(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 or 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2012.

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission File Number: 001-34779

HIGHER ONE HOLDINGS, INC.
(Exact Name of Registrant as Specified in its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

26-3025501
(I.R.S. Employer
Identification No.)

115 Munson Street
New Haven, CT 06511
(Address of Principal Executive Offices)(Zip Code)
(203) 776-7776
(Registrant's Telephone Number, Including Area Code)

N/A

(Former Name, Former Address and Former Fiscal Year, If Changes Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" or "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one).

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

.. (Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 30, 2012 there were 54,778,382 shares of common stock, par value \$0.001 per share, outstanding.

Table of Contents

Higher One Holdings, Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

1. Nature of Business and Organization

Higher One Holdings, Inc. is a leading provider of technology and payment services to the higher education industry. The Company is incorporated in Delaware and provides a comprehensive suite of disbursement and payment solutions specifically designed for higher education institutions and their students. The Company has developed proprietary software-based solutions to provide these services. The Company has a wholly-owned subsidiary, Higher One, Inc., or HOI, which has two wholly owned subsidiaries, Higher One Machines, Inc., or HOMI, and Higher One Real Estate, Inc., or Real Estate Inc. Higher One Payments, Inc., the acquired entity formerly known as Informed Decisions Corporation, or IDC, was previously a subsidiary and was merged into HOI in December 2011. As of March 31, 2012, Real Estate Inc. has a 98% ownership interest in Higher One Real Estate SP, LLC, or Real Estate LLC. HOMI performs certain operational support functions. Real Estate Inc. and Real Estate LLC were each formed to hold and operate certain of our real estate.

2. Significant Accounting Policies

Basis of Presentation and Consolidation

The accompanying unaudited condensed consolidated financial statements and the related interim information contained within the notes to such condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, and the applicable rules of the Securities and Exchange Commission, or SEC, for interim information and quarterly reports on Form 10-Q.

The unaudited condensed consolidated financial statements have been prepared on a consistent basis with the audited consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2011, and in the opinion of management, include all normal recurring adjustments that are necessary for the fair statement of our interim period results reported herein. The December 31, 2011 condensed consolidated balance sheet data was derived from audited financial statements but does not include all disclosures required by GAAP. Due to seasonal fluctuations and other factors, the results of operations for the three months ended March 31, 2012 are not necessarily indicative of the results to be expected for the full year.

The unaudited condensed consolidated financial statements reflect our financial position and results of operations, including our majority and wholly-owned subsidiaries. All material intercompany transactions and balances have been eliminated in consolidation.

The preparation of financial statements in conformity with GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could materially differ from management's estimates.

Basic and Diluted Net Income Available to Common Stockholders per Common Share

Basic net income per common share excludes dilution for potential common stock issuances and is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted net income per common share reflects the potential dilution that could occur if

securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of diluted net income per common share, the basic weighted-average number of shares is increased by the dilutive effect of restricted stock and stock options using the treasury-stock method. The treasury-stock method assumes that the options or warrants are exercised at the beginning of the year (or date of issue if later), and that we use those proceeds to purchase common stock for treasury at the average price for the reporting period.

The dilutive effect of stock options totaling 830,025 and 1,300,871 were not included in the computation of diluted net income per common share for the three months ended March 31, 2011 and 2012, respectively, as their effect would be anti-dilutive. Anti-dilutive securities are securities that upon conversion or exercise increase earnings per share (or reduce the loss per share). Restricted stock shares totaling 1,526,949 and 21,672 were not included in the computation of either basic or diluted earnings per share as all necessary conditions for vesting have not been satisfied by the end of the three months ended March 31, 2011 and 2012, respectively. In March 2012, 1,051,878 shares reverted back to us and were cancelled as a result of our exercise of certain repurchase rights pursuant to the purchase agreement with one of the officers of Educard, LLC.

Table of Contents

Higher One Holdings, Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

Comprehensive Income

There are no comprehensive income items other than net income. There are no recorded unrealized gains or losses on the investments in marketable securities as of the balance sheet dates. Comprehensive income equals net income for all periods presented.

Recent Accounting Pronouncements

There are no accounting standards adopted during 2011 or during the three months ended March 31, 2012 which had a material impact on our consolidated financial position, results of operations or liquidity. There are no new accounting standards issued which we expect to have a material impact on our consolidated financial position, results of operations, liquidity or disclosure.

3. Investments in Marketable Securities and Fair Value Measurements

The following table reflects the assets carried at fair value measured on a recurring basis (in thousands):

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Fair values at March 31, 2012			
Assets:			
U.S. government debt securities	\$ 17,002	\$ 17,002	\$ —
Certificates of deposit	4,811	—	4,811
Total assets	\$ 21,813	\$ 17,002	\$ 4,811
Fair values at December 31, 2011			
Assets:			
U.S. government debt securities	\$ 15,498	\$ 15,498	\$ —
Certificate of deposit	245	—	245
Total assets	\$ 15,743	\$ 15,498	\$ 245

We had no unrealized gains or losses from investments as of December 31, 2011 and March 31, 2012 and there is no difference between the amortized cost and fair value of the securities we held. The contractual maturities of our available for sale securities ranged from approximately one to ten months as of March 31, 2012. We do not have any liabilities carried at fair value as of either March 31, 2012 or December 31, 2011.

The carrying amounts of our cash equivalents, accounts receivable, accounts payable and accrued expenses, approximate fair value because of the short-term nature of these instruments. Our loan receivable related to New Markets Tax Credit financing is a debt instrument that we classify as held to maturity. The loan receivable is recorded at amortized cost and the value as of March 31, 2012 approximates fair value. The carrying value of our loan payable related to New Markets Tax Credit financing approximates fair value as of March 31, 2012. Our loan receivable and loan payable related to New Markets Tax Credit financing were each estimated using discounted cash flow analysis

based on borrowing rates for similar types of arrangements.

4. Real Estate Development Project

As of March 31, 2012, we have incurred approximately \$33.4 million on a project to develop two existing commercial buildings located in New Haven, Connecticut. We moved our headquarters into these buildings at the end of 2011. We have provided two guarantees related to the real estate development project. We provided a guaranty to the Department of Economic and Community Development related to our obligation to repay the amounts which were granted to us if we fail to meet certain criteria. The maximum potential amount of future payments of this guaranty is approximately \$5.9 million. We currently believe that the likelihood of us being required to make a payment under this guaranty is remote.

We have also provided a guaranty related to tax credits that are expected to be generated by an investment made by an unrelated entity into the real estate development project. In the event that we cause either a recapture or disallowance of the tax credits expected to be generated under this program, then we will be required to repay the disallowed or recaptured tax credits plus an amount sufficient to pay the taxes on such repayment, to the counterparty of the guaranty agreement. This guaranty will remain in place for approximately seven years. The maximum potential amount of future payments of this guaranty is approximately \$6.0 million. We currently believe that the likelihood of us being required to make a payment under this guaranty is remote.

Table of Contents

Higher One Holdings, Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

5. Credit Facility

On December 31, 2010, HOI entered into a senior secured revolving credit facility, or the Credit Facility. As of March 31, 2012, \$50.0 million in borrowings were available to us under the Credit Facility and we were in compliance with all of the applicable affirmative, negative and financial covenants in the Credit Facility. The amount available to be drawn under the Credit Facility may be increased by an additional \$50.0 million upon our request and the agreement of the lenders party to the Credit Facility. The Credit Facility provides for the issuance of letters of credit of up to \$3 million and includes certain restrictions on the amount of acquisitions we may complete. Any amounts drawn under the Credit Facility are payable in a single maturity on December 31, 2013.

6. Capital Stock

Treasury Stock

In August 2011, our board of directors authorized a share repurchase program pursuant to which we may repurchase up to \$40 million of our issued and outstanding shares of common stock through September 7, 2012. During the three months ended March 31, 2012, we repurchased 1,111,128 shares of our common stock at a cost of \$16.9 million. All shares repurchased were held in treasury as of March 31, 2012.

7. Commitments and Contingencies

From time to time we are subject to litigation relating to matters in the ordinary course of business, as well as regulatory examinations, information gathering requests, inquiries and investigations.

In February 2011, the New York Regional Office of the Federal Deposit Insurance Corporation, or FDIC, notified us that it was prepared to recommend to the Director of FDIC Supervision that an enforcement action be taken against us for alleged violations of certain applicable laws and regulations principally relating to our compliance management system and policies and practices for past overdraft charging on persistently delinquent accounts, collections and transaction error resolution. We have responded to the FDIC's notification, been in regular dialogue with the FDIC since 2010 and voluntarily amended certain practices. We voluntarily initiated a plan in December 2011, which provided credits to certain current and former customers that were previously assessed certain insufficient fund fees. As a result of this plan, we recorded a reduction in our revenue of approximately \$4.7 million in 2011. The insufficient funds fees that are credited to customers under this plan were originally assessed beginning in 2008. Of the total charge of \$4.7 million, an accrual of approximately \$2.6 million was established for amounts which were not paid as of December 31, 2011. All amounts have been paid to our customers as of March 31, 2012. While we believe that our decision to initiate the plan described above reduces our risk, the process with the FDIC is ongoing and there continues to be various potential outcomes in order to resolve this matter. For instance, we could receive an enforcement action which could result in an order to pay civil money penalties and additional restitution. We believe that the material loss related to this matter was recorded as of December 31, 2011. While there is the potential for additional loss related to this matter in the future, such loss is not considered probable, nor is it reasonably estimable at this time.

On April 18, 2012, Sherry McFall, a Higher One customer, filed a putative class action in the United States District Court for the Central District of California, Western Division, against Higher One Holdings, Inc. alleging violations of California's Unfair Competition Law, the Consumer Legal Remedies Act, and the Electronic Funds Transfer Act in

connection with alleged improper disclosures of fees and costs associated with opening and maintaining an account. The complaint was subsequently voluntarily withdrawn by the plaintiff. On April 24, 2012, Sherry McFall filed a new complaint in the Superior Court of California for the County of Ventura against Higher One Holdings, Inc. To date, we have not been served with the complaint and we have been unable to obtain a copy of the complaint. We are, therefore, unable to assess the merits of the plaintiff's claims at this time or likelihood or potential range of loss. To the extent the claims alleged in state court are similar to those alleged in the filed but withdrawn federal action, we believe the claims to be without merit. Although we plan to defend the matter vigorously, there can be no assurances of our success in this matter.

In February 2009, HOI filed a complaint against TouchNet Information Systems, Inc., or TouchNet, in the United States District Court for the District of Connecticut alleging patent infringement related to TouchNet's offering for sale and sales of its "eRefund" product in violation of one of its patents. In the complaint, HOI seeks a judgment that TouchNet has infringed its patent, a judgment that TouchNet pay damages and interest on damages to compensate HOI for infringement, an award of HOI's costs in connection with this action and an injunction barring TouchNet from further infringing HOI's patent. TouchNet answered the complaint and asserted a number of defenses and counterclaims, including that it does not infringe HOI's patent, that HOI's patent is invalid or unenforceable and certain allegations of unfair competition. In addition, TouchNet's counterclaims seek dismissal of HOI's claims with prejudice, declaratory judgment that TouchNet does not infringe HOI's patent and that HOI's patent is invalid or unenforceable, as well as an award of fees and costs related to the action, and an injunction permanently enjoining HOI from suing TouchNet regarding infringement of HOI's patent. The parties are currently in the discovery stage of the proceeding. HOI intends to pursue the matter vigorously. There can be no assurances of success in these proceedings.

In accordance with applicable accounting guidance, we would establish a liability for these matters if and when those matters were to present loss contingencies that were both probable and reasonably estimable.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with our audited consolidated financial statements and related notes as included in our annual report on Form 10-K for the year ended December 31, 2011 and information contained elsewhere in such annual report on Form 10-K and in this quarterly report on Form 10-Q. The discussion contains forward-looking statements (as defined in the Private Securities Litigation Reform Act of 1995) involving risks, uncertainties and assumptions that could cause our results to differ materially from expectations. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "believes," "anticipates," "plans," "expects," "should" and similar expressions are intended to identify forward-looking statements. Factors that might cause these differences include those described under "Risk Factors" and elsewhere in the annual report on Form 10-K and in this quarterly report on Form 10-Q. The forward-looking statements included in this quarterly report on Form 10-Q are made only as of the date of this report. We do not undertake any obligation to update or supplement any forward-looking statements to reflect subsequent events or circumstances, except as required by law. We cannot assure you that projected results or events will be achieved or will occur.

Overview

We believe that based on market share and the number of campuses employing our products, we are a leading provider of technology and payment services to the higher education industry. We believe that none of our competitors can match our ability to provide solutions for higher education institutions' financial services needs, including compliance monitoring, and, consequently, that we provide the most comprehensive suite of disbursement and payment solutions specifically designed for higher education institutions and their students. We also provide campus communities with convenient, cost-competitive and student-oriented banking services, which include extensive user-friendly features.

Our products and services for our higher education institution clients include our OneDisburse® Refund Management® funds disbursement service and our CASHNet® suite of payment transaction products and services. Through our bank partner, we offer our OneAccount service to the students of our higher education institution clients, which includes an FDIC-insured checking account, a OneCard, which is a debit MasterCard® ATM card, and other retail banking services.

As of March 31, 2012, more than 520 campuses serving more than 4.3 million students had purchased the OneDisburse service and more than 370 campuses serving more than 2.7 million students had contracted to use one or more of our payment products and services. We also service approximately 2.1 million OneAccounts as of March 31, 2012.

Our historical experience has been that account revenue generated per OneAccount has been generally stable year over year, with total account revenue generally increasing proportionally with increases in the number of OneAccounts. During the three months ended March 31, 2012, our account revenue grew at a slower pace than the growth in our number of OneAccounts due to a lower proportion of our OneAccounts receiving a financial aid refund compared to the three months ended March 31, 2011. The average revenue per OneAccount at higher education institution clients which implemented the OneDisburse service more than a year ago is lower than the average revenue per OneAccount at higher education institution clients who have implemented the OneDisburse service within the past year. For students that receive financial aid refunds at these different institutions, average account revenue per OneAccount is fairly consistent, however, because clients that implemented the OneDisburse service over a year ago

have a higher proportion of students with open accounts that did not receive a financial aid refund in the current period, on average, revenue per account at these schools is lower. We believe that there is the potential for additional volatility in the relationship between the number of OneAccounts and account revenue in the future as a result of variability in student enrollment growth at higher education institutions and changes in financial aid refund timing at higher education institutions.

Our revenue fluctuates as a result of seasonal factors related to the academic year. A large proportion of our revenue is either directly or indirectly dependent on academic financial aid received by students and in turn the number of students enrolled at our higher education institution clients. Higher education institution clients typically disburse financial aid refunds to students at the start of each academic term. Distribution of financial aid disbursements through our OneDisburse service (1) indirectly generates revenue through deposits of financial aid into OneAccounts, which generates account revenue, and (2) directly generates revenue through our higher education institution clients' use of the OneDisburse service, which generates higher education institution revenue.

While revenue fluctuates over the course of the year, our fixed expenses remain relatively constant, resulting in wide disparities in our net income and adjusted net income from quarter to quarter. Typically, the second quarter accounts for the smallest proportion of our revenues but an equal proportion of certain of our expenses. This is primarily because the majority of financial aid is disbursed during other times of the year and higher education institutions tend to enroll more new students in the third fiscal quarter. We expect that this trend will continue going forward.

As we previously reported, we entered into agreements with Urban Trust Bank, a federal savings bank, or UTB, Wright Express Financial Services Corporation, a Utah industrial bank, or Wright Express FSC, and Cole Taylor Bank, an Illinois chartered bank and Federal Reserve Member, or Cole Taylor, respectively, for FDIC-insured depository service. We refer to UTB, Wright Express FSC and Cole Taylor, sometimes together with the Bancorp Bank, as our Bank Partners. These new Bank Partners will collectively perform the services that have been performed for us by the Bancorp Bank. We are currently in the process of implementing our relationships with these new Bank Partners.

Table of Contents

On May 1, 2012, the U.S. Department of Education, or the Department, published in the Federal Register a notice of intent to establish a negotiated rulemaking committee to draft proposed regulations designed to prevent fraud through the use of electronic fund transfers to students' bank accounts, ensure proper use of federal financial aid funds; address the use of debit cards and other banking products for disbursing federal financial aid funds, and improve and streamline campus' financial aid programs. Negotiated rule making is a standard process for the Department. While we acknowledge that any regulatory movement introduces some aspect of uncertainty, we cannot predict what impact any regulatory changes arising from this process might have on our business, but we look forward to working with the Department and sharing our insights on preventing fraud as a leader in electronic financial aid refund disbursements.

Results of Operations for the Three Months Ended March 31, 2011 and 2012

The following tables summarize key components of our results of operations for the periods indicated, both in dollars and as a percentage of total revenue:

	Three Months Ended March 31, (Unaudited)			
	2011	2012	\$ Change	% Change
	(in thousands)

Table of Contents

Three Months Ended March 31, 2012 Compared to the Three Months Ended March 31, 2011

Revenue

Account revenue

The increase in account revenue was primarily due to an increase of 20.4%, or 0.4 million, in the number of OneAccounts from March 31, 2011 to March 31, 2012. Greater adoption of OneAccounts at higher education institutions which were clients as of March 31, 2011 accounted for 58% of the increase in the number of OneAccounts. The remaining increase was due to students choosing the OneAccount at higher education institutions which became clients after March 31, 2011. The increase in the number of OneAccounts resulted in increases in interchange fees, ATM fees and other fees that the Bancorp Bank remitted to us. As discussed in the "Overview" section above, there was a decrease in the proportion of current OneAccounts that received a financial aid refund during the three months ended March 31, 2012 compared to the prior year.

Payment Transaction Revenue

The majority of the increase in payment transaction revenue was due to the inclusion of new higher education institution clients that began utilizing the CASHNet payment module, ePayment, after March 31, 2011. The remainder of the increase was due to an increase in payments processed at higher education institutions that were clients prior to March 31, 2011.

Higher Education Institution Revenue

The increase in higher education institution revenue was primarily due to an increase in subscription revenue for our CASHNet suite of payment products. The increase in subscription revenue is generally due to the increase in number of new modules sold to previously existing higher education institution clients, as well as sales of the CASHNet suite of payment products to new higher education institution clients over the course of the last twelve months. Our higher education institution revenue grew at a lower rate than the increase in our signed school enrollment as a result of certain discounts and bundled pricing packages offered to our customers.

Cost of Revenue

We generally expect cost of revenue to increase proportionally with our revenue as many of these costs are variable and associated with either the number of OneAccounts or the dollar volume of transactions processed through our CASHNet payment module. During the three months ended March 31, 2012, our cost of revenue increased at a higher rate than revenue, which resulted in a lower gross margin compared to the three months ended March 31, 2011. During the three months ended March 31, 2012, our data processing costs and our provision for operational loss both increased at higher rates than our revenue growth. The increase in data processing costs is due to the increase in our number of OneAccounts exceeding the growth in overall transaction volume.

General and Administrative Expense

While we generally expect general and administrative expenses to increase at a slower rate than revenue, such expenses increased at a slightly higher rate than our revenue growth during the three months ended March 31, 2012. The increase in general and administrative expenses was driven primarily by an increase in depreciation and amortization, as a result of commencing depreciation on our corporate headquarters which was placed in service as of December 31, 2011, personnel related costs and telecommunications costs.

Product Development Expense

The increase in product development expense was primarily due to increases in personnel costs.

Sales and Marketing Expense

The decrease in sales and marketing expense was primarily due to a decrease of \$3.1 million in non-cash, stock-based sales acquisition expense related to the vesting of certain shares issued in connection with the acquisition of EduCard, LLC. The vesting time period related to the acquisition of EduCard, LLC expired at December 31, 2011 and therefore there are no subsequent additional associated expenses. The decrease in non-cash stock-based sales acquisition expense was partially offset by increases in marketing efforts and higher employee compensation costs to support business growth.

Table of Contents

Income Tax Expense

The increase in income tax expense was primarily due to the increase in net income before taxes. The effective tax rates for the three months ended March 31, 2011 and 2012 were 38.2% and 37.6%, respectively. Our effective rate is expected to be between 37% and 39% for the 2012 fiscal year.

Liquidity and Capital Resources

Sources of Liquidity

Our primary sources of liquidity are cash flows from operations, borrowings under our Credit Facility, as defined below, and available-for-sale investments. As of March 31, 2012, we had \$33.8 million in cash and cash equivalents, \$21.8 million in available-for-sale investments and \$50.0 million in borrowing capacity available under our Credit Facility. Our primary liquidity requirements are for working capital, capital expenditures, product development expenses and general corporate needs. As of March 31, 2012, we had working capital of \$38.1 million.

Senior Secured Revolving Credit Facility

Higher One, Inc. entered into a senior secured revolving credit facility dated as of December 31, 2010, which we refer to as the Credit Facility. As of March 31, 2012, \$50 million in borrowings were available to the Company under the Credit Facility. The amount available to be drawn under the Credit Facility may be increased by an additional \$50 million upon the request of the Company and the agreement of the lenders party to the Credit Facility. Any amounts drawn under the Credit Facility are payable in a single maturity on December 31, 2013. Higher One Holdings, Inc., and each of the wholly-owned subsidiaries of Higher One, Inc., is a guarantor of Higher One, Inc.'s obligations under the Credit Facility.

The Credit Facility is secured by a perfected first priority security interest in all of the capital stock of Higher One, Inc. and its subsidiaries, and substantially all of each Credit Facility guarantor's tangible and intangible assets, other than intellectual property. Each of the Credit Facility guarantors has also granted to the administrative agent under the Credit Facility a negative pledge of the intellectual property of Higher One, Inc. and its subsidiaries, including patents and trademarks that are pending and acquired in the future.

As of March 31, 2012, Higher One, Inc. had no outstanding indebtedness under the Credit Facility.

The Credit Facility contains certain affirmative covenants including, among other things, covenants to furnish the lenders with financial statements and other financial information and to provide the lenders with notice of material events and information regarding collateral. The Credit Facility also contains certain negative covenants that, among other things, restrict Higher One, Inc.'s ability, subject to certain exceptions, to incur additional indebtedness, grant liens on its assets, undergo fundamental changes, make investments (including acquisitions), sell assets, make restricted payments, change the nature of its business and engage in transactions with its affiliates.

In addition, the Credit Facility contains certain financial covenants that require us to maintain a minimum EBITDA level, as defined in the Credit Facility, of \$50 million, a funded debt to EBITDA ratio not to exceed 2.00 to 1.00 and a fixed charge coverage ratio of at least 1.25 to 1.00. Each such financial covenant is measured using the financial results of the most recent four fiscal quarters. As of March 31, 2012, Higher One, Inc. was in compliance with all covenants under the Credit Facility.

Cash Flows

The following table presents information regarding our cash flows and cash and cash equivalents for the three months ended March 31, 2011 and March 31, 2012:

	Three Months Ended March 31,		
	2011	2012	\$ Change
	(unaudited)		
	(in thousands)		
Net cash provided by (used in):			
Operating activities	\$20,429	\$32,200	\$11,771
Investing activities	(3,788)	(22,553)	(18,765)
Financing activities	707	(14,914)	(15,621)
Increase in cash and cash equivalents	17,348	(5,267)	(22,615)
Cash and cash equivalents, end of period	\$51,832	\$33,818	\$(18,014)

The increase in net cash provided by operating activities was primarily comprised of \$10.4 million increase in the cash provided by changes in working capital accounts during the three months ended March 31, 2012 compared to the three months ended March 31, 2011. During the three months ended March 31, 2012 we received a federal tax refund which was recorded as a receivable as of December 31, 2011. In addition, net income increased by \$2.3 million, which was offset by a \$1.0 million net decrease in other adjustments to reconcile net income to net cash provided by operating activities.

Table of Contents

The increase in net cash used in investing activities primarily relates to increased purchases of fixed assets, including expenditures on our real estate development project, and purchases of investment securities.

As of March 31, 2012, we have incurred approximately \$33.4 million, net of the grants, credits and subsidies on a project that developed two previously existing commercial buildings located in New Haven, Connecticut into our new corporate headquarters. We moved into the redeveloped buildings at the end of 2011. We have received approximately \$15.1 million in grants, credits, subsidies and project financing as of March 31, 2012. Of the \$33.4 million incurred, we have spent approximately \$29.8 million in total on the project, net of grants, credits and subsidies, as of March 31, 2012.

We believe that our cash flows from operations, together with our existing liquidity sources, will be sufficient to fund our operations and anticipated capital expenditures over at least the next twenty-four months.

The cash used by financing activities was primarily related to our common stock repurchases which used \$16.9 million of cash, which was offset by approximately \$2.0 million of cash benefit related to the exercise of stock options.

Supplemental Financial and Operating Information

	Three Months Ended March 31, 2011 2012 (unaudited) (in thousands)	
Adjusted EBITDA	\$ 23,998	\$ 25,158
Adjusted net income	\$ 14,405	\$ 14,949
Number of students enrolled at OneDisburse client higher education institutions at end of period	3,413	4,330
Number of students enrolled at payment transaction client higher education institutions at end of period	2,506	2,777
Number of OneAccounts at end of period	1,762	2,122

We define adjusted EBITDA as net income before interest, income taxes and depreciation and amortization, or EBITDA, further adjusted to remove the effects of (a) stock-based customer acquisition expense related to our grants of common stock in connection with our acquisition of EduCard, LLC in 2008, (b) cash-based customer acquisition expense related to the acquisition of Informed Decisions Corporation, or IDC, and (c) stock-based compensation expense. Neither EBITDA nor adjusted EBITDA should be considered as an alternative to net income, operating income or any other measure of financial performance calculated and presented in accordance with GAAP. Our EBITDA and adjusted EBITDA may not be comparable to similarly titled measures of other organizations because other organizations may not calculate EBITDA and adjusted EBITDA in the same manner as we do.

The following table presents a reconciliation of net income, the most comparable GAAP measure, to EBITDA and adjusted EBITDA for each of the periods indicated:

Three Months Ended

Edgar Filing: Higher One Holdings, Inc. - Form 10-Q

	2011	March 31, (unaudited) (in thousands)	2012
Net income	\$ 11,042		\$ 13,388
Interest income	(25)		(32)
Interest expense	74		109
Income tax expense	6,838		8,070
Depreciation and amortization	1,677		2,213
EBITDA	19,606		23,748
Stock-based and other customer acquisition expense	3,088		-
Stock-based compensation expense	1,304		1,410
Adjusted EBITDA	\$ 23,998		\$ 25,158

12

Table of Contents

We define adjusted net income as net income, adjusted to eliminate (a) stock-based compensation expense related to incentive stock option grants and (b) after giving effect to tax adjustments, (1) stock-based compensation expense related to non-qualified stock option grants, (2) stock-based customer acquisition expense related to our grant of common stock in connection with our acquisition of EduCard, LLC in 2008, (3) cash-based customer acquisition expense related to the acquisition of IDC and (4) amortization expenses related to intangible assets and financing costs. Adjusted net income should not be considered as an alternative to net income, operating income or any other measure of financial performance calculated and presented in accordance with GAAP. Our adjusted net income may not be comparable to similarly titled measures of other organizations because other organizations may not calculate adjusted net income in the same manner as we do.

The following table presents a reconciliation of net income, the most comparable GAAP measure, to adjusted net income for each of the periods indicated:

	Three Months Ended March 31, 2012	
	2011	2012
	(unaudited)	
	(in thousands)	
Net income	\$11,042	\$13,388
Stock-based and other customer acquisition expense	3,088	-
Stock-based compensation expense - incentive stock options	427	507
Stock-based compensation expense - non-qualified stock options	877	903
Amortization of intangibles	768	768
Amortization of deferred finance costs	18	34
Total pre-tax adjustments	5,178	2,212
Tax rate	38.2	% 38.2
Tax adjustment (1)	1,815	651
Adjusted net income	\$14,405	\$14,949

(1) We have tax effected, utilizing an estimated statutory rate, all the pre-tax adjustments except for stock-based compensation expense for incentive stock options, which are generally not tax deductible and other income which is not tax deductible.

The adjusted EBITDA and adjusted net income measures presented in this Quarterly Report on Form 10-Q may not be comparable to similarly titled measures presented by other companies, and may not be identical to corresponding measures used in our various agreements, in particular our Credit Facility.

Contractual Obligations

There have been no material changes to our contractual commitments from those disclosed in our annual report on Form 10-K for the year ended December 31, 2011.

Off-Balance Sheet Arrangements

We are not a party to any material off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Policies

The significant accounting policies and basis of preparation of our consolidated financial statements are described in Note 2, “Significant Accounting Policies” of our notes to consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2011 and in this Quarterly Report on Form 10-Q. Under accounting principles generally accepted in the United States, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and disclosure of contingent assets and liabilities in our financial statements. Actual results could differ materially from those estimates.

We believe the judgments, estimates and assumptions associated with the following critical accounting policies have the greatest potential impact on our consolidated financial statements:

- Provision for operational losses;
- Stock-based compensation; and
- Income taxes

For a complete discussion of these critical accounting policies, refer to “Critical Accounting Policies” within “Item 7 - Management’s Discussion and Analysis of Financial Condition and Results of Operations” included within our annual report on Form 10-K for the year ended December 31, 2011. At March 31, 2012, there have been no material changes to any of the Critical Accounting Policies described therein.

Table of Contents

Recent Accounting Pronouncements

We review new accounting standards to determine the expected financial impact, if any, that the adoption of each such standard will have. As of the filing of this report, there were no new accounting standards issued that we expect to have a material impact on our consolidated financial position, results of operations or liquidity.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our principal market risk relates to interest rate sensitivity, which is the risk that future changes in interest rates will reduce our net income or net assets. There have been no material changes in our principal market risk exposures from the information disclosed in our annual report on Form 10-K for the year ended December 31, 2011.

In addition, we receive processing fees paid from our current bank partner, based on prevailing interest rates and the total deposits held in our OneAccounts. Since 2008, processing fees paid by the Bancorp Bank have been relatively small because of historically low interest rates. A change in interest rates would affect the amount of processing fees that we earn and therefore would have an effect on our revenue, cash flows and results of operations.

Item 4. Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act) as of March 31, 2012. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2012, our disclosure controls and procedures were effective to provide reasonable assurance that information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure, and ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Security and Exchange Commission's rules and forms.

There has been no change in our internal controls over financial reporting during the three months ended March 31, 2012 identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonable likely to materially affect, our internal controls over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

On April 18, 2012, Sherry McFall, a Higher One customer, filed a putative class action in the United States District Court for the Central District of California, Western Division, against Higher One Holdings, Inc. alleging violations of California's Unfair Competition Law, the Consumer Legal Remedies Act, and the Electronic Funds Transfer Act in connection with alleged improper disclosures of fees and costs associated with opening and maintaining an account. The complaint was subsequently voluntarily withdrawn by the plaintiff. On April 24, 2012, Sherry McFall filed a new complaint in the Superior Court of California for the County of Ventura against Higher One Holdings, Inc. To date, we have not been served with the complaint and we have been unable to obtain a copy of the complaint. We are, therefore, unable to assess the merits of the plaintiff's claims at this time. To the extent the claims alleged in state court are similar to those alleged in the filed but withdrawn federal action, we believe the claims to be without merit. Although we plan to defend the matter vigorously, there can be no assurances of our success in this matter.

Except as described above, there have been no material developments in our legal proceedings since we filed our annual report on Form 10-K for the year ended December 31, 2011.

Table of Contents

Item Risk Factors
1A.

There have been no material changes to our risk factors from those disclosed in our annual report on Form 10-K for the year ended December 31, 2011, except as follows:

Reviews and enforcement actions by regulatory authorities under banking and consumer protection laws and regulations may result in changes to our business practices or may expose us to the risk of fines, restitution and litigation.

Our operations and the operations of our Bank Partners are subject to the jurisdiction and examination of federal, state and local regulatory authorities, including the FDIC, which is The Bancorp Bank's and Wright Express FSC's primary federal regulator, the OCC, which is UTB's primary federal regulator, and the Federal Reserve Bank, which is Cole Taylor's primary federal regulator. Our business practices, including the terms of our products, are reviewed and approved by our Bank Partners and subject to both periodic and special reviews by such regulatory authorities, which can range from investigations into specific consumer complaints or concerns to broader inquiries into our practices generally. We and The Bancorp Bank are subject to ongoing and routine examination by the FDIC, and we will be subject to OCC and Federal Reserve Bank review in connection with the services we provide to UTB and Cole Taylor, respectively. If, as part of an examination or review, the regulatory authorities conclude that we are not complying with applicable laws or regulations, they could request or impose a wide range of remedies, including, but not limited to, requiring changes to the terms of our products (such as decreases in fees), the imposition of fines or penalties or the institution of enforcement proceedings or other similar actions against us alleging that our practices constitute unfair or deceptive acts or practices. As part of an enforcement action, the regulators can seek restitution for affected customers and impose civil money penalties. In addition, negative publicity relating to any specific inquiry or investigation or any related fine could adversely affect our stock price, our relationships with various industry participants, or our ability to attract new clients and retain existing clients, which could have a material adverse effect on our business, financial condition and results of operations.

In February 2011, the New York Regional Office of the FDIC notified us that it was prepared to recommend to the Director of FDIC Supervision that an enforcement action be taken against us for alleged violations of certain applicable laws and regulations principally relating to our compliance management system and policies and practices for past overdraft charging on persistently delinquent accounts, collections and transaction error resolution. We have responded to the FDIC's notification, been in regular dialogue with the FDIC since 2010 and voluntarily amended certain practices. We voluntarily initiated a plan in December 2011, which provided credits to certain current and former customers that were previously assessed certain insufficient fund fees. As a result of this plan, we recorded a reduction in our revenue of approximately \$4.7 million in 2011. The insufficient funds fees that are credited to customers under this plan were originally assessed beginning in 2008. Of the total charge of \$4.7 million, an accrual of approximately \$2.6 million was established for amounts which were not paid as of December 31, 2011. All amounts have been paid to our customers as of March 31, 2012. While we believe that our decision to voluntarily initiate the plan described above reduces our risk, the process with the FDIC is ongoing and there continue to be various potential outcomes in order to resolve this matter. For instance, we could receive an enforcement action which could result in an order to pay civil money penalties and additional restitution. The process is ongoing and there can be no assurances as to the outcome of this process. Any action instituted against us that results in significant changes to our practices, the imposition on us of fines or penalties, or an obligation for us to pay restitution or civil money penalties could have a material adverse effect on our business, financial condition and results of operations.

We depend on our relationship with higher education institutions and, in turn, student usage of our products and services for future growth of our business.

Our future growth depends, in part, on our ability to enter into agreements with higher education institutions. While we have experienced significant growth since 2002 in the number of our higher education institution clients, our contracts with these clients can generally be terminated at will and, therefore, there can be no assurance that we will be able to maintain these clients. We may also be unable to maintain our agreements with these clients on terms and conditions acceptable to us. In addition, we may not be able to continue to establish new relationships with higher education institution clients at our historical growth rate or at all. The termination of our current client contracts or our inability to continue to attract new clients could have a material adverse effect on our business, financial condition and results of operations.

Not only are establishing new client relationships and maintaining current ones critical to our business, but they are also essential components of our strategy for maximizing student usage of our products and services and attracting new student customers. A reduction in enrollment, a failure to attract and maintain student customers, as well as any future demographic trends that reduce the number of higher education students could materially and adversely affect our capability for both revenue and cash generation and, as a result, could have a material adverse effect on our business, financial condition and results of operations. For example, during the three months ended March 31, 2012, we experienced a decrease in the proportion of OneAccounts that received a financial aid refund compared to the three months ended March 31, 2011. This decrease had a negative impact on our results of operations during the three months ended March 31, 2012.

Table of Contents

We are subject to substantial federal and state governmental regulation that could change and thus force us to make modifications to our business. Compliance with the various complex laws and regulations is costly and time consuming, and failure to comply could have a material adverse effect on our business. Additionally, increased regulatory requirements on our services may increase our costs, which could materially and adversely affect our business, financial condition and results of operations.

As a payments processor to higher education institutions that takes payment instructions from institutions and their constituents, including students and employees, and gives them to our Bank Partners, we are directly or indirectly subject to a variety of federal and state laws and regulations. Our contracts with most of our higher education institution clients and our Bank Partners require us to comply with applicable laws and regulations, including, where applicable:

- Title IV;
- FERPA;
- the Electronic Fund Transfer Act and Regulation E;
- the USA PATRIOT Act and related anti-money laundering requirements; and
- certain federal rules regarding safeguarding personal information, including rules implementing the privacy provisions of GLBA.

Higher Education Regulations

Third-Party Servicer. Because of the services we provide to some institutions with regard to the handling of Title IV funds, the Department of Education may deem us to be a “third-party servicer” under the Title IV regulations. Those regulations require a third-party servicer annually to submit a compliance audit conducted by outside independent auditors that covers the servicer’s Title IV activities. Each year we submit a “Compliance Attestation Examination of the Title IV Student Financial Assistance Programs” audit to the Department of Education, which includes a report by an independent audit firm. In addition, the yearly compliance audit submission to the Department of Education provides comfort to certain of our higher education institution clients that are in compliance with the third-party servicer regulations that may apply to us. We also provide this compliance audit report to clients upon request to help them fulfill their compliance audit obligations as Title IV participating institutions.

Under the Department of Education regulations, a third party servicer that contracts with a Title IV institution acts in the nature of a fiduciary in the administration of Title IV programs. Among other requirements, the regulations provide that a third-party servicer is jointly and severally liable with its client institution for any liability to the Department of Education arising out of the servicer’s violation of Title IV or its implementing regulations, which could subject us to material fines related to acts or omissions of entities beyond our control. The Department of Education is also empowered to limit, suspend or terminate the violating servicer’s eligibility to act as a third-party servicer and to impose significant civil penalties on the violating servicer. In the event the Department of Education concluded that we had violated Title IV or its implementing regulations and should be subject to one or more of these sanctions, our business and results of operations could be materially and adversely affected. There is limited enforcement and interpretive history of Title IV regulations relevant to this risk factor.

On May 1, 2012, the Department of Education published in the Federal Register a notice of intent to establish a negotiated rulemaking committee to draft proposed regulations designed to prevent fraud through the use of electronic fund transfers to students’ bank accounts, ensure proper use of federal financial aid funds; address the use of debit cards and other banking products for disbursing federal financial aid funds, and improve and streamline campus’ financial aid programs. In the event that new rules are promulgated which restrict or prohibit our ability to offer our current services to higher education institutions and students, our business, financial condition and results of operations could be materially and adversely affected.

FERPA. Our higher education institution clients are subject to FERPA, which provides with certain exceptions that an educational institution that receives any federal funding under a program administered by the Department of Education may not have a policy or practice of disclosing education records or “personally identifiable information” from education records, other than directory information to third parties without the student’s or parent’s written consent. Our higher education institution clients disclose to us certain non-directory information concerning their students, including contact information, student identification numbers and the amount of students’ credit balances. We believe that our higher education institution clients may disclose this information to us without the students’ or their parents’ consent pursuant to one or more exceptions under FERPA. However, if the Department of Education asserts that we do not fall into one of these exceptions or if future changes to legislation or regulations required student consent before our higher education institution clients could disclose this information to us, a sizeable number of students may cease using our products and services, which could materially and adversely affect our business, financial condition and results of operations.

Additionally, as we are indirectly subject to FERPA, we may not permit the transfer of any personally identifiable information to another party other than in a manner in which a higher education institution may disclose it. In the event that we re-disclose student information in violation of this requirement, FERPA requires our clients to suspend our access to any such information for a period of five years. Any such suspension could have a material adverse effect on our business, financial condition or results of operations.

State Laws. We may also be subject to similar state laws and regulations that restrict higher education institutions from disclosing certain personally identifiable information of students. State attorneys general and other enforcement agencies may monitor our compliance with state and federal laws and regulations pertaining to higher education and banking and conduct investigations of our business that are time consuming and expensive and could result in fines and penalties that have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

Regulation of OneAccounts

Anti-Money Laundering; USA PATRIOT ACT; OFAC. The Bancorp Bank, UTB and Wright Express FSC are insured depository institutions and funds held at our Bank Partners are insured by the FDIC up to applicable limits. As insured depository institutions, our Bank Partner are subject to comprehensive government regulation and supervision and, in the course of making its services available to our customers, we are required to assist our Bank Partners in complying with certain of their regulatory obligations. In particular, the anti-money laundering provisions of the USA PATRIOT Act require that customer identifying information be obtained and verified whenever a checking account is established. For example, because we facilitate the opening of checking accounts at our Bank Partners on behalf of our customers, we assist our Bank Partners in collecting the customer identification information that is necessary to open an account. In addition, both we and our Bank Partners are subject to the laws and regulations enforced by the OFAC, which prohibit U.S. persons from engaging in transactions with certain prohibited persons. Our failure to comply with any of these laws or rights could materially and adversely affect our business, financial credit and results of operations.

Compliance; Audit. As a service provider to insured depository institutions, we are required under applicable federal and state laws to agree to submit to examination by our Bank Partners' regulators. We also are subject to audit by our Bank Partners to ensure that we comply with our obligations to them appropriately. Failure to comply with our responsibilities properly could negatively affect our operations. Our Bank Partners are required under their respective agreements with us to, and we rely on our Bank Partners' ability to, comply with state and federal banking regulations. The failure of our Bank Partners to maintain regulatory compliance could result in significant disruptions to our business and have a material adverse effect on our business, financial condition and results of operations.

Electronic Fund Transfer Act; Regulation E. Our Bank Partners provide depository services for OneAccounts through a private label relationship. We provide processing services for OneAccounts for our Bank Partners. These services are subject to, among other things, the requirements of the Electronic Fund Transfer Act and the Bureau of Consumer Financial Protection's Regulation E, which govern automatic deposits to and withdrawals from deposit accounts and customers' rights and liabilities arising from the use of ATMs, debit cards and certain other electronic banking services. We may assist our Bank Partners with fulfilling its compliance obligations pursuant to these requirements. See "Part I, Item 1A. Risk Factors—Fees for financial services are subject to increasingly intense legislative and regulatory scrutiny, which could have a material adverse effect on our business, financial condition, results of operations and prospects for future growth", of this report. Failure to comply with applicable regulations could materially and adversely affect our business, financial condition and results of operations.

Money Transmitter Regulations. Because our technology services are provided in connection with the financial products of our Bank Partners, our activities are occasionally reviewed by regulatory agencies to ensure that we do not impermissibly engage in activities that require licensing at the state or federal level. In the ordinary course of business, we receive letters and inquiries concerning the nature of our business as it applies to state "money transmitter" licensing and regulations from different state regulatory agencies. If a state agency were to conclude that we are required to be licensed as a "money transmitter," we may need to undergo a costly licensing process in that state, and failure to comply could be a violation of state and potentially federal law.

Privacy and Data Regulation

We are subject to laws and regulations relating to the collection, use, retention, security and transfer of personally identifiable information and data regarding our customers and their financial information. In addition, we are bound by our own privacy policies and practices concerning the collection, use and disclosure of user data, which are posted on certain of our website pages.

In conjunction with the disbursement, payroll and tuition payment services we make available through our Bank Partners, it is necessary to collect certain information from our customers (such as bank account and routing numbers) to transmit to our Bank Partners. Our Bank Partners use this information to execute the funds transfers requested by our customers, which are effected primarily by means of ACH networks and other wire transfer systems, such as FedWire. To the extent the data required by these electronic funds networks change, the information that we will be required to request from our clients may also change.

We are subject, either directly or by virtue of our contractual relationship with our Bank Partners, to the privacy and security standards of the GLBA privacy regulations, as well as certain state data protection laws and regulations. The GLBA privacy regulations require that we develop, implement and maintain a written comprehensive information security program prescribing safeguards that are appropriate to our size and complexity, the nature and scope of our activities and the sensitivity of any personally identifiable information we access for processing purposes or otherwise maintain. As a service provider of our Bank Partners, we also are limited in our use and disclosure of the personal information we receive from our Bank Partners, which we may use and disclose only for the purposes for which it was provided to us and consistent with the bank's own data privacy and security obligations. We also are subject to the standards set forth in guidance on data security issued by the Federal Financial Institution Examination Council, as well as the data security standards imposed by the card associations, including Visa, Inc., and MasterCard. In addition, we are subject to similar data security breach laws enacted by a number of states.

Any failure or perceived failure by us to comply with any legal or regulatory requirements or orders or other federal or state privacy or consumer protection-related laws and regulations, or with our own privacy policies, could result in fines, sanctions, litigation, negative publicity, limitation of our ability to conduct our business and injury to our reputation, any of which could materially and adversely affect our business, financial condition and results of operations.

Table of Contents

New legislation and regulations in this area have been proposed, both at the federal and state level. Such measures, including pending Federal legislation, would potentially impose additional obligations on us, including requiring that we provide notifications to consumers and government authorities in the event of a data breach or unauthorized access or disclosure, beyond what state law already requires. These laws and regulations could cause us to incur substantial costs or require us to change our business practices in a manner materially adverse to our business.

Compliance

We monitor our compliance through an internal audit program. Our full-time internal auditor works with a third-party internal audit firm to conduct annual reviews to ensure compliance with the regulatory requirements described above. The costs of these audits and the costs of complying with the applicable regulatory requirements are significant. Increased regulatory requirements on our products and services, such as in connection with the matters described above, could materially increase our costs or reduce revenue.

It is impossible to determine the extent of the impact of any new laws, regulations or initiatives that may be proposed, or whether any of the proposals will become law. The imposition of any new laws or regulations could make compliance more difficult and expensive and affect the manner in which we conduct business. In addition, many of these laws and regulations are evolving, unclear and inconsistent across various jurisdictions. If we were deemed to be in violation of any laws or regulations that are currently in place or that may be promulgated in the future, including but not limited to those described above, we could be exposed to financial liability and adverse publicity or forced to change our business practices or stop offering some of our products and services. We also could face significant legal fees, delays in extending our product and services offerings, and damage to our reputation that could harm our business and reduce demand for our products and services. Even if we are not required to change our business practices, we could be required to obtain licenses or regulatory approvals that could cause us to incur substantial costs and delays.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table includes information regarding purchases of shares of our common stock made by us during the three months ending March 31, 2012:

Period	(a) Total number of shares purchased (1)	(b) Average price paid per share	(c) Total number of shares purchased as part of publicly announced plans or programs (1)	(d) Approximate dollar value of shares that may yet be purchased under the plans or programs (2) (in thousands)
January 1 to January 31	9,300	\$16.99	9,300	\$23,635
February 1 to February 29	589,728	15.20	589,728	14,671
March 1 to March 31	512,100	15.18	512,100	6,894

(1) No shares were repurchased other than through our publicly-announced repurchase program. Our share repurchase program was announced on August 23, 2011 and allows for the repurchase of up to \$40 million of our issued and

outstanding shares of common stock through September 7, 2012.

(2) As of March 31, 2012, approximately \$6.9 million was available under our publicly announced share repurchase program. The timing, price, quantity, and manner of the purchases to be made are at the discretion of management upon instruction from our Board of Directors, depending upon market conditions. The repurchase of shares in any particular future period and the actual amount thereof remain at the discretion of our Board of Directors, and no assurance can be given that shares will be repurchased in the future.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.
