TRIUMPH BANCORP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Triumph Bancorp, Inc. (collectively with its subsidiaries, “Triumph”, or the “Company” as applicable) is a financial holding company headquartered in Dallas, Texas. The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries Triumph Capital Advisors, LLC (“TCA”), Triumph CRA Holdings, LLC (“TCRA”), TBK Bank, SSB (“TBK Bank”), TBK Bank’s wholly owned subsidiary Advance Business Capital LLC, which currently operates under the d/b/a of Triumph Business Capital (“TBC”), and TBK Bank’s wholly owned subsidiary Triumph Insurance Group (“TIG”).

TBK Bank does business under the following names: (i) Triumph Community Bank (“TCB”) and Triumph Savings Bank (“TSB”) with respect to its community banking business in respective markets; (ii) Triumph Commercial Finance (“TCF”) with respect to its asset-based lending, equipment lending and general factoring commercial finance products; (iii) Triumph Healthcare Finance (“THF”) with respect to its healthcare asset-based lending business; and (iv) Triumph Premium Finance (“TPF”) with respect to its insurance premium financing business.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with United States Generally Accepted Accounting Principles (“GAAP”) for interim financial information and in accordance with guidance provided by the Securities and Exchange Commission. Accordingly, the condensed financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all normal and recurring adjustments considered necessary for a fair presentation. Transactions between the subsidiaries have been eliminated. These condensed consolidated financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. Operating results for the three months ended March 31, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016. The Company has four reportable segments consisting of Factoring, Banking, Asset Management, and Corporate. The Company’s Chief Executive Officer uses segment results to make operating and strategic decisions.

Newly Issued, But Not Yet Effective Accounting Standards

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in GAAP when it

becomes effective. The new standard was originally effective for the Company on January 1, 2017. However, in August 2015 the FASB issued ASU No. 2015-14, “Revenue from Contracts with Customers – Deferral of the Effective Date” which deferred the mandatory effective date the new standard would take effect to reporting periods beginning after December 15, 2017, with early adoption allowed as of the original effective date for public companies. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In January 2016, the FASB issued ASU No. 2016-01, “Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities” (“ASU 2016-01”). The guidance affects the accounting for equity investments, financial liabilities under the fair value option and the presentation and disclosure requirements of financial instruments. The guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is evaluating the effect that ASU 2016-01 will have on its consolidated financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, “Leases (Topic 842)” (“ASU 2016-02”). The FASB issued this ASU to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet by lessees for those leases classified as operating leases under current U.S. GAAP and disclosing key information about leasing arrangements. The amendments in this ASU are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. Early application of this ASU is permitted for all entities. The Company is currently assessing the impact that the adoption of this standard will have on the financial condition and results of operations of the Company.

In March 2016, the FASB issued ASU 2016-09, “Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting” (“ASU 2016-09”). The FASB issued this ASU to improve the accounting for share-based payments. ASU 2016-09 simplifies several aspects of the accounting for share-based payment award transactions, including: the presentation of income tax consequences, classification of awards as either equity or liabilities, classification on the statement of cash flows, and calculation of diluted earnings per share. The amendments in this ASU are effective for fiscal years beginning after December 31, 2016, and interim periods within those years for public business entities. Early adoption is permitted in any interim or annual period provided that the entire ASU is adopted. The Company is currently assessing the impact that the adoption of this standard will have on the financial condition and results of operations of the Company.

TRIUMPH BANCORP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 2 – Business combinations

ColoEast Bankshares, Inc.

On March 6, 2016, the Company entered into an agreement to acquire ColoEast Bankshares, Inc. (“ColoEast”) and its community banking subsidiary, Colorado East Bank & Trust, in an all-cash transaction for \$70,000,000. Consideration could be reduced to \$69,000,000 should ColoEast not achieve certain targets. ColoEast had total assets of \$759,000,000, total loans of \$453,000,000, and total deposits of \$664,000,000 as of December 31, 2015. Colorado East Bank & Trust offers personal checking, savings, CD, money market, HSA, IRA, NOW and business accounts, as well as consumer, commercial and mortgage loans from 18 branches and one loan production office located throughout Colorado and far western Kansas. The transaction, which is expected to close during the third quarter of 2016, is subject to customary closing conditions, including approval of the merger agreement by ColoEast shareholders and receipt of required regulatory approvals.

Doral Money Acquisition

On February 27, 2015, the Company entered into a Purchase and Sale Agreement with the Federal Deposit Insurance Corporation (“FDIC”), in its capacity as receiver of Doral Bank, to acquire 100% of the equity of Doral Money, Inc. (“DMI”), a subsidiary of Doral Bank, and the management contracts associated with two active collateralized loan obligations (“CLOs”) with approximately \$700,000,000 in assets under management. The consideration transferred in the acquisition consisted of cash paid at closing of \$133,263,000 and a sales price adjustment of \$2,601,000 which was accrued for at March 31, 2015 and settled on April 7, 2015, for total consideration transferred of \$135,864,000. The primary purpose of the acquisition was to expand the CLO assets under management at TCA.

On February 26, 2015, the Company entered into a \$99,975,000 secured term loan credit facility payable to a third party, with an interest rate equal to LIBOR plus 3.5%, and a maturity date of March 31, 2015. The proceeds from the loan were used by the Company to partially fund the DMI acquisition.

The acquisition was completed on March 3, 2015, at which time the Company also repaid the \$99,975,000 third party secured term loan credit facility in full by delivering the securities issued by the CLOs that were acquired from DMI with an acquisition date fair value of \$98,316,000 and cash representing payments received on the CLO securities in the amount of \$1,659,000.

A summary of the fair values of assets acquired, liabilities assumed, net consideration transferred, and the resulting bargain purchase gain is as follows:

(Dollars in thousands)	Initial Values Recorded at	Measurement Period Adjustments	Adjusted Values
------------------------	-------------------------------------	--------------------------------------	--------------------

Edgar Filing: Triumph Bancorp, Inc. - Form 10-Q

	Acquisition Date		
Assets acquired:

	685	(20)	665
Fair value of net assets acquired	148,373	2,608	150,981
Net consideration transferred	135,864	—	135,864
Bargain purchase gain	\$ (12,509)	\$ (2,608)	\$ (15,117)

TRIUMPH BANCORP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The Company completed the acquisition via an FDIC bid process for DMI as part of the Doral Bank failure and the resulting nontaxable bargain purchase gain represents the excess of the fair value of the net assets acquired over the fair value of the net consideration transferred. The Company subsequently recorded measurement period adjustments related to the finalization of income taxes associated with the transaction and the valuation of loans acquired in the transaction, which increased the bargain purchase gain by \$1,708,000 and \$900,000 during the three months ended September 30, 2015 and the three months ended December 31, 2015, respectively.

The Company incurred pre-tax expenses related to the acquisition of approximately \$243,000 for the three months ended March 31, 2015, which are included in professional fees in the consolidated statements of income.

In addition, during March 2015 the Company sold the loans acquired in the DMI acquisition to third parties for a sales price equal to their acquisition date fair value. No gains or losses were recognized on the sales.

NOTE 3 - SECURITIES

Securities have been classified in the financial statements as available for sale or held to maturity. The amortized cost of securities and their approximate fair values at March 31, 2016 and December 31, 2015 are as follows:

(Dollars in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
March 31, 2016				
Available for sale securities:				
U.S. Government agency obligations	\$ 90,460	\$ 1,508	\$ —	\$ 91,968

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Management evaluates securities for other than temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the security for a period of time sufficient to allow for any anticipated recovery in fair value.

As of March 31, 2016, management does not have the intent to sell any of the securities classified as available for sale in the table above and believes that it is more likely than not that the Company will not have to sell any such securities before a recovery of cost. The fair value is expected to recover as the bonds approach their maturity date or repricing date or if market yields for such investments decline. Management does not believe any of the securities are impaired due to reasons of credit quality. Accordingly, as of March 31, 2016, management believes the unrealized losses detailed in the previous table are temporary and no other than temporary impairment loss has been recognized in the Company's consolidated statements of income.

NOTE 4 - LOANS AND ALLOWANCE FOR LOAN AND LEASE LOSSES

Loans at March 31, 2016 and December 31, 2015 consisted of the following:

	March 31, 2016	December 31, 2015
(Dollars in thousands)		
Commercial real estate	\$293,485	\$291,819
Construction, land development, land	41,622	43,876
1-4 family residential properties	76,973	78,244
Farmland	33,250	33,573
Commercial	509,433	495,356
Factored receivables	199,532	215,088
Consumer	13,530	13,050
Mortgage warehouse	78,015	120,879
Total	1,245,840	1,291,885
Allowance for loan and lease losses	(12,093)	(12,567)
	\$1,233,747	\$1,279,318

Total loans include net deferred origination and factoring fees totaling \$951,000 and \$1,218,000 at March 31, 2016 and December 31, 2015, respectively.

Loans with carrying amounts of \$263,680,000 and \$280,289,000 at March 31, 2016 and December 31, 2015, respectively, were pledged to secure Federal Home Loan Bank advance capacity.

During the three months ended March 31, 2016, loans with a carrying amount of \$2,881,000 were transferred to Loans held for sale as the Company made the decision to sell the loans. The loans were recorded in Loans held for sale at their fair value of \$2,805,000, with the \$76,000 decline in fair value recorded as a reduction in other noninterest income in the consolidated statements of income. No loan transfers were recorded during the three months ended March 31, 2015.

Credit Quality Information

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt, including: current collateral and financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans as to credit risk. This analysis includes every loan and is performed on a regular basis. Large groups of smaller balance homogeneous loans, such as consumer loans, are analyzed primarily based on payment status. The Company uses the following definitions for risk ratings:

Pass:

Loans classified as pass are loans with low to average risk and not otherwise classified as substandard or doubtful.

Substandard:

Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the repayment of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful:

Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

PCI:

At acquisition, PCI loans had the characteristics of substandard loans and it was probable, at acquisition, that all contractually required principal and interest payments would not be collected. The Company evaluates these loans on a projected cash flow basis with this evaluation performed quarterly.

Troubled Debt Restructurings

The Company had a recorded investment in troubled debt restructurings of \$6,232,000 and \$1,383,000 as of March 31, 2016 and December 31, 2015, respectively.

The following table presents loans modified as troubled debt restructurings that occurred during the three months ended March 31, 2016. There were no loans modified as troubled debt restructurings during the three months ended March 31, 2015.

(Dollars in thousands)	Number of	Pre-Modification	Post-Modification
March 31, 2016	Loans	Outstanding	Outstanding
		Recorded	Recorded
		Investment	Investment

Commercial	16	\$ 5,730	\$ 5,730
------------	----	----------	----------

As of March 31, 2016, there have been no defaults on any loans that were modified as troubled debt restructurings during the preceding twelve months. Default is determined at 90 or more days past due. The modifications primarily related to extending the amortization periods of the loans. The Company did not grant principal reductions on any restructured loans.

Purchased Credit Impaired Loans

The Company has loans that were acquired for which there was, at acquisition, evidence of deterioration of credit quality since origination and for which it was probable, at acquisition, that all contractually required payments would not be collected. The outstanding contractually required principal and interest and the carrying amount of these loans included in the balance sheet amounts of loans receivable at March 31, 2016 and December 31, 2015, are as follows:

(Dollars in thousands)	March 31, 2016	December 31, 2015
Contractually required principal and interest:		
Real estate loans	\$ 17,229	\$ 17,800
Commercial loans	4,407	5,335
Outstanding contractually required principal and interest	\$ 21,636	\$ 23,135
Gross carrying amount included in loans receivable	\$ 12,106	\$ 13,231

The changes in accretable yield during the three months ended March 31, 2016 and 2015 in regard to loans transferred at acquisition for which it was probable that all contractually required payments would not be collected are as follows:

(Dollars in thousands)	Three Months Ended March 31,	
	2016	2015
Accretable yield, beginning balance	\$2,594	\$4,977
Additions	—	—
Accretion	(517)	(429)
Reclassification from nonaccretable to accretable yield	—	—
Disposals	(13)	(52)
Accretable yield, ending balance	\$2,064	\$4,496

NOTE 6 – Variable Interest Entities

Collateralized Loan Obligation Funds - Closed

The Company, through its subsidiary, TCA, acts as asset manager to various CLO funds. TCA earns asset management fees in accordance with the terms of its asset management agreements with the following CLO funds.

(Dollars in thousands)	Offering Date	Offering Amount
Trinitas CLO I, LTD (Trinitas I)	May 1, 2014	\$400,000
Trinitas CLO II, LTD (Trinitas II)	August 4, 2014	\$416,000
Doral CLO II, LTD (Doral II) ⁽¹⁾	April 26, 2012	\$416,460
Doral CLO III, LTD (Doral III) ⁽¹⁾	December 17, 2012	\$310,800
Trinitas CLO III, LTD (Trinitas III)	June 9, 2015	\$409,375

⁽¹⁾ Acquired management contracts as part of the DMI acquisition discussed in Note 2.

The securities sold in the CLO offerings were issued in a series of tranches ranging from an AAA rated debt tranche to an unrated tranche of subordinated notes. The Company does not hold any of the securities issued in the CLO offerings. A related party of the Company holds insignificant interests in Trinitas II and Trinitas III.

TCA earned asset management fees totaling \$1,629,000 and \$958,000 for the three months ended March 31, 2016 and 2015, respectively.

The Company performed a consolidation analysis to determine whether the Company was required to consolidate the assets, liabilities, equity or operations of the closed CLO funds in its financial statements. The Company concluded that the closed CLO funds are variable interest entities; however, the Company, through TCA, does not hold variable interests in the entities as the Company's interest in the CLO funds is limited to the asset management fees payable to TCA under their asset management agreements and the interests of its related parties are insignificant. The Company concluded that the asset management fees were not variable interests in the CLO funds as (a) the asset management fees are commensurate with the services provided, (b) the asset management agreements include only terms, conditions, or amounts that are customarily present in arrangements for similar services negotiated on an arm's-length basis, and (c) the Company does not hold other interests in the CLO funds (including interests held through related parties) that individually or in the aggregate absorb more than an insignificant amount of the CLO funds' expected losses or receive more than an insignificant amount of the CLO funds' expected residual returns. Consequently, the Company concluded that it was not required to consolidate the assets, liabilities, equity or operations of the closed CLO funds in its financial statements.

Collateralized Loan Obligation Fund – Warehouse Phase

On July 22, 2015 and September 21, 2015, Trinitas CLO IV, Ltd. ("Trinitas IV") and Trinitas CLO V, Ltd. ("Trinitas V"), respectively, were formed to be the issuers of CLO offerings. Trinitas IV was capitalized with initial third party equity investments in the form of preference shares of \$36,000,000 in addition to the Company's initial \$4,000,000 preference share equity investment and Trinitas V was capitalized with initial subordinated debt issued to third parties

of \$9,000,000 in addition to the initial \$1,000,000 of subordinated debt issued to the Company. Each entity entered into a warehouse credit agreement in order to begin acquiring senior secured loan assets that will comprise the initial collateral pool of the CLOs once issued. In October 2015, the Company made additional investments in Trinitas IV and Trinitas V of \$10,000,000 and \$5,500,000, respectively, and Trinitas V received additional third party investments of \$4,500,000. When finalized, Trinitas IV and Trinitas V will use the proceeds of the debt and equity interests sold in the offering for the final CLO securitization structures to repay the initial warehouse phase debt and equity holders. In the final CLO securitization structures, interest and principal repayment of the leveraged loans held by Trinitas IV and Trinitas V will be used to repay debt holders with any excess cash flows used to provide a return on capital to equity investors. TCA was appointed as asset manager for these entities during their warehousing period. TCA does not earn management or other fees from Trinitas IV or Trinitas V during the warehouse phase.

At March 31, 2016, the Company's loss exposure to Trinitas IV and Trinitas V is limited to its combined \$21,870,000 investment in the entities which is classified as other assets within the Company's consolidated balance sheets and accounted for under the equity method.

TRIUMPH BANCORP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The Company performed a consolidation analysis of Trinitas IV and Trinitas V during the warehouse phase and concluded that Trinitas IV and Trinitas V are variable interest entities and that the Company and its related persons hold variable interests in the entities that could potentially be significant to the entities in the form of equity investments in the entities. However, the Company also concluded that due to certain approval and denial powers available to the senior lender under the warehouse credit facility for Trinitas IV and Trinitas V which provide for shared decision-making powers, the Company does not have the power to direct the activities that most significantly impact the entities' economic performance. As a result, the Company is not the primary beneficiary and therefore is not required to consolidate the assets, liabilities, equity, or operations of the entities in the Company's financial statements.

NOTE 7 - Deposits

Deposits at March 31, 2016 and December 31, 2015 are summarized as follows:

(Dollars in thousands)	March 31, 2016	December 31, 2015
Noninterest bearing demand	\$ 160,818	\$ 168,264
Interest bearing demand	227,002	238,833
Individual retirement accounts	63,265	60,971
Money market	111,578	112,214
Savings	77,969	74,759
Certificates of deposit	569,820	543,909
Brokered deposits	49,941	50,000
Total Deposits	\$ 1,260,393	\$ 1,248,950

At March 31, 2016, scheduled maturities of certificates of deposits, individual retirement accounts and brokered deposits are as follows:

(Dollars in thousands)	March 31, 2016
Within one year	\$ 519,352
After one but within two years	124,619
After two but within three years	20,846
After three but within four years	12,505

After four but within five years	5,704
Total	\$683,026

Time deposits, including individual retirement accounts, certificates of deposit, and brokered deposits, with individual balances of \$250,000 and greater totaled \$108,046,000 and \$106,258,000 at March 31, 2016 and December 31, 2015, respectively.

NOTE 8 - Legal Contingencies

Various legal claims arise from time to time in the normal course of business which, in the opinion of management, will have no material effect on the Company's consolidated financial statements. The Company does not anticipate any material losses as a result of commitments and contingent liabilities.

Trademark Infringement Lawsuit

On February 18, 2015, a trademark infringement suit was filed in the United States District Court for the Western District of Tennessee Western Division against the Company and certain subsidiaries by Triumph Bancshares, Inc. and Triumph Bank, N.A., asserting that the Company's use of "Triumph" as part of the Company's trademarks and domain names causes a likelihood of confusion, has caused actual confusion, and infringes plaintiffs' trademarks. The suit seeks damages as well as an injunction to prevent the use of the name "Triumph" and certain other matters with respect to the Company and its subsidiaries. Discovery has commenced in the suit and a trial date is currently set for October 2016.

TRIUMPH BANCORP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 9 - OFF-BALANCE SHEET LOAN COMMITMENTS

From time to time, the Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit. Those instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the balance sheet. The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual amount of those instruments.

The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

The contractual amounts of financial instruments with off-balance sheet risk were as follows:

(Dollars in thousands)	March 31, 2016		December 31, 2015	
	Fixed Rate	Variable Rate	Fixed Rate	Variable Rate
Commitments to make loans	\$35,075	\$739	\$6,571	\$2,949
Unused lines of credit	39,326	90,648	35,514	81,189
Standby letters of credit	1,050	2,212	1,030	1,999

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being fully drawn upon, the total commitment amounts disclosed above do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if considered necessary by the Company, upon extension of credit is based on management's credit evaluation of the customer.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. In the event of nonperformance by the customer, the Company has rights to the underlying collateral, which can include commercial real estate, physical plant and property, inventory, receivables, cash and marketable securities. The credit risk to the Company in issuing letters of credit is essentially the same as that involved in extending loan facilities to its customers.

NOTE 10 - Fair Value Disclosures

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a company’s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The methods of determining the fair value of assets and liabilities presented in this note are consistent with our methodologies disclosed in our annual financial statements.

⁽¹⁾ Represents the fair value of OREO that was adjusted during the period and subsequent to its initial classification as OREO

Impaired Loans with Specific Allocation of ALLL: A loan is considered impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due pursuant to the contractual terms of the loan agreement. Impairment is measured by estimating the fair value of the loan based on the

present value of expected cash flows, the market price of the loan, or the underlying fair value of the loan's collateral. Fair value of the impaired loan's collateral is determined by third party appraisals, which are then adjusted for the estimated selling and closing costs related to liquidation of the collateral. For this asset class, the actual valuation methods (income, sales comparable, or cost) vary based on the status of the project or property. For example, land is generally based on the sales comparable method while construction is based on the income and/or sales comparable methods. The unobservable inputs may vary depending on the individual assets with no one of the three methods being the predominant approach. The Company reviews the third party appraisal for appropriateness and adjusts the value downward to consider selling and closing costs, which typically range from 5% to 8% of the appraised value of the underlying collateral.

OREO: OREO is primarily comprised of real estate acquired in partial or full satisfaction of loans. OREO is recorded at its estimated fair value less estimated selling and closing costs at the date of transfer, with any excess of the related loan balance over the fair value less expected selling costs is charged to the ALLL. Subsequent changes in fair value are reported as adjustments to the carrying amount and are recorded against earnings. The Company outsources the valuation of OREO with material balances to third party appraisers. For this asset class, the actual valuation methods (income, sales comparable, or cost) vary based on the status of the project or property. For example, land is generally based on the sales comparable method while construction is based on the income and/or sales comparable methods. The unobservable inputs may vary depending on the individual assets with no one of the three methods being the predominant approach. The Company reviews the third party appraisal for appropriateness and adjusts the value downward to consider selling and closing costs, which typically range from 5% to 8% of the appraised value.

NOTE 11 - Regulatory Matters

The Company (on a consolidated basis) and TBK Bank are subject to various regulatory capital requirements administered by federal and state banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's or TBK Bank's financial statements. Under capital adequacy guidelines and the regulatory

framework for prompt corrective action, the Company and TBK Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

The Company is subject to the Basel III regulatory capital framework. Beginning in January 2016, the implementation of the capital conservation buffer was effective for the Company starting at the 0.625% level and increasing 0.625% each year thereafter, until it reaches 2.5% on January 1, 2019. The capital conservation buffer is designed to absorb losses during periods of economic stress and requires increased capital levels for the purpose of capital distributions and other payments. Failure to meet the full amount of the buffer will result in restrictions on the Company's ability to make capital distributions, including dividend payments and stock repurchases, and to pay discretionary bonuses to executive officers.

Quantitative measures established by regulation to ensure capital adequacy require the Company and TBK Bank to maintain minimum amounts and ratios (set forth in the table below) of total, common equity Tier 1, and Tier 1 capital to risk weighted assets, and of Tier 1 capital to average assets. Management believes, as of March 31, 2016 and December 31, 2015, the Company and TBK Bank meet all capital adequacy requirements to which they are subject, including the capital buffer requirement.

TRIUMPH BANCORP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

As of March 31, 2016 and December 31, 2015, TBK Bank's capital ratios exceeded those levels necessary to be categorized as "well capitalized" under the regulatory framework for prompt corrective action. To be categorized as "well capitalized," TBK Bank must maintain minimum total risk based, common equity Tier 1 risk based, Tier 1 risk based, and Tier 1 leverage ratios as set forth in the table. There are no conditions or events since March 31, 2016 that management believes have changed TBK Bank's category.

The actual capital amounts and ratios for the Company and TBK Bank are presented in the following table as of March 31, 2016 and December 31, 2015.

NOTE 13 – STOCK BASED COMPENSATION

Stock based compensation expense that has been charged against income was \$353,000 and \$696,000 for the three months ended March 31, 2016 and 2015, respectively.

2014 Omnibus Incentive Plan

In connection with the Company's initial public offering in November 2014, the Company adopted the 2014 Omnibus Incentive Plan (Omnibus Incentive Plan). The Omnibus Incentive Plan provides for the grant of nonqualified and incentive stock options, stock appreciation rights, restricted stock awards, restricted stock units, and other awards that may be settled in, or based upon the value of, the Company's common stock. The aggregate number of shares of common stock available for issuance under the Omnibus Incentive Plan is 1,200,000 shares. RSAs granted to employees under the Omnibus Incentive Plan typically vest over two to three years.

A summary of changes in the Company's nonvested RSAs under the Omnibus Incentive Plan for the three months ended March 31, 2016 and 2015 were as follows:

Nonvested RSAs	Shares	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2016	201,270	\$ 14.24
Granted	—	—
Vested	—	—
Forfeited	(2,777)	14.37

Nonvested at March 31, 2015	252,256	\$ 14.71

Compensation expense for RSAs granted under the Omnibus Incentive Program will be recognized over the vesting period of the awards based on the fair value of the stock at the issue date.

TRIUMPH BANCORP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

As of March 31, 2016, there was \$988,000 of unrecognized compensation cost related to nonvested RSAs granted under the Omnibus Incentive Plan. The cost is expected to be recognized over a remaining period of 1.20 years.

NOTE 14 – EARNINGS PER SHARE

The factors used in the earnings per share computation follow:

(Dollars in thousands, except per share amounts)	Three Months Ended March 31,	
	2016	2015
Basic		
Net income to common stockholders	\$4,812	\$13,852
Weighted average common shares outstanding	17,816,930	17,711,527
Basic earnings per common share	\$0.27	\$0.78
Diluted		
Net income to common stockholders	\$4,812	\$13,852
Dilutive effect of preferred stock	—	192
Net income to common stockholders - diluted	\$4,812	\$14,044
Weighted average common shares outstanding	17,816,930	17,711,527
Add: Dilutive effects of restricted stock	113,788	11,962
Add: Dilutive effects of assumed exercises of stock warrants	50,558	28,823
Add: Dilutive effects of assumed conversion of Preferred A	—	315,773
Add: Dilutive effects of assumed conversion of Preferred B	—	360,578
Average shares and dilutive potential common shares	17,981,276	18,428,663
Dilutive earnings per common share	\$0.27	\$0.76

Shares that were not considered in computing diluted earnings per common share because they were antidilutive are as follows:

	Three Months Ended March 31,	
	2016	2015
Shares assumed to be converted from Preferred Stock Series A	315,773	—
Shares assumed to be converted from Preferred Stock Series B	360,578	—

NOTE 15 – BUSINESS SEGMENT INFORMATION

The following presents the Company's operating segments. Transactions between segments consist primarily of borrowed funds. Intersegment interest expense is allocated to the Factoring segment based on the Company's prime rate. The provision for loan loss is allocated based on the segment's allowance for loan loss determination which considers the effects of charge-offs. Noninterest income and expense directly attributable to a segment are assigned to it. Taxes are paid on a consolidated basis but not allocated for segment purposes. The Factoring segment includes only factoring originated by TBC. General factoring services not originated through TBC are included in the Banking segment.

NOTE 16 – SUBSEQUENT EVENTS

On April 1, 2016, the Company issued 101,105 shares of restricted stock with a grant date fair value of \$1,605,000 and 164,175 non-qualified stock options with a grant date fair value of \$961,000 to its directors and certain officers and employees in accordance with the provisions of the Omnibus Incentive Plan. These awards vest over various time periods of up to four years and were issued for Board of Director compensation and management incentives.

item 2

Management's Discussion and Analysis of

Financial Condition and Results of Operations

This section presents management's perspective on our financial condition and results of operations. The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Company's interim consolidated financial statements and the accompanying notes included elsewhere in this Quarterly Report on Form 10-Q and with the consolidated financial statements and accompanying notes and other detailed information appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. To the extent that this discussion describes prior performance, the descriptions relate only to the periods listed, which may not be indicative of our future financial outcomes. In addition to historical information, this discussion contains forward-looking statements that involve risks, uncertainties and assumptions that could cause results to differ materially from management's expectations. See the "Forward-Looking Statements" section of this discussion for further information on forward-looking statements.

Overview

We are a financial holding company headquartered in Dallas, Texas and registered under the Bank Holding Company Act. Through our wholly owned bank subsidiary, TBK Bank, we offer traditional banking services as well as commercial finance product lines focused on businesses that require specialized financial solutions. Our banking operations include a full suite of lending and deposit products and services focused on our local market areas. These activities generate a stable source of core deposits and a diverse asset base to support our overall operations. Our commercial finance product lines include factoring, asset-based lending, equipment lending, healthcare lending, and premium finance products offered on a nationwide basis. These product offerings supplement the asset generation capacity in our community banking markets and enhance the overall yield of our loan portfolio, enabling us to earn attractive risk-adjusted net interest margins. In addition, through our Triumph Capital Advisors asset management subsidiary, we provide investment management services currently focused on the origination and management of collateralized loan obligations. We believe our integrated business model distinguishes us from other banks and non-bank financial services companies in the markets in which we operate. As of March 31, 2016, we had consolidated total assets of \$1.688 billion, total loans held for investment of \$1.246 billion, total deposits of \$1.260 billion and total stockholders' equity of \$274.1 million.

Most of our products and services share basic processes and have similar economic characteristics. However, our factoring subsidiary operates in a highly specialized niche and earns substantially higher yields on its factored accounts receivable portfolio than our other lending products. This business also has a legacy and structure as a standalone company. In addition, through our Triumph Capital Advisors asset management subsidiary, we provide fee-based asset management services distinct from our traditional banking offerings and operations. As a result, we have determined our reportable segments are Banking, Factoring, Asset Management, and Corporate. For the three months ended March 31, 2016, our banking segment generated 64% of our total revenue (comprised of interest and noninterest income), our factoring segment generated 26% of our total revenue, our asset management segment generated 6% of our total revenue, and our corporate segment generated 4% of our total revenue.

Recent Developments

ColoEast Bankshares, Inc.

On March 6, 2016, the Company entered into an agreement to acquire ColoEast Bankshares, Inc. (“ColoEast”) and its community banking subsidiary, Colorado East Bank & Trust, in an all-cash transaction for \$70 million. Consideration could be reduced to \$69 million should ColoEast not achieve certain targets. ColoEast had total assets of \$759 million, total loans of \$453 million, and total deposits of \$664 million as of December 31, 2015. Colorado East Bank & Trust offers personal checking, savings, CD, money market, HSA, IRA, NOW and business accounts, as well as consumer, commercial and mortgage loans from 18 branches and one loan production office located throughout Colorado and far western Kansas. The transaction, which is expected to close during the third quarter of 2016, is subject to customary closing conditions, including approval of the merger agreement by ColoEast shareholders and receipt of required regulatory approvals.

Financial Highlights

The Company's key financial highlights as of and for the three months ended March 31, 2016, as compared to the prior period, are shown below:

⁽¹⁾The Company uses certain non-GAAP financial measures to provide meaningful supplemental information regarding the Company's operational performance and to enhance investors' overall understanding of such financial performance. The non-GAAP measures used by the Company include the following:

• "Common stockholders' equity" is defined as total stockholders' equity at end of period less the liquidation preference value of the preferred stock.

• "Adjusted diluted earnings per common share" is defined as adjusted net income available to common stockholders divided by adjusted weighted average diluted common shares outstanding. Excluded from net income available to common stockholders are material gains and expenses related to merger and acquisition-related activities, including divestitures, net of tax. In our judgment, the adjustments made to net income available to common stockholders

allow management and investors to better assess our performance in relation to our core net income by removing the volatility associated with certain acquisition-related items and other discrete items that are unrelated to our core business. Weighted average diluted common shares outstanding are adjusted as a result of changes in their dilutive properties given the gain and expense adjustments described herein.

•“Net interest margin” is defined as net interest income divided by average interest earning assets.

•“Tangible common stockholders’ equity” is common stockholders’ equity less goodwill and other intangible assets.

•“Total tangible assets” is defined as total assets less goodwill and other intangible assets.

•“Tangible book value per share” is defined as tangible common stockholders’ equity divided by total common shares outstanding. This measure is important to investors interested in changes from period-to-period in book value per share exclusive of changes in intangible assets.

•“Tangible common stockholders’ equity ratio” is defined as the ratio of tangible common stockholders’ equity divided by total tangible assets. We believe that this measure is important to many investors in the marketplace who are interested in relative changes from period-to-period in common equity and total assets, each exclusive of changes in intangible assets.

•“Return on Average Tangible Common Equity” is defined as net income available to common stockholders divided by average tangible common stockholders’ equity.

•“Efficiency ratio” is defined as noninterest expenses divided by our operating revenue, which is equal to net interest income plus noninterest income. Also excluded are material gains and expenses related to merger and acquisition-related activities, including divestitures. In our judgment, the adjustments made to operating revenue allow management and investors to better assess our performance in relation to our core operating revenue by removing the volatility associated with certain acquisition-related items and other discrete items that are unrelated to our core business.

•“Net noninterest expense to average total assets” is defined as noninterest expenses net of noninterest income divided by total average assets. Excluded are material gains and expenses related to merger and acquisition-related activities, including divestitures. This metric is used by our management to better assess our operating efficiency.

•“Adjusted yield on loans” is our yield on loans after excluding loan accretion from our acquired loan portfolio. Our management uses this metric to better assess the impact of purchase accounting on our yield on loans, as the effect of loan discount accretion is expected to decrease as the acquired loans roll off of our balance sheet.

•“Adjusted net interest margin” is net interest margin after excluding loan accretion from the acquired loan portfolio. Our management uses this metric to better assess the impact of purchase accounting on net interest margin, as the effect of loan discount accretion is expected to decrease as the acquired loans mature or roll off of our balance sheet.

(2) Amounts have been annualized.

(3) Asset quality ratios exclude loans held for sale.

(4) Net charge-offs to average loans ratios are for the three months ended March 31, 2016 and the year ended December 31, 2015.

GAAP Reconciliation of Non-GAAP Financial Measures

We believe the non-GAAP financial measures included above provide useful information to management and investors that is supplementary to our financial condition, results of operations and cash flows computed in accordance with GAAP; however, we acknowledge that our non-GAAP financial measures have a number of limitations. The following reconciliation table provides a more detailed analysis of the non-GAAP financial measures:

(Dollars in thousands, except per share amounts)	Three Months Ended			
	March 31,			
	2016	2015		
Net income available to common stockholders	N/A	\$13,852		
Less: bargain purchase gain, nontaxable	N/A	12,509

Results of Operations

Net Income

Three months ended March 31, 2016 compared with three months ended March 31, 2015. We earned net income of \$5.0 million for the three months ended March 31, 2016 compared to \$14.0 million for the three months ended March 31, 2015, a decrease of \$9.0 million. The decrease was the result of an \$11.7 million decrease in noninterest income and a \$2.0 million increase in income tax expense, offset by a \$2.8 million increase in net interest income, a \$1.1 million reduction in the provision for loan losses, and a \$0.7 million decrease in noninterest expense. These results were most significantly impacted by our acquisition of Doral Money, Inc. ("Doral Money") during the three months ended March 31, 2015 which resulted in a pre-tax bargain purchase gain in the amount of \$12.5 million included in noninterest income offset by an additional \$1.8 million bonus accrual and approximately \$0.3 million of transaction costs recorded in connection with the Doral Money acquisition and reported as noninterest expense.

Excluding the impact of the Doral Money acquisition, we earned net income of \$2.6 million for the three months ended March 31, 2015 compared to net income of \$5.0 million for the three months ended March 31, 2016.

Details of the changes in the various components of net income are further discussed below.

Net Interest Income

Our operating results depend primarily on our net interest income, which is the difference between interest income on interest earning assets, including loans and securities, and interest expense incurred on interest bearing liabilities, including deposits and other borrowed funds. Interest rate fluctuations, as well as changes in the amount and type of interest earning assets and interest bearing liabilities, combine to affect net interest income. Our net interest income is affected by changes in the amount and mix of interest earning assets and interest bearing liabilities, referred to as a "volume change." It is also affected by changes in yields earned on interest earning assets and rates paid on interest bearing deposits and other borrowed funds, referred to as a "rate change."

Three months ended March 31, 2016 compared with three months ended March 31, 2015. The following table presents the distribution of average assets, liabilities and equity, as well as interest income and fees earned on average interest earning assets and interest expense paid on average interest bearing liabilities for the three month periods ended March 31, 2016 and 2015:

(Dollars in thousands)	For The Three Months Ended March 31, 2016			2015

Interest spread ⁽²⁾			5.76 %			5.95 %
Net interest margin ⁽³⁾			5.90 %			6.11 %

(1) Balance totals include respective nonaccrual assets.

(2) Net interest spread is the yield on average interest earning assets less the rate on interest bearing liabilities.

(3) Net interest margin is the ratio of net interest income to average interest earning assets.

(4) Ratios have been annualized

We earned net interest income of \$22.5 million for the three months ended March 31, 2016 compared to \$19.7 million for the three months ended March 31, 2015, an increase of \$2.8 million. This increase in net interest income was driven by increases in average interest earning assets, which was primarily attributable to growth in our commercial finance product lines, as our factored receivables, asset-based loans, and equipment loans all increased on a period over period basis as a result of our continued execution of our growth strategy for such products. Average total interest earning assets increased to \$1.532 billion for the three months ended March 31, 2016 from \$1.310 billion for the three months ended March 31, 2015, an increase of \$222 million.

The growth in net interest income attributable to increases in our average interest earning assets was offset in part by a decrease in our net interest margin. Net interest margin decreased to 5.90% for the three months ended March 31, 2016 from 6.11% for the three months ended March 31, 2015, a decrease of 21 basis points.

The decline in our net interest margin primarily resulted from a decrease in yields on our interest earning assets. Our average yield on earning assets decreased to 6.54% for the three months ended March 31, 2016 from 6.68% for the three months ended March 31, 2015, a decrease of 14 basis points. The decrease was partially due to change in the mix within our loan portfolio period over period as our mortgage warehouse clients had a higher utilization of their facilities during the three months ended March 31, 2016, which increased our relatively lower yielding mortgage warehouse balances as a percentage of the overall portfolio. In addition, although the average balances of factored receivables increased during the three months ended March 31, 2016 compared to the three months ended March 31, 2015, our transportation factoring balances, which generate a higher yield than our non-transportation factoring balances, decreased as a percentage of the overall factoring portfolio to 76% at March 31, 2016 compared to 87% at March 31, 2015 as we continue to expand our non-transportation factoring product lines in 2016. Finally, we have experienced a diminishing impact of discount accretion on the loan portfolio yield period over period. These decreases within the loan portfolio yield were offset in part by the change in mix of our total interest earning assets as we held a greater concentration of our earning assets in our higher yielding loan portfolio during the three months ended March 31, 2016 compared to the three months ended March 31, 2015.

A component of the yield on our loan portfolio consists of discount accretion on the Triumph Savings Bank legacy portfolio acquired in connection with our original acquisition of Equity Bank in 2010 and the portfolio acquired in the Triumph Community Bank acquisition in 2013. The aggregate increased yield on our loan portfolio attributable to this discount accretion was 37 basis points for the three months ended March 31, 2016 and 46 basis points for the three months ended March 31, 2015. Excluding the impact of this discount accretion, the adjusted yield on our loan portfolio was 7.47% and 8.04% for the three months ended March 31, 2016 and 2015, respectively. We anticipate that the contribution of this discount accretion to our interest income will continue to decline over time, but we expect that any resulting decreases in aggregate yield on our loan portfolio will be partially offset by continued growth in our higher yielding specialized commercial finance product lines. As of March 31, 2016, there was approximately \$6.0 million of purchase discount remaining that is expected to be accreted over the remaining lives of the acquired loan portfolios.

The decrease in our net interest margin resulting from changes in the average yield in our loan portfolio discussed above was also impacted by an increase in our average cost of funds. Our average cost of interest bearing liabilities increased to 0.78% for the three months ended March 31, 2016 from 0.73% for the three months ended March 31, 2015, an increase of 5 basis points. This increase was primarily due to a change in the mix of our interest bearing deposits toward higher rate certificates of deposit as these deposit products were used to fund our growth period over period.

Our adjusted net interest margin, which excludes the impact of the acquired loan discount accretion described above, was 5.61% and 5.76% for the three months ended March 31, 2016 and 2015, respectively.

The following table shows the effects changes in average balances (volume) and average interest rates (rate) had on the interest earned on our interest earning assets and the interest incurred on our interest bearing liabilities for the three month periods ended March 31, 2016 and 2015. For purposes of this table, changes attributable to both rate and volume which cannot be segregated have been allocated to volume.

(Dollars in thousands)	Three Months Ended March 31, 2016 vs. 2015 Increase (Decrease) Due to:		
	Rate	Volume	Net Increase
Interest earning assets:

Provision for Loan Losses

The provision for loan losses is the amount of expense that, based on our judgment, is required to maintain the allowance for loan and lease losses at an adequate level to absorb probable incurred losses in the loan portfolio at the balance sheet date and that, in management's judgment, is appropriate under GAAP. The determination of the amount of the allowance is complex and involves a high degree of judgment and subjectivity.

Under accounting standards for business combinations, acquired loans are recorded at fair value on the date of acquisition. This fair value adjustment eliminates any of the seller's allowance for loan loss associated with such loans as of such date as expected credit losses associated with such loans are incorporated into the fair value adjustment. A provision for loan losses is recorded for the emergence of new probable and estimable losses on acquired loans after the acquisition date.

We recorded a negative provision for loan losses of \$0.5 million for the three months ended March 31, 2016 compared to a provision of \$0.6 million for the three months ended March 31, 2015. We experienced a net recovery of \$0.04 million in the three months ended March 31, 2016 compared to net charge-offs of \$0.2 million for the same period in 2015. The negative provision for the three months ended March 31, 2016 was primarily due to reductions in loan balances during the period, which decreased from \$1.223 billion at December 31, 2015 to \$1.177 billion at March 31, 2016. In contrast, loan balances increased during the three months ended March 31, 2015 from \$1.006 billion at December 31, 2014 to \$1.011 billion at March 31, 2015, resulting in provision expense for that period. In addition, the reduced provision for loan losses also reflects the low level of net charge-offs in our portfolio in the three months ended March 31, 2016 compared to the same period in 2015. This lower level of charge-offs impacts the historical loss rates used in the quantitative component of our required ALLL calculations, as more recent periods are more indicative of incurred losses than prior years in which we experienced higher loss rates, resulting in a lower required ALLL as a percentage of outstanding loan balances as of March 31, 2016.

Our ALLL was \$12.1 million as of March 31, 2016 compared to \$12.6 million as of December 31, 2015.

Noninterest Income

The following table presents the major categories of noninterest income for the three month periods ended March 31, 2016 and 2015:

(Dollars in thousands)	Three Months Ended March 31,			
	2016	2015	\$ Change	% Change
Service charges on deposits	\$659	\$612	\$47	7.7 %
Card income	546	523	23	4.4 %
Net OREO gains (losses) and valuation adjustments	(11)	26	(37)	(142.3 %)
Net gains on sale of securities	5	—	5	100.0 %
Net gains on sale of loans	12	542	(530)	(97.8 %)
Fee income	534	422	112	26.5 %
Bargain purchase gain	—	12,509	(12,509)	(100.0 %)
Asset management fees	1,629	958	671	70.0 %
Other	1,607	1,067	540	50.6 %
Total noninterest income	\$4,981	\$16,659	\$(11,678)	(70.1 %)

Three months ended March 31, 2016 compared with three months ended March 31, 2015. We earned noninterest income of \$5.0 million for the three months ended March 31, 2016, compared to \$16.7 million for the three months ended March 31, 2015, a decrease of \$11.7 million. This decrease was significantly impacted by the realization of a pre-tax bargain purchase gain in the amount of \$12.5 million associated with the acquisition of Doral Money in March 2015.

Excluding the bargain purchase gain, we earned noninterest income of \$4.2 million for the three months ended March 31, 2015 compared to \$4.6 million for the three months ended March 31, 2016, an increase of \$0.4 million. The increase was primarily due to noninterest income earned with respect to CLO asset management fees earned by Triumph Capital Advisors and income from our CLO warehouse equity investments, offset by decreased gains realized on sales of residential mortgage loans.

• **Net Gains on Sale of Loans.** Net gains on sale of loans, comprised primarily of residential mortgage loans sold, decreased 142% due to decreased sales activity period over period. Proceeds from loan sales decreased from \$19.7 million for the three months ended March 31, 2015 to \$2.0 million for the three months ended March 31, 2016. We made the decision to exit the residential mortgage production business in the fourth quarter of 2015. The decline in residential mortgage loan sale activity experienced during the three months ended March 31, 2016 is indicative of the run off of the business.

• **Fee Income.** Fee income, comprised primarily of fees and service charges earned from services provided to our factoring clients, increased 27% due to the growth experienced in our factored accounts receivable portfolio purchases and the number of new factored accounts receivable clients during the period. Factored accounts receivable purchases increased from \$403 million during the three months ended March 31, 2015 to \$446 million during the three months ended March 31, 2016. The number of factored accounts receivable clients increased from 1,869 clients at March 31, 2015 to 2,198 clients at March 31, 2016.

• **Asset Management Fees.** Asset management fees earned by Triumph Capital Advisors increased from \$1.0 million for the three months ended March 31, 2015 to \$1.6 million for the three months ended March 31, 2016. Triumph Capital Advisors closed its third CLO offering in June 2015, and assumed two CLO asset management agreements in

March 2015 as a result of the Doral Money acquisition, which increased its asset management fees on a period over period basis. As of March 31, 2016, Triumph Capital Advisors managed \$1.852 billion of CLO assets earning approximately 35 basis points on average in asset management fees.

Other. Other income increased from \$1.1 million for the three months ended March 31, 2015 to \$1.2 million for the three months ended March 31, 2016. Other income also includes income for check cashing and wire transfer fees, income associated with trust activities, bank-owned life insurance, Triumph Insurance Group commissions, and income earned from our CLO warehouse equity investments. Income from our CLO warehouse equity investments increased \$0.4 million, from \$0.2 million for the three months ended March 31, 2015 to \$0.6 million for the three months ended March 31, 2016 due to our increased investments in the CLO warehouse entities. There were no significant increases or decreases in the remaining components of other income period over period.

Noninterest Expense

The following table presents the major categories of noninterest expense for the three month periods ended March 31, 2016 and 2015:

(Dollars in thousands)	Three Months Ended March 31,			
	2016	2015	\$ Change	% Change
Salaries and employee benefits	\$12,252	\$13,269	\$(1,017)	(7.7 %)
Occupancy, furniture and equipment	1,493	1,572	(79)	(5.0 %)
FDIC insurance and other regulatory assessments	224	263	(39)	(14.8 %)
Professional fees	1,073	1,327	(254)	(19.1 %)
Amortization of intangible assets	977	764	213	27.9 %
Advertising and promotion	519	543	(24)	(4.4 %)
Communications and technology	1,432	886	546	61.6 %
Other	2,108	2,159	(51)	(2.4 %)
Total noninterest expense	\$20,078	\$20,783	\$(705)	(3.4 %)

Three months ended March 31, 2016 compared with three months ended March 31, 2015. Noninterest expense totaled \$20.1 million for the three months ended March 31, 2016 compared to \$20.8 million for the three months ended March 31, 2015, a decrease of \$0.7 million. This decrease was impacted by the accrual of an incremental \$1.8 million bonus expense during the three months ended March 31, 2015 for the anticipated amount expected to be paid to team members to recognize their contribution to the Doral Money acquisition.

Excluding the Doral Money bonus accrual, noninterest expense totaled \$19.0 million for the three months ended March 31, 2015 compared to \$20.1 million for the three months ended March 31, 2016, an increase of \$1.1 million. This increase is primarily attributable to continuing investments made in personnel and infrastructure to support growth in organically generated product lines and other strategic initiatives.

Salaries and Employee Benefits. Salaries and employee benefits expenses have historically been our largest category of noninterest expense. Salaries and employee benefits expenses were \$12.3 million for the three months ended March 31, 2016 compared to \$13.3 million for the three months ended March 31, 2015. Excluding the Doral Money bonus accrual, salaries and employee benefits expenses were \$11.5 million for the three months ended March 31, 2015 compared to \$12.3 million for the three months ended March 31, 2016, an increase of \$0.8 million. This increase is attributable to several factors. We experienced a slight increase in the total size of our workforce between these periods as our full-time equivalent employees totaled 492.0 and 485.0 at March 31, 2016 and 2015, respectively. Sources of this increased headcount were primarily employees hired to support growth in our commercial finance product lines and other strategic initiatives. Other factors contributing to this increase include merit increases for existing employees, higher health insurance benefit costs, incentive compensation, and 401(k) expense.

Professional Fees. Professional fees are primarily comprised of external audit, tax, consulting, and legal fees and were \$1.1 million for the three months ended March 31, 2016 compared to \$1.3 million for the three months ended March 31, 2015, a decrease of \$0.2 million. This decrease is partially attributable to approximately \$0.2 million of professional fees associated with the Company's acquisition of Doral Money during the three months ended March

31, 2015.

Amortization of Intangibles. Amortization of intangible assets was \$1.0 million for the three months ended March 31, 2016 compared to \$0.8 million for the three months ended March 31, 2015, an increase of \$0.2 million. The increase is primarily due to the amortization of intangible assets recorded in conjunction with our acquisition of Doral Money in March 2015. As of March 31, 2016, we had intangible assets with a recorded balance of \$10.9 million, with remaining amortization of \$2.1 million scheduled in fiscal year 2016, \$2.5 million of amortization scheduled in fiscal year 2017, and the remaining \$6.3 million of amortization scheduled thereafter.

Communications and Technology. Communications and technology expenses were \$1.4 million for the three months ended March 31, 2016, compared to \$0.9 million for the three months ended March 31, 2015, an increase of \$0.5 million. This increase is partly attributed both to the communications and technology expense associated with our larger workforce in 2015 as well as the recent investments we have made in our communications and technology infrastructure to further our movement toward a single operating platform, which positions us for future acquisitions and greater operating efficiencies.

Other. Other noninterest expense decreased from \$2.2 million for the three months ended March 31, 2015 to \$2.1 million for the three months ended March 31, 2016. Other noninterest expense includes loan-related expenses, training and recruiting, postage, insurance, business travel, and subscription expenses. There were no significant increases or decreases in the various components of other noninterest expense period over period.

Income Taxes

The amount of income tax expense is influenced by the amount of pre-tax income, the amount of tax-exempt income and the effect of changes in valuation allowances maintained against deferred tax benefits. Income tax expense for the three months ended March 31, 2016 was \$2.9 million compared to \$0.9 million for the three months ended March 31, 2015. The effective tax rate for the three months ended March 31, 2016 was 37% compared to 6% for the three months ended March 31, 2015. The lower effective tax rate for the three months ended March 31, 2015 reflects the significant increase in nontaxable income attributed to the \$12.5 million bargain purchase gain associated with the Doral Money acquisition. Excluding the impact of the nontaxable bargain purchase gain, our effective tax rate for the three months ended March 31, 2015 was 37%.

Operating Segment Results

Our reportable segments are Factoring, Banking, Asset Management, and Corporate which have been determined based upon their business processes and economic characteristics. This determination also gave consideration to the structure and management of various product lines. The Factoring segment includes the operations of Triumph Business Capital with revenue derived from factoring services. The Banking segment includes the operations of TBK Bank, including loans originated under our Triumph Commercial Finance, Triumph Healthcare Finance, and Triumph Premium Finance brands. Our Banking segment derives its revenue principally from investments in interest earning assets as well as noninterest income typical for the banking industry. The Banking segment also includes certain factored receivables which are purchased by TBK Bank under its Triumph Commercial Finance brand as opposed to at Triumph Business Capital. The Asset Management segment includes the operations of Triumph Capital Advisors with revenue derived from fees for managing collateralized loan obligation funds. Corporate includes holding company financing and investment activities and management and administrative expenses to support the overall operations of the Company.

Reported segments and the financial information of the reported segments are not necessarily comparable with similar information reported by other financial institutions. Furthermore, changes in management structure or allocation methodologies and procedures may result in future changes to previously reported segment financial data. Transactions between segments consist primarily of borrowed funds. Intersegment interest expense is allocated to the Factoring segment based on the Company's prime rate. The provision for loan loss is allocated based on the segment's ALLL determination which considers the effects of charge-offs. Noninterest income and expense directly attributable to a segment are assigned to it. Taxes are paid on a consolidated basis and are not allocated for segment purposes. Certain factored receivables not originated through Triumph Business Capital are included in the Banking segment.

Three months ended March 31, 2016 compared with three months ended March 31, 2015. The following tables present our primary operating results for our operating segments as of March 31, 2016 and December 31, 2015, and for the three month periods ended March 31, 2016 and 2015, respectively.

(Dollars in thousands)	Asset				
Three Months Ended March 31, 2016	Factoring	Banking	Management	Corporate	Consolidated

Factoring

Our Factoring segment's operating income for the three months ended March 31, 2016 was \$2.5 million, compared with \$2.4 million for the three months ended March 31, 2015, an increase of \$0.1 million, as factored receivables in our factoring segment grew 6.2% from \$156.0 million as of March 31, 2015 to \$165.7 million as of March 31, 2016. Our average number of clients increased from 1,618 for the three months ended March 31, 2015 to 2,131 for the three months ended March 31, 2016 and the corresponding factored accounts receivable purchases increased from

\$365.4 million during the three months ended March 31, 2015 to \$381.6 million during the three months ended March 31, 2016. Our average invoice size decreased 16% from \$1,539 for the three months ended March 31, 2015 to \$1,295 for the three months ended March 31, 2016, however, the number of invoices purchased increased 24% period over period.

Net interest income was \$6.2 million for the three months ended March 31, 2016 compared to \$6.3 million for the three months ended March 31, 2015, a decrease of \$0.1 million. The decrease in net interest income is primarily due to pricing pressure on factored receivable balances in the current period due to increased competition and market conditions, resulting in slightly lower yields on net funds employed at our Factoring segment.

Our provision for loan losses was \$(0.5) million for the three months ended March 31, 2016 compared to \$(0.1) million for the three months ended March 31, 2015. The provision for loan losses on factored receivables is primarily driven by the allowance allocation for incurred losses recorded on collectively evaluated factored receivables purchased and outstanding for a period. As factored receivables purchased fluctuate period over period, the associated provision for loan losses typically increases or decreases accordingly. In addition, loan loss valuation allowances are recorded on specific at-risk balances, typically consisting of invoices greater than 90 days past due with negative cash reserves. The decreased provision in the three months ended March 31, 2016 was primarily due to variances in purchased factored receivables during the three months ended March 31, 2016 and 2015. During the three months ended March 31, 2016 factored receivables decreased \$20.7 million from December 31, 2015. During the three months ended March 31, 2015, factored receivables decreased \$14.4 million from December 31, 2014. The larger decrease in factored receivable balances within the three months ended March 31, 2016 resulted in a greater reduction in the provision for loan losses compared to the three months ended March 31, 2015.

Noninterest income was \$0.4 million for the three months ended March 31, 2016 compared to \$0.3 million for the three months ended March 31, 2015. The increase in noninterest income is consistent with the increase in factored receivable purchase volume period over period.

Noninterest expense was \$4.6 million for the three months ended March 31, 2016 compared to \$4.3 million for the three months ended March 31, 2015, driven primarily by increased personnel and operating costs incurred in connection with growth in our factoring portfolio clients and processing volumes.

Banking

Our Banking segment's operating income totaled \$4.9 million for the three months ended March 31, 2016 compared to operating income of \$3.0 million for the three months ended March 31, 2015. We experienced an increase in net interest income from \$13.6 million for the three months ended March 31, 2015 to \$16.3 million for the three months ended March 31, 2016. In addition, the provision for loan losses decreased from \$0.8 million for the three months ended March 31, 2015 to \$(0.1) million for the three months ended March 31, 2016. These increases in operating income were offset in part by decreases in other noninterest income and increases in noninterest expenses period over period.

The increase in net interest income was primarily the result of increases in the balances of our interest earning assets, primarily loans, due to the continued growth of our commercial finance products, including equipment loans, general asset-based loans, and healthcare asset-based loans. Outstanding loans in our Banking segment grew 38% from \$855.4 million as of March 31, 2015 to \$1.177 billion as of March 31, 2016.

The lower provision for loan losses in the three months ended March 31, 2016 is primarily due to reductions in Banking segment loan balances, which decreased \$46 million from \$1.223 billion at December 31, 2015 to \$1.177 billion at March 31, 2016. In contrast, Banking segment loan balances increased \$20 million from \$835 million at December 31, 2014 to \$855 million at March 31, 2015, resulting in provision expense for that period. In addition, the reduced provision for loan losses also reflects the low level of net charge-offs in our portfolio in the three months ended March 31, 2016 compared to the same period in 2015. This lower level of charge-offs impacts the historical loss rates used in the quantitative component of our required ALLL calculations, as more recent periods are more indicative of incurred losses than prior years in which we experienced higher loss rates, resulting in a lower required ALLL as a percentage of outstanding loan balances as of March 31, 2016.

Noninterest income was \$2.0 million for the three months ended March 31, 2016 compared to \$2.6 million for the three months ended March 31, 2015. This decrease was primarily due a reduction in net gains on sale of loans, comprised primarily of residential mortgage loans sold, which decreased 142% due to decreased sales activity period

over period. Proceeds from loan sales decreased from \$19.7 million for the three months ended March 31, 2015 to \$2.0 million for the three months ended March 31, 2016. We made the decision to exit the residential mortgage production business in the fourth quarter of 2015. The decline in residential mortgage loan sale activity experienced during the three months ended March 31, 2016 is indicative of the run off of the business.

Noninterest expense was \$13.6 million for the three months ended March 31, 2016, compared with \$12.4 million for the three months ended March 31, 2015, an increase of \$1.2 million driven by increased operating expenses in personnel, facilities and infrastructure to support the continued growth in our asset-based lending and equipment lending as well as merit increases for existing employees, higher health insurance benefit costs, incentive compensation, and 401(k) expense. In addition, the increase in noninterest expense is partially related to the reassignment of certain personnel to the Banking segment in connection with the merger of our subsidiary banks in October 2015.

Asset Management

Our Asset Management segment's operating income totaled \$0.4 million for the three months ended March 31, 2016 compared to \$10.9 million for the three months ended March 31, 2015. This increase was significantly impacted by the recording of a pre-tax bargain purchase gain in the amount of \$12.5 million associated with the acquisition of Doral Money in March 2015, offset by direct transaction costs of \$0.2 million and the accrual of a \$1.8 million incremental bonus expense for the anticipated amount expected to be paid to team members to recognize their contribution to the transaction. Excluding the bargain purchase gain net of transaction costs and the incremental bonus accrual, the asset management segment reported operating income of \$0.4 million for the three months ending March 31, 2015. Included in the three months ended March 31, 2016 compared to the three months ended March 31, 2015 result is an increase of \$0.7 million related to asset management fees earned by Triumph Capital Advisors which closed an additional CLO offering in June 2015, and assumed CLO asset management contracts in the March 2015 Doral Money acquisition. As of March 31, 2016, Triumph Capital Advisors managed \$1.852 billion of CLO assets earning approximately 35 basis points on average in asset management fees. These increases were offset in part by an increase in noninterest expenses of \$0.5 million from \$0.8 million for the three months ended March 31, 2015, to \$1.3 million for the three months ended March 31, 2016. Increased noninterest expenses, excluding the impact of the Doral Money acquisition expenses described above, were primarily related to the amortization of intangible assets recorded in conjunction with our acquisition of Doral Money as well as increases in personnel costs to support the growth in this segment.

Corporate

The Corporate segment's operating income totaled \$0.1 million for the three months ended March 31, 2016, compared with an operating loss of \$1.4 million for the three months ended March 31, 2015. The increase in loans and associated interest income at the holding company is primarily due to the investment in shared national credits purchased by the holding company during 2015. These shared national credits had a remaining balance of \$15.2 million as of March 31, 2016. Also included in the Corporate segment's increased operating income is an increase of \$0.6 million in noninterest income and a decrease of \$0.9 million in operating expenses for the three months ended March 31, 2016. The increase in noninterest income is primarily due to earnings associated with the Corporate segment's additional equity investments in CLO warehouse entities. The decrease in operating expenses is primarily related to the reassignment of certain personnel to the Banking segment in connection with the merger of our subsidiary banks in October 2015.

Financial Condition

Assets

Total assets were \$1.688 billion at March 31, 2016, compared to \$1.691 billion at December 31, 2015, a decrease of \$3 million, the components of which are discussed below.

Loan Portfolio

Loans held for investment were \$1.246 billion at March 31, 2016, compared with \$1.292 billion at December 31, 2015.

We offer a broad range of lending and credit products. Within our TBK Bank subsidiary, we offer a full range of lending products, including commercial real estate, construction and development, residential real estate, general commercial, mortgage warehouse facilities, farmland and consumer loans, focused on our community banking markets in Iowa and Illinois. We also originate a variety of commercial finance products offered on a nationwide

basis. These products include our factored receivables, the asset-based loans and equipment loans originated under our Triumph Commercial Finance brand, the healthcare asset-based loans originated under our Triumph Healthcare Finance brand, and the premium finance loans originated under our Triumph Premium Finance brand.

The following table shows our loan portfolio by portfolio segments as of March 31, 2016 and December 31, 2015:

(Dollars in thousands)	March 31, 2016		December 31, 2015	
		% of Total		% of Total
Commercial real estate	\$293,485	24 %	\$291,819	23 %
Construction, land development, land	41,622	3 %	43,876	3 %
1-4 family residential properties	76,973	6 %	78,244	6 %
Farmland	33,250	3 %	33,573	3 %
Commercial	509,433	41 %	495,356	38 %
Factored receivables	199,532	16 %	215,088	17 %
Consumer	13,530	1 %	13,050	1 %
Mortgage warehouse	78,015	6 %	120,879	9 %
Total Loans	\$1,245,840	100 %	\$1,291,885	100 %

Commercial Real Estate Loans. Our commercial real estate loans were \$293.5 million at March 31, 2016, an increase of \$1.7 million from \$291.8 million at December 31, 2015, due primarily to new loan origination activity during the three months ended March 31, 2016.

Construction and Development Loans. Our construction and development loans were \$41.6 million at March 31, 2016, a decrease of \$2.3 million from \$43.9 million at December 31, 2015, due primarily to paydowns that offset new loan activity for the period.

Residential Real Estate Loans. Our one-to-four family residential loans were \$77.0 million at March 31, 2016, a decrease of \$1.2 million from \$78.2 million at December 31, 2015, due primarily to paydowns that offset new loan activity for the period. As previously discussed, we made the decision to exit the residential mortgage production business in the fourth quarter of 2015. As a result, we expect our residential real estate loan balances to continue to decline as existing loans payoff.

Commercial Loans. Our commercial loans held for investment were \$509.4 million at March 31, 2016, an increase of \$14.0 million from \$495.4 million at December 31, 2015. This increase was driven by growth in the asset-based and equipment loans originated under our Triumph Commercial Finance brand as we continue to execute on our growth strategy for such products. In addition, premium finance loans originated under our Triumph Premium Finance brand continued to grow during the period. These increases were offset by slight decreases in our asset-based healthcare loans originated under our Triumph Healthcare Finance brand due to paydowns in excess of new advances during the period, primarily due to changes in the working capital needs of our clients. Our other commercial lending products, comprised primarily of general commercial loans originated in our community banking markets and purchased shared national credits, decreased from \$189.5 million at December 31, 2015 to \$180.9 million at March 31, 2016. A portion of this decrease was due to \$2.9 million of shared national credits being transferred to the held for sale classification during three months ended March 31, 2016 as these loans are being sold. The remaining decrease is a result of paydowns of commercial loans in our community banking markets in excess of new originations as we continue to experience pricing pressure for such loans. The following table shows our commercial loans as of March 31, 2016 and December 31, 2015:

March 31,

(Dollars in thousands)	2016	December 31, 2015
Commercial		
TCF equipment	\$ 159,755	\$ 148,951
TCF asset-based lending	85,739	75,134
THF asset-based lending	79,580	80,200
Premium finance	3,506	1,612
Other commercial lending	180,853	189,459
Total commercial loans	\$ 509,433	\$ 495,356

Factored Receivables. Our factored receivables were \$199.5 million at March 31, 2016, a decrease of \$15.6 million from \$215.1 million at December 31, 2015. The decrease was primarily due to the normal seasonal decline in purchase volume at our factoring subsidiary Triumph Business Capital, which was \$381.6 million during the three months ended March 31, 2016 compared to \$425.2 million for the three months ended December 31, 2015. In addition, lower diesel fuel prices contributed to a reduction in the average dollar amount of invoices purchased at Triumph Business Capital during the three months ended March 31, 2016 to \$1,295 compared to \$1,400 during the three months ended December 31, 2015. Offsetting the seasonal decreases at Triumph Business Capital, in part, was growth in factored receivables purchased under our Triumph Commercial Finance brand. Triumph Commercial Finance recorded purchase volumes of \$64.6 million and \$40.1 million for the three months ended March 31, 2016 and December 31, 2015, respectively.

Mortgage Warehouse. Our mortgage warehouse facilities maintained outstanding balances of \$78.0 million at March 31, 2016, a decrease of \$42.9 million from \$120.9 million at December 31, 2015. The decrease was primarily due to competitive pricing pressures during the period. Client utilization of mortgage warehouse facilities may experience significant fluctuation on a day-to-day basis given mortgage origination market conditions.

Other Loans. Our portfolio also includes real estate loans secured by farmland and consumer loans. All of these categories of loans in the aggregate were less than 5% of our total loan portfolio as of March 31, 2016 and December 31, 2015.

The following tables set forth the contractual maturities, including scheduled principal repayments, of our loan portfolio and the distribution between fixed and floating interest rate loans as of March 31, 2016.

(Dollars in thousands)	March 31, 2016				
	Less	One Year or	but within Five Years	After Five Years	Total
Commercial real estate	\$87,654	\$165,089	\$40,742	\$293,485	
Construction, land development, land	20,844	18,035	2,743	41,622	
1-4 family residential properties	7,977	29,694	39,302	76,973	
Farmland	2,776	19,234	11,240	33,250	
Commercial	139,554	339,502	30,377	509,433	
Factored receivables	199,532	—	—	199,532	
Consumer	1,223	7,156	5,151	13,530	
Mortgage warehouse	78,015	—	—	78,015	
	\$537,575	\$578,710	\$129,555	\$1,245,840	
Sensitivity of loans to changes in interest rates:					
Predetermined (fixed) interest rates		\$414,591	\$49,979		
Floating interest rates		164,119	79,576		
Total		\$578,710	\$129,555		

As of March 31, 2016, most of the Company's non-factoring business activity is with customers located within certain states. The states of Texas (31%), Illinois (30%), and Iowa (13%) and make up 74% of the Company's gross loans, excluding factored receivables. Therefore, the Company's exposure to credit risk is affected by changes in the economies in these states.

Further, a majority (76%) of our factored receivables, representing approximately 12% of our total loan portfolio as of March 31, 2016, are receivables purchased from trucking fleets and owner-operators in the transportation industry. Although such concentration may cause our future interest income with respect to our factoring operations to be correlated with demand for the transportation industry in the United States generally, and small-to-mid-sized operators in such industry specifically, we feel the credit risk with respect to our outstanding portfolio is appropriately mitigated

as we limit the amount of receivables acquired from individual debtors and creditors thereby achieving diversification across a number of companies and industries.

Nonperforming Assets

We have established procedures to assist us in maintaining the overall quality of our loan portfolio. In addition, we have adopted underwriting guidelines to be followed by our lending officers and require significant senior management review of proposed extensions of credit exceeding certain thresholds. When delinquencies exist, we rigorously monitor them for any negative or adverse trends. Our loan review procedures include approval of lending policies and underwriting guidelines by the Board of Directors of our bank subsidiary, independent loan review, approval of large credit relationships by our bank subsidiary's Management Loan Committee and loan quality documentation procedures. We, like other financial institutions, are subject to the risk that our loan portfolio will be subject to increasing pressures from deteriorating borrower credit due to general economic conditions.

The following table sets forth the allocation of our nonperforming assets among our different asset categories as of the dates indicated. We classify nonperforming assets as nonaccrual loans, loans modified under restructurings as a result of the borrower experiencing financial difficulties (“TDR”), factored receivables greater than 90 days past due, OREO, and other repossessed assets. The balances of nonperforming loans reflect the recorded investment in these assets, including deductions for purchase discounts.

(Dollars in thousands)	March 31, 2016	December 31, 2015		
Nonperforming loans:				
Commercial real estate	\$ 714	\$ 725		
Construction, land development, land	—	—		
1-4 family residential properties	632	551		
Farmland	—	—		
Commercial	10,167	3,281		
Factored receivables	2,553	1,931		
Consumer	37	—		
Mortgage warehouse	—	—		
Purchased credit impaired	7,127	6,867		
Total nonperforming loans	21,230	13,355		
Other real estate owned, net	7,478	5,177		
Other repossessed assets	345	—		
Total nonperforming assets	\$ 29,053	\$ 18,532		
Nonperforming assets to total assets	1.72	%	1.10	%
Nonperforming loans to total loans held for investment	1.70	%	1.03	%
Total past due loans to total loans held for investment	3.61	%	2.41	%

We had \$21.2 million and \$13.4 million in nonperforming loans, including nonaccrual PCI loans, as of March 31, 2016 and December 31, 2015, respectively. Nonperforming loans increased from December 31, 2015 to March 31, 2016, primarily due to the addition of three commercial finance loans totaling \$6.8 million, one of which was a relationship restructured as a TDR. We recorded an additional \$0.5 million of specific loan loss reserves against these balances during the three months ended March 31, 2016. As a result, the ratio of nonperforming loans to total loans increased to 1.70% at March 31, 2016 and, combined with the increase in our OREO balances, the our ratio of nonperforming assets to total assets increased to 1.72% at March 31, 2016 compared to 1.10% at December 31, 2015. We did experience a reported increase in our total past due loans to total loans during the three months ended March 31, 2016 to 3.61% from 2.41% at December 31, 2015. This increase was primarily attributable to a \$10.5 million commercial lending relationship that became delinquent at March 31, 2016 as a payment due at the loan’s renewal date was not received, but has subsequently returned to current status.

Our OREO as of March 31, 2016 totaled \$7.5 million, an increase of \$2.3 million from the \$5.2 million as of December 31, 2015, primarily due to the reclassification to OREO of two retail branch facilities that are no longer being actively operated as depository branches, one of which also supported our residential mortgage production business, which we have exited.

Potential problem loans consist of loans that are performing in accordance with contractual terms but for which management has concerns about the ability of an obligor to continue to comply with repayment terms because of the obligor’s potential operating or financial difficulties. Management monitors these loans and reviews their performance

on a regular basis. Potential problem loans contain potential weaknesses that could improve, persist or further deteriorate. At March 31, 2016 and December 31, 2015, we had \$12.4 million and \$13.9 million in loans of this type which are not included in any of the nonperforming loan categories. All of the loans identified as potential problem loans at March 31, 2016 and December 31, 2015 were graded as “substandard”.

Allowance for Loan and Lease Losses

ALLL is a valuation allowance for probable incurred credit losses. Loan losses are charged against the ALLL when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the ALLL. Management estimates the ALLL balance required using past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions and other factors. Allocations of the ALLL may be made for specific loans, but the entire allowance is available for any loan that, in management’s judgment, should be charged-off.

The following table sets forth the ALLL by category of loan:

	March 31, 2016			December 31, 2015		
	% of		ALLL	% of		ALLL
	Allocated Loan		to	Allocated Loan		to
(Dollars in thousands)	Allowance	Portfolio	Loans	Allowance	Portfolio	Loans
Commercial real estate	\$1,619	24	% 0.55 %	\$1,489	23	% 0.51 %
Construction, land development, land	198	3	% 0.48 %	367	3	% 0.84 %
1-4 family residential properties	285	6	% 0.37 %	274	6	% 0.35 %
Farmland	133	3	% 0.40 %	134	3	% 0.40 %
Commercial	5,331	41	% 1.05 %	5,276	38	% 1.07 %
Factored receivables	4,110	16	% 2.06 %	4,509	17	% 2.10 %
Consumer	222	1	% 1.64 %	216	1	% 1.66 %
Mortgage warehouse	195	6	% 0.25 %	302	9	% 0.25 %
Total Loans	\$12,093	100	% 0.97 %	\$12,567	100	% 0.97 %

From December 31, 2015 to March 31, 2016, the ALLL decreased from \$12.6 million or 0.97% of total loans to \$12.1 million or 0.97% of total loans. The decrease was principally driven by the \$46.0 million reduction in the loan portfolio during the three months ended March 31, 2016 combined with the low level of credit losses experienced in our portfolio. A lower level of credit losses impacts the historical loss rates used in the quantitative component of our required ALLL calculations, as more recent periods are more indicative of incurred losses than prior years in which we experienced higher loss rates, resulting in a lower required ALLL as a percentage of outstanding loan balances as of March 31, 2016. These reductions in the ALLL were offset in part by \$0.6 million of specific allowances recorded on impaired loans during the three months ended March 31, 2016.

The following table presents the unpaid principal and recorded investment for loans at March 31, 2016. The difference between the unpaid principal balance and recorded investment is principally associated with (1) premiums and discounts associated with acquisition date fair value adjustments on acquired loans (both PCI and non-PCI) of which approximately \$6.0 million is expected to be accretable into income over the remaining lives of the acquired loans, (2) net deferred origination costs and fees, and (3) previous charge-offs. The net difference can provide protection from credit loss in addition to the ALLL as future potential charge-offs for an individual loan is limited to the recorded investment plus unpaid accrued interest.

(Dollars in thousands)	Recorded	Unpaid	
March 31, 2016	Investment	Principal	Difference
Commercial real estate	\$293,485	\$300,151	\$(6,666)
Construction, land development, land	41,622	43,111	(1,489)
1-4 family residential properties	76,973	79,488	(2,515)
Farmland	33,250	33,208	42
Commercial	509,433	510,283	(850)
Factored receivables	199,532	200,621	(1,089)
Consumer	13,530	13,551	(21)
Mortgage warehouse	78,015	78,015	—

\$1,245,840 \$1,258,428 \$(12,588)

At March 31, 2016 and December 31, 2015, we had on deposit \$21.3 million and \$21.2 million, respectively, of customer reserves associated with factored receivables. These deposits represent customer reserves held to settle any payment disputes or collection shortfalls, may be used to pay customers' obligations to various third parties as directed by the customer, are periodically released to or withdrawn by customers, and are reported as deposits on our consolidated balance sheets.

The following table provides an analysis of the provisions for loan losses, net charge-offs and recoveries for the three months ended March 31, 2016 and 2015, and the effects of those items on our ALLL:

(Dollars in thousands)	Three Months Ended	
	March 31,	
	2016	2015
Balance at beginning of period	\$12,567	\$8,843
Loans charged-off:		
Commercial real estate	—	(89)
Construction, land development, land	—	—
1-4 family residential properties	(16)	(105)
Farmland	—	—
Commercial	—	(2)
Factored receivables	(8)	(67)
Consumer	(43)	(95)
Mortgage warehouse	—	—
Total loans charged-off	\$(67)	\$(358)
Recoveries of loans charged-off:		
Commercial real estate	1	41
Construction, land development, land	—	—
1-4 family residential properties	5	23
Farmland	—	—
Commercial	30	2
Factored receivables	49	30
Consumer	19	60
Mortgage warehouse	—	—
Total loans recoveries	\$104	\$156
Net recoveries (loans charged-off)	\$37	\$(202)
Provision for (reversal of) loan losses:		
Commercial real estate	129	590
Construction, land development, land	(169)	11
1-4 family residential properties	22	90
Farmland	(1)	7
Commercial	25	(7)
Factored receivables	(440)	(45)
Consumer	30	(21)
Mortgage warehouse	(107)	20
Total provision for loan losses	\$(511)	\$645
Balance at end of period	\$12,093	\$9,286
Average total loans held for investment	\$1,225,889	\$986,580
Net charge-offs to average total loans held for investment	0.00 %	0.02 %
Allowance to total loans held for investment	0.97 %	0.92 %

Net loan charge offs and recoveries were not significant for the three months ended March 31, 2016 and 2015. Net recoveries for the three months ended March 31, 2016 were \$0.04 million and net loans charged-off were \$0.2 million

for the three months ended March 31, 2015.

Loans Held for Sale

At March 31, 2016 and December 31, 2015, originated mortgage loans held for sale were \$0.2 million and \$1.3 million, respectively. Loan sales of \$2.0 million and \$19.7 million occurred during the three months ended March 31, 2016 and 2015, respectively, and resulted in recognized net gains on sale of \$0.01 million and \$0.5 million in the respective periods. At March 31, 2016 and December 31, 2015, no originated mortgage loans held for sale were on nonaccrual status.

The Company made the decision to exit the residential mortgage production business in the fourth quarter of 2015. We chose to exit this business as the infrastructure investments necessary to appropriately address the operational and compliance risk associated with the business outweighed the amount of profitability generated.

At March 31, 2016, other loans held for sale were \$2.8 million and included shared national credits held at the holding company pending sale. These loans were transferred to the held for sale classification during the three months ended March 31, 2016 and have subsequently been sold.

Securities

We held securities classified as available for sale with a fair value of \$161.5 million as of March 31, 2016, a decrease of \$1.7 million from \$163.2 million at December 31, 2015. The decrease is attributable to normal portfolio management activities, with the net reduction being attributed to normal sales, payment, and amortization activity. For the three months ended March 31, 2016, securities were sold resulting in proceeds of \$4.3 million, which approximated their carrying value. Our available for sale securities can be used for pledging to secure FHLB borrowings and public deposits, or can be sold to meet liquidity needs.

As of March 31, 2016, we have investments classified as held to maturity with an amortized cost of \$25.8 million. These securities were purchased during the three months ended March 31, 2016 and represent investments in "A" rated floating rate CLO securities. Credit spreads on these products widened early this year due to market volatility, providing an opportunity to purchase these securities at attractive risk-adjusted yields. We were able to leverage the expertise of our Triumph Capital Advisors team to underwrite and select the securities purchased. These floating rate CLO securities provide an initial yield of approximately 4.7% with an estimated average expected life of approximately 6.5 years. These are not CLO securities issued or managed by Triumph Capital Advisors, but by other large CLO managers.

The following tables set forth the amortized cost and average yield of our securities, by type and contractual maturity as of March 31, 2016:

	Maturity as of March 31, 2016									
	One Year or Less		After One but within Five Years		After Five but within Ten Years		After Ten Years		Total	
	Amortized Cost	Average Yield	Amortized Cost	Average Yield	Amortized Cost	Average Yield	Amortized Cost	Average Yield	Amortized Cost	Average Yield
(Dollars in thousands)	Cost	Yield	Cost	Yield	Cost	Yield	Cost	Yield	Cost	Yield

-----------------------------	-----	---	-----	---	-----	---	----------	--------	----------	--------

Liabilities

Our total liabilities were \$1.414 billion as of March 31, 2016, a decrease of only \$9 million, from \$1.423 billion at December 31, 2015. The net change was primarily due to an \$11 million increase in customer deposits, offset by a \$20 million decrease in Federal Home Loan advances.

Deposits

Deposits represent our primary source of funds. We intend to continue to focus on growth in transactional deposit accounts as part of our growth strategy, both in our existing branch networks and through targeted acquisitions.

Our total deposits were \$1.260 billion as of March 31, 2016, compared to \$1.249 billion as of December 31, 2015, an increase of \$11 million. As of March 31, 2016, interest bearing demand deposits, noninterest bearing deposits, money market deposits and savings deposits accounted for 46% of our total deposits, while individual retirement accounts and certificates of deposit made up 54% of total deposits. The average cost of interest bearing deposits was 0.74% and 0.64% for the three months ended March 31, 2016 and 2015, respectively, on an annualized basis.

Edgar Filing: Triumph Bancorp, Inc. - Form 10-Q

The following table summarizes our average deposit balances and weighted average rates for the three month periods ended March 31, 2016 and 2015:

(Dollars in thousands)	Three Months Ended March 31, 2016			Three Months Ended March 31, 2015		
	Average Balance	Weighted Avg Yields	% of Total	Average Balance	Weighted Avg Yields	% of Total
Noninterest bearing demand	\$160,378	—	13 %	\$160,875	—	14 %
Interest bearing demand	220,841	0.10 %	18 %	230,455	0.06 %	20 %
Individual retirement accounts	61,912	1.24 %	5 %	55,369	1.14 %	5 %
Money market	112,226	0.23 %	9 %	119,199	0.23 %	10 %
Savings	76,551	0.05 %	6 %	72,034	0.05 %	6 %
Certificates of deposit	561,675	1.11 %	45 %	468,573	1.02 %	41 %
Brokered deposits	49,997	1.01 %	4 %	50,003	1.01 %	4 %
Total	\$1,243,580	0.64 %	100 %	\$1,156,508	0.55 %	100 %

The increase in the average balance of certificates of deposit as a percentage of average total deposits was due to a change in the mix of our interest bearing deposits toward higher rate certificates of deposit as these deposit products were used in part to fund our organic loan growth period over period.

The following table provides information on the maturity distribution of time deposits with individual balances of \$100,000 to \$250,000 and of time deposits with individual balances of \$250,000 or more as of March 31, 2016:

(Dollars in thousands)	\$100,000 to \$250,000	\$250,000 and Over	Total
Maturity			
3 months or less	\$52,363	\$12,917	\$65,280
Over 3 through 6 months	72,086	37,957	110,043
Over 6 through 12 months	108,819	36,196	145,015
Over 12 months	63,464	20,976	84,440
	\$296,732	\$108,046	\$404,778

Other Borrowings

Customer Repurchase Agreements

Customer repurchase agreements outstanding totaled \$9.6 million at March 31, 2016 and \$9.3 million at December 31, 2015. Our customer repurchase agreements generally have maturities that fall within one year.

Variances in these balances are attributable to normal customer behavior and seasonal factors affecting their liquidity positions. The following provides a summary of our customer repurchase agreements as of and for the three months ended March 31, 2016 and the year ended December 31, 2015:

	March 31, 2016	December 31, 2015		
(Dollars in thousands)				
Amount outstanding at end of period	\$9,641	\$ 9,317		
Weighted average interest rate at end of period	0.02 %	0.02 %		
Average daily balance during the year	\$10,371	\$ 13,158		
Weighted average interest rate during the year	0.02 %	0.02 %		
Maximum month-end balance during the year	\$10,515	\$ 16,033		

FHLB Advances

As part of our overall funding and liquidity management program, from time to time we borrow from the Federal Home Loan Bank. Our FHLB advances are collateralized by assets, including a blanket pledge of certain loans. Our FHLB borrowings totaled \$110.0 million as of March 31, 2016 and \$130.0 million as of December 31, 2015. The FHLB borrowings outstanding as of March 31, 2016 are long term borrowings maturing after one but within three years. As of March 31, 2016 and December 31, 2015, we had \$153.7 million and \$150.3 million, respectively, in unused and available advances from the FHLB. The increase in our average borrowing capacity from the year ended December 31, 2015 to the three months ended March 31, 2016 was primarily the result of the new inclusion of mortgage warehouse facilities in our borrowing base with the FHLB, which began in late 2015.

The following provides a summary of our FHLB advances as of and for the three months ended March 31, 2016 and the year ended December 31, 2015:

(Dollars in thousands)	March 31, 2016	December 31, 2015
Amount outstanding at end of period	\$ 110,000	\$ 130,000
Weighted average interest rate at end of period	0.36 %	0.32 %
Average amount outstanding during the period	121,057	34,244
Weighted average interest rate during the period	0.36 %	0.19 %
Highest month end balance during the period	130,000	130,000

Junior Subordinated Debentures

We have two junior subordinated debentures outstanding with a combined face value of \$33.0 million. These debentures are unsecured obligations and were issued to two trusts that are unconsolidated subsidiaries. The trusts in turn issued trust preferred securities with identical payment terms to unrelated investors. The debentures mature in September 2033 and July 2036 and may be called at par plus any accrued but unpaid interest; however, we have no current plans to redeem them prior to maturity. Interest on the debentures is calculated quarterly, based on a rate equal to three month LIBOR plus a weighted average spread of 2.28%. As part of the purchase accounting adjustments made with the Triumph Community Bank acquisition, we adjusted the carrying value of the junior subordinated debentures to fair value as of October 15, 2013. The junior subordinated debentures had a combined carrying value of \$24.8 million as of March 31, 2016 and \$24.7 million as of December 31, 2015, and the discount will continue to be amortized through maturity and recognized as a component of interest expense.

The debentures are included on our consolidated balance sheet as liabilities; however, for regulatory purposes, these obligations are eligible for inclusion in regulatory capital, subject to certain limitations. All of the carrying value of \$24.8 million and \$24.7 million was allowed in the calculation of Tier I capital as of March 31, 2016 and December 31, 2015, respectively.

Capital Resources and Liquidity Management

Capital Resources

Our stockholders' equity totaled \$274.1 million as of March 31, 2016, an increase of \$6.1 million from \$268.0 million as of December 31, 2015. Stockholders' equity increased during this period primarily due to net income for the period of \$5.0 million. Offsetting this increase were preferred dividends paid on our Series A and Series B preferred stock.

Liquidity Management

We define liquidity as our ability to generate sufficient cash to fund current loan demand, deposit withdrawals, or other cash demands and disbursement needs, and otherwise to operate on an ongoing basis.

We manage liquidity at the holding company level as well as that of our bank subsidiary. The management of liquidity at both levels is critical, because the holding company and our bank subsidiary have different funding needs and sources, and each are subject to regulatory guidelines and requirements which require minimum levels of liquidity. We believe that our liquidity ratios meet or exceed those guidelines and our present position is adequate to meet our current and future liquidity needs.

Our liquidity requirements are met primarily through cash flow from operations, receipt of pre-paid and maturing balances in our loan and investment portfolios, debt financing and increases in customer deposits. Our liquidity position is supported by management of liquid assets and liabilities and access to other sources of funds. Liquid assets include cash, interest-earning deposits in banks, federal funds sold, securities available for sale and maturing or prepaying balances in our investment and loan portfolios. Liquid liabilities include core deposits, federal funds purchased, securities sold under repurchase agreements and other borrowings. Other sources of funds include the sale of loans, brokered deposits, the issuance of additional collateralized borrowings such as FHLB advances, the issuance of debt securities and the issuance of common securities. For additional information regarding our operating, investing and financing cash flows, see the Consolidated Statements of Cash Flows provided in our consolidated financial statements.

In addition to the liquidity provided by the sources described above, our subsidiary bank maintains correspondent relationships with other banks in order to sell loans or purchase overnight funds should additional liquidity be needed. As of March 31, 2016, TBK Bank had unsecured federal funds lines of credit with six unaffiliated banks totaling \$122.5 million, with no amounts advanced against those lines at that time.

Regulatory Capital Requirements

Our capital management consists of providing equity to support our current and future operations. We are subject to various regulatory capital requirements administered by federal and state banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's or TBK Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and TBK Bank each must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off balance sheet items as calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

The Company is subject to the Basel III regulatory capital framework. Beginning in January 2016, the implementation of the capital conservation buffer was effective for the Company starting at the 0.625% level and increasing 0.625% each year thereafter, until it reaches 2.5% on January 1, 2019. The capital conservation buffer is designed to absorb losses during periods of economic stress and requires increased capital levels for the purpose of capital distributions and other payments. Failure to meet the full amount of the buffer will result in restrictions on the Company's ability to make capital distributions, including dividend payments and stock repurchases, and to pay discretionary bonuses to executive officers.

Quantitative measures established by regulations to ensure capital adequacy require the Company and TBK Bank to maintain minimum amounts and ratios (as set forth in the table below) of total, Tier 1, and common equity Tier 1 capital to risk weighted assets, and of Tier 1 capital to average assets. Management believes, as of March 31, 2016, the Company and TBK Bank meet all capital adequacy requirements to which they are subject, including the capital buffer requirement.

As of March 31, 2016, TBK Bank's capital ratios exceeded those levels necessary to be categorized as "well capitalized" under the regulatory framework for prompt corrective action. To be categorized as "well capitalized", TBK Bank must maintain minimum total risk based, common equity Tier 1 risk based, Tier 1 risk based, and Tier 1 leverage ratios as set forth in the table below. There are no conditions or events since March 31, 2016 that management believes would have changed TBK Bank's category.

The actual capital amounts and ratios for the Company and TBK Bank are presented in the following table as of March 31, 2016.

(Dollars in thousands) As of March 31, 2016	Actual		Minimum for Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Total capital (to risk weighted assets)						
Triumph Bancorp, Inc.	\$280,547	19.7%	\$114,218	8.0%	N/A	N/A
TBK Bank, SSB	\$208,647	15.2%	\$110,177	8.0%	\$137,721	10.0%
Tier 1 capital (to risk weighted assets)						
Triumph Bancorp, Inc.	\$268,305	18.8%	\$85,675	6.0%	N/A	N/A

Edgar Filing: Triumph Bancorp, Inc. - Form 10-Q

TBK Bank, SSB	\$196,489	14.3%	\$82,674	6.0%	\$110,232	8.0%
Common equity Tier 1 capital (to risk weighted assets)						
Triumph Bancorp, Inc.	\$237,317	16.6%	\$64,256	4.5%	N/A	N/A
TBK Bank, SSB	\$196,489	14.3%	\$62,006	4.5%	\$89,564	6.5%
Tier 1 capital (to average assets)						
Triumph Bancorp, Inc.	\$268,305	16.2%	\$66,085	4.0%	N/A	N/A
TBK Bank, SSB	\$196,489	12.4%	\$63,231	4.0%	\$79,038	5.0%

Contractual Obligations

The following table summarizes our contractual obligations and other commitments to make future payments as of March 31, 2016 excluding purchase accounting adjustments for our junior subordinated debentures and deposits. The amount of the obligations presented in the table reflects principal amounts only and excludes the amount of interest we are obligated to pay. Also excluded from the table are a number of obligations to be settled in cash. These excluded items are reflected in our consolidated balance sheet and include deposits with no stated maturity, trade payables, and accrued interest payable.

(Dollars in thousands)	Payments Due by Period - March 31, 2016				
	Total	Less	After One Year or	After Three but within Five Years	After Five Years
Customer repurchase agreements	\$9,641	\$9,641	\$—	\$—	\$—
Federal Home Loan Bank advances	110,000	—	110,000	—	—
Junior subordinated debentures	32,990	—	—	—	32,990
Operating lease agreements	6,784	1,647	2,871	2,177	89
Time deposits with stated maturity dates	683,026	519,352	145,465	18,209	—
Total contractual obligations	\$842,441	\$530,640	\$258,336	\$20,386	\$33,079

Off-Balance Sheet Arrangements

In the normal course of business, we enter into various transactions, which, in accordance with GAAP, are not included in our consolidated balance sheets. We enter into these transactions to meet the financing needs of our customers. These transactions include commitments to extend credit and standby and commercial letters of credit, which involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amounts recognized in the consolidated balance sheets.

The following table details our commitments associated with outstanding standby and commercial letters of credit and commitments to extend credit. Since commitments associated with letters of credit and commitments to extend credit may expire unused, the amounts shown do not necessarily reflect actual future cash funding requirements.

(Dollars in thousands)	March 31, 2016	December 31, 2015
Commitments to make loans	\$35,814	\$9,520
Unused lines of credit	129,974	116,703
Standby letters of credit	3,262	3,029
Total other commitments	\$169,050	\$129,252

Critical Accounting Policies and Estimates

Our accounting policies are fundamental to understanding our management's discussion and analysis of our results of operations and financial condition. We have identified certain significant accounting policies which involve a higher degree of judgment and complexity in making certain estimates and assumptions that affect amounts reported in our consolidated financial statements. The significant accounting policies which we believe to be the most critical in preparing our consolidated financial statements relate to originated loans, purchased loans, factored receivables, ALLL, goodwill and intangibles, and fair values of financial instruments. Since December 31, 2015, there have been no changes in critical accounting policies as further described under "Critical Accounting Policies and Estimates" and in Note 1 to the Consolidated Financial Statements in our 2015 Form 10-K.

Recently Issued Accounting Pronouncements

See Note 1 – Summary of Significant Accounting Policies in the accompanying condensed notes to consolidated financial statements included elsewhere in this report for details of recently issued accounting pronouncements and their expected impact on our consolidated financial statements.

Forward-Looking Statements

This document contains forward-looking statements pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect our current views with respect to, among other things, future events and our financial performance. These statements are often, but not always, made through the use of words or phrases such as “may,” “should,” “could,” “predict,” “potential,” “believe,” “will likely result,” “expect,” “will,” “anticipate,” “seek,” “estimate,” “intend,” “plan,” “projection,” “would” and “outlook,” or the negative version of those other comparable of a future or forward-looking nature. These forward-looking statements are not historical facts and are based on current expectations, estimates and projections about our industry, management’s beliefs and certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond our control. Accordingly, we caution you that any such forward-looking statements are not guarantees of future performance and are subject to risks, assumptions and uncertainties that are difficult to predict. Although we believe that the expectations reflected in these forward-looking statements are reasonable as of the date made, actual results may prove to be materially different from the results expressed or implied by the forward-looking statements.

There are or will be important factors that could cause our actual results to differ materially from those indicated in these forward-looking statements, including, but are not limited to, the following:

- our limited operating history as an integrated company and our recent acquisitions;
- business and economic conditions generally and in the bank and non-bank financial services industries, nationally and within our local market area;
- our ability to mitigate our risk exposures;
- our ability to maintain our historical earnings trends;
- risks related to the integration of acquired businesses (including our pending acquisition of ColoEast Bankshares, Inc.) and any future acquisitions;
- changes in management personnel;
- interest rate risk;
- concentration of our factoring services in the transportation industry;
- credit risk associated with our loan portfolio;
- lack of seasoning in our loan portfolio;
- deteriorating asset quality and higher loan charge-offs;
- time and effort necessary to resolve nonperforming assets;
- inaccuracy of the assumptions and estimates we make in establishing reserves for probable loan losses and other estimates;
- lack of liquidity;
 - fluctuations in the fair value and liquidity of the securities we hold for sale;
- impairment of investment securities, goodwill, other intangible assets or deferred tax assets;
- risks related to our acting as the asset manager for one or more CLOs;
- our risk management strategies;
- environmental liability associated with our lending activities;
- increased competition in the bank and non-bank financial services industries, nationally, regionally or locally, which may adversely affect pricing and terms;
- the obligations associated with being a public company;
- the accuracy of our financial statements and related disclosures;
- material weaknesses in our internal control over financial reporting;
- system failures or failures to prevent breaches of our network security;
- the institution and outcome of litigation and other legal proceedings against us or to which we become subject;
- changes in carry-forwards of net operating losses;

- changes in federal tax law or policy;
- the impact of recent and future legislative and regulatory changes, including changes in banking, securities and tax laws and regulations, such as the Dodd-Frank Act and their application by our regulators;
- governmental monetary and fiscal policies;
- changes in the scope and cost of FDIC, insurance and other coverages;
- failure to receive regulatory approval for future acquisitions;
- increases in our capital requirements; and
- risk retention requirements under the Dodd-Frank Act.

The foregoing factors should not be construed as exhaustive. If one or more events related to these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from what we anticipate. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made and we do not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise. New factors emerge from time to time and it is not possible for us to predict which will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

ITEM 3

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

Asset/Liability Management and Interest Rate Risk

The principal objective of our asset and liability management function is to evaluate the interest rate risk within the balance sheet and pursue a controlled assumption of interest rate risk while maximizing net income and preserving adequate levels of liquidity and capital. The Board of Directors of our subsidiary bank has oversight of our asset and liability management function, which is managed by our Chief Financial Officer. Our Chief Financial Officer meets with our senior executive management team regularly to review, among other things, the sensitivity of our assets and liabilities to market interest rate changes, local and national market conditions and market interest rates. That group also reviews our liquidity, capital, deposit mix, loan mix and investment positions.

As a financial institution, our primary component of market risk is interest rate volatility. Fluctuations in interest rates will ultimately impact both the level of income and expense recorded on most of our assets and liabilities, and the fair value of all interest-earning assets and interest-bearing liabilities, other than those which have a short term to maturity. Interest rate risk is the potential of economic losses due to future interest rate changes. These economic losses can be reflected as a loss of future net interest income and/or a loss of current fair values.

We manage our exposure to interest rates primarily by structuring our balance sheet in the ordinary course of business. We do not typically enter into derivative contracts for the purpose of managing interest rate risk, but we may elect to do so in the future. Based upon the nature of our operations, we are not subject to foreign exchange or commodity price risk. We do not own any trading assets.

We use an interest rate risk simulation model to test the interest rate sensitivity of net interest income and the balance sheet. Instantaneous parallel rate shift scenarios are modeled and utilized to evaluate risk and establish exposure limits

for acceptable changes in projected net interest margin. These scenarios, known as rate shocks, simulate an instantaneous change in interest rates and use various assumptions, including, but not limited to, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, reinvestment and replacement of asset and liability cash flows. We also analyze the economic value of equity as a secondary measure of interest rate risk. This is a complementary measure to net interest income where the calculated value is the result of the fair value of assets less the fair value of liabilities. The economic value of equity is a longer term view of interest rate risk because it measures the present value of all future cash flows. The impact of changes in interest rates on this calculation is analyzed for the risk to our future earnings and is used in conjunction with the analyses on net interest income.

The following table summarizes simulated change in net interest income versus unchanged rates as of March 31, 2016 and December 31, 2015:

	March 31, 2016		December 31, 2015	
	Months		Months	
	Following		Following	
	12 Months	3-24	12 Months	3-24
+400 basis points	7.1 %	0.0 %	5.5 %	(1.7 %)
+300 basis points	5.3 %	0.0 %	3.9 %	(1.4 %)
+200 basis points	3.5 %	(0.2 %)	2.3 %	(1.2 %)
+100 basis points	1.7 %	(0.1 %)	0.9 %	(0.7 %)
Flat rates	0.0 %	0.0 %	0.0 %	0.0 %
-100 basis points	(2.2 %)	(1.9 %)	(1.9 %)	(1.6 %)

The following table presents the change in our economic value of equity as of March 31, 2016 and December 31, 2015, assuming immediate parallel shifts in interest rates:

	Economic Value of Equity at Risk (%)			
	March 31, 2016		December 31, 2015	
+400 basis points	2.7	%	0.2	%
+300 basis points	2.1	%	(0.2)	%
+200 basis points	0.9	%	(1.0)	%
+100 basis points	0.0	%	(1.2)	%
Flat rates	0.0	%	0.0	%
-100 basis points	(7.1)	%	(5.9)	%

Many assumptions are used to calculate the impact of interest rate fluctuations. Actual results may be significantly different than our projections due to several factors, including the timing and frequency of rate changes, market conditions and the shape of the yield curve. The computations of interest rate risk shown above do not include actions that our management may undertake to manage the risks in response to anticipated changes in interest rates, and actual results may also differ due to any actions taken in response to the changing rates.

As part of our asset/liability management strategy, our management has emphasized the origination of shorter duration loans as well as variable rate loans to limit the negative exposure to a rate increase. We also desire to acquire deposit transaction accounts, particularly noninterest or low interest-bearing non-maturity deposit accounts, whose cost is less sensitive to changes in interest rates. We intend to focus our strategy on utilizing our deposit base and operating platform to increase these deposit transaction accounts.

ITEM 4

CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q was performed under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply judgment in evaluating its controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms.

Changes in internal control over financial reporting. There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

From time to time we are a party to various litigation matters incidental to the conduct of our business. We are not presently party to any legal proceedings the resolution of which we believe would have a material adverse effect on our business, prospects, financial condition, liquidity, results of operation, cash flows or capital levels.

Trademark Infringement Lawsuit

On February 18, 2015, a trademark infringement suit was filed in the United States District Court for the Western District of Tennessee Western Division against the Company and certain subsidiaries by Triumph Bancshares, Inc. and Triumph Bank, N.A., asserting that the Company's use of "Triumph" as part of the Company's trademarks and domain names causes a likelihood of confusion, has caused actual confusion, and infringes plaintiffs' trademarks. The suit seeks damages as well as an injunction to prevent the use of the name "Triumph" and certain other matters with respect to the Company and its subsidiaries. Discovery has commenced in the suit and a trial date is currently set for October 2016.

Item 1A. Risk Factors

There have been no material changes in the Company's risk factors from those disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

Exhibits (Exhibits marked with a “†” denote management contracts or compensatory plans or arrangements)

- 2.1 Agreement and Plan of Merger, dated as of March 6, 2016, by and among ColoEast Bankshares, Inc., Triumph Bancorp, Inc. and Peak Acquisition Corp., incorporated by reference to Exhibit 2.1 to Form 8-K filed with the SEC on March 7, 2016.
