the three months ended September 30, 2016 from \$201.4 million for the same period in 2015. As premiums written are earned ratably over an annual period, the increase in net premium earned resulted from higher net written premium for the annual period prior to the twelve months ended September 30, 2016 compared to the same period in 2015.

Loss and Loss Adjustment Expenses. Loss and loss adjustment expenses increased \$36.5 million, or 26.8%, to \$172.6 million for the three months ended September 30, 2016, compared to \$136.1 million for the same period in 2015. Our loss ratio for the segment increased to 68.5% compared to 67.6% for the three months ended September 30, 2016 and 2015, respectively. The increase in the loss ratio resulted from higher selected ultimate losses for current and prior accident years as compared to originally selected ultimate losses in prior accident years. This was the result, primarily, of revisions to our selected ultimate losses on certain casualty lines due to an increase in our incurred but not reported claim reserves. We did not have any material increases or decreases as a result of prior year loss development.

Acquisition Costs and Other Underwriting Expenses. Acquisition costs and other underwriting expenses increased \$11.4 million, or 19.9%, to \$68.8 million for the three months ended September 30, 2016 from \$57.3 million for the same period in 2015. Acquisition costs and other underwriting expenses were reduced by ceding commission of \$39.0 million and \$30.9 million earned during the three months ended September 30, 2016 and 2015, respectively. The ceding commission increased period over period as a result of an increase in net earned premium, as the segment received its proportionate share of our overall policy acquisition expense. The expense ratio was 27.3% for the three months ended September 30, 2016 compared to 28.5% for the three months ended September 30, 2015. The decrease in the expense ratio during the three months ended September 30, 2016 related to the issuance of a higher percentage of workers' compensation policies, which have lower policy acquisition costs than other types of business in this segment, along with our continuing efforts to leverage our existing workforce and infrastructure.

Net Earned Premiums less Expense Included in Combined Ratio (Underwriting Income). Net earned premiums less expenses included in combined ratio increased \$2.6 million, or 33%, to \$10.6 million for the three months ended September 30, 2016 from \$7.9 million for the three months ended September 30, 2015. The increase resulted from higher earned premium and a decrease in the expense ratio in 2016 compared to 2015.

Specialty Program Segment Results of Operations for the Nine Months Ended September 30, 2016 and 2015 (Unaudited)

Gross Written Premium. Gross written premium increased \$47.8 million, or 4.4%, to \$1,135.5 million for the nine months ended September 30, 2016 from \$1,087.7 million for the same period in 2015. Gross written premium increased modestly period over period as the increase in gross written premium from the acquisition of Republic, which contributed \$113 million of gross written premium, was offset by the termination or curtailment of certain workers' compensation programs and commercial package programs.

Net Written Premium. Net written premium increased \$67.5 million, or 9.4%, to \$787.4 million for the nine months ended September 30, 2016 from \$719.9 million for the same period in 2015. The increase in net written premium resulted from an increase in gross written premium for the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015, and the cession of a smaller percentage of gross written premium to reinsurers during 2016 compared to 2015. Our overall retention of gross written premium for the segment was 69.3% and 66.2% for the nine months ended September 30, 2016 and 2015, respectively. The increase in the retention of gross written premium related to an increase, as compared to the same period in 2015, in business written that is not reinsured under the Maiden Quota Share agreement.

Net Earned Premium. Net earned premium increased \$151.6 million, or 25.3%, to \$751.2 million for the nine months ended September 30, 2016 from \$599.6 million for the same period in 2015. As premiums written are earned ratably over an annual period, the increase in net premium earned resulted from higher net written premium for the annual period prior to the twelve months ended September 30, 2016 compared to the same period in 2015.

Loss and Loss Adjustment Expenses. Loss and loss adjustment expenses increased \$109.0 million, or 26.9%, to \$514.1 million for the nine months ended September 30, 2016, compared to \$405.2 million for the same period in 2015. Our loss ratio for the segment increased to 68.4% compared to 67.6% for the nine months ended September 30, 2016 and 2015, respectively. The increase in the loss ratio resulted from higher selected ultimate losses for current and prior accident years as compared to originally selected ultimate losses in prior accident years. This was the result, primarily, of revisions to our selected ultimate losses on certain casualty lines due to an increase in our incurred but not reported claim reserves. We did not have any material increases or decreases as a result of prior year loss development.

Acquisition Costs and Other Underwriting Expenses. Acquisition costs and other underwriting expenses increased \$37.8 million, or 22.8%, to \$203.6 million for the nine months ended September 30, 2016 from \$165.8 million for the same period in 2015. Acquisition costs and other underwriting expenses were reduced by ceding commission of \$107.6 million and \$88.5 million earned during the nine months ended September 30, 2016 and 2015, respectively. The ceding commission increased period over period as a result of an increase in net earned premium, as the segment received a larger allocation of ceding commission for its proportionate share of our overall policy acquisition expense. The expense ratio was 27.1% for the nine months ended September 30, 2016 compared to 27.6% for the nine months ended September 30, 2015. The decrease in the expense ratio during the nine months ended September 30, 2016 related to the issuance of a higher percentage of workers' compensation policies, which have lower policy acquisition costs than other types of business in this segment.

Net Earned Premiums less Expense Included in Combined Ratio (Underwriting Income). Net earned premiums less expenses included in combined ratio increased \$4.8 million, or 16.8%, to \$33.5 million for the nine months ended September 30, 2016 from \$28.6 million for the nine months ended September 30, 2015 due to an increase in earned premium and a reduction in expense ratio, partially offset by an increase in the loss ratio in 2016 compared to 2015.

Liquidity and Capital Resources

Our principal sources of operating funds are premiums, service and fee income, investment income and proceeds from sales and maturities of investments. Our primary uses of operating funds include payments of claims and operating expenses. Currently, we pay claims using cash flow from operations and invest our excess cash primarily in fixed maturity and equity securities. We forecast claim payments based on our historical trends. We seek to manage the funding of claim payments by actively managing available cash and forecasting cash flows on short-term and long-term bases. Cash payments for claims were approximately \$1,867 million and \$1,391 million in the nine months ended September 30, 2016 and 2015, respectively. We expect that projected cash flow from operations will provide us sufficient liquidity for at least twelve months to fund our anticipated growth, by providing capital to increase the surplus of our insurance subsidiaries, as well as for the payment of claims and operating expenses, payment of interest and principal on our debt facilities, payment of any cash in settlement of convertible senior notes submitted by holders for conversion, and other holding company expenses. We anticipate net income from operations will create sufficient additional surplus at our insurance subsidiaries, which will fund our growth. However, if our growth attributable to potential acquisitions, internally generated growth or a combination of these, exceeds our projections, we may have to raise additional capital sooner to support our growth and manage our debt profile. As a result, we may from time to time raise capital from the issuance of equity, debt, equity-related debt or other capital securities, or seek to redeem, repurchase or exchange for other securities, prior to maturity, some or all of our outstanding debt in the open market, as circumstances allow. If we cannot obtain adequate capital or refinance all or a portion of our debt on favorable terms or at all, we may be unable to support future growth or operating requirements and, as a result, our business, financial condition and results of operation could be adversely affected.

The following table is summary of our statement of cash flows:

	Nine Months Ended	
	September 30,	
(Amounts in Thousands)	2016	2015
Cash and cash equivalents provided by (used in):		
Operating activities	\$839,914	\$468,108
Investing activities	(835,920)	(959,608)
Financing activities	182,325	507,624

Net cash provided by operating activities for the nine months ended September 30, 2016 increased compared to cash provided by operating activities in the nine months ended September 30, 2015. The increase in cash provided from operations resulted primarily from an increase in reinsurance premium payable, loss and loss expense reserves and deferred tax liabilities in 2016 compared to 2015.

Net cash used in investing activities was approximately \$835.9 million during the nine months ended September 30, 2016 and consisted primarily of approximately \$415 million for the net purchase of fixed maturity securities, equity securities and short-term investments, approximately \$176 million for an increase in restricted cash, approximately \$139 million for acquisitions, and approximately \$94 million for capital expenditures. Net cash used in investing activities was \$960 million for the nine months ended September 30, 2015 and consisted primarily of approximately \$659 million for the net purchase of fixed maturity securities, equity securities, and short-term investments, approximately \$71 million for restricted cash, approximately \$220 million for acquisitions and approximately \$100 million for capital expenditures, partially offset by the net proceeds of approximately \$86 million received from the maturity of life settlement contracts.

Net cash provided by financing activities was approximately \$182 million for the nine months ended September 30, 2016 compared to approximately \$508 million net cash provided by financing activities during the nine months ended

September 30, 2015. In 2016, we issued preferred stock for approximately \$417 million and entered into secured loans of approximately \$46 million, which was partially offset by common and preferred stock dividends paid of approximately \$110 million, and approximately \$152 million to repurchase shares of our stock. In 2015, we issued preferred stock for approximately \$177 million, common stock for approximately \$172 million, issued \$285 million in subordinated notes, and utilized our revolving credit facility for \$10 million, which was partially offset by common and preferred stock dividends paid of \$83 million, and approximately \$62 million paid to settle conversions of our 2021 Notes.

Other Material Changes in Financial Position

(Amounts in thousands)	September 30, 2016	December 31, 2015
Selected Assets:		
Fixed maturities, available-for-sale	\$ 7,043,815	\$ 5,433,797
Premium receivable, net	2,405,638	2,115,653
Reinsurance recoverable	4,040,073	3,008,670
Selected Liabilities:		
Loss and loss expense reserve	9,427,770	7,208,367
Unearned premium	4,900,926	4,014,728
Debt	1,235,316	989,356

The increase in fixed maturities, available-for-sale, from December 31, 2015 to September 30, 2016 was primarily attributable to the acquisitions and utilization of cash from our two preferred shared offerings during the nine months ended September 30, 2016. The increase in premium receivable, net related to higher premium writings and the acquisition of Republic. The majority of the increase in reinsurance recoverable related to the acquisition of Republic. The increase in loss and loss expense reserve and unearned premium related to an increase in premium writings and acquisitions. The increase in debt related primarily to the debt incurred and assumed in connection with the acquisition of Republic.

Common Stock

The Company implemented a two-for-one stock split on February 2, 2016.

Preferred Stock

We have outstanding six separate series (Series A through F) of non-cumulative preferred stock. Five of these series (Series B, C, D, E and F) were issued in offerings using depositary shares, each representing a 1/40th interest in a share of the particular series of preferred stock. Dividends on the Series A Preferred Stock and the Series B, C, D, E and F Preferred Stock represented by depositary shares are payable on the liquidation preference amount, on a non-cumulative basis, when, as and if declared by our Board of Directors, quarterly in arrears, on March 15, June 15, September 15, and December 15 of each year.

A summary description of the terms of these series of preferred stock is presented in the table below:

Series	Dividend rate per year %	Shares of Preferred Stock issued	Depositary shares issued	Liquidation preference amount per share of Preferred Stock \$	Net proceeds (\$ in thousands)	Dividend paid during the nine months ended September 30, 2016 (\$ in thousands)
A	6.75	4,600,000	N/A	\$ 25	\$ 111,130	\$ 1,941
B	7.25	105,000	4,200,000	1,000	101,702	1,903

Edgar Filing: Amtrust Financial Services, Inc. - Form 10-Q

C	7.625	80,000	3,200,000	1,000	77,480	1,525
D	7.50	182,500	7,300,000	1,000	176,529	3,422
E	7.75	143,750	5,750,000	1,000	139,042	2,785
F	6.95	287,500	11,500,000	1,000	278,222	—

For a detailed description of our Series A Preferred Stock and Series B, C and D Preferred Stock represented by depositary shares, refer to Note 20. “Stockholder’s Equity” in Item 8. “Financial Statements and Supplementary Data” in our 2015 Form 10-K. For a detailed description related to our Series E and F Preferred Stock represented by depositary shares, refer to Note 15. “Stockholder’s Equity and Accumulated Other Comprehensive Income (Loss)” to the accompanying financial statements included elsewhere in this report.

Credit Facilities

\$350 million credit facility

Our five-year, \$350 million credit facility is a revolving credit facility with a letter of credit sublimit of \$175 million and an expansion feature of not more than an additional \$150 million. As of September 30, 2016, we had outstanding borrowings of \$130 million and outstanding letters of credit in place under this Credit Agreement of \$114.2 million, which reduced the total aggregate availability under the facility to \$99.9 million and the availability for letters of credit to \$60.8 million.

Borrowings under this credit facility bear interest at either the Alternate Base Rate or the LIBO rate. Borrowings bearing interest at a rate determined by reference to the Alternate Base Rate will bear interest at (x) the greatest of (a) the administrative agent's prime rate, (b) the federal funds effective rate plus 0.5% or (c) the adjusted LIBO rate for a one-month interest period on such day plus 1.0%, plus (y) a margin ranging from 0.125% to 0.625%, adjusted on the basis of our consolidated leverage ratio. Eurodollar borrowings will bear interest at the adjusted LIBO rate for the interest period in effect plus a margin ranging from 1.125% to 1.625%, adjusted on the basis of our consolidated leverage ratio.

Fees payable by us under this credit facility include a letter of credit participation fee (equal to the margin applicable to Eurodollar borrowings), a letter of credit fronting fee with respect to each letter of credit (0.125%) and a commitment fee on the available commitments of the lenders (a range based on our consolidated leverage ratio, which was greater than or equal to 25% but less than 30%, resulting in a commitment fee rate of 0.20%).

Interest expense, including amortization of the deferred origination costs and fees associated with the letters of credit, was approximately \$3.4 million and \$2.6 million for nine months ended September 30, 2016 and 2015, respectively.

Funds at Lloyd's facility

We use this £300 million (or \$389 million) letter of credit facility to support our capacity at Lloyd's as a member and/or reinsurer of Syndicates 2526, 1206 and 44 for the 2016 underwriting year of account, as well as prior open years of account. The facility is 35% secured by a pledge of a collateral account.

Fees payable under this letter of credit facility include a letter of credit issuance fee payable on the secured portion of the letters of credit at the rate of 0.50% and on the unsecured portion of the letters of credit determined based on AII's then-current financial strength rating issued by A.M. Best. As of September 30, 2016, the applicable letter of credit fee rate on the unsecured portion was 1.15% based on AII's A.M. Best financial strength rating of "A". We also pay a commitment fee of 0.35% per year on the aggregate unutilized and uncanceled amount of the facility, and pay a facility fee upon closing of 0.15% of the total aggregate commitment.

As of September 30, 2016, the Company had outstanding letters of credit of £300.0 million (or \$380.5 million) in place under this credit facility, which reduced the aggregate availability under this facility to £6.8 million (or \$8.8 million). We recorded total interest expense of approximately \$3.4 million and \$2.3 million during the nine months ended September 30, 2016 and 2015, respectively.

Other letter of credit facilities

We, through one of our subsidiaries, have a secured letter of credit facility with Comerica Bank that we utilize to comply with the deposit requirements of the State of California and the U.S. Department of Labor as security for our obligations to workers' compensation and Federal Longshore and Harbor Workers' Compensation Act policyholders.

The credit limit is for \$75 million, of which \$48.1 million was utilized as of September 30, 2016. We are required to pay a letter of credit participation fee for each letter of credit in the amount of 0.40%. In addition, we, through certain subsidiaries, have additional existing stand-by letters of credit with various lenders in the amount of \$1.6 million as of September 30, 2016.

Through our acquisition of Nationale Borg, we assumed their existing credit facilities pursuant to which trade related guarantees and comparable standby letters of credit are issued primarily to secure obligations owed by Nationale Borg to third parties in the normal course of business. The credit facilities are with Deutsche Bank Netherlands N.V. and ING Bank N.V. and are primarily used to obtain guarantees for the benefit of financial institutions. The credit limit under these credit facilities is approximately £76.6 million (or \$88.4 million). The credit facilities were utilized for £56.2 million (or \$63.2 million) as of September 30, 2016. We recorded total interest expense of \$0.4 million for the nine months ended September 30, 2016.

For further information on these credit facilities, including applicable restrictive covenants and events of default, see Note 12. "Debt" in Item 8. "Financial Statements and Supplementary Data" in our 2015 Form 10-K.

Outstanding Notes

Convertible Debt

We have an outstanding principal balance of \$215 million of Convertible Senior Notes due 2044 ("2044 Notes"), with a carrying value of approximately \$165 million, that bear interest at a rate equal to 2.75% per year, payable semiannually in arrears on June 15th and December 15th of each year. Additionally, we have an outstanding principal balance of \$6 million of Convertible Senior Notes due 2021 ("2021 Notes"), with a carrying value of approximately \$5 million, that bear interest at a rate equal to 5.5% per year, payable semiannually in arrears on June 15th and December 15th of each year. Interest expense recognized on the 2044 Notes was \$9.4 million and \$9.1 million during the nine months ended September 30, 2016 and 2015, respectively. Interest expense recognized on the 2021 Notes was \$0.3 million and \$0.7 million for the nine months ended September 30, 2016 and 2015, respectively. For further information on the 2044 Notes and the 2021 Notes, including contingent interest on the 2044 Notes, conversion triggers, redemption and repurchase features and the exchange of 2021 Notes for 2044 Notes, see Note 12. "Debt" in Item 8. "Financial Statements and Supplementary Data" in our 2015 Form 10-K.

6.125% Notes due 2023

We have outstanding \$250 million aggregate principal amount of our 6.125% notes due 2023 ("2023 Notes"), with a carrying value of approximately \$248 million, that bear interest at a rate equal to 6.125% per year, payable semiannually in arrears on February 15th and August 15th of each year. The interest rate will increase by 0.50% per year if our consolidated leverage ratio exceeds 30% and will increase an additional 1.00% per year (for an aggregate increase of 1.50% per year) if the consolidated leverage ratio exceeds 35%. As of September 30, 2016, the consolidated leverage ratio was less than 30%. Interest expense recognized on the 2023 Notes was approximately \$11.7 million and \$11.7 million for the nine months ended September 30, 2016 and 2015, respectively. For further information on the 2023 Notes, including restrictive covenants and events of default, see Note 12. "Debt" in Item 8. "Financial Statements and Supplementary Data" in our 2015 Form 10-K.

7.25% Subordinated Notes due 2055

We have outstanding \$150 million aggregate principal amount of our 7.25% subordinated notes due 2055 (the "7.25% 2055 Notes"), with a carrying value of approximately \$145 million that bear interest at a rate equal to 7.25% per year, payable quarterly in arrears on March 15, June 15, September 15 and December 15 of each year, commencing on September 15, 2015. The 7.25% 2055 Notes mature on June 15, 2055. We have the right to redeem the 7.25% 2055 Notes, in whole or in part, on June 18, 2020, or on any interest payment date thereafter, at a redemption price equal to 100% of the principal amount of the notes plus accrued and unpaid interest to, but not including, the date of redemption. The 7.25% 2055 Notes are our subordinated unsecured obligations and are structurally subordinated to all our existing and future indebtedness, liabilities and other obligations of our subsidiaries. Interest expense, including amortization of deferred origination costs, recognized on the 7.25% 2055 Notes was \$8.3 million and \$3.1 million for the nine months ended September 30, 2016 and 2015, respectively. For further information on the 7.25% 2055 Notes, see Note 12. "Debt" in Item 8. "Financial Statements and Supplementary Data" in our 2015 Form 10-K.

2035-2037 Notes

We have outstanding \$124 million aggregate principal amount of four junior subordinated debenture notes ("2035-2037 Notes"). These debenture notes, maturing between 2035 and 2037, were issued by us using the proceeds

from issuing trust preferred securities in connection with establishing four special purpose trusts. The debentures require interest-only payments to be made on a quarterly basis, with principal due at maturity. The debentures contain covenants that restrict declaration of dividends on our common stock under certain circumstances, including default of payment. We recognized interest expense, including amortization of deferred origination costs, of approximately \$4.6 million and \$5.2 million for the nine months ended September 30, 2016 and 2015, respectively. For further information on the 2035-2037 Notes, see Note 12. "Debt" in Item 8. "Financial Statements and Supplementary Data" in our 2015 Form 10-K.

2033-2037 TPS Notes

Through our acquisition of Republic, we assumed \$93 million aggregate principal amount of five junior subordinated debenture notes ("2033-2037 TPS Notes"). These debenture notes mature between 2033 and 2037. The debentures require interest-only payments to be made on a quarterly basis, with principal due at maturity. The debentures contain covenants that restrict declaration

of dividends on our common stock under certain circumstances, including default of payment. We recognized interest expense, including amortization of deferred origination costs, of approximately \$1.8 million for the nine months ended September 30, 2016.

7.50% Subordinated Notes due 2055

We have outstanding \$135 million aggregate principal amount of our 7.50% subordinated notes due 2055 (the "7.50% 2055 Notes"), with a carrying value of approximately \$131 million, that bear interest at a rate equal to 7.50% per year, payable quarterly in arrears on March 15, June 15, September 15 and December 15 of each year, commencing December 15, 2015. The 7.50% 2055 Notes mature on September 15, 2055. We have the right to redeem the 7.50% 2055 Notes, in whole or in part, on September 16, 2020, or on any interest payment date thereafter, at a redemption price equal to 100% of the principal amount of the 7.50% 2055 Notes plus accrued and unpaid interest to, but not including, the date of redemption. The 7.50% 2055 Notes are our subordinated unsecured obligations and are structurally subordinated to all existing and future indebtedness, liabilities and other obligations of our subsidiaries. Interest expense, including amortization of deferred origination costs, recognized on the 7.50% 2055 Notes was \$7.7 million for the nine months ended September 30, 2016. For further information on the 7.50% 2055 Notes, see Note 12. "Debt" in Item 8. "Financial Statements and Supplementary Data" in our 2015 Form 10-K.

Delek Promissory Note

We have outstanding a term promissory note to Delek Finance U.S. Inc. in the amount of \$104.7 million that we issued as part of the consideration for our acquisition of Republic. The principal will be paid in four equal installments on each of the first four anniversaries of the issuance date. The note bears interest of 5.75% per annum and is payable from time to time based on the outstanding principal balance until the promissory note is fully paid. In the event we are required to pay indebtedness under our revolving credit facility or our 2023 Notes on an accelerated basis, the holder of the term promissory note may cause us to repay unpaid principal and interest immediately. We recorded interest expense, including amortization of the deferred origination costs and fees associated with the loan agreement, of approximately \$2.8 million for the nine months ended September 30, 2016.

Short-Term Borrowings

We did not engage in short-term borrowings to fund our operations or for liquidity purposes during the nine months ended September 30, 2016.

Contractual Obligations

During the nine months ended September 30, 2016, our contractual obligations have not changed materially from those discussed in our Annual Report on Form 10-K for the year ended December 31, 2015.

Reinsurance

Our insurance subsidiaries utilize reinsurance agreements to transfer portions of the underlying risk of the business we write to various affiliated and third-party reinsurance companies. Reinsurance does not discharge or diminish our obligation to pay claims covered by the insurance policies we issue; however, it does permit us to recover certain incurred losses from our reinsurers and our reinsurance recoveries reduce the maximum loss that we may incur as a result of a covered loss event. We believe it is important to ensure that our reinsurance partners are financially strong and they generally carry at least an A.M. Best rating of "A-" (Excellent) at the time we enter into our reinsurance agreements. We also enter into reinsurance relationships with third-party captives formed by agents and other business partners as a mechanism for sharing risk and profit. The total amount, cost and limits relating to the reinsurance

coverage we purchase may vary from year to year based upon a variety of factors, including the availability of quality reinsurance at an acceptable price and the level of risk that we choose to retain for our own account. We have not experienced any significant changes to our reinsurance programs since December 31, 2015. For a more detailed description of our reinsurance arrangements, including our reinsurance arrangements with Maiden Reinsurance Ltd., see “Reinsurance” in “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2015.

Cash and Investment Portfolio

Cash, which consists of cash, cash equivalents and restricted cash and cash equivalents, along with our investment portfolio, which consists of fixed maturity securities, equity securities, and short-term investments, but excludes life settlement contracts, other investments and equity investments, increased \$1,981 million, or 28.4%, to \$8.9 billion for the nine months ended September 30, 2016 from \$7.0 billion as of December 31, 2015. Our investment portfolio is primarily classified as available-for-sale, as defined by ASC 320, Investments — Debt and Equity Securities. The increase in our investment portfolio during the nine

months ended September 30, 2016 compared to December 31, 2015 was primarily attributable to the acquisition of ARI, Genworth, Nationale Borg and Republic, as well as the utilization of excess cash from our equity offerings during 2016. Our fixed maturity securities had a fair value of \$7.0 billion and an amortized cost of \$6.8 billion as of September 30, 2016. Our equity securities, including both available-for-sale and trading equity securities, had a fair value of \$200.2 million with a cost of \$194.1 million as of September 30, 2016.

Our cash and investment portfolio, exclusive of life settlement contracts, equity investment in unconsolidated related party subsidiaries, and other investments is summarized in the table below by type of investment:

(Amounts in Thousands)	September 30, 2016		December 31, 2015	
	Carrying Value	Percentage of Portfolio	Carrying Value	Percentage of Portfolio
Cash, cash equivalents and restricted cash	\$1,649,995	18.4 %	\$1,312,669	18.9 %
Short-term investments	49,008	0.5	84,266	1.2
U.S. treasury securities	295,721	3.3	70,759	1.0
U.S. government agencies	7,679	0.1	45,558	0.7
Municipals	875,989	9.8	540,426	7.8
Foreign government	142,262	1.6	113,745	1.6
Commercial mortgage back securities	179,717	2.0	151,318	2.2
Residential mortgage backed securities:				
Agency backed	1,061,245	11.9	974,838	14.0
Non-agency backed	63,195	0.7	120,229	1.7
Collateralized loan / debt obligations	425,669	4.8	226,094	3.2
Asset-backed securities	25,581	0.3	31,837	0.5
Corporate bonds	3,966,757	44.4	3,158,993	45.3
Preferred stocks	3,996	—	4,989	0.1
Common stocks	196,186	2.2	126,779	1.8
	\$8,943,000	100.0 %	\$6,962,500	100.0 %

The table below summarizes the credit quality of our fixed maturity securities as of September 30, 2016 and December 31, 2015, as rated by Standard and Poor's:

	September 30, 2016		December 31, 2015	
U.S. Treasury	4.2	%	1.3	%
AAA	5.3		12.2	
AA	33.0		29.0	
A	29.7		28.8	
BBB, BBB+, BBB-	24.8		25.8	
BB, BB+, BB-	2.0		1.9	
B, B+, B-	0.6		0.1	
Other	0.4		0.9	
Total	100.0	%	100.0	%

The table below summarizes the average duration by type of fixed maturity as well as detailing the average yield as of September 30, 2016 and December 31, 2015:

	September 30, 2016		December 31, 2015	
	Average Yield %	Average Duration in Years	Average Yield %	Average Duration in Years
U.S. treasury securities	1.19	2.9	1.73	3.9
U.S. government agencies	1.71	4.5	2.63	4.2
Foreign government	1.84	5.9	2.27	5.7
Corporate bonds	3.36	5.9	3.33	6.1
Municipal bonds	3.03	7.4	3.33	6.9
Collateralized loan / debt obligations	4.98	0.6	4.22	1.1
Mortgage and asset backed securities	3.18	5.3	3.38	4.6

As of September 30, 2016, the weighted average duration of our fixed income securities was approximately 5.54 years and had an average yield of 3.26%.

Other investments represented approximately 1.4% and 1.4% of our total investment portfolio as of September 30, 2016 and December 31, 2015, respectively. At September 30, 2016, other investments consisted primarily of real estate partnerships totaling \$80 million, private limited partnerships totaling \$20 million, an interest in a syndicated term loan of \$6 million, and annuity and other investments totaling \$19 million. At December 31, 2015, other investments consisted primarily of real estate partnerships totaling \$64.9 million, private limited partnerships totaling \$21.2 million, an interest in a syndicated term loan of \$6.3 million, and annuity and other investments totaling \$6.7 million.

Based on guidance in FASB ASC 320-10-65, in the event of the decline in fair value of a debt security, a holder of that security that does not intend to sell the debt security and for whom it is not more than likely than not that such holder will be required to sell the debt security before recovery of its amortized cost basis, is required to separate the decline in fair value into (a) the amount representing the credit loss and (b) the amount related to other factors. The amount of total decline in fair value related to the credit loss shall be recognized in earnings as an other than temporary impairment ("OTTI"), with the amount related to other factors recognized in accumulated other comprehensive loss net loss, net of tax. OTTI credit losses result in a permanent reduction of the cost basis of the underlying investment. The determination of OTTI is a subjective process, and different judgments and assumptions could affect the timing of the loss realization.

Quarterly, our Investment Committee ("Committee") evaluates each available-for-sale security that has an unrealized loss as of the end of the subject reporting period for OTTI. We generally consider an investment, primarily equity securities, to be impaired when it has been in a significant unrealized loss position (in excess of 35% of cost if the issuer has a market capitalization of under \$1 billion and in excess of 25% of cost if the issuer has a market capitalization of \$1 billion or more) for over 24 months. In addition, the Committee uses a set of quantitative and qualitative criteria to review our investment portfolio to evaluate the necessity of recording impairment losses for other-than-temporary declines in the fair value of our investments. The criteria the Committee primarily considers include:

- the current fair value compared to amortized cost;
- the length of time the security's fair value has been below its amortized cost;
- specific credit issues related to the issuer such as changes in credit rating, reduction or elimination of dividends or non-payment of scheduled interest payments;

- whether management intends to sell the security and, if not, whether it is not more than likely than not that we will be required to sell the security before recovery of its amortized cost basis;
- the financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations or earnings;
- the occurrence of a discrete credit event resulting in the issuer defaulting on material outstanding obligations or the issuer seeking protection under bankruptcy laws; and
- other items, including company management, media exposure, sponsors, marketing and advertising agreements, debt restructuring, regulatory changes, acquisitions and dispositions, pending litigation, distribution agreements and general industry trends.

Impairment of investment securities results in a charge to operations when a market decline below cost is deemed to be other-than-temporary. We write down investments immediately that we consider to be impaired based on the above criteria collectively.

The total impairment charges of our fixed and equity securities classified as available-for-sale for the nine months ended September 30, 2016 and 2015 are presented in the table below:

(Amounts in Thousands)	2016	2015
Equity securities	\$19,977	\$1,276
Fixed maturity securities	—	8,842
Other investments	6,440	\$—
	\$26,417	\$10,118

Additionally, we had gross unrealized losses of \$37.7 million related to available-for-sale fixed maturity securities and \$6.3 million related to available-for-sale equity securities during the nine months ended September 30, 2016.

As of September 30, 2016, we own 2,242 purchase lots of corporate bonds in the financial institutions, industrial, and other sectors, which account for approximately 31%, 22.3% and 3%, respectively, and 87% in the aggregate of the total fair value of our fixed maturity securities, and 48%, 34% and 5%, respectively, and 56% in the aggregate of the total unrealized losses of our fixed maturity securities. We believe that the unrealized losses in these securities are the result, primarily, of general economic conditions and not the condition of the issuers, which we believe are solvent and have the ability to meet their obligations. Therefore, we expect that the market price for these securities should recover within a reasonable time. Additionally, we do not intend to sell the investments and it is not more likely than not that we will be required to sell the investments before recovery of their amortized cost basis.

Our investment in marketable equity securities classified as available-for-sale consist of investments in preferred and common stock across a wide range of sectors. We evaluated the near-term prospects for recovery of fair value in relation to the severity and duration of the impairment and have determined in each case that the probability of recovery is reasonable and we have the ability and intent to hold these investments until a recovery of fair value. We believe the gross unrealized losses of \$6.3 million as of September 30, 2016 are not material to our financial position.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk. Market risk is the risk of potential economic loss principally arising from adverse changes in the fair value of financial instruments. The major components of market risk affecting us are interest rate risk and equity price risk.

Interest Rate Risk. We had fixed maturity securities (excluding \$49.0 million of short-term deposits) with a fair value of \$7.0 billion and carrying value of \$6.8 billion as of September 30, 2016 that are subject to interest rate risk. Interest rate risk is the risk that we may incur losses due to adverse changes in interest rates. Fluctuations in interest rates have a direct impact on the market valuation of our fixed maturity securities. We manage our exposure to interest rate risk through a disciplined asset and liability matching and capital management process. In the management of this risk, the characteristics of duration, credit and variability of cash flows are critical elements. These risks are assessed regularly and balanced within the context of our liability and capital position.

The table below summarizes the interest rate risk associated with our fixed maturity securities by illustrating the sensitivity of the fair value and carrying value of our fixed maturity securities as of September 30, 2016 to selected hypothetical changes in interest rates, and the associated impact on our stockholders' equity. We anticipate that we will continue to meet our obligations out of income. We classify our fixed securities and equity securities as

available-for-sale. Temporary changes in the fair value of our fixed maturity securities impact the carrying value of these securities and are reported in our stockholders' equity as a component of other comprehensive income, net of deferred taxes.

The selected scenarios in the table below are not predictions of future events, but rather are intended to illustrate the effect such events may have on the fair value and carrying value of our available-for-sale fixed maturity securities and on our stockholders' equity, each as of September 30, 2016.

Hypothetical Change in Interest Rates	Fair Value	Estimated Change in Fair Value	Hypothetical Percentage (Increase)Decrease in Shareholders' Equity
(Amounts in Thousands)			
200 basis point increase	\$6,396,955	\$(646,860)	(17.5)%
100 basis point increase	6,704,445	(339,370)	(9.2)%
No change	7,043,815	—	—
100 basis point decrease	7,391,031	347,216	9.4%
200 basis point decrease	7,754,123	710,308	19.2%

Changes in interest rates would affect the fair market value of our fixed rate debt instruments but would not have an impact on our earnings or cash flow. We currently have \$1,420 million of debt instruments (including a \$168.0 million Maiden collateral loan) of which \$943 million are fixed rate debt instruments. A fluctuation of 100 basis points in interest on our variable rate debt instruments, which are tied to LIBOR, would affect our earnings and cash flows by \$4.8 million before income tax, on an annual basis, but would not affect the fair market value of the variable rate debt.

Liquidity Risk. Liquidity risk represents our potential inability to meet all payment obligations when they become due. We maintain sufficient cash and marketable securities to fund claim payments and operations. We purchase reinsurance coverage to mitigate the liquidity risk of an unexpected rise in claims severity or frequency from catastrophic events or a single large loss. The availability, amount and cost of reinsurance depend on market conditions and may vary significantly.

Credit Risk. Credit risk is the potential loss arising principally from adverse changes in the financial condition of the issuers of our fixed maturity securities and the financial condition of our third party reinsurers. Additionally, we have counter-party credit risk with our repurchase agreement counter-parties and interest rate swap counter-parties.

We address the credit risk related to the issuers of our fixed maturity securities by investing primarily in fixed maturity securities that are rated “BBB-” or higher by Standard & Poor’s. We also independently monitor the financial condition of all issuers of our fixed maturity securities. To limit our risk exposure, we employ diversification policies that limit the credit exposure to any single issuer or business sector.

We are subject to credit risk with respect to our third party reinsurers. Although our third party reinsurers are obligated to reimburse us to the extent we cede risk to them, we are ultimately liable to our policyholders on all risks that have ceded. As a result, reinsurance contracts do not limit our ultimate obligations to pay claims covered under the insurance policies we issue and we might not collect amounts recoverable from our reinsurers. We address this credit risk by selecting reinsurers that have an A.M. Best rating of “A-” (Excellent) or better at the time we enter into the agreement and by performing, along with our reinsurance brokers, periodic credit reviews of our reinsurers. If one of our reinsurers suffers a credit downgrade, we may consider various options to lessen the risk of asset impairment, including commutation, novation and letters of credit. See “Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations —Reinsurance.”

Counter-party credit risk with our repurchase agreement counter-parties is mitigated by obtaining collateral. We obtain collateral in the amount of 110% of the value of the securities we have sold with agreement to repurchase. Additionally, repurchase agreements are only transacted with pre-approved counter-parties.

Foreign Currency Risk. We write insurance in the United Kingdom and certain other European Union member countries through several of our foreign insurance subsidiaries. While the functional currencies of these subsidiaries

are the Euros and the British Pound, we write coverages that are settled in local currencies, including, primarily, the Euro and British Pound. We attempt to maintain sufficient local currency assets on deposit to minimize our exposure to realized currency losses. Assuming a 5% increase in the exchange rate of the local currency in which the claims will be paid and that we do not hold that local currency, we would recognize a \$70.3 million after tax realized currency loss based on our outstanding foreign denominated reserves of \$2,163 million at September 30, 2016.

Equity Price Risk. Equity price risk is the risk that we may incur losses due to adverse changes in the market prices of the equity securities we hold in our investment portfolio, which include common stocks, non-redeemable preferred stocks and master limited partnerships. We classify our portfolio of equity securities as either available-for-sale or trading and carry these securities on our balance sheet at fair value. Accordingly, adverse changes in the market prices of our equity securities result in a decrease

in the value of our total assets and a decrease in our shareholders' equity. As of September 30, 2016, the equity securities in our investment portfolio had a fair value of \$200.2 million, representing approximately 2% of our total invested assets on that date.

The table below illustrates the impact on our equity portfolio and financial position given a hypothetical movement in the broader equity markets. The selected scenarios in the table below are not predictions of future events, but rather are intended to illustrate the effect such events may have on the carrying value of our equity portfolio and on shareholders' equity as of September 30, 2016.

Hypothetical Change in S&P 500 Index	Fair Value	Estimated Change in Fair Value	Hypothetical Percentage (Increase) Decrease in Shareholders' Equity
(Amounts in Thousands)			
25% increase	\$ 250,228	\$ 50,046	1.0 %
No change	200,182	—	
25% decrease	150,136	(50,046)	(1.0)%

Off Balance Sheet Risk. Securities sold but not yet purchased represent our obligations to deliver the specified security at the contracted price and, thereby, create a liability to purchase the security in the market at prevailing prices. Our liability for securities to be delivered is measured at fair value and, as of September 30, 2016, was \$23.8 million and consisted primarily of equity securities. These transactions result in off-balance sheet risk, as our ultimate cost to satisfy the delivery of securities sold but not yet purchased may exceed the amount reflected at September 30, 2016.

Item 4. Controls and Procedures

Our management, with the participation and under the supervision of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are effective in ensuring that information required to be disclosed by us in the reports we file or submit under the Exchange Act is timely recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

During the most recent fiscal quarter, there have been no changes in our internal controls over financial reporting (as defined in Exchange Act Rule 13a-15(f) and 15d-15(f)) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

Securities Derivative Suit

We have received three stockholder demands for production, pursuant to Section 220 of the Delaware General Corporation Law, of our books and records. On April 7, 2015, one of those stockholders, Cambridge Retirement System, filed a derivative action in the Court of Chancery of the State of Delaware against the Company, as nominal defendant, and against our board of directors, Leah Karfunkel, and ACP Re, Ltd., as defendants. Cambridge amended its complaint on November 3, 2015 to add National General Holdings Corp. as a defendant. The stockholder purports to bring the derivative action on our behalf, alleging breaches of the duties of loyalty and care on the part of our directors and majority shareholders related to our transactions involving Tower Group International, Ltd. Cambridge's claim against National General Holdings Corp. and ACP Re, Ltd. is for unjust enrichment. The amended complaint seeks damages, disgorgement and reform of our governance practices. We believe the allegations in this action to be unfounded and will vigorously pursue our defenses; however, we cannot reasonably estimate the potential range of loss, if any.

Trust Risk Group dispute

In October 2014, a dispute arose between our subsidiary, AmTrust Europe Ltd., and its Italian medical liability broker, Trust Risk Group SpA ("TRG"), and agent, Trust Risk Italia SRL ("TRI," a subsidiary of TRG, collectively, "TRG"). TRG asserted that it was entitled to advanced commissions of approximately €95.8 million (or \$106.3 million) related to our Italian medical liability business produced by TRG. TRG deducted approximately €42.2 million (or \$46.8 million) from premium payable to us with the intention of deducting approximately €48.7 million (or \$54.1 million) from future premium payable to us. We disputed that TRG was entitled to advanced commission. We terminated our brokerage and agency relationship with TRG and TRI, respectively, and notified our insureds and retail brokers to pay premiums directly to us.

TRG initiated two arbitration proceedings against us in Milan, Italy seeking monetary damages based upon its allegations that we improperly terminated the producer agreements and an entitlement to advanced commissions on the business produced for us. Subsequently, we commenced litigation in England and the U.S. against Antonio Somma, the current or former principal of TRG, and Marco Lacchini, the chairman of the two arbitration proceedings pending in Milan, Italy. We brought the English and U.S. legal actions based on allegations that the two ongoing Italian arbitrations were not being conducted in accordance with the law, as well as certain other matters. We were successful in our application in Italy to remove Mr. Lacchini as chairman of the two arbitral tribunals.

On July 15, 2016, the parties reached a settlement agreement that included the dismissal of all actions, claims and counterclaims among the parties, the terms of which all parties agreed to keep confidential.

Other than as discussed above, we are not involved presently in any material litigation nor, to our knowledge, is any material litigation threatened against us or our properties.

Item 1A. Risk Factors

"Item 1A. Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2015 includes a discussion of our risk factors. Except as reported in Part II, Item 1A. "Risk Factors" of our Quarterly Report on Form 10-Q for the quarter ended June 30, 2016, there have been no material changes to the risk factors described in our Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In December 2013, our Board of Directors approved a \$150 million share repurchase program. In the second quarter of 2016, we entered into an amendment to our \$350 million credit facility that expanded the restrictive covenant related to our repurchase of shares of our outstanding common stock. In connection with the amendment, our Board of Directors approved an increase of \$200 million to our existing stock repurchase authorization. The Board of Directors may suspend, modify or terminate the repurchase program at any time without prior notice. Under this repurchase program, we are not obligated to repurchase any particular number of shares. Unless terminated earlier by resolution of our Board of Directors, the program will expire when we have repurchased the full value of the shares authorized. We completed approximately \$48.8 million of common share repurchases during the third quarter of 2016 under this authorization.

The following table summarizes our stock repurchases for the three-month period ended September 30, 2016:

Period	Average Total	Maximum
Number of Shares Purchased	Price Paid per Share	Number of Shares Purchased
		Number (or approximate dollar value)

Edgar Filing: Amtrust Financial Services, Inc. - Form 10-Q

			as Part of Publicly Announced Plan or Program	of Shares that May Yet be Purchased Under Plan or Program (1)
