Section 1 – Business and Operations

Item 1.01. Entry into a Material Definitive Agreement.

On August 23, 2010, Parametric Technology Corporation (“PTC”) entered into a new multi-currency bank revolving credit facility with a syndicate of ten banks for which JPMorgan Chase Bank, N.A. acts Administrative Agent. The new credit facility replaces PTC’s prior existing credit facility, which was terminated in connection with execution of the new credit facility as described in Item 1.02 below. As with the prior credit facility, PTC expects to use the new credit facility for general corporate purposes of PTC and its subsidiaries, including acquisitions of other businesses, and may also use it for working capital.

The credit facility consists of a \$300 million revolving credit facility, which may be increased by up to an additional \$150 million if the existing or additional lenders are willing to make such increased commitments (such increase may also be used, in whole or in part, for term loans). PTC is the sole borrower under the credit facility. The obligations under the credit facility are guaranteed by PTC’s material domestic subsidiaries and are secured by a pledge of 65% of the voting equity interests of PTC’s material first-tier foreign subsidiaries. Currently, the material domestic subsidiaries that are guarantors under the credit facility are Computervision LLC, Parametric Holdings Inc., Arbortext Inc., PTC International, Inc., Relex Software Corporation and PTC Netherlands LLC. PTC did not draw on the credit facility at closing.

Interest rates for the credit facility are determined at the option of PTC and would range from 1.75% to 2.25% above the Eurodollar rate for Eurodollar-based borrowings or would range from 0.75% to 1.25% above the defined base rate for base rate borrowings, in each case based upon PTC’s leverage ratio. Additionally, PTC may borrow certain foreign currencies at rates set in the same range above the respective London interbank offered interest rates for those currencies, based on PTC’s leverage ratio. A quarterly commitment fee on the undrawn portion of the credit facility is required, ranging from 0.30 to 0.40% per annum, based upon PTC’s leverage ratio. At closing of the credit facility, the applicable interest rate and commitment fee would be at the lowest rate in each range.

The credit facility limits PTC’s and its subsidiaries’ ability to, among other things: incur additional indebtedness; incur liens or guarantee obligations; pay dividends and make other distributions; make investments and enter into joint ventures; dispose of assets; and engage in transactions with affiliates, except on an arms-length basis.

Under the credit facility, PTC and its material domestic subsidiaries may not invest cash or property in, or loan to, PTC’s foreign subsidiaries in aggregate amounts exceeding \$50 million for any purpose and an additional \$75 million for acquisitions of businesses. In addition, under the credit facility, PTC and its subsidiaries must maintain the following financial ratios:

- a leverage ratio, defined as consolidated funded indebtedness to consolidated EBITDA, of no greater than 2.50 to 1.00 at any time; and
- a fixed charge coverage ratio, defined as the ratio of consolidated EBITDA to consolidated fixed charges, of no less than 1.25 to 1.00 at any time.

Any failure to comply with the financial or operating covenants of the credit facility would not only prevent PTC from being able to borrow additional funds, but would constitute a default, permitting the lenders to, among other things, accelerate the amounts outstanding, including all accrued interest and unpaid fees, under the credit facility and to terminate the credit facility.

A change in control of PTC also constitutes an event of default, permitting the lenders to accelerate the indebtedness and terminate the credit facility. A change in control would occur if:

- any person or group (within the meaning of Rules 13d-3 and 13d-5 of the Securities Exchange Act of 1934) acquires ownership or voting control of shares representing more than 40% of the aggregate ordinary voting power represented by the issued and outstanding capital stock of PTC;
- a majority of the seats on PTC's board is occupied by persons who were neither nominated by the current board of directors of PTC nor appointed by directors so nominated; or
- any "change in control" (or substantially equivalent term), as defined in any agreements entered into by PTC in connection with any indebtedness of PTC or any of its subsidiaries in excess of \$30.0 million, occurs.

The credit facility matures on August 22, 2014, when all amounts will be due and payable in full. The credit facility does not require amortization of principal and may be paid before maturity in whole or in part at PTC's option without penalty or premium.

The foregoing description of the Credit Agreement is qualified in its entirety by reference to the full text of the Credit Agreement, a copy of which is filed as Exhibit 10 hereto.

Item 1.02. Termination of a Material Definitive Agreement.

On August 23, 2010, in connection with entering into the new credit facility described in Item 1.01, PTC terminated its Credit Agreement dated February 21, 2006 by and among PTC, KeyBank National Association, Bank of America, N.A., Citizens Bank of Massachusetts, Sovereign Bank, Citicorp USA, Inc., JPMorgan Chase Bank, N.A. and Wachovia Bank, National Association. The material terms of the terminated Credit Agreement are set forth in Item 1.01 of PTC's Form 8-K filed February 27, 2006 and are incorporated herein by reference. The Credit Agreement was to mature on February 20, 2011. It could be paid before maturity in whole or in part at PTC's option without penalty or premium. No amount was outstanding under the Credit Agreement at the time of termination.
