NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some information in this report may contain forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. We have based these forward-looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forward-looking words such as believe, plan, anticipate, continue, estimate, expect, may, will or other similar words.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We have chosen these assumptions or bases in good faith. These forward-looking statements are subject to risks, uncertainties and assumptions, some of which are beyond our control. In addition, these forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. Actual results may differ materially from information contained in the forward-looking statements as a result of a number of factors, including, without limitation, the risk factors set forth in Item 3. Key Information Risk Factors in our annual report on Form 20-F for the fiscal year ended December 31, 2008. You should also keep in mind that any forward-looking statement made by us in this report or elsewhere speaks only as at the date on which we made it. New risks and uncertainties come up from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the statements in this report after the date hereof. In light of these risks and uncertainties, you should keep in mind that actual results may differ materially from any forward-looking statement made in this report or elsewhere.

PRESS RELEASE

-

**Asia America Gateway submarine
cable goes live**

MANILA, Philippines, November 10, 2009 The Philippine Long Distance Telephone Co. and its partners in the 20,000 km-long Asia America Gateway (AAG) submarine cable network today announced the completion of its comprehensive test requirement, a milestone that now enables AAG to begin carrying commercial traffic.

The fully-operational 20,000 km AAG cable network is the first cable system to directly link South East Asia and the United States. The cable system links Malaysia, Singapore, Thailand, Vietnam, Brunei, Hong Kong and the Philippines to the United States, where it lands in Guam, Hawaii and California.

The AAG cable network has been planned and designed to avoid geographically hazardous areas with known seismic activities, increasing the reliability of the traffic between South East Asia and the United States. With an initial equipped capacity of 500 Gigabits per second, the cable network is upgradeable using field-tested DWDM technology.

In addition to linking the high growth South East Asia markets to the United States, this cable network also provides seamless connectivity to Australia, India, Europe and even Africa via common landing points/countries along its route.

The AAG cable network will more than double the PLDT Group's capacity to more than 250 Gbps, improve resilience and diversity, as well as position the Group to further bring to a higher level the quality of services to customers such as PLDT and Smart's broadband internet users, BPOs and call centers, as well as corporate customers.

The AAG consortium teams together with PLDT's network team worked tirelessly to ensure that the cable network was installed and implemented satisfactorily. The commissioning program included a full range of system testing and confidence trials in order to ensure the highest levels of service for the life of the cable.

The AAG consortium was formed in April 2007 to build this 2 Terabits per second fiber optic submarine cable network.

Exhibit 1

Aside from PLDT who helped spearhead this project, the AAG consortium is composed of the following: AT&T* (United States), Bayan Telecommunications Inc. (Philippines), Bharti AirTel Limited (India), Government of Brunei Darussalam (Brunei), British Telecom Global Network Services (UK), CAT Telecom PCL (Thailand), Eastern Telecommunications Philippines Inc. (Philippines), FPT Telecom (Vietnam), PT Telekomunikasi Indonesia International (Indonesia), Saigon Postel Corporation (Vietnam), StarHub (Singapore), Telekom Malaysia (Malaysia), Telcotech Limited (Cambodia), Telstra (Australia), Telecom New Zealand International (New Zealand), Viettel (Vietnam), and Vietnam Post & Telecommunications Group (Vietnam).

XXX

About PLDT

PLDT is the leading telecommunications service provider in the Philippines. Through its three principal business groups—wireless, fixed line, and information and communications technology—PLDT offers the largest and most diversified range of telecommunications services across the Philippines—most extensive fiber optic backbone and wireless, fixed line and satellite networks.

PLDT is listed on the Philippine Stock Exchange (PSE:TEL) and its American Depositary Shares are listed on the New York Stock Exchange (NYSE:PHI). PLDT has one of the largest market capitalizations among Philippine-listed companies.
