(1) Amounts in the *Salary* column are composed of executive salaries, and additional days of pay earned for years with more than the standard 260 calendar workdays and holidays.

(2)

Amounts in the *Bonus* column reflect awards under the Senior Officer Annual Incentive Compensation Plan (SOIP) for 2003 and 2004, except for Mr. Fayne whose 2004 bonus was paid as part of a severance agreement. Payments pursuant to the SOIP are made in the first quarter of the succeeding fiscal year for performance in the year indicated. No SOIP awards were made for 2002, but Messrs. Powers and Fayne and Ms. Tomasky received payments of \$49,116 each in February 2002 in recognition of their efforts in connection with a management reorganization. The amount in the Bonus column for Ms. Koepfel in 2002 represents a payment for successfully completing the sale of certain international investments.

- (3) Amounts shown in *Other Annual Compensation* include perquisites if the aggregate amount of such benefits exceeds \$50,000. For Mr. Morris, the amount shown for 2004 includes the incremental cost associated with his personal use of the Company's airplane of \$250,487 and premiums for life insurance that the Company funds on his behalf of \$141,403. The *Other Annual Compensation* also includes tax gross-up payments for Mr. Morris and the other named executive officers.
- (4) Mr. Morris received an award of 300,000 restricted shares granted under the Company's 2000 Long-Term Incentive Plan upon his employment with AEP. The award was made on January 2, 2004. 50,000 shares vested on January 1, 2005 and 50,000 shares vest on January 1, 2006. The remaining 200,000 shares of restricted stock were granted as a replacement for certain long-term compensation that Mr. Morris forfeited from his prior employer in order to accept his position at AEP. These shares vest, subject to his continued employment, in three equal components on November 30, 2009, November 30, 2010 and November 30, 2011, respectively. The value of the restricted stock as of December 31, 2004 (\$10,302,000) is determined by multiplying the total number of shares held by the closing price of AEP Common Stock on the New York Stock Exchange on December 31, 2004. Dividends are paid on all restricted shares at the same rate as paid on AEP's Common Stock.
- (5) Amounts in the *Long-Term Compensation - Payouts* column generally reflect phantom stock units resulting from performance share units issued under the AEP 2000 Long-Term Incentive Plan. However, no shares were earned under this or any other plan in the periods shown. The December 10, 2003 through December 31, 2004 performance period did result in an award score of 123.1% of the target award and accrued dividends. However, these shares have not vested and will not generally vest until December 31, 2006, subject to the participant's continued employment. Therefore, the payout for these performance shares will be reported for 2006 if and when they vest. See below under *Long-Term Incentive Plans - Awards in 2004* and page 26 for additional information.
- (6) Amounts in the *All Other Compensation* column for 2004, except for additional compensation to Messrs. Morris and Fayne disclosed in footnotes (7) and (8), include (i) AEP's matching contributions under the AEP Retirement Savings Plan and the AEP Supplemental Retirement Savings Plan, a non-qualified plan designed to supplement the AEP Retirement Savings Plan; (ii) relocation and temporary living expenses and (iii) subsidiary companies' director fees. Detail of the 2004 amounts included in the *All Other Compensation* column is shown below.

- (7) No 2002 or 2003 compensation information is reported for Mr. Morris because he was not an executive officer in those years. Club initiation fees of \$85,163 were included in the *All Other Compensation* column for Mr. Morris.
- (8) In July 2004, AEP realigned its management team and Mr. Fayne ceased being an executive officer of AEP and was assigned other responsibilities. He left active employment on December 31, 2004 with 31 years of service and, as a result, was paid severance compensation of \$814,039 and accrued vacation pay of \$105,971 that is included in the *All Other Compensation* column. He also received a bonus of \$309,000, which is included in the *Bonus* column.

### Option Grants in 2004

#### Individual Grants

Name	Number of Securities Underlying Options Granted(#)(1)	Percent Of Total Options Granted to Employees In 2004	Exercise or Base Price (\$/Sh)	Grant Date Expiration	Grant Date Present Value (\$)(2)
M. G. Morris	149,000	100%	\$ 30.76	1-2-2014	902,940

- (1) Mr. Morris is the only executive officer named in the Summary Compensation Table who was granted options in 2004. Upon his hire, the HR Committee granted 149,000 stock options to Mr. Morris pursuant to his employment agreement. All other executives named in the Summary Compensation Table were granted options in December 2003. Mr. Morris' options were granted on January 2, 2004 and have an exercise price of \$30.76, which is equal to the closing price of AEP Common Stock on the New York Stock Exchange on that date. Mr. Morris' options will vest in three approximately equal annual amounts beginning on January 1, 2005. These options also fully vest upon termination due to retirement, death or for such other circumstances as the HR Committee determines warrant vesting and continuation of these options. In the above circumstances, these options will expire on the

earlier of five years from the date of termination or death, or the original expiration date. All AEP stock options may also vest as the result of a change-in-control of AEP (see discussion of the *Change-in-Control Agreements* on page 31) and expire upon termination of employment for reasons other than retirement, disability or death, unless the HR Committee determines that circumstances warrant continuation of the options for up to five years. Options are nontransferable.

- (2) Value was calculated using the Black-Scholes option valuation model. The actual value, if any, ultimately realized depends on the market value of AEP Common Stock at a future date.

Significant assumptions for the grant on January 2, 2004 are shown below:

Stock Price Volatility	28.17%	Dividend Yield	4.84%
Risk-Free Rate of Return	4.14%	Option Term	7 years

\* Based on the difference between the closing price of AEP Common Stock on the New York Stock Exchange on December 31, 2004 (\$34.34) and the option exercise price. 'In-the-money' means the market price of the stock is greater than the exercise price of the option on the date indicated.

**Long-Term Incentive Plans - Awards In 2004**

Mr. Morris is the only executive officer named in the Summary Compensation Table who received awards in 2004. Pursuant to his employment contract, Mr. Morris was awarded performance share units in January 2004, pursuant to the Company's 2000 Long-Term Incentive Plan. All other executives named in the Summary Compensation Table received awards for the same period of performance in December 2003, which were previously reported in AEP's 2004 Proxy Statement. Although Mr. Morris' individual performance period was less than one year, the performance period measured exceeded one year. Mr. Morris' award is described here and in footnote 5 to the Summary Compensation Table under LTIP Payouts for consistency with the other named executive officers. Performance share units are generally equivalent to shares of AEP Common Stock. Dividends are reinvested in additional performance share units for the same performance and vesting period using the closing price of the AEP Common Stock on the dividend payment date. The value of the performance share unit awards is dependent on the Company's total shareholder return for the applicable performance period relative to the S&P electric utilities, the market price of AEP Common Stock at the end of the performance period, the value of dividends paid during the performance period, the AEP Common Stock price on each dividend payment date and AEP's earnings per share versus a target established by the HR Committee.

The number of common stock equivalent units that may be earned at threshold, target and maximum performance levels, excluding any reinvested dividends, is shown in the table below. The HR Committee may, in its discretion, reduce the number of performance share unit targets otherwise earned. In accordance with the performance goals established for the periods set forth below, the threshold, target and maximum awards are equal to 20%, 100% and 200%, respectively, of the performance share unit awards.

Deferral of earned performance share units into phantom AEP Stock Units (equivalent to shares of AEP Common Stock) is mandatory until the officer has met his or her stock ownership requirements discussed in the *Human Resources Committee Report on Executive Compensation*. Once their stock ownership requirement is met, officers may elect to continue to defer earned performance share units or to receive subsequently earned awards in cash and/or AEP Common Stock.

Name	Number of Performance Share Units	Performance Period Until Maturation or Payout	Estimated Future Payouts of Performance Share Units Under Non-Stock Price-Based Plan		
			Threshold (#)	Target (#)	Maximum (#)
M. G. Morris	119,000	12/10/03 - 12/31/04	23,800	119,000	238,000
S. Tomasky	-0-		-0-	-0-	-0-
T. M. Hagan	-0-		-0-	-0-	-0-
H. K. Koepfel	-0-		-0-	-0-	-0-
R. P. Powers	-0-		-0-	-0-	-0-
H. W. Fayne	-0-		-0-	-0-	-0-

The December 10, 2003 through December 31, 2004 performance period did result in an award score of 123.1% of the target award and accrued dividends. These performance shares will generally vest, subject to the participant's continued employment, on December 31, 2006 and, upon vesting, will be reported in the LTIP Payouts column. As of December 31, 2004, the performance shares awarded for Mr. Morris and the other named executive officers (other than Mr. Fayne) had an estimated value of \$5,247,770 and \$934,872, respectively. The number of performance shares held by Mr. Fayne for this performance period was reduced by approximately two-thirds upon his retirement. The estimated value of Mr. Fayne's performance shares was \$311,601 as of December 31, 2004.

## Retirement Benefits

AEP maintains qualified and nonqualified defined benefit ERISA pension plans for eligible employees. The tax-qualified plans are the American Electric Power System Retirement Plan (AEP Retirement Plan) and the Central and South West Corporation Cash Balance Retirement Plan (CSW Cash Balance Plan). The nonqualified plans are the American Electric Power System Excess Benefit Plan (AEP Excess Benefit Plan) (together with the AEP Retirement Plan, the AEP Plans) and the Central and South West Corporation Special Executive Retirement Plan (CSW SERP) (together with the CSW Cash Balance Plan, the CSW Plans), each of which provides (i) benefits that cannot be payable under the respective tax-qualified plans because of maximum limitations imposed on such plans by the Internal Revenue Code and (ii) benefits pursuant to individual agreements with certain AEP employees. The CSW Plans continue as separate plans for those AEP System employees who were participants in the CSW Cash Balance Plan as of December 31, 2000. Each of the executive officers named in the Summary Compensation Table (other than Mr. Hagan) participates in the AEP Plans. Mr. Hagan participates in the CSW Plans.

The benefit formula generally used to calculate benefit additions under the pension plans for all plan participants (including the executive officers named in the Summary Compensation Table) is a cash balance formula. When the cash balance formula was added to each plan, an opening balance was established for employees then participating under each plan's prior benefit formula (as further described below), using a number of factors as set forth in the appropriate plan. Under the cash balance formula, each participant has an account established (for record keeping purposes only) to which dollar amount credits are allocated each year based on a percentage of the participant's eligible pay. The amount of pay taken into account for the executive officers named in the Summary Compensation Table has been capped at \$1,000,000. Effective January 1, 2004, that cap on eligible pay was increased to the greater of \$1,000,000 or two times the participant's annual base rate of pay as of the last day of a given year (or, if the participant's employment was terminated during the year, as of the date of such termination of employment). The applicable percentage of eligible pay credited to a participant's account is determined each year by reference to the participant's age and years of vesting service as of December 31 of that year (or as of the participant's termination date, if earlier). The following table shows the applicable percentage used to determine the annual dollar amount credits based on the sum of age and years of service indicated:

<b>Sum of Age Plus</b>	<b>Applicable</b>
<b>Years of Service</b>	<b>Percentage</b>
Less than 30	3.0%
30-39	3.5%

40-49	4.5%
50-59	5.5%
60-69	7.0%
70 or more	8.5%

All dollar amount balances in the cash balance accounts of participants earn a fixed rate of interest that is also credited annually. The interest rate for a particular year is the Applicable Interest Rate set in accordance with Section 417(e)(3)(A)(ii) of the Internal Revenue Code and is currently the average interest rate on 30-year Treasury securities for the month of November of the prior year. For 2004, the interest rate was 5.12%. Interest continues to be credited as long as the participant's balance remains in the plan.

The CSW SERP also includes a final average pay cash balance formula which provides that the cash balance account of participants who at termination of employment hold the office of Vice President or higher of an employer participating in the CSW Plans will be no less than (i) the sum of the Applicable Percentages from the foregoing table generally for each year that the participant earned credited service under the CSW Cash Balance Plan, multiplied by (ii) the participant's final average pay. "Final average pay" for executive officers generally is the average annual compensation (consisting of the following amounts when paid: wages as reported in the *Salary* column of the Summary Compensation Table and that the portion of the *Bonus* column attributable to the Senior Officer Annual Incentive Compensation Plan, which is described in the *Human Resources Committee Report on Executive Compensation* under the heading *Annual Incentive*) during the 36 consecutive months of highest pay during the 120 months prior to retirement.

Under the cash balance formula, an amount equal to the vested balance (including tax-qualified and nonqualified benefits) then credited to the account is payable to the participant in the form of an immediate or deferred lump-sum or an annuity or, with respect to the nonqualified benefits, in installments. Benefits under the AEP Plans and the CSW Plans generally do not become vested until the participant has been credited with at least 5 years of service. Mr. Morris has an individual agreement with AEP that provides that Mr. Morris will become vested in the amount credited to his cash balance account at a rate of 20% per year as of each of the first five anniversaries of his commencement date (January 1, 2004).

Benefits (from both the tax-qualified and nonqualified plans) under the cash balance formula are not subject to reduction for Social Security benefits or other offset amounts, except that Ms. Koepfel and Mr. Powers each have an individual agreement which provides that their supplemental retirement benefits are reduced by pension entitlements, if any, from plans sponsored by prior employers. The estimated annual benefit that would be payable as a single life annuity under the cash balance formula (or, with respect to Mr. Hagan, under the CSW Plans' final average pay cash balance formula) to each of the executive officers named in the Summary Compensation Table (other than Henry Fayne) at age 65 is:

<u>Name</u>	<u>Annual Benefit</u>
-------------	---------------------------

M. G. Morris	\$ 397,600
S. Tomasky	297,000
T. M. Hagan	117,100
H. K. Koeppel	194,500
R. P. Powers	192,300

These amounts are based on the following assumptions and agreements:

- The amounts shown in the *Salary* column of the Summary Compensation Table are used for calendar year 2004 and all subsequent years, assuming no salary changes. The portion of the *Bonus* column attributable to the Senior Officer Annual Incentive Compensation Plan is used for 2005 and annual incentive awards at the 2004 target level (as further described in the *Human Resources Committee Report on Executive Compensation* under the heading *Annual Incentive* on page 34) are used for all subsequent years beyond 2005.
- Conversion of the lump-sum cash balance to a single life annuity at age 65, based on an interest rate of 4.89% (the Applicable Interest Rate being used by the Plans for 2005) and the 1994 Group Annuity Reserving Table published by the Internal Revenue Service.
- Mr. Morris has an individual agreement with AEP that provides for an opening cash balance account of \$2,100,000 as of January 1, 2004 (his employment commencement date) and annual credits at the maximum rate provided under the AEP Plans (currently 8.5%).
- Ms. Tomasky, Ms. Koeppel and Mr. Powers have individual agreements with AEP that credit them with years of service in addition to their years of service with AEP as follows: Ms. Tomasky, 20 years; Ms. Koeppel, 15.25 years; and Mr. Powers, 17 years. That service credit was taken into account in calculating their accrued benefit under the AEP Plans as of December 31, 2000, and therefore was reflected in the amount credited to their opening cash balance account as of January 1, 2001, the date the cash balance formula first became effective. As mentioned above, the agreements for Ms. Koeppel and Mr. Powers provide that their respective supplemental retirement benefits are reduced by pension entitlements, if any, from plans sponsored by prior employers.

Henry Fayne's employment with AEP terminated as of December 31, 2004 and he commenced payment of his retirement benefits as of January 1, 2005. His retirement benefits that became payable from the AEP Plans were determined under the final average pay formula, which is described in the following paragraphs.

In addition, employees who have continuously participated in the AEP Plans since December 31, 2000 remain eligible for a pension benefit using the final average pay formula that was in place before the implementation of the cash balance formula described above. Employees who are eligible for both formulas will receive their benefits under the formula that provides the higher benefit, given the participant's choice of the form of benefit (single life annuity, lump sum, etc.). Participants who remain eligible to receive the final average pay formula will continue to accrue pension benefits under that formula until December 31, 2010, at which time each participant's final average pay benefit payable at the participant's normal retirement age (the later of age 65 or 5 years of service) will be frozen and

unaffected by the participant's subsequent service or compensation. After December 31, 2010, each participant's frozen final average pay benefit will be the minimum benefit a participant can receive from the AEP Plans at the participant's normal retirement age.

Final average pay under the AEP Plans is computed using the highest average 36 consecutive months of the salary and bonus earned out of the participant's most recent 10 years of service. The information used to compute the final average pay benefit for executive officers named in the Summary Compensation Table above, other than Mr. Morris (who is not eligible for the final average pay formula under the AEP Plans) and Mr. Hagan (whose final average pay benefits are discussed below in connection with the CSW Plans), is consistent with that shown in the *Salary* column of the Summary Compensation Table and that portion of the *Bonus* column attributable to the Senior Officer Annual Incentive Compensation Plan.

The following table shows the approximate annual annuities that would be payable to executive officers and other management employees under the final average pay formula of the AEP Plans, assuming termination of employment on December 31, 2004 after various periods of service and with benefits commencing at age 65.

#### AEP Plans Pension Plan Table

<u>Annual Highest Average Earnings</u>	<u>Years of Accredited Service</u>					
	<u>15</u>	<u>20</u>	<u>25</u>	<u>30</u>	<u>35</u>	<u>40</u>

600,000	140,715	187,620	234,525	281,430	328,335	368,235
700,000	164,715	219,620	274,525	329,430	384,335	430,885
800,000	188,715	251,620	314,525	377,430	440,335	493,535
900,000	212,715	283,620	354,525	425,430	469,335	556,185
1,000,000	236,715	315,620	394,525	473,430	552,335	618,835
1,200,000	284,715	379,620	474,525	569,430	664,335	744,135

The amounts shown in the table are the straight life annuities payable under the final average pay formula of the AEP Plans without reduction for any optional features that may be elected at the participant's expense. Retirement benefits listed in the table are not subject to any further reduction for Social Security or other offset amounts. The retirement annuity is reduced 3% per year for each year prior to age 62 in the event of a termination of employment after age 55 and the participant's election to commence benefits between ages 55 and 62. If an employee terminates employment after age 55 and commences benefits at or after age 62, there is no reduction in the retirement annuity.

Under the AEP Plans, as of December 31, 2004, for the executive officers named in the Summary Compensation Table (except for Mr. Morris and Mr. Hagan), the number of years of service applicable for the final average pay

formula were as follows: Ms. Tomasky, 26.5 years; Ms. Koepfel, 19.8 years; Mr. Powers, 22.5 years; and Mr. Fayne, 30.1 years. The years of service for Ms. Tomasky, Ms. Koepfel and Mr. Powers include years of service provided by their respective agreements with AEP as described above in connection with the cash balance formula. The agreements for Ms. Koepfel and Mr. Powers provide that their respective supplemental retirement benefits are reduced by pension entitlements, if any, from plans sponsored by prior employers.

Under the CSW Plans, certain employees who were 50 or over and had completed at least 10 years of service as of July, 1997, remain eligible for benefits under the prior pension formulas that are based on career average pay and final average pay. Of the executive officers named in the Summary Compensation Table, Mr. Hagan is eligible to participate in the CSW Plans and has a choice upon his termination of employment to elect his benefit based on the cash balance formula or the prior pension formulas.

The following table shows the approximate annual annuities that would be payable to employees in certain higher salary classifications under the prior benefit formulas provided through the CSW Plans, assuming termination of employment on December 31, 2004 after various periods of service and with benefits commencing at age 65, and prior to reduction by up to 50 percent of the participant's Social Security benefit.

1,200,000	300,000	400,000	500,000	600,000

Under the CSW Plans, the annual normal retirement benefit payable from the final average pay formula is based on 1 2/3% of 'Average Compensation' times the number of years of credited service (up to a maximum of 30 years), reduced by no more than 50 percent of the participant's age 62 or later Social Security benefit and then adjusted annually based on changes in the consumer price index. 'Average Compensation' equals the average annual compensation, reported as *Salary* in the Summary Compensation Table, during the 36 consecutive months of highest pay during the 120 months prior to retirement. Mr. Hagan has an agreement entered into with CSW prior to its merger with AEP under which he is entitled to a retirement benefit that will bring his credited years of service to 30 if he

remains employed with AEP until age 60 or thereafter. Mr. Hagan attained age 60 during 2004. Therefore, his years of credited service and age as of December 31, 2004, are 30 and 60.

AEP also made available a voluntary deferred-compensation program in 1986, which permitted certain members of AEP System management to defer receipt of a portion of their salaries. Under this program, a participant was able to annually defer up to 10% of his or her salary over a four-year period, and receive supplemental retirement or survivor benefit payments over a 15-year period. The amount of supplemental retirement payments received is dependent upon the amount deferred, age at the time the deferral election was made, and number of years until the participant retires. Mr. Fayne is the only executive officer named in the Summary Compensation Table who participated in this program. He deferred \$9,000 of his salary annually over a four-year period and, as a result of his retirement, he will receive monthly supplemental retirement payments of \$4,594 over fifteen years commencing in January 2005.

### **Employment Agreement**

The Company entered into an employment agreement (Agreement) with Mr. Morris that became effective January 1, 2004 for a three-year period. The Agreement is automatically renewed for additional one-year periods unless Mr. Morris or the Company takes specific actions to terminate it. The Agreement provides that Mr. Morris receives an annual salary of \$1,115,000, subject to increase, and will participate in the annual bonus and long-term incentive plans. Mr. Morris is eligible to receive an annual bonus under the Senior Officer Annual Incentive Compensation Plan and his target percentage will be equal to at least 100% of his base salary. The Agreement provides that in his first year, Mr. Morris will receive an annual bonus that in no event is less than the target bonus. The Agreement awarded Mr. Morris a nonqualified stock option grant for 149,000 shares, a performance share grant for 119,000 shares and 100,000 restricted shares as a bonus and an additional 200,000 restricted shares as a replacement for certain long-term compensation that Mr. Morris forfeited from his prior employer in order to accept employment with the Company. One-half of the restricted shares awarded to Mr. Morris as a bonus (50,000 shares) vested on January 1, 2005 and the remaining one-half will vest, subject to his continued AEP employment, on January 1, 2006. The restricted shares awarded to Mr. Morris as a replacement for forfeited compensation will vest, subject to his continued employment, in three approximately equal components of 66,666, 66,667 and 66,667 shares on November 30, 2009, November 30, 2010 and November 30, 2011, respectively. Mr. Morris may use the Company aircraft for personal use. The Company has purchased a universal life insurance policy for Mr. Morris that provides a \$3 million death benefit. Mr. Morris was provided an opening balance in the Company's Retirement Plan of \$2.1 million, which vests in increments of 20% on each of the first five anniversary dates of his employment. Mr. Morris is credited with the maximum rate permitted under the Retirement Plan (currently at 8.5%) on all eligible earnings up to two times his annual base salary. See above under *Retirement Benefits* for additional information. In the event the Company terminates the Agreement for reasons other than cause, Mr. Morris will receive a severance payment equal to two times his annual base salary.

### **Severance Agreements and Change-In-Control Agreements**

In January 2005, the Board adopted a policy to seek shareholder approval for any future severance agreement with any senior executive officer of the Company when any such agreement would result in specified benefits provided to the officer in excess of 2.99 times his or her salary and bonus. The policy resulted from Board discussions that began

following the April 2004 annual shareholders' meeting, at which a majority of the shareholders who cast votes (although not a majority of the shares outstanding) approved a resolution requesting that the Board consider such a policy. A copy of the policy can be found on our website at [www.AEP.com](http://www.AEP.com).

AEP has change-in-control agreements with all of the executive officers named in the Summary Compensation Table, except for Mr. Fayne. If there is a 'change-in-control' of AEP and the executive officer's employment is terminated (i) by AEP without 'cause' or (ii) by the officer because of a detrimental change in responsibilities, a required relocation or a reduction in salary or benefits, these agreements provide for:

- Lump sum payment equal to 2.99 times the officer's annual base salary plus target annual incentive under the Senior Officer Annual Incentive Compensation Plan.
- Payment, if required, to make the officer whole for any excise tax imposed by Section 4999 of the Internal Revenue Code.
- Outplacement services and other non-cash severance or separation benefits under the terms of a plan or agreement as may then be available to other employees.

Under these agreements, 'change-in-control' means:

- The acquisition by any person of the beneficial ownership of securities representing 25% or more of AEP's voting stock;
- A change in the composition of a majority of the Board of Directors under certain circumstances within any two-year period; or
- Approval by the shareholders of the liquidation of AEP, disposition of all or substantially all of the assets of AEP or, under certain circumstances, a merger of AEP with another corporation.

In addition to the change-in-control agreements described above, the American Electric Power System 2000 Long-Term Incentive Plan authorizes the HR Committee to include change-in-control provisions in award agreements (defined in a manner similar to the change-in-control agreements described above). Such provisions may include one or more of the following: (1) the acceleration or extension of time periods for purposes of exercising, vesting in or realizing gains from any award; (2) the waiver or modification of performance or other conditions related to the payment or other rights under an award; (3) provision for the cash settlement of an award for an equivalent cash value; and (4) modification or adjustment to the award as the HR Committee deems appropriate to protect the interests of participants upon or following a change-in-control. The outstanding award agreements issued to the executive officers contain provisions that accelerate the vesting and exercise dates of unexercised options and that offer a cash settlement upon a change-in-control.

The AEP Excess Benefit Plan also provides that all accrued supplemental retirement benefits become fully vested upon a change-in-control.

### **Human Resources Committee Report On Executive Compensation**

The Human Resources Committee of the Board of Directors (HR Committee) annually reviews AEP's executive compensation in the context of the performance of management and the Company. None of the members of the HR Committee is an officer or employee of any AEP System company. In addition, each of the current members of the HR Committee has been determined to be independent by the Board of Directors in accordance with SEC and NYSE rules. One HR Committee member, Mr. Brooks, retired as Chairman and Chief Executive Officer of Central and South West Corporation in June 2000 following the completion of the AEP-CSW merger, and currently receives non-qualified pension and deferred compensation payments from the Company. As a result Mr. Brooks is not considered to be an outside director for purposes of determining executive compensation pursuant to Section 162(m) of the Internal Revenue Code and he, therefore, abstains from voting on performance-based compensation issues at HR Committee meetings whenever this is necessary in order to preserve the intended tax deductibility of qualified compensation under Section 162(m).

In setting compensation levels, the HR Committee recognizes that AEP's executive officers are charged with managing what is among the largest and most geographically diverse energy companies in a volatile business environment.

AEP's executive compensation is designed to maximize shareholder value, to support the implementation of the Company's business strategy and to improve both corporate and personal performance. The HR Committee's compensation policies supporting these objectives are:

- To pay in a manner that motivates both short- and long-term performance, focuses on meeting specified corporate goals and promotes the long-term interests of shareholders.
- To place a significant amount of compensation for senior executives at risk in the form of variable incentive compensation instead of fixed or base pay, with much of this risk similar to the risk experienced by other AEP shareholders.
- To establish compensation opportunities that enhance the Company's ability to attract, retain, reward, motivate and encourage the development of exceptionally knowledgeable, highly qualified and experienced executives.
-

To provide compensation that is reflective of current market practices in order to maintain a stable and successful management team.

In carrying out its responsibilities, the HR Committee has hired a nationally recognized independent consultant to provide information on current trends in executive compensation and benefits within the energy services industry and among U.S. industrial companies in general, and to provide recommendations to the HR Committee regarding AEP's compensation and benefits programs and practices.

The HR Committee annually reviews AEP's executive compensation relative to a Compensation Peer Group comprised of companies that represent the talent markets from which AEP must compete to attract and retain executives. The HR Committee annually reviews and adjusts the composition of the Compensation Peer Group to ensure that it provides appropriate compensation comparisons. For 2004, the Compensation Peer Group consists of 13 large and diversified energy services companies, plus 12 Fortune 500 companies, which, taken as a whole, approximately reflect the Company's size, scale, business complexity and diversity. This Compensation Peer Group differs from the S&P 500 and the S&P Electric Utility indexes, which are used for financial comparison purposes in the graph titled 'Comparison of Five Year Cumulative Total Return' on page 38 in this proxy statement. The HR Committee generally uses median compensation information of the Compensation Peer Group as its benchmark but does consider other comparisons, such as industry-specific compensation surveys, when setting pay levels.

### **Stock Ownership Guidelines**

The HR Committee believes that linking a significant portion of an executive's current and potential future net worth to the Company's success, as reflected in the stock price and dividends paid, gives the executive a stake similar to that of the Company's shareholders and further encourages long-term management strategies that benefit shareholders. Therefore, the HR Committee maintains stock ownership targets for senior managers in order to further align executive and shareholder interests. The HR Committee annually reviews the target stock ownership levels for each salary grade and officer level and periodically adjusts these levels as they determine to be appropriate. AEP's target ownership levels are directly related to the officer's corporate position, with the greatest ownership target assigned to the chief executive officer. In 2004, stock ownership targets were assigned for each of the executive officers named in the Summary Compensation Table in an amount of 109,300 shares for the Chief Executive Officer (CEO) and 35,300 for each of the Executive Vice Presidents.

Executives are expected to achieve stock ownership targets within five years of the date each is assigned. Personal AEP stock holdings, restricted stock, and common stock equivalents resulting from performance shares, deferred compensation and balances in the AEP stock fund of the AEP System Retirement Savings Plan and AEP System Supplemental Retirement Savings Plan are included in determining compliance with the stock ownership targets. AEP's ownership targets reflect the minimum total stock ownership each executive is expected to achieve within the specified five-year period and, therefore, all AEP common stock and stock equivalents held by an executive are counted towards all of their ownership targets simultaneously. All performance shares that would otherwise be earned are mandatorily deferred into phantom Stock Units ('career shares'), a common stock equivalent, for participants who have not met their stock ownership targets. Participants are required to hold these career shares until after their AEP employment ends. In addition, executives that have not met a minimum stock ownership target within its associated 5

year window period will be required to (i) defer twenty-five percent (25%) of their annual incentive compensation into AEP phantom Stock Units and (ii) retain all AEP shares realized through AEP stock options exercises, except an amount equal to the exercise costs and tax withholding, until their stock ownership target has been satisfied. Beginning January 1, 2006, the mandatory annual incentive compensation deferral, described in (i) above, will increase to fifty percent (50%).

As of March 1, 2005, Mr. Morris, Ms. Tomasky and Mr. Hagan have each met all of their stock ownership targets. Ms. Koepfel and Mr. Powers have each met the stock ownership target assigned to them before 2004 and are on course to reach the stock ownership target assigned to them in January 2004. See the table on page 39 for actual ownership amounts.

### **Components of Executive Compensation**

**Base Salary.** When reviewing executive base salaries, the HR Committee considers the pay practices of its Compensation Peer Group; the responsibilities, performance, and experience of each executive officer; reporting relationships; supervisor recommendations; and the relationship of the base salaries of executive officers to the base salaries of other AEP employees. Base salaries are reviewed annually and adjusted, when and as appropriate, to reflect individual and corporate performance and changes within the Compensation Peer Group.

The HR Committee generally targets base salary levels at the median of AEP's Compensation Peer Group. For 2004, base pay represented less than one-quarter of the compensation opportunity for the CEO and less than one-third for the other listed executive officers when annual and long-term incentive compensation is included (assuming target performance levels were achieved). The 2004 base salary levels for the CEO and other executive officers named in the Summary Compensation Table approximated the median of AEP's Compensation Peer Group for the positions each held at the beginning of the year.

**Annual Incentive.** The primary purpose of AEP's annual incentive compensation is to motivate senior management to meet and exceed annual objectives that are part of the Company's strategic plan for maximizing shareholder value. For 2004, AEP's Senior Officer Incentive Compensation Plan (SOIP) provided a variable, performance-based annual incentive as part of total compensation for executive officers.

SOIP participants are assigned an annual target award expressed as a percentage of their base earnings for the period. For 2004 the HR Committee initially established annual SOIP target awards for the executive officers named in the Summary Compensation Table, other than Mr. Morris, of 60% of salary. The incentive target for Ms. Tomasky was increased to 65% of salary in June 2004 resulting in a weighted average target of 62.8% of salary for the full year. As part of Mr. Morris's employment agreement, the HR Committee established his annual target award at 100% of his salary for 2004 and specified that his bonus for 2004 will not be less than the target amount.

SOIP awards for 2004 were based on the following pre-established performance measures:

- Earnings Per Share (50%),
- Operations and Maintenance Expense vs. Budget (15%), and
- Annual operating goals (35%), which include:
  - Workforce Safety (15%),
  - Workforce Diversity (10%), and
  - Environmental Goals (10%).

Actual awards for 2004 could have varied from 0% to 200% of the target award based on performance. Annual incentive payments are subject to adjustment at the discretion of the HR Committee.

For 2004, the above performance measures produced an aggregate award score of 96.5% of each employee's target award for the SOIP. The amounts earned for 2004 are shown for the executive officers listed in the *Bonus* column of the Summary Compensation Table on page 22.

**Long-Term Incentive.** The primary purpose of longer-term, equity-based, incentive compensation is to motivate senior managers to maximize shareholder value by linking a portion of their compensation directly to shareholder return.

All AEP long-term incentive (LTI) awards to executive officers are made under the shareholder-approved American Electric Power System 2000 Long-Term Incentive Plan. This plan provides various types of LTI and performance measures from which the HR Committee may select to provide the most effective incentives to Company management for achievement of the Company's strategies and goals.

In December 2003 the HR Committee made LTI awards in lieu of LTI awards that would normally have been made in January 2004, which were previously reported in AEP's 2004 proxy statement. The HR Committee reverted back to a January award cycle for subsequent LTI awards. As a result of this change in LTI award timing, AEP made no LTI awards in 2004 to the executive officers named in the Summary Compensation Table other than to Mr. Morris who received LTI awards upon his hire in January 2004 pursuant to his employment agreement.

*Stock Options*

Upon his hire, the HR Committee granted 149,000 stock options to Mr. Morris pursuant to his employment agreement as shown in the Summary Compensation Table on page 22.

Subsequently, the HR Committee stopped issuing new stock option awards as part of its LTI program, in favor of increased utilization of performance shares. The HR Committee believes this change was necessary to reflect changes in AEP's business objectives, external market compensation practices, and the cost-benefit ratio of stock options relative to other alternatives. Therefore, no other stock options were awarded in 2004.

*Performance Shares*

The HR Committee periodically grants target performance share awards to AEP management. Performance shares were granted in January of 2002 and 2003 each covering the three-year performance period beginning January 1<sup>st</sup> of that year and generally vesting, subject to the participant's continued employment, at the end of the performance period. Performance shares were also granted in December 2003 covering the performance period of December 10, 2003 through December 31, 2004 and generally vesting, subject to the participant's continued employment, on December 31, 2006. The performance share awards for the 2002-2004 and 2003-2005 performance periods are earned based on AEP's three-year total shareholder return for the performance period measured relative to the S&P electric utility index with at least median performance required to earn the target award. The performance share awards for the December 10, 2003 through December 31, 2004 performance period are earned based on two equally weighted performance measures: total shareholder return for the performance period measured relative to the S&P electric utilities and one-year earnings per share measured relative to a board approved target. The value of performance share awards ultimately earned for a performance period can range from 0%-200% of the target value plus accumulated dividends.

Upon his hire in January 2004 the HR Committee established a target performance share award of 119,000 performance shares for the December 10, 2003 through December 31, 2004 performance period for Mr. Morris pursuant to his employment agreement. No other performance share targets were established in 2004.

Payments of earned performance share awards are initially deferred in the form of phantom Stock Units (equivalent in fair value to shares of AEP Common Stock) until the participant has met his or her stock ownership target. Such deferrals continue until at least the participant's termination of employment. Once participants reach their respective stock ownership target, they may then elect either to defer subsequent awards into AEP's deferred compensation plan, which offers returns equivalent to various market-based investment options including AEP stock equivalents, or to receive further earned performance share awards in cash and/or AEP Common Stock.

AEP's total shareholder return for the 2002-2004 performance period ranked 19th relative to the S&P peer utilities which produced an award score equal to 20% of the performance shares targets originally granted for this performance period plus dividend credits. However, the HR Committee reduced the award score for this performance period to 0% since AEP's total shareholder return for this performance period was both negative and less than the return on comparable U.S. Treasury securities.

AEP's total shareholder return and earnings per share for the December 10, 2003 through December 31, 2004 performance period produced an award score of 123.1% of the performance share targets originally granted for this performance period plus dividend credits. The resulting awards have been made in phantom Stock Units that will generally vest, subject to the participant's continued employment, on December 31, 2006.

A further description of performance share awards is shown under *Long-Term Incentive Plans - Awards in 2004* on page 26.

#### *Restricted Stock*

Upon his hire and pursuant to his employment agreement the HR Committee granted 100,000 restricted shares to Mr. Morris as a bonus and an additional 200,000 restricted shares as a replacement for certain long-term compensation from his prior employer that Mr. Morris was required to forfeit in order to accept employment with AEP. These restricted shares are shares of AEP common stock that include dividend and voting rights but that cannot be sold, transferred, pledged or otherwise encumbered until they vest. One-half of the restricted shares awarded to Mr. Morris as a bonus (50,000 shares) vested on January 1, 2005 and the remaining one-half will vest, subject to his continued AEP employment, on January 1, 2006. The restricted shares awarded to Mr. Morris as a replacement for forfeited compensation will vest, subject to his continued employment, in three approximately equal components of 66,666, 66,667 and 66,667 shares on November 30, 2009, November 30, 2010 and November 30, 2011, respectively. The HR Committee believes that granting these restricted shares to Mr. Morris was reasonable, appropriate and necessary in order to ensure his hire and a timely and successful CEO transition, as well as to motivate Mr. Morris to vigorously pursue the interests of shareholders. The dollar value of the restricted shares awarded to Mr. Morris are shown in the Summary Compensation Table on page 22.

No restricted shares were awarded to any other executive officer or other employee in 2004 but the HR Committee did award restricted Stock Units to certain executive officers and other key employees who are not listed in the Summary Compensation Table during 2004.

#### **Tax Policy on Deductibility of Compensation**

The HR Committee has considered the impact of Section 162(m) of the Internal Revenue Code, which limits the deductibility of compensation in excess of \$1,000,000 paid in any year to the Company's chief executive officer or any of the other four executive officers named in the Summary Compensation Table who are serving as such at the end of the year. The HR Committee's general policy is to structure compensation programs so that Section 162(m) does not limit the tax deductibility of compensation for the Company. The HR Committee also believes that the Company needs flexibility to meet its incentive and retention objectives, even if the Company may not deduct all of its compensation. Performance shares and stock options issued under the American Electric Power System 2000 Long-Term Incentive Plan have been structured to be exempt from the deduction limit because they are made pursuant to a shareholder-approved, performance-driven plan. Annual incentive awards under the SOIP are not eligible for the performance-based exemption because the SOIP has not been designed or implemented in a manner that would comply with the requirements of Section 162(m). The HR Committee believes that it is in the interests of the Company to maintain flexibility to increase annual incentive awards above the amount a strict performance formula might provide. The reservation of such discretion, in itself, precludes the application of the exemption from the Section 162(m) deduction limits.

#### **Compensation Committee Interlocks and Insider Participation**

The HR Committee is composed of Messrs. Brooks, Carlton, DesBarres and Fri. One HR Committee member, Mr. Brooks, retired as Chairman and Chief Executive Officer of Central and South West Corporation in June 2000 following the completion of the AEP- CSW merger. As a result Mr. Brooks is not considered to be an outside director for purposes of determining executive compensation pursuant to Section 162(m) of the Internal Revenue Code and he, therefore, abstains from voting on performance-based compensation issues at HR Committee meetings whenever this is necessary in order to preserve the tax deductibility of Section 162(m) qualified compensation.

#### **Share Ownership of Directors and Executive Officers**

THE FOLLOWING TABLE sets forth the beneficial ownership of AEP Common Stock and stock-based units as of January 1, 2005 for all nominees to the Board of Directors, each of the persons named in the Summary Compensation Table and all such Directors and executive officers as a group. Unless otherwise noted, each person had sole voting and

**EXHIBIT D - TAX ALLOCATION AGREEMENT**

**AMERICAN ELECTRIC POWER COMPANY, INC. AND  
ITS CONSOLIDATED AFFILIATES  
TAX AGREEMENT UNDER TITLE 17, CHAPTER II  
OF THE CODE OF FEDERAL REGULATIONS PARAGRAPH  
(C) OF SECTION 250.45 REGARDING METHOD OF  
ALLOCATING CONSOLIDATED INCOME TAXES**

The below listed affiliated companies, joining in the annual filing of a consolidated federal income tax return with American Electric Power Company, Inc., agree to allocate the consolidated annual net current federal income tax liability and/or benefit to the members of the consolidated group in accordance with the following procedures:

- (1) The consolidated regular federal income tax, exclusive of capital gains and preference taxes and before the application of general business credits including foreign tax credits, shall be apportioned among the members of the consolidated group based on corporate taxable income. Loss companies shall be included in the allocation, receiving a negative tax allocation which is similar to a separate return carryback refund, before considering general business credits, which would have resulted had the loss company historically filed a separate return.
- (2) The corporate taxable income of each member of the group shall be first reduced by its proportionate share of American Electric Power Company, Inc.'s (the holding company) tax loss (excluding the effects of extraordinary items which do not apply to the regulated business) in arriving at adjusted corporate taxable income for each member of the group with positive taxable income.
- (3) To the extent that the consolidated and corporate taxable incomes include material items taxed at rates other than the statutory tax rate (such as capital gains and preference items), the portion of the consolidated tax attributable to these items shall be apportioned directly to the members of the group giving rise to such items.
- (4) General business credits, other tax credits, and foreign tax credits shall be equitably allocated to those members whose investments or contributions generates the tax credit.
- (5) If the tax credits can not be entirely utilized to offset the consolidated tax liability, the tax credit carryover shall be equitably allocated to those members whose investments or contributions generated the credit.
- (6) Should the consolidated group generate a net operating tax loss for a calendar year, the tax benefits of any resultant carryback refund shall be allocated proportionately to member companies that generated corporate tax losses in the year the consolidated net operating loss was generated. Any related loss of general business credits, shall be allocated to the member companies that utilized the credits in the prior year in the same proportion that the credit lost is to the total credit utilized in the prior year. A consolidated net operating tax loss carryforward shall be allocated proportionately to member companies that generated the original tax losses that gave rise to the consolidated net operating tax loss carryforward.
- (7) A member with a net positive tax allocation shall pay the holding company the net amount allocated, while a tax loss member with a net negative tax allocation shall receive current payment from the holding company in the amount of its negative allocation. The payment made to a member with a tax loss should equal the amount by which the consolidated tax is reduced by including the member's net corporate tax loss in the consolidated tax

return. The holding company shall pay to the Internal Revenue Service the consolidated group's net current federal income tax liability from the net of the receipts and payments.

- (8) No member of the consolidated group shall be allocated a federal income tax which is greater than the federal income tax computed as if such member had filed a separate return.
- (9) In the event the consolidated tax liability is subsequently revised by Internal Revenue Service audit adjustments, amended returns, claims for refund, or otherwise, such changes shall be allocated in the same manner as though the adjustments on which they are based had formed part of the original consolidated return using the tax allocation agreement which was in effect at that time.

Any current state tax liability and/or benefit associated with a state tax return involving more than one member of the consolidated group, shall be allocated to such members following the principles set forth above for current federal income taxes. Due to certain states utilizing a unitary approach, the consolidated return liability may exceed the sum of the liabilities computed for each company on a separate return basis. If this occurs, the excess of the consolidated liability over the sum of the separate return liabilities shall be allocated proportionally based on each member's contribution to the consolidated apportionment percentage. If additional tax is attributable to a significant transaction or event, such additional tax shall be allocated directly to the members who are party to said transaction or event.

This agreement is subject to revision as a result of changes in federal and state tax law and relevant facts and circumstances.

The above procedures for apportioning the consolidated annual net current federal and state tax liabilities and expenses of American Electric Power Company, Inc. and its consolidating affiliates have been agreed to by each of the below listed members of the consolidated group as evidenced by the signature of an officer of each company.

**EXHIBIT E - CHART OF ACCOUNTS/PERSONNEL POLICIES**

**1 Chart of accounts for AEP System Companies (Pursuant to Rule 26):**

The Federal Energy Regulatory Commission (FERC) Uniform System of Accounts (USA) is used by most of the AEP System Companies with modifications as necessary to account for nonutility business operations. Certain AEP System Companies do not follow the FERC USA. Those companies use the typical commercial chart of accounts applicable for that type of business operation.
