Commission File No. 111596

PERMA-FIX ENVIRONMENTAL SERVICES, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction

of incorporation or organization)

58-1954497

(IRS Employer Identification Number)

8302 Dunwoody Place, Suite 250, Atlanta, GA 30350

(Address of principal executive offices)

(Zip Code)

(770) 587-9898

(Registrant's telephone number)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate

Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated Filer Non-accelerated Filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
 No

Indicate the number of shares outstanding of each of the issuer's classes of Common Stock, as of the close of the latest practical date.

<u>Class</u>	<u>Outstanding</u> <u>at</u> <u>November</u> <u>4, 2016</u>

PERMA-FIX ENVIRONMENTAL SERVICES, INC.

Notes to Consolidated Condensed Financial Statements

September 30, 2016

(Unaudited)

Reference is made herein to the notes to consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2015.

1. Basis of Presentation

The consolidated condensed financial statements included herein have been prepared by the Company (which may be referred to as we, us or our), without an audit, pursuant to the rules and regulations of the Securities and Exchange Commission (“the Commission”). Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) have been condensed or omitted pursuant to such rules and regulations, although the Company believes the disclosures which are made are adequate to make the information presented not misleading. Further, the consolidated condensed financial statements reflect, in the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position and results of operations as of and for the periods indicated. The results of operations for the nine months ended September 30, 2016 are not necessarily indicative of results to be expected for the fiscal year ending December 31, 2016.

The Company suggests that these consolidated condensed financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. As disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, the Company determined that the operations of its majority-owned Polish subsidiary, Perma-Fix Medical S.A. (“PF Medical”), which has not generated any revenues as it continues to be primarily in the research and development (“R&D”) stage, meets the definition of a reportable segment in accordance with Accounting Standards Codification (“ASC”) 280, “Segment Reporting.” Accordingly, as detailed on Note 10 – “Operating Segments,” all of the historical numbers presented in the consolidated financial statements have been recast to include the operations of PF Medical as a separate reportable segment (“Medical Segment”).

Reclassification

Certain prior year amounts have been reclassified to conform to the current year presentation.

2. Summary of Significant Accounting Policies

Our accounting policies are as set forth in the notes to the December 31, 2015 consolidated financial statements referred to above. During the first quarter of 2016, all of the restricted cash previously held in escrow at December 31, 2015 was released. Such amount represented \$35,000 held in escrow for our worker's compensation policy with the remaining representing proceeds held in escrow resulting from stock subscription agreements executed in connection with the sale of common stock by PF Medical in previous years.

Recently Adopted Accounting Standards

In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-03, "Simplifying the Presentation of Debt Issuance Costs." ASU 2015-03 amends existing guidance to require the presentation of debt issuance costs in the balance sheet as a deduction from the carrying amount of the related debt liability instead of a deferred charge asset. It is effective for annual reporting periods beginning after December 15, 2015 (including interim reporting periods), but early adoption is permitted. The Company adopted ASU 2015-03 retroactively in the first quarter of 2016. The adoption of ASU 2015-03 did not have a material impact to the Company's results of operations, cash flows or financial position. The adoption of ASU 2015-03 resulted in a decrease in prepaid and other assets of approximately \$152,000, a decrease in current portion of long-term debt of \$27,000, and a decrease in long-term debt, less current portion of \$125,000 for the balances as of December 31, 2015 in the accompanying Consolidated Balance Sheets.

Recently Issued Accounting Standards – Not Yet Adopted

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." ASU 2014-09 provides a single, comprehensive revenue recognition model for all contracts with customers. The amendments in ASU 2014-09 require a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. ASU 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. Subsequently, in August 2015, the FASB issued ASU No. 2015-14, "Revenue from Contracts with Customers (Topic 606) Deferral of the Effective Date," that deferred the effective date of ASU 2014-09 to annual reporting periods beginning after December 15, 2017 (including interim reporting periods within those periods). In March 2016, the FASB issued ASU 2016-08, "Revenue from Contracts with Customer (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)," which clarifies the guidance in determining revenue recognition as principal versus agent. In April 2016, the FASB issued ASU 2016-10, "Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing," which provides guidance in accounting for immaterial performance obligations and shipping and handling. In May 2016, the FASB issued ASU 2016-12, "Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients," which provides clarification on assessing the collectability criterion, presentation of sales taxes, measurement date for non-cash consideration and completed contracts at transition. Early adoption is permitted for ASU 2014-09 and the related amendment to the original effective date of period beginning after December 15, 2016 (including interim reporting periods within those periods). The ASUs may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. The Company is still evaluating the potential impact of adopting this guidance on our financial statements.

In August 2014, the FASB issued ASU No. 2014-15, "Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern." ASU 2014-15 requires management to assess an entity's ability to continue as a going concern, and to provide related footnote disclosure in certain circumstances. The new standard will be effective for all entities in the first annual period ending after December 15, 2016. The Company is still evaluating the potential impact of adopting this guidance on our financial statements.

In July 2015, the FASB issued ASU 2015-11, "Inventory (Topic 330): Simplifying the Measurement of Inventory." ASU 2015-11 requires that inventory within the scope of this update be measured at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The amendments in this update do not apply to inventory that is measured using last-in, first-out ("LIFO") or the retail inventory method. The amendments apply to all other inventory, which includes inventory that is measured using first-in, first-out ("FIFO") or average cost. For all entities, the guidance is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2016. Early adoption is permitted. The Company does not expect the adoption of ASU 2015-11 to have a material impact on our financial statements.

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)". Under ASU 2016-02, an entity will be required to recognize right-of-use assets and lease liabilities on its balance sheet and disclose key information about leasing arrangements. ASU 2016-02 offers specific accounting guidance for a lessee, a lessor and sale and leaseback transactions. Lessees and lessors are required to disclose qualitative and quantitative information about leasing arrangements to enable a user of the financial statements to assess the amount, timing and uncertainty of cash flows arising from leases. For public companies, ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within that reporting period, and requires a modified retrospective adoption, with early adoption permitted. The Company is still evaluating the potential impact of adopting this guidance on our financial statements.

In March 2016, the FASB issued ASU 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting." ASU 2016-09 simplifies several aspects related to the accounting for share-based payment transactions, including the accounting for income taxes, statutory tax withholding requirements and classification on the statement of cash flows. ASU 2016-09 is effective for interim and annual periods beginning after December 15, 2016. The Company does not expect the adoption of ASU 2015-11 to have a material impact on our financial statements.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments." ASU 2016-15 provides clarification regarding how certain cash receipts and cash payment are presented and classified in the statement of cash flows. This update addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. ASU 2016-15 will be effective for years beginning after December 15, 2017, including interim periods, and will require adoption on a retrospective basis. Early adoption is permitted. The Company is still evaluating the potential impact of adopting this guidance on our financial statements.

3. East Tennessee Materials and Energy Corporation ("M&EC") Facility

During the second quarter of 2016, the Company's M&EC subsidiary was notified by the lessor that the lease agreement which M&EC currently operates its Oak Ridge, Tennessee facility would not be renewed at the end of the current lease term ending January 21, 2018. In light of this event and our strategic review of operations within our Treatment Segment, the Company is proceeding with a plan to shut down its M&EC facility located in Oak Ridge, Tennessee at the end of the lease term. Operations at the M&EC facility are continuing during the remaining term of the lease and the facility has begun the process of transitioning waste shipments and operational capabilities to our other Treatment Segment facilities, subject to customer requirements and regulatory approvals. Simultaneously, the Company has begun required clean-up/maintenance procedures at M&EC's Oak Ridge, Tennessee facility in accordance with M&EC's Resource Conservation and Recovery Act ("RCRA") permit requirements. As a result of the Company's decision to shut down its M&EC facility, the Company's financial results were impacted by certain non-cash impairment losses, write-offs and accruals as described below.

The Company performs its annual intangible test as of October 1 of each year. As permitted by ASC 350, "Intangibles-Goodwill and Other," when an impairment indicator arises during an interim reporting period, the Company may recognize its best estimates of that impairment loss. The Company performed a discounted cash flow analysis prepared as of June 30, 2016 for M&EC's intangible assets (permits), utilizing our best estimates of projected future cash flows. Based on this analysis, the Company concluded that potential impairment existed and subsequently determined that the permits for our M&EC subsidiary were fully impaired, resulting in an intangible impairment loss of approximately \$8,288,000 which was recorded in the second quarter of 2016.

M&EC is required to complete certain clean-up/maintenance activities at its Oak Ridge, Tennessee facility pursuant to its RCRA permit. The extent and cost of these activities are determined by federal/state mandate requirements. The Company performed an analysis and related estimate of the cost to complete the RCRA portion of these activities and based on this analysis, the Company recorded an additional \$1,626,000 in closure liabilities during the second quarter of 2016 with the offset to capitalized asset retirement costs, as reported as a component of “Net Property and equipment” in the Consolidated Balance Sheet.

In accordance with ASC 360, "Property, Plant, and Equipment," the Company also performed an updated financial valuation of M&EC's long-lived tangible assets, inclusive of the capitalized asset retirement costs, for potential impairment. Based on our analysis using an undiscounted cash flow approach, the Company concluded that the carrying value of certain tangible assets (property and equipment) for M&EC was not recoverable and exceeded its fair value. Consequently, the Company recorded \$1,816,000 in tangible asset impairment loss in the second quarter of 2016. The Company reevaluated the estimated useful lives of the remaining tangible assets and as a result of this analysis, reduced the current estimated useful lives of these assets ranging from 2 to 28 years at June 30, 2016 to 1.6 years. Accordingly, the Company is depreciating the carrying value of M&EC's remaining tangible assets of approximately \$4,728,000 at June 30, 2016 over a period of approximately 1.6 years to the lease expiration date.

In the second quarter of 2016, the Company also wrote-off approximately \$587,000 in fees previously incurred relating to emission performance testing certification requirement in order to meet state compliance mandate in connection with certain M&EC equipment which was impaired (see above for discussion of impairment loss recorded for M&EC's tangible assets). Such amount had been previously included in "Prepaid and other assets" on the Consolidated Balance Sheets.

During the first nine months of 2016 and the corresponding period of 2015, M&EC's revenues were approximately \$3,458,000 and \$5,225,000, respectively

4. Intangible Assets

The following table summarizes information relating to the Company's definite-lived intangible assets:

	Useful Lives (Years)	September 30, 2016			December 31, 2015		
		Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Intangibles (amount in thousands)							
Patent	8 - 18	\$ 571	\$ (266)	\$ 305	\$ 539	\$ (203)	\$ 336
Software	3	395	(374)	21	395	(364)	31
Customer relationships	12	3,370	(1,898)	1,472	3,370	(1,671)	1,699
Permit	10	545	(413)	132	545	(373)	172
Total		\$ 4,881	\$ (2,951)	\$ 1,930	\$ 4,849	\$ (2,611)	\$ 2,238

The intangible assets noted above are amortized on a straight-line basis over their useful lives with the exception of customer relationships which are being amortized using an accelerated method. The Company has only one definite-lived permit that is subject to amortization.

The following table summarizes the expected amortization over the next five years for our definite-lived intangible assets (including the permit as noted above):

Year	Amount (In thousands)
2016 (remaining)	\$ 101
2017	369
2018	335
2019	252
2020	217
	\$ 1,274

Amortization expenses relating to the definite-lived intangible assets as discussed above were \$101,000 and \$340,000 for the three and nine months ended September 30, 2016, respectively, and \$108,000 and \$360,000 for the three and nine months ended September 30, 2015, respectively.

5. Capital Stock, Stock Plans and Stock-Based Compensation

The Company has certain stock option plans under which it awards incentive and non-qualified stock options to employees, officers, and outside directors.

On May 15, 2016, the Company granted 50,000 incentive stock options (“ISOs”) from the Company’s 2010 Stock Option Plan to our newly named Executive Vice President. The ISOs granted were for a contractual term of six years with one-third vesting annually over a three year period. The exercise price of the ISOs was \$3.97 per share, which was equal to the fair market value of the Company’s Common Stock on the date of grant.

On July 28, 2016, the Company granted an aggregate of 12,000 non-qualified stock options (“NQSOs”) from the Company’s 2003 Outside Directors Stock Plan (“2003 Stock Plan”) to five of the seven re-elected directors at our Annual Meeting of Stockholders held on July 28, 2016. Two of the directors are not eligible to receive options under the 2003 Stock Plan as they are employees of the Company or its subsidiaries. The NQSOs granted were for a contractual term of ten years with a vesting period of six months. The exercise price of the NQSOs was \$4.60 per share, which was equal to the Company’s closing stock price the day preceding the grant date, pursuant to the 2003 Stock Plan.

The summary of the Company’s total Stock Option Plans as of September 30, 2016, and 2015, and changes during the periods then ended, are presented below. The Company’s Plans consist of the 2010 Stock Option Plan and the 2003 Stock Plan:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value ⁽²⁾
Options outstanding January 1, 2016	218,200	\$ 7.65		
Granted	62,000	4.09		
Exercised				
Forfeited/expired	(33,000)	8.14		
Options outstanding end of period ⁽¹⁾	247,200	\$ 6.69	4.6	\$ 126,267
Options exercisable at September 30, 2016 ⁽¹⁾	181,867	\$ 7.61	4.0	\$ 69,516
Options exercisable and expected to be vested at September 30, 2016	239,750	\$ 6.78	4.6	\$ 118,542

Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
--	---	---------------------------------

Edgar Filing: PERMA FIX ENVIRONMENTAL SERVICES INC - Form 10-Q

	Shares	Price	(years)	Value ⁽²⁾
Options outstanding January 1, 2015	239,023	\$ 7.81		
Granted	12,000	\$ 4.19		
Exercised	(3,423)	2.79		\$ 4,298
Forfeited/expired	(29,400)	8.13		
Options outstanding end of period ⁽¹⁾	218,200	7.65	5.1	\$ 25,464
Options exercisable at September 30, 2015 ⁽¹⁾	169,533	\$ 8.47	4.8	\$ 25,464
Options exercisable and expected to be vested at September 30, 2015	212,333	\$ 7.72	5.1	\$ 25,464

⁽¹⁾ Options with exercise prices ranging from \$2.79 to \$14.75

⁽²⁾ The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option.

The Company estimates the fair value of stock options using the Black-Scholes valuation model. Assumptions used to estimate the fair value of stock options granted include the exercise price of the award, the expected term, the expected volatility of the Company's stock over the option's expected term, the risk-free interest rate over the option's expected term, and the expected annual dividend yield. The fair value of the options granted during the nine months ended September 30, 2016 and 2015 and the related assumptions used in the Black-Scholes option model used to value the options granted were as follows (No options were granted to employees during the nine months ended September 30, 2015):

	Employee Stock Option Granted May 15, 2016	
Weighted-average fair value per share	\$ 2.00	
Risk -free interest rate ⁽¹⁾	1.27%	
Expected volatility of stock ⁽²⁾	53.12%	
Dividend yield	None	
Expected option life ⁽³⁾ (in years)	6.0	

	Outside Director Stock Options Granted July 28, September 2016 17, 2015	
Weighted-average fair value per share	\$ 3.0	\$ 2.84
Risk -free interest rate ⁽¹⁾	1.52%	2.21%
Expected volatility of stock ⁽²⁾	55.99%	57.98%
Dividend yield	None	None
Expected option life ⁽³⁾ (in years)	10.0	10.0

⁽¹⁾ The risk-free interest rate is based on the U.S. Treasury yield in effect at the grant date over the expected term of the option.

⁽²⁾ The expected volatility is based on historical volatility from our traded Common Stock over the expected term of the option.

⁽³⁾ The expected option life is based on historical exercises and post-vesting data.

The following table summarizes stock-based compensation recognized for the three and nine months ended September 30, 2016 and 2015 for our employee and director stock options.

Stock Options	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Employee Stock Options	\$12,000	\$13,000	\$42,000	\$39,000
Director Stock Options	13,000	2,000	27,000	23,000
Total	\$25,000	\$15,000	\$69,000	\$62,000

As of September 30, 2016, the Company has approximately \$103,000 of total unrecognized compensation cost related to unvested options, of which \$29,000 is expected to be recognized in remaining 2016, \$43,000 in 2017, \$30,000 in 2018, with the remaining \$1,000 in 2019.

During the nine months ended September 30, 2016, the Company issued a total of 43,172 shares of our Common Stock under the 2003 Stock Plan to our outside directors as compensation for serving on our Board of Directors. The Company has recorded approximately \$181,000 in compensation expenses (included in selling, general and administration (“SG&A”) expenses) in connection with the issuance of shares of our Common Stock to our outside directors.

The Company also issued 70,000 shares of our Common Stock on August 2, 2016 resulting from the exercise of two Warrants issued in connection with a loan dated August 2, 2013 (see Note 7 – “Long Term Debt – Promissory Note” for further detail of this transaction and the total proceeds received).

6. (Loss) Income Per Share

Basic (loss) Income per share is calculated based on the weighted-average number of outstanding common shares during the applicable period. Diluted (loss) income per share is based on the weighted-average number of outstanding common shares plus the weighted-average number of potential outstanding common shares. In periods where they are anti-dilutive, such amounts are excluded from the calculations of dilutive earnings per share. The following table reconciles the (loss) income and average share amounts used to compute both basic and diluted (loss) income per share:

	Three Months Ended September 30, (Unaudited)		Nine Months Ended September 30, (Unaudited)	
(Amounts in Thousands, Except for Per Share Amounts)	2016	2015	2016	2015
Net (loss) income attributable to Perma-Fix Environmental Services, Inc., common stockholders:				
(Loss) income from continuing operations attributable to Perma-Fix Environmental Services, Inc. common stockholders	\$(1,365)	\$1,447	\$(13,008)	\$165
Loss from discontinuing operations attributable to Perma-Fix Environmental Services, Inc. common stockholders	(191)	(377)	(622)	(1,313)
Net (loss) income attributable to Perma-Fix Environmental Services, Inc. common stockholders	\$(1,556)	\$1,070	\$(13,630)	\$(1,148)
Basic (loss) income per share attributable to Perma-Fix Environmental Services, Inc. common stockholders	\$(.13)	\$.09	\$(1.18)	\$(.10)
Diluted (loss) income per share attributable to Perma-Fix Environmental Services, Inc. common stockholders	\$(.13)	\$.09	\$(1.18)	\$(.10)
Weighted average shares outstanding:				
Basic weighted average shares outstanding	11,632	11,526	11,588	11,506
Add: dilutive effect of stock options		5		6
Add: dilutive effect of warrants		30		30
Diluted weighted average shares outstanding	11,632	11,561	11,588	11,542
Potential shares excluded from above weighted average share calculations due to their anti-dilutive effect include:				
Stock options	98	183	150	183

7. Long Term Debt

Long-term debt consists of the following at September 30, 2016 and December 31, 2015:

(Amounts in Thousands)	September 30, 2016	December 31, 2015
Revolving Credit facility dated October 31, 2011, as amended, borrowings based upon eligible accounts receivable, subject to monthly borrowing base calculation, balance due March 24, 2021. Effective interest rate for first nine months of 2016 was 3.9%. ^{(1) (2)}	\$ 5,263	\$ 2,349
Term Loan dated October 31, 2011, as amended, payable in equal monthly installments of principal of \$102, balance due on March 24, 2021. Effective interest rate for first nine months of 2016 was 3.7%. ^{(1) (2)}	5,352 ⁽⁵⁾	6,514
Promissory Note dated August 2, 2013, payable in twelve monthly installments of interest only, starting September 1, 2013 followed with twenty-four monthly installments of \$125 in principal plus accrued interest (at annual rate of 2.99%). Note paid in full in August 2016. ^{(3) (4)}		950
Capital lease (interest at rate of 6.0%)	4	23
Total debt	10,619	9,836
Less current portion of long-term debt	1,194	2,431
Long-term debt	\$ 9,425	\$ 7,405

⁽¹⁾ Our Revolving Credit facility is collateralized by our accounts receivable and our Term Loan is collateralized by our property, plant, and equipment.

⁽²⁾ See below “Revolving Credit and Term Loan Agreement” for monthly payment interest options. Prior to April 1, 2016, the monthly installment payment under the Term Loan was approximately \$190,000.

⁽³⁾ Uncollateralized note.

⁽⁴⁾ Net of debt discount of (\$0) and (\$50,000) at September 30, 2016 and December 31, 2015, respectively. See “Promissory Notes and Installment Agreements” below for additional information.

⁽⁵⁾ Net of debt issuance costs of (\$134,000) and (\$152,000) at September 30, 2016 and December 31, 2015, respectively.

Revolving Credit and Term Loan Agreement

The Company entered into an Amended and Restated Revolving Credit, Term Loan and Security Agreement, dated October 31, 2011 (“Loan Agreement”), with PNC National Association (“PNC”), acting as agent and lender. The Loan Agreement, as subsequently amended prior to the March 24, 2016 amendment discussed below (“Amended Loan Agreement”), provided the Company with the following credit facility: (a) up to \$12,000,000 revolving line of credit (“Revolving Credit”), subject to the amount of borrowings based on a percentage of eligible receivables (as defined) and (b) a term loan (“Term Loan”) of \$16,000,000, which required monthly installments of approximately \$190,000 (based on a seven-year amortization).

Under the Amended Loan Agreement, the Company had the option of paying an annual rate of interest due on the Revolving Credit at prime plus 2% or London Inter Bank Offer Rate (“LIBOR”) plus 3% and the Term Loan at prime plus 2.5% or LIBOR plus 3.5%.

On March 24, 2016, the Company entered into an amendment to the Amended Loan Agreement with PNC which provided, among other things, the following (the amendment, together with the Amended Loan Agreement is collectively known as the “Revised Loan Agreement”):

extended the due date of our credit facility from October 31, 2016 to March 24, 2021 (“maturity date”);

amended the Term Loan to approximately \$6,100,000, which requires monthly payments of \$101,600 (based on a five-year amortization) and which approximated the Term Loan balance under the existing credit facility at the date of the amendment. The Revolving Credit remains at up to \$12,000,000 (subject to the amount of borrowings based on a percentage of eligible receivables as previously defined under the Amended Loan Agreement);

released \$1,000,000 of the \$1,500,000 borrowing availability restriction that the lender had previously placed on the Company in connection with the insurance settlement proceeds received on July 28, 2014 by our Perma-Fix of South Georgia, Inc. (“PFSG”) facility. The Company’s lender had authorized the Company to use such proceeds for working capital purposes but had placed an indefinite reduction on our borrowing availability of \$1,500,000;

revised the interest payment options to paying an annual rate of interest due on the Revolving Credit at prime plus 1.75% or LIBOR plus 2.75% and the Term Loan at prime (3.50% at September 30, 2016) plus 2.25% or LIBOR plus 3.25%; and

revised our annual capital spending maximum limit from \$6,000,000 to \$3,000,000.

In connection with the amendment of March 24, 2016, the Company paid PNC total closing fees of approximately \$72,000. As a result of the amendment dated March 24, 2016, the Company recorded approximately \$68,000 in loss on extinguishment of debt in accordance with ASC 470-50, “Debt – Modifications and Extinguishments,” which was included in interest expense in the accompanying Consolidated Statements of Operations.

Pursuant to the Revised Loan Agreement, the Company may terminate the Revised Loan Agreement upon 90 days’ prior written notice upon payment in full of its obligations under the Revised Loan Agreement. The Company has agreed to pay PNC 1.0% of the total financing in the event the Company pays off its obligations on or before March 23, 2017, .50% of the total financing if the Company pays off its obligations after March 23, 2017 but prior to or on March 23, 2018, and .25% of the total financing if the Company pays off its obligations after March 23, 2018 but prior to or on March 23, 2019. No early termination fee shall apply if the Company pays off its obligations after March 23, 2019.

The Company’s credit facility with PNC contains certain financial covenants, along with customary representations and warranties. A breach of any of these financial covenants, unless waived by PNC, could result in a default under our credit facility allowing our lender to immediately require the repayment of all outstanding debt under our credit facility and terminate all commitments to extend further credit. The Company failed to meet its minimum quarterly fixed charge coverage ratio (“FCCR”) requirement of 1.15:1 in the first quarter of 2016. On May 23, 2016, the Company’s lender waived this non-compliance. In connection with this waiver, the Company paid PNC a fee of \$5,000 which was included in SG&A expenses. The Company met its financial covenant requirements in the second quarter of 2016 except for its quarterly FCCR requirement. On August 22, 2016, the Company entered into an amendment to its Revised Loan Agreement with its lender which waived the Company’s non-compliance with its minimum quarterly FCCR for the second quarter of 2016. In addition, the amendment revised the methodology used in calculating the FCCR in the third quarter of 2016 and to be used in the fourth quarter of 2016 and the first quarter of 2017. This amendment also revised the Company’s minimum Tangible Adjusted Net Worth (as defined in the Revised Loan Agreement) requirement from \$30,000,000 to \$26,000,000. In connection with the amendment, the Company paid PNC a fee of \$25,000, which is being amortized over the remaining term of the loan as interest expense – financing fees. The Company failed to meet its FCCR in the third quarter of 2016. The Company has obtained a waiver from its lender for this non-compliance. The Company expects to meet its quarterly financial covenants for the remainder quarter of 2016 as the Company’s lender has further revised the methodology to be used in calculating the FCCR (see

Note 12 – “Subsequent Events – Credit Facility” for this waiver and the further revision made to the methodology in calculating the FCCR in subsequent quarters, among other things).

As of September 30, 2016, the availability under our revolving credit was \$2,294,000, based on our eligible receivables and includes the remaining indefinite reduction of borrowing availability of \$500,000 as discussed above.

Promissory Note

The Company entered into a \$3,000,000 loan dated August 2, 2013 with Messrs. Robert Ferguson and William Lampson (each known as the “Lender”). As consideration for the Company receiving the loan, the Company issued to each Lender a Warrant to purchase up to 35,000 shares of the Company’s Common Stock at an exercise price of \$2.23 per share. On August 2, 2016, each Lender exercised his Warrant for the purchase of 35,000 shares of our Common Stock, resulting in total proceeds paid to the Company of approximately \$156,000. As further consideration for the loan, the Company had also issued to each Lender 45,000 shares of the Company’s Common Stock. The fair value of the Warrants and Common Stock and the related closing fees incurred from this transaction were recorded as a debt discount, which has been fully amortized using the effective interest method over the term of the loan as interest expense – financing fees. The loan was repaid in full by the Company in August 2016.

8. Commitments and Contingencies

Hazardous Waste

In connection with our waste management services, we process both hazardous and non-hazardous waste, which we transport to our own, or other, facilities for destruction or disposal. As a result of disposing of hazardous substances, in the event any cleanup is required, we could be a potentially responsible party for the costs of the cleanup notwithstanding any absence of fault on our part.

Legal Matters

In the normal course of conducting our business, we are involved in various litigation. We are not a party to any litigation or governmental proceeding which our management believes could result in any judgments or fines against us that would have a material adverse effect on our financial position, liquidity or results of future operations.

Insurance

The Company has a 25-year finite risk insurance policy entered into in June 2003 with American International Group, Inc. (“AIG”), which provides financial assurance to the applicable states for our permitted facilities in the event of unforeseen closure. The policy, as amended, provides for a maximum allowable coverage of \$39,000,000 and has available capacity to allow for annual inflation and other performance and surety bond requirements. All of the required payments for this finite risk insurance policy, as amended, were made by 2012. As of September 30, 2016, our financial assurance coverage amount under this policy totaled approximately \$38,874,000. The Company has recorded \$15,522,000 in sinking fund related to this policy in other long term assets on the accompanying Consolidated Balance Sheets, which includes interest earned of \$1,051,000 on the sinking fund as of September 30, 2016. Interest income for the three and nine months ended September 30, 2016 was approximately \$24,000 and \$62,000, respectively. Interest income for the three and nine month periods ended September 30, 2015, was approximately \$9,000 and \$23,000, respectively. If the Company so elects, AIG is obligated to pay us an amount equal to 100% of the sinking fund account balance in return for complete release of liability from both us and any

applicable regulatory agency using this policy as an instrument to comply with financial assurance requirements.

In August 2007, the Company entered into a second finite risk insurance policy for a term of four years for our Perma-Fix Northwest Richland, Inc. ("PFNWR") facility with AIG. The policy provided an initial \$7,800,000 of financial assurance coverage with an annual growth rate of 1.5%, which at the end of the four year term policy, provides maximum coverage of \$8,200,000. The Company has made all of the required payments on this policy. As of September 30, 2016, the Company has recorded \$5,934,000 in our sinking fund related to this policy in other long term assets on the accompanying Consolidated Balance Sheets, which includes interest earned of \$234,000 on the sinking fund as of September 30, 2016. Interest income for the three and nine months ended September 30, 2016 was approximately \$7,000 and \$14,000, respectively. Interest income for the three and nine month periods ended September 30, 2015, was approximately \$4,000 and \$7,000, respectively. This policy is renewed annually at the end of the four year term with a nominal fee for the variance between the coverage requirement and the sinking fund balance. The Company has renewed this policy annually from 2011 to 2016 (with fees ranging from \$41,000 to \$46,000 annually). All other terms of the policy remain substantially unchanged.

Letter of Credits and Bonding Requirements

From time to time, we are required to post standby letters of credit and various bonds to support contractual obligations to customers and other obligations, including facility closures. As of September 30, 2016, the total amount of these bonds and letters of credit outstanding was approximately \$1,514,000, of which the majority of the amount relates to various bonding requirements.

9. Discontinued Operations

The Company's discontinued operations consist of all our subsidiaries included in our Industrial Segment: (1) subsidiaries divested in 2011 and prior, (2) two previously closed locations, and (3) our PFSG facility which is currently undergoing closure, subject to regulatory approval.

The following table presents the major class of assets of discontinued operations as of September 30, 2016 and December 31, 2015. On May 2, 2016, Perma-Fix of Michigan, Inc. ("PFMI" – a closed location) entered into an Agreement for the sale of the property (which was held for sale as of December 31, 2015) for a price of \$450,000. The Agreement provides for a down payment of approximately \$75,000. After certain closing and settlement costs, PFMI received approximately \$46,000. The Agreement also provides for, among other things, the balance of the purchase price of \$375,000 to be paid by the buyer in 60 equal monthly installments of approximately \$7,250, with the first payment due June 15, 2016. No assets and liabilities are held for sale as of September 30, 2016.

(Amounts in Thousands)	September 30, 2016	December 31, 2015
Current assets		
Other assets	\$ 86	34
Total current assets	86	34

Total liabilities	\$ 1,463	\$ 1,595
--------------------------	----------	----------

⁽¹⁾ net of accumulated depreciation of \$10,000 for each period presented.

The Company's discontinued operations incurred losses of \$191,000 and \$377,000 for the three months ended September 30, 2016 and 2015, respectively (net of taxes of \$0 for each period) and losses of \$622,000 and \$1,313,000 for the nine months ended September 30, 2016 and 2015, respectively (net of taxes of \$0 for each period). Losses for the nine months ended September 30, 2015 included a penalty in the amount of approximately \$201,000 recorded for PFSG in the second quarter of 2015 in connection with a certain Consent Order from the Georgia Department of Natural Resources Environmental Protection Division and an asset impairment charge of \$150,000 recorded for PFMI in the second quarter of 2015 in connection with the sale of property as discussed above. Remaining losses for the periods discussed above were primarily due to costs incurred in the administration and continued monitoring of our discontinued operations. The Company's discontinued operations had no revenues for each of the periods noted above.

10. Operating Segments

In accordance with ASC 280, “Segment Reporting”, the Company defines an operating segment as a business activity: (a) from which we may earn revenue and incur expenses; (2) whose operating results are regularly reviewed by the chief operating decision maker (“CODM”) to make decisions about resources to be allocated to the segment and assess its performance; and (3) for which discrete financial information is available.

Our reporting segments are defined as below:

TREATMENT SEGMENT reporting includes:

nuclear, low-level radioactive, mixed, hazardous and non-hazardous waste treatment, processing and disposal services primarily through four uniquely licensed and permitted treatment and storage facilities; and R&D activities to identify, develop and implement innovative waste processing techniques for problematic waste streams.

SERVICES SEGMENT, which includes:

-On-site waste management services to commercial and government customers;

-Technical services, which include:

- o professional radiological measurement and site survey of large government and commercial installations using advanced methods, technology and engineering;
- o integrated Occupational Safety and Health services including industrial hygiene (“IH”) assessments; hazardous materials surveys, e.g., exposure monitoring; lead and asbestos management/abatement oversight; indoor air quality evaluations; health risk and exposure assessments; health & safety plan/program development, compliance auditing and training services; and Occupational Safety and Health Administration (“OSHA”) citation assistance;
- o global technical services providing consulting, engineering, project management, waste management, environmental, and decontamination and decommissioning field, technical, and management personnel and services to commercial and government customers;

-Nuclear services, which include:

- o technology-based services including engineering, decontamination and decommissioning (“D&D”), specialty services and construction, logistics, transportation, processing and disposal; remediation of nuclear licensed and federal facilities and the remediation cleanup of nuclear legacy sites. Such services capability includes: project investigation; radiological engineering; partial and total plant D&D; facility decontamination, dismantling, demolition, and planning; site restoration; site construction; logistics; transportation; and emergency response; and

A company owned equipment calibration and maintenance laboratory that services, maintains, calibrates, and -sources (i.e., rental) of health physics, IH and customized nuclear, environmental, and occupational safety and health (“NEOSH”) instrumentation.

MEDICAL SEGMENT reporting includes: R&D costs for the new medical isotope production technology from our majority-owned Polish subsidiary, PF Medical. The Medical Segment has not generated any revenue as it continues to be primarily in the R&D stage. All costs incurred for the Medical Segment are reflected within R&D in the accompanying Consolidated Statements of Operations and consist primarily of employee salaries and benefits, laboratory costs, third party fees, and other related costs associated with the development of this new technology.

Our reporting segments exclude our corporate headquarters and our discontinued operations (see Note 9 – “Discontinued Operations”) which do not generate revenues.

The table below presents certain financial information of our operating segments for the three and nine months ended September 30, 2016 and 2015 (in thousands).

Segment Reporting for the Quarter Ended September 30, 2016

	Treatment	Services	Medical	Segments Total	Corporate (1)	Consolidated Total

Expenditures for segment assets	303	27	—	330	8	338

(1) Amounts reflect the activity for corporate headquarters not included in the segment information.

(2) Amounts include tangible and intangible asset impairment losses of \$1,816,000 and \$8,288,000, respectively for the Company's M&EC subsidiary recorded in the second quarter of 2016 (see Note 3 – "East Tennessee Materials and Energy Corporation ("M&EC")"). Also includes a tax benefit of approximately \$3,203,000 recorded resulting from the intangible impairment loss recorded for our M&EC subsidiary (see Note 11 – "Income Taxes" below).

11. Income Taxes

The Company uses an estimated annual effective tax rate, which is based on expected annual income, statutory tax rates and tax planning opportunities available in the various jurisdictions in which the Company operates, to determine its quarterly provision for income taxes.

The Company had income tax expense of \$37,000 and income tax benefit of \$3,093,000 for continuing operations for the three and nine months ended September 30, 2016, respectively, and income tax expenses of \$53,000 and \$124,000 for continuing operations for the three and nine months ended September 30, 2015, respectively. The Company's effective tax rates were approximately (2.8%) and 19.2% for the three and nine months ended September 30, 2016, respectively, and 3.5% and 42.9% for the three and nine months ended September 30, 2015, respectively. The Company's income tax benefit for the nine months ended September 30, 2016 was primarily the result of a tax benefit recorded in the amount of \$3,203,000 resulting from the permit impairment loss recorded for the Company's M&EC subsidiary during the second quarter of 2016.

12. Subsequent Events

Credit Facility

On November 17, 2016, the Company entered into another amendment to its Revised Loan Agreement with its lender. This amendment included the following:

waived the Company's non-compliance with its minimum quarterly FCCR for the third quarter of 2016; further revised the methodology to be used in calculating the FCCR as follows (with continue maintenance of a minimum 1:15:1 ratio in each of the quarters): FCCR for the fourth quarter of 2016 is to be calculated using the financial results for the three months period ending December 31, 2016; FCCR for first quarter of 2017 is to be calculated using financial results for the six months period ending March 31, 2017; FCCR for second quarter of 2017 is to be calculated using the financial results for the nine months period ending June 30, 2017; and FCCR for the

third quarter of 2017 and each fiscal quarters thereafter is to be calculated using the financial results for a trailing twelve months period basis;

placed an immediate additional restriction on the Company's borrowing availability by \$750,000, in addition to the restriction on our borrowing availability of \$500,000 which had been previously placed by our lender; and revised the interest payment options to paying an annual rate of interest due on the Revolving Credit at prime plus 2% or LIBOR plus 3% and the Term Loan at Prime plus 2.5% or LIBOR plus 3.5%. Such interest payment option will automatically revert back to interest payment options as revised on the March 24, 2016 amendment (see the March 24, 2016 amendment the Company entered into with PNC in "Note 7 – Long Term Debt") if the Company is able to attain minimally a FCCR of 1:15:1, as calculated using a trailing twelve months period, subsequent to any quarters after the third quarter of 2016.

Pursuant to this amendment, the Company's lender has also established a "Condition Subsequent" which requires the Company to receive restricted cash released from a finite risk sinking fund by December 31, 2016, in connection with our Perma-Fix Northwest Richland, Inc. ("PFNWR") closure policy as discussed below. Immediately upon the receipt of funds, the Company's lender will immediately place another \$750,000 restriction on the Company's borrowing availability resulting in a total of \$2,000,000 restriction on the Company's borrowing availability. In the event the finite risk sinking fund is not received by the Company by December 31, 2016, the Company and its lender will enter into discussions of possible further amendments to the Revised Loan Agreement.

All other terms of the Revised Loan Agreement remain principally unchanged. In connection with this amendment, the Company agreed to pay its lender a fee of \$25,000.

Closure Policy

As discussed in "Note 8 – Commitment and Contingencies- Insurance," the Company has a closure policy for our PFNWR facility with AIG ("PFNWR policy") which provides financial assurance to the state of Washington in the event of closure of the PFNWR facility. As of September 30, 2016, our financial coverage under this policy stands at approximately \$7,973,000 and this policy is collateralized by a finite risk sinking fund in the amount of approximately \$5,900,000 which is recorded in other long term assets on our Consolidated Balance Sheets. The Company is currently working on other options in providing financial assurance coverage for our PFNWR facility, including acquiring a separate bonding mechanism which would enable the Company to cancel the PFNWR policy, thereby allowing for the release of any of the funds not required to collateralize the new PFNWR closure mechanism. The acceptance of a new mechanism for financial assurance for our PFNWR facility is subject to final approval by Washington state authorities and the release of such finite risk sinking fund is subject to approval by AIG.

Perma-Fix Medical

On October 11, 2016, the Company, Perma-Fix Medical S.A and its wholly-owned subsidiary, Perma-Fix Medical Corporation (Perma-Fix Medical S.A. and Perma-Fix Medical Corporation ("PFM Corporation" – a Delaware corporation) are together known as PF Medical) entered into a letter of intent ("LOI") with a private investor, subject to certain closing and other conditions, including, but not limited to, the execution of a definitive agreement within 90 days of the LOI, for the purchase of \$10,000,000 of Preferred Shares in PFM Corporation at a price of \$8.00 per share. PF Medical S.A. is a Polish majority-owned subsidiary of the Company. Upon closing, the Preferred Shares of PFM Corporation would be voting securities and allow the investor to own approximately 48.6% of PFM Corporation's

issued and outstanding voting securities as of the closing. The LOI also provides that at closing, subject to certain terms and conditions, the investor would also receive a 36-month warrant to purchase three quarters (.75) of one share of PFM Corporation's common stock for each share of Preferred Stock purchased by the investor at closing at an exercise price of \$9.00 for each three quarters of one share. In addition, at closing, the Company would receive a 36 month warrant, subject to certain terms and conditions, to purchase up to 183,606 shares of PFM Corporation's common stock at an exercise price of \$14.00 per share. Further, under the terms of the LOI, the Company would be repaid \$500,000 of the amounts owed to it by PF Medical within 30 days after closing and the balance within 120 days after the closing.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking Statements

Certain statements contained within this report may be deemed "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (collectively, the "Private Securities Litigation Reform Act of 1995"). All statements in this report other than a statement of historical fact are forward-looking statements that are subject to known and unknown risks, uncertainties and other factors, which could cause actual results and performance of the Company to differ materially from such statements. The words "believe," "expect," "anticipate," "intend," "will," and similar expressions identify forward-looking statements. Forward-looking statements contained herein relate to, among other things,

demand for our services;
reductions in the level of government funding in future years;
ability of our Medical Segment to fund its R&D program;
effect of Medical Segment not able to fund its R&D program;
reducing operating costs;
expect to meet our quarterly financial covenant requirements in remaining 2016;
cash flow requirements;
government funding for our services;
may not have liquidity to repay debt if our lender accelerates payment of our borrowings;
our cash flows from operations and our available liquidity from our Credit Facility are sufficient to service our Treatment and Services Segments' obligations;
manner in which the government will be required to spend funding to remediate federal sites;
reducing operating costs to bring them in line with revenue level, when necessary;
fund capital expenditures from cash from operations and/or financing;
fund remediation expenditures for sites from funds generated internally;
expect to receive certain large waste treatment shipments in the fourth quarter of 2016;
compliance with environmental regulations;
capital expenditures;
potential effect of being a PRP;
definitive agreement for PF Medical;
receipt of restricted cash in connection with our PFNWR closure policy;
acceptance of new mechanism for financial assurance for our PFNWR subsidiary by Washington state authorities;
potential sites for violations of environmental laws and remediation of our facilities; and
financial results due to shut down of M&EC facility located in Oak Ridge, Tennessee.

While the Company believes the expectations reflected in such forward-looking statements are reasonable, it can give no assurance such expectations will prove to have been correct. There are a variety of factors, which could cause future outcomes to differ materially from those described in this report, including, but not limited to:

general economic conditions;

material reduction in revenues;
ability to meet PNC covenant requirements;
inability to collect in a timely manner a material amount of receivables;
increased competitive pressures;
inability to maintain and obtain required permits and approvals to conduct operations;
public not accepting our new technology;
inability to develop new and existing technologies in the conduct of operations;
inability to maintain and obtain closure and operating insurance requirements;
inability to retain or renew certain required permits;
discovery of additional contamination or expanded contamination at any of the sites or facilities leased or owned by us or our subsidiaries which would result in a material increase in remediation expenditures;
delays at our third party disposal site can extend collection of our receivables greater than twelve months;
refusal of third party disposal sites to accept our waste;
changes in federal, state and local laws and regulations, especially environmental laws and regulations, or in interpretation of such;

requirements to obtain permits for TSD activities or licensing requirements to handle low level radioactive materials are limited or lessened;

failure to receive shipments of waste during the fourth quarter of 2016 that we anticipate receiving;

potential increases in equipment, maintenance, operating or labor costs;

management retention and development;

financial valuation of intangible assets is substantially more/less than expected;

failure to receive necessary regulatory approvals to cancel PFNWR closure policy and replace such with new financial assurance mechanism for our PFNWR subsidiary;

AIG's failure to approve release of the finite sinking fund relating to the PFNWR facility;

the requirement to use internally generated funds for purposes not presently anticipated;

inability to be profitable on an annualized basis;

inability of the Company to maintain the listing of its Common Stock on the NASDAQ;

terminations of contracts with federal agencies or subcontracts involving federal agencies, or reduction in amount of waste delivered to the Company under the contracts or subcontracts;

renegotiation of contracts involving the federal government;

federal government's inability or failure to provide necessary funding to remediate contaminated federal sites;

disposal expense accrual could prove to be inadequate in the event the waste requires re-treatment;

inability to raise capital on commercially reasonable terms;

inability to increase profitable revenue;

lender refuses to waive non-compliance or revises our covenant so that we are in compliance; and

Risk Factors and other factors set forth in "Special Note Regarding Forward-Looking Statements" contained in the Company's 2015 Form 10-K and "Forward-Looking Statements" in Form 10-Q for the quarters ended March 31, 2016 and June 30, 2016.

As disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, the Company determined that the operations of its majority-owned Polish subsidiary, Perma-Fix Medical S.A. and its wholly-owned subsidiary, Perma-Fix Medical Corporation ("PFM Corporation") (together known as "PF Medical"), which has not generated any revenues as it continues to be primarily in the research and development ("R&D") stage, meet the definition of a reportable segment in accordance with Accounting Standards Codification ("ASC") 280, "Segment Reporting." Accordingly, all of the historical numbers presented in the consolidated financial statements have been recast to include the operations of PF Medical as a separate reportable segment ("Medical Segment").

Overview

Revenue decreased \$4,388,000 or 25.4% to \$12,921,000 for the three months ended September 30, 2016 from \$17,309,000 for the corresponding period of 2015. The decrease was primarily within our Treatment Segment where revenue decreased \$3,223,000 or 29.7% primarily due to lower waste volume. Revenue from Services Segment decreased \$1,165,000 or 18.1% for the three months ended September 30, 2016 primarily due to completion of certain projects. Total gross profit decreased \$3,139,000 or 63.5% for the three months ended September 30, 2016 primarily due to the decrease in revenue in our Treatment Segment. Total Selling, General, and Administrative ("SG&A") expenses decreased \$155,000 or 5.4% for the three months ended September 30, 2016 as compared to the corresponding period of 2015.

Revenue decreased \$9,496,000 or 20.1% to \$37,768,000 for the nine months ended September 30, 2016 from \$47,264,000 for the corresponding period of 2015. The decrease in revenue was primarily due to the decrease in revenue in our Treatment Segment of approximately \$8,870,000 or 28.0% from lower waste volume. Total gross profit decreased \$6,798,000 or 65.0% for the nine months ended September 30, 2016 as compared to the corresponding period of 2015 primarily due to lower revenue generated from our Treatment Segment. Total SG&A expenses decreased \$501,000 or 5.8% for the nine months ended September 30, 2016 as compared to the corresponding period of 2015.

Our first nine months 2016 financial results were significantly impacted by certain large waste treatment shipments that we expected to receive but have been delayed by certain governmental customers. Although we still expect to receive certain of these shipments in the fourth quarter of 2016, there is no guarantee that these shipments will be received in the fourth quarter of 2016 as the receipt of these waste shipments can be further delayed into 2017.

Our financial results for the nine months ended September 30, 2016 included certain non-cash impairment losses, write-offs and accruals which were recorded during the second quarter of 2016 in connection with our East Tennessee Materials and Energy Corporation (“M&EC”) subsidiary as discussed below.

During the second quarter of 2016, M&EC subsidiary was notified by the lessor that the lease agreement which M&EC currently operates its Oak Ridge, Tennessee facility would not be renewed at the end of the current lease term ending January 21, 2018. In light of this event and our strategic review of operations within our Treatment Segment, we are proceeding with a plan to shut down our M&EC facility located in Oak Ridge, Tennessee at the end of the lease term. Operations at the M&EC facility are continuing during the remaining term of the lease and the facility has begun the process of transitioning waste shipments and operational capabilities to our other Treatment Segment facilities, subject to customer requirements and regulatory approvals. Simultaneously, we have begun required clean-up/maintenance procedures at M&EC’s Oak Ridge, Tennessee facility in accordance with M&EC’s Resource Conservation and Recovery Act (“RCRA”) permit requirements. As a result of this triggering event which occurred during the second quarter of 2016, we recorded non-cash impairment losses on our tangible and intangible assets of approximately \$1,816,000 and \$8,288,000, respectively, in the second quarter of 2016. We also recorded a write-off of approximately \$587,000 in prepaid expenses in connection with certain tangible asset at our M&EC facility which was impaired. As a result of the intangible (permit) impairment losses discussed above, we recorded a tax benefit in the amount of \$3,203,000.

In addition, M&EC is required to complete certain clean-up/maintenance activities at its Oak Ridge, Tennessee facility pursuant to its RCRA permits. The extent and cost of these activities are determined by federal/state mandate requirements. We performed an analysis and related estimate of the cost to complete the RCRA portion of these activities during the second quarter of 2016 and based on this analysis, we recorded an additional \$1,626,000,000 in closure liabilities during the second quarter of 2016 with the offset to capitalized asset retirement costs, as reported as a component of “Net Property and equipment” in the Consolidated Balance Sheet.”

During the first nine months of 2016 and the corresponding period of 2015, M&EC’s revenues were approximately \$3,458,000 and \$5,225,000, respectively.

Business Environment, Outlook and Liquidity

Our Treatment and Services Segments’ business continues to be heavily dependent on services that we provide to governmental customers directly as the contractor or indirectly as a subcontractor. We believe demand for our services will continue to be subject to fluctuations due to a variety of factors beyond our control, including the current economic conditions and the manner in which the government will be required to spend funding to remediate federal sites. In addition, our governmental contracts and subcontracts relating to activities at governmental sites are generally subject to termination or renegotiation on 30 days notice at the government’s option. We believe that significant reductions in the level of governmental funding or specifically mandated levels for different programs that are important to our business could have a material adverse impact on our business, financial position, results of operations and cash flows.

We believe that our cash flow requirements for remaining 2016 will consist primarily of general working capital needs, scheduled principal payments on our debt obligations and capital leases, remediation projects and planned capital expenditures which we plan to fund from operations and our credit facility availability (also see potential receipt of finite risk sinking fund related to our Perma-Fix Northwest Richland, Inc. (“PFNWR”) financial assurance policy in “Liquidity and Capital Resources – Investing Activities” in this “Management’s Discussion and Analysis”). Our Medical Segment continues to dedicate resources to the R&D of the new medical isotope production technology and to take the necessary steps for eventual submission of this technology for U.S. Food and Drug Administration (“FDA”) and other regulatory approval and commercialization of this technology. We believe that the need for capital by the Medical Segment in order to complete its R&D program and to submit its technology for governmental approval will require the Medical Segment to obtain such capital requirements through obtaining its own credit facility or additional equity raise. The Medical Segment has entered into a letter of intent (“LOI”) to raise capital, which is subject to the completion of a definitive agreement (see “Liquidity and Capital Resources - Financing Activities” in this “Management’s Discussion and Analysis” for further detail of this LOI). If the Medical Segment is unable to raise the necessary capital, the Medical Segment could be required to reduce, delay or eliminate its R&D program.

Results of Operations

The reporting of financial results and pertinent discussions are tailored to three reportable segments: The Treatment, Services, and Medical Segments. Our Medical Segment encompasses the operations of our majority-owned Polish subsidiary, PF Medical, which has not generated any revenue and all costs incurred are included within R&D.

Summary – Three and Nine Months Ended September 30, 2016 and 2015

24

Consolidated revenues decreased \$4,388,000 for the three months ended September 30, 2016, compared to the three months ended September 30, 2015, as follows:

(In thousands)	2016	% Revenue	2015	% Revenue	Change	% Change
<u>Treatment</u>						
Government waste	\$5,127	39.7	\$8,193	47.3	\$(3,066)	(37.4)
Hazardous/non-hazardous	1,307	10.1	1,044	6.0	263	25.2
Other nuclear waste	1,209	9.4	1,629	9.5	(420)	(25.8)

<u>Services</u>						
Nuclear services	4,829	37.3	6,001	34.6	(1,172)	(19.5)
Technical services	449	3.5	442	2.6	7	1.6
Total	5,278	40.8	6,443	37.2	(1,165)	(18.1)
Total	\$12,921	100.0	\$17,309	100.0	\$(4,388)	(25.4)

Net Revenue

Treatment Segment revenue decreased \$3,223,000 or 29.7% for the three months ended September 30, 2016 over the same period in 2015. The revenue decrease was primarily due to lower revenue generated from government customers of approximately \$3,066,000 or 37.4% due to lower volume. Other nuclear revenue decreased approximately \$420,000 or 25.8% primarily due to lower volume. The decrease in Services Segment revenue of \$1,165,000 or 18.1% in the three months ended September 30, 2016 as compared to the corresponding period of 2015 was primarily the result of completion of certain projects. Our Services Segment revenues are project based; as such, the scope, duration and completion of each project varies. As a result, our Services Segment revenues are subject to differences relating to timing and project value.

Consolidated revenues decreased \$9,496,000 for the nine months ended September 30, 2016, as compared to the nine months ended September 30, 2015, as follows:

(In thousands)	2016	% Revenue	2015	% Revenue	Change	% Change
<u>Treatment</u>						
Government waste	\$15,062	39.9	\$23,613	50.0	\$(8,551)	(36.2)
Hazardous/non-hazardous	3,544	9.4	3,317	7.0	227	6.8
Other nuclear waste	4,226	11.2	4,772	10.1	(546)	(11.4)

Edgar Filing: PERMA FIX ENVIRONMENTAL SERVICES INC - Form 10-Q

Total	22,832	60.5	31,702	67.1	(8,870)	(28.0)
<u>Services</u>						
Nuclear services	13,671	36.2	13,670	28.9	1	0.0
Technical services	1,265	3.3	1,892	4.0	(627)	(33.1)
Total	14,936	39.5	15,562	32.9	(626)	(4.0)
Total	\$37,768	100.0	\$47,264	100.0	\$(9,496)	(20.1)

Net Revenue

Treatment Segment revenue decreased \$8,870,000 or 28.0% for the nine months ended September 30, 2016 over the same period in 2015. The revenue decrease was primarily due to lower revenue generated from government customers of approximately \$8,551,000 or 36.2% due to lower waste volume. Our Services Segment revenue decreased by \$626,000 or 4.0%. Our Services Segment revenues are project based; as such, the scope, duration and completion of each project varies. As a result, our Services Segment revenues are subject to differences relating to timing and project value.

Cost of Goods Sold

Cost of goods sold decreased \$1,249,000 for the quarter ended September 30, 2016, as compared to the quarter ended September 30, 2015, as follows:

(In thousands)	2016	% Revenue	2015	% Revenue	Change
Treatment	\$6,806	89.0	\$7,170	66.0	\$(364)
Services	4,308	81.6	5,193	80.6	(885)
Total	\$11,114	86.0	\$12,363	71.4	\$(1,249)

Cost of goods sold for the Treatment Segment decreased by \$364,000 or approximately 5.1% primarily due to lower revenue. We incurred lower disposal, transportation, lab, and material and supplies costs totaling approximately \$452,000. Our overall fixed costs were higher by approximately \$82,000 resulting from the following: depreciation expense was higher by approximately \$290,000 primarily due to re-evaluation of the estimated useful lives of M&EC facility's remaining tangible assets conducted during the second quarter of 2016 resulting from the pending shut-down of the facility. Such re-evaluation resulted in a reduction of the estimated useful lives ranging from 2 to 28 years to 1.6 years; payroll and healthcare costs were lower by approximately \$99,000 from lower headcount; general expenses were lower by \$77,000 in various categories as we continue to streamline our costs; and maintenance costs were lower by approximately \$32,000. In the prior period of 2015, we incurred higher costs in connection with the maintenance of certain buildings and equipment. Services Segment cost of goods sold decreased \$885,000 or 17.0% primarily due to the decrease in revenue as discussed above. The decrease was primarily from lower material and supplies and disposal expenses totaling approximately \$610,000 with the remaining lower costs attributed primarily to lower labor and travel expenses. Included within cost of goods sold is depreciation and amortization expense of \$1,158,000 and \$879,000 for the three months ended September 30, 2016, and 2015, respectively.

Cost of goods sold decreased \$2,698,000 for the nine months ended September 30, 2016, as compared to the nine months ended September 30, 2015, as follows:

(In thousands)	2016	% Revenue	2015	% Revenue	Change
Treatment	\$21,552	94.4	\$23,437	73.9	\$(1,885)
Services	12,559	84.1	13,372	85.9	(813)
Total	\$34,111	90.3	\$36,809	77.9	\$(2,698)

Cost of goods sold for the Treatment Segment decreased by \$1,885,000 or 8.0%. Included in the cost of goods sold is a write-off of approximately \$587,000 in prepaid fees recorded in the second quarter of 2016 resulting from the impairment of certain equipment at our M&EC facility. Such fees were incurred for emission performance testing certification requirements as mandated by the state (see "Overview" under this "Management's Discussion and Analysis of Financial Condition and Results of Operations" for further details of transactions recorded during the second quarter

of 2016 due to pending shut down of our M&EC facility). Excluding this write-off, cost of goods sold for the Treatment Segment decreased by approximately \$2,472,000 or 10.5% primarily due to lower revenue. We incurred lower disposal, transportation, lab, and material and supplies costs totaling approximately \$1,765,000. Our overall fixed costs were lower by approximately \$708,000 resulting from the following: salaries and payroll related expenses (including healthcare costs) were lower by approximately \$462,000 resulting from lower headcount; general expenses were lower by approximately \$217,000 in various categories as we continue to streamline our costs; maintenance costs were lower by approximately \$232,000. In the prior period of 2015, we incurred higher costs in connection with the maintenance of certain buildings and equipment; and depreciation expense was higher by approximately \$203,000 primarily due the re-evaluation of the estimated useful lives of M&EC facility's remaining tangible assets conducted during the second quarter of 2016 due to the pending shut down of the facility. Services Segment cost of goods sold decreased \$813,000 or 6.1% primarily due to lower labor and travel expenses totaling approximately \$917,000 which was offset by higher material and supplies and disposal expenses totaling approximately of \$113,000. Included within cost of goods sold is depreciation and amortization expense of \$2,853,000 and \$2,684,000 for the nine months ended September 30, 2016, and 2015, respectively.

Gross Profit

Gross profit for the quarter ended September 30, 2016 decreased \$3,139,000 over the same period of 2015, as follows:

(In thousands)	2016	% Revenue	2015	% Revenue	Change
Treatment	\$837	11.0	\$3,696	34.0	\$(2,859)
Services	970	18.4	1,250	19.4	(280)
Total	\$1,807	14.0	\$4,946	28.6	\$(3,139)

Treatment Segment gross profit decreased \$2,859,000 or 77.4% and gross margin decreased to 11.0% from 34.0% primarily due to lower revenue from lower waste volume and the impact of our fixed costs. In the Services Segment, the decrease in gross profit of \$280,000 or approximately 22.4% was primarily due to reduced revenue. Gross margin reduced slightly to 18.4% from 19.4%. Our overall Services Segment gross margin is impacted by our current projects which are competitively bid on and will therefore, have varying margin structures.

Gross profit for the nine months ended September 30, 2016 decreased \$6,798,000 over the same period in 2015, as follows:

(In thousands)	2016	% Revenue	2015	% Revenue	Change
Treatment	\$1,280	5.6	\$8,265	26.1	\$(6,985)
Services	2,377	15.9	2,190	14.1	187
Total	\$3,657	9.7	\$10,455	22.1	\$(6,798)

Treatment Segment gross profit decreased \$6,985,000 or 84.5% and gross margin decreased to 5.6% from 26.1%. Excluding the write-off of the \$587,000 in prepaid fees resulting from the impairment of certain equipment at our M&EC subsidiary as discussed above, Treatment Segment gross profit decreased \$6,398,000 or 77.4% and gross margin decreased to 8.2% from 26.1% primarily due to decreased revenue from lower waste volume and the impact of our fixed costs. In the Services Segment, the increases in gross profit of \$187,000 and gross margin were primarily due to certain higher margin projects that we are currently working on. As discussed previously, our overall Services Segment gross margin is impacted by our current projects which are competitively bid on and will therefore, have varying margin structures.

Selling, General and Administrative

Selling, general and administrative ("SG&A") expenses decreased \$155,000 for the three months ended September 30, 2016, as compared to the corresponding period for 2015, as follows:

(In thousands)	2016	% Revenue	2015	% Revenue	Change
Administrative	\$1,311	—	\$1,198	—	\$ 113
Treatment	819	10.7	931	8.6	(112)
Services	602	11.4	758	11.8	(156)
Total	\$2,732	21.1	\$2,887	16.7	\$ (155)

Treatment SG&A was lower primarily due to lower marketing expenses by approximately \$112,000 due to fewer tradeshows and lower general expenses by approximately \$36,000 in various categories. The lower cost was partially offset by slightly higher payroll related expenses of \$36,000. The decrease in SG&A in the Services Segment was primarily due to lower outside services expenses by approximately \$73,000 resulting from fewer business/consulting/legal matters. General expenses were lower by approximately \$63,000 in various categories and total travel and payroll related expenses were lower by approximately \$20,000. The increase in administrative SG&A was primarily the result of higher salaries and payroll related expenses of approximately \$87,000 resulting from the hiring of our new executive vice president in the second quarter of 2016 and higher outside services expenses by approximately \$50,000 resulting from more legal/consulting matters. The increase was partially offset by lower travel expenses of \$5,000 and lower general expenses of \$20,000 in various categories. Included in SG&A expenses is depreciation and amortization expense of \$31,000 and \$33,000 for the three months ended September 30, 2016, and 2015, respectively.

SG&A expenses decreased \$501,000 for the nine months ended September 30, 2016, as compared to the corresponding period for 2015, as follows:

(In thousands)	2016	% Revenue	2015	% Revenue	Change
Administrative	\$3,769	—	\$3,849	—	\$ (80)
Treatment	2,726	11.9	2,864	9.0	(138)
Services	1,667	11.2	1,950	12.5	(283)
Total	\$8,162	21.6	\$8,663	18.3	\$ (501)

The decrease in administrative SG&A was primarily the result of lower outside services expenses by approximately \$231,000 resulting from fewer consulting/business/legal matters. The decrease was partially offset by higher amortization expense of approximately \$34,000 resulting from the write-off of a patent and higher salaries and payroll related expenses of approximately \$116,000 resulting from the hiring of our new executive vice president in the second quarter of 2016. Treatment SG&A was lower primarily due to lower marketing expenses by approximately \$60,000 due to fewer tradeshows. Total payroll related and travel expenses were lower by approximately \$30,000 and general expenses were lower by approximately \$81,000 in various categories as we continue our efforts in reducing costs. The lower cost was partially offset by higher bad debt expense of \$32,000. The decrease in SG&A in the Services Segment was primarily due to lower bad debt expense of approximately \$341,000 resulting from a reduction in our allowance for doubtful account recorded in the second quarter of 2016 as a previously reserved amount for an uncertain account receivable was determined to be collectible. Amortization expense was lower by approximately \$35,000 as a certain amortizable intangible asset became fully amortized in June 2015. Outside services expenses were lower by approximately \$53,000 from fewer consulting/legal/business matters and general expenses were lower by approximately \$60,000 in various categories. The decrease in SG&A was partially offset by higher payroll expenses of approximately \$208,000 incurred primarily in the first half of 2016 related to bids and proposal work for potential projects. Included in SG&A expenses is depreciation and amortization expense of \$133,000 and \$137,000 for the nine months ended September 30, 2016 and 2015, respectively.

Research and Development (“R&D”)

R&D expenses decreased \$142,000 and increased \$70,000 for the three and nine months ended September 30, 2016, respectively, as compared to the corresponding period of 2015.

(In thousands)	Three Months Ended			Nine Months Ended		
	September 30,			September 30,		
	2016	2015	Change	2016	2015	Change
Administrative	\$—	\$7	(7)	\$15	\$9	\$ 6
Treatment	95	49	46	321	137	184
Services	4	—	4	38	—	38
PF Medical	342	527	(185)	1,196	1,354	(158)
Total	\$441	\$583	\$ (142)	\$1,570	\$1,500	\$ 70

Research and development costs consist primarily of employee salaries and benefits, laboratory costs, third party fees, and other related costs associated with the development of new technologies and technological enhancement of new potential waste treatment processes. The decrease in R&D costs for the three months ended September 30, 2016 as compared to the corresponding period of 2015 was primarily due to reduced R&D performed by our PF Medical Segment. The increase in R&D costs for the nine months was primarily in the Treatment Segment for enhancement of treatment processes.

Interest Expense

Interest expense decreased approximately \$23,000 and \$13,000 for the three and nine months ended September 30, 2016, respectively, as compared to the corresponding period of 2015. The decrease in the third quarter was primarily due to lower interest from our declining Term Loan balance and lower interest from the declining \$3,000,000 loan dated August 2, 2013, which was paid in full by the Company in August 2016. The decrease was partially offset by higher interest from higher averaged revolver loan balance. The decrease in the nine months ended September 30, 2016 as compared to the corresponding period of 2015 was primarily due to the same reasons as discussed above for the three months ended September 30, 2016. The decrease was offset additionally by a \$68,000 loss on debt extinguishment incurred in the first quarter of 2016 (which was included in interest expense) as a result of the amendment dated March 24, 2016 that we entered into with our lender which extended the due date of our credit facility, among other things, to March 24, 2021.

Interest Expense- Financing Fees

Interest expense-financing fees decreased approximately \$42,000 and \$72,000 for the three and nine months ended September 30 2016, respectively, as compared to the corresponding period of 2015. The decrease was primarily due to lower monthly amortized financing fees resulting from our revised credit facility pursuant to the amendment dated March 24, 2016 as discussed above.

Discontinued Operations and Divestitures

The Company's discontinued operations consist of all our subsidiaries included in our Industrial Segment: (1) subsidiaries divested in 2011 and prior, (2) two previously closed locations, and (3) our Perma-Fix of South Georgia, Inc. ("PFSG") facility which is currently undergoing closure, subject to regulatory approval.

On May 2, 2016, Perma-Fix of Michigan, Inc. ("PFMI" – a closed location) entered into an Agreement for the sale of the property for a price of \$450,000. The Agreement provides for a down payment of approximately \$75,000. After certain closing and settlement costs, PFMI received approximately \$46,000. The Agreement also provides for, among other things, the balance of the purchase price of \$375,000 to be paid by the buyer in 60 equal monthly installments of approximately \$7,250, with the first payment due June 15, 2016.

Our discontinued operations had no revenue for the three and nine months ended September 30, 2016 and the corresponding period of 2015. We incurred net losses of \$191,000 and \$622,000 for our discontinued operations for the three and nine months ended September 30, 2016, respectively. We had net losses of \$377,000 and \$1,313,000 for our discontinued operations for the three and nine months ended September 30, 2015, respectively. Our losses for the nine months ended September 30, 2015 included a penalty in the amount of approximately \$201,000 recorded for PFSG in connection with a certain Consent Order from the Georgia Department of Natural Resources Environmental Protection Division and an asset impairment charge of \$150,000 recorded for PFMI in connection with the sale of property as discussed above.

Liquidity and Capital Resources

Our cash flow requirements during the nine months ended September 30, 2016 were primarily financed by our operations and Credit Facility availability. Our Medical Segment continues to dedicate resources to the R&D of the new medical isotope production technology and to take the necessary steps for eventual submission of this technology for FDA and other regulatory approval and commercialization of this technology. We believe that the need for capital by our Medical Segment in order to complete its R&D program and to submit its technology for governmental approval will require the Medical Segment to obtain such capital requirements through obtaining its own credit facility or additional equity raise. The Medical Segment has entered into a letter of intent (“LOI”) to raise capital, which is subject to the completion of a definitive agreement (see “Financing Activities” below for further detail of this LOI). If the Medical Segment is unable to raise the necessary capital, the Medical Segment could be required to reduce, delay or eliminate its R&D program. We continue to explore all sources of increasing revenue. We are continually reviewing operating costs and are committed to further reducing operating costs to bring them in line with revenue levels, when necessary. Our capital requirements consist of general working capital needs, scheduled principal payments on our debt obligations, remediation projects and planned capital expenditures. Although there are no assurances, we believe that our cash flows from operations and our available liquidity from our credit facility are sufficient to fund our Treatment and Services Segment operations (also see potential receipt of finite risk sinking fund related to our PFNWR financial assurance policy in “Liquidity and Capital Resources – Investing Activities” below)

The following table reflects the cash flow activities during the first nine months of 2016:

(In thousands)	2016
Cash used in operating activities of continuing operations	\$(1,313)
Cash used in operating activities of discontinued operations	(710)
Cash used in investing activities of continuing operations	(150)
Proceeds from sale of property of discontinued operations	46
Cash provided by financing activities of continuing operations	838
Effect of exchange rate changes on cash	(1)
Decrease in cash	\$(1,290)

As of September 30, 2016, we were in a net borrowing position (Revolving Credit Facility) of approximately \$5,263,000. At September 30, 2016, we had cash on hand of approximately \$145,000, which presents primarily small account balances and minor petty cash used for miscellaneous services and supplies.

Operating Activities

Accounts Receivable (including Accounts receivable – non-current), net of allowances for doubtful accounts, totaled \$10,148,000 at September 30, 2016, an increase of \$475,000 from the December 31, 2015 balance of \$9,673,000. The increase was primarily due to timing of accounts receivable collections. We provide a variety of payment terms to our customers; therefore, our accounts receivable are impacted by the timing of accounts receivable collections.

Accounts Payable, totaled \$4,789,000 at September 30, 2016, a decrease of \$1,320,000 from the December 31, 2015 balance of \$6,109,000. The decrease was primarily due to reduced payables resulting from lower revenue and the pay down of our accounts payable. Also, we continue to manage payment terms with our vendors to maximize our cash position throughout all segments.

Disposal/transportation accrual as of September 30, 2016, totaled \$1,354,000, an increase of \$247,000 over the December 31, 2015 balance of \$1,107,000. Our disposal accrual can vary based on revenue mix and the timing of waste shipments for final disposal. During the first nine months of 2016, we shipped less waste for disposal.

We had working capital of \$1,473,000 (which included working capital of our discontinued operations) as of September 30, 2016, as compared to working capital of \$2,966,000 as of December 31, 2015. Our working capital was negatively impacted primarily by reduced revenue and the net loss we incurred during the first nine months of 2016.

Financing Activities

We entered into an Amended and Restated Revolving Credit, Term Loan and Security Agreement, dated October 31, 2011 (“Loan Agreement”), with PNC National Association (“PNC”), acting as agent and lender. The Loan Agreement, as subsequently amended prior to the March 24, 2016 amendment discussed below (“Amended Loan Agreement”), provided us with the following credit facility: (a) up to \$12,000,000 revolving line of credit (“Revolving Credit”), subject to the amount of borrowings based on a percentage of eligible receivables (as defined) and (b) a term loan (“Term Loan”) of \$16,000,000, which required monthly installments of approximately \$190,000 (based on a seven-year amortization).

Under the Amended Loan Agreement, we had the option of paying an annual rate of interest due on the Revolving Credit at prime plus 2% or London Inter Bank Offer Rate (“LIBOR”) plus 3% and the Term Loan at prime plus 2.5% or LIBOR plus 3.5%.

On March 24, 2016, we entered into an amendment to the Amended Loan Agreement with PNC which provided, among other things, the following (the amendment, together with the Amended Loan Agreement is collectively known as the “Revised Loan Agreement”):

extended the due date of our credit facility from October 31, 2016 to March 24, 2021 (“maturity date”);

amended the Term Loan to approximately \$6,100,000, which requires monthly payments of \$101,600 (based on a five-year amortization) and which approximated the term loan balance under the existing credit facility at the date of the amendment. The Revolving Credit remains at up to \$12,000,000 (subject to the amount of borrowings based on a percentage of eligible receivables as previously defined under the Amended Loan Agreement);

released \$1,000,000 of the \$1,500,000 borrowing availability restriction that the lender had previously placed on the Company in connection with the insurance settlement proceeds received on July 28, 2014 by our PFSG facility. The Company’s lender had authorized the Company to use such proceeds for working capital purposes but had placed an indefinite reduction on our borrowing availability of \$1,500,000;

revised the interest payment options to paying an annual rate of interest due on the Revolving Credit at prime plus 1.75% or LIBOR plus 2.75% and the Term Loan at prime plus 2.25% or LIBOR plus 3.25%; and

revised our annual capital spending maximum limit from \$6,000,000 to \$3,000,000.

In connection with the amendment of March 24, 2016, we paid PNC total closing fees of approximately \$72,000. As a result of the amendment dated March 24, 2016, we recorded approximately \$68,000 in loss on extinguishment of debt

in accordance with ASC 470-50, "Debt – Modifications and Extinguishments," which was included in interest expense in the accompanying Consolidated Statements of Operations.

Pursuant to the Revised Loan Agreement, we may terminate the Revised Loan Agreement upon 90 days' prior written notice upon payment in full of its obligations under the Revised Loan Agreement. We have agreed to pay PNC 1.0% of the total financing in the event we pay off our obligations on or before March 23, 2017, .50% of the total financing if we pay off our obligations after March 23, 2017 but prior to or on March 23, 2018, and .25% of the total financing if we pay off our obligations after March 23, 2018 but prior to or on March 23, 2019. No early termination fee shall apply if we pay off its obligations after March 23, 2019.

As of September 30, 2016, the availability under our revolving credit was \$2,294,000, based on our eligible receivables and includes the remaining indefinite reduction of borrowing availability of \$500,000 as discussed above. As of November 17, 2016, the indefinite reduction of borrowing availability will be increased by an additional \$750,000 (see amendment that we entered into with our lender on November 17, 2016 below). Upon potential receipt of the finite risk sinking fund relating to our PFNWR facility as discussed below (see "Investing Activities" below), our indefinite reduction of borrowing availability will be increased by an additional \$750,000.

Our credit facility with PNC contains certain financial covenants, along with customary representations and warranties. A breach of any of these financial covenants, unless waived by PNC, could result in a default under our credit facility allowing our lender to immediately require the repayment of all outstanding debt under our credit facility and terminate all commitments to extend further credit. The following table illustrates the quarterly financial covenant requirements under our credit facility as of September 30, 2016.

(Dollars in thousands)	Quarterly Requirement	1st Quarter Actual	2nd Quarter Actual	3rd Quarter Actual
Senior Credit Facility				
Fixed charge coverage ratio	1.15:1	0.91:1	0.64:1	0.06:1
Minimum tangible adjusted net worth	\$ 30,000	(1) \$40,539	\$32,150	\$30,706

(1) Effective with the third quarter of 2016, minimum tangible adjusted net worth was reduced to \$26,000

(see below for further details)

We failed to meet our minimum quarterly fixed charge coverage ratio (“FCCR”) requirement of 1.15:1 in the first quarter of 2016. On May 23, 2016, our lender waived this non-compliance. In connection with this waiver, we paid PNC a fee of \$5,000. We met our financial covenant requirements in the second quarter of 2016 except for our quarterly FCCR requirement. On August 22, 2016, we entered into an amendment to the Revised Loan Agreement with our lender which waived our non-compliance with the minimum quarterly FCCR for the second quarter of 2016. In addition, the amendment revised the methodology used in calculating the FCCR in the third quarter of 2016 and to be used in the fourth quarter of 2016 and the first quarter of 2017. This amendment also revised our minimum Tangible Adjusted Net Worth requirement (as defined in the Revised Loan Agreement) from \$30,000,000 to \$26,000,000. We failed to meet our quarterly FCCR requirement for the third quarter of 2016 due in large part, to the decrease in revenues sustained by our Treatment Segment as a result of delays in certain waste shipments that we expected to receive during the third quarter of 2016. On November 17, 2016, we entered into another amendment to our Revised Loan Agreement with our lender. This amendment included the following:

waived our non-compliance with the minimum quarterly FCCR for the third quarter of 2016;
 further revised the methodology to be used in calculating the FCCR as follows (with continue maintenance of a minimum 1:15:1 ratio in each of the quarters): FCCR for the fourth quarter of 2016 is to be calculated using the financial results for the three months period ending December 31, 2016; FCCR for first quarter of 2017 is to be calculated using financial results for the six months period ending March 31, 2017; FCCR for second quarter of 2017 is to be calculated using the financial results for the nine months period ending June 30, 2017; and FCCR for the third quarter of 2017 and each fiscal quarters thereafter is to be calculated using the financial results for a trailing twelve months period basis;
 placed an immediate additional restriction on our borrowing availability by \$750,000, in addition to the restriction on our borrowing availability of \$500,000 which had been previously placed by our lender; and
 revised the interest payment options to paying an annual rate of interest due on the Revolving Credit at prime plus 2% or LIBOR plus 3% and the Term Loan at Prime plus 2.5% or LIBOR plus 3.5%. Such interest payment option will automatically revert back to interest payment options as revised on the March 24, 2016 amendment (see the

March 24, 2016 amendment the Company entered into with above) if the Company is able to attain minimally a FCCR of 1:15:1, as calculated using a trailing twelve months period, subsequent to any quarters after the third quarter of 2016.

Pursuant to this amendment, our lender has also established a “Condition Subsequent” which requires the Company to receive restricted cash released from a finite risk sinking fund by December 31, 2016, in connection with our PFNWR subsidiary as discussed below (see “Investing Activities” below for further discussion of this finite risk sinking fund). Immediately upon the receipt of the funds, our lender will immediately place another \$750,000 restriction on the Company’s borrowing availability resulting in a total of \$2,000,000 restriction on the Company’s borrowing availability. In the event this finite risk sinking fund is not received by the Company by December 31, 2016, we will enter into discussions with our lender of possible further amendments to the Revised Loan Agreement.

All other terms of the Revised Loan Agreement remain principally unchanged. In connection with this amendment, the Company agreed to pay our lender a fee of \$25,000. As a result of this amendment, we believe we will be able to meet our quarterly financial covenant requirements in the remaining quarter of 2016. If we fail to meet any of our quarterly financial covenant requirements in the remaining quarter of 2016 and PNC does not waive the non-compliance or further revise our covenant so that we are in compliance, our lender could accelerate the repayment of borrowings under our Credit Facility. In the event that our lender accelerates the payment of our borrowings, we may not have sufficient liquidity to repay our debt under our credit facility and other indebtedness.

We entered into a \$3,000,000 loan dated August 2, 2013 with Messrs. Robert Ferguson and William Lampson (each known as the “Lender”) which was repaid in full by us in August 2016. The loan was unsecured with a term of three years with interest payable at a fixed interest rate of 2.99% per annum. The loan required monthly payments of accrued interest only during the first year of the loan and monthly payments of \$125,000 in principal plus accrued interest for the second and third year of the loan. As consideration for us receiving the loan, we issued to each Lender a Warrant to purchase up to 35,000 shares of the Company’s Common at an exercise price of \$2.23 per share. On August 2, 2016, each Lender exercised his Warrant for the purchase of 35,000 shares of our Common Stock, resulting in total proceeds paid to us of approximately \$156,000. As further consideration for the loan, we had also issued to each Lender 45,000 shares of the Company’s Common Stock. The fair value of the Warrants and Common Stock and the related closing fees incurred from this transaction were recorded as a debt discount, which has been fully amortized using the effective interest method over the term of the loan as interest expense – financing fees.

On October 11, 2016, the Company, Perma-Fix Medical S.A and its wholly-owned subsidiary, Perma-Fix Medical Corporation (Perma-Fix Medical S.A. and Perma-Fix Medical Corporation (“PFM Corporation” – a Delaware corporation) are together known as PF Medical) entered into a letter of intent (“LOI”) with a private investor, subject to certain closing and other conditions, including , but not limited to, the execution of a definitive agreement within 90 days of the LOI, for the purchase of \$10,000,000 of Preferred Shares in PFM Corporation at a price of \$8.00 per share. Perma-Fix Medical S.A. is a Polish majority-owned subsidiary of the Company. Upon closing, the Preferred Shares of PFM Corporation would be voting securities and allow the investor to own approximately 48.6% of PFM Corporation’s issued and outstanding voting securities as of the closing. The LOI also provides that at closing, subject to certain terms and conditions, the investor would also receive a 36-month warrant to purchase three quarters (.75) of one share of PFM Corporation’s common stock for each share of Preferred Stock purchased by the investor at closing at an exercise price of \$9.00 for each three quarters of one share. In addition, at closing, the Company would receive a 36 month warrant, subject to certain terms and conditions, to purchase up to 183,606 shares of PFM Corporation’s common stock at an exercise price of \$14.00 per share. Further, under the terms of the LOI, the Company would be repaid \$500,000 of the amounts owed to it by PF Medical within 30 days after closing and the balance within 120 days after the closing.

If the above-described funding transaction is consummated, the LOI provides that the Board of Directors of PFM Corporation shall consist of seven directors. Two of the directors shall be nominees of the investor, two of the directors shall be nominees of the Company, one director shall be a nominee of another stockholder of Perma-Fix Medical S.A. and two independent directors shall be nominees of the PFM Corporation board.

Investing Activities

For the nine months ended September 30, 2016, our purchases of capital equipment totaled approximately \$104,000. These expenditures were primarily for improvements in our Treatment Segment. These capital expenditures were funded by cash from operations. We have budgeted approximately \$1,200,000 for 2016 capital expenditures for our Treatment and Services Segments to maintain operations and regulatory compliance requirements. Certain of these budgeted projects may either be delayed until later years or deferred altogether. We have traditionally incurred actual capital spending totals for a given year at less than the initial budgeted amount. We plan to fund our capital expenditures from cash from operations and/or financing. The initiation and timing of projects are also determined by financing alternatives or funds available for such capital projects.

We have a closure policy for our PFNWR facility with American International Group, Inc. (“AIG”) (“PFNWR policy”) which provides financial assurance to the state of Washington in the event of closure of the PFNWR facility. As of September 30, 2016, our financial coverage under this policy stands at approximately \$7,973,000 and this policy is collateralized by a finite risk sinking fund in the amount of approximately \$5,900,000 which is recorded in other long term assets on our Consolidated Balance Sheets. The Company is currently working on other options in providing financial assurance coverage for our PFNWR facility, including acquiring a separate bonding mechanism, which would enable the Company to cancel the PFNWR policy, thereby allowing for the release of any of the funds not required to collateralize the new PFNWR closure mechanism. The acceptance of a new mechanism for financial assurance for our PFNWR facility is subject to final approval by Washington state authorities and the release of such finite risk sinking fund is subject to approval by AIG.

Off Balance Sheet Arrangements

We have a number of routine operating leases, primarily related to office space rental, office equipment rental and equipment rental for contract projects as of September 30, 2016, which total approximately \$1,065,000, payable as follows: \$187,000 in remainder of 2016; \$700,000 in 2017; with the remaining \$178,000 in 2018.

From time to time, we are required to post standby letters of credit and various bonds to support contractual obligations to customers and other obligations, including facility closures. As of September 30, 2016, the total amount of these bonds and letters of credit outstanding was approximately \$1,514,000, of which the majority of the amount relates to various bonds. Our Treatment Segment facilities operate under licenses and permits that require financial assurance for closure and post-closure costs. We provide for these requirements through financial assurance policies. As of September 30, 2016, the closure and post-closure requirements for these facilities were approximately \$46,847,000. We have recorded approximately \$21,456,000 in a sinking fund related to these policies in other long term assets on the accompanying Consolidated Balance Sheets.

Critical Accounting Policies and Estimates

There were no significant changes in our accounting policies or critical accounting estimates that are discussed in our Annual Report on Form 10-K for the year ended December 31, 2015.

Known Trends and Uncertainties

Significant Customers. Our Treatment and Services Segments have significant relationships with the federal government, and continue to enter into contracts, directly as the prime contractor or indirectly for others as a subcontractor, with the federal government. The U.S Department of Energy (“DOE”) and U.S. Department of Defense (“DOD”) represent major customers for our Treatment Segment and Services Segments. The contracts that we are a party to with the federal government or with others as a subcontractor to the federal government generally provide that the government may terminate or renegotiate the contracts on 30 days notice, at the government's election. Our inability to continue under existing contracts that we have with the federal government (directly or indirectly as a subcontractor) or significant reductions in the level of governmental funding in any given year could have a material adverse impact on our operations and financial condition.

We performed services relating to waste generated by the federal government, either directly as a prime contractor or indirectly as a subcontractor to the federal government, representing approximately \$6,568,000 or 50.8% and \$19,508,000 or 51.7% of our total revenue from continuing operations during the three and nine months ended September 30, 2016, respectively, as compared to \$9,460,000 or 54.7% and \$27,261,000 or 57.7% of our total revenue from continuing operations during the corresponding period of 2015, respectively.

Environmental Contingencies

We are engaged in the waste management services segment of the pollution control industry. As a participant in the on-site treatment, storage and disposal market and the off-site treatment and services market, we are subject to rigorous federal, state and local regulations. These regulations mandate strict compliance and therefore are a cost and concern to us. Because of their integral role in providing quality environmental services, we make every reasonable attempt to maintain complete compliance with these regulations; however, even with a diligent commitment, we, along with many of our competitors, may be required to pay fines for violations or investigate and potentially

remediate our waste management facilities.

We routinely use third party disposal companies, who ultimately destroy or secure landfill residual materials generated at our facilities or at a customer's site. In the past, numerous third party disposal sites have improperly managed waste and consequently require remedial action; consequently, any party utilizing these sites may be liable for some or all of the remedial costs. Despite our aggressive compliance and auditing procedures for disposal of wastes, we could further be notified, in the future, that we are a potentially responsible party ("PRP") at a remedial action site, which could have a material adverse effect.

Our subsidiaries where remediation expenditures will be made are at three sites within our discontinued operations. While no assurances can be made that we will be able to do so, we expect to fund the expenses to remediate these sites from funds generated internally.

At September 30, 2016, we had total accrued environmental remediation liabilities of \$900,000, of which \$29,000 is recorded as a current liability. No material changes in remediation liabilities have occurred since December 31, 2015.

Item 3. Quantitative and Qualitative Disclosures about Market Risks

Not applicable

Item 4. Controls and Procedures

(a) *Evaluation of disclosure controls and procedures.*

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our periodic reports filed with the Securities and Exchange Commission is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange

Commission and that such information is accumulated and communicated to our management. As of the end of the period covered by this report, we carried out an evaluation with the participation of our Principal Executive Officer and Principal Financial Officer. Based on this recent assessment, our Principal Executive Officer and Principal Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended) were effective as of September 30, 2016

Changes in internal (b)control over financial reporting.

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) in the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

There are no additional material legal proceedings pending against us and/or our subsidiaries not previously reported by us in Item 3 of our Form 10-K for the year ended December 31, 2015, which is incorporated herein by reference.

Item 1A. Risk Factors

There has been no other material change from the risk factors previously disclosed in our Form 10-K for the year ended December 31, 2015, except as follows:

PF Medical's inability to commercialize its medical isotope production technology may have a material impact on our financial results.

Our majority-owned Polish subsidiary, PF Medical (consisting of Perma-Fix Medical S.A. and its wholly owned subsidiary, Perma-Fix Medical Corporation (“PFM Corporation” – a Delaware corporation)), continues to dedicate significant resources to the R&D of its new medical isotope production technology. The ability to successfully commercialize this new technology is complex and an uncertain process requiring high levels of innovation and investment. As a majority owner of PF Medical, if PF Medical is unable to successfully commercialize this new technology and generate revenue, our financial result may be impacted materially. Further, PF Medical must complete the development of the new medical isotope technology and obtain approvals as to its Tc-99m medical diagnostic application from a certain U.S. governmental agency before it can market its process in the U.S. and may be required to obtain approvals from certain foreign governmental authorities before it can market its process in those respective countries. In order to raise the necessary capital for PF Medical to complete its development of its new medical isotope technology and to obtain approvals required to market its technology, PF Medical will be required to obtain its own credit facility, which could restrict our rights as majority owner of PF Medical, or raise additional equity capital which, if successful, could result in a dilution of our ownership in PF Medical. On October 11, 2016, the Company and PF Medical entered into a letter of intent (“LOI”) with a private investor, subject to certain closing and other conditions, including, but not limited to, the execution of a definitive agreement within 90 days of the LOI, for the purchase of \$10,000,000 of Preferred Shares in PFM Corporation at a price of \$8.00 per share and among other things (see “Liquidity and Capital Resources – Financing Activities” in “Management’s Discussion and Analysis” for further details of this LOI). If PF Medical is unable to raise the necessary capital by obtain its own credit facility or equity raise, PF Medical could be required to reduce, delay or eliminate its R&D program.

Breach of financial covenants in our Credit Facility could result in a default, triggering repayment of outstanding debt under the credit facility.

Our Credit Facility with our bank contains financial covenants. A breach of any of these covenants could result in a default under our Credit Facility triggering our lender to immediately require the repayment of all outstanding debt under our Credit Facility and terminate all commitments to extend further credit. Although we failed to meet our quarterly fixed charge coverage ratio (“FCCR”) for the first, second, and third quarters of 2016, these instances of non-compliance were waived by our lender. Our lender has further revised the methodology in calculating our FCCR. As a result of this revision, we expect to meet our quarterly financial covenant requirement for the remainder quarter of 2016; however, if we fail to meet any of our quarterly financial covenant requirements in the future and our lender does not waive the non-compliance or revise our covenant so that we are in compliance, our lender could accelerate the payment of our borrowings under our credit facility. In such event, we may not have sufficient liquidity to repay our debt under our Credit Facility and other indebtedness.

Shut down of our East Tennessee Materials and Energy Corporation (“M&EC”) facility located in Oak Ridge, Tennessee could negatively impact our financial results.

Our M&EC subsidiary was notified by the lessor that the lease agreement which M&EC currently operates its Oak Ridge, Tennessee facility would not be renewed at the end of the current lease term ending January 21, 2018. In light

of this event and our strategic review of operations within our Treatment Segment, we are proceeding with a plan to shut down our M&EC facility located in Oak Ridge, Tennessee at the end of the lease term. Operations at the M&EC facility are continuing during the remaining term of the lease and the facility has begun the process of transitioning waste shipments and operational capabilities to our other Treatment Segment facilities, subject to customer requirements and regulatory approvals. Simultaneously, we have begun required clean-up/maintenance procedures at M&EC's Oak Ridge, Tennessee facility in accordance with M&EC's RCRA permit requirements. We believe that our plan to shut down our M&EC facility in Oak Ridge, Tennessee should reduce our fixed costs within our Treatment Segment with minimal loss in revenue, thereby improving our Treatment Segment gross margin. However, as certain waste shipments are dependent on our customers' requirements and the operational capabilities of our other Treatment facilities to accept and treat these wastes, there are no guarantees that our other Treatment facilities will be able to treat these wastes. In such event, our financial results could be materially impacted.

Item 6. Exhibits

(a) **Exhibits**

Amended and Restated Bylaws of Perma-Fix Environmental Services, Inc., as amended effective July 28, 2016, as incorporated by reference from Exhibit 3(ii) to the Company Form 8-K filed on August 1, 2016.

First Amendment to Amended and Restated Revolving Credit, Term Loan and Security Agreement between PNC Bank, National Association and Perma-Fix Environmental Services, Inc., dated November 7, 2012, as incorporated by reference from Exhibit 4.1 to the Company Form 10-Q for the quarter ended September 30, 2012, filed on November 8, 2012.

Second Amendment to Amended and Restated Revolving Credit, Term Loan and Security Agreement and Waiver between PNC Bank, National Association and Perma-Fix Environmental Services, Inc., dated May 9, 2013, as incorporated by reference from Exhibit 4.1 to the Company Form 10-Q for the quarter ended March 31, 2013, filed on May 10, 2013.

Third Amendment to Amended and Restated Revolving Credit, Term Loan and Security Agreement between PNC Bank, National Association and Perma-Fix Environmental Services, Inc., dated August 2, 2013, as incorporated by reference from Exhibit 4.1 to the Company Form 10-Q for the quarter ended June 30, 2013, filed on August 8, 2013.

Fourth Amendment to Amended and Restated Revolving Credit, Term Loan and Security Agreement and Waiver between PNC Bank, National Association and Perma-Fix Environmental Services, Inc., dated April 14, 2014, as incorporated by reference from Exhibit 4.17 to the Company 2013 Form 10-K, filed on April 15, 2014.

Fifth Amendment to Amended and Restated Revolving Credit, Term Loan and Security Agreement between PNC Bank, National Association and Perma-Fix Environmental Services, Inc., dated July 25, 2014, as incorporated by reference from Exhibit 4.1 to the Company Form 8-K, filed on July 31, 2014.

Sixth Amendment to Amended and Restated Revolving Credit, Term Loan and Security Agreement between PNC Bank, National Association and Perma-Fix Environmental Services, Inc., dated July 25, 2014, as incorporated by reference from Exhibit 4.2 to the Company Form 8-K, filed on July 31, 2014.

Seventh Amendment to Amended and Restated Revolving Credit, Term Loan and Security Agreement between PNC Bank, National Association and Perma-Fix Environmental Services, Inc., dated March 24, 2016, as incorporated by reference from Exhibit 4.17 to the Company 2015 Form 10-K filed on March 24, 2016.

Waiver Letter from PNC dated May 23, 2016 for non-compliance of financial covenant, as incorporated by reference from Exhibit 4.8 to the Company Form 10-Q for the quarter ended June 30, 2016, filed on May 23, 2016.

Eighth Amendment to Amended and Restated Revolving Credit, Term Loan and Security Agreement between PNC Bank, National Association and Perma-Fix Environmental Services, Inc., dated August 22, 2016, as incorporated by reference from Exhibit 4.9 to the Company's Form 10-Q for the quarter ended June 30, 2016, filed on August 22, 2016.

Ninth Amendment to Amended and Restated Revolving Credit, Term Loan and Security Agreement between PNC Bank, National Association and Perma-Fix Environmental Services, Inc., dated November 17, 2016.

Certification by Dr. Louis F. Centofanti, Chief Executive Officer of the Company pursuant to Rule 13a-14(a) or 15d-14(a).

Certification by Ben Naccarato, Chief Financial Officer of the Company pursuant to Rule 13a-14(a) or 15d-14(a).

Certification by Dr. Louis F. Centofanti, Chief Executive Officer of the Company furnished pursuant to 18 U.S.C. Section 1350.

Certification by Ben Naccarato, Chief Financial Officer of the Company furnished pursuant to 18 U.S.C. Section 1350.

99.1

Letter of Intent (Term Sheet) dated October 11, 2016, between Perma-Fix Environmental Services, Inc., Perma-Fix Medical S.A., Perma-Fix Medical Corporation, and the Investor.
