Section 1 Registrant's Business and Operations

Item 1.01 Entry into a Material Definitive Agreement.

MedImmune, Inc. (the Company) is currently party to a Co-Promotion Agreement with Abbott Laboratories (Abbott), dated as of November 26, 1997, a copy of which is attached as Exhibit 10.76 to the Company's Annual Report on Form 10-K for the year ended December 31, 1997 (the Co-Promotion Agreement). Under the terms of the Co-Promotion Agreement, Abbott has the obligation to perform certain promotional services related to the sales in the United States of Synagis® (palivizumab), a monoclonal antibody product manufactured and sold by the Company, and Abbott has the right to receive a portion of the net sales of Synagis in the United States.

On August 26, 2005, the Company and Abbott entered into an amendment to the Co-Promotion Agreement stating that Abbott will continue to provide promotional activities with respect to Synagis in the United States until June 30, 2006 but not thereafter, and will also transfer applicable information related to the promotion of Synagis to the Company. Through December 31, 2006, the Company has agreed to make certain payments to Abbott, including increased incentive payments compared to the previous co-promotion agreement, after certain sales thresholds have been met. In addition, if Numax (motivizumab), a product in development by the Company as a potential successor to Synagis, is not approved by the United States Food and Drug Administration before September 1, 2008, the Company may have to pay Abbott a portion of the proceeds from the sales of Synagis in the U.S. for up to a two-year period beginning at such time. A copy of the press release announcing the execution of this amendment is attached as Exhibit 99.1 to this Current Report on Form 8-K.

Item 7.01 Regulation FD Disclosure.

The Company furnishes a copy of the press release issued on August 31, 2005, attached as [Exhibit 99.1](#) and incorporated by reference herein.

Item 9.01 Financial Statements and Exhibits.
