ITEM 8.01 Other Events

On December 5, 2013, Crane Co. announced that the European Commission had approved the definitive agreements to implement the licensing and divestiture Commitments by Crane Co. related to its pending acquisition of MEI Conlux Holdings (“MEI”) and it intends to close the acquisition of MEI during the week of December 9, 2013. The product lines subject to the licensing and divestiture Commitments will have total approximate annual sales of \$28 million in 2013. These two business lines will be sold to the Suzo-Happ Group, a global components supplier. These transactions are expected to close and become effective in late December or early January.

Crane reaffirmed its previously announced estimate of accretion associated with the acquisition of MEI (including the impact of the transactions associated with the Commitments) within the first twelve months of ownership at \$0.20 per share, including \$0.07 per share of synergies. Crane also reaffirmed its estimate that synergies will reach \$25 million pre-tax, or \$0.30 per share, at the end of the third year following the acquisition (2016). These estimates exclude inventory step-up and one-time transaction and integration related costs.
