NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. General Information

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission and therefore do not include all information and footnotes necessary for a fair statement of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States. The year-end condensed consolidated balance sheet data was derived from audited financial statements, but also does not include all disclosures required by accounting principles generally accepted in the United States. However, in the opinion of Briggs & Stratton Corporation (the Company), adequate disclosures have been presented to prevent the information from being misleading, and all adjustments necessary to fairly present the results of operations and financial position have been included. All of these adjustments are of a normal recurring nature, except as otherwise noted.

Interim results are not necessarily indicative of results for a full year. The information included in these condensed consolidated financial statements should be read in conjunction with the financial statements and the notes thereto that were included in the Company's latest Annual Report on Form 10-K.

2. New Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The ASU was issued as part of the FASB Simplification Initiative and involves several aspects of accounting for share-based payment transactions, including the income tax consequences and classification on the statement of cash flows. The guidance is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted. The Company is currently assessing the impact of this new accounting pronouncement on the Company's results of operations, financial position, and cash flows.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which is intended to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. Certain qualitative and quantitative disclosures are required, as well as a modified retrospective recognition and measurement of impacted leases. The new guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2018, with early adoption permitted. The Company is currently assessing the impact of this new accounting pronouncement on the Company's results of operations, financial position, and cash flows.

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments-Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities (ASU No. 2016-01). ASU No. 2016-01 enhances the existing financial instruments reporting model by modifying fair value measurement tools, simplifying impairment assessments for certain equity instruments, and modifying overall presentation and disclosure requirements. The new guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2017, with early adoption permitted. The Company is currently assessing the impact of this new accounting pronouncement on the Company's results of operations, financial position, and cash flows.

In November 2015, the FASB issued ASU No. 2015-07, Balance Sheet Classification of Deferred Taxes (Topic 740). Current guidance requires an entity to separate deferred income tax liabilities and assets into current and noncurrent amounts in a classified statement of financial position; however, the new guidance requires that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. This guidance is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting

period. Early adoption is permitted. The Company is currently assessing the potential impact of this new accounting pronouncement on the Company's financial position and cash flows.

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs (ASU 2015-03). ASU No. 2015-03 amends the guidance within ASC Topic 835, Interest, to require that debt issuance costs related to a recognized debt liability be presented on the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt premiums and discounts. In August 2015, the FASB

Table of Contents

further clarified their views on debt costs incurred in connection with a line of credit arrangement by issuing ASU No. 2015-15 Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements (ASU 2015-15). ASU No. 2015-15 amends the guidance within ASC Topic 835 to allow an entity to defer and present debt issuance costs associated with a line of credit arrangement as an asset, regardless of whether there are any outstanding borrowings on the line of credit arrangement. The new guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2015, with early adoption permitted. The Company is currently assessing the impact of this new accounting pronouncement on the Company's financial position and cash flows.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period, under either full or modified retrospective adoption. Early application is only permitted for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently assessing the potential impact of this new accounting pronouncement on the Company's results of operations, financial position, and cash flows.

3. Accumulated Other Comprehensive Income (Loss)

The following tables set forth the changes in accumulated other comprehensive income (loss) (in thousands):

	Three Months Ended March 27, 2016				
	Cumulative Translation Adjustments	Derivative Financial Instruments	Pension and Postretirement Benefit Plans	Marketable Securities	Total
Beginning Balance	\$(33,300)	\$ (89)	\$ (256,652)	\$ 2,363	\$(287,678)
Other Comprehensive Income (Loss) Before Reclassification	5,661	(730)	—	(286)	4,645
Income Tax Benefit (Expense)	—	274	—	107	381

(2) Amounts reclassified to net income (loss) are included in the computation of net periodic expense, which is presented in cost of goods sold or engineering, selling, general and administrative expenses. See Note 9 for information related to pension and postretirement benefit plans.

4. Acquisitions

On August 29, 2014, the Company acquired all of the outstanding shares of Allmand Bros., Inc. ("Allmand") of Holdrege, Nebraska for total cash consideration of \$59.9 million, net of cash acquired. Allmand is a leading designer and manufacturer of high quality towable light towers, industrial heaters, and solar LED arrow boards. Its products are used in a variety of industries, including construction, roadway, oil and gas, mining, and sporting and special events. Allmand's products are generally powered by diesel engines, and distributed through equipment rental companies, equipment dealers and distributors. Allmand sells its products and service parts in approximately 40 countries. During fiscal 2015, the Company recorded a purchase price allocation based on its estimates of fair value. The purchase price allocation resulted in the recognition of \$15.6 million of goodwill, which was allocated to the Products Segment, and \$24.1 million of intangible assets, including \$15.7 million of customer relationships, \$8.1 million of tradenames, and \$0.3 million of other intangible assets.

On May 20, 2015, the Company acquired all of the outstanding shares of Billy Goat Industries, Inc. ("Billy Goat") of Lee's Summit, Missouri for total cash consideration of \$28.3 million, net of cash acquired. Billy Goat is a leading manufacturer of specialty turf equipment, which includes aerators, sod cutters, overseeders, power rakes, brush cutters, walk behind blowers, lawn vacuums, and debris loaders. During fiscal 2015, the Company recorded a purchase price allocation based on its estimates of fair value. The purchase price allocation resulted in the recognition of \$9.2 million of goodwill, which was allocated to the Products Segment, and \$16.4 million of intangible assets, including \$12.0 million of customer relationships, \$4.0 million of tradenames, and \$0.4 million of other intangible assets.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

The results of operations of the acquisitions have been included in the Consolidated Condensed Statements of Operations since the date of acquisition. Pro forma financial information and allocation of the purchase price are not presented as the effects of the acquisitions are not material to the Company's consolidated results of operations or financial position.

5. Restructuring Actions

In fiscal 2015, the Company announced and began implementing restructuring actions to narrow its assortment of lower-priced Snapper consumer lawn and garden equipment and consolidate its Products Segment manufacturing facilities in order to further reduce costs. The Company continues to focus on premium residential products to customers through its Snapper and Simplicity brands and commercial products through its Snapper Pro and Ferris brands. The Company closed its McDonough, Georgia location in the fourth quarter of fiscal 2015 and consolidated production into existing facilities. Production of pressure washers, riding mowers, and snow throwers has been moved to the Company's Wauwatosa, Wisconsin facility. At March 27, 2016, the Company had \$3.5 million classified as assets held for sale, which is included in Prepaid Expenses and Other Current Assets within the Condensed Consolidated Balance Sheets, related to the McDonough location.

The Products Segment recorded pre-tax charges of \$0.7 million and \$5.8 million during the third quarter and first nine months of fiscal 2016, respectively. As of March 27, 2016, the Products Segment cumulative pre-tax restructuring costs associated with the restructuring actions announced in fiscal 2015 are \$33.1 million. Total cumulative pre-tax restructuring cost estimates for the Product Segment restructuring actions are \$33 million to \$35 million.

During the first quarter of fiscal 2016, the Company implemented restructuring actions within the Engines Segment. These actions, which were completed in the first quarter of fiscal 2016, included a headcount reduction at its plant in Chongqing, China to offset lower production of engines used on snow throwers as well as changes in salaried personnel in the United States. The Engines Segment recorded pre-tax charges of \$1.4 million during the first quarter of fiscal 2016, which represented the cumulative pre-tax restructuring costs and the total costs expected to be incurred under these restructuring actions.

The Company reports restructuring charges associated with manufacturing and related initiatives as costs of goods sold within the Condensed Consolidated Statements of Operations. Restructuring charges reflected as costs of goods sold include, but are not limited to, termination and related costs associated with manufacturing employees, asset impairments and accelerated depreciation relating to manufacturing initiatives, and other costs directly related to the restructuring initiatives implemented. The Company reports all other non-manufacturing related restructuring charges as engineering, selling, general and administrative expenses within the Condensed Consolidated Statements of Operations.

The restructuring actions discussed above resulted in pre-tax charges of \$0.7 million (\$0.5 million after tax or \$0.01 per diluted share) and \$7.1 million (\$4.7 million after tax or \$0.11 per diluted share) for the third quarter and first nine months of fiscal 2016, respectively.

The following is a rollforward of the restructuring reserve (included in Accrued Liabilities within the Condensed Consolidated Balance Sheets) attributable to Engines Segment restructuring activities for the nine month period ended March 27, 2016 (in thousands):

	Termination Benefits	Other Costs	Total
Reserve Balance at June 28, 2015	\$ —	\$ —	—\$—
Provisions	1,354	—	1,354
Cash Expenditures	(750)) —	(750)
Other Adjustments	(182)) —	(182)

The following is a rollforward of the restructuring reserve (included in Accrued Liabilities within the Condensed Consolidated Balance Sheets) attributable to Products Segment restructuring activities for the nine month period ended March 27, 2016 (in thousands):

	Termination Benefits	Other Costs	Total
Reserve Balance at June 28, 2015	\$ 2,107	\$ —	\$2,107
Provisions	—	5,762	5,762
Cash Expenditures	(1,932)	(4,219)	(6,151)
Other Adjustments (1)	—	(1,543)	(1,543)
Reserve Balance at March 27, 2016	\$ 175	\$ —	\$175

(1) Other adjustments includes \$1.5 million of asset impairments.

6. Goodwill and Other Intangible Assets

Goodwill represents the excess of purchase price over tangible and intangible assets acquired less liabilities assumed arising from business combinations. Goodwill is assigned to reporting units. The Engines reporting segment is a reporting unit. The Products reporting segment has three reporting units, which are Turf & Consumer, Standby, and Job Site.

The changes in the carrying amount of goodwill by reporting segment for the period ended March 27, 2016 are as follows (in thousands):

	Engines	Products	Total
Goodwill Balance at June 28, 2015	\$138,281	\$27,241	\$165,522
Impairment Loss	—	(7,651)	(7,651)
Acquisitions	—	4,104	4,104
Effect of Translation	(638)	(339)	(977)
Goodwill Balance at March 27, 2016	\$137,643	\$23,355	\$160,998

At March 27, 2016 and June 28, 2015, accumulated goodwill impairment losses, as recorded in the Products segment, were \$131.4 million and \$123.7 million, respectively.

Goodwill and other indefinite-lived intangibles assets are not amortized. The Company evaluates goodwill and other indefinite-lived intangible assets for impairment annually as of the end of the fourth fiscal quarter, or more frequently if events or circumstances indicate that the assets may be impaired.

For the goodwill evaluation for certain reporting units, the Company generally first determines based on a qualitative assessment whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. For other reporting units or if the Company's qualitative assessment conclusion is that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company will test goodwill using a two-step process. The first step of the goodwill impairment test is to identify a potential impairment by comparing the carrying values of each of the Company's reporting units to their estimated fair values as of the test dates. The estimates of fair value of the reporting units are computed using an income approach. The income approach utilizes a multi-year forecast of estimated cash flows and a terminal value at the end of the cash flow period. The forecast period assumptions consist of internal projections that are based on the Company's budget and long-range strategic plan. The discount rate used at the test date is the weighted-average cost of capital which reflects the overall level of inherent risk of the reporting unit and the rate of return an outside investor would expect to earn.

If the fair value of a reporting unit exceeds its book value, goodwill of the reporting unit is not deemed impaired and the second step of the impairment test is not performed. If the book value of a reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. The second step of the goodwill impairment test compares the implied fair value of the reporting unit's goodwill with the carrying amount of that goodwill. The implied fair value of goodwill is determined by allocating the estimated fair value of the reporting unit to the estimated fair value of its existing tangible assets and liabilities as well as existing identified intangible assets and previously unrecognized intangible assets in a manner similar to a purchase price

allocation. The unallocated portion of the estimated fair value of the reporting unit is the implied fair value of

14

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess.

For purposes of the tradename impairment analysis, the Company performs its assessment of fair value based on an income approach using the relief-from-royalty method. This methodology assumes that, in lieu of ownership, a third party would be willing to pay a royalty in order to exploit the related benefits of these types of assets. The Company determines the fair value of each tradename by applying a royalty rate to a projection of net sales discounted using a risk adjusted cost of capital. The Company believes the relief-from-royalty method to be an acceptable methodology due to its common use by valuation specialists in determining the fair value of intangible assets. Sales growth rates are determined after considering current and future economic conditions, recent sales trends, discussions with customers, planned timing of new product launches and many other variables. Each royalty rate is based on profitability of the business to which it relates and observed market royalty rates. The fair value of indefinite-lived intangibles is considered a non-recurring level 3 fair value measurement in accordance with ASC 820 Fair Value Measurement. The Company determined that its forecasted cash flow estimates used in the goodwill assessment and other intangibles assessment for its Job Site reporting unit as of March 27, 2016 were adversely impacted by elevated channel inventories. The inventory channel for job site products, particularly portable light towers and portable heaters, was elevated due to the rapid and significant change in market demand following the reduction in North American oil production and was compounded by the recent mild winter.

The Company performed an interim goodwill impairment test on its Job Site reporting unit as of March 27, 2016. As a result of the test, the Company concluded that the carrying value of the Job Site reporting unit exceeded its fair value as of March 27, 2016. The Company recorded a non-cash goodwill impairment charge in the third quarter of fiscal 2016 of \$7.7 million, which was determined by comparing the carrying value of the reporting unit's goodwill with the implied fair value of goodwill for the reporting unit. The impairment charge is a non-cash expense that was recorded as a separate component of operating expenses. The goodwill impairment was not deductible for income tax purposes. The impairment charge did not adversely affect the Company's debt position, cash flow, liquidity or compliance with financial covenants under its revolving credit facility.

The Company also performed the impairment test on its indefinite-lived intangible assets in its Job Site reporting unit as of March 27, 2016. Based on the results of the impairment test, no indefinite-lived intangible asset impairment charges were taken.

The assumptions included in the impairment test require judgment, and changes to these inputs could impact the results of the calculation. Other than management's internal projections of future cash flows, the primary assumptions used in the impairment test were the weighted-average cost of capital and long-term growth rates.

Quantitative assessments of goodwill and tradenames involve significant judgments by management. Although the Company's cash flow forecasts are based on assumptions that are considered reasonable by management and consistent with the plans and estimates management is using to operate the underlying businesses, there is significant judgment in determining the expected future cash flows attributable to these businesses. Changes in such estimates or the application of alternative assumptions could produce significantly different results.

Definite-lived intangible assets consist primarily of customer relationships and patents. These definite-lived intangible assets are amortized over their estimated useful lives and are subject to impairment testing if events or changes in circumstances indicate that an asset may be impaired. The Company performed the impairment test on its definite-lived intangible assets in its Job Site reporting unit as of March 27, 2016. Based on the results of the impairment test, no definite-lived intangible asset impairment charges were taken.

7. Earnings Per Share

The Company computes earnings per share using the two-class method, an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared and participation rights in undistributed earnings. The Company's unvested grants of restricted stock, restricted stock units, and deferred stock awards contain non-forfeitable rights to dividends (whether paid or unpaid), which are required to be treated as participating securities and included in the computation of basic earnings per share.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

Information on earnings per share is as follows (in thousands, except per share data):

	Three Months Ended		Nine Months Ended	
	March 27, March 29, 2016 2015		March 27, March 29, 2016 2015	
Net Income	\$26,823	\$33,921	\$21,212	\$25,586
Less: Allocation to Participating Securities	(579)	(893)	(402)	(626)
Net Income Available to Common Shareholders	\$26,244	\$33,028	\$20,810	\$24,960
Average Shares of Common Stock Outstanding	42,621	44,160	43,158	44,605
Diluted Average Shares Outstanding	42,889	44,241	43,377	44,656
Basic Earnings Per Share	\$0.62	\$0.75	\$0.48	\$0.56
Diluted Earnings Per Share	\$0.61	\$0.75	\$0.48	\$0.56

The dilutive effect of the potential exercise of outstanding stock-based awards to acquire common shares is calculated using the treasury stock method. The following options to purchase shares of common stock were excluded from the calculation of diluted earnings per share as the exercise prices were greater than the average market price of the common shares:

	Three Months Ended		Nine Months Ended	
	March 27, March 29, 2016 2015		March 27, March 29, 2016 2015	
Options to Purchase Shares of Common Stock (in thousands)	408	845	910	845
Weighted Average Exercise Price of Options Excluded	\$20.82	\$20.33	\$20.31	\$20.33

On August 13, 2014, the Board of Directors of the Company authorized up to \$50 million in funds associated with the common share repurchase program with an expiration date of June 30, 2016. As of March 27, 2016, the total remaining authorization was approximately \$6.9 million. On April 21, 2016, the Board of Directors authorized up to an additional \$50 million in funds for use in the common share repurchase program with an expiration date of June 29, 2018. The common share repurchase program authorizes the purchase of shares of the Company's common stock on the open market or in private transactions from time to time, depending on market conditions and certain governing loan covenants. During the nine months ended March 27, 2016, the Company repurchased 1,841,078 shares on the open market at an average price of \$18.14 per share, as compared to 2,039,399 shares purchased on the open market at an average price of \$19.40 per share during the nine months ended March 29, 2015.

8. Investments

Investments represent the Company's investments in unconsolidated affiliated companies and marketable securities. During the third quarter of fiscal 2014, the Company joined with one of its independent distributors to form Power Distributors, LLC (the venture) to distribute service parts. The Company contributed non-cash assets in exchange for receiving an ownership interest in the venture. As a result of the transaction, the Company recorded an investment of \$6.5 million. In the first quarter of fiscal 2015, a second independent distributor joined the venture and, as a result, the Company recorded an additional investment of \$2.8 million. During the second quarter of fiscal 2015 and the first quarter of fiscal 2016, the venture acquired the assets of a third and fourth independent distributor, respectively. During the third quarter of fiscal 2016, the Company contributed \$19.1 million in cash as well as non-cash assets in exchange for receiving an additional ownership interest in the venture, which acquired the assets of the final independent distributor needed to achieve a national distribution network during the third quarter of fiscal 2016 as well. The Company uses the equity method to account for this investment and the earnings of the unconsolidated affiliate are allocated between the Engines and Products Segments. At March 27, 2016 and June 28, 2015, the

Company's total investment in the venture was \$31.6 million and \$10.0 million, respectively, and its ownership percentage was 38.0% and 11.9%, respectively. The Company's equity method investments also include entities that are suppliers for the Engines Segment.

The Company concluded that its equity method investments are integral to its business. The equity method investments provide manufacturing and distribution functions, which are important parts of its operations. Beginning

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

with the third quarter of fiscal 2016, the Company is prospectively classifying its equity in earnings of unconsolidated affiliates as a separate line item within Income from Operations. For periods prior to the third quarter of fiscal 2016, equity in earnings from unconsolidated affiliates is classified in Other Income, Net.

The Company's investment in marketable securities relates to its ownership of common stock of a publicly-traded company. The Company classifies its investment as available-for-sale securities, and it is reported at fair value.

Unrealized gains and losses, net of the related tax effects, are reported as a separate component of Accumulated Other Comprehensive Income (Loss). At June 28, 2015, the investment was not recorded. During the second quarter of fiscal 2016, the Company corrected its investment balance to report it at fair value. The correction, which primarily related to prior periods, was not material. At March 27, 2016, the available-for-sale securities had a cost basis and fair value of \$0 and \$3.5 million, respectively, and unrealized gains, net of tax, of \$2.2 million.

9. Pension and Postretirement Benefits

The Company has noncontributory defined benefit retirement plans and postretirement plans covering certain employees. The following tables summarize the plans' income and expense for the periods indicated (in thousands):

	Pension Benefits		Other Postretirement Benefits	
	Three Months Ended		Three Months Ended	
	March 27, 2016	March 29, 2015	March 27, 2016	March 29, 2015
Components of Net Periodic Expense (Income):				
Service Cost	\$ 883	\$ 858	\$ 65	\$ 74
Interest Cost on Projected Benefit Obligation	13,028	12,445	811	902

Actuarial Loss	3,252	3,315	1,011	1,162
Net Periodic Expense (Income)	\$ (592)	\$ (1,996)	\$ 1,222	\$ 1,449
	Pension Benefits		Other Postretirement Benefits	
	Nine Months Ended		Nine Months Ended	
	March 27, 2016	March 29, 2015	March 27, 2016	March 29, 2015
Components of Net Periodic Expense (Income):				
Service Cost	\$ 2,649	\$ 2,574	\$ 196	\$ 222
Interest Cost on Projected Benefit Obligation	39,083	37,336	2,432	2,706
Expected Return on Plan Assets	(53,401)	(55,978)	—	—
Amortization of:				
Prior Service Cost (Credit)	135	135	(1,994)	(2,068)
Actuarial Loss	9,755	9,946	3,033	3,486
Net Periodic Expense (Income)	\$ (1,779)	\$ (5,987)	\$ 3,667	\$ 4,346

The Company expects to make benefit payments of \$3.0 million attributable to its non-qualified pension plans during fiscal 2016. During the first nine months of fiscal 2016, the Company made payments of approximately \$2.4 million for its non-qualified pension plans. The Company anticipates making benefit payments of approximately \$11.9 million for its other postretirement benefit plans during fiscal 2016. During the first nine months of fiscal 2016, the Company made payments of \$10.6 million for its other postretirement benefit plans.

During the first nine months of fiscal 2016, the Company made no cash contributions to the qualified pension plan. Based upon current regulations and actuarial studies, the Company is not required to make contributions to the qualified pension plan in fiscal 2016 through fiscal 2018. The Company expects to make a contribution to the qualified pension plan in fiscal 2019. The Company may be required to make further contributions in future years depending upon the actual return on plan assets and the funded status of the plan in future periods.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

In the third quarter of fiscal 2016, the Company initiated a limited offer for former employees with vested benefits to elect to receive a lump sum payout of their benefit. This program would reduce the size and volatility of the pension plan while allowing former employees who accept the offer to control the investment of their retirement funds. The Company intends to complete this program during the fourth quarter of fiscal 2016. Depending on the number of former employees who participate, the Company could incur a pre-tax pension settlement charge in the fourth quarter of fiscal 2016 in the range of \$15 million to \$25 million.

10. Stock Incentives

Stock based compensation expense is calculated by estimating the fair value of incentive stock awards granted and amortizing the estimated value over the awards' vesting period. Stock based compensation expense was \$1.6 million and \$4.8 million for the three and nine months ended March 27, 2016, respectively. For the three and nine months ended March 29, 2015, stock based compensation expense was \$1.5 million and \$4.8 million, respectively.

11. Derivative Instruments & Hedging Activities

The Company enters into derivative contracts designated as cash flow hedges to manage certain interest rate, foreign currency and commodity exposures. Company policy allows derivatives to be used only for identifiable exposures and, therefore, the Company does not enter into hedges for trading purposes where the sole objective is to generate profits.

The Company formally designates the financial instrument as a hedge of a specific underlying exposure and documents both the risk management objectives and strategies for undertaking the hedge. The Company formally assesses, both at the inception and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in the forecasted cash flows of the related underlying exposure. Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the forecasted cash flows of the underlying exposures being hedged. Derivative financial instruments are recorded within the Condensed Consolidated Balance Sheets as assets or liabilities, measured at fair value. The effective portion of gains or losses on derivatives designated as cash flow hedges are reported as a component of Accumulated Other Comprehensive Income (Loss) (AOCI) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Any ineffective portion of a financial instrument's change in fair value is immediately recognized in earnings.

The Company discontinues hedge accounting prospectively when it determines that the derivative is no longer effective in offsetting cash flows attributable to the hedged risk, the derivative expires or is sold, terminated, or exercised, the cash flow hedge is dedesignated because a forecasted transaction is not probable of occurring, or management determines to remove the designation of the cash flow hedge.

In all situations in which hedge accounting is discontinued and the derivative remains outstanding, the Company continues to carry the derivative at its fair value on the balance sheet and recognizes any subsequent changes in its fair value in earnings. When it is probable that a forecasted transaction will not occur, the Company discontinues hedge accounting and recognizes immediately in earnings gains and losses that were accumulated in other comprehensive income related to the hedging relationship.

The Company enters into interest rate swaps to manage a portion of its interest rate risk from financing certain dealer and distributor inventories through a third party financing source. The swaps are designated as cash flow hedges and are used to effectively fix the interest payments to a third party financing source, exclusive of lender spreads, ranging from 1.17% to 1.60% for a notional principal amount of \$95 million with expiration dates ranging from July 2017

through May 2019.

The Company enters into forward foreign currency contracts to hedge the risk from forecasted third party and intercompany sales or payments denominated in foreign currencies. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Australian Dollars, Brazilian Real, Canadian Dollars, Chinese Renminbi, Euros, Japanese Yen, or Mexican Peso. These contracts generally do not have a maturity of more than twenty-four months.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

The Company uses raw materials that are subject to price volatility. The Company hedges a portion of its exposure to the variability of cash flows associated with commodities used in the manufacturing process by entering into forward purchase contracts or commodity swaps. Derivative contracts designated as cash flow hedges are used by the Company to reduce exposure to variability in cash flows associated with future purchases of natural gas. These contracts generally do not have a maturity of more than thirty-six months.

The Company has considered the counterparty credit risk related to all of its interest rate, foreign currency and commodity derivative contracts and deems any risk of counterparty default to be minimal.

As of March 27, 2016 and June 28, 2015, the Company had the following outstanding derivative contracts (in thousands):

Contract	Notional Amount	
	March 27, 2016	June 28, 2015
Interest Rate:		
LIBOR Interest Rate (U.S. Dollars) Fixed	95,000	95,000

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

During the next twelve months, the estimated net amount of losses on cash flow hedges as of March 27, 2016 expected to be reclassified out of AOCI into earnings is \$0.7 million.

12. Fair Value Measurements

The following guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuations whose inputs are observable or whose significant value drivers are observable.

Level 3: Significant inputs to the valuation model are unobservable.

The following table presents information about the Company's financial assets and liabilities measured at fair value on a recurring basis as of March 27, 2016 and June 28, 2015 (in thousands):

Fair Value Measurements Using				
	March 27, 2016	Level 1	Level 2	Level 3
Assets:				
Derivatives	\$ 1,158	\$ —	\$ 1,158	\$ —
Marketable Securities	\$ 3,494	\$ 3,494	\$ —	\$ —
Liabilities:				
Derivatives	\$ 4,057	\$ —	\$ 4,057	\$ —
	June 28, 2015	Level 1	Level 2	Level 3
Assets:				
Derivatives	\$ 4,693	\$ —	\$ 4,693	\$ —
Marketable Securities	\$ —	\$ —	\$ —	\$ —
Liabilities:				
Derivatives	\$ 2,745	\$ —	\$ 2,745	\$ —

The fair value for Level 2 measurements are based upon the respective quoted market prices for comparable instruments in active markets, which include current market pricing for forward purchases of commodities, foreign currency forwards, and current interest rates.

The Company has currently chosen not to elect the fair value option for any items that are not already required to be measured at fair value in accordance with accounting principles generally accepted in the United States.

The estimated fair value of the Company's Senior Notes (as defined in Note 17) at March 27, 2016 and June 28, 2015 was \$244.9 million and \$248.3 million, respectively, compared to the carrying value of \$223.1 million and 225.0 million, respectively. The estimated fair value of the Senior Notes is based on quoted market prices for similar instruments and is, therefore, classified as Level 2 within the valuation hierarchy. The carrying value of the Revolver (as defined in Note 17) approximates fair value since the underlying rate of interest is variable based upon LIBOR rates.

The Company believes that the carrying values of cash and cash equivalents, trade receivables, and accounts payable are reasonable estimates of their fair values at March 27, 2016 and June 28, 2015 due to the short-term nature of these

instruments.

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

13. Warranty

The Company recognizes the cost associated with its standard warranty on Engines and Products at the time of sale. The general warranty period begins at the time of sale and typically covers two years, but may vary due to product type and geographic location. The amount recognized is based on historical failure rates and current claim cost experience. The following is a reconciliation of the changes in accrued warranty costs for the reporting period (in thousands):

	Nine Months Ended	
	March 27, March 29,	
	2016	2015
Beginning Balance	\$48,006	\$44,744
Payments	(20,460)	(20,106)
Provision for Current Year Warranties	19,966	22,493
Changes in Estimates	(41)	(46)
Ending Balance	\$47,471	\$47,085

14. Income Taxes

The effective tax rates for the third quarter and first nine months of fiscal 2016 were 33.0% and 28.7%, compared to 20.2% and 5.7% for the respective periods last year. The tax rates for the third quarter and first nine months of fiscal 2016 were impacted by non-deductible goodwill impairment. The tax rates for the third quarter and first nine months of fiscal 2016 and 2015 were driven by the U.S. research and development tax credit and foreign earnings in jurisdictions with tax rates that vary from the U.S. statutory rate. The tax rate for the first nine months of 2015 was additionally impacted by the reversal of previously recorded reserves as a result of the effective settlement of the Company's IRS audit.

For the nine months ended March 27, 2016, the Company's unrecognized tax benefits increased by \$1.0 million, all of which impacted the current effective tax rate.

Income tax returns are filed in the U.S., state, and foreign jurisdictions and related audits occur on a regular basis. In the U.S., the Company is currently under audit for the fiscal years 2010 and 2013, and is no longer subject to U.S. federal income tax examinations before fiscal 2010. The Company is also currently under audit by various state and foreign jurisdictions. With respect to the Company's major foreign jurisdictions, they are no longer subject to tax examinations before fiscal 2005.

15. Commitments and Contingencies

The Company is subject to various unresolved legal actions that arise in the normal course of its business. These actions typically relate to product liability (including asbestos-related liability), patent and trademark matters, and disputes with customers, suppliers, distributors and dealers, competitors and employees.

On May 14, 2010, the Company notified retirees and certain retirement eligible employees of various amendments to the Company-sponsored retiree medical plans intended to better align the plans offered to both hourly and salaried retirees. On August 16, 2010, a putative class of retirees who retired prior to August 1, 2006 and the United Steel Workers filed a complaint in the U.S. District Court for the Eastern District of Wisconsin (Merrill, Weber, Carpenter, et al.; United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO/CLC v. Briggs & Stratton Corporation; Group Insurance Plan of Briggs & Stratton Corporation; and Does 1 through 20, Docket No. 10-C-0700), contesting the Company's right to make these changes. The complaint seeks an injunction preventing the alleged unilateral termination or reduction in insurance coverage to the class of retirees, a permanent injunction preventing defendants from ever making changes to the retirees' insurance coverage, restitution with interest (if applicable) and attorneys' fees and costs. A class has been certified, and

discovery has concluded. Both parties moved for summary judgment, which was fully briefed on December 23, 2014. The court denied both sides' motions on September 3, 2015, concluding that factual issues were present which preclude summary judgment and should be determined by the jury at trial. The Company filed a motion requesting permission to appeal the court's decision on an interlocutory basis. The plaintiffs

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

also moved the court to clarify its decision. Upon the request of all parties, the court stayed any further decisions in the matter pending mediation in mid-December 2015. The mediation led to an agreement in principle to settle this case for an aggregate payment of \$3.95 million covering both claimed benefits and plaintiffs' attorneys fees, which will result in a contribution of \$1.975 million from the Company and \$1.975 million from a third party insurance provider. The parties filed a signed Stipulation of Settlement with the court on April 12, 2016, which will not become effective until it is approved by the court. The court has scheduled a hearing for a final determination on the fairness, reasonableness and adequacy of the terms and conditions of the settlement and on the fee petition of the plaintiffs' counsel for August 11, 2016. The Company previously recorded a total charge of \$1.975 million as Engineering, Selling, General and Administrative Expense on the Condensed Consolidated Statements of Operations in the second quarter of fiscal 2016 related to this matter.

On May 12, 2010, Exmark Manufacturing Company, Inc. filed suit against Briggs & Stratton Power Products Group, LLC ("BSPPG"), a wholly owned subsidiary of the Company (Case No. 8:10CV187, U.S. District Court for the District of Nebraska), alleging that certain Ferris® and Snapper Pro® mower decks infringed an Exmark mower deck patent. Exmark sought damages relating to sales since May 2004, attorneys' fees, and enhanced damages. As a result of a reexamination proceeding in 2012, the United States Patent and Trademark Office ("USPTO") initially rejected the asserted Exmark claims as invalid. However, in 2014, that decision was reversed by the USPTO on appeal by Exmark. Following discovery, each of BSPPG and Exmark filed several motions for summary judgment in the Nebraska district court, which were decided on July 28, 2015. The court concluded that older mower deck designs infringed Exmark's patent, leaving for trial the issues of whether current designs infringed, the amount of damages, and whether any infringement was willful.

The trial began on September 8, 2015, and on September 18, 2015, the jury returned its verdict, finding that BSPPG's current mower deck designs do not infringe the Exmark patent. As to the older designs, the jury awarded Exmark \$24.3 million in damages and found that the infringement was willful, which would allow the judge to enhance the jury's damages award post-trial by up to three times. Also on September 18, 2015, the U.S. Court of Appeals for the Federal Circuit issued its decision in an unrelated case, SCA Hygiene Products Aktiebolag SCA Personal Care, Inc. v. First Quality Baby Products, LLC, et al. (Case No. 2013-1564) ("SCA"), confirming the availability of laches as a defense to patent infringement claims. Laches is an equitable doctrine that may bar a patent owner from obtaining damages prior to commencing suit, in circumstances in which the owner knows or should have known its patent was being infringed for more than six years. Although the court in the Exmark case ruled before trial that BSPPG could not rely on the defense of laches, as a result of the subsequent SCA decision, the court held a bench trial on that defense on October 21 and 22, 2015. On May 2, 2016, the United States Supreme Court agreed to review the SCA decision.

The parties submitted post-trial motions and briefing related to: damages; willfulness; laches; attorney fees; enhanced damages; and prejudgment/post-judgment interest and costs. All post-trial motions and briefing were completed on December 18, 2015. The parties are awaiting the court's rulings.

BSPPG and the Company strongly disagree with the jury verdict and certain rulings made in connection with the jury trial, and BSPPG is vigorously pursuing its rights through post-trial motions and will continue to do so, if necessary, on appeal. In assessing whether the Company should accrue a liability in its financial statements as a result of the jury verdict, the Company considered various factors, including the legal and factual circumstances of the case, the trial record, the current status of the proceedings, applicable law (including without limitation the precedence of the SCA decision), the views of legal counsel, and the likelihood of successful post-trial motions and appeals. As a result of this review, the Company has concluded that a loss from this case is not probable and reasonably estimable at this time and, therefore, a liability has not been recorded with respect to this case as of March 27, 2016.

Although it is not possible to predict with certainty the outcome of these and other unresolved legal actions or the range of possible loss, the Company believes the unresolved legal actions will not have a material adverse effect on its results of operations, financial position or cash flows.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

16. Segment Information

The Company aggregates operating segments that have similar economic characteristics, products, production processes, types or classes of customers and distribution methods into reportable segments. The Company concluded that it operates two reportable segments: Engines and Products.

The Company concluded that its equity method investments are integral to its business. Beginning with the third quarter of fiscal 2016, the Company is prospectively classifying its equity in earnings of unconsolidated affiliates as a separate line item within Income from Operations. For periods prior to the third quarter of fiscal 2016, equity in earnings from unconsolidated affiliates is classified in Other Income, Net. For all periods presented, equity in earnings from unconsolidated affiliates is included in segment income (loss).

The Company uses “segment income (loss)” as the primary measure to evaluate operating performance and allocate capital resources for the Engines and Products Segments. Prior to the third quarter of fiscal 2016, segment income (loss) is defined as income (loss) from operations plus equity in earnings of unconsolidated affiliates. Beginning with the third quarter of fiscal 2016, segment income (loss) is equal to operating income (loss).

Summarized segment data is as follows (in thousands):

	Three Months Ended		Nine Months Ended

17. Debt

The following is a summary of the Company's indebtedness (in thousands):

	March 27, June 28, 2016 2015	
Senior Notes	\$ 223,149	\$ 225,000
Multicurrency Credit Agreement	32,443	—
	\$ 255,592	\$ 225,000

On December 20, 2010, the Company issued \$225 million of 6.875% Senior Notes ("Senior Notes") due December 15, 2020. During the third quarter of fiscal 2016, the Company repurchased \$1.9 million of the Senior Notes after receiving unsolicited offers from bondholders.

On March 25, 2016, the Company entered into a \$500 million amended and restated multicurrency credit agreement (the "Revolver") that matures on March 25, 2021. The Revolver amended and restated the Company's \$500 million multicurrency credit agreement dated as of October 13, 2011 (as previously amended), which would have matured on October 21, 2018. The initial maximum availability under the revolving credit facility is \$500 million. Availability under the revolving credit facility is reduced by outstanding letters of credit. The Company may from time to time increase the maximum availability under the revolving credit facility by up to \$250 million if certain conditions are satisfied. As of March 27, 2016, \$32.4 million was outstanding under the Revolver. There were no borrowings under the Revolver as of June 28, 2015. In connection with the amendment to the Revolver, the Company incurred approximately \$0.9 million in new debt issuance costs, which are being amortized over the life of the Revolver using the straight-line method.

The Senior Notes and the Revolver contain restrictive covenants. These covenants include restrictions on the ability of the Company and/or certain subsidiaries to pay dividends, repurchase equity interests of the Company and certain subsidiaries, incur indebtedness, create liens, and consolidate and merge and dispose of assets. The Revolver contains financial covenants that require the Company to maintain a minimum interest coverage ratio and impose on the Company a maximum average leverage ratio.

18. Separate Financial Information of Subsidiary Guarantor of Indebtedness

Under the terms of the Company's Senior Notes and the Revolver (collectively, the "Domestic Indebtedness"), Briggs & Stratton Power Products Group, LLC, a 100% owned subsidiary of the Company, was the sole joint and several guarantor of the Domestic Indebtedness (the "Guarantor") as of March 27, 2016 and June 28, 2015. The Guarantor provides a full and unconditional guarantee of the Domestic Indebtedness, except for certain customary

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

limitations. These customary limitations, which are described in detail in the First Supplemental Indenture (Indenture) dated December 20, 2010, include (i) the sale of the guarantor or substantially all of the guarantor's assets, (ii) the designation of the guarantor as an unrestricted subsidiary for covenant purposes, (iii) the guarantor ceasing to guarantee certain other indebtedness, if the guarantor is also not a significant subsidiary within the meaning of Article 1, Rule 1-02 of Regulation S-X, and (iv) achieving the Indenture's requirements for legal defeasance, covenant defeasance or discharge. Additionally, if at any time a domestic subsidiary of the Company constitutes a significant domestic subsidiary, then such domestic subsidiary will also become a guarantor of the Domestic Indebtedness. Currently, all of the Domestic Indebtedness is unsecured. If the Company were to fail to make a payment of interest or principal on its due date, the Guarantor is obligated to pay the outstanding Domestic Indebtedness. The Company had the following outstanding amounts related to the guaranteed debt (in thousands):

	March 27, 2016	Maximum
	Carrying Amount	Guarantee
Senior Notes	\$ 223,149	\$ 223,149
Multicurrency Credit Agreement	\$ 32,443	\$ 500,000

(1) For the third quarter of fiscal 2016, includes pre-tax restructuring charges of \$724 (\$470 after tax) and a goodwill impairment charge of \$7,651 which is not deductible for income tax purposes. For the third quarter of fiscal 2015, includes pre-tax restructuring charges of \$8,031 (\$5,220 after tax) and pre-tax acquisition-related charges of \$110 (\$72 after tax).

(2) Adjusted financial results are non-GAAP financial measures. The Company believes this information is meaningful to investors as it isolates the impact that restructuring charges, acquisition-related charges, and goodwill

impairment charges have on reported financial results and facilitates comparisons between peer companies. The Company may utilize non-GAAP financial measures as a guide in the forecasting, budgeting, and long-term planning process. While the Company believes that adjusted financial results are useful supplemental information, such adjusted financial results are not intended to replace its GAAP financial results and should be read in conjunction with those GAAP results.

(3) For all periods presented, equity in earnings of unconsolidated affiliates is included in segment income (loss). Beginning with the third quarter of fiscal 2016, the Company classifies its equity in earnings of unconsolidated affiliates within income from operations. Prior to the third quarter of fiscal 2016, equity in earnings of unconsolidated affiliates is classified in other income.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

NET SALES

Consolidated net sales for the third quarter of fiscal 2016 were \$604 million, a decrease of \$15 million or 2.5% from the third quarter of fiscal 2015. Net sales decreased during the quarter partially due to an unfavorable foreign currency impact, net of price increases, of \$6.5 million, predominately related to the weakening of the Euro, Australian Dollar, and Brazilian Real. Excluding currency impacts, net sales decreased by \$9 million. The decrease in net sales was primarily a result of lower shipments in international regions, particularly Europe, Australia and Brazil, as well as lower sales of job site products. Partially offsetting this decrease were increased shipments of engines to customers in North America, higher sales of commercial lawn and garden products in North America, and sales from Billy Goat, which was acquired in May 2015.

Engines Segment net sales in the third quarter of fiscal 2016 decreased \$17 million or 3.8% from the prior year. Unfavorable foreign currency, net of offsetting price increases, negatively impacted net sales by approximately \$3.4 million, largely due to the weakening of the Euro. Total engine volumes shipped in the quarter decreased by 3.8% or approximately 120,000 engines, mainly attributable to lower shipments into Europe and Asia as OEMs have ordered less due to caution over the global economy, including the strength of the U.S. dollar. Shipments of small engines to North American customers increased in the quarter due to more normal timing of pressure washer production as well as continued strength in walk mower engine shipments. In fiscal 2015 pressure washer production was accelerated earlier in the year to build inventory in advance of the McDonough closure.

Products Segment net sales in the third quarter of fiscal 2016 increased \$10 million or 4.6% from the prior year. Unfavorable foreign currency, net of offsetting price increases, negatively impacted net sales by approximately \$3.2 million, primarily related to the Australian Dollar and Brazilian Real. Excluding currency impacts, net sales increased by \$12.9 million, primarily from increased sales of high-end residential and commercial lawn and garden equipment through our North American dealer channel and the Billy Goat acquisition. Partially offsetting this increase were lower international sales, primarily in Australia, lower sales of job site products due to high channel inventories and lower sales related to our previously announced strategic decision to exit the sale of lower margin Snapper products.

GROSS PROFIT

The consolidated gross profit percentage was 21.1% in the third quarter of fiscal 2016, an increase from 19.2% in the same period last year.

The Engines Segment gross profit percentage was 23.9% in the third quarter of fiscal 2016, an increase of 100 basis points from the 22.9% in the third quarter of fiscal 2015. Expanded margins on new products, manufacturing efficiency improvements and lower material costs contributed to the higher gross profit percentage compared to the third quarter of fiscal 2015. Manufacturing volume was consistent year over year during the third quarter. Partially offsetting the higher gross profit percentage was a 40 basis point unfavorable impact from foreign currency, net of offsetting price increases.

The Products Segment gross profit percentage, including restructuring charges, was 12.5% for the third quarter of fiscal 2016, up from 9.4% in the third quarter of fiscal 2015. The adjusted gross profit percentage of 12.7% in the third quarter of fiscal 2016 decreased 10 basis points year over year. Adjusted gross margins decreased due to lower manufacturing volume related to job site products and standby generators. Unfavorable foreign currency, net of offsetting price increases, also negatively impacted gross profit percentage by 30 basis points. Partially offsetting the lower gross profit percentage was incremental savings of \$2.0 million realized from the previously announced restructuring actions and a favorable sales mix, which improved adjusted gross margins by approximately 90 basis points and was driven by our focus on selling higher margin lawn and garden equipment and the results from last

year's Billy Goat acquisition.

ENGINEERING, SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Engineering, selling, general and administrative expenses were \$75.3 million in the third quarter of fiscal 2016, an increase of \$2.6 million or 3.5% from the third quarter of fiscal 2015.

The Engines Segment engineering, selling, general and administrative expenses for the third quarter of fiscal 2016 increased \$2.4 million compared to the third quarter of fiscal 2015 largely due to strategic initiatives and higher

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

costs related to pension expense, partially offset by the benefit of the movement in foreign currency rates.

The Products Segment engineering, selling, general and administrative expenses were \$27.5 million for the third quarter of fiscal 2016, an increase of \$0.2 million from the third quarter of fiscal 2015. Adjusted engineering, selling, general and administrative expenses in the third quarter of fiscal 2016 were \$0.3 million higher than the same period last year, primarily due to the Billy Goat acquisition, partially offset by the benefit of the movement in foreign currency rates.

The following table is a reconciliation of financial results by segment, as reported, to adjusted financial results by segment, excluding restructuring charges, acquisition-related charges, certain litigation charges, goodwill impairment charges, and the reinstatement of a deferred tax asset for the nine months ended fiscal March 2016 and 2015 (in thousands, except per share data):

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

(2) Adjusted financial results are non-GAAP financial measures. The Company believes this information is meaningful to investors as it isolates the impact that restructuring charges, acquisition-related charges, certain litigation charges, reinstatement of deferred tax assets, and goodwill impairment charges have on reported financial results and facilitates comparisons between peer companies. The Company may utilize non-GAAP financial measures as a guide in the forecasting, budgeting, and long-term planning process. While the Company believes that adjusted financial results are useful supplemental information, such adjusted financial results are not intended to replace its GAAP financial results and should be read in conjunction with those GAAP results.

(3) For all periods presented, equity in earnings of unconsolidated affiliates is included in segment income (loss). Beginning with the third quarter of fiscal 2016, the Company classifies its equity in earnings of unconsolidated affiliates within income from operations. Prior to the third quarter of fiscal 2016, equity in earnings of unconsolidated affiliates is classified in other income.

NET SALES

Consolidated net sales for the first nine months of fiscal 2016 were \$1.31 billion, a decrease of \$49 million or 3.6% from the first nine months of fiscal 2015. Net sales decreased during the first nine months of fiscal year 2016 partially due to an unfavorable foreign currency impact, net of price increases, of \$21.4 million, predominately related to the weakening of the Euro, Australian Dollar, and Brazilian Real. Excluding currency impacts, net sales decreased by \$27.9 million. The decrease in net sales was primarily from lower shipments to international regions, and an approximately \$20 million decrease in sales of job site products due to higher channel inventory. Partially offsetting this decrease were higher shipments of small engines used on walk mowers to North American customers, increased sales of commercial lawn and garden products, and sales from Billy Goat.

Engines Segment net sales for the first nine months of fiscal 2016 decreased \$29 million or 3.4% from the prior year. Unfavorable foreign currency, net of offsetting price increases, negatively impacted net sales by approximately \$8.8 million, largely due to the weakening of the Euro. Total engine volumes shipped in the first nine months of fiscal 2016 decreased by 1.4% or approximately 80,000 engines, mainly attributable to lower shipments into Europe and Asia as OEMs have ordered less due to caution over the global economy, including the strength of the U.S. dollar. Shipments of small engines to North American customers increased during the first nine months of fiscal 2016 mainly attributable to higher shipments of small engines used on walk mowers due to improved lawn and garden markets in North America this past season and more normal pacing of walk mower production.

Products Segment net sales for the first nine months of fiscal 2016 decreased \$20 million or 3.5% from the prior year. Unfavorable foreign currency, net of offsetting price increases, negatively impacted net sales by \$12.6 million, primarily related to the Australian Dollar and Brazilian Real. Net sales also decreased due to lower sales of job site products, lower sales of pressure washers, lower international sales, primarily in Australia and Europe, and lower sales related to our previously announced strategic decision to exit the sale of lower margin Snapper products. Partially offsetting this decrease were increased sales of high-end residential and commercial lawn and garden equipment through our North American dealer channel and sales from Billy Goat.

GROSS PROFIT

The consolidated gross profit percentage was 20.6% in the first nine months of fiscal 2016, an increase from 18.8% in the same period last year.

The Engines Segment gross profit percentage, including restructuring charges, was 22.8% in the first nine months of fiscal 2016, higher than the 22.1% in the first nine months of fiscal 2015. The adjusted gross profit percentage was 22.9% in the first nine months of fiscal 2016, an increase of 80 basis points from the prior year. Expanded margins on

new products, manufacturing efficiency improvements and lower material costs contributed to the higher gross profit percentage compared to the first nine months of fiscal 2015. Manufacturing volume was slightly lower year over year. Unfavorable foreign currency, net of offsetting price increases, also negatively impacted gross profit percentage, largely due to the weakening of the Euro.

The Products Segment gross profit percentage, including restructuring and acquisition-related charges, was 14.6% for the first nine months of fiscal 2016, up from 11.2% in the first nine months of fiscal 2015. The adjusted gross profit percentage of 15.6% in the first nine months of fiscal 2016 increased 60 basis points year over year. Adjusted gross margins increased due to improved manufacturing efficiencies, including \$6.1 million of incremental savings realized from the previously announced restructuring actions and a favorable sales mix, which was driven by our focus on selling higher margin lawn and garden equipment and the results from last year's Billy Goat acquisition.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

Partially offsetting the higher gross profit margins was lower manufacturing volume related to job site products and standby generators.

ENGINEERING, SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Engineering, selling, general and administrative expenses were \$220.0 million in the first nine months of fiscal 2016, an increase of \$3.2 million or 1.5% from the first nine months of fiscal 2015.

The Engines Segment engineering, selling, general and administrative expenses were \$138.3 million in the first nine months of fiscal 2016, compared to \$133.6 million in the same period last year. Adjusted engineering, selling, general and administrative expenses for the first nine months of fiscal 2016 were \$135.4 million, an increase of \$1.8 million from the first nine months of fiscal 2015, largely due to strategic initiatives and higher costs related to pension expense, partially offset by the benefit of the movement in foreign currency rates.

The Products Segment engineering, selling, general and administrative expenses were \$81.7 million for the first nine months of fiscal 2016, a decrease of \$1.4 million from the first nine months of fiscal 2015. Adjusted engineering, selling, general and administrative expenses in the first nine months of fiscal 2016 were \$81.7 million, a decrease of \$1.0 million from the prior year due to the benefit of the movement in foreign currency rates, partially offset by the Billy Goat acquisition.

INTEREST EXPENSE

Interest expense for the third quarter and first nine months of fiscal 2016 increased by \$0.4 million and \$0.5 million, respectively, compared to the same periods a year ago due to higher average borrowings in fiscal 2016.

PROVISION FOR INCOME TAXES

The effective tax rates for the third quarter and first nine months of fiscal 2016 were 33.0% and 28.7% respectively, compared to 20.2% and 5.7% for the same respective periods last year. The tax rates for the third quarter and first nine months of fiscal 2016 were impacted by non-deductible goodwill impairment. The tax rates for the third quarter and first nine months of fiscal 2016 and 2015 were impacted by the U.S. research and development tax credit and foreign earnings in jurisdictions with tax rates that vary from the U.S. statutory rate. The tax rate for the first nine months of 2015 was additionally impacted by the reversal of previously recorded reserves as a result of the effective settlement of the Company's IRS audit.

RESTRUCTURING ACTIONS

During the third quarter of fiscal 2016, the Company continued implementing the previously announced restructuring actions to narrow its assortment of lower-priced Snapper consumer lawn and garden equipment and consolidate its Products Segment manufacturing facilities in order to reduce costs. Products Segment pre-tax restructuring costs for the third quarter and first nine months of fiscal 2016 were \$0.7 million and \$5.8 million, respectively. Pre-tax restructuring cost estimates for the Products Segment for fiscal 2016 are \$6 million to \$8 million. Incremental pre-tax savings related to the Products Segment restructuring actions during the third quarter of fiscal 2016 were \$2.0 million. Incremental cost savings as a result of Products Segment restructuring actions are anticipated to be \$6 million to \$7 million in fiscal 2016. Engines Segment restructuring actions implemented and completed in the first quarter of fiscal 2016 resulted in pre-tax restructuring costs of \$1.4 million.

GOODWILL IMPAIRMENT

During the third quarter of 2016, the Company recognized a non-cash goodwill impairment charge of \$7.7 million within its Job Site reporting unit. The Job Site reporting unit, which is included in the Products Segment, designs, manufactures, and sells portable light towers and heaters under the Allmand brand. The impairment charge is a non-cash expense that did not adversely affect the Company's debt position, cash flow, liquidity, or compliance with financial covenants under its credit facilities. See Note 6 in Notes to Condensed Consolidated Financial Statements for additional information.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

LIQUIDITY AND CAPITAL RESOURCES

Cash flows used in operating activities for the first nine months of fiscal 2016 were \$5.4 million compared to \$52.1 million in the first nine months of fiscal 2015. The improvement in operating cash flows used was primarily related to changes in working capital due to lower inventory levels and accounts receivable. Inventory levels were elevated last year in the third quarter to support the McDonough plant closure and the introduction of a new engine line.

Cash flows used in investing activities were \$63.0 million and \$103.9 million during the first nine months of fiscal 2016 and fiscal 2015, respectively. The \$40.9 million decrease in cash used in investing activities was primarily related to \$19.1 million of cash paid for an investment in Power Distributors, an unconsolidated affiliate, and \$3.1 million of cash paid for acquisitions in the nine months of fiscal 2016, as compared to \$59.9 million of cash paid for the Allmand acquisition in the first nine months of fiscal 2015.

Cash flows used in financing activities were \$4.5 million during the first nine months of fiscal 2016 as compared to cash flows provided by financing activities of \$13.1 million during the first nine months of fiscal 2015. The \$17.5 million increase in cash used by financing activities was attributable to \$32.4 million of borrowings under the Revolver in the first nine months of fiscal 2016 compared to \$60.1 million of borrowings in fiscal 2015, partially offset by \$7.2 million of higher stock option proceeds, and a \$6.2 million decrease in treasury stock purchases in the first nine months of fiscal 2016 compared to fiscal 2015.

FUTURE LIQUIDITY AND CAPITAL RESOURCES

On December 20, 2010, the Company issued \$225 million of 6.875% Senior Notes ("Senior Notes") due December 15, 2020. During the third quarter of fiscal 2016, the Company repurchased \$1.9 million of the Senior Notes after receiving unsolicited offers from bondholders.

On March 25, 2016, the Company entered into a \$500 million amended and restated multicurrency credit agreement (the "Revolver") that matures on March 25, 2021. The Revolver amended and restated the Company's \$500 million multicurrency credit agreement dated as of October 13, 2011 (as previously amended), which would have matured on October 21, 2018. The initial maximum availability under the revolving credit facility is \$500 million. Availability under the revolving credit facility is reduced by outstanding letters of credit. The Company may from time to time increase the maximum availability under the revolving credit facility by up to \$250 million if certain conditions are satisfied. As of March 27, 2016, \$32.4 million was outstanding under the Revolver. There were no borrowings under the Revolver as of June 28, 2015. In connection with the amendment to the Revolver, the Company incurred approximately \$0.9 million in new debt issuance costs, which are being amortized over the life of the Revolver using the straight-line method.

In August 2015, the Company announced that its Board of Directors declared an increase in the quarterly dividend from \$0.125 per share to \$0.135 per share on the Company's common stock, beginning with the dividend payable on September 30, 2015.

On August 13, 2014, the Board of Directors of the Company authorized up to \$50 million in funds associated with the common share repurchase program with an expiration date of June 30, 2016. As of March 27, 2016, the total remaining authorization was approximately \$6.9 million. On April 21, 2016, the Board of Directors authorized up to an additional \$50 million in funds for use in the common share repurchase program with an expiration date of June 29, 2018. The common share repurchase program authorizes the purchase of shares of the Company's common stock on the open market or in private transactions from time to time, depending on market conditions and certain governing loan covenants. During the nine months ended March 27, 2016, the Company repurchased 1,841,078 shares on the

open market at an average price of \$18.14 per share.

During the third quarter of fiscal 2014, the Company joined with one of its independent distributors to form Power Distributors, LLC (the venture) to distribute service parts. The Company contributed non-cash assets in exchange for receiving an ownership interest in the venture. In the first quarter of fiscal 2015, a second independent distributor joined the venture. During the second quarter of fiscal 2015 and the first quarter of fiscal 2016, the venture acquired the assets of a third and fourth independent distributor, respectively. During the third quarter of fiscal 2016, the Company contributed \$19.1 million in cash as well as non-cash assets in exchange for receiving an additional ownership interest in the venture, which acquired the assets of the final independent distributor needed to achieve a national distribution network during the third quarter of fiscal 2016 as well. At March 27, 2016 and June 28, 2015,

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

the Company's total investment in the venture was \$31.6 million and \$10.0 million, respectively, and its ownership percentage was 38.0% and 11.9%, respectively.

The Company expects capital expenditures to be approximately \$65 million to \$70 million in fiscal 2016. These anticipated expenditures reflect its plans to continue to invest in new products, manufacturing efficiencies and technology update projects.

During the first nine months of fiscal 2016, the Company made no cash contributions to the qualified pension plan. Based upon current regulations and actuarial studies, the Company estimates that it will not be required to make minimum contributions to the qualified pension plan in fiscal 2016 through fiscal 2018. The Company expects to make a contribution to the qualified pension plan in fiscal 2019. The Company may be required to make further contributions in future years depending upon the actual return on plan assets and the funded status of the plan in future periods.

In the third quarter of fiscal 2016, the Company initiated a limited offer for former employees with vested benefits to elect to receive a lump sum payout of their benefit. This program would reduce the size and volatility of the pension plan while allowing former employees who accept the offer to control the investment of their retirement funds. The Company intends to complete this program during the fourth quarter of fiscal 2016. Depending on the number of former employees who participate, the Company could incur a pre-tax pension settlement charge in the fourth quarter of fiscal 2016 in the range of \$15 to 25 million.

Management believes that available cash, cash generated from operations, existing lines of credit and access to debt markets will be adequate to fund the Company's capital requirements and operational needs for the foreseeable future.

The Senior Notes and the Revolver contain restrictive covenants. These covenants include restrictions on the ability of the Company and/or certain subsidiaries to pay dividends, repurchase equity interests of the Company and certain subsidiaries, incur indebtedness, create liens, and consolidate and merge and dispose of assets. The Revolver contains financial covenants that require the Company to maintain a minimum interest coverage ratio and impose on the Company a maximum average leverage ratio. As of March 27, 2016, the Company was in compliance with these covenants, and expects to be in compliance with all covenants during the remainder of fiscal 2016.

OFF-BALANCE SHEET ARRANGEMENTS

There have been no material changes since the August 21, 2015 filing of the Company's Annual Report on Form 10-K.

CONTRACTUAL OBLIGATIONS

There have been no material changes since the August 21, 2015 filing of the Company's Annual Report on Form 10-K, except that subsequent to the filing of the Company's Annual Report on Form 10-K, on March 25, 2016, the Company entered into an amended and restated Revolver, which, among other things, extended the maturity of the Revolver from October 21, 2018 to March 25, 2021. Additionally, based upon current regulations and actuarial studies, the Company expects it will be required to make no minimum contributions to the qualified pension plan in fiscal 2016 through fiscal 2018; however, the Company now expects to make a contribution to the qualified pension plan in fiscal 2019.

CRITICAL ACCOUNTING POLICIES

There have been no material changes in the Company's critical accounting policies since the August 21, 2015 filing of its Annual Report on Form 10-K. As discussed in its annual report, the preparation of financial statements in

conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

The most significant accounting estimates inherent in the preparation of the Company's financial statements include a goodwill assessment, estimates as to the realizability of accounts receivable and inventory assets, as well as estimates used in the determination of liabilities related to customer rebates, pension obligations, postretirement benefits, warranty, product liability, group health insurance, litigation and taxation. Various assumptions and other factors underlie the determination of these significant estimates. The process of determining significant estimates is fact specific and takes into account factors such as historical experience, current and expected economic conditions, product mix, and, in some instances, actuarial techniques. The Company re-evaluates these significant factors as facts and circumstances change.

The Company has contingent liabilities related to litigation and claims that arise in the normal course of business. The Company accrues for contingent liabilities when management determines it is probable that a liability has been incurred and the amount can be reasonably estimated. Liabilities are recorded based on management's current judgments as to the probable and reasonably estimable outcome of the contingencies. To the extent that management's future judgments related to the outcome of the contingencies differ from current expectations or as additional information becomes available, earnings could be impacted in the period such changes occur. See Note 15, "Commitments and Contingencies," for a description of these matters.

NEW ACCOUNTING PRONOUNCEMENTS

A discussion of new accounting pronouncements is included in the Notes to Condensed Consolidated Financial Statements of this Form 10-Q under the heading "New Accounting Pronouncements" and is incorporated herein by reference.

CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

This report contains certain forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from those projected in the forward-looking statements. The words "anticipate", "believe", "estimate", "expect", "forecast", "intend", "plan", "project", and similar expressions are intended to identify forward-looking statements. The forward-looking statements are based on the Company's current views and assumptions and involve risks and uncertainties that include, among other things, the ability to successfully forecast demand for its products; changes in interest rates and foreign exchange rates; the effects of weather on the purchasing patterns of consumers and original equipment manufacturers (OEMs); actions of engine manufacturers and OEMs with whom we compete; changes in laws and regulations; changes in customer and OEM demand; changes in prices of raw materials and parts that we purchase; changes in domestic and foreign economic conditions; the ability to bring new productive capacity on line efficiently and with good quality; outcomes of legal proceedings and claims; the ability to realize anticipated savings from restructuring actions; and other factors disclosed from time to time in its SEC filings or otherwise, including the factors discussed in Item 1A, Risk Factors, of the Company's Annual Report on Form 10-K and in its periodic reports on Form 10-Q. The Company is not undertaking any obligation to update any forward-looking statements or other statements it may make even though these statements may be affected by events or circumstances occurring after the forward-looking statements or other statements were made.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes since the August 21, 2015 filing of the Company's Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and

Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

INTERNAL CONTROL OVER FINANCIAL REPORTING

There has not been any change in the Company's internal control over financial reporting during the third fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

A discussion of legal proceedings is included in the Notes to Condensed Consolidated Financial Statements of this Form 10-Q under the heading "Commitments and Contingencies" and is incorporated herein by reference.

ITEM 1A. RISK FACTORS

There have been no material changes since the August 21, 2015 filing of the Company's Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth the information with respect to purchases made by or on behalf of the Company of its common stock during the quarterly period ended March 27, 2016.

2016 Fiscal Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of a Publicly Announced Program (1)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program (1)
December 28, 2015 to January 24, 2016	395,401	\$ 16.72	395,401	\$ 8,742,594
January 25, 2016 to February 21, 2016	101,709	18.50	101,709	6,860,978
February 22, 2016 to March 27, 2016	—	—	—	6,860,978
Total Third Quarter	497,110	\$ 17.08	497,110	\$ 6,860,978

On August 13, 2014, the Board of Directors authorized up to an additional \$50 million in funds for use in the Company's common share repurchase program with an expiration date of June 30, 2016. On April 21, 2016, the (1) Board of Directors authorized up to an additional \$50 million in funds for use in the common share repurchase program with an expiration date of June 29, 2018.
