PARKER DRILLING COMPANY AND SUBSIDIARIES

NOTES TO THE UNAUDITED CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

Basis of Presentation — The Consolidated Condensed Financial Statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and are unaudited. In the opinion of Parker Drilling Company (“Parker Drilling” or the “Company”), these consolidated condensed financial statements include all adjustments, which, unless otherwise disclosed, are of a normal recurring nature, necessary for their fair presentation for the periods presented. The results for interim periods are not necessarily indicative of results for the entire year. The consolidated condensed financial statements presented herein should be read in connection with the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2017.

Consolidation — The consolidated condensed financial statements include the accounts of the Company and subsidiaries in which we exercise control or have a controlling financial interest, including entities, if any, in which the Company is allocated a majority of the entity’s losses or returns, regardless of ownership percentage. If a subsidiary of Parker Drilling has a 50 percent interest in an entity but Parker Drilling’s interest in the subsidiary or the entity does not meet the consolidation criteria described above, then that interest is accounted for under the equity method.

Reclassifications — Certain reclassifications have been made to prior period amounts to conform to the current period presentation. These reclassifications did not materially affect our consolidated financial results.

Use of Estimates — The preparation of our consolidated condensed financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect our reported amounts of assets and liabilities, our disclosure of contingent assets and liabilities at the date of the consolidated condensed financial statements, and our revenues and expenses during the periods reported. Estimates are typically used when accounting for certain significant items such as legal or contractual liability accruals, self-insured medical/dental plans, impairment, income taxes and valuation allowance, and other items requiring the use of estimates. Estimates are based on a number of variables, which may include third party valuations, historical experience, where applicable, and assumptions that we believe are reasonable under the circumstances. Due to the inherent uncertainty involved with estimates, actual results may differ from management estimates.

Purchase Price Allocation — We allocate the purchase price of an acquired business to its identifiable assets and liabilities in accordance with the acquisition method based on estimated fair values at the transaction date. Transaction and integration costs associated with an acquisition are expensed as incurred. The excess of the purchase price over the amount allocated to the assets and liabilities, if any, is recorded as goodwill. We use all available information to estimate fair values, including quoted market prices, the carrying value of acquired assets, and widely accepted valuation techniques such as discounted cash flows. We typically engage third-party appraisal firms to assist in fair value determination of inventories, identifiable intangible assets, and any other significant assets or liabilities. Judgments made in determining the estimated fair value assigned to each class of assets acquired and liabilities assumed, as well as asset lives, can materially impact our results of operations.

Goodwill — We perform our annual goodwill impairment review during the fourth quarter, as of October 1, and more frequently if negative conditions or other triggering events arise. The quantitative impairment test we perform for goodwill utilizes certain assumptions, including forecasted revenues and costs assumptions. See Note 3 - Goodwill and Intangible Assets for further discussion.

Intangible Assets — Our intangible assets are related to developed technology and trade names, which were acquired through acquisition and are classified as definite lived intangibles, that are generally amortized over a weighted average period of approximately three to six years. We assess the recoverability of the unamortized balance of our intangible assets when indicators of impairment are present based on expected future profitability and undiscounted expected cash flows and their contribution to our overall operations. Should the review indicate that the carrying value is not fully recoverable, the excess of the carrying value over the fair value of the intangible assets would be recognized as an impairment loss. See Note 3 - Goodwill and Intangible Assets for further discussion.

Impairment — We evaluate the carrying amounts of long-lived assets for potential impairment when events occur or circumstances change that indicate the carrying values of such assets may not be recoverable. We evaluate recoverability by determining the undiscounted estimated future net cash flows for the respective asset groups identified. If the sum of the estimated undiscounted cash flows is less than the carrying value of the asset group, we measure the impairment as the amount by which the assets' carrying value exceeds the fair value of such assets. Management considers a number of factors such as estimated future cash flows from the assets, appraisals and current market value analysis in determining fair value. Assets are written down to fair value if the final estimate of current fair value is below the net carrying value. The assumptions used in the impairment evaluation are inherently uncertain and require management judgment.

Table of Contents

Income Taxes — Income taxes are accounted for under the asset and liability method and have been provided for based upon tax laws and rates in effect in the countries in which operations are conducted and income or losses are generated. There is little or no expected relationship between the provision for or benefit from income taxes and income or loss before income taxes as the countries in which we operate have taxation regimes that vary not only with respect to nominal rate, but also in terms of the availability of deductions, credits, and other benefits. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which the temporary differences are expected to be recovered or settled and the effect of changes in tax rates is recognized in income in the period in which the change is enacted. Valuation allowances are established to reduce deferred tax assets when it is more likely than not that some portion or all of the deferred tax assets will not be realized. In order to determine the amount of deferred tax assets or liabilities, as well as the valuation allowances, we must make estimates and assumptions regarding future taxable income, where rigs will be deployed, and other matters. Changes in these estimates and assumptions, including changes in tax laws and other changes affecting our ability to recognize the underlying deferred tax assets, could require us to adjust the valuation allowances.

The Company recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. Recognized income tax positions are measured at the largest amount that is greater than 50 percent likely of being realized and changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

Earnings (Loss) Per Share (EPS) — Basic earnings (loss) per share is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. The effects of dilutive securities, stock options, unvested restricted stock, assumed conversion of convertible stock and convertible debt are included in the diluted EPS calculation, when applicable.

Concentrations of Credit Risk — Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of trade receivables with a variety of national and international oil and natural gas companies. We generally do not require collateral on our trade receivables. We depend on a limited number of significant customers. Our largest customer, Exxon Neftegas Limited (“ENL”), constituted approximately 25.7 percent of our consolidated revenues for the nine months ended September 30, 2018. Excluding revenues from reimbursable costs (“reimbursable revenues”) of \$34.6 million, ENL constituted approximately 17.9 percent of our total consolidated revenues for the nine months ended September 30, 2018.

We had deposits in domestic banks in excess of federally insured limits of approximately \$41.3 million and \$97.6 million, as of September 30, 2018 and December 31, 2017, respectively. In addition, we had uninsured deposits in foreign banks of \$42.4 million and \$45.6 million as of September 30, 2018 and December 31, 2017, respectively.

Legal and Investigative Matters — We accrue estimates of the probable and estimable costs for the resolution of certain legal and investigative matters. We do not accrue any amounts for other matters for which the liability is not probable and reasonably estimable. Generally, the estimate of probable costs related to these matters is developed in consultation with our legal advisors. The estimates take into consideration factors such as the complexity of the issues, litigation risks and settlement costs. If the actual settlement costs, final judgments, or fines, after appeals, differ from our estimates, our future financial results may be adversely affected.

Reverse Stock Split — On July 27, 2018, the Company’s 1-for-15 reverse stock split of its common stock became effective. Unless otherwise indicated, all common share and per common share data have been retroactively restated for all periods presented. The reverse stock split did not affect the par value of the common stock. Shareholders who otherwise would have been entitled to receive a fractional share of common stock as a result of the reverse stock split received cash in lieu of such fractional share. The Company’s 7.25% Series A Mandatory Convertible Preferred Stock (“Convertible Preferred Stock”) was not subject to the reverse stock split, as proportionate adjustments were made to the minimum and maximum conversion rates of the Convertible Preferred Stock.

Table of Contents

Note 2 - Property, Plant and Equipment Impairment

Historically, our barge rig utilization has trended closely with oil prices in periods of both decline and recovery. During the third quarter of 2018, management determined the divergence between oil prices and utilization for our Gulf of Mexico inland barge and International barge asset groups necessitated performance of a recoverability analysis for these two asset groups. Average quarterly oil prices have increased sequentially beginning in the third quarter of 2017, reaching an average quarterly 3-year high in the third quarter of 2018, while our utilization remained flat for the nine months ending September 30, 2018 as compared to the year ended December 31, 2018.

Based upon our recoverability analysis, where the carrying values exceeded both estimated future undiscounted cash flows and a subsequent aggregate fair value determination based upon a cost approach method, we determined the Gulf of Mexico inland barge and International barge asset groups were impaired. The significant unobservable inputs to the cost approach method included replacement costs and remaining economic life. See also Note 5 - Fair Value of Measurements.

We estimated the fair values to be \$19.7 million and \$3.4 million for the Gulf of Mexico inland barge asset group and the International barge asset group, respectively, as of September 30, 2018. We recognized a pretax impairment loss of approximately \$44.0 million in total, or \$34.2 million and \$9.8 million for the Gulf of Mexico inland barge asset group and the International barge asset group, respectively, for the three months ended September 30, 2018. The Gulf of Mexico inland barge asset group is reported as part of the U.S. (Lower 48) Drilling segment and the International barge asset group is reported as part of the International & Alaska Drilling segment.

Table of Contents***Note 3 - Goodwill and Intangible Assets***

We account for business combinations using the acquisition method of accounting. Under this method, assets and liabilities, including any remaining noncontrolling interests, are recognized at fair value at the date of acquisition. The excess of the purchase price over the fair value of assets acquired, net of liabilities assumed, plus the value of any noncontrolling interests, is recognized as goodwill. We perform our annual goodwill impairment review during the fourth quarter, as of October 1, and more frequently if negative conditions or other triggering events arise. Should current market conditions worsen or persist for an extended period of time, an impairment of the carrying value of our goodwill could occur.

All of the Company's goodwill and intangible assets are allocated to the U.S. Rental Tools segment.

Goodwill — The change in the carrying amount of goodwill for the period ended September 30, 2018 is as follows:

<u>Dollars in thousands</u>	Goodwill
Balance at December 31, 2017	\$6,708
Additions	—
Balance at September 30, 2018	\$6,708

Of the total amount of goodwill recognized, zero is expected to be deductible for income tax purposes.

Intangible Assets — Intangible Assets consist of the following:

		Balance at September 30, 2018			
<i>Dollars in thousands</i>	Estimated Useful Life (Years)	Gross Carrying Amount	Write-off Due to Disposal	Accumulated Amortization	Net Carrying Amount
Amortized intangible assets:					
Developed technology	6	\$11,630	\$—	\$(6,784)	\$4,846
Trade names	5	4,940	(332)	(4,056)	552
Total amortized intangible assets		\$16,570	\$(332)	\$(10,840)	\$5,398

Amortization expense was \$1.7 million and \$2.2 million for the nine months ended September 30, 2018 and 2017, respectively.

Our remaining intangibles amortization expense for the next five years is presented below:

<u>Dollars in thousands</u>	Expected future intangible amortization expense
2018	\$ 577
2019	\$ 2,306
2020	\$ 2,030
2021	\$ 485
Beyond 2021	\$ —

Table of Contents***Note 4 - Long-term Debt***

The following table illustrates the Company's current debt portfolio as of September 30, 2018 and December 31, 2017:

<i><u>Dollars in thousands</u></i>	September 30, 2018	December 31, 2017
6.75% Senior Notes, due July 2022	\$360,000	\$360,000
7.50% Senior Notes, due August 2020	225,000	225,000
Total principal	585,000	585,000
Less: unamortized debt issuance costs	(5,711)	(7,029)
Total long-term debt	\$579,289	\$577,971

6.75% Senior Notes, due July 2022

On January 22, 2014, we issued \$360.0 million aggregate principal amount of 6.75% Senior Notes due July 2022 (the "6.75% Notes") pursuant to an Indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee. The 6.75% Notes are general unsecured obligations of the Company and rank equal in right of payment with all of our existing and future senior unsecured indebtedness. The 6.75% Notes are jointly and severally guaranteed by all of our subsidiaries that guarantee indebtedness under the Second Amended and Restated Senior Secured Credit Agreement, as amended from time-to-time ("2015 Secured Credit Agreement") and our 7.50% Senior Notes, due 2020 ("7.50% Notes", and collectively with the 6.75% Notes, the "Senior Notes"). Interest on the 6.75% Notes is payable on January 15 and July 15 of each year, beginning July 15, 2014. Debt issuance costs related to the 6.75% Notes of approximately \$7.6 million (\$3.9 million net of amortization as of September 30, 2018) are being amortized over the term of the notes using the effective interest rate method.

We may redeem all or a part of the 6.75% Notes upon appropriate notice, at redemption prices decreasing each year after January 15, 2018 to par beginning January 15, 2020. As of September 30, 2018, the redemption price is 103.375 percent and we have not made any redemptions to date. If we experience certain changes in control, we must offer to repurchase the 6.75% Notes at 101.0 percent of the aggregate principal amount, plus accrued and unpaid interest and additional interest, if any, to the date of repurchase.

We have engaged financial and legal advisors to assist us in, among other things, analyzing various strategic alternatives to address our capital structure, including the maturity of our Senior Notes. Certain strategic and refinancing alternatives to restructure our balance sheet in the near term could, if implemented, have a material adverse impact on our statements of financial position, results of operations and cash flows.

The Indenture limits our ability and the ability of certain subsidiaries to: (i) sell assets, (ii) pay dividends or make other distributions on capital stock or redeem or repurchase capital stock or subordinated indebtedness, (iii) make investments, (iv) incur or guarantee additional indebtedness, (v) create or incur liens, (vi) enter into sale and leaseback transactions, (vii) incur dividend or other payment restrictions affecting subsidiaries, (viii) merge or consolidate with other entities, (ix) enter into transactions with affiliates, and (x) engage in certain business activities. Additionally, the Indenture contains certain restrictive covenants designating certain events as Events of Default. These covenants are subject to a number of important exceptions and qualifications.

7.50% Senior Notes, due August 2020

On July 30, 2013, we issued \$225.0 million aggregate principal amount of the 7.50% Notes pursuant to an Indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee. The 7.50% Notes are general unsecured obligations of the Company and rank equal in right of payment with all of our existing and future senior unsecured indebtedness. The 7.50% Notes are jointly and severally guaranteed by all of our subsidiaries that guarantee indebtedness under the 2015 Secured Credit Agreement and the 6.75% Notes. Interest on the 7.50% Notes is payable on February 1 and August 1 of each year, beginning February 1, 2014. Debt issuance costs related to the 7.50% Notes of approximately \$5.6 million (\$1.8 million, net of amortization as of September 30, 2018) are being amortized over the term of the notes using the effective interest rate method.

Beginning August 1, 2018, we may redeem all or a part of the 7.50% Notes upon appropriate notice, at par. We have not made any redemptions to date. If we experience certain changes in control, we must offer to repurchase the 7.50% Notes at 101.0 percent of the aggregate principal amount, plus accrued and unpaid interest and additional interest, if any, to the date of repurchase.

The Indenture limits our ability and the ability of certain subsidiaries to: (i) sell assets, (ii) pay dividends or make other distributions on capital stock or redeem or repurchase capital stock or subordinated indebtedness, (iii) make investments, (iv) incur or guarantee additional indebtedness, (v) create or incur liens, (vi) enter into sale and leaseback transactions, (vii) incur dividend or other payment restrictions affecting subsidiaries, (viii) merge or consolidate with other entities, (ix) enter into transactions with

Table of Contents

affiliates, and (x) engage in certain business activities. Additionally, the Indenture contains certain restrictive covenants designating certain events as Events of Default. These covenants are subject to a number of important exceptions and qualifications.

2015 Secured Credit Agreement

On January 26, 2015, we entered into the 2015 Secured Credit Agreement. The 2015 Secured Credit Agreement was originally comprised of a \$200.0 million revolving credit facility (the “Revolver”). The 2015 Secured Credit Agreement formerly included financial maintenance covenants, including a Leverage Ratio, Consolidated Interest Coverage Ratio, Senior Secured Leverage Ratio, and Asset Coverage Ratio, many of which were suspended beginning in September 2015. We executed various amendments prior to February 14, 2018, which reduced the size of the Revolver from \$200.0 million to \$100.0 million.

On February 14, 2018, we executed the Fifth Amendment to the 2015 Secured Credit Agreement (the “Fifth Amendment”) which modified the credit facility to an Asset-Based Lending structure and reduced the size of the Revolver from \$100.0 million to \$80.0 million. The Fifth Amendment eliminated the financial maintenance covenants previously in effect and replaced them with a liquidity covenant of \$30.0 million and a monthly borrowing base calculation based on eligible rental equipment and eligible domestic accounts receivable. The liquidity covenant requires the Company to maintain a minimum of \$30.0 million of liquidity (defined as availability under the borrowing base and cash on hand), of which \$15.0 million is restricted, resulting in a maximum availability at any one time of the lesser of (a) an amount equal to our borrowing base minus \$15.0 million, or (b) \$65.0 million. Our ability to borrow under the 2015 Secured Credit Agreement is determined by reference to our borrowing base. The Fifth Amendment also allows for refinancing our existing Senior Notes with either secured or unsecured debt, adds the ability for the Company to designate certain of its subsidiaries as “Designated Borrowers” and removes our availability to make certain restricted payments. The debt issuance costs incurred relating to the Fifth Amendment were \$1.4 million. The remaining debt issuance costs including all amendments as of September 30, 2018 were \$1.4 million which are being amortized through January 2020 on a straight line basis.

On July 12, 2018, we executed the Sixth Amendment to the 2015 Secured Credit Agreement (the “Sixth Amendment”) which permits the Company to make Restricted Payments (as defined in the 2015 Secured Credit Agreement) in the form of certain Equity Interests (as defined in the 2015 Secured Credit Agreement).

On October 25, 2018, we entered into a Consent Agreement and a Cash Collateral Agreement, whereby we may open bank accounts not subject to the 2015 Secured Credit Agreement for the purpose of depositing cash to secure certain Letters of Credit.

Our obligations under the 2015 Secured Credit Agreement are guaranteed by substantially all of our direct and indirect domestic subsidiaries, other than immaterial subsidiaries and subsidiaries generating revenues primarily outside the United States, each of which has executed guaranty agreements, and are secured by first priority liens on our accounts receivable, specified rigs including barge rigs in the GOM and land rigs in Alaska, certain U.S.-based rental equipment of the Company and its subsidiary guarantors and the equity interests of certain of the Company’s subsidiaries. In addition to the liquidity covenant and borrowing base requirements, the 2015 Secured Credit Agreement contains customary affirmative and negative covenants, such as limitations on indebtedness and liens, and restrictions on entry into certain affiliate transactions and payments (including certain payments of dividends). As of September 30, 2018, we were in compliance with all covenants contained in the 2015 Secured Credit Agreement. Our Revolver is available for general corporate purposes and to support letters of credit. Interest on Revolver loans accrues at either:

- Base Rate plus an Applicable Rate or
- LIBOR plus an Applicable Rate.

Revolver loans are available subject to a monthly borrowing base calculation. As of September 30, 2018, the borrowing base under the \$80.0 million Revolver was \$79.9 million, which was further reduced by \$15.0 million of restricted liquidity and \$6.3 million in supporting letters of credit outstanding, resulting in availability under the Revolver of \$58.6 million. There were no amounts drawn on the Revolver as of September 30, 2018. Subsequently, on

October 30, 2018, we deposited \$10.0 million into a cash collateral account to support the letters of credit outstanding, increasing our availability under the Revolver by \$10.0 million.

Table of Contents***Note 5 - Fair Value of Measurements***

Certain of our assets and liabilities are required to be measured at fair value on a recurring basis. For purposes of recording fair value adjustments for certain financial and non-financial assets and liabilities, and determining fair value disclosures, we estimate fair value at a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market for the asset or liability.

The fair value measurement and disclosure requirements of Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic No. 820, Fair Value Measurement and Disclosures requires inputs that we categorize using a three-level hierarchy, from highest to lowest level of observable inputs, as follows:

Level 1 — Unadjusted quoted prices for identical assets or liabilities in active markets;

Level 2 — Direct or indirect observable inputs, including quoted prices or other market data, for similar assets or liabilities in active markets or identical assets or liabilities in less active markets; and

Level 3 — Unobservable inputs that require significant judgment for which there is little or no market data.

When multiple input levels are required for a valuation, we categorize the entire fair value measurement according to the lowest level of input that is significant to the entire measurement even though we may also have utilized significant inputs that are more readily observable. The amounts reported in our consolidated condensed balance sheets for cash and cash equivalents, accounts receivable, and accounts payable approximate fair value.

Fair value of our debt instruments is determined using Level 2 inputs. Fair values and related carrying values of our debt instruments were as follows for the periods indicated:

	September 30, 2018		December 31, 2017	
<u>Dollars in thousands</u>	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt				
6.75% Notes	\$360,000	\$282,600	\$360,000	\$296,100
7.50% Notes	225,000	200,250	225,000	206,438
Total	\$585,000	\$482,850	\$585,000	\$502,538

During the third quarter of 2018, Property, Plant and Equipment for the Gulf of Mexico inland barge and International barge asset groups was impaired and written down to their estimated fair values. The estimated fair value was determined using Level 3 inputs. See Note 2 - Property, Plant and Equipment Impairment for further details.

Market conditions could cause an instrument to be reclassified from Level 1 to Level 2, or Level 2 to Level 3. There were no transfers between levels of the fair value hierarchy or any changes in the valuation techniques used during the nine months ended September 30, 2018.

Note 6 - Income Taxes

We apply the accounting guidance related to accounting for uncertainty in income taxes. This guidance prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. At September 30, 2018, we had a liability for unrecognized tax benefits of \$6.0 million, primarily related to foreign operations, (all of which, if recognized, would favorably impact our effective tax rate.). At December 31, 2017, we had a liability for unrecognized tax benefits of \$5.4 million, all of which would favorably impact our effective tax rate upon recognition. In addition, we recognize interest and penalties that could be applied to uncertain tax positions in periodic income tax expense. As of September 30, 2018 and December 31, 2017, we had approximately \$2.1 million and \$2.1 million, respectively, of accrued interest and penalties related to uncertain tax positions.

Income tax expense was \$2.4 million and \$1.9 million for the three months ended September 30, 2018 and 2017, respectively. Despite the pre-tax loss for the third quarter of 2018, we recognized income tax expense due to the jurisdictional mix of income and loss during the quarter, along with our continued inability to recognize the benefits associated with certain losses as a result of valuation allowances.

Table of Contents***Note 7 - Commitments and Contingencies***

We are a party to various lawsuits and claims arising out of the ordinary course of business. We estimate the range of our liability related to pending litigation when we believe the amount or range of loss can be estimated. We record our best estimate of a loss when the loss is considered probable. When a liability is probable and there is a range of estimated loss with no best estimate in the range, we record the minimum estimated liability related to the lawsuits or claims. As additional information becomes available, we assess the potential liability related to our pending litigation and claims and revise our estimates. Due to uncertainties related to the resolution of lawsuits and claims, the ultimate outcome may differ significantly from our estimates. In the opinion of management and based on liability accruals provided, our ultimate exposure with respect to these pending lawsuits and claims is not expected to have a material adverse effect on our consolidated condensed balance sheets or statements of cash flows, although they could have a material adverse effect on our consolidated condensed statements of operations for a particular reporting period.

Note 8 - Stockholders' Equity

Stock Issuance — In February 2017, we issued 800,000 shares (on a post-split basis or 12,000,000 shares on pre-split basis) of common stock, par value \$0.16 $\frac{2}{3}$ per share, at the public offering price of \$2.10 per share, and 500,000 shares of the Convertible Preferred Stock, par value \$1.00 per share, with a liquidation preference of \$100 per share, for total net proceeds of \$72.3 million, after underwriting discount and offering expenses.

Unless converted earlier, each share of our Convertible Preferred Stock will automatically convert into between 2.7605 and 3.1746 shares (on a post-split basis) of our common stock (respectively, the “minimum conversion rate” and “maximum conversion rate”), subject to anti-dilution adjustments. The number of shares of our common stock issuable on conversion will be determined based on the volume weighted-average price of our common stock over the 20 consecutive trading day period beginning on, and including, the 23rd scheduled trading day immediately preceding March 31, 2020. Except in limited circumstances, at any time prior to March 31, 2020, a holder may convert Convertible Preferred Stock into shares of our common stock at the minimum conversion rate of 2.7605 shares (on a post-split basis) of common stock per share of Convertible Preferred Stock, subject to anti-dilution adjustments.

Dividends — The dividends on our Convertible Preferred Stock are payable on a cumulative basis when, as, and if declared by our board of directors, or an authorized committee of our board of directors, at an annual rate of 7.25 percent of the liquidation preference of \$100 per share. We may pay declared dividends in cash or, subject to certain limitations, in shares of our common stock, or in any combination of cash and shares of our common stock on March 31, June 30, September 30 and December 31 of each year, commencing on June 30, 2017 and ending on, and including, March 31, 2020.

On August 23, 2018, the Company declared a cash dividend of \$1.8125 per share of our Convertible Preferred Stock for the period beginning on June 30, 2018 and ending on September 29, 2018, which was paid on September 28, 2018 to holders of record of the Convertible Preferred Stock as of September 15, 2018.

Rights agreement — On July 12, 2018, the Board of Directors of the Company declared a dividend of one right (“Right”) for each outstanding share of common stock to common stockholders of record at the close of business on July 27, 2018, which was amended by the Board of Directors on August 23, 2018 (the “Rights Plan”). On August 23, 2018, our Board of Directors approved an amendment and restatement of the Rights Agreement, dated as of July 12, 2018, between the Company and Equiniti Trust Company, as Rights Agent (as amended and restated, the “Section 382 Rights Agreement”). The purpose of the Section 382 Rights Agreement is to protect value by preserving the Company’s ability to use its net operating losses and foreign tax credits (“Tax Benefits”).

Each Right entitles the registered holder to purchase from the Company a unit consisting of one one-thousandth of a share (a “Fractional Share”) of Series A Junior Participating Preferred Stock, par value \$1.00 per share, at a purchase price of \$52.50 per Fractional Share, subject to adjustment. Initially, the Rights are attached to all outstanding shares of common stock. The Rights will separate from the common stock and a “Distribution Date” will occur, with certain exceptions, upon the earlier of (i) 10 days following a public announcement that a person or group of affiliated or associated persons (an “Acquiring Person”) has acquired, or obtained the right to acquire, beneficial ownership of 4.9% or more of the outstanding shares of common stock, or (ii) 10 business days following the commencement of a tender

offer or exchange offer that would result in a person's becoming an Acquiring Person. Each person or group of affiliated or associated persons that was a beneficial owner of 4.9% or more of the outstanding shares of common stock at the time of the adoption of the Section 382 Rights Agreement was grandfathered in at its then-current ownership level, but the Rights will become exercisable if at any time after the adoption of the Section 382 Rights Agreement, such person or group increases its ownership of common stock by one share or more. Any person or group of affiliated or associated persons who proposes to acquire 4.9% or more of the outstanding shares of common stock may apply to our Board of Directors in advance for an exemption. The Rights are not exercisable until the Distribution Date and will expire at the earliest of (i) the close of business on August 23, 2021, (ii) the redemption or exchange of the Rights by the Company, (iii) the date on

Table of Contents

which our Board of Directors determines that the Rights Plan is no longer necessary for the preservation of a material Tax Benefit, (iv) the beginning of a taxable year of the Company for which our Board of Directors determines that no Tax Benefits may be carried forward, (v) July 12, 2019, if the affirmative vote of the majority of the Company's stockholders has not been obtained with respect to ratification of the Rights Plan, and (vi) the occurrence of a "qualifying offer" (as described in the Section 382 Rights Agreement). If the rights become exercisable, each holder other than the Acquiring Person (and certain related parties) will be entitled to acquire shares of common stock at a 50% discount or the Company may exchange each right held by such holders for two shares of common stock.

Reverse Stock Split — On July 27, 2018, the Company's 1-for-15 reverse stock split of its common stock became effective. Unless otherwise indicated, all common share and per common share data have been retroactively restated for all periods presented. The reverse stock split did not affect the par value of the common stock. Shareholders who otherwise would have been entitled to receive a fractional share of common stock as a result of the reverse stock split received cash in lieu of such fractional share. The Company's Convertible Preferred Stock was not subject to the reverse stock split as proportionate adjustments were made to the minimum and maximum conversion rates of the Convertible Preferred Stock.

Table of Contents***Note 9 - Earnings (Loss) Per Common Share (“EPS”)***

Basic earnings (loss) per share is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. The effects of dilutive securities, stock options, unvested restricted stock, convertible debt and equity are included in the diluted EPS calculation, when applicable. See Note 8 - Stockholders' Equity for details regarding the 1-for-15 reverse stock split.

The following table represents the computation of earnings per share for the three and nine months ended September 30, 2018 and 2017, respectively:

	Three Months Ended September 30,		Nine Months Ended September 30,	
<i>Dollars in thousands, except per share amounts</i>	2018	2017	2018	2017
<u>Basic EPS</u>				
Numerator				
Net Income (Loss) Available to Common Stockholders	\$(71,857)	\$(21,217)	\$(125,343)	\$(92,153)
Denominator				
Weighted average shares outstanding	9,334,390	9,220,001	9,292,858	9,030,345
Number of shares used for basic EPS computation	9,334,390	9,220,001	9,292,858	9,030,345
Basic earnings (loss) per common share	\$(7.70)	\$(2.30)	\$(13.49)	\$(10.20)

Diluted EPS

Numerator				
Net Income (Loss) Available to Common Stockholders	\$(71,857)	\$(21,217)	\$(125,343)	\$(92,153)
Denominator				
Number of shares used for basic EPS computation	9,334,390	9,220,001	9,292,858	9,030,345
Restricted stock units ⁽¹⁾	—	—	—	—
Convertible preferred stock ⁽²⁾	—	—	—	—
Number of shares used for diluted EPS computation	9,334,390	9,220,001	9,292,858	9,030,345
Diluted earnings (loss) per common share	\$(7.70)	\$(2.30)	\$(13.49)	\$(10.20)

For the three and nine months ended September 30, 2018 and 2017, respectively, all common shares potentially issuable in connection with outstanding restricted stock unit awards have been excluded from the calculation of diluted EPS as the Company incurred losses during the periods, therefore, inclusion of such potential common shares would be anti-dilutive.

Weighted average common shares issuable upon the assumed conversion of our Convertible Preferred Stock totaling 1,587,300 shares (on a post-split basis) were excluded from the computation of diluted EPS as such shares would be anti-dilutive.

Table of Contents***Note 10 - Revenue from Contracts with Customers***

We adopted the Accounting Standards Update (“ASU”) 2014-09, Revenue from Contracts with Customers (Topic 606) effective January 1, 2018, using the modified retrospective implementation method. Accordingly, we have applied the five-step method outlined in Topic 606 for determining when and how revenue is recognized to all contracts that were not completed as of the date of adoption. Revenues for reporting periods beginning as of January 1, 2018 are presented under Topic 606, while prior period amounts have not been adjusted and continue to be reported under the previous revenue recognition guidance. For contracts that were modified before the effective date, we have considered the modification guidance within the new standard and determined that the revenue recognized and contract balances recorded prior to adoption for such contracts were not impacted. While Topic 606 requires additional disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers, its adoption has not had a material impact on the measurement or recognition of our revenues. As part of the adoption, no adjustments were needed to the consolidated balance sheets, statements of operations and statements of cash flows. Our business is comprised of two business lines: (1) Drilling Services and (2) Rental Tools Services. See Note 11 - Reportable Segments for further details on these business lines and revenue disaggregation amounts.

Our drilling and rental tools services provided under each contract is a single performance obligation satisfied over time and comprised of a series of distinct time increments, or service periods. Total revenue is determined for each individual contract by estimating both fixed and variable consideration expected to be earned over the contract term. Fixed consideration generally relates to activities that are not distinct within the context of our contracts and is recognized on a straight-line basis over the contract term. Variable consideration generally relates to distinct service periods during the contract term and are recognized in the period when the services are performed. Our contract terms generally range from 2 to 60 months.

The amount estimated for variable consideration may be constrained (reduced) and is only recognized as revenue to the extent that it is probable that a significant reversal of previously recognized revenue will not occur during the contract term. When determining if variable consideration should be constrained, management considers whether there are factors outside the Company’s control that could result in a significant reversal of revenue as well as the likelihood and magnitude of a potential reversal of revenue. These estimates are re-assessed each reporting period as required. Accounts receivable are recognized when the right to consideration becomes unconditional based upon contractual billing schedules. Payment terms on invoiced amounts are typically 30 days.

Drilling Services Business

Dayrate Revenues — Our drilling services contracts generally provide for payment on a dayrate basis, with higher rates for periods when the drilling unit is operating and lower rates or zero rates for periods when drilling operations are interrupted or restricted. The dayrate invoices billed to the customer are typically determined based on the varying rates applicable to the specific activities performed on an hourly basis.

Such dayrate consideration is allocated to the distinct hourly increment to which it relates within the contract term, and therefore, recognized in line with the contractual rate billed for the services provided for any given hour.

Mobilization Revenues — We may receive fees (on either a fixed lump-sum or variable dayrate basis) for the mobilization of our rigs.

These activities are not considered to be distinct within the context of the contract and therefore, the associated revenues are allocated to the overall performance obligation and recognized ratably over the initial term of the related drilling contract. We record a contract liability for mobilization fees received, which is amortized ratably to revenue as services are rendered over the initial term of the related drilling contract. The amortized amount is adjusted accordingly if the term of the initial contract is extended.

Capital Modification Revenues — We may, from time to time, receive fees from our customers for capital improvements to our rigs to meet contractual requirements (on either a fixed lump-sum or variable dayrate basis).

Such revenues are allocated to the overall performance obligation and recognized ratably over the initial term of the related drilling contract as these activities are not considered to be distinct within the context of our contracts. We record a contract liability for such fees and recognize them ratably as revenue over the initial term of the related

drilling contract.

Demobilization Revenues — We may receive fees (on either a fixed lump-sum or variable dayrate basis) for the demobilization of our rigs.

Table of Contents

Due to the inherent uncertainty regarding the realization, we have elected to not recognize demobilization revenues till the uncertainty is resolved. Therefore, demobilization revenues are recognized once the related performance obligations have been completed.

Reimbursable Revenues — We generally receive reimbursements from our customers for the purchase of supplies, equipment, personnel services and other services provided at their request in accordance with a drilling contract or other agreement.

Such reimbursable revenues are variable and subject to uncertainty, as the amounts received and timing thereof is highly dependent on factors outside of our control. Accordingly, reimbursable revenues are not included in the total transaction price until the uncertainty is resolved, which typically occurs when the related costs are incurred on behalf of a customer. We are generally considered a principal in such transactions and record the associated revenues at the gross amount billed to the customer in our consolidated condensed statements of operations. Such amounts are recognized once the services have been performed. Such amounts totaled \$13.4 million and \$15.0 million for the three months ended September 30, 2018 and 2017, respectively, and \$40.4 million and \$45.5 million for the nine months ended September 30, 2018 and 2017, respectively.

Rental Tools Services Business

Dayrate Revenues — Our rental tools services contracts generally provide for payment on a dayrate basis depending on the rate for the tool defined in the contract.

Such dayrate consideration is allocated to the distinct hourly increment it relates to within the contract term, and therefore, recognized in line with the contractual rate billed for the services provided for any given hour.

Contract Costs

The following is a description of the different costs that we may incur for our contracts:

Mobilization Costs — These costs include certain direct and incremental costs incurred for mobilization of contracted rigs. These costs relate directly to a contract, enhance resources of the Company that will be used in satisfying its performance obligations in the future and are expected to be recovered. These costs are capitalized when incurred as a current or noncurrent asset (depending on the length of the initial contract term), and are amortized over the initial term of the related drilling contract.

The balance for capitalized mobilization costs was \$6.4 million and \$3.1 million as of September 30, 2018 and December 31, 2017, respectively. There was no impairment loss in relation to capitalized costs. Amortization of capitalized mobilization costs was \$1.8 million and \$3.9 million for the three and nine months ended September 30, 2018, respectively.

Demobilization Costs — These costs are incurred for the demobilization of rigs at contract completion and are recognized as incurred during the demobilization process.

Capital Modification Costs — These costs are incurred for rig modifications or upgrades required for a contract, which are considered to be capital improvements, are capitalized as property, plant and equipment and depreciated over the estimated useful life of the improvement.

Contract Liabilities

The following table provides information about contract liabilities from contracts with customers:

<u>Dollars in thousands</u>	September 30, 2018	December 31, 2017
Contract liabilities - current (Deferred revenue) ⁽¹⁾	\$ (5,501)	\$ (1,581)
Contract liabilities - noncurrent (Deferred revenue) ⁽¹⁾	(2,461)	(1,568)
Total contract liabilities	\$ (7,962)	\$ (3,149)

Contract liabilities - current and contract liabilities - noncurrent are included in accounts payable and accrued (1) liabilities and other long-term liabilities respectively, in our consolidated condensed balance sheet as of

September 30, 2018 and December 31, 2017.

Contract liabilities relate to mobilization revenues and capital modification revenues, where, we have unconditional right to cash or cash has been received but performance obligations have not been fulfilled. These liabilities are

reduced and revenue is recognized as performance obligations are fulfilled.

Table of Contents

Significant changes to contract liabilities balances during the nine months ended September 30, 2018 are shown below:

<u>Dollars in thousands</u>	Contract Liabilities
Balance at December 31, 2017	\$(3,149)
Increase to deferred revenue during current period	(7,657)
Decrease due to recognition of revenue	2,844
Balance at September 30, 2018	\$(7,962)

Transaction price allocated to the remaining performance obligations

The following table includes revenues expected to be recognized in the future related to performance obligations that are unsatisfied (or partially unsatisfied) at the end of the reporting period.

Balance at September 30, 2018

<u>Dollars in thousands</u>	Remaining 2018	2019	2020	Beyond 2020	Total
Deferred revenue	\$2,706	\$3,015	\$873	\$1,368	\$7,962

The revenues included above consist of mobilization and capital modification revenues for both wholly and partially unsatisfied performance obligations, which have been estimated for purposes of allocating across the entire corresponding performance obligations. The amounts are derived from the specific terms within contracts that contain such provisions, and the expected timing for recognition of such revenue is based on the estimated start date and duration of each respective contract based on information known at September 30, 2018. The actual timing of recognition of such amounts may vary due to factors outside of our control. We have applied the disclosure practical expedient in ASC 606-10-50-14A(b) and have not included estimated variable consideration related to wholly unsatisfied performance obligations or to distinct future time increments within our contracts.

Table of Contents

Note 11 - Reportable Segments

Our business is comprised of two business lines: (1) Drilling Services and (2) Rental Tools Services. We report our Drilling Services business as two reportable segments: (1) U.S. (Lower 48) Drilling and (2) International & Alaska Drilling. We report our Rental Tools Services business as two reportable segments: (1) U.S. Rental Tools and (2) International Rental Tools.

Within the four reportable segments, we have aggregated our Arctic, Eastern Hemisphere, and Latin America business units under International & Alaska Drilling, one business unit under U.S. (Lower 48) Drilling, one business unit under U.S. Rental Tools, and one business unit under International Rental Tools, for a total of six business units. The Company has aggregated each of its business units in one of the four reporting segments based on the guidelines of the FASB ASC Topic No. 280, Segment Reporting. We eliminate inter-segment revenues and expenses. We disclose revenues under the four reportable segments based on the similarity of the use and markets for the groups of products and services within each segment.

Drilling Services Business

In our Drilling Services business, we drill oil, natural gas, and geothermal wells for customers in both the U.S. and international markets. We provide this service with both Company-owned rigs and customer-owned rigs. We refer to the provision of drilling services with customer-owned rigs as our operations and management (“O&M”) service in which operators own their own drilling rigs but choose Parker Drilling to operate and manage the rigs for them. The nature and scope of activities involved in drilling an oil and natural gas well is similar whether it is drilled with a Company-owned rig (as part of a traditional drilling contract) or a customer-owned rig (as part of an O&M contract). In addition, we provide project-related services, such as engineering, procurement, project management, commissioning of customer-owned drilling rig projects, operations execution, and quality and safety management. We have extensive experience and expertise in drilling geologically challenging wells and in managing the logistical and technological challenges of operating in remote, harsh, and ecologically sensitive areas.

U.S. (Lower 48) Drilling

Our U.S. (Lower 48) Drilling segment provides drilling services with our Gulf of Mexico (“GOM”) barge drilling rig fleet and markets our U.S. (Lower 48)-based O&M services. We also provide O&M services for customer-owned rigs in California. Our GOM barge rigs drill for oil and natural gas in shallow waters in and along the inland waterways and coasts of Louisiana, Alabama and Texas. The majority of these wells are drilled in shallow water depths ranging from 6 to 12 feet. Our rigs are suitable for a variety of drilling programs, from inland coastal waters requiring shallow draft barges, to open water drilling on both state and federal water projects requiring more robust capabilities. Contract terms typically consist of well-to-well or multi-well programs, most commonly ranging from 20 to 180 days.

International & Alaska Drilling

Our International & Alaska Drilling segment provides drilling services, using both Company-owned rigs and O&M contracts, and project-related services. The drilling markets in which this segment operates have one or more of the following characteristics:

- customers typically are major, independent, or national oil and natural gas companies or integrated service providers;
- drilling programs in remote locations with little infrastructure, requiring a large inventory of spare parts and other ancillary equipment and self-supported service capabilities;
- complex wells and/or harsh environments (such as high pressures, deep depths, hazardous or geologically challenging conditions and sensitive environments) requiring specialized equipment and considerable experience to drill; and
- O&M contracts that generally cover periods of one year or more.

We have rigs under contract in Alaska, Kazakhstan, the Kurdistan region of Iraq, Guatemala, Mexico, and on Sakhalin Island, Russia. In addition, we have O&M and ongoing project-related services for customer-owned rigs in Kuwait, Canada, Indonesia, and on Sakhalin Island, Russia.

Rental Tools Services Business

In our Rental Tools Services business, we provide premium rental equipment and services to exploration & production companies, drilling contractors, and service companies on land and offshore in the U.S. and select international

markets. Tools we provide include standard and heavy-weight drill pipe, all of which are available with standard or high-torque connections, tubing, drill collars, pressure control equipment, including blowout preventers, and more. We also provide well construction services, which include tubular running services and downhole tool rentals, well intervention services, which include whipstocks,

Table of Contents

fishing and related services, and inspection and machine shop support. Rental tools are used during drilling and/or workover programs and are requested by the customer as needed, requiring us to keep a broad inventory of rental tools in stock. Rental tools are usually rented on a daily or monthly basis.

U.S. Rental Tools

Our U.S. Rental Tools segment maintains an inventory of rental tools for deepwater, drilling, completion, workover, and production applications at facilities in Louisiana, Texas, Wyoming, North Dakota and West Virginia. We also provide well construction and well intervention services. Our largest single market for rental tools is U.S. land drilling, a cyclical market driven primarily by oil and natural gas prices and our customers' access to project financing. A portion of our U.S. rental tools business supplies tubular goods and other equipment to offshore GOM customers.

International Rental Tools

Our International Rental Tools segment maintains an inventory of rental tools and provides well construction, well intervention, and surface and tubular services to our customers in the Middle East, Latin America, United Kingdom, Europe, and Asia-Pacific regions.

Table of Contents

The following table represents the results of operations by reportable segment:

	Three Months Ended September 30,		Nine Months Ended September 30,	
<i>Dollars in thousands</i>	2018	2017	2018	2017

For the nine months ended September 30, 2018, our largest customer, ENL, constituted approximately 25.7 percent of our total consolidated revenues and approximately 57.5 percent of our International & Alaska Drilling segment (1)revenues. Excluding reimbursable revenues of \$34.6 million, ENL constituted approximately 17.9 percent of our total consolidated revenues and approximately 47.6 percent of our International & Alaska Drilling segment revenues.

For the nine months ended September 30, 2017, our largest customer, ENL, constituted approximately 32.6 percent of our total consolidated revenues and approximately 56.9 percent of our International & Alaska Drilling segment revenues. Excluding reimbursable revenues of \$39.9 million, ENL constituted approximately 23.6 percent of our total consolidated revenues and approximately 46.9 percent of our International & Alaska Drilling segment revenues. Our second largest customer, BP, constituted 10.0 percent of our total consolidated revenues and approximately 17.5 percent of our International & Alaska Drilling segment revenues.

(2) Operating gross margin is calculated as revenues less direct operating expenses, including depreciation and amortization expense.

Note 12 - Recent Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). This ASU requires (a) an entity to separate the lease components from the non-lease components in a contract where the lease component will be accounted for under ASU 2016-02 and the non-lease component will be accounted for under ASU 2014-09, (b) recognition of lease assets and lease liabilities by lessees and derecognition of the leased asset and recognition of a net investment in the lease by the lessor and (c) additional disclosure requirements for both lessees and lessors. The standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, although early adoption is permitted. Under the updated accounting standard, we have determined that our drilling contracts contain a lease component. In July 2018, the FASB issued ASU 2018-11 which 1) provides for a new transition method whereby entities may elect to adopt the Update using a prospective with cumulative catch-up approach and (2) provides lessors with an option to not separate non-lease components from the associated lease components when certain criteria are met and requires them to account for the combined component in accordance with the new revenue standard if the associated non-lease components are the predominant components. We will adopt ASU 2016-02 on January 1, 2019. Our adoption, and the ultimate effect on our consolidated condensed financial statements, will be based on an evaluation of the contract-specific facts and circumstances, and such effect could introduce variability to the timing of our revenue recognition relative to current accounting standards. We are evaluating the requirements to determine the effect such requirements may have on our consolidated balance sheets, statements of operations, statements of cash flows and on the disclosures contained in our notes to the consolidated financial statements upon the adoption of ASU 2016-02. While, the Company continues to evaluate all of the effects of the adoption of this ASU, the Company believes the most significant effects relate to (i) the recognition of new right-of-use assets and lease liabilities on the condensed consolidated balance sheet for the Company's operating leases and (ii) providing significant new disclosures about the Company's leasing activities. Depending on the results of the evaluation our ultimate conclusions may vary.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). This ASU supersedes the revenue recognition requirements in ASC 605 - Revenue Recognition and most industry-specific guidance throughout the Codification. The standard requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Effective January 1, 2018, we adopted ASU 2014-09 using the modified retrospective approach and it did not have a material impact on our consolidated balance sheets, statement of operations, and statements of cash flows. See Note 10 - Revenue from Contracts with Customers for further details.

Table of Contents

Note 13 - Parent, Guarantor, Non-Guarantor Unaudited Consolidating Condensed Financial Statements

Set forth on the following pages are the consolidating condensed financial statements of Parker Drilling. The Company's 2015 Secured Credit Agreement and Senior Notes are fully and unconditionally guaranteed by substantially all of our direct and indirect domestic subsidiaries, other than immaterial subsidiaries and subsidiaries generating revenues primarily outside the United States, subject to the following customary release provisions: in connection with any sale or other disposition of all or substantially all of the assets of that guarantor (including by way of merger or consolidation) to a person that is not (either before or after giving effect to such transaction) a subsidiary of the Company; in connection with any sale of such amount of capital stock as would result in such guarantor no longer being a subsidiary to a person that is not (either before or after giving effect to such transaction) a subsidiary of the Company; if the Company designates any restricted subsidiary that is a guarantor as an unrestricted subsidiary; if the guarantee by a guarantor of all other indebtedness of the Company or any other guarantor is released, terminated or discharged, except by, or as a result of, payment under such guarantee; or upon legal defeasance or covenant defeasance (satisfaction and discharge of the indenture).

There are currently no restrictions on the ability of the restricted subsidiaries to transfer funds to Parker Drilling in the form of cash dividends, loans or advances. Parker Drilling is a holding company with no operations, other than through its subsidiaries. Separate financial statements for each guarantor company are not provided as the Company complies with the exception to Rule 3-10(f) of Regulation S-X. All guarantor subsidiaries are owned 100 percent by the parent company.

We are providing unaudited consolidating condensed financial information of the parent, Parker Drilling, the guarantor subsidiaries, and the non-guarantor subsidiaries as of September 30, 2018 and December 31, 2017 and for the three and nine months ended September 30, 2018 and 2017, respectively. The consolidating condensed financial statements present investments in both consolidated and unconsolidated subsidiaries using the equity method of accounting.

Table of Contents**Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

Management’s discussion and analysis should be read in conjunction with Item 1. Financial Statements of this quarterly report on Form 10-Q and with our Annual Report on Form 10-K for the year ended December 31, 2017. We use rounded numbers in the Management Discussion and Analysis section which may result in slight differences with results reported under Item 1. Financial Statements.

Executive Summary

The oil and natural gas industry is highly cyclical. Activity levels are driven by traditional energy industry activity indicators, which include current and expected commodity prices, drilling rig counts, footage drilled, well counts, and our customers’ spending levels allocated to exploratory and developmental drilling.

Historical market indicators are listed below:

	Nine Months Ended September 30,			
	2018	2017	%	Change
Worldwide Rig Count ⁽¹⁾				
U.S. (land and offshore)	1,018	859	19	%
International ⁽²⁾	980	948	3	%
Commodity Prices ⁽³⁾				
Crude Oil (Brent) per bbl	\$72.74	\$52.51	39	%
Crude Oil (West Texas Intermediate) per bbl	\$66.79	\$49.36	35	%
Natural Gas (Henry Hub) per mcf	\$2.85	\$3.05	(7)	%

(1) Estimate of drilling activity measured by the average active rig count for the periods indicated - Source: Baker Hughes Rig Count.

(2) Excludes Canadian Rig Count.

(3) Average daily commodity prices for the periods indicated based on NYMEX front-month composite energy prices.

Financial Results

Our revenues for the 2018 third quarter increased 4.3 percent to \$123.4 million from \$118.3 million for the 2017 third quarter. Operating gross margin increased \$1.8 million to a \$1.9 million gain for the three months ended September 30, 2018 compared with a gain of \$0.1 million for the three months ended September 30, 2017.

Outlook

We expect U.S. (Lower 48) Drilling fourth quarter revenues to remain in line with the third quarter due to continued stagnant utilization in the Gulf of Mexico market. For the International & Alaska Drilling segment, we anticipate that fourth quarter revenues will improve as compared with third quarter due to rigs operating for the full quarter in the Kurdistan Region of Iraq and Kazakhstan where they did not in the third quarter.

We expect U.S. Rental Tools fourth quarter revenues to be roughly flat as compared with third quarter, as continued easing in U.S. land rig growth and reductions in the deepwater Gulf of Mexico projects temper our rental activity growth. For the International Rental Tools segment, we expect fourth quarter revenues to be relatively flat as compared with third quarter, as gains in Latin America services will be offset by lower sales in the Middle East.

Recent Developments

On July 12, 2018, the Board of Directors of the Company declared a dividend of one right (“Right”) for each outstanding share of common stock to common stockholders of record at the close of business on July 27, 2018, which was amended by the Board of Directors on August 23, 2018 (the “Rights Plan”). On August 23, 2018, our Board of Directors approved an amendment and restatement of the Rights Agreement, dated as of July 12, 2018, between the Company and Equiniti Trust Company, as Rights Agent (as amended and restated, the “Section 382 Rights Agreement”). The purpose of the Section 382 Rights Agreement is to protect value by preserving the Company’s ability to use its net operating losses and foreign tax credits (“Tax Benefits”).

Table of Contents

Each Right entitles the registered holder to purchase from the Company a unit consisting of one one-thousandth of a share (a “Fractional Share”) of Series A Junior Participating Preferred Stock, par value \$1.00 per share, at a purchase price of \$52.50 per Fractional Share, subject to adjustment. Initially, the Rights are attached to all outstanding shares of common stock. The Rights will separate from the common stock and a “Distribution Date” will occur, with certain exceptions, upon the earlier of (i) ten days following a public announcement that a person or group of affiliated or associated persons (an “Acquiring Person”) has acquired, or obtained the right to acquire, beneficial ownership of 4.9% or more of the outstanding shares of common stock, or (ii) ten business days following the commencement of a tender offer or exchange offer that would result in a person’s becoming an Acquiring Person. Each person or group of affiliated or associated persons that was a beneficial owner of 4.9% or more of the outstanding shares of common stock at the time of the adoption of the Section 382 Rights Agreement was grandfathered in at its then-current ownership level, but the Rights will become exercisable if at any time after the adoption of the Section 382 Rights Agreement, such person or group increases its ownership of common stock by one share or more. Any person or group of affiliated or associated persons who proposes to acquire 4.9% or more of the outstanding shares of common stock may apply to our Board of Directors in advance for an exemption. The Rights are not exercisable until the Distribution Date and will expire at the earliest of (i) the close of business on August 23, 2021, (ii) the redemption or exchange of the Rights by the Company, (iii) the date on which our Board of Directors determines that the Rights Plan is no longer necessary for the preservation of a material Tax Benefit, (iv) the beginning of a taxable year of the Company for which our Board of Directors determines that no Tax Benefits may be carried forward, (v) July 12, 2019, if the affirmative vote of the majority of the Company’s stockholders has not been obtained with respect to ratification of the Rights Plan, and (vi) the occurrence of a “qualifying offer” (as described in the Section 382 Rights Agreement). If the rights become exercisable, each holder other than the Acquiring Person (and certain related parties) will be entitled to acquire shares of common stock at a 50% discount or the Company may exchange each right held by such holders for two shares of common stock.

Results of Operations

Our business is comprised of two business lines: (1) Drilling Services and (2) Rental Tools Services. We report our Drilling Services business as two reportable segments: (1) U.S. (Lower 48) Drilling and (2) International & Alaska Drilling. We report our Rental Tools Services business as two reportable segments: (1) U.S. Rental Tools and (2) International Rental Tools. We eliminate inter-segment revenues and expenses.

We analyze financial results for each of our reportable segments. The reportable segments presented are consistent with our reportable segments discussed in Note 11 - Reportable Segments to our consolidated condensed financial statements. We monitor our reporting segments based on several criteria, including operating gross margin and operating gross margin excluding depreciation and amortization. Operating gross margin excluding depreciation and amortization is computed as revenues less direct operating expenses, and excludes depreciation and amortization expense, where applicable. Operating gross margin percentages are computed as operating gross margin as a percent of revenues. The operating gross margin excluding depreciation and amortization amounts and percentages should not be used as a substitute for those amounts reported under accounting policies generally accepted in the United States (“U.S. GAAP”), but should be viewed in addition to the Company’s reported results prepared in accordance with U.S. GAAP. Management believes this information provides valuable insight into the information management considers important in managing the business.

Table of Contents**Three months ended September 30, 2018 Compared with Three months ended September 30, 2017**

Revenues increased \$5.1 million, or 4.3 percent, to \$123.4 million for the three months ended September 30, 2018 compared with revenues of \$118.3 million for the three months ended September 30, 2017. Operating gross margin increased \$1.8 million to a gain of \$1.9 million for the three months ended September 30, 2018 compared with a gain of \$0.1 million for the three months ended September 30, 2017.

The following table presents our operating results for the comparable periods by reportable segment:

<u>Dollars in Thousands</u>	Three Months Ended September 30,					
	2018			2017

Loss on impairment	(43,990)		—		
Gain (loss) on disposition of assets, net	9			97		
Total operating income (loss)	\$(56,544)			\$(6,815)		

Table of Contents

Operating gross margin (loss) amounts are reconciled to our most comparable U.S. GAAP measure as follows:

<u>Dollars in Thousands</u>	U.S. (Lower 48) Drilling	International & Alaska Drilling	U.S. Rental Tools	International Rental Tools	Total
Three months ended September 30, 2018					
Operating gross margin (loss) ⁽¹⁾	\$(3,402)	\$(8,541)	\$16,588	\$(2,713)	\$1,932
Depreciation and amortization	2,231	8,791	12,407	4,091	27,520
Operating gross margin (loss) excluding depreciation and amortization	\$(1,171)	\$250	\$28,995	\$1,378	\$29,452
Three months ended September 30, 2017					
Operating gross margin (loss) ⁽¹⁾	\$(3,516)	\$1,082	\$8,556	\$(6,001)	\$121
Depreciation and amortization	3,049	11,299	11,035	4,684	30,067
Operating gross margin (loss) excluding depreciation and amortization	\$(467)	\$12,381	\$19,591	\$(1,317)	\$30,188

(1) Operating gross margin (loss) is calculated as revenues less direct operating expenses, including depreciation and amortization expense.

The following table presents our average utilization rates and rigs available for service for the three months ended September 30, 2018 and 2017, respectively:

	Three Months Ended September 30, 2018 2017	
U.S. (Lower 48) Drilling		
Rigs available for service ⁽¹⁾	13	13
Utilization rate of rigs available for service ⁽²⁾	14 %	17 %
International & Alaska Drilling		
Eastern Hemisphere		
Rigs available for service ^{(1) (3)}	10	13
Utilization rate of rigs available for service ⁽²⁾	50 %	42 %
Latin America Region		
Rigs available for service ⁽¹⁾	7	7
Utilization rate of rigs available for service ⁽²⁾	25 %	14 %
Alaska		
Rigs available for service ⁽¹⁾	2	2
Utilization rate of rigs available for service ⁽²⁾	50 %	100 %
Total International & Alaska Drilling		
Rigs available for service ⁽¹⁾	19	22
Utilization rate of rigs available for service ⁽²⁾	41 %	38 %

(1) The number of rigs available for service is determined by calculating the number of days each rig was in our fleet and was under contract or available for contract. For example, a rig under contract or available for contract for six months of a year is 0.5 rigs available for service for such year. Our method of computation of rigs available for service may or may not be comparable to other similarly titled measures of other companies.

(2) Rig utilization rates are based on a weighted average basis assuming total days availability for all rigs available for service. Rigs acquired or disposed of are treated as added to or removed from the rig fleet as of the date of acquisition or disposal. Rigs that are in operation or fully or partially staffed and on a revenue-producing standby status are considered to be utilized. Rigs under contract that generate revenues during moves between locations or during mobilization or demobilization are also considered to be utilized. Our method of computation of rig utilization may or may not be comparable to other similarly titled measures of other companies.

Table of Contents

(3) The Eastern Hemisphere rigs available for service decreased due to the sale of two Indonesia rigs in the first quarter 2018 and one Papua New Guinea rig in the fourth quarter of 2017.

Drilling Services Business

U.S. (Lower 48) Drilling

U.S. (Lower 48) Drilling segment revenues decreased \$0.1 million or 1.2 percent, to \$4.5 million for the third quarter of 2018 compared with revenues of \$4.6 million for the third quarter of 2017. The decrease was primarily due to a decrease in utilization to 14.0 percent for the quarter ended September 30, 2018 from 17.0 percent for the quarter ended September 30, 2017.

U.S. (Lower 48) Drilling segment operating gross margin excluding depreciation and amortization decreased \$0.7 million, or 150.7 percent, to a loss of \$1.2 million for the third quarter of 2018 compared with a loss of \$0.5 million for the third quarter of 2017. The decrease was primarily due to the increase in operating expenses.

International & Alaska Drilling

International & Alaska Drilling segment revenues decreased \$15.0 million, or 23.8 percent, to \$47.8 million for the third quarter of 2018 compared with \$62.7 million for the third quarter of 2017.

The change in revenues was primarily due to the following:

- a decrease of \$10.6 million driven by a decline in average revenues per day primarily resulting from certain Company-owned rigs being in standby or stacked mode during 2018 compared with operating mode in 2017;
- a decrease of \$3.3 million, excluding revenue from reimbursable costs (“reimbursable revenues”), resulting from decreased utilization for certain Company-owned rigs in Alaska and Kazakhstan;
- a decrease of \$1.5 million in reimbursable revenues, which decreased revenues but had a minimal impact on operating margins.

International & Alaska Drilling segment operating gross margin excluding depreciation and amortization decreased \$12.1 million, or 98.0 percent, to \$0.3 million for the third quarter of 2018 compared with \$12.4 million for the third quarter of 2017. The decrease in operating gross margin excluding depreciation and amortization was primarily due to the impact of declines in average revenues per day as well as the decrease in utilization as discussed above.

Rental Tools Services Business

U.S. Rental Tools

U.S. Rental Tools segment revenues increased \$15.3 million, or 42.8 percent, to \$50.9 million for the third quarter of 2018 compared with \$35.7 million for the third quarter of 2017. The increase was primarily driven by an increase in U.S. land rentals due to higher levels of customer activity.

U.S. Rental Tools segment operating gross margin excluding depreciation and amortization increased \$9.4 million, or 48.0 percent, to \$29.0 million for the third quarter of 2018 compared with \$19.6 million for the third quarter of 2017. The improvement was primarily due to the increase in revenues discussed above.

International Rental Tools

International Rental Tools segment revenues increased \$4.8 million, or 31.5 percent, to \$20.2 million for the third quarter of 2018 compared with \$15.3 million for the third quarter of 2017. The increase was primarily attributable to increased customer activity in the Middle East onshore rentals.

International Rental Tools segment operating gross margin excluding depreciation and amortization increased \$2.7 million, or 204.6 percent, to a gain of \$1.4 million for the third quarter of 2018 compared with a loss of \$1.3 million for the third quarter of 2017. The improvement was primarily due to the increase in revenues discussed above.

Table of Contents

Other Financial Data

General and administrative expense

General and administrative expense increased \$7.5 million to \$14.5 million for the third quarter of 2018 compared with \$7.0 million for the third quarter of 2017, primarily due to professional fees.

Loss on impairment

Loss on impairment was \$44.0 million for the third quarter of 2018. The loss on impairment consisted of \$34.2 million for Gulf of Mexico inland barge asset group and \$9.8 million for International barge asset group. There was no loss on impairment for the third quarter of 2017.

Gain (loss) on disposition of assets, net

Net gain recognized on asset dispositions were nominal for the third quarter of 2018 compared with a net gain of \$0.1 million for the third quarter of 2017. We periodically sell equipment deemed to be excess, obsolete, or not currently required for operations.

Interest expense and income

Interest expense was \$11.4 million for the third quarter of 2018 compared with \$11.1 million for the third quarter of 2017. The increase was primarily due to the increase in amortization expense related to the Fifth Amendment to the 2015 Secured Credit Agreement executed in February 2018. Interest income was nominal for the third quarter of 2018 compared with \$0.1 million for the third quarter of 2017.

Other

Other income and expense was \$0.7 million of expense for the third quarter of 2018 and \$0.6 million of expense for the third quarter of 2017. Activity in both periods primarily included the impact of foreign currency fluctuations.

Income tax expense (benefit)

During the third quarter of 2018, we had income tax expense of \$2.4 million compared with income tax expense of \$1.9 million during the third quarter of 2017. Despite the pre-tax loss for the third quarter of 2018, we recognized income tax expense due to the jurisdictional mix of income and loss during the period, along with our continued inability to recognize the benefits associated with certain losses as a result of valuation allowances.

Table of Contents**Nine Months Ended September 30, 2018 Compared with Nine Months Ended September 30, 2017**

Revenues increased \$25.5 million, or 7.8 percent, to \$351.7 million for the nine months ended September 30, 2018 compared with revenues of \$326.2 million for the nine months ended September 30, 2017. Operating gross margin increased \$22.0 million to a loss of \$8.6 million for the nine months ended September 30, 2018 compared with a loss of \$30.6 million for the nine months ended September 30, 2017.

The following table presents our operating results for the comparable periods by reportable segment:

Table of Contents

Operating gross margin (loss) amounts are reconciled to our most comparable U.S. GAAP measure as follows:

Dollars in Thousands

	U.S. (Lower 48) Drilling	International & Alaska Drilling	U.S. Rental Tools	International Rental Tools	Total
Nine Months Ended September 30, 2018					
Operating gross margin (loss) ⁽¹⁾	\$(12,443)	\$(17,701)	\$30,903	\$(9,402)	\$(8,643)
Depreciation and amortization	7,169	27,646	36,659	11,731	83,205
Operating gross margin (loss) excluding depreciation and amortization	\$(5,274)	\$9,945	\$67,562	\$2,329	\$74,562
Nine Months Ended September 30, 2017					
Operating gross margin (loss) ⁽¹⁾	\$(15,278)	\$(3,461)	\$7,746	\$(19,647)	\$(30,640)
Depreciation and amortization	10,802	36,134	32,353	13,962	93,251
Operating gross margin (loss) excluding depreciation and amortization	\$(4,476)	\$32,673	\$40,099	\$(5,685)	\$62,611

(1) Operating gross margin (loss) is calculated as revenues less direct operating expenses, including depreciation and amortization expense.

The following table presents our average utilization rates and rigs available for service for the nine months ended September 30, 2018 and 2017, respectively:

	Nine Months Ended September 30, 2018 2017		
U.S. (Lower 48) Drilling			
Rigs available for service ⁽¹⁾	13	13	
Utilization rate of rigs available for service ⁽²⁾	11 %	14 %	
International & Alaska Drilling			
Eastern Hemisphere			
Rigs available for service ^{(1) (3)}	10	13	
Utilization rate of rigs available for service ⁽²⁾	45 %	35 %	
Latin America Region			
Rigs available for service ⁽¹⁾	7	7	
Utilization rate of rigs available for service ⁽²⁾	18 %	14 %	
Alaska			
Rigs available for service ⁽¹⁾	2	2	
Utilization rate of rigs available for service ⁽²⁾	50 %	100 %	
Total International & Alaska Drilling			
Rigs available for service ⁽¹⁾	19	22	
Utilization rate of rigs available for service ⁽²⁾	36 %	34 %	

(1) The number of rigs available for service is determined by calculating the number of days each rig was in our fleet and was under contract or available for contract. For example, a rig under contract or available for contract for six months of a year is 0.5 rigs available for service during such year. Our method of computation of rigs available for service may not be comparable to other similarly titled measures of other companies.

(2) Rig utilization rates are based on a weighted average basis assuming total days availability for all rigs available for service. Rigs acquired or disposed of are treated as added to or removed from the rig fleet as of the date of acquisition or disposal. Rigs that are in operation or fully or partially staffed and on a revenue-producing standby status are considered to be utilized. Rigs under contract that generate revenues during moves between locations or during mobilization or demobilization are also considered to be utilized. Our method of computation of rig utilization may not be comparable to other similarly titled measures of other companies.

Table of Contents

(3) The Eastern Hemisphere rigs available for service decreased due to the sale of two Indonesia rigs in the first quarter 2018 and one Papua New Guinea rig in the fourth quarter of 2017.

Drilling Services Business

U.S. (Lower 48) Drilling

U.S. (Lower 48) Drilling segment revenues decreased \$1.7 million, or 15.5 percent, to \$9.2 million for the nine months ended September 30, 2018 compared with revenues of \$10.8 million for the nine months ended September 30, 2017. The decrease was primarily due to a decrease in utilization to 11.0 percent for the nine months ended September 30, 2018 from 14.0 percent for the nine months ended September 30, 2017.

U.S. (Lower 48) Drilling segment operating gross margin excluding depreciation and amortization decreased \$0.8 million, or 17.8 percent, to a loss of \$5.3 million for the nine months ended September 30, 2018 compared with a loss of \$4.5 million for the nine months ended September 30, 2017. The decrease was primarily due to the decrease in revenues discussed above.

International & Alaska Drilling

International & Alaska Drilling segment revenues decreased \$29.4 million, or 15.8 percent, to \$157.2 million for the nine months ended September 30, 2018 compared with \$186.6 million for the nine months ended September 30, 2017. The change in revenues was primarily due to the following:

- a decrease of \$16.9 million driven by a decline in average revenue per day primarily resulting from certain Company-owned rigs being in standby mode during 2018 compared with operating mode during 2017;
- a decrease of \$9.8 million excluding reimbursable revenues, resulting from decreased utilization for certain Company-owned rigs in Alaska and Kazakhstan, partially offset by increased utilization in the Kurdistan region of Iraq;
- a decrease in reimbursable revenues of \$5.1 million, which decreased revenues but had a minimal impact on operating margins; and
- an increase of \$2.6 million of O&M activities, excluding reimbursable revenues.

International & Alaska Drilling segment operating gross margin excluding depreciation and amortization decreased \$22.7 million, or 69.6 percent, to \$9.9 million for the nine months ended September 30, 2018 compared with \$32.7 million for the nine months ended September 30, 2017. The decrease in operating gross margin excluding depreciation and amortization was primarily due to the impact of declines in average revenues per day as well as the decrease in utilization as discussed above.

Rental Tools Services Business

U.S. Rental Tools

U.S. Rental Tools segment revenues increased \$42.2 million, or 49.2 percent, to \$127.8 million for the nine months ended September 30, 2018 compared with \$85.6 million for the nine months ended September 30, 2017. The increase was primarily driven by an increase in U.S. land rentals due to higher levels of customer activity.

U.S. Rental Tools segment operating gross margin excluding depreciation and amortization increased \$27.5 million, or 68.5 percent, to \$67.6 million for the nine months ended September 30, 2018 compared with \$40.1 million for the nine months ended September 30, 2017. The increase was primarily due to the increase in revenues discussed above.

International Rental Tools

International Rental Tools segment revenues increased \$14.4 million, or 33.5 percent, to \$57.6 million for the nine months ended September 30, 2018 compared with \$43.1 million for the nine months ended September 30, 2017. The increase was primarily attributable to increased onshore rental activity in the Middle East.

International Rental Tools segment operating gross margin excluding depreciation and amortization increased \$8.0 million, or 141.0 percent, to a gain of \$2.3 million for the nine months ended September 30, 2018 compared with a loss of \$5.7 million for the nine months ended September 30, 2017. The improvement was primarily due to the increase in revenues discussed above.

Table of Contents

Other Financial Data

General and administrative expense

General and administrative expense increased \$8.4 million to \$29.0 million for the nine months ended September 30, 2018 compared with \$20.6 million for the nine months ended September 30, 2017, primarily due to professional fees.

Loss on impairment

Loss on impairment was \$44.0 million for the nine months ended September 30, 2018. The loss on impairment consisted of \$34.2 million for Gulf of Mexico inland barge asset group and \$9.8 million for International barge asset group. There was no loss on impairment for the nine months ended September 30, 2017.

Gain (loss) on disposition of assets, net

Net loss recognized on asset dispositions was \$0.1 million and \$0.4 million for the nine months ended September 30, 2018 and 2017, respectively. We periodically sell equipment deemed to be excess, obsolete, or not currently required for operations.

Interest expense and income

Interest expense increased \$0.8 million to \$33.8 million for the nine months ended September 30, 2018 compared with \$33.0 million for the nine months ended September 30, 2017. The increase was primarily due to the increase in amortization expense related to the Fifth Amendment to the 2015 Secured Credit Agreement executed in February 2018. Interest income was \$0.1 million for the nine months ended September 30, 2018 compared with \$0.2 million for the nine months ended September 30, 2017.

Other

Other income and expense was \$1.6 million of expense for the nine months ended September 30, 2018 and \$0.5 million of income for the nine months ended September 30, 2017. Activity in both periods primarily included the impact of foreign currency fluctuations.

Income tax expense (benefit)

During the nine months ended September 30, 2018, we had income tax expense of \$5.6 million compared with income tax expense of \$6.0 million during the nine months ended September 30, 2017. Despite the pre-tax loss for the nine months ended September 30, 2018, we recognized income tax expense due to the jurisdictional mix of income and loss during the period, along with our continued inability to recognize the benefits associated with certain losses as a result of valuation allowances.

Table of Contents

Backlog

Backlog is our estimate of the dollar amount of revenues we expect to realize in the future as a result of executed drilling contracts. The Company's backlog of firm orders was approximately \$238.9 million at September 30, 2018 and \$257.0 million at September 30, 2017. The backlog is primarily attributable to the International & Alaska Drilling segment of our Drilling Services business. We estimate that, as of September 30, 2018, 14.9 percent of our backlog will be recognized as revenues within the fiscal year.

The amount of actual revenues earned and the actual periods during which revenues are earned could be different from amounts disclosed in our backlog calculations due to a lack of predictability of various factors, including unscheduled repairs, maintenance requirements, weather delays, contract terminations or renegotiations, new contracts and other factors. See "Our backlog of contracted revenue may not be fully realized and may reduce significantly in the future, which may have a material adverse effect on our balance sheets, statement of operations or cash flows" in Item 1A. Risk Factors of our 2017 Form 10-K.

Table of Contents**Liquidity and Capital Resources**

We periodically evaluate our liquidity requirements, capital needs and availability of resources in view of expansion plans, debt service requirements, and other operational cash needs. To meet our short-term liquidity requirements we primarily rely on our cash on hand and cash from operations. We also have access to cash through the revolving credit facility (the “Revolver”), subject to our compliance with the covenants contained in the Second Amended and Restated Senior Secured Credit Agreement, as amended from time-to-time (the “2015 Secured Credit Agreement”). We expect that these sources of liquidity will be sufficient to provide us the ability to fund our current operations and required capital expenditures. We may need to fund expansion capital expenditures, acquisitions, debt principal payments, or pursuits of business opportunities that support our strategy, through additional borrowings or the issuance of additional common stock or other forms of equity. We do not pay dividends on our common stock.

Liquidity

On February 14, 2018, we entered into the Fifth Amendment to the 2015 Secured Credit Agreement (the “Fifth Amendment”), which modified the credit facility to an Asset-Based Lending structure and reduced the size of the Revolver from \$100 million to \$80 million. The Fifth Amendment eliminated the financial maintenance covenants previously in effect and replaced them with a liquidity covenant of \$30 million and a monthly borrowing base calculation based on eligible rental equipment and eligible domestic accounts receivable. The Liquidity covenant requires the Company to maintain a minimum of \$30 million of liquidity (defined as availability under the borrowing base and cash on hand), of which \$15 million is restricted, resulting in a maximum availability at any one time of \$65 million. The Fifth Amendment also allows for refinancing our existing Senior Notes with either secured or unsecured debt.

The following table provides a summary of our total liquidity:

**September 30,
2018**

Dollars in thousands

Cash and cash equivalents on hand ⁽¹⁾	\$ 81,728
Availability under Revolver ⁽²⁾	58,550
Total liquidity	\$ 140,278

(1) As of September 30, 2018, approximately \$42.4 million of the \$81.7 million of cash and equivalents was held by our foreign subsidiaries.

The borrowing base under the \$80.0 million Revolver was \$79.9 million, which was further reduced by \$15.0 million of restricted liquidity and \$6.3 million in supporting letters of credit outstanding, resulting in availability under the Revolver of \$58.6 million.

The earnings of foreign subsidiaries as of September 30, 2018, were reinvested to fund our international operations. If in the future we decide to repatriate earnings, the Company may be required to pay taxes on these amounts, which could reduce the liquidity of the Company at that time.

We do not have any unconsolidated special-purpose entities, off-balance sheet financing arrangements or guarantees of third-party financial obligations. As of September 30, 2018, we have no energy, commodity, or foreign currency derivative contracts.

Table of Contents**Cash Flow Activity**

As of September 30, 2018, we had cash and cash equivalents of \$81.7 million, a decrease of \$59.8 million from cash and cash equivalents of \$141.5 million at December 31, 2017. The following table provides a summary of our cash flow activity:

<u>Dollars in thousands</u>	Nine Months Ended September 30,	
	2018	2017
Operating activities	\$(3,516)	\$(24,406)
Investing activities	(50,989)	(44,514)
Financing activities	(5,316)	70,268
Net change in cash and cash equivalents	\$(59,821)	\$1,348

Operating Activities

Cash flows from operating activities were a use of \$3.5 million and \$24.4 million for the nine months ended September 30, 2018 and 2017, respectively. Cash flows from operating activities in each period were largely impacted by our earnings and changes in working capital. Changes in working capital were a use of cash of \$12.2 million for the nine months ended September 30, 2018 compared with a use of cash of \$33.3 million for the nine months ended September 30, 2017. In addition to the impact of earnings and working capital changes, cash flows from operating activities in each period were impacted by various non-cash charges.

It is our long-term intention to utilize our operating cash flows to fund maintenance and growth of our rental tool assets and drilling rigs. Given the current oil and natural gas services market over the past few years, our short-term focus is to preserve liquidity by managing our costs and capital expenditures. While the overall market for oilfield services remains challenging, we are beginning to see a market recovery that is expected to continue to increase our working capital and capital spending as we pursue attractive investment opportunities.

Investing Activities

Cash flows from investing activities were a use of \$51.0 million and \$44.5 million for the nine months ended September 30, 2018 and 2017, respectively. Our primary uses of cash during the nine months ended September 30, 2018 and 2017 were \$52.0 million and \$44.8 million, respectively, for capital expenditures. Capital expenditures in each period were primarily for tubular and other products for our Rental Tools Services business and for rig-related maintenance.

Financing Activities

Cash flows from financing activities were a use of \$5.3 million for the nine months ended September 30, 2018, primarily related to dividends of \$3.6 million on our Convertible Preferred Stock and to debt issuance costs of \$1.4 million related to the Fifth Amendment to the 2015 Secured Credit Agreement. For the 2017 comparable period, cash flows from financing activities were a source of \$70.3 million for the nine months ended September 30, 2017, primarily related to the issuances of common stock and Convertible Preferred Stock, which yielded combined proceeds of \$72.3 million, net of underwriting discount and offering expenses.

Table of Contents

Long-Term Debt Summary

Our principal amount of long-term debt, including current portion, was \$585.0 million as of September 30, 2018 which consisted of:

- \$360.0 million aggregate principal amount of 6.75% Notes (defined below); and
- \$225.0 million aggregate principal amount of 7.50% Notes (defined below).

6.75% Senior Notes, due July 2022

On January 22, 2014, we issued \$360.0 million aggregate principal amount of 6.75% Senior Notes due July 2022 (the “6.75% Notes”) pursuant to an Indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee. The 6.75% Notes are general unsecured obligations of the Company and rank equal in right of payment with all of our existing and future senior unsecured indebtedness. The 6.75% Notes are jointly and severally guaranteed by all of our subsidiaries that guarantee indebtedness under the Second Amended and Restated Senior Secured Credit Agreement, as amended from time-to-time (“2015 Secured Credit Agreement”) and our 7.50% Senior Notes, due 2020 (“7.50% Notes”, and collectively with the 6.75% Notes, the “Senior Notes”). Interest on the 6.75% Notes is payable on January 15 and July 15 of each year, beginning July 15, 2014. Debt issuance costs related to the 6.75% Notes of approximately \$7.6 million (\$3.9 million net of amortization as of September 30, 2018) are being amortized over the term of the notes using the effective interest rate method.

We may redeem all or a part of the 6.75% Notes upon appropriate notice, at redemption prices decreasing each year after January 15, 2018 to par beginning January 15, 2020. As of September 30, 2018, the redemption price is 103.375 percent and we have not made any redemptions to date. If we experience certain changes in control, we must offer to repurchase the 6.75% Notes at 101.0 percent of the aggregate principal amount, plus accrued and unpaid interest and additional interest, if any, to the date of repurchase.

We have engaged financial and legal advisors to assist us in, among other things, analyzing various strategic alternatives to address our capital structure, including the maturity of our Senior Notes. Certain strategic and refinancing alternatives to restructure our balance sheet in the near term could, if implemented, have a material adverse impact on our statements of financial position, results of operations and cash flows.

The Indenture limits our ability and the ability of certain subsidiaries to: (i) sell assets, (ii) pay dividends or make other distributions on capital stock or redeem or repurchase capital stock or subordinated indebtedness, (iii) make investments, (iv) incur or guarantee additional indebtedness, (v) create or incur liens, (vi) enter into sale and leaseback transactions, (vii) incur dividend or other payment restrictions affecting subsidiaries, (viii) merge or consolidate with other entities, (ix) enter into transactions with affiliates, and (x) engage in certain business activities. Additionally, the Indenture contains certain restrictive covenants designating certain events as Events of Default. These covenants are subject to a number of important exceptions and qualifications.

7.50% Senior Notes, due August 2020

On July 30, 2013, we issued \$225.0 million aggregate principal amount of the 7.50% Notes pursuant to an Indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee. The 7.50% Notes are general unsecured obligations of the Company and rank equal in right of payment with all of our existing and future senior unsecured indebtedness. The 7.50% Notes are jointly and severally guaranteed by all of our subsidiaries that guarantee indebtedness under the 2015 Secured Credit Agreement and the 6.75% Notes. Interest on the 7.50% Notes is payable on February 1 and August 1 of each year, beginning February 1, 2014. Debt issuance costs related to the 7.50% Notes of approximately \$5.6 million (\$1.8 million, net of amortization as of September 30, 2018) are being amortized over the term of the notes using the effective interest rate method.

Beginning August 1, 2018, we may redeem all or a part of the 7.50% Notes upon appropriate notice, at par. We have not made any redemptions to date. If we experience certain changes in control, we must offer to repurchase the 7.50% Notes at 101.0 percent of the aggregate principal amount, plus accrued and unpaid interest and additional interest, if any, to the date of repurchase.

The Indenture limits our ability and the ability of certain subsidiaries to: (i) sell assets, (ii) pay dividends or make other distributions on capital stock or redeem or repurchase capital stock or subordinated indebtedness, (iii) make

investments, (iv) incur or guarantee additional indebtedness, (v) create or incur liens, (vi) enter into sale and leaseback transactions, (vii) incur dividend or other payment restrictions affecting subsidiaries, (viii) merge or consolidate with other entities, (ix) enter into transactions with affiliates, and (x) engage in certain business activities. Additionally, the Indenture contains certain restrictive covenants designating certain events as Events of Default. These covenants are subject to a number of important exceptions and qualifications.

Table of Contents

2015 Secured Credit Agreement

On January 26, 2015, we entered into the 2015 Secured Credit Agreement. The 2015 Secured Credit Agreement was originally comprised of a \$200.0 million revolving credit facility (the “Revolver”). The 2015 Secured Credit Agreement formerly included financial maintenance covenants, including a Leverage Ratio, Consolidated Interest Coverage Ratio, Senior Secured Leverage Ratio, and Asset Coverage Ratio, many of which were suspended beginning in September 2015. We executed various amendments prior to February 14, 2018, which reduced the size of the Revolver from \$200.0 million to \$100.0 million.

On February 14, 2018, we executed the Fifth Amendment to the 2015 Secured Credit Agreement (the “Fifth Amendment”) which modified the credit facility to an Asset-Based Lending structure and reduced the size of the Revolver from \$100.0 million to \$80.0 million. The Fifth Amendment eliminated the financial maintenance covenants previously in effect and replaced them with a liquidity covenant of \$30.0 million and a monthly borrowing base calculation based on eligible rental equipment and eligible domestic accounts receivable. The liquidity covenant requires the Company to maintain a minimum of \$30.0 million of liquidity (defined as availability under the borrowing base and cash on hand), of which \$15.0 million is restricted, resulting in a maximum availability at any one time of the lesser of (a) an amount equal to our borrowing base minus \$15.0 million, or (b) \$65.0 million. Our ability to borrow under the 2015 Secured Credit Agreement is determined by reference to our borrowing base. The Fifth Amendment also allows for refinancing our existing Senior Notes with either secured or unsecured debt, adds the ability for the Company to designate certain of its subsidiaries as “Designated Borrowers” and removes our availability to make certain restricted payments. The debt issuance costs incurred relating to the Fifth Amendment were \$1.4 million. The remaining debt issuance costs including all amendments as of September 30, 2018 were \$1.4 million which are being amortized through January 2020 on a straight line basis.

On July 12, 2018, we executed the Sixth Amendment to the 2015 Secured Credit Agreement (the “Sixth Amendment”) which permits the Company to make Restricted Payments (as defined in the 2015 Secured Credit Agreement) in the form of certain Equity Interests (as defined in the 2015 Secured Credit Agreement).

On October 25, 2018, we entered into a Consent Agreement and a Cash Collateral Agreement, whereby we may open bank accounts not subject to the 2015 Secured Credit Agreement for the purpose of depositing cash to secure certain Letters of Credit.

Our obligations under the 2015 Secured Credit Agreement are guaranteed by substantially all of our direct and indirect domestic subsidiaries, other than immaterial subsidiaries and subsidiaries generating revenues primarily outside the United States, each of which has executed guaranty agreements, and are secured by first priority liens on our accounts receivable, specified rigs including barge rigs in the GOM and land rigs in Alaska, certain U.S.-based rental equipment of the Company and its subsidiary guarantors and the equity interests of certain of the Company’s subsidiaries. In addition to the liquidity covenant and borrowing base requirements, the 2015 Secured Credit Agreement contains customary affirmative and negative covenants, such as limitations on indebtedness and liens, and restrictions on entry into certain affiliate transactions and payments (including certain payments of dividends). As of September 30, 2018, we were in compliance with all covenants contained in the 2015 Secured Credit Agreement. Our Revolver is available for general corporate purposes and to support letters of credit. Interest on Revolver loans accrues at either:

- Base Rate plus an Applicable Rate or
- LIBOR plus an Applicable Rate.

Revolver loans are available subject to a monthly borrowing base calculation. As of September 30, 2018, the borrowing base under the \$80.0 million Revolver was \$79.9 million, which was further reduced by \$15.0 million of restricted liquidity and \$6.3 million in supporting letters of credit outstanding, resulting in availability under the Revolver of \$58.6 million. There were no amounts drawn on the Revolver as of September 30, 2018. Subsequently, on October 30, 2018, we deposited \$10.0 million into a cash collateral account to support the letters of credit outstanding, increasing our availability under the Revolver by \$10.0 million.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains statements that are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended, (the “Exchange Act”). All statements contained in this Form 10-Q, other than statements of historical facts, are forward-looking statements for purposes of these provisions. In some cases, you can identify these statements by forward-looking words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “outlook,” “may,” “should,” “forecast,” “target,” “will,” and “would” or similar words. Forward-looking statements are based on certain assumptions and analyses we make in light of our experience and perception of historical trends, current conditions, expected future developments, and other factors we believe are relevant. Although we believe our assumptions are reasonable based on information currently available, those assumptions are subject to significant risks and uncertainties, many of which are outside our control. Each forward-looking statement speaks only as of the date of this Form 10-Q, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. You should be aware that certain events could have a material adverse effect on our business, results of operations, financial condition, and cash flows. For more information about such events, see “Risk Factors” described in Item 1A. of the Company’s Annual Report filed on Form 10-K, along with additional risk factors described from time to time in our SEC filings.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There has been no material change in the market risk faced by us from that reported in our 2017 Form 10-K. For more information on market risk, see Part II, Item 7A in our 2017 Form 10-K.

Item 4. Controls and Procedures

Management's Evaluation of Disclosure Controls and Procedures

In accordance with Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934, as amended (the Exchange Act), we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, as of September 30, 2018, to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is (1) accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, to allow timely decisions regarding required disclosure and is (2) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For information regarding legal proceedings, see Note 7 - Commitments and Contingencies in Item 1 of Part I of this quarterly report on Form 10-Q, which information is incorporated into this item by reference.

Item 1A. Risk Factors

The statements in this section describe the known material risks to our business and should be considered carefully. Except as set forth below, there have been no material changes in risk factors previously disclosure in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

If we cannot meet the continued listing requirements of the NYSE, the NYSE may delist our common stock, resulting in a “fundamental change” under the terms of our outstanding Convertible Preferred Stock.

If the average closing price of our common shares were to fall below \$1.00 over a period of 30 consecutive trading days, which is the minimum average share price required by the NYSE under Section 802.01C of the NYSE Listed Company Manual, we would no longer be in compliance with the NYSE’s continued listing requirements and would expect to receive a notice of noncompliance from the NYSE. The notice would have no immediate impact on the listing of our common shares, which would continue to be listed and traded on the NYSE during the six-month period described below, subject to our compliance with other continued listing standards.

We would have six months following receipt of the NYSE’s notice to regain compliance with the NYSE’s minimum share price requirement. We would be able to regain compliance at any time during the six-month cure period if on the last trading day of any calendar month during the cure period our common shares has a closing share price of at least \$1.00 and an average closing share price of at least \$1.00 over the 30 trading-day period ending on the last trading day of such month. Notwithstanding the foregoing, if we were to determine that we must cure the price condition by taking an action that would require approval of our shareholders (such as a reverse stock split), we could also regain compliance by: (i) obtaining the requisite shareholder approval by no later than our next annual meeting and (ii) implementing the action promptly thereafter, such that the price of our common stock would promptly exceed \$1.00 per share, provided that the price must remain above that level for at least the following 30 trading days.

However, there is no assurance that our stockholders would vote for such proposal.

On March 14, 2018, we received a notice from the NYSE that the average closing price of our common stock over a 30 consecutive trading day period was below \$1.00 per share, which is below the minimum closing price required by NYSE listing standards. To increase the average trading price of our common stock, our stockholders approved a 1-for-15 reverse stock split that became effective on July 27, 2018, resulting in a closing price of our common stock on July 27, 2018 of \$4.97. Though we regained compliance with the NYSE continued listing requirements on September 4, 2018, we cannot assure you that the average closing price of our common stock over a consecutive 30 trading-day period will not fall below \$1.00 per share in the future.

In addition, the NYSE’s continued listing standards provide that a listed company will be considered to be below compliance if its average market capitalization over a consecutive 30 trading-day period is less than \$15 million. As of September 30, 2018, our average market capitalization over the immediately preceding 30 trading-day period was \$32.5 million. If our average market capitalization over a consecutive 30 trading-day period falls below \$15 million, the NYSE will initiate suspension and delisting procedures.

A delisting of our common stock from the NYSE could negatively impact us as it would likely reduce the liquidity and market price of our common stock; reduce the number of investors willing to hold or acquire our common stock; and negatively impact our ability to access equity markets and obtain financing. Moreover, a delisting of our common stock would constitute a “fundamental change” under the terms of our Convertible Preferred Stock, which might require us to reserve a significantly greater number of shares of our common stock for issuance upon conversion of the Convertible Preferred Stock and deplete the number of authorized shares of common stock available for issuance for other purposes.

We have a significant level of debt, which could have significant consequences for our business and future prospects.

As of September 30, 2018, we had \$585.0 million principal amount of long-term debt, operating lease commitments, and \$6.3 million of standby letters of credit. Our ability to meet our debt service obligations depends on our ability to generate positive cash flows from operations. We have in the past, and may in the future, incur negative cash flows from one or more segments of our operating activities. Our future cash flows from operating activities will be influenced by the demand for our drilling services, the utilization of our rigs, the dayrates that we receive for our rigs, demand for our rental tools, oil and natural gas prices, general economic conditions, and other factors affecting our operations, many of which are beyond our control.

Table of Contents

If we are unable to service our debt obligations, we may have to take one or more of the following actions:

- delay spending on capital projects, including maintenance projects and the acquisition or construction of additional rigs, rental tools, and other assets;
- issue additional equity;
- sell assets; or
- restructure or refinance our debt.

Despite our current level of indebtedness, we may still be able to incur more debt. This could further exacerbate the risks associated with our substantial indebtedness, including limiting our liquidity and our ability to pursue other business opportunities.

In addition to our currently outstanding debt, at September 30, 2018, our 2015 Secured Credit Agreement provides us with a revolver of up to \$80.0 million. In addition, although the 2015 Credit Agreement and the indentures that govern our Senior Notes contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of qualifications and exceptions, and the additional indebtedness incurred in compliance with these restrictions could be substantial. If new debt is added to our current debt levels, the related risks that we now face could intensify. Our level of indebtedness could, for instance, prevent us from engaging in transactions that might otherwise be beneficial to us or from making desirable capital expenditures. This could put us at a competitive disadvantage relative to other less leveraged competitors that have more cash flow to devote to their operations. In addition, the incurrence of additional debt could make it more difficult to satisfy our existing financial obligations. Increases in the level of our debt and restrictions in the covenants contained in the instruments governing our debt could have important consequences to you. For example, they could:

- result in a reduction of our credit rating, which would make it more difficult for us to obtain additional financing on acceptable terms;
- require us to dedicate a substantial portion of our cash flows from operating activities to the repayment of our debt and the interest associated with our debt;
- limit our operating flexibility due to financial and other restrictive covenants, including restrictions on incurring additional debt and creating liens on our properties;
- place us at a competitive disadvantage compared with our competitors that have relatively less debt; and
- make us more vulnerable to downturns in our business.

Our ability to borrow under our 2015 Secured Credit Agreement is subject to borrowing base and liquidity requirements, and the 2015 Secured Credit Agreement and the indentures for our Senior Notes impose significant operating and financial restrictions, which may prevent us in the future from obtaining financing or capitalizing on business opportunities.

Our Revolver is available for general corporate purposes and to support letters of credit. Interest on Revolver loans accrues at a Base Rate plus an Applicable Rate or LIBOR plus an Applicable Rate. Revolver loans are available subject to a monthly borrowing base calculation. As of September 30, 2018 the borrowing base under the \$80 million Revolver was \$79.9 million, which was further reduced by \$15.0 million of restricted liquidity and \$6.3 million in supporting letters of credit, resulting in availability under the revolver of \$58.6 million. Further, the 2015 Secured Credit Agreement grants the administrative agent for the lenders under such agreement significant discretion to establish additional reserves, which may further reduce our borrowing base availability. If a reduction in our borrowing base results in the outstanding amount under the facility exceeding the borrowing base less restricted liquidity, we will be required to repay the deficiency and cash collateralize any outstanding letters of credit. These covenants may adversely affect our ability to finance our future operations and capital needs and to pursue available business opportunities.

The 2015 Secured Credit Agreement, the amendments thereto, and the indentures governing our Senior Notes also impose significant operating and financial restrictions on us. These restrictions limit our ability to:

- make investments and other restricted payments, including dividends;
- incur additional indebtedness;
- create liens;
- engage in sale leaseback transactions;
- repurchase our common stock or Senior Notes;
- sell our assets or consolidate or merge with or into other companies; and
- engage in transactions with affiliates.

Table of Contents

These limitations are subject to a number of important qualifications and exceptions.

A breach of any of the covenants in the 2015 Secured Credit Agreement or in the Senior Notes could result in a default with respect to the related indebtedness. If a default were to occur, the lenders under our 2015 Secured Credit Agreement and the holders of our Senior Notes could elect to declare the indebtedness, if any outstanding at that time, together with accrued interest, immediately due and payable. If the repayment of the indebtedness were to be accelerated after any applicable notice or grace periods, we may not have sufficient funds to repay the indebtedness.

We may be unable to repay or refinance our debt as it becomes due, whether at maturity or as a result of acceleration.

We may not be able to repay our debt as it comes due, or to refinance our debt on a timely basis or on terms acceptable to us and within the limitations contained in the 2015 Secured Credit Agreement and the indentures governing our outstanding Senior Notes. Our 2015 Secured Credit Facility matures in January 2020, and certain of our Senior Notes mature in August 2020. Failure to repay or to timely refinance any portion of our debt could result in a default under the terms of all our debt instruments and permit the acceleration of all indebtedness outstanding.

While we intend to take appropriate mitigating actions to refinance our indebtedness prior to maturity or otherwise extend the maturity dates, and to cure any potential defaults, there is no assurance that any particular actions with respect to refinancing existing indebtedness, extending the maturity of existing indebtedness or curing potential defaults in our existing and future debt agreements will be sufficient.

We have engaged financial and legal advisors to assist us in, among other things, analyzing various strategic alternatives to address our liquidity and capital structure, including strategic and refinancing alternatives to restructure our indebtedness in private transactions. We may elect to implement such a transaction through Chapter 11 of the United States Bankruptcy Code in order to obtain court supervision and approval of the transaction and to facilitate the stakeholder approvals necessary to implement such a transaction, or it may otherwise become necessary for us to seek protections under Chapter 11.

We have engaged financial and legal advisors to assist us in, among other things, analyzing various strategic alternatives to address our liquidity and capital structure, including strategic and refinancing alternatives to restructure our indebtedness in private transactions.

We may elect to implement such a transaction through Chapter 11 of the United States Bankruptcy Code in order to obtain court supervision and approval of the transaction and to facilitate the stakeholder approvals necessary to implement such a transaction, or it may otherwise become necessary for us to seek protections under Chapter 11. Such a proceeding may commence in the near term. Seeking Chapter 11 protection may have a material adverse impact on our business and the trading price of our securities. As long as a Chapter 11 proceeding continues, our senior management would be required to spend a significant amount of time and effort dealing with the reorganization, including managing potential negative impact to our reputation. Bankruptcy court protection also may make it more difficult to retain management and other key personnel necessary to the success and growth of our business. Additionally, all of our indebtedness is senior to the existing common stock and preferred stock in our capital structure. As a result, we believe that seeking bankruptcy court protection under a Chapter 11 proceeding could cause the shares of our existing common stock and preferred stock to be canceled, or otherwise result in a limited recovery, if any, for shareholders of our common stock and preferred stock, and would place shareholders of our common stock and preferred stock at significant risk of losing some or all of their investment in our shares.
