**Forward-Looking Statements**

This Economic and Financial Analysis Report contains forward-looking statements related to our business. Such statements are based on management's current expectations, estimates and projections concerning future events and financial trends that may affect our business. Words such as "believe", "anticipate", "plan", "expect", "intend", "goal", "estimate", "forecast", "predict", "project", "guidelines", "should" and other similar expressions are used to indicate predicting statements. However, forward-looking statements are not guarantees of future performance and involve certain risks and uncertainties that may be beyond our control. In addition, some forward-looking statements are based on assumptions which, depending on future events, may prove not to be accurate. Therefore, actual results may differ significantly from the plans, goals, expectations, projections and intentions expressed or implied in such statements.

The factors that may impact the actual results include, among others, changes in regional, national and international trade and economic policies; inflation; an increased number of defaults by borrowers in loan operations, with a consequent increase in the allowance for losses from loan operations; loss of ability to receive deposits; loss of customers or revenues; our ability to sustain and improve performance; changes in interest rates which may, among other things, adversely affect our margins; competition in the banking industry, financial services, credit card services, insurance, asset management and other related industries; government regulation and fiscal affairs; disputes or adverse legal proceedings or regulations; and credit and other risks involved in lending and investment activities.

As a result, one should not rely excessively on these forward-looking statements. The statements are valid only for the date on which they were drafted. Except as required by applicable law, we do not assume any obligation to update these statements as a result of new information, future developments or any other matters which may arise.

Some numbers included in this Report have been subjected to rounding adjustments.

As a result, some amounts indicated as total amounts in some charts may not be the arithmetic sum  
of the preceding numbers.

**Summarized Analysis of Adjusted Income**

**Adjusted Net Income and Profitability**

The return on the Average Adjusted Shareholders' Equity (ROAE), which is calculated on a linear basis, registered 17.4% in June 2016. The adjusted net income decreased 5.7% in the comparative study between semesters, impacted, largely, by the increase in allowance for loan losses expenses, as a result of: (i) the leveling of provisioning for certain corporate client operations, particularly a specific case, whose downgraded rating had an impact of R\$1,201 million; and (ii) the increase in delinquency due to the escalating economic slowdown.

The main events that affected adjusted net income are detailed below.

Adjusted net income reached R\$4,161 million in the second quarter of 2016, an increase of R\$48 million, or 1.2%, compared to the previous quarter, mainly due to: (i) the decrease in allowance for loan losses expenses due to the impact produced by the downgraded rating in the particular case of a corporate client, whose effect in the second quarter of 2016 was R\$365 million whereas in the first quarter of 2016 it was R\$836 million; (ii) the increase in (a) fee and commission income and (b) the "interest-earning portion of the NII" and the "non-interest-earning portion of the NII", partly offset by: (iii) a decrease in the income of insurance premiums, pension and capitalization bonds; (iv) higher other net operating expenses; and (v) higher personnel and administrative expenses.

In the comparison between the first semester of 2016 and the same period in the previous year, the adjusted net income decreased R\$504 million, which reflects an increase in (i) allowance for loan losses expenses, for the reasons detailed above; and (ii) personnel and administrative expenses. However, it's important to highlight the increase in: (i) the interest-earning portion of the NII; (ii) fee and

Shareholders' Equity totaled R\$96,358 million in June 2016, up 10.8% over June 2015. Based on the Prudential Conglomerate, the Basel III Ratio was calculated at 17.7%, 13.7% of which is classified as Common Equity/ Tier I.

Total Assets registered R\$1.105 trillion in June 2016, a 7.3% increase over June 2015, driven by the increased turnover. Return on Average Assets (ROAA) reached 1.5%, calculated on a linear basis.

Press Release

**Summarized Analysis of Adjusted Income**

The 12-month ER<sup>(1)</sup> recorded 37.4%, a 0.2 p.p. increase as compared with the previous quarter, partially impacted by: (i) higher operating expenses, mainly administrative expenses, originated from: (a) advertising and marketing; and (b) outsourced services; partially offset by: (ii) the growth of (a) the fee and commission income, originated by the increase in the volume of business and services provided; and (b) the net interest income. In the annual comparison, such indicator showed and improvement of 0.5 p.p. mainly due to the increase in (i) the interest-earning portion of the NII; (ii) fee and commission income; and (iii) income from Insurance Premiums, Pension Plans and Capitalization Bonds, net of technical reserves, retained claims and others; offset, largely, by: (iv) the increase in operating expenses during the period.

In the ER – quarterly, the indicator was partially impacted by: (i) higher administrative expenses, largely, due to the same reason detailed above; (ii) lower income from Insurance Premiums, Pension Plans and Capitalization Bonds, net of technical reserves, retained claims and others; (iii) higher net operating expenses of other operating revenues; and offset by: (iv) the growth of the fee and commission income, originated by the increase in the volume of business and services provided.

The risk adjusted ER reflects the impact of the risk associated with loan operations<sup>(2)</sup> and reached 48.1%, impacted primarily by the leveling of provisions for corporate clients carried out in the first semester of 2016.

(1) ER = (Personnel Expenses – Employee Profit Sharing + Administrative Expenses)/ (Net Interest Income + Fee and Commission Income + Income from Insurance + Equity in the Earnings (Losses) of Unconsolidated Companies + Other Operating Income – Other Operating Expenses); and

(2) Including ALL expenses, adjusted for discounts granted, loan recovery and sale of foreclosed assets, among others.

It is important to mention that the ER performance reflects the strategy of sustainable growth, which includes, among other things, (i) the availability of appropriate products and services for clients through the segmentation of the base and of digital channels, (ii) the optimization of points of service, and (iii) the strict control of operating expenses, arising from the actions of the Efficiency Committee and of investments in Information Technology, to the amount of R\$2.993 billion in the first semester of 2016.

Press Release**Summarized Analysis of Adjusted Income****NII (Net Interest Income)**

In the quarterly comparison, the R\$70 million, or 0.5%, increase was, mainly, due to: (i) the higher interest-earning portion of the NII, to the value of R\$49 million, with emphasis on “Securities/ Other”, a result of an improved management in investment resources and funding operations; and (ii) non-interest-earning portion of the NII, in the amount of R\$21 million.

In the comparison between the first semester of 2016 and the same period in the previous year, net interest income increased by R\$2,714 million, or 10.0%, due to: (i) a higher interest-earning portion of the NII, to the amount of R\$2,829 million, particularly in “Credit Intermediation”; and offset by: (ii) the non-interest-earning portion of the NII, to the amount of R\$115 million.

**Summarized Analysis of Adjusted Income**

**Expanded Loan Portfolio<sup>(1)</sup>**

In June 2016, the expanded loan portfolio of Bradesco totaled R\$447.5 billion, a 3.4% decrease in comparison with the previous quarter, impacted, partially, by the exchange rate variation. Micro, Small and Medium-sized Companies and Large Companies presented a reduction of 5.7% and 5.2%, respectively, while the loans to individuals increased 0.8% during the period.

In relation to the last 12 months, the portfolio also decreased 3.4%. The Legal Entities registered a decline of 6.7%, impacted mainly by the segment of Micro, Small and Medium-sized Companies, but credits allocated to Individuals grew 3.8%.

For Individuals, the products that had the strongest growth in the last 12 months were: (i) real estate financing; and (ii) credit card. For the Legal Entity, the notable products were: (i) export financing; and (ii) operations bearing credit risk – commercial portfolio (debentures and promissory notes).

(1) In addition to Bacen loan portfolio, it includes sureties, guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in mortgage-backed receivables, and farm loans.

For more information, see Chapter 2 of this Report.

**Allowance for Loan Losses (ALL) Expenses <sup>(1)</sup>**

In the first semester of 2016, allowance for loan losses expenses totaled R\$10,472 million, registering a variation of 46.9%, or R\$3,342 million, over the same period of the previous year, mainly impacted by: (i) the levelling of provisions for certain corporate clients, particularly a specific case, whose downgraded rating had an impact of R\$1,201 million in the first semester (this operation is 100% provisioned); and (ii) by the higher delinquency rate, mainly due to the

It is important to note the balance in credit operations – the Bacen concept, presented a 3.7% decrease in the annual comparison and a 3.4% decrease in the quarterly comparison.

The effect in the growth of delinquency rates was mitigated by the reinforcement of the credit granting policies, quality of guarantees, as well as the improvement of the credit recovery processes.

escalating economic slowdown in the period. In the second quarter of 2016, this expenditure was reduced by 7.8%, or R\$424 million, primarily due to the lower impact produced by the specific case, stated above, the effect of which, during the second quarter of 2016, was of R\$365 million and, in the first quarter of 2016, in which it was R\$836 million. For more information, see Chapter 2 of this Report.

**Delinquency Ratio<sup>(1) (2)</sup>**

**Delinquency over 90 days**

The total delinquency ratio, which refers to operations that are over 90 days past due, maintained its increase in the quarter, mainly due: (i) to the continuity of the unfavorable economic situation, which impacted the quality of the credit portfolio, mainly for the Individual and Micro, Small and Medium-sized Companies; and (ii) by the reduction of the credit portfolio for both segments of Legal Entities, in the second quarter of 2016.

**Delinquency from 15 to 90 days**

In the quarter, short-term delinquency, including operations between 15 and 90 days overdue presented growth due to a specific client from the Large Companies section, as mentioned beforehand.

We highlight the positive performance of the Individual portfolio.

- (1) As defined by Bacen; and
- (2) Portfolios were not sold.

**Provisioning, Delinquency, ALL and Effective Coverage Ratio**

The assertiveness of the provisioning criteria adopted must be mentioned, which is proven by: (i) analyzing historical data on recorded allowances for loan losses; and (ii) effective losses in the subsequent 12-month period. When analyzed in terms of net loss of recovery, for an existing provision of 6.7% of the portfolio<sup>(1)</sup> in June 2015, the net loss in the subsequent 12 months was 3.3%, this represents an effective coverage of 200.6%.

It should be highlighted that, considering the losses expected for one year (dotted part), which has a high correlation with E-H non-performing ratings, there is an effective coverage of 233.9% for June 2016, which compares well with excess ALL.

Press Release

**Summarized Analysis of Adjusted Income**

**Income from Insurance, Pension Plans and Capitalization Bonds**

In the second quarter of 2016, in comparison with the previous quarter, revenue showed an increase of 13.6%, driven by the "Life and Pension", "Auto/RE", "Capitalization" and "Health" products, which grew by 22.0%, 16.6%, 6.1% and 4.2%, respectively.

In the first semester of 2016, this section registered an increase of 6.9% in comparison with the same period of the previous year, influenced by the "Health" and "Capitalization" products, which increased by 16.7% and 4.0%, respectively.

Net earnings for the second quarter of 2016 were 15.7% lower than the results presented in the previous quarter, largely due to: (i) the introduction of a supplemental coverage provision, whose methodology of calculation takes into account the discount of the projected cash flow of the insurance contracts in force, based on the interest rates' fixed-term structure (ETTJ). These curves present approximately 1.0 p.p. of variation between the dates of the calculation base, resulting in an increase of R\$144 million, the SCP (Supplemental Coverage Provision), with the other compensations, net of tax, of R\$79.2 million; (ii) the increase of 4.7 p.p. in the claims ratio index; partially offset by: (iii) the increase of 13.6% in revenue; (iv) by the maintenance of the commercialization index; (v) by the improvement in the administrative efficiency index; and (vi) by the increase in financial and equity earnings.

**Minimum Capital Required – Grupo Bradesco Seguros**

According to CNSP Resolution No. 321/15, corporations should adjust shareholder's equity

Net income for the first semester of 2016 remained in line with the earnings presented in the same semester of the previous year, largely due to: (i) the turnover growth of 6.9%; (ii) maintenance of the commercialization index and of the administrative efficiency index, considering the collective bargaining of the category in January 2016; (iii) the increase in financial and equity results, offset by (iv) the constitution of a supplemental coverage provision, as previously mentioned in the preceding paragraph (v) by the increase of 3.0 p.p. in the claims ratio index; and (vi) by the increase in the Social Contribution rate (CSLL).

The capital adjustment and management process is continuously monitored and aims to ensure that Grupo Bradesco Seguros keeps a solid capital base to support the development of activities and cope with the risks in any market situation, in compliance

**Summarized Analysis of Adjusted Income**

**Fee and Commission Income**

In the comparison between the first semester of 2016 and the same period of the previous year, the increase of R\$1,167 million, or 9.8%, in the revenues of provision of services, was mainly due to: (i) an increase in the volume of operations arising from continuous investment in service channels and in technology; and (ii) an advance in the client segmentation process improving the ability to offer products and services. It must be noted that the sources that have significantly contributed to this result derived from: (i) an increase in checking account income, mainly due to an improvement in the client segmentation process; (ii) the good performance of the card business, as a result of (a) the increase in financial volume traded; and (b) the highest volume of transactions performed; and increase in revenue in the areas of: (iii) fund management; (iv) consortium management; (v) underwriting / financial advisory services; and (vi) custody and brokerage services.

In the second quarter of 2016, fee and commission income totaled R\$6,624 million, showing an increase of R\$219 million, or 3.4%, in comparison with the previous quarter, primarily due to the increase in the volume of operations and the higher number of business days, with emphasis on the performance of revenue generated with: (i) loan operations, particularly income from collaterals; (ii) checking accounts; (iii) underwriting / financial advisory services; (iv) cards; (v) fund management; and (vi) custody and brokerage services.

**Personnel Expenses**

In the comparison between the first semester of 2016 and the same period of the previous year, the increase of R\$573 million, or 8.1%, in personnel expenses, a figure below the levels of salary readjustments deriving from the collective agreement, is mainly due to the variations in the following expenses: (i) "structural portion" due to the increase in expenses with payroll, social charges and benefits, impacted by higher salaries, in accordance with the 2015 collective bargaining agreement; and (ii) "non-structural", mainly due to higher expenses with (a) costs deriving from the termination of employment contracts and (b) profit sharing between management and employees (EPS).

In the second quarter of 2016, the increase of R\$128 million, or 3.4%, compared to the previous quarter is mainly composed of the variation of R\$137 million, or 19.0%, in the "non-structural" portion, mainly due to higher expenses with: (i) costs deriving from the termination of employment contracts; and (ii) provision for labor lawsuits.

Note: Structural Expenses = Salaries + Social Charges + Benefits + Pension Plans.

Non-Structural Expenses = Employee and Management Profit Sharing + Training + Labor Provision + Costs with termination of employment contracts.

**Administrative Expenses**

In the comparison between the first semester of 2016 and the same period of the previous year, the 10.9%, or R\$821 million increase in administrative expenses, was primarily due to an increase in expenses originated from: (i) higher business volume in the period; (ii) the effect of advertising and marketing actions; (iii) contractual adjustments; and offset by: (iv) the optimization of service channels.

In the second quarter of 2016, the increase of 3.7%, or R\$154 million, in administrative expenses over the previous quarter, was mainly due to: the increase in the business volume occurred in the period, consequently, impacting in higher expenses with: (i) outsourced services; (ii) advertising and marketing; (iii) asset maintenance and conservation; and (iv) communications; being offset, in part, by: (v) less expenses involving data processing, affected by the devaluation of the dollar in the period.

(1) The decrease as of March 2015 is related to: (i) the migration of “External ATM Network – Bradesco” to “Banco24Horas Network”; (ii) the deactivation of ATMs from “Banco24Horas Network”; and (iii) the decrease of Bradesco Expresso correspondents.

**Other Operating Income and Expenses**

In the first semester of 2016, other net operating expenses totaled R\$3,684 million, a R\$166 million increase, or 4.7%, over the same period of the previous year, primarily due to: (i) the constitution of the expense allowance for tax contingency, net of reversal, in the first half of 2016, in the amount of R\$485 million; (ii) the constitution of the expense allowance for contingent liabilities, originating from the obligation through assignment of claims (FCVS), in the first half of 2016, in the amount of R\$200 million; (iii) increased expenditure on civil provisions; offset by: (iv) the constitution of the provision expense for tax contingency, in the first semester of 2015, in the amount of R\$571 million.

In the comparison between the second quarter of 2016 and the previous quarter, other operating expenses increased R\$346 million, or 20.7%, partially due to: (i) the constitution of the expense allowance for tax contingency, net of reversal, in the first half of 2016, in the amount of R\$485 million; (ii) the constitution of the expense allowance for contingent liabilities, originating from the obligation through assignment of claims (FCVS), in the first half of 2016, in the amount of R\$200 million; offset by: (iii) lower operating expenses related to activities of cards and insurance, in the period.

**Summarized Analysis of Adjusted Income**

**Income Tax and Social Contribution**

In the comparison between the first semester of 2016 and the same period of the previous year, the 8.5%, or R\$394 million, decrease is related to: (i) an increase in provisioning/payment of interest on shareholder's equity, due to the increase in the Long-Term Interest Rate (TJLP) in the period (from 5.7% in the first semester of 2015 to 7.5% in the first semester of 2016); (ii) a lower taxable income, being partially offset by: (iii) the increase in the Social Contribution (CSLL) rate.

Income tax and social contribution expenses in the quarterly comparison showed a decrease of 16.9%, or R\$390 million, mainly due to the reduction of the taxable income, impacted by higher nontaxable income.

**Unrealized Gains**

Unrealized gains totaled R\$18,175 million at the end of the second quarter of 2016, an R\$5,078 million increase over the previous quarter. Such variation was mainly due to the market valuation in: (i) investments, particularly being the shares of Cielo, which appreciated 16.2%; and (ii) securities indexed to fixed income.

**Capital Ratios - Basel III**

**Basel Ratio**

In June 2016, the Capital of the Prudential Conglomerate stood at R\$102,548 million, against risk-weighted assets totaling R\$580,568 million. The Basel Ratio showed an increase of 0.8 p.p., from 16.9%, in March 2016, to 17.7%, in June 2016, and the Common Equity Tier I ratio from 12.9%, in March 2016, to 13.7%, in June 2016.

The table below shows the main events that impacted the Common Equity Tier I ratio in this quarter:

Additionally, it is worth stating that in the second quarter of 2016, the Brazilian Central Bank authorized the Subordinated Letters of Credit to compose Tier II, whose restated total, on June 30, 2016, reached R\$1,107 million.

**Full Impact – Basel III**

We calculated a Basel III simulation, considering some of the main future adjustments, which include: (i) deductions of 100% according to the schedule of phase-in arrangements; (ii) the allocation of resources, obtained via payment of dividends, by our Insurance Group; (iii) the use of tax credits; (iv) the decrease in the market and operational risk multiplier (early adoption), from 9.875% to 8%; and (v) the impact of the acquisition of HSBC Brasil, reaching a Common Equity ratio of 11.3%, which, added to funding obtained via subordinated debt, may reach a Common Equity Tier I ratio of approximately 12.8% at the end of 2018.

- (1) Published (Schedule 60%);
- (2) Effect of the full impact. Includes the allocation of resources, obtained via payment of dividends, by the Insurance Group;
- (3) Considers the decrease in the market and operational risks multiplier (early adoption), from 9.875% to 8% in 2019;
- (4) Refers to the minimum required. It is important to highlight that Bacen fixed at 0% the tranche of countercyclical capital required, which could reach up to 2.5% in 2019; and
- (5) Considering a possible issuance of additional capital by 2018, according to the Management, depending on market conditions.

**Economic Environment**

The risks related to the international environment remain present, however it can be said that there is a certain moderation in them. On the one hand the loss of the Chinese foreign exchange reserves stagnated, which had brought uncertainties regarding the economic conditions of this country in the first quarter. On the other hand, it is worth acknowledging the continuity of timely actions by the main central banks worldwide, mainly, the European Central Bank (ECB), Bank of Japan and the Federal Reserve (Fed). The Brexit episode can contribute to the continuity of these actions, bearing in mind that its main consequence will be the moderation of growth in the UK and Europe.

In the Euro area, the ECB, in addition to expanding its balance sheet with the purchase of sovereign bonds, added assets from private companies to its purchase program. In the same direction, the Bank of Japan, as well as adopting negative nominal interest rates, continues to be committed to expanding its stimulus package. The Fed, in turn, indicated a more piecemeal posture to the rhythm of monetary normalization, in response to the moderation of economic activity. As a result, the dollar lost strength in comparison with other currencies and the price of commodities showed recovery, with emphasis on the prices of agriculture, which reacted more specifically to the prospects of an unfavorable climate and the possibility of a smaller harvest in the USA.

With regards to the domestic economy we highlight the increasing confidence of consumers and business, favoring the likelihood of economic stabilization and potential recovery in subsequent quarters. The labor market's performance is notable, with a reduction in the rate of lay-offs of formal jobs.

However, in the short term the slowdown in economic activity continues to hinder ongoing fiscal adjustment. Thus, actions to ensure fiscal sustainability in the medium term, and progress on the reform agenda have become even more

With the macroeconomic adjustments made, additional actions of a structural nature that can affect potential future growth continue to be essential. The constant search for excellence in education is Brazil's front line in its struggle to become more competitive and to expedite its efforts to upgrade infrastructure. It should be remembered that, in the long term, the main source of economic growth is productivity, a theme that is even more relevant in a global context characterized by increased competition and an economic growth that is still fragile.

Investments will tend to play an increasingly important role in the composition of growth in coming years, especially in the process of the recovery of economic activity. This would benefit more from greater participation of the capital market in financing these projects. At the same time, despite the cyclical retraction of the consumer market in some sectors, structurally, the potential of the domestic demand for goods and services is not exhausted.

Bradesco maintains a positive outlook towards Brazil, with favorable perspectives for its operating sections. Credit volume is evolving at sustainable and risk-compatible rates, even when faced with a cyclical upswing in delinquency rates, due to the reduction of activity and the increase of the employment rate this year. The circumstances are still very promising for Brazilian banking and insurance sectors in the medium and long term.

relevant. Efforts in this direction are necessary to maintain the economic predictability and to increase families' and entrepreneurs' trust, enabling the trend of increases in actual income and productive investments to resume. At the same time, moderation in the economy will allow the inflation to reach the set target more quickly, enabling the conditions to initiate a process of flexibility in monetary policy this year.

Legal Entities operations decreased by 5.3% in the quarter and 6.7% in the last 12 months. In the periods compared, the operations that showed significant growth were: (i) export financing; and (ii) real estate financing. We highlight: (i) the growth of operations with credit risk – commercial portfolio (debentures and promissory notes); and (ii) export financing, in the space of 12 months.

**Expanded Loan Portfolio – Consumer Financing<sup>(j)</sup>**

The graph below shows the types of credit related to Consumer Financing of the Individuals section, which stood at R\$99.9 billion in June 2016, representing a 1.0% increase over the quarter and a 2.9% over the last 12 months.

The lines highlighted in June 2016 are: (i) personal loans, including payroll-deductible loans, totaling R\$51.5 billion; and (ii) credit card, totaling R\$28.7 billion. Together, these operations totaled R\$80.2 billion, accounting for 80.3% of the Consumer Financing balance.

(1) Includes vehicle CDC/leasing, personal loans, revolving credit card and cash, and installment purchases at merchants operations.

## Economic and Financial Analysis

### **Interest Earning Portion of Credit Intermediation**

#### **Payroll-deductible Loans**

In June 2016, payroll-deductible loans operations totaled R\$36,220 million, showing an increase in the quarter-over-quarter comparison of R\$717 million, or 2.0%, and, in comparison to the same period in the previous year, an increase in the amount of R\$3,437 million, or 10.5%. The operations with the payroll-deductible loans represented, in June 2016, 70.4% of total personal loans operations.

#### **Real Estate Financing**

Real estate financing operations totaled R\$51,796 million in June 2016. The Individuals portfolio increased R\$835 million, or 3.5%, in the quarter, and R\$5,006 million, or 25.5%, in comparison with the same period of the previous year. Legal entities operations increased R\$492 million, or 1.8%, in the quarter, and R\$1,554 million, or 6.1%, in comparison with the same period of the previous year.

In the first semester of 2016, the origination of real estate financing registered R\$5,441 million (R\$3,298 million by individuals and R\$2,143 million by builders), representing 24,550 properties in the period.

#### **Vehicle financing**

In June 2016, vehicle financing operations totaled R\$32,715 million, showing a decrease both in the quarter-over-quarter comparison as well as in comparison with the same period of the previous year. Of the total vehicle portfolio, 77.0% corresponds to "CDC", 20.9% to "Finame" and 2.1% to "Leasing".

The variations presented in the portfolio are reflective of a reduced financing market and of

Bradesco's search for lower risk and more profitable operations, due to the demand for higher value of entry for these financing operations.

**Economic and Financial Analysis**  
**Interest Earning Portion of Credit Intermediation**

The charts below refer to the Loan Portfolio, as defined by Bacen.

**Loan Portfolio<sup>(1)</sup> – By Flow of Maturities<sup>(2)</sup>**

The loan portfolio by flow of maturities of operations has, as one of its features, a longer profile, mainly due to the presence of real estate financing and payroll-deductible loans operations. It must be noted that, due to their guarantees and characteristics, these operations are not only exposed to lower risk, but they also provide favorable conditions to gain client loyalty.

(1) As defined by Bacen; and

(2) Only performing loans.

**Loan Portfolio<sup>(1)</sup> – Delinquency**

**Delinquency over 90 days <sup>(2)</sup>**

The delinquency ratio, comprising of the balance of operations delayed for more than 90 days, maintained a trajectory of increase in this quarter, mainly due to: (i) the continued unfavorable economic environment, impacting the quality of the credit portfolio, mainly in, Micro, Small and Medium-sized Companies; and (ii) the decrease in loan portfolio for both sectors of Legal Entities in the second quarter of 2016.

(1) As defined by Bacen; and

(2) Portfolios were not sold.

**Delinquency between 15 and 90 days**

In the quarter, short-term delinquency, including operations overdue by between 15 and 90 days,

showed an increase, due to a specific client from the Large Companies section, as mentioned in chapter 1.

We note the positive performance of the Individuals portfolio.

**Economic and Financial Analysis**  
**Interest Earning Portion of Credit Intermediation**

**Allowance for Loan Losses (ALL) vs.  
Delinquency vs. Losses<sup>(1)</sup>**

**Composition of the Provision**

Bradesco monitors the development of its loan portfolio, as well as respective risks, by internally applying the expanded portfolio concept. In addition to the allowance for loan losses required by Bacen, Bradesco has excess ALL to support potential stress scenarios, as well as other operations/commitments bearing credit risks.

Allowance for Loan Losses totaled R\$31.9 billion in June 2016, representing 9.3% of the total loan portfolio, comprising of: (i) generic provision (client and/or operation rating); (ii) specific provision (non-performing loans); and (iii) excess provision (internal criteria, including provision for guarantees provided).

Provisioning levels are deemed appropriate and sufficient to support possible changes in scenarios, such as higher delinquency levels and/or changes in the loan portfolio profile.

**Provisioning, Delinquency, PDD and Effective Coverage Index**

The strength of the provisioning criteria adopted must be mentioned, which is proven by: (i) historical data analysis of recorded allowances for loan losses; and (ii) effective losses in the subsequent 12-month period. When analyzed in terms of net loss of recovery, for an existing provision of 6.7% of the portfolio<sup>(1)</sup>, in June 2015, the net loss in the subsequent 12 months was 3.3%, representing an effective coverage of 200.6%.

It should be highlighted that, considering the losses expected for one year (dotted part), which has a high correlation with the operations of abnormal course of the E-H ratings, there is an effective

coverage of 233.9% for June 2016, which is an index of good comparability of surplus provisions.

(1) As defined by Bacen; and

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL. In the third quarter of 2015, includes the ALL Surplus/Deficit Rating, considered as an extraordinary event, totaling R\$3,704 million. Thus, the balance of the ALL – Surplus provision went from R\$4,004 million in June 2015 to R\$6,409 million in September 2015.

**Coverage Ratio**

The graph below presents the behavior of the ratios to cover the provision for doubtful accounts in relation to default credits exceeding 60 and 90 days. In June 2016, these ratios showed very comfortable levels, reaching coverages of 160.7% and 201.0%, respectively.

Bradesco monitors its credit portfolio, as well as its respective risk, using the expanded portfolio concept. Besides the provision for doubtful accounts required by Bacen, Bradesco has a surplus provision of R\$6.4 billion, to cover possible stress scenarios, as well as other operations/commitments with credit risk.

#### Loans vs. Funding

In order to analyze Loan Operations in relation to Funding, the following should be deducted from the total client funding: (i) the amount committed to reserve requirements at Bacen, (ii) the amount of available funds within the customer service network, along with the addition of, (iii) funds from domestic and foreign lines of credit that finance the demand for loans.

Bradesco shows low dependency on interbank deposits and foreign lines of credit, given its

capacity to effectively obtain funding from clients. This is a result of: (i) the prominent position of its Service Points; (ii) the broad diversity of products offered; and (iii) the market's confidence in the Bradesco brand.

Note that the use of funds provides a comfortable margin. It proves that Bradesco is capable of meeting demands for loaning funds through its own funding.

**Time Deposits**

At the end of June 2016, the balance of time deposits totaled R\$68,499 million, registering decreases both in the quarter-over-quarter comparison in the amount of R\$9,255 million, or 11.9%, and in comparison with the same period of the previous year, of R\$9,563 million or 12.3%.

This performance was primarily due to the interest rate oscillations occurring in the period and to the new investment alternatives available to clients.

**Debentures**

In June 2016, Bradesco's debentures balance totaled R\$84,368 million, registering a decrease of R\$1,106 million, or 1.3%, in comparison with the previous quarter. In the comparison between June 2016 and the same period of the previous year, the debentures balance showed an increase of R\$17,967 million, or 27.1%.

Such variations refer mainly to the placement of these financial instruments, which are also used as ballast in committed transactions.

**Borrowing and On-lending**

In June 2016, the balance of on-lending registered at R\$57,532 million, a decrease of R\$5,317 million, or 8.5%, in comparison with the previous quarter, mainly due to: (i) the decrease of R\$3,378 million in the obligations for loans and denominated and/or indexed on-lending in foreign currency; and (ii) the decrease in the volume of funds raised by borrowings and on-lending in the country, mainly through Finame operations.

In the comparison between June 2016 and the same period of the previous year, the balance of borrowings and on-lending recorded a decrease of R\$3,837 million, or 6.3%, essentially due to: (i) a decrease of R\$5,479 million or 14.0%, in the volume of funds raised by borrowings and on-lending in the country, mainly in the form of Finame operations; offset by: (ii) an increase of R\$1,642 million in borrowings and on-lending denominated and/or indexed in foreign currency, whose balance changed from R\$22,120 million in June 2015 to R\$23,762 million, in June 2016, partially due to the positive exchange rate variation of 3.5% in the period.

In June 2016, Funds from Issuance of Securities totaled R\$112,817 million, remaining stable in relation to the end of the previous quarter.

In the comparison between June 2016 and the same period of the previous year, the increase of R\$17,430 million, or 18.3%, was mainly due to: (i) the increased inventory of Financial Bills, from R\$60,608 million in June 2015 to R\$74,079 million in June 2016, as a result of the new issuances in the period; and (ii) the higher volume of Mortgage Bonds, in the amount of R\$6,339 million.

Net income for the second quarter of 2016 was 11.2% lower compared with the results from the previous quarter, influenced by the following factors: (i) the constitution of a supplemental coverage provision, whose calculation methodology considers the discount of the projected cash flow of the insurance contracts in force, based on the fixed-term structure of the interest rates (ETTJ). These curves showed approximately 1.0 p.p. of variation between the dates of the calculation base, resulting in an increase in the SCP (Supplemental Coverage Provision) in the order of R\$144 million, with the reflex, net of tax, of R\$79.2 million; (ii) an increase of 6.8 p.p. in the claims ratio; partially offset by: (iii) an increase of 22.0% in the revenue; (iv) the maintenance of the commercialization index; (v) improvement in the index of administrative efficiency; and (vi) an increase in financial results.

The net income for the first semester of 2016 was 11.5% lower than the results from the same period of

the previous year, influenced by the following factors: (i) the constitution of a supplemental coverage provision, as mentioned in the previous paragraph; (ii) an increase in the administrative efficiency index; (iii) an increase in the aliquot of the Social Contribution (CSLL); partially offset by: (iv) an increase of 2.8% in the revenue; (v) the maintenance of the claims ratio; and (vi) an increase in financial results.

In June 2016, technical reserves for Bradesco Vida e Previdência stood at R\$169.9 billion, made up of R\$161.4 billion from "Pension Plans and VGBL" and R\$8.5 billion from "Life, Personal Accidents and other lines", resulting in an increase of 17.7% over June 2015.

The Pension Plan and VGBL Investment Portfolio accounted for 28.9% of market funds in May 2016 (source: Fenaprevi).

**Growth of Participants and Life and Personal Accident Policyholders**

In June 2016, the number of Bradesco Vida e Previdência clients exceeded the 2.3 million mark of pension plan and VGBL participants, and 30.1 million life and personal accident policyholders.

Such performance is fueled by the strength of the Bradesco brand and the improvement in selling and management policies.

Bradesco Auto/RE is present in 40 of the 100 largest groups in the country, as the insurer of its equities. And, to ensure the retention of clients, the company has invested in the revision of its services, in both claims assistance and claims, in search of greater efficiency and quality in the provision of services.

Despite the strong competition in the "Auto/RCF" sector, the insurance company has maintained its collection of around 1.5 million items, confirming its continued competitiveness. This achievement primarily originated from a more refined and

access to a varied range of services in a single place. Since 2007 there have been more than 500 thousand assistances, between claims, provision of spare cars, installation of anti-theft equipment, prior inspections performed, preventative maintenance checks and glass repairs.

Mass insurance targets individual clients, self-employed professionals and SMEs.

With a strategy focused on the "home insurance" segment, totaling more than 1.3 million insured homes, Bradesco Auto/RE is expanding the "monthly residential" products line into new distribution channels.

Recently, "*Bradesco Seguro Simpli Empresa*", an easily purchased corporate product intended for commercial establishments and service providers, such as bakeries, *pousadas* (personalized hospitality), schools, gyms, cafeterias, and beauty salons, was launched. In a few months, its sale had already surpassed the mark of 28 thousand insurance policies.

The simplified home and business insurance products stand out for their significant contribution to the results.

segmented pricing strategy that helped to reduce the claims ratio and significant margin recovery, above the market average. In addition, strong investment in technology in this area has aided the simplification of internal processes, making the purchase of insurance more agile.

With 31 units spread across the country, the network activity of the automotive centers of Bradesco Auto Center (BAC) offers policyholders

Explanations of the main items that influenced the variation in Fee and Commission Income between the periods can be found below.

**Card Income**

Income from card fees totaled R\$2,459 million in the second quarter of 2016, an increase of R\$38 million, or 1.6%, compared with the previous quarter, mainly due to the increase in volume traded.

In the comparison between the first semester of 2016 and the same period of the previous year, the R\$299 million or 6.5% growth, is primarily due to: (i) the increase in the financial volume traded; and (ii) the increased amount of transactions carried out in the period.

Economic and Financial Analysis  
**Fee and Commission Income**

**Checking Account**

In the second quarter of 2016, the service revenues from checking accounts showed an increase of R\$46 million, or 3.4%, in comparison with the previous quarter, mainly influenced by the greater number of business days in this quarter.

In the comparison between the first semester of 2016 and the same period of the previous year, the income from current account services increased by R\$498 million, or 21.9%, mainly due to: (i) the expansion of the portfolio of services rendered, with the inclusion of clients for the new “Classic” and “Exclusive” sections; and (ii) the increase in the volume of business.

**Loan Operations**

Revenues from loan operations recorded an increase of 8.2%, or R\$54 million, in the quarter-over-quarter comparison, and 2.5%, or R\$33 million, in the comparison between the accrued semesters, originating mainly from higher income from collaterals, which increased 21.2% and 14.4%, respectively.

Economic and Financial Analysis**Fee and Commission Income****Fund Management**

In the second quarter of 2016, fund management income totaled R\$701 million, showing an increase of R\$27 million, or 4.0%, compared with the previous quarter, mainly due to the 1.2% increase in the volume of funds raised and managed.

In the comparison between the first semester of 2016 and the same period of the previous year, the increase of R\$113 million, or 9.0%, was primarily due to the increase in the volume of funds raised and managed, which grew 17.2% over the period, investments in fixed income funds being notable, with a growth of 18.1%.

**Fee and Commission Income**

**Consortium Management**

In the second quarter of 2016, total earnings from custody and brokerage services presented an increase of R\$21 million, or 14.0%, compared with the previous quarter. This trend basically resulted: (i) from the higher volumes traded on BM&FBovespa; and (ii) from the increase of R\$17 billion in assets in custody, which had an impact on custody and brokerage revenues.

In the comparison between the first semester of 2016 and the same period of the previous year, the R\$69 million or 13.8% increase in income from consortium management was mainly driven by: (i) a higher volume of received bids; (ii) the increase in the average ticket; and (iii) the increase in billing on sales, ranging from 1,127 thousand active quotas, in June 2015, to 1,216 thousand active quotas in June 2016, generating an increase of 89 thousand net quotas.

**Custody and Brokerage Services**

In the second quarter of 2016, total earnings from custody and brokerage services presented an increase of R\$21 million, or 14.0%, compared with the previous quarter. This trend basically resulted: (i) from the higher volumes traded on BM&FBovespa; and (ii) from the increase of R\$17 billion in assets in custody, which had an impact on custody and brokerage revenues.

In the comparison between the first semester of 2016 and the same period of the previous year, the increase of R\$57 million, or 21.6%, in income from custody and brokerage services, reflected the increase in the average volume of assets under custody in the period.

**Underwriting/Financial Advisory Services**

The increase in the quarter-over-quarter comparison, to the amount of R\$42 million, or 25.9%, as well as in the comparison with the first semester of the previous year, to the amount of R\$68 million, or 22.8%, refers, mainly, to increased activity on the capital market in the second quarter of 2016.

It is important to note that variations recorded in this income derive from the capital market's volatile performance.

Total Personnel and Administrative Expenses amounted to R\$8,152 million in the second quarter of 2016, with an increase of 3.6%, or R\$282 million, in comparison with the previous quarter. In the comparison between the first semester of 2016 and the same period of the previous year, total Personnel and Administrative Expenses showed an increase of 9.5%, or R\$1,394 million.

## Personnel Expenses

Total personnel expenses amounted to R\$3,882 million in the second quarter of 2016, showing an increase of 3.4%, or R\$128 million, in comparison with the previous quarter, mainly due to the variation of R\$137 million or 19.0% in the "non-structural" portion, mainly due to higher

expenses of: (i) costs resulting from the termination of employment contracts, to the amount of R\$75 million; and (ii) provision for labor lawsuits, to the amount of R\$51 million.

**Economic and Financial Analysis**  
**Personnel and Administrative Expenses**

In the comparison between the first semester of 2016 and the same period of the previous year, the increase of R\$573 million, or 8.1% in personnel expenses, a value that is below the levels of salary readjustments deriving from the collective agreement, was mainly due to: (i) the "structural" portion variation, related to the increase in expenses relating to payroll, social charges and benefits, that was affected by higher salaries, in accordance with the 2015 collective agreement; and (ii) the "non-structural" portion variation, mainly due to higher expenses of: (a) costs resulting from the termination of employment contracts, to the amount of R\$115 million and (b) profits shared between the administrators and employees (PLR), to the amount of R\$114 million.

**Administrative Expenses**

The increase of 3.7% or R\$154 million in administrative expenses in the second quarter of 2016, compared with the previous quarter, was mainly due to the increase in the volume of business and services concentrated in this period which, consequently, resulted in higher expenses of: (i) outsourced services, to the amount of R\$74 million; (ii) advertising and publicity, to the amount of R\$64 million; (iii) asset maintenance and conservation, to the amount of R\$34 million; and (iv) communication, to the amount of R\$31 million; partially offset by: (v) lower data processing expenses, in the amount of R\$63 million, affected by dollar devaluation in the period.

**Operating Coverage Ratio <sup>(1)</sup>**

In this quarter, the coverage ratio over the last 12 months remained stable in comparison with the previous quarter, mainly due to ongoing cost control efforts, including (a) the Efficiency Committee's initiatives; (b) investments in Information Technology, which totaled R\$2,993 billion in the first

(1) The reduction in the fourth quarter of 2014 includes, mainly, the transfer of 2,431 employees of Scopus Tecnologia to IBM Brasil.

The 10.9% increase, or R\$821 million, in administrative expenses in the comparison between the first semester of 2016 and the same period of the previous year, was due, mainly, to the increasing expenses of: (i) growth in business and services volumes in the period; (ii) advertising and publicity campaigns; (iii) contractual adjustments; and offset: (iv) by optimization of Service Points.

## Economic and Financial Analysis

### **Tax Expenses**

Tax expenses totaled R\$1,326 million in the second quarter of 2016, showing a decrease of R\$92 million, or 6.5%, in relation to the previous quarter, primarily due to (i) the increase, in the first quarter of 2016, of IPTU expenses due to the advanced payment of this tax; and (ii) the reduction of expenses with PIS/Cofins, derived from the decrease in taxable income in the quarter.

taxable income in the period, mainly of fee and commission income and net interest income.

In the comparison between the first semester of 2016 and the same period of the previous year, such expenses increased by R\$84 million, or 3.2%, primarily due to the increase in expenses with PIS/Cofins/ISS, derived from the increase in

### **Equity in the earnings (losses) of affiliates**

In the second quarter of 2016, equity in the earnings (losses) of affiliates registered at R\$22 million, a decrease of R\$18 million compared with the previous quarter, and an increase of R\$49 million compared with the first semester of the previous year, primarily due to the equity in the earnings (losses) obtained with the "IRB – Brasil Resseguros" affiliate.

### **Non-Operating Income**

In the second quarter of 2016, non-operating income recorded a loss of R\$56 million, showing a decrease of R\$31 million, or 35.6%, in comparison with the previous quarter, and an increase of R\$20 million, or 16.3%, in comparison with the first semester of the previous year, essentially due to the variation of non-operating expenses (such as losses on sale of foreclosed assets/other) in each period.

## Return to Shareholders

### Corporate Governance

Bradesco's Management is made up of the Board of Directors and the Statutory Board of Executive Officers. The Board of Directors being composed of eight members, seven of which are external members, including the Chairman (Mr. Lázaro de Mello Brandão), and one of which is an internal member (the Chief Executive Officer, Mr. Luiz Carlos Trabuco Cappi), who was elected at the Annual Shareholders' Meeting and who is eligible for reelection. The Board of Directors elects the members of the Board of Executive Officers.

The Board of Directors is advised in its activities, by seven (7) Committees, two (2) of which are Statutory Committees (Audit and Compensation) and five (5) of which are Non-Statutory Committees (Ethical Conduct, Internal Controls and Compliance, Integrated Risk Management and Capital Allocation, Nomination and Sustainability). Several Executive Committees report to the Board of Executive Officers.

### Investor Relations area – RI

The commitment to transparency, democratization of information, punctuality and the pursuit of the best practices are essential factors that are constantly reinforced by Bradesco's Investor Relations area.

In the second quarter of 2016, there were 106 events promoted with national and international investors, through conferences, meetings, conference calls and institutional presentations, assisting over 1,107 investors.

During the period, there was also the 3rd Bradesco Insurance Day, which gathered 93 investors at Bradesco Seguros' headquarters in Alphaville.

In addition to the stated Audit Committee, Bradesco also makes use of the permanent Fiscal Council, elected by the shareholders, and the Internal Audit, which reports to the Board of Directors, as the main oversight agencies of its administrative/operational structure.

In 2011, Bradesco voluntarily adhered to Level 1 Corporate Governance of BM&FBovespa, as well as to the Code of Self-Regulation and Best Practices for Publicly Held Companies, issued by the Brazilian Association of Publicly Held Companies (ABRASCA), in 2011.

Further information is available on Bradesco's Investor Relations website ([bradescori.com.br](http://bradescori.com.br) – Corporate Governance Section).

Reaffirming the commitment to transparency in the disclosure of information, the online version of the Integrated Report 2015 was launched for the first time.

Through this single-environment virtual platform, the user can navigate institutional, business and financial information, as well as sustainability practices and initiatives more easily and dynamically.

## Additional Information

### Investments in Infrastructure, Information Technology and Telecommunications

In an increasingly digital world, Bradesco demonstrates its pioneering spirit in innovation and technologies that make the lives of its clients increasingly simpler and give them more autonomy. In view of this objective, we highlight:

- Stock market clients can view information on regarding their assets in real time and make purchase/sale orders of shares directly on the new Home Broker website, where a visible payment bill with an auto-fill option appears. This platform gives clients agility and a unique negotiation experience;
- *Poupa Troco* Bradesco, which allows the investor to automatically transfer the sum of cents remaining from debits in their current account, plus a predetermined value to a savings account;
- The Digital Check Deposit service, offered to the LE public, among other features, allows clients to deposit checks from any Bank, via the image and data capture of the checks, using a scanner, and to transmit them to the Bank using Bradesco Net Empresa. This operation is quick and safe, and can be conducted at any time, every day of the week, without having to go into a Branch;
- Online, via Internet Banking, Individual clients can renegotiate their debts, simulate the payment in installments, choose the date for the first payment and also choose options for the payment

of the contracted plan, access the electronic version of the card, track reimbursement status, in addition to locating clinics, pharmacies and doctors using the application. Now also available for devices using the Android operating system;

- Bradesco Seguros has been recognized as one of the 10 most innovative insurers in the 2016 Efma Global Innovator Insurance Award. The "Calamity Operation" innovation project was awarded the "Silver Award Trophy" in the Claims Management category in the Efma Innovation in Insurance awards; and
- Another innovative solution of note is the *Pulseira para Pagamentos* (Payment Wristband), which utilizes proximity communication technologies and allows the payment for purchases simply and quickly, just by approaching a terminal equipped with a reader for this technology whilst wearing this device. The wristband, launched in partnership with Visa, is being tested by selected people and during the 2016 Rio Olympic Games will be accepted at all of the sports stadia's payment terminals. To use it, the user tops up credits –as with a pre-paid card – by means of an application, which can also monitor their transaction history, view balances and block the wristband in the case of theft or loss.

As a prerequisite for its continuous expansion, Bradesco invested R\$2,993 million in Infrastructure, Information Technology and

of the full amount or in installments via direct debit or collection voucher;

### **Risk Management**

Risk management activity is highly strategic due to the increasing complexity of services and products and the globalization of Bradesco's business. The market's dynamism encourages Bradesco to engage in the continuous improvement of this activity in pursuit of better practices, leading Bradesco to use its internal market risk models, which have been used to calculate regulatory capital since January 2013.

Bradesco controls corporate risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies,

models and measurement and control tools. It also provides training to employees at every level of the organization, from business areas to the Board of Directors.

The management process results in the proactive identification, measurement, mitigation, monitoring and reporting of risks, which is necessary when taking into account Bradesco's complex financial products and activity profile.

Detailed information on the risk management process, Capital, as well as Bradesco's risk exposure, can be found in the Risk Management Report, available on the Investor Relations website: [bradescom.com.br](http://bradescom.com.br).

### **Capital Management**

The Capital Management structure aims to provide conditions for capital monitoring and control, contributing to the achievement of goals set in the strategic objectives defined by Bradesco, through an adequate capital sufficiency planning. This structure is comprised of Executive Committees and one Non-Statutory Committee, which assist the Board of Directors and Board of Executive Officers in the decision-making process.

In addition to the Committee structure, Bradesco has a department responsible for the capital management centralization, named Capital Management and Internal Capital Adequacy Assessment Process (ICAAP), subordinated to the Department of Planning, Budget and Control, which acts jointly with the Integrated Risk Control Department, associated companies, business areas and Bradesco's supporting areas.

encompasses a prospective outlook of at least three years. The process of developing this plan considers threats and opportunities, market share and development goals, capital requirement projections based on risks, as well as capital held by Bradesco. Such projections are constantly monitored and controlled by the capital management area.

With the implementation of the capital management structure, an internal process has been established to assess capital adequacy (ICAAP), which provides conditions to assess capital sufficiency in accordance with the base and stress scenarios, in a prospective outlook to identify capital and contingency actions to be taken in the respective scenarios. Capital adequacy and sufficiency information represent essential tools to manage and support the decision-making process.

Edgar Filing: BANK BRADESCO - Form 6-K

On an annual basis, the capital plan is devised by Bradesco, which is approved by the Board of Executive Officers and Board of Directors. It is also aligned with the strategic plan and

Additional Information**Basel Ratio**

In June 2016, the Capital of the Prudential Conglomerate reached the amount of R\$102,548 million, compared to assets weighted by the risk of R\$580,568 million. The total Basel ratio, in the Prudential Conglomerate, presented an increase of 0.8 p.p., from 16.9% in March 2016, to 17.7%, in June 2016, and the Principal Capital from 12.9% in March 2016 to 13.7% in June 2016, impacted, basically due to: (i) the increase of Shareholder's Equity, due to the increment of the results in the quarter; (ii) the

decrease of assets weighted by the credit risk; and offset: (iii) the increase of prudential adjustments, from R\$16,626 million, in March 2016, to R\$16,999 million, in June 2016.

Additionally, it is important to stress that in the second quarter of 2016 the Central Bank authorized the use of Subordinated Letters of Credit to compose Tier II, the amount (with interest) of which, restated on June 30, 2016, reached R\$1,107 million.

Independent Auditors' Report

**Independent Reasonable Assurance Report on the Supplementary Accounting information included within the Economic and Financial Analysis Report**

To

Directors of

Banco Bradesco S.A.

Osasco – SP

We were engaged by Banco Bradesco S.A. ("Bradesco") to report on the supplementary accounting information of Banco Bradesco S.A. for the six-month period ended as at June 30, 2016 in the form of reasonable assurance conclusion that based on our work, described within this report, the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, based on the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

**Responsibilities of the Management of Bradesco**

Management of Bradesco is responsible for preparing and adequately presenting the supplementary accounting information included within the Economic and Financial Analysis Report based on the criteria for the preparation of the supplementary accounting information described below, and for other information contained within this report, as well as the design, implementation and maintenance of internal controls that management determines are necessary to allow for such information that is free from material misstatement, whether due to fraud or error.

**Independent Auditor's Responsibility**

Our responsibility is to examine the supplementary accounting information included within the Economic and Financial Analysis Report prepared by Bradesco and to report thereon in the form of a reasonable assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with the NBC TO 3000 - Assurance Engagement Other than Audit and Review (ISAE 3000). That standard requires that we comply with ethical requirements, including independence requirements, and plan and perform our procedures to obtain a reasonable assurance about whether the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material

respects, to the information referred to in the “Criteria for preparing the supplementary accounting information” paragraph.

The procedures selected were based on our judgment, including the assessment of risks of material misstatement in the supplementary accounting information of Banco Bradesco S.A. whether due to fraud or error, however, this does not include the search and identification of fraud or error.

In making those risk assessments, we have considered internal controls relevant to the preparation and presentation of supplementary accounting information in order to design assurance procedures that are appropriate in the circumstances, but not for the purposes of expressing a conclusion as to the effectiveness of Bradesco’s internal control over the preparation and presentation of the supplementary accounting information. Our engagement also includes the assessment of the appropriateness of the reasonableness of the supplementary accounting information within the Economic and Financial Analysis Report in the circumstances of the engagement, evaluating the appropriateness of the procedures used in the preparation of the supplementary accounting information and the reasonableness of estimates made by Bradesco and evaluating the overall presentation of the supplementary accounting information. The reasonable assurance level is less than an audit.

Independent Auditors' Report

**Independent Reasonable Assurance Report on the Supplementary Accounting information included within the Economic and Financial Analysis Report**

Our conclusion does not contemplate aspects related to any prospective information contained within the Economic and Financial Analysis Report, nor offers any guarantee if the assumptions used by Management provide a reasonable basis for the projections presented. Therefore, our report does not offer any type of assurance on the scope of future information (such as goals, expectations and ambitions) and descriptive information that is subject to subjective assessment.

**Criteria for preparing the supplementary accounting information**

The supplementary accounting information disclosed within the Economic and Financial Analysis Report, for the six-month period ended June 30, 2016 has been prepared by the Management of Bradesco, based on the information contained in the consolidated financial statements on June 30, 2016 and the accounting criteria described within the Economic and Financial Analysis Report, in order to facilitate additional analysis, without, however, being part of the consolidated financial statements disclosed on that date.

**Conclusion**

Our conclusion has been formed on the basis of, and is limited to the matters outlined in this report.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion. In our opinion, the supplementary accounting information included within the Economic and Financial Analysis Information Report is presented, in all material respects, in accordance with the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Management Report**

Dear Shareholders,

We hereby present the Consolidated Financial Statements of Banco Bradesco S.A related to the first semester of 2016, in accordance with the accounting practices used in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank.

Founded in 1943, Bradesco is one of the largest financial groups in Brazil, it is present in all regions of the country and always committed to the economic growth and social development of the country, besides being in constant pursuit of excellence in all services, including customer service, and in profitability for its shareholders and investors.

Among Bradesco Organization's significant milestones during the period is Banco Bradesco's acquisition operation, in July 1<sup>st</sup>, 2016, of 100% of the equity of HSBC Bank Brasil S.A. – Banco Múltiplo and HSBC Serviços e Participações Ltda., with the formal approval of the competent authorities. The clients of HSBC Brasil will continue being served in the branches as usual and now count on products, services and convenience offered by Bradesco. This acquisition is the largest ever held by Bradesco, which consolidates its position in the domestic financial market.

**Economic Comment**

The moderate rate of growth of the American economy, confirmed mainly by recent data from the labor market and investments, resulted in a more gradual approach from the Federal Reserve. The more direct implication of this event is the depreciation of the US dollar in relation to other

For the shareholders, in the first semester, R\$2.906 billion was destined as Interest on Own Capital, in gross value, of which R\$1.567 billion was paid monthly in intermediaries and R\$1.339 billion was provisioned. The intermediate Interest on Shareholders' Equity paid on July 18, 2016 represents approximately 10 times the value of monthly Interest paid (net of Withholding Income Tax).

**2. Capital and Reserves**

At the end of the semester, the paid-in Capital Stock was of R\$51.100 billion. Added to the Equity Reserves of R\$45.258 billion, it resulted in a Shareholders' Equity of R\$96.358 billion, with a growth of 10.8% in the same period of the previous year, corresponding to the equity value of R\$17.42 per share.

Bradesco's Market Value, calculated on the basis of its shares listing, reached R\$144.366 billion on June 30, 2016, equivalent to 1.5 times the Shareholders' Equity.

The Managed Shareholders' Equity is equivalent to 9.3% of the Consolidated Assets, which add up to R\$1.042 trillion, with a growth of 9.9% on June 2015. Thus, the index of solvency reached 17.7%, higher, than the minimum of 10.5% established by Resolution No. 4,193/13 of the National Monetary Council, in compliance with the Basel Committee. At the end of the semester, the immobilization index, with regard to the Reference Equity, was of 33.8% in the Prudential Consolidation, falling under the maximum limit of 50%.

currencies and the decreasing trend in global interest. This situation favors the prices of Brazilian assets and is strengthened by the appreciation of the main agricultural commodities exported by the country. Consumer and business confidence is already being restored, which should result in the recovery of the domestic economic activity over the subsequent quarters. The adjustment in external accounts continues, while the stabilization of the debt/GDP in the medium term remains the main challenge for the new government.

### **1. Result for the Period**

In the first semester of 2016, Bradesco's Net Income reached R\$8.255 billion, equivalent to R\$1.49 per share and profitability of 17.3% over the average Shareholders' Equity(\*). The annualized return on Average Total Assets was 1.5%.

The taxes and contributions, including pensions, paid or provisioned, reached R\$20.155 billion in the semester, whereby R\$6.527 billion was related to withheld taxes and those collected from third parties and R\$13.628 billion calculated based on the activities developed by the Bradesco Organization, equivalent to 165.1% of the Net Income.

### **Securities classified under "Held to Maturity Securities"**

In compliance with Article 8 of the Brazilian Central Bank Circular Letter No. 3,068/01, Bradesco declares that it has the financial capacity and the intention of holding to maturity the securities classified under "held to maturity securities".

### **3. Funding and Management of Resources**

**8. Corporate Governance**

Bradesco's shares began to be traded on the Stock Exchange in Brazil in 1946, three years after its foundation, and Banco Bradesco has been operating in the US capital markets since 1997, negotiating initially Tier I ADRs (American Depositary Receipts) backed by preferred shares and, from 2001 to 2012, Tier II ADRs backed, respectively, by preferred and common shares. Since 2001, it has also negotiated GDRs (Global

Permanent supervisory body, the Fiscal Council is currently composed of five effective members and an equal number of alternate members, two of which are effective members and their respective alternates are chosen, respectively, by minority preferred shareholders and by non-controlling shareholders, holders of common shares.

In accordance with Instruction No. 381/03 of the Brazilian Securities and Exchange Commission, the Organization, in the first semester of 2016, neither contracted from nor had services provided by KPMG Auditores Independentes that were not related to the external audit, at a level greater than 5% of the total fees related to external audit services. Other services provided by the external auditors were the previously-agreed procedures for reviews of, primarily financial, fiscal and actuarial information. The Bank's policy is in line with the principles of preserving the auditors' independence, which is based on generally accepted international criteria, i.e. the auditors should not audit their own work, perform managerial duties for their clients or promote their customers' interests. It is noteworthy that any eventual services not related to the external audit are submitted prior to the authorization of the Audit Committee.

**8.1. Policies of Transparency and Disclosure of Information**

In the first semester of 2016, Bradesco promoted 245 events with national and international investors, through conferences, meetings, conference calls and institutional presentations, assisting over 2,700 investors. They also held two resulting teleconferences with institutional investors and, additionally, the 3rd Bradesco Insurance Day at Bradesco Seguros' headquarters in Alphaville, which

Among the practices adopted, we note the listing of the Bank, since 2001, at Tier I of Corporate Governance of the BM&FBOVESPA and, since 2011, adhering to the Code of Self-regulation and Best Practices of Open Capital Companies of Abrasca. Also with an AA+ rating (*very good level of adaptation to the best practices of corporate governance*), assigned by the Austin Rating.

The Management of Banco Bradesco comprises the Board of Directors, which has its own set of bylaws, currently composed of 8 advisers, and of its Board of Executive Officers, with 82 members, with no fulfillment of the posts of Chairman of these Boards since 1999, with statutory provision since 2012, whereby the majority of the members is formed in the Institution itself.

Seven committees advise the Board of Directors, whereby Audit and Remuneration are statutory and Ethical Conduct, Internal Controls and Compliance, Integrated Management of Risks and Allocation of Capital and Sustainability are non-statutory, while various executive committees assist the activities of the Board of Executive Officers, among them the Executive Committees of Dissemination and of Corporate Governance. They are regulated by their own set of bylaws.

## **8.2. Other facts**

In May 31, 2016, Bradesco became aware of the indictment of three members of its Executive Board of Directors by the Federal Police, in the scope of the so-called "Operation Zealots". For this reason, the Management conducted a thorough internal evaluation on the records and documents related to the indictment and ensured that no illegality was practiced by the Bank's representatives.

## **Management Report**

The facts and evidence that confirm the absolute innocence of executives of Bradesco will be presented to the authorities responsible, when requested to do so.

Due to these news published in the media, related to Operation Zealots, a class action was filed against Bradesco in the United States District Court for the Southern District of New York on June 3, 2016, to which Bradesco has not yet been summoned. According to the demand, investors who purchased American Depository Shares ("ADS") from Bradesco between April 30, 2012 and May 31, 2016 would have suffered losses provoked by Bradesco in view of the alleged violation regarding the American law of capital markets. The deadline for investors expressing an interest to join the Class Action as Lead Plaintiff, until August 2, 2016.

As the *Class Action* is still in a preliminary stage of pertinence, it is not possible to make an estimate of the value of risk and/or the probability of loss.

### **9. Integrated Risk Control**

#### **9.1. Risk Management**

Risk management is strategically highly important due to the increasing complexity of services and products and the globalization of the Organization's business.

The Organization controls corporative risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from all Organization levels, from business areas to

At Bradesco, the methodology of internal controls applied in the Organization is in line with the guidelines of the Committee of Sponsoring Organizations of the Treadway Commission (COSO) – version 2013, which supplies a model for internal controls, management of corporate risks and fraud, in order to improve performance and organizational supervision.

The existence, implementation and effectiveness of the controls that ensure acceptable levels of risk in the Organization's processes are certified by the responsible area, and the results are reported to the Audit Committee and Internal Controls and Compliance Committee, as well as to the Board of Directors, with the purpose of providing security for the correct running of the business and to reach the objectives established in accordance with applicable laws and regulations, external policies, internal standards and procedures, in addition to codes of conduct and applicable self-regulation.

#### **Prevention against Illicit Acts**

At Bradesco, business and relationships are conducted with ethics and transparency, concepts that permeate the organizational culture, whose values and principles are ratified in the Codes of Conduct.

Prevention and combat against illicit acts are exercised continuously. These risks are mitigated through policies, standards, procedures, training programs for professionals and automated controls that seek to promptly detect any operations and situations with indications of links to illegal activities.

This model is constantly being improved, seeking adherence to the laws and regulations in force and

the Board of Directors.

The Organization, taking into account the complexity and the range of products and services offered to its customers in all market sectors, is exposed to various types of risks, either due to internal or external factors. Therefore, it is crucial to adopt continuous monitoring in order to give security and comfort to all the interested parties. Among the main types of monitored risks, we highlight: Credit, Counterpart Credit, Market, Operational, Subscription, Liquidity, Concentration, Socio-environmental, Strategy, Legal or Compliance, Legal Unpredictability (Regulatory Risk), Reputation, Model and Contagion.

## 9.2. Internal Controls

The effectiveness of the Organization's internal controls is sustained by qualified professionals, well defined and implemented processes and technology compatible with business needs.

applicable to the subject. In this sense, we note the actions that have been taken in recent months, such as strengthening training on ethics, prevention of money laundering and terrorism financing, anti-Corruption and bribery, in addition to the revision of procedures and the strengthening of controls in dealing with public agents or with politically exposed people.

### **Independent Validation of Models of Management and Measurement of Risks and Capital**

Bradesco relies on an independent validation process, whose main aim is to verify if the models operate according to the objectives envisaged, as well as if its results are suitable for the uses for which they are intended. This validation occurs through the application of a rigorous testing program that deals with aspects including the suitability of processes, governance and construction of models and their assumptions, where the results are reported to the managers, to the Internal Audit, to Committees of Internal Controls and Compliance and to the Integrated Management of Risks and Capital Allocation.

### **Information Security**

The Security of Information in the Bradesco Organization is composed of a set of controls, represented by procedures, processes, organizational structures, policies, standards and technology solutions.

It intends to meet the basic principles of information security related to confidentiality, integrity and availability.

The Management Bodies of the Organization are involved in decisions on Information Security, by means of the Executive Committee of Corporate Security and a Security Commission.

### **10. Human Resources**

The model of Human Resource Management, at the Bradesco Organization is invariably guided by the egalitarian appreciation of people, without any kind of discrimination.

In the permanent quest to evolve the quality of customer care and the level of services rendered, Bradesco, through UniBrad – Bradesco Corporate University, maintains its purpose of promoting further education and enhancing the development and training of its staff. Thus, employees have access to an integrated set of learning solutions that provides the development of competencies aligned with the Organization's business. In this semester, 1,000 courses were given, with 101,187 participations.

Additionally, it is worth noting that at the end of this period, assistance benefits included 194,166 people, ensuring well-being, better quality of life and security

Excellence in business management is recognized by the main indexes of Sustainability, like the Dow Jones Sustainability Indexes (DJSI) of the New York Stock Exchange, the Corporate Sustainability Index (ISE) and the Carbon Efficient Index (ICO2), both of the BM&FBOVESPA.

of employees and their dependents.

## 11. Sustainability at the Bradesco Organization

Since its founding, the Bradesco Organization has been committed to the socioeconomic development of the country. Business guidelines and strategies are oriented in such a way as to promote the incorporation of the best practices of corporate sustainability, taking into account each region's context and potential in the long-term, contributing to the concept of shared value.

To reinforce this position, we highlight the adherence to corporate initiatives recognized worldwide, such as Global Compact Initiatives, Equator Principles, Carbon Disclosure Project (CDP), Principles for Responsible Investment (PRI), GHG Protocol Program and Empresas pelo Clima (EPC).

At the Organization, the governance structure includes the Sustainability Committee, responsible for advising the Board of Directors on establishing guidelines and corporate actions for this area, and with the multi-departmental Committee responsible for coordinating the strategy's implementation

medical-dental assistance, school materials and uniform are ensured free-of-charge to the more than 43 thousand students in Basic Education.

The "National Day of Voluntary Action", promoted for the 14th consecutive year, on May 14, 2016, brought together 17,347 volunteers in 69 different locations in Brazil, including the Schools of Fundação Bradesco and points of service close to the school units. In total, it involved 255,761 participants in the areas of education, health, leisure, sports and environment, once again serving as an example of citizenship and solidarity.

### **Programa Bradesco Esportes e Educação (Bradesco Sports and Education Program)**

The Bradesco Sports and Education Program, in the Municipal District of Osasco, SP, has Qualification and Specialist Centers to teach the modules in Women's Volleyball and Basketball. The activities occur in their own Sports Development Center, in Fundação Bradesco's schools, in Municipal Sports Centers, in private schools and in a leisure club. Currently, two thousand girls take part, from the age of eight, reaffirming the Organization's social commitment and displaying how it values talent, citizenship, as well as education, sport and health.

**Notes to the Consolidated Financial Statements**

**1) OPERATIONS**

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and universal bank that, through its commercial, foreign exchange, consumer financing and housing loan portfolios, carries out all the types of banking activities for which it has authorization. The Bank is involved in a number of other activities, either directly or indirectly, through its subsidiaries, specifically leasing, investment banking, brokerage, consortium management, credit cards, real estate projects, insurance, pension plans and capitalization bonds. All these activities are undertaken by the various companies in the Bradesco Organization (Organization), working together in an integrated manner in the market.

**2) PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Bradesco's consolidated financial statements include the financial statements for Banco Bradesco, its foreign branches and subsidiaries, in Brazil and overseas and SPEs (Special Purpose Entities) and investment funds of which the Organization's companies are the main beneficiaries or holders of the principal obligations. These statements were prepared using accounting practices in compliance with Laws No.4,595/64 (Brazilian Financial System Law) and No.6,404/76 (Brazilian Corporate Law), including amendments introduced by Laws No.11,638/07 and No.11,941/09, as they relate to the accounting for operations, complemented by the rules and instructions of the National Monetary Council (CMN), the Brazilian Central Bank (Bacen), Brazilian Securities and Exchange Commission (CVM), where applicable, National Private Insurance Council (CNSP), Insurance Superintendence (Susep) and National Supplementary Healthcare Agency (ANS). The financial statements of the leasing companies included in the consolidated financial statements were prepared using the finance lease method, under which the book value of leased fixed assets less the residual value paid in advance are reclassified.

Up to September 30, 2015, the consolidated financial statements were prepared in accordance with the specific procedures established by Article 3 of the CMN Resolution No. 2,723/00, in force until March 31, 2015, and other provisions of the Accounting Plan of Financial Institutions ("Cosif"), having as objective: (i) to demonstrate the basis of information used by the Management to evaluate the performance and make decisions regarding the allocation of resources for investments and other purposes, among the companies of the Organization, as well as (ii) to maintain consistency based on information that was required by the regulator and already disclosed in previous periods. Starting December 31, 2015, for the purposes of preparing the consolidated financial statements it was applied, in addition to the provisions of the Accounting Plan of Financial Institutions ("Cosif"), the consolidation procedures established by Technical Pronouncement CPC 36, which has certain different criteria from the consolidation previously used, although resulting in the same values of net income and shareholders' equity and without resulting in other

relevant effects on the financial statements as a whole. For the purpose of comparability, the balances of 2014, previously presented in Note 4 according to the CPC 23, are presented in the column "Managerial Statement of Financial Position and Managerial Income Statement" column. Intercompany transactions, including investments, assets and liabilities, revenue, expenses and unrealized profit were eliminated and net income and shareholders' equity attributable to the non-controlling interests were accounted for in a separate line. Goodwill on the acquisition of investments in subsidiary/associate companies or jointly controlled companies is presented in the investments and intangible assets lines (Note 14a). The foreign exchange variation from foreign branches and investments is presented in the income statement accounts used for changes in the value of the derivative financial instrument and borrowing and on-lending operations in order to offset these results with the hedges of these investments.

The financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity securities and non-financial assets; the calculation of technical provisions for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

Bradesco's consolidated financial statements were approved by the Board of Directors on July 27, 2016.

***Notes to the Consolidated Financial Statements***

**3) SIGNIFICANT ACCOUNTING PRACTICES**

**a) Functional and presentation currencies**

Consolidated financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or loss are translated into Brazilian reais using the appropriate currency exchange rate, to comply with accounting practices adopted in Brazil. Foreign currency translation gains and losses arising are recognized in the period's income statement in the lines "Derivative Financial Instruments" and "Borrowing and On-lending".

**b) Income and expense recognition**

Income and expenses are recognized on an accrual basis in order to determine the net income for the period to which they relate, regardless of when the funds are received or paid.

Fixed rate contracts are recorded at their redemption value with the income or expense relating to future periods being recorded as a deduction from the corresponding asset or liability. Finance income and costs are recognized daily on a pro-rata basis and calculated using the compounding method, except when they relate to discounted notes or to foreign transactions, which are calculated using the straight-line method.

Floating rate and foreign-currency-indexed contracts are adjusted for interest and foreign exchange rates applicable at the end of the reporting period.

Insurance and coinsurance premiums, net of premiums paid for coinsurance and related commissions, are recorded upon the issue of the related policies/certificates/endorsements and invoices, or upon the beginning of the exposure to risk in cases in which the risk begins before the issue, and recognized on a straight-line basis over the policies' effective period through the upfront recognition and subsequent reversal through the income statement of the unearned premium reserve and the deferred acquisition costs. Revenues from premiums and the corresponding deferred acquisition costs, relating to existing risk for which no policy has been issued, are recorded in the income statement at the beginning of the risk exposure, based on estimated figures.

Recognition of health insurance premiums commences with the corresponding insurance policy's activation, and is recognized in proportion to the portion of the term elapsed.

Income and expenses arising from Mandatory Insurance For Personal Injury Caused by Motor Vehicles (DPVAT) insurance operations are recorded based on information provided by Seguradora Líder dos Consórcios do Seguro DPVAT S.A.

Accepted coinsurance and retrocession operations are recorded based on the information received from other insurers and IRB - Brasil Resseguros S.A. (IRB), respectively.

Reinsurance operations are recorded based on the premium and claims information provided, which is subject to the analysis of the re-insurers. The deductions of reinsurance premiums granted are consistent with the recognition of the corresponding insurance premium and/or terms of the reinsurance contract.

Acquisition costs, relative to the insurance commission, are deferred and recognized in profit or loss in proportion to the amount of premium recognized.

Contributions and agency fees are deferred and recognized in the income statement on a straight-line basis over a period of 24 months for health insurance operations, and 12 months for other operations.

Pension plan contributions and life insurance premiums with survival coverage are recognized in the income statement as they are received.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

The revenue of the capitalization bonds are recognized in the month in which they are issued, according to the types of collection, which may be in monthly payments or in a single payment. Each security has a nominal value, which is restated monetarily by the Reference Rate (TR) + 0.5% interest per month. Technical provisions are recorded when the respective revenues are recognized.

The revenues arising from unclaimed and expired capitalization bonds (securities and non-redeemed draws) are recognized after the prescription period, that is, until November 2003, up to 20 years and five years after this date as established by law. The expenses with commercialization of capitalization bonds are classified as "Acquisition Costs" and are recognized in the income statement as incurred.

**c) Cash and cash equivalents**

Cash and cash equivalents include: funds available in currency, investments in gold, securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less, from the time of the acquisition, which are exposed to insignificant risk of change in fair value. These funds are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are presented in Note 5.

**d) Interbank investments**

Unrestricted repurchase and reverse repurchase agreements are stated at their fair value. All other interbank investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 6.

**e) Securities – Classification**

- Trading securities – securities acquired for the purpose of being actively and frequently traded. They are recorded at cost, plus income earned and adjusted to fair value with movements recognized in the Income Statement for the period;
- Available-for-sale securities – securities that are not specifically intended for trading purposes or to be held to maturity. They are recorded at cost, plus income earned, which is recorded in profit or loss in the period and adjusted to fair value with movements recognized in shareholders' equity, net of tax, which will be transferred to the Income Statement only when effectively realized; and
- Held-to-maturity securities – securities for which there is positive intent and financial capacity to hold to maturity. They are recorded at cost, plus income earned recognized in the Income Statement for the period.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 7 (a to c).

**f) Derivative financial instruments (assets and liabilities)**

Derivative instruments are classified based on the objective for which the underlying instrument was acquired at the date of purchase, taking into consideration its use for possible hedging purposes.

Operations involving derivative financial instruments are designed to meet the Bank's own needs in order to manage overall exposure, as well as to meet customer requests to manage their positions. The gains or losses are recorded in profit or loss or shareholders' equity accounts.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

Derivative financial instruments used to mitigate risk deriving from exposure to variations in the fair value of financial assets and liabilities are designated as hedges when they meet the criteria for hedge accounting and are classified according to their nature:

- **Market risk hedge:** the gains and losses, realized or not, of the financial instruments classified in this category as well as the financial assets and liabilities, that are the object of the hedge, are recorded in the Income Statement; and
- **Cash flow hedge:** the effective portion of valuation or devaluation of the financial instruments classified in this category is recorded, net of taxes, in a specific account in shareholders' equity. The ineffective portion of the hedge is recognized directly in the Income Statement.

A breakdown of amounts included as derivative financial instruments, in the balance sheet and off-balance-sheet accounts, is disclosed in Note 7 (d to g).

**g) Loans and leasing, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses**

Loans and leasing, advances on foreign exchange contracts and other receivables with credit characteristics are classified by risk level, based on: (i) the parameters established by CMN Resolution No.2,682/99, which requires risk ratings to have nine levels, from "AA" (minimum risk) to "H" (maximum risk); and (ii) Management's assessment of the risk level. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to operations, debtors and guarantors. Moreover, the days-past-due is also considered in the rating of customer risk as per CMN Resolution No. 2,682/99, as follows:

- | <b>Past-due period (1)</b> | <b>Customer rating</b> |
|----------------------------|------------------------|
| • from 15 to 30 days       | B                      |

- from 31 to 60 days C
- from 61 to 90 days D
- from 91 to 120 days E
- from 121 to 150 days F
- from 151 to 180 days G
- more than 180 days H

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as permitted by CMN Resolution No. 2,682/99.

Interest and inflation adjustments on past-due transactions are only recognized in the Income Statement up to the 59<sup>th</sup> day that they are past due. As from the 60<sup>th</sup> day, they are recognized in off-balance sheet accounts and are only recognized in the Income Statement when received.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in off-balance-sheet accounts for at least five years.

Renegotiated transactions are held at the same rating as on the date of the renegotiation or classified in a higher risk rating. Renegotiations already written-off against the allowance and that were recorded in off-balance-sheet accounts, are rated as level "H" and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the operation may be reclassified to a lower risk category.

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, considering CMN and Bacen standards and instructions, together with Management's assessment of the credit risk.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

Type, values, terms, levels of risk, concentration, economic sector of client's activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 9.

**h) Income tax and social contribution (assets and liabilities)**

Deferred tax assets, calculated on income tax losses, social contribution losses and temporary differences, are recorded in "Other Receivables - Sundry" and the deferred tax liabilities on tax differences in leasing depreciation (applicable only for income tax), fair value adjustments on securities, restatement of judicial deposits, among others, are recorded in "Other Liabilities - Tax and Social Security", in which for the additional depreciation only the income tax rate is applied.

Deferred tax assets on temporary differences are realized when the difference between the accounting treatment and the income tax treatment reverses. Deferred tax assets on income tax and social contribution losses are realizable when taxable income is generated, up to the 30% limit of the taxable profit for the period. Deferred tax assets are recorded based on current expectations of realization considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. For financial companies, for companies considered as such and for the insurance industry, the social contribution on the profit was calculated until August 2015, considering the rate of 15%. For the period between September 2015 and December 2018, the rate was changed to 20%, according to Law No. 13,169/15. The rate will revert to 15% in January 2019. For the other companies, the social contribution is calculated considering the rate of 9%.

Due to the amendment of the rate, Bradesco recognized, in September 2015, an incremental amount to the deferred tax of social contribution, considering the annual expectations of realization and their respective rates in force in each period, according to the technical study produced.

Provisions were recorded for other income tax and social contribution in accordance with specific applicable legislation.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of deferred tax assets, as well as unrecorded deferred tax assets, is presented in Note 33.

**i) Prepaid expenses**

Prepaid expenses consist of funds already disbursed for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurred costs relating to assets that will generate revenue in subsequent periods are recorded in the Income Statement according to the terms and the amount of expected benefits and directly written-off in the Income Statement when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

In the case of the remuneration paid for the origination of credit operations or leasing to the banking correspondents related to credit operations originated during 2015 and 2016, Bradesco opted to recognize part of the total value of compensation, pursuant to the provisions of Bacen Circular No. 3,738/14.

Prepaid expenses are shown in detail in Note 11b.

**j) Investments**

Investments in unconsolidated and jointly controlled companies, where Bradesco has significant influence over the investee or holds at least 20% of the voting rights, are accounted for using the equity method.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

Subsidiaries are consolidated – the composition of the main companies can be found in Note 2. The composition of unconsolidated and jointly controlled companies, as well as other investments, can be found in Note 12.

**k) Premises and equipment**

Relates to the tangible assets used by the Bank in its activities, including those resulting from transactions that transfer risks, benefits and control of the assets to the Bank.

Premises and equipment are stated at acquisition cost, net of accumulated depreciation, calculated by the straight-line method based on the assets' estimated economic useful life, using the following rates: real estate – 4% per annum; installations, furniture, equipment for use, security systems and communications – 10% per annum; transport systems – 20% per annum; and data-processing systems – 20% to 40% per annum, and adjusted for impairment, when applicable.

The breakdown of asset costs and their corresponding depreciation, as well as the unrecorded surplus value for real estate and the fixed asset ratios, are presented in Note 13.

**l) Intangible assets**

Relates to the right over intangible assets used by the Bank in its activities.

Intangible assets comprise:

- Future profitability/acquired client portfolio and acquisition of right to provide banking services: they are recorded and amortized over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted for impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% p.a.), from the date it is available for use and adjusted for impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intent and ability to complete and use the software, as well as to reliably measure costs directly attributable to the intangible asset. These costs are amortized during the software's estimated useful life, considering the expected future economic benefits.

Intangible assets and the movement in these balances by class, are presented in Note 14.

#### **m) Impairment**

Financial and non-financial assets are tested for impairment.

Impairment evidence may comprise the non-payment or payment delay by the debtor, possible bankruptcy process or the significant or extended decline in an asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the book value of an asset or cash-generating unit exceeds its recoverable value. Impairment losses are presented in Note 7c(6) and 7h(1).

#### **n) Securities sold under agreements to repurchase**

These are recognized at the value of the liabilities and include, when applicable, related charges up to the end of the reporting period, calculated on a daily pro-rata basis.

A breakdown of the contracts recorded in deposits and securities sold under agreements to repurchase, as well as terms and amounts recognized in the statement of financial position and income statement, is presented in Note 15.

**o) Technical provisions relating to insurance, pension plans and capitalization bonds**

Economic and Financial Analysis Report – June 2016

---

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

- Damage, health and group insurance lines, except life insurance with survival coverage:
  - The unearned premium reserve (PPNG) is calculated on a daily pro-rata basis, using premiums net of coinsurance, including amounts ceded through reinsurance, and is comprised of the portion corresponding to the remaining period of coverage less initial contracting costs, except for health and personal insurance. The portion of these reserves corresponding to the estimate for risks in effect but not yet contracted is designated 'PPNG-RVNE';
  - The unearned premium or contribution reserve (PPCNG) is calculated on a daily pro-rata basis based on the portion of health insurance premiums corresponding to the remaining period of coverage, of the currently effective contracts;
  - The mathematical reserve for unvested benefits (PMBaC) is calculated as the difference between the current value of future benefits and the current value of future contributions, on obligations already assumed by Bradesco;
  - The mathematical reserve for unvested benefits (PMBaC) relates to the individual health care plan portfolio and covers the risk related to the cover for the holder's dependents for five years following the death of the holder. It is calculated using a 5.2% annual discount rate, the time holders are expected to remain in the plan up to their death, and the projected costs of the five-year-period cover, excluding payment of premiums;
  - For health insurance, the mathematical reserve of benefits granted (PMBC) is constituted by the obligations arising from the contractual clauses of remittance of installments, regarding the coverage of health assistance and by the premiums paid by insured participating in the Bradesco Saúde Insurance Plan - "GBS Plan". The calculation is based in the presented value of estimated future expenditure with the costs of health care of dependents of holders already deceased, as provided for in the ANS Normative Resolution No. 75/04, and considering a discount rate of 5.2% per annum;

- For health insurance, the reserve for claims incurred but not reported (IBNR) is calculated from the final estimate of claims already incurred and still not reported, based on the run-off triangles, monthly that consider the historical development of claims advised in the last 12 months to establish a future projection per period of occurrence;
  
- For non-life insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid' (IBNP) claims less the balance of the reserve for 'unsettled' claims (PSL) on the calculation date. A final estimate of IBNP is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 10 semesters to determine a future projection per occurrence period, and considers the estimated claims 'incurred but not sufficient' reported (IBNER), reflecting the changing expectation of the amount provisioned along the regulatory process;
  
- For other life insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the reserve for unsettled claims (PSL) on the calculation date. A final estimate of IBNP claims is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 16 semesters to determine a future projection per occurrence period;
  
- The reserve for unsettled claims (PSL), for life and health insurance, considers all claim notifications received up to the end of the reporting period, including the legal claims and monetarily restated related costs;
  
- For non-life insurance, the reserve for unsettled claims (PSL) is determined based on the indemnity payment estimates, considering all administrative and judicial claims existing at the reporting date, net of the expected payments to be received;
  
- The reserve for related expenses (PDR) for insurance of persons is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partial regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

- For damage insurance, the reserve for related expenses is calculated on a monthly basis to cover the expenses related to indemnity payment, and it covers the expenses allocated individually to each claim, as well as expenses related to claims that have not been itemized, that is, those at the level of the portfolio;
  
- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability (transfer-outs) requested but not yet transferred to the recipient insurer;
  
- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the Liability Adequacy Test (LAT), which is prepared using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy; and
  
- Other reserves are recorded for the individual health portfolio to address the differences between the expected present value of future premiums and the expected present value of indemnities and related expenses, using an annual discount rate of 5.2%.
  
- Pension plans and life insurance with survival coverage:
  - The unearned premium reserve (PPNG) is calculated on a daily prorated basis using net premiums, and is comprised of the portion corresponding to the remaining period of coverage and includes an estimate for risks covered but not yet issued (RVNE);

- The mathematical reserve for unvested benefits (PMBaC) is recorded for participants who have not yet received any benefit. In defined benefit pension plans, the reserve represents the difference between the present value of future benefits and the present value of future contributions, corresponding to obligations in the form of retirement, disability, pension and annuity plans. The reserve is calculated using methodologies and assumptions set forth in the actuarial technical notes;
  
- The mathematical reserve for unvested benefits (PMBaC) related to life insurance and unrestricted benefit pension plans (VGBl and PGBL), as well as the defined contribution plans, shows the value of participant contributions, net of costs and other contractual charges, plus income from investment in specially constituted investment funds (FIEs);
  
- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability requested but not yet transferred to the recipient insurer;
  
- The mathematical reserve for vested benefits (PMBC) is recognized for participants already receiving benefits and corresponds to the present value of future obligations related to the payment of those on-going benefits;
  
- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the Liability Adequacy Test (LAT), which is prepared semi-annually using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

- The reserve for related expenses (PDR) is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;
  
- The reserve for financial surplus (PEF) corresponds to the portion of income from investment of reserves that exceeds the minimum returns due to policyholders of pension plans that have a profit share clause;
  
- The reserve for incurred and not reported (IBNR) events is constituted for claims incurred but not reported and is based on run-off triangles, which consider the loss development of claims in the previous 96 months to set forth a future projection by occurrence period; and
  
- The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period. The provision is updated for inflation and includes all claims in litigation.
  
- Capitalization bonds:
  - The mathematical reserve for capitalization bond (PMC) is recorded for each active or suspended capitalization bond over the term set forth in the general conditions of the plan, and is calculated using the capitalization percentage, applicable to each payments made, plus the monthly accrual calculated using the inflation index and the interest rate established in the plan until the bond is redeemed or canceled;
  
  - The reserve for redemption (PR) comprises the values of matured and early-terminated capitalization bonds and is calculated by updating the balance of bonds whose terms have expired or canceled using the inflation index until the holder receives the redemption payment;

- Reserve for 'draws to be held' (PSR) is recorded to cover premiums for future prize draws, and the balance represents the present value of the draws that have already been funded but have not yet been held. The calculation methodology consists of the accumulation of the prize draw percentage applicable to each payment, as established in the plan, less the amounts related to prize draws that have already occurred. The percentages of payments designated for the prize draws is defined in advance in the actuarial technical note, and is not modified during the term of the bond;
  
- Reserve for draws payable (PSP) consists of the value of unpaid prize draw amounts, adjusted for inflation for the period between the date of the drawing and its effective settlement; and
  
- Reserve for administrative expense (PDA) is recorded to cover the cost of maintaining the single payment (PU) capitalization bonds.

Technical provisions shown by account, product and segment, as well as amounts and details of plan assets covering these technical provisions, are shown in Note 20.

**p) Provisions, contingent assets and liabilities and legal obligations – tax and social security**

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution No. 3,823/09 and CVM Resolution No. 594/09:

- **Contingent Assets:** these are not recognized in the financial statements, except to the extent that there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, and confirmation of the capacity of the counterparty to pay or the ability of Bradesco to realize the asset via compensation against another liability upon which the gain is considered practically certain. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;
  
- **Provisions:** these are recorded taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever the loss is deemed probable, it requires a probable outflow of funds to settle the obligation and when the amount can be reliably measured;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

- **Contingent Liabilities:** according to CPC 25, the term “contingent” is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management’s control. Contingent liabilities do not meet the criteria for recognition because they are considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recorded as a provision nor disclosed; and
- **Legal Obligations – Provision for Tax Risks:** results from judicial proceedings, which contest the applicability of tax laws on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully provided for in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recorded, by type, are presented in Note 17.

**q) Funding expenses**

Expenses related to funding transactions involving the issuance of securities reduce the corresponding liability and are recognized in the profit or loss over the term of the transaction. They are presented in Notes 15c and 18.

**r) Other assets and liabilities**

Assets are stated at their realizable amounts, including, when applicable, related income and inflation and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities include known or measurable amounts, including related charges and inflation and exchange variations (on a daily prorated basis).

**s) Subsequent events**

These refer to events occurring between the reporting date and the date the financial statements are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

Subsequent events, if any, are described in Note 34.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

- (1) Consistent with the criteria in Bacen Circular Letter No. 3,068/01 and due to the characteristics of the securities, we are classifying the derivative financial instruments, except those considered as cash flow hedges in the category Trading Securities;
- (2) In compliance with Article 8 of Bacen Circular Letter No. 3,068/01, Bradesco declares that it has the financial capacity and intention to maintain held-to-maturity securities until their maturity dates. The mark-to-market of securities, which were transferred from the category "Securities Available for Sale" to the category of "Securities Held to Maturity", in June 2015 and in December 2013, was maintained in the shareholders' equity and will be recognized in the results for the remaining term of these securities, according to Bacen Circular No. 3,068/01;
- (3) The number of days to maturity was based on the contractual maturity of the instruments, regardless of their accounting classification;
- (4) The fair value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics. For investment funds, the original amortized cost reflects the fair value of the respective quotas;
- (5) Includes hedge for protection of assets and liabilities, denominated in or indexed to foreign currency, primarily, arising from foreign investments, eliminating the effects of exchange variation of these assets and liabilities. For a better analysis of these items, consider the net exposure (Note 7d II); and
- (6) In the first semester of 2016, there was constitution of provision for impairment losses in the amount of R\$108,294 thousand, related to the heading "Variable Income Securities" (first semester of 2015 there was no constitution of provision for impairment losses).

## ***Notes to the Consolidated Financial Statements***

### **d) Derivative financial instruments**

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the statement of financial position or in off-balance-sheet accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a range of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from the Securities, Commodities and Futures Exchange (BM&FBOVESPA) and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factor swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded on an exchange or using methodologies similar to those outlined for swaps. The fair values of credit derivative instruments are determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil mainly refer to swaps and futures and are registered at the OTC Clearing House (Cetip) and BM&FBOVESPA.

Operations involving forward contracts of interest rates, indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges in Chicago and New York, as well as the over-the-counter (OTC) markets.

#### f) Cash flow hedge

Bradesco uses cash flow hedges to protect: i) its cash flows from payment of interest rates on funds, regarding the floating interest rate of DI, being traded DI Future contracts on BM&FBOVESPA totaling R\$1,171,885 thousand (R\$20,814,738 thousand in 2015), having as object of hedge captures linked to DI, totaling R\$1,242,274 thousand (R\$21,133,663 thousand in 2015), converting to fixed cash flows; and ii) the cash flow receipts of interest on investments in securities, regarding the floating interest rate of DI through DI Future contracts, totaling R\$19,962,802 thousand, having as object of hedge DI-backed securities, totaling R\$19,588,712 thousand, converting to fixed cash flows. The adjustment to market value of these operations recorded in the net worth is R\$(4,447) thousand (R\$299,179 thousand in 2015), net of tax effects is R\$(2,668) thousand (R\$179,507 thousand in 2015) and R\$127,096 thousand, net of tax effects is R\$76,257 thousand, respectively. The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3,082/02.

## Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

**Notes to the Consolidated Financial Statements****g) Hedge against market risk**

Bradesco constituted a hedge against market risk using the futures contracts and, later, with cash in foreign currencies (Note 5) which generated R\$(3,588,875) thousand, for protection from the effects of the exchange rate variation of the firm commitment, related to the contract for the purchase and sale of shares (Note 34f), which produced an adjustment at market value of R\$3,551,597 thousand. The effect of these operations resulted in the revenue of R\$(37,278) thousand. The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3,082/02.
