FIRST MERCHANTS CORPORATION ANNOUNCES INCREASE IN 2006 EARNINGS PER SHARE

First Merchants Corporation (NASDAQ - FRME) has reported December 31, 2006 diluted earnings per share totaling \$1.64, a \$.01 increase over 2005 earnings per share of \$1.63. Net Income for 2006 totaled \$30.2 million.

Fourth quarter diluted earnings per share totaled \$.42, a \$.01 increase from fourth quarter earnings per share of \$.41 in 2005. Net income for the quarter totaled \$7.7 million.

Total assets again reached record levels totaling \$3.55 billion at year-end, an increase of \$318 million, or 9.8 percent from December 31, 2005. Loans and investments, the Corporation's primary earning assets, totaled \$3.16 billion, an increase of \$266 million or 9.2 percent over the prior year.

Net-Interest margin declined by 26 basis points in 2006, from 3.97 percent in 2005 to 3.71 percent in 2006. As a result, net-interest income declined by \$1,034,000 despite strong improvements in earning assets as the Corporation's volume variance totaled a positive \$6,987,000 mitigated by a negative rate variance of \$8,021,000. The decline in net-interest margin represents \$.26 in earnings per share for the year.

Non-interest income declined by \$104,000 during 2006. Core non-interest income improved by \$607,000 as earnings on cash surrender value of bank owned life insurance increased by \$619,000, insurance commission increased by \$481,000 and other customer fees improved by \$423,000. Positive advances in non-interest income were mitigated by reduced gains from the sale of mortgage loans totaling \$731,000 and one time gains in 2005 of \$711,000.

Year-to-date operating expense increased by a modest 2.2 percent as management continues the process of streamlining its operating structure.

The allowance for loan losses increased during the year by \$1.35 million as the Corporation's provision for loan losses declined by \$2.1 million. As of December 31, 2006, non-performing loans totaled 87 basis points of average total loans and the allowance for loan losses as a percent of total loans equaled .99 percent.

Michael L. Cox, President and Chief Executive Officer, stated that, "Margin compression resulting from the inversion of the yield curve and competition masked much of the Corporations success during the year. The Corporation's balance sheet is diversified, short in average life and generally very well structured. Consequently, the management team and Board of Directors of First Merchants are pleased with the overall success of the year and believe when

evaluating 2006 that it is important to acknowledge the impact of margin compression." Cox also added, that "Balance sheet growth, credit quality, expense management, talent acquisition and infrastructure improvements represent the success of many key initiatives and that management is diligently executing a plan to produce a positive 2007."
