### INDEX TO EXHIBITS

Exhibit Number	Description
99	Quarterly shareholder report issued January 26, 2005

Exhibit 99

[GRAPHIC OMITTED][GRAPHIC OMITTED]

First Mid-Illinois Bancshares, Inc. experienced another successful year in 2004, with diluted earnings per share increasing to \$2.09 as compared with \$1.88 per share in 2003, an 11% increase. In 2004, net income increased to \$9,604,000 as compared with \$9,093,000 in 2003. As a result, the Company increased its regular annual dividend to \$.45 per share in 2004 from \$.38 per share in 2003. All share

and per share information for current and prior periods presented in this report have been adjusted to reflect the three-for-two stock split in the form of a 50% stock dividend completed in July 2004.

Net interest income, trust revenue, brokerage commissions and service charge revenue all had meaningful increases in 2004, whereas revenue from our mortgage banking activities declined significantly from \$1.7 million in 2003 to \$.5 million in 2004. We anticipated the 2004 decline because 2003 was an uncharacteristically active year for home refinancings.

We continued to grow in 2004 with loan totals ending the year at \$598 million, an increase of \$45 million from December 31, 2003. Deposits also grew, although not as rapidly as loans. Year-end 2004 deposits amounted to \$650 million compared with \$615 million last year. Competition for quality loans and economically priced deposits is intense throughout our market area, so we are pleased with our 2004 growth.

Credit quality is of high importance to banks and is an area where we invest significant energies. Our 2004 experience was good with net loan losses of only \$393,000. While we would, of course, prefer to have no losses, this amount compares well with peer banks and is reasonable given the size of our loan portfolio.

At First Mid, we consider any loan which is past due 90 days or more to be non-performing and immediately stop accruing interest on the loan. We follow this policy regardless of our collateral position or whether we anticipate a loss. Our non-performing loans totaled \$3.1 million on December 31, 2004, a slight decline from the 2003 year-end total of \$3.3 million. Because loan losses were not significant and non-performing loan totals were not excessive, we were able to reduce our annual provision for loan losses to \$588,000 in 2004 from \$1,000,000 in 2003.

Earlier, I mentioned that our trust revenues increased in 2004 as compared with 2003. The amount of the increase was \$262,000, or 13%, and resulted from growth in trust assets due to market value increases and from new customers. In total, trust assets ended the year at \$388 million as compared with \$350 million at the end of 2003. We consider our trust activities to be critical for our long-term success. As the baby boom generation ages, the United States approaches an enormous intergenerational transfer of wealth. Just as our banking operations provide us with the opportunity to serve customers during their working years, our trust department positions us to serve customers during their retirement years, when personal wealth management becomes a key concern.

Beginning in 2003 and continuing through 2004, we increased our expense management efforts to ensure that our overhead costs were directed towards those activities which served the interests of our shareholders. In total, non-interest expense increased \$470,000, or 1.9%, in 2004 as compared with 2003. Sarbanes-Oxley compliance costs accounted for most of this increase so we are pleased with our expense management efforts.

During 2004, we repurchased 320,000 shares of our own stock in the open market and through various privately-negotiated transactions. This program has proven to be an effective way of increasing value for shareholders. Any shareholder who wishes to use this service should contact Christie L. Wright at (217) 258-0493.

In April, our Company will celebrate 140 years of providing financial services to the people of Illinois. Businesses do not survive 140 years without the trust and confidence of those it does business with. At First Mid, we work hard to obtain and retain the trust and confidence of our shareholders, our customers, our communities, and our employees. Together, we have built an outstanding

organization--one in which we can all take a great deal of pride.

Thank you for your continued support and confidence in First Mid-Illinois Bancshares, Inc.

Sincerely,

/s/ William S. Rowland
