TEVA ANNOUNCES SETTLEMENT OF LAMICTAL[®] LITIGATION WITH GLAXOSMITHKLINE

Jerusalem, Israel, February 17, 2005 - Teva Pharmaceutical Industries Ltd. (Nasdaq: TEVA) announced today that it has settled patent litigation with GlaxoSmithKline relating to lamotrigine, the generic version of GlaxoSmithKline's Lamictal[®].

The terms of the settlement, which remain subject to government review, provide that Teva may, under an exclusive royalty-bearing license from GSK and on a date not later than June 2005, distribute in the United States a generic version of lamotrigine chewable tablets (5 mg and 25 mg). In addition, Teva was granted the exclusive right to manufacture and sell its own generic version of lamotrigine tablets (25mg, 100 mg, 150 mg, and 200 mg) in the United States with an expected launch date in 2008.

Additional terms of the settlement agreement were not disclosed.

GlaxoSmithKline's Lamictal[®], which is indicated for the treatment of Bipolar Disorder and Epilepsy, had U.S. sales of approximately \$47 million in 2004 for the chewable tablets, and approximately \$825 million in 2004 for the tablets, according to IMS.

Teva Pharmaceutical Industries Ltd., headquartered in Israel, is among the top 25 pharmaceutical companies and among the largest generic pharmaceutical companies in the world. The company develops, manufactures and markets generic and innovative human pharmaceuticals and active pharmaceutical ingredients. Close to 90% of Teva's sales are in North America and Europe.

Safe Harbor Statement under the U. S. Private Securities Litigation Reform Act of 1995: This release contains forward-looking statements, which express the current beliefs and expectations of management. Such statements are based on management's current beliefs and expectations and involve a number of known and unknown risks and uncertainties that could cause Teva's future results, performance or achievements to differ significantly from the results, performance or achievements expressed or implied by such forward-looking statements. Important factors that could cause or contribute to such differences include Teva's ability to successfully develop and commercialize additional pharmaceutical products, the introduction of competitive generic products, the impact of competition from brand-name companies that sell or license their own generic products (so called "authorized generics") or successfully extend the exclusivity period of their branded products, the effects of competition on Copaxone[®] sales, including potential competition from the launch of Tysabri[®] Teva's ability to rapidly integrate the operations of acquired businesses, including its acquisition of Sicor Inc., regulatory changes that may prevent Teva from exploiting exclusivity periods, potential liability for sales of generic products prior to completion of appellate litigation, including that relating to Neurontin, the impact of pharmaceutical industry regulation and pending legislation that could affect the pharmaceutical industry, the difficulty of predicting U.S. Food and Drug Administration, European Medicines Association and other regulatory authority approvals, the regulatory environment and changes in the health policies and structure of various countries, Teva's ability to successfully identify, consummate and integrate acquisitions, exposure to product liability claims, dependence on patent and other protections for innovative products, significant operations outside the United States that may be adversely affected by terrorism or major hostilities, fluctuations in currency, exchange and interest rates, operating results and other factors that are discussed in Teva's Annual Report on Form 20-F and its other filings with the U.S. Securities and Exchange Commission. Forward-looking statements speak only as of the date on which they are made and the Company undertakes no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.
