FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains forward-looking statements within

Edgar Filing: HYDROMER INC - Form 10-Q

the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements include, among other things, business strategy and expectations concerning industry conditions, market position, future operations, margins, profitability, liquidity and capital resources. Forward-looking statements generally can be identified by the use of terminology such as "may," "will," "expect," "intend," "estimate," "anticipate" or "believe" or similar expressions or the negatives thereof. These expectations are based on management's assumptions and current beliefs based on currently available information. Although the Company believes that the expectations reflected in such statements are reasonable, it can give no assurance that such expectations will be correct. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this quarterly report on Form 10-Q and the Company does not have any obligation to update the forward looking statements. The Company's operations are subject to a number of uncertainties, risks and other influences, many of which are outside its control, and any one of which, or a combination of which, could cause its actual results of operations to differ materially from the forward-looking statements.

HYDROMER, INC. AND CONSOLIDATED SUBSIDIARY

Notes to Consolidated Financial Statements

In the opinion of management, the accompanying unaudited financial statements include all adjustments (consisting of only normal adjustments) necessary for a fair presentation of the results for the interim periods. Certain reclassifications have been made to the previous year's results to present comparable financial statements.

Fair Value:

Some of the Company's financial instruments are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature, such as cash and cash equivalents, receivables and payables. The carrying amount of the mortgage is consistent with the terms available in the market for instruments with similar risk.

Segment Reporting:

The Company operates two primary business segments. The Company evaluates the segments by revenues, total expenses and earnings before taxes. Corporate Overhead (primarily the salaries and benefits of senior management, support services (Accounting, Legal, Human Resources and Purchasing) and other shared services (building maintenance and warehousing) is excluded from the business segments as to not distort the contribution of each segment. These segments are the lowest levels for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities.

The results for the three months ended September 30, by segment are:

	Polymer Research	Medical Products	Corporate Overhead	Total
2010				

Edgar Filing: HYDROMER INC - Form 10-Q

Revenues	\$ 921,326	\$ 334,566		\$ 1,255,892

	2010	2009
	----	----
Domestic	64%	76%
Foreign	36%	24%

6

ITEM #2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

The Company's revenues for the quarter ended September 30, 2010 were \$1,255,892, \$453,679 or 26.5% lower than the \$1,709,571 for the same period the previous year. Revenues are comprised of the sale of Products and Services and Royalty and Contract payments.

Product sales were \$650,404 for the quarter ended September 30, 2010 as compared to \$1,181,704 for the same period the year before, a \$531,300 (45.0%) decrease; lower due to the impact from the sales of product lines to Merit Medical Systems, Inc. ("Merit") in February 2009 and to Forefront Medical Technology (PTE) LTD ("Forefront") in November 2009. Including the transition period in which we continued to manufacture products on the behalf of Merit and Forefront until October 2009 and April 2010,

Edgar Filing: HYDROMER INC - Form 10-Q

respectively, the product lines sold accounted for \$515,845 of product sales during the quarter ended September 30, 2009. We expect revenues from our recently launched Dragonhyde(R) Hoof Bath Concentrates ("HBC") product to more than replace the lost revenues from the sold OEM product lines later in calendar 2011.

Services revenues for the three months ended September 30, 2010 was \$369,321 or \$69,529 higher (23.2%) than the \$299,792 the corresponding period the year before. Increased demand for our services accounted for the increase.

Royalty and Contract revenues include royalties received and the periodic recurring payments from license, stand still and other agreements for other than product and services. Included in Royalty and Contract revenues are revenues from support and supply agreements. Some of the royalties and support fees are based on the net sales of the final item (to which the Hydromer technology is applied to) and are subject to the reporting of our customers. For the quarter ended September 30, 2010, Royalty and Contract revenues were \$236,167, compared to \$228,075 the same period a year ago. It is anticipated that this revenue line will at least double within a few years as a result of one of our hydrogel technologies that has been under testing the past few years.

In summary, we are at a conversion period on our revenue mix, moving away from the lower margin OEM product lines that were sold, to the T-HEXX(R) Animal Health product line that we have been enriching the past few years, including with the Dragonhyde HBC developed and launched recently.

Total Expenses for the quarter ended September 30, 2010 were \$1,510,842 as compared with \$1,981,959 the year before, a 23.8% decrease.

For the quarter ended September 30, 2010, the Company's Cost of Goods Sold was \$426,599 as compared with \$840,194 the year prior, lower by \$413,595 or 49.2%. The Cost of Goods Sold attributed to the sold product lines were approximately \$424,000 in the September 2009 quarter.

Operating expenses were \$1,199,292 for the quarter ended September 30, 2010 as compared with \$1,266,360 the year before, lower by \$67,068 or 5.3%. We expect Operating expenses to not change dramatically from its current level with increases anticipated for marketing and promotions activity, primarily from the increased focus in our T-HEXX Animal Health business, including added international tradeshow promotions and related travel and marketing expenditures, offset by other reductions in operating expenses (including reduced patent funding on a cash basis, but not on an amortization basis).

Interest expense, interest income and other income are included in Other Expenses. Interest expense (on the mortgage) for the three months ended September 30, 2010 and September 30, 2009 were \$51,679 and \$53,035, respectively.

A net loss of \$254,950 (\$0.05 per share) is reported for the quarter ended September 30, 2010 as compared to a net loss of \$272,388 (\$0.06 per share) the year before.

The sale of the OEM product lines had a direct impact to our current year's results by at least \$91,000 (reduced revenues less direct costs of

sales). Thus when adjusting for the sold OEM product lines, there is a greater improvement to the operations this year.

Edgar Filing: HYDROMER INC - Form 10-Q

Financial Condition

Working capital decreased \$437,474 during the three months ended September 30, 2010.

Net operating activities used \$214,390 during the three month period ended September 30, 2010.

The net loss, as adjusted for non-cash expenses of depreciation and amortization and deferred income taxes, used \$318,634 in cash. The net change in other operating assets and liabilities provided for \$104,244 in cash, primarily from the collection of trade receivables, increase in accrued liabilities and expensing of prepaid expenses as offset by an inventory buildup related to the Dragonhyde HBC product launch.

Investing activities provided \$349,996 and financing activities used \$12,107 during the three months ended September 30, 2010.

Investing activities for the three months ended September 30, 2010 included \$46,896 for capital expenditures and \$43,108 towards the Company's patent estate. \$440,000 in short-term investments matured and was converted into cash. The Financing activities was the repayment of the principal portion of the mortgage.

Over the next few years, if not this fiscal year alone, we expect the demand for the T-HEXX product lines to increase, replacing the lost income from the cancellation of the \$100,000 per month Supply and Support Agreement (in January 2009 and replaced with a \$35,000 per month agreement) and from the sale of OEM product lines. For example, replacement revenues coming from the sales of the recently introduced Dragonhyde HBC product, which is cost comparative to competing Copper Sulfate and much more environmentally and user friendly than formalin (formaldehyde). In addition, there are other new or increased revenue channels foreseen, including that from its anti-microbial, anti-thrombogenic and cell mitosis technologies, however those are further downstream and there is no assurance these future expectations will occur. Nonetheless, the Company has a strong balance sheet to meet its required debt servicing.

ITEM # 3

Disclosure Controls and Procedures

As of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and President and the Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures.

Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, our disclosure controls and procedures were effective and that there were no changes to our Company's internal control over financial reporting that have materially affected, or is reasonably likely to materially affect the Company's internal control over financial reporting during the period covered by the Company's quarterly report.

PART II - OTHER INFORMATION

The Company operates entirely from its sole location at 35 Industrial Parkway in Branchburg, New Jersey, an owned facility secured by a mortgage through a bank.

The existing facility will be adequate for the Company's operations for the foreseeable future.
