PART I – FINANCIAL INFORMATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions for Form 10-Q and Article 210 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature. Operating results for the six month period ended February 28, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending August 31, 2011. For further information refer to the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2010.

NEW AMERICA ENERGY CORP.
(FORMERLY: ATHERON, INC.)
(AN EXPLORATION STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
February 28, 2011

NOTE 1 – SUMMARY OF ACCOUNTING POLICIES

Nature of Business

New America Energy Corp (formerly “Atheron, Inc.”) was incorporated in Nevada on May 8, 2006. It is a development stage company located in Makati City 1235, Philippines. New America Energy Corp was initially developing a technology for ethanol-methanol gasoline. However, it did not progress the development of this technology.

On November 5, 2010, we underwent a change of control and the Company’s newly appointed sole director and majority shareholder approved a name change to New America Energy Corp. and a twenty-five (25) new for one (1) old forward stock split of the Company’s issued and outstanding shares of common stock, such that its issued and outstanding shares of common stock increased from 2,150,000 to 53,750,000. This forward split did not affect the number of the Company’s authorized common shares, which remains at 75,000,000.

On November 16, 2010, the Nevada Secretary of State accepted for filing of the Certificate of Amendment to the Company’s Articles of Incorporation to change our name from Atheron Inc. to New America Energy Corp.

The forward stock split and name change has become effective with the Over-the-Counter Bulletin Board at the opening of trading on December 1, 2010 under the Company’s new symbol “NECA”. Our new CUSIP number is 641872 106.

The effect of the stock split has been recognized retroactively in the stockholders’ equity accounts as of May 8, 2006, the date of our inception, and in all shares and per share data in the financial statements.

On February 3, 2011 we entered into option agreements with First Liberty Power Corp. (“FLPC”), and GeoXplor Inc. (“GeoXplor”). Pursuant to the terms of the agreements, we acquired an option, as well as exploration rights, in certain unpatented mining claims located in Southern Utah which we refer to as the “UraVan Property”.

As a result of these agreements, the Company will be focused exclusively on the acquisition and development of mineral resource properties.

Exploration Stage Company

The Company is an Exploration Stage Company, as defined by Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 915, Development Stage Entities. The Company’s principal business is the acquisition and exploration of mineral resources. The Company has not presently determined whether its properties contain mineral reserves that are economically recoverable.

Basis of Presentation

Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. We believe that the disclosures are adequate to make the financial information presented not misleading. These condensed financial statements should be read in conjunction with the audited financial statements and the notes thereto for the year ended August 31, 2010. All

adjustments were of a normal recurring nature unless otherwise disclosed. In the opinion of management, all adjustments necessary for a fair statement of the results of operations for the interim period have been included. The results of operations for such interim periods are not necessarily indicative of the results for the full year.

Cash and Cash Equivalents

We consider all highly liquid investments with maturities of three months or less to be cash equivalents.

NEW AMERICA ENERGY CORP.
(FORMERLY: ATHERON, INC.)
(AN EXPLORATION STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
February 28, 2011

NOTE 1 – SUMMARY OF ACCOUNTING POLICIES (continued)

Fair Value of Financial Instruments

New America Energy Corp's financial instruments consist of cash and cash equivalents and a loan payable to a related party. The carrying amount of these financial instruments approximates fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in these financial statements.

Mineral Property Costs

Mineral exploration and development costs are accounted for using the successful efforts method of accounting.

Property acquisition costs - Mineral property acquisition costs are capitalized as mineral exploration properties. Upon achievement of all conditions necessary for reserves to be classified as proved, the associated acquisition costs are reclassified to proved properties. Costs relating to options to acquire mineral rights are expensed when incurred.

Exploration costs - Geological and geophysical costs and the costs of carrying and retaining undeveloped properties are expensed as incurred.

Impairment of Mineral Properties

Unproved mineral properties are periodically assessed for impairment of value, and a loss is recognized at the time of the impairment by providing an impairment allowance. An asset would be impaired if the undiscounted cash flows were less than its carrying value. Impairments are measured by the amount by which the carrying value exceeds its fair value. Because the Company uses the successful efforts method, the Company assesses its properties individually for impairment, instead of on an aggregate pool of costs. Unproved properties are evaluated periodically for impairment. Impairment of unproved properties is based on the facts and circumstances surrounding each lease and is recognized based on management's evaluation, which may include exploratory experience, expiration of leasehold, and management's intent regarding future development.

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Basic Loss Per Share

Basic loss per share has been calculated based on the weighted average number of shares of common stock outstanding during the period.

NEW AMERICA ENERGY CORP.
(FORMERLY: ATHERON, INC.)
(AN EXPLORATION STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
February 28, 2011

NOTE 1 – SUMMARY OF ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow.

NOTE 2 – RELATED PARTY TRANSACTIONS

The Company had received loans totaling \$46,985 for working capital from a shareholder and officer of the Company. The loans were unsecured, non-interest bearing and due upon demand. On November 5, 2010, the loans owed to a related party were forgiven and were recorded as additional paid-in-capital.

On November 1, 2010, the Company entered into a three-year consulting agreement with the Company's sole director. Under the terms of the agreement, the consultant shall be paid \$2,500 a month, payable on the 1st of each month, pursuant to the services to be rendered by the consultant. During the six month period ended February 28, 2011, the Company made cash payments of \$10,000 in respect to the consulting agreement.

On December 23, 2010, the Company's sole director cancelled and returned to treasury 5,000,000 post split common shares.

During the six month period ended February 28, 2011, the Company's sole director paid \$1,000 for operating expense on behalf of the Company. The Company did not make cash payments to him, leaving \$1,000 on the accounts payable – related parties.

NOTE 3 – MINERAL PROPERTY RIGHTS

On February 3, 2011 we entered into property option agreements with First Liberty Power Corp. ("FLPC"), and GeoXplor Inc. ("GeoXplor"). Pursuant to the terms of the agreements, we acquired an option, as well as exploration rights, in certain unpatented mining claims located in Southern Utah which we refer to as the "Uravan Property". Pursuant to the terms of the agreements, we agreed to provide the following payments and other consideration to the two parties:

To FLPC:

-

Edgar Filing: NEW AMERICA ENERGY CORP. - Form 10-Q

\$10,000 on the execution of the agreement; \$33,333 within 120 days of the execution of the agreement; \$33,333 within 240 days of the execution of the agreement; and \$33,334 within 360 days of the execution of the agreement;

- 500,000 shares of our common stock; and,
- A 0.5% net smelter royalty on all net revenue derived from production from the Uravan Property.

To GeoXplor:

- \$50,000 on February 28, 2011; \$50,000 on May 31, 2011; \$100,000 on the 1st year anniversary of the agreement;
- \$100,000 on the 2nd year anniversary of the agreement; \$100,000 on the 3rd year anniversary of the agreement; and
 - \$100,000 on the 4th year anniversary of the agreement;

F-6

NEW AMERICA ENERGY CORP
(FORMERLY: ATHERON, INC)
(AN EXPLORATION STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
February 28, 2011

NOTE 3 – MINERAL PROPERTY RIGHTS (continued)

To GeoXplor: (continued)

- 500,000 shares of our common stock on execution of the agreement; 250,000 shares of our common stock on or before the date one year from the date of the agreement; 250,000 shares of our common stock on or before the date two years from the date of the agreement; and 250,000 shares of our common stock on or before the date three years from the date of the agreement; and
 - A 2.5% net smelter royalty on all net revenue derived from production from the Uravan Property.

If we are unable to make any of the share issuances or payments under the agreements with GeoXplor and FLPC, the property rights would revert to FLPC who would be responsible for payments to GeoXplor.

During the six month period ended February 28, 2011, in accordance with the terms of the agreement, the Company made cash payments in the amount of \$60,000, and issued 500,000 shares of common stock to FLPC and 500,000 shares of common stock to GeoXplor. The issuance of 1,000,000 shares of common stock was valued at the market value of the stock on the issuance date.

At February 28, 2011, the Company expensed the entire amount of \$360,000, \$60,000 paid in cash and \$300,000 as the deemed value of the 500,000 shares of common stock issued, as option costs in respect of the mineral property. The Company is currently in the prospecting phase, with no proven or probable reserves having yet been determined.

NOTE 4 – LIQUIDITY AND GOING CONCERN

We have negative working capital, have incurred losses since inception, and have not yet generated revenues. As we are in the exploration stage with our recently acquired mineral claims we do not expect to generate revenues for some period of time, if ever. These factors create substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustment that might be necessary if the Company is unable to continue as a going concern.

The ability of the Company to continue as a going concern is dependent on the Company generating cash from the sale of its common stock and/or obtaining debt financing and attaining future profitable operations. Management's plans include selling its equity securities and obtaining debt financing to fund its capital requirement and ongoing operations; however, there can be no assurance the Company will be successful in these efforts.

NOTE 5 – CAPITAL STOCK

On December 23, 2010, the Company's sole director cancelled and returned to treasury 5,000,000 shares of common stock.

During the six month period ended February 28, 2011, the Company issued shares of common stock as follows:

- 400,000 shares of common stock were issued pursuant to private placements at \$0.30 per common share for gross proceeds of \$120,000.

- 1,000,000 shares of common stock were issued pursuant to the mineral property assignment and acquisition agreement and mineral property option agreement. (See Note 3 – Mineral property rights).

NOTE 6 - SUBSEQUENT EVENTS

The Company has evaluated subsequent events from the date of the balance sheet to the date of this filing and determined there are no other events to be disclosed.

F-7

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

This quarterly report contains forward-looking statements relating to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "should", "intends", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential", or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors which may cause our or our industry's actual results, levels of activity or performance to be materially different from any future results, levels of activity or performance expressed or implied by these forward-looking statements.

Such factors include, among others, the following: international, national and local general economic and market conditions; demographic changes; the ability of the Company to sustain, manage or forecast its growth; the ability of the Company to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other factors referenced in this and previous filings.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity or performance. Except as required by applicable law and including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Given these uncertainties, readers of this Form 10-Q and investors are cautioned not to place undue reliance on such forward-looking statements. We disclaim any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

All dollar amounts stated herein are in US dollars unless otherwise indicated.

The management's discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with generally accepted accounting principles ("GAAP") in the United States of America. The following discussion of our financial condition and results of operations should be read in conjunction with our audited financial statements for the year ended August 31, 2010, along with the accompanying notes. As used in this report, the terms "we", "us", "our", and the "Company" means New America Energy Corp.

Overview

We were incorporated as "Atheron, Inc." in the State of Nevada on May 8, 2006. On November 5, 2010 we underwent a change of control and on November 15, 2010 we changed our name to New America Energy Corp., and began looking for opportunities to acquire exploration stage oil and gas or mineral properties. On November 15, 2010 we effected a split of our issued and outstanding common shares on a 25 for 1 basis. We maintain our business offices at 5614C Burbank Road SE, Calgary, Alberta, T2H 1Z4 and our telephone number is 800-508-6149.

Previous Business

Before we went through a change of control and business focus, we were engaged in the business of developing a technology for ethanol-methanol gasoline. Since our inception, we had been attempting to raise money to complete our product, but were not been able to secure the funds necessary to do so. As we were unable to raise the capital necessary to develop our business plan, we began a search for other business opportunities of possible benefit to our shareholders.

Current Business

Shortly after changing out business focus to exploration stage properties, we identified an opportunity to acquire the Uravan Property from FLPC and GeoXplor. We entered into the agreement with the two parties on February 3, 2011 and will now undertake exploration activities on the Uravan Property.

We are an exploration stage company and have not generated any revenues to date. We are in the initial stages of developing our mineral properties, have very limited cash resources and are in need of substantial additional capital to execute our business plan. For these and other reasons, our independent auditors have raised substantial doubt about our ability to continue as a going concern.

Material Changes in Financial Condition

Liquidity & Capital Resources

We are an exploration stage company engaged in the exploration of mineral properties. To date, we have not generated any revenues and are currently in the prospecting phase.

As at February 28, 2011, our cash on hand was \$35,248 as compared to \$nil as of August 31, 2010. Our total liabilities were \$9,392, as compared to \$55,872 as at August 30, 2010. This significant change was as a result of all loans owed to a related party being forgiven and recorded as additional paid-in-capital, and a private placement in the amount of \$120,000 by way of the issuance of 400,000 shares, 200,000 issued on December 23, 2010, and 200,000 issued on February 14, 2011.

On February 3, 2011 pursuant to the option of certain mineral claims (See Note 3 – Mineral property rights) we are required to pay the following additional payments to each of FLPC and GeoXplor in accordance with the provisions of the agreements:

To FLPC:

- \$33,333 within 120 days of the execution of the agreement; \$33,333 within 240 days of the execution of the agreement; and \$33,334 within 360 days of the execution of the agreement;
 - A 0.5% net smelter royalty on all net revenue derived from production from the UraVan Property.

To GeoXplor:

- \$50,000 on May 31, 2011; \$100,000 on the 1st anniversary of the agreement;
- \$100,000 on the 2nd anniversary of the agreement; \$100,000 on the 3rd anniversary of the agreement; and
 - \$100,000 on the 4th anniversary of the agreement;
- 250,000 shares of our common stock on or before the date one year from the date of the agreement; 250,000 shares of our common stock on or before the date two years from the date of the agreement; and 250,000 shares of our common stock on or before the date three years from the date of the agreement; and
 - A 2.5% net smelter royalty on all net revenue derived from production from the UraVan Property.

In order to meet these requirements we will be required to raise a minimum of \$83,333 within the next 3 months, and \$33,333 within the next 6 months, with a further \$133,334 due upon the one year anniversary of the agreements, February 3, 2012.

Our ability to meet our financial liabilities and commitments is primarily dependent upon the continued issuance of equity to new stockholders, the ability to borrow funds, and ultimately upon our ability to achieve and maintain profitable operations. There are no assurances that we will be able to obtain required funds for our continued operations. There can be no assurance that additional financing will be available to us when needed or, if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain the additional financing on a timely basis, we will not be able to meet our other obligations as they become due and we will be forced to scale down or perhaps even cease the operation of our business.

There is substantial doubt about our ability to continue as a going concern as the continuation of our business is dependent upon obtaining further short and long-term financing, achieving success in our proposed exploration activities on the UraVan property, and achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholder. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Material Changes in Results of Operations

We have recently changed our business plan with the change in control of the Company and the option of certain mineral claims on which we intend to commence exploration activities.

Due to this change in business, we have a net loss of (\$393,302) for the six month period ended February 28, 2011 as compared to a net loss of (\$4,000) for the six month period ended February 28, 2010. This loss is mainly comprised of an amount of \$360,000 which the Company has recorded as an expense with respect to an option on certain mineral claims (See Note 3 – Mineral property rights), for the comparable period in 2010 we did not have any similar expense. We also recorded an increase in professional fees from \$4,000 (2010) to \$22,135 (2011) and as a result of a consulting contract with our sole director for \$2,500 per month, we recorded an expense of \$10,000 in management fees (2011) with no similar expense in the same period in 2010.

For the three months ending February 28, 2011, our net loss was (\$389,515) with revenues of \$nil.

Off- Balance Sheet Arrangements

The Company presently does not have any off-balance sheet arrangements.

Going Concern

In their audit report relating to our financial statements for the period ended August 31, 2010, our independent accountants indicated that there are a number of factors that raise substantial doubt about our ability to continue as a going concern. Such factors identified in the report are our lack of revenue resulting in a net loss position and insufficient funds to meet our business objectives. All of these factors continue to exist and raise doubt about our status as a going concern.

We anticipate that additional funding will be required in the form of equity financing from the sale of our common stock. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our directors to meet our obligations over the next twelve months.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A smaller reporting company is not required to provide the information required by this Item.

ITEM 4. CONTROLS AND PROCEDURES

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of February 28, 2011. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer, Rick Walchuk. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of February 28, 2011, our disclosure controls and procedures are effective. There have been no changes in our internal controls over financial reporting during the quarter ended February 28, 2011.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving our objectives and our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at that reasonable assurance level. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None

ITEM 1A. RISK FACTORS

A smaller reporting company is not required to provide the information required by this Item.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There are no unregistered sales of equity securities sold by the registrant during the period covered by this report that have not been previously included in a Current Report on Form 8-K.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. (REMOVED AND RESERVED)

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS
