Item 2.02.

Results of Operations and Financial Condition.

On May 13, 2015, Macy's, Inc. ("Macy's") issued a press release announcing Macy's sales, financial condition and results of operations for the 13 weeks ended May 2, 2015. The full text of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

The press release referred to above contains a non-GAAP financial measure of changes in comparable sales on an owned plus licensed basis. Macy's licenses third parties to operate certain departments in its stores and online and receives commissions from these third parties based on a percentage of their net sales. In its financial statements prepared in conformity with GAAP, Macy's includes these commissions (rather than sales of the departments licensed to third parties) in its net sales. Macy's does not, however, include any amounts in respect of licensed department sales (or any commissions earned on such sales) in its comparable sales calculation on an owned basis. Management believes that providing changes in comparable sales on an owned plus licensed basis is a useful measure to assist investors in evaluating Macy's ability to generate sales growth, whether through owned businesses or departments licensed to third parties, on a comparable basis. Management believes that providing changes in comparable sales on an owned plus licensed basis is particularly useful in evaluating the impact of changes in the manner in which certain departments are operated. However, the reader is cautioned that any non-GAAP financial measures provided by Macy's are provided in addition to, and not as alternatives for, Macy's reported results prepared in accordance with GAAP. Certain items that may have a significant impact on Macy's financial position, results of operations and cash flows must be considered when assessing Macy's actual financial condition and performance regardless of whether these items are included in these non-GAAP financial measures. In addition, you should note that the amounts received by Macy's on account of sales of departments licensed to third parties are limited to commissions received on such sales. The methods used by Macy's to calculate its non-GAAP financial measures may differ significantly from methods used by other companies to compute similar measures. As a result, any non-GAAP financial measures provided by Macy's may not be comparable to similar measures provided by other companies.
