Item 2.05 Costs Associated with Exit or Disposal Activities

In July 2005, the Corporation announced a multi-year program to further improve its competitive position by accelerating investments in targeted growth opportunities, streamlining its worldwide manufacturing operations and enhancing the efficiency and cost effectiveness of its administrative operations (Competitive Improvement Initiatives). The Corporation authorized the initial phase of the Competitive Improvement Initiatives in July 2005.

On January 18, 2006, the Corporation authorized two subsequent phase projects pursuant to the Competitive Improvement Initiatives.

These projects are expected to be completed by the end of 2007. A project to reduce the workforce in Europe in order to streamline administrative operations was announced on January 23, 2006. The second project authorized the closure of two manufacturing facilities elsewhere. After tax charges in connection with these projects are expected to total approximately \$55-\$65 million (\$75-\$85 million before tax). The Corporation anticipates that the charges for these subsequent phase projects will be incurred for the following categories at the indicated estimated amounts: workforce reduction costs (approximately \$50 million); accelerated depreciation (approximately \$20 million); and other associated costs (approximately \$10 million).
