"Steve Slovak begins his 20th year with Research Frontiers this week. He started out as a chemist, was promoted to various positions, and two years ago became Research Frontiers' Director of Film Development. Since then we have expanded our technical staff and Steve has supervised them and worked very well with the growing teams of people at our key production licensees. Steve is a creative and focused scientist, and is an inventor on numerous patents and patent applications held by Research Frontiers worldwide on SPD-Smart light-control technology. His new position further strengthens the resources that Research Frontiers is devoting to improving SPD technology and helping our licensees continue to successfully build their businesses in this emerging industry."
