REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Administrator of  
PPG Industries Employee Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of PPG Industries Employee Savings Plan (the "Plan") at December 31, 2014 and 2013, and the changes in net assets available for benefits for the years then ended December 31, 2014 and 2013 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The supplemental schedule of Form 5500, Schedule H, Part IV, Line 4i- Schedule of Assets (Held as of December 31, 2014) has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the Form 5500, Schedule H, Part IV, Line 4i- Schedule of Assets is fairly stated, in all material respects, in relation to the financial statements as a whole.

PPG INDUSTRIES EMPLOYEE SAVINGS PLAN  
NOTES TO THE FINANCIAL STATEMENTS  
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013  
1. DESCRIPTION OF THE PLAN

The PPG Industries Employee Savings Plan (the "Plan") is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The plan was established in 1965 for employees residing in the United States. Eligible participants include employees of PPG Industries, Inc. (the "Company" or "PPG") and certain of its subsidiaries and collective bargaining units. The Plan was converted to an Employee Stock Ownership Plan ("ESOP") on December 1, 1988, and was amended effective January 1, 2006, to reflect that only the PPG Stock Fund is an ESOP. The named fiduciary for the operation and administration of the Plan (the "Plan Administrator") is the PPG Global Director, Compensation and Benefits. The named fiduciary with respect to control and management of the assets of the Plan is the PPG Executive Committee and the PPG Benefits Investment Committee. Their responsibilities include, but are not limited to, approval of trustees, investment options, and investment managers and establishing performance benchmarks. The PPG Employee Benefits Committee also has responsibility for establishing, maintaining, and amending the Plan.

**Administrative Expenses** - The Plan pays all reasonable and necessary costs to manage and operate the Plan as determined by the Plan Administrator. These expenses, including recordkeeping fees, administrative charges, professional costs, and trustee costs, are paid from the assets of the PPG Industries Master Trust (the "Master Trust"). The Plan Administrator has adopted uniform and nondiscriminatory procedures to allocate these expenses to participant accounts.

**Trustee of the Plan Assets** - Fidelity Management Trust Company ("FMTC") was the trustee for all of the Plan assets as of December 31, 2014 and 2013.

**Eligibility to Participate in the Plan** - The Plan is available to U.S. salaried and hourly employees of PPG and its wholly owned subsidiaries who are not covered by a collective bargaining agreement and hourly employees whose employment is covered by a collective bargaining agreement where the collective bargaining agreement provides for participation. An eligible employee may become a participant as of the first day of any month that is coincident with or following his or her hire date.

**Contributions** - Contributions under the Plan are made by the participants and, for certain participants, by the Company. The participants' maximum contribution rate for the years ended December 31, 2014 and 2013 was 50% of eligible participant compensation. Participants can contribute on a before-tax basis, an after-tax basis, and on a Roth 401(k) after-tax contribution basis. Pre-tax contributions and Roth 401(k) after-tax contributions were restricted to \$17,500 in both 2014 and 2013. Catch-up contributions, including Roth 401(k) catch-up contributions, are permitted for eligible participants (catch-up contributions are not eligible for the Company match) and were restricted to \$5,500 in both 2014 and 2013.

Employee contributions also include rollovers from other qualified plans. The amount of individual rollovers from other plans totaled \$26.7 million and \$40.3 million in 2014 and 2013, respectively. Rollovers in 2013 were elevated compared to 2014 due to employees of the former AkzoNobel North American architectural coatings business becoming eligible Plan participants following PPG's acquisition of this business in April 2013.

For most participants not covered by a collective bargaining agreement, Company-matching contributions are applied to each participant's monthly contribution subject to a maximum of 6% of the eligible participant's compensation contributed. The Company match rate established each year is at the discretion of the Company. Effective April 1, 2013, the company matching contribution was raised to 100% of the first 6% of eligible

Table of Contents

participant compensation contributed. Prior to April 2013, the Company matching contribution was 75% on the first 6% of eligible participant compensation contributed. For those participants whose employment is covered by a collective bargaining agreement, the level of Company matching contributions, if any, is determined by the relevant collective bargaining agreement.

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, if applicable, and allocations of fund earnings and is charged with an allocation of fund losses and administrative expenses. Allocations are based on participant account balances, as defined by the Plan. Participants direct the investment of their contributions and Company matching contributions into various investment options offered by the Plan.

Vesting - All participant contributions and Company matching contributions and their related earnings are vested immediately.

Payment of Benefits - Upon termination from service as a result of a voluntary or involuntary separation, retirement, or being approved for a Company sponsored long-term disability program, a participant may elect how to receive payment of his or her account from several options, including a total distribution, a partial lump-sum distribution, or recurring payments. The benefit to which a participant is entitled is the participant's vested account balance. Participants who separate from service with a vested balance between \$1,000 and \$5,000 will have their vested account balance rolled over into an individual retirement account unless they make a different decision within 90 days of their separation from service. Those participants with vested balances of less than \$1,000 will receive a taxable cash distribution unless they make a different decision within 90 days of their separation from service.

Payments to designated beneficiaries upon the death of the participant are made as a lump-sum distribution as soon as administratively possible from the date such payments are requested by the designated beneficiary or beneficiaries.

Notes Receivable from Participants - All active participants, excluding (a) those with a vested account balance less than \$2,000, (b) those who have two existing loans, (c) those who have defaulted on an existing loan within the past 36 months, and (d) those who have paid off a loan in the past 30 calendar days, may borrow, for either general purposes or for a primary residence, from their account a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, reduced by the highest outstanding participant loan balance over the past 12 months. General purpose loans have a loan term of 12 to 56 months. Primary residence loans have a loan term of 60 to 360 months. The loans are secured by the participants' account balance and are issued at an interest rate equal to the prime interest rate on the last business day of the previous month plus 1%. Principal and interest payments are generally repaid by payroll deductions.

Transfers - Transfers in occur when PPG acquires a new business and the existing plan(s) of the acquired company are legally moved into the Plan. Transfers out occur when PPG divests part of its business and portions of the Plan related to the divested business are legally moved out of the Plan.

No transfers of assets were made to or from the Plan in 2014.

In January 2013, the Company completed the separation of its former commodity chemicals business and merger of its wholly-owned subsidiary, Eagle Spinco Inc., with a subsidiary of Georgia Gulf Corporation, which is now known as Axiall Corporation. As a result of this transaction, participant loan balances of \$3 million were transferred out of the Plan and into plans established by Axiall Corporation.

The above brief description of the Plan is provided for general information purposes only. Participants should refer to the Summary Plan Description for a complete description of the Plan, which is available from the Plan Administrator.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RELATED MATTERS

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting, except for amounts due to participants who had requested withdrawals, which are not recorded as a liability of the Plan as of December 31, 2014 and 2013, in accordance with the American Institute of Certified Public Accountants Audit and Accounting Guide, Audits of Employee Benefit Plans.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends on the PPG Industries common stock are recorded as investment income on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Risk and Uncertainties - The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could be material in relation to the amounts reported in the financial statements.

Master Trust - The Master Trust was established pursuant to a trust agreement between PPG and FMTC in order to permit the commingling of assets of multiple PPG sponsored employee benefit plans for investment and administrative purposes. The Plan is one of these PPG sponsored employee benefit plans that has assets in the Master Trust.

Investment Valuation - Investments are stated at fair value. See Note 4 for further information pertaining to fair value measurements.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent participant loans are recorded as withdrawals based on the terms of the Plan document.

3. PPG INDUSTRIES MASTER TRUST

The Master Trust assets are held by FMTC. Each participating employee benefit plan is entitled to an allocable share of the net assets and changes therein of each of the Master Trust investment options in which the respective plan participates. The Plan's assets are included in the Master Trust together with other PPG sponsored plans.

The net investment income of the commingled Master Trust investment funds is allocated by the trustee to each participating plan based on that plan's interest in each commingled Master Trust investment fund, as compared with the total interest of all the participating plans in each commingled Master Trust investment fund at the beginning of the month. The investment income for the Loan Fund, which is not part of the Master Trust, is recorded separately.

Table of Contents

As of December 31, 2014 and 2013, the Plan had approximately a 98.49% and 98.82% interest in the Master Trust, respectively. The net assets available for benefits of the Master Trust are summarized as follows:

	2014	2013
(\$ in millions)		
Investments at fair value:		
PPG Industries common stock*	\$1,149	\$1,072
Fidelity Growth Company Fund	187	170
Fidelity Contrafund	163	162
Vanguard Small Capitalization Index Fund	161	158
S&P 500 Index Fund*	449	392
Stable Value Fund*	762	776
International Equity Fund*	197	191
Common Collective Trusts*	597	499
Money market funds	14	14
Total investments at fair value	3,679	3,434
Receivables	6	5
Liabilities	(6	) (6
Net assets at fair value	3,679	3,433
Adjustment from fair value to contract value for fully benefit-responsive investment contracts:		
State Street Bank and Trust	(3	) (3
J. P. Morgan Chase	(3	) (4
Prudential Insurance Company of America	(2	) (1
American General Life	(2	) (3
Bank of Tokyo - Mitsubishi	(2	) (3
Net assets available for benefits	\$3,667	\$3,419

\* Represents more than 5% of net assets in the Master Trust. While investments in common collective trusts exceed 5% in aggregate, only one individual fund, the Mellon EB Daily Liquidity Bond Index Fund exceeded 5% at December 31, 2014.

Table of Contents

The investment income (loss) - net of the Master Trust for the years ended December 31, 2014 and 2013, is summarized as follows:

	2014	2013
(\$ in millions)		
Net appreciation in the fair value of investments:		
PPG Industries common stock	\$219	\$329
Fidelity Growth Company Fund	16	35
Fidelity Contrafund	3	31
Vanguard Small Capitalization Index Fund	9	39
S&P 500 Index Fund	54	94
Common Collective Trusts	29	24
International Equity Fund	(9	) 22
Total net appreciation in fair value of investments	321	574
Dividends	35	39
Interest income	14	14
Total income — net from investments	\$370	\$627

## 4. FAIR VALUE MEASUREMENT

Accounting guidance on fair value measurements establishes a hierarchy of inputs employed to determine fair value measurements, which has three levels.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets and liabilities. Level 1 inputs are considered to be the most reliable evidence of fair value as they are based on unadjusted quoted market prices from various financial information service providers and securities exchanges.

Level 2 inputs are directly or indirectly observable prices that are not quoted on active exchanges, which include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 inputs are unobservable inputs employed for measuring the fair value of assets or liabilities.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. PPG evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended, December 31, 2014 and 2013, there were no transfers between levels.

Table of Contents

The financial assets that are reported at fair value on a recurring basis as of December 31, 2014, were as follows:

	Level 1	Level 2	Level 3	Total
(\$ in millions)				
Master Trust assets:				
PPG Industries common stock	\$1,149	\$—	\$—	\$1,149
Stable Value Fund	—	762	—	762
Common Collective Trusts	—	597	—	597
Fidelity Growth Company Fund	187	—	—	187
Fidelity Contrafund	163	—	—	163
Vanguard Small Capitalization Index Fund	161	—	—	161
S&P 500 Index Fund	—	449	—	449
International Equity Fund	—	197	—	197
Money Market Funds	14	—	—	14

The financial assets that are reported at fair value on a recurring basis as of December 31, 2013, were as follows:

	Level 1	Level 2	Level 3	Total
(\$ in millions)				
Master Trust assets:				
PPG Industries common stock	\$1,072	\$—	\$—	\$1,072
Stable Value Fund	—	776	—	776
Common Collective Trusts	—	499	—	499
Fidelity Growth Company Fund	170	—	—	170
Fidelity Contrafund	162	—	—	162
Vanguard Small Capitalization Index Fund	158	—	—	158
S&P 500 Index Fund	—	392	—	392
International Equity Fund	—	191	—	191
Money Market Funds	14	—	—	14

**Stable Value Fund**

The Stable Value Fund is a pooled separate account with FMTC as the investment manager, which invests in a diversified portfolio of short-term bonds and other fixed income securities, such as U.S. Treasury bonds, government agency securities, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, and asset-backed securities. See Note 5 for additional information regarding the Stable Value Fund.

**Common Collective Trusts**

The investment in Common Collective Trusts is comprised of investments in the BlackRock LifePath Portfolio Funds, the Mellon Bond Index Fund and the BlackRock U.S. Treasury Inflation Protected Securities (“TIPS”) Index Fund. The objective of the BlackRock LifePath Portfolio Funds is to maximize total return while maintaining an investment mix of stocks and fixed income instruments relative to a participant's retirement timeframe. The asset allocation of each LifePath Fund is designed to reach its most conservative risk level at the fund's stated end date, at which time it will transition into the LifePath Retirement Fund. The LifePath Retirement Fund is designed to provide participants with an appropriate blend of income and inflation

Table of Contents

protection to maximize assets during the period chosen for retirement. The fair value of the LifePath Portfolio Funds is based upon the fair value of the underlying investments held by the LifePath Portfolio Funds.

The Mellon Bond Index Fund is a commingled pool managed by Mellon that invests in a stratified subset of the bonds in the Barclay's Capital U.S. Aggregate Index (the "Index"). The Mellon Bond Index Fund's objective is to provide a total return that closely corresponds to the investment performance of the Index. This commingled pool is not a mutual fund and is only available to qualified institutional investors. The fair value of the investment in the Mellon Bond Index Fund is based upon the fair value of the underlying investments held by the Mellon Bond Index Fund. The BlackRock U.S. TIPS Index Fund is a commingled pool managed by BlackRock that invests in some or all of the U.S. Treasury bonds in the Barclays Capital U.S. TIPS Index (the "TIPS Index"). The BlackRock U.S. TIPS Index Fund's objective is to provide a total return that seeks to match the investment performance of the TIPS Index. This commingled pool is not a mutual fund and is only available to qualified institutional investors. The fair value of the investment in the BlackRock U.S. TIPS Index Fund is based upon the fair value of the underlying investments held by the BlackRock U.S. TIPS Index Fund.

S&P 500 Index Fund

The S&P 500 Index Fund is a commingled pool managed by BlackRock Institutional Trust Company ("BlackRock"). The S&P 500 Index Fund primarily invests in the common stocks of the approximately 500 companies that make up the Standard & Poor's Composite Stock Index ("S&P 500"). The Fund's objective is to provide a total return that closely corresponds to the investment performance of the S&P 500 with dividends reinvested. The BlackRock S&P 500 Fund is invested in the Equity Index Fund T, which is not a mutual fund and is only available to qualified institutional investors. The fair value of the commingled pool is based upon the fair value of the underlying securities held by the commingled pool.

International Equity Fund

The International Equity Fund is a pooled separate account consisting of institutionally managed commingled pools. Mellon Capital Management Company ("Mellon") is the sole investment manager of these commingled pools. Mellon's international fund is invested in the Mellon EB Daily Liquidity ACWI ex-U.S. Fund and is available only to qualified institutional investors. The fair value of this Mellon fund is based upon the fair value of the underlying securities held by the commingled pool.

5. STABLE VALUE FUND

The objective of the Stable Value Fund is to preserve the invested principal and accumulated interest, while earning a competitive level of income over time. The Stable Value Fund is a separate account managed by FMTC.

The Stable Value Fund invests in a diversified portfolio of short-term bonds and other fixed income securities, such as U.S. Treasury bonds, government agency securities, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, and asset-backed securities. The Stable Value Fund also invests in money market funds to provide daily liquidity and purchases third party wrap contracts that are designed to permit the Fund to use contract (book) value accounting to provide for the payment of participant directed withdrawals and exchanges at contract (book) value under most circumstances. Interest is credited to the Stable Value Fund under the wrap contracts. There is no immediate recognition of gains and losses on the fixed income securities. Instead, gains or losses are recognized over time by adjusting the interest rate credited to the Stable Value Fund.

Table of Contents

The wrap contracts have been issued by State Street Bank and Trust, J.P. Morgan Chase, Prudential Insurance Company of America, American General Life, and Bank of Tokyo - Mitsubishi. The S&P credit ratings at December 31, 2014 and 2013 of the issuing financial institutions were AA-, A+, AA-, A+, and A+. The underlying investments of the Stable Value Fund are stated at fair value based on quoted market prices.

The third party wrap contracts provide that participant fund transactions are executed at contract value. Contract value represents contributions made to the fund, plus net investment income, less participant withdrawals. The interest crediting rates are reset quarterly based upon market rates of similar investments, the current yield of the underlying investments, and the spread between market value and contract value, but the rate cannot be less than 0%.

In accordance with guidance for defined contribution pension plans, the statements of net assets available for benefits present investment contracts at fair value with an additional line item showing an adjustment of the fully benefit-responsive contracts from fair value to contract value.

Certain events, such as a Plan termination or Plan merger initiated by the Plan Administrator may limit the ability of the Plan to transact at contract value or may allow for the termination of the wrap contract at less than contract value. The Plan Administrator does not believe that any events that may limit the ability of the Plan to transact at contract value are probable.

	2014	2013	
Spot yields:			
Based on actual investment income (1)	1.62	% 1.62	%
Based on interest rate credited to participants (2)	1.67	% 1.54	%

(1) Computed by dividing the annualized one-day actual earnings of the investments on the last day of the Plan year by the fair value of the investments on the same date.

(2) Computed by dividing the annualized one-day earnings credited to the participants on the last day of the Plan year by the fair value of the investments on the same date.

Table of Contents

In 2014 and 2013, the Stable Value Fund had 100% of its investments in the Stable Value Pool. The securities included in the Stable Value Pool, at fair value, as of December 31, 2014 and 2013, were as follows:

	2014	2013
(\$ in millions)		
At fair value:		
Money market funds	\$19	\$12
U.S. government obligations	382	375
Corporate bonds	167	177
Mortgage-related securities	103	109
Asset-backed securities	69	89
Other short-term borrowings and foreign obligations	1	1
	741	763
Securities sales pending settlement	21	13
Fair value	762	776
Adjustment from fair value to contract value for fully benefit-responsive wrap contracts	(12	) (14
Contract value of Stable Value Fund	\$750	\$762

**6. RELATED-PARTY TRANSACTIONS**

FMTC manages the Stable Value Fund. These transactions qualify as exempt party-in-interest transactions.

The Master Trust holds common shares of PPG, the Plan sponsor, and these qualify as exempt party-in-interest transactions.

Eligible participants may borrow from their individual account balance in the Plan as discussed in Note 1, and these transactions qualify as exempt party-in-interest transactions.

**7. PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event the Plan is terminated, Plan participants will receive all amounts credited to their accounts.

**8. FEDERAL INCOME TAX STATUS**

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated September 25, 2013 that the Plan continues to be qualified and the trusts established under the Plan are tax-exempt under the appropriate sections of the Internal Revenue Code (“IRC”). Therefore, no provision for income taxes has been included in the Plan's financial statements. No amendments to the Plan have been made since receiving the determination letter.

Participants in the Plan are not liable for federal income tax on amounts allocated to their accounts resulting from their before-tax deferrals, employer contributions, or investment income until such time as a withdrawal is requested.

Table of Contents

9. SUBSEQUENT EVENT

On April 16, 2015, the PPG Board of Directors approved a 2-for-1 split of PPG's common stock for all shareholders. On June 12, 2015, following payment of the quarterly per-share dividend, each shareholder received a stock dividend of one additional share of common stock for each share held. To reflect the split in the PPG Stock Fund, on June 12, 2015, the equivalent shares of PPG stock were also increased on a 2-for-1 basis. PPG common stock began trading on a split-adjusted basis on June 15, 2015.
