PROSPECTUS SUMMARY

About Cadiz

We are a land and water resource development company with 45,000 acres of land in three separate areas of eastern San Bernardino County, California. Virtually all of this land is underlain by high-quality, naturally recharging groundwater resources, and is situated in proximity to the Colorado River and the Colorado River Aqueduct (“CRA”), the major source of imported water for Southern California. Our main objective is to realize the highest and best use of these land and water resources in an environmentally responsible way.

For more than 20 years, we have maintained an agricultural development at our 34,000-acre property in the Cadiz Valley, relying upon groundwater from the underlying aquifer system for irrigation. In 1993, we secured permits to develop agriculture on up to 9,600 acres of the Cadiz Valley property and withdraw more than one million acre-feet of groundwater from the underlying aquifer system. Since that time, we have maintained various levels of agriculture at the property and this operation has provided our principal source of revenue.

In addition to our sustainable agricultural operations, we believe that the long-term value of our land assets can best be derived through the development of a combination of water supply and storage projects at our properties. The primary factor driving the value of such projects is continuing pressure on water supplies throughout California, including environmental restrictions and regulatory shortages on each of the State's three main water sources: the State Water Project, the Colorado River and the Los Angeles Aqueduct. Southern California's water providers rely on these imported sources for a majority of their water supplies, but deliveries from all three systems have been below capacity over the last several years. Availability of supplies in California also differs greatly from year to year due to natural hydrological variability. For example, State Water Project deliveries are presently limited to just 35% of capacity for 2013 due to ongoing environmental restrictions and below average precipitation. Southern California water providers are seeking new, reliable supply solutions to address anticipated limitations of traditional water supplies and to plan for long-term water needs but cost-effective alternatives and solutions are limited.

At present, our water development efforts are primarily focused on the Cadiz Valley Water Conservation, Recovery and Storage Project ("Water Project" or "Project"), which will capture and conserve millions of acre-feet of native groundwater currently being lost to evaporation from the aquifer system beneath our Cadiz Valley property and deliver it to water providers throughout Southern California. We believe that the ultimate implementation of this Water Project will create the primary source of our future cash flow and, accordingly, our working capital requirements relate largely to the development activities associated with this Water Project.

We also continue to explore additional uses of our land and water resource assets, including additional agricultural opportunities, renewable energy power generation opportunities, and the development of a land conservation bank on our properties outside the Water Project area.

In addition to these development efforts, we will also pursue strategic investments in complementary business or infrastructure to meet our objectives. We cannot predict with certainty when or if these objectives will be realized.

Risk Factors

See “Risk Factors” beginning on page 7 and other information in this prospectus for a discussion of factors you should consider carefully before investing in shares of our common stock.

RISK FACTORS

An investment in shares of our common stock involves a high degree of risk. You should carefully consider the following factors as well as the other information contained and incorporated by reference in this prospectus before deciding to invest.

Our Development Activities Have Not Generated Significant Revenues

At present, our development activities include water resource and agricultural development at our San Bernardino County properties. We have not received significant revenues from our development activities to date and we do not know when, if ever, we will receive operating revenues sufficient to offset the costs of our development activities. As a result, we continue to incur a net loss from operations.

We May Never Generate Significant Revenues or Become Profitable Unless We Are Able to Successfully Implement Programs to Develop Our Land Assets and Related Water Resources

We do not know the terms, if any, upon which we may be able to proceed with our water and other development programs. Regardless of the form of our water development programs, the circumstances under which supplies or storage of water can be developed and the profitability of any supply or storage project are subject to significant uncertainties, including the risk of variable water supplies and changing water allocation priorities. Additional risks include our ability to obtain all necessary regulatory approvals and permits, litigation by environmental or other groups, unforeseen technical difficulties, general market conditions for water supplies, and the time needed to generate significant operating revenues from such programs after operations commence.

The Development of Our Properties Is Heavily Regulated, Requires Governmental Approvals and Permits That Could Be Denied, and May Have Competing Governmental Interests and Objectives

In developing our land assets and related water resources, we are subject to local, state, and federal statutes, ordinances, rules and regulations concerning zoning, resource protection, environmental impacts, infrastructure design, subdivision of land, construction and similar matters. Our development activities are subject to the risk of adverse interpretations or changes to U.S. federal, state and local laws, regulations and policies. Further, our development activities require governmental approvals and permits. If such permits were to be denied or granted subject to unfavorable conditions or restrictions, our ability to successfully implement our development programs would be adversely impacted.

The opposition of government officials may adversely affect our ability to obtain needed government approvals and permits upon satisfactory terms in a timely manner. In this regard, federal government appropriations currently preclude spending for any proposal to store water for the purpose of export or for any activities associated with the approval of rights-of-way on lands managed by the Needles Field Office of the U.S. Bureau of Land Management (the "BLM"). Federal government appropriations also direct the U.S. Department of the Interior (the "DOI") to confirm that the Water Project's proposed use of a portion of ARZC's for its conveyance pipeline is within the scope of ARZC's right-of-way. According to existing federal law and direction from the DOI in Memorandum Opinion M-23075 a railroad has the authority to grant third party uses within its rights-of-way without BLM approval if those uses will serve a railroad purpose. The Project and pipeline will further numerous railroad purposes, including fire suppression and access to water for railroad business operations, and the ARZC has provided information regarding these purposes to the BLM. As a result, we do not believe federal right-of-way approval is required to implement the Project; however, this may be subject to challenge.

Additionally, the statutes, regulations and ordinances governing the approval processes provide third parties the opportunity to challenge proposed plans and approvals. Opposition from third parties will cause delays and increase the costs of our development efforts or preclude such development entirely. In California, third parties have the ability to file litigation challenging the approval of a project, which they usually do by alleging inadequate disclosure and mitigation of the environmental impacts of the project. We are currently named as a real party in interest in eight lawsuits challenging the various Water Project approvals granted to date and expect to be party to various legal proceedings arising in the general course of our business related to the development of the Water Project. While we have worked with representatives of various environmental and third party interests and agencies to minimize and mitigate the impacts of our planned projects, certain groups may remain opposed to our development plans.

Our Failure to Make Timely Payments of Principal and Interest on Our Indebtedness May Result in a Foreclosure on Our Assets

As of December 31, 2012, we had indebtedness outstanding to our senior secured lenders of approximately \$65.26 million. This debt was refinanced in March 2013 and a new senior secured \$30 million facility is secured by our assets. To the extent that we do not make principal and interest payments on the senior secured indebtedness when due in 2016, or if we otherwise fail to comply with the terms of agreements governing our indebtedness, we may default on our obligations.

The Conversion of Our Outstanding Convertible Notes into Common Stock Would Dilute the Percentage of Our Common Stock Held by Current Stockholders

In connection with our March 2013 debt refinance, we issued approximately \$53.5 million in convertible Notes at face amount, without discount. Principal and accrued interest under the convertible Notes can be converted into common stock at \$8.05 per share at the election of our lenders. An election by our lenders to convert all or a portion of principal and accrued interest under these convertible Notes into common stock will dilute the percentage of our common stock held by current stockholders up to 6.81 million shares as of May 10, 2013, and up to an additional 2.6 million shares if held to maturity.

We May Not Be Able To Obtain the Financing We Need To Implement Our Asset Development Programs

Based upon our current and anticipated usage of cash resources, we have sufficient funds to meet our expected working capital needs until mid-2014. We will continue to require additional working capital to meet our cash resource needs until such time as our asset development programs produce revenues. If we cannot raise funds if and when needed, we might be forced to make substantial reductions in our operating expenses, which could adversely affect our ability to implement our current business plan and ultimately our viability as a company. We cannot assure you that our current lenders, or any other lenders, will give us additional credit should we seek it. If we are unable to obtain additional credit, we may engage in further financings. Our ability to obtain financing will depend, among other things, on the status of our asset development programs and general conditions in the capital markets at the time funding is sought. Although we currently expect our capital sources to be sufficient to meet our near term liquidity needs, there can be no assurance that our liquidity requirements will continue to be satisfied. Any further equity or convertible debt financings would result in the dilution of ownership interests of our current stockholders.

The Issuance of Equity Securities Under Management Equity Incentive Plans Will Impact Earnings

Our compensation programs for management emphasize long-term incentives, primarily through the issuance of equity securities and options to purchase equity securities. It is expected that plans involving the issuance of shares, options, or both will be submitted from time to time to our stockholders for approval. In the event that any such plans are approved and implemented, the issuance of shares and options under such plans may result in the dilution of the ownership interest of other stockholders and will, under currently applicable accounting rules, result in a charge to earnings based on the value of our common stock at the time of issue and the fair value of options at the time of their award. The expense would be recorded over the vesting period of each stock and option grant.

The Volatility of Our Stock Price Could Adversely Affect Current and Future Stockholders

The market price of our common stock is volatile and fluctuates in response to various factors which are beyond our control. Such fluctuations are particularly common in companies such as ours, which have not generated significant revenues. The following factors, in addition to other risk factors described in this section, could cause the market price of our common stock to fluctuate substantially:

- developments involving the execution of our business plan;
- disclosure of any adverse results in litigation;
- regulatory developments affecting our ability to develop our properties;
- the dilutive effect or perceived dilutive effect of additional debt or equity financings;
- perceptions in the marketplace of our company and the industry in which we operate; and
- general economic, political and market conditions.

In addition, the stock markets, from time to time, experience extreme price and volume fluctuations that may be unrelated or disproportionate to the operating performance of companies. These broad fluctuations may adversely affect the market price of our common stock. Price volatility could be worse if the trading volume of our common stock is low.

USE OF PROCEEDS

We will not receive any proceeds from the sale of any or all of the shares being offered by the selling stockholders under this prospectus. Our obligations to pay amounts otherwise due under the Notes will, however, be reduced as a result of the issuance of our common stock in conversion of principal and accrued interest on the Notes. We may receive an amount of up to approximately \$2,500,000 upon the exercise of the Warrants, if exercised. Any proceeds that we receive from the exercise of Warrants will be used by us for general working capital. There can be no assurances that any of the Warrants will be exercised.

SELLING STOCKHOLDERS

This prospectus covers the resale or other disposition of up to an aggregate of 9,693,141 shares of our common stock issuable to the stockholders identified in the table below with respect to securities issued in connection with our issuance of warrants in October 2012 and our issuance of convertible notes in March 2013.

In October 2012, we increased the capacity of our then existing corporate term debt by an additional \$5 million. Concurrently with the funding of the new \$5 million facility, we issued to the lenders, who are listed as selling stockholders in the table below, warrants to purchase an aggregate of 250,000 shares of common stock (“Warrants”). The Warrants have an exercise price of \$10 per share and expire on October 30, 2014.

In March 2013, we completed arrangements with our lenders to refinance the Company’s existing corporate term debt and established two separate debt instruments, a \$30 million senior secured mortgage loan due in March 2016, and \$53.5 million in 7.00% Convertible Senior Notes at face amount, without discount (the “Notes”) due in March 2018, with no principal or interest payments due on either instrument until maturity. Principal and accrued interest at 7% per annum under the Notes are convertible into our common stock at a price of \$8.05 per share, resulting in an aggregate maximum of 9,443,141 million shares issuable to the holders of the Notes, who are listed as selling stockholders in the table below, through maturity on March 5, 2018. The number of shares being offered by this prospectus assumes the conversion of the full amount of the Notes at maturity, giving effect to all interest accrued through that date. In the event that all or part of the Notes are converted prior to the final maturity date, the number of shares that will actually be issued will be less than the number of shares being offered by this prospectus.

Pursuant to our contractual arrangements with the holders of the Notes, unless and until the approval of our stockholders is obtained, no lender shall be able to convert principal and accrued interest on the Notes into shares of our common stock to the extent that after such conversion such holder would own more than 3,089,006 shares (i.e. 19.99% of the 15,452,756 shares of our common stock which were outstanding at the time the Notes were issued). The number of shares being offered by this prospectus does not reflect this limitation.

We have agreed to register the shares of our common stock issuable upon exercise of the Warrants and upon conversion of principal and accrued interest on the Notes at our own expense. Accordingly, we have filed with the United States Securities and Exchange Commission (the “Commission”) a registration statement, of which this prospectus is a part, for the resale of those shares.

PLAN OF DISTRIBUTION

The shares of common stock offered by this prospectus will be offered and sold by the selling stockholders named in this prospectus, by their donees, or by their other successors in interest. We have agreed to bear the expenses of the registration of the shares, including legal and accounting fees, other than fees of counsel, if any, retained individually by the selling stockholders, and any discounts or commissions payable with respect to sales of the shares.

The selling shareholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. Such sales may be made on one or more exchanges or in the over-the-counter market or otherwise, at prices and under terms then prevailing or at prices related to the then current market price or in negotiated transactions. The selling shareholders may sell their shares by one or more of, or a combination of, the following methods:

- purchases by a broker-dealer as principal and resale by such broker-dealer for its own account pursuant to this prospectus;
 - ordinary brokerage transactions and transactions in which the broker solicits purchasers;

- block trades in which the broker-dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- on any national securities exchange or quotation service on which the shares may be listed or quoted at the time of sale;
 - in the over-the-counter market;
 - in privately negotiated transactions;
 - in options transactions; and
 - by any other legally available means.

In addition, any shares that qualify for sale pursuant to Rule 144 may be sold under Rule 144 rather than pursuant to this prospectus.

From time to time, a selling stockholder may pledge or grant a security interest in some or all of the shares which the selling stockholder owns. If a selling stockholder defaults in the performance of the selling stockholder's secured obligations, the pledgees or secured parties may offer and sell the shares from time to time by this prospectus (except, in some cases, if the pledgees or secured parties are broker-dealers or are affiliated with broker-dealers). The selling stockholders also may transfer and donate shares in other circumstances. Donees may also offer and sell the shares from time to time by this prospectus (except, in some cases, if the donees are broker-dealers or are affiliated with broker-dealers). The number of shares beneficially owned by a selling stockholder will decrease as and when a selling stockholder donates such stockholder's shares or defaults in performing obligations secured by such stockholder's shares. The plan of distribution for the shares offered and sold under this prospectus will otherwise remain unchanged, except that the donees, pledgees, other secured parties or other successors in interest will be selling stockholders for purposes of this prospectus.

To the extent required, this prospectus may be amended or supplemented from time to time to describe a specific plan of distribution.

In effecting sales, broker-dealers or agents engaged by the selling shareholders may arrange for other broker-dealers to participate. Broker-dealers or agents may receive commissions, discounts or concessions from the selling shareholders in amounts to be negotiated immediately prior to the sale.

The selling stockholders and any broker-dealers acting in connection with the sale of the shares covered by this prospectus may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act of 1933, and any commissions received by them and any profit realized by them on the resale of the shares as principals may be deemed to be underwriting compensation under the Securities Act of 1933.

In order to comply with the securities laws of certain states, if applicable, the shares must be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states, the shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

We have agreed to indemnify the selling stockholders against liabilities they may incur as a result of any untrue statement or alleged untrue statement of a material fact in the registration statement of which this prospectus forms a part, or any omission or alleged omission in this prospectus or the registration statement to state a material fact necessary in order to make the statements made not misleading. This indemnification includes liabilities that the selling stockholders may incur under the Securities Act. We do not have to give such indemnification if the untrue statement or omission was made in reliance upon and in conformity with information furnished in writing to us by the selling stockholders for use in this prospectus or the registration statement.

We have advised the selling shareholders that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of shares in the market and to the activities of the selling shareholders and their respective affiliates. The selling shareholders may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under the Securities Act.

Item 15. Indemnification of Directors and Officers.

Section 145 of the Delaware General Corporation Law permits our Board of Directors to indemnify any person against expenses, attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with any threatened, pending or completed action, suit or proceeding in which he is made a party because he serves or served as a director, officer, employee or agent of Cadiz or of another entity. The language of Section 145 is sufficiently broad to permit indemnification in some situations for liabilities, including reimbursement for expenses incurred, arising under the Securities Act of 1933, as amended. The statute provides that indemnification pursuant to its provisions is not exclusive of other rights of indemnification to which a person may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors, or otherwise.

Our Bylaws provide for mandatory indemnification of directors and officers of Cadiz, and those serving at the request of Cadiz as directors, officers, employees, or agents of other entities, to the maximum extent permitted by law. The Bylaws provide that this indemnification shall be a contract right between each of these persons and Cadiz.

Our Certificate of Incorporation provides that a director of the company shall not be personally liable to the company or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability:

- (1) for any breach of the director's duty of loyalty to Cadiz or its stockholders;
- (2) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- (3) under Section 174 of the Delaware General Corporation Law; or
- (4) for any transaction from which the director derived an improper personal benefit.

Our Certificate of Incorporation provides that if the Delaware General Corporation Law is subsequently amended to authorize the further elimination or limitation of the liability of a director, then the liability of a director shall be eliminated or limited to the fullest extent permitted by the law as amended. We have also purchased a liability insurance policy which insures our directors and officers against certain liabilities, including liabilities under the Securities Act of 1933.

Item 17. Undertakings.

- (a) The undersigned registrant hereby undertakes:

- (1) to file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

- (i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

- (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;
- (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) do not apply if the registration statement is on Form S-3, and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of this registration statement;

- (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof; and
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) [Intentionally omitted]

(5) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

- (i) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
- (b) That for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
