For Trust compliance purposes, the Trust's sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined •by the investment advisor. These definitions may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

Fair Value Measurements - Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs to valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial reporting] purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The categorization of a value determined for investments and derivative financial instruments is based on the pricing transparency of the investment and derivative financial instrument and is not necessarily an indication of the risks associated with investing in those securities. The three levels of the fair value hierarchy are as follows:

Level 1 — unadjusted quoted prices in active markets/exchanges for identical assets or liabilities that the Trust has the ability to access

Level 2 — other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 — unobservable inputs based on the best information available in the circumstances, to the extent observable •inputs are not available (including the Trust's own assumptions used in determining the fair value of investments and derivative financial instruments)

Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. In accordance with the Trust policy, transfers between different levels of the fair value disclosure hierarchy are deemed to have occurred as of the beginning of the reporting period. For information about the Trust's policy regarding valuation of investments and derivative financial instruments, please refer to the Trust's most recent financial statements as contained in its annual report.

Schedule of Investments (continued) BlackRock Corporate High Yield Fund, Inc. (HYT)

A reconciliation of Level 3 investments and derivative financial instruments is presented when the Trust had a significant amount of Level 3 investments and derivative financial instruments at the beginning and/or end of the year in relation to net assets. The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:

	Common Stocks	Asset-Backed Securities		Floating Rate Loan Interests		Preferred Securities	Warran	ts Total
Assets:								
Opening Balance, as of August 31, 2014	\$56,896,277	\$ 6,775,056	\$29,135,018	\$38,229,343	\$10,978	\$1,011,134	\$4,857	\$132,062,663
Transfers into Level 3 ¹	_	_		9,982,501	_	22,866,140	118,682	32,967,323
Transfers out of Level 32	(16,930,672))(5,448,731)	_	(8,954,880)		_		(31,334,283
Accrued discounts/premiums	_	62	(3,623)	71,676	_	_	_	68,115
Net realized gain (loss)		_	38,581	121,311	_	_	_	159,892
Net change in unrealized								
appreciation/	(5,212,126)	(15,395)	(179,702)	(653,339)		6,578,374	395	518,207
depreciation ^{3,4}								
Purchases	_	10,003,935	1,671,484	80,285	_	1,028,592		12,784,296
Sales			(3,692,510)	(4,685,240)		(1,021,999))—	(9,399,749)
Closing Balance, as of November 30, 2014	\$34,753,479	\$11,314,927	\$26,969,248	\$34,191,657	\$10,978	\$30,462,241	\$123,934	4\$137,826,464

Net change in unrealized appreciation/depreciation on investments still held at November 30, 2014⁴

(5,212,126) 88(15,395) 8(153,402) (652,060) — (65,574,102) (652,060) — (65,574,102)

- As of August 31, 2014, the Trust used significant observable inputs in determining the value of certain investments. As of November 30, 2014, the Trust used unobservable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$32,967,323 transferred from Level 2 to Level 3 in the disclosure hierarchy.
- As of August 31, 2014, the Trust used significant unobservable inputs in determining the value of certain investments. As of November 30, 2014, the Trust used observable inputs in determining the value of the same investments. As a result, investments with a beginning of period value of \$32,967,323 transferred from Level 3 to Level 2 in the disclosure hierarchy.
- Included in the related net change in unrealized appreciation/depreciation in the Consolidated Statements of Operations.
 - Any difference between Net change in unrealized appreciation/depreciation and Net change in unrealized
- ⁴ appreciation/depreciation on investments held as of November 30, 2014 is generally due to investments no longer held or categorized as Level 3 at period end.

The Trust's investments that are categorized as Level 3 were valued utilizing third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information could results in a significantly lower or higher value of such Level 3 instruments.

Schedule of Investments (concluded) BlackRock Corporate High Yield Fund, Inc. (HYT)

The following table summarizes the valuation techniques used and unobservable inputs developed by the Global Valuation Committee to determine the value of certain of the Trust's Level 3 investments and derivative financial instruments as of November 30, 2014. The table does not include Level 3 investments and derivative financial instruments with values derived based upon unadjusted third party pricing information. A significant change in third party pricing information could result in a significantly lower or higher value of such Level 3 investments and derivative financial instruments. The value of Level 3 investments and derivative financial instruments derived using third party pricing information is \$80,069,894.

¹The Trust fair values certain of its Level 3 investments using acquisition cost, although the transaction may not have occurred during the current reporting period. These investments are generally privately held investments. There may not be a secondary market, and/or there are a limited number of investors. The determination to fair value such investments at cost is based upon factors consistent with the principles of fair value measurement that are reasonably

available to the Global Valuation Committee, or its delegate. Valuations are reviewed utilizing available market information to determine if the carrying value should be adjusted. Such market data may include, but is not limited to, observations of the trading multiples of public companies considered comparable to the private companies being valued, financial or operational information released by the company, and/or news or corporate events that affect the investment. Valuations may be adjusted to account for company-specific issues, the lack of liquidity inherent in a nonpublic investment and the fact that comparable public companies are not identical to the investments being fair valued by the Trust.

- Increase in unobservable input may result in a significant increase to value, while a decrease in the unobservable input may result in a significant decrease to value.
- Decrease in unobservable input may result in a significant increase to value, while an increase in the unobservable input may result in a significant decrease to value.
- ⁴Amount is stated in millions.

Item 2 – Controls and Procedures

The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the

2(a) – Investment Company Act of 1940, as amended (the 1940 Act)) are effective as of a date within 90 days of the filing of this report based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended.

There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably

likely to materially affect, the registrant's internal control over financial reporting.
