Table of Contents

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Basis of Presentation

Bloomin' Brands, Inc. ("Bloomin' Brands" or the "Company") was formed by an investor group comprised of funds advised by Bain Capital Partners, LLC and Catterton Management Company, LLC and Chris T. Sullivan, Robert D. Basham and J. Timothy Gannon and certain members of management. Bloomin' Brands is a holding company and conducts its operations through OSI Restaurant Partners, LLC ("OSI"), the Company's primary operating entity, and New Private Restaurant Properties, LLC, an indirect wholly-owned subsidiary of the Company that leases certain Company-owned restaurant properties to a subsidiary of OSI.

The Company owns and operates casual, polished casual and fine dining restaurants primarily in the United States. The Company's restaurant portfolio has five concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill, Fleming's Prime Steakhouse and Wine Bar and Roy's. Additional Outback Steakhouse, Carrabba's Italian Grill and Bonefish Grill restaurants in which the Company has no direct investment are operated under franchise agreements.

The accompanying interim unaudited consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles in the United States ("U.S. GAAP") for complete financial statements. In the opinion of the Company, all adjustments necessary for the fair presentation of the Company's results of operations, financial position and cash flows for the periods presented have been included and are of a normal, recurring nature. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 (the "2013 Form 10-K").

Change in Fiscal Year End

On January 3, 2014, the Board of Directors approved a change in the Company's fiscal year end from a calendar year ending on December 31 to a 52-53 week year ending on the last Sunday in December, effective beginning with fiscal year 2014. The Company believes the change in fiscal year provides numerous benefits, including aligning the Company's reporting periods to be more consistent with peer restaurant companies and improving comparability between periods by removing the effect of trading day on Restaurant sales and operating margins. The Company will continue reporting its Brazilian operations, on a calendar-based one-month lag. All other international operations will be reported on a 52-53 week reporting period contemporaneously with the domestic operations.

The Company made the fiscal year change on a prospective basis and has not adjusted operating results for prior periods. The change impacts the prior year comparability of the Company's fiscal quarters in 2014 and will result in shifts in the quarterly periods, which will have an impact on quarterly financial results. The first fiscal quarter of 2014 began on January 1, 2014 and ended March 30, 2014 and is referred to throughout this report as the "thirteen weeks ended March 30, 2014".

The thirteen weeks ended March 30, 2014 included one less operating day than the comparable prior year period and the Company estimates that the impact was approximately \$7.5 million and \$1.5 million on Total revenues and Net income attributable to Bloomin' Brands, respectively.

Reclassifications

The Company has reclassified certain items in the accompanying consolidated financial statements for prior periods to be comparable with the classification for the thirteen weeks ended March 30, 2014. These reclassifications had no effect on previously reported net income.

10

Table of Contents

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED) - Continued

2. Acquisitions

Acquisition of Controlling Interest in the Company's Brazilian Operations

Prior to November 1, 2013, the Company held a 50% ownership interest in PGS Consultoria e Serviços Ltda. (the "Brazilian Joint Venture") through a joint venture arrangement with PGS Participações Ltda, which operated Outback Steakhouse restaurants in Brazil. Effective November 1, 2013, the Company completed the acquisition of a controlling interest in the Brazilian Joint Venture resulting in the consolidation of this entity.

Prior to the acquisition, the Company accounted for the Brazilian Joint Venture under the equity method of accounting. The Company's share of earnings of \$2.9 million for the three months ended March 31, 2013 was recorded in Income from operations of unconsolidated affiliates in the Company's Consolidated Statement of Operations and Comprehensive Income. The Brazilian Joint Venture's results of operations for the thirteen weeks ended March 30, 2014 are reflected in the respective line items in the Company's Consolidated Statement of Operations and Comprehensive Income.

Acquisition of Limited Partnership Interests

Effective January 1, 2014, the Company purchased the remaining partnership interests in certain of the Company's limited partnerships that either owned or had a contractual right to varying percentages of cash flows in 37 Bonefish Grill restaurants for an aggregate purchase price of \$17.2 million. These transactions resulted in a reduction of approximately \$12.3 million in Additional paid-in capital in the Company's Consolidated Balance Sheet at March 30, 2014.

The following table sets forth the effect of these transactions on stockholders' equity attributable to Bloomin' Brands (in thousands):

	NET INCOME ATTRIBUTABLE TO BLOOMIN' BRANDS AND TRANSFERS TO NONCONTROLLING INTERESTS	
	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013
Net income attributable to Bloomin' Brands	\$53,733	\$63,223
Transfers to noncontrolling interests:		
Net decrease in Bloomin' Brands additional paid-in capital for purchase of limited partnership interests	(12,250) —
Change from net income attributable to Bloomin' Brands and transfers to noncontrolling interests	\$41,483	\$63,223

Acquisition of Franchised Restaurants

Effective March 1, 2014, the Company acquired two Bonafish Gill restaurants from a franchisee for a purchase price of approximately \$3.2 million, including customary escrow amounts. The Consolidated Statement of Operations and Comprehensive Income includes the results of operations for these restaurants from the date of acquisition. The pro forma impact of the acquisition on prior periods is not presented as the impact was not material to reported results.

The Company allocated the purchase price to the assets acquired less the liabilities assumed based on their estimated fair value on the date of acquisition with the remaining \$2.5 million of the purchase price allocated to goodwill. All goodwill recognized is expected to be deductible for tax purposes.

Table of Contents

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED) - Continued

The following table presents a rollforward of the carrying amount of goodwill for the thirteen weeks ended March 30, 2014 (in thousands):

Balance at December 31, 2013	\$346,253	
Additions for purchases of franchised locations	2,461	
Foreign currency translation adjustments	(2,290)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED) - Continued

Credit Agreement

On October 26, 2012, OSI completed a refinancing of its outstanding senior secured credit facilities and entered into a credit agreement ("Credit Agreement") with a syndicate of institutional lenders and financial institutions. The senior secured credit facilities provide for senior secured financing of up to \$1.225 billion, consisting of a \$1.0 billion term loan B and a \$225.0 million revolving credit facility, including letter of credit and swing-line loan sub-facilities (the "Credit Facilities") and mature on October 26, 2019. The senior secured term loan B was issued with an original issue discount of \$10.0 million. OSI amended the Credit Agreement in April 2013 for a repricing of its senior secured term loan B facility and in January 2014 to align the Credit Agreement with its change in fiscal year.

Senior Secured Term Loan B

Borrowings under the senior secured term loan B, as amended ("Term Loan B"), bear interest at 150 basis points over the Base Rate or 250 basis points over the Eurocurrency Rate and have interest rate floors of 2.00% for the Base Rate and 1.00% for the Eurocurrency Rate. The Base Rate option is the highest of (i) the prime rate of Deutsche Bank Trust Company Americas, (ii) the federal funds effective rate plus 0.5 of 1.0% or (iii) the Eurocurrency Rate with a one-month interest period plus 1.0% ("Base Rate") (3.25% at March 30, 2014 and December 31, 2013). The Eurocurrency Rate option is the 30, 60, 90 or 180-day Eurocurrency Rate ("Eurocurrency Rate") (ranging from 0.15% to 0.33% and 0.17% to 0.35% at March 30, 2014 and December 31, 2013, respectively). The Eurocurrency Rate may have a nine- or twelve-month interest period if agreed upon by the applicable lenders.

OSI is required to prepay outstanding term loans, subject to certain exceptions, with:

- 50% of its "annual excess cash flow" (with step-downs to 25% and 0% based upon its consolidated first lien net leverage ratio), as defined in the Credit Agreement, subject to certain exceptions;
- 100% of the net proceeds of certain assets sales and insurance and condemnation events, subject to reinvestment rights and certain other exceptions; and
- 100% of the net proceeds of any debt incurred, excluding permitted debt issuances.

The Term Loan B requires amortization payments of approximately \$10.0 million per calendar year, payable in scheduled equal quarterly installments through September 2019. These payments are reduced by the application of any prepayments, including the \$10.0 million prepayment that occurred during the thirteen weeks ended March 30, 2014. Any remaining balance is due at maturity. Since the inception of the Term Loan B, OSI has made sufficient voluntary prepayments in excess of the remaining required amortization payments and, as a result, will not be required to make any further required amortization payments until the remaining balance of the loan reaches maturity in October 2019.

The outstanding balance on the Term Loan B, excluding the unamortized debt discount, was \$925.0 million and \$935.0 million at March 30, 2014 and December 31, 2013, respectively. The remaining unamortized debt discount on the Term Loan B was \$6.7 million and \$7.0 million at March 30, 2014 and December 31, 2013, respectively. At March 30, 2014 and December 31, 2013, respectively, none of the outstanding balance on the Term Loan B was classified as current due to aggregate voluntary prepayments made by OSI and the results of its projected covenant calculations, which indicate the additional term loan prepayments, as described above, will not be required in the subsequent 12 months. The amount of outstanding term loans required to be prepaid in accordance with OSI's debt covenants may vary based on year-end results.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED) - Continued

Revolving Credit Facility

The revolving credit facility of \$225.0 million matures October 26, 2017 and provides for swing-line loans and letters of credit for working capital and general corporate purposes. The revolving credit facility bears interest at rates ranging from 200 to 250 basis points over the Base Rate or 300 to 350 basis points over the Eurocurrency Rate, with step-downs based upon OSI's consolidated first lien net leverage ratio. There were no loans outstanding under the revolving credit facility at March 30, 2014 or December 31, 2013, however, \$29.6 million and \$31.6 million, respectively, of the revolving credit facility was committed for the issuance of letters of credit and not available for borrowing. Total outstanding letters of credit issued under OSI's revolving credit facility may not exceed \$100.0 million.

At March 30, 2014 and December 31, 2013, the Company was in compliance with its debt covenants. See the 2013 Form 10-K for further information about OSI's debt covenant requirements.

Commercial Mortgage-backed Securities Loan

Effective March 27, 2012, New Private Restaurant Properties, LLC and two of the Company's other indirect wholly-owned subsidiaries (collectively, "New PRP") entered into a commercial mortgage-backed securities loan (the "2012 CMBS Loan") with German American Capital Corporation and Bank of America, N.A. The 2012 CMBS Loan totaled \$500.0 million at origination and comprised a first mortgage loan in the amount of \$324.8 million, collateralized by 261 of the Company's properties, and two mezzanine loans totaling \$175.2 million. The loans have a maturity date of April 10, 2017. The first mortgage loan has five fixed-rate components and a floating rate component. The fixed-rate components bear interest at rates ranging from 2.37% to 6.81% per annum. The floating rate component bears interest at a rate per annum equal to the 30-day London Interbank Offered Rate ("30-day LIBOR") (with a floor of 1%) plus 2.37%. The first mezzanine loan bears interest at a rate of 9.00% per annum, and the second mezzanine loan bears interest at a rate of 11.25% per annum.

At March 30, 2014 and December 31, 2013, the outstanding balance, excluding the unamortized debt discount, on the 2012 CMBS Loan was \$482.0 million and \$484.5 million, respectively.

6. Other Long-term Liabilities, Net

The Company maintains an endorsement split-dollar insurance policy with a death benefit of \$5.0 million for one of its current executive officers. The Company is the beneficiary of the policy to the extent of premiums paid or the cash value, whichever is greater, with the remaining death benefit being paid to personal beneficiaries designated by the executive officer.

During the thirteen weeks ended March 30, 2014 and the three months ended March 31, 2013, the Company terminated the split-dollar agreements with certain of its former executive officers in exchange for aggregate payments of \$2.0 million and \$2.2 million, respectively, in cash. Upon termination, the release of the death benefit and related liabilities and net of the associated cash termination payment resulted in net gains of \$1.9 million and \$2.2 million during the thirteen weeks ended March 30, 2014 and the three months ended March 31, 2013, respectively, which were recorded in General and administrative in the Consolidated Statements of Operations and Comprehensive Income. As a result of the terminations, the Company became the sole and exclusive owner of the related split-dollar insurance policies and elected to cancel them.

As of March 30, 2014 and December 31, 2013, the Company had \$1.1 million and \$5.0 million, respectively, recorded in Other long-term liabilities, net in its Consolidated Balance Sheets for the outstanding obligations under the endorsement split-dollar insurance policies.

7. Fair Value Measurements

Fair Value Measurements on a Recurring Basis

The Company invested \$8.7 million and \$11.9 million of its excess cash in fixed income and money market funds classified as Cash and cash equivalents or restricted cash in its Consolidated Balance Sheets as of March 30, 2014 and December 31, 2013, respectively, at a net value of 1:1 for each dollar invested. The fair value of the investments in these funds is determined by using quoted prices for identical assets in an active market. As a result, the Company has determined that the inputs used to value these investments fall within Level 1 of the fair value hierarchy.

The following tables present the Company's fixed income and money market funds measured at fair value on a recurring basis as of March 30, 2014 and December 31, 2013, aggregated by the level in the fair value hierarchy within which those measurements fall (in thousands):

	TOTAL MARCH 30, 2014	LEVEL 1	LEVEL 2	LEVEL 3
Assets:				
Fixed income funds - cash equivalents	\$4,012	\$4,012	\$—	\$—
Money market funds - cash equivalents	4,553	4,553	—	—
Money market funds - restricted cash equivalents	110	110	—	—
Total recurring fair value measurements	\$8,675	\$8,675	\$—	\$—
	TOTAL DECEMBER 31, 2013	LEVEL 1	LEVEL 2	LEVEL 3
Assets:				
Fixed income funds - cash equivalents	\$9,849	\$9,849	\$—	\$—
Money market funds - cash equivalents	1,988	1,988	—	—
Money market funds - restricted cash equivalents	68	68	—	—
Total recurring fair value measurements	\$11,905	\$11,905	\$—	\$—

In connection with the 2012 CMBS Loan, the Company entered into an interest rate cap with a notional amount of \$48.7 million as a method to limit the volatility of the floating rate component of the first mortgage loan. This interest rate cap had a nominal fair market value at March 30, 2014 and December 31, 2013, respectively, and therefore was excluded from the applicable tables within this footnote.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED) - Continued

Fair Value Measurements on a Nonrecurring Basis

In 2013, the Company completed an assessment of its restaurant base. As a result of this assessment, the Company decided to close 22 underperforming locations. In connection with this initiative, the Company incurred pre-tax asset impairment charges of approximately \$18.7 million in the fourth quarter of 2013. During the thirteen weeks ended March 30, 2014, the Company recognized expenses of \$4.9 million, which included direct costs associated with the restaurant closures and severance-related obligations, partially offset by the reversal of deferred rent liabilities.

The following table presents the components of these charges and the line item within the Consolidated Statement of Operations and Comprehensive Income in which each component was recognized during the thirteen weeks ended March 30, 2014 (in thousands):

DESCRIPTION	LOCATION OF CHARGE IN THE CONSOLIDATED STATEMENT OF OPERATIONS AND COMPREHENSIVE INCOME	AMOUNT
Restaurant closure expenses	Provision for impaired assets and restaurant closings	\$5,972
Severance and other liabilities	General and administrative	1,035
Deferred rent liability write-off	Other restaurant operating	(2,078)
		\$4,929

During the thirteen weeks ended March 30, 2014, the Company recorded \$6.1 million of impairment and restaurant closing expenses as a result of the fair value measurement on a nonrecurring basis of its long-lived assets held and used, which were primarily comprised of \$6.0 million in charges associated with the restaurant closure initiative discussed above.

The Company recorded \$1.1 million of impairment charges as a result of the fair value measurement on a nonrecurring basis of its long-lived assets held and used during the three months ended March 31, 2013, primarily related to certain specifically identified restaurant locations that were closed or relocated. The impaired long-lived assets had \$4.4 million of remaining fair value at March 31, 2013. Restaurant closure and related expenses of \$0.8 million were recognized for the three months ended March 31, 2013. Impairment losses for long-lived assets held and used and restaurant closure expenses were recognized in Provision for impaired assets and restaurant closings in the Consolidated Statements of Operations and Comprehensive Income.

The following table presents losses related to the Company's assets and liabilities that were measured at fair value on a nonrecurring basis during the three months ended March 31, 2013 aggregated by the level in the fair value hierarchy within which those measurements fall (in thousands):

MARCH 31, 2013				THREE MONTHS ENDED MARCH 31, 2013 TOTAL LOSSES
CARRYING VALUE	REMAINING FAIR VALUE			
	LEVEL 1	LEVEL 2	LEVEL 3	

Edgar Filing: Bloomin' Brands, Inc. - Form 10-Q

Long-lived assets held and used	\$4,434	\$—	\$3,383	\$1,051	\$1,082
---------------------------------	---------	-----	---------	---------	---------

The Company used a third-party market appraisal (Level 2) and discounted cash flow models (Level 3) to estimate the fair value of the long-lived assets included in the table above. Projected future cash flows, including discount rate and growth rate assumptions, are derived from current economic conditions, expectations of management and projected trends of current operating results.

Table of Contents

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED) - Continued

The following table presents quantitative information related to the range of unobservable inputs used in the Company's Level 3 fair value measurements for the impairment losses incurred for the three months ended March 31, 2013:

UNOBSERVABLE INPUT	THREE MONTHS ENDED MARCH 31, 2013
Weighted-average cost of capital	9.5%
Long-term growth rates	2.0%
Annual revenue growth rates (1)	2.4% - 3.0%

(1) Weighted average of the annual revenue growth rates unobservable input range was 2.6%.

Interim Disclosures about Fair Value of Financial Instruments

The Company's non-derivative financial instruments at March 30, 2014 and December 31, 2013 consist of cash equivalents, restricted cash, accounts receivable, accounts payable and current and long-term debt. The fair values of cash equivalents, restricted cash, accounts receivable and accounts payable approximate their carrying amounts reported in the Consolidated Balance Sheets due to their short duration.

The fair value of OSI's senior secured term loan B facility is determined based on quoted market prices in inactive markets. The fair value of New PRP's commercial mortgage-backed securities is based on assumptions derived from current conditions in the real estate and credit markets, changes in the underlying collateral and expectations of management. Fair value estimates for other notes payable are derived using a discounted cash flow approach. Discounted cash flow inputs primarily include cost of debt rates which are used to derive the present value factors for the determination of fair value. These inputs represent assumptions impacted by economic conditions and management expectations and may change in the future based on period-specific facts and circumstances.

The following tables include the carrying value and fair value of the Company's financial instruments at March 30, 2014 and December 31, 2013 aggregated by the level in the fair value hierarchy in which those measurements fall (in thousands):

	MARCH 30, 2014			
	CARRYING VALUE	FAIR VALUE		
		LEVEL 1	LEVEL 2	LEVEL 3
Senior secured term loan B facility (1)	\$925,000	\$—	\$922,688	\$—

8. Taxes

Income Taxes

The effective income tax rate for the thirteen weeks ended March 30, 2014 was 24.8% compared to 14.1% for the three months ended March 31, 2013. This net increase in the effective income tax rate was due to the following: (i) the acquisition of limited partnership interests in 2013 and 2014, which resulted in increased income allocations, (ii) a lower estimated income tax rate in the three months ended March 31, 2013 due to the reduction of valuation allowances resulting from the utilization of certain deferred tax assets in 2013, and (iii) a change in the blend of taxable income and tax rates across the Company's domestic and international subsidiaries.

The effective income tax rate for the thirteen weeks ended March 30, 2014 was lower than the blended federal and state statutory rate of 39.0% primarily due to the benefit of the expected tax credit for excess FICA tax on employee-reported tips and the recognition of previously unrecognized tax benefits. The effective income tax rate for the three months ended March 31, 2013 was lower than the blended federal and state statutory rate of 38.6% primarily due to the benefit of the expected tax credit for excess FICA tax on employee-reported tips, the foreign rate differential, decrease in the valuation allowance and the elimination of noncontrolling interest together being such a large percentage of projected annual pretax income.

As of March 30, 2014 and December 31, 2013, the Company had \$15.1 million and \$17.1 million, respectively, of unrecognized tax benefits. Additionally, the Company accrued \$0.9 million and \$2.1 million, respectively, of interest and penalties related to uncertain tax positions as of March 30, 2014 and December 31, 2013, respectively. Of the total amount of unrecognized tax benefits, including accrued interest and penalties, \$14.8 million and \$17.2 million as of March 30, 2014 and December 31, 2013, respectively, if recognized, would impact the Company's effective income tax rate. The difference between the total amount of unrecognized tax benefits and the amount that would impact the effective income tax rate consists of items that are offset by deferred income tax assets and the federal income tax benefit of state income tax items.

The Company is currently under income tax examination by the Internal Revenue Service ("IRS") for the year ended December 31, 2011. The Company is currently open to audit under the statute of limitations for the years ended December 31, 2007 through 2013. The Company and its subsidiaries' state income tax returns are open to audit under the statute of limitations for the years ended December 31, 2001 through 2012. The Company and its subsidiaries'

foreign income tax returns are open to audit under the statute of limitations for the years ended December 31, 2007 through 2013.

Table of Contents

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED) - Continued

Payroll Taxes

The Company is currently under payroll tax examination by the IRS. The IRS informed the Company in 2013 that it proposed to issue an audit adjustment for the employer's share of FICA taxes related to cash tips allegedly received and unreported by the Company's tipped employees during calendar year 2010, for which the Company recorded a liability of \$5.0 million in the third quarter of 2013. The cash tips allegedly unreported by the tipped employees were based on an IRS estimate of the aggregate amount of tips directly received by tipped employees from the Company's customers. Subsequently, the Company had additional communications with the IRS representatives, which indicated that the scope of the proposed adjustment would expand to include the 2011 and 2012 periods. As a result, the Company reassessed the established liability balance and recorded an additional \$12.0 million in the fourth quarter of 2013. As of March 30, 2014, the Company had \$11.0 million and \$6.0 million recorded in Accrued and other current liabilities and Other long-term liabilities, net, respectively, in the Company's Consolidated Balance Sheet.

In March 2014, the IRS issued an audit adjustment of \$5.0 million to the Company for the employer's share of FICA taxes related to cash tips unreported by the Company's employees during calendar year 2010 for this matter. The Company subsequently remitted payment to the IRS in April 2014 to settle the calendar year 2010 audit adjustment.

9. Commitments and Contingencies

On October 4, 2013, Brooke Cardoza and Cody Hancock (collectively, the "Nevada Plaintiffs"), two current employees, filed a purported collective action lawsuit against the Company, OSI, and two of its subsidiaries in the U.S. District Court for the District of Nevada. The complaint alleges violations of the Fair Labor Standards Act by requiring employees to work off the clock, complete on-line training without pay, and attend meetings in the restaurant without pay. The suit seeks to certify a nationwide collective action that all hourly employees in all Outback Steakhouse restaurants would be permitted to join. The suit seeks an unspecified amount in back pay for the employees that join the lawsuit, an equal amount in liquidated damages, costs, expenses, and attorney's fees. The Nevada Plaintiffs also filed a companion lawsuit in Nevada state court alleging that the Company violated the state break time rules. The Company believes these lawsuits are without merit, and is vigorously defending all allegations. However, the Company is unable to predict the outcome.

On November 8, 2013, Holly Gehl, Chris Armenta, and Trent Broadstreet (collectively, the "California Plaintiffs") filed a purported class action lawsuit against the Company, OSI and OS Restaurant Services, LLC, two of its subsidiaries, and T-Bird Restaurant Group, Inc. ("T-Bird"), one of its franchisees. The lawsuit was filed in the California Superior Court, County of Alameda. The defendants removed the matter to the U.S. District Court for the Northern District of California in December 2013. The complaint alleges, among other things, violations of the California Labor Code, failure to pay overtime, failure to provide meal and rest periods and termination compensation, and violations of California's Business and Professions Code. The complaint seeks, among other relief, class certification of the lawsuit, unspecified damages, costs and expenses, including attorney's fees, and such other relief as the Court determines to be appropriate. The Company does not believe the California Plaintiffs have any standing to bring claims against the Company or its subsidiaries as all were employed by the Company's franchisee. The Company intends to request that the court dismiss it and the Company's subsidiaries from this action. Should the court deny the Company's request for dismissal it will vigorously defend the lawsuit. However, the Company is unable to predict the outcome of this case.

10. Recently Issued Financial Accounting Standards

In April 2014, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2014-08 "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity" ("ASU No. 2014-08"). ASU No. 2014-08 changes the criteria for reporting and revises the definition of discontinued operations while

20

Table of Contents

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED) - Continued

enhancing disclosures in this area. Additional disclosure requirements for discontinued operations and new disclosures for individually material disposal transactions that do not meet the revised definition of a discontinued operation will be applicable. ASU No. 2014-08 will be effective for the Company on December 29, 2014 with early adoption permitted. The impact of ASU No. 2014-08 on the Company's financial position, results of operations and cash flows is dependent on the occurrence of future transactions or events.

In March 2014, the Emerging Issues Task Force ("EITF") reached a final consensus on Issue 13-D "Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could be Achieved after the Requisite Service Period" ("EITF 13-D"). Under EITF 13-D, a performance target that can be achieved after the requisite service period should be treated as a performance condition that affects vesting, rather than a condition that affects grant date fair value. Compensation cost is recognized over the requisite service period if it is probable that the performance condition will be achieved. If necessary, compensation cost is subsequently adjusted, to reflect those awards that ultimately vest. EITF 13-D will be effective, on a prospective basis, for the Company on December 28, 2015 with early adoption permitted. Adoption of this standard will not have an impact on the Company's financial position, results of operations or cash flows as the vesting of outstanding performance-based share units is aligned with the requisite service period.

In July 2013, the FASB issued ASU No. 2013-11, "Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists (a consensus of the FASB Emerging Issues Task Force)" ("ASU No. 2013-11"). Under ASU No. 2013-11, an entity is required to present its unrecognized tax benefits net of its deferred tax assets when settlement in this manner is available under the tax law, which is based on facts and circumstances as of the balance sheet reporting date and would not consider future events. Gross presentation in the notes to the financial statements is still required. ASU No. 2013-11 applies on a prospective basis to all unrecognized tax benefits that exist at the effective date, with the option to apply it retrospectively. ASU No. 2013-11 was effective for the Company on January 1, 2014 and adoption on that date did not have an impact on the Company's financial position, results of operations or cash flows.

In March 2013, the FASB issued ASU No. 2013-05, "Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (a consensus of the FASB Emerging Issues Task Force)" ("ASU No. 2013-05"). Under ASU No. 2013-05, which clarifies existing U.S. GAAP guidance, an entity would recognize cumulative translation adjustments in earnings when it ceases to have a controlling financial interest in a subsidiary or group of assets within a consolidated foreign entity and the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets resided. However, when an entity sells either a part or all of its investment in a consolidated foreign entity, an entity would recognize cumulative translation adjustments in earnings only if the parent no longer has a controlling financial interest in the foreign entity as a result of the sale. In the case of sales of an equity method investment that is a foreign entity, a pro rata portion of cumulative translation adjustments attributable to the equity method investment would be recognized in earnings upon sale of the equity method investment. In addition, cumulative translation adjustments would be recognized in earnings upon a business combination achieved in stages such as a step acquisition. ASU No. 2013-05 was effective for the Company on January 1, 2014 and was adopted on that date, with prospective application to the derecognition of any foreign entity subsidiaries, groups of assets or investments in foreign entities completed on or after January 1, 2014. The impact of ASU No. 2013-05 on the Company's financial position, results of operations and cash flows is dependent on future transactions resulting in derecognition of the Company's foreign assets, subsidiaries or investments in foreign entities completed on or after adoption.

11. Subsequent Events

Commercial Mortgage-backed Securities Loan Rate Cap

New PRP's interest rate cap ("Rate Cap") expired on April 13, 2014. In connection with the expiration of the Rate Cap, New PRP entered into a replacement rate cap ("Replacement Rate Cap"), with a notional amount of \$48.7 million, to limit the volatility of the floating rate component of the first mortgage loan within the 2012 CMBS Loan. Under the Replacement Rate Cap, if the 30-day LIBOR rate exceeds 7.00% per annum, the counterparty must pay to New PRP such excess on the notional amount of the floating rate component.

If necessary, the Company will record mark-to-market changes in the fair value of this derivative instrument in earnings in the period of change. The Replacement Rate Cap has a term of two years, expiring on April 13, 2016. Upon the expiration or termination of the Replacement Rate Cap or the downgrade of the credit ratings of the counterparty under the Replacement Rate Cap's specified thresholds, New PRP is required to obtain a replacement interest rate cap in a notional amount equal to the outstanding principal balance (if any) of the floating rate component. The Replacement Rate Cap had a nominal fair market value on the date of its inception.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's discussion and analysis of financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and the related notes. Unless the context otherwise indicates, as used in this report, the term the "Company," "we," "us," "our" and other similar terms mean Bloomin' Brands, Inc. and its subsidiaries.

Cautionary Statement

This Quarterly Report on Form 10-Q (the "Report") includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms "believes," "estimates," "anticipates," "expects," "feels," "seeks," "forecasts," "projects," "intends," "plans," "may," "will," "should," "could" or "would" and their negative or other variations or comparable terminology, although not all forward-looking statements contain these identifying words. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this Report and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies and the industry in which we operate.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and industry developments may differ materially from statements made in or suggested by the forward-looking statements contained in this Report. In addition, even if our results of operations, financial condition and liquidity, and industry developments are consistent with the forward-looking statements contained in this Report, those results or developments may not be indicative of results or developments in subsequent periods. Important factors that could cause actual results to differ materially from statements made or suggested by forward-looking statements include, but are not limited to, the following:

(i) The restaurant industry is a highly competitive industry with many well-established competitors;

(ii) Challenging economic conditions may affect our liquidity by adversely impacting numerous items that include, but are not limited to: consumer confidence and discretionary spending; the availability of credit presently arranged from our revolving credit facilities; the future cost and availability of credit; interest rates; foreign currency exchange rates; and the liquidity or operations of our third-party vendors and other service providers;

(iii) Our ability to expand is dependent upon various factors such as the availability of attractive sites for new restaurants; our ability to obtain appropriate real estate sites at acceptable prices; our ability to obtain all required governmental permits including zoning approvals and liquor licenses on a timely basis; the impact of government moratoriums or approval processes, which could result in significant delays; our ability to obtain all necessary contractors and subcontractors; union activities such as picketing and hand billing that could delay construction;

our ability to generate or borrow funds; our ability to negotiate suitable lease terms; our ability to recruit and train skilled management and restaurant employees; and our ability to receive the premises from the landlord's developer without any delays;

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

(iv) Our results can be impacted by changes in consumer tastes and the level of consumer acceptance of our restaurant concepts (including consumer tolerance of our prices); local, regional, national and international economic and political conditions; the seasonality of our business; demographic trends; patterns of customer traffic and our ability to effectively respond in a timely manner to changes in patterns of customer traffic; changes in consumer dietary habits; product mix; employee availability; the cost of advertising and media; the timing of restaurant operating expenses; government actions and policies; inflation or deflation; unemployment rates; interest rates; foreign exchange rates; and increases in various costs, including construction, real estate and health insurance costs;

(v) Weather, natural disasters and other disasters could result in construction delays or slower customer traffic and could adversely affect the results of one or more restaurants for an indeterminate amount of time;

(vi) Our results can be negatively impacted by the effects of acts of war; periods of widespread civil unrest; actual or threatened armed conflicts or terrorist attacks, efforts to combat terrorism, or other military action affecting countries in which we do business and by the effects of heightened security requirements on local, regional, national, or international economies or consumer confidence;

(vii) Our results can be impacted by tax and other legislation and regulation in the jurisdictions in which we operate and by accounting standards or pronouncements;

(viii) Our results can be impacted by anticipated or unanticipated changes in our tax rates, exposure to additional income tax liabilities and a change in our ability to realize deferred tax benefits;

(ix) Minimum wage increases and mandated employee benefits could cause a significant increase in our labor costs;

(x) Commodities, including but not limited to, beef, chicken, shrimp, pork, seafood, dairy, produce, potatoes, onions and energy supplies, are subject to fluctuation in price and availability, and prices could increase or decrease more than we expect;

(xi) Our results can be impacted by consumer reaction to public health issues and perception of food safety;

(xii) We could face liabilities if we are unable to protect our information technology systems or experience an interruption or breach of security that could prevent us from effectively operating our business, protecting customer credit and debit card data or personal employee information; and

(xiii) Our substantial leverage and significant restrictive covenants in our various credit facilities could adversely affect our ability to raise additional capital to fund our operations, limit our ability to make capital expenditures to invest in new or renovate restaurants, limit our ability to react to changes in the economy or our industry, and expose us to interest rate risk in connection with our variable-rate debt.

In light of these risks and uncertainties, we caution you not to place undue reliance on these forward-looking statements. Any forward-looking statement that we make in this Report speaks only as of the date of such statement, and we undertake no obligation to update any forward-looking statement or to publicly announce the results of any revision to any of those statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless specifically

expressed as such, and should only be viewed as historical data.

Note: Numerical figures included in this Report have been subject to rounding adjustments.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Overview

We are one of the largest casual dining restaurant companies in the world with a portfolio of leading, differentiated restaurant concepts. As of March 30, 2014, we owned and operated 1,339 restaurants and franchised 161 restaurants across 48 states, Puerto Rico, Guam and 21 countries. We have five founder-inspired concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill, Fleming's Prime Steakhouse and Wine Bar and Roy's. Our concepts seek to provide a compelling customer experience combining great food, highly attentive service and lively and contemporary ambience at attractive prices. Our restaurants attract customers across a variety of occasions, including everyday dining, celebrations and business entertainment. Each of our concepts maintains a unique, founder-inspired brand identity and entrepreneurial culture, while leveraging our scale and enhanced operating model. We consider Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse and Wine Bar to be our core concepts. We continue to evaluate a plan to exit our Roy's concept, but have not established a timeframe or committed to a specific plan to do so.

The restaurant industry is a highly competitive and fragmented industry and is sensitive to changes in the economy, trends in lifestyles, seasonality (customer traffic patterns at restaurants are generally highest in the first quarter of the year and lowest in the third quarter of the year) and fluctuating costs. Operating margins for restaurants can vary due to competitive pricing strategies, labor and fluctuations in prices of commodities, including beef, chicken, seafood, butter, cheese, produce and other necessities to operate a restaurant, such as natural gas or other energy supplies. Restaurant companies tend to be focused on increasing market share, comparable restaurant sales growth and new unit growth. Competitive pressure for market share, commodity inflation, foreign currency exchange rates and other market conditions have had and could continue to have an adverse impact on our business.

Our industry is characterized by high initial capital investment, coupled with high labor costs. Chain restaurants have been increasingly taking share from independent restaurants over the past several years. We believe that this trend will continue due to increasing barriers that may prevent independent restaurants and/or start-up chains from building scale operations, including menu labeling, burdensome labor regulations and healthcare reforms that will be enforced once chains grow past a certain number of restaurants or number of employees. The combination of these factors underscores our initiative to drive increased sales at existing restaurants in order to raise margins and profits, because the incremental contribution to profits from every additional dollar of sales above the minimum costs required to open, staff and operate a restaurant is relatively high. Historically, we have not focused on growth in the number of restaurants just to generate additional sales. Our expansion and operating strategies have balanced investment and operating cost considerations in order to generate reasonable, sustainable margins and achieve acceptable returns on investment from our restaurant concepts.

Our strategic plan and operating model entails maintaining an experienced executive management team and adapting practices from the consumer products and retail industries to complement our restaurant acumen and enhance our brand management, analytics and innovation. This model keeps the customer at the center of our decision-making and focuses on continuous innovation and productivity to drive sustainable sales and profit growth. In addition, we believe that substantial development opportunities remain for our concepts in the U.S. and internationally.

We continue to balance near-term growth in market share with investments to achieve sustainable growth. In 2014, our key growth strategies, which are enabled by continued improvements in infrastructure and organizational effectiveness include:

-

Grow Comparable Restaurant Sales. We plan to continue to remodel our restaurants, use limited-time offers and multimedia marketing campaigns to drive traffic, selectively expand the lunch daypart and introduce innovative menu items, including through extensive menu refresh initiatives at Carrabba's Italian Grill and Bonefish Grill, that match evolving consumer preferences.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Pursue New Domestic Development Opportunities with Strong Unit Level Economics. We believe that a substantial development opportunity remains for our concepts in the U.S. Our top domestic development priority is Bonfish Grill unit growth. We expect to open between 55 and 60 system-wide locations in 2014 of which we expect that approximately 50% will be domestic opportunities.

Pursue New Strategic International Development in Selected Markets. We believe the international business represents a significant growth opportunity and that we are well-positioned to continue to expand our concepts outside the U.S. We continue to focus on existing geographic regions in Latin America and Asia, with strategic expansion in selected emerging and high growth developed markets. We are focusing our existing market growth in Brazil and new market growth in China and Latin America. We expect that approximately 50% of our new units in 2014 will be international opportunities, but will shift to a higher weight of international units as we continue to implement our international expansion plans.

The combination of macro-economic and other factors have put considerable pressure on sales in the casual dining industry both domestically and in our South Korean market. For example, domestically, the ongoing impacts of high unemployment, continued reduced access to credit, financial market volatility and unpredictability, governmental spending and budget matters, other national, regional and local regulatory and economic conditions, gasoline prices, reduced disposable consumer income and consumer confidence have had a negative effect on discretionary consumer spending. In our South Korean market, higher levels of household debt have impacted discretionary consumer spending, particularly in the casual dining environment. As these conditions persist, we will face increased pressure with respect to our pricing, traffic levels and commodity costs. We believe that in this environment, we will need to maintain our focus on value and innovation as well as refreshing our restaurant base to continue to drive sales.

Key Performance Indicators

Key measures that we use in evaluating our restaurants and assessing our business include the following:

• Average restaurant unit volumes—average sales per restaurant to measure changes in customer traffic, pricing and development of the brand;

• Comparable restaurant sales—year-over-year comparison of sales volumes for domestic, Company-owned restaurants that are open 18 months or more in order to remove the impact of new restaurant openings in comparing the operations of existing restaurants;

• System-wide sales—total restaurant sales volume for all Company-owned and franchise restaurants and, in historical periods, unconsolidated joint venture restaurants, regardless of ownership, to interpret the overall health of our brands;

• Adjusted restaurant-level operating margin, Adjusted income from operations, Adjusted net income, Adjusted diluted earnings per share, EBITDA and Adjusted EBITDA—non-GAAP financial measures utilized to evaluate our operating performance, which definitions, usefulness and reconciliations are described in more detail in the “Non-GAAP Financial Measures” section below; and

• Customer satisfaction scores—measurement of our customers' experiences in a variety of key attributes.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Change in Fiscal Year End

On January 3, 2014, our Board of Directors approved a change in our fiscal year end from a calendar year ending on December 31 to a 52-53 week year ending on the last Sunday in December, effective beginning with fiscal year 2014. We believe the change in our fiscal year end provides numerous benefits, including aligning our reporting periods to be more consistent with peer restaurant companies and improving comparability between periods by removing the effect of trading day on Restaurant sales and operating margins. We will continue reporting our Brazilian operations, on a calendar-based one-month lag. All other international operations will be reported on a 52-53 week reporting period contemporaneously with the domestic operations.

We made the fiscal year change on a prospective basis and have not adjusted operating results for prior periods. The change impacts the prior year comparability of our fiscal quarters and annual period in 2014 and will result in shifts in the quarterly periods, which will have an impact on our quarterly financial results. The first fiscal quarter of 2014 began January 1, 2014 and ended March 30, 2014 and is referred to throughout this report as the "thirteen weeks ended March 30, 2014".

The thirteen weeks ended March 30, 2014 included one less operating day than the comparable prior year period and we estimate that the impact is approximately \$7.5 million and \$1.5 million on Total revenues and Net income attributable to Bloomin' Brands, respectively.

The impact of the change in the reporting periods for fiscal year 2014 is as follows:

FISCAL PERIOD	2014 REPORTING PERIOD	2014 FISCAL PERIOD DAYS	COMPARABLE 2013 FISCAL PERIOD DAYS	FISCAL YEAR CHANGE IMPACT (in operating days)
First fiscal quarter	January 1, 2014 to March 30, 2014	89	90	(1)
Second fiscal quarter	March 31, 2014 to June 29, 2014	91	91	—
Third fiscal quarter	June 30, 2014 to September 28, 2014	91	92	(1)
Fiscal year	January 1, 2014 to December 28, 2014	362	365	(3)

Selected Operating Data

The table below presents the number of our restaurants in operation at the end of the periods indicated:

	MARCH 30, 2014	MARCH 31, 2013
Number of restaurants (at end of the period):		
Outback Steakhouse		
Company-owned—domestic	650	663
Company-owned—international (1) (2)	171	117
Franchised—domestic	104	106
Franchised and joint venture—international (1)	51	89
Total	976	975
Carrabba's Italian Grill		
Company-owned	240	234
Franchised	1	1
Total	241	235
Bonefish Grill		
Company-owned	192	174
Franchised	5	7
Total	197	181
Fleming's Prime Steakhouse and Wine Bar		
Company-owned	66	65
Roy's		
Company-owned	20	22
System-wide total	1,500	1,478

Effective November 1, 2013, we acquired a controlling interest in the Brazilian Joint Venture resulting in the (1) consolidation and reporting of 47 restaurants (as of the acquisition date) as Company-owned locations, which are reported as unconsolidated joint venture locations in the historical period presented.

The restaurant count for Brazil is reported as of February 28, 2014 to correspond with the balance sheet date of this (2) subsidiary and, therefore, excludes one restaurant that opened in March 2014. Restaurant counts for our Brazilian operations were reported as of March 31st in the historical period presented.

We operate restaurants under brands that have similar economic characteristics, nature of products and services, class of customer and distribution methods, and as a result, aggregate our operating segments into a single reporting segment.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

REVENUES

Restaurant sales

(dollars in millions):	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013	\$ Change	% Change	
Restaurant sales	\$1,150.5	\$1,082.4	\$68.1	6.3	%

The increase in restaurant sales in the thirteen weeks ended March 30, 2014 as compared to the three months ended March 31, 2013 was primarily attributable to a \$67.8 million increase from the consolidation of restaurant sales generated by 47 formerly unconsolidated joint venture restaurants in Brazil that we acquired effective November 1, 2013 and additional revenues of \$31.8 million from the opening of 67 new restaurants not included in our comparable restaurant sales base. The increase in restaurant sales was partially offset by the following: (i) a \$16.3 million decrease in comparable restaurant sales, (ii) a \$7.7 million decrease from the closing of 25 restaurants since March 31, 2013 and (iii) a \$7.5 million decrease as the thirteen weeks ended March 30, 2014 included one less operating day than the three months ended March 31, 2013. Blended core domestic results were due to decreases in customer traffic and a mix in our product sales offset by increases in general menu prices. The decrease in customer traffic was primarily due to unfavorable winter weather conditions, timing of holidays in 2014 and continuing macro-economic conditions that have had a negative effect on discretionary consumer spending, partially offset by daypart expansion across certain concepts.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

COSTS AND EXPENSES

Cost of sales

(dollars in millions):	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013	Change
Cost of sales	\$373.6	\$350.0	
% of Restaurant sales	32.5	% 32.3	% 0.2 %

Cost of sales, consisting of food and beverage costs, increased as a percentage of Restaurant sales in the thirteen weeks ended March 30, 2014 as compared to the three months ended March 31, 2013. The increase as a percentage of Restaurant sales was primarily due to the following: (i) 0.5% from higher beef and other commodity costs, (ii) 0.5% from higher seafood costs, (iii) 0.4% increase related to new and promotional menu rollouts and (iv) 0.3% from changes in our product mix. These increases were partially offset by decreases as a percentage of Restaurant sales of 0.9% from the impact of certain cost savings initiatives and 0.7% from menu price increases.

Labor and other related expenses

(dollars in millions):	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013	Change
Labor and other related	\$311.4	\$299.9	
% of Restaurant sales	27.1	% 27.7	% (0.6) %

Labor and other related expenses include all direct and indirect labor costs incurred in operations, including distribution expense to managing partners, costs related to the Partner Ownership Account Plan ("POAP") and Partner Equity Plan ("PEP") deferred compensation plans (see "—Liquidity and Capital Resources—Deferred Compensation Plans"), and other incentive compensation expenses. Labor and other related expenses decreased as a percentage of Restaurant sales in the thirteen weeks ended March 30, 2014 as compared to the three months ended March 31, 2013. Decreases as a percentage of Restaurant sales were primarily attributable to the following: (i) 0.5% from the impact of certain cost savings initiatives, (ii) 0.4% from stronger unit economics on our acquired Brazilian restaurants, (iii) 0.3% lower field management bonuses based on individual restaurant performance and (iv) 0.2% from lower workers' compensation claims experience. These decreases were partially offset by increases as a percentage of Restaurant sales primarily attributable to 0.8% of higher kitchen and service labor costs due to daypart expansion across certain concepts and the addition of new restaurant locations.

Other restaurant operating expenses

(dollars in millions):	THIRTEEN WEEKS	THREE MONTHS	Change
------------------------	-------------------	-----------------	--------

Edgar Filing: Bloomin' Brands, Inc. - Form 10-Q

	ENDED MARCH 30, 2014	ENDED MARCH 31, 2013			
Other restaurant operating	\$256.5	\$233.8			
% of Restaurant sales	22.3	21.6	%	0.7	%

The increase as a percentage of Restaurant sales in the thirteen weeks ended March 30, 2014 as compared to the three months ended March 31, 2013 was primarily due to the following: (i) 0.4% from a net decrease in average unit volumes, mainly due to restaurants in South Korea, (ii) 0.3% of higher advertising expense, (iii) 0.3% of higher restaurant occupancy costs mainly related to rent escalations from existing leases and (iv) 0.2% of higher restaurant utilities associated with new restaurant locations and daypart expansion across certain concepts. The increases were partially

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

offset by decreases as a percentage of Restaurant sales primarily due to 0.5% from the stronger unit economics on our acquired Brazilian restaurants and 0.2% from a deferred rent liability write-off during the thirteen weeks ended March 30, 2014 associated with the closing of 22 underperforming restaurant locations.

Depreciation and amortization

(dollars in millions):	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013	Change	
Depreciation and amortization	\$46.2	\$40.2		
% of Total revenues	4.0	% 3.7	% 0.3	%

Depreciation and amortization expense increased as a percentage of Total revenues in the thirteen weeks ended March 30, 2014 as compared to the three months ended March 31, 2013. This increase as a percentage of Total revenues was primarily due to depreciation expense related to the opening of new restaurants and the completion of internally developed technology projects combined with amortization associated with our acquired Brazilian operations.

General and administrative

(in millions):	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013	Change	
General and administrative	\$74.1	\$72.5	\$1.6	

General and administrative costs increased in the thirteen weeks ended March 30, 2014 as compared to the three months ended March 31, 2013 primarily due to the following: (i) \$3.9 million of costs associated with our Brazilian operations, (ii) \$1.1 million of transaction costs due primarily to our secondary offering in March 2014 and (iii) \$1.0 million of severance and other costs associated with our restaurant closure initiative. These increases were partially offset by a \$4.2 million decrease due to the timing of our annual managing partner conference.

Provision for impaired assets and restaurant closings

(in millions):	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013	Change	
Provision for impaired assets and restaurant closings	\$6.1	\$1.9	\$4.2	

Approximately \$6.0 million of restaurant closing charges were incurred during the thirteen weeks ended March 30, 2014 in connection with the decision made in the fourth quarter of 2013 to close 22 underperforming locations. For

the three months ended March 31, 2013, restaurant impairment charges resulted from the carrying value of a restaurant's assets exceeding its estimated fair market value, mainly due to declining future cash flows from lower projected sales at existing locations and locations identified for relocation or renovation (see "—Liquidity and Capital Resources—Fair Value Measurements" for additional information).

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Income from operations of unconsolidated affiliates

Effective November 1, 2013, we completed the acquisition of a controlling interest in the Brazilian Joint Venture resulting in the consolidation of this entity. Prior to the acquisition, we accounted for the Brazilian Joint Venture under the equity method of accounting and our share of earnings was recorded in Income from operations of unconsolidated affiliates in our Consolidated Statements of Operations and Comprehensive Income. The Brazilian Joint Venture's results of operations for the thirteen weeks ended March 30, 2014 are reflected in the respective line items in our Consolidated Statements of Operations and Comprehensive Income.

Income from operations

(dollars in millions):	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013	Change
Income from operations	\$90.0	\$96.9	
% of Total revenues	7.8	% 8.9	% (1.1)%

The decrease in income from operations generated in the thirteen weeks ended March 30, 2014 as compared to the three months ended March 31, 2013 was primarily a result of a 0.2% decline in operating margins at the restaurant level combined with higher Depreciation and amortization expenses and additional charges for restaurant closings as discussed above.

Interest expense, net

(in millions):	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013	Change
Interest expense, net	\$16.6	\$20.9	\$(4.3)

The decrease in net interest expense in the thirteen weeks ended March 30, 2014 as compared to the three months ended March 31, 2013 was primarily attributable to lower outstanding debt balances due to voluntary prepayments on the senior secured credit facilities combined with reduced interest rates associated with the repricing of the senior secured credit facilities completed in April 2013.

Provision for income taxes

THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013	Change
---	---	--------

Edgar Filing: Bloomin' Brands, Inc. - Form 10-Q

Effective income tax rate	24.8	%	14.1	%	10.7	%
---------------------------	------	---	------	---	------	---

The net increase in the effective income tax rate in the thirteen weeks ended March 30, 2014 as compared to the same period in the prior year was due to the following: (i) the acquisition of limited partnership interests in 2013 and 2014, which resulted in increased income allocations, (ii) a lower estimated income tax rate in the three months ended March 31, 2013 due to the reduction of valuation allowances resulting from the utilization of certain deferred tax assets in 2013, and (iii) a change in the blend of taxable income and tax rates across our domestic and international subsidiaries.

The effective income tax rate for the thirteen weeks ended March 30, 2014 was lower than the blended federal and state statutory rate of 39.0% primarily due to the benefit of the expected tax credit for excess FICA tax on employee-reported tips and the recognition of previously unrecognized tax benefits. The effective income tax rate for the three

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

months ended March 31, 2013 was lower than the blended federal and state statutory rate of 38.6% primarily due to the benefit of the expected tax credit for excess FICA tax on employee-reported tips, the foreign rate differential, a decrease in the valuation allowance and the elimination of noncontrolling interest together being such a large percentage of projected annual pretax income.

Non-GAAP Financial Measures

In addition to the results provided in accordance with U.S. GAAP, we provide non-GAAP measures which present operating results on an adjusted basis. These are supplemental measures of performance that are not required by or presented in accordance with U.S. GAAP and include the following: (i) system-wide sales, (ii) Adjusted restaurant-level operating margins, (iii) Adjusted income from operations and the corresponding margins, (iv) Adjusted net income, (v) Adjusted diluted earnings per share and (vi) EBITDA and Adjusted EBITDA. These non-GAAP measures are not measurements of our operating or financial performance under U.S. GAAP and should not be considered as an alternative to performance measures derived in accordance with U.S. GAAP or as an alternative to cash flow from operating activities as measures of our liquidity. These non-GAAP measures may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with U.S. GAAP.

System-Wide Sales

System-wide sales is a non-GAAP financial measure that includes sales of all restaurants operating under our brand names, whether we own them or not. System-wide sales comprise sales of Company-owned and franchised restaurants and, in historical periods, sales of unconsolidated joint venture restaurants. Effective November 1, 2013, we acquired a controlling interest in the Brazilian Joint Venture resulting in the consolidation of the operations of 47 restaurants (as of the acquisition date). Sales from these restaurants that were historically reported as income from unconsolidated joint ventures were consolidated beginning on the acquisition date and, as a result, sales from these restaurants are reported as Company-owned for the period subsequent to the acquisition date. The table below presents the first component of system-wide sales, which is sales of Company-owned restaurants:

	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013
COMPANY-OWNED RESTAURANT SALES (in millions):		
Outback Steakhouse		
Domestic	\$567	\$572
International	146	88
Total	713	660
Carrabba's Italian Grill	187	187
Bonefish Grill	158	143
Fleming's Prime Steakhouse and Wine Bar	73	71
Other	20	21
Total Company-owned restaurant sales	\$1,151	\$1,082

The following information presents the second component of system-wide sales, which is sales of franchised and unconsolidated joint venture restaurants. These are restaurants that are not consolidated and from which we only receive a franchise royalty or a portion of their total income. Management believes that franchise and unconsolidated joint venture sales information is useful in analyzing our revenues because franchisees and affiliates pay royalties and/or service fees that generally are based on a percentage of sales. Management also uses this information to make decisions about future plans for the development of additional restaurants and new concepts as well as evaluation of current operations.

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

The following do not represent our sales and are presented only as an indicator of changes in the restaurant system, which management believes is important information regarding the health of our restaurant concepts.

	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013
FRANCHISE AND UNCONSOLIDATED JOINT VENTURE SALES (in millions) (1):		
Outback Steakhouse		
Domestic	\$84	\$83
International	29	94
Total	113	177
Carrabba's Italian Grill	1	1
Bonefish Grill	4	5
Total franchise and unconsolidated joint venture sales (1)	\$118	\$183
Income from franchise and unconsolidated joint ventures (2)	\$5	\$11

(1) Franchise and unconsolidated joint venture sales are not included in Total revenues in the Consolidated Statements of Operations and Comprehensive Income.

Represents the franchise royalty and the portion of total income related to restaurant operations included in the (2) Consolidated Statements of Operations and Comprehensive Income in Other revenues and Income from operations of unconsolidated affiliates, respectively.

Other Financial Measures

Restaurant-level operating margins are calculated as Restaurant sales after deduction of the main restaurant-level operating costs (comprising Cost of sales, Labor and other related and Other restaurant operating). Adjusted restaurant-level operating margins are calculated by eliminating from Restaurant-level operating margins the impact of items that are not considered indicative of ongoing operations consistent with the other non-GAAP measures discussed below. We provide this non-GAAP measure because we believe it is useful for investors to assess core restaurant operations without the effect of certain adjustments. For the periods presented, Adjusted restaurant-level operating margins include adjustments for the reversal of deferred rent obligations associated with the closure of underperforming locations, which were recorded in Other restaurant operating during the thirteen weeks ended March 30, 2014. No adjustments impacted Restaurant-level operating margins during the three months ended March 31, 2013.

Adjusted income from operations, Adjusted net income and Adjusted diluted earnings per share are calculated by eliminating from Income from operations, Net income attributable to Bloomin' Brands and Diluted earnings per share the impact of items that are not considered indicative of ongoing operations. We provide these non-GAAP measures because we believe they are useful for investors to assess the operating performance of the business without the effect of certain adjustments. For the periods presented, the non-GAAP adjustments include transaction-related expenses primarily attributable to costs associated with the secondary offering of our common stock in March 2014; certain

restaurant closing charges; purchased intangibles amortization; and an adjustment to the Provision for income taxes based on the statutory rate applicable to jurisdictions in which the above non-GAAP adjustments relate.

EBITDA and Adjusted EBITDA (calculated by adjusting EBITDA to exclude certain stock-based compensation expenses, non-cash expenses and other significant unusual items that we do not consider representative of our underlying business performance) are supplemental measures of operating performance. We believe that EBITDA and Adjusted EBITDA are useful measures for investors as they permit a comparative assessment of our operating performance relative to our performance based on our U.S. GAAP results, while isolating the effects of some items that vary from period to period and to facilitate company-to-company comparisons within the restaurant industry by eliminating some of these foregoing variations.

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

The use of these measures permits a comparative assessment of our operating performance relative to our performance based on U.S. GAAP results, while isolating the effects of certain items that vary from period to period without correlation to core operating performance or that vary widely among similar companies. However, our inclusion of these adjusted measures should not be construed as an indication that our future results will be unaffected by unusual or infrequent items or that the items for which we have made adjustments are unusual or infrequent. In the future, we may incur expenses or generate income similar to the adjusted items. We further believe that the disclosure of these non-GAAP measures is useful to investors as they form the basis for how our management team and Board of Directors evaluate our performance including for achievement of objectives under our cash and equity compensation plans. By disclosing these non-GAAP measures, we believe that we create for investors a greater understanding of, and an enhanced level of transparency into, the means by which our management team operates our business.

Reconciliations of Non-GAAP Financial Measures - Adjusted Restaurant-Level Operating Margins

The following table shows the percentages of certain operating cost financial statement line items in relation to Restaurant sales on both a U.S. GAAP basis and an adjusted basis, as indicated, for the thirteen weeks ended March 30, 2014 and the three months ended March 31, 2013:

	THIRTEEN WEEKS ENDED MARCH 30, 2014		THREE MONTHS ENDED MARCH 31, 2013	
	U.S. GAAP	ADJUSTED (1)	U.S. GAAP AND ADJUSTED (2)	
Restaurant sales	100.0	% 100.0	% 100.0	%
Cost of sales	32.5	% 32.5	% 32.3	%
Labor and other related	27.1	% 27.1	% 27.7	%
Other restaurant operating	22.3	% 22.5	% 21.6	%
Restaurant-level operating margin	18.2	% 18.0	% 18.4	%

Adjusted restaurant-level operating margins include the adjustment for the deferred rent liability write-off (1) associated with the fourth quarter of 2013 decision to close 22 underperforming locations. The write-off of the deferred rent liability was recorded in Other restaurant operating during the thirteen weeks ended March 30, 2014. (2) No adjustments impacted Restaurant-level operating margins during the three months ended March 31, 2013.

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - ContinuedReconciliations of Non-GAAP Financial Measures - Adjusted Income from Operations, Adjusted Net Income and
Adjusted Diluted Earnings Per Share

The following table reconciles Adjusted income from operations and the corresponding margins, Adjusted net income and Adjusted diluted earnings per share, for the thirteen weeks ended March 30, 2014 and the three months ended March 31, 2013 to their respective most comparable U.S. GAAP measures (in thousands, except per share amounts):

	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013		
Income from operations	\$90,026	\$96,860		
Operating income margin	7.8	% 8.9	%	%
Adjustments:				
Transaction-related expenses (1)	1,118	—		
Other losses (2)	4,929	—		
Purchased intangibles amortization (3)	1,458	—		
Adjusted income from operations	\$97,531	\$96,860		
Adjusted operating income margin	8.4	% 8.9	%	%
Net income attributable to Bloomin' Brands	\$53,733	\$63,223		
Adjustments:				
Transaction-related expenses (1)	1,118	—		
Other losses (2)	4,929	—		
Purchased intangibles amortization (3)	1,458	—		
Total adjustments, before income taxes	7,505	—		
Adjustment to provision for income taxes (4)	(2,695) —		
Net adjustments	4,810	—		
Adjusted net income	\$58,543	\$63,223		
Diluted earnings per share	\$0.42	\$0.50		
Adjusted diluted earnings per share	\$0.46	\$0.50		
Diluted weighted average common shares outstanding	127,851	126,507		

(1) Transaction-related expenses primarily relate to costs incurred with the secondary offering of our common stock completed in March 2014.

(2) During the thirteen weeks ended March 30, 2014, we incurred additional expenses for non-cancelable operating lease liabilities and restaurant closing costs associated with the fourth quarter of 2013 decision to close 22 underperforming locations.

(3) Represents our proportional share of non-cash amortization of intangibles recorded as a result of the acquisition of a controlling ownership interest in the our Brazilian operations and includes amortization for reacquired franchise rights and favorable and unfavorable leases.

(4)

Income tax effect of adjustments for the thirteen weeks ended March 30, 2014 was calculated based on the statutory rate applicable to jurisdictions in which the above non-GAAP adjustments relate.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Reconciliations of Non-GAAP Financial Measures - EBITDA and Adjusted EBITDA

The following table reconciles Net income attributable to Bloomin' Brands to EBITDA and Adjusted EBITDA for the thirteen weeks ended March 30, 2014 and the three months ended March 31, 2013 (in thousands):

	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013
Net income attributable to Bloomin' Brands	\$53,733	\$63,223
Provision for income taxes	18,164	10,707
Interest expense, net	16,598	20,880
Depreciation and amortization	46,165	40,196
EBITDA	134,660	135,006
Impairments and disposals (1)	399	876
Transaction-related expenses (2)	1,118	—
Stock-based compensation expense	3,575	4,429
Other losses (3)	3,335	582
Adjusted EBITDA	\$143,087	\$140,893

(1) Represents the elimination of non-cash impairment charges for fixed assets and intangible assets and net gains or losses on the disposal of fixed assets.

(2) Transaction-related expenses primarily relate to costs incurred with the secondary offering of our common stock completed in March 2014.

(3) Represents expenses incurred as a result of (losses) gains on our partner deferred compensation participant investment accounts net of the loss (gain) on the corporate-owned life insurance policies that are held for settlement of our obligations under these programs, foreign currency loss (gain), the loss (gain) on the cash surrender value of executive life insurance and additional restaurant closing costs of approximately \$4.9 million associated with the fourth quarter of 2013 decision to close 22 underperforming locations.

Liquidity and Capital Resources

We believe that expected cash flow from operations, planned borrowing capacity, short-term investments and restricted cash balances are adequate to fund debt service requirements, operating lease obligations, capital expenditures and working capital obligations for the next twelve months. However, our ability to continue to meet these requirements and obligations will depend on, among other things, our ability to achieve anticipated levels of revenue and cash flow and our ability to manage costs and working capital successfully.

As of March 30, 2014, we had approximately \$195.4 million in available unused borrowing capacity under OSI's senior secured revolving credit facility, net of letters of credit of \$29.6 million.

In April 2014, we initiated a process to refinance our outstanding senior secured credit facilities. At the time of this filing, the terms of the refinancing are not final. Upon completion of the refinancing, we expect total outstanding indebtedness under the new credit facilities to be consistent with the total amount outstanding under our current credit

facilities. If the refinancing is completed, we expect to incur lower annualized interest expense. No assurances can be given that the refinancing will be completed on the terms we expect or at all.

TRANSACTIONS

Effective January 1, 2014, we purchased the remaining partnership interests in certain of our limited partnerships that either owned or had a contractual right to varying percentages of cash flows in 37 Bonefish Grill restaurants for an aggregate purchase price of \$17.2 million. These transactions resulted in a reduction of approximately \$12.3 million in Additional paid-in capital for the thirteen weeks ended March 30, 2014.

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Effective March 1, 2014, we acquired two Bonefish Gill restaurants from a franchisee for a purchase price of approximately \$3.2 million, including customary escrow amounts. The Consolidated Statement of Operations and Comprehensive Income includes the results of operations for these restaurants from the date of acquisition. We allocated the purchase price to the assets acquired less the liabilities assumed based on their estimated fair value on the date of acquisition with the remaining \$2.5 million of the purchase price allocated to goodwill. All goodwill recognized is expected to be deductible for tax purposes.

SUMMARY OF CASH FLOWS

We require capital primarily for principal and interest payments on our debt, prepayment requirements under our term loan B (see "—Credit Facilities and Other Indebtedness"), obligations related to our deferred compensation plans, the development of new restaurants, remodeling or relocating older restaurants, investments in technology, and acquisitions of franchisees and joint venture partners.

The following table presents a summary of our cash flows provided by (used in) operating, investing and financing activities for the periods indicated (in thousands):

	THIRTEEN WEEKS ENDED MARCH 30, 2014	THREE MONTHS ENDED MARCH 31, 2013
Net cash provided by operating activities	\$39,827	\$18,100
Net cash used in investing activities	(41,755) (38,394
Net cash used in financing activities	(33,954) (21,226
Effect of exchange rate changes on cash and cash equivalents	(1,385) (2,701
Net decrease in cash and cash equivalents	\$(37,267) \$(44,221

Operating activities

Net cash provided by operating activities increased during the thirteen weeks ended March 30, 2014 as compared to the three months ended March 31, 2013 primarily as a result of the timing of payables and certain accrual payments and a decrease in cash paid for interest payments. The increase in net cash provided by operating activities was partially offset by a decrease in cash primarily as a result of an increase in cash paid for income taxes.

Investing activities

Net cash used in investing activities during the thirteen weeks ended March 30, 2014 consisted primarily of capital expenditures of \$39.3 million and net cash paid to acquire certain franchise restaurants of \$3.1 million. Net cash used in investing activities during the three months ended March 31, 2013 consisted primarily of capital expenditures of \$41.0 million partially offset by proceeds from the disposal of property, fixtures and equipment of \$1.8 million and the \$1.1 million net difference in restricted cash.

We estimate that our capital expenditures will total between approximately \$250.0 million and \$280.0 million in 2014. The amount of actual capital expenditures may be affected by general economic, financial, competitive, legislative and

regulatory factors, among other things, including restrictions imposed by our borrowing arrangements. We expect to continue to review the level of capital expenditures throughout 2014.

Financing activities

Net cash used in financing activities during the thirteen weeks ended March 30, 2014 was primarily attributable to the following: (i) the purchase of outstanding limited partnership interests in certain restaurants of \$17.2 million, (ii) repayments of long-term debt of \$14.6 million and (iii) repayments of partner deposits and accrued partner obligations

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

of \$7.4 million. This was partially offset by the receipt of proceeds from the exercise of stock options of \$6.0 million. Net cash used in financing activities during the three months ended March 31, 2013 was primarily attributable to the following: (i) repayments of long-term debt of \$30.6 million, (ii) repayments of partner deposits and accrued partner obligations of \$4.2 million and (iii) distributions to noncontrolling interests of \$2.4 million. This was partially offset by the receipt of proceeds from the exercise of stock options of \$10.6 million and repayments of notes receivable due from stockholders of \$5.3 million.

FINANCIAL CONDITION

Current assets decreased to \$431.3 million at March 30, 2014 as compared with \$484.0 million at December 31, 2013.

This decrease was primarily due to a \$37.3 million decrease in Cash and cash equivalents (see "—Summary of Cash Flows") and a \$13.8 million decrease in Inventories primarily due to the utilization of inventory on hand and timing of deliveries at the end of the period. Current liabilities decreased to \$657.6 million at March 30, 2014 as compared with \$744.5 million at December 31, 2013 primarily due to a \$98.2 million decrease in Unearned revenue as a result of the seasonal pattern of gift card and promotional sales and redemptions. These decreases were partially offset by an increase in Accounts payable of \$12.3 million primarily due to timing of payments at period end.

Working capital (deficit) totaled (\$226.3) million and (\$260.5) million at March 30, 2014 and December 31, 2013, respectively, and included Unearned revenue from unredeemed gift cards of \$261.3 million and \$359.4 million at March 30, 2014 and December 31, 2013, respectively. We have, and in the future may continue to have, negative working capital balances (as is common for many restaurant companies). We operate successfully with negative working capital because cash collected on restaurant sales is typically received before payment is due on our current liabilities, and our inventory turnover rates require relatively low investment in inventories. Additionally, ongoing cash flows from restaurant operations and gift card sales are used to service debt obligations and to make capital expenditures.

CREDIT FACILITIES AND OTHER INDEBTEDNESS

We are a holding company and conduct our operations through our subsidiaries, certain of which have incurred their own indebtedness as described below.

OSI Credit Agreement

On October 26, 2012, OSI entered into the Credit Agreement with a syndicate of institutional lenders and financial institutions. The Credit Facilities provide for senior secured financing of up to \$1.225 billion, consisting of a \$1.0 billion term loan B and a \$225.0 million revolving credit facility, including letter of credit and swing-line loan sub-facilities and mature on October 26, 2019. The senior secured term loan B was issued with an original issue discount of \$10.0 million. OSI amended the Credit Agreement in April 2013 for a repricing of its senior secured term loan B facility and in January 2014 to align the Credit Agreement with its change in fiscal year.

OSI Credit Agreement - Senior Secured Term Loan B

Borrowings under the Term Loan B, bear interest at 150 basis points over the Base Rate or 250 basis points over the Eurocurrency Rate and have interest rate floors of 2.00% for the Base Rate and 1.00% for the Eurocurrency Rate. The Base Rate option is the highest of (i) the prime rate of Deutsche Bank Trust Company Americas, (ii) the federal funds

effective rate plus 0.5 of 1.0% or (iii) the Eurocurrency Rate with a one-month interest period plus 1.0% (3.25% at March 30, 2014 and December 31, 2013). The Eurocurrency Rate option is the 30, 60, 90 or 180-day Eurocurrency Rate (ranging from 0.15% to 0.33% and 0.17% to 0.35% at March 30, 2014 and December 31, 2013, respectively). The Eurocurrency Rate may have a nine- or twelve-month interest period if agreed upon by the applicable lenders.

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

OSI is required to prepay outstanding term loans, subject to certain exceptions, with:

50% of its "annual excess cash flow" (with step-downs to 25% and 0% based upon its consolidated first lien net leverage ratio), as defined in the Credit Agreement, subject to certain exceptions;

100% of the net proceeds of certain assets sales and insurance and condemnation events, subject to reinvestment rights and certain other exceptions; and

100% of the net proceeds of any debt incurred, excluding permitted debt issuances.

The Term Loan B, requires amortization payments of approximately \$10.0 million per calendar year, payable in scheduled equal quarterly installments through September 2019. These payments are reduced by the application of any prepayments, including the \$10.0 million prepayment that occurred during the thirteen weeks ended March 30, 2014. Any remaining balance is due at maturity. Since the inception of Term Loan B, OSI has made sufficient voluntary prepayments in excess of the remaining required amortization payments and, as a result, will not be required to make any further required amortization payments until the remaining balance of the loan reaches maturity in October 2019.

The outstanding balance on the Term Loan B, excluding the unamortized debt discount, was \$925.0 million and \$935.0 million at March 30, 2014 and December 31, 2013, respectively. The remaining unamortized debt discount on the Term Loan B, as amended, was \$6.7 million and \$7.0 million at March 30, 2014 and December 31, 2013, respectively. At March 30, 2014 and December 31, 2013, respectively, none of the outstanding balance on the Term Loan B was classified as current due to aggregate voluntary prepayments made by OSI during 2013 and the results of its projected covenant calculations, which indicate the additional term loan prepayments, as described above, will not be required in the subsequent 12 months. The amount of outstanding term loans required to be prepaid in accordance with OSI's debt covenants may vary based on year-end results.

OSI Credit Agreement - Revolving Credit Facility

The revolving credit facility of \$225.0 million matures October 26, 2017 and provides for swing-line loans and letters of credit for working capital and general corporate purposes. The revolving credit facility bears interest at rates ranging from 200 to 250 basis points over the Base Rate or 300 to 350 basis points over the Eurocurrency Rate, with step-downs based upon OSI's consolidated first lien net leverage ratio. There were no loans outstanding under the revolving credit facility at March 30, 2014 or December 31, 2013, however, \$29.6 million and \$31.6 million, respectively, of the revolving credit facility was committed for the issuance of letters of credit and not available for borrowing. Total outstanding letters of credit issued under OSI's revolving credit facility may not exceed \$100.0 million.

At March 30, 2014 and December 31, 2013, OSI was in compliance with its debt covenants. See the 2013 Form 10-K for further information about OSI's debt covenant requirements.

New PRP - CMBS Loan

Effective March 27, 2012, New PRP entered into the 2012 CMBS Loan with German American Capital Corporation and Bank of America, N.A. The 2012 CMBS Loan totaled \$500.0 million at origination and comprised a first mortgage loan in the amount of \$324.8 million, collateralized by 261 of our properties, and two mezzanine loans totaling \$175.2 million. The loans have a maturity date of April 10, 2017. The first mortgage loan has five fixed-rate

components and a floating rate component. The fixed-rate components bear interest at rates ranging from 2.37% to 6.81% per annum. The floating rate component bears interest at a rate per annum equal to the 30-day LIBOR (with a floor of 1%) plus 2.37%. The first mezzanine loan bears interest at a rate of 9.00% per annum, and the second mezzanine loan bears interest at a rate of 11.25% per annum.

At March 30, 2014 and December 31, 2013, the outstanding balance, excluding the unamortized debt discount, on the 2012 CMBS Loan was \$482.0 million and \$484.5 million, respectively.

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

FAIR VALUE MEASUREMENTS

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date (exit price) and is a market-based measurement, not an entity-specific measurement. To measure fair value, we incorporate assumptions that market participants would use in pricing the asset or liability, and utilize market data to the maximum extent possible. Measurement of fair value incorporates nonperformance risk (i.e., the risk that an obligation will not be fulfilled). In measuring fair value, we reflect the impact of our own credit risk on our liabilities, as well as any collateral. We also consider the credit standing of our counterparties in measuring the fair value of our assets.

We invested \$8.7 million and \$11.9 million of our excess cash in fixed income and money market funds classified as Cash and cash equivalents or restricted cash in our Consolidated Balance Sheets as of March 30, 2014 and December 31, 2013, respectively, at a net value of 1:1 for each dollar invested. The fair value of the investments in the these funds is determined by using quoted prices for identical assets in an active market. As a result, we have determined that the inputs used to value these investments fall within Level 1 of the fair value hierarchy.

In connection with the 2012 CMBS Loan, we entered into a Rate Cap with a notional amount of \$48.7 million as a method to limit the volatility of the floating rate component of the first mortgage loan. This interest rate cap had a nominal fair market value at March 30, 2014 and December 31, 2013. New PRP's Rate Cap expired on April 13, 2014. In connection with the expiration of the Rate Cap, New PRP entered into a Replacement Rate Cap with a notional amount of \$48.7 million. Under the Replacement Rate Cap, if the 30-day LIBOR rate exceeds 7.00% per annum, the counterparty must pay to New PRP such excess on the notional amount of the floating rate component.

If necessary, we will record mark-to-market changes in the fair value of this derivative instrument in earnings in the period of change. The Replacement Rate Cap has a term of two years, expiring on April 13, 2016. Upon the expiration or termination of the Replacement Rate Cap or the downgrade of the credit ratings of the counterparty under the Replacement Rate Cap's specified thresholds, New PRP is required to obtain a replacement interest rate cap in a notional amount equal to the outstanding principal balance (if any) of the floating rate component. The Replacement Rate Cap had a nominal fair market value on the date of its inception.

In 2013, we completed an assessment of our restaurant base. As a result of this assessment, we decided to close 22 underperforming locations. In connection with this initiative, we incurred pre-tax asset impairment charges of approximately \$18.7 million in the fourth quarter of 2013. During the thirteen weeks ended March 30, 2014, we recognized expenses of \$4.9 million, which primarily included direct costs associated with the restaurant closures and severance-related obligations partially offset by the reversal of deferred rent liabilities.

The following table presents the components of these charges and the line items within the Consolidated Statement of Operations and Comprehensive Income in which each component was recognized (in thousands) during the thirteen weeks ended March 30, 2014:

DESCRIPTION	LOCATION OF CHARGE IN THE CONSOLIDATED STATEMENT OF OPERATIONS AND COMPREHENSIVE INCOME	AMOUNT
Restaurant closure expenses	Provision for impaired assets and restaurant closings	\$5,972

Edgar Filing: Bloomin' Brands, Inc. - Form 10-Q

Severance and other liabilities	General and administrative	1,035	
Deferred rent liability write-off	Other restaurant operating	(2,078)
		\$4,929	

43

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

During the thirteen weeks ended March 30, 2014, we recorded \$6.1 million of impairment and restaurant closing expenses as a result of the fair value measurement on a nonrecurring basis of our long-lived assets held and used, which were primarily comprised of \$6.0 million in charges associated with the restaurant closure initiative discussed above.

We recorded \$1.1 million of impairment charges as a result of the fair value measurement on a nonrecurring basis of our long-lived assets held and used during the three months ended March 31, 2013, primarily related to certain specifically identified restaurant locations that were closed or relocated. The impaired long-lived assets had \$4.4 million of remaining fair value at March 31, 2013. Restaurant closure and related expenses of \$0.8 million were recognized for the three months ended March 31, 2013. Impairment losses for long-lived assets held and used and restaurant closure expenses were recognized in Provision for impaired assets and restaurant closings in the Consolidated Statements of Operations and Comprehensive Income.

We used a third-party market appraisal (Level 2) and discounted cash flow models (Level 3) to estimate the fair value of the long-lived assets. Projected future cash flows, including discount rate and growth rate assumptions, are derived from current economic conditions, expectations of management and projected trends of current operating results.

The following table presents quantitative information related to the range of unobservable inputs used in our Level 3 fair value measurements for the impairment losses incurred for the period ending as indicated:

UNOBSERVABLE INPUT	THREE MONTHS ENDED MARCH 31, 2013
Weighted-average cost of capital	9.5%
Long-term growth rates	2.0%
Annual revenue growth rates (1)	2.4% - 3.0%

(1) Weighted average of the annual revenue growth rates unobservable input range was 2.6% for the three months ended March 31, 2013.

Sales declines at our restaurants, unplanned increases in health insurance, commodity or labor costs, deterioration in overall economic conditions and challenges in the restaurant industry may result in future impairment charges. It is possible that changes in circumstances or changes in our judgments, assumptions and estimates, could result in a future impairment charge of a portion or all of our goodwill, other intangible assets or long-lived assets held and used.

DEFERRED COMPENSATION PLANS

Managing and Chef Partners

The managing partner of each Company-owned domestic restaurant and the chef partner of each Fleming's Prime Steakhouse and Wine Bar and Roy's restaurant are required, as a condition of employment, to sign five-year employment agreements. Under these agreements, managing and chef partners have the right to receive monthly distributions based on a percentage of their restaurant's monthly cash flows for the duration of the agreement, which

vary by concept from 6% to 10% for managing partners and 2% to 5% for chef partners.

The employment agreements also provide for an annual bonus, known as the President's Club, which is paid in addition to the monthly distributions of cash flow and is designed to reward increases in a restaurant's annual sales above the concept sales plan with a required flow-through percentage of the incremental sales to cash flow. Managing and chef partners whose restaurants achieve certain annual sales targets above the concept's sales plan (and the required flow-through percentage) receive a bonus equal to a percentage of the incremental sales. Such percentage is determined by the sales target achieved.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Managing partners and chef partners are eligible to receive deferred compensation payments under the POAP, upon completion of their five-year employment agreement. All managing and chef partners who executed new employment agreements after May 1, 2011 were required to participate in the current partner program, including the POAP.

The POAP requires managing and chef partners to make an initial deposit of up to \$10,000 into their "Partner Investment Account." We make a bookkeeping contribution to each partner's "Company Contributions Account" no later than the end of February of each year following the completion of each year (or partial year where applicable) under the partner's employment agreement. The value of each of our contributions is equal to a percentage of cash flow of the partner's restaurant plus, if the restaurant has been open at least 18 calendar months, a percentage of the year-over-year increase in the restaurant's cash flow.

Amounts credited to each partner's account under the POAP may be allocated by the partner among benchmark funds offered under the POAP, and the account balances of the partner will increase or decrease based on the performance of the benchmark funds. Upon termination of employment, all remaining balances in our Contributions Account in the POAP are forfeited unless the partner has been with us for twenty years or more. Unless previously forfeited under the terms of the POAP, 50% of the partner's total account balances generally will be distributed in the March following the completion of the initial five-year contract term with subsequent distributions varying based on the length of continued employment as a partner. The deferred compensation obligations under the POAP are unsecured obligations. As of March 30, 2014 and December 31, 2013, our POAP liability was \$22.3 million and \$21.2 million, respectively, which primarily was recorded in Partner deposits and accrued partner obligations in our Consolidated Balance Sheets.

Our managing and chef partners who executed employment agreements prior to May 1, 2011 were eligible to participate in our prior partner program. Under that program, they were required to sign five-year employment agreements and received monthly distributions of the same percentage of their restaurant's cash flow as under the current program. Upon completion of their five-year employment agreement, they were eligible to participate in the PEP, a deferred compensation program. Managing and chef partners were also required to purchase a non-transferable ownership interest in a partnership ("Management Partnership") that provided management and supervisory services to his or her restaurant. The purchase price for a managing partner's ownership interest was fixed at \$25,000, and the purchase price for a chef partner's ownership interest ranged from \$10,000 to \$15,000. Amounts credited to partners' PEP accounts are fully vested at all times and participants have no discretion with respect to the form of benefit payments under the PEP. Approximately, 13% of our managing and chef partners participate in the PEP as of March 30, 2014.

Upon the closing of the Merger, certain stock options that had been granted to managing and chef partners under a pre-merger managing partner stock plan upon completion of a previous employment contract were converted into the right to receive cash in the form of a "Supplemental PEP" contribution.

As of March 30, 2014, our total vested liability with respect to obligations primarily under the PEP and Supplemental PEP was approximately \$132.0 million, of which \$14.6 million and \$117.4 million was included in Accrued and other current liabilities and Other long-term liabilities, net, respectively, in our Consolidated Balance Sheet. As of December 31, 2013, our total vested liability with respect to obligations primarily under the PEP and Supplemental PEP was approximately \$132.2 million, of which \$17.8 million and \$114.4 million was included in Accrued and other current liabilities and Other long-term liabilities, net, respectively, in our Consolidated Balance Sheet. Partners may allocate the contributions into benchmark investment funds, and these amounts due to participants will fluctuate

according to the performance of their allocated investments and may differ materially from the initial contribution and current obligation.

As of March 30, 2014 and December 31, 2013, we had approximately \$77.7 million and \$76.8 million, respectively, in various corporate-owned life insurance policies which are held within an irrevocable grantor or "rabbi" trust account for settlement of our obligations primarily under the PEP, Supplemental PEP and POAP. We are the sole owner of any

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

assets within the rabbi trust and participants are considered our general creditors with respect to assets within the rabbi trust.

As of March 30, 2014 and December 31, 2013, there were \$74.6 million and \$71.8 million, respectively, of unfunded obligations primarily related to the PEP, Supplemental PEP and POAP, excluding amounts not yet contributed to the partners' investment funds, which may require the use of cash resources in the future.

We use capital to fund the PEP as distributions are made to each managing and chef partner and generally to fund the POAP as each managing and chef partner earns a contribution and currently estimate expected cash funding ranging from \$18.0 million to \$21.0 million in the next 12 months ending March 29, 2015 and \$39.0 million to \$43.0 million in the subsequent 12 months ending March 27, 2016 for PEP and POAP. Actual funding of the current PEP and POAP obligations and future funding requirements may vary significantly depending on timing of partner contracts, forfeiture rates, numbers of partner participants, growth of partner investments and our funding strategy and may differ materially from estimates.

Area Operating Partners

An area operating partner is required, as a condition of employment, to make a deposit of \$10,000 within 30 days of the opening of each new restaurant that he or she oversees, up to a maximum deposit of \$50,000 (taking into account investments under prior programs). This deposit gives the area operating partner the right to monthly payments based on a percentage of his or her restaurants' monthly cash flows for the time period that the area operating partner oversee the restaurant, typically ranging from 4.0% to 4.5%. After the restaurant has been open for a five-year period, the area operating partner will receive a bonus equal to a multiple of the area operating partner's average monthly payments for the 24 months immediately preceding the bonus date. The bonus will be paid within 90 days or paid over a two-year period, depending on the bonus amount.

In 2011, we also began a version of the President's Club annual bonus described above under "—Managing and Chef Partners" for area operating partners to provide additional rewards for achieving sales targets with a required flow-through of the incremental sales to cash flow as defined in the President's Club bonus program.

Area operating partners for restaurants opened on or before December 31, 2011 were eligible to participate in our prior program. Under the prior program, an area operating partner was required, as a condition of employment and within 30 days of the opening of his or her first restaurant, to make an initial investment of \$50,000 in a Management Partnership that provides supervisory services to the restaurants that the area operating partner was overseeing. This interest gave the area operating partner the right to distributions from the Management Partnership based on a percentage of his or her restaurants' monthly cash flows for the duration of the agreement, typically may range from 4.0% to 9.0%. We have the option to purchase an area operating partner's interest in the Management Partnership after the restaurant has been open for a five-year period on the terms specified in the agreement. For restaurants opened between January 1, 2007 and December 31, 2011, the area operating partner's percentage of cash distributions and buyout percentage is calculated based on the associated restaurant's return on investment compared to our targeted return on investment and ranges from 3.0% to 12.0% depending on the concept. This percentage was determined after the first five full calendar quarters from the date of the associated restaurant's opening and was adjusted each quarter thereafter based on a trailing 12-month restaurant return on investment. The buyout percentage was the area operating partner's average distribution percentage for the 24 months immediately preceding the buyout. Buyouts were paid in cash within 90 days or paid over a two-year period. Restaurants opened after December 31, 2011 are governed by our

current operating partner compensation program discussed above.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

TAXES

Income Taxes

Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in the tax rate is recognized in income in the period that includes the enactment date of the rate change. A valuation allowance reduces our deferred income tax assets to the amount that is more likely than not to be realized. We have considered future taxable income and ongoing feasible tax planning strategies in assessing the need for the valuation allowance. Our conclusion that it is more likely than not that such deferred income tax assets will be realized is strongly influenced by our forecast of future taxable income.

As of March 30, 2014 and December 31, 2013, we had \$172.6 million and \$209.9 million, respectively, in cash and cash equivalents (excluding restricted cash of \$27.9 million and \$28.4 million, respectively), of which approximately \$97.9 million and \$107.5 million, respectively, was held by foreign affiliates, a portion of which would be subject to additional taxes if repatriated to the United States. Based on cash and working capital projections within domestic tax jurisdictions, we believe we will generate sufficient cash flows from our United States operations to meet our future debt repayment requirements, anticipated working capital needs and planned capital expenditures, as well as all of our other business needs in the United States.

A provision for income taxes has not been recorded for United States or additional foreign taxes on undistributed earnings related to our foreign affiliates as these earnings were and are expected to continue to be permanently reinvested. The aggregate undistributed earnings of our foreign subsidiaries for which no deferred tax liability has been recorded is approximately \$159.3 million as of March 30, 2014. If we identify an exception to our general reinvestment policy of undistributed earnings, additional tax liabilities will be recorded. It is not practical to determine the amount of unrecognized deferred income tax liabilities on the undistributed earnings. The international jurisdictions in which we operate and have significant cash do not have any known restrictions that would prohibit the repatriation of cash and cash equivalents.

We are currently under income tax examination by the IRS for the year ended December 31, 2011. We are currently open to audit under the statute of limitations for the years ended December 31, 2007 through 2013. We and our subsidiaries' state income tax returns are open to audit under the statute of limitations for the years ended December 31, 2001 through 2012. We and our subsidiaries' foreign income tax returns are open to audit under the statute of limitations for the years ended December 31, 2007 through 2013.

Payroll Taxes

We are currently under payroll tax examination by the IRS which informed us in 2013 that it proposed to issue an audit adjustment for the employer's share of FICA taxes related to cash tips allegedly received and unreported by our tipped employees during calendar year 2010, for which we recorded a liability of \$5.0 million in the third quarter of 2013. The cash tips allegedly unreported by the tipped employees are based on an IRS estimate of the aggregate amount of tips directly received by tipped employees from our customers. Subsequently, we had additional communications with the IRS representatives, which indicate that the scope of the proposed adjustment will be

expanded to include the 2011 and 2012 periods. As a result, we reassessed the established liability balance and recorded an additional \$12.0 million in the fourth quarter of 2013. As of March 30, 2014, we had \$11.0 million and \$6.0 million recorded in Accrued and other current liabilities and Other long-term liabilities, net, respectively, in our Consolidated Balance Sheet.

Table of Contents

BLOOMIN' BRANDS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

In March 2014, the IRS issued an audit adjustment of \$5.0 million for the employer's share of FICA taxes related to cash tips unreported by our employees during calendar year 2010. In April 2014, we remitted \$5.0 million to the IRS to settle the calendar year 2010 audit adjustment.

DIVIDENDS

We did not declare or pay any dividends on our common stock during 2013 or in the thirteen weeks ended March 30, 2014. Our Board of Directors does not intend to pay regular dividends on our common stock. However, we expect to reevaluate our dividend policy on a regular basis and may, subject to compliance with the covenants contained in the Credit Facilities and other considerations, determine to pay dividends in the future.

Our ability to pay dividends is dependent on our ability to obtain funds from our subsidiaries. Payment of dividends by OSI to Bloomin' Brands is restricted under the Credit Facilities to dividends for the purpose of paying Bloomin' Brands' franchise and income taxes and ordinary course operating expenses; dividends for certain other limited purposes; and other dividends subject to an aggregate cap over the term of the agreement.

Recently Issued Financial Accounting Standards

In April 2014, the FASB issued ASU No. 2014-08 "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity". ASU No. 2014-08 changes the criteria for reporting and revises the definition of discontinued operations while enhancing disclosures in this area. Additional disclosure requirements for discontinued operations and new disclosures for individually material disposal transactions that do not meet the revised definition of a discontinued operation will be applicable. ASU No. 2014-08 will be effective for us on December 29, 2014 with early adoption permitted. The impact of ASU No. 2014-08 on our financial position, results of operations and cash flows is dependent on the occurrence of future transactions or events.

In March 2014, the EITF reached a final consensus on EITF 13-D "Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could be Achieved after the Requisite Service Period". Under EITF 13-D, a performance target that can be achieved after the requisite service period should be treated as a performance condition that affects vesting, rather than a condition that affects grant date fair value. Compensation cost is recognized over the requisite service period if it is probable that the performance condition will be achieved. If necessary, compensation cost is subsequently adjusted, to reflect those awards that ultimately vest. EITF 13-D will be effective, on a prospective basis, for us on December 28, 2015 with early adoption permitted. Adoption of this standard will not have an impact on our financial position, results of operations or cash flows as the vesting of outstanding performance-based share units is aligned with the requisite service period.

Table of Contents

BLOOMIN' BRANDS, INC.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk from changes in interest rates on debt, changes in foreign currency exchange rates and changes in commodity prices. We have not experienced a material change in market risk from changes in interest rates on debt, changes in foreign currency exchange rates and changes in commodity prices since December 31, 2013. See Part II, Item 7A., "Quantitative and Qualitative Disclosures about Market Risk" in our 2013 Form 10-K for further information about market risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established and maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial and Administrative Officer, as appropriate to allow timely decisions regarding required disclosure. We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial and Administrative Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial and Administrative Officer concluded that our disclosure controls and procedures were effective as of March 30, 2014.

Changes in Internal Control over Financial Reporting

During the first quarter of 2014, we implemented SAP software in the U.S. to transform our technology platforms and enhance our business information and transaction systems. The implementation included a new general ledger, consolidations system and reporting tools, which support both operating and accounting activities. Internal controls and processes have been modified to address changes in our key business applications and financial processes as a result of the implementation of SAP.

There have been no other changes in our internal control over financial reporting during our most recent thirteen weeks ended March 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

BLOOMIN' BRANDS, INC.

PART II: OTHER INFORMATION

Item 1. Legal Proceedings

On October 4, 2013, Brooke Cardoza and Cody Hancock (collectively, the "Nevada Plaintiffs"), two current employees, filed a purported collective action lawsuit against us in the U.S. District Court for the District of Nevada. The complaint alleges violations of the Fair Labor Standards Act by requiring employees to work off the clock, complete online training without pay, and attend meetings in the restaurant without pay. The suit seeks to certify a nationwide collective action that all hourly employees in all Outback Steakhouse restaurants would be permitted to join. The suit seeks an unspecified amount in back pay for the employees that join the lawsuit, an equal amount in liquidated damages, costs, expenses, and attorney's fees. The Nevada Plaintiffs also filed a companion lawsuit in Nevada state court alleging that we violated the state break time rules. We believe these lawsuits are without merit, and we are vigorously defending all allegations. However, we are unable to predict the outcome of this case.

On November 8, 2013, Holly Gehl, Chris Armenta, and Trent Broadstreet (collectively, the "California Plaintiffs"), individuals employed by our franchisee, filed a purported class action lawsuit against us, OSI and OS Restaurant Services, LLC, two of our subsidiaries, and T-Bird, one of our franchisees. The lawsuit was filed in the California Superior Court, County of Alameda. The defendants removed the matter to the U.S. District Court for the Northern District of California in December 2013. The complaint alleges, among other things, violations of the California Labor Code, failure to pay overtime, failure to provide meal and rest periods and termination compensation, and violations of California's Business and Professions Code. The complaint seeks, among other relief, class certification of the lawsuit, unspecified damages, costs and expenses, including attorney's fees, and such other relief as the Court determines to be appropriate. We do not believe the California Plaintiffs have any standing to bring claims against us or our subsidiaries as all were employed by our franchisee. We intend to request that the court dismiss us and our subsidiaries from this action. Should the court deny our request for dismissal we will vigorously defend the lawsuit. However, we are unable to predict the outcome of this case.

In addition, we are subject to legal proceedings, claims and liabilities, such as liquor liability, sexual harassment and slip and fall cases, which arise in the ordinary course of business and are generally covered by insurance if they exceed specified retention or deductible amounts. In the opinion of management, the amount of ultimate liability with respect to those actions will not have a material adverse impact on our financial position or results of operations and cash flows. We accrue for loss contingencies that are probable and reasonably estimable. Legal costs are reported in General and administrative expense in the Consolidated Statements of Operations and Comprehensive Income. We generally do not accrue for legal costs expected to be incurred with a loss contingency until those services are provided.

Item 1A. Risk Factors

In addition to the other information discussed in this report, please consider the factors described in Part I, Item 1A., "Risk Factors" in our 2013 Form 10-K which could materially affect our business, financial condition or future results. There have not been any significant changes with respect to the risks described in our 2013 Form 10-K, but these are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may adversely affect our business, financial condition or operating results.

Table of Contents

BLOOMIN' BRANDS, INC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no sales of equity securities during the first quarter of 2014 that were not registered under the Securities Act of 1933.

The following table provides information regarding our purchases of common stock during the thirteen weeks ended March 30, 2014:

REPORTING PERIOD	TOTAL NUMBER OF SHARES PURCHASED (1)	AVERAGE PRICE PAID PER SHARE	TOTAL NUMBER OF SHARES PURCHASED AS PART OF PUBLICLY ANNOUNCED PLANS OR PROGRAMS	MAXIMUM NUMBER OF SHARES THAT MAY YET BE PURCHASED UNDER THE PLANS OR PROGRAMS
January 1, 2014 through January 26, 2014	1,488	\$24.01	*	*
January 27, 2014 through February 23, 2014	—	—	*	*
February 24, 2014 through March 30, 2014	16,985	26.21	*	*
Total	18,473		*	*

*These amounts are not applicable as we do not have a share repurchase program in effect.

(1) Common stock purchased during the thirteen weeks ended March 30, 2014 represented shares which were withheld for tax payments due upon the vesting of employee restricted stock awards.
