Report of Independent Registered Public Accounting Firm

Retirement Plans Committee

Webster Bank Retirement Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the Webster Bank Retirement Savings Plan (the Plan) as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years ended December 31, 2016 and 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2016 and 2015, and the changes in net assets available for benefits for the years ended December 31, 2016 and 2015, in conformity with U.S. generally accepted accounting principles.

The supplemental information in the accompanying schedule, Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2016, has been subjected to audit procedures performed in conjunction with the audit of the Plan's 2016 financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but include supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, Schedule H, line 4i - Schedule of Assets (Held at End of Year) we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedule, Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2016 is fairly stated in all material respects in relation to the financial statements as a whole.

WEBSTER BANK RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2016

1. Description of the Plan

The following description of the Webster Bank Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a qualified profit sharing and deferred compensation plan under Section 401(a) of the Internal Revenue Code of 1986 (the "Code"). The Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan was initially adopted as a qualified profit sharing plan effective as of October 1, 1984 and has been amended since that date. The Plan is sponsored and administered by Webster Bank, National Association (the "Bank"), a subsidiary of Webster Financial Corporation ("Webster" or the "Company"). Fidelity Management Trust Company is the trustee and Fidelity Workplace Services is the record-keeper as defined by the Plan. The Plan covers all eligible employees who are employed by the Bank and its subsidiaries and certain subsidiaries of Webster, who are members of the controlled group. To be eligible to make pre-tax contributions to the Plan, an employee must have attained age 21. To be eligible to receive employer contributions under the Plan an employee must have attained age 21 and completed one year of eligible service.

Contributions

Participants are permitted to make pre-tax contributions of up to 25% of their compensation. Webster matches 100% of the first 2% of a participant's pre-tax contributions and 50% of a participant's pre-tax contributions greater than 2% but not to exceed 8% of an employee's annual eligible compensation. Participant's total pre-tax contributions are limited to \$18,000 during 2016 and 2015. Participants who are age 50 or older by the end of the calendar year are allowed to make an additional "catch-up" contribution. These contributions are limited to \$6,000 in 2016 and 2015. Additionally, Webster provides special transition credits ranging from 1% to 6% to certain participants who were age 35 or older on January 1, 2008, if they were active participants in the Webster Bank Pension Plan prior to it being frozen.

If a participant fails to make a pre-tax contribution election within 90 days of hire, automatic pre-tax contributions of 3% commences as soon as administratively feasible after 90 days following the date on which the participant becomes eligible to make deferral contributions. A participant's election to make pre-tax contributions to the Plan is completely voluntary.

Participant Accounts

Plan participants have the ability to direct and allocate their account balances among the investment options available under the Plan which includes Webster common stock. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings or losses, including an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, rollovers, and qualified non-elective contributions. In general, the vesting of matching contributions is based on years of service. The employer's contributions and earnings or losses on employer contributions made to a participant's account are vested 100% after two years of service. If a participant terminates employment prior to two years of service, amounts previously contributed by the employer, including plan earnings or losses, are forfeited.

Participant Loans

Employees have the ability to borrow up to 50% of their vested account balance, from \$1,000 up to \$50,000. Interest on the loan is paid by Plan participants to their account at prevailing interest rates (Prime + 1% or such other reasonable rate of interest as the Loan Program Administrator may determine) through payroll deductions. Any required loan application processing fees will be deducted from the participant's account. Loans must generally be

repaid within five years through payroll deductions, unless proceeds are used to purchase a primary residence, in which repayment can be up to 15 years. In the event of a default, the outstanding loan balance is considered a distribution to the participant borrower. The loans are secured by the balance in the participants account.

Payment of Benefits

If the value of a participant's vested account is not greater than \$1,000, the vested balance will be paid automatically in connection with termination of employment in a single lump sum payment either to the participant, the participant's beneficiary or as a direct

Table of Contents

WEBSTER BANK RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2016

rollover to an IRA or another employer plan. If the value of a participant's vested account is greater than \$1,000, payment is made to the participant at his or her option either as a lump sum or in installments over a period of time that does not exceed the participant's life expectancy or the joint life expectancy of the participant and his or her designated beneficiary. A participant may elect to defer the commencement of benefits under the Plan, however, this date should not exceed the required beginning date which is April 1st of the subsequent calendar year in which the participant attains age 70-1/2 or retires, whichever is later. Vested interests greater than \$1,000 may also be paid in a direct rollover to an IRA or another plan.

In the event of a participant's total and permanent disability, a participant may choose to receive his or her vested account balance as if normal retirement had occurred. All benefit payments to participants are recorded when distributed in accordance with ERISA requirements.

Forfeitures

During the years ended December 31, 2016 and 2015, employer contributions were reduced by \$93,302 and \$126,000, respectively. At December 31, 2016 and 2015, the remaining forfeited non-vested amount totaled \$5,985 and \$3,838, respectively.

The amounts forfeited during the Plan year are used first to reinstate forfeited amounts of certain rehired employees, then to pay plan expenses (to the extent they have not previously been paid by Webster Bank), and lastly to reduce the amount of contributions which Webster Bank would otherwise be required to contribute to the Plan. As of the Plan years ending December 31, 2016 and 2015, no forfeitures were used in funding rehired employee balances or to pay plan expenses.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Purchases and sales of investments are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net depreciation/appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. Refer to Note 4 Fair Value Measurements for additional information.

Common Collective Trust Fund

The Plan indirectly invests in stable value wrap contracts through a stable value common collective trust fund, the Fidelity Managed Income Portfolio II - Class 1 fund. This investment option calculates its net asset value per unit (NAV) on a daily basis as of the close of business of the New York Stock Exchange. Investments in wrap contracts are fair valued using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio of securities. Underlying debt securities for which quotations are readily available are valued at their most recent bid prices in the principal market in which such securities are normally traded. For valuation purposes, these contracts follow the application of ASC 962-325 (Plan Accounting-Defined Contribution Pension Plans - Investments - Other). The Fidelity Managed Income Portfolio II - Class 1 fund is classified as a common collective trust and a Level 2 asset since a market price is not available for this investment in an active market.

As an investment option in the Plan, the Fidelity Managed Income Portfolio II - Class 1 fund has no restrictions on redemptions for this fund. If the Plan were to initiate a full redemption of the collective trust, then the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The Plan accounts for the common collective trust at fair value, which represents the contract value that participants will

Table of Contents

WEBSTER BANK RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2016

receive if they were to initiate permitted transactions under the terms of the Plan. Such value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2016 or 2015.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All of the expenses of maintaining the Plan are paid by the Bank, except for fees paid directly by the Plan pursuant to the Plan agreement. These fees are reflected as administrative expenses in the Statements of Changes in Net Assets Available for Benefits.

Financial Accounting Standards Board ("FASB") Standards Adopted during 2016

ASU	Description	Effective Date and Financial Statement Impact
ASU No. 2015-07, Fair Value Measurement (Topic 820) - "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent) (a consensus of the FASB Emerging Issues Task Force)."	The requirement to categorize within the fair value hierarchy all investments for which fair value is measured using net asset value per share as a practical expedient has been removed. Additional requirements to make certain disclosures has been modified to apply to, rather than all investments that are eligible to be, only those investments that an entity has elected to be measured at fair value using net asset value per share as a practical expedient. An entity should apply the guidance on a retrospective basis.	Standard was implemented in 2016. The adoption did not have a material impact on the Plan's financial statements.

3. INVESTMENTS

A summary of net (depreciation) appreciation in the fair value of the Plan's net investments (including gains and losses on investments bought and sold within the plan year, as well as held during the year) by investment type is as follows:

	For the years ended	
	December 31,	
	2016	2015
Registered investment companies	\$9,348,017	\$(15,503,064)
Webster Financial Corporation common stock	18,934,882	5,651,939
Net appreciation (depreciation)	\$28,282,899	\$(9,851,125)

4. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined using quoted market prices. However, in many instances, quoted market prices are not available. In such instances, fair values are determined using appropriate valuation techniques. Various assumptions and observable inputs must be relied upon in applying these techniques. Accordingly, categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. As such, the fair value estimates may not be realized in an immediate transfer of the respective asset or liability.

Table of Contents

WEBSTER BANK RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2016

Fair Value Hierarchy

The three levels within the fair value hierarchy are as follows:

Level 1: Valuation is based upon unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2: Fair value is calculated using significant inputs other than quoted market prices that are directly or indirectly observable for the asset or liability. The valuation may rely on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, volatilities, prepayment speeds, credit ratings, etc.), or inputs that are derived principally or corroborated by market data, by correlation, or other means.

Level 3: Inputs for determining the fair value of the respective assets or liabilities are not observable. Level 3 valuations are reliant upon pricing models and techniques that require significant management judgment or estimation.

A description of the valuation methodologies used by the Plan is presented below:

Registered Investment Companies

The Plan uses quoted market prices of identical assets on active exchanges. As such, registered investment companies are classified within Level 1 of the fair value hierarchy.

Common Collective Trust Fund

The investments currently reside in the Fidelity Managed Income Portfolio II - Class 1 fund. The Plan's interests in the trust are valued based on the NAV reported by the trustee of the funds. Fair values for the underlying assets of the Fidelity Managed Income Portfolio II - Class 1 fund were based on the market approach using quoted prices in active markets or observable inputs used to value certain securities and contracts, or Level 2. The investments have no restrictions on redemptions and there were no unfunded commitments and no plans to sell investments at December 31, 2016 and 2015. The common collective trust fund is designed to deliver safety and stability by preserving principal and accumulated earnings.

Webster Financial Corporation Common Stock

Webster Financial Corporation's common stock is traded on the New York Stock Exchange under the symbol "WBS." The common stock is stated at fair value as quoted on an active exchange. Therefore, common stock is classified within Level 1 of the fair value hierarchy.

Cash and Cash Equivalents

Cash and cash equivalents are recorded at cost, plus accrued interest. Cash and cash equivalents are classified within Level 1 of the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different measurement at the reporting date.

There have been no changes in the valuation methodologies used at December 31, 2016 and 2015, respectively, and there have been no transfers between fair value levels.

5. RELATED PARTY AND PARTY IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of registered investment companies (mutual funds) managed by Fidelity Workplace Services, an affiliate of Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan. Accordingly, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$34,935 and \$38,972 for the years ended December 31, 2016 and 2015, respectively.

At December 31, 2016 and 2015, the Plan held 1,048,952 shares and 1,211,999 shares of Webster Financial Corporation common stock, respectively, with fair value of \$56,937,115 and \$43,603,632, respectively. During the years ended December 31, 2016 and 2015, the Plan recorded dividend income from Webster Financial Corporation common stock of \$1,018,084 and \$944,631 respectively.

Notes receivable from participants of \$6,527,740 and \$6,687,482 as of December 31, 2016 and 2015, respectively, with interest rates ranging from 3.25% to 9.25% also qualify as party-in-interest transactions. Interest earned on the notes receivable from participants totaled \$286,778 and \$288,774 for the years ended December 31, 2016 and 2015, respectively.

6. PLAN TERMINATION

Although the Bank has not expressed any intent to terminate the Plan, it has the right to do so at any time. The rights of all employees to benefits accrued under the Plan as of the date of such termination or discontinuation of contributions will be fully vested and non-forfeitable. After providing for the expenses of the Plan, the remaining assets of the Plan will be allocated by the Office of the Chairman, which is appointed by Webster Bank's Board of Directors.

Table of Contents

WEBSTER BANK RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2016

7. TAX STATUS

The Plan has received a favorable tax determination letter from the Internal Revenue Service dated January 9, 2017 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. The plan document determined by the IRS to be qualified has since been amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Bank and Plan counsel believe the Plan is designed and is operated in accordance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is exempt from federal taxation. The Bank has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code, in the event a non-compliance matter is identified.

U.S. generally accepted accounting principles requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. SUBSEQUENT EVENTS

The Plan Administrator has evaluated the effects on the Plan financial statements of subsequent events that have occurred subsequent to December 31, 2016 through June 29, 2017, the date these financial statements were issued. During this period, there have been no material events that would require recognition in the financial statements or disclosures to the financial statements.
