NOTE ABOUT FORWARD-LOOKING STATEMENTS

Statements in this quarterly report on Form 10-Q that are not historical facts may constitute “forward-looking statements,” including any statements about our expectations, beliefs, plans, predictions, forecasts, objectives, assumptions or future events or performance. These statements are often, but not always, made through the use of words or phrases such as “anticipate,” “believes,” “can,” “could,” “may,” “predicts,” “potential,” “should,” “will,” “estimate,” “projects,” “continuing,” “ongoing,” “expects,” “intends” and similar words or phrases. These statements are only predictions and involve estimates, known and unknown risks, assumptions and uncertainties that could cause actual results to differ materially from those expressed in such statements, including as a result of the following factors, among others:

- our inability to make acquisitions of, or lease, aircraft on favorable terms;
- our inability to sell aircraft on favorable terms or to predict the timing of such sales;
- our inability to obtain additional financing on favorable terms, if required, to complete the acquisition of sufficient aircraft as currently contemplated or to fund the operations and growth of our business;
- our inability to effectively oversee our managed fleet;
 - our inability to obtain refinancing prior to the time our debt matures;
- impaired financial condition and liquidity of our lessees;
 - deterioration of economic conditions in the commercial aviation industry generally;
- increased maintenance, operating or other expenses or changes in the timing thereof;
- changes in the regulatory environment, including tariffs and other restrictions on trade;
- unanticipated impacts of the Tax Cuts and Jobs Act of 2017 (the “Tax Reform Act”), including as a result of changes in assumptions we make in our interpretation of the Tax Reform Act, guidance related to application of the Tax Reform Act that may be issued in the future, and actions that we may take as a result of our expected impact of the Tax Reform Act;

Edgar Filing: AIR LEASE CORP - Form 10-Q

- potential natural disasters and terrorist attacks and the amount of our insurance coverage, if any, relating thereto; and
- the factors discussed under “Part I — Item 1A. Risk Factors,” in our Annual Report on Form 10-K for the year ended December 31, 2017, and other SEC filings.

All forward-looking statements are necessarily only estimates of future results, and there can be no assurance that actual results will not differ materially from expectations. You are therefore cautioned not to place undue reliance on such statements. Any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Company Background and Overview

Air Lease Corporation (the “Company”, “ALC”, “we”, “our” or “us”) is a leading aircraft leasing company that was founded by aircraft leasing industry pioneer, Steven F. Udvar-Házy. We are principally engaged in purchasing new commercial jet transport aircraft directly from aircraft manufacturers, such as The Boeing Company (“Boeing”) and Airbus S.A.S. (“Airbus”), and leasing those aircraft to airlines throughout the world with the intention to generate attractive returns on equity. In addition to our leasing activities, we sell aircraft from our operating lease portfolio to third parties, including other leasing companies, financial services companies and airlines. We also provide fleet management services to investors and owners of aircraft portfolios for a management fee. As of June 30, 2018, we owned a fleet of 271 aircraft, managed 49 aircraft and had 391 aircraft on order with aircraft manufacturers.

Note 2. Basis of Preparation and Critical Accounting Policies

The Company consolidates financial statements of all entities in which we have a controlling financial interest, including the accounts of any Variable Interest Entity in which we have a controlling financial interest and for which we are the primary beneficiary. All material intercompany balances are eliminated in consolidation. The accompanying Consolidated Financial Statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements.

The accompanying unaudited consolidated financial statements include all adjustments, including only normal, recurring adjustments, which are in the opinion of management, necessary to present fairly the Company’s financial position, results of operations and cash flows at June 30, 2018, and for all periods presented. The results of operations for the three and six months ended June 30, 2018 are not necessarily indicative of the operating results expected for the year ending December 31, 2018. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2017.

Maintenance Rights

For the six months ended June 30, 2018, the Company purchased nine aircraft in the secondary market, two of which were subject to existing leases. The total cost for the two aircraft was \$73.3 million, which included maintenance right assets of \$13.2 million. The Company did not purchase any aircraft in the secondary market subject to existing leases for the year ended December 31, 2017. As of June 30, 2018 and December 31, 2017, the Company had maintenance right assets, net of accumulated amortization of \$55.6 million and \$44.6 million, respectively. Maintenance right assets are included under flight equipment subject to operating lease in our Consolidated Balance Sheets.

Cash, cash equivalents and restricted cash

The Company considers cash and cash equivalents to be cash on hand and highly liquid investments with original maturity dates of 90 days or less. Restricted cash consists of pledged security deposits, maintenance reserves, and rental payments related to secured aircraft financing arrangements.

Table of Contents

The following table reconciles cash, cash equivalents and restricted cash reported in our consolidated balance sheets to the total amount presented in our consolidated statements of cash flows (in thousands):

	June 30, 2018 (unaudited)	June 30, 2017
Cash and cash equivalents	\$ 259,530	\$ 239,710
Restricted cash	21,528	22,239
Total cash, cash equivalents and restricted cash in the consolidated statements of cash flows	\$ 281,058	\$ 261,949

Reclassifications

Certain reclassifications have been made in the 2017 consolidated financial statements to conform to the classifications in 2018.

Recently adopted accounting standards

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09 (“ASU 2014-09”), “Revenue from Contracts with Customers (Topic 606).” The amendments in ASU 2014-09 supersede current revenue recognition requirements. The guidance specifically notes that lease contracts are a scope exception. ASU 2014-09 requires entities to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. Further, the guidance requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

Effective January 1, 2018, the Company adopted ASU 2014-09 using the modified retrospective approach. Adopting this standard did not have a material impact to our consolidated financial statements and related disclosures. As the standard did not apply to lease contracts within the scope of FASB Accounting Standard Codification (“ASC”) 840 Leases, we evaluated the recognition of gains on sale of flight equipment under the scope of the new standard. Under ASU 2014-09, a performance obligation is satisfied and the related revenue recognized when control of the underlying goods or services related to the performance obligation is transferred to the customer. Our performance obligation associated with the sale of flight equipment is satisfied upon delivery of the flight equipment to a customer, which is the point in time where control of the underlying flight equipment has transferred to the buyer. At the time flight equipment is retired or sold, the cost and accumulated depreciation are removed from the related accounts and the difference, net of transaction price, is recorded as a gain or loss. Since there was no net income impact upon adoption of the new guidance, a cumulative effect adjustment to opening retained earnings was not deemed necessary.

In August 2016, the FASB issued ASU No. 2016-15 (“ASU 2016-15”), “Statement of Cash Flows (Topic 230).” The amendments in ASU 2016-15 address eight classification issues related to the statement of cash flows. The Company adopted ASU 2016-15 using the retrospective transition method. The adoption of this standard did not have an impact on the current period or prior period consolidated financial statements.

In November 2016, FASB issued ASU No. 2016-18 (“ASU 2016-18”), “Statement of Cash Flows (Topic 230): Restricted Cash.” ASU 2016-18 requires entities to present the aggregate changes in cash, cash equivalents, restricted cash and restricted cash equivalents in the statement of cash flows. In addition, when cash, cash equivalents, restricted cash and restricted cash equivalents are presented in more than one line item on the balance sheet, ASU 2016-18 requires a reconciliation of the totals in the statement of cash flows to the related captions on the balance sheet. The Company adopted ASU 2016-18 retrospectively as of January 1, 2018. The adoption of this standard did not have a material impact on the current period or prior period consolidated financial statements.

Table of Contents

Note 3.Recently Issued Accounting Standards

In February 2016, FASB issued ASU No. 2016-02 (“ASU 2016-02”), Leases (Topic 842). The amendments in ASU 2016-02 set out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. In July 2018, the FASB issued ASU 2018-10, Codification Improvements to Topic 842, which provides narrow amendments to clarify how to apply certain aspects of the new lease standard. Both standards will be effective for annual reporting periods beginning after December 15, 2018 for public entities and is required to be applied using the modified retrospective transition approach. Early adoption is permitted. Based on our initial evaluation of the guidance, we noted that Lessor accounting is similar to the current model but the guidance will impact us in scenarios where we are the Lessee. We do not expect the impact of this standard to have a material impact on our consolidated financial statements. We will adopt the standard on January 1, 2019.

-
- (1) Our Airbus A320/321neo aircraft orders include 55 long-range variants.
- (2) In August 2018, we entered into an agreement to purchase up to 78 Boeing Aircraft, including 75 737-8 MAX aircraft and three 787-9 aircraft. Of the 78 aircraft commitments, 30 737-8 MAX aircraft and three 787-9 aircraft are firm commitments and are included in our order book total.

Airbus has informed us to expect several month delivery delays relating to certain aircraft scheduled for delivery in 2018 and 2019. The delays have been reflected in our commitment schedules above; however, we anticipate additional delivery delays not currently reflected in the schedules above. Our leases contain lessee cancellation clauses related to aircraft delivery delays, typically for aircraft delays greater than one year. Our purchase agreements contain similar clauses. As of August 9, 2018, none of our lease contracts were subject to cancellation.

Table of Contents

Commitments for the acquisition of these aircraft and other equipment at an estimated aggregate purchase price (including adjustments for inflation) of approximately \$27.8 billion at June 30, 2018, as adjusted for the order referenced in footnote 2 in the table above, are as follows (in thousands):

Years ending December 31,	
2018	\$ 2,465,306
2019	6,151,512
2020	5,493,536
2021	5,808,153
2022	5,210,440
Thereafter	2,714,769
Total	\$ 27,843,716

We have made non-refundable deposits on the aircraft for which we have commitments to purchase of \$1.6 billion as of June 30, 2018 and December 31, 2017, which are subject to manufacturer performance commitments. If we are unable to satisfy our purchase commitments, we may be forced to forfeit our deposits. Further, we would be exposed to breach of contract claims by our lessees and manufacturers.

As of June 30, 2018, as adjusted for the order referenced in footnote 2 in the table above, the Company had non-binding commitments to acquire up to five Airbus A350-1000 aircraft and 45 Boeing 737-8 MAX aircraft. Deliveries of these aircraft are scheduled to commence in 2023 and continue through 2024.

Note 6. Net Earnings Per Share

Basic net earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock; however, potential common equivalent shares are excluded if the effect of including these shares would be anti-dilutive. The Company's two classes of common stock, Class A and Class B Non-Voting, have equal rights to dividends and income, and therefore, basic and diluted earnings per share are the same for each class of common stock. As of June 30, 2018, we did not have any Class B Non-Voting common stock outstanding.

Diluted net earnings per share takes into account the potential conversion of stock options, restricted stock units, and warrants using the treasury stock method and convertible notes using the if-converted method. For the three and six months ended June 30, 2018, the Company did not exclude any potentially dilutive securities, whose effect would have been anti-dilutive, from the computation of diluted earnings per share. The Company excluded 951,878 and 1,086,653 shares related to restricted stock units for which the performance metric had yet to be achieved as of June

30, 2018 and 2017, respectively.

Note 7.Fair Value Measurements

Assets and Liabilities Measured at Fair Value on a Recurring and Non-recurring Basis

The Company had no assets or liabilities which are measured at fair value on a recurring or non-recurring basis as of June 30, 2018 or December 31, 2017.

Financial Instruments Not Measured at Fair Value

The fair value of debt financing is estimated based on the quoted market prices for the same or similar issues, or on the current rates offered to the Company for debt of the same remaining maturities, which would be categorized as a Level 2 measurement in the fair value hierarchy. The estimated fair value of debt financing as of June 30, 2018 was approximately \$10.9 billion compared to a book value of \$11.1 billion. The estimated fair value of debt financing as of December 31, 2017 was \$10.0 billion compared to a book value of \$9.8 billion.

The following financial instruments are not measured at fair value on the Company's consolidated balance sheet at June 30, 2018, but require disclosure of their fair values: cash and cash equivalents and restricted cash. The estimated fair value of such instruments at June 30, 2018 and December 31, 2017 approximates their carrying value as reported on the consolidated balance sheet. The fair value of all these instruments would be categorized as Level 1 in the fair value hierarchy.

Note 8. Stock-based Compensation

On May 7, 2014, the stockholders of the Company approved the Air Lease Corporation 2014 Equity Incentive Plan (the "2014 Plan"). Upon approval of the 2014 Plan, no new awards may be granted under the Amended and Restated 2010 Equity Incentive Plan (the "2010 Plan"). As of June 30, 2018, the number of stock options ("Stock Options") and restricted stock units ("RSUs") remaining under the 2014 Plan is approximately 5,608,176, which includes 608,176 shares which were previously reserved for issuance under the 2010 Plan. Stock Options are generally granted for a term of 10 years and generally vest over a three year period. The Company has issued RSUs with four different vesting criteria: those RSUs that vest based on the attainment of book value goals, those RSUs that vest based on the attainment of Total Shareholder Return ("TSR") goals, time based RSUs that vest ratably over a time period of three years and RSUs that cliff-vest at the end of a one or two year period. The Company has two types of book value RSUs — those that vest ratably over three years if the performance condition has been met, and those that vest at the end of a three-year period if the performance condition has been met. For the book value RSUs that vest at the end of the three-year period,

Table of Contents

the number of shares that will ultimately vest will range from 0% to 200% of the RSUs initially granted depending on the percentage change in the Company's book value per share at the end of the vesting period. At each reporting period, the Company reassesses the probability of the performance condition being achieved and expense is recognized based upon management's assessment. Book value RSUs for which the performance metric has not been met are forfeited. The TSR RSUs vest at the end of a three-year period. The number of TSR RSUs that will ultimately vest is based upon the percentile ranking of the Company's TSR among a peer group. The number of shares that will ultimately vest will range from 0% to 200% of the RSUs initially granted depending on the extent to which the TSR metric is achieved.

The Company recorded \$4.9 million and \$5.3 million of stock-based compensation expense related to RSUs for the three months ended June 30, 2018 and 2017, respectively. The Company recorded \$8.3 million and \$9.1 million of stock-based compensation expense related to RSUs for the six months ended June 30, 2018 and 2017, respectively.

Stock Options

A summary of stock option activity for the six month period ended June 30, 2018 follows:

	Shares	Exercise Price	Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)(1)
Balance at December 31, 2017	2,858,158	\$ 20.37	2.49	\$ 79,230
Granted	—	\$ —	—	\$ —
Exercised	(206,363)	\$ 20.00	—	\$ 4,903
Forfeited/canceled	—	\$ —	—	\$ —
Balance at June 30, 2018	2,651,795	\$ 20.40	1.99	\$ 57,204
Vested and exercisable as of June 30, 2018	2,651,795	\$ 20.40	1.99	\$ 57,204

(1) The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the closing stock price of our Class A common stock as of the respective date.

As of June 30, 2018, all of the Company's outstanding employee stock options had fully vested and there were no unrecognized compensation costs related to outstanding stock options as of June 30, 2018. As a result, there was no stock-based compensation expense related to Stock Options for the three and six months ended June 30, 2018 and 2017.

The following table summarizes additional information regarding exercisable and vested stock options at June 30, 2018:

Range of exercise prices	Stock Options Exercisable and Vested	
	Number of Shares	Weighted- Average Remaining Life (in years)
\$20.00	2,531,795	1.95
\$28.80	120,000	2.82
\$20.00 - \$28.80	2,651,795	1.99

Restricted Stock Units

Compensation cost for stock awards is measured at the grant date based on fair value and recognized over the vesting period. The fair value of time based and book value RSUs is determined based on the closing market price of the Company's Class A common stock on the date of grant, while the fair value of TSR RSUs is determined at the grant date using a Monte Carlo simulation model. Included in the Monte Carlo simulation model were certain assumptions regarding a number of highly complex and subjective variables, such as expected volatility, risk-free interest rate and expected dividends. To appropriately value the award, the risk-free interest rate is estimated for the time period from the valuation date until the vesting date and the historical volatilities were estimated based on a historical timeframe equal to the time from the valuation date until the end date of the performance period.

Table of Contents

During the six months ended June 30, 2018, the Company granted 379,480 RSUs of which 90,761 are TSR RSUs. The following table summarizes the activities for our unvested RSUs for the six months ended June 30, 2018:

	Unvested Restricted Stock Units	
		Weighted-Average Grant-Date Fair Value
	Number of Shares	
Unvested at December 31, 2017	1,163,700	\$ 40.24
Granted	379,480	\$ 47.26
Vested	(401,959)	\$ 42.48
Forfeited/canceled	(35,089)	\$ 47.83
Unvested at June 30, 2018	1,106,132	\$ 41.60
Expected to vest after June 30, 2018	1,142,464	\$ 41.64

The Company recorded \$4.9 million and \$5.3 million of stock-based compensation expense related to RSUs for the three months ended June 30, 2018 and 2017, respectively. The Company recorded \$8.3 million and \$9.1 million of stock-based compensation expense related to RSUs for the six months ended June 30, 2018 and 2017, respectively.

As of June 30, 2018, there was \$27.2 million of unrecognized compensation cost related to unvested stock-based payments granted to employees. Total unrecognized compensation cost will be recognized over a weighted-average remaining period of 2.01 years.

Note 9. Investments

On November 4, 2014, a wholly owned subsidiary of the Company entered into an agreement with a co-investment vehicle arranged by Napier Park Global Capital (US) LP (“Napier Park”) to participate in a joint venture and formed Blackbird Capital I, LLC (“Blackbird I”) for the purpose of investing in commercial aircraft and leasing them to airlines around the globe. We provide management services to the joint venture for a fee based upon aircraft assets under management. The Company’s non-controlling interest in Blackbird I is 9.5% and it is accounted for as an investment under the equity method of accounting. The Company’s investment in Blackbird I was \$33.8 million and \$32.3 million as of June 30, 2018 and December 31, 2017, respectively, and is recorded in other assets on the Consolidated Balance Sheets.

On August 1, 2017, a wholly owned subsidiary of the Company entered into an agreement with a co-investment vehicle arranged by Napier Park to participate in a joint venture and formed Blackbird Capital II, LLC (“Blackbird II”) for the purpose of investing in commercial aircraft and leasing them to airlines around the globe. We provide management services to the joint venture for a fee based upon aircraft assets under management. The Company’s

non-controlling interest in Blackbird II is 9.5% and it is accounted for as an investment under the equity method of accounting. The Company's investment in Blackbird II was \$3.4 million and \$3.3 million as of June 30, 2018 and December 31, 2017, respectively, and is recorded in other assets on the Consolidated Balance Sheets. As of August 9, 2018, the Company's total unfunded commitment to Blackbird II was \$34.7 million.

Note 10.Subsequent Events

On August 1, 2018, we entered into an agreement to sell 18 aircraft to Thunderbolt Aircraft Lease Limited II ("Thunderbolt II"), an asset-backed securities platform which will facilitate the sale and continued management of aircraft assets to investors. The Company's non-controlling interest in Thunderbolt II is 5.1% and it is accounted for as an investment under the cost method of accounting. All of the aircraft in Thunderbolt II's portfolio will be managed by the Company. As of August 1, 2018, all 18 aircraft, with a carrying value of \$546.8 million, were classified as held for sale and included in flight equipment subject to operating leases on the Consolidated Balance Sheet. We expect a majority of the aircraft sales to be completed by the end of the fourth quarter of 2018.

On August 8, 2018, our board of directors approved a quarterly cash dividend of \$0.10 per share on our outstanding common stock. The dividend will be paid on October 5, 2018 to holders of record of our common stock as of September 14, 2018.

ITEM 2.MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Overview

Air Lease Corporation is a leading aircraft leasing company that was founded by aircraft leasing industry pioneer, Steven F. Udvar-Házy. We are principally engaged in purchasing new commercial jet transport aircraft directly from aircraft manufacturers, such as Boeing and Airbus, and leasing those aircraft to airlines throughout the world with the intention to generate attractive returns on equity. In addition to our leasing activities, we sell aircraft from our operating lease portfolio to third-parties, including other leasing companies, financial services companies and airlines. We also provide fleet management services to investors and owners of aircraft portfolios for a management fee. Our operating performance is driven by the growth of our fleet, the terms of our leases, the interest rates on our debt, and the aggregate amount of our indebtedness, supplemented by the gains from our aircraft sales and trading activities and our management fees.

During the six months ended June 30, 2018, we purchased and took delivery of 18 aircraft from our new order pipeline and purchased nine incremental aircraft, ending the period with a total of 271 aircraft with a net book value of \$14.9 billion. The weighted average lease term remaining on our operating lease portfolio was 6.8 years and the weighted average age of our fleet was 3.8 years as of June 30, 2018. Our fleet grew by 11.9% based on net book value of \$14.9 billion as of June 30, 2018 compared to \$13.3 billion as of December 31, 2017. In addition, we had a managed fleet of 49 aircraft as of June 30, 2018, compared to a managed fleet of 50 aircraft as of December 31, 2017. We have a globally diversified customer base comprised of 93 airlines in 56 countries. As of June 30, 2018, all of our aircraft in our operating lease portfolio were subject to lease agreements.

In August 2018, we entered into an agreement with Boeing to purchase up to 78 Boeing airplanes, including 75 737-8 MAX and three 787-9 aircraft. The three 787-9 aircraft and 30 737-8 MAX aircraft are firm purchases as of August 9, 2018. As of June 30, 2018, as adjusted for the firm purchases referenced above, we had commitments to purchase 391 aircraft from Airbus and Boeing for delivery through 2024, with an estimated aggregate commitment of \$27.8 billion. We ended the second quarter of 2018 with \$25.0 billion in committed minimum future rental payments and placed 87% of our order book on long-term leases for aircraft delivering through 2020. This includes \$11.3 billion in contracted minimum rental payments on the aircraft in our existing fleet and \$13.7 billion in minimum future rental payments related to aircraft which will be delivered during the remainder of 2018 through 2022.

On August 1, 2018, we entered into an agreement to sell 18 aircraft to Thunderbolt Aircraft Lease Limited II (“Thunderbolt II”), an asset-backed securities platform which will facilitate the sale and continued management of aircraft assets to investors. Our non-controlling interest in Thunderbolt II is 5.1%. All of the aircraft in Thunderbolt II's portfolio will be managed by us. As of August 1, 2018, all 18 aircraft, with a carrying value of \$546.8 million, were classified as held for sale and included in flight equipment subject to operating leases on our consolidated balance sheet. We expect a majority of the aircraft sales to be completed by the end of the fourth quarter of 2018.

In 2018, we have issued a total of \$1.75 billion in aggregate principal amount of senior unsecured notes with maturity dates ranging between 2021 and 2025 and bearing interest at fixed rates ranging from 2.5% to 3.875%. In May 2018, we amended and extended our unsecured revolving credit facility whereby, among other things, we increased the total revolving commitments to approximately \$4.5 billion and extended the final maturity date to May 5, 2022. Borrowings under our unsecured revolving credit facility will bear interest at LIBOR plus a margin of 1.05% per year. We ended the second quarter of 2018 with total debt outstanding, net of discounts and issuance costs, of \$11.0 billion, of which 86.6% was at a fixed rate and 95.8% of which was unsecured. Our composite cost of funds increased to 3.32% as of June 30, 2018 from 3.20% as of December 31, 2017.

Our total revenues for the quarter ended June 30, 2018 increased by 4.4% to \$397.8 million, compared to the quarter ended June 30, 2017. The increase in our revenues is primarily due to the increase in the net book value of our operating lease portfolio. Our net income for the quarter ended June 30, 2018 was \$115.2 million compared to \$100.9 million for the quarter ended June 30, 2017. Our diluted earnings per share for the quarter ended June 30, 2018 was \$1.04 compared

Table of Contents

to \$0.92 for the quarter ended June 30, 2017. The increase in net income in the second quarter of 2018 as compared to 2017 was primarily due to a lower income tax expense as a result of the U.S. Tax Cuts and Jobs Act (the “Tax Reform Act”), which, among other things, lowered the corporate tax rate from 35% to 21% effective January 1, 2018.

Our adjusted net income before income taxes excludes the effects of certain non-cash items, one-time or non-recurring items, that are not expected to continue in the future and certain other items. Our adjusted net income before income taxes for the three months ended June 30, 2018 was \$160.3 million or \$1.44 per diluted share, compared to \$166.7 million or \$1.51 per diluted share for the three months ended June 30, 2017. As we did not sell any aircraft in the second quarter of 2018, our adjusted net income before income taxes decreased as compared to the second quarter of 2017. Our adjusted margin before income taxes for the three months ended June 30, 2018 was 40.3% compared to 43.9% for the three months ended June 30, 2017. Adjusted net income before income taxes, adjusted margin before income taxes and adjusted diluted earnings per share before income taxes are measures of financial and operational performance that are not defined by GAAP. See Note 1 under the “Results of Operations” table for a discussion of adjusted net income before income taxes, adjusted margin before income taxes and adjusted diluted earnings per share before income taxes as non-GAAP measures and reconciliation of these measures to net income.

Our Fleet

Portfolio metrics of our fleet as of June 30, 2018 and December 31, 2017 are as follows:

Total(2)	25	84	72	78	77	55	391

(1) Our Airbus A320/321neo aircraft orders include 55 long-range variants.

(2) In August 2018, we entered into an agreement to purchase up to 78 Boeing Aircraft, including 75 737-8 MAX aircraft and three 787-9 aircraft. Of the 78 aircraft commitments, 30 737-8 MAX aircraft and three 787-9 aircraft are firm commitments and are included in our order book total.

Airbus has informed us to expect several month delivery delays relating to certain aircraft scheduled for delivery in 2018 and 2019. The delays have been reflected in our commitment schedules above; however, we anticipate additional delivery delays not currently reflected in the schedules above. Our leases contain lessee cancellation clauses related to aircraft delivery delays, typically for aircraft delays greater than one year. Our purchase agreements contain similar clauses. As of August 9, 2018, none of our lease contracts were subject to cancellation.

As of June 30, 2018, as adjusted for the order referenced in footnote 2 in the table above, we had non-binding commitments to acquire up to five Airbus A350-1000 aircraft and 45 Boeing 737-8 MAX aircraft. Deliveries of these aircraft are scheduled to commence in 2023 and continue through 2024.

Table of Contents

Our lease placements are progressing in line with expectations. As of June 30, 2018 and through August 9, 2018, we have entered into contracts for the lease of new aircraft scheduled to be delivered as follows:

Delivery Year	Number of Aircraft	Number Leased	% Leased	
2018	25	25	100.0	%
2019	84	84	100.0	%
2020	72	48	66.7	%
2021	78	15	19.2	%
2022	77	9	11.7	%

Aircraft industry and sources of revenues

Our revenues are principally derived from operating leases with scheduled and charter airlines. In each of the last four calendar years, we derived more than 95% of our revenues from airlines domiciled outside of the U.S., and we anticipate that most of our revenues in the future will be generated from foreign customers.

Demand for air travel has consistently grown in terms of both passenger traffic and number of aircraft in service. The International Air Transport Association (“IATA”) reported passenger traffic up 7.6% year over year in 2017, exceeding the 10-year average annual growth rate. For the first six months of 2018, global revenue passenger kilometers grew 7.0% year-on-year. The number of aircraft in service has grown steadily and the number of leased aircraft in the global fleet has increased. The long term outlook for aircraft demand remains robust due to increased passenger traffic and the need to replace aging aircraft.

The success of the commercial airline industry is linked to the strength of global economic development, which may be negatively impacted by macroeconomic conditions and geopolitical and policy risks. Nevertheless, across a variety of global economic conditions, the leasing industry has remained resilient over time. We remain optimistic about the long term growth prospects for air transportation. We see a growing demand for aircraft leasing in the broader industry and a role for us in helping airlines modernize their fleets to support the growth of the airline industry. However, with the growth in aircraft leasing worldwide, we are witnessing an increase in competition among aircraft lessors resulting in more variation in lease rates.

Liquidity and Capital Resources

Overview

We finance the purchase of aircraft and our business with available cash balances, internally generated funds, including aircraft sales and trading activity, and debt financings. We have structured ourselves with the goal to maintain investment-grade credit metrics and our debt financing strategy has focused on funding our business on an unsecured basis. Unsecured financing provides us with operational flexibility when selling or transitioning aircraft from one airline to another. In addition, we may, to a limited extent, utilize export credit financing in support of our new aircraft deliveries.

We ended the second quarter of 2018 with total debt outstanding, net of discounts and issuance costs, of \$11.0 billion compared to \$9.7 billion as of December 31, 2017. Our unsecured debt increased to \$10.6 billion as of June 30, 2018 from \$9.3 billion as of December 31, 2017. Our unsecured debt as a percentage of total debt increased to 95.8% as of June 30, 2018 from 94.6% as of December 31, 2017.

We increased our cash flows from operations by 18.1% or \$90.0 million, to \$588.0 million for the six months ended June 30, 2018 as compared to \$498.0 million for the six months ended June 30, 2017. Our cash flow used in investing activities was \$1,903.7 million for the six months ended June 30, 2018, which resulted primarily from the purchase of aircraft. Our cash flow provided by financing activities was \$1,288.5 million for the six months ended June 30, 2018, which resulted primarily from the issuance of unsecured notes during the first half of 2018, partially offset by the repayment of outstanding debt.

Table of Contents

We ended the second quarter of 2018 with available liquidity of \$3.8 billion which is comprised of unrestricted cash of \$259.5 million and undrawn balances under our unsecured revolving credit facility of \$3.6 billion. We believe that we have sufficient liquidity to satisfy the operating requirements of our business through the next twelve months.

Our financing plan for the remainder of 2018 is focused on funding the purchase of aircraft and our business with available cash balances, internally generated funds, including aircraft sales and trading activities, and debt financings. Our debt financing plan will remain focused on continuing to raise unsecured debt in the global bank and investment grade capital markets. In addition, we may utilize, to a limited extent, export credit financing in support of our new aircraft deliveries.

We are in compliance in all material respects with all covenants or other requirements in our debt agreements. While a ratings downgrade would not result in a default under any of our debt agreements, it could adversely affect our ability to issue debt and obtain new financings, or renew existing financings, and it would increase the cost of certain financings. Our liquidity plans are subject to a number of risks and uncertainties, including those described in our Annual Report on Form 10-K for the year ended December 31, 2017.

Debt

Our debt financing was comprised of the following at June 30, 2018 and December 31, 2017 (in thousands, except percentages):

	June 30, 2018	December 31, 2017

Senior unsecured notes

As of June 30, 2018, we had \$9.3 billion in senior unsecured notes outstanding. As of December 31, 2017, we had \$8.0 billion in senior unsecured notes outstanding.

In June 2018, we issued \$500.0 million in aggregate principal amount of senior unsecured notes due 2023 that bear interest at a rate of 3.875%.

In January 2018, we issued (i) \$550.0 million in aggregate principal amount of senior unsecured notes due 2021 that bear interest at a rate of 2.50% and (ii) \$700.0 million in aggregate principal amount of senior unsecured notes due 2025 that bear interest at a rate of 3.25%.

Unsecured revolving credit facility

In May 2018, we amended and extended our unsecured revolving credit facility whereby, among other things, we extended the final maturity date from May 5, 2021 to May 5, 2022 and increased the total revolving commitments to approximately \$4.5 billion from approximately \$4.1 billion with an interest rate of LIBOR plus 1.05% with a 0.20% facility fee. Lenders hold revolving commitments totaling approximately \$4.0 billion that mature on May 5, 2022, commitments totaling \$20.0 million that mature on May 5, 2021, commitments totaling approximately \$247.7 million that mature on May 5, 2020, and commitments totaling \$245.0 million that mature on May 5, 2019.

The total amount outstanding under our unsecured revolving credit facility was approximately \$956.0 million and \$847.0 million as of June 30, 2018 and December 31, 2017, respectively.

Credit ratings

Our investment-grade credit ratings help us to lower our cost of funds and broaden our access to attractively priced capital.

In July 2018, Fitch Ratings reaffirmed its issuer and senior unsecured debt ratings and outlook. The following table summarizes our current credit ratings:

Rating Agency	Long-term Debt	Corporate Rating	Outlook	Date of Last Ratings Action
Kroll Bond Ratings	A–	A–	Stable	December 15, 2017
Standard and Poor's	BBB	BBB	Stable	November 12, 2017
Fitch Ratings	BBB	BBB	Stable	July 17, 2018

While a ratings downgrade would not result in a default under any of our debt agreements, it could adversely affect our ability to issue debt and obtain new financings, or renew existing financings, and it would increase the cost of our financings.

(1) Adjusted net income before income taxes (defined as net income excluding the effects of certain non-cash items, one-time or non-recurring items that are not expected to continue in the future and certain other items), adjusted margin before income taxes (defined as adjusted net income before income taxes divided by total revenues excluding insurance recovery on settlement) and adjusted diluted earnings per share before income taxes (defined as adjusted net income before income taxes divided by the weighted average diluted common shares outstanding)

are measures of operating performance that are not defined by GAAP and should not be considered as an alternative to net income, pre-tax profit margin, earnings per share, and diluted earnings per share, or any other performance measures derived in accordance with GAAP. Adjusted net income before income taxes, adjusted margin before income taxes and adjusted diluted earnings per share before income taxes, are presented as supplemental disclosure because management believes they provide useful information on our earnings from ongoing operations.

Management and our board of directors use adjusted net income before income taxes, adjusted margin before income taxes and adjusted diluted earnings per share before income taxes to assess our consolidated financial and operating performance. Management believes these measures are helpful in evaluating the operating performance of our ongoing operations and identifying trends in our performance, because they remove the effects of certain non-cash items, one-time or non-recurring items that are not expected to continue in the future and certain other items from our operating results. Adjusted net income before income taxes, adjusted margin before income taxes and adjusted diluted earnings per share before income taxes, however, should not be considered in isolation or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Adjusted net income before income taxes, adjusted margin before income taxes and adjusted diluted earnings per share before income taxes do not reflect our cash expenditures or changes in our cash requirements for our working capital needs. In addition, our calculation of adjusted net income before income taxes, adjusted margin before income taxes and adjusted diluted earnings per share before income taxes may differ from the adjusted net income before income taxes, adjusted

Rental revenue

As of June 30, 2018, we owned 271 aircraft with a net book value of \$14.9 billion and recorded \$393.5 million in rental revenue for the quarter then ended, which included \$1.8 million in amortization expense related to initial direct costs, which is net of overhaul revenue. In the prior year, as of June 30, 2017, we owned 240 aircraft with a net book value of \$12.7 billion and recorded \$358.1 million in rental revenue for the quarter ended June 30, 2017, which included \$2.2 million in amortization expense related to initial direct costs, which is net of overhaul revenue. The increase in rental revenue was primarily due to the increase in net book value of our operating lease portfolio to \$14.9 billion as of June 30, 2018 from \$12.7 billion as of June 30, 2017.

Table of Contents

Aircraft sales, trading and other revenue

Aircraft sales, trading and other revenue totaled \$4.3 million for the three months ended June 30, 2018 compared to \$22.8 million for the three months ended June 30, 2017. During the quarter ended June 30, 2018, we did not sell any aircraft from our operating lease portfolio. During the quarter ended June 30, 2017, we sold 17 aircraft from our operating lease portfolio. In addition, we received insurance proceeds of \$1.0 million during the quarter ended June 30, 2017 in connection with a litigation settlement.

Interest expense

Interest expense totaled \$81.5 million for the three months ended June 30, 2018 compared to \$69.5 million for the three months ended June 30, 2017. The increase was primarily due to an increase in our aggregate debt balance and an increase in our composite cost of funds. We expect that our interest expense will increase as our average debt balance outstanding continues to increase. Interest expense will also be impacted by changes in our composite cost of funds.

Depreciation expense

We recorded \$142.6 million in depreciation expense of flight equipment for the three months ended June 30, 2018 compared to \$126.5 million for the three months ended June 30, 2017. The increase in depreciation expense for the three months ended June 30, 2018, compared to the three months ended June 30, 2017, is primarily attributable to the acquisition of additional aircraft during the last twelve months.

Selling, general and administrative expenses

We recorded selling, general and administrative expenses of \$21.5 million for the three months ended June 30, 2018 compared to \$23.8 million for the three months ended June 30, 2017. Selling, general and administrative expense as a percentage of total revenue decreased to 5.4% for the three months ended June 30, 2018 compared to 6.3% for the three months ended June 30, 2017. As we continue to add new aircraft to our portfolio, we expect over the long-term, selling, general and administrative expense to decrease as a percentage of our revenue.

Taxes

The effective tax rate was 21.8% and 35.3% for the three months ended June 30, 2018 and 2017, respectively. The change in effective tax rate is primarily due to the impact of the Tax Reform Act. The Tax Reform Act significantly revised the U.S. corporate income tax law by, among other things, lowering the U.S. corporate tax rate from 35% to 21%, effective January 1, 2018.

Net income

For the three months ended June 30, 2018, we reported consolidated net income of \$115.2 million, or \$1.04 per diluted share, compared to a consolidated net income of \$100.9 million, or \$0.92 per diluted share, for the three months ended June 30, 2017. Net income increased in the second quarter of 2018 as compared to 2017, primarily due to the reduction of our tax expense resulting from the impact of the Tax Reform Act.

Adjusted net income before income taxes

For the three months ended June 30, 2018, we recorded adjusted net income before income taxes of \$160.3 million, or \$1.44 per diluted share, compared to an adjusted net income before income taxes of \$166.7 million, or \$1.51 per diluted share, for the three months ended June 30, 2017. As we did not sell any aircraft in the second quarter of 2018, our adjusted net income before income taxes decreased as compared to the second quarter of 2017.

Adjusted net income before income taxes and adjusted diluted earnings per share before income taxes are measures of financial and operational performance that are not defined by GAAP. See Note 1 under the “Results of Operations” table above for a discussion of adjusted net income before income taxes and adjusted diluted earnings per share before income taxes as non-GAAP measures and reconciliation of these measures to net income.

Rental revenue

As of June 30, 2018, we owned 271 aircraft with a net book value of \$14.9 billion and recorded \$771.3 million in rental revenue for the six months then ended, which included \$2.7 million in amortization expense related to initial direct costs, which is net of overhaul revenue. In the prior year, as of June 30, 2017, we owned 240 aircraft with a net book value of \$12.7 billion and recorded \$712.8 million in rental revenue for the six months ended June 30, 2017, which included overhaul revenue, net of amortization of initial direct costs, of \$2.7 million. The increase in rental revenue was primarily due to the increase in net book value of our operating lease portfolio to \$14.9 billion as of June 30, 2018 from \$12.7 billion as of June 30, 2017.

Aircraft sales, trading and other revenue

Aircraft sales, trading and other revenue totaled \$7.7 million for the six months ended June 30, 2018 compared to \$28.4 million for the six months ended June 30, 2017. During the six months ended June 30, 2018, we did not sell any aircraft from our operating lease portfolio. During the six months ended June 30, 2017, we sold 22 aircraft from our operating lease portfolio. In addition, we received insurance proceeds of \$1.0 million during the six months ended June 30, 2017 in connection with a litigation settlement.

Interest expense

Interest expense totaled \$158.4 million for the six months ended June 30, 2018 compared to \$145.5 million for the six months ended June 30, 2017. The increase was primarily due to an increase in our aggregate debt balance and an increase in our composite cost of funds. We expect that our interest expense will increase as our average debt balance outstanding continues to increase. Interest expense will also be impacted by changes in our composite cost of funds.

Depreciation expense

We recorded \$278.7 million in depreciation expense of flight equipment for the six months ended June 30, 2018 compared to \$250.4 million for the six months ended June 30, 2017. The increase in depreciation expense for the six months ended June 30, 2018, compared to the six months ended June 30, 2017, is primarily attributable to the acquisition of additional aircraft during the last twelve months.

Selling, general and administrative expenses

We recorded selling, general and administrative expenses of \$44.8 million for the six months ended June 30, 2018 compared to \$46.4 million for the six months ended June 30, 2017. Selling, general and administrative expense as a percentage of total revenue decreased to 5.8% for the six months ended June 30, 2018 compared to 6.3% for the six months ended June 30, 2017. As we continue to add new aircraft to our portfolio, we expect over the long-term, selling, general and administrative expense to decrease as a percentage of our revenue.

Taxes

The effective tax rate was 21.8% and 35.9% for the six months ended June 30, 2018 and 2017, respectively. The change in effective tax rate is primarily due to the impact of the Tax Reform Act. The Tax Reform Act significantly revised the U.S. corporate income tax law by, among other things, lowering the U.S. corporate tax rate from 35% to 21%, effective January 1, 2018.

Net income

For the six months ended June 30, 2018, we reported consolidated net income of \$225.9 million, or \$2.04 per diluted share, compared to a consolidated net income of \$185.9 million, or \$1.69 per diluted share, for the six months ended June 30, 2017. Net income increased in the first six months of 2018 as compared to 2017, primarily due to the reduction of our tax expense resulting from the impact of the Tax Reform Act.

Table of Contents

Adjusted net income before income taxes

For the six months ended June 30, 2018, we recorded adjusted net income before income taxes of \$313.1 million, or \$2.82 per diluted share, compared to an adjusted net income before income taxes of \$313.3 million, or \$2.84 per diluted share, for the six months ended June 30, 2017. As we did not sell any aircraft in the first six months of 2018, our adjusted net income before income taxes decreased as compared to the first six months of 2017.

Adjusted net income before income taxes and adjusted diluted earnings per share before income taxes are measures of financial and operational performance that are not defined by GAAP. See Note 1 under the “Results of Operations” table above for a discussion of adjusted net income before income taxes and adjusted diluted earnings per share before income taxes as non-GAAP measures and reconciliation of these measures to net income.

Contractual Obligations

Our contractual obligations as of June 30, 2018, except as noted in footnote 2 below, are as follows (in thousands):

	2018	2019	2020	2021	2022	Thereafter	Total
Long-term debt obligations	\$ 777,247	\$ 1,203,874	\$ 1,232,890	\$ 1,685,157	\$ 2,078,942	\$ 4,100,668	\$ 11,078,778

(1) Future interest payments on floating rate debt are estimated using floating rates in effect at June 30, 2018.

(2) In August 2018, we entered into an agreement to purchase up to 78 Boeing Aircraft, including 75 737-8 MAX aircraft and three 787-9 aircraft. Of the 78 aircraft commitments, 30 737-8 MAX aircraft and three 787-9 aircraft are firm commitments and are included in our purchase commitments total.

Off-Balance Sheet Arrangements

We have not established any unconsolidated entities for the purpose of facilitating off-balance sheet arrangements or for other contractually narrow or limited purposes. We have, however, from time to time established subsidiaries and created partnership arrangements or trusts for the purpose of leasing aircraft or facilitating borrowing arrangements, all of which are consolidated. We have investments in two joint ventures in which we own 9.5% of the equity of each joint venture. We account for our investment in these joint ventures using the equity method of accounting due to our level of influence and involvement in the joint ventures.

Critical Accounting Policies

Our critical accounting policies reflecting management's estimates and judgments are described in our Annual Report on Form 10-K for the year ended December 31, 2017. We have reviewed recently adopted accounting pronouncements and determined that the adoption of such pronouncements is not expected to have a material impact, if any, on our consolidated financial statements. Accordingly, there have been no material changes to critical accounting policies in the six months ended June 30, 2018.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of changes in value of a financial instrument, caused by fluctuations in interest rates and foreign exchange rates. Changes in these factors could cause fluctuations in our results of operations and cash flows. We are exposed to the market risks described below.

Interest Rate Risk

The nature of our business exposes us to market risk arising from changes in interest rates. Changes, both increases and decreases, in our cost of borrowing, as reflected in our composite interest rate, directly impact our net income. Our lease rental stream is generally fixed over the life of our leases, whereas we have used floating-rate debt to finance a significant portion of our aircraft acquisitions. As of June 30, 2018 and December 31, 2017, we had \$1.5 billion and \$1.4 billion in floating-rate debt outstanding, respectively. If interest rates increase, we would be obligated to make higher interest payments to our lenders. If we incur significant fixed-rate debt in the future, increased interest rates prevailing in the market at the time of the incurrence of such debt would also increase our interest expense. If our composite rate were to increase by 1.0%, we would expect to incur additional interest expense on our existing indebtedness of approximately \$14.8 million and \$14.3 million as of June 30, 2018 and December 31, 2017, respectively, each on an annualized basis, which would put downward pressure on our operating margins. Further, as of June 30, 2018, 86.6% of our total debt incurred interest at a fixed rate.

We also have interest rate risk on our forward lease placements. This is caused by us setting a fixed lease rate in advance of the delivery date of an aircraft. The delivery date is when a majority of the financing for an aircraft is arranged. We partially mitigate the risk of an increasing interest rate environment between the lease signing date and the delivery date of the aircraft by having interest rate adjusters in a majority of our forward lease contracts which would adjust the final lease rate upward if certain benchmark interest rates are higher at the time of delivery of the aircraft than at the lease signing date.

Foreign Exchange Rate Risk

We attempt to minimize currency and exchange risks by entering into aircraft purchase agreements and a majority of lease agreements and debt agreements with U.S. dollars as the designated payment currency. Thus, most of our revenue and expenses are denominated in U.S. dollars. As of June 30, 2018 and December 31, 2017, approximately 0.8% and 1.0% of our lease revenues were denominated in Euros, respectively. As our principal currency is the U.S. dollar, fluctuations in the U.S. dollar as compared to other major currencies should not have a significant impact on our future operating results.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission (“SEC”), and such information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer (collectively, the “Certifying Officers”), as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives as the Company’s controls are designed to do, and management necessarily was required to apply its judgment in evaluating the risk related to controls and procedures.

We have evaluated, under the supervision and with the participation of management, including the Certifying Officers, the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, as of June 30, 2018. Based on that evaluation, our Certifying Officers have concluded that our disclosure controls and procedures were effective at June 30, 2018.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Effective January 1, 2018, we implemented ASU 2014-09 and given its limited impact, we made certain revisions to existing controls to conform to the new five-step model provided in the revenue standard, including enhanced contract review requirements and other ongoing monitoring activities. These controls were designed to provide assurance at a reasonable level of the fair presentation of our consolidated financial statements and related disclosures.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we may be involved in litigation and claims incidental to the conduct of our business in the ordinary course. Our industry is also subject to scrutiny by government regulators, which could result in enforcement proceedings or litigation related to regulatory compliance matters. We are not presently a party to any enforcement proceedings or litigation related to regulatory compliance matters or material legal proceedings. We maintain insurance policies in amounts and with the coverage and deductibles we believe are adequate, based on the nature and risks of our business, historical experience and industry standards.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those discussed under “Part I—Item 1A. Risk Factors,” in our Annual Report on Form 10-K for the year ended December 31, 2017.
