revenue due mainly to an increase in air-time sales, a larger subscriber base and a higher consumption per user. At September 30, 2004, the Company had approximately 1.4 million subscribers.

**Costs and Expenses:** Total costs and operating expenses decreased by 26% and 28% to Ps\$712 million and Ps\$416 million, respectively, compared to Ps\$956 million and Ps\$575 million for the same quarter last year. The decrease in costs is mainly due to less acquisitions of terminals, and the decrease in expenses is primarily the result of strict budgetary controls.

**Operating income before depreciation and amortization and Net Profit:** The Company reported positive net operating income before depreciation and amortization of Ps\$179 million in comparison with negative operating income before depreciation and amortization of Ps\$414 million for the third quarter of 2003. Net loss for the quarter fell to Ps \$288 million compared to net loss of Ps\$2,631 million during the same period last year.

**CAPEX:** Investments during the quarter were in the order of US\$12 million, and went mainly toward expanding the coverage and capacity of the Iusacell 3-G network.

### Recent Events

#### Launch of Push to Talk (PTT) in Region 8

Iusacell once again was at the forefront of communications services during the third quarter of this year, reinforcing its commitment to its clients by launching its RADIO PLUS service, better known as Push to Talk, or PTT, in the cities of Cancun and Merida. This new form of communications provides immediate, unlimited connections to all areas of Iusacell coverage under the radio modality, giving the user the ability to communicate directly with up to five people at a time at the touch of a button, and with no long distance or roaming charges. This service will soon be launched nationwide.

#### Iusacell signs agreement with Lucent to expand 3G Network.

In September 2004, Iusacell announced an agreement with Lucent Technologies, for the expansion of its third generation network, 3G CDMA. This extension of coverage and capacity will allow Iusacell to support an increase in traffic on its network, stemming from future growth of its subscriber base as well as an increase in data transmission generated by the introduction of its new high-speed "3-G Iusacell" services.

#### Extraordinary Meeting of Shareholders.

On September 23, 2004, the Company held an extraordinary shareholders' meeting, during which (i) the stock purchase plan for executive employees, approved by the Shareholders' Meeting on December 18, 1996, was cancelled and terminated; (ii) the creation of an option plan for corporate executives was approved and (iii) an increase in the capital stock of the company by means of an issuance of up to 6,517,086 shares was approved.

#### Towers sale and-lease-back

During the third quarter of 2004, the Company sold and leased back 22 towers to MATC for approximately Ps\$47 million. This amount was completely reinvested in the operation of the Company.

#### Debt restructuring

The Company continues to negotiate with several creditors in an attempt to reach an integral restructuring agreement in the shortest time possible.
