RYDER SYSTEM, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(unaudited)

1. GENERAL

Interim Financial Statements

The accompanying unaudited Consolidated Condensed Financial Statements include the accounts of Ryder System, Inc. (Ryder) and all entities in which Ryder has a controlling voting interest (subsidiaries) and variable interest entities (VIEs) required to be consolidated in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The accompanying unaudited Consolidated Condensed Financial Statements have been prepared in accordance with the accounting policies described in our 2016 Annual Report on Form 10-K and should be read in conjunction with the Consolidated Financial Statements and notes thereto. The year-end condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement have been included and the disclosures herein are adequate. The operating results for interim periods are unaudited and are not necessarily indicative of the results that can be expected for a full year.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Derivatives and Hedging

In August 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-12, Derivatives and Hedging (Topic 815), which simplifies and clarifies the accounting and disclosure for hedging activities by more closely aligning the results of cash flow and fair value hedge accounting with the risk management activities of an entity. The amendments in this update are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018, with early adoption permitted. We do not expect this standard to have an impact on our consolidated financial position, results of operations or cash flows.

Share-Based Compensation

In May 2017, the FASB issued ASU No. 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting, which clarifies when changes to the terms or conditions of a share-based payment award must be accounted for as modifications. The amendments in this update are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017, with early adoption permitted. We will adopt the standard as of January 1, 2018, on a prospective basis. We do not expect this standard to have an impact on our consolidated financial position, results of operations or cash flows.

Employee Benefits Plans

In March 2017, the FASB issued ASU No. 2017-07, Compensation-Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which requires an employer to report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations. The standard is effective January 1, 2018, with early adoption as of January 1, 2017 permitted. We adopted the standard during the first quarter of 2017 and recorded the other components of net benefit cost within "Non-operating pension costs" in the Consolidated Condensed Statements of Earnings for both the current and prior

year periods.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

Intangibles - Goodwill and Other

In January 2017, the FASB issued ASU No. 2017-04, Simplifying the Test for Goodwill Impairment (Topic 350), which requires an entity to perform a one-step quantitative impairment test, whereby a goodwill impairment loss will be measured as the excess of a reporting unit's carrying amount over its fair value (not to exceed the total goodwill allocated to that reporting unit). It eliminates the current two-step goodwill impairment test, under which a goodwill impairment loss is measured by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. The standard is effective January 1, 2020, with early adoption as of January 1, 2017 permitted. We adopted the standard during the first quarter of 2017 and it did not have an impact on our consolidated financial position, results of operations or cash flows.

Statement of Cash Flows

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230), which clarifies how companies present and classify certain cash receipts and cash payments in the statement of cash flows. In November 2016, the FASB issued additional guidance related to the statement of cash flows, which requires companies to explain the change during the period in the total of cash, cash equivalents, and restricted cash or restricted cash equivalents. The standard is effective January 1, 2018, with early adoption permitted. We will adopt the standard as of January 1, 2018, on a retrospective basis. We do not expect this standard to have a material impact on the presentation of our consolidated cash flows.

Leases

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which sets out the principles for the recognition, measurement, presentation and disclosure of leases. The standard requires lessees to classify leases as either finance or operating leases. This classification will determine whether the related expense will be recognized based on asset amortization and interest on the obligation or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases. We do not expect the lessee requirements to have a material impact on our consolidated financial position, results of operations or cash flows.

The new standard continues to require lessors to separate the lease component from the non-lease component; however, it provides clarification on the scope of non-lease components (e.g., maintenance services). The new standard also provides more guidance on how to identify and separate the components. The lease component will be accounted for using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. The non-lease component will be accounted for in accordance with the revenue recognition guidance in ASU No. 2014-09. The adoption of the new lease standard will primarily impact our ChoiceLease product line, which includes a vehicle lease as well as maintenance and other services related to the vehicle. We will generally continue to recognize revenue for the lease portion of the product line on a straight-line basis. Revenue from maintenance services will be recognized at the time the maintenance services are performed, which will generally require the deferral of some portion of the customer's lease payments when received, as maintenance services are not performed evenly over the life of a ChoiceLease contract. We will adopt the standard effective January 1, 2019, using the modified retrospective transition method. Upon adoption, we will record a cumulative-effect adjustment to recognize deferred revenue related to the maintenance services on the opening

balance sheet for 2017 and restate all prior periods presented (2017 and 2018). We expect the cumulative-effect adjustment will have a significant impact on our consolidated financial position. We continue to evaluate the impact of adoption of this standard on our results of operations. We do not expect the adoption of this standard to have an impact on our cash flows.

Revenue Recognition

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which together with related, subsequently issued guidance, requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. In June 2017, the FASB provided further clarification on the interaction of the transition provisions of the new revenue standard and the new lease standard. We will adopt the revenue standard on January 1, 2018, using the full retrospective transition method.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

This standard will primarily impact lease revenue from our ChoiceLease product line, specifically the non-lease component (primarily maintenance services). However, based on the FASB's clarification guidance issued in June 2017, on the interaction of the transition provisions of the new revenue standard and the new lease standard, we will continue to apply the existing lease accounting guidance to our lease revenue upon adoption of the revenue standard on January 1, 2018 and will adopt the new revenue standard for the maintenance and other services components of our ChoiceLease product line effective January 1, 2019.

With respect to other revenue sources, we continue to assess the impact of the following: (1) timing of recognition of variable consideration; (2) principal versus agent considerations; and (3) accounting for costs to obtain and fulfill contracts. We do not expect the adoption of this standard as it relates to other revenue sources to have a material impact on our consolidated financial position, results of operations or cash flows.

3. ACQUISITIONS

On September 29, 2017, we completed the acquisition of Dallas Service Center, Inc., an independent truck repair facility, for a purchase price of approximately \$8.0 million, net of cash acquired, which includes \$0.8 million in contingent consideration to be paid to the seller provided certain conditions are met.

Revenue earning equipment, net includes vehicles acquired under capital leases of \$29 million, less accumulated (1) depreciation of \$14 million, at September 30, 2017, and \$43 million, less accumulated depreciation of \$22 million, at December 31, 2016.

We lease revenue earning equipment to customers for periods typically ranging from three to seven years for trucks and tractors and up to ten years for trailers. The majority of our leases are classified as operating leases. However, some of our revenue earning equipment leases are classified as direct financing leases and, to a lesser extent, sales-type leases. As of September 30, 2017 and December 31, 2016, the net investment in direct financing and sales-type leases was \$439 million and \$409 million, respectively. Our direct financing lease customers operate in a wide variety of industries, and we have no significant customer concentrations in any one industry. We assess credit risk for all of our customers including those who lease equipment under direct financing leases prior to signing a

ChoiceLease contract. For those customers who are designated as high risk, we typically require security deposits to be paid in advance in order to mitigate our credit risk. Additionally, our receivables are collateralized by the vehicles, which further mitigates our credit risk.

As of September 30, 2017 and December 31, 2016, the amount of direct financing lease receivables past due was not significant, and there were no impaired receivables. Accordingly, we do not believe there is a material risk of default with respect to the direct financing lease receivables.

Revenue earning equipment held for sale is stated at the lower of carrying amount or fair value less costs to sell. Losses on vehicles held for sale for which carrying values exceeded fair value are recognized at the time they arrive at our used truck sales centers and are presented within “Used vehicle sales, net” in the Consolidated Condensed Statements of Earnings. For revenue earning equipment held for sale, we stratify our fleet by vehicle type (trucks, tractors and trailers), weight class, age and other relevant characteristics and create classes of similar assets for analysis purposes. For a certain population of our revenue earning equipment held for sale, fair value was determined based upon recent market prices obtained from our own sales experience for sales of each class of similar assets and vehicle condition. These vehicles held for sale were classified within Level 3 of the fair value hierarchy.

The following table presents our assets held for sale that are measured at fair value on a nonrecurring basis and considered a Level 3 fair value measurement:

	September 30,		Total Losses ⁽²⁾			
			Three months ended		Nine months ended

Total assets at fair value	\$31,808	81,134	\$9,213	11,665	\$46,430	31,504

(1) Assets held for sale in the above table only include the portion of revenue earning equipment held for sale where net book values exceeded fair values and fair value adjustments were recorded. The net book value of assets held for sale which were less than fair value was \$77 million and \$76 million as of September 30, 2017 and 2016, respectively.

(2) Total losses represent fair value adjustments for all vehicles reclassified to held for sale throughout the period for which fair value was less than net book value.

(1) Amounts are net of unamortized original issue discounts of \$7 million at September 30, 2017 and December 31, 2016.

(2) Asset-backed U.S. obligations are related to financing transactions backed by a portion of our revenue earning equipment.

(3) The notional amount of the executed interest rate swaps designated as fair value hedges was \$825 million at September 30, 2017 and December 31, 2016, respectively.

We maintain a \$1.2 billion global revolving credit facility with a syndicate of twelve lending institutions led by Bank of America N.A., Bank of Tokyo-Mitsubishi UFJ, Ltd., BNP Paribas, Mizuho Corporate Bank, Ltd., Royal Bank of Canada, Lloyds Bank Plc, U.S. Bank National Association and Wells Fargo Bank, N.A. The facility expires in January 2020. The agreement provides for annual facility fees which range from 7.5 basis points to 25 basis points based on Ryder's long-term credit ratings. The annual facility fee is currently 10 basis points, which applies to the total facility size of \$1.2 billion.

The credit facility is used primarily to finance working capital but can also be used to issue up to \$75 million in letters of credit (there were no letters of credit outstanding against the facility at September 30, 2017). At our option, the interest rate on borrowings under the credit facility is based on LIBOR, prime, federal funds or local equivalent rates. The credit facility contains no provisions limiting its availability in the event of a material adverse change to Ryder's business operations; however, the credit facility does contain standard representations and warranties, events of

default, cross-default provisions and certain affirmative and negative covenants.

In order to maintain availability of funding, we must maintain a ratio of debt to consolidated net worth of less than or equal to 300%. Net worth, as defined in the credit facility, represents shareholders' equity excluding any accumulated other comprehensive income or loss associated with our pension and other postretirement plans. The ratio at September 30, 2017, was 192%. At September 30, 2017, there was \$664 million available under the credit facility.

Our global revolving credit facility enables us to refinance short-term obligations on a long-term basis. Short-term commercial paper obligations not expected to require the use of working capital are classified as long-term obligations, as we have both the intent and ability to refinance on a long-term basis. In addition, we have the intent and ability to refinance the current portion of certain long-term debt on a long-term basis. At September 30, 2017, we classified \$469 million of short-term commercial paper and \$50 million of the current portion of long-term debt as long-term debt. At December 31, 2016, we classified \$342 million of short-term commercial paper and \$350 million of the current portion of long-term debt as long-term debt.

In August 2017, we issued \$300 million of unsecured medium-term notes maturing in September 2022. In February 2017, we issued \$300 million of unsecured medium-term notes maturing in March 2022. The proceeds from these notes were used to pay off maturing debt and for general corporate purposes. If these notes are downgraded below investment grade following, or as a result of, a change in control, the note holders can require us to repurchase all or a portion of the notes at a purchase price equal to 101% of principal value plus accrued and unpaid interest.

In June 2017, we received \$98 million from financing transactions backed by a portion of our revenue earning equipment. The proceeds from these transactions were used for general corporate purposes. We have provided end of term guarantees for the residual value of the revenue earning equipment in these transactions. The transaction proceeds, along with the end of term residual value guarantees, have been included within "asset-backed U.S. obligations" in the preceding table.

We have a trade receivables purchase and sale program, pursuant to which we sell certain of our domestic trade accounts receivable to a bankruptcy remote, consolidated subsidiary of Ryder, that in turn sells, on a revolving basis, an ownership interest in certain of these accounts receivable to a committed purchaser. The subsidiary is considered a VIE and is consolidated based on our control of the entity's activities. We use this program to provide additional liquidity to fund our operations, particularly when it is cost effective to do so. The costs under the program may vary based on changes in interest rates. The available proceeds that may be received under the program are limited to \$175 million. The program was renewed in October 2017. If no event occurs which causes early termination, the 364-day program will expire on October 22, 2018. The program contains provisions restricting its availability in the event of a material adverse change to our business operations or the collectibility of the collateralized receivables. Sales of receivables under this program are accounted for as secured borrowings based on our continuing involvement in the transferred assets. No amounts were outstanding under the program at September 30, 2017 or December 31, 2016.

At September 30, 2017 and December 31, 2016, we had letters of credit and surety bonds outstanding totaling \$357 million and \$354 million, respectively, which primarily guarantee the payment of insurance claims.

The fair value of total debt (excluding capital lease and asset-backed U.S. obligations) at September 30, 2017 and December 31, 2016 was approximately \$4.89 billion and \$4.97 billion, respectively. For publicly-traded debt, estimates of fair value were based on market prices. For other debt, fair value was estimated based on a model-driven approach using rates currently available to us for debt with similar terms and remaining maturities. The fair value measurements of our publicly-traded debt and other debt were classified within Level 2 of the fair value hierarchy. The carrying amounts reported in the Consolidated Condensed Balance Sheets for "Cash and cash equivalents," "Receivables, net" and "Accounts payable" approximate fair value because of the immediate or short-term maturities of these financial instruments.

7. DERIVATIVES

From time to time, we enter into interest rate derivative contracts to manage our fixed and variable interest rate exposure and to better align the repricing of debt instruments to that of our portfolio of assets. We assess the risk that changes in interest rates will have either on the fair value of debt obligations or on the amount of future interest payments by monitoring changes in interest rate exposures and by evaluating hedging opportunities. We regularly monitor interest rate risk attributable to both our outstanding and forecasted debt obligations as well as any offsetting hedge positions. This risk management process involves the use of analytical techniques, including cash flow sensitivity analyses, to estimate the expected impact of changes in interest rates on our future cash flows.

As of September 30, 2017, we had interest rate swaps outstanding, which are designated as fair value hedges for certain debt obligations, with a total notional value of \$825 million and maturities through 2022. Interest rate swaps are measured at fair value on a recurring basis using Level 2 fair value inputs. The fair value amounts of the interest rate swaps are recorded in "Direct financing leases and other assets" and "Other non-current liabilities" in our Consolidated Condensed Balance Sheets. As of September 30, 2017, these amounts are not material to our consolidated financial position or results of operations and have not changed significantly from the amounts reported at December 31, 2016. Changes in the fair value of our interest rate swaps were offset by changes in the fair value of the hedged debt instruments. Accordingly, there was no ineffectiveness related to the interest rate swaps.

8. SHARE REPURCHASE PROGRAMS

In December 2015, our Board of Directors authorized a share repurchase program intended to mitigate the dilutive impact of shares issued under our employee stock plans (the program). Under the program, management is authorized to repurchase (i) up to 1.5 million shares of common stock, the sum of which will not exceed the number of shares issued to employees under Ryder's employee stock plans from December 1, 2015 to December 9, 2017, plus (ii) 0.5 million shares issued to employees that were not repurchased under Ryder's previous share repurchase program. The program limits aggregate share repurchases to no more than 2 million shares of Ryder common stock. Share repurchases of common stock are made periodically in open-market transactions and are subject to market conditions, legal requirements and other factors. Management may establish prearranged written plans for Ryder under Rule 10b5-1 of the Securities Exchange Act of 1934 as part of the program, which allow for share repurchases during Ryder's quarterly blackout periods as set forth in the trading plan.

During the nine months ended September 30, 2017 and September 30, 2016, we repurchased approximately 933,000 shares for \$65.9 million and 380,000 shares for \$25.7 million, respectively.

⁽¹⁾ These amounts are included in the computation of net pension expense. See Note 12, "Employee Benefit Plans," for further information.

The gain from currency translation adjustments in the nine months ended September 30, 2017 of \$71.0 million was primarily due to the strengthening of the British Pound and the Canadian Dollar against the U.S. Dollar. The loss from currency translation adjustments in the nine months ended September 30, 2016 of \$37.9 million was due to the weakening of the British Pound against the U.S. Dollar, partially offset by the strengthening of the Canadian Dollar against the U.S. Dollar.

11. SHARE-BASED COMPENSATION PLANS

Share-based incentive awards are provided to employees under the terms of various share-based compensation plans (collectively, the “Plans”). The Plans are administered by the Compensation Committee of the Board of Directors and principally include at-the-money stock options, unvested stock and cash awards. Unvested stock awards include grants of market-based, performance-based and time-vested restricted stock rights. Under the terms of our Plans, dividends are not paid unless the stock award vests. Upon vesting, the amount of the dividends paid is equal to the aggregate dividends declared on common shares during the period from the grant date of the award until the date the shares underlying the award are delivered.

The following table provides information on share-based compensation expense and income tax benefits recognized during the periods:

Net pension expense	\$18,294	12,950	\$44,201	46,968

During the nine months ended September 30, 2017, we contributed \$10.6 million to our pension plans. In 2017, the expected total contributions to our pension plans are approximately \$22 million. We also maintain other postretirement benefit plans that are not reflected in the above table. The amount of postretirement benefit expense was not material for the three or nine months ended September 30, 2017.

During the third quarter of 2017, we recorded an estimated pension settlement charge of \$5.5 million for the exit from a U.S. multi-employer pension plan. This charge was recorded within "Selling, general, and administrative expenses" in our Consolidated Condensed Statement of Earnings and is included in the Union-administered plans expense.

During the second quarter of 2016, we determined that certain pension benefit improvements made in 2009 had not been fully reflected in our projected benefit obligation. Because the amounts were not material to our consolidated financial statements in any individual period, and the cumulative amount was not material to 2016 results, we recognized a one-time, non-cash charge of \$7.7 million in "Selling, general and administrative expenses" and a \$12.8 million pre-tax increase to "Accumulated other comprehensive loss" in our second quarter 2016 consolidated condensed financial statements to correctly state the pension benefit obligation and account for these 2009 benefit improvements.

13. OTHER ITEMS IMPACTING COMPARABILITY

Our primary measure of segment performance as shown in Note 16, "Segment Reporting," excludes certain items we do not believe are representative of the ongoing operations of the segment. Excluding these items from our segment measure of performance allows for better year over year comparison:

Restructuring and other items, net	\$9,709	—	\$9,340	7,650

(1) Refer to Note 12, Employee Benefit Plans for additional information.

During the third quarter of 2017, we incurred charges of \$4.3 million related to consulting fees associated with a cost-savings program. These items were reflected within "Selling, general and administrative expenses" in our Consolidated Condensed Statement of Earnings.

During the first quarter of 2017, we determined that certain operating tax expenses related to prior periods had not been recognized in prior period earnings. We recorded a one-time charge of \$2.2 million within "Selling, general and administrative expenses" in our Consolidated Condensed Statement of Earnings as the impact of the adjustment was not material to our consolidated condensed financial statements in any individual prior period, and the cumulative amount was not material to the first quarter 2017 results.

During the second quarter of 2017, we realized restructuring credits of \$2.6 million related to the gains on sale of certain UK facilities that were closed as part of prior year restructuring activities. These items were reflected within "Miscellaneous income, net" in our Consolidated Condensed Statement of Earnings.

14. OTHER MATTERS

We are a party to various claims, complaints and proceedings arising in the ordinary course of our continuing business operations including, but not limited to, those relating to commercial and employment claims, environmental matters, risk management matters (e.g., vehicle liability, workers' compensation, etc.) and administrative assessments primarily associated with operating taxes. We have established loss provisions for matters in which losses are probable and can be reasonably estimated. We believe that the resolution of these claims, complaints and legal proceedings will not have a material effect on our consolidated condensed financial statements.

Our estimates regarding potential losses and materiality are based on our judgment and assessment of the claims utilizing currently available information. Although we will continue to reassess our reserves and estimates based on future developments, our objective assessment of the legal merits of such claims may not always be predictive of the outcome and actual results may vary from our current estimates.

16. SEGMENT REPORTING

Our operating segments are aggregated into reportable business segments based upon similar economic characteristics, products, services, customers and delivery methods. We report our financial performance in three business segments: (1) Fleet Management Solutions (FMS), which provides leasing, commercial rental and maintenance of trucks, tractors and trailers to customers principally in the U.S., Canada and the U.K.; (2) Dedicated Transportation Solutions (DTS), which provides vehicles and drivers as part of a dedicated transportation solution in the U.S.; and (3) Supply Chain Solutions (SCS), which provides comprehensive supply chain solutions including distribution and transportation services in North America and Asia. Dedicated transportation services provided as part of an integrated, multi-service, supply chain solution to SCS customers are reported in the SCS business segment.

Our primary measurement of segment financial performance, defined as segment “Earnings Before Tax” (EBT) from continuing operations, includes an allocation of Central Support Services (CSS) and excludes non-operating pension costs and restructuring and other items, net, as discussed in Note 13, "Other Items Impacting Comparability." CSS represents those costs incurred to support all business segments, including human resources, finance, corporate services, public affairs, information technology, health and safety, legal, marketing and corporate communications. The objective of the EBT measurement is to provide clarity on the profitability of each segment and, ultimately, to hold leadership of each segment accountable for their allocated share of CSS costs. Certain costs are considered to be overhead not attributable to any segment and remain unallocated in CSS. Included among the unallocated overhead remaining within CSS are the costs for investor relations, public affairs and certain executive compensation. CSS costs attributable to the business segments are predominantly allocated to FMS, DTS and SCS as follows:

- Finance, corporate services, and health and safety — allocated to each segment based upon estimated and planned resource utilization for each segment;
- Human resources — individual costs within this category are allocated under various methods, including allocation based on estimated utilization and number of personnel supported for each segment;
- Information technology — principally allocated based upon utilization-related metrics such as number of users or minutes of CPU time. Customer-related project costs and expenses are allocated to the business segment responsible for the project; and

•Other — represents legal and other centralized costs and expenses including certain share-based incentive compensation costs. Such expenses, if allocated to a segment, are based primarily on the number of personnel supported in each segment.

Our FMS segment leases revenue earning equipment and provides fuel, maintenance and other ancillary services to the DTS and SCS segments. Inter-segment revenue and EBT are accounted for at rates similar to those executed with third parties. EBT related to inter-segment equipment and services billed to DTS and SCS customers (equipment contribution) are included in both FMS and the segment that served the customer and then eliminated (presented as "Eliminations" in the table below).

The following tables set forth financial information for each of our segments and provide a reconciliation between segment EBT and earnings from continuing operations before income taxes for the three and nine months ended September 30, 2017 and 2016. Segment results are not necessarily indicative of the results of operations that would have occurred had each segment been an independent, stand-alone entity during the periods presented. Prior period Segment EBT amounts and non-operating pension costs have been reclassified to conform to the current period presentation. These reclassifications were immaterial to the financial statements taken as a whole.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the unaudited Consolidated Condensed Financial Statements and notes thereto included under Item 1. In addition, reference should be made to our audited Consolidated Financial Statements and notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 2016 Annual Report on Form 10-K.

Ryder System, Inc. (Ryder) is a global leader in transportation and supply chain management solutions. We report our financial performance based on three segments: (1) Fleet Management Solutions (FMS), which provides leasing, commercial rental, and maintenance of trucks, tractors and trailers to customers principally in the U.S., Canada and the U.K.; (2) Dedicated Transportation Solutions (DTS), which provides vehicles and drivers as part of a dedicated transportation solution in the U.S.; and (3) Supply Chain Solutions (SCS), which provides comprehensive supply chain solutions including distribution and transportation services in North America and Asia. Dedicated transportation services provided as part of an integrated, multi-service, supply chain solution to SCS customers are reported in the SCS business segment.

We operate in highly competitive markets. Our customers select us based on numerous factors including service quality, price, technology and service offerings. As an alternative to using our services, customers may choose to provide these services for themselves, or may choose to obtain similar or alternative services from other third-party vendors. Our customer base includes enterprises operating in a variety of industries including automotive, industrial, food and beverage service, consumer packaged goods (CPG), transportation and warehousing, technology and healthcare, retail, housing, business and personal services, and paper and publishing.

In 2016, we expanded our full service lease product line to provide lease customers additional flexibility, choice and control in fleet management, and we renamed this lease product line "ChoiceLease." Our ChoiceLease product line allows customers to select the level of maintenance they prefer in their leases, from full service or total bumper-to-bumper coverage to on demand or pay-as-you-go maintenance. We also combined our historical contract maintenance and our contract-related maintenance product offerings into a new product line "SelectCare." Our SelectCare product line allows customers to select the level of maintenance to keep their fleet running properly, as well as the option to choose where they want their service delivered. Beginning in 2017, FMS is using these new product names in its reporting.

This MD&A includes certain non-GAAP financial measures. Please refer to the "Non-GAAP Financial Measures" section of this MD&A for information on the non-GAAP measures included in the MD&A, reconciliations to the most comparable GAAP financial measure and the reasons why we believe each measure is useful to investors.

Total revenue and operating revenue (a non-GAAP measure excluding fuel and subcontracted transportation) increased 7% and 4%, respectively, in the third quarter of 2017. For the nine months ended September 30, 2017, total revenue and operating revenue increased 7% and 3%, respectively. Total revenue in both periods increased due to higher operating revenue and increased subcontracted transportation passed through to customers, reflecting new business and higher volumes, as well as higher fuel costs passed through to customers. Operating revenue in both periods increased due to higher revenue in the SCS business segment and higher contractual ChoiceLease revenue. Operating revenue growth was partially offset by lower commercial rental revenue in the nine months ended September 30, 2017.

EBT decreased 28% in the third quarter of 2017, reflecting lower year over year operating results in all segments, a \$5.5 million estimated pension settlement charge for the exit from a U.S. multi-employer pension plan and \$4.3 million related to consulting fees associated with a cost-savings program. In FMS, EBT decreased in the third quarter due to accelerated depreciation of \$4 million on vehicles expected to be made available for sale through June 2018 and more normalized maintenance spending associated with vehicles being prepared for sale, as well as increased overhead spending, primarily due to the timing of incentive compensation and higher sales and marketing expense. DTS EBT decreased in the third quarter due to higher insurance premiums, higher maintenance costs on certain older model year vehicles and the impact of one less work day. SCS EBT decreased in the third quarter primarily due to the

operating performance of two customer accounts, including a particularly challenging start-up, and higher overhead spending, primarily for planned investments in information technology and sales. The net impact of hurricanes was neutral in the third quarter of 2017, as hurricane-related increases in commercial rental demand were offset by property losses.

EBT decreased 30% in the nine months ended September 30, 2017, primarily reflecting lower used vehicle sales and commercial rental results, as well as accelerated depreciation of \$21 million, a \$5.5 million estimated pension settlement charge, \$4.3 million related to consulting fees associated with a cost-savings program and a particularly challenging start-up during the third quarter in the SCS segment.

	2017	2016	2017	2016	Three Months	Nine Months

Gross margin %	28	% 31	% 27	% 30	%	%

Lease and rental revenues represent revenue from our ChoiceLease and commercial rental product offerings within our FMS segment. Revenues increased 3% to \$823 million in the third quarter and 1% to \$2.39 billion in the nine months ended September 30, 2017, driven by growth in the ChoiceLease fleet and higher prices on replacement vehicles in the ChoiceLease product offering. In the nine months ended September 30, 2017, ChoiceLease revenue growth was partially offset by lower commercial rental revenue reflecting lower demand.

Cost of lease and rental represents the direct costs related to lease and rental revenues. These costs consist of depreciation of revenue earning equipment, maintenance costs (primarily repair parts and labor), and other costs such as licenses, insurance and operating taxes. Cost of lease and rental excludes interest costs from vehicle financing. Cost of lease and rental increased 6% in the third quarter and 5% in the nine months ended September 30, 2017, primarily due to higher depreciation and maintenance costs from a larger average lease fleet and normalized maintenance spending associated with vehicles being prepared for sale. During the nine months ended, cost of lease and rental also increased due to higher maintenance costs on certain older model year vehicles. Cost of lease and rental was also impacted by accelerated depreciation on vehicles expected to be made available for sale through June 2018 of \$4 million in the third quarter and \$21 million in the nine months ended September 30, 2017. These increases were partially offset by lower depreciation on a smaller average rental fleet. Cost of lease and rental also increased \$1 million in the third quarter of 2017 and \$3 million in the nine months ended September 30, 2017, due to changes in estimated residual values effective January 1, 2017.

Lease and rental gross margin decreased 4% in the third quarter and 9% in the nine months ended September 30, 2017. Lease and rental gross margin as a percentage of revenue decreased to 28% in the third quarter and to 27% in the nine months ended September 30, 2017. The decrease in gross margin dollars and as a percentage of revenue in the third quarter was due to accelerated depreciation on vehicles expected to be made available for sale through June 2018 and more normalized maintenance spending associated with vehicles being prepared for sale. The decrease in gross margin dollars in the nine months ended September 30, 2017, was due to lower commercial rental demand, higher maintenance costs and accelerated depreciation. The decrease in gross margin dollars and as a percentage of revenue in the nine months ended September 30, 2017, was primarily due to higher maintenance costs and accelerated depreciation.

Services revenue represents all the revenues associated with our DTS and SCS segments, as well as SelectCare and fleet support services associated with our FMS segment. Services revenue increased 12% in the third quarter, primarily due to new business in the SCS and DTS segments. Services revenue increased 12% in the nine months ended September 30, 2017, primarily due to new business and increased volumes in the SCS and DTS segments. Services revenue also benefited from higher fuel costs passed through to our customers in both the three and nine months ended September 30, 2017.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Cost of services represents the direct costs related to services revenue and is primarily comprised of salaries and employee-related costs, subcontracted transportation (purchased transportation from third parties), fuel, vehicle liability costs and maintenance costs. Cost of services increased 16% in the third quarter and 14% in the nine months ended September 30, 2017, primarily due to higher volumes in SCS and SelectCare and higher fuel costs in SCS and DTS. Cost of services also increased in both periods due to higher costs incurred during the start-up phase on certain new SCS contracts and higher vehicle maintenance costs on certain older model year vehicles in DTS.

Services gross margin decreased 5% in the third quarter of 2017 and remained unchanged in the nine months ended September 30, 2017. Services gross margin as a percentage of revenue decreased to 15% in the third quarter and to 16% in the nine months ended September 30, 2017. The decrease in gross margin dollars and as a percentage of revenue in the third quarter and nine months ended, reflects lower operating performance on certain SCS contracts, including a particularly challenging start-up during the third quarter, as well as increased maintenance costs on certain older model year vehicles in DTS.

Fuel services revenue represents fuel services provided to our FMS customers. Fuel services revenue increased 7% in the third quarter of 2017 and 12% in the nine months ended September 30, 2017, primarily due to higher fuel costs passed through to customers.

Cost of fuel services includes the direct costs associated with providing our customers with fuel. These costs include fuel, salaries and employee-related costs of fuel island attendants and depreciation of our fueling facilities and equipment. Cost of fuel services increased 7% in the third quarter and 12% in the nine months ended September 30, 2017, as a result of higher fuel costs.

Fuel services gross margin increased 29% in the third quarter and decreased 5% in the nine months ended September 30, 2017. Fuel services gross margin as a percentage of revenue increased to 4% in the third quarter and remained at 3% in the nine months ended September 30, 2017, compared to the same periods of 2016. Fuel is largely a pass-through to customers for which we realize minimal changes in margin during periods of steady market fuel prices. However, fuel services margin is impacted by sudden increases or decreases in market fuel prices during a short period of time, as customer pricing for fuel is established based on trailing market fuel costs.

These facilities are utilized to provide maintenance to our ChoiceLease, commercial rental, and SelectCare customers. Other operating expenses increased slightly to \$28.4 million in the third quarter and to \$87.1 million in the nine months ended September 30, 2017.

SG&A expenses in the third quarter of 2017 increased 13% and as a percentage of total revenue increased to 12% driven by an estimated pension settlement charge for the exit from a U.S. multi-employer pension plan of \$5.5 million during the quarter as well as higher compensation-related costs, professional fees, including consulting fees associated with a cost-savings program, and information technology costs. SG&A expenses in the nine months ended September 30, 2017, increased 3% primarily due to the estimated pension settlement charge, higher information technology costs and professional fees. SG&A expenses as a percentage of total revenue remained at 12% in the nine months ended September 30, 2017 compared to the same period in 2016.

Non-operating pension costs includes the components of our net periodic benefit cost other than service cost. These components include interest cost, expected return on plan assets, amortization of actuarial loss and prior service cost. Non-operating pension costs decreased \$0.5 million in the third quarter and \$8.8 million in the nine months ended September 30, 2017, from the respective prior year periods. The year-to-date decrease is primarily due to a one-time charge of \$7.7 million in the second quarter of 2016 to fully reflect pension benefit improvements made in 2009 in our pension benefit obligation.

Used vehicle sales, net increased to a gain of \$2.7 million in the third quarter of 2017 and decreased to a loss of \$11.8 million in the nine months ended September 30, 2017. The quarterly increase is driven by lower fair market value write-downs on vehicles held for sale, partially offset by

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

lower tractor and truck proceeds per unit resulting in lower gains on sales. For the nine months ended September 30, 2017, used vehicle sales results have been impacted primarily by a sharp drop in the market value of tractors and trucks, which resulted in lower gains on sales and greater fair market value write-downs on vehicles held for sale. The following table presents the used vehicle pricing changes for the three and nine months ended September 30, 2017.

Interest expense decreased 7% in the third quarter of 2017 and in the nine months ended September 30, 2017, reflecting lower average outstanding debt and a lower effective interest rate. The decrease in average outstanding debt reflects lower planned vehicle capital spending. The lower effective interest rate in 2017 reflects the replacement of higher interest rate debt with debt issuances at lower rates.

Provision for income taxes decreased 24% in the third quarter of 2017 and 29% in the nine months ended September 30, 2017. The decrease in the provision for income taxes reflects lower taxable earnings, partially offset by a higher effective tax rate primarily due to a state tax law change in the third quarter.

Non-GAAP financial measure. Refer to the "Non-GAAP Financial Measures" section of this MD&A for a (1)reconciliation of total revenue to operating revenue, and segment total revenue to segment operating revenue for FMS, DTS and SCS, as well as the reasons why management believes these measures are important to investors.

As part of management's evaluation of segment operating performance, we define the primary measurement of our segment financial performance as "Earnings Before Taxes" (EBT) from continuing operations, which includes an allocation of Central Support Services (CSS), and excludes non-operating pension costs and restructuring and other items, net discussed in Note 16, "Segment Reporting," in the Notes to Consolidated Condensed Financial Statements. CSS represents those costs incurred to support all segments, including human resources, finance, corporate services and public affairs, information technology, health and safety, legal, marketing and corporate communications.

The objective of the EBT measurement is to provide clarity on the profitability of each segment and, ultimately, to hold leadership of each segment accountable for their allocated share of CSS costs. Segment results are not necessarily indicative of the results of operations that would have occurred had each segment been an independent, stand-alone entity during the periods presented. Certain costs are not attributable to any segment and remain

unallocated in CSS, including costs for investor relations, public affairs and certain executive compensation.

Inter-segment revenue and EBT are accounted for at rates similar to those executed with third parties. EBT related to inter-segment equipment and services billed to DTS and SCS customers (equipment contribution) are included in both FMS and the segment that served the customer and then eliminated (presented as "Eliminations" in the table above). Prior year amounts have been reclassified to conform to the current period presentation.

Total ⁽¹⁾	\$14,464	12,606	\$38,053	37,116	15 %	3 %

(1) Total amount is included in FMS EBT.

DTS equipment contribution increased slightly in the third quarter and decreased in the nine months ended September 30, 2017. The decrease in the nine months ended is primarily driven by higher maintenance costs on an older vehicle fleet used in DTS operations. The increase in SCS equipment contribution in the third quarter and in the nine months ended is primarily driven by increased volumes.

The following table sets forth items excluded from our segment EBT measure and their classification within our Consolidated Condensed Statements of Earnings:

Non-GAAP financial measure. A reconciliation of FMS total revenue to FMS operating revenue as well as the (1) reasons why management believes this measure is important to investors is included in the "Non-GAAP Financial Measures" section of this MD&A.

FMS total revenue increased to \$1.20 billion in the third quarter of 2017, due to higher FMS operating revenue (a non-GAAP measure excluding fuel) and fuel services revenue. FMS total revenue increased to \$3.49 billion in the nine months ended September 30, 2017, due to higher fuel services revenue and FMS operating revenue, partially offset by negative impacts from foreign exchange. FMS operating revenue grew in both periods as a result of organic growth, primarily in the ChoiceLease product line. In the nine months ended September 30, 2017, FMS operating revenue growth was partially offset by lower commercial rental revenue and negative impacts from foreign exchange. Foreign exchange negatively impacted both total revenue and operating revenue growth by 100 basis points in the nine months ended September 30, 2017.

ChoiceLease revenue increased 4% in both the third quarter and the nine months ended September 30, 2017, reflecting a larger average fleet size and higher prices on replacement vehicles. Foreign exchange negatively impacted ChoiceLease revenue growth by 100 basis points in the nine months ended September 30, 2017. We expect favorable ChoiceLease revenue comparisons to continue through the end of the year based on sales activity. SelectCare revenue increased 3% in the third quarter and 2% in the nine months ended September 30, 2017, due to new business and increased volumes, partially offset by negative impacts from foreign exchange year-to-date. Commercial rental revenue was unchanged in the third quarter and decreased 7% in the nine months ended September 30, 2017, due to lower demand. We expect favorable commercial rental revenue comparisons in the fourth quarter given the current rental demand environment.

⁽³⁾ Excluding trailers.

FMS EBT decreased 11% in the third quarter of 2017, reflecting impacts to ChoiceLease and commercial rental gross margin from accelerated depreciation of \$4 million on vehicles expected to be made available for sale through June 2018, and more normalized maintenance spending associated with vehicles being prepared for sale. FMS EBT was also impacted by higher overhead spending due to the timing of incentive compensation and higher sales and marketing expense. These items were partially offset by improved performance across all product lines. Commercial rental performance improved due to higher pricing and a 130 basis point improvement in utilization, reflecting fleet right-sizing actions taken earlier in the year. Used vehicle results improved modestly due to lower fair market value write-downs on vehicles held for sale, partially offset by lower proceeds per unit.

FMS EBT decreased 28% in the nine months ended September 30, 2017, due to lower used vehicle sales and commercial rental results, as well as \$21 million of accelerated depreciation on vehicles expected to be made available for sale through June 2018 and higher maintenance costs, partially offset by improved SelectCare results. Used vehicle sales results decreased year-to-date due to lower pricing, which resulted in lower gains on sales and greater fair market value write-downs on vehicles held for sale. Commercial rental results declined year-to-date from lower demand. ChoiceLease and commercial rental results were negatively impacted by \$1 million of higher depreciation in the third quarter and \$3 million in the nine months ended September 30, 2017, due to residual value changes implemented January 1, 2017.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table provides a breakdown of our non-revenue earning equipment included in our global fleet count (number of units rounded to nearest hundred):

	September 30, 2017	December 31, 2016	September 30, 2016	Change	
				Sept. 2017/ 2016	Sept. 2017/ Dec. 2016
Not yet earning revenue (NYE)	2,100	1,700	1,900	24 %	11 %
No longer earning revenue (NLE):					
Units held for sale	6,300	7,500	7,500	(16)	(16)
Other NLE units	3,900	4,400	5,000	(11)	(22)
Total	12,300	13,600	14,400	(10)%	(15)%

NYE units represent new vehicles on hand that are being prepared for deployment to a lease customer or into the rental fleet. Preparations include activities such as adding lift gates, paint, decals, cargo area and refrigeration equipment. NLE units represent vehicles held for sale and vehicles for which no revenue has been earned in the previous 30 days. Accordingly, these vehicles may be temporarily out of service, being prepared for sale or awaiting redeployment. NLE units decreased compared to September 30, 2016, reflecting lower used vehicle inventories, which are at the midpoint of our target range, and a lower number of units being prepared for sale. We expect NLE levels to decline through the end of the year.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table summarizes the components of the change in DTS revenue on a percentage basis versus the prior year:

	Three months ended September 30, 2017		Nine months ended September 30, 2017

Non-GAAP financial measure. A reconciliation of DTS total revenue to DTS operating revenue, as well as the (1) reasons why management believes this measure is important to investors is included in the "Non-GAAP Financial Measures" section of this MD&A.

In the third quarter of 2017, DTS total revenue and operating revenue (a non-GAAP measure excluding fuel and subcontracted transportation) increased 4% and 1%, respectively, primarily due to new business, partially offset by one less work day in the quarter. DTS EBT decreased 22% in the third quarter of 2017, primarily due to higher insurance premiums, higher vehicle maintenance costs on certain older model year vehicles and the impact of one less work day.

In the nine months ended September 30, 2017, DTS total and operating revenue increased 6% and 2%, respectively, due to new business and higher pricing. We expect DTS total revenue comparisons for the remainder of the year to be consistent with the prior year and DTS operating revenue comparisons to remain favorable through the end of the year. DTS EBT decreased 17% in the nine months ended September 30, 2017, primarily due to higher maintenance costs on certain older model year vehicles and higher insurance costs during the first half of the year.

Non-GAAP financial measure. A reconciliation of SCS total revenue to SCS operating revenue, as well as the (1) reasons why management believes this measure is important to investors is included in the "Non-GAAP Financial Measures" section of this MD&A.

In the third quarter of 2017, SCS total revenue increased 19%, and SCS operating revenue (a non-GAAP measure excluding fuel and subcontracted transportation) increased 9%, primarily reflecting new business. SCS EBT decreased 29% in the third quarter of 2017, primarily related to the performance of two customer accounts, including a particularly challenging start-up. Additionally, results were impacted by higher overhead spending, primarily due to planned investments in information technology and sales.

In the nine months ended September 30, 2017, SCS total revenue increased 18%, reflecting organic growth. SCS operating revenue increased 10% due to new business, increased volumes and higher pricing. We expect SCS total revenue and SCS operating revenue comparisons to remain favorable through the end of the year. SCS EBT decreased 5% in the nine months ended September 30, 2017, primarily related to a particularly challenging start-up in the third quarter, higher costs incurred during the start-up phase of certain new accounts in the first half of the year, as well as planned investments in information technology and sales and higher compensation-related costs.

FINANCIAL RESOURCES AND LIQUIDITY

Cash Flows

The following is a summary of our cash flows from continuing operations:

	Nine months ended September 30, 2017 2016 (In thousands)	
Net cash (used in) provided by:		
Operating activities	\$1,166,191	1,185,062
Financing activities	(191,255)	(55,554)
Investing activities	(962,191)	(1,108,584)
Effect of exchange rates on cash	(5,226)	(5,567)
Net change in cash and cash equivalents	\$7,519	15,357

Cash provided by operating activities decreased to \$1.17 billion in the nine months ended September 30, 2017, compared with \$1.19 billion in 2016, primarily due to lower earnings adjusted for non-cash items. Cash used in financing activities was \$191 million in the nine months ended September 30, 2017, compared with \$56 million in 2016, due to lower borrowing needs from lower capital spending. Cash used in investing activities decreased to \$962 million in the nine months ended September 30, 2017, compared with \$1.11 billion in 2016, primarily due to lower payments for capital expenditures.

The following table shows our free cash flow computation:

	Nine months ended September 30, 2017 2016 (In thousands)	
Net cash provided by operating activities from continuing operations	\$1,166,191	1,185,062
Sales of revenue earning equipment ⁽¹⁾	289,432	331,720
Sales of operating property and equipment ⁽¹⁾	12,541	6,623
Collections on direct finance leases and other items ⁽¹⁾	54,227	60,229
Total cash generated ⁽²⁾	1,522,391	1,583,634
Purchases of property and revenue earning equipment ⁽¹⁾	(1,312,845)	(1,511,359)

Non-GAAP financial measures. Reconciliations of net cash provided by operating activities to total cash generated (2) and to free cash flow are set forth in this table. Refer to the "Non-GAAP Financial Measures" section of this MD&A for the reasons why management believes these measures are important to investors.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table provides a summary of capital expenditures:

	Nine months ended September 30,	
	2017	2016
	(In thousands)	
Revenue earning equipment:		
ChoiceLease	\$985,541	1,223,141
Commercial rental	295,638	79,204
	1,281,179	1,302,345
Operating property and equipment	94,850	101,837
Total capital expenditures	1,376,029	1,404,182
Changes in accounts payable related to purchases of revenue earning equipment	(63,184)	107,177
Cash paid for purchases of property and revenue earning equipment	\$1,312,845	1,511,359

Capital expenditures in the nine months ended September 30, 2017 of \$1.38 billion, were largely unchanged from the prior year, reflecting greater use of redeployed vehicles to fulfill new ChoiceLease contracts. Lower ChoiceLease spending was offset by higher planned investments to refresh our commercial rental fleet. We expect full-year 2017 capital expenditures to be approximately \$1.9 billion. We expect to fund 2017 capital expenditures primarily with internally generated funds and additional debt financing.

Financing and Other Funding Transactions

We utilize external capital primarily to support working capital needs and growth in our asset-based product lines. The variety of debt financing alternatives typically available to fund our capital needs include commercial paper, long-term and medium-term public and private debt, asset-backed securities, bank term loans, leasing arrangements and bank credit facilities. Our principal sources of financing are issuances of commercial paper and medium-term public debt.

Our ability to access unsecured debt in the capital markets is impacted by both our short-term and long-term debt ratings. These ratings are intended to provide guidance to investors in determining the credit risk associated with particular Ryder securities based on current information obtained by the rating agencies from us or from other sources. Lower ratings generally result in higher borrowing costs, as well as reduced access to unsecured capital markets. A significant downgrade of our short-term debt ratings would impair our ability to issue commercial paper and likely require us to rely on alternative funding sources. A significant downgrade would not affect our ability to borrow amounts under our revolving credit facility, described below and above in Note 6, "Debt," to Consolidated Condensed Financial Statements, assuming ongoing compliance with the terms and conditions of the credit facility.

Our debt ratings and rating outlooks at September 30, 2017, were as follows:

	Rating Summary		
	Short-Term	Long-Term	Outlook
Fitch Ratings	F-2	A-	Stable
Standard & Poor's Ratings Services	A-2	BBB+	Stable
Moody's Investors Service	P-2	Baa1	Stable

Cash and cash equivalents totaled \$65 million as of September 30, 2017. As of September 30, 2017, approximately \$29 million was held outside the U.S. and is available to fund operations and other growth of non-U.S. subsidiaries. If we decide to repatriate cash and cash equivalents held outside the U.S., we may be subject to additional U.S. income

taxes and foreign withholding taxes. However, our intent is to permanently reinvest these foreign amounts outside the U.S. and our current plans do not demonstrate a need to repatriate these foreign amounts to fund our U.S. operations.

We believe that our operating cash flows, together with our access to the public unsecured bond market, commercial paper market and other available debt financing, will be adequate to meet our operating, investing and financing needs in the foreseeable future. However, there can be no assurance that unanticipated volatility and disruption in the public unsecured debt market or the commercial paper market would not impair our ability to access these markets on terms commercially acceptable to us or at all. If we cease to have access to public bonds, commercial paper and other sources of unsecured borrowings, we would meet our liquidity needs by drawing upon contractually committed lending agreements as described below and/or by seeking other funding sources.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

As of September 30, 2017, we had the following amounts available to fund operations under the following facilities:

	(In millions)
Global revolving credit facility	\$664
Trade receivables program	\$175

See Note 6, "Debt", in the Notes to Consolidated Condensed Financial Statements for a discussion of these debt facilities.

The following table shows the movements in our debt balance:

	Nine months ended September 30,	
	2017	2016
	(In thousands)	
Debt balance at January 1	\$5,391,274	5,502,627
Cash-related changes in debt:		
Net change in commercial paper borrowings	2,153	73,597
Proceeds from issuance of medium-term notes	595,785	298,254
Proceeds from issuance of other debt instruments	277,517	—
Retirement of medium term notes	(700,000)	(300,000)
Other debt repaid	(238,160)	(40,707)
Debt issuance costs paid	(1,379)	(622)
	(64,084)	30,522
Non-cash changes in debt:		
Fair value adjustment on notes subject to hedging	(3,168)	8,960
Addition of capital lease obligations	6,209	948
Changes in foreign currency exchange rates and other non-cash items	18,995	(23,416)
Total changes in debt	(42,048)	17,014
Debt balance at September 30	\$5,349,226	5,519,641

In accordance with our funding philosophy, we attempt to align the aggregate average remaining re-pricing life of our debt with the aggregate average remaining re-pricing life of our assets. We utilize both fixed-rate and variable-rate debt to achieve this alignment and generally target a mix of 20% - 40% variable-rate debt as a percentage of total debt outstanding. The variable-rate portion of our total debt (including notional value of swap agreements) was 30% as of September 30, 2017 and December 31, 2016.

Refer to Note 6, "Debt," in the Notes to Consolidated Condensed Financial Statements for further discussion around the global revolving credit facility, the trade receivables program, the issuance of medium-term notes, asset-backed financing obligations and debt maturities.

Ryder's debt to equity ratios were 246% and 263% as of September 30, 2017 and December 31, 2016, respectively. The debt to equity ratio represents total debt divided by total equity. The Company's target debt to equity ratio is 250% to 300%.

Pension Information

The funded status of our pension plans is dependent upon many factors, including returns on invested assets and the level of certain market interest rates. We review pension assumptions regularly and may, from time to time, make voluntary contributions to our pension plans, which exceed the amounts required by statute. In 2017, the expected total contributions to our pension plans are approximately \$22 million. During the nine months ended September 30, 2017, we contributed \$10.6 million to our pension plans. Changes in interest rates and the market value of the securities held by the plans during 2017 could materially change, positively or negatively, the funded status of the plans and affect the level of pension expense and contributions in 2017 and beyond. See Note 12, "Employee Benefit Plans," in the Notes to Consolidated Condensed Financial Statements for additional information.

Share Repurchases and Cash Dividends

See Note 8, “Share Repurchase Programs,” in the Notes to Consolidated Condensed Financial Statements for a discussion of share repurchases.

In October 2017, our Board of Directors declared a quarterly cash dividend of \$0.46 per common share of common stock.

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2, “Recent Accounting Pronouncements,” in the Notes to Consolidated Condensed Financial Statements for a discussion of recent accounting pronouncements.

NON-GAAP FINANCIAL MEASURES

This Quarterly Report on Form 10-Q includes information extracted from consolidated condensed financial information but not required by generally accepted accounting principles in the United States of America (U.S. GAAP) to be presented in the financial statements. Certain elements of this information are considered “non-GAAP financial measures” as defined by SEC rules. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, other measures of financial performance or liquidity prepared in accordance with U.S. GAAP. Also, our non-GAAP financial measures may not be comparable to financial measures used by other companies. We provide a reconciliation of each of these non-GAAP financial measures to the most comparable U.S. GAAP measure in this non-GAAP financial measures section. We also provide the reasons why management believes each non-GAAP financial measure is useful to investors in this section.

Specifically, we refer to the following non-GAAP financial measures in this Form 10-Q:

Non-GAAP Financial Measure	Comparable U.S. GAAP Measure
Operating Revenue Measures:	
Operating Revenue	Total Revenue
FMS Operating Revenue	FMS Total Revenue
DTS Operating Revenue	DTS Total Revenue
SCS Operating Revenue	SCS Total Revenue
FMS EBT as a % of FMS Operating Revenue	FMS EBT as a % of FMS Total Revenue
DTS EBT as a % of DTS Operating Revenue	DTS EBT as a % of DTS Total Revenue
SCS EBT as a % of SCS Operating Revenue	SCS EBT as a % of SCS Total Revenue
Comparable Earnings Measures:	
Comparable Earnings Before Tax	Earnings Before Tax
Comparable Earnings	Earnings from Continuing Operations
Comparable EPS	EPS from Continuing Operations
Cash Flow Measures:	
Total Cash Generated and Free Cash Flow	Cash Provided by Operating Activities

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Set forth in the table below is an explanation of each non-GAAP financial measure and why management believes that presentation of each non-GAAP financial measure provides useful information to investors:

Operating Revenue Measures:

Operating Revenue	Operating
FMS Operating Revenue	revenue is
DTS Operating Revenue	defined as total
SCS Operating Revenue	revenue for
FMS EBT as a % of FMS Operating Revenue	Ryder System,
DTS EBT as a % of DTS Operating Revenue	Inc. or each
SCS EBT as a % of SCS Operating Revenue	business
	segment (FMS,
	DTS and SCS),
	respectively,
	excluding any
	(1) fuel and (2)
	subcontracted
	transportation.
	We believe
	operating
	revenue
	provides useful
	information to
	investors as we
	use it to
	evaluate the
	operating
	performance of
	our core
	businesses and
	as a measure of
	sales activity at
	the consolidated
	level for Ryder
	System, Inc., as
	well as for each
	of our business
	segments. We
	also use
	segment EBT as
	a percentage of
	segment
	operating
	revenue for
	each business
	segment for the
	same reason.

Note: FMS
EBT, DTS EBT
and SCS EBT,
our primary
measures of
segment
performance,
are not
non-GAAP
measures.

Fuel: We
exclude FMS,
DTS and SCS
fuel from the
calculation of
our operating
revenue
measures, as
fuel is an
ancillary
service that we
provide our
customers,
which is
impacted by
fluctuations in
market fuel
prices, and the
costs are largely
a pass-through
to our
customers,
resulting in
minimal
changes in our
profitability
during periods
of steady
market fuel
prices.
However,
profitability
may be
positively or
negatively
impacted by
rapid changes in
market fuel
prices during a
short period of
time, as

customer pricing for fuel services is established based on trailing market fuel costs. Subcontracted transportation: We also exclude subcontracted transportation from the calculation of our operating revenue measures, as these services are also typically a pass-through to our customers and, therefore, fluctuations result in minimal changes to our profitability. While our DTS and SCS business segments subcontract certain transportation services to third party providers, our FMS business segment does not engage in subcontracted transportation and, therefore, this item is not applicable to FMS.

Comparable Earnings Measures:
Comparable earnings before tax (EBT)
Comparable Earnings

Comparable
EBT,

Comparable earnings per diluted common share (EPS) comparable earnings and comparable EPS are defined, respectively, as GAAP EBT, earnings and EPS, all from continuing operations, excluding (1) non-operating pension costs and (2) any other significant items that are not representative of our business operations. We believe these comparable earnings measures provide useful information to investors and allow for better year-over-year comparison of operating performance.

Non-Operating Pension Costs:
Our comparable earnings measures exclude non-operating pension costs, which include the amortization of net actuarial loss and prior service cost, interest cost and expected return on plan assets components of pension and

postretirement benefit costs. We exclude non-operating pension costs because we consider these to be impacted by financial market performance and outside the operational performance of our business. Other Significant Items: Our comparable earnings measures also exclude other significant items that are not representative of our business operations. These other significant items vary from period to period and, in some periods, there may be no such significant items. In the three and nine month periods ended September 30, 2017, we exclude the following other significant items from our comparable earnings measures in this Form 10-Q:

(1) Fees related to cost-savings program: In the third quarter of 2017, we recorded consulting fees associated with a cost-savings program.

(2) Pension settlement charge: In the third quarter of 2017, we recorded an estimated pension settlement charge for the exit from a U.S. multi-employer pension plan.

(3) Tax law change - rate increase: In the third quarter of 2017, the state of Illinois enacted changes to their tax system, which increased the provision for income taxes by \$1.8 million.

(4) Restructuring: In the second quarter of 2017, we recorded restructuring credits related to the gains on sale of certain UK facilities.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

(5) Operating tax adjustment: In the first quarter of 2017, we recorded a one-time charge of \$2.2 million related to operating tax expenses that had not been recognized in prior period earnings.

(6) Pension-related adjustments: In the second quarter of 2016, it was determined that certain pension benefit improvements made in 2009 were not fully reflected in our projected benefit obligation, resulting in a charge to reflect those pension benefits. Calculation of comparable tax rate: The comparable provision for income taxes is computed using the same methodology as the GAAP

provision for
income taxes.
Income tax
effects of
non-GAAP
adjustments
are calculated
based on the
statutory tax
rates of the
jurisdictions to
which the
non-GAAP
adjustments
relate.

Cash Flow Measures:

Total Cash Generated We consider
Free Cash Flow total cash
generated and
free cash flow
to be important
measures of
comparative
operating
performance,
as our principal
sources of
operating
liquidity are
cash from
operations and
proceeds from
the sale of
revenue
earning
equipment.
Total Cash
Generated:
Total cash
generated is
defined as the
sum of (1) net
cash provided
by operating
activities, (2)
net cash
provided by
the sale of
revenue
earning
equipment, (3)

net cash provided by the sale of operating property and equipment, (4) collections on direct finance leases and (5) other cash inflows from investing activities. We believe total cash generated is an important measure of total cash flows generated from our ongoing business activities.

Free Cash Flow: We refer to the net amount of cash generated from operating activities and investing activities (excluding changes in restricted cash and acquisitions) from continuing operations as “free cash flow”.

We calculate free cash flow as the sum of (1) net cash provided by operating activities, (2) net cash provided by the sale of

revenue
earning
equipment, (3)
net cash
provided by
the sale of
operating
property and
equipment, (4)
collections on
direct finance
leases and (5)
other cash
inflows from
investing
activities, less
(6) purchases
of property and
revenue
earning
equipment. We
believe free
cash flow
provides
investors with
an important
perspective on
the cash
available for
debt service
and for
shareholders,
after making
capital
investments
required to
support
ongoing
business
operations.
Our calculation
of free cash
flow may be
different from
the calculation
used by other
companies
and, therefore,
comparability
may be
limited.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table provides a reconciliation of U.S. GAAP earnings before taxes (EBT), earnings, and earnings per diluted share (EPS) from continuing operations to comparable EBT, comparable earnings and comparable EPS from continuing operations, which was not provided within the MD&A discussion.

EBT, earnings and diluted EPS from continuing operations in the three and nine months ended September 30, 2017 and 2016, included certain items we do not consider indicative of our business operations and have been excluded from our comparable EBT, comparable earnings and comparable diluted EPS measures. The following table lists a summary of these items, which are discussed in more detail throughout our MD&A and within the Notes to Consolidated Condensed Financial Statements:

	EBT		Earnings		Diluted EPS

Comparable provision for income taxes ⁽¹⁾	\$(40,190)	(49,583)	\$(97,127)	(133,819)

The comparable provision for income taxes is computed using the same methodology as the GAAP provision of (1) income taxes. Income tax effects of non-GAAP adjustments are calculated based on statutory tax rates of the jurisdictions to which the non-GAAP adjustments related.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

FORWARD-LOOKING STATEMENTS

Forward-looking statements (within the meaning of the Federal Private Securities Litigation Reform Act of 1995) are statements that relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends concerning matters that are not historical facts. These statements are often preceded by or include the words "believe," "expect," "intend," "estimate," "anticipate," "will," "may," "could," "should" or similar expressions. This Quarterly Report on 10-Q contains forward-looking statements including, but not limited to, statements regarding:

- our expectations in our FMS business segment regarding anticipated ChoiceLease and commercial rental revenue and demand;
- our expectations in our DTS and SCS business segments regarding anticipated total and operating revenue trends and growth rates;
- our expectations of the long-term residual values of revenue earning equipment;
- the anticipated decline in NLE vehicles in inventory through the end of the year;
- our expectations of operating cash flow and capital expenditures through the end of 2017;
- the adequacy of our accounting estimates and reserves for pension expense, compensation expense and employee benefit plan obligations, depreciation and residual value guarantees and income taxes;
- the adequacy of estimates we make in preparing financial statements including our fair value estimates of employee incentive awards under our share-based compensation plans, publicly traded debt and other debt;
- our beliefs regarding the default risk of our direct financing lease receivables;
- our ability to fund all of our operating, investing and financial needs for the foreseeable future through internally generated funds and outside funding sources;
- the anticipated impact of fuel price fluctuations;
- our expectations as to return on pension plan assets, future pension expense and estimated contributions;
- our expectations regarding the scope, anticipated outcomes and the adequacy of our loss provisions with respect to certain claims, proceedings and lawsuits;
- our expectations about the need to repatriate foreign cash to the U.S.;
- our ability to access commercial paper and other available debt financing in the capital markets;
- our expectations regarding the future use and availability of funding sources; and
- the anticipated impact of recent accounting pronouncements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

These statements, as well as other forward-looking statements contained in this Quarterly Report, are based on our current plans and expectations and are subject to risks, uncertainties and assumptions. We caution readers that certain important factors could cause actual results and events to differ significantly from those expressed in any forward-looking statement. These risk factors include, but are not limited to, the following:

Market Conditions:

Changes in general economic and financial conditions in the U.S. and worldwide leading to decreased demand for our services, lower profit margins, increased levels of bad debt and reduced access to credit

Decreases in freight demand which would impact both our transactional and variable-based contractual business

Changes in our customers' operations, financial condition or business environment that may limit their need for, or ability to purchase, our services

Further decreases in market demand affecting the commercial rental market and used vehicle sales as well as global economic conditions

Volatility in customer volumes and shifting customer demand in the industries serviced by our SCS business

Changes in current financial, tax or regulatory requirements that could negatively impact the leasing market

Competition:

Advances in technology may impact demand for our services or may require increased investments to remain competitive, which may take time and require additional investment and increase costs which our customers may not be willing to accept

Competition from other service providers, some of which have greater capital resources or lower capital costs, or from our customers, who may choose to provide services themselves

Continued consolidation in the markets in which we operate which may create large competitors with greater financial resources

Our inability to maintain current pricing levels due to economic conditions, demand for services, customer acceptance or competition

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Profitability:

- Our inability to obtain adequate profit margins for our services
- Lower than expected sales volumes or customer retention levels
- Decreases in commercial rental fleet utilization and pricing
- Lower than expected demand for, and values of used vehicles
- Loss of key customers in our DTS and SCS business segments
- Our inability to adapt our product offerings to meet changing consumer preferences on a cost-effective basis
 - The inability of our legacy information technology systems to provide timely access to data
- Sudden changes in fuel prices and fuel shortages
- Higher than expected maintenance costs and lower than expected benefits associated with our maintenance initiatives
- Our inability to successfully execute our asset management initiatives, maintain our fleet at normalized levels and right-size our fleet in line with demand
- Our inability to redeploy vehicles and prepare vehicles for sale in a cost-efficient manner
 - Our key assumptions and pricing structure of our DTS and SCS contracts prove to be inaccurate
- Increased unionizing, labor strikes and work stoppages
- Difficulties in attracting and retaining drivers and technicians due to driver and technician shortages, which may result in higher costs to procure drivers and technicians and higher turnover rates affecting our customers
- Our inability to manage our cost structure
- Our inability to limit our exposure for customer claims
- Unfavorable or unanticipated outcomes in legal proceedings or uncertain positions
- Business interruptions or expenditures due to severe weather or natural occurrences
- Inability to react to and quickly adapt to changing market conditions

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Financing Concerns:

Higher borrowing costs and possible decreases in available funding sources caused by an adverse change in our debt ratings

Unanticipated interest rate and currency exchange rate fluctuations

Negative funding status of our pension plans caused by lower than expected returns on invested assets and unanticipated changes in interest rates

Withdrawal liability as a result of our participation in multi-employer plans

Instability in U.S. and worldwide credit markets, resulting in higher borrowing costs and/or reduced access to credit

Accounting Matters:

Impact of unusual items resulting from ongoing evaluations of business strategies, asset valuations, acquisitions, divestitures and our organizational structure

Reductions in residual values or useful lives of revenue earning equipment

Increases in compensation levels, retirement rate and mortality resulting in higher pension expense; regulatory changes affecting pension estimates, accruals and expenses

Increases in health care costs resulting in higher insurance costs

Changes in accounting rules, assumptions and accruals

Impact of actual insurance claim and settlement activity compared to historical loss development factors used to project future development

Lower than expected operating performance in our FMS Europe reporting unit could affect key assumptions used in our annual goodwill impairment test and result in impairment

Other risks detailed from time to time in our SEC filings including our 2016 Annual Report on Form 10-K.

New risk factors emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risk factors on our business. As a result, no assurance can be given as to our future results or achievements. You should not place undue reliance on the forward-looking statements contained herein, which speak only as of the date of this Quarterly Report. We do not intend, or assume any obligation, to update or revise any forward-looking statements contained in this Quarterly Report, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to Ryder's exposures to market risks since December 31, 2016. Please refer to the 2016 Annual Report on Form 10-K for a complete discussion of Ryder's exposures to market risks.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the third quarter of 2017, we carried out an evaluation, under the supervision and with the participation of management, including Ryder's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Ryder's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of the end of the third quarter of 2017, Ryder's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) were effective.

Changes in Internal Controls over Financial Reporting

During the three months ended September 30, 2017, there were no changes in Ryder's internal control over financial reporting that have materially affected or are reasonably likely to materially affect such internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information with respect to purchases we made of our common stock during the three months ended September 30, 2017:

	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Number of Shares That May Yet Be Purchased Under the Anti-Dilutive Program ⁽²⁾
July 1 through July 30, 2017	8,758	\$ 72.82	—	636,128
August 1 through August 31, 2017	105,394	72.36	105,394	530,734
September 1 through September 30, 2017	34	78.92	—	530,734
Total	114,186	\$ 72.40	105,394	

(1) During the three months ended September 30, 2017, we purchased an aggregate of 8,892 shares of our common stock in employee-related transactions. Employee-related transactions may include: (i) shares of common stock withheld as payment for the exercise price of options exercised or to satisfy the employees' tax withholding

liability associated with our share-based compensation programs and (ii) open-market purchases by the trustee of Ryder's deferred compensation plans relating to investments by employees in our stock, one of the investment options available under the plans.

In December 2015, our Board of Directors authorized a new share repurchase program intended to mitigate the dilutive impact of shares issued under our employee stock plans. Under the December 2015 program, management is authorized to repurchase (i) up to 1.5 million shares of common stock, the sum of which will not exceed the number of shares issued to employees under Ryder's employee stock plans from December 1, 2015 to December 9, 2017 plus (ii) 0.5 million shares issued to employees that were not purchased under Ryder's previous share (2) repurchase program. The December 2015 program limits aggregate share repurchases to no more than 2 million shares of Ryder common stock. Share repurchases of common stock are made periodically in open-market transactions and are subject to market conditions, legal requirements and other factors. Management may establish prearranged written plans for Ryder under Rule 10b5-1 of the Securities Exchange Act of 1934 as part of the December 2015 program, which allow for share repurchases during Ryder's quarterly blackout periods as set forth in the trading plan.
