Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of The Manitowoc Company, Inc. Retirement Savings Plan (the “Plan”) as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the related notes (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years ended December 31, 2017 and 2016, in conformity with accounting principles generally accepted in the United States.

Basis for Opinion

These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on the Plan’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the

Plan's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use of Estimates

The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are commingled with another plan of The Manitowoc Company, Inc. in The Manitowoc Company, Inc. Employees' Profit Sharing Trust (the "Master Trust"). For a period, January 1, 2016 through March 4, 2016, investments were commingled with two additional plans that participated in The Manitowoc Company, Inc. Employees' Profit Sharing Trust (the "Master Trust"): Manitowoc Foodservice 401(K) Retirement Plan and Manitowoc Foodservice Retirement Savings Plan.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded at December 31, 2017 or 2016. If a participant ceases to make loan payments and the plan administrator deems the participant loan to be in default and the participant has reached a distributable event, the participant loan balance is reduced and a benefit payment is recorded.

Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are either paid directly from the assets of the Master Trust, or through revenue sharing and included in administrative expenses.

Subsequent Events

Subsequent events have been evaluated through the date the financial statements were issued.

New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (a consensus of the Emerging Issues Task Force). ASU 2017-06 clarify presentation requirements for a plan's interest in a master trust and require more detailed disclosures of the plan's interest in the master trust. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018 with early adoption permitted and will be applied retrospectively to each period where financial statements are presented. The Company is currently evaluating the impact the adoption of the standard will have on the Plan's financial statements and disclosures.

The Manitowoc Company, Inc. Retirement Savings Plan

Notes to Financial Statements

Note 3 Investments in the Master Trust

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and other retirement plans sponsored by The Manitowoc Company, Inc. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by BMO Harris Bank, N.A. ("BMO").

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss), actual distributions, and allocated administrative expenses. At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 10% and 16%, respectively.

Trust and certain administrative expenses are specifically identified with the particular plan. Investment income (loss) and certain administrative expense relating to the Master Trust are allocated to the individual plans based on the ratio of the investment balances of the plans.

Transfers in and out of the Master Trust and certain administrative expenses are specifically identified with the particular plan. Investment income and certain administrative expenses relating to the Master Trust are allocated to the individual plans based on the ratio of the investment balances of the plans.

Resulting from the separation of The Manitowoc Company into two separate publicly-traded companies on March 4, 2016, this plan was split into two plans effective January 1, 2016. The amount of the assets attributable to the Manitowoc Foodservice employees, \$67,798,133, was transferred to Manitowoc Foodservice Retirement Savings Plan.

Note 4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

• Quoted prices for similar assets or liabilities in active markets.

• Quoted prices for identical or similar assets or liabilities in inactive markets.

• Inputs other than quoted prices that are observable for the asset or liability.

• Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

## Notes to Financial Statements

## Note 4 Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2017 and 2016.

Common/collective trust funds: Valued at the net asset value (NAV) of units held by the Plan at year-end, provided by the administrator of the fund. The NAV is based on the value of the underlying assets of the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Mutual funds: Valued at the NAV provided by the administrator of the fund. The NAV is a quoted price in an active market.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2017 and 2016:

Transactions involving The Manitowoc Company, Inc. common stock and notes receivable from participants are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of ERISA regulations.

Certain plan investments are common/collective trust funds and a money market fund managed by BMO. Notes to Financial Statements

Note 7 Partial Plan Termination

As a result of a reduction of the Plan Sponsor's workforce, due to the separation of The Manitowoc Company into two separate publicly traded companies, in 2016 the Plan experienced a partial plan termination, as defined by ERISA. A significant percentage of the Plan participants were terminated in The Manitowoc Company, Inc. Retirement Savings Plan and transferred to the Manitowoc Foodservice Retirement Savings Plan, which is currently sponsored by Welbilt.

All affected employees who were participants in the Plan were fully vested in their account balances on October 1, 2016, the date of the partial plan termination.

The Manitowoc Company, Inc. intends to continue the Plan indefinitely; however, the Company reserves the right to terminate the Plan at any time. In the event of termination, all amounts credited to participants' accounts shall become 100% vested and distributed to participants in accordance with the Plan's provisions.

Note 8 Tax-Exempt Status of the Plan

On November 9, 2017 the IRS declared that the Plan is qualified pursuant to Section 401 of the IRC. Plan management believes any amendments and events since the effective date of the last IRS determination letter do not affect the qualified status of the Plan. Accordingly, the Plan is exempt from federal and state income taxes under current provisions of their respective laws.

## Note 10 Risks and Uncertainties

The Master Trust's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## Note 11 Voluntary Correction Program

The Company filed a Voluntary Correction Program (VCP) submission with the IRS on January 31, 2011, to address the manner, in which the Plan's hardship and in-service distributions were approved for plan participants. These items did not have a material impact on the Plan's net assets available for benefits, and the Company does not expect the VCP submission to affect the Plan's tax status. As of December 31, 2017, the submission is still outstanding.
