1.	Traffic and Capacity Statistics October 2004 - 8 November 2004

TRAFFIC AND CAPACITY STATISTICS - October 2004

Summary of the headline figures

In October 2004, passenger capacity, measured in Available Seat Kilometres, was 0.1 per cent above October 2003. Capacity was impacted by some two percentage points as a result of planned reductions to the schedule announced in September. Traffic, measured in Revenue Passenger Kilometres, was higher by 1.8 per cent. This resulted in a passenger load factor up 1.2 points versus last year, to 74.2 per cent. The increase in traffic comprised an 0.8 per cent increase in premium traffic and a 2.0 per cent increase in non-premium traffic. Cargo, measured in Cargo Tonne Kilometres, rose by 14.2 per cent. Overall load factor rose by 2.9 points to 71.1 per cent.

Market conditions

Market conditions are broadly unchanged. All market segments remain price sensitive and yield declines are expected to continue. The total revenue outlook for the year to March 2005 is unchanged with a 2-3 per cent improvement driven by volume increases.

Fuel costs net of hedging are now expected to be some £245 million more than last year (up £20 million from our last estimate). Passenger and cargo fuel surcharges forecast at £160 million for this year partially offset this increase.

Strategic Developments

As a result of the continued rise in oil, British Airways increased its fuel surcharge from £6 to £10 per sector on longhaul flights and from £2.50 to £4 per sector on shorthaul flights.

British Airways announced that Denise Kingsmill, CBE, was joining the Board as a Non-Executive Director from 1 November, 2004. She formerly chaired the Department of Trade and Industry's Accounting for People Task Force and was Deputy Chairman of the Competition Commission. A lawyer, she is also a non-executive director of the Home Office and chairs the Advisory Forum for Laing O'Rourke plc.

The US State Department introduced new passport rules and security measures for all customers flying into the USA.

The airline took delivery of its first Airbus A321 194 seater aircraft, which will operate on shorthaul high-density routes from Terminal 4 at London Heathrow.

A trial has shown that 47% of all British Airways customers checking-in online at London City Airport print their own boarding passes before leaving for the airport. The trial is to be extended for a further two months.
